Table of Contents**BRYN MAWR BANK CORPORATION AND SUBSIDIARIES****Notes to Consolidated Financial Statements****(Unaudited)****Note 1 - Basis of Presentation**

The unaudited consolidated financial statements have been prepared in accordance with U.S. generally accepted accounting principles (“GAAP”). In the opinion of Bryn Mawr Bank Corporation’s (the “Corporation”) management, all adjustments necessary for a fair presentation of the consolidated financial position and the results of operations for the interim periods presented have been included. These unaudited consolidated financial statements should be read in conjunction with the audited consolidated financial statements and notes thereto in the Corporation’s Annual Report on Form 10-K for the twelve months ended December 31, 2016 (the “2016 Annual Report”).

The results of operations for the three and nine months ended September 30, 2017 are not necessarily indicative of the results to be expected for the full year.

Note 2 - Earnings per Common Share

Basic earnings per common share excludes dilution and is computed by dividing income available to common shareholders by the weighted-average common shares outstanding during the period. Diluted earnings per common share includes the potential dilution computed pursuant to the treasury stock method that could occur if stock options were exercised and converted into common stock, as well as the effect of restricted and performance shares becoming unrestricted common stock. The effects of stock options are excluded from the computation of diluted earnings per share in periods in which the effect would be anti-dilutive. All weighted average shares, actual shares and per share information in the financial statements have been adjusted retroactively for the effect of stock dividends and splits.

Table of Contents**Note 3 - Business Combinations****Harry R. Hirshorn & Company, Inc., d/b/a Hirshorn Boothby (“Hirshorn”)**

The acquisition of Hirshorn, an insurance agency headquartered in the Chestnut Hill section of Philadelphia, was completed on May 24, 2017. Immediately after the acquisition, Hirshorn was merged into the Bank’s existing insurance subsidiary, Powers Craft Parker and Beard, Inc. The consideration paid by the Bank was \$7.5 million, of which \$5.8 million was paid at closing, with three contingent cash payments, not to exceed \$575 thousand each, to be payable on each of May 24, 2018, May 24, 2019, and May 24, 2020, subject to the attainment of certain targets during the related periods. The acquisition enhanced the Bank’s ability to offer comprehensive insurance solutions to both individual and business clients and continues the strategy of selectively establishing specialty offices in targeted areas.

In connection with the Hirshorn acquisition, the following table details the consideration paid, the initial estimated fair value of identifiable assets acquired and liabilities assumed as of the date of acquisition and the resulting goodwill recorded:

(dollars in thousands)

Consideration paid:

Cash paid at closing	\$5,770
Contingent payment liability (present value)	1,690
Value of consideration	7,460

Assets acquired:

Cash operating accounts	978
Intangible assets – trade name	195
Intangible assets – customer relationships	2,672
Intangible assets – non-competition agreements	41
Premises and equipment	1,795
Accounts receivable	192
Other assets	27
Total assets	5,900

Liabilities assumed:

Accounts payable	800
Other liabilities	2
Total liabilities	802

Net assets acquired	5,098
----------------------------	--------------

Goodwill resulting from acquisition of Hirshorn \$2,362

Pending Business Combination – Royal Bancshares of Pennsylvania, Inc.

On January 30, 2017, the Corporation entered into a definitive Agreement and Plan of Merger to acquire Royal Bancshares of Pennsylvania, Inc. (“RBPI”), parent company of Royal Bank America (“RBA”), in a transaction with an aggregate value of \$127.7 million (the “RBPI Acquisition”). In connection with the Acquisition, RBPI will merge with and into the Corporation and RBA will merge with and into the Bank. The RBPI Acquisition, which is expected to add approximately \$602 million in loans and \$630 million in deposits (based on December 31, 2016 financial information), strengthens the Corporation’s position as the largest community bank in Philadelphia’s western suburbs and, based on deposits, ranks it as the eighth largest community bank headquartered in Pennsylvania. The RBPI Acquisition, which will expand the Corporation's distribution network by providing entry into the new markets of New Jersey and Berks County, Pennsylvania, and an expanded physical presence in Philadelphia County, Pennsylvania, is expected to close during the fourth quarter of 2017, subject to customary regulatory approvals and closing conditions.

Table of Contents**Due Diligence, Merger-Related and Merger Integration Expenses**

Due diligence, merger-related and merger integration expenses may include consultant costs, investment banker fees, contract breakage fees, retention bonuses for severed employees, and salary and wages for staffing involved in the integration of the institutions. The following table details the costs identified and classified as due diligence, merger-related and merger integration costs for the periods indicated:

	Three Months Ended		Nine Months Ended	
	September 30,		September 30,	
<i>(dollars in thousands)</i>	2017	2016	2017	2016
Salaries and wages	\$ 28	\$ —	\$ 428	\$ —

Management evaluates the Corporation's investment securities available for sale that are in an unrealized loss position in order to determine if the decline in fair value is other than temporary. The available for sale investment portfolio includes debt securities issued by U.S. government agencies, U.S. government-sponsored agencies, state and local municipalities and other issuers. All fixed income investment securities in the Corporation's available for sale investment portfolio are rated as investment grade. Factors considered in the evaluation include the current economic climate, the length of time and the extent to which the fair value has been below cost, interest rates and the bond rating of each security. The unrealized losses presented in the tables above are temporary in nature and are primarily related to market interest rates rather than the underlying credit quality of the issuers. The Corporation does not believe that these unrealized losses are other-than-temporary. The Corporation does not have the intent to sell these securities prior to their maturity or the recovery of their cost bases and believes that it is more likely than not that it will not have to sell these securities prior to their maturity or the recovery of their cost bases.

As of September 30, 2017 and December 31, 2016, securities having fair values of \$105.9 million and \$119.4 million, respectively, were specifically pledged as collateral for public funds, trust deposits, the Federal Reserve Bank of Philadelphia discount window program, Federal Home Loan Bank of Pittsburgh ("FHLB") borrowings and other purposes. The FHLB has a blanket lien on non-pledged, mortgage-related loans as part of the Corporation's borrowing agreement with the FHLB.

The amortized cost and fair value of investment securities *available for sale* as of September 30, 2017 and December 31, 2016, by contractual maturity, are detailed below:

Table of Contents

As of September 30, 2017 and December 31, 2016, the Corporation's investment securities held in *trading* accounts totaled \$4.4 million and \$3.9 million, respectively, and consisted solely of deferred compensation trust accounts which were invested in listed mutual funds whose diversification is at the discretion of the deferred compensation plan participants. Investment securities held in trading accounts are reported at fair value, with adjustments in fair value reported through earnings.

Note 5 - Loans and Leases

The loan and lease portfolio consists of loans and leases originated by the Corporation, as well as loans acquired in mergers and acquisitions. These mergers and acquisitions include the January 2015 acquisition of CBH, the November 2012 transaction with First Bank of Delaware ("FBD") and the July 2010 acquisition of First Keystone Financial, Inc. ("FKF"). Many of the tables in this footnote are presented for all loans as well as supplemental tables for *originated* and *acquired* loans.

A. The table below details all portfolio loans and leases as of the dates indicated:

	September 30, 2017	December 31, 2016
Loans held for sale	\$6,327	\$9,621
Real estate loans:		
Commercial mortgage	\$1,224,571	\$1,110,898
Home equity lines and loans	206,974	207,999
Residential mortgage	422,524	413,540
Construction	133,505	141,964
Total real estate loans	1,987,574	1,874,401
Commercial and industrial	597,595	579,791
Consumer	31,306	25,341
Leases	60,870	55,892
Total portfolio loans and leases	2,677,345	2,535,425
Total loans and leases	\$2,683,672	\$2,545,046
Loans with fixed rates	\$1,141,433	\$1,130,172
Loans with adjustable or floating rates	1,542,239	1,414,874
Total loans and leases	\$2,683,672	\$2,545,046
Net deferred loan origination fees included in the above loan table	\$(718)	\$(735)

The table below details the Corporation's *originated* portfolio loans and leases as of the dates indicated:

	September 30,	December 31,
	2017	2016
Loans held for sale	\$6,327	\$9,621
Real estate loans:		
Commercial mortgage	\$1,089,369	\$946,879
Home equity lines and loans	182,301	178,450
Residential mortgage	362,237	342,268
Construction	133,505	141,964
Total real estate loans	1,767,412	1,609,561
Commercial and industrial	573,607	550,334
Consumer	31,165	25,200
Leases	60,870	55,892
Total portfolio loans and leases	2,433,054	2,240,987
Total loans and leases	\$2,439,381	\$2,250,608
Loans with fixed rates	\$1,026,646	\$992,917
Loans with adjustable or floating rates	1,412,735	1,257,691
Total originated loans and leases	\$2,439,381	\$2,250,608
Net deferred loan origination fees included in the above loan table	\$(718)	\$(735)

Table of Contents

The table below details the Corporation's *acquired* portfolio loans as of the dates indicated:

	September 30,	December 31,
	2017	2016
Real estate loans:		
Commercial mortgage	\$ 135,202	\$ 164,019
Home equity lines and loans	24,673	29,549
Residential mortgage	60,287	71,272
Total real estate loans	220,162	264,840
Commercial and industrial	23,988	29,457
Consumer	141	141
Total portfolio loans and leases	244,291	294,438
Total acquired loans and leases	\$ 244,291	\$ 294,438
Loans with fixed rates	\$ 114,787	\$ 137,255
Loans with adjustable or floating rates	129,504	157,183
Total acquired loans and leases	\$ 244,291	\$ 294,438

B. Components of the net investment in leases are detailed as follows:

<i>(dollars in thousands)</i>	September 30,	December 31,
	2017	2016
Minimum lease payments receivable	\$ 67,561	\$ 62,379
Unearned lease income	(8,946)	(8,608)
Initial direct costs and deferred fees	2,255	2,121
Total	\$ 60,870	\$ 55,892

C. Non-Performing Loans and Leases⁽¹⁾

The following table details *all* non-performing portfolio loans and leases as of the dates indicated:

<i>(dollars in thousands)</i>	September 30,	December 31,
	2017	2016
Non-accrual loans and leases:		
Commercial mortgage	\$ 193	\$ 320
Home equity lines and loans	613	2,289
Residential mortgage	1,589	2,658
Commercial and industrial	1,977	2,957
Consumer	—	2
Leases	100	137
Total	\$ 4,472	\$ 8,363

Purchased credit-impaired loans, which have been recorded at their fair values at acquisition, and which are performing, are excluded from this table, with the exception of \$270 thousand and \$344 thousand of purchased credit-impaired loans as of September 30, 2017 and December 31, 2016, respectively, which became non-performing subsequent to acquisition.

The following table details non-performing *originated* portfolio loans and leases as of the dates indicated:

<i>(dollars in thousands)</i>	September 30,	December 31,
	2017	2016
Non-accrual originated loans and leases:		
Commercial mortgage	\$ 144	\$ 265
Home equity lines and loans	270	2,169
Residential mortgage	458	1,654
Commercial and industrial	1,131	941
Consumer	—	2
Leases	100	137
Total	\$ 2,103	\$ 5,168

Table of Contents

The following table details non-performing *acquired* portfolio loans⁽¹⁾ as of the dates indicated:

<i>(dollars in thousands)</i>	September 30,	December 31,
	2017	2016
Non-accrual acquired loans and leases:		
Commercial mortgage	\$ 49	\$ 55
Home equity lines and loans	343	120
Residential mortgage	1,131	1,004
Commercial and industrial	846	2,016
Total	\$ 2,369	\$ 3,195

Purchased credit-impaired loans, which have been recorded at their fair values at acquisition, and which are performing, are excluded from this table, with the exception of \$270 thousand and \$344 thousand of purchased credit-impaired loans as of September 30, 2017 and December 31, 2016, respectively, which became non-performing subsequent to acquisition.

D. Purchased Credit-Impaired Loans

The outstanding principal balance and related carrying amount of credit-impaired loans, for which the Corporation applies ASC 310-30, *Accounting for Purchased Loans with Deteriorated Credit Quality*, to account for the interest earned, as of the dates indicated, are as follows:

<i>(dollars in thousands)</i>	September 30,	December 31,
	2017	2016
Outstanding principal balance	\$ 15,149	\$ 18,091
Carrying amount ⁽¹⁾	\$ 10,380	\$ 12,432

⁽¹⁾ *Includes \$274 thousand and \$368 thousand of purchased credit-impaired loans as of September 30, 2017 and December 31, 2016, respectively, for which the Corporation could not estimate the timing or amount of*

expected cash flows to be collected at acquisition, and for which no accretable yield is recognized. Additionally, the table above includes \$270 thousand and \$344 thousand of purchased credit-impaired loans as of September 30, 2017 and December 31, 2016, respectively, which became non-performing subsequent to acquisition, which are disclosed in Note 5C, above, and which also have no accretable yield.

The following table presents changes in the accretable discount on purchased credit-impaired loans, for which the Corporation applies ASC 310-30, for the nine months ended September 30, 2017:

<i>(dollars in thousands)</i>	Accretable Discount
Balance, December 31, 2016	\$ 3,233
Accretion	(1,553)
Reclassifications from nonaccretable difference	—
Additions/adjustments	666
Disposals	—
Balance, September 30, 2017	\$ 2,346

Table of Contents**E. Age Analysis of Past Due Loans and Leases**

Table of Contents

As part of the process of determining the Allowance for the different segments of the loan and lease portfolio, Management considers certain credit quality indicators. For the commercial mortgage, construction and commercial and industrial loan segments, periodic reviews of the individual loans are performed by both in-house staff as well as external loan reviewers. The result of these reviews is reflected in the risk grade assigned to each loan. These internally assigned grades are as follows:

Pass – Loans considered satisfactory with no indications of deterioration.

Special mention - Loans classified as special mention have a potential weakness that deserves management's close attention. If left uncorrected, these potential weaknesses may result in deterioration of the repayment prospects for the loan or of the institution's credit position at some future date.

Substandard - Loans classified as substandard are inadequately protected by the current net worth and payment capacity of the obligor or of the collateral pledged, if any. Substandard loans have a well-defined weakness or weaknesses that jeopardize the liquidation of the debt. They are characterized by the distinct possibility that the institution will sustain some loss if the deficiencies are not corrected.

Doubtful - Loans classified as doubtful have all the weaknesses inherent in those classified as substandard, with the added characteristic that the weaknesses make collection or liquidation in full, on the basis of currently existing facts, conditions, and values, highly questionable and improbable.

In addition, for the remaining segments of the loan and lease portfolio, which include residential mortgage, home equity lines and loans, consumer, and leases, the credit quality indicator used to determine this component of the Allowance is based on performance status.

The following tables detail the carrying value of *all* portfolio loans and leases by portfolio segment based on the credit quality indicators used to determine the Allowance as of September 30, 2017 and December 31, 2016:

G. Troubled Debt Restructurings (“TDRs”)

The restructuring of a loan is considered a “troubled debt restructuring” if both of the following conditions are met: (i) the borrower is experiencing financial difficulties, and (ii) the creditor has granted a concession. The most common concessions granted include one or more modifications to the terms of the debt, such as (a) a reduction in the interest rate for the remaining life of the debt, (b) an extension of the maturity date at an interest rate lower than the current market rate for new debt with similar risk, (c) a temporary period of interest-only payments, (d) a reduction in the contractual payment amount for either a short period or remaining term of the loan, and (e) for leases, a reduced lease payment. A less common concession granted is the forgiveness of a portion of the principal.

The determination of whether a borrower is experiencing financial difficulties takes into account not only the current financial condition of the borrower, but also the potential financial condition of the borrower, were a concession not granted. Similarly, the determination of whether a concession has been granted is very subjective in nature. For example, simply extending the term of a loan at its original interest rate or even at a higher interest rate could be interpreted as a concession unless the borrower could readily obtain similar credit terms from a different lender.

