Ballantyne Strong, Inc. and Subsidiaries

Notes to the Condensed Consolidated Financial Statements
(Unaudited)

1. Nature of Operations

Ballantyne Strong, Inc. (“Ballantyne” or the “Company”), a Delaware corporation, and its wholly owned subsidiaries Strong Westrex, Inc., Strong Technical Services, Inc., Strong/MDI Screen Systems, Inc., and Strong Westrex (Beijing) Trading Inc., manufacture, distribute, integrate and service theatre and lighting systems on a worldwide basis.

The Company’s products are distributed to movie exhibition companies, sports arenas, auditoriums, amusement parks and special venues.

2. Summary of Significant Accounting Policies

Basis of Presentation and Principles of Consolidation

The condensed consolidated financial statements include the accounts of the Company and all majority owned and controlled domestic and foreign subsidiaries. All significant intercompany balances and transactions have been eliminated in consolidation.

The condensed consolidated financial statements included in this report are presented in accordance with the requirements of Form 10-Q and consequently do not include all of the disclosures normally required by accounting principles generally accepted in the United States of America for annual reporting purposes or those made in the Company’s Annual Report on Form 10-K. These condensed consolidated financial statements should be read in conjunction with the consolidated financial statements and notes thereto included in the Company’s Annual Report on Form 10-K for the fiscal year-ended December 31, 2012.

The condensed consolidated balance sheet as of December 31, 2012 was derived from the Company’s audited consolidated balance sheet as of that date. All other condensed consolidated financial statements contained herein are unaudited and, in the opinion of management, reflect all adjustments of a normal recurring nature necessary to present a fair statement of the financial position and the results of operations and cash flows for the respective interim periods. The results for interim periods are not necessarily indicative of trends or results expected for a full year.

Use of Management Estimates

The preparation of condensed consolidated financial statements in conformity with U.S. generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the condensed consolidated financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results and changes in facts and circumstances may alter such estimates and affect results of operations and financial position in future periods.

Fair Value of Financial and Derivative Instruments

The categorization within the valuation hierarchy is based upon the lowest level of input that is significant to the fair value measurement. Financial assets and liabilities carried at fair value will be classified and disclosed in one of the following three categories:

- Level 1 - inputs to the valuation techniques are quoted prices in active markets for identical assets or liabilities
- Level 2 - inputs to the valuation techniques are other than quoted prices but are observable for the assets or liabilities, either directly or indirectly
 - Level 3 - inputs to the valuation techniques are unobservable for the assets or liabilities

The following table presents the Company's financial assets and liabilities measured at fair value based upon the level within the fair value hierarchy in which the fair value measurements fall, as of March 31, 2013:

Fair Values Measured on a Recurring Basis:

	Level 1	Level 2	Level 3	Total
	\$ in thousands			
Cash and cash equivalents	\$41,863	\$—	\$—	\$41,863
Notes Receivable	\$—	\$—	\$2,232	\$2,232

The notes receivable accrue interest at a rate of 15% per annum which is paid in accordance with an agreed-upon cash flow schedule.

Quantitative information about the Company's level 3 fair value measurements at March 31, 2013 is set forth below:

\$ in thousands	Fair Value at 3/31/2013	Valuation Technique	Unobservable input	Range
Notes Receivable	\$ 2,232	Discounted cash flow	Probability of default	0%
			Prepayment rates	0%
			Loss severity	0%

The significant unobservable inputs used in the fair value measurement of the Company's notes receivable are prepayment rates, probability of default and loss severity in the event of default. Significant increases (decreases) in any of these inputs in isolation would result in a significantly lower (higher) fair value measurement. Generally, a change in the assumption used for the probability of default is accompanied by a directionally similar change in the assumption used for the loss severity and directionally opposite change in the assumption used for prepayment rates.

The following table reconciles the beginning and ending balance of the Company's Notes Receivable fair value:

	Three months ended March 31	
	2013	2012
	\$ in thousands	
Notes Receivable balance, beginning of period	\$ 2,232	\$ 2,062
Issuances of new notes	—	44
Notes Receivable balance, end of period	\$ 2,232	\$ 2,106

The following table presents the Company's financial assets and liabilities measured at fair value based upon the level within the fair value hierarchy in which the fair value measurements fall, as of December 31, 2012:

	Level 1	Level 2	Level 3	Total
	\$ in thousands			
Cash and cash equivalents	\$40,168	\$—	\$—	\$40,168
Notes Receivable	\$—	\$—	\$2,232	\$2,232

The carrying values of all other financial assets and liabilities including accounts receivable, accounts payable and accrued expenses reported in the consolidated balance sheets equal or approximate their fair values due to the short-term nature of these instruments. All non-financial assets that are not recognized or disclosed at fair value in the financial statements on a recurring basis, which includes non-financial long-lived assets, are measured at fair value in certain circumstances (for example, when there is evidence of impairment). During the quarter ended March 31, 2013 we did not have any significant non-recurring measurements of non-financial assets or liabilities.

Recently Issued Accounting Pronouncements

There are no recently issued accounting pronouncements which the Company believes will materially impact its consolidated financial statements.

3. Earnings Per Common Share

Basic earnings per share have been computed on the basis of the weighted average number of shares of common stock outstanding. Diluted earnings per share has been computed on the basis of the weighted average number of shares of common stock outstanding after giving effect to potential common shares from dilutive stock options and certain non-vested shares of restricted stock. The following table provides the reconciliation between basic and diluted earnings per share:

	Three Months Ended March 31,	
	2013	2012
(In thousands, except per share data)		
Basic earnings per share:		
Earnings applicable to common stock	\$565	\$2,447
Basic weighted average common shares outstanding	13,979	14,237
Basic earnings per share	\$0.04	\$0.17
Diluted earnings per share:		
Earnings applicable to common stock	\$565	\$2,447
Basic weighted average common shares outstanding	13,979	14,237
Dilutive effect of stock options and restricted stock awards	44	43
Dilutive weighted average common shares outstanding	14,023	14,280
Diluted earnings per share	\$0.04	\$0.17

For the three months ended March 31, 2013 and 2012 options to purchase 191,200 and 189,000 shares of common stock, respectively were outstanding but were not included in the computation of diluted earnings per share as the option's exercise price was greater than the average market price of the common shares for the respective periods.

4. Warranty Reserves

Historically, the Company has generally granted a warranty to its customers for a one-year period following the sale of manufactured film projection equipment and on selected repaired equipment for a one-year period. In most instances, the digital products are covered by the manufacturing firm's OEM warranty; however, there are certain customers where the Company may grant warranties in excess of the manufacturer's warranty for digital products. The Company accrues for these costs at the time of sale or repair. The following table summarizes warranty activity for the three months ended March 31, 2013 and 2012:

	Three Months Ended March 31,	
	2013	2012
(In thousands)		
Warranty accrual at beginning of period	\$770	\$1,028
Charged to expense	56	125
Amounts written off, net of recoveries	(68)	(109)
Foreign currency adjustment	2	7
Warranty accrual at end of period	\$760	\$1,051

5. Digital Link II Joint Venture

On March 6, 2007, the Company entered into an agreement with RealD to form an operating entity Digital Link II, LLC (the "LLC"). Under the agreement, the LLC was formed with the Company and RealD as the only two members with membership interests of 44.4% and 55.6%, respectively. The LLC was formed for purposes of commercializing certain 3D technology and to fund the deployment of digital projector systems and servers to exhibitors.

The Company accounts for its investment by the equity method. Under this method, the Company recorded its proportionate share of LLC net income or loss based on the LLC's financial statements as of March 23, 2013 and March 25, 2012, respectively. The LLC uses four 13-week periods for a total of 52 weeks to align its fiscal year-end with that of its majority interest holder, RealD. The Company's portion of loss of the LLC was approximately \$0.1 million for the quarter ended March, 31, 2013. The Company's portion of income of the LLC was approximately \$0.09 million for the quarter ended March 31, 2012.

In the past, the Company sold digital theatre projection equipment, in the normal course of business, to the LLC. The LLC in turn provides and sells the digital projection equipment to third party customers under system use agreements or through sales agreements. Revenue recognized by the Company on the sale transaction to the LLC is limited by its 44.4% ownership in the joint venture which will be recognized upon sale of the equipment to the third parties. There were no sales to the LLC during the quarters ended March 31, 2013 and 2012. However, the Company recognized \$0.2 million of gross margin during the quarter ended March, 31, 2012 related to the LLC's sale of equipment to third parties. The total receivable balance due from the LLC was insignificant at March 31, 2013 and December 31, 2012.

During the first quarter of 2012 the Company received a \$1.5 million return of investment in the LLC. The Company received no distributions from the LLC in the first quarter of 2013.

6. Corporate-wide Strategic Initiative-Restructuring

In the fourth quarter of 2011, the Board of Directors and management of the Company approved a corporate-wide strategic initiative to refocus its worldwide digital equipment distribution business, services platform and cinema screen manufacturing business and exit the analog projector manufacturing business. The strategic initiative consisted of selling the Company's Omaha, Nebraska-based analog projector facility and manufacturing equipment and relocating its corporate headquarters to a new, smaller location in Omaha, which also houses its Network Operations Center. Total life to date severance charges for the strategic initiative begun in 2011 are approximately \$1.4 million. The strategic initiative is expected to be completed by the end of the second quarter of 2013.

The following table reconciles the beginning and ending restructuring balance for the quarter ended March 31, 2013, which are included in accrued expenses:

	(in thousands)	
Accrued severance at beginning of period	\$	88
Severance paid		(16)
Accrued severance at end of period	\$	72

7. Income Taxes

The effective tax rate (calculated as a ratio of income tax expense to pretax earnings, inclusive of equity method investment losses) was approximately 20.0% and 32.1% for the quarters ended March 31, 2013 and 2012, respectively. The effective tax rate differs from the statutory rates primarily as a result of differing foreign and U.S. tax rates applied to respective pre-tax earnings by tax jurisdiction. The Company's estimated annual effective rate was lower in the first quarter of 2013 compared to the first quarter of 2012 due to higher earnings before tax within our Canadian operations, Strong/MDI Screen Systems, Inc., which has a lower tax rate.

The Company's uncertain tax positions are related to tax years that remain subject to examination by the relevant taxable authorities. The Company has examinations not yet initiated for Federal purposes for fiscal years 2005 through 2012. In most cases, the Company has examinations open for State or local jurisdictions based on the particular jurisdiction's statute of limitations. The Company does not currently have any examinations in process. As of March 31, 2013, total unrecognized tax benefits amounted to approximately \$0.2 million.

8. Stock Compensation

The Company recognizes compensation expense for all share-based payment awards made to employees and directors based on their estimated fair values. Share-based compensation expense included in selling and administrative expenses approximated \$0.1 million and \$0.2 million for the three months ended March 31, 2013 and 2012, respectively.

Long-Term Incentive Plan

The Company's 2010 Long-Term Incentive Plan ("2010 Plan") provides the Compensation Committee of the Board of Directors with the discretion to grant stock options, stock appreciation rights, restricted shares, restricted units, performance shares, or performance units. Vesting terms vary with each grant and may be subject to vesting upon a "change in control" of the Company. The total number of shares reserved for issuance under the 2010 Plan was 600,000 shares. During the quarter ended March 31, 2013, the Company awarded 22,500 options and 9,000 restricted stock shares.

Options

As noted above, under the 2010 Plan, the Company granted options to purchase 22,500 shares of the Company's common stock during the three-month period ended March 31, 2013. Options to purchase shares of common stock were granted with exercise prices equal to the fair value of the common stock on the date of grant and vest over a three-year period. The fair value of stock options granted was estimated using a Black-Scholes valuation model with the following assumptions:

Expected dividend yield at date of grant	0	%
Expected stock price volatility	58.5	%

Risk-free interest rate	0.9	%
Expected life of options (in years)	5.5	

The risk-free interest rate assumptions were based on the U.S. Treasury yield curve in effect at the time of the grant. The expected volatility was based on historical monthly price changes of the Company's stock based on the expected life of the options at the date of grant. The expected life of options is the average number of years the Company estimates that options will be outstanding. The Company considers groups of associates that have similar historical exercise behavior separately for valuation purposes.

The following table summarizes the Company's activities with respect to its stock options for the three months ended March 31, 2013 as follows:

	Number of Options	Weighted Average Exercise Price Per Share	Weighted Average Remaining Contractual Term	Aggregate Intrinsic Value
Outstanding at December 31, 2012	191,200	\$5.64	8.69	\$—
Granted	22,500	3.55		
Exercised	—	—		
Forfeited	—	—		
Outstanding at March 31, 2013	213,700	\$5.42	8.59	\$15,652
Exercisable at March 31, 2013	70,283	\$6.40	8.18	\$352

The aggregate intrinsic value in the table above represents the total that would have been received by the option holders if all in-the-money options had been exercised on March 31, 2013.

The following table summarizes information about stock options outstanding and exercisable at March 31, 2013:

Range of option exercise prices	Options Outstanding at March 31, 2013		Options Exercisable at March 31, 2013	
	Number of options	Weighted average remaining contractual life	Number of options	Weighted average remaining contractual life
\$ 3.55 to 8.32	213,700	8.59	70,283	8.18
		Weighted average exercise price per option		Weighted average exercise price per option
		\$ 5.42		\$ 6.40

Restricted Stock Plans

The Company's 2005 Restricted Stock Plan (the "2005 Plan") provides for the grant of restricted stock awards. A total of 250,000 shares were reserved for issuance under the 2005 Plan. These shares are subject to such restrictions on transferability and other restrictions, if any, as the Compensation Committee may impose. During the three months ended March 31, 2013, the Company awarded 41,000 restricted shares under the 2005 Plan, which vest annually over a three year period.

