NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS
MARCH 31, 2012

NOTE A – BASIS OF PRESENTATION AND RECENTLY ISSUED ACCOUNTING PRO-NOUNCEMENTS

Interim Financial Statements

The accompanying unaudited interim condensed consolidated financial statements of CareView Communications, Inc. (“CareView” or the “Company”) have been prepared in accordance with generally accepted accounting principles for interim financial information and with the instructions to Form 10-Q. Accordingly, they do not include all of the information and footnotes required by generally accepted accounting principles (“GAAP”) for complete financial statements. In the opinion of management, such financial statements include all adjustments (consisting solely of normal recurring adjustments) necessary for the fair statement of the financial information included herein in accordance with GAAP and the rules and regulations of the Securities and Exchange Commission (the “SEC”). The balance sheet at December 31, 2011 has been derived from the audited consolidated financial statements at that date but does not include all of the information and footnotes required by GAAP for complete financial statements. The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and the disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenue and expenses during the period. Actual results could differ from those estimates. Results of operations for interim periods are not necessarily indicative of results for the full year. These unaudited condensed consolidated financial statements should be read in conjunction with the audited consolidated financial statements and related notes included in our Annual Report on Form 10-K filed with the SEC for the year ended December 31, 2011.

Recently Issued and Newly Adopted Accounting Pronouncements

Adoption of New Accounting Standards

There have been no material changes to the Company’s significant accounting policies as summarized in Note B of the Company’s Annual Report on Form 10-K for the year ended December 31, 2011. The Company does not expect that the adoption of any recent accounting pronouncements will have a material impact on its condensed consolidated financial statements.

NOTE B – STOCKHOLDERS’ EQUITY

Warrants

The Company uses the Black-Scholes-Merton option pricing model (“Black-Scholes Model”) to determine the fair value of the warrants it issues (except the HealthCor warrants). The Black-Scholes Model is an acceptable model in accordance with the Financial Accounting Standards Board (“FASB”) Accounting Standards Codification (“ASC”) 718-10. The Black-Scholes Model requires the use of a number of assumptions including volatility of the stock price, the weighted average risk-free interest rate, and the weighted average term of the Warrants. The fair value of the HealthCor Warrants was computed using the Lattice Model, incorporating transaction details such as the Company’s stock price, contractual terms, maturity and risk free rates, as well as assumptions about future financings, volatility, and holder behavior. Due to the anti-dilution provisions within the embedded conversion feature and that associated with the exercise price of the HealthCor Warrants, the Company determined that the Lattice Model was most appropriate for valuing these instruments.

NOTE B – STOCKHOLDERS' EQUITY (continued)

Warrants (continued)

During the three months ended March 31, 2012 and 2011, the Company did not issue any Warrants; however, it amortized certain previously capitalized Warrant costs in the accompanying condensed consolidated financial statements as follows: (i) \$13,833 as distribution/service costs in network operations for both periods and (ii) \$146,616 and \$40,688, respectively as consulting expense in general and administration.

On January 16, 2012 (partial exercise) and February 6, 2012 (exercised the balance), an unaffiliated entity exercised a Warrant to purchase an aggregate of 400,000 shares of the Company's Common Stock. In order to exercise the Warrant pursuant to the cashless provisions thereof, the unaffiliated entity surrendered its right to receive 122,191 shares, resulting in an issuance to the entity of 277,809 shares of common stock. On January 19, 2012, two unaffiliated entities exercised Warrants to purchase an aggregate of 39,683 shares of the Company's Common Stock at an aggregate exercise price of \$20,635. On February 28, 2012, an unaffiliated entity exercised Warrants to purchase an aggregate of 450,000 shares of the Company's Common Stock. In order to exercise the Warrants pursuant to the cashless provisions thereof, the individual surrendered its right to receive 138,143 shares, resulting in an issuance to the individual of 311,857 shares of Common Stock.

As of March 31, 2012, Warrants outstanding (excluding the HealthCor Warrants) covered an aggregate of 22,173,879 shares of the Company's Common Stock with exercise prices ranging from \$0.52 to \$1.59 per share resulting in a weighted average exercise price of \$0.73 per share and a weighted average contractual life of 3.5 years. As of March 31, 2012, unamortized costs associated with capitalized Warrants, excluding the HealthCor Warrants, totaled approximately \$1,604,000.

These Warrants were valued using the Lattice Model.

Stock Options

During the three months ended March 31, 2012, the Company did not grant any options to purchase shares of the Company’s Common Stock (“Options”). In February 2012, resulting from the resignation of an employee, an Option to purchase 10,000 shares was cancelled. As of March 31, 2012, 8,740,115 Options remain outstanding.

During the three months ended March 31, 2011, 230,000 Options, having a fair value of \$202,310, were granted to employees. The ten-year Options have an exercise price of between \$1.53 and \$1.62 per share and vests over a three-year period, one-third per year on the anniversary date of the Option.

A summary of the Company’s stock option activity and related information follows:

	Number of Shares Under Option	Weighted Average Exercise Price	Weighted Average Remaining Contractual Life	Aggregate Intrinsic Value
Balance at December 31, 2011	8,750,115	\$0.66	7.2	\$8,047,942
Granted	-0-			
Exercised	-0-			
Expired	-0-			
Cancelled	(10,000)	\$(1.51)		
Balance at March 31, 2012	8,740,115	\$0.66	7.0	\$7,785,039
Vested and Exercisable at March 31, 2012	6,997,706	\$0.56	6.7	\$6,962,640

The valuation methodology used to determine the fair value of the Options issued during the year was the Black-Scholes Model, an acceptable model in accordance with ASC 718-10. The Black-Scholes Model requires the use of a number of assumptions including volatility of the stock price, the weighted average risk-free interest rate, and the weighted average expected term of the options.

