Cautionary Statement Regarding Forward-Looking Statements

Statements in this Quarterly Report on Form 10-Q that are not purely historical are forward-looking statements within the meaning of Section 27A of the Securities Act of 1933 and Section 21E of the Securities Exchange Act of 1934, including statements regarding management's expectations, hopes, intentions or strategies regarding the future. Forward-looking statements include statements regarding the Trust's future operations and prospects, the markets for real estate in the areas in which the Trust owns real estate, applicable zoning regulations, the markets for oil and gas, production limits on prorated oil and gas wells authorized by the Railroad Commission of Texas, expected competition, management's intent, beliefs or current expectations with respect to the Trust's future financial performance and other matters. All forward-looking statements in this Report are based on information available to us as of the date this Report is filed with the Securities and Exchange Commission, and we assume no responsibility to update any such forward-looking statements, except as required by law. All forward-looking statements are subject to a number of risks, uncertainties and other factors that could cause our actual results, performance, prospects or opportunities to differ materially from those expressed in, or implied by, these forward-looking statements. These risks, uncertainties and other factors include, but are not limited to, the factors discussed in Item 1A "Risk Factors" of Part I of our Annual Report on Form 10-K for the year ended December 31, 2013, and in Part I, Item 2 "Management's Discussion and Analysis of Financial Condition and Results of Operations" and Part II, Item 1A "Risk Factors" of this Quarterly Report on Form 10-Q.

Cash and cash equivalents, end of period	\$18,267,857	\$9,943,639

See accompanying notes to financial statements.

TEXAS PACIFIC LAND TRUST

NOTES TO UNAUDITED FINANCIAL STATEMENTS

March 31, 2014

In the opinion of management, the accompanying unaudited financial statements contain all adjustments (consisting of only normal recurring accruals) necessary to present fairly the financial position of Texas Pacific Land Trust (the "Trust") as of March 31, 2014 and the results of its operations for the three month periods ended March 31, 2014 and 2013, respectively, and its cash flows for the three month periods ended March 31, 2014 and 2013, respectively. The financial statements and footnotes included herein should be read in conjunction with the Trust's annual financial statements as of December 31, 2013 and 2012 and for each of the years in the three year period ended December 31, 2013 included in the Trust's Annual Report on Form 10-K for the year ended December 31, 2013.

We evaluate events that occur after the balance sheet date but before financial statements are, or are available to be, issued to determine if a material event requires our amending the financial statements or disclosing the event. We evaluated subsequent events through May 7, 2014, the date we issued these financial statements.

No value has been assigned to the land held by the Trust other than parcels which have been acquired through foreclosure and a limited number of parcels which have been acquired because they were offered for sale and were contiguous to parcels already owned by the Trust. Consequently, no allowance for depletion is computed, and no charge to income is made, with respect thereto, and no cost is deducted from the proceeds of the land sales in computing gain or loss thereon.

The Sub-shares and the Certificates of Proprietary Interest are freely interchangeable in the ratio of one Certificate of Proprietary Interest for 3,000 Sub-shares or 3,000 Sub-shares for one Certificate of Proprietary Interest.

The Trust's effective Federal income tax rate is less than the 35% statutory rate because taxable income is reduced by statutory percentage depletion allowed on mineral royalty income.

The results of operations for the three month period ended March 31, 2014 are not necessarily indicative of the results to be expected for the full year.

The Trust invests cash in excess of daily requirements primarily in bank deposit and savings accounts and certificates of deposit with maturities of ninety days or less. Such investments are deemed to be highly liquid debt

Edgar Filing: TEXAS PACIFIC LAND TRUST - Form 10-Q

instruments and classified as cash equivalents for purposes of the statements of cash flows.

