UNITED STATES

SECURITIES AND EXCHANGE COMMISSION

Washington, D.C. 20549

FORM 10-Q

QUARTERLY REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934

For quarterly period ended: June 30, 2018

OR

TRANSITION REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934

For the transition period from _____ to _____

Commission File Number: 1-4221

HELMERICH & PAYNE, INC.

(Exact name of registrant as specified in its charter)

Delaware	73-0679879
(State or other jurisdiction of incorporation or organization)	(I.R.S. Employer I.D. Number)

1437 South Boulder Avenue, Tulsa, Oklahoma, 74119

(Address of principal executive office)(Zip Code)

(918) 742-5531

(Registrant's telephone number, including area code)

N/A

(Former name, former address and former fiscal year,
if changed since last report)

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days. Yes No

Indicate by check mark whether the registrant has submitted electronically and posted on its corporate Web site, if any, every Interactive Data File required to be submitted and posted pursuant to Rule 405 of Regulation S-T (§ 232.405 of this chapter) during the preceding 12 months (or for such shorter period that the registrant was required to submit and post such files). Yes No

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, smaller reporting company, or an emerging growth company. See the definitions of "large accelerated filer," "accelerated filer," "smaller reporting company," and "emerging growth company" in Rule 12b-2 of the Exchange Act.

Edgar Filing: Helmerich & Payne, Inc. - Form 10-Q

Large accelerated filer

Accelerated filer

Non-accelerated filer

Smaller reporting company

(Do not check if a smaller reporting company)

Emerging growth company

If an emerging growth company, indicate by check mark if the registrant has elected not to use the extended transition period for complying with any new or revised financial accounting standards provided pursuant to Section 13(a) of the Exchange Act.

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act).

Yes No

NOTES TO UNAUDITED CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

1. Basis of Presentation

Unless the context otherwise requires, the use of the terms “the Company”, “we”, “us” and “our” in these Notes to Unaudited Condensed Consolidated Financial Statements refers to Helmerich & Payne, Inc. and its consolidated subsidiaries.

The accompanying Unaudited Condensed Consolidated Financial Statements have been prepared in accordance with accounting principles generally accepted in the United States (“GAAP”) and applicable rules and regulations of the Securities and Exchange Commission (the “Commission”) pertaining to interim financial information. Accordingly, these interim financial statements do not include all information or footnote disclosures required by GAAP for complete financial statements and, therefore, should be read in conjunction with the Consolidated Financial Statements and notes thereto in our 2017 Annual Report on Form 10-K and other current filings with the Commission. In the opinion of management, all adjustments, consisting of those of a normal recurring nature, necessary to present fairly the results of the periods presented have been included. The results of operations for the interim periods presented may not necessarily be indicative of the results to be expected for the full year.

As more fully described in our 2017 Annual Report on Form 10-K, our contract drilling revenues are comprised of daywork drilling contracts for which the related revenues and expenses are recognized as services are performed. For contracts that are terminated by customers prior to the expirations of their fixed terms, contractual provisions customarily require early termination amounts to be paid to us. Revenues from early terminated contracts are recognized when all contractual requirements have been met. During the three and nine months ended June 30, 2018, early termination revenue was approximately \$6.0 million and \$14.3 million, respectively. We had \$5.1 million and \$24.8 million of early termination revenue for the three and nine months ended June 30, 2017, respectively.

Depreciation in the Condensed Consolidated Statements of Operations includes abandonments of \$7.0 million and \$22.5 million, respectively, for the three and nine months ended June 30, 2018 and \$7.7 million and \$27.2 million, respectively, for the three and nine months ended June 30, 2017.

During the three months ended June 30, 2018, we have shortened the estimated useful life of certain components of rigs planned for conversion, with a total net book value of \$10.4 million, resulting in an increase in depreciation expense during the three months ended June 30, 2018 of approximately \$1.0 million. This will also increase the depreciation expense for the next three months by approximately \$5.7 million and will decrease the depreciation expense for fiscal years 2019, 2020, 2021, 2022, and 2023 by \$1.4 million, \$1.7 million, \$1.6 million, \$0.9 million, and \$0.3 million, respectively and thereafter by \$0.8 million.

The functional currency for all our foreign operations is the U.S. dollar. Aggregate foreign currency gains and losses from the translation of monetary assets and liabilities denominated in foreign currency into U.S. dollars are included in direct operating costs and totaled losses of \$1.1 million and \$2.5 million for the three and nine months ended June 30, 2018, respectively, and \$1.3 million and \$3.3 million for the three and nine months ended June 30, 2017, respectively.

Goodwill represents the excess of the purchase price over the fair values of the assets acquired and liabilities assumed in a business combination, at the date of acquisition. Goodwill is not amortized but is tested for potential impairment at the reporting unit level, at a minimum on an annual basis, or when indications of potential impairment exist. All of our goodwill is within our Other non-reportable business segment.

Intangible assets with indefinite lives are tested for impairment at least annually in the fourth fiscal quarter or if events occur or circumstances change that would indicate that the value of the assets may be impaired. Finite-lived intangible assets are amortized using the straight-line method over the period in which these assets contribute to our cash flows and are evaluated for impairment in accordance with our policies for valuation of long-lived assets. The

Table of Contents

following is a summary of our finite-lived and indefinite-lived intangible assets other than goodwill at June 30, 2018 and September 30, 2017:

	June 30, 2018		September 30, 2017	
	Gross Carrying Amount	Accumulated Amortization	Gross Carrying Amount	Accumulated Amortization
	(in thousands)			
Finite-lived intangible asset:				
Developed technology	\$ 70,000	\$ 4,422	\$ 51,000	\$ 1,134
Trade name	5,700	166	—	—
Customer relationships	4,000	467	—	—
	\$ 79,700	\$ 5,055	\$ 51,000	\$ 1,134
Indefinite-lived intangible asset:				
Trademark	\$ 919		\$ 919	

Amortization expense was \$1.4 million and \$3.9 million for the three and nine months ended June 30, 2018, respectively, and is estimated to be approximately \$5.4 million for fiscal 2018. Estimated intangible amortization is estimated to be approximately \$5.8 million for each of the next four succeeding fiscal years and approximately \$5.1 million for fiscal 2023.

Recently adopted accounting pronouncements

On October 1, 2017, we adopted Accounting Standards Update (“ASU”) No. 2016-09, Compensation- Stock Compensation (Topic 718): Improvements to Employee Share-Based Payment Accounting, which changes certain aspects of accounting for share-based payments to employees. The standard requires that all excess tax benefits and deficiencies previously recorded as additional paid-in capital be prospectively recorded in income tax expense. The adoption of this ASU could cause volatility in the effective tax rate on a quarter by quarter basis due primarily to fluctuations in the Company's stock price and the timing of stock option exercises and vesting of restricted share grants. The standard requires excess tax benefits to be presented as an operating activity on the statement of cash flows rather than as a financing activity. Excess tax benefits and deficiencies are recorded within the provision for income taxes within the Condensed Consolidated Statements of Operations on a prospective basis as required by the standard; however, we elected to present changes to the statement of cash flows on a retrospective basis as allowed by the standard in order to maintain comparability between fiscal years. As such, prior period cash flows from operations for nine months ended June 30, 2017 has been adjusted to reflect an increase of \$4.1 million, with a corresponding decrease to cash flows used in financing activities, compared to amounts previously reported. The standard also requires taxes paid for employee withholdings to be presented as a financing activity on the statement of cash flows but this requirement had no impact on our total financing activities as this has been the practice historically. We also elected to account for forfeitures of awards as they occur, instead of estimating a forfeiture amount. We recorded a \$0.3 million cumulative-effect adjustment to retained earnings for the differential between the amount of

compensation cost previously recorded and the amount that would have been recorded without assuming forfeitures.

In August 2014, the FASB issued ASU No. 2014-15, Presentation of Financial Statements-Going Concern (Subtopic 205-40): Disclosure of Uncertainties about an Entity's Ability to Continue as a Going Concern. The new guidance requires management to assess a company's ability to continue as a going concern and to provide related footnote disclosures in certain circumstances. Disclosures are required when conditions give rise to substantial doubt. Substantial doubt is deemed to exist when it is probable that the company will be unable to meet its obligations within one year from the financial statement issuance date. The new guidance is effective for the annual period ending after December 15, 2016, and all annual and interim periods thereafter. On October 1, 2017, we adopted the ASU with no impact on our condensed consolidated financial statements or the related footnote disclosures.

In July 2015, the Financial Accounting Standards Board ("FASB") issued ASU No. 2015-11, Inventory (Topic 330): Simplifying the Measurement of Inventory. This update simplifies the subsequent measurement of inventory. It

Table of Contents

replaces the current lower of cost or market test with the lower of cost or net realizable value test. Net realizable value is defined as the estimated selling prices in the ordinary course of business, less reasonably predictable costs of completion, disposal and transportation. On October 1, 2017, we adopted ASU No. 2015-11 with no impact on our condensed consolidated financial statements.

2. Business Combinations

On December 8, 2017, we completed an acquisition (“MagVAR Acquisition”) of an unaffiliated company, Magnetic Variation Services, LLC (“MagVAR”), which is now a wholly owned subsidiary of the Company. The operations for MagVAR are included with our Other non-reportable business segment. At the effective time of the MagVAR Acquisition, MagVAR shareholders received aggregate cash consideration of \$47.9 million, net of customary closing adjustments, and certain management members received restricted stock awards covering 213,904 shares of Helmerich & Payne, Inc. common stock. The grant date fair value of the restricted stock will be amortized to expense over the three year vesting period. At closing, \$6.0 million of the cash consideration was placed in escrow, to be released to the sellers twelve months after the acquisition closing date. The amount placed in escrow is classified as restricted cash and is included in prepaid expenses and other in the Condensed Consolidated Balance Sheet at June 30, 2018. Transaction costs related to the MagVAR Acquisition incurred during the nine months ended June 30, 2018 were approximately \$1.2 million and are recorded in the Condensed Consolidated Statements of Operations within general and administrative expense. We recorded revenue of \$7.5 million and a net loss of \$2.0 million related to MagVAR during the nine months ended June 30, 2018.

Through comprehensive 3D geomagnetic reference modeling, MagVAR provides measurement while drilling (“MWD”) survey corrections by identifying and quantifying MWD tool measurement errors in real-time, greatly improving directional drilling performance and wellbore placement. MagVAR technology has been successfully deployed in both onshore and offshore fields in North America, South America, Europe, Africa, Australia and Asia.

The MagVAR Acquisition has been accounted for as a business combination in accordance with Accounting Standards Codification (“ASC”) 805, Business Combinations, which requires the assets acquired and liabilities assumed to be recorded at their acquisition date fair values. The following table summarizes the purchase price and the fair values of assets acquired and liabilities assumed at the acquisition date (in thousands):

Purchase Price	
Consideration given	
Cash consideration	\$ 48,485
Allocation of Purchase Price	
Fair value of assets acquired	
Current assets	\$ 2,286

Edgar Filing: Helmerich & Payne, Inc. - Form 10-Q

Property, plant and equipment	13
Intangible assets	28,700
Goodwill	17,791
Total assets acquired	\$ 48,790
Fair value of liabilities assumed	
Current liabilities	\$ 305
Fair value of total assets acquired and liabilities assumed	\$ 48,485

Intangible assets acquired consist of developed technology, a trade name and customer relationships. The intangible assets will be amortized under a straight-line method over their estimated useful lives ranging from 5 to 20 years.

