Table of Contents

Park-Ohio Holdings Corp. and Subsidiaries  
Notes to Unaudited Condensed Consolidated Financial Statements  
March 31, 2014

NOTE 1 — Basis of Presentation

The condensed consolidated financial statements include the accounts of Park-Ohio Holdings Corp. and its subsidiaries (collectively, “we” or the “Company”). All significant intercompany transactions have been eliminated in consolidation. Certain amounts in the prior years’ financial statements have been reclassified to conform to the current year presentation.

The accompanying unaudited condensed consolidated financial statements have been prepared in accordance with accounting principles generally accepted for interim financial information and with the instructions to Form 10-Q and Article 10 of Regulation S-X. Accordingly, they do not include all of the information and footnotes required by accounting principles generally accepted in the United States for complete financial statements. In the opinion of management, all adjustments (consisting of normal recurring accruals) considered necessary for a fair presentation have been included. Operating results for the three-month periods ended March 31, 2014 are not necessarily indicative of the results that may be expected for the year ending December 31, 2014. For further information, refer to the consolidated financial statements and footnotes thereto included in the Company’s Annual Report on Form 10-K for the year ended December 31, 2013.

On September 3, 2013, we sold all of the outstanding equity interests of a non-core business unit in the Supply Technologies segment during the third quarter of 2013. This business unit is a provider of high-quality machine to machine information technology solutions, products and services. As of September 30, 2013, the results of the business unit have been reported as discontinued operations in the financial statements.

NOTE 2 — New Accounting Pronouncements

Accounting Pronouncements Adopted

In February 2013, the FASB issued ASU 2013-04, “Obligations Resulting from Joint and Several Liability Arrangements for Which the Total Amount of the Obligation is Fixed at the Reporting Date,” which requires entities to measure obligations resulting from joint and several liability arrangements for which the total amount of the obligation is fixed at the reporting date, as the sum of the amount the reporting entity agreed to pay on the basis of its arrangement among its co-obligors plus additional amounts the reporting entity expects to pay on behalf of its co-obligors. Entities are also required to disclose the nature and amount of the obligation as well as other information about those obligations. This ASU is effective prospectively for reporting periods beginning after December 15, 2013. The adoption of this ASU has not had a material effect on our consolidated financial statements as it aligns with our current presentation.

In February 2013, the FASB issued ASU 2013-05, “Parent’s Accounting for the Cumulative Translation Adjustment upon Derecognition of Certain Subsidiaries or Groups of Assets within a Foreign Entity or of an Investment in a Foreign Entity,” requiring reporting entities that no longer have a controlling financial interest in a subsidiary or group of assets that is considered a business within a foreign entity, to release the cumulative translation adjustment into net income only if the sale or transfer results in the complete or substantially complete liquidation of the foreign entity in which the subsidiary or group of assets had resided. For equity method investments that are foreign entities, the partial sale requires a pro rata portion of the cumulative translation adjustment to be released into net income upon a partial sale of such an equity investment. However, for an equity method investment that is not a foreign entity, the release of the cumulative translation adjustment into net income is required only if the partial sale represents a complete or substantially complete liquidation of the foreign entity that contains the equity method investment. Additionally, the

amendments in this update clarify that the sale of an investment in a foreign entity requiring release into net income the cumulative translation adjustment upon the occurrence of events that includes (1) events that result in the loss of a controlling financial interest in a foreign entity and (2) events that result in an acquirer obtaining control of an acquiree in which it held an equity interest immediately before the acquisition date. This ASU is effective prospectively for reporting periods beginning after December 15, 2013. The adoption of this ASU has not had a material effect on our consolidated financial statements as it aligns with our current presentation.

Table of Contents

Park-Ohio Holdings Corp. and Subsidiaries  
 Notes to Unaudited Condensed Consolidated Financial Statements  
 March 31, 2014

## Recent Accounting Pronouncements Not Yet Adopted

In April 2014, the FASB issued ASU 2014-08, "Presentation of Financial Statements (Topic 205) and Property, Plant, and Equipment (Topic 360): Reporting Discontinued Operations and Disclosures of Disposals of Components of an Entity," which raises the threshold for disposals to qualify as discontinued operations and requires new disclosures for discontinued operations and for individually material disposal transactions that do not meet the definition of a discontinued operation. The ASU is effective prospectively for reporting periods beginning with the first quarter of 2015. The Company is currently evaluating the impact of adopting this guidance.

## NOTE 3 — Segments

The Company operates through three reportable segments: Supply Technologies, Assembly Components and Engineered Products. Supply Technologies provides our customers with Total Supply Management™ services for a broad range of high-volume, specialty production components. Total Supply Management™ manages the efficiencies of every aspect of supplying production parts and materials to our customers' manufacturing floor, from strategic planning to program implementation, and includes such services as engineering and design support, part usage and cost analysis, supplier selection, quality assurance, bar coding, product packaging and tracking, just-in-time and point-of-use delivery, electronic billing services and ongoing technical support. Assembly Components manufactures cast aluminum components, automotive and industrial rubber and thermoplastic products, fuel filler and hydraulic assemblies for automotive, agricultural equipment, construction equipment, heavy-duty truck and marine equipment industries. Assembly Components also provides value-added services such as design and engineering, machining and assembly. Engineered Products operates a diverse group of niche manufacturing businesses that design and manufacture a broad range of high quality products engineered for specific customer applications.

The Company primarily evaluates performance and allocates resources based on segment operating income as well as projected future performance. Segment operating income is defined as revenues less expenses identifiable to the product lines included within each segment. Segment operating income reconciles to consolidated income from continuing operations before income taxes by deducting corporate costs and other income or expense items that are not attributed to the segments and net interest expense.

Results by business segment were as follows:

	Three Months Ended March 31,	
	2014	Adjusted <sup>(1)</sup> 2013
	(In millions)	
Net sales:		
Supply Technologies	\$ 134.4	\$ 111.8
Assembly Components	108.1	92.2
Engineered Products	75.3	79.0
	\$ 317.8	\$ 283.0
Income from continuing operations before income taxes:		
Supply Technologies	\$ 10.8	\$ 9.4
Assembly Components	8.1	6.8

Edgar Filing: PARK OHIO HOLDINGS CORP - Form 10-Q

Engineered Products	10.6	12.3	
Total segment operating income	29.5	28.5

 March 31, 2014

(1) Adjusted to reflect the discontinued operations.

	March 31, 2014	December 31, 2013
	(In millions)	
Identifiable assets:		
Supply Technologies	\$257.3	\$241.7
Assembly Components	283.6	276.7
Engineered Products	186.0	183.1
General corporate	120.3	117.2
	\$847.2	\$818.7

## NOTE 4 — Discontinued Operations

On September 3, 2013, the Company sold all of the outstanding equity interests of a non-core business unit in the Supply Technologies segment, for \$8.5 million in cash. This business unit is a provider of high-quality machine to machine information technology solutions, products and services. As a result of the sale, this business unit has been removed from the Supply Technologies segment and presented as a discontinued operation for all of the periods presented. Select financial information included in discontinued operations were as follows:

	Three Months Ended March 31, 2013 (In millions)
Net sales	\$2.1
Loss from discontinued operations before tax	(0.6 )
Income tax benefit from operations	0.2
Income (loss) from discontinued operations, net of taxes	\$(0.4 )

## NOTE 5 — Accounts Receivable

During the first three months of 2014 and 2013, the Company sold approximately \$23.0 million and \$14.4 million, respectively, of accounts receivable to mitigate accounts receivable concentration risk and to provide additional financing capacity and recorded a loss in the amount of \$0.1 million and \$0.1 million, respectively, in the condensed consolidated statements of income. These losses represented implicit interest on the transactions.

## NOTE 6 — Inventories

The components of inventory consist of the following:

	March 31, 2014	December 31, 2013
	(In millions)	
Finished goods	\$119.2	\$115.5
Work in process	39.7	37.3

Raw materials and supplies	68.6	68.6
Inventories, net	\$227.5	\$221.4

Table of Contents

Park-Ohio Holdings Corp. and Subsidiaries  
 Notes to Unaudited Condensed Consolidated Financial Statements  
 March 31, 2014

## NOTE 7 — Goodwill

The changes in the carrying amount of goodwill by reportable segment for the periods ended March 31, 2014 and December 31, 2013 were as follows:

	Supply Technologies (In millions)	Assembly Components	Engineered Products	Total
Balance at January 1, 2013	\$—	\$44.8	\$4.9	\$49.7
Acquisitions	6.2	4.2	—	10.4
Foreign currency translation	0.2	—	0.1	0.3
Balance at December 31, 2013	6.4	49.0	5.0	60.4
Foreign currency translation	—	—	—	—
Balance at March 31, 2014	\$6.4	\$49.0	\$5.0	\$60.4

The increase in goodwill in 2013 was due to the acquisitions of Bates Rubber (“Bates”) in the second quarter of 2013 and Henry Halstead Ltd. (“Henry Halstead”) and QEF Global Limited (“QEF”) in the fourth quarter of 2013. Bates is included in the Assembly Components reportable segment and Henry Halstead and QEF are included in the Supply Technologies reportable segment. The goodwill associated with the Bates transaction is deductible for income tax purposes. The goodwill associated with the Henry Halstead and QEF transactions are not deductible for income tax purposes.

