NOTE A – BASIS OF PRESENTATION AND RECENTLY ISSUED ACCOUNTING PRONOUNCEMENTS

Interim Financial Statements

The accompanying unaudited interim condensed consolidated financial statements of CareView Communications, Inc (“CareView” or the “Company”) have been prepared in accordance with generally accepted accounting principles for interim financial information and with the instructions to Form 10-Q. Accordingly, they do not include all of the information and footnotes required by generally accepted accounting principles (“GAAP”) for complete financial statements. In the opinion of management, such financial statements include all adjustments (consisting solely of normal recurring adjustments) necessary for the fair statement of the financial information included herein in accordance with GAAP and the rules and regulations of the Securities and Exchange Commission (the “SEC”). The balance sheet at December 31, 2010 has been derived from the audited financial statements at that date but does not include all of the information and footnotes required by GAAP for complete financial statements. The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and the disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenue and expenses during the period. Actual results could differ from those estimates. Results of operations for interim periods are not necessarily indicative of results for the full year. These unaudited condensed consolidated financial statements should be read in conjunction with the audited consolidated financial statements and related notes included in our Annual Report on Form 10-K filed with the SEC for the year ended December 31, 2010.

Recently Issued and Newly Adopted Accounting Pronouncements

Adoption of New Accounting Standards

There have been no material changes to the Company’s critical accounting policies as summarized in Note B of the Company’s Annual Report on Form 10-K for the year ended December 31, 2010, except as noted in this NOTE A, Derivative Financial Instruments and Fair Value of Financial Instruments, which describe the Company’s accounting policy for measuring convertible debt instruments and the company’s accounting policy for measuring fair value with respect to derivative instruments. The Company does not expect that the adoption of any recent accounting pronouncements will have a material impact on its condensed consolidated financial statements.

Derivative Financial Instruments

The Company applies the provisions of the Financial Accounting Standards Board Accounting Standards Codification (“ASC”) topic 815-10, Derivatives and Hedging. Derivatives within the scope of ASC 815-10 must be recorded on the balance sheet at fair value. On April 21, 2011, the Company issued \$20,000,000 in convertible debt with Common Stock purchase warrants (the “HealthCor Warrants”). The fair value of the derivative liabilities related to the embedded conversion feature of the senior secured convertible debt and an anti-dilution provision associated with both the conversion feature of the convertible debt and with the exercise price of the HealthCor Warrants was recorded as long-term liability in the amount of \$32,235,347 in the accompanying condensed consolidated financial statements. Of this amount, \$20,000,000 was allocated to debt discount and \$12,235,347 was recorded as non-cash compensation in general and administration expense on the accompanying condensed consolidated

financial statements. The fair value of these derivative liabilities was computed using a Monte Carlo simulation embedded in the Binomial Lattice option pricing model (the “Lattice Model”), incorporating transaction details such as the Company’s stock price, contractual terms, maturity, risk free rates, as well as assumptions about future financings, volatility, and holder behavior as of June 30, 2011. Due to the anti-dilution provisions within the embedded conversion feature and that associated with the exercise price of the HealthCor Warrants, the Company determined that the Lattice Model was most appropriate for valuing these instruments. Debt discount associated with the convertible debt totaling \$20,000,000 is being amortized over the life of the debt (using the effective interest method) and recorded as interest expense in other income (expense) on the accompanying condensed consolidated financial statements. Amortization expense totaled \$598,846 for the three and six months ended June 30, 2011. (See NOTE P – AGREEMENT WITH HEALTHCOR for further details.)

On April 21, 2011, the Company granted 11,782,859 HealthCor Warrants in connection with the issuance of convertible debt. The HealthCor Warrants’ exercise price has anti-dilution provisions which are accounted for as derivative instruments at the date of grant; the Warrants were valued at \$8,633,396. The conversion feature of the convertible debt also has anti-dilution provisions which are accounted for as derivative instruments at the date of issue; the conversion feature of the convertible debt was valued at \$24,828,116. The total fair value of these derivative liabilities on the grant date was \$33,461,512.

The Company re-measured the fair values of all of its derivative liabilities as of June 30, 2011 and recorded an aggregate decrease of \$1,226,165 in the fair value of the derivative liabilities as a component of non-cash compensation during the three and six months ended June 30, 2011.

Fair Value of Financial Instruments

The Company’s financial instruments consist primarily of cash, receivables, accounts payable, accrued expenses, short and long-term debt, and certain derivative instruments. The carrying amount of cash, receivables, accounts payable and accrued expenses approximates its fair value because of the short-term maturity of such instruments. The fair value approximates carrying value as interest rates that are currently available to the Company for issuance of short and long-term debt with similar terms and remaining maturities are used to estimate the fair value of the Company’s short and long-term debt.

The Company determines the fair value of its derivative instruments using a three-level hierarchy for fair value measurements which these assets and liabilities must be grouped, based on significant levels of observable or unobservable inputs. Observable inputs reflect market data obtained from independent sources, while unobservable inputs reflect the Company’s market assumptions. This hierarchy requires the use of observable market data when available. These two types of inputs have created the following fair-value hierarchy:

Level 1 — Valuations based on unadjusted quoted market prices in active markets for identical securities. Currently the Company does not have any items classified as Level 1.

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS
JUNE 30, 2011

NOTE A – BASIS OF PRESENTATION AND RECENTLY ISSUED ACCOUNTING PRONOUNCEMENTS
(Continued)

Fair Value of Financial Instruments (continued)

Level 2 — Valuations based on observable inputs (other than Level 1 prices), such as quoted prices for similar assets at the measurement date; quoted prices in markets that are not active; or other inputs that are observable, either directly or indirectly. Currently the Company does not have any items classified as Level 2.

Level 3 — Unobservable inputs. The Company valued HealthCor Warrants and embedded conversion features of the convertible debt issued during the six months ended June 30, 2011 without observable market values and the valuation required a high level of judgment to determine fair value (level 3 inputs). The Company estimates the fair value of the warrants and embedded conversion features using the Lattice Model. In applying the Lattice Model, the Company used the following assumptions to value its derivative liabilities during the six months ended June 30, 2011:

	For the six months ended June 30, 2011
Annual dividend yield	-0-
Expected life (years)	4.8
Risk-free interest rate	1.68 %
Expected volatility	55 %

If the inputs used to measure fair value fall in different levels of the fair value hierarchy, a financial security's hierarchy level is based upon the lowest level of input that is significant to the fair value measurement.

The following table presents the HealthCor Warrants and embedded conversion features measured at fair value on a recurring basis as of June 30, 2011:

	Level 3 Fair Value as of June 30, 2011
Derivative Liabilities:

NOTE B – STOCKHOLDERS' EQUITY

Warrants

The valuation methodology used to determine the fair value of the Warrants during the six months ended June 30, 2011 and issued and revised during the year ended December 31, 2010 was the Black-Scholes-Merton option-pricing model ("Black-Scholes Model"), an acceptable model in accordance with ASC 718-10. The Black-Scholes Model requires the use of a number of assumptions including volatility of the stock price, the weighted average risk-free interest rate, and the weighted average term of the Warrants.

During the year ended December 31, 2010, the Company issued the following:

	Number of Shares Under Warrant	Exercise Price	Exercise Term in Years	Fair Value
Modification of contract (see NOTE N)	3,000,000	\$1.00	5	\$4,080,000
Loan extension (see NOTE F)	2,499,975	\$0.52	5	1,958,647

Services (see below)	610,000	\$0.52-\$1.25	5	570,600
	9,299,658			\$10,210,811

During the six months ended June 30, 2011, the Company issued warrants to certain unrelated parties for services, recording them in the accompanying condensed consolidated financial statements as follows: (i) on April 21, 2011, the Company entered into a two-year consulting agreement with an individual, wherein compensation was paid through the issuance of a five-year Warrant to purchase 400,000 shares of the Company's Common Stock (with a fair value of \$496,400) at an exercise price of \$1.40 per share – \$47,571 was charged to expense and recorded as non-cash compensation and \$448,829 as prepaid costs in other assets; and (ii) on May 31, 2011, the Company entered into a three-month consulting agreement with an individual, wherein compensation was paid through the issuance of a five-year Warrant to purchase 100,000 shares of the Company's Common Stock (with a fair value of \$110,300) at an

exercise price of \$1.59– \$36,767 was charged to expense and recorded as non-cash compensation and \$75,533 as

prepaid costs in other assets and (iii) as part of a Note and Warrant Purchase Agreement entered into with HealthCor Partners Fund, LP and HealthCor Hybrid Offshore Master Fund LP, the Company issued 11,782,859 Warrants (See NOTE P – AGREEMENT WITH HEALTHCOR for further details.) These Warrants were valued using a Monte Carlo simulation embedded in the Binomial Lattice option pricing model (See NOTE A – BASIS OF PRESENTATION AND RECENTLY ISSUED ACCOUNTING PRONOUNCEMENTS, Derivative Financial Instruments and Fair Value of Financial Instruments for further details.) The Company also amortized certain previously capitalized Warrant costs in the accompanying condensed consolidated financial statements as follows: (i) \$27,667 as distribution/service costs in network operations and (ii) \$81,375 as non-cash compensation in general and administration.

On April 29, 2011, an unrelated entity exercised a Common Stock Purchase Warrant (“Warrant”) to purchase 148,000 shares of the Company’s Common Stock. In order to exercise the Warrant pursuant to the cashless provisions thereof, the unrelated entity surrendered its right to receive 38,480 shares, resulting in an issuance to the entity of 109,520 shares of common stock. The unrelated entity was originally issued the five-year Warrant as compensation for services rendered pursuant to a 2008 investment banking services agreement.

On June 9, 2011, an individual exercised Warrants to purchase an aggregate of 179,849 shares of the Company’s common stock. In order to exercise the Warrants pursuant to the cashless provisions thereof, the individual surrendered its right to receive 55,339 shares, resulting in an issuance to the individual of 124,510 shares of Common Stock. The entity was originally issued the five-year Warrant as compensation for certain loan extensions during 2008, 2009, and 2010.

Stock Options

The valuation methodology used to determine the fair value of the options issued during the year was the Black-Scholes Model, an acceptable model in accordance with ASC 718-10. The Black-Scholes Model requires the use of a number of assumptions including volatility of the stock price, the weighted average risk-free interest rate, and the weighted average expected term of the options.

The assumptions used in the Black-Scholes Model are set forth in the table below.

	Six Months Ended		Year Ended	
	June 30, 2011		December 31, 2010	
Risk-free interest rate	1.00-1.39	%	0.78-1.05	%
Volatility	82.01-84.78	%	92.96-94.34	%
Expected life	3		2-5	
Dividend yield	0.00	%	0.00	%

The risk-free interest rate assumption is based upon observed interest rates on zero coupon U.S. Treasury bonds whose maturity period is appropriate for the expected term of the stock option and is calculated by using the average daily historical stock prices through the day preceding the grant date.

Estimated volatility is a measure of the amount by which the Company’s stock price is expected to fluctuate each year during the expected life of the award. The Company’s estimated volatility is an average of the historical volatility of the Company’s stock prices. The Company’s calculation of estimated volatility is based on historical stock prices over a period equal to the expected life of the awards.

Share-based compensation expense for stock options recognized in our results for the three and six months ended June 30, 2011 (\$186,975 and \$370,841 respectively) and for the three and six months ended June 30, 2010 (\$209,586 and \$744,969 respectively) is based on awards vested and the Company estimated no forfeitures. ASC 718-10 requires forfeitures to be estimated at the time of grant and revised in subsequent periods if actual forfeitures differ from the estimates.

At June 30, 2011 and December 31, 2010, total unrecognized estimated compensation expense related to non-vested stock options granted prior to that date was approximately \$1.3 and \$1.6 million, respectively, which is expected to be recognized over a weighted-average period of 2.0 years. No tax benefit was realized due to a continued pattern of operating losses.

In September 2010, the Company issued a purchase order to a manufacturer for 3,000 Room Control Platforms in the aggregate amount of \$2,270,640 (the “Purchase Order”) and also entered into an Intellectual Property Agreement. In connection with and as security for the payment by the Company of the Purchase Order, the Company issued a Promissory Note to an unrelated entity in an amount up to the amount of the Purchase Order. The Note is dated November 1, 2010 and will be due in full twelve (12) months from the date of receipt of any funds received thereunder with interest to accrue at the rate of four percent (4%) per annum. During the three months ended March 31, 2011, \$550,000 had been advanced under the Note. The Note was paid in full on April 26, 2011. NOTE H – INCOME TAXES

Deferred income tax assets and liabilities are determined based upon differences between the financial reporting and taxes bases of assets and liabilities and are measured using the enacted tax rates and laws that will be in effect when the differences are expected to reverse. The Company does not expect to pay any significant federal or state income tax for 2011 as a result of the losses recorded during the three months ended June 30, 2011 as well as additional losses expected for the remainder of 2011 as well as from generating net operating loss carry forwards from prior years. Accounting standards require the consideration of a valuation allowance for deferred tax assets if it is “more likely than not” that some component or all of the benefits of deferred tax assets will not be realized. As of June 30, 2011, the Company maintains a full valuation allowance for all deferred tax assets. Based on these requirements, no provision or benefit for income taxes has been recorded. There were no recorded unrecognized tax benefits at the end of the reporting period.

NOTE I – RELATED PARTIES

As of June 30, 2011 and December 31, 2010, the Company was owed approximately \$86,000 from a related party for shared rental expense at the Company’s prior offices. The Company was also owed \$103,000 from a related party for shared expenses related to consulting services rendered by two individuals. The \$189,000 is included in other current assets in the accompanying condensed consolidated financial statements.

NOTE J – JOINT VENTURE AGREEMENT

On November 16, 2009, the Company entered into a Master Investment Agreement (the “Rockwell Agreement”) with Rockwell Holdings I, LLC, a Wisconsin limited liability (“Rockwell”). Under the terms of the Rockwell Agreement, the Company will use funds from Rockwell to fully implement the CareView System™ in Hillcrest Medical Center in Tulsa, Oklahoma (“Hillcrest”) and Saline Memorial Hospital in Benton, Arkansas (“Saline”) (the “Project Hospital(s)").

Both Rockwell and the Company own 50% of each Project LLC formed for the Project Hospitals. CareView contributed its intellectual property rights and its hospital contract with each Project Hospital. Rockwell contributed cash to be used for the purchase of equipment for the Project LLCs with 50% attributed to a promissory note bearing interest at 10% and 50% attributed to member’s equity. The Project Notes are secured by a security interest in all of the equipment in the Project Hospitals, intellectual property rights, and the Project Hospital Contract. Additionally, the Project LLCs have an obligation to pay Rockwell a Preferential Return (the amount of Rockwell’s aggregate capital contribution to the Project LLCs plus ten percent (10%) per annum, compounded annually). The Company classified this obligation as a liability since it represents an unconditional obligation by the Company to pay Rockwell’s Preferential Return on each Project LLC and is recorded in mandatorily redeemable equity in joint venture on the accompanying condensed consolidated balance sheet.

The Project LLCs were within the scope of the variable interest entities (VIE) subsection of the Financial Accounting Standards Board Accounting Standards Codification and we determined the Project LLCs are VIEs based on the fact that the total equity investment at risk was not sufficient to finance the entities activities without additional financial support. The Company consolidates the Project LLCs as it has the power to direct the activities and an obligation to absorb losses of the VIEs.

NOTE J – JOINT VENTURE AGREEMENT (Continued)

As additional consideration to Rockwell for providing the funding, the Company granted Rockwell 1,151,206 Warrants valued at \$1,124,728 (the “Project Warrants”). The Project Warrants were valued using the Black-Scholes Model on the date of the Rockwell Agreement using a term of five (5) years; volatility of 89.21%; risk free rate of 2.19%; and a dividend yield of 0%. The Warrants are classified as equity and are included in additional paid-in-capital on the accompanying condensed consolidated balance sheet. The Company allocated the proceeds to the Project Warrants and the Project Notes or Preferential Returns based on the relative fair value. The originally recorded debt discount of \$636,752 is being amortized over the life of the debt, and recorded as interest expense in other income (expense) on the accompanying condensed consolidated financial statements. Amortization expense totaled \$95,432 and \$85,877 for the six months ended June 30, 2011 and 2010, respectively. As any additional funding is provided, the Company will issue additional Project Warrants to Rockwell and calculate the fair value of those warrants and record them in the financial statements when they are due or issued.

NOTE M – LITIGATION

Settled Litigation

On July 14, 2010, The EMG Irrevocable Trust dated February 19, 2009, and Shelly Lynn Sands, Trustee of the EMG Irrevocable Trust (“Plaintiffs”) filed a complaint in the Superior Court of the State of Arizona in and for the County of Maricopa against the Company and one of its subsidiary, its transfer agent, its Chief Financial Officer, consultants and agents of the Company, and shareholders of the Company (“Defendants”), which claimed among other things, negligence, securities fraud, fraud in investment advisory services, and breach of fiduciary duty. The complaint involved a dispute relative to a private stock transaction between the beneficiary of the Trust and a shareholder of the Company. As of May 31, 2011, the parties entered into a settlement under which the following actions subsequently occurred: (i) Plaintiffs dismissed the entire lawsuit and released all Defendants from all known and unknown claims, (ii) Plaintiffs were not reimbursed for the cost of the litigation or their legal expenses, (iii) Plaintiffs received non-monetary compensation from one of the Defendants who is a shareholder of CareView, and (iv) neither the Company nor any of its agents contributed to the settlement payment of the non-monetary compensation. The settlement agreement expressly provides for no admission of fault or liability on the part of any party and that the settlement is merely a compromise of disputed claims. On June 13, 2011, an Order for Dismissal with Prejudice was filed with the court.

Pending Litigation

On May 9, 2011, Focus Capital Group, Inc. (“Focus”) filed a complaint in the United States District Court for the Southern District of New York against the Company, claiming breach of contract. The complaint involves a dispute relative to financial advisor and arranger fees that Focus alleges are due to Focus in relation to the HealthCor agreement disclosed in Note P – Agreement with HealthCor. The Company denies any such fees are due Focus and have answered the complaint as such. The parties have exchanged discovery requests but have not yet served responses thereto. Notices of depositions have been served for depositions to take place in September. The Company intends to vigorously defend this action but cannot, at this time, reasonably predict the ultimate outcome of the proceedings or damages, if any, that will be imposed.

NOTE N – SUBSCRIPTION AND INVESTOR RIGHTS AGREEMENT

On August 20, 2010, in an effort to resolve all past, current and future claims due pursuant to a Subscription and Investor Rights Agreement (“Subscription Agreement”) with an entity known as T2 Consulting, LLC (“T2”), and the principals of T2, namely Tommy G. Thompson (“Thompson”), Gerald L. Murphy (“Murphy”), and Dennis Langley (“Langley”), the Company entered into a Revocation and Substitution Agreement with T2, Thompson, Murphy and Langley (the “Agreement”). In exchange for the revocation of the Subscription Agreement by T2, Thompson, Murphy and Langley, the Company agreed to issue to each of Thompson, Murphy, and Langley a five-year Common Stock Purchase Warrant (“Warrant”) to purchase 1,000,000 shares of the Company’s Common Stock at an exercise price of \$1.00 per share. The Warrants were valued on the date of the grant using their five (5) year term; volatility of 94.12%; risk free rate of 1.47%; and a dividend yield of 0%. The valuation methodology used to determine the fair value of the Warrants issued was the Black-Scholes Model, and accordingly calculated a fair value of \$4,080,000 and reported as contract modification expense in general and administration

during the quarter ended September 30, 2010. The Company's Board of Directors believes the Agreement is in the best interest of all the shareholders of the Company and has determined that it is not necessary to obtain a 'fairness' opinion from an independent third-party.

As additional consideration for the revocation of the Subscription Agreement, the Company executed an Agreement Regarding Gross Income Interest (the "GII Agreement") with each of Thompson, Murphy and Langley dated August 20, 2010. The GII Agreement does not have a termination date; however it does provide that the Company has the right to acquire the GII of Thompson, Murphy and Langley from September 1, 2013 until December 31, 2015, and that Thompson, Murphy and Langley each have the right to require that their respective GII be purchased by the Company any time from September 1, 2011 until December 31, 2015. At June 30, 2011, based on actual revenue for the months of September 2010 through June 2011, and estimated revenue for the months of July and August 2011, the Company recorded a liability for the GII owner's put approximately \$9,000 (the estimated fair value of the GII owner's put). At December 31, 2010, based on actual revenue for the months of September through December 2010, and estimated revenue for the months of January 2011 through August 2011, the Company recorded a liability for the GII owner's put of approximately \$30,000 (the estimated fair value of the GII owner's put). This liability is analyzed and updated quarterly, based on actual revenues. In an additional term in the GII Agreement with Langley, the Company agreed that an affiliate of Langley shall be granted a distribution and sales agreement for the Company's products for government entities in the U.S. including, but not limited to, HHS, VA, DOD and state and local governments. Terms of the distribution agreement will be negotiated at a future date.

NOTE O – AGREEMENT WITH HMA

On March 8, 2011, the Company entered into a Master Agreement with Hospital Management Associates, Inc., a Delaware corporation ("HMA"). Terms of the Master Agreement provide for (i) HMA to use the CareView System™ in each of its approximately 59 hospitals across the U.S. through the execution of a separate Hospital Agreement for each location and (ii) CareView to provide the Primary Package and preferential pricing in exchange for the volume provided by HMA. As of June 30, 2011, the Company had installed 1,053 RCPs at HMA hospitals.

NOTE P – AGREEMENT WITH HEALTHCOR

On April 21, 2011, the Company entered into and closed a Note and Warrant Purchase Agreement (the "Purchase Agreement") with HealthCor Partners Fund, LP and HealthCor Hybrid Offshore Master Fund, LP (the "Investors"). Pursuant to the Purchase Agreement, the Company sold Senior Secured Convertible Notes to the Investors in the principal amount of \$9,316,000 and \$10,684,000, respectively (collectively the "Notes"). The Notes have a maturity date of April 20, 2021.

So long as no Event of Default (defined in the Notes) has occurred and is continuing, the outstanding principal balances of the Notes accrue interest from April 21, 2011 through April 20, 2016 (the "First Five Year Note Period"), at the rate of twelve and one-half percent (12.5%) per annum (based on a 360-day year and the actual number of days elapsed in any partial year) (the "First Five Year Interest Rate"), compounding quarterly, which accrued interest shall be added to the outstanding principal balances of the Notes on the last day of each calendar quarter and shall thereafter, as part of such principal balances, accrue Interest at the First Five Year Interest Rate (and, during the Second Five Year Note Period (as defined below), at the Second Five Year Interest Rate (as defined below), compounding

CAREVIEW COMMUNICATION, INC. AND SUBSIDIARIES
NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS
JUNE 30, 2011

NOTE P – AGREEMENT WITH HEALTHCOR (Continued)

All such accrued interest added to the outstanding principal balances pursuant to the immediately preceding sentence shall be payable on the same terms and subject to the same conditions set forth in the Notes.

So long as no Event of Default has occurred and is continuing, the outstanding principal balances of the Notes shall accrue interest from and after the end of the First Five Year Note Period through the maturity date (the “Second Five Year Note Period”), at the rate of ten percent (10%) per annum (based on a 360-day year and the actual number of days elapsed in any partial year) (the “Second Five Year Interest Rate”). The interest accruing during the Second Five Year Note Period may be paid quarterly in arrears in cash or, at the Company’s option, such interest may be added to the outstanding principal balances of the Notes on the last day of each calendar quarter and shall thereafter, as part of such principal balances, accrue interest at the Second Five Year Interest Rate, compounding quarterly. All such accrued interest added to the outstanding principal balances pursuant to the immediately preceding sentence shall be payable on the same terms and subject to the same conditions set forth in the Notes.

From and after the date any Event of Default occurs, the First Five Year Interest Rate or the Second Five Year Interest Rate, whichever is then applicable, shall be increased by five percent (5%) per annum. The Investors have the right, upon an Event of Default, to declare due and payable any unpaid principal amount of the Notes then outstanding, plus previously accrued but unpaid interest and charges, together with the interest then scheduled to accrue (calculated at the default rate described in the immediately preceding sentence) through the end of the First Five Year Note Period or the Second Five Year Note Period, as applicable.

At any time or times on or after April 21, 2011, the Investors are entitled to convert any portion of the outstanding and unpaid accrued interest on and principal balances of the Notes into fully paid and nonassessable shares of Common Stock at a conversion rate of \$1.25 per share, subject to adjustment in accordance with anti-dilution provisions set forth in the Notes. The initial conversion rate is subject to adjustment upon the occurrence of stock splits, reverse stock splits, and similar capital events. Until the first anniversary of the issuance of the Notes, subject to certain exceptions, if the Company issues common shares at a price per share less than the conversion rate at the time, the conversion rate will be adjusted to the price at which the new shares were issued. If the Company issues shares at a price per share lower than the conversion rate following the first anniversary of the issuance of the Notes, then the conversion rate will be adjusted on a weighted average basis.

In the event of a change of control of the Company occurring during either the First Five Year Note Period or the Second Five Year Note Period, the remaining interest scheduled to be paid through the end of the applicable five-year period will be accelerated and paid to the Investors in the form of an additional convertible debt instrument, with the same terms as the Notes. In such event, interest will cease to accrue on the Notes or such additional debt instruments until the end of the applicable five-year period, and the Investors will have the right, at their option, to convert or redeem the Notes and any such additional debt instruments.

Overview

CareView was incorporated in the State of California in July 1997 under the name Purpose, Inc., changing its name to Ecogate, Inc. in April 1999. In October 2007, the Company changed its name to CareView Communications, Inc. and in November 2007, the Company changed its state of incorporation to Nevada.

The Company developed a suite of products and hardware to help connect patients, families and health care providers through one easy-to-install and simple-to-use system (the “CareView System™”). The CareView System™ runs on each hospital’s coaxial cable television network that provides television signals to patient room; consequently, CareView’s network does not need to run on or through the hospital’s specific IT infrastructure, thereby requiring minimal Internet technology involvement on the part of the hospital. The Company’s proprietary, high-speed data network system may be deployed throughout a healthcare facility and will provide the facility with recurring revenue and infrastructure for future applications. Real-time bedside and point-of-care video monitoring and recording improve efficiency while limiting liability, and entertainment packages and patient education enhance the patient’s quality of stay. There is no capital expenditure by a subscribing hospital as CareView provides all hardware and installation of the CareView System™ in each room at no charge. Fees paid to CareView by each hospital consists of monthly service fees for each system installed (one per bed) and an additional rate for each nursing station monitor. Additional shared revenue generated from entertainment services (MovieView®, NetView®, PatientView®, and BabyView®) purchased directly by patient consumers, are split between the hospital and CareView per the terms of each contract. CareView is dedicated to working with all types of hospitals, nursing homes, adult living centers and selected outpatient care facilities domestically and internationally.