The methodologies used in valuing the intangible assets include the multi-period excess earnings method for developed technology, the with and without method for customer relationships and the relief-from-royalty method

Table of Contents

for the trade name. The excess of the purchase price over the total net identifiable assets has been recorded as goodwill. Factors comprising goodwill includes the synergies expected from the expanded service capabilities as well as the value of the assembled workforce. The goodwill is reported within our Other non-reportable business segment and will not be allocated to any other reporting unit. The goodwill is not subject to amortization, but will be evaluated at least annually for impairment, or more frequently if impairment indicators are present. The intangible assets and goodwill will be amortized straight line over 15 years for income tax purposes.

The following unaudited pro forma combined financial information is provided for the nine months ended June 30, 2018 and 2017, as though the MagVAR Acquisition had been completed as of October 1, 2016. These pro forma combined results of operations have been prepared by adjusting our historical results to include the historical results of MagVAR and reflect pro forma adjustments based on available information and certain assumptions that we believe are reasonable, including application of an appropriate income tax to MagVAR's pre-tax loss. Additionally, pro forma earnings for the nine months ended June 30, 2018 were adjusted to exclude \$0.5 million of after-tax transaction costs. The unaudited pro forma combined financial information is provided for illustrative purposes only and is not necessarily indicative of the actual results that would have been achieved by the combined company for the periods presented or that may be achieved by the combined company in the future. Future results may vary significantly from the results reflected in this pro forma financial information.

Net income (loss)	\$ 480,411	\$ (104,519)

3. Discontinued Operations

Current and noncurrent liabilities consist of municipal and income taxes payable and social obligations due within the country of Venezuela. Expenses incurred for in-country obligations are reported as discontinued operations. The activity for the three and nine months ended June 30, 2018 was impacted by the devaluation of the Venezuela bolivar. Early in 2018, the Venezuelan government announced that it changed the existing dual-rate foreign currency exchange system by eliminating its heavily subsidized foreign exchange rate, which was 10 Bolivars per United States dollar, and relaunched an exchange system known as DICOM. The DICOM floating rate was approximately 115,000 Bolivars per United States dollar at June 30, 2018.

4. Earnings per Share

ASC 260, Earnings per Share, requires companies to treat unvested share-based payment awards that have non-forfeitable rights to dividends or dividend equivalents as a separate class of securities in calculating earnings per share. We have granted and expect to continue to grant to employees restricted stock grants that contain non-forfeitable rights to dividends. Such grants are considered participating securities under ASC 260. As such, we are required to include these grants in the calculation of our basic earnings per share and calculate basic earnings per share using the two-class method. The two-class method of computing earnings per share is an earnings allocation formula that determines earnings per share for each class of common stock and participating security according to dividends declared (or accumulated) and participation rights in undistributed earnings.

Basic earnings per share is computed utilizing the two-class method and is calculated based on the weighted-average number of common shares outstanding during the periods presented.

Diluted earnings per share is computed using the weighted-average number of common and common equivalent shares outstanding during the periods utilizing the two-class method for stock options and nonvested restricted stock.

Table of Contents

Under the two-class method of calculating earnings per share, dividends paid and a portion of undistributed net income, but not losses, are allocated to unvested restricted stock grants that receive dividends, which are considered participating securities.

The following table sets forth the computation of basic and diluted earnings per share:

	Three Months Ended June 30,		Nine Months Ended June 30,	
	2018	2017	2018	2017
	(in thousands, except per share amounts)			
Numerator:				
(Loss) income from continuing operations	\$ (8,174)	\$ (23,125)	\$ 490,835	\$ (106,152)
Income (loss) from discontinued operations	166	1,326	(10,616)	472
Net (loss) income	(8,008)	(21,799)	480,219	(105,680)

Earnings allocated to unvested shareholders	(717)	(458)	(4,241)	(1,349)
Numerator for basic earnings per share:				
From continuing operations	(8,891)	(23,583)	486,594	(107,501)
From discontinued operations	166	1,326	(10,616)	472
	(8,725)	(22,257)	475,978	(107,029)
Adjustment for diluted earnings per share:				
Effect of reallocating undistributed earnings of unvested shareholders	—	—	10	—
Numerator for diluted earnings per share:				
From continuing operations	(8,891)	(23,583)	486,604	(107,501)
From discontinued operations	166	1,326	(10,616)	472
	\$ (8,725)	\$ (22,257)	\$ 475,988	\$ (107,029)
Denominator:				
Denominator for basic earnings per share - weighted-average shares	108,905	108,572	108,818	108,470
Effect of dilutive shares from stock options and restricted stock	—	—	520	—
Denominator for diluted earnings per share - adjusted weighted-average shares	108,905	108,572	109,338	108,470
Basic earnings per common share:				
(Loss) income from continuing operations	\$ (0.08)	\$ (0.22)	\$ 4.47	\$ (0.99)
Income (loss) from discontinued operations	—	0.01	(0.10)	—
Net (loss) income	\$ (0.08)	\$ (0.21)	\$ 4.37	\$ (0.99)
Diluted earnings per common share:				
(Loss) income from continuing operations	\$ (0.08)	\$ (0.22)	\$ 4.45	\$ (0.99)
Income (loss) from discontinued operations	—	0.01	(0.10)	—
Net (loss) income	\$ (0.08)	\$ (0.21)	\$ 4.35	\$ (0.99)

We had a net loss for the three months ended June 30, 2018 and three and nine months ended June 30, 2017. Accordingly, our diluted earnings per share calculation for these periods were equivalent to our basic earnings per share calculation since diluted earnings per share excluded any assumed exercise of equity awards. These were excluded because they were deemed to be anti-dilutive, meaning their inclusion would have reduced the reported net loss per share in the applicable period.

Table of Contents

The following shares attributable to outstanding equity awards were excluded from the calculation of diluted earnings per share because their inclusion would have been anti-dilutive:

	Three Months Ended June 30, 2018		Nine Months Ended June 30, 2018	
	2017	2018	2017	2018
	(in thousands, except per share amounts)			
Shares excluded from calculation of diluted earnings per share	929	1,332	1,585	1,034
Weighted-average price per share	\$ 75.56	\$ 70.82	\$ 68.51	\$ 73.84

5. Financial Instruments and Fair Value Measurement

The estimated fair value of our available-for-sale securities, reflected on our Condensed Consolidated Balance Sheets as Investments, is based on Level 1 inputs. The following is a summary of available-for-sale securities, which excludes assets held in a Non-qualified Supplemental Savings Plan:

	Cost (in thousands)	Gross Unrealized Gains	Gross Unrealized Losses	Estimated Fair Value
Equity Securities:				
June 30, 2018	\$ 38,473	\$ 39,327	\$ —	\$ 77,800
September 30, 2017	\$ 38,473	\$ 31,700	\$ —	\$ 70,173

On an ongoing basis we evaluate the marketable equity securities to determine if any decline in fair value below cost is other-than-temporary. If a decline in fair value below cost is determined to be other-than-temporary, an impairment charge is recorded and a new cost basis established. We review several factors to determine whether a loss is other-than-temporary. These factors include, but are not limited to, (i) the length of time a security is in an unrealized loss position, (ii) the extent to which fair value is less than cost, (iii) the financial condition and near-term prospects of the issuer and (iv) our intent and ability to hold the security for a period of time sufficient to allow for any anticipated recovery in fair value. When securities are sold, the cost of securities used in determining realized gains and losses is based on the average cost basis of the security sold.

The assets held in the Non-qualified Supplemental Savings Plan are carried at fair value which totaled \$15.0 million at June 30, 2018 and \$13.9 million at September 30, 2017. The assets are comprised of mutual funds that are measured using Level 1 inputs.

Short-term investments include securities classified as trading securities. Both realized and unrealized gains and losses on trading securities are included in other income (expense) in the Condensed Consolidated Statements of Operations. The securities are recorded at fair value.

The majority of cash equivalents are invested in highly liquid money-market mutual funds invested primarily in direct or indirect obligations of the U.S. Government. The carrying amount of cash and cash equivalents approximates fair value due to the short maturity of those investments.

Fair value is defined as the exchange price that would be received to sell an asset or paid to transfer a liability (an exit price) in the principal or most advantageous market for the asset or liability in an orderly transaction between market participants at the measurement date. We use the fair value hierarchy established in ASC 820-10 to measure fair value to prioritize the inputs:

- Level 1 — Quoted prices (unadjusted) in active markets for identical assets or liabilities that the reporting entity can access at the measurement date.

Table of Contents

- Level 2 — Observable inputs, other than quoted prices included in Level 1, such as quoted prices for similar assets or liabilities in active markets; quoted prices for similar assets and liabilities in markets that are not active; or other inputs that are observable or can be corroborated by observable market data.
- Level 3 — Unobservable inputs that are supported by little or no market activity and that are significant to the fair value of the assets or liabilities. This includes pricing models, discounted cash flow methodologies and similar techniques that use significant unobservable inputs.

At June 30, 2018, our financial instruments utilizing Level 1 inputs include cash equivalents, U.S. Agency issued debt securities, equity securities with active markets and money market funds that are classified as restricted assets. The current portion of restricted amounts are included in prepaid expenses and other, and the noncurrent portion are included in other assets. For these items, quoted current market prices are readily available.

At June 30, 2018, Level 2 inputs include certificates of deposit, municipal bonds and corporate bonds measured using broker quotations that utilize observable market inputs.

Our financial instruments measured using Level 3 inputs consist of potential earnout payments associated with the acquisition of MOTIVE Drilling Technologies, Inc. in fiscal 2017. The valuation techniques used for determining the fair value of the potential earnout payments use a Monte Carlo simulation which evaluates numerous potential earnings and pay out scenarios.

The following table summarizes our assets and liabilities measured at fair value presented in our Condensed Consolidated Balance Sheet as of June 30, 2018:

	Fair Value (in thousands)	(Level 1)	(Level 2)	(Level 3)
Recurring fair value measurements:				
Short-term investments:				
Certificates of deposit	\$ 1,500	\$ —	\$ 1,500	\$ —
Corporate and municipal debt securities	13,794	—	13,794	—
U.S. government and federal agency securities	28,985	28,985	—	—
Total short-term investments	44,279	28,985	15,294	—
Cash and cash equivalents	306,426	306,426	—	—
Investments	77,800	77,800	—	—
Other current assets	34,614	34,614	—	—
Other assets	6,902	6,902	—	—
Total assets measured at fair value	\$ 470,021	\$ 454,727	\$ 15,294	\$ —

Liabilities:

Contingent earnout liability	\$ 9,402	\$ —	\$ —	\$ 9,402
------------------------------	----------	------	------	----------

The following table presents a reconciliation of changes in the fair value of our financial assets and liabilities classified as Level 3 fair value measurements in the fair value hierarchy for the indicated periods:

	Three Months Ended		Nine Months Ended	
	June 30, 2018	2017	June 30, 2018	2017
	(in thousands)			
Net liabilities at beginning of period	\$ 15,702	\$ —	\$ 14,879	\$ —
Total gains or losses:				
Included in earnings	(175)	14,509	5,148	14,509
Settlements	(6,125)	—	(10,625)	—
Net liabilities at end of period	\$ 9,402	\$ 14,509	\$ 9,402	\$ 14,509

Table of Contents

Settlements represent earnout payments that have been earned or paid during the period.

The following information presents the supplemental fair value information about long-term fixed-rate debt at June 30, 2018 and September 30, 2017:

	June 30, 2018	September 30, 2017
	(in millions)	
Carrying value of long-term fixed-rate debt	\$ 493.7	\$ 492.9
Fair value of long-term fixed-rate debt	\$ 516.5	\$ 529.0

The fair value for the \$500 million fixed-rate debt was based on broker quotes. The notes are classified within Level 2 as they are not actively traded in markets.

6.Shareholders' Equity

The Company has authorization from the Board of Directors for the repurchase of up to four million shares per calendar year. The repurchases may be made using our cash and cash equivalents or other available sources. We had no purchases of common shares during the nine months ended June 30, 2018 and 2017.

Components of accumulated other comprehensive income were as follows:

	June 30, 2018	September 30, 2017
	(in thousands)	
Pre-tax amounts:		
Unrealized appreciation on securities	\$ 39,327	\$ 31,700
Unrealized actuarial loss	(27,491)	(28,873)
	\$ 11,836	\$ 2,827
After-tax amounts:		
Unrealized appreciation on securities	\$ 25,727	\$ 20,070
Unrealized actuarial loss	(16,785)	(17,770)

Edgar Filing: Helmerich & Payne, Inc. - Form 10-Q

\$ 8,942 \$ 2,300

The following is a summary of the changes in accumulated other comprehensive income (loss), net of tax, by component for the three and nine months ended June 30, 2018:

	Three Months Ended June 30, 2018		
	Unrealized Appreciation (Depreciation)	Defined Benefit Pension Plan	Total
	Securities	Available-for-Sale	
	(in thousands)		
Balance at April 1, 2018	\$ 11,901	\$ (17,122)	\$ (5,221)
Other comprehensive income before reclassifications	13,826	—	13,826
Amounts reclassified from accumulated other comprehensive income	—	337	337
Net current-period other comprehensive income	13,826	337	14,163
Balance at June 30, 2018	\$ 25,727	\$ (16,785)	\$ 8,942

Table of Contents

	Nine Months Ended June 30, 2018		
	Unrealized Appreciation (Depreciation)	Defined Benefit Pension Plan	Total
Balance at October 1, 2017	\$ 20,070	\$ (17,770)	\$ 2,300
Other comprehensive income before reclassifications	5,657	—	5,657
Amounts reclassified from accumulated other comprehensive income	—	985	985
Net current-period other comprehensive income	5,657	985	6,642
Balance at June 30, 2018	\$ 25,727	\$ (16,785)	\$ 8,942

The following provides detail about accumulated other comprehensive income (loss) components which were reclassified to the Condensed Consolidated Statements of Operations:

Details About Accumulated Other Comprehensive Income (Loss) Components	Reclassified from Accumulated Other Comprehensive Income (Loss) Three Months Ended June 30, 2018		Reclassified from Accumulated Other Comprehensive Income (Loss) Nine Months Ended June 30, 2017		Affected Line Item in the Condensed Consolidated Statements of Operations
	2018	2017	2018	2017	
Amortization of net actuarial loss on defined pension plan	\$ (461)	\$ (574)	\$ (1,382)	\$ (1,724)	General and administrative
	124	209	397	627	Income tax provision
Net reclassifications for the period	\$ (337)	\$ (365)	\$ (985)	\$ (1,097)	Net of tax

7. Cash Dividends

On June 6, 2018, a cash dividend of \$0.71 per share was declared for shareholders of record on August 17, 2018, payable August 31, 2018. The dividend payable is included in accounts payable in the Condensed Consolidated Balance Sheets. The \$0.70 per share cash dividends declared March 7, 2018 and December 5, 2017, were paid June 1, 2018 and March 1, 2018, respectively.

8. Stock-Based Compensation

On March 2, 2016, the Helmerich & Payne, Inc. 2016 Omnibus Incentive Plan (the "2016 Plan") was approved by our stockholders. The 2016 Plan, among other things, authorizes the Human Resources Committee of the Board to grant non-qualified stock options and restricted stock awards to selected employees and to non-employee Directors. Restricted stock may be granted for no consideration other than prior and future services. The purchase price per share for stock options may not be less than market price of the underlying stock on the date of grant. Stock options expire 10 years after the grant date. Awards outstanding in the Helmerich & Payne, Inc. 2005 Long-Term Incentive Plan and the Helmerich & Payne, Inc. 2010 Long-Term Incentive Plan (collectively the "2010 Plan") remain subject to the terms and conditions of those plans. During the nine months ended June 30, 2018, there were 690,947 non-qualified stock options and 411,271 shares of restricted stock awards granted under the 2016 Plan. An additional 213,904 of restricted stock grants were awarded outside of the 2016 Plan.

Table of Contents

A summary of compensation cost for stock-based payment arrangements recognized in general and administrative expense is as follows:

	Three Months Ended		Nine Months Ended	
	June 30, 2018	2017	June 30, 2018	2017
	(in thousands)		(in thousands)	
Compensation expense				
Stock options	\$ 1,815	\$ 1,934	\$ 5,887	\$ 5,455
Restricted stock	6,111	4,834	17,585	13,792
	\$ 7,926	\$ 6,768	\$ 23,472	\$ 19,247

STOCK OPTIONS

The following summarizes the weighted-average assumptions utilized in determining the fair value of options granted during the nine months ended June 30, 2018 and 2017:

	2018		2017	
Risk-free interest rate	2.2	%	2.0	%
Expected stock volatility	36.1	%	38.9	%
Dividend yield	4.7	%	3.7	%
Expected term (in years)	6.0		5.5	

Risk-Free Interest Rate. The risk-free interest rate is based on U.S. Treasury securities for the expected term of the option.

Expected Volatility Rate. Expected volatility is based upon historical experience of the daily closing price of our stock over a period which approximates the expected term of the option.

Expected Dividend Yield. The expected dividend yield is based on our current dividend yield.

Expected Term. The expected term of the options granted represents the period of time that they are expected to be outstanding. We estimate the expected term of options granted based on historical experience with grants and

exercises.

A summary of stock option activity under all existing long-term incentive plans for the three and nine months ended June 30, 2018 is presented in the following tables:

	Three Months Ended June 30, 2018			
	Shares	Weighted Average Exercise Price	Weighted Average Remaining Contractual Term (in years)	Aggregate Intrinsic Value (in millions)
Outstanding at April 1, 2018	(in thousands) 3,721	\$ 58.15		
Granted	24	68.90		
Exercised	(66)	56.02		
Forfeited/Expired	(59)	68.70		
Outstanding at June 30, 2018	3,620	\$ 58.08	5.96	\$ 31.5
Vested and expected to vest at June 30, 2018	3,620	\$ 58.08	5.96	\$ 31.5
Exercisable at June 30, 2018	2,308	\$ 55.61	4.44	\$ 25.8

Table of Contents

	Nine Months Ended June 30, 2018	
	Shares (in thousands)	Weighted Average Exercise Price
Outstanding at October 1, 2017	3,278	\$ 56.41
Granted	691	59.01
Exercised	(290)	39.20
Forfeited/Expired	(59)	68.70
Outstanding at June 30, 2018	3,620	\$ 58.08

The weighted-average fair value of options granted in the first, second and third quarters of fiscal 2018 was \$12.94, \$17.78 and \$17.82, respectively.

The total intrinsic value of options exercised during the three and nine months ended June 30, 2018 was \$1.0 million and \$6.6 million, respectively.

As of June 30, 2018, the unrecognized compensation cost related to stock options was \$9.3 million which is expected to be recognized over a weighted-average period of 2.3 years.

RESTRICTED STOCK

Restricted stock awards consist of our common stock and are time-vested over three to six years. We recognize compensation expense on a straight-line basis over the vesting period. The fair value of restricted stock awards is determined based on the closing price of our shares on the grant date. As of June 30, 2018, there was \$41.0 million of total unrecognized compensation cost related to unvested restricted stock awards. That cost is expected to be recognized over a weighted-average period of 2.5 years.

A summary of the status of our restricted stock awards as of June 30, 2018 and changes in restricted stock outstanding during the nine months then ended is presented below:

Edgar Filing: Helmerich & Payne, Inc. - Form 10-Q

	Nine Months Ended June 30, 2018	Weighted Average Grant Date Fair Value per Share
	Shares (in thousands)	
Unvested at October 1, 2017	659	\$ 70.76
Granted	625	59.52
Vested (1)	(258)	71.16
Forfeited	(19)	68.98
Unvested on June 30, 2018	1,007	\$ 63.72

(1)The number of restricted stock awards vested includes shares that we withheld on behalf of our employees to satisfy the statutory tax withholding requirements.

Table of Contents

9. Debt

At June 30, 2018 and September 30, 2017, we had the following unsecured long-term debt outstanding:

	Principal		Unamortized Discount and Debt Issuance Costs	
	June 30, 2018 (in thousands)	September 30, 2017	June 30, 2018	September 30, 2017
Unsecured senior notes issued March 19, 2015:				
Due March 19, 2025	\$ 500,000	\$ 500,000	\$ (6,300)	\$ (7,098)
	500,000	500,000	(6,300)	(7,098)
Less long-term debt due within one year	—	—	—	—
Long-term debt	\$ 500,000	\$ 500,000	\$ (6,300)	\$ (7,098)

On March 19, 2015, we issued \$500 million of 4.65 percent 10-year unsecured senior notes. Interest is payable semi-annually on March 15 and September 15. The debt discount is being amortized to interest expense using the effective interest method. The debt issuance costs are amortized straight-line over the stated life of the obligation, which approximates the effective interest method.