## NOTE 8 — Other Intangible Assets

Information regarding other intangible assets as of March 31, 2014 and December 31, 2013 follows:

	Weighted Average Useful Life	March 31, 2014			December 31, 2013		
		Acquisition Costs	Accumulated Amortization	Net	Acquisition Costs	Accumulated Amortization	Net
(In millions)							
Non-contractual customer relationships	13.0 years	\$61.2	\$9.8	\$51.4	\$61.1	\$8.7	\$52.4
Other	9.4 years	3.9	1.8	2.1	3.9	1.8	2.1
		\$65.1	\$11.6	\$53.5	\$65.0	\$10.5	\$54.5
Indefinite-lived tradenames				11.7			11.7
Total				\$65.2			\$66.2

Amortization expense for the three months ended March 31, 2014 and 2013 was \$1.1 million and \$0.8 million, respectively.

Park-Ohio Holdings Corp. and Subsidiaries  
 Notes to Unaudited Condensed Consolidated Financial Statements  
 March 31, 2014

## NOTE 9 — Accrued Warranty Costs

The Company estimates the amount of warranty claims on sold products that may be incurred based on current and historical data. The actual warranty expense could differ from the estimates made by the Company based on product performance. The following table presents the changes in the Company's product warranty liability for the three months ended March 31, 2014 and 2013:

	2014	2013
	(In millions)	
Balance at January 1,	\$5.4	\$6.9
Claims paid during the period	(0.8	) (1.1
Warranty expense	0.5	1.4
Balance at March 31,	\$5.1	\$7.2

## NOTE 10 — Financing Arrangements

The Company is a party to a credit and security agreement, dated November 5, 2003, as amended (the "Credit Agreement"), with a group of banks, under which it may borrow or issue standby letters of credit or commercial letters of credit. On March 23, 2012, the Credit Agreement was amended and restated to, among other things, increase the revolving loan commitment from \$200.0 million to \$220.0 million, and provide a term loan for \$25.0 million that is secured by certain real estate and machinery and equipment. Amounts borrowed under the revolving credit facility may be borrowed at either (i) LIBOR plus 1.75% to 2.75% or (ii) the bank's prime lending rate minus 0.25% to 1.00%, at the Company's election. The LIBOR-based interest rate is dependent on the Company's debt service coverage ratio, as defined in the Credit Agreement. Under the Credit Agreement, a detailed borrowing base formula provides borrowing availability to the Company based on percentages of eligible accounts receivable and inventory. On April 3, 2013, the Credit Agreement was amended to increase the advance rate on eligible accounts receivable and inventory. The interest rate on the revolving credit facility was 1.94% at March 31, 2014. Interest on the term loan is at either (i) LIBOR plus 2.75% or (ii) the bank's prime lending rate plus 0.25%, at the Company's election. The term loan is amortized based on a seven-year schedule with the balance due at maturity (April 7, 2016). The interest rate on the term loan was 3.00% at March 31, 2014.

Long-term debt consists of the following:

	March 31, 2014	December 31, 2013
	(In millions)	
8.125% Senior Notes due 2021	\$250.0	\$250.0
Revolving credit	114.4	111.0
Term loan	17.9	18.7
Other	3.8	3.9
Total debt	386.1	383.6
Less current maturities	4.5	4.4
Total long-term debt, net of current portion	\$381.6	\$379.2

The following table represents fair value information of the Company's 8.125% Senior Notes due 2021, classified as Level 1, at March 31, 2014 and December 31, 2013. The fair value was estimated using quoted market prices.

Fair value	\$280.0	\$275.6

## NOTE 11 — Income Taxes

The Company's tax provision for interim periods is determined using an estimate of its annual effective income tax rate, adjusted for discrete items, if any, that are taken into account in the relevant period. Each quarter, the Company updates the estimated annual effective income tax rate, and if the estimated income tax rate changes, a cumulative adjustment is made.

The effective tax rate for the first three months of 2014 and 2013 was 35.2% and 35.9%, respectively. As of March 31, 2014, there have been no material changes to the balance of unrecognized tax benefits reported at December 31, 2013.

## NOTE 12 — Stock-Based Compensation

March 31, 2014

unrecognized compensation cost related to non-vested stock-based compensation, which cost is expected to be recognized over a weighted average period of 1.94 years.

NOTE 13 — Commitments, Contingencies and Litigation Judgment

The Company is subject to various pending and threatened legal proceedings arising in the ordinary course of business. Although the Company cannot precisely predict the amount of any liability that may ultimately arise with respect to any of these matters, the Company records provisions when it considers the liability probable and reasonably estimable. Our provisions are based on historical experience and legal advice, reviewed quarterly and adjusted according to developments. Estimating probable losses requires the analysis of multiple forecasted factors that often depend on judgments about potential actions by third parties, such as regulators, courts, and state and federal legislatures. Changes in the amounts of our loss provisions, which can be material, affect our financial condition. Due to the inherent uncertainties in the process undertaken to estimate potential losses, we are unable to estimate an additional range of loss in excess of our accruals. While it is reasonably possible that such excess liabilities, if they were to occur, could be material to operating results in any given quarter or year of their recognition, we do not believe that it is reasonably possible that such excess liabilities would have a material adverse effect on our long-term results of operations, liquidity or consolidated financial position.