CAREVIEW COMMUNICATIONS, INC. AND SUBSIDIARIES
NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS
MARCH 31, 2012

NOTE B – STOCKHOLDERS’ EQUITY (continued)

Stock Options (continued)

The assumptions used in the Black-Scholes Model are set forth in the table below.

	March 31, 2012	December 31, 2011	
Risk-free interest rate	NA	0.35-1.39	%
Volatility	NA	80.85-84.78	%
Expected life	NA	3	years
Dividend yield	NA	0.00	%

The risk-free interest rate assumption is based upon observed interest rates on zero coupon U.S. Treasury bonds whose maturity period is appropriate for the expected term of the stock option and is calculated by using the average daily historical stock prices through the day preceding the grant date.

Estimated volatility is a measure of the amount by which the Company’s stock price is expected to fluctuate each year during the expected life of the award. The Company’s estimated volatility is an average of the historical volatility of peer entities whose stock prices were publicly available. The Company’s calculation of estimated volatility is based on historical stock prices of these peer entities over a period equal to the expected life of the awards. The Company uses the historical volatility of peer entities due to the lack of sufficient historical data of its stock price.

Share-based compensation expense for Options recognized in our results for the three months ended March 31, 2012 (\$235,049) and for the three months ended March 31, 2011 (\$183,867) is based on awards vested and the Company estimated no forfeitures. ASC 718-10 requires forfeitures to be estimated at the time of grant and revised in subsequent periods if actual forfeitures differ from the estimates.

At March 31, 2012, total unrecognized estimated compensation expense related to non-vested Options granted prior to that date was approximately \$1.1 million, which is expected to be recognized over a weighted-average period of 1.75 years. No tax benefit was realized due to a continued pattern of operating losses.

NOTE G – INCOME TAXES

Deferred income tax assets and liabilities are determined based upon differences between the financial reporting and tax bases of assets and liabilities and are measured using the enacted tax rates and laws that will be in effect when the differences are expected to reverse. The Company does not expect to pay any significant federal or state income tax for 2012 as a result of the losses recorded during the three months ended March 31, 2012 as well as additional losses

expected for the remainder of 2012 as well as from generating net operating loss carry forwards from prior years. Accounting standards require the consideration of a valuation allowance for deferred tax assets if it is “more likely than not” that some component or all of the benefits of deferred tax assets will not be realized. As of March 31, 2012, the Company maintains a full valuation allowance for all deferred tax assets. Based on these requirements, no

provision or benefit for income taxes has been recorded. There were no recorded unrecognized tax benefits at the end of the reporting period.

NOTE H – RELATED PARTIES

In January 2012, a related party repaid its outstanding balance of approximately \$189,000. As of March 31, 2012 and December 31, 2011, the Company was owed \$0 and approximately \$189,000 (comprised of \$86,000 from a related party for shared rental expense at the Company's prior offices, and \$103,000 from the related party for shared expenses related to consulting services rendered by two individuals). The \$189,000 was included in other current assets in the accompanying condensed consolidated financial statements for December 31, 2011.

NOTE I – JOINT VENTURE AGREEMENT

On November 16, 2009, the Company entered into a Master Investment Agreement (the "Rockwell Agreement") with Rockwell Holdings I, LLC, a Wisconsin limited liability ("Rockwell"). Under the terms of the Rockwell Agreement, the Company will use funds from Rockwell to fully implement the CareView System™ in Hillcrest Medical Center in Tulsa, Oklahoma ("Hillcrest") and Saline Memorial Hospital in Benton, Arkansas ("Saline") (the "Project Hospital(s)").

Both Rockwell and the Company own 50% of each Project LLC formed for the Project Hospitals. CareView contributed its intellectual property rights and its hospital contract with each Project Hospital. Rockwell contributed cash to be used for the purchase of equipment for the Project LLCs with 50% attributed to a promissory note bearing interest at 10% and 50% attributed to member's equity. The Project Notes are secured by a security interest in all of the equipment in the Project Hospitals, intellectual property rights, and the Project Hospital Contract. Additionally, the Project LLCs have an obligation to pay Rockwell a Preferential Return (the amount of Rockwell's aggregate capital contribution to the Project LLCs plus ten percent (10%) per annum, compounded annually). The Company classified this obligation as a liability since it represents an unconditional obligation by the Company to pay Rockwell's Preferential Return on each Project LLC and is recorded in mandatorily redeemable equity in joint venture on the accompanying condensed consolidated balance sheet.

The Project LLCs were within the scope of the variable interest entities (VIE) subsection of the FASB ASC and we determined the Project LLCs are VIEs based on the fact that the total equity investment at risk was not sufficient to finance the entities activities without additional financial support. The Company consolidates the Project LLCs as it has the power to direct the activities and an obligation to absorb losses of the VIEs.

As additional consideration to Rockwell for providing the funding, the Company granted Rockwell 1,151,206 Warrants valued at \$1,124,728 (the "Project Warrants"). The Project Warrants were valued using the Black-Scholes Model on the date of the Rockwell Agreement using a term of five (5) years; volatility of 89.21%; risk free rate of 2.19%; and a dividend yield of 0%. The Warrants are classified as equity and are included in additional paid-in-capital on the accompanying condensed consolidated balance sheet. The Company allocated the proceeds to the Project Warrants and the Project Notes or Preferential Returns based on the relative fair value. The originally recorded debt discount of \$636,752 is being amortized over the life of the debt, and recorded as interest expense in other income (expense) on

the accompanying condensed consolidated financial statements. Amortization expense totaled \$47,452 for both of the three month periods ended March 31, 2012 and 2011. As any additional funding is provided, the Company will issue additional Project Warrants to Rockwell and calculate the fair value of those warrants and record them in the financial statements when they are due or issued.