We have a \$300 million unsecured revolving credit facility which will mature on July 13, 2021. The credit facility has \$75 million available to use as letters of credit. The majority of any borrowings under the facility would accrue interest at a spread over the London Interbank Offered Rate (“LIBOR”). We also pay a commitment fee based on the unused balance of the facility. Borrowing spreads as well as commitment fees are determined according to a scale based on a ratio of our total debt to total capitalization. The spread over LIBOR ranges from 1.125 percent to 1.75 percent per annum and commitment fees range from .15 percent to .30 percent per annum. Based on our debt to total capitalization on June 30, 2018, the spread over LIBOR and commitment fees would be 1.125 percent and .15 percent, respectively. There is one financial covenant in the facility which requires us to maintain a funded leverage ratio (as defined) of less than 50 percent. The credit facility contains additional terms, conditions, restrictions and covenants that we believe are usual and customary in unsecured debt arrangements for companies of similar size and credit quality including a limitation that priority debt (as defined in the agreement) may not exceed 17.5% of the net worth of the Company. As of June 30, 2018, the Company had no borrowings against the line, but there were three letters of credit outstanding in the amount of \$39.3 million. Two of these letters of credit in the amount of \$29.3 million supports self-insured losses under the Company’s high deductible casualty insurance programs and the remaining \$10.0 million letter of credit supports an operating line of credit with a bank in Argentina. As a result, at June 30, 2018, we had \$260.7 million available to borrow under our \$300 million unsecured credit facility.

At June 30, 2018, we had a \$12 million unsecured standalone line of credit facility, which is purposed for the issuance of bid and performance bonds, as needed, for international operations. The Company currently has one bond issued under this line which is in a foreign currency and was valued at \$2 million on June 30, 2018. The applicable agreements for all unsecured debt contain additional terms, conditions and restrictions that we believe are usual and customary in unsecured debt arrangements for companies that are similar in size and credit quality. At June 30, 2018, we were in compliance with all debt covenants.

10. Income Taxes

Our income tax provision (benefit) for the first nine months of fiscal 2018 and 2017 was (\$494.0) million and (\$50.5) million, respectively, resulting in effective tax rates of 15,472.2 percent and 32.3 percent, respectively. Our income tax provision (benefit) for the three months ended June 30, 2018 and 2017 was \$10.5 million and (\$10.5) million, respectively, resulting in effective tax rates of 446.2 percent and 31.2 percent, respectively. The effective tax rate for the nine months ended June 30, 2018 was impacted by discrete income tax adjustments related to the reduction of the federal statutory corporate income tax rate as part of the Tax Cuts and Jobs Act (the "Act") which was enacted on December 22, 2017 and an increase in the deferred state income tax rate. The total related discrete income tax provision (benefit) recorded for these items for the nine and three months ended June 30, 2018 was (\$491.4) million and \$10.4 million, respectively. In addition, effective tax rates differ from the U.S. federal

Table of Contents

statutory rate (24.5 percent for fiscal 2018 and 35.0 percent for fiscal 2017) due to non-deductible permanent items and state and foreign income taxes.

At June 30, 2018, we have not completed our accounting for all of the tax effects of the Act; however, we recorded a tax expense of \$0.7 million related to the provisional tax benefit recorded under Staff Accounting Bulletin No. 118 at March 31, 2017. This additional tax relates to the re-measurement of the estimated fiscal year 2018 ending deferred tax balances. In addition, we considered the impact of the statutory changes enacted by the Act, including those provisions effective for fiscal 2018, in our estimated annual effective tax rate and have recorded provisional amounts, based on reasonable estimates, in our income tax provision for the nine and three months ended June 30, 2018. These items include deductibility of certain employee fringe benefits and state income tax adjustments related to the Act. We continue to gather information related to these items and are waiting for further guidance from the Internal Revenue Service and state taxing authorities.

For the next 12 months, we cannot predict with certainty whether we will achieve ultimate resolution of any uncertain tax positions associated with our U.S. and international operations that could result in increases or decreases of our unrecognized tax benefits. However, we do not expect the increases or decreases to have a material effect on our results of continuing operations or financial position.

11. Commitments and Contingencies

Equipment, parts and supplies are ordered in advance to promote efficient construction and capital improvement progress. At June 30, 2018, we had purchase commitments for equipment, parts and supplies of approximately \$97.5 million.

We are contingently liable to sureties in respect of bonds issued by the sureties in connection with certain commitments entered into by us in the normal course of business. We have agreed to indemnify the sureties for any payments made by them in respect of such bonds.

During the ordinary course of our business, contingencies arise resulting from an existing condition, situation or set of circumstances involving an uncertainty as to the realization of a possible gain contingency. We account for gain contingencies in accordance with the provisions of ASC 450, Contingencies, and, therefore, we do not record gain contingencies or recognize income until realized. The property and equipment of our Venezuelan subsidiary was seized by the Venezuelan government on June 30, 2010. Our wholly-owned subsidiaries, Helmerich & Payne International Drilling Co. ("HPIDC") and Helmerich & Payne de Venezuela, C.A., filed a lawsuit in the United States District Court for the District of Columbia on September 23, 2011 against the Bolivarian Republic of Venezuela, Petroleos de Venezuela, S.A. and PDVSA Petroleo, S.A. Our subsidiaries seek damages for the taking of their Venezuelan drilling business in violation of international law and for breach of contract. While there exists the

possibility of realizing a recovery, we are currently unable to determine the timing or amounts we may receive, if any, or the likelihood of recovery. No gain contingencies were recognized in our Condensed Consolidated Financial Statements.

The Company and its subsidiaries are parties to various other pending legal actions arising in the ordinary course of our business. We maintain insurance against certain business risks subject to certain deductibles. Although no assurance can be given, we believe, based on our experiences to date and taking into account established reserves and insurance, that the ultimate resolution of such items will not have a material adverse impact on our financial condition, cash flows, or results of operations. When we determine a loss is probable of occurring and is reasonably estimable, we accrue an undiscounted liability for such contingencies based on our best estimate using information available at that time. If the estimated loss is a range of potential outcomes and there is no better estimate within the range, we accrue the amount at the low end of the range. We disclose contingencies where an adverse outcome may be material, or in the judgment of management, we conclude the matter should otherwise be disclosed.

On November 8, 2013, the United States District Court for the Eastern District of Louisiana approved the previously disclosed October 30, 2013 plea agreement between our wholly owned subsidiary, HPIDC, and the United States Department of Justice, United States Attorney's Office for the Eastern District of Louisiana ("DOJ"). The court's

Table of Contents

approval of the plea agreement resolved the DOJ's investigation into certain choke manifold testing irregularities that occurred in 2010 at one of HPIDC's offshore platform rigs in the Gulf of Mexico. We also engaged in discussions with the Inspector General's office of the Department of Interior ("DOI") regarding the same events that were the subject of the DOJ's investigation. Although we do not presently anticipate any further action by the DOI in this matter, we can provide no assurance as to the timing or eventual outcome of the DOI's consideration of the matter.

12. Segment Information

We operate principally in the contract drilling industry. The contract drilling operations consist mainly of contracting Company-owned drilling equipment primarily to large oil and gas exploration companies. Our contract drilling business includes the following reportable operating segments: U.S. Land, Offshore and International Land. Each reportable operating segment is a strategic business unit that is managed separately. Our primary international areas of operation include Argentina, Bahrain, Colombia, U.A.E. and other South American and Middle Eastern countries. Other includes additional non-reportable operating segments. Revenues included in Other consist of rental income as well as technology services provided for the directional drilling process and MWD survey corrections. Consolidated revenues and expenses reflect the elimination of intercompany transactions.

We evaluate segment performance based on income or loss from continuing operations (segment operating income) before income taxes which includes:

- revenues from external and internal customers
- direct operating costs
- depreciation and
- allocated general and administrative costs

but excludes corporate costs for other depreciation, income from asset sales and other corporate income and expense.

General and administrative costs are allocated to the segments based primarily on specific identification and, to the extent that such identification is not practical, on other methods which we believe to be a reasonable reflection of the utilization of services provided.

Segment operating income for all segments is a non-GAAP financial measure of our performance, as it excludes certain general and administrative expenses, corporate depreciation, income from asset sales and other corporate income and expense. We consider segment operating income to be an important supplemental measure of operating performance by presenting trends in our core businesses. We use this measure to facilitate period-to-period comparisons in operating performance of our reportable segments in the aggregate by eliminating items that affect

comparability between periods. We believe that segment operating income is useful to investors because it provides a means to evaluate the operating performance of the segments on an ongoing basis using criteria that are used by our internal decision makers. Additionally, it highlights operating trends and aids analytical comparisons. However, segment operating income has limitations and should not be used as an alternative to operating income or loss, a performance measure determined in accordance with GAAP, as it excludes certain costs that may affect our operating performance in future periods.

Table of Contents

Summarized financial information of our reportable segments for the three months ended June 30, 2018 and 2017 is shown in the following tables:

(in thousands)	External Sales	Inter- Segment	Total Sales	Segment Operating Income (Loss)
June 30, 2018				
Contract Drilling

13. Pensions and Other Post-retirement Benefits

The following provides information at June 30, 2018 related to the Company-sponsored domestic defined benefit pension plan:

Components of Net Periodic Benefit Cost

	Three Months Ended June 30,		Nine Months Ended June 30,	
	2018	2017	2018	2017
	(in thousands)		(in thousands)	
Interest cost	\$ 1,013	\$ 975	\$ 3,041	\$ 2,925
Expected return on plan assets	(1,386)	(1,298)	(4,158)	(3,896)
Recognized net actuarial loss	461	574	1,382	1,724
Settlement	—	1,411	—	1,411
Net pension expense	\$ 88	\$ 1,662	\$ 265	\$ 2,164

Employer Contributions

We did not contribute to the Pension Plan during the nine months ended June 30, 2018. We could make contributions for the remainder of fiscal 2018 to fund distributions in lieu of liquidating assets.

Table of Contents

14. Supplemental Cash Flow Information

Capital expenditures on the Condensed Consolidated Statements of Cash Flows do not include additions which have been incurred but not paid for as of the end of the period. The following table reconciles total capital expenditures incurred to total capital expenditures in the Condensed Consolidated Statements of Cash Flows:

	Nine Months Ended June 30,	
	2018	2017
	(in thousands)	
Capital expenditures incurred	\$ 321,588	\$ 315,735
Additions incurred in prior year but paid for in current year	20,004	9,465
Additions incurred but not paid for as of the end of the period	(18,934)	(24,925)
Capital expenditures per the Condensed Consolidated Statements of Cash Flows	\$ 322,658	\$ 300,275

15. International Risk Factors

We currently have foreign operations in South America and the Middle East. In the future, we may further expand the geographic reach of our operations. As a result, we are exposed to certain political, economic and other uncertainties not encountered in U.S. operations, including increased risks of social unrest, strikes, terrorism, war, kidnapping of employees, nationalization, forced negotiation or modification of contracts, difficulty resolving disputes and enforcing contract provisions, expropriation of equipment as well as expropriation of oil and gas exploration and drilling rights, taxation policies, foreign exchange restrictions and restrictions on repatriation of income and capital, currency rate fluctuations, increased governmental ownership and regulation of the economy and industry in the markets in which we operate, economic and financial instability of national oil companies, and restrictive governmental regulation, bureaucratic delays and general hazards associated with foreign sovereignty over certain areas in which operations are conducted.