Our subsidiaries are involved in a number of contractual and warranty related disputes. At this time, we cannot reasonably determine the probability of a loss, and the timing and amount of loss, if any, cannot be reasonably estimated. We believe that appropriate liabilities for these contingencies have been recorded; however, actual results may differ materially from our estimates.

Ajax Tocco Magnethermic Corporation (“ATM”) was the defendant in a lawsuit in the United States District Court for the Eastern District of Arkansas. The plaintiff is IPSCO Tubulars Inc. d/b/a TMK IPSCO. The complaint alleged claims for breach of contract, gross negligence and constructive fraud, and TMK IPSCO sought approximately \$6.0 million in direct and \$4.0 million in consequential damages as well as an unspecified amount of punitive damages. ATM denied the allegations against it, believes it has a number of meritorious defenses and vigorously defended the lawsuit. A motion for partial summary judgment filed by ATM that, among other things, denied the plaintiff's fraud claims was granted by the district court. The remaining claims were the subject of a bench trial in May 2013. At the close of TMK IPSCO's case, the court entered partial judgment in favor of ATM, dismissing the gross negligence claim, dismissing a portion of the breach of contract claim, and dismissing any claim for punitive damages. The trial proceeded with respect to the remainder of TMK IPSCO's claim for damages and, in September 2013, the district court awarded TMK IPSCO damages of approximately \$5.2 million. ATM is appealing the court's decision. TMK IPSCO is also appealing the decision and, additionally, it has asked the court for \$3.8 million in attorney's fees.

In August 2013, the Company received a subpoena from the staff of the Securities and Exchange Commission (“SEC”) in connection with the staff's investigation of a third party. At that time, the Company also learned that the U.S. Department of Justice (“DOJ”) is conducting a criminal investigation of the third party. In connection with responding to the staff's subpoena, the Company disclosed to the staff of the SEC that, in November 2007, the third party participated in a payment on behalf of the Company to a foreign tax official that implicates the Foreign Corrupt Practices Act.

The Board of Directors of the Company has formed a special committee to review the Company's transactions with the third party and to make any recommendations to the Board of Directors with respect thereto.

The Company intends to cooperate fully with the SEC and the DOJ in connection with their investigations of the third party and with the SEC in light of the Company's disclosure. The Company is unable to predict the outcome or impact of the special committee's investigation or the length, scope or results of the SEC's review or the impact on its results of operations.

- (c) The tax adjustments are reclassified out of accumulated other comprehensive income and included in income tax expense.

## NOTE 16 — Weighted-Average Number of Shares Used in Computing Earnings Per Share

The following table sets forth the weighted-average number of shares used in the computation of earnings per share:

	Three Months Ended March 31,	
	2014	2013
	(In whole shares)	
Weighted average basic shares outstanding	12,023,453	11,862,406
Plus dilutive impact of employee stock options	307,567	270,462
Weighted average diluted shares outstanding	12,331,020	12,132,868

Earnings from continuing operations per common share is computed as net income from continuing operations less net income attributable to noncontrolling interests divided by the weighted average basic shares outstanding. Diluted earnings from continuing operations per common share is computed as net income from continuing operations less net income attributable to noncontrolling interests divided by the weighted average diluted shares outstanding.

Loss from discontinued operations per common share is computed as loss from discontinued operations, net of taxes divided by the weighted average basic shares outstanding. Diluted loss from discontinued operations per common share is computed as loss from discontinued operations, net of taxes divided by the weighted average diluted shares outstanding.

Total basic earnings per common share is computed as net income attributable to Park-Ohio common shareholders divided by the weighted average basic shares outstanding. Total diluted earnings per common share is computed as net income attributable to Park-Ohio common shareholders divided by the weighted average diluted shares outstanding.

Outstanding stock options with exercise prices greater than the average price of the common shares are anti-dilutive and are not included in the computation of diluted earnings per share. For the three months ended March 31, 2014 and 2013, the anti-dilutive shares were insignificant.

## NOTE 17— Subsequent Event

In May 2014, the Company's Board of Directors declared a quarterly dividend of \$0.125 per common share. The dividend will be paid on June 9, 2014 to all shareholders of record as of the close of business on May 23, 2014, which will result in a cash outlay of approximately \$1.6 million in the second quarter of 2014.

Table of Contents

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

Our condensed consolidated financial statements include the accounts of Park-Ohio Holdings Corp. and its subsidiaries (collectively, "we" or the "Company"). All significant intercompany transactions have been eliminated in consolidation.

EXECUTIVE OVERVIEW

We are an industrial Total Supply Management™ and diversified manufacturing business, operating in three segments: Supply Technologies, Assembly Components and Engineered Products.

Our Supply Technologies business provides our customers with Total Supply Management™, a proactive solutions approach that manages the efficiencies of every aspect of supplying production parts and materials to our customers' manufacturing floor, from strategic planning to program implementation. Total Supply Management™ includes such services as engineering and design support, part usage and cost analysis, supplier selection, quality assurance, bar coding, product packaging and tracking, just-in-time and point-of-use delivery, electronic billing services and ongoing technical support. Our Supply Technologies business services customers in the following principal industries: heavy-duty truck; automotive, truck and vehicle parts; power sports and recreational equipment; bus and coaches; electrical distribution and controls; agricultural and construction equipment; consumer electronics; HVAC; lawn and garden; semiconductor equipment; aerospace and defense; and plumbing.

Assembly Components manufactures parts and assemblies and provides value-added design, engineering and assembly services that are incorporated into our customer's end products. Our product offerings include cast and machined aluminum engine, transmission, brake, suspension and other components, such as pump housings, clutch retainers/pistons, control arms, knuckles, master cylinders, pinion housings, brake calipers, oil pans and flywheel spacers, industrial hose and injected molded rubber components, and fuel filler assemblies. Our products are primarily used in the following industries: automotive; agricultural; construction; heavy-duty truck; and marine original equipment manufacturers ("OEMs"), primarily on a sole-source basis.

Engineered Products operates a diverse group of niche manufacturing businesses that design and manufacture a broad range of highly-engineered products including induction heating and melting systems, pipe threading systems, industrial oven systems, and forged and machined products. Engineered Products also produces and provides services and spare parts for the equipment it manufactures. The principal customers of Engineered Products are OEMs, sub-assemblers and end users in the ferrous and non-ferrous metals, silicon, coatings, forging, foundry, heavy-duty truck, construction equipment, automotive, oil and gas, locomotive and rail manufacturing, and aerospace and defense industries.

Sales, segment operating income and other relevant financial data for these three segments are provided in Note 3 to the condensed consolidated financial statements, included elsewhere herein.

Primary Factors Affecting 2014 Results

The following factors most affected our consolidated results for the three months ended March 31, 2014:

Our 2013 strategic bolt-on acquisitions of Bates Rubber ("Bates"), Henry Halstead Ltd. ("Henry Halstead") and QEF Global Limited ("QEF") added a combined \$21.5 million of incremental revenues in the first three months of 2014 compared to the first three months of 2013. These acquisitions have been successfully integrated into our segments and the earnings results of these combined acquisitions have been accretive to us.

- While most of our businesses performed well during extreme weather conditions of the first three months of 2014, the forging business of our Engineered Products segment experienced operational difficulties directly associated with the extreme weather. Orders were delayed, additional maintenance was required due to the harsh conditions and premium natural gas costs were incurred. We estimate the impact of these extreme weather-related factors was approximately \$1.2 million in the first three months of 2014.

Table of Contents

- In addition to our top-line growth associated with acquisitions, our organic growth was \$13.3 million, or 4.7%, and was directly associated with strong performance in the Supply Technologies segment and in our Aluminum business unit of the Assembly Components segment. While overall we had excellent net sales growth of 12.3%, our unfavorable sales mix in the first three months of 2014 compared to the first first three months of 2013 and the extreme weather-related issues of the first three months of 2014 lead to our gross margin percentage reduction of 60 basis points to 17.6%.

- Due to the incremental selling, general and administrative (“SG&A”) costs primarily related to our acquisitions and increased professional service fees in the first three months of 2014, our SG&A expenses increased 16.5%.

Table of Contents

## RESULTS OF OPERATIONS

Three Months Ended March 31, 2014 Compared with Three Months Ended March 31, 2013

	Three Months Ended March 31,				
	2014	Adjusted 2013	\$ Change	% Change	
	(Dollars in millions, except per share data)

Total	\$0.82	\$0.85	\$(0.03 )	(3.5 )	%

\* Calculation not meaningful

## Net Sales:

Net sales increased \$34.8 million, or 12.3%, to \$317.8 million in the first three months of 2014, compared to \$283.0 million in the same period in 2013, mainly due to the incremental sales from acquisitions of \$21.5 million and volume increases from our Supply Technologies and Assembly Components segments, partially offset by decreases in our Engineered Products segment.

The factors explaining the changes in segment revenues for the three months ended March 31, 2014 compared to the prior year comparable period are contained within the "Segment Analysis" section.

Table of Contents

## Cost of Sales &amp; Gross Profit:

Cost of sales increased \$30.4 million to \$261.8 million in the first three months of 2014, compared to \$231.4 million in the same period in 2013. The increase in cost of sales was primarily due to incremental cost of sales from acquisitions of \$19.0 million and the increase in net sales volumes. The gross profit margin percentage was 17.6% in the first three months of 2014 compared to 18.2% in the same period in 2013. This decrease in gross margin percentage of 60 basis points is largely due to a change in the sales mix, as the Supply Technologies and Assembly Components net sales, carrying a lower gross margin percentage, were a higher percentage of consolidated net sales in the first three months of 2014 than in the prior year first three months.