One of the Company's Project LLCs was notified by a customer of its desire to terminate its hospital agreement. This termination, effective January 27, 2012, results in the loss of monthly revenue totaling approximately \$20,000, which revenue was used to make payments on its indebtedness to the Rockwell Holdings. As of March 31, 2012, the Company's LLCs' indebtedness to Rockwell Holdings totaled approximately \$711,000. The Company is currently in negotiation with this customer to renew and extend the hospital agreement, but there can be no assurances made at this time. In the event that the Company is not able to renew the hospital agreement, the Company may incur de-installation costs of approximately \$37,000 for removing its equipment from the hospital premises.

NOTE J – VARIABLE INTEREST ENTITIES

The Company consolidates VIEs, of which it is the primary beneficiary, which comprises the Project LLCs defined in NOTE I – JOINT VENTURE AGREEMENT. The liabilities recognized as a result of consolidating these VIEs do not necessarily represent additional claims on our general assets; rather, they represent claims against the specific assets of the consolidated VIEs. Conversely, assets recognized as a result of consolidating these VIEs do not represent additional assets that could be used to satisfy claims against our general assets.

The total consolidated VIE assets and liabilities reflected on our condensed consolidated balance sheets at March 31, 2012 and December 31, 2011 are as follows:

NOTE K – DISTRIBUTION AGREEMENT

On January 9, 2010, the Company entered into a Distribution Agreement (“Agreement”) with Foundation Medical to distribute the CareView System™ on the East Coast of the United States. In addition to selling the CareView System™, the entity will also serve as CareView’s East Coast representative to service all of the installed medical facilities in that region. In connection with the Agreement, the Company issued a five-year Common Stock Purchase Warrant (the “Warrant”) to purchase 200,000 shares of the Company’s Common Stock at an exercise price of \$0.52 per share. The Warrant has not been exercised. The Warrant was valued using the Black-Scholes Model on the date of the grant using a term five (5) years; volatility of 89.46%; risk free rate of 1.09%; and a dividend yield of 0%. The Agreement carries a three (3) year term and accordingly the Warrant, with a fair value of \$166,000, is being amortized over the life of the Agreement. For both of the three month periods ended March 31, 2012 and 2011, the Company recognized expense of \$13,833 as distribution expense in network operations. As of March 31, 2012 and December 31, 2011, the Company reported \$41,501 and \$55,334, respectively as deferred distribution cost in other assets on the accompanying condensed consolidated financial statements.

On March 1, 2012, the Company entered into a two-year Sales Consulting Agreement (“Consulting Agreement”) with Foundation Medical and Donald Shirley (collectively, the “Consultant”) wherein the above-mentioned Distribution Agreement was terminated and future services to be provided by the Consultant relative to designated hospitals would be provided pursuant to the Consulting Agreement. As consideration for cancellation of the Distribution Agreement, the Company agreed to issue to the Consultant 50,000 shares of the Company’s Common Stock upon execution of the Consulting Agreement and an additional 50,000 shares of the Company’s Common Stock on the date of the first

anniversary thereof. CareView agreed to pay the Consultant a monthly consultant fee equal to the greater of (i) \$10,000 or (ii) the sum of \$250 per month per designated hospital. The first payment due thereunder was paid on March 1, 2012 in the amount of \$10,000 and with subsequent payments due on the 20th day of

each month thereafter. In addition, the Consultant is eligible to receive a commission on system products and components up-sold and installed at the designated hospitals. Consultant will receive commissions on receipt of revenue by CareView as follows: (i) for 5-year contracts, Consultant will receive 10% in year 1, 8% in year 2, 7% in year 3, 5% in year 4 and 3% in year 5 and (ii) for 3-year contracts, Consultant will receive 6% in year 1, 4% in year 2 and 2% in year 3.

NOTE L – SUBSCRIPTION AND INVESTOR RIGHTS AGREEMENT

On August 20, 2010, in an effort to resolve all past, current and future claims due pursuant to a Subscription and Investor Rights Agreement (“Subscription Agreement”) with an entity known as T2 Consulting, LLC (“T2”), and the principals of T2, namely Tommy G. Thompson (“Thompson”), Gerald L. Murphy (“Murphy”), and Dennis Langley (“Langley”), the Company entered into a Revocation and Substitution Agreement with T2, Thompson, Murphy and Langley (the “Agreement”). In exchange for the revocation of the Subscription Agreement by T2, Thompson, Murphy and Langley, the Company agreed to issue to each of Thompson, Murphy, and Langley a five-year Common Stock Purchase Warrant (“Warrant”) to purchase 1,000,000 shares of the Company’s Common Stock at an exercise price of \$1.00 per share. The Warrants were valued on the date of the grant using their five (5) year term; volatility of 94.12%; risk free rate of 1.47%; and a dividend yield of 0%. The valuation methodology used to determine the fair value of the Warrants issued was the Black-Scholes Model, and accordingly calculated a fair value of \$4,080,000 and reported as contract modification expense in general and administration during the year ended December 31, 2010. The Company’s Board of Directors believes the Agreement is in the best interest of all the shareholders of the Company and has determined that it is not necessary to obtain a ‘fairness’ opinion from an independent third-party.