South American countries, in particular, have historically experienced uneven periods of economic growth, as well as recession, periods of high inflation and general economic and political instability. From time to time these risks have impacted our business. For example, on June 30, 2010, the Venezuelan government expropriated 11 rigs and associated real and personal property owned by our Venezuelan subsidiary. Prior thereto, we also experienced currency devaluation losses in Venezuela and difficulty repatriating U.S. dollars to the United States. Today, our contracts for work in foreign countries generally provide for payment in U.S. dollars. However, in Argentina we are

paid in Argentine pesos. The Argentine branch of one of our second-tier subsidiaries then remits U.S. dollars to its U.S. parent by converting the Argentine pesos into U.S. dollars through the Argentine Foreign Exchange Market and repatriating the U.S. dollars.

Argentina's economy is currently considered highly inflationary, which is defined as cumulative inflation rates exceeding 100 percent in the most recent three-year period based on inflation data published by the respective governments. Nonetheless, all of our foreign operations use the U.S. dollar as the functional currency and local currency monetary assets and liabilities are remeasured into U.S. dollars with gains and losses resulting from foreign currency transactions included in current results of operations.

For the nine months ended June 30, 2018 and 2017, we experienced aggregate foreign currency losses of \$2.5 million and \$3.3 million, respectively. However, in the future, we may incur larger currency devaluations, foreign exchange restrictions or other difficulties repatriating U.S. dollars from Argentina or elsewhere which could have a material adverse impact on our business, financial condition and results of operations.

Because of the impact of local laws, our future operations in certain areas may be conducted through entities in which local citizens own interests and through entities (including joint ventures) in which we hold only a minority interest or pursuant to arrangements under which we conduct operations under contract to local entities. While we believe that neither operating through such entities nor pursuant to such arrangements would have a material adverse

Table of Contents

effect on our operations or revenues, there can be no assurance that we will, in all cases, be able to structure or restructure our operations to conform to local law (or the administration thereof) on terms acceptable to us.

Although we attempt to minimize the potential impact of such risks by operating in more than one geographical area, during the nine months ended June 30, 2018, approximately 10.0 percent of our operating revenues were generated from international locations in our contract drilling business. During the nine months ended June 30, 2018, approximately 96.0 percent of operating revenues from international locations were from operations in South America. Substantially all of the South American operating revenues were from Argentina and Colombia. The future occurrence of one or more international events arising from the types of risks described above could have a material adverse impact on our business, financial condition and results of operations.

16.Recently Issued Accounting Standards

In February 2018, the FASB issued ASU No. 2018-02, Income Statement – Reporting Comprehensive Income (Topic 220): Reclassification of Certain Tax Effects from Accumulated Other Comprehensive Income. This update relates to the impacts of the tax legislation commonly referred to as the Tax Cuts and Jobs Act. The guidance permits the reclassification of certain income tax effects of the Act from Other Comprehensive Income to Retained Earnings (stranded tax effects). The guidance also requires certain new disclosures. The guidance is effective for fiscal years beginning after December 15, 2018, and interim periods within those fiscal years. Early adoption is permitted. Entities may adopt the guidance using one of two transition methods; retrospective to each period (or periods) in which the income tax effects of the Act related to the items remaining in Other Comprehensive Income are recognized or at the beginning of the period of adoption. We are currently evaluating the impact that the guidance may have on our consolidated financial statements and disclosures.

In May 2017, the FASB issued ASU 2017-09, Compensation - Stock Compensation (Topic 718): Scope of Modification Accounting. The amendments in this ASU provide guidance about which changes to the terms or conditions of a share-based payment award require an entity to apply modification accounting in Topic 718. The new guidance clarifies that no new measurement date will be required if there is no change to the fair value, vesting conditions, and classification. This update is effective for annual and interim periods beginning after December 15, 2017, with early adoption permitted. We are currently evaluating what impact the adoption of this guidance will have on our financial statements and disclosures.

In March 2017, the FASB issued ASU No. 2017-07, Compensation - Retirement Benefits (Topic 715): Improving the Presentation of Net Periodic Pension Cost and Net Periodic Postretirement Benefit Cost. ASU No. 2017-07 will change how employers that sponsor defined benefit pension and/or other post-retirement benefit plans present the net periodic benefit cost in the income statement. Employers will present the service cost component of net periodic benefit cost in the same income statement line item(s) as other employee compensation costs arising from services rendered during the period. Employers will present the other components of the net periodic benefit cost separately from the line item(s) that includes the service cost and outside of any subtotal of operating income, if one is presented.

This standard is effective for annual periods beginning after December 15, 2017, including interim periods within those annual periods. Early adoption is permitted. We will adopt the standard on October 1, 2018. We do not expect the new guidance to have a material impact on our financial condition or results of operation.

In November 2016, the FASB issued ASU No. 2016-18, Statement of Cash Flows - Restricted Cash. The ASU requires amounts generally described as restricted cash and restricted cash equivalents be included with cash and cash equivalents when reconciling the total beginning and ending amounts for the periods shown on the statement of cash flows. The ASU is effective for fiscal years beginning after December 15, 2017, and interim periods within those fiscal years. Early adoption is permitted, including adoption during an interim period. We will adopt the guidance beginning October 1, 2018 applied retrospectively to all periods presented. The adoption is not expected to have a material impact on our consolidated financial position or cash flows.

In October 2016, the FASB issued ASU No. 2016-16, Income Taxes: Intra-Entity Transfers of Assets Other Than Inventory. The ASU eliminates the exception to defer the tax effect for all intra-entity sales of assets other than inventory until the transferred asset is sold to a third party or otherwise recovered through use. As a result, a

Table of Contents

reporting entity would recognize the tax expense from the sale of the asset in the seller's tax jurisdiction when the transfer occurs, even though the pre-tax effects of that transaction are eliminated in consolidation. Any deferred tax asset that arises in the buyer's jurisdiction would also be recognized at the time of the transfer. This update is effective for annual and interim periods beginning after December 15, 2017. We are currently evaluating what impact the adoption of this guidance will have on our financial statements and disclosures.

In August 2016, the FASB issued ASU No. 2016-15, Classification of Certain Cash Receipts and Cash Payments (a consensus of the Emerging Issues Task Force). The ASU is intended to reduce diversity in practice in presentation and classification of certain cash receipts and cash payments by providing guidance on eight specific cash flow issues. The ASU is effective for fiscal years beginning after December 15, 2017, and interim periods within those fiscal years. Early adoption is permitted, including adoption in an interim period. We will adopt the standard on October 1, 2018. We are currently assessing the impact this standard will have on our consolidated statement of cash flows.

In June 2016, the FASB issued ASU No. 2016-13, Financial Instruments - Credit Losses (Topic 326): Measurement of Credit Losses on Financial Instruments. The ASU introduces a new model for recognizing credit losses on financial instruments based on an estimate of current expected credit losses. The new model will apply to: (1) loans, accounts receivable, trade receivables, and other financial assets measured at amortized cost, (2) loan commitments and certain other off-balance sheet credit exposures, (3) debt securities and other financial assets measured at fair value through other comprehensive income/(loss), and (4) beneficial interests in securitized financial assets. This update is effective for annual and interim periods beginning after December 15, 2019. We are currently evaluating what impact the adoption of this guidance will have on our financial statements and disclosures.

In February 2016, the FASB issued ASU No. 2016-02, Leases (Topic 842): Amendments to the FASB Accounting Standards Codification. The amendments require an entity to recognize lease assets and lease liabilities on the balance sheet and to disclose key qualitative and quantitative information about the entity's leasing arrangements. This update is effective for annual and interim periods beginning after December 15, 2018, with early adoption permitted. A modified retrospective approach is required. We are currently evaluating what impact the adoption of this guidance will have on our financial statements or disclosures in our financial statements.

In January 2016, the FASB issued ASU No. 2016-01, Financial Instruments – Overall (Subtopic 825-10): Recognition and Measurement of Financial Assets and Financial Liabilities. The standard requires entities to measure equity investments that do not result in consolidation and are not accounted for under the equity method at fair value and recognize any changes in fair value in net income. The provisions of ASU No. 2016-01 are effective for fiscal years beginning after December 15, 2017, including interim periods within those fiscal years. At adoption, a cumulative-effect adjustment to beginning retained earnings will be recorded. We will adopt this standard on October 1, 2018. Subsequent to adoption, changes in the fair value of our available-for-sale investments will be recognized in net income and the effect will be subject to stock market fluctuations.

In May 2014, the FASB issued ASU No. 2014-09, Revenue from Contracts with Customers (Topic 606): A new guidance intended to change the criteria for recognition of revenue. The core principle of the guidance is that an entity should recognize revenue to depict the transfer of promised goods or services to clients in an amount that reflects the consideration to which the entity expects to be entitled in exchange for those goods or services. The guidance is effective for annual reporting periods beginning after December 15, 2017, including interim periods within that reporting period. We have not yet adopted nor selected a transition method and are currently evaluating what impact the adoption of this guidance will have on our financial statements or disclosures in our financial statements.

17. Guarantor and Non-Guarantor Financial Information

In March 2015, Helmerich & Payne International Drilling Co. (“the issuer”), a 100 percent owned subsidiary of Helmerich & Payne, Inc. (“parent”, “the guarantor”), issued senior unsecured notes with an aggregate principal amount of \$500.0 million. The notes are fully and unconditionally guaranteed by the parent. No subsidiaries of

Table of Contents

parent currently guarantee the notes, subject to certain provisions that if any subsidiary guarantees certain other debt of the issuer or parent, then such subsidiary will provide a guarantee of the obligations under the notes.

In connection with the notes, we are providing the following condensed consolidating financial information in accordance with the Securities and Exchange Commission disclosure requirements, so that separate financial statements of the issuer are not required to be filed. Each entity in the consolidating financial information follows the same accounting policies as described in the consolidated financial statements.

Condensed consolidating financial information for the issuer, Helmerich & Payne International Drilling Co., and parent, guarantor, Helmerich & Payne, Inc. is shown in the tables below.

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION
AND RESULTS OF OPERATIONS

RISK FACTORS AND FORWARD-LOOKING STATEMENTS

The following discussion should be read in conjunction with the Condensed Consolidated Financial Statements and related notes included elsewhere herein and the Consolidated Financial Statements and notes thereto included in our 2017 Annual Report on Form 10-K. Our future operating results may be affected by various trends and factors which are beyond our control. These include, among other factors, fluctuations in natural gas and crude oil prices, the loss of one or a number of our largest customers, early termination of drilling contracts and failure to realize backlog drilling revenue, forfeiture of early termination payments under fixed term contracts due to sustained unacceptable performance, unsuccessful collection of receivables, inability to procure key rig components, failure to timely deliver rigs within applicable grace periods, disruption to or cessation of the business of our limited source vendors or fabricators, currency exchange losses, expropriation of assets and other international uncertainties, loss of well control, pollution of offshore waters and reservoir damage, operational risks that are not fully insured against or covered by adequate contractual indemnities, passage of laws or regulations including those limiting hydraulic fracturing, litigation and governmental investigations, consideration and possible action by the Department of Interior regarding the events that were the subject matter of our prior (previously disclosed) plea agreement with the United States Department of Justice, failure to comply with the United States Foreign Corrupt Practices Act, foreign anti-bribery laws and other governmental laws and regulations, a sluggish global economy, changes in general economic and political conditions, adverse weather conditions including hurricanes, rapid or unexpected changes in drilling or other technologies and uncertain business conditions that affect our businesses. Accordingly, past results and trends should not be used by investors to anticipate future results or trends. Our risk factors are more fully described in our 2017 Annual Report on Form 10-K and elsewhere in this Form 10-Q.

With the exception of historical information, the matters discussed in Management's Discussion & Analysis of Financial Condition and Results of Operations include forward-looking statements. Forward-looking statements generally can be identified by the use of forward-looking terminology such as "may", "will", "expect", "intend", "estimate", "anticipate", "believe", or "continue" or the negative thereof or similar terminology. These forward-looking statements are made as of the date of this Form 10-Q and are based on various assumptions. We caution that, while we believe such assumptions to be reasonable and make them in good faith, assumptions about future events and conditions almost always vary from actual results. The differences between assumed facts and actual results can be material. We are including this cautionary statement to take advantage of the "safe harbor" provisions of the Private Securities Litigation Reform Act of 1995 for any forward-looking statements made by us or persons acting on our behalf. The factors identified in this cautionary statement are important factors (but not necessarily all important factors) that could cause actual results to differ materially from those expressed in any forward-looking statement made by us or persons acting on our behalf. Except as required by law, we undertake no duty to update or revise our forward-looking statements based on changes of internal estimates on expectations or otherwise.

RESULTS OF OPERATIONS

Three Months Ended June 30, 2018 vs. Three Months Ended June 30, 2017

We reported a loss from continuing operations of \$8.2 million (\$0.08 loss per diluted share) from operating revenues of \$648.9 million for the third quarter ended June 30, 2018 compared with a loss from continuing operations of \$23.1 million (\$0.22 loss per diluted share) from operating revenues of \$498.6 million for the third quarter of fiscal year 2017. Included in the net loss for the third quarter of fiscal 2018 is \$0.2 million (no effect per diluted share) of income from discontinued operations. Including discontinued operations, we recorded a net loss of \$8.0 million (\$0.08 loss per diluted share) for the three months ended June 30, 2018 compared to a net loss of \$21.8 million (\$0.21 loss per diluted share) for the three months ended June 30, 2017. The net loss from continuing operations for the third quarter of fiscal 2018 includes approximately \$3.1 million (\$0.03 per diluted share) of after-tax gains from the sale of assets compared to \$1.3 million (\$0.01 per diluted share) in the third quarter of fiscal 2017.

Table of Contents

The following tables summarize operations by reportable operating segment for the three months ended June 30, 2018 and 2017. Operating statistics in the tables do not include reimbursements of “out-of-pocket” expenses in revenue, expense and margin per day calculations. The operating statistics for the Offshore and International Land segments exclude the effects of offshore platform and international management contracts, respectively. Per day calculations also exclude gains and losses from translation of foreign currency transactions. Segment operating income is described in detail in Note 12 to the Condensed Consolidated Financial Statements.

	Three Months Ended			
	2018	2017		
	(in thousands, except days and per day amounts)			
U.S. LAND OPERATIONS				
Operating revenues	\$ 536,582	\$ 405,516		
Direct operating expenses	362,037	277,372		
General and administrative expense	14,788	13,347		
Depreciation	125,418	122,777		
Segment operating income (loss)	\$ 34,339	\$ (7,980)		
Operating Statistics:				
Revenue days	19,917	16,577		
Average rig revenue per day	\$ 23,698	\$ 21,986		
Average rig expense per day	\$ 14,934	\$ 14,256		
Average rig margin per day	\$ 8,764	\$ 7,730		
Rig utilization	63	%	52	%

The U.S. Land segment had operating income of \$34.3 million for the third quarter of fiscal 2018 compared to an operating loss of \$8.0 million in the same period of fiscal 2017. Revenues were \$536.6 million and \$405.5 million in the third quarter of fiscal 2018 and 2017, respectively. Included in U.S. land revenues for the three months ended June 30, 2018 and 2017 are reimbursements for “out-of-pocket” expenses of \$64.6 million and \$41.1 million, respectively. Also included in revenue for the three months ended June 30, 2018 is early termination revenue of \$5.9 million compared to \$5.1 million during the same period of fiscal 2017.

Excluding early termination per day revenue of \$298 and \$310 for the third quarter of fiscal 2018 and 2017, respectively, average rig revenue per day increased by \$1,724 to \$23,400 as spot market pricing continues to improve. Our activity has increased primarily in response to higher commodity prices.

U.S. land rig utilization increased to 63 percent for the third quarter of fiscal 2018 compared to 52 percent for the third quarter of fiscal 2017. U.S. land rig revenue days for the third quarter of fiscal 2018 were 19,917 compared with 16,577 for the same period of fiscal 2017, with an average of 218.9 and 182.2 rigs working, respectively.

Average expense per day increased \$678 to \$14,934 for the third quarter of fiscal 2018 compared to the third quarter of fiscal 2017. The increase is primarily due to a base wage increase for our field personnel in some regions and higher pass-through and other one-time costs during the third quarter of fiscal 2018. These factors were partially offset by a decrease in average daily expenses for rig start-ups and idle rig expenses.

Excluding abandonments, depreciation increased \$3.4 million in the third quarter of fiscal 2018 compared to the third quarter of fiscal 2017. As the drilling markets continued to recover during 2017, we began abandoning older rig components that were replaced by upgrades to our rig fleet to meet customer demands for additional capabilities. This trend continued in fiscal 2018. This resulted in abandonments of \$7.0 million in the three months ended June 30, 2018 compared to \$7.7 million for the three months ended June 30, 2017.

Table of Contents

At June 30, 2018, 224 out of 350 existing rigs in the U.S. Land segment were contracted. Of the 224 contracted rigs, 136 were under fixed term contracts and 88 were working in the spot market. Based on prior early termination notices, early termination revenue is expected to be approximately \$1.8 million during the fourth fiscal quarter of 2018.

	Three Months Ended June 30, 2018		2017	
	(in thousands, except days and per day amounts)			
OFFSHORE OPERATIONS				
Operating revenues	\$ 37,669		\$ 33,711	
Direct operating expenses	30,146		23,656	
General and administrative expense	1,126		969	
Depreciation	2,617		2,630	
Segment operating income	\$ 3,780		\$ 6,456	
Operating Statistics:				
Revenue days	574		546	
Average rig revenue per day	\$ 35,293		\$ 35,644	
Average rig expense per day	\$ 30,607		\$ 24,141	
Average rig margin per day	\$ 4,686		\$ 11,503	
Rig utilization	79	%	75	%

Offshore revenues include reimbursements for “out-of-pocket” expenses of \$5.1 million and \$5.2 million for the three months ended June 30, 2018 and 2017, respectively.

During the first month of the third fiscal quarter of 2018, a previously idle rig commenced work on a customer’s platform. Average rig revenue per day was relatively flat for the three months ended June 30, 2018, as compared to the three months ended June 30, 2017. Average expense per day increased \$6,466 to \$30,607 for the third quarter of fiscal 2018 compared to the third quarter of fiscal 2017. The expense increase is primarily due to expenses associated with rig start-up and unfavorable adjustments to self-insurance expenses related to worker’s compensation during the third fiscal quarter of 2018. As a result of the higher expenses, average rig margin per day and segment operating income decreased in the third quarter of fiscal 2018 compared to the third quarter of fiscal 2017.

At the end of June 30, 2018 and June 30, 2017, six of our available eight platform rigs were contracted.

The International Land segment had operating income of \$4.3 million for the third quarter of fiscal 2018 compared to operating income of \$4.9 million in the same period of fiscal 2017. Included in International land revenues for the three months ended June 30, 2018 and 2017 are reimbursements for “out-of-pocket” expenses of \$3.5 million and \$1.7 million, respectively.

Table of Contents

During the third quarter of fiscal 2017, we received \$10.7 million of customer payments in arrears and recognized 450 revenue days associated with the payment. Excluding the effect of this late payment, average rig margin per day increased \$1,016 to \$9,994 primarily due to increased activity which resulted in fixed costs being spread over a greater number of revenue days. Our activity has increased primarily in response to higher commodity prices. Excluding the late payment, the average number of active rigs was 19.4 during the third quarter of fiscal 2018 compared to 13.1 during the third quarter of fiscal 2017.

RESEARCH AND DEVELOPMENT

For the three months ended June 30, 2018 and 2017, we incurred \$5.5 million and \$3.1 million, respectively, of research and development expenses primarily related to ongoing development of a rotary steerable system.

OTHER

General and administrative expenses increased to \$52.4 million in the three months ended June 30, 2018 compared to \$42.9 million in the three months ended June 30, 2017. The \$9.5 million increase in fiscal 2018 is primarily due to additions in employee count during fiscal 2018 and the last quarter of fiscal 2017 and the acquisition of two companies since March 31, 2017. This has resulted in an increase in employee compensation, including taxes and benefits and stock-based compensation, compared to the same period in 2017.

We had income tax expense of \$10.5 million in the third quarter of fiscal 2018 (of which approximately \$9.7 million is attributed to an increase in the deferred state income tax rate) compared to an income tax benefit of \$10.5 million in the third quarter of fiscal 2017. Our blended statutory federal income tax rate for fiscal 2018 is approximately 24.5% (before incremental state and foreign taxes).

Nine Months Ended June 30, 2018 vs. Nine Months Ended June 30, 2017

We reported income from continuing operations of \$490.8 million (\$4.45 per diluted share) from operating revenues of \$1.8 billion for the nine months ended June 30, 2018 compared with a loss from continuing operations of \$106.2 million (\$0.99 loss per diluted share) from operating revenues of \$1.3 billion for the first nine months of fiscal year 2017. Included in net income for the nine months ended June 30, 2018 and 2017 are losses from discontinued operations of \$10.6 million (\$0.10 loss per diluted share) and income from discontinued operations of \$0.5 million (\$0.00 loss per diluted share), respectively. Including discontinued operations, we recorded net income of \$480.2 million (\$4.35 per diluted share) for the nine months ended June 30, 2018 compared to a net loss of \$105.7 million (\$0.99 loss per diluted share) for the nine months ended June 30, 2017. Income from continuing operations for the

nine months ended June 30, 2018 includes a \$491.4 million tax benefit due to the Act and an increase in the deferred state income tax rate. Income from continuing operations for the nine months ended June 30, 2018 includes approximately \$11.1 million (\$0.10 per diluted share) of after-tax gains from the sale of assets. The net loss for the nine months ended June 30, 2017 includes approximately \$11.9 million (\$0.11 per diluted share) of after-tax gains from the sale of assets.

On December 8, 2017, we completed an acquisition (“MagVAR Acquisition”) of an unaffiliated company, Magnetic Variation Services, LLC, which is now a wholly owned subsidiary of the Company. The operations for MagVAR are included within our Other non-reportable business segment. At the effective time of the MagVAR Acquisition, MagVAR shareholders received aggregate cash consideration of \$47.9 million, net of customary closing adjustments, and certain management members received restricted stock awards covering 213,904 shares of Helmerich & Payne, Inc. common stock. At closing, \$6.0 million of the cash consideration was placed in escrow, to be released to the sellers twelve months after the acquisition closing date. Transaction costs related to the MagVAR Acquisition incurred during the nine months ended June 30, 2018 were approximately \$1.2 million and are recorded in the Condensed Consolidated Statements of Operations within general and administrative expense. We recorded revenue of \$7.5 million and a net loss of \$2.0 million related to MagVAR during the nine months ended June 30, 2018.

Through comprehensive 3D geomagnetic reference modeling, MagVAR provides measurement while drilling (“MWD”) survey corrections by identifying and quantifying MWD tool measurement errors in real-time, greatly improving

Table of Contents

directional drilling performance and wellbore placement. MagVAR technology has been successfully deployed in both onshore and offshore fields in North America, South America, Europe, Africa, Australia and Asia.

The MagVAR Acquisition has been accounted for as a business combination in accordance with ASC 805, Business Combinations, which requires the assets acquired and liabilities assumed to be recorded at their acquisition date fair values.

The following tables summarize operations by reportable operating segment for the nine months ended June 30, 2018 and 2017. Operating statistics in the tables do not include reimbursements of “out-of-pocket” expenses in revenue, expense and margin per day calculations. The operating statistics for the Offshore and International Land segments exclude the effects of offshore platform and international management contracts, respectively. Per day calculations also exclude gains and losses from translation of foreign currency transactions. Segment operating income is described in detail in Note 12 to the Condensed Consolidated Financial Statements.

	Nine Months Ended June 30,	
	2018	2017
	(in thousands, except days and per day amounts)	
U.S. LAND OPERATIONS		
Operating revenues	\$ 1,480,951	\$ 1,000,119
Direct operating expenses	978,789	686,227
General and administrative expense	42,792	37,562
Depreciation	373,211	367,048
Segment operating income (loss)	\$ 86,159	\$ (90,718)
Operating Statistics:		
Revenue days	56,946	39,527
Average rig revenue per day	\$ 23,027	\$ 22,902
Average rig expense per day	\$ 14,209	\$ 14,942
Average rig margin per day	\$ 8,818	\$ 7,960
Rig utilization	60	% 42 %

The U.S. Land segment had operating income of \$86.2 million for the first nine months of fiscal 2018 compared to an operating loss of \$90.7 million in the same period of fiscal 2017. Revenues were \$1.5 billion and \$1.0 billion in the first nine months of fiscal 2018 and 2017, respectively. Included in U.S. land revenues for the nine months ended June 30, 2018 and 2017 are reimbursements for “out-of-pocket” expenses of \$169.7 million and \$94.9 million, respectively. Also included in revenue for the nine months ended June 30, 2018 is early termination revenue of \$14.3 million compared to \$19.9 million during the same period of fiscal 2017.

Excluding early termination per day revenue of \$251 and \$503 for the first nine months of fiscal 2018 and 2017, respectively, average rig revenue per day increased by \$377 to \$22,776. Our activity has increased year-over-year primarily in response to higher commodity prices.

Rig utilization in our U.S. Land segment increased to 60 percent for the first nine months of fiscal 2018 compared to 42 percent for the first nine months of fiscal 2017. U.S. land rig revenue days for the first nine months of fiscal 2018 were 56,946 compared with 39,527 for the same period of fiscal 2017, with an average of 208.6 and 144.8 rigs working, respectively.

Average expense per day decreased \$733 to \$14,209 for the nine months ended June 30, 2018 compared to the same period ended June 30, 2017. The decrease is primarily due to lower start-up expenses incurred during fiscal 2018 as compared to fiscal 2017, as well as a smaller base of revenue days in fiscal 2017 over which to spread those start-up costs. During fiscal 2017, we incurred more start-up expenses related to rigs returning to work during the year and for rigs that commenced work compared to start-up expenses incurred in the first nine months of fiscal 2018. Additionally, more rigs were idle during the nine months ended June 30, 2017, which resulted in greater fixed costs coupled with a smaller base of revenue days over which to spread those fixed costs.

Table of Contents

Excluding abandonments, depreciation increased by \$11.7 million in the first nine months of fiscal 2018 compared to the first nine months of fiscal 2017. The increase is primarily due to capital expenditures in the previous and current fiscal years. As the drilling markets continued to recover during 2017, we began abandoning older rig components that were replaced by upgrades to our rig fleet to meet customer demands for additional capabilities. This resulted in abandonments of \$21.2 million for the nine months ended June 30, 2018 compared to \$26.8 million for the nine months ended June 30, 2017.

At June 30, 2018, 224 out of 350 existing rigs in the U.S. Land segment were contracted. Of the 224 contracted rigs, 136 were under fixed term contracts and 88 were working in the spot market. Based on prior early termination notices, early termination revenue is expected to be approximately \$1.8 million during the fourth fiscal quarter of 2018.

	Nine Months Ended June 30,			
	2018	2017	(in thousands, except days and per day amounts)	
OFFSHORE OPERATIONS				
Operating revenues	\$ 104,018	\$ 103,758		
Direct operating expenses	74,863	72,524		
General and administrative expense	3,397	2,787		
Depreciation	7,804	9,295		
Segment operating income	\$ 17,954	\$ 19,152		
Operating Statistics:				
Revenue days	1,484	1,785		
Average rig revenue per day	\$ 34,924	\$ 34,204		
Average rig expense per day	\$ 26,394	\$ 23,300		
Average rig margin per day	\$ 8,530	\$ 10,904		
Rig utilization	68	%	77	%

Offshore revenues include reimbursements for “out-of-pocket” expenses of \$14.4 million and \$15.7 million for the nine months ended June 30, 2018 and 2017, respectively.

Average rig revenue per day increased slightly, while average expense per day increased \$3,094 to \$26,394 for the third quarter of fiscal 2018 compared to the third quarter of fiscal 2017. The expense increase is primarily due to expenses associated with an April 2018 rig start-up and unfavorable adjustments to self-insurance expenses during the third fiscal quarter of 2018. As a result, rig margin per day and segment operating income decreased in the first nine months of fiscal 2018 compared to the first nine months of fiscal 2017. Revenue days declined during the first nine months of fiscal 2018 compared to the first nine months of fiscal 2017 due to the sale of a rig during the second

quarter of fiscal 2017 and a rig working in the first nine months of fiscal 2017 that was idle during the first six months of fiscal 2018. The idle rig returned to work in the third quarter of fiscal 2018.

At the end of June 30, 2018 and June 30, 2017, six of our available eight platform rigs were contracted.

Rig utilization	47	%	35	%

The International Land segment had operating income of \$7.2 million for the first nine months of fiscal 2018 compared to an operating loss of \$5.2 million in the same period of fiscal 2017. Included in International land revenues for the nine months ended June 30, 2018 and 2017 are reimbursements for “out-of-pocket” expenses of \$8.6 million and \$7.3 million, respectively. Also included is \$4.7 million of early termination revenue during the nine months ended June 30, 2017.

Excluding early termination per day revenue of \$1,292 in the first nine months of fiscal 2017, average rig margin per day increased \$464 to \$9,978. Our activity has increased year-over-year primarily in response to higher commodity prices. During the first nine months of fiscal 2018, the average number of active rigs was 17.9 compared to 13.4 rigs in the first nine months of fiscal 2017.

RESEARCH AND DEVELOPMENT

For the nine months ended June 30, 2018 and 2017, we incurred \$13.1 million and \$8.6 million, respectively, of research and development expenses primarily related to ongoing development of a rotary steerable system.

OTHER

General and administrative expenses increased to \$147.3 million in the nine months ended June 30, 2018 compared to \$110.7 million in the nine months ended June 30, 2017. The \$36.6 million increase in fiscal 2018 is primarily attributable to additions in employee count during fiscal 2018 and the last quarter of fiscal 2017 and the acquisition of two companies since March 31, 2017. This has resulted in an increase in employee compensation, including taxes and benefits and stock-based compensation, compared to the same period in 2017.

We had an income tax benefit of \$494.0 million in the first nine months of fiscal 2018 compared to an income tax benefit of \$50.5 million in the first nine months of fiscal 2017. The tax benefit for the first nine months of fiscal 2018 is mostly attributed to a \$501.1 million tax benefit related to the estimated re-measurement of our net deferred tax liability due to the enactment of the Act and a \$9.7 million tax expense related to an increase in the deferred state income tax rate. Our blended statutory federal income tax rate for fiscal 2018 is approximately 24.5% (before incremental state and foreign taxes).

LIQUIDITY AND CAPITAL RESOURCES

Liquidity

Cash and cash equivalents decreased to \$306.4 million at June 30, 2018 from \$521.4 million at September 30, 2017. The following table provides a summary of cash flows:

Table of Contents

	Nine Months Ended June 30,	
	2018	2017 As adjusted
	(in thousands)	
Net cash provided (used) by:		
Operating activities	\$ 358,421	\$ 240,255
Investing activities	(342,184)	(348,578)
Financing activities	(231,186)	(224,451)
Decrease in cash and cash equivalents	\$ (214,949)	\$ (332,774)

Operating activities

Cash flows from operating activities were approximately \$358.4 million for the nine months ended June 30, 2018 compared to approximately \$240.3 million for the same period ended June 30, 2017. The increase was primarily driven by increases in activity and rig margins. As the Company experienced increasing activity and revenue levels, changes in working capital, in part due to an increase in accounts receivable and an increase in inventories due to the reactivation of rigs, had an unfavorable impact on net cash provided by operating activities during both periods.

Investing activities

Capital expenditures during the nine months ended June 30, 2018 were \$322.7 million compared to \$300.3 million during the nine months ended June 30, 2017. During fiscal 2018 and 2017, we paid \$47.9 million and \$70.4 million, respectively, net of cash acquired, for the acquisition of drilling technology companies.

With continuing improvements in market conditions, our capital spending for fiscal 2018 is estimated to be approximately \$450 million. The actual spending level may vary depending primarily on actual maintenance capital requirements and market driven special projects related to the future enhancement of our existing fleet. In June 2018, the Company's Board of Directors approved approximately \$100 million in funding for long lead items that will be partially used to convert seven FlexRig4 rigs deployed in our U.S. Land Operations segment to FlexRig3s with multi-well pad capability, primarily during fiscal 2019. During fiscal 2018, we continued to upgrade existing rigs to meet customer demands for additional capabilities.

Financing activities

Cash used in financing activities for the first nine months of fiscal 2018 and 2017 was comprised primarily of dividends paid of \$230.4 million and \$229.1 million, respectively.