## SG&amp;A Expenses:

Consolidated SG&A expenses increased 16.5% in the first three months of 2014 compared to the same period in 2013, and SG&A expenses as a percent of sales increased by 40 basis points to 10.4%. SG&A expenses increased in the first three months of 2014 compared to the same period in 2013 primarily due to \$1.4 million of incremental expense associated with the 2013 acquisitions, increased professional service fees of \$1.7 million and increased salary and wage expenses.

## Interest Expense:

	Three Months Ended		\$ Change	% Change	
	2014	2013			
	March 31,				
	(Dollars in millions)				
Interest expense	\$7.0	\$6.5	\$0.5	7.7	%
Average outstanding borrowings	\$382.4	\$372.1	\$10.3	2.8	%
Average borrowing rate	7.32	% 6.99	%		

Interest expense increased \$0.5 million in the first three months of 2014 compared to the same period in 2013, primarily due to the amortization of earn-out provisions of the recent acquisition of Henry Halstead. There is no expected additional amortization of earn-out provisions related to prior year acquisitions in 2014. Average borrowings in the first three months of 2014 were higher when compared to the same period in 2013 due to additional borrowings to fund the 2013 acquisitions. The higher average borrowing rate in the first three months of 2014 was primarily due to the amortization of earn-out provisions of the recent acquisition of Henry Halstead.

## Income Tax Expense:

The provision for income taxes was \$5.6 million, at a 35.2% effective income tax rate, in the first three months of 2014. This was comparable to income taxes of \$6.0 million, at a 35.9% effective income tax rate, in the corresponding period of 2013.

## Net Income from Continuing Operations:

Net income from continuing operations decreased \$0.4 million to \$10.3 million in the first three months of 2014, compared to \$10.7 million in the same period of 2013, due to the reasons described above.

## Loss from Discontinued Operations:

In September 2013, the Company sold all of the outstanding equity interests of a non-core business unit in the Supply Technologies segment, for \$8.5 million in cash. The loss from discontinued operations of \$0.4 million for the first three months of 2013 is comprised of the operating losses, net of tax, of the business unit sold. As a result of the sale, this business unit has been removed from the Supply Technologies segment and presented as a discontinued operation for all of the periods presented.

Table of Contents

## Net Income:

Net income was flat at \$10.3 million for the first three months of 2014, compared to the first three months of 2013, due to the reasons described above.

## Net Income Attributable to Noncontrolling Interest:

As a result of the sale of the 25% equity interest in a small forging business in the third quarter of 2013, the income of \$0.2 million for the first three months of 2014 attributable to the noncontrolling interest was deducted from net income to derive net income attributable to ParkOhio common shareholders.

## Net Income Attributable to ParkOhio Common Shareholders:

Net income attributable to ParkOhio common shareholders decreased \$0.2 million to \$10.1 million in the first three months of 2014, compared to \$10.3 million in the same period of 2013, due to the reasons described above.

## SEGMENT ANALYSIS

We primarily evaluate performance and allocate resources based on segment operating income as well as projected future performance. Segment operating income is defined as revenues less expenses identifiable to the business units and product lines included within each segment. Segment operating income will reconcile to consolidated income from continuing operations before income taxes by deducting corporate costs that are not attributable to the segments and net interest expense.

The proportion of consolidated revenues and segment operating income attributed to each segment was as follows:

	Three Months Ended March 31,		
	2014	2013	
Revenues:			
Supply Technologies	42	% 40	%
Assembly Components	34	% 32	%
Engineered Products	24	% 28	%
Segment Operating Income:			
Supply Technologies	37	% 33	%
Assembly Components	27	% 24	%
Engineered Products	36	% 43	%

## Supply Technologies Segment

	Three Months Ended March 31,			
	2014	2013	\$ Change	% Change
	(Dollars in millions)			
Net sales	\$134.4	\$111.8	\$22.6	20 %
Segment operating income	\$10.8	\$9.4	\$1.4	15 %
Segment operating income margin	8.0	% 8.4	%	

Table of Contents

## Three Months Ended March 31, 2014 Compared with Three Months Ended March 31, 2013

**Net Sales:** Almost half of the revenue increase in the first three months of 2014, compared to the same period in 2013, is directly attributable to the fourth quarter acquisitions of Henry Halstead and QEF. The majority of our growth in the first three months of 2014 was organic growth in our diversified markets. This growth was driven by the heavy-duty truck market, which was up 59%; the semiconductor market, which was up 62%; and the power sports and recreational equipment market, which increased 11%. In addition, our fastener manufacturing division generated sales increases of 23% in the first three months of 2014.

**Segment Operating Income:** With increases in net sales, segment operating incomes increased \$1.4 million, or 15%, to \$10.8 million. Segment operating margin was 8.0%, which was a 40 basis points reduction compared to the prior year's first three months segment operating income margin of 8.4%. The reduction in margin is primarily attributable to increased professional services fees and overall customer product mix swings in the first quarter of 2014, slightly offset by increased operational leverage as a result of our acquisitions.

## Assembly Components Segment

	Three Months Ended March 31,			
	2014	2013	\$ Change	% Change
	(Dollars in millions)			
Net sales	\$108.1	\$92.2	\$15.9	17 %
Segment operating income	\$8.1	\$6.8	\$1.3	19 %
Segment operating income margin	7.5	% 7.4	%	

## Three Months Ended March 31, 2014 Compared with Three Months Ended March 31, 2013

**Net Sales:** The significant increase in net sales is primarily due to the incremental revenues in 2014 associated with the acquisition of Bates of approximately \$11.4 million. In addition, aluminum business revenues increased 27%, as we experienced incremental sales from new programs with our automotive customers that launched in 2013. These revenue increases were slightly offset by the expected reduced volumes in the fuel filler business of Fluid Routing Solutions of 17% as programs completed their life cycles in the second half of 2013.

**Segment Operating Income:** On the strength of the Bates acquisition, and the aluminum business' incremental contribution from the new program launches with our automotive customers in 2013, segment operating income increased 19% in the first three months of 2014 compared to the same period in 2013. Furthermore, our segment operating income margin increased 10 basis points, which was mainly due to the aluminum business as it continued ramping up to full capacity.

## Engineered Products Segment

	Three Months Ended March 31,			
	2014	2013	\$ Change	% Change
	(Dollars in millions)			
Net sales	\$75.3	\$79.0	\$(3.7)	(5)%
Segment operating income	\$10.6	\$12.3	\$(1.7)	(14)%
Segment operating income margin	14.1	% 15.6	%	

Table of Contents

Three Months Ended March 31, 2014 Compared with Three Months Ended March 31, 2013

**Net Sales:** Both of our primary business units in this segment experienced declines in the first three months of 2014 compared to the first three months of 2013. Our forging business was unfavorably impacted by extreme weather conditions and reduced demand for some of its aircraft forging products. Overall revenues in our forging business were down 9% year over year. Our industrial equipment business net sales declined in the first three months of 2014 by 3%. This business unit can experience volatility in the timing of completed jobs and the associated revenue recognition related to percentage of completion accounting based on the jobs' complexity and size. However, our aftermarket business increased 3% in the first three months of 2014 compared to the first three months of 2013.

**Segment Operating Income:** Given the decrease in net sales in 2014, segment operating income also decreased 14% in the first three months of 2014. In addition, segment operating income margin declined 150 basis points to 14.1% in the first three months of 2014 compared to 15.6% in the first three months of 2013. Our forging business experienced operational difficulties due to the extreme weather resulting in delayed orders, additional maintenance and premium natural gas costs. We estimate the impact of these extreme weather-related factors on segment operating income was approximately \$1.2 million in the first three months of 2014.

**Liquidity and Sources of Capital**

As of March 31, 2014, we had \$114.4 million outstanding and approximately \$80.6 million of unused borrowing availability under the revolving credit facility provided by the Credit Agreement. Also, as of March 31, 2014, we had cash and cash equivalents of \$59.0 million.

Our liquidity needs are primarily for working capital and capital expenditures. Our primary sources of liquidity have been funds provided by operations and funds available from existing bank credit arrangements and the sale of our debt securities. On April 7, 2011, we completed the sale of \$250.0 million aggregate principal amount of Senior Notes. The Senior Notes bear an interest rate of 8.125% per annum payable semi-annually in arrears on April 1 and October 1 of each year. The Senior Notes mature on April 1, 2021.

Pursuant to the Credit Agreement, we may borrow or issue standby letters of credit or commercial letters of credit. On March 23, 2012, the Credit Agreement was amended and restated to, among other things, increase the revolving loan commitment from \$200 million to \$220 million, and provide a term loan for \$25 million that is secured by certain real estate and machinery and equipment. Amounts borrowed under the revolving credit facility may be borrowed at either (i) LIBOR plus 1.75% to 2.75% or (ii) the bank's prime lending rate minus 0.25% to 1.00%, at the Company's election. The interest rate is dependent on the Company's debt service coverage ratio, as defined in the Credit Agreement. Under the Credit Agreement, a detailed borrowing base formula provides borrowing availability to the Company based on percentages of eligible accounts receivable and inventory. On April 3, 2013, the Credit Agreement was amended to increase the advance rate on eligible accounts receivable and inventory. Interest on the term loan is at either (i) LIBOR plus 2.75% or (ii) the bank's prime lending rate plus 0.25%, at the Company's election. The term loan is amortized based on a seven-year schedule with the balance due at maturity (April 7, 2016).