On November 16, 2009, the Company entered into a Master Investment Agreement (the “Rockwell Agreement”) with Rockwell Holdings I, LLC, a Wisconsin limited liability company (“Rockwell”). The Company will use the funds provided under the Rockwell Agreement to purchase the previously installed CareView Systems™ at two of its existing hospitals as well as to fund the purchase and installation of additional CareView System™ equipment to complete the installations at the two facilities. As of June 30, 2011, the Company had installed an aggregate of 446 CareView Systems™ at the hospitals covered under the Rockwell Agreement.

On August 20, 2010, the Company entered into a Revocation and Substitution Agreement with T2, Thompson, Murphy and Langley (the “Agreement”). Under the Agreement, the Company agreed to issue to each of Thompson, Murphy, and Langley a five-year Common Stock Purchase Warrant (“Warrant”) to purchase 1,000,000 shares of the Company’s Common Stock at an exercise price of \$1.00 per share. In addition, Thompson, Murphy, and Langley will receive an aggregated 1.5% Gross Income Interest on all revenues (without deductions of any kind) of the Company and its subsidiaries and executed an Agreement Regarding Gross Income Interest with each of Thompson, Murphy and Langley under which the Company has the right to acquire the Gross Income Interest of Thompson, Murphy and Langley from September 1, 2013 until December 31, 2015.

On March 8, 2011, the Company entered into a Master Agreement with Hospital Management Associates, Inc., a Delaware corporation (“HMA”), under which HMA will use the CareView System™ in each of its 59 hospitals across the U.S. As of June 30, 2011, the Company had installed 1,053 RCPs at HMA hospitals.

On April 21, 2011, the Company entered into and closed a Note and Warrant Purchase Agreement (the “Purchase Agreement”) with HealthCor Partners Fund, LP and HealthCor Hybrid Offshore Master Fund, LP (the “Investors”). Pursuant to the Purchase Agreement, the Company sold Senior Secured Convertible Notes to the Investors in the principal amount of \$9,316,000 and \$10,684,000, respectively (collectively the “Notes”). The Notes have a maturity date of April 20, 2021.

The Company reported the transaction in its Current Report on Form 8-K with the Commission on April 27, 2011.

As of June 30, 2011, the Company had Hospital Agreements with five (5) hospitals, excluding HMA, and had installed 636 RCPs therein.

Recent Events

In July 2011, the Company granted 2009 Plan Options to purchase 32,500 shares of Common Stock to employees of the Company. The ten-year 2009 Plan Options have an exercise price of \$1.69 per share and vest over a three-year period, one-third per year on the anniversary date of the Option.

Newly Adopted Critical Accounting Policies

See NOTE A – BASIS OF PRESENTATION AND RECENTLY ISSUED ACCOUNTING PRONOUNCEMENTS Derivative Financial Instruments and Fair Value of Financial Instruments which describe the Company's accounting policy for measuring convertible debt instruments and fair value with respect to derivative instruments.

On April 21, 2011, the Company issued \$20,000,000 in convertible debt with Common Stock purchase warrants. The fair value of the derivative liabilities related to the embedded conversion feature of the convertible debt and an anti-dilution provision associated with both the conversion feature of the convertible debt and with the exercise price of the Common Stock purchase warrants was recorded as long-term liability in the amount of \$32,235,347 in the accompanying condensed consolidated financial statements. The fair value of these derivative liabilities was computed using a Monte Carlo simulation embedded in the Binomial Lattice option pricing model, incorporating transaction details such as the Company's stock price, contractual terms, maturity, risk free rates, as well as assumptions about future financings, volatility, and holder behavior as of June 30, 2011. Debt discount associated with the convertible debt totaling \$20,000,000 is being amortized over the life of the debt and recorded as interest expense in other income (expense) on the accompanying condensed consolidated financial statements. Amortization expense totaled \$598,846 for the three and six months ended June 30, 2011. (See NOTE P – AGREEMENT WITH HEALTHCOR for further details.)

Off-Balance Sheet Arrangements

None.

Item 3. Quantitative and Qualitative Disclosures about Market Risk

Our Company is a smaller reporting company, as defined by Rule 12b-2 of the Exchange Act and, as such, is not required to provide the information required under this item.

Item 4. Controls and Procedures

Disclosure Controls and Procedures

Disclosure controls and procedures are designed to ensure that information required to be disclosed in the reports filed or submitted under the Securities Exchange Act of 1934 (the "Exchange Act") is recorded, processed, summarized and reported, within the time period specified in the SEC's rules and forms and is accumulated and communicated to the Company's management, as appropriate, in order to allow timely decisions in connection with required disclosure.

Evaluation of Disclosure Controls and Procedures

Pursuant to Rule 13a-15(b) under the Securities Exchange Act of 1934 ("Exchange Act"), the Company carried out an evaluation, with the participation of the Company's management, including Samuel A. Greco, the Company's Chief Executive Officer ("CEO") and John R. Bailey, the Company's Chief Financial Officer ("CFO") (the Company's principal financial and accounting officer), of the effectiveness of the Company's disclosure controls and procedures (as defined under Rule 13a-15(e) under the Exchange Act) as of the end of the period covered by this report.

Based upon that evaluation, the Company's CEO and CFO concluded that the Company's disclosure controls and procedures were not effective as of June 30, 2011 to ensure that information required to be disclosed by the Company in the reports that the Company files or submits under the Exchange Act, is recorded, processed, summarized and reported, within the time periods specified in the SEC's rules and forms, and that such information is accumulated and communicated to the Company's management, including the Company's CEO and CFO, as appropriate, to allow timely decisions regarding required disclosure, due to the material weaknesses described below.

A material weakness is a deficiency, or a combination of deficiencies, in internal control over financial reporting, such that there is a reasonable possibility that a material misstatement of the Company's annual or interim financial statements will not be prevented or detected on a timely basis.

The Company believes its weaknesses in internal controls and procedures is due in part to the Company's lack of sufficient personnel with expertise in the area of SEC, generally accepted accounting principles (GAAP) and tax accounting procedures. In addition, the Company lacks the personnel structure, size and complexity to segregate duties sufficiently for proper controls.

The Company recently hired two individuals with financial accounting expertise to help segregate duties for proper controls; however, the Company believes that it will continue to recognize a weakness in its internal controls and procedures until such time as the individuals have become familiar with the Company and its operations.

The Company believes that the newly hired individuals will allow it to properly implement a control structure in the future. In the meantime, the Chief Executive Officer and Chief Financial Officer will continue to perform or supervise the performance of additional accounting and financial analyses and other post-closing procedures including detailed validation work with regard to balance sheet account balances, additional analysis on income statement amounts and managerial review of all significant account balances and disclosures, to ensure that the Company's Quarterly Report and the financial statements forming part thereof are in accordance with accounting principles generally accepted in the United States of America.

Changes in Internal Controls

During the three months ended June 30, 2011, there were no significant changes in internal controls of the Company, or other factors that could significantly affect these controls subsequent to the date of their evaluation, including any corrective actions with regard to significant deficiencies and material weaknesses.

PART II - OTHER INFORMATION

Item 1. Legal Proceedings.

Settled Litigation

On July 14, 2010, The EMG Irrevocable Trust dated February 19, 2009, and Shelly Lynn Sands, Trustee of the EMG Irrevocable Trust ("Plaintiffs") filed a complaint in the Superior Court of the State of Arizona in and for the County of Maricopa against the Company and one of its subsidiary, its transfer agent, its Chief Financial Officer, consultants and agents of the Company, and shareholders of the Company ("Defendants"), which claimed among other things, negligence, securities fraud, fraud in investment advisory services, and breach of fiduciary duty. The complaint involved a dispute relative to a private stock transaction between the beneficiary of the Trust and a shareholder of the Company. As of May 31, 2011, the parties entered into a settlement under which the following actions subsequently occurred: (i) Plaintiffs dismissed the entire lawsuit and released all Defendants from all known and unknown claims, (ii) Plaintiffs were not reimbursed for the cost of the litigation or their legal expenses, (iii) Plaintiffs received

non-monetary compensation from one of the Defendants who is a shareholder of

27

CareView, and (iv) neither the Company nor any of its agents contributed to the settlement payment of the non-monetary compensation. The settlement agreement expressly provides for no admission of fault or liability on the part of any party and that the settlement is merely a compromise of disputed claims. On June 13, 2011, an Order for Dismissal with Prejudice was filed with the court.

Pending Litigation

On May 9, 2011, Focus Capital Group, Inc. (“Focus”) filed a complaint in the United States District Court for the Southern District of New York against the Company, claiming breach of contract. The complaint involves a dispute relative to financial advisor and arranger fees that Focus alleges are due to Focus in relation to the HealthCor agreement disclosed in NOTE P – AGREEMENT WITH HEALTHCOR. The Company denies any such fees are due Focus and have answered the complaint as such. The parties have exchanged discovery requests but have not yet served responses thereto. Notices of depositions have been served for depositions to take place in September. The Company intends to vigorously defend this action but cannot, at this time, reasonably predict the ultimate outcome of the proceedings or damages, if any, that will be imposed.