Other Liquidity

Our operating cash requirements, interest payments, dividend payments, any stock repurchases and estimated capital expenditures, including our rig upgrade construction program, for fiscal 2018 are expected to be funded through cash and cash provided from operating activities. However, there can be no assurance that we will, in all instances, generate sufficient cash flows from operating activities to meet all of our anticipated expenditures. If needed, we may decide to obtain additional funding from our \$300 million revolving credit facility, which does not mature until July 13, 2021. As mentioned in Note 9 to our Condensed Consolidated Financial Statements, we had \$260.7 million available to borrow under this revolving credit facility as of June 30, 2018. In addition, we have access as needed to the public debt markets as a result of the strength of our Balance Sheet and our investment grade credit ratings. Our indebtedness under our unsecured senior notes totaled \$493.7 million at June 30, 2018; however, the debt does not mature until March 19, 2025. For additional information regarding debt agreements, refer to Note 9 of the Condensed Consolidated Financial Statements.

There were no other significant changes in our financial position since September 30, 2017.

Table of Contents

Backlog

Our contract drilling backlog, being the expected future revenue from both executed contracts with original terms one year or longer and binding letters of intent for contracts of similar duration, as of June 30, 2018 and September 30, 2017 was \$1.2 billion and \$1.3 billion, respectively. Approximately 77.0 percent of the June 30, 2018 backlog is not reasonably expected to be filled in fiscal 2018. Included in backlog at June 30, 2018 and September 30, 2017, is early termination revenue of approximately \$3.6 million and \$14.7 million, respectively, that is expected to be recognized after such periods and for which the early termination notice was received prior to the end of the period.

The following table sets forth the total backlog by reportable segment as of June 30, 2018 and September 30, 2017, and the percentage of the June 30, 2018 backlog not reasonably expected to be filled in fiscal 2018:

Reportable Segment	Total Backlog Revenue		Percentage Not Reasonably Expected to be Filled in Fiscal 2018	
	June 30, 2018	September 30, 2017		
	(in billions)			
U.S. Land	\$ 0.9	\$ 0.9	74.9	%
Offshore	—	—	—	%
International	0.3	0.4	84.8	%
	\$ 1.2	\$ 1.3		

Fixed-term contracts customarily provide for termination at the election of the customer, with an early termination payment to be paid to us if a contract is terminated prior to the expiration of the fixed term. However, in some limited circumstances, such as sustained unacceptable performance by us, no early termination payment would be paid to us. Also, our customers may be unable to perform their contractual obligations. Accordingly, the actual amount of revenue earned may vary from the backlog reported. See the risk factors under “Item 1A. Risk Factors” of our 2017 Annual Report on Form 10-K filed with the Securities and Exchange Commission, regarding fixed term contract risk.

MATERIAL COMMITMENTS

Material commitments as reported in our 2017 Annual Report on Form 10-K have not changed significantly at June 30, 2018, other than those disclosed in Note 11 to the Condensed Consolidated Financial Statements.

CRITICAL ACCOUNTING POLICIES AND ESTIMATES

Our accounting policies and estimates that are critical or the most important to understand our financial condition and results of operations, and that require management to make the most difficult judgments, are described in our 2017 Annual Report on Form 10-K. There have been no material changes in these critical accounting policies and estimates.

RECENTLY ISSUED ACCOUNTING STANDARDS

See Note 1 and Note 16 of these Condensed Consolidated Financial Statements for recently adopted accounting standards and new accounting standards not yet adopted.

Table of Contents

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

For a description of our market risks, see

- Note 5 to the Condensed Consolidated Financial Statements contained in Item 1 of Part I hereof with regard to equity price risk which is incorporated herein by reference;
- “Item 7A. Quantitative and Qualitative Disclosures About Market Risk” in our 2017 Annual Report on Form 10-K filed with the Securities and Exchange Commission on November 22, 2017;
- Note 9 to the Condensed Consolidated Financial Statements contained in Item 1 of Part I hereof with regard to interest rate risk which is incorporated herein by reference;
- Note 15 to the Condensed Consolidated Financial Statements contained in Item 1 of Part I hereof with regard to foreign currency exchange rate risk which is incorporated herein by reference; and
- Risk Factors in Item 1A of Part II hereof with regard to commodity foreign currency exchange risk which is incorporated herein by reference.

ITEM 4. CONTROLS AND PROCEDURES

As of the end of the period covered by this report, an evaluation was performed with the participation of our management, including the Chief Executive Officer and Chief Financial Officer, of the effectiveness of the design and operation of our disclosure controls and procedures. Based on that evaluation, our management, including the Chief Executive Officer and Chief Financial Officer, concluded that our disclosure controls and procedures were effective as of June 30, 2018 at ensuring that information required to be disclosed by us in the reports we file or submit under the Securities Exchange Act of 1934 is recorded, processed, summarized and reported within the time periods specified in the SEC’s rules and forms.

There have been no changes in our internal controls over financial reporting that occurred during the most recent fiscal quarter that have materially affected, or are reasonably likely to materially affect, our internal controls over financial reporting.

PART II. OTHER INFORMATION

ITEM 1. LEGAL PROCEEDINGS

Investigation by the U.S. Attorney. On November 8, 2013, the United States District Court for the Eastern District of Louisiana approved the previously disclosed October 30, 2013 plea agreement between our wholly owned subsidiary, Helmerich & Payne International Drilling Co. (“HPIDC”), and the United States Department of Justice, United States

Attorney's Office for the Eastern District of Louisiana ("DOJ"). The court's approval of the plea agreement resolved the DOJ's investigation into certain choke manifold testing irregularities that occurred in 2010 at one of HPIDC's offshore platform rigs in the Gulf of Mexico. We also engaged in discussions with the Inspector General's office of the Department of the Interior ("DOI") regarding the same events that were the subject of the DOJ's investigation. Although we do not presently anticipate any further action by the DOI in this matter, we can provide no assurance as to the timing or eventual outcome of the DOI's consideration of the matter.

Venezuela Expropriation. Our wholly-owned subsidiaries, HPIDC and Helmerich & Payne de Venezuela, C.A. filed a lawsuit in the United States District Court for the District of Columbia on September 23, 2011 against the Bolivarian Republic of Venezuela, Petroleos de Venezuela, S.A. and PDVSA Petroleo, S.A. We are seeking damages for the taking of our Venezuelan drilling business in violation of international law and for breach of contract. While there exists the possibility of realizing a recovery, we are currently unable to determine the timing or amounts we may receive, if any, or the likelihood of recovery.

ITEM 1A. RISK FACTORS

Our business depends on the level of activity in the oil and natural gas industry, which is significantly impacted by the volatility of oil and natural gas prices and other factors.

Table of Contents

Our business depends on the conditions of the land and offshore oil and natural gas industry. Demand for our services depends on oil and natural gas industry exploration and production activity and expenditure levels, which are directly affected by trends in oil and natural gas prices. Oil and natural gas prices, and market expectations regarding potential changes to these prices, significantly affect oil and natural gas industry activity.

We are subject to the political, economic and social instability risks and local laws associated with doing business in certain foreign countries.

We currently have operations in South America and the Middle East. In the future, we may further expand the geographic reach of our operations. As a result, we are exposed to certain political, economic and other uncertainties not encountered in U.S. operations, including increased risks of social unrest, strikes, terrorism, war, kidnapping of employees, nationalization, forced negotiation or modification of contracts, difficulty resolving disputes and enforcing contract provisions, expropriation of equipment as well as expropriation of oil and gas exploration and drilling rights, taxation policies, foreign exchange restrictions and restrictions on repatriation of income and capital, currency rate fluctuations, increased governmental ownership and regulation of the economy and industry in the markets in which we operate, economic and financial instability of national oil companies, and restrictive governmental regulation, bureaucratic delays and general hazards associated with foreign sovereignty over certain areas in which operations are conducted.

South American countries, in particular, have historically experienced uneven periods of economic growth, as well as recession, periods of high inflation and general economic and political instability. From time to time these risks have impacted our business. For example, on June 30, 2010, the Venezuelan government expropriated 11 rigs and associated real and personal property owned by our Venezuelan subsidiary. Prior thereto, we also experienced currency devaluation losses in Venezuela and difficulty repatriating U.S. dollars to the United States. Today, our contracts for work in foreign countries generally provide for payment in U.S. dollars. However, in Argentina we are paid in Argentine pesos. The Argentine branch of one of our second-tier subsidiaries then remits U.S. dollars to its U.S. parent by converting the Argentine pesos into U.S. dollars through the Argentine Foreign Exchange Market and repatriating the U.S. dollars.

Argentina's economy is currently considered highly inflationary, which is defined as cumulative inflation rates exceeding 100 percent in the most recent three-year period based on inflation data published by the respective governments. However, estimates from other published sources may indicate that Argentina is a highly inflationary country. Nonetheless, all of our foreign operations use the U.S. dollar as the functional currency and local currency monetary assets and liabilities are remeasured into U.S. dollars with gains and losses resulting from foreign currency transactions included in current results of operations.

For the nine months ended June 30, 2018 and 2017, we experienced aggregate foreign currency losses of \$2.5 million and \$3.3 million, respectively. However, in the future, we may incur larger currency devaluations, foreign exchange restrictions or other difficulties repatriating U.S. dollars in Argentina or elsewhere which could have a material

adverse impact on our business, financial condition and results of operations.

Additionally, there can be no assurance that there will not be changes in local laws, regulations and administrative requirements or the interpretation thereof which could have a material adverse effect on the profitability of our operations or on our ability to continue operations in certain areas. Because of the impact of local laws, our future operations in certain areas may be conducted through entities in which local citizens own interests and through entities (including joint ventures) in which we hold only a minority interest or pursuant to arrangements under which we conduct operations under contract to local entities. While we believe that neither operating through such entities nor pursuant to such arrangements would have a material adverse effect on our operations or revenues, there can be no assurance that we will in all cases be able to structure or restructure our operations to conform to local law (or the administration thereof) on terms we find acceptable.

Although we attempt to minimize the potential impact of such risks by operating in more than one geographical area, during the nine months ended June 30, 2018, approximately 10.0 percent of our consolidated operating revenues were generated from the international contract drilling business. During the nine months ended June 30, 2018, approximately 96.0 percent of the international operating revenues were from operations in South America. Substantially all of the

Table of Contents

South American operating revenues were from Argentina and Colombia. The future occurrence of one or more international events arising from the types of risks described above could have a material adverse impact on our business, financial condition and results of operation.

Other risk factors

Reference is made to the risk factors pertaining to the Company's securities portfolio and current backlog of contract drilling revenue in Item 1A of Part 1 of the Company's Form 10-K for the year ended September 30, 2017. In order to update these risk factors for developments that have occurred during the first nine months of fiscal 2018, the risk factors are hereby amended and updated by reference to, and incorporation herein of Note 5 to the Condensed Consolidated Financial Statements contained in Item 1 of Part I hereof (regarding our securities portfolio) and Liquidity and Capital Resources — Backlog contained in Item 2 of Part I hereof.

Except as discussed above for the nine months ended June 30, 2018, there have been no material changes to the risk factors disclosed in Item 1A of Part 1 in our Form 10-K.