Supplemental cash flow information for the three month periods ended March 31, 2014 and 2013 is summarized as follows:

	2014	2013
Income taxes paid	\$ 10,649	\$ -

(8) ASC 280, “*Segment Reporting*,” establishes standards for the way public business enterprises are to report information about operating segments. In accordance with ASC 280, the Trust utilizes the management approach as a basis for identifying reportable segments. The management approach is based on the way that management organizes the segments within the enterprise for making operating decisions and assessing performance. The Trust’s management views its operations as one segment and believes the only significant activity is managing the land which was conveyed to the Trust in 1888. The Trust’s management makes decisions about resource allocation and performance assessment based on the same financial information presented in these financial statements. Managing the land includes sales and leases of such land, and the retention of oil and gas royalties.

(9) In June 2011, the FASB issued Accounting Standards Update No. 2011-05, “*Comprehensive Income (Topic 220): Presentation of Comprehensive Income*” (“ASU 2011-05”). ASU 2011-05 amended existing guidance by allowing only two options for presenting the components of net income and other comprehensive income: (1) in a single continuous financial statement, statement of comprehensive income or (2) in two separate but consecutive financial statements, consisting of an income statement followed by a separate statement of other comprehensive income. ASU No. 2011-05 requires retrospective application, and it is effective for fiscal years beginning after December 15, 2011. We adopted the provisions of ASU 2011-05 as of January 1, 2012 using the single continuous statement presentation. The adoption of this guidance did not have a material effect on our financial statements.

Item 2. Management’s Discussion and Analysis of Financial Condition and Results of Operations

The following discussion and analysis should be read together with (i) the factors discussed in Item 1A “Risk Factors” of Part I of our Annual Report on Form 10-K for the year ended December 31, 2013, (ii) the factors discussed in Part II, Item 1A “Risk Factors,” if any, of this Quarterly Report on Form 10-Q and (iii) the Financial Statements, including the Notes thereto, and the other financial information appearing elsewhere in this Report. Period-to-period comparisons of financial data are not necessarily indicative, and therefore should not be relied upon as indicators, of the Trust’s future performance. Words or phrases such as “does not believe” and “believes”, or similar expressions, when used in this Form 10-Q or other filings with the Securities and Exchange Commission, are intended to identify “forward-looking statements” within the meaning of the Private Securities Litigation Reform Act of 1995.

Results of Operations for the Quarter Ended March 31, 2014 Compared to the Quarter Ended March 31, 2013

Earnings per Sub-share certificate were \$.86 for the first quarter of 2014, compared to \$.47 for the first quarter of 2013. Total operating and investing revenues were \$11,581,953 for the first quarter of 2014 compared to \$6,726,854 for the first quarter of 2013, an increase of 72.2%. This increase in revenue and earnings was due primarily to increases in oil and gas royalty revenue and easement and sundry income. These increases were only slightly offset by decreases in land sales and interest income from notes receivable.

No land sales occurred in the first quarter of 2014. In the first quarter of 2013 the Trust sold approximately 56.4 acres for a total of \$113,000, or approximately \$2,004 per acre.

Rentals, royalties and sundry income were \$11,512,811 during the first quarter of 2014, compared to \$6,463,508 for the first quarter of 2013, an increase of 78.1%. This increase resulted primarily from increases in oil and gas royalty revenue and easement and sundry income.

Oil and gas royalty revenue was \$7,242,060 for the first quarter of 2014, compared to \$3,994,691 for the first quarter of 2013, an increase of 81.3%. Oil royalty revenue was \$5,395,201 for the first quarter of 2014, an increase of 50.2% from the first quarter of 2013 when oil royalty revenue was \$3,591,741. The average price per royalty barrel of crude oil during the first quarter of 2014 was 8.8% higher than the average price prevailing during the first quarter of 2013. In addition, crude oil production subject to the Trust's royalty interest increased 38.0% in the first quarter of 2014 compared to the first quarter of 2013. Gas royalty revenue was \$1,846,859 for the first quarter of 2014, an increase of 358.3% from the first quarter of 2013 when gas royalty revenue was \$402,950. This increase in gas royalty revenue resulted from both volume and price increases of 124.5% and 104.4% respectively, in the first quarter of 2014 compared to the first quarter of 2013.

Easement and sundry income was \$4,168,204 for the first quarter of 2014, an increase of 77.1% compared to the first quarter of 2013 when easement and sundry income was \$2,353,498. This increase resulted primarily from increases in pipeline easement income and sundry income caused by an increase in drilling and exploration activity on land owned by the Trust. This category of income is unpredictable and may vary significantly from quarter to quarter.

Interest income, including interest on investments, was \$69,142 for the first quarter of 2014 compared to \$150,346 for the first quarter of 2013, a decrease of 54.0%. Interest on notes receivable for the first quarter of 2014 was \$65,798, a decrease of 55.3% compared to the first quarter of 2013 when interest on notes receivable was \$147,275. As of March 31, 2014, notes receivable for land sales were \$3,521,185 compared to \$8,038,628 at March 31, 2013, a decrease of 56.2%. Interest income earned from investments was \$3,344 for the first quarter of 2014, an increase of 8.9% from the first quarter of 2013. Interest on investments is affected by such variables as cash on hand for investment and the rate of interest on short-term investments.

Taxes, other than income taxes, were \$426,677 for the first quarter of 2014 compared to \$241,587 for the first quarter of 2013, an increase of 76.6%. This increase is primarily attributable to an increase in oil and gas production taxes which resulted from the increase in oil and gas royalty revenue discussed above.

General and administrative expenses were \$515,728 for the first quarter of 2014 compared to \$641,557 for the first quarter of 2013, a decrease of 19.6%. This decrease was primarily due to decreases in legal expenses and employment expenses.

Liquidity and Capital Resources

The Trust's principal sources of liquidity are revenues from oil and gas royalties, lease rentals and receipts of interest and principal payments on the notes receivable arising from land sales. In the past, those sources have generated more than adequate amounts of cash to meet the Trust's needs and, in the opinion of management, should continue to do so

in the foreseeable future.

Item 3. Quantitative and Qualitative Disclosures About Market Risk

There have been no material changes in the information related to market risk of the Trust since December 31, 2013.

Item 4. Controls and Procedures

Pursuant to Rule 13a-15, management of the Trust under the supervision and with the participation of David M. Peterson, the Trust's Chief Executive Officer and Chief Financial Officer, carried out an evaluation of the effectiveness of the design and operation of the Trust's disclosure controls and procedures as of the end of the Trust's fiscal quarter covered by this Report on Form 10-Q. Based upon that evaluation, Mr. Peterson concluded that the Trust's disclosure controls and procedures are effective in timely alerting him to material information relating to the Trust required to be included in the Trust's periodic SEC filings.

There have been no changes in the Trust's internal control over financial reporting during the Trust's most recently completed fiscal quarter that have materially affected, or are reasonably likely to materially affect, the Trust's internal control over financial reporting.

PART II**OTHER INFORMATION****Item 1A. Risk Factors**

There have been no material changes in the risk factors previously disclosed in response to Item 1A “Risk Factors” of Part I of the Trust’s Annual Report on Form 10-K for the year ended December 31, 2013.

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds

(c) During the first quarter of 2014, the Trust repurchased Sub-share certificates as follows:

Period	Total Number of Sub-shares Purchased	Average Price Paid per Sub-share	Total Number of Sub-shares Purchased as Part of Publicly Announced Plans or Programs	Maximum Number (or Approximate Dollar Value) of Sub-shares that May Yet Be Purchased Under the Plans or Programs
January 1, through January 31, 2014	24,743	\$ 97.90	—	—
February 1, through February 28, 2014	2,900	\$ 123.01	—	—
	—	—	—	—

Edgar Filing: TEXAS PACIFIC LAND TRUST - Form 10-Q

March 1, through March 31,
2014

Total	27,643*	\$ 100.54	–	–
-------	---------	-----------	---	---

* The Trust purchased and retired 27,643 Sub-shares in the open market.