The following table presents the balance of TDRs as of the indicated dates:

<i>(dollars in thousands)</i>	September 30, 2017	December 31, 2016
TDRs included in nonperforming loans and leases	\$ 2,033	\$ 2,632
TDRs in compliance with modified terms	6,597	6,395
Total TDRs	\$ 8,630	\$ 9,027

Table of Contents

The following table presents information regarding loan and lease modifications categorized as TDRs for the three months ended September 30, 2017:

	For the Three Months Ended September 30, 2017	
	Pre-	Post-
	Modification Number of Outstanding Contracts Recorded	Modification Outstanding Contracts Recorded
	Investment	Investment
Residential mortgage	2 \$ 240	\$ 240
Leases	2 28	28
Total	4 \$ 268	\$ 268

The following table presents information regarding the types of loan and lease modifications made for the three months ended September 30, 2017:

	Number of Contracts for the Three Months Ended September 30, 2017						
			Interest Rate	Contractual Payment Reduction (Leases only)		Forgiveness of Interest	Forgiveness of Principal
	Interest Loan Term Rate	Change and Term	Change and/or Interest- Only Period				
	Extension Change

I. Loan Mark

Loans acquired in mergers and acquisitions are recorded at fair value as of the date of the transaction. This adjustment to the acquired principal amount is referred to as the “Loan Mark”. With the exception of purchased credit impaired loans, whose Loan Mark is accounted for under ASC 310-30, the Loan Mark is amortized or accreted as an adjustment to yield over the lives of the loans. The following tables detail, for *acquired loans*, the outstanding principal, remaining loan mark, and recorded investment, by portfolio segment, as of the dates indicated:

<i>(dollars in thousands)</i>	As of September 30, 2017		
	Outstanding	Remaining	Recorded
	Principal	Loan	Investment
		Mark	
Commercial mortgage	\$ 138,926	\$ (3,724)	\$ 135,202
Home equity lines and loans	26,181	(1,508)	24,673
Residential mortgage	62,455	(2,168)	60,287

Commercial and industrial	26,790	(2,802)	23,988
Consumer	162	(21)	141
Total	\$254,514	\$ (10,223)	\$ 244,291

(dollars in thousands)

As of December 31, 2016

	Outstanding	Remaining	Recorded
	Principal	Loan	Investment
		Mark	
Commercial mortgage	\$ 168,612	\$ (4,593) \$ 164,019
Home equity lines and loans	31,236	(1,687) 29,549
Residential mortgage	73,902	(2,630) 71,272
Commercial and industrial	32,812	(3,355) 29,457
Consumer	163	(22) 141
Total	\$306,725	\$ (12,287) \$ 294,438

Table of Contents**Note 6 - Deposits**

The following table details the components of deposits:

<i>(dollars in thousands)</i>	September 30, 2017	December 31, 2016
Interest-bearing checking accounts	\$395,383	\$379,424
Money market accounts	720,613	761,657
Savings accounts	264,273	232,193
Wholesale non-maturity deposits	48,620	74,272
Wholesale time deposits	178,610	73,037
Time deposits	316,068	322,912
Total interest-bearing deposits	1,923,567	1,843,495
Non-interest-bearing deposits	760,614	736,180
Total deposits	\$2,684,181	\$2,579,675

Note 7 - Borrowings**A. Short-term borrowings**

The Corporation's short-term borrowings (original maturity of one year or less), which consist of a revolving line of credit with a correspondent bank, funds obtained from overnight repurchase agreements with commercial customers, FHLB advances with original maturities of one year or less and overnight fed funds, are detailed below.

A summary of short-term borrowings is as follows:

<i>(dollars in thousands)</i>	September 30, 2017	December 31, 2016
-------------------------------	-----------------------------------	----------------------------------

Repurchase agreements* – commercial customers	\$ 18,874	\$ 39,151
Short-term FHLB advances	162,000	165,000
Overnight federal funds	—	—
Total short-term borrowings	\$ 180,874	\$ 204,151

* *Overnight repurchase agreements with no expiration date*

The following table sets forth information concerning short-term borrowings:

<i>(dollars in thousands)</i>	Three Months Ended		Nine Months Ended			
	September 30,		September 30,			
	2017	2016	2017	2016	2017	2016
Balance at period-end	\$180,874	\$50,065	\$180,874	\$50,065		
Maximum amount outstanding at any month-end	184,578	50,065	184,578	54,715		
Average balance outstanding during the period	182,845	40,966	110,268	35,836		
Weighted-average interest rate:						
As of period-end	1.17	% 0.32	% 1.17	% 0.32	%	%
Paid during the period	1.19	% 0.33	% 0.98	% 0.26	%	%

B. Long-term FHLB Advances

The Corporation's long-term FHLB advances are comprised of advances from the FHLB with original maturities of greater than one year.

The following table presents the remaining periods until maturity of the long-term FHLB advances:

<i>(dollars in thousands)</i>	September 30,	December 31,
	2017	2016
Within one year	\$ 76,411	\$ 75,000
Over one year through five years	58,240	114,742
Total long-term FHLB advances	\$ 134,651	\$ 189,742

Table of Contents

The following table presents rate and maturity information on long-term FHLB advances:

Description	Maturity Range ⁽¹⁾		Weighted Average Rate ⁽¹⁾	Coupon Rate ⁽¹⁾		Balance	
	From	To		From	To	September 30, 2017	December 31, 2016
Bullet maturity – fixed rate	12/29/2017	09/2020	1.60	% 0.95%	2.13%	\$98,612	\$153,612
Bullet maturity – variable rate	11/28/2017	12/28/2017	1.46	% 1.46%	1.46%	15,000	15,000
Convertible-fixed ⁽²⁾	01/03/2018	08/20/2018	2.94	% 2.58%	3.50%	21,039	21,130
Total						\$134,651	\$189,742

⁽¹⁾Maturity range, weighted average rate and coupon rate range refers to September 30, 2017 balances

⁽²⁾FHLB advances whereby the FHLB has the option, at predetermined times, to convert the fixed interest rate to an adjustable interest rate indexed to the London Interbank Offered Rate (“LIBOR”). The Corporation has the option to prepay these advances, without penalty, if the FHLB elects to convert the interest rate to an adjustable rate. As of September 30, 2017, substantially all FHLB advances with this convertible feature are subject to conversion in fiscal 2017. These advances are included in the maturity ranges in which they mature, rather than the period in which they are subject to conversion.

C. Other Borrowings Information

As of September 30, 2017, the Corporation had a maximum borrowing capacity with the FHLB of \$1.28 billion, of which the unused capacity was 1.03 billion. In addition, there were unused capacities of \$79.0 million in overnight federal funds lines, \$125.1 million of Federal Reserve Discount Window borrowings and \$5.0 million in a revolving line of credit from a correspondent bank. In connection with its FHLB borrowings, the Corporation is required to hold the capital stock of the FHLB. The amount of FHLB capital stock held was \$16.2 million and \$17.3 million as of September 30, 2017 and December 31, 2016, respectively. The carrying amount of the FHLB capital stock approximates its redemption value.

Note 8 – Stock-Based Compensation

A. General Information

Prior to April 25, 2007, all shares authorized for grant as stock-based compensation were limited to grants of stock options. On April 25, 2007, the shareholders of the Corporation approved the Corporation's "2007 Long-Term Incentive Plan" (the "2007 LTIP") under which a total of 428,996 shares of the Corporation's common stock were made available for award grants. On April 28, 2010, the shareholders of the Corporation approved the Corporation's "2010 Long Term Incentive Plan" (the "2010 LTIP") under which a total of 445,002 shares of the Corporation's common stock were made available for award grants. On April 30, 2015, the shareholders of the Corporation approved the Amended and Restated Bryn Mawr Bank Corporation 2010 Long-Term Incentive Plan (the "Amended 2010 LTIP"), under which the total number of shares of Corporation Common Stock made available for award grants was increased by 500,000 shares to 945,002 shares.

In addition to the shareholder-approved plans mentioned in the preceding paragraph, the Corporation periodically authorizes grants of stock-based compensation as inducement awards to new employees. This type of award does not require shareholder approval in accordance with Rule 5635(c)(4) of the Nasdaq listing rules.

Equity awards are authorized to be in the form of, among others, options to purchase the Corporation's common stock, restricted stock units ("RSUs") and performance stock units ("PSUs").

RSUs have a restriction based on the passage of time. The grant date fair value of the RSUs is based on the closing price on the date of the grant.

PSUs have a restriction based on the passage of time and also have a restriction based on a performance criteria. The performance criteria may be a market-based criteria measured by the Corporation's total shareholder return ("TSR") relative to the performance of the community bank index or a bank peer group for the respective period. The grant date fair value of the PSUs, based on the Corporation's TSR relative to the performance of the community bank index, is calculated using the Monte Carlo Simulation method. The performance criteria may also be based on a non-market-based criteria such as return on average equity. The grant date fair value of these PSUs is based on the closing price of the Corporation's stock on the date of the grant. PSU grants may have a vesting percent ranging from 0% to 150%.

Table of Contents**B. Stock Options**

Stock-based compensation cost is measured at the grant date, based on the fair value of the award and is recognized as an expense over the vesting period. The fair value of stock option grants is determined using the Black-Scholes pricing model. The assumptions necessary for the calculation of the fair value include expected life of options, annual volatility of stock price, risk-free interest rate and annual dividend yield.

The following table provides information about options outstanding for the three months ended September 30, 2017:

	Shares	Weighted Average Exercise Price	Weighted Average Grant Date Fair Value
Options outstanding, June 30, 2017	139,834	\$ 20.65	\$ 4.85
Forfeited	—	\$ —	\$ —
Expired	(250)	\$ 22.00	\$ 4.90
Exercised	(12,838)	\$ 22.03	\$ 5.11
Options outstanding, September 30, 2017	126,746	\$ 20.51	\$ 4.82

The following table provides information about options outstanding for the nine months ended September 30, 2017:

	Shares	Weighted Average Exercise Price	Weighted Average Grant Date Fair Value
--	---------------	--	---

Edgar Filing: BRYN MAWR BANK CORP - Form 10-Q

Options outstanding, December 31, 2016	185,023	\$ 21.04	\$ 4.88
Forfeited	—	\$ —	\$ —
Expired	(250)	\$ 22.00	\$ 4.90
Exercised	(58,027)	\$ 22.20	\$ 5.00
Options outstanding, September 30, 2017	126,746	\$ 20.51	\$ 4.82

As of September 30, 2017, there were no unvested stock options.

For the three and nine months ended September 30, 2017, the Corporation did not recognize any expense related to stock options. As of September 30, 2017, there was no unrecognized expense related to stock options.

Proceeds, related tax benefits realized from options exercised and intrinsic value of options exercised during the three and nine months ended September 30, 2017 and 2016 are detailed below:

<i>(dollars in thousands)</i>	Three Months Ended		Nine Months Ended	
	September 30, 2017	2016	September 30, 2017	2016
Proceeds from exercise of stock options	\$283	\$559	\$1,288	\$1,205
Related tax benefit recognized	96	98	402	188
Net proceeds of options exercised	\$379	\$657	\$1,690	\$1,393
Intrinsic value of options exercised	\$273	\$279	\$1,147	\$537

The following table provides information about options outstanding and exercisable at September 30, 2017:

<i>(dollars in thousands, except exercise price)</i>	Outstanding	Exercisable
Number of shares	126,746	126,746
Weighted average exercise price	\$ 20.51	\$ 20.51
Aggregate intrinsic value	\$ 2,952	\$ 2,952
Weighted average contractual term in years	1.5	1.5

For the three and nine months ended September 30, 2017, the Corporation recorded \$74 thousand and \$302 thousand, respectively, of excess tax benefits related to the exercise of stock options.

Table of Contents**C. Restricted Stock Units and Performance Stock Units**

The Corporation has granted RSUs and PSUs under the 2010 LTIP and Amended 2010 LTIP.

RSUs

The compensation expense for the RSUs is measured based on the market price of the stock on the day prior to the grant date and is recognized on a straight line basis over the vesting period.

For the three and nine months ended September 30, 2017, the Corporation recognized \$202 thousand and \$525 thousand, respectively, of expense related to the Corporation's RSUs. As of September 30, 2017, there was \$1.7 million of unrecognized compensation cost related to RSUs. This cost will be recognized over a weighted average period of 2.4 years.

The following table details the unvested RSUs for the three and nine months ended September 30, 2017:

	Three Months Ended		Nine Months Ended	
	September 30, 2017 Weighted		September 30, 2017 Weighted	
	Number of Shares	Average Grant Date Fair Value	Number of Shares	Average Grant Date Fair Value
Beginning balance	55,262	\$ 30.95	58,862	\$ 29.57
Granted	22,117	\$ 39.35	28,317	\$ 39.48
Vested	(10,687)	\$ 30.14	(16,987)	\$ 29.27
Forfeited	(161)	\$ 30.43	(3,661)	\$ 29.38
Ending balance	66,531	\$ 33.88	66,531	\$ 33.88

Edgar Filing: BRYN MAWR BANK CORP - Form 10-Q

For the three and nine months ended September 30, 2017, the Corporation recorded \$42 thousand and \$73 thousand, respectively, of excess tax benefits related to the vesting of RSUs.

PSUs

The compensation expense for PSUs is measured based on the grant date fair value as calculated using the Monte Carlo Simulation method.

For the three and nine months ended September 30, 2017, the Corporation recognized \$359 thousand and \$951 thousand, respectively, of expense related to the PSUs. As of September 30, 2017, there was \$2.6 million of unrecognized compensation cost related to PSUs. This cost will be recognized over a weighted average period of 2.0 years.

The following table details the unvested PSUs for the three and nine months ended September 30, 2017:

	Three Months Ended		Nine Months Ended	
	September 30, 2017		September 30, 2017	
	Weighted		Weighted	
	Number of Shares	Average Grant Date Fair Value	Number of Shares	Average Grant Date Fair Value
Beginning balance	192,844	\$ 18.77	192,844	\$ 18.77
Granted	40,719	\$ 37.84	40,719	\$ 37.84
Vested	(61,815)	\$ 15.05	(61,815)	\$ 15.05
Forfeited	(1,335)	\$ 19.46	(1,335)	\$ 19.46
Ending balance	170,413	\$ 24.67	170,413	\$ 24.67

For the three and nine months ended September 30, 2017, the Corporation recorded \$578 thousand and \$578 thousand, respectively, of excess tax benefits related to the vesting of PSUs.

Note 9 - Pension and Other Post-Retirement Benefit Plans

The Corporation has two defined benefit pension plans (“SERP I” and “SERP II”), both of which are non-qualified plans which are restricted to certain senior officers of the Corporation.

SERP I provides each participant with the equivalent pension benefit provided by a previously settled qualified defined benefit plan on any compensation and bonus deferrals that exceed the IRS limit applicable to such plan.

Table of Contents

On February 12, 2008, the Corporation amended SERP I to freeze further increases in the defined-benefit amounts to all participants, effective March 31, 2008.

On April 1, 2008, the Corporation added SERP II, a non-qualified defined-benefit plan which was restricted to certain senior officers of the Corporation. Effective January 1, 2013, the Corporation curtailed SERP II, as further increases to the defined-benefit amounts to over 20% of the participants were frozen.

The Corporation also has a postretirement medical benefit plan (“PRBP”) that covers or will cover a portion of health insurance costs of certain retired employees and a group of current employees. The PRBP was closed to new participants in 1994. In 2007, the Corporation amended the PRBP to allow for settlement of obligations to certain current and retired employees. Certain retired participant obligations were settled in 2007 and current employee obligations were settled in 2008.

The following tables provide details of the components of the net periodic benefits cost (benefit) for the three and nine months ended September 30, 2017 and 2016:

	Three Months Ended			
	September 30,			
	SERP I		PRBP	
	II			
<i>(dollars in thousands)</i>	2017	2016	2017	2016
Service cost	\$—	\$—	\$—	\$—
Interest cost	44	46	3	5
Expected return on plan assets	—	—	—	—
Amortization of prior service costs	—	—	—	—
Amortization of net loss	15	14	9	10
Net periodic benefit cost	\$59	\$60	\$12	\$15

	Nine Months Ended			
	September 30,			
	SERP I		PRBP	
	II			
<i>(dollars in thousands)</i>	2017	2016	2017	2016
Service cost	\$—	\$—	\$—	\$—
Interest cost	132	138	9	14
Expected return on plan assets	—	—	—	—
Amortization of prior service costs	—	—	—	—

Amortization of net loss	44	43	27	30
Net periodic benefit cost	\$176	\$181	\$36	\$44

SERP I and SERP II: The Corporation contributed \$65 thousand and \$195 thousand during the three and nine months ended September 30, 2017, respectively, and is expected to contribute an additional \$65 thousand to the SERP I and SERP II plans for the remaining three months of 2017.

