Item 1.01 Entry Into A Material Definitive Agreement

On February 24, 2005, the Compensation Committee of the Board of Directors of Southwestern Energy Company (the "Company") authorized the payment of annual incentive awards in respect of the year ended December 31, 2004 to participants in the Company's Incentive Compensation Plan, which included each of the Company's executive officers. The payment of the annual incentive awards was ratified by the full Board on February 25, 2005. The annual incentive awards were made based on 2004 performance measures and executive bonus percentages approved by the Compensation Committee in December 2003. On February 24, 2005, the 2004 bonus opportunities for the CEO and certain of the Named Executive Officers (which officers were determined by reference to positions occupied by the Named Executive Officers included in the Company's proxy statement, dated March 29, 2004) were modified by the Compensation Committee to be the same as the bonus percentages that were approved in December 2004 for fiscal year 2005. The modifications were based on the Compensation Committee's determination, in light of the Company's performance and after consultation with external compensation consultants, that the bonus opportunities originally established for fiscal year 2004 were below those of peer group companies.

For 2004, subject to the attainment of corporate performance objectives, targeted incentive award opportunities for the Named Executive Officers were modified to range from 33% to 85% of base salary, up from 33% to 60%. If the maximum performance objectives are attained, the incentive award opportunities were modified to range from 60% to 150% of base salary, up from 60% to 105%. If the minimum performance objectives are attained, the incentive award opportunities were modified to range from 16.5% to 42.5% of base salary, up from 16.5% to 30%. If the minimum corporate performance objectives are not attained, the executives are not entitled to receive this component of the incentive award.

In addition to the performance-based component, these executives also had the opportunity to receive a discretionary incentive award. The target total incentive award opportunities for these executives for 2004, including the discretionary component, were modified to range from 55% to 140% of base salary, up from 55% to 100%. The maximum total incentive award opportunities for these executives for 2004, assuming attainment of the maximum performance objectives and the maximum discretionary amount, were modified to range from 80% to 200% of base salary, up from 80% to 140%. Assuming attainment of minimum performance objectives and the maximum discretionary amount, the total incentive award opportunities were modified to range from 55% to 140% of base salary, up from 55% to 100%.

For 2004, the performance goals established for the Named Executive Officers, other than Alan N. Stewart, Executive Vice President of Arkansas Western Gas Company, by the Compensation Committee were based on: (1) cash flow per share, (2) reserve replacement ratio, (3) PVI (which is defined as the expected present value added discounted at 10% for each dollar invested in the Company's exploration and production segment), and (4) return on equity. Because these factors were weighted approximately equal, a proportionate award would be earned for each performance goal that is met at the pre-established levels. In 2004, the cash flow per share, reserve replacement level, and

2

return on equity performance goals surpassed the maximum award level, while PVI was above target. The Compensation Committee based the discretionary awards for these executives on a subjective evaluation of the executive's performance. Mr. Stewart's performance goals were based upon (1) utility net operating income, (2) controlling utility expenses, and (3) utility gas sales volumes.

The following table sets forth cash payments to the Named Executive Officers in respect of their annual incentive awards for 2004 and 2003:
