Part I. FINANCIAL INFORMATION

Item 1. Financial Statements

The accompanying interim unaudited condensed financial statements have been prepared in accordance with the instructions to Form 10-Q and do not include all the information and footnotes required by generally accepted accounting principles for complete financial statements. In the opinion of the management, all adjustments (consisting of normal recurring adjustments) considered necessary for a fair presentation have been included, and the disclosures are adequate to make the information presented not misleading. Operating results for the nine months ended March 31, 2001 are not necessarily indicative of the results that may be expected for the year ending June 30, 2001. These statements should be read in conjunction with the financial statements and notes thereto included in the

Notes to Financial Statements

Note 1: Investments

On March 7, 2001, the Registrant sold 1,077,800 shares of the common stock it held in its largest investee, Williams Controls, Inc., and on March 12, 2001 the Registrant sold an additional 574,529 shares of Williams Controls, Inc., for a total of 1,652,329 shares, representing all the shares of Williams Controls, Inc. common stock owned by the Registrant at the time of this filing. These shares were acquired

Edgar Filing: ENERCORP INC - Form 10-Q

by the Registrant in transactions between April 1991 and August 1998. The shares were sold in open market transactions through an unaffiliated broker. Upon settlement of the trades, the Registrant received total net proceeds of approximately \$2,424,800. These proceeds were used to pay off the Company's demand loan from a bank with a balance of \$2,141,649 plus accrued interest, and make payments of or toward other debt obligations and payables that the Company had outstanding. The Registrant continues to hold its other principal common stock investments in CompuSonics Video Corporation (10,001,751 shares), Ajay Sports, Inc. (310,785 common and 2,000 preferred shares) and Pro Golf International, Inc. (7,450 shares, and continues to hold 200,000 warrants in Williams Controls, Inc., which are fully vested at the time of this filing.

11

Item 2. Management's Discussion and Analysis of Financial Condition/Results of Operations.

Material Changes in Financial Condition:

The Registrant's liquidity is affected primarily by the business success, securities prices and marketability of its investee companies and by the amount and timing of new or incremental investments it makes, as well as the availability of borrowing under the credit line.

In July 2000, the Registrant renewed its line of credit from Comerica Bank ("Comerica") under which it may borrow up to \$2,250,000 at 3/4% over Comerica's prime lending rate. The collateral for this line of credit was 1,652,329 shares of Williams Controls common stock owned by the Registrant and 310,785 shares of the common stock of Ajay Sports, Inc. ("Ajay") owned by the Registrant. The Registrant was out of compliance with the terms of the loan agreement from December 1999 until March 2001. Under the terms of the demand loan, the bank had the right to demand immediate payment of the loan by the Registrant at any time. The bank had disallowed any further advances against the credit line until the loan was brought back into formula, either through loan paydown or through the providing of additional collateral acceptable to the bank. In early March 2001, the loan remained out of compliance and, based on discussions management had with the bank, the Registrant believed that the bank would make demand for payment of the entire loan amount and all accrued unpaid interest on March 31, 2001 or shortly thereafter if the March 31, 2001 interest payment was not made. The Registrant lacked the liquidity to continue paying monthly interest payments, absent sales of portfolio securities. Therefore, between March 7, 2001 and March 12, 2001, the Registrant sold 1,652,329 shares of the common stock it held in its largest investee, Williams Controls, Inc. representing all the shares of Williams Controls, Inc. common stock owned by the Registrant. Upon settlement of the trades, the Registrant received total net proceeds of approximately \$2,424,800. These proceeds were used to pay off the Company's demand loan from the bank with a balance of \$2,141,649 plus accrued interest, and make payments toward other debt obligations and payables that the Company had outstanding, including repayment of loans made by its president to the Registrant. The balance of the Registrant's note payable to Comerica as of March 31, 2001 was \$0.

Due to the lack of working capital prior to February 28, 2001, the President of the Registrant had made loans to the Registrant to cover the Registrant's short term working capital needs since May 31, 2000.

Edgar Filing: ENERCORP INC - Form 10-Q

These loans were evidenced by a promissory note and were payable on demand. As of March 22, 2001, the note payable to the Registrant's president was \$187,000 and had accrued interest of \$7,960. Upon the sale of the Williams Controls, Inc. common stock, this full principal of the promissory note and \$2,000 of the \$7,960 of accrued interest on the note were repaid to the Registrant's president.

12

Material Changes in Results of Operations:

The Registrant's revenues were \$996,910 and \$474,500 for the third quarter ended March 31, 2001 and 2000, respectively. The change in revenues for the quarter, compared with the prior year's quarter, was due to the sale of investments.

The Registrant recorded an unrealized gain on investments of \$369,689 for the third quarter ended March 31, 2001 compared to a loss of \$317,972 for the third quarter ended March 31, 2000. This is mainly due to the changes in fair market value of the Registrant's investment in CompuSonics Video Corporation, Ajay Sports.