PRBP: In 2005, the Corporation capped the maximum annual payment under the PRBP at 120% of the 2005 benefit. This maximum was reached in 2008 and the cap is not expected to be increased above this level.

Note 10 - Segment Information

FASB Codification 280 – “Segment Reporting” identifies operating segments as components of an enterprise which are evaluated regularly by the Corporation’s chief operating decision maker, our Chief Executive Officer, in deciding how to allocate resources and assess performance. The Corporation has applied the aggregation criterion set forth in this codification to the results of its operations.

The Corporation’s Banking segment consists of commercial and retail banking. The Banking segment is evaluated as a single strategic unit which generates revenues from a variety of products and services. The Banking segment generates interest income from its lending (including leasing) and investing activities and is dependent on the gathering of lower cost deposits from its branch network or borrowed funds from other sources for funding its loans, resulting in the generation of net interest income. The Banking segment also derives revenues from other sources including gains on the sale of available for sale investment securities, gains on the sale of residential mortgage loans, service charges on deposit accounts, cash sweep fees, overdraft fees, BOLI income and interchange revenue associated with its Visa Check Card offering.

The Wealth Management segment has responsibility for a number of activities within the Corporation, including trust administration, other related fiduciary services, custody, investment management and advisory services, employee benefits and IRA administration, estate settlement, tax services and brokerage. Bryn Mawr Trust of Delaware and Lau Associates are included in the Wealth Management segment of the Corporation since they have similar economic characteristics, products and services to those of the Wealth Management Division of the Corporation. Powers Craft Parker and Beard (“PCPB”), which was merged with the Corporation’s existing insurance subsidiary, Insurance Counsellors of Bryn Mawr (“ICBM”), and the Robert J. McAllister agency (“RJM”), which was acquired on April 1, 2015, now operate under the Powers Craft Parker and Beard, Inc. name. The Wealth Management Division has assumed oversight responsibility for all insurance services of the Corporation. Prior to the PCPB and RJM acquisitions, ICBM was reported through the Banking segment. Any adjustments to prior year figures are immaterial and are not reflected in the tables below.

Table of Contents

The following tables detail segment information for the three and nine months ended September 30, 2017 and 2016:

<i>(dollars in thousands)</i>	Three Months Ended September 30, 2017			Three Months Ended September 30, 2016

Table of Contents**Note 11 - Mortgage Servicing Rights**

The following table summarizes the Corporation's activity related to mortgage servicing rights ("MSRs") for the three and nine months ended September 30, 2017 and 2016:

<i>(dollars in thousands)</i>	Three Months Ended	
	September 30, 2017	2016
Balance, beginning of period	\$5,682	\$4,646
Additions	282	386
Amortization	(229)	(210)
Recovery	—	—
Impairment	(3)	(29)
Balance, end of period	\$5,732	\$4,793
Fair value	\$6,146	\$4,877

<i>(dollars in thousands)</i>	Nine Months Ended	
	September 30, 2017	2016
Balance, beginning of period	\$5,582	\$5,142
Additions	770	888
Amortization	(571)	(526)
Recovery	3	—
Impairment	(52)	(711)
Balance, end of period	\$5,732	\$4,793
Fair value	\$6,146	\$4,877
Residential mortgage loans serviced for others, end of period	\$647,997	\$618,134

As of September 30, 2017 and December 31, 2016, key economic assumptions and the sensitivity of the current fair value of MSRs to immediate 10 and 20 percent adverse changes in those assumptions are as follows:

<i>(dollars in thousands)</i>	September 30, 2017	December 31, 2016
Fair value amount of MSRs	\$ 6,146	\$ 6,154
Weighted average life (in years)	6.0	6.3
Prepayment speeds (constant prepayment rate)*	11.5 %	10.2 %
Impact on fair value:		
10% adverse change	\$ (176)	\$ (115)
20% adverse change	\$ (356)	\$ (238)

Discount rate	9.55	%	9.55	%
Impact on fair value:				
10% adverse change	\$ (211)	\$ (225)
20% adverse change	\$ (409)	\$ (434)

* *Represents the weighted average prepayment rate for the life of the MSR asset.*

Table of Contents

These assumptions and sensitivities are hypothetical and should be used with caution. Changes in fair value based on a 10% variation in assumptions generally cannot be extrapolated because the relationship of the change in assumptions to the change in fair value may not be linear. Also, the effect of a variation in a particular assumption on the fair value of the MSRs is calculated without changing any other assumption. In reality, changes in one factor may result in changes in another, which could magnify or counteract the sensitivities.

Note 12 - Goodwill and Other Intangibles

The Corporation's goodwill and intangible assets related to the acquisitions of Lau Associates, LLC ("Lau") in July 2008, FKF in July 2010, the Private Wealth Management Group of the Hershey Trust Company ("PWMG") in May 2011, Davidson Trust Company ("DTC") in May 2012, the loan and deposit accounts and a branch location of FBD in November 2012, PCPB in October 2014, CBH in January 2015, RJM in April 2015 and Hirshorn in May 2017 are detailed below:

<i>(dollars in thousands)</i>	Balance			Balance		
	December 31,	Additions/ Adjustments	Amortization	September 30,	Amortization Period	
	2016			2017		
Goodwill – Wealth	\$ 20,412	\$ —	\$ —	\$ 20,412		Indefinite
Goodwill – Banking	80,783	—	—	80,783		Indefinite
Goodwill – Insurance	3,570	2,362	—	5,932		Indefinite
Total Goodwill	\$ 104,765	\$ 2,362	\$ —	\$ 107,127		
Core deposit intangible	\$ 3,447	\$ —	\$ (553)) \$ 2,894		10 years
Customer relationships	13,056	2,672	(1,152)) 14,576	10	to 20 years
Non-compete agreements	1,634	41	(295)) 1,380	5	to 10 years
Trade name	2,165	195	(22)) 2,338	3 years	to Indefinite
Domain name	—	151	—	151		Indefinite
Favorable lease	103	—	(35)) 68	17	to 75 months
Total Other Intangibles	\$ 20,405	\$ 3,059	\$ (2,057)) \$ 21,407		
Grand Total	\$ 125,170	\$ 5,421	\$ (2,057)) \$ 128,534		

The Corporation performed its annual review of goodwill and identifiable intangible assets as of October 31, 2016 in accordance with ASC 350, "Intangibles Goodwill and Other." For the eleven months ended September 30, 2017, the Corporation determined there were no events that would necessitate impairment testing of goodwill and other intangible assets.

Note 13 – Derivative Instruments and Hedging Activities

Derivative financial instruments involve, to varying degrees, interest rate, market and credit risk. The Corporation manages these risks as part of its asset and liability management process and through credit policies and procedures. The Corporation seeks to minimize counterparty credit risk by credit limits and collateral agreements and utilizes certain derivative financial instruments to enhance its ability to manage interest rate risk that exists as part of its ongoing business operations. The derivative transactions entered into by the Corporation are an economic hedge of a derivative offerings to Bank customers. The Corporation does not use derivative financial instruments for trading purposes.

Customer Derivatives – Interest Rate Swaps. The Corporation enters into interest rate swaps that allow commercial loan customers to effectively convert a variable-rate commercial loan agreement to a fixed-rate commercial loan agreement. Under these agreements, the Corporation originates variable-rate loans with customers in addition to interest rate swap agreements, which serve to effectively swap the customers' variable-rate loans into a fixed-rate loans. The Corporation then enters into corresponding swap agreements with swap dealer counterparties to economically hedge its exposure on the variable and fixed components of the customer agreements. The interest rate swaps with both the customers and third parties are not designated as hedges under FASB ASC 815 and are marked to market through earnings. As the interest rate swaps are structured to offset each other, changes to the underlying benchmark interest rates considered in the valuation of these instruments do not result in an impact to earnings; however, there may be fair value adjustments related to credit quality variations between counterparties, which may impact earnings as required by FASB ASC 820. As of September 30, 2017, there were no fair value adjustments related to credit quality.

Risk Participation Agreements. The Corporation may enter into a risk participation agreement (“RPA”) with another institution as a means to assume a portion of the credit risk associated with a loan structure which includes a derivative instrument, in exchange for fee income commensurate with the risk assumed. This type of derivative is referred to as an “RPA sold”. In addition, in an effort to reduce the credit risk associated with an interest rate swap agreement with a borrower for whom the Corporation has provided a loan structured with a derivative, the Corporation may purchase a risk participation agreement from an institution participating in the facility in exchange for a fee commensurate with the risk shared. This type of derivative is referred to as an “RPA purchased”.

Table of Contents

The following table details the derivative instruments as of September 30, 2017 and December 31, 2016:

	Asset Derivatives		Liability Derivatives	
	Notional	Fair	Notional	Fair
<i>(dollars in thousands)</i>				
	Amount	Value	Amount	Value
Derivatives not designated as hedging instruments				
As of September 30, 2017:				
Customer derivatives – interest rate swaps	\$83,217	\$1,950	\$83,217	\$1,946
Risk participation agreements sold	—	—	905	3
Risk participation agreements purchased	6,474	1	—	—
Total derivatives	\$89,691	\$1,951	\$84,122	\$1,949
As of December 31, 2016:				
Customer derivatives – interest rate swaps	\$—	\$—	\$—	\$—
Risk participation agreements	—	—	—	—
Total derivatives	\$—	\$—	\$—	\$—

The Corporation has an International Swaps and Derivatives Association agreement with a third party that requires a minimum dollar transfer amount upon a margin call. This requirement is dependent on certain specified credit measures. The amount of collateral posted with the third party at September 30, 2017 and December 31, 2016 was \$1.7 million and \$0, respectively. The amount of collateral posted with the third party is deemed to be sufficient to collateralize both the fair market value change as well as any additional amounts that may be required as a result of a change in the specified credit measures. The aggregate fair value of all derivative financial instruments in a liability position with credit measure contingencies and entered into with the third party was \$1.9 million and \$0 as of September 30, 2017 and December 31, 2016, respectively.

Note 14 – Accumulated Other Comprehensive Income (Loss)

The following tables detail the components of accumulated other comprehensive income (loss) for the three and nine month periods ended September 30, 2017 and 2016:

<i>(dollars in thousands)</i>	Net Change in Unrealized Gains	Net Change in Unfunded	Accumulated Other Comprehensive
-------------------------------	---	---------------------------------------	--

	on Available-for- Sale Investment Securities	Pension Liability	(Loss) Income	
Balance, June 30, 2017	\$ (433) \$ (1,131) \$ (1,564)
Net change	149	15	164	
Balance, September 30, 2017	\$ (284) \$ (1,116) \$ (1,400)
Balance, June 30, 2016	\$ 3,665	\$ (1,177) \$ 2,488	
Net change	(376) 16	(360)
Balance, September 30, 2016	\$ 3,289	\$ (1,161) \$ 2,128	

Net Change in

<i>(dollars in thousands)</i>	Unrealized Gains on Available-for- Sale Investment Securities	Net Change in Unfunded Pension Liability	Accumulated Other Comprehensive (Loss) Income	
Balance, December 31, 2016	\$ (1,231) \$ (1,178) \$ (2,409)

Balance, September 30, 2017	\$ (284) \$ (1,116) \$ (1,400)
Balance, December 31, 2015	\$ 774	\$ (1,186) \$ (412)
Net change	2,515	25	2,540	
Balance, September 30, 2016	\$ 3,289	\$ (1,161) \$ 2,128	

Table of Contents

The following table details the amounts reclassified from each component of accumulated other comprehensive loss to each component's applicable income statement line, for the three and nine month periods ended September 30, 2017 and 2016:

Description of Accumulated Other Comprehensive Loss Component	Amount Reclassified from Accumulated		Affected Income Statement Category
	Other Comprehensive Loss Three Months Ended September 30, 2017 2016		
<i>Net unrealized gain on investment securities available for sale:</i>			
Realization of loss on sale of investment securities available for sale	\$ (72)	\$ 28	Net gain on sale of available for sale investment securities
Less: income tax benefit (expense)	(25)	10	Less: income tax expense
Net of income tax	\$ (47)	\$ 18	Net of income tax
<i>Unfunded pension liability:</i>			
Amortization of net loss included in net periodic pension costs*	\$ 24	\$ 24	Employee benefits
Amortization of prior service cost included in net periodic pension costs*	—	—	Employee benefits
Total expense before income tax benefit	24	24	Total expense before income tax benefit
Less: income tax benefit	8	8	Less: income tax benefit
Net of income tax	\$ 16	\$ 16	Net of income tax
Description of Accumulated Other Comprehensive Loss Component	Amount Reclassified from Accumulated		Affected Income Statement Category
	Other Comprehensive Loss		

	Nine Months Ended September 30, 2017 2016		
<i>Net unrealized gain on investment securities available for sale:</i>			
Realization of (gain) loss on sale of investment securities available for sale	\$ (73)	\$ 86	Net (loss) gain on sale of available for sale investment securities
Less: income tax expense	(25)	30	Less: income tax expense
Net of income tax	\$ (48)	\$ 56	Net of income tax
 <i>Unfunded pension liability:</i>			
Amortization of net loss included in net periodic pension costs*	\$ 71	\$ 73	Employee benefits
Amortization of prior service cost included in net periodic pension costs*	—	—	Employee benefits
Total expense before income tax benefit	71	73	Total expense before income tax benefit
Less: income tax benefit	25	26	Less: income tax benefit
Net of income tax	\$ 46	\$ 47	Net of income tax

*Accumulated other comprehensive loss components are included in the computation of net periodic pension cost. See Note 9 - Pension and Other Post-Retirement Benefit Plans

Note 15 - Shareholders' Equity

Dividend

On October 19, 2017, the Corporation's Board of Directors declared a regular quarterly dividend of \$0.22 per share payable December 1, 2017 to shareholders of record as of November 1, 2017. During the third quarter of 2017, the Corporation paid or accrued, as applicable, a regular quarterly dividend of \$0.22 per share. This dividend totaled \$3.8 million, based on outstanding shares and restricted stock units as of August 2, 2017 of 17,248,984 shares.

Table of Contents

S-3 Shelf Registration Statement and Offerings Thereunder

In March 2015, the Corporation filed a shelf registration statement on Form S-3 (the “Shelf Registration Statement”) to replace its 2012 Shelf Registration Statement, which was set to expire in April 2015. The Shelf Registration Statement allows the Corporation to raise additional capital through offers and sales of registered securities consisting of common stock, debt securities, warrants to purchase common stock, stock purchase contracts and units or units consisting of any combination of the foregoing securities. Using the prospectus in the Shelf Registration Statement, together with applicable prospectus supplements, the Corporation may sell, from time to time, in one or more offerings, such securities in a dollar amount up to \$200 million, in the aggregate.

In addition, the Corporation has in place under its Shelf Registration Statement a Dividend Reinvestment and Stock Purchase Plan (the “Plan”), which allows it to issue up to 1,500,000 shares of registered common stock. The Plan allows for the grant of a request for waiver (“RFW”) above the Plan’s maximum investment of \$120 thousand per account per year. An RFW is granted based on a variety of factors, including the Corporation’s current and projected capital needs, prevailing market prices of the Corporation’s common stock and general economic and market conditions.

Options

In addition to shares that may be issued through the Plan, the Corporation also issues shares through the exercise of stock options and the vesting of RSUs and PSUs. During the nine months ended September 30, 2017, 58,027 shares were issued pursuant to the exercise of stock options, increasing shareholders’ equity by \$1.3 million. During the nine months ended September 30, 2017, 16,985 RSUs vested and were issued and 61,815 PSUs vested and were issued. The increase in shareholders’ equity related to the issuance of the RSUs and PSUs, which is recognized over the vesting period through stock based compensation expense, was \$497 thousand and \$930 thousand, respectively.

Stock Repurchases

On August 6, 2015, the Corporation announced a stock repurchase program (the “2015 Program”) under which the Corporation may repurchase up to 1,200,000 shares of the Corporation’s common stock, at an aggregate purchase price not to exceed \$40 million. During the nine months ended September 30, 2017, no shares were repurchased under the 2015 Program. As of September 30, 2017, the maximum number of shares remaining authorized for repurchase under the 2015 Program was 189,300. In addition to the 2015 Program, it is the Corporation’s practice to retire shares to its treasury account upon the vesting of stock awards to certain officers in order to cover the statutory income tax withholdings related to such vestings.

Note 16 - Accounting for Uncertainty in Income Taxes

The Corporation recognizes the financial statement benefit of a tax position only after determining that the Corporation would be more likely than not to sustain the position following an examination. For tax positions meeting the more-likely-than-not threshold, the amount recognized in the financial statements is the largest benefit that has a greater than 50% likelihood of being realized upon settlement with the relevant tax authority.

The Corporation is subject to income taxes in the United States federal jurisdiction and multiple state jurisdictions. The Corporation is no longer subject to U.S. federal income tax examination by taxing authorities for years before 2014.

The Corporation's policy is to record interest and penalties on uncertain tax positions as income tax expense. No interest or penalties were accrued for the three or nine month periods ended September 30, 2017 or 2016.

Note 17 - Fair Value Measurement

The following disclosures are made in conjunction with the application of fair value measurements.

FASB ASC 820 "Fair Value Measurement" establishes a fair value hierarchy based on the nature of data inputs for fair value determinations, under which the Corporation is required to value each asset using assumptions that market participants would utilize to value that asset. When the Corporation uses its own assumptions, it is required to disclose additional information about the assumptions used and the effect of the measurement on earnings or the net change in assets for the period.

The Corporation's investment securities available for sale, which generally include state and municipal securities, U.S. government agency securities and mortgage-related securities, are reported at fair value. These securities are valued by an independent third party. The third party's evaluations are based on market data. They utilize evaluated pricing models that vary by asset and incorporate available trade, bid and other market information. For securities that do not trade on a daily basis, their pricing applications apply available information such as benchmarking and matrix pricing. The market inputs normally sought in the evaluation of securities include benchmark yields, reported trades, broker/dealer quotes (only obtained from market makers or broker/dealers recognized as market participants), issuer spreads, two-sided markets, benchmark securities, bids, offers and reference data. For certain securities, additional inputs may be used or some market inputs may not be applicable. Inputs are prioritized differently on any given day based on market conditions.

Table of Contents

U.S. Government agency securities are evaluated and priced using multi-dimensional relational models and option-adjusted spreads. State and municipal securities are evaluated on a series of matrices including reported trades and material event notices. Mortgage-related securities are evaluated using matrix correlation to treasury or floating index benchmarks, prepayment speeds, monthly payment information and other benchmarks. Other available for sale investments are evaluated using a broker-quote based application, including quotes from issuers. The Corporation has a sufficient understanding of the third party service's valuation models, assumptions and inputs used in determining the fair value of available for sale investments to enable management to maintain an appropriate system of internal control.

The Corporation's interest rate swaps are reported at fair value utilizing Level 2 inputs. Prices of these instruments are obtained through an independent pricing source utilizing pricing information which may include market observed quotations for swaps, LIBOR rates, forward rates and rate volatility. When entering into a derivative contract, the Corporation is exposed to fair value changes due to interest rate movements, and the potential non-performance of our contract counterparty. The Corporation has developed a methodology to value the non-performance risk based on internal credit risk metrics and the unique characteristics of derivative instruments, which include notional exposure rather than principle at risk and interest payment netting. The results of this methodology are used to adjust the base fair value of the instrument for the potential counterparty credit risk.

The value of the investment portfolio and interest rate swaps are determined using three broad levels of inputs:

Level 1 – Quoted prices in active markets for identical securities.

Level 2 – Quoted prices for similar instruments in active markets; quoted prices for identical or similar instruments in markets that are not active and model-derived valuations whose inputs are observable or whose significant value drivers are observable.

Level 3 – Instruments whose significant value drivers are unobservable.

These levels are not necessarily an indication of the risks or liquidity associated with these investments. The following tables summarize the assets at September 30, 2017 and December 31, 2016 that are recognized on the Corporation's balance sheet using fair value measurement determined based on the differing levels of input.

The following table sets forth the fair value of assets measured on a recurring and non-recurring basis as of September 30, 2017:

<i>(dollars in millions)</i>	Total	Level 1	Level 2	Level 3
Assets Measured at Fair Value on a Recurring Basis:				
Investment securities (available for sale and trading):				
U.S. Treasury securities	\$0.1	\$ 0.1	\$—	\$—
Obligations of the U.S. government agency securities	142.7	—	142.7	—
Obligations of state & political subdivisions	24.1	—	24.1	—
Mortgage-backed securities	266.9	—	266.9	—
Collateralized mortgage obligations	39.6	—	39.6	—
Mutual funds	7.9	7.9	—	—
Other debt securities	1.1	—	1.1	—
Interest rate swaps	1.9	—	1.9	—
Total assets measured on a recurring basis at fair value	\$484.3	\$ 8.0	\$476.3	\$—
Assets Measured at Fair Value on a Non-Recurring Basis				
Mortgage servicing rights	\$6.1	\$—	\$—	\$6.1
Impaired loans and leases	10.7	—	—	10.7
Other real estate owned (“OREO”)	0.9	—	—	0.9
Total assets measured on a non-recurring basis at fair value	\$17.7	\$—	\$—	\$17.7

Table of Contents

The following table sets forth the fair value of assets measured on a recurring and non-recurring basis as of December 31, 2016:

<i>(dollars in millions)</i>	Total	Level 1	Level 2	Level 3
Assets Measured at Fair Value on a Recurring Basis:				
Investment securities (available for sale and trading):				
U.S. Treasury securities	\$200.1	\$200.1	\$—	\$—
Obligations of the U.S. government agency securities	82.2	—	82.2	—
Obligations of state & political subdivisions	33.5	—	33.5	—
Mortgage-backed securities	188.8	—	188.8	—
Collateralized mortgage obligations	48.7	—	48.7	—
Mutual funds	19.1	19.1	—	—
Other debt securities	1.3	—	1.3	—
Total assets measured on a recurring basis at fair value	\$573.7	\$219.2	\$354.5	\$—
Assets Measured at Fair Value on a Non-Recurring Basis				
Mortgage servicing rights	\$6.2	\$—	\$—	\$6.2
Impaired loans and leases	14.3	—	—	14.3
OREO	1.0	—	—	1.0
Total assets measured on a non-recurring basis at fair value	\$21.5	\$—	\$—	\$21.5

During the three and nine months ended September 30, 2017, a decrease of \$6 thousand and an increase of \$37 thousand were recorded in the Allowance as a result of adjusting the carrying value and estimated fair value of the impaired loans in the above tables. As it relates to the fair values of assets measured on a recurring basis, there have been no transfers between levels during the three and nine months ended September 30, 2017.

Impaired Loans

The Corporation evaluates and values impaired loans at the time the loan is identified as impaired, and the fair values of such loans are estimated using Level 3 inputs in the fair value hierarchy. Each loan's collateral has a unique appraisal and management's discount of the value is based on the factors unique to each impaired loan. The significant unobservable input in determining the fair value is management's subjective discount on appraisals of the collateral securing the loan, which range from 10% - 50%. Collateral may consist of real estate and/or business assets including equipment, inventory and/or accounts receivable and the value of these assets is determined based on the appraisals by qualified licensed appraisers hired by the Corporation. Appraised and reported values may be discounted based on management's historical knowledge, changes in market conditions from the time of valuation, estimated costs to sell, and/or management's expertise and knowledge of the client and the client's business.

The Corporation has an appraisal policy in which an appraisal is obtained for a commercial loan at the point at which the loan either becomes nonperforming or is downgraded to a substandard or worse classification. For consumer loans, the Corporation obtains updated appraisals when a loan becomes 90 days past due or when it receives other information that may indicate possible impairment. Based on the appraisals obtained by the Corporation, an appropriate Allowance is allocated to the particular loan.

Other Real Estate Owned

Other real estate owned consists of properties acquired as a result of foreclosures and deeds in-lieu-of foreclosure. Properties are classified as OREO and are reported at the lower of cost or fair value less cost to sell, and are classified as Level 3 in the fair value hierarchy.

Mortgage Servicing Rights

MSRs do not trade in an active, open market with readily observable prices. Accordingly, the Corporation obtains the fair value of the MSRs using a third-party pricing provider. The provider determines the fair value by discounting projected net servicing cash flows of the remaining servicing portfolio. The valuation model used by the provider considers market loan prepayment predictions and other economic factors which the Corporation considers to be significant unobservable inputs. The fair value of MSRs is mostly affected by changes in mortgage interest rates since rate changes cause the loan prepayment acceleration factors to increase or decrease. All assumptions are market driven. The Corporation has a sufficient understanding of the third party service's valuation models, assumptions and inputs used in determining the fair value of MSRs to enable management to maintain an appropriate system of internal control. Mortgage servicing rights are classified within Level 3 of the fair value hierarchy as the valuation is model driven and primarily based on unobservable inputs.

Table of Contents

Note 18 - Fair Value of Financial Instruments

FASB ASC 825, "Disclosures about Fair Value of Financial Instruments" requires disclosure of the fair value information about financial instruments, whether or not recognized in the balance sheet, for which it is practicable to estimate such value. In cases where quoted market prices are not available, fair values are based on estimates using present value or other fair value techniques. Those techniques are significantly affected by the assumptions used, including the discount rate and estimates of future cash flows. In that regard, the derived fair value estimates cannot be substantiated by comparison to independent markets and, in many cases, could not be realized in immediate settlement of the instrument. The aggregate fair value amounts presented below do not represent the underlying value of the Corporation.

The following methods and assumptions were used to estimate the fair value of each class of financial instruments for which it is practicable to estimate that value:

Cash and Cash Equivalents

The carrying amounts reported in the balance sheet for cash and cash equivalents approximate their fair values.

Investment Securities

Estimated fair values for investment securities are generally valued by an independent third party based on market data, utilizing pricing models that vary by asset and incorporate available trade, bid and other market information. Management reviews, annually, the process utilized by its independent third-party valuation experts. On a quarterly basis, Management tests the validity of the prices provided by the third party by selecting a representative sample of the portfolio and obtaining actual trade results, or if actual trade results are not available, competitive broker pricing. See Note 4 of the Notes to Consolidated Financial Statements for more information.

Loans Held for Sale

The fair value of loans held for sale is based on pricing obtained from secondary markets.

Net Portfolio Loans and Leases

For variable-rate loans that re-price frequently and which have no significant change in credit risk, estimated fair values are based on carrying values. Fair values of certain mortgage loans and consumer loans are estimated using discounted cash flow analyses, using interest rates currently being offered for loans with similar terms to borrowers of similar credit quality and is indicative of an entry price. The estimated fair value of nonperforming loans is based on discounted estimated cash flows as determined by the internal loan review of the Corporation or the appraised fair value of the underlying collateral, as determined by independent third party appraisers. This technique does not reflect an exit price.

Impaired Loans

The Corporation evaluates and values impaired loans at the time the loan is identified as impaired, and the fair values of such loans are estimated using Level 3 inputs in the fair value hierarchy. Each loan's collateral has a unique appraisal and management's discount of the value is based on the factors unique to each impaired loan. The significant unobservable input in determining the fair value is management's subjective discount on appraisals of the collateral securing the loan, which range from 10% - 50%. Collateral may consist of real estate and/or business assets including equipment, inventory and/or accounts receivable and the value of these assets is determined based on the appraisals by qualified licensed appraisers hired by the Corporation. Appraised and reported values may be discounted based on management's historical knowledge, changes in market conditions from the time of valuation, estimated costs to sell, and/or management's expertise and knowledge of the client and the client's business.

Mortgage Servicing Rights

The fair value of the MSR's for these periods was determined using a proprietary third-party valuation model that calculates the present value of estimated future servicing income. The model incorporates assumptions that market participants use in estimating future net servicing income, including estimates of prepayment speeds and discount rates. Due to the proprietary nature of the valuation model used, the Corporation classifies the value of MSR's as using Level 3 inputs.

Other Assets

The carrying amount of accrued interest receivable, income taxes receivable and other investments approximates fair value.

Deposits

The estimated fair values disclosed for noninterest-bearing demand deposits, savings, NOW accounts, and market rate accounts are, by definition, equal to the amounts payable on demand at the reporting date (i.e., their carrying amounts). Fair values for certificates of deposit are estimated using a discounted cash flow calculation that applies interest rates currently being offered on certificates to a schedule of expected monthly maturities on the certificate of deposit. FASB Codification 825 defines the fair value of demand deposits as the amount payable on demand as of the reporting date and prohibits adjusting estimated fair value from any value derived from retaining those deposits for an expected future period of time.

Table of Contents

Short-term borrowings

The carrying amount of short-term borrowings, which include overnight repurchase agreements, fed funds and FHLB advances with original maturity of one year or less, approximates their fair value.

Long-term FHLB Advances

The fair value of long-term FHLB advances (with original maturities of greater than one year) is established using a discounted cash flow calculation that applies interest rates currently being offered on mid-term and long term borrowings.

Subordinated Notes

The fair value of the Notes is estimated by discounting the principal balance using the FHLB yield curve for the term to the call date as the Corporation has the option to call the Notes. The Notes are classified within Level 2 in the fair value hierarchy.

Other Liabilities

The carrying amounts of accrued interest payable and other accrued payables approximate fair value.

Interest Rate Swaps and Risk Participation Agreements

The Corporation's interest rate swaps and RPAs are reported at fair value utilizing Level 2 inputs. Prices of these instruments are obtained through an independent pricing source utilizing pricing information which may include market observed quotations for swaps, LIBOR rates, forward rates and rate volatility. When entering into a derivative contract, the Corporation is exposed to fair value changes due to interest rate movements, and the potential non-performance of our contract counterparty. The Corporation has developed a methodology to value the non-performance risk based on internal credit risk metrics and the unique characteristics of derivative instruments, which include notional exposure rather than principle at risk and interest payment netting. The results of this

methodology are used to adjust the base fair value of the instrument for the potential counterparty credit risk.

Off-Balance Sheet Instruments

Estimated fair values of the Corporation's commitments to extend credit, standby letters of credit and financial guarantees are not included in the table below as their carrying values generally approximate their fair values. These instruments generate fees that approximate those currently charged to originate similar commitments.

As of the dates indicated, the carrying amount and estimated fair value of the Corporation's financial instruments are as follows:

	Fair Value Hierarchy	As of September 30, 2017		As of December 31, 2016	
		Carrying	Estimated	Carrying	Estimated
<i>(dollars in thousands)</i>					
	Level*	Amount	Fair Value	Amount	Fair Value
Financial assets:					
Cash and cash equivalents	Level 1	\$45,552	\$45,552	\$50,765	\$50,765
Investment securities, available for sale	See Note 17	471,721	471,721	566,996	566,996
Investment securities, trading	See Note 17	4,423	4,423	3,888	3,888
Investments, held to maturity	Level 2	6,255	6,218	2,879	2,818
Loans held for sale	Level 2	6,327	6,327	9,621	9,621
Net portfolio loans and leases	Level 3	2,660,341	2,693,099	2,517,939	2,505,546
Mortgage servicing rights	Level 3	5,732	6,146	5,582	6,154
Interest rate swaps	Level 2	1,950	1,950	—	—
Risk participation agreements purchased	Level 2	1	1		
Other assets	Level 3	34,476	34,476	34,465	34,465
Total financial assets		\$3,236,778	\$3,269,913	\$3,192,135	\$3,180,253
Financial liabilities:					
Deposits	Level 2	\$2,684,181	\$2,682,737	\$2,579,675	\$2,579,011
Short-term borrowings	Level 2	180,874	180,874	204,151	204,151
Long-term FHLB advances	Level 2	134,651	134,789	189,742	186,863
Subordinated notes	Level 2	29,573	30,320	29,532	29,228
Interest rate swaps	Level 2	1,946	1,946	—	—
Risk participation agreements sold	Level 2	3	3		
Other liabilities	Level 2	43,701	43,701	37,303	37,303
Total financial liabilities		\$3,074,929	\$3,074,370	\$3,040,403	\$3,036,556

*See Note 17 for a description of fair value hierarchy levels.

Note 19 - Recent Accounting Pronouncements

FASB ASU No. 2014-09 (Topic 606), “Revenue from Contracts with Customers”

Issued in May 2014, ASU 2014-09 will require an entity to recognize revenue when it transfers promised goods or services to customers using a five-step model that requires entities to exercise judgment when considering the terms of the contracts. In August 2015, the FASB issued ASU No. 2015-14, Revenue from Contracts with Customers (Topic 606): Deferral of the Effective Date. This amendment defers the effective date of ASU 2014-09 by one year. In March 2016, the FASB issued ASU 2016-08, “Principal versus Agent Considerations (Reporting Gross versus Net),” which amends the principal versus agent guidance and clarifies that the analysis must focus on whether the entity has control of the goods or services before they are transferred to the customer. In addition, the FASB issued ASU Nos. 2016-20, Technical Corrections and Improvements to Topic 606, Revenue from Contracts with Customers and 2016-12, Narrow-Scope Improvements and Practical Expedients, both of which provide additional clarification of certain provisions in Topic 606. These Accounting Standards Codification (“ASC”) updates are effective for annual reporting periods beginning after December 15, 2017, but early adoption is permitted. Early adoption is permitted only as of annual reporting periods after December 15, 2016. The standard permits the use of either the retrospective or retrospectively with the cumulative effect transition method. The Corporation has evaluated all revenue streams, accounting policies, practices and reporting to identify and understand any impact on the adoption of ASU 2014-09 will have on the Corporation’s Consolidated Financial Statements. Our evaluation indicates that adoption of this guidance will not have a material effect on our Consolidated Financial Statements.

FASB ASU 2017-04 (Topic 350), “Intangibles – Goodwill and Others”

Issued in January 2017, ASU 2017-04 simplifies how an entity is required to test goodwill for impairment by eliminating Step 2 from the goodwill impairment test. Step 2 measures a goodwill impairment loss by comparing the implied fair value of a reporting unit’s goodwill with the carrying amount of that goodwill. ASU 2017-04 is effective for annual periods beginning after December 15, 2019 including interim periods within those periods. The Corporation is evaluating the effect that ASU 2017-04 will have on its consolidated financial statements and related disclosures.

FASB ASU 2017-01 (Topic 805), “Business Combinations”

Issued in January 2017, ASU 2017-01 clarifies the definition of a business with the objective of adding guidance to assist entities with evaluating whether transactions should be accounted for as acquisitions (or disposals) of assets or businesses. The definition of a business affects many areas of accounting including acquisitions, disposals, goodwill, and consolidation. ASU 2017-01 is effective for annual periods beginning after December 15, 2017 including interim periods within those periods. The Corporation is evaluating the effect that ASU 2017-01 will have on its consolidated financial statements and related disclosures.

FASB ASU 2016-15 (Topic 320), “Classification of Certain Cash Receipts and Cash Payments”

Issued in August 2016, ASU 2016-15 provides guidance on eight specific cash flow issues and their disclosure in the consolidated statements of cash flows. The issues addressed include debt prepayment, settlement of zero-coupon debt, contingent consideration in business combinations, proceeds from settlement of insurance claims, proceeds from settlement of BOLI, distributions received from equity method investees, beneficial interests in securitization transactions, and separately identifiable cash flows and application of the Predominance principle. 2016-15 is effective for the annual and interim periods in fiscal years beginning after December 15, 2017, with early adoption permitted. The Corporation is currently evaluating the impact of this guidance and does not anticipate a material impact on its consolidated financial statements.

FASB ASU 2016-13 (Topic 326), “Measurement of Credit Losses on Financial Instruments”

Issued in June 2016, ASU 2016-13 significantly changes how companies measure and recognize credit impairment for many financial assets. The new current expected credit loss model will require companies to immediately recognize an estimate of credit losses expected to occur over the remaining life of the financial assets that are in the scope of the standard. The ASU also makes targeted amendments to the current impairment model for available-for-sale debt securities. ASU 2016-13 is effective for the annual and interim periods in fiscal years beginning after December 15, 2018, with early adoption permitted. The Corporation is evaluating the effect that ASU 2016-13 will have on its consolidated financial statements and related disclosures.

Table of Contents

FASB ASU 2016-02 (Topic 842), “Leases”

Issued in February 2016, ASU 2016-02 revises the accounting related to lessee accounting. Under the new guidance, lessees will be required to recognize a lease liability and a right-of-use asset for all leases. The new lease guidance also simplifies the accounting for sale and leaseback transactions primarily because lessees must recognize lease assets and lease liabilities. ASU 2016-02 is effective for the first interim period within annual periods beginning after December 15, 2018, with early adoption permitted. The standard is required to be adopted using the modified retrospective transition approach for leases existing at, or entered into after, the beginning of the earliest comparative period presented in the financial statements. The Corporation is evaluating the effect that ASU 2016-02 will have on its consolidated financial statements and related disclosures.

FASB ASU 2016-01 (Subtopic 825-10), “Financial Instruments – Overall, Recognition and Measurement of Financial Assets and Financial Liabilities”

Issued in January 2016, ASU 2016-01 provides that equity investments will be measured at fair value with changes in fair value recognized in net income. When fair value is not readily determinable an entity may elect to measure the equity investment at cost, minus impairment, plus or minus any change in the investment’s observable price. For financial liabilities that are measured at fair value, the amendment requires an entity to present separately, in other comprehensive income, any change in fair value resulting from a change in instrument-specific credit risk. ASU 2016-01 will be effective for fiscal years beginning after December 15, 2017, including interim periods within those fiscal years. Early adoption is permitted. Entities may apply this guidance on a prospective or retrospective basis. The Corporation has evaluated the effect of the adoption of ASU 2016-02 and had determined that it will not have a material impact on its consolidated financial statements and related disclosures.

FASB ASU 2017-08 (Subtopic 310-20), “Nonrefundable Fees and Other Costs (Subtopic 310-20): Premium Amortization on Purchased Callable Debt Securities”

Issued in March 2017, ASU 2017-08 shortens the amortization period for certain callable debt securities held at a premium. Specifically, the amendment requires the premium to be amortized to the earliest call date. The amendments does not require an accounting change for securities held at a discount; the discount continues to be amortized to maturity. For public business entities, the amendments in this update are effective for fiscal years, and interim periods within those fiscal years, beginning after December 15, 2018. Early adoption is permitted, including adoption in an interim period. The Corporation has evaluated ASU 2017-08 and determined that it currently follows the guidance related to premium amortization on callable debt securities.

FASB ASU 2017-07—Compensation—Retirement Benefits (Topic 715): “Improving the Presentation of Net Periodic Pension Cost and Net Periodic Postretirement Benefit Cost”

Issued in March 2017, ASU 2017-07 require that an employer report the service cost component in the same line item or items as other compensation costs arising from services rendered by the pertinent employees during the period. The other components of net benefit cost are required to be presented in the income statement separately from the service cost component and outside a subtotal of income from operations, if one is presented. If a separate line item or items are used to present the other components of net benefit cost, that line item or items must be appropriately described. If a separate line item or items are not used, the line item or items used in the income statement to present the other components of net benefit cost must be disclosed. The amendments in this update also allow only the service cost component to be eligible for capitalization when applicable (for example, as a cost of internally manufactured inventory or a self-constructed asset). The amendments in this update are effective for public business entities for annual periods beginning after December 15, 2017, including interim periods within those annual periods. Early adoption is permitted as of the beginning of an annual period for which financial statements (interim or annual) have not been issued or made available for issuance. The Corporation is evaluating the effect that ASU 2017-07 will have on its consolidated financial statements and related disclosures, but does not expect that it will materially affect the Corporation’s financial statements.

Table of Contents

ITEM 2 Management’s Discussion and Analysis of Results of Operation and Financial Condition

The following is the Corporation’s discussion and analysis of the significant changes in the financial condition, results of operations, capital resources and liquidity presented in the accompanying consolidated financial statements. Current performance does not guarantee, and may not be indicative of, similar performance in the future.

Brief History of the Corporation

The Bryn Mawr Trust Company (the “Bank”) received its Pennsylvania banking charter in 1889 and is a member of the Federal Reserve System. In 1986, Bryn Mawr Bank Corporation (the “Corporation”) was formed and on January 2, 1987, the Bank became a wholly-owned subsidiary of the Corporation. The Bank and Corporation are headquartered in Bryn Mawr, Pennsylvania, a western suburb of Philadelphia. The Corporation and its subsidiaries offer a full range of personal and business banking services, consumer and commercial loans, equipment leasing, mortgages, insurance and wealth management services, including investment management, trust and estate administration, retirement planning, custody services, and tax planning and preparation from 25 full-service branches, eight limited-hour retirement community offices, one limited-service branch, six wealth management offices and a full-service insurance agency located throughout Montgomery, Delaware, Chester, Dauphin and Philadelphia counties in Pennsylvania and New Castle county in Delaware. The common stock of the Corporation trades on the NASDAQ Stock Market (“NASDAQ”) under the symbol BMTC.

The Corporation operates in a highly competitive market area that includes local, national and regional banks as competitors along with savings banks, credit unions, insurance companies, trust companies, registered investment advisors and mutual fund families. The Corporation and its subsidiaries are regulated by many agencies including the Securities and Exchange Commission (“SEC”), NASDAQ, Federal Deposit Insurance Corporation (“FDIC”), the Federal Reserve and the Pennsylvania Department of Banking and Securities. The goal of the Corporation is to become the preeminent community bank and wealth management organization in the Philadelphia area.

Critical Accounting Policies, Judgments and Estimates

The accounting and reporting policies of the Corporation and its subsidiaries conform with U.S. generally accepted accounting principles (“GAAP”). All inter-company transactions are eliminated in consolidation and certain reclassifications are made when necessary to conform the previous year’s financial statements to the current year’s presentation. In preparing the consolidated financial statements, the Corporation is required to make estimates and

assumptions that affect the reported amount of assets and liabilities as of the dates of the balance sheets and revenues and expenditures for the periods presented. However, there are uncertainties inherent in making these estimates and actual results could differ from these estimates. The Corporation has identified certain areas that require estimates and assumptions, which include the allowance for loan and lease losses (the “Allowance”), the valuation of goodwill and intangible assets, the fair value of investment securities, the fair value of derivative financial instruments, and the valuation of mortgage servicing rights, deferred tax assets and liabilities, benefit plans and stock-based compensation. The Corporation’s derivative financial instruments are not exchange-traded and therefore are valued utilizing models that use as their basis readily observable market parameters, specifically the London Interbank Offered Rate (“LIBOR”) swap curve, and are classified within Level 2 of the valuation hierarchy. In addition, certain assets are measured at fair value on a nonrecurring basis; that is, the instruments are not measured at fair value on an ongoing basis but are subject to fair value adjustments in certain circumstances (for example, when there is evidence of impairment).

These critical accounting policies, along with other significant accounting policies, are presented in Footnote 1 – Summary of Significant Accounting Policies, in the Notes to Consolidated Financial Statements in the Corporation’s 2016 Annual Report on Form 10-K (the “2016 Annual Report”).

In addition to the critical accounting policies described and referenced above, as it relates to derivative financial instruments, the Corporation recognizes all derivative instruments at fair value as either assets or liabilities in other assets or other liabilities on the balance sheet. The accounting for changes in the fair value of a derivative instrument depends on whether it has been designated and qualifies as part of a hedging relationship. As of September 30, 2017, the Corporation’s derivative financial instruments are not designated as hedges and gains or losses are recognized in current earnings.

Pending Business Combination – Royal Bancshares of Pennsylvania, Inc.

On January 30, 2017, the Corporation entered into a definitive Agreement and Plan of Merger to acquire Royal Bancshares of Pennsylvania, Inc. (“RBPI”), parent company of Royal Bank America (“RBA”), in a transaction with an aggregate value of \$127.7 million (the “Acquisition” or the “RBPI Acquisition”). In connection with the Acquisition, RBPI will merge with and into the Corporation and RBA will merge with and into the Bank. The Acquisition, which is expected to add approximately \$602 million in loans and \$630 million in deposits (based on December 31, 2016 financial information), is expected to strengthen the Corporation’s position as the largest community bank in Philadelphia’s western suburbs and, based on deposits, will rank it as the eighth largest community bank headquartered in Pennsylvania. The Acquisition, which will expand the Corporation's distribution network by providing entry into the new markets of New Jersey and Berks County, Pennsylvania, and an expanded physical presence in Philadelphia County, Pennsylvania, is expected to close during the fourth quarter of 2017 and is subject to applicable regulatory approvals and closing conditions.

Table of Contents

Other Recent Acquisitions and Expansions

In addition to the RBPI Acquisition, the Bank has continued to execute on its strategies of diversification and acquiring and/or establishing specialty offices in strategically targeted areas where management believes there to be a high demand for the Bank's products and services. On May 24, 2017, the Bank completed its acquisition of Hirshorn Boothby, a full-service insurance agency established in 1931 and headquartered in the Chestnut Hill section of Philadelphia. Hirshorn Boothby was immediately merged into the Bank's existing insurance subsidiary, Powers Craft Parker and Beard, Inc., expanding the footprint of this growing segment.

On May 12, 2017, the Corporation established a wealth management-focused office in Princeton, New Jersey which is expected to complement the already-established presence in central New Jersey that is to be acquired in the anticipated merger with RBPI.

Beginning in the second quarter of 2017, the Bank's newly established Capital Markets department commenced operations focusing on providing risk management services to address the needs of its commercial customer base. These capital markets capabilities enable the Bank to offer hedging tools for qualified commercial customers through the use of interest rate swaps and options designed to mitigate the interest rate risk on variable rate loans. This interest rate hedging offering allows the Bank to participate and lead in larger and longer-dated credits without incurring additional interest rate risk. Additional services will focus on assisting qualified customers in hedging their foreign exchange risk and meeting their trade finance needs through enhanced international services capabilities.

Executive Overview

The following items highlight the Corporation's results of operations for the three and nine months ended September 30, 2017, as compared to the same periods in 2016, and the changes in its financial condition as of September 30, 2017 as compared to December 31, 2016. More detailed information related to these highlights can be found in the sections that follow.

Three Month Results of Operations

Net income for the three months ended September 30, 2017 was \$10.7 million, an increase of \$1.3 million as compared to net income of \$9.4 million for the same period in 2016. Diluted earnings per share was \$0.62 for the three months ended September 30, 2017 as compared to \$0.55 for the same period in 2016.

Return on average equity (“ROE”) and return on average assets (“ROA”) for the three months ended September 30, 2017 were 10.72% and 1.24%, respectively, as compared to ROE and ROA of 10.00% and 1.19%, respectively, for the same period in 2016.

Tax-equivalent net interest income increased \$2.7 million, or 10.3%, to \$29.6 million for the three months ended September 30, 2017, as compared to \$26.9 million for the same period in 2016.

Provision for loan and lease losses (the “Provision”) of \$1.3 million for the three months ended September 30, 2017 was a decrease of \$79 thousand from the \$1.4 million Provision recorded for the same period in 2016.

Noninterest income of \$15.6 million for the three months ended September 30, 2017 was a \$1.8 million increase from the same period in 2016.

Fees for wealth management services and insurance revenue of \$9.7 million and \$1.4 million, respectively, for the three months ended September 30, 2017 represented increases of \$551 thousand and \$487 thousand, respectively, from the same period in 2016. In addition, capital markets revenue from the Bank’s new Capital Markets initiative, comprised primarily of fees for interest rate swaps, totaled \$843 thousand for the third quarter of 2017.

Noninterest expense of \$28.2 million for the three months ended September 30, 2017 increased \$2.8 million, from \$25.4 million for the same period in 2016.

Table of Contents

Nine Month Results of Operations

Net income for the nine months ended September 30, 2017 was \$29.2 million, an increase of \$2.6 million as compared to net income of \$26.6 million for the same period in 2016. Diluted earnings per share was \$1.69 for the nine months ended September 30, 2017 as compared to \$1.57 for the same period in 2016.

ROE and ROA for the nine months ended September 30, 2017 were 10.02% and 1.17%, respectively, as compared to ROE and ROA of 9.70% and 1.16%, respectively, for the same period in 2016.

Tax-equivalent net interest income increased \$5.7 million, or 7.2%, to \$85.4 million for the nine months ended September 30, 2017, as compared to \$79.7 million for the same period in 2016.

The Provision of \$1.5 million for the nine months ended September 30, 2017 was a decrease of \$1.7 million from \$3.3 million for the same period in 2016.

Noninterest income of \$43.6 million for the nine months ended September 30, 2017 was a \$2.9 million increase from the same period in 2016.

Fees for wealth management services and insurance revenue of \$28.7 million and \$3.1 million, respectively, for the nine months ended September 30, 2017 represented increases of \$1.4 million and \$72 thousand, respectively, from the same period in 2016. In addition, capital markets revenue, comprised primarily of fees for interest rate swaps, totaled \$1.8 million for the nine months ended September 30, 2017.

Noninterest expense of \$83.3 million for the nine months ended September 30, 2017 increased \$6.7 million, from \$76.6 million for the same period in 2016.

Changes in Financial Condition

Total assets of \$3.48 billion as of September 30, 2017 increased \$55.3 million from December 31, 2016.

Shareholders' equity of \$401.9 million as of September 30, 2017 increased \$20.8 million from \$381.1 million as of December 31, 2016.

Total portfolio loans and leases as of September 30, 2017 were \$2.68 billion, an increase of \$141.9 million from the December 31, 2016 balance.

Total non-performing loans and leases of \$4.5 million represented 0.17% of portfolio loans and leases as of September 30, 2017 as compared to \$8.4 million, or 0.33% of portfolio loans and leases as of December 31, 2016.

The \$17.0 million Allowance, as of September 30, 2017, represented 0.64% of portfolio loans and leases, as compared to \$17.5 million, or 0.69% of portfolio loans and leases as of December 31, 2016.

Total deposits of \$2.68 billion as of September 30, 2017 increased \$104.5 million from \$2.58 billion as of December 31, 2016.

Wealth Management assets under management, administration, supervision and brokerage as of September 30, 2017 were \$12.43 billion, an increase of \$1.10 billion from December 31, 2016.

Table of Contents**Key Performance Ratios**

Key financial performance ratios for the three and nine months ended September 30, 2017 and 2016 are shown in the table below:

	Three Months Ended		Nine Months Ended	
	September 30, 2017	2016	September 30, 2017	2016
Annualized return on average equity	10.72%	10.00%	10.02%	9.70%
Annualized return on average assets	1.24 %	1.19 %	1.17 %	1.16%
Tax-equivalent net interest margin	3.71 %	3.71 %	3.71 %	3.79%
Basic earnings per share	\$0.63	\$0.56	\$1.72	\$1.58
Diluted earnings per share	\$0.62	\$0.55	\$1.69	\$1.57
Dividend per share	\$0.22	\$0.21	\$0.64	\$0.61
Dividend declared per share to net income per basic common share	34.9 %	37.5 %	37.2 %	38.6%

The following table presents certain key period-end balances and ratios as of September 30, 2017 and December 31, 2016:

	September 30,		December 31,	
	2017	2016	2017	2016
<i>(dollars in millions, except per share amounts)</i>				
Book value per share	\$ 23.57	\$ 22.50		
Tangible book value per share	\$ 16.03	\$ 15.11		
Allowance as a percentage of loans and leases	0.64	%	0.69	%
Tier I capital to risk weighted assets	10.50	%	10.51	%
Tangible common equity ratio	8.16	%	7.76	%
Loan to deposit ratio	100.0	%	98.7	%
Wealth assets under management, administration, supervision and brokerage	\$ 12,431.4		\$ 11,328.5	
Portfolio loans and leases	\$ 2,677.3		\$ 2,535.4	
Total assets	\$ 3,476.8		\$ 3,421.5	
Shareholders' equity	\$ 401.9		\$ 381.1	

The following sections discuss, in detail, the Corporation's results of operations for the three and nine months ended September 30, 2017, as compared to the same periods in 2016, and the changes in its financial condition as of

September 30, 2017 as compared to December 31, 2016.

Components of Net Income

Net income is comprised of five major elements:

Net Interest Income, or the difference between the interest income earned on loans, leases and investments and the interest expense paid on deposits and borrowed funds;

Provision For Loan and Lease Losses, or the amount added to the Allowance to provide for estimated inherent losses on portfolio loans and leases;

Noninterest Income, which is made up primarily of wealth management revenue, insurance revenue, gains and losses from the sale loans, gains and losses from the sale of investment securities available for sale and other fees from loan and deposit services;

Noninterest Expense, which consists primarily of salaries and employee benefits, occupancy, intangible asset amortization, professional fees and other operating expenses; and

Income Taxes, which include state and federal jurisdictions.

Table of Contents**TAX-EQUIVALENT NET INTEREST INCOME**

Net interest income is the primary source of the Corporation's revenue. The below tables present a summary, for the three and nine months ended September 30, 2017 and 2016, of the Corporation's average balances and tax-equivalent yields earned on its interest-earning assets and the tax-equivalent rates paid on its interest-bearing liabilities. The tax-equivalent net interest margin is the tax-equivalent net interest income as a percentage of average interest-earning assets. The tax-equivalent net interest spread is the difference between the weighted average tax-equivalent yield on interest-earning assets and the weighted average cost of interest-bearing liabilities. The effect of noninterest-bearing liabilities represents the effect on the net interest margin of net funding provided by noninterest-earning assets, noninterest-bearing liabilities and shareholders' equity.

For the three months ended September 30, 2017, tax-equivalent net interest income increased \$2.7 million, or 10.3%, to \$29.6 million for the three months ended September 30, 2017, as compared to \$26.9 million for the same period in 2016. The increase in net interest income between the periods was largely related to the \$203.3 million increase in average loans and leases for the three months ended September 30, 2017 as compared to the same period in 2016. The tax-equivalent yield earned on loans and leases increased ten basis points from the third quarter of 2016 to the third quarter of 2017. The impact of the accretion of purchase accounting adjustments was comparable for both periods, contributing \$708 thousand to interest income, or ten basis points to the tax-equivalent yield on loans and leases for the three months ended September 30, 2017, as compared to a contribution of \$578 thousand, or nine basis points to the tax-equivalent yield on loans and leases, for the same period in 2016. In addition to increases in loans and leases, the average balance of available for sale investment securities increased by \$85.2 million and experienced a 26 basis point increase in tax-equivalent yield earned between the third quarters of 2016 and 2017. Partially offsetting the impact of the earning asset volume increase between the periods was a \$141.9 million increase in average interest-bearing deposits, coupled with an eleven basis point increase in rate paid on deposits from the third quarter of 2016 to the third quarter of 2017.

For the nine months ended September 30, 2017, tax-equivalent net interest income increased \$5.7 million, or 7.2%, to \$85.4 million for the nine months ended September 30, 2017, as compared to \$79.7 million for the same period in 2016. The increase in net interest income between the periods was largely related to the \$218.0 million increase in average loans and leases for the nine months ended September 30, 2017 as compared to the same period in 2016. The tax-equivalent yield earned on loans and leases decreased five basis points from the nine months ended September 30, 2016 to the nine months ended September 30, 2017. The impact of the accretion of purchase accounting adjustments contributed significantly to the decrease in tax-equivalent yield earned on loans and leases and the rate paid on time deposits. For the nine months ended September 30, 2017, the accretion of purchase accounting adjustments on loans contributed \$1.8 million to interest income, or nine basis points to the tax-equivalent yield on loans and leases, as compared to a contribution of \$2.6 million, or 15 basis points to the tax-equivalent yield on loans and leases, for the same period in 2016. In addition to increases in loans and leases, the average balance of available for sale investment securities increased by 56.5 million and experienced a 21 basis point increase in tax-equivalent yield earned between the nine months ended September 30, 2016 and the nine months ended September 30, 2017. Partially offsetting the impact of the earning asset volume increase between the periods was a \$165.5 million increase in average interest-bearing deposits, coupled with an eleven basis point increase in rate paid on deposits from the third quarter of 2016 to the third quarter of 2017. The accretion of purchase accounting adjustments related to acquired time deposits

reduced interest expense on time deposits for the nine months ended September 30, 2017 by \$52 thousand, or two basis points, as compared to \$200 thousand, or eleven basis points, for the same period in 2016.

Table of Contents**Analyses of Interest Rates and Interest Differential**

The tables below present the major asset and liability categories on an average daily balance basis for the periods presented, along with interest income, interest expense and key rates and yields.

<i>(dollars in thousands)</i>	For the Three Months Ended September 30,

(2) Loans include portfolio loans and leases and loans held for sale.

(3) Tax rate used for tax-equivalent calculations is 35%.

Rate/Volume Analysis (tax-equivalent basis)*

The rate/volume analysis in the table below analyzes dollar changes in the components of interest income and interest expense as they relate to the change in balances (volume) and the change in interest rates (rate) of tax-equivalent net interest income for the three months ended September 30, 2017 as compared to the same period in 2016, allocated by rate and volume. The change in interest income and/or expense due to both volume and rate has been allocated to changes in volume.

<i>(dollars in thousands)</i>	2017 Compared to 2016					
	Three Months Ended			Nine Months Ended		
	September 30,		Total	September 30,		Total
Volume	Rate	Volume		Rate

Interest differential	\$2,850	\$(85)	\$2,765	\$8,824	\$(3,099)	\$5,725

*The tax rate used in the calculation of the tax-equivalent income is 35%.

**Borrowed funds include short-term borrowings and long-term Federal Home Loan Bank advances.

Table of Contents**Tax-Equivalent Net Interest Margin**

The tax-equivalent net interest margin of 3.71% for the three months ended September 30, 2017 was unchanged from the same period in 2016. A ten basis point increase in tax-equivalent yield on loans and leases was largely offset by a twelve basis point increase in rate paid on interest-bearing deposits between the periods. The contribution of fair value mark accretion to the tax equivalent net interest margin was also unchanged, at nine basis points for each of the three month periods ended September 30, 2016 and 2017.

The tax-equivalent net interest margin of 3.71% for the nine months ended September 30, 2017 was an eight basis point decrease from 3.79% for the same period in 2016. The decrease was largely the result of the five basis point decrease in tax-equivalent yield earned on loans and leases and the eleven basis point increase in rate paid on interest-bearing deposits. Partially offsetting these reductions to tax-equivalent net interest margin was a 21 basis point increase in tax-equivalent yield earned on available for sale investment securities between the periods. The contribution of fair value mark accretion to the tax equivalent net interest margin accounted for nine basis points of the margin for the nine months ended September 30, 2017 as compared to 14 basis points for the same period in 2016.

The tax-equivalent net interest margin and related components for the past five consecutive quarters are shown in the table below:

Quarter	Interest- Earning		Interest- Bearing		Net Interest Spread		Effect of Non-Interest Bearing Sources		Net Interest Margin	
	Asset Yield	%	Liability Cost	%		%		%		%
3 rd Quarter 2017	4.18	%	0.67	%	3.51	%	0.20	%	3.71	%
2 nd Quarter 2017	4.11	%	0.61	%	3.50	%	0.18	%	3.68	%
1 st Quarter 2017	4.14	%	0.56	%	3.58	%	0.16	%	3.74	%
4 th Quarter 2016	4.05	%	0.56	%	3.49	%	0.16	%	3.65	%
3 rd Quarter 2016	4.09	%	0.55	%	3.54	%	0.17	%	3.71	%

Interest Rate Sensitivity

The Corporation actively manages its interest rate sensitivity position. The objectives of interest rate risk management are to control exposure of net interest income to risks associated with interest rate movements and to achieve

sustainable growth in net interest income. The Corporation's Asset Liability Committee ("ALCO"), using policies and procedures approved by the Corporation's Board of Directors, is responsible for the management of the Corporation's interest rate sensitivity position. The Corporation manages interest rate sensitivity by changing the mix, pricing and re-pricing characteristics of its assets and liabilities, through the management of its investment portfolio, its offerings of loan and selected deposit terms and through wholesale funding. Wholesale funding consists of multiple sources including borrowings from the FHLB, the Federal Reserve Bank of Philadelphia's discount window, certificates of deposit from institutional brokers, including the Certificate of Deposit Account Registry Service ("CDARS"), the Insured Network Deposit ("IND") Program, the Charity Deposits Corporation ("CDC"), the Insured Cash Sweep ("ICS") and the Pennsylvania Local Government Investment Trust ("PLGIT").

The Corporation uses several tools to measure its interest rate risk including interest rate sensitivity analysis, or gap analysis, market value of portfolio equity analysis, interest rate simulations under various rate scenarios and tax-equivalent net interest margin trend reports. The results of these reports are compared to limits established by the Corporation's ALCO policies and appropriate adjustments are made if the results are outside the established limits.

The following table demonstrates the annualized result of an interest rate simulation and the estimated effect that a parallel interest rate shift, or "shock", in the yield curve and subjective adjustments in deposit pricing, might have on the Corporation's projected net interest income over the next 12 months.

This simulation assumes that there is no growth in interest-earning assets or interest-bearing liabilities over the next 12 months. The changes to net interest income shown below are in compliance with the Corporation's policy guidelines.

Summary of Interest Rate Simulation

	Change in Net Interest			Change in Net Interest		
	Income Over the Twelve			Income Over the Twelve		
	Months Beginning After			Months Beginning After		
	September 30, 2017			December 31, 2016		
	Amount	Percentage		Amount	Percentage	
+300 basis points	\$8,256	6.98	%	\$10,207	9.01	%
+200 basis points	\$5,549	4.69	%	\$6,654	5.87	%
+100 basis points	\$2,775	2.35	%	\$3,048	2.69	%
-100 basis points	\$(4,050)	(3.42))%	\$(4,397)	(3.88))%

The above interest rate simulation suggests that the Corporation's balance sheet is asset sensitive as of September 30, 2017 in the +100 basis point scenario, which is similar to the December 31, 2016 simulation. The asset sensitivity table indicates that a 100, 200 or 300 basis point increase in interest rates would have a positive impact on net interest income over the next 12 months. The balance sheet is less asset sensitive in comparison to December 31, 2016. This is a result of the addition of fixed rate assets funded with short term liabilities in anticipation of the RBPI Acquisition later this year and positioning the combined entity's investments and funding to align with management's desired liquidity and interest rate risk profile.

Table of Contents

The interest rate simulation is an estimate based on assumptions, which are derived from past behavior of customers, along with expectations of future behavior relative to interest rate changes. Given the current extended period of very low interest rates, the reliability of the Corporation's assumptions in the interest rate simulation model is more uncertain than in other periods. Actual customer behavior may be different than expected behavior, which could cause an unexpected outcome and may result in lower net interest income.

Gap Analysis

The interest sensitivity, or gap analysis, shows interest rate risk by identifying re-pricing gaps in the Corporation's balance sheet. All assets and liabilities are categorized in the following table according to their behavioral sensitivity, which is usually the earliest of either: re-pricing, maturity, contractual amortization, prepayments or likely call dates. Non-maturity deposits, such as NOW, savings and money market accounts are spread over various time periods based on the expected sensitivity of these rates considering liquidity and the investment preferences of the Corporation. Non-rate-sensitive assets and liabilities are placed in a separate period. Capital is spread over time periods to reflect the Corporation's view of the maturity of these funds.