As additional consideration for the revocation of the Subscription Agreement, the Company executed an Agreement Regarding Gross Income Interest (the “GII Agreement”) with each of Thompson, Murphy and Langley dated August 20, 2010. The GII Agreement does not have a termination date; however it does provide that the Company has the right to acquire the GII of Thompson, Murphy and Langley from September 1, 2013 until December 31, 2015, and that Thompson, Murphy and Langley each have the right to require that their respective GII be purchased by the Company any time from September 1, 2011 until December 31, 2015. At March 31, 2012, based on actual revenue, the Company recorded a liability for the GII owner’s put of approximately \$14,000 (the estimated fair value of the GII owner’s put). This liability is analyzed and updated quarterly, based on actual revenues. In an additional term in the GII Agreement with Langley, the Company agreed that an affiliate of Langley shall be granted a distribution and sales agreement for the Company’s products for government entities in the U.S. including, but not limited to, HHS, VA, DOD and state and local governments. Terms of the distribution agreement will be negotiated at a future date.

NOTE M – AGREEMENT WITH HMA

On March 8, 2011, the Company entered into a Master Agreement with Hospital Management Associates, Inc., a Delaware corporation (“HMA”). Terms of the Master Agreement provide for (i) HMA to use the CareView System in each of its 66 hospitals across the U.S. through the execution of a separate Hospital Agreement for each location and (ii) CareView to provide the Primary Package and preferential pricing in exchange for the volume provided by HMA. As of March 31, 2012, the Company has 3,599 installations in 51 HMA hospitals resulting in revenue of approximately \$312,000 for the three months ended March 31, 2012.

NOTE N – AGREEMENT WITH HEALTHCOR

On April 21, 2011, the Company entered into and closed a Note and Warrant Purchase Agreement (the “Purchase Agreement”) with HealthCor Partners Fund, LP and HealthCor Hybrid Offshore Master Fund, LP (the “Investors”). Pursuant to the Purchase Agreement, the Company sold Senior Secured Convertible Notes to the Investors in the principal amount of \$9,316,000 and \$10,684,000, respectively (collectively the “Convertible Debt”). As of March 31, 2012, the underlying shares of the Company’s common stock related to the Convertible Debt totaled approximately 17,969,000 (after applying the PIK for the period from April 21, 2011 through March 31, 2012). The Notes have a maturity date of April 20, 2021. Along with the Convertible Debt, the Company issued Common Stock purchase warrants (the “HealthCor Warrants”). Due to certain anti-dilution provisions associated with both the conversion feature of the Convertible Debt and the exercise price of the HealthCor Warrants, both instruments required liability treatment on the consolidated balance sheet under ASC 815-10. The full fair value of the derivatives related to the embedded conversion feature of the Convertible Debt and the HealthCor Warrants was recorded as long-term liability in the amount of \$33,461,512 at the time of issuance. This transaction resulted in a discount of \$20,000,000 on the Convertible Debt and the excess of the fair value of the derivatives over the discount recorded totaling \$13,461,512 was recorded as non-cash expense in other expense. The fair value of these derivative liabilities was computed using a Monte Carlo simulation embedded in the Binomial Lattice option pricing model (the “Lattice Model”). Due to the complexities provided by the anti-dilution provisions within the embedded conversion feature and that associated with the exercise price of the HealthCor Warrants, the Company determined that the Lattice Model was most appropriate for valuing these instruments. The Lattice Model relies on multiple inputs, using multiple stock price paths and incorporates several Level 1 inputs such as the Company’s stock price and risk free rates based on the U.S Treasury strip note yield curve at the valuation date. The model also took into consideration that that future financings, especially those that would invoke the anti-dilution provision, would be remote due to the Company’s liquidity at the time of issuance. The model also assumed a dilutive event would occur approximately one year from the date of issuance as the anti-dilution provision gives the greatest benefit to the note holders in the first year. Lastly, the volatility rate at the valuation dates was 55% and the overall probability of a dilutive event occurrence was assigned a 5% chance based on the Company’s liquidity at the time of issuance and valuation.

Between the date of issuance, April 21, 2011, and December 29, 2011, the Company re-measured the fair values of all of its derivative liabilities and recorded an aggregate decrease of \$10,495,147 in their fair value, resulting in a net charge to other expense of \$2,966,365 related to the derivative liabilities.

On December 30, 2011, the Convertible Debt and HealthCor Warrants were amended to remove the anti-dilution provisions which triggered liability classification and re-measurement of fair value each reporting period under derivative accounting. Accordingly, at December 30, 2011, the balance in the liability accounts totaling \$22,966,365 was reclassified into stockholders’ equity.

On January 9, 2012, the Company entered into a Binding Term Sheet with HealthCor Partners Management, L.P., on behalf of certain affiliated funds (collectively, “HCP”) regarding the issuance by the Company to HCP of a \$5,000,000 Senior Convertible Note(s) (the “New Senior Convertible Note(s)”). To that end, on January 31, 2012, the Company and the Investors entered into the Second Amendment to Note and Warrant Purchase Agreement (“Second Amendment”) amending the Purchase Agreement, and issued the New Senior Convertible Notes to the Investors, each as described below.

CAREVIEW COMMUNICATIONS, INC. AND SUBSIDIARIES
NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS
MARCH 31, 2012

NOTE N – AGREEMENT WITH HEALTHCOR (continued)

The Second Amendment provided that, following the Issue Date, the Company was permitted to sell, on the same terms and conditions as those contained in the Purchase Agreement (as amended from time to time), up to \$5,000,000 in New Senior Convertible Notes to the Investors. The Second Amendment provided that the New Senior Convertible Notes shall be included within the definition of “Notes” and “Closing Securities” under the Purchase Agreement, and any shares of Common Stock issuable upon conversion of the New Senior Convertible Notes shall be included within the definition of “Note Shares” under the Purchase Agreement.

Concurrently with the execution of the Second Amendment, the Company issued and sold New Senior Secured Convertible Notes to each of HealthCor Partners and HealthCor Hybrid in the principal amounts of \$2,329,000 and \$2,671,000, respectively. As provided by the Second Amendment, the New Senior Convertible Notes are in substantially the same form as the 2011 HealthCor Notes, with changes to the “Issuance Date,” “Maturity Date,” “First Five Year Note Period” and other terms to take into account the timing of the issuance of the New Senior Convertible Notes. The New Senior Convertible Notes have a maturity date ten (10) years from the date of issuance. The New Senior Convertible Notes will bear interest accordingly:

- (a) During years 1-5, interest will be payable (on a cumulative basis) by the issuance of additional convertible debt (a “PIK”) with the same terms as New Senior Convertible Notes, at an interest rate of 12.5%, compounded quarterly.
- (b) During years 6-10, interest may be paid in cash or as a consideration on the cumulative PIK (at the Company’s option), at an annual interest rate of 10.0%, compounded quarterly.
- (c) Interest shall be calculated and payable on a quarterly basis in arrears.
- (d) Notwithstanding the foregoing, during the existence of an event of default, the then applicable interest rate will be increased by 5%.

In addition, the provisions regarding interest acceleration, optional conversion, negative covenants, and events of default, preemptive rights and registration rights will be the same as those of the 2011 HealthCor Notes.

The Company will use the proceeds from the sale of the New Senior Secured Convertible Notes (i) to recruit and employ executives and sales personnel with experience in the healthcare/hospital space to establish contracts and pilot programs with hospitals, (ii) to expand its intellectual property portfolio, and (iii) for general working capital purposes.

In conjunction with the execution of the Second Amendment, the Company and its subsidiaries entered into a First Amendment to Loan and Security Agreement with Comerica Bank, as collateral agent and lender, and Bridge Bank, as lender (the “Loan Amendment”), amending the Loan and Security Agreement dated as of August 31, 2011, among the same parties (the “Loan and Security Agreement”). The Loan Amendment effected a change to the definition of “HealthCor Debt” under the Loan and Security Agreement, which is a component of “Permitted Indebtedness” under that agreement, in order to permit the issuance of the New Senior Convertible Notes. Also in connection with the Second Amendment, the Subordination Agreement between Comerica Bank and the Investors was amended to permit the sale and issue of the New Senior Convertible Notes.

NOTE N – AGREEMENT WITH HEALTHCOR (continued)

At the time of the issuance of the New Senior Secured Convertible Notes to each of HealthCor Partners and HealthCor Hybrid the underlying shares of the Company's common stock totaled approximately 4,000,000. As of March 31, 2012, the underlying shares of the Company's common stock totaled approximately 4,082,000 (after applying the PIK for the period from January 9, 2012 through March 31, 2012).

At any time or times on or after April 21, 2011, the Investors are entitled to convert any portion of the outstanding and unpaid accrued interest on and principal balances of the Notes into fully paid and non-assessable shares of Common Stock at a conversion rate of \$1.25 per share. As part of the agreement (s) with the Investors, the Company accrues and capitalizes interest as payment in kind into the existing note(s) payable.

When issuing debt or equity securities convertible into common stock at a discount to the fair value of the common stock at the date the debt or equity financing is committed, a company is required to record a beneficial conversion feature ("BCF") charge in accordance with ASC 470-20. The Company had two separate issuances of equity securities convertible into common stock that qualify under this accounting treatment, (i) the Senior Convertible Notes and (ii) the New Senior Convertible Notes. Because the Senior Convertible Notes were originally classified as a liability when issued and reclassified to equity on December 31, 2011, only the accrued interest capitalized as payment in kind since issuance qualifies under this accounting treatment. The full amount of the New Senior Convertible Notes and all accrued payment in kind interest also qualifies for this accounting treatment. At March 31, 2012, the Company recorded a BCF of \$2,082,122 based on the difference between the contractual conversion rate and the current fair value of the Company's Common Shares at original issuance date. The transaction was recorded as a charge to debt discount and the credit to additional paid in capital, with the debt discount ratably amortized to interest expense over the expected term of the notes (through April 2021 for the Senior Convertible Notes and through January 2022 for the New Senior Convertible Notes). To that end, the Company recorded an aggregate of \$73,706 in interest expense for the three months ended March 31, 2012. The carrying value of the debt with HealthCor at March 31, 2012 approximates fair value as the interest rates used are those currently available to the Company and would be considered level 3 inputs under the fair value hierarchy.

NOTE O – LOAN AND SECURITY AGREEMENT WITH COMERICA BANK AND BRIDGE BANK

On August 31, 2011, the Company entered into and closed a Loan and Security Agreement (the "Agreement" or the "Revolving Line") with Comerica Bank ("Comerica") and Bridge Bank, National Association ("Bridge Bank") (collectively the "Banks") providing for a two-year, \$20 million revolving line of credit. The Revolving Line will provide the Company with capital, inter alia, to purchase equipment and perform installations pursuant to newly signed contracts that the Company may execute in the future with certain healthcare providers. The borrowings under the Agreement will bear interest on the outstanding daily balance of the advances at the rate of 3.75% plus the Prime Referenced Rate, which is a rate equal to Comerica's prime rate but no less than the sum of 30-day LIBOR rate plus 2.5% per annum. Interest shall be paid monthly in arrears on any outstanding principal amount. The interest rate was calculated to be 7.0% per annum at March 31, 2012. Through March 31, 2012, the Company did not borrow any funds under the Revolving Line. At March 31, 2012, the entire \$20,000,000 Revolving Line was available to the Company.

NOTE O – LOAN AND SECURITY AGREEMENT WITH COMERICA BANK AND BRIDGE BANK (continued)

So long as no event of default has occurred and is continuing and subject to and upon the terms and conditions of the Agreement, and provided that the Company has delivered evidence to the reasonable satisfaction of the Banks of a signed contract for a new customer or the expansion of a contract with an existing customer for the addition of hospital sites and or hospital beds, the Company may request, and the Banks have agreed to make Advances in an aggregate outstanding amount not to exceed the lesser of (i) the \$20 million revolving line limit or (ii) the Borrowing Base. As defined in the Agreement “Advances” means cash advances under the Revolving Line and “Borrowing Base” generally means an amount equal to eighty percent (80%) of Eligible Accounts. As defined in the Agreement, “Eligible Accounts” generally means those accounts that (x) arise in the ordinary course of the Company’s business; (y) arise from the future, rolling twelve (12) months due to sales of subscriptions to individual hospitals or hospital groups which are associated with (i) existing subscription services that are under contract and have at least twelve (12) months of life left on the contract at the time of inclusion of such account in the Borrowing Base; and (ii) newly executed contracts that have a minimum length of at least four (4) years; and (z) comply with certain Company representations and warranties to the Banks set forth in the Agreement that relate to Eligible Accounts. Subject to the terms and conditions of the Agreement, amounts borrowed may be repaid and re-borrowed at any time prior to the Revolving Maturity Date, (the earlier of (i) two (2) years after the initial Advance or (ii) June 14, 2014), at which time all Advances shall be immediately due and payable. Except as set forth in the Prime Referenced Rated Addendum to the Agreement, the Company may prepay any Advances without penalty or premium. The Company shall use the proceeds of the Advances for the purchase of machinery, equipment, tenant improvements, furniture, fixtures, vehicles, tools, parts and attachments and/or installation costs associated with the installation of a new or expanded customer subscription services contract.

The Agreement requires the Company to pay a quarterly unused facility fee equal to one quarter of one percent (0.25%) per annum of the difference between the amount of the Revolving Line and the average outstanding principal balance of the Revolving Line during the applicable quarter. The Agreement requires CareView to maintain its primary operating accounts with Comerica and Bridge Bank on a 50:50 basis, with no less than 80% of CareView’s investment accounts with the Banks or their affiliates, unless CareView’s cash falls below \$5 million, in which case it must maintain all its cash with the Banks. The Agreement also requires CareView to maintain a fixed charge coverage ratio of at least 5.01 to 1.00. The credit facility also contains certain customary affirmative covenants that include, among others, payment of taxes and other obligations, maintenance of insurance and reporting requirements, as well as customary negative covenants that limit, among other things, the Company’s ability to make dispositions and acquisitions, be acquired, incur debt or pay dividends.

The credit facility contains customary events of default including, among other things, non-payment, inaccurate representations and warranties, violation of covenants, events that constitute a material adverse effect and cross-defaults to other indebtedness. Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

General

The following discussion and analysis provides information which management of the Company believes to be relevant to an assessment and understanding of the Company's results of operations and financial condition. This discussion should be read together with the Company's financial statements and the notes to the financial statements, which are included in this report. This information should also be read in conjunction with the information contained (i) in our Form 10-K filed with the Securities and Exchange Commission (the "Commission") on March 15, 2012, including the audited consolidated financial statements and notes included therein as of and for the year ended December 31, 2011. The reported results will not necessarily reflect future results of operations or financial condition.

Throughout this Quarterly Report on Form 10-Q (the "Report"), the terms "we," "us," "our," "CareView," or "our Company" refer to CareView Communications, Inc., a Nevada corporation, and unless otherwise specified, includes our wholly owned subsidiaries, CareView Communications, Inc., a Texas corporation ("CareView-TX") and CareView Operations, LLC, a Nevada limited liability company ("CareView Operations") (collectively known as the "Company's Subsidiaries") and its LLCs, CareView-Hillcrest and CareView-Saline, determined to be variable interest entities ("VIEs") in which the Company exercises control and is deemed the Primary Beneficiary (collectively known as the "Company's LLCs").

The Company maintains a website at www.care-view.com. The Company's Common Stock trades on the OTCBB under the symbol "CRVW."

Overview

CareView was incorporated in the State of California in July 1997 under the name Purpose, Inc., changing its name to Ecogate, Inc. in April 1999. In October 2007, the Company changed its name to CareView Communications, Inc. and in November 2007, the Company changed its state of incorporation to Nevada.

