QUESTIONS AND ANSWERS REGARDING THE ACTION

Q. WHY HAS THE PROPOSAL BEEN MADE TO AMEND OUR ARTICLES OF INCORPORATION?

A. Our board of directors believes that the authorized shares of common stock remaining available for issuance may not be sufficient to fulfill all of Minerco's obligations to holders of securities convertible into shares of common stock of Minerco. Accordingly, our board of directors believes that it is in Minerco's best interests to authorize the increase in the number of authorized shares of common stock as proposed. The increase in the number of authorized shares of common stock is recommended by Minerco's board of directors in order to provide a sufficient reserve of such shares to fulfill such obligations and for the future growth and needs of Minerco.

Q. HAS THE BOARD OF DIRECTORS APPROVED THE PROPOSAL TO AMEND OUR ARTICLES OF INCORPORATION?

A. The board of directors have approved the proposed amendment of our Articles of Incorporation as it is in the best interests of Minerco and the best interests of the current stockholders of Minerco.

Q. WHAT VOTE OF THE STOCKHOLDERS WILL RESULT IN THE PROPOSALS BEING PASSED?

A. To approve the proposal, the affirmative vote of a majority of the voting rights of the common stock and other shares holding voting rights is required. A consent in favor of the proposal has already been received from four stockholders holding approximately fifty-two percent (52%) of the voting securities of Minerco.

Q. WHO IS PAYING FOR THIS INFORMATION STATEMENT?

A. Minerco will pay for the delivery of this Information Statement.

Q. WHOM SHOULD I CONTACT IF I HAVE ADDITIONAL QUESTIONS?

A: John Powers, Chief Executive Officer of Minerco Resources, Inc., telephone: 888-473-5150

VOTE REQUIRED FOR APPROVAL

The board of directors of Minerco has adopted, ratified and approved the proposal to authorize the Amendment, and four stockholders of the Company holding a majority of the voting power on the Record Date have approved the Amendment.

AMENDMENT OF ARTICLES OF INCORPORATION

GRANT AUTHORITY TO THE BOARD OF DIRECTORS TO AMEND THE ARTICLES OF INCORPORATION TO INCREASE THE AUTHORIZED NUMBER SHARES OF COMMON STOCK

Purpose: Minerco's board of directors has unanimously adopted a resolution seeking stockholder approval to authorize an amendment to our Articles of Incorporation to increase the number of authorized shares of common stock from 2,500,000,000 shares to 3,500,000,000 shares. Minerco's Articles of Incorporation, as currently in effect, authorizes Minerco to issue up to 2,500,000,000 shares of common stock, par value \$0.001 per share. The board of directors has proposed an increase in the number of authorized shares of the common stock of Minerco and stockholders holding a majority of the outstanding voting power have approved the filing of the Amendment. Upon the filing of the Amendment, Minerco will be authorized to issue 3,500,000,000 shares of common stock and the authorized number of shares of preferred stock, will remain the same.

The board of directors believes that authorizing this increase in the number of authorized shares of common stock is in the best interest of Minerco and its stockholders in that it could be obligated to issue common stock upon conversion of certain existing outstanding convertible debt and preferred stock in excess of the amount authorized and it will provide the Company with available shares that could be issued for various corporate purposes which may be identified in the future, including acquisitions, stock dividends, stock splits, stock options, convertible debt and equity financings. On June 20, 2014, Minerco had 61,709,187 shares of common stock available for issuance after taking into account all shares reserved of convertible securities which we believe may not be sufficient to satisfy all outstanding debt obligations

On June 20, 2014, we had debt in outstanding principal balance of \$340,137 convertible into shares of common stock based upon the closing price of our stock on the conversion date ranging between 35% and 60% of the closing price of the stock. In addition, our Series A Preferred Stock converts into shares of common stock at a rate of 10 shares of common stock for each share of Series A Preferred Stock and each share of Series A Preferred Stock is entitled to 10 votes for every share of common stock into which it is convertible. Our Series B Preferred Stock converts into shares of common stock at a rate of 500 shares of common stock for each share of Series B Preferred Stock and each share of Series B Preferred Stock is entitled to 5 votes for every share of common stock into which it is convertible.