The following table presents the Corporation's interest rate sensitivity position or gap analysis as of September 30, 2017:

<i>(dollars in millions)</i>	0 to 90	91 to	1 - 5	Over	Non-Rate	Total
	Days	Days	Years	5	Sensitive

¹ Loans include portfolio loans and loans held for sale

The table above indicates that the Corporation is asset-sensitive in the immediate 90-day time frame and may experience an increase in net interest income during that time period if rates rise. Conversely, if rates decline, net interest income may decline. It should be noted that the gap analysis is only one tool used to measure interest rate sensitivity and should be used in conjunction with other measures such as the interest rate simulation discussed above. The gap analysis measures the timing of changes in rate, but not the true weighting of any specific component of the Corporation's balance sheet. The asset-sensitive position reflected in this gap analysis is similar to the Corporation's position at December 31, 2016.

Table of Contents

PROVISION FOR LOAN AND LEASE LOSSES

For the three months ended September 30, 2017, the Corporation recorded a Provision of \$1.3 million which was a \$79 thousand decrease from the same period in 2016. Net charge-offs for the third quarter of 2017 were \$728 thousand as compared to \$704 thousand for the same period in 2016. The loan and lease portfolio experienced improvements in the historic charge-off rates during the lookback period and in certain credit quality and economic indicators used in the Allowance calculation. The slight decrease in the Provision between the periods reflects the effect these quantitative and qualitative factor improvements had on the overall Allowance requirement, largely offset by the increase in Allowance related to the growth of the portfolio.

For the nine months ended September 30, 2017, the Corporation recorded a Provision of \$1.5 million which was a \$1.7 million decrease from the same period in 2016. Net charge-offs for the nine months ended September 30, 2017 were \$2.0 million as compared to \$1.4 million for the same period in 2016. The decrease in the Provision was largely the result of improvements in the historic charge-off rates during the lookback period and certain credit quality indicators and economic indicators used in the Allowance calculation. For a general discussion of the Allowance, and our policies related thereto, refer to page 34 of the Corporation's 2016 Annual Report.

Asset Quality and Analysis of Credit Risk

As of September 30, 2017, total nonperforming loans and leases decreased by \$3.9 million, to \$4.5 million, representing 0.17% of portfolio loans and leases, as compared to \$8.4 million, or 0.33% of portfolio loans and leases as of December 31, 2016. The decrease in nonperforming loans and leases was comprised of pay-offs and pay-downs of \$2.8 million, charge-offs of \$1.1 million, foreclosures taken into OREO of \$306 thousand and upgrades to performing status of \$608 thousand of loans and leases classified as nonperforming as of December 31, 2016. These decreases were partially offset by the addition of \$986 thousand of new nonperforming loans and leases as of September 30, 2017.

As of September 30, 2017, the Allowance of \$17.0 million represented 0.64% of portfolio loans and leases, a five basis point decrease from 0.69% as of December 31, 2016. The Allowance on originated portfolio loans, as a percentage of originated portfolio loans, was 0.70% as of September 30, 2017 as compared to 0.78% as of December 31, 2016. Loans acquired in mergers are recorded at fair value as of the date of acquisition. This fair value estimate takes into account an estimate of the expected lifetime losses of the acquired loans. As such, an acquired loan will not generally become subject to additional Allowance unless it becomes impaired.

As of September 30, 2017, the Corporation had OREO valued at \$865 thousand, as compared to \$1.0 million as of December 31, 2016. One residential mortgage loan was foreclosed and the \$306 thousand collateral was taken into

OREO. In addition, during the nine months ended September 30, 2017, impairments to OREO of \$121 thousand were recorded, related to OREO properties acquired in the CBH merger. The balance of OREO as of September 30, 2017 was comprised of three residential properties, one of which is a manufactured housing property acquired in the CBH merger. All properties are recorded at the lower of cost or fair value less cost to sell.

As of September 30, 2017, the Corporation had \$8.6 million of troubled debt restructurings (“TDRs”), of which \$6.6 million were in compliance with the modified terms and excluded from non-performing loans and leases. As of December 31, 2016, the Corporation had \$9.0 million of TDRs, of which \$6.4 million were in compliance with the modified terms, and were excluded from non-performing loans and leases.

As of September 30, 2017, the Corporation had a recorded investment of \$10.5 million of impaired loans and leases which included \$8.6 million of TDRs. Impaired loans and leases are those for which it is probable that the Corporation will not be able to collect all scheduled principal and interest in accordance with the original terms of the loans and leases. Impaired loans and leases as of December 31, 2016 totaled \$14.4 million, which included \$9.0 million of TDRs. Refer to Note 5H in the Notes to unaudited consolidated Financial Statements for more information regarding the Corporation’s impaired loans and leases.

The Corporation continues to be diligent in its credit underwriting process and proactive with its loan review process, including the engagement of the services of an independent outside loan review firm, which helps identify developing credit issues. Proactive steps that are taken include the procurement of additional collateral (preferably outside the current loan structure) whenever possible and frequent contact with the borrower. The Corporation believes that timely identification of credit issues and appropriate actions early in the process serve to mitigate overall risk of loss.

NONINTEREST INCOME**Three Months Ended September 30, 2017 Compared to the Same Period in 2016**

Noninterest income for the three months ended September 30, 2017 increased by \$1.8 million from the same period in 2016. An increase of \$551 thousand in fees for wealth management services resulted as wealth assets under management, administration, supervision and brokerage increased \$2.46 billion from September 30, 2016 to September 30, 2017. Insurance revenue increased \$487 thousand for the third quarter of 2017 as compared to the same period in 2016, largely due to the May 2017 acquisition of Hirshorn Boothby. In addition, revenue from our Capital Markets initiative, which was launched in the second quarter of 2017, contributed \$843 thousand to noninterest income.

Nine Months Ended September 30, 2017 Compared to the Same Period in 2016

Noninterest income for the nine months ended September 30, 2017 increased by \$2.9 million from the same period in 2016. An increase of \$1.4 million in fees for wealth management was primarily related to the growth in the wealth assets under management, administration, supervision and brokerage mentioned in the preceding paragraph. In addition, revenue from our Capital Markets initiative, which was launched in the second quarter of 2017, contributed \$1.8 million to noninterest income. Partially offsetting these increases was a \$492 thousand decrease in gain on sale of loans, as the volume of residential mortgage loan originations from new home buyers as well as refinancing activity has slowed due to rising interest rates.

The following table provides supplemental information regarding mortgage loan originations and sales:

	As of or for the		As of or for the

Wealth Assets Under Management, Administration, Supervision and Brokerage (“Wealth Assets”)

Wealth Asset accounts are categorized into two groups; the first account group consists predominantly of clients whose fees are determined based on the market value of the assets held in their accounts (“Market Value” fee basis). The second account group consists predominantly of clients whose fees are set at fixed amounts (“Fixed Fee” basis), and, as such, are not affected by market value changes.

The following tables detail the composition of Wealth Assets as it relates to the calculation of fees for wealth management services:

<i>(dollars in thousands)</i>	Wealth Assets as of:				
	September 30,	June 30,	March 31,	December 31,	September 30,

Table of Contents

Customer Derivatives

To accommodate the risk management needs of qualified commercial customers, the Bank enters into financial derivative transactions consisting of interest rate swaps, options, risk participation agreements and foreign exchange contracts. Derivative financial instruments involve, to varying degrees, interest rate, market and credit risk. Market risk exposure from customer derivative positions is managed by simultaneously entering into matching transactions with institutional dealer counterparties that offset customer contracts in notional amount and term. Derivative contracts create counterparty credit risk with both the Bank's customers and with institutional dealer counterparties. The Corporation manages customer counterparty credit risk through its credit policy, approval processes, monitoring procedures and by obtaining adequate collateral, when appropriate. The Bank seeks to minimize dealer counterparty credit risk by establishing credit limits and collateral agreements through industry standard agreements published by the International Swaps and Derivatives Association (ISDA) and associated credit support annex (CSA) agreements. None of the Bank's outstanding derivative contracts associated with the customer derivative program is designated as a hedge and none is entered into for speculative purposes. Derivative instruments are recorded at fair value, with changes in fair values recognized in earnings as components of noninterest income and noninterest expense on the consolidated statements of income.

NONINTEREST EXPENSE

Three Months Ended September 30, 2017 Compared to the Same Period in 2016

Noninterest expense for the three months ended September 30, 2017 increased \$2.8 million from the same period in 2016. The increase was largely related to a \$2.0 million increase in salaries and wages due to staffing increases from our Capital Markets initiative, the Hirshorn Boothby acquisition and the Princeton wealth management office, annual salary and wage increases and increases in incentive compensation. In addition, an \$850 thousand increase in due diligence, merger-related and merger integration costs primarily related to the RBPI Acquisition, and a \$597 thousand increase in other operating expenses, which included a \$368 thousand increase in contributions, largely comprised of contributions to local schools under the Pennsylvania Educational Improvement Tax Credit (EITC) program, contributed to the increase. Contributions made through the EITC program result in tax credits towards the Bank's Pennsylvania bank shares tax obligation.

Nine Months Ended September 30, 2017 Compared to the Same Period in 2016

Noninterest expense for the nine months ended September 30, 2017 increased \$6.8 million from the same period in 2016. Contributing to the increase were increases of \$4.1 million in salaries and wages, which included staffing additions from the Hirshorn Boothby acquisition, the Capital Markets initiative, our new Princeton wealth

management office, as well as annual salary increases and increases in incentive compensation. Due diligence and merger-related expenses increased \$2.6 million, primarily related to the RBPI Acquisition and other operating expenses increased \$2.1 million as detailed in the table below. As mentioned in the preceding paragraph, contributions increased related to the Corporation's participation in the EITC program. Partially offsetting these expense increases was a \$662 thousand decrease in impairments of MSRs, which saw a significant increase during the third quarter of 2016, as well as a \$675 thousand decrease in Pennsylvania bank shares tax in connection with tax credits earned through the EITC program.

The following table provides details of **other operating expenses** for the three and nine months ended September 30, 2017 and 2016:

	Three Months Ended		Nine Months Ended	
<i>(dollars in thousands)</i>	September 30, 2017	2016	September 30, 2017	2016

Table of Contents**INCOME TAXES**

Income tax expense for the three months ended September 30, 2017 was \$4.8 million, as compared to \$4.3 million for the same period in 2016. The tax expense recorded reflects a decrease in the effective tax rate from 31.7% for the third quarter of 2016 to 30.7% for the third quarter of 2017. The decrease in effective tax rate for the three months ended September 30, 2017 as compared to the same period in 2016 was related to recognition, during the three months ended September 30, 2017 and 2016, of excess tax benefits of \$694 thousand and \$385 thousand, respectively, related to the stock based compensation vesting and option exercises, partially offset by the non-deductible merger costs related to the anticipated RBPI Acquisition incurred in the third quarter of 2017.

Income tax expense for the nine months ended September 30, 2017 was \$14.3 million, as compared to \$13.5 million for the same period in 2016. The tax expense recorded reflects a decrease in the effective tax rate from 33.6% for the nine months ended September 30, 2016 to 32.9% for the nine months ended September 30, 2017. The decrease in effective tax rate for the nine months ended September 30, 2017 as compared to the same period in 2016 was related to recognition, during both periods, of excess tax benefits of \$953 thousand and \$445 thousand, respectively, related to the stock based compensation vesting and option exercises, partially offset by the non-deductible merger costs related to the anticipated RBPI Acquisition incurred in the nine months ended September 30, 2017.

BALANCE SHEET ANALYSIS

Total assets as of September 30, 2017 of \$3.48 billion increased \$55.3 million from \$3.42 billion as of December 31, 2016. The following tables detail the changes:

Loans and Leases

The table below compares the portfolio loans and leases outstanding at September 30, 2017 to December 31, 2016:

<i>(dollars in thousands)</i>	September 30, 2017		December 31, 2016		Change	
	Balance	Percent of Portfolio	Balance	Percent of Portfolio	Amount	Percent
Commercial mortgage	\$1,224,571	45.7 %	\$1,110,898	43.8 %	\$113,673	10.2 %

Leases	60,870	2.3	%	55,892	2.2	%	4,978	8.9	%
Total portfolio loans and leases	2,677,345	100.0	%	2,535,425	100.0	%	141,920	5.6	%
Loans held for sale	6,327			9,621			(3,294)	(34.2)	%
Total loans and leases	\$2,683,672			\$2,545,046			\$138,626	5.4	%

Cash and Investment Securities

As of September 30, 2017, liquidity remained strong as the Corporation had \$34.6 million of cash balances at the Federal Reserve and \$2.3 million in other interest-bearing accounts, along with significant borrowing capacity as discussed in the “Liquidity” section below.

Investment securities available for sale as of September 30, 2017 totaled \$471.7 million, as compared to \$567.0 million as of December 31, 2016. The decrease was primarily related to the maturing, at the beginning of January 2017, of \$200.0 million of short-term U.S. Treasury bills, partially offset by purchases made during the nine months ended September 30, 2017 in a strategic effort to position the investment portfolio in anticipation of the RBPI Acquisition.

Table of Contents**Deposits, Borrowings and Subordinated Debt**

Deposits and borrowings as of September 30, 2017 and December 31, 2016 were as follows:

<i>(dollars in thousands)</i>	September 30, 2017		December 31, 2016		Change			
	Balance	Percent of	Balance	Percent of	Amount	Percent		
		Deposits		Deposits

Capital

Consolidated shareholder's equity of the Corporation was \$401.9 million, or 11.6% of total assets as of September 30, 2017, as compared to \$381.1 million, or 11.1% of total assets as of December 31, 2016. The following table presents the Corporation's and Bank's capital ratios and the minimum capital requirements to be considered "Well Capitalized" by regulators as of September 30, 2017 and December 31, 2016:

Actual	Minimum to be Well-
---------------	----------------------------

<i>(dollars in thousands)</i>	Capitalized Under Prompt			
	Amount	Ratio	Corrective Action Provisions Amount	Ratio
September 30, 2017:

Bank	270,083	8.73 %	154,761	5.00 %
Tangible common equity to tangible assets ⁽¹⁾				
Corporation	255,959	7.76 %	—	—
Bank	258,352	7.85 %	—	—

⁽¹⁾ There is no official regulatory guideline for the tangible common equity to tangible asset ratio.

The capital ratios for the Bank and the Corporation, as of September 30, 2017, as shown in the above tables, indicate levels well above the regulatory minimum to be considered “well capitalized.” At both the Bank and Corporation levels, the capital ratios to risk-weighted assets have all decreased from their December 31, 2016 levels largely as a result of the increase in risk-weighted assets, much of which was in the commercial mortgage, construction, and commercial and industrial segments of the loan portfolio, which are typically risk-weighted at 100%.

Liquidity

The Corporation’s liquidity position is managed on a daily basis as part of the daily settlement function and continuously as part of the formal asset liability management process. The Bank’s liquidity is maintained by managing its core deposits as the primary source, purchasing federal funds, selling loans in the secondary market, borrowing from the FHLB and the Federal Reserve Bank, and purchasing and issuing wholesale certificates of deposit as its

secondary sources.

Unused availability is detailed on the following table:

<i>(dollars in millions)</i>	Available	Percent	Available	Percent of	Dollar	Percent	
	Funds as	of	Funds as	Total			
	of	Total	of	Total	Change	Change	
	September	Borrowing	December	Borrowing			
	30,	Capacity	31,	Capacity			
	2017		2016				
Federal Home Loan Bank of Pittsburgh	\$ 1,033.3	80.5	% \$ 886.0	72.9	% \$ 147.3	16.6	%
Federal Reserve Bank of Philadelphia	125.1	100.0	% 117.3	100.0	% 7.8	6.6	%
Fed Funds Lines (six banks)	79.0	100.0	% 79.0	100.0	% —	—	%
Revolving line of credit with correspondent bank	5.0	100.0	% 5.0	100.0	% —	—	%
Total	\$ 1,242.4	83.3	% \$ 1,087.3	76.7	% \$ 155.1	14.3	%

Quarterly, the ALCO reviews the Corporation's liquidity needs and reports its findings to the Corporation's Board of Directors.

The Corporation has an agreement with IND to provide up to \$40 million, excluding accrued interest, of money market and NOW funds at an agreed upon interest rate equal to the current Fed Funds rate plus 20 basis points. The Corporation had \$26.3 million in balances as of September 30, 2017 under this program.