The Company developed a suite of products and hardware to help connect patients, families and health care providers through one easy-to-install and simple-to-use system (the "CareView System™"). The CareView System™ runs on each hospital's coaxial cable television network that provides television signals to patient room; consequently, CareView's network does not need to run on or through the hospital's specific IT infrastructure, thereby requiring minimal Internet technology involvement on the part of the hospital. The Company's proprietary, high-speed data network system may be deployed throughout a healthcare facility and will provide the facility with recurring revenue and infrastructure for future applications. Real-time bedside and point-of-care video monitoring and recording improve efficiency while limiting liability, and entertainment packages and patient education enhance the patient's quality of stay. There is no capital expenditure by a subscribing hospital as CareView provides all hardware and installation of the CareView System™ in each room at no charge. Fees paid to CareView by each hospital consists of monthly service fees for each system installed (one per bed) and an additional rate for each nursing station monitor. Additional shared revenue generated from entertainment services (MovieView®, NetView®, PatientView®, and BabyView®) purchased directly by patient consumers, are split between the hospital and CareView per the terms of each contract. CareView is dedicated to working with all types of hospitals, nursing homes, adult living centers and selected outpatient care facilities domestically and internationally.

Amendment Agreement and New Secured Convertible Notes with HealthCor

On April 21, 2011, the Company entered into and closed a Note and Warrant Purchase Agreement (the “Purchase Agreement”) with HealthCor Partners Fund, LP and HealthCor Hybrid Offshore Master Fund, LP (the “Investors”). Pursuant to the Purchase Agreement, the Company sold Senior Secured Convertible Notes to the Investors in the principal amount of \$9,316,000 and \$10,684,000, respectively (collectively the “Notes”). The Notes have a maturity date of April 20, 2021.

On December 30, 2011, the Company and the Investors entered into a Note and Warrant Amendment Agreement (“Amendment Agreement”) agreeing to (a) amend the Purchase Agreement pursuant to Section 7.9 thereof, in order to modify the Investors’ right to restrict certain equity issuances as set forth therein; and (b) amend the HealthCor Notes and the HealthCor Warrants, pursuant to Section 11 of the HealthCor Notes and Section 21 of the HealthCor Warrants, in order to eliminate certain anti-dilution provisions contained therein. The accounting treatment resulting from the elimination of the anti-dilution provision reclassified approximately \$23,000,000 in related long-term liabilities to stockholders’ equity; however, this does not affect the accounting for debt discount which will remain and continue to be amortized to interest expense.

On January 9, 2012, the Company entered into a Binding Term Sheet with HealthCor Partners Management, L.P., on behalf of certain affiliated funds (collectively, “HCP”) regarding the issuance by the Company to HCP of a \$5,000,000 Senior Convertible Note(s) (the “New Senior Convertible Note(s)"). To that end, on January 31, 2012, the Company and the Investors entered into the Second Amendment to Note and Warrant Purchase Agreement (“Second Amendment”) amending the Purchase Agreement, and issued the New Senior Convertible Notes to the Investors.

The Second Amendment provided that, following the Issue Date, the Company was permitted to sell, on the same terms and conditions as those contained in the Purchase Agreement (as amended from time to time), up to \$5,000,000 in New Senior Convertible Notes to the Investors. The Second Amendment provided that the New Senior Convertible Notes shall be included within the definition of “Notes” and “Closing Securities” under the Purchase Agreement, and any shares of Common Stock issuable upon conversion of the New Senior Convertible Notes shall be included within the definition of “Note Shares” under the Purchase Agreement. Concurrently with the execution of the Second Amendment, the Company issued and sold New Senior Secured Convertible Notes to each of HealthCor Partners and HealthCor Hybrid in the principal amounts of \$2,329,000 and \$2,671,000, respectively. For more details, see Note N – AGREEMENT WITH HEALTHCOR, set forth in the Notes to Condensed Financial Statements contained in Part I, Item 1 of this Report.

Distribution and Regional Support

On March 1, 2012, the Company entered into a two-year Sales Consulting Agreement (“Consulting Agreement”) with Foundation Medical and Donald Shirley (collectively, the “Consultant”) wherein the prior Distribution Agreement with the Company was terminated and future services to be provided by the Consultant relative to designated hospitals would be provided pursuant to the Consulting Agreement. As consideration for cancellation of the Distribution Agreement dated January 9, 2010, the Company agreed to issue to the Consultant 50,000 shares of the Company’s Common Stock upon execution of the Consulting Agreement and an additional 50,000 shares of the Company’s Common Stock on the date of the first anniversary thereof. CareView agreed to pay the Consultant a monthly consultant fee equal to the greater of (i) \$10,000 or (ii) the sum of \$250 per month per designated hospital. In addition, the Consultant is eligible to receive a commission on system products and components up-sold and installed at the designated hospitals. For more details, see Note K – DISTRIBUTION AGREEMENT, set forth in the Notes to Condensed Financial Statements contained in Part I, Item 1 of this Report.

Revenue

The increase in revenue of \$278,000 for the three months ended March 31, 2012 as compared to the three months ended March 31, 2011, was primarily as a result of the Company's entry into a Master Agreement with Hospital Management Associates, Inc. (HMA) in March 2011. Billable hospitals increased to 40 for the three months ended March 31, 2012 as compared to 5 for the comparable period for the prior year. Billable units, Room Control Platforms and Nurse Stations, increased to 2,887 (2,732 and 155, respectively) as compared to 695 (655 and 40, respectively) for the same comparable period of the prior year.

Operating Expenses

CareView's principal operating costs include the following items as a percentage of total operating expense.

	Three Months Ended			
	March 31,			
	2012		2011	
Human resource costs, including non-cash compensation	39	%	52	%
Professional fees for legal, accounting and consulting	16	%	10	%
Depreciation and amortization expense	16	%	20	%
Product deployment costs	8	%	0	%
Travel and entertainment	7	%	4	%
Other	14	%	14	%

Operating expenses increased by 144% as a result of the following items:

	(000's)
Increase in human resource costs	\$430
Increase in non-cash compensation related to stock options	157
Increase in professional and consulting	414
Increase in depreciation	276
Increase in installation and deployment costs	263

Edgar Filing: CareView Communications Inc - Form 10-Q

Increase in travel and entertainment	187
Increase in all other, net	256
	\$1,983

The increase in human resource related costs (including salaries and benefits) was primarily due to the increase of 29 employees as compared to the comparable prior year period. The Company had 50 employees at March 31, 2012, with most of the additions related to customer sales and support.