Since the debt does not convert at a fixed conversion price it is difficult for us to accurately quantify the number of shares that we will be required to issue upon such conversions. Using the June 20, 2014 numbers, if all of the Company's outstanding debt, warrants and all of our preferred stock were to convert to common stock, we would be required to issue approximately an additional 1,100,000,000 shares, which would exceed the number of shares currently available for issuance (even when including the existing "reserves" for certain convertible notes). If the stock price were to drop to \$0.001 per share, we would be required to issue approximately an additional 2,100,000,000 shares of our common stock to cover all of our current obligations. The board of directors believes that it is in Minerco's and Minerco's stockholders' best interests to authorize it to increase the availability of additional authorized but unissued capital stock to enable Minerco to promptly take advantage of market conditions and the availability of favorable opportunities without delay and expense associated with holding a special meeting of stockholders and to enable it to meet any obligations it may have to issue shares of common stock.

The board of directors has no immediate plans, understandings, agreements or commitments to issue additional shares of stock for any purpose other than the issuance of shares upon conversion of existing debt and other outstanding convertible securities in accordance with their respective terms. Although Minerco has no other current financing plans or understandings, agreements or commitments for financing, if an opportunity should present itself, Minerco may issue shares of common stock in connection with such a financing. The increased capital will provide the board of directors with the ability to issue additional shares of stock without further vote of the stockholders of Minerco,

except as provided under Nevada corporate law or under the rules of any national securities exchange on which shares of stock of Minerco are then listed. Under Minerco's Articles of Incorporation, the Minerco stockholders do not have preemptive rights to subscribe to additional securities which may be issued by Minerco, which means that current stockholders do not have a prior right to purchase any new issuance of capital stock of Minerco in order to maintain their proportionate ownership of Minerco's stock.

Effect: Issuance of any additional shares of common stock would both dilute the equity interest and the earnings per share of existing holders of the Company's common stock. Such dilution may be substantial depending upon the amount of shares issued. The newly authorized shares will have voting and other rights identical to those of the currently issued common stock. The increase could have a dilutive effect on the voting power of existing stockholders.

The authorization of additional capital, under certain circumstances, may have an anti-takeover effect, although this is not the intent of the board of directors. For example, it may be possible for the board of directors to delay or impede a takeover or transfer of control of Minerco by causing such additional authorized shares to be issued to holders who might side with the board of directors in opposing a takeover bid that the board of directors determines is not in the best interests of Minerco and our stockholders. The increased authorized capital therefore may have the effect of discouraging unsolicited takeover attempts. By potentially discouraging the initiation of any such unsolicited takeover attempts, the increased capital may limit the opportunity for Minerco stockholders to dispose of their shares at the higher price generally available in takeover attempts or that may be available under a merger proposal. The increased authorized capital may have the effect of permitting Minerco's current management, including the current board of directors, to retain its position, and place it in a better position to resist changes that stockholders may wish to make if they are dissatisfied with the conduct of Minerco's business. However, the board of directors is not aware of any attempt to take control of Minerco and the board of directors did not propose the increase in Minerco's authorized capital with the intent that it be utilized as a type of anti-takeover device.

The relative voting and other rights of holders of the common stock will not be altered by the authorization of additional shares of common stock. Each share of common stock will continue to entitle its owner to one vote.

As a result of the increased authorization, the potential number of shares of common stock outstanding will be increased.

VOTING SECURITIES AND PRINCIPAL HOLDERS THEREOF

The board of directors fixed the close of business on June 20, 2014 as the record date for the determination of the stockholders entitled to notice of the action by written consent.

Four stockholders holding an aggregate of 51,540,001 shares of common stock, 15,000,000 shares of Series A Preferred Stock and 430,000 shares of Series B Preferred Stock representing fifty-two percent (52%) of voting rights of the securities of Minerco, as of the Record Date, has consented to the action required to authorize the Amendment.