The Corporation continually evaluates the cost and mix of its retail and wholesale funding sources relative to earning assets and expected future earning-asset growth. The Corporation believes that with its current branch network, along with the available borrowing capacity at FHLB and other sources, it has sufficient capacity available to fund expected earning-asset growth.

Discussion of Segments

The Corporation has two principal segments as defined by FASB ASC 280, "Segment Reporting." The segments are Banking and Wealth Management (see Note 10 in the accompanying Notes to Unaudited Consolidated Financial Statements).

Table of Contents

The Wealth Management Segment recorded a pre-tax segment profit (“PTSP”) of \$3.6 million and \$10.7 million for the three and nine months ended September 30, 2017, respectively, as compared to PTSP of \$3.8 million and \$10.8 million, respectively, for the same periods in 2016. The Wealth Management Segment provided 23.3% and 24.6% of the Corporation’s pre-tax profit for the three and nine month periods ended September 30, 2017, respectively, as compared to 27.3% and 26.9% for the same respective periods in 2016. For the three and nine month periods ended September 30, 2017, both insurance revenues and fees for wealth management services increased from the same respective periods in 2016.

The Banking Segment recorded a PTSP of \$11.9 million and \$32.8 million for the three and nine months ended September 30, 2017. Respectively, as compared to PTSP of \$10.0 million and \$29.3 million for the same respective periods in 2016. The Banking Segment provided 76.7% and 75.4% of the Corporation’s pre-tax profit for both the three and nine month periods ended September 30, 2017, respectively, as compared to 72.7% and 73.1% for the same respective periods in 2016.

Off Balance Sheet Risk

The Corporation is a party to financial instruments with off-balance sheet risk in the normal course of business to meet the financing needs of its customers. These financial instruments include commitments to extend credit and standby letters of credit.

Commitments to extend credit are agreements to lend to a customer as long as there is no violation of any condition established in the loan agreement. Total commitments to extend credit at September 30, 2017 were \$727.3 million, as compared to \$675.4 million at December 31, 2016.

Standby letters of credit are conditional commitments issued by the Bank to a customer for a third party. Such standby letters of credit are issued to support private borrowing arrangements. The credit risk involved in issuing standby letters of credit is similar to that involved in granting loan facilities to customers. The Bank’s obligation under standby letters of credit at September 30, 2017 amounted to \$16.4 million, as compared to \$12.7 million at December 31, 2016.

Estimated fair values of the Corporation’s off-balance sheet instruments are based on fees and rates currently charged to enter into similar loan agreements, taking into account the remaining terms of the agreements and the counterparties’ credit standing. Since fees and rates charged for off-balance sheet items are at market levels when set, there is no material difference between the stated amount and the estimated fair value of off-balance sheet instruments.

Contractual Cash Obligations of the Corporation as of September 30, 2017:

<i>(dollars in millions)</i>	Total	Within 1 Year	2 – 3 Years	4 – 5 Years	After 5 Years
Deposits without a stated maturity	\$2,189.5	\$2,189.5	\$—	\$—	\$—
Wholesale and retail time deposits	494.7	403.7	86.0	5.0	—
Short-term borrowings	180.9	180.9	—	—	—
Long-term FHLB advances	134.7	76.5	53.2	5.0	—
Operating leases	29.7	4.4	8.1	5.8	11.4
Purchase obligations	8.1	2.3	2.9	2.9	—
Total	\$3,037.6	\$2,857.3	\$150.2	\$18.7	\$11.4

Other Information**Effects of Inflation**

Inflation has some impact on the Corporation's operating costs. Unlike many industrial companies, however, substantially all of the Corporation's assets and liabilities are monetary in nature. As a result, interest rates have a more significant impact on the Corporation's performance than the general level of inflation. Over short periods of time, interest rates may not necessarily move in the same direction or in the same magnitude as prices of goods and services.

Effects of Government Monetary Policies

The earnings of the Corporation are and will be affected by domestic economic conditions and the monetary and fiscal policies of the United States government and its agencies. An important function of the Federal Reserve Board is to regulate the money supply and interest rates. Among the instruments used to implement those objectives are open market operations in United States government securities and changes in reserve requirements against member bank deposits. These instruments are used in varying combinations to influence overall growth and distribution of bank loans, investments, and deposits, and their use may also affect rates charged on loans or paid for deposits.

The Corporation is a member of the Federal Reserve System and, therefore, the policies and regulations of the Federal Reserve Board have a significant effect on its deposits, loans and investment growth, as well as the rate of interest earned and paid, and are expected to affect the Corporation's operations in the future. The effect of such policies and regulations upon the future business and earnings of the Corporation cannot be predicted.

Special Cautionary Notice Regarding Forward Looking Statements

Certain of the statements contained in this report and the documents incorporated by reference herein may constitute forward-looking statements for the purposes of the Securities Act of 1933, as amended and the Securities Exchange Act of 1934, as amended, and may involve known and unknown risks, uncertainties and other factors which may cause actual results, performance or achievements of the Bryn Mawr Bank Corporation (the "Corporation") to be materially different from future results, performance or achievements expressed or implied by such forward-looking statements. These forward-looking statements include statements with respect to the Corporation's financial goals, business plans, business prospects, credit quality, credit risk, reserve adequacy, liquidity, origination and sale of residential mortgage loans, mortgage servicing rights, the effect of changes in accounting standards, and market and pricing trends loss. The words "may", "would", "could", "will", "likely", "expect," "anticipate," "intend", "estimate", "forecast", "project" and "believe" and similar expressions are intended to identify such forward-looking statements. The Corporation's actual results may differ materially from the results anticipated by the forward-looking statements due to a variety of factors, including without limitation:

• local, regional, national and international economic conditions and the impact they may have on us and our customers and our assessment of that impact;

• our need for capital;

• lower demand for our products and services and lower revenues and earnings could result from an economic recession;

• lower earnings could result from other-than-temporary impairment charges related to our investment securities portfolios or other assets;

• changes in monetary or fiscal policy, or existing statutes, regulatory guidance, legislation or judicial decisions that adversely affect our business, including changes in federal income tax or other tax regulations;

• changes in the level of non-performing assets and charge-offs;

• changes in estimates of future reserve requirements based upon the periodic review thereof under relevant regulatory and accounting requirements;

• other changes in accounting requirements or interpretations;

the accuracy of assumptions underlying the establishment of provisions for loan and lease losses and estimates in the value of collateral, and various financial assets and liabilities;

inflation, securities market and monetary fluctuations;

changes in the securities markets with respect to the market values of financial assets and the stability of particular securities markets;

changes in interest rates, spreads on interest-earning assets and interest-bearing liabilities, and interest rate sensitivity;

prepayment speeds, loan originations and credit losses;

changes in the value of our mortgage servicing rights;

sources of liquidity and financial resources in the amounts, at the times and on the terms required to support our future business;

legislation or other governmental action affecting the financial services industry as a whole, us or our subsidiaries individually or collectively, including changes in laws and regulations (including laws and regulations concerning taxes, banking, securities and insurance) with which we must comply;

results of examinations by the Federal Reserve Board, including the possibility that such regulator may, among other things, require us to increase our allowance for loan losses or to write down assets;

our common stock outstanding and common stock price volatility;

fair value of and number of stock-based compensation awards to be issued in future periods;

with respect to mergers and acquisitions, our business and the acquired business will not be integrated successfully or such integration may be more difficult, time-consuming or costly than expected;

revenues following the completion of a merger or acquisition may be lower than expected;

deposit attrition, operating costs, customer loss and business disruption following a merger or acquisition, including, without limitation, difficulties in maintaining relationships with employees, may be greater than expected;

material differences in the actual financial results of our merger and acquisition activities compared with expectations, such as with respect to the full realization of anticipated cost savings and revenue enhancements within the expected time frame;

our success in continuing to generate new business in our existing markets, as well as their success in identifying and penetrating targeted markets and generating a profit in those markets in a reasonable time;

Table of Contents

our ability to continue to generate investment results for customers and the ability to continue to develop investment products in a manner that meets customers' needs;

changes in consumer and business spending, borrowing and savings habits and demand for financial services in the relevant market areas;

rapid technological developments and changes;

the effects of competition from other commercial banks, thrifts, mortgage companies, finance companies, credit unions, securities brokerage firms, insurance companies, money-market and mutual funds and other institutions operating in our market areas and elsewhere including institutions operating locally, regionally, nationally and internationally together with such competitors offering banking products and services by mail, telephone, computer and the internet;

our ability to continue to introduce competitive new products and services on a timely, cost-effective basis and the mix of those products and services;

containing costs and expenses;

protection and validity of intellectual property rights;

reliance on large customers;

technological, implementation and cost/financial risks in contracts;

- the outcome of pending and future litigation and governmental proceedings;
- any extraordinary events (such as natural disasters, acts of terrorism, wars or political conflicts);

ability to retain key employees and members of senior management;

the ability of key third-party providers to perform their obligations to us and our subsidiaries; and

Our success in managing the risks involved in the foregoing;

as it relates to our pending merger with RBPI, that required regulatory, shareholder or other approvals are not obtained or other closing conditions are not satisfied in a timely manner or at all;

that prior to the completion of the transaction or thereafter, the Corporation's and RBPI's respective businesses may not perform as expected due to transaction-related uncertainty or other factors;

that the parties are unable to successfully implement integration strategies;

the inability of RBPI to cash out outstanding warrants to purchase RBPI Class A Common Stock;

reputational risks and the reaction of the companies' customers to the transaction;

diversion of management time on merger-related issues;

the integration of the acquired business with the Corporation may take longer than anticipated or be more costly to complete and that the anticipated benefits, including any anticipated cost savings or strategic gains may be significantly harder to achieve or take longer than anticipated or may not be achieved;

the need for capital, ability to control operating costs and expenses, and to manage loan and lease delinquency rates;

the credit risks of lending activities and overall quality of the composition of acquired loan, lease and securities portfolio; and

the inability of key third-party providers to perform their obligations to us.

All written or oral forward-looking statements attributed to the Corporation are expressly qualified in their entirety by use of the foregoing cautionary statements. All forward-looking statements included in this Report and the documents incorporated by reference herein are based upon the Corporation's beliefs and assumptions as of the date of this Report. The Corporation assumes no obligation to update any forward-looking statement. In light of these risks, uncertainties and assumptions, the forward-looking statements discussed in this Report or incorporated documents might not occur and you should not put undue reliance on any forward-looking statements.

Additional Information About the Merger with RBPI and Where to Find It

In connection with the proposed merger transaction between the Corporation and RBPI, on April 20, 2017, the Corporation filed with the Securities and Exchange Commission a Registration Statement on Form S-4/A which included a Proxy Statement of RBPI, and a Prospectus of the Corporation, as well as other relevant documents concerning the proposed transaction. Shareholders are urged to read the Registration Statement and the Proxy Statement/Prospectus regarding the merger with RBPI and any other relevant documents filed with the SEC, as well as any amendments or supplements to those documents, because they will contain important information.

A free copy of the Proxy Statement/Prospectus, as well as other filings containing information about the Corporation and RBPI, may be obtained at the SEC's Internet site (<http://www.sec.gov>).

The Corporation and RBPI and certain of their directors and executive officers may be deemed to be participants in the solicitation of proxies from the shareholders of RBPI in connection with the proposed merger. Information about the directors and executive officers of the Corporation is set forth in the proxy statement for the Corporation's 2017 annual meeting of shareholders, filed with the SEC on a Schedule 14A on March 10, 2017. Information about the directors and executive officers of RBPI is set forth in the Form 10-K for RBPI, as filed with the SEC on March 22, 2017. Additional information regarding the interests of those participants and other persons who may be deemed participants in the transaction may be obtained by reading the Proxy Statement/Prospectus regarding the proposed merger. Free copies of this document may be obtained as described in the preceding paragraph.

ITEM 3. Quantitative and Qualitative Disclosures About Market Risks

See the discussion of quantitative and qualitative disclosures about market risks in the Corporation's 2016 Annual Report, as updated by the disclosure in "Management's Discussion and Analysis of Results of Operations – Interest Rate Summary," "– Summary of Interest Rate Simulation," "Customer Derivatives" and "– Gap Analysis" in this quarterly report on Form 10-Q.

ITEM 4. Controls and Procedures

As of the end of the period covered by this report, the Corporation carried out an evaluation, under the supervision and with the participation of the Corporation's management, including the Corporation's Chief Executive Officer, Francis J. Leto, and Chief Financial Officer, Michael W. Harrington, of the effectiveness of the design and operation of the Corporation's disclosure controls and procedures as defined in the Exchange Act Rules 13a-15(e) and 15d-15(e). Based

upon the evaluation, the Chief Executive Officer and Chief Financial Officer concluded that the Corporation's disclosure controls and procedures were effective as of September 30, 2017.

There were no changes in the Corporation's internal controls over financial reporting during the last fiscal quarter that materially affected, or are reasonably likely to materially affect, the Corporation's internal control over financial reporting.

Table of Contents**PART II OTHER INFORMATION.****ITEM 1. Legal Proceedings.**

In a Complaint filed on April 11, 2017 in the U.S. District Court for the Eastern District of Pennsylvania, the Corporation was named as a defendant in a lawsuit entitled Parshall v. Royal Bancshares of Pennsylvania, Inc., et al. In relevant part, Mr. Parshall, a purported shareholder of RBPI, alleged that the Corporation, as a “control person” of RBPI, should be liable for what Mr. Parshall claimed to be inadequate disclosures in the proxy statement/prospectus RBPI sent to its shareholders in connection with soliciting approval of the Corporation’s acquisition of RBPI. Mr. Parshall purported to bring this claim on behalf of a class of similarly-situated RBPI shareholders, although no class was certified by the court. Mr. Parshall did not articulate any monetary damages in his complaint, but sought the right to prevent the Corporation’s acquisition of RBPI (or in the alternative, if it does proceed, rescind it or award rescissory damages), an order for an amended proxy statement/prospectus, a declaratory judgment that the defendants, including the Corporation, violated federal securities laws, and unspecified attorney's fees and litigation costs. On September 27, 2017, the parties submitted a stipulation dismissing as “moot” the action with prejudice as to Mr. Parshall’s claims and without prejudice as to the putative class. The court approved the stipulation and entered an order dismissing the action on September 28, 2017. In accordance with the stipulation, the court retained jurisdiction to decide any motion or request for attorney’s fees and expenses by Mr. Parshall’s counsel.

ITEM 1A. Risk Factors

None.

ITEM 2. Unregistered Sales of Equity Securities and Use of Proceeds**Share Repurchase**

The following table presents the shares repurchased by the Corporation during the third quarter of 2017⁽¹⁾:

<u>Period</u>	Total Number of Shares Purchased⁽²⁾⁽³⁾	Average Price Paid Per Share	Total Number of Shares Purchased	Maximum Number of Shares that May Yet Be
----------------------	--	-------------------------------------	---	---

			as Part of Publicly Announced Plans	Purchased Under the Plan or Programs
July 1, 2017 – July 31, 2017	—	\$ —	—	189,300
August 1, 2017 – August 31, 2017	22,923	\$ 41.74	—	189,300
September 1, 2017 – September 30, 2017	2,113	\$ 41.15	—	189,300
Total	25,036	\$ 41.69	—	189,300

On August 6, 2015, the Corporation announced a stock repurchase program (the “2015 Program”) under which the Corporation may repurchase up to 1,200,000 shares of the Corporation’s common stock, at an aggregate purchase price not to exceed \$40 million. There is no expiration date on the 2015 Program and the Corporation

(1) has no plans for an early termination of the 2015 Program. All share repurchases under the 2015 Program were accomplished in open market transactions. As of September 30, 2017, the maximum number of shares remaining authorized for repurchase under the 2015 Program was 189,300.

(2) On September 29, 2017, 680 shares were purchased by the Corporation’s deferred compensation plans through open market transactions.

(3) Includes shares purchased to cover statutory tax withholding requirements on vested stock awards for certain officers of the Corporation or Bank as follows: 2,403 shares on August 12, 2017; 20,520 shares on August 14, 2017; 305 shares on September 2, 2017; and 1,128 shares on September 15, 2017.