Non-cash compensation expense increased primarily as a result of the valuation of outstanding employee stock options during the comparable periods.

Professional and consulting fees increased primarily due to:

- a \$262,000 increase in consulting services consisting of (i) \$38,000 related to operational and installation, (ii) \$70,000 related to sales and marketing, (iii) \$54,000 related to administrative support, and (iv) \$100,000 related to a consulting/settlement agreement with the previous CFO;
- an audit fee increase of \$103,000 related to (i) fees associated with public company filings and (ii) compliance with Sarbanes-Oxley 404; and
- a \$49,000 increase in legal expense primarily related to the additional funding from HealthCor.

The increase in depreciation expense was directly related to the increase in deployable assets.

Higher installation and deployment costs were primarily associated with the significant increase of distribution activity for the Company's equipment and the related costs involved with the ongoing support of customer sites as well repair and maintenance of existing on site equipment.

The increase in travel and entertainment expense was a direct result of increased activity associated with sales, installation, and training efforts related to growing our installed base.

Other Expense, net

Other non-operating expense increased by \$1,743,000 for the three months ended March 31, 2012 in comparison to the same period in 2011 due to increases in the amortization of debt discount totaling \$707,000 and interest expense totaling \$1,036,000.

Net Loss Attributable to Noncontrolling Interest

As a result of the factors above and after applying the \$38,000 net loss attributed to noncontrolling interests, CareView's first quarter 2012 net loss of \$4,758,000 increased \$3,438,000 (260%) over the \$1,320,000 net loss for the first quarter of 2011.

Liquidity and Capital Resources

We began the operation of our current business plan in 2003 and have not yet attained a level of revenue to allow us to meet our current overhead. Based on our current marketing plan and expected sales demand, we do not contemplate attaining profitable operations until the fourth quarter of 2012, nor is there any assurance that such an operating level can ever be achieved. We may be dependent upon obtaining additional financing in order to adequately fund working capital, infrastructure, manufacturing expenses and significant marketing/investor related expenditures to gain market recognition, so that we can achieve a level of revenue adequate to support our cost structure, none of which can be assured. Management believes that through the combination of the HealthCor financings in the aggregate of \$25 million and the \$20 million Revolving Line, it will have sufficient financial resources to fund its operations for the next nine (9) months. For more details related to the HealthCor and Comerica transactions see Agreement with HealthCor and Agreement with Comerica Bank and Bridge Bank National Association, as further described in the Notes to Condensed Consolidated Financial Statements, note N and O respectively.

As of March 31, 2012, CareView's working capital was \$9.7 million with \$10.0 million cash on hand, our accumulated deficit was \$51.5 million and our stockholders' equity was \$13.5 million. Net cash outlays from operations and capital expenditures were \$3.5 million for the three months ended March 31, 2012.

Off-Balance Sheet Arrangements

None.

Critical Accounting Estimates

Please refer to the Company's Annual Report on Form 10-K filed with the SEC on March 15, 2012 for detailed explanations of its critical accounting estimates, which have not changed significantly during the period ended March 31, 2012.

New Accounting Pronouncements

There have been no material changes to the Company's significant accounting policies as summarized in Note B of the Company's Annual Report on Form 10-K for the year ended December 31, 2011. The Company does not expect that the adoption of any recent accounting pronouncements will have a material impact on its condensed consolidated financial statements.

Item 3. Quantitative and Qualitative Disclosures about Market Risk

On August 31, 2011, the Company entered into and closed a Loan and Security Agreement (the "Agreement" or the "Revolving Line") with Comerica Bank ("Comerica") and Bridge Bank, National Association ("Bridge Bank") (collectively the "Banks") providing for a two-year, \$20 million revolving line of credit. The Revolving Line will provide the Company with capital, inter alia, to purchase equipment and perform installations pursuant to newly signed contracts that the Company may execute in the future with certain healthcare providers. The borrowings under the Agreement will bear interest on the outstanding daily balance of the advances at the rate of 3.75% plus the Prime Referenced Rate, which is a rate equal to Comerica's prime rate but no less than the sum of 30-day LIBOR rate plus 2.5% per annum. Interest shall be paid monthly in arrears on any outstanding principal amount. Should the prime rate or LIBOR change significantly during the term of this Revolving Line, depending on the direction of the change, this could have a positive or negative impact on the Company's cash flow.

Item 4. Controls and Procedures

Disclosure Controls and Procedures

Disclosure controls and procedures are designed to ensure that information required to be disclosed in the reports filed or submitted under the Securities Exchange Act of 1934 (the "Exchange Act") is recorded, processed, summarized and reported, within the time period specified in the SEC's rules and forms and is accumulated and communicated to the Company's management, as appropriate, in order to allow timely decisions in connection with required disclosure.

Piccin, the Company's Chief Financial Officer ("CFO") (the Company's principal financial and accounting officer), of the effectiveness of the Company's disclosure controls and procedures

(as defined under Rule 13a-15(e) under the Exchange Act) as of the end of the period covered by this report.

Changes in Internal Controls

During the three months ended March 31, 2012, there were no changes in our internal control over financial reporting that occurred during the first quarter of 2012 that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.