The Ballantyne Strong, Inc. Non-Employee Directors' Restricted Stock Plan (the "Non-Employee Plan") provides for the award of restricted shares to outside directors. A total of 250,000 shares are reserved for issuance under the Non-Employee Plan. No shares were issued under this plan during the three months ended March 31, 2013.

As noted above, the Company awarded a total of 50,000 restricted shares under the 2010 Plan, the 2005 Plan and the Non-Employee Plan during the three months ended March, 31 2013. In connection with the restricted stock granted to certain employees and non-employee directors, the Company accrues compensation expense based on the estimated number of shares expected to be issued utilizing the most current information available to the Company at the date of the financial statements. The Company estimates the fair value of restricted stock awards based upon the market price of the underlying common stock on the date of grant.

In connection with the restricted stock granted to certain employees and non-employee directors, the Company accrues compensation expense based on the estimated number of shares expected to be issued utilizing the most current information available to the Company at the date of the financial statements. The Company estimates the fair value of restricted stock awards based upon the market price of the underlying common stock on the date of grant.

As of March 31, 2013, the total unrecognized compensation cost related to non-vested restricted stock awards was approximately \$0.7 million which is expected to be recognized over a weighted average period of 2.7 years.

The following table summarizes restricted stock activity for the three months ended March 31, 2013:

	Number of Restricted Stock Shares	Weighted Average Grant Price Fair Value
Non-vested at December 31, 2012	84,200	\$ 5.24
Granted	50,000	3.92
Shares vested	(14,000)	4.70
Shares forfeited	—	—
Non-vested at March 31, 2013	120,200	\$ 4.75

Employee Stock Purchase Plan

The estimated grant date fair value of purchase rights outstanding under the Employee Stock Purchase Plan at March 31, 2013 was \$1.43 per share using the Black-Scholes option-pricing model made with the following weighted average assumptions:

Expected dividend yield at date of grant	0	%
Expected stock price volatility	22.3	%
Risk-free interest rate	0.14	%
Expected term (in years)	1	

The Company recorded insignificant share-based compensation expense pertaining to the stock purchase plan with insignificant associated tax benefits for the three months ended March 31, 2013 and 2012. At March, 31 2013, the total unrecognized estimated compensation cost was insignificant.

9. Foreign Exchange Contracts

The Company's primary exposure to foreign currency fluctuations pertains to its subsidiaries in Canada and China. In certain instances the Company may enter into foreign exchange forward contracts to manage a portion of this risk. The Company has not designated its foreign exchange forward contracts as hedges. As of March 31, 2013 the Company had no active foreign exchange forward contracts.

10. Commitments, Contingencies and Concentrations

Concentrations

The Company's top ten customers accounted for approximately 52.9% of total consolidated net revenues for the three months ended March 31, 2013, and were from the theatre segment. Trade accounts receivable from these customers represented approximately 38.4% of net consolidated receivables at March 31, 2013. Sales to Caribbean Cinemas represented approximately 18.6% of consolidated sales for the three months ended March 31, 2013. Additionally, receivables from this customer represented approximately 12.6% of net consolidated receivables at March 31, 2013, respectively. While the Company believes its relationships with such customers are stable, most arrangements are made by purchase order and are terminable at will by either party. A significant decrease or interruption in business from the Company's significant customers could have a material adverse effect on the Company's business, financial condition and results of operations. The Company could also be adversely affected by such factors as changes in foreign currency rates and weak economic and political conditions in each of the countries in which the Company sells its products.

Financial instruments that potentially expose the Company to a concentration of credit risk principally consist of accounts receivable. The Company sells product to a large number of customers in many different geographic regions. To minimize credit concentration risk, the Company performs ongoing credit evaluations of its customers' financial condition.

Leases

The Company and its subsidiaries lease plant and office facilities, furniture, autos and equipment under operating leases expiring through 2023. These leases generally contain renewal options and the Company expects to renew or replace certain of these leases in the ordinary course of business.

The Company's future minimum lease payments for operating leases are as follows:

	Total	Payments due by period (\$ in thousands)					Thereafter
		Remainder 2013	2014	2015	2016	2017	
Operating leases	\$3,988	\$430	\$527	\$345	\$355	\$359	\$ 1,972

11. Business Segment Information

As of March 31, 2013, the Company's operations were conducted principally through two business segments: Theatre and Lighting. Theatre operations include the sale and service of digital projection equipment, sound systems, xenon lamps, lenses and other accessories. The lighting segment operations include the design, assembly and sale of follow spotlights, stationary searchlights and computer operated lighting systems for the motion picture production, television, live entertainment, theme parks and architectural industries. The Company allocates resources to business segments and evaluates the performance of these segments based upon reported segment operating profit. All significant intercompany sales are eliminated in consolidation.

Summary by Business Segments

(In thousands)	Three Months Ended March 31,	
	2013	2012