Current financial resources (working capital and available bank borrowing arrangements) and anticipated funds from operations are expected to be adequate to meet current cash requirements for at least the next twelve months. The future availability of bank borrowings under the revolving credit facility provided by the Credit Agreement is based on our ability to meet a debt service ratio covenant, which could be materially impacted by negative economic trends. Failure to meet the debt service ratio could materially impact the availability and interest rate of future borrowings.

The Company had cash and cash equivalents held by foreign subsidiaries of \$41.5 million at March 31, 2014 and \$40.0 million at December 31, 2013. For each of our foreign subsidiaries, we make a determination regarding the amount of earnings intended for permanent reinvestment, with the balance, if any, available to be repatriated to the United States. The cash held by foreign subsidiaries for permanent reinvestment is generally used to finance the foreign subsidiaries' operational activities and/or future foreign investments. At March 31, 2014, management believed that sufficient liquidity was available in the United States, and it is our current intention to permanently reinvest undistributed earnings of our foreign subsidiaries outside of the

## Table of Contents

United States. Although we have no intention to repatriate the approximately \$88.6 million of undistributed earnings of our foreign subsidiaries, as of March 31, 2014, if we were to repatriate these earnings, there would potentially be an adverse tax impact.

At March 31, 2014, our debt service coverage ratio was 2.0, and, therefore, we were in compliance with the debt service coverage ratio covenant contained in the revolving credit facility provided by the Credit Agreement. We were also in compliance with the other covenants contained in the revolving credit facility as of March 31, 2014. The debt service coverage ratio is calculated at the end of each fiscal quarter and is based on the most recently ended four fiscal quarters of consolidated EBITDA minus cash taxes paid, minus unfunded capital expenditures, plus cash tax refunds to consolidated debt charges that are consolidated cash interest expense plus scheduled principal payments on indebtedness plus scheduled reductions in our term debt as defined in the Credit Agreement. The debt service coverage ratio must be greater than 1.0 and not less than 1.1 for any two consecutive fiscal quarters. While we expect to remain in compliance throughout 2014, declines in sales volumes in 2014 could adversely impact our ability to remain in compliance with certain of these financial covenants. Additionally, to the extent our customers are adversely affected by declines in the economy in general, they may not be able to pay their accounts payable to us on a timely basis or at all, which would make the accounts receivable ineligible for purposes of the revolving credit facility and could reduce our borrowing base and our ability to borrow under such facility.

The ratio of current assets to current liabilities was 2.47 at March 31, 2014, compared to 2.51 at December 31, 2013. Working capital increased by \$14.1 million to \$312.4 million at March 31, 2014, from \$298.3 million at December 31, 2013. Accounts receivable increased \$18.8 million to \$184.5 million at March 31, 2014, from \$165.7 million at December 31, 2013, primarily resulting from sales volume increases at the end of the respective quarters. Inventory increased by \$6.1 million at March 31, 2014, to \$227.5 million from \$221.4 million at December 31, 2013, primarily resulting from increases in customer demand. Accounts payable increased \$9.5 million to \$121.5 million at March 31, 2014, from \$112.0 million at December 31, 2013, primarily as a result of the timing of payments at March 31, 2014. Accrued expenses increased by \$4.8 million to \$84.7 million at March 31, 2014, from \$79.9 million at December 31, 2013, primarily resulting from the interest payment terms on the Senior Notes.

In May 2014, our Board of Directors declared a dividend of \$0.125 per common share payable on June 9, 2014 to our common shareholders of record as of May 23, 2014, which will result in a cash outlay of approximately \$1.6 million in the second quarter of 2014. Although we currently intend to pay a quarterly dividend on an ongoing basis, all future dividend declarations will be at the discretion of our Board of Directors and dependent upon the then-existing conditions, including our operating results and financial condition, capital requirements, contractual restrictions, business prospects and other factors that our Board of Directors may deem relevant.

### Operating Activities

Cash provided by operating activities decreased \$12.4 million to \$4.0 million in the first three months of 2014 compared to \$16.4 million in the first three months of 2013. The decrease in operating cash flows was primarily the result of increases in working capital used to support the growth of our results of operations.

### Investing Activities

Our net purchases of property, plant and equipment were \$3.1 million in the first three months of 2014 compared to \$4.1 million in the first three months of 2013. The decreases in capital expenditure spending for the first three months of 2014 compared to the same period in 2013 were primarily associated with a reduction in capital spending in our aluminum business of the Assembly Components segment as the programs initiated in 2013 were completed and capital spending has declined.

### Financing Activities

Cash provided by financing activities of \$2.4 million in the first three months of 2014 primarily consisted of net borrowings on debt instruments.

## Table of Contents

Cash used by financing activities of \$4.7 million in the first three months of 2013 primarily consisted of net repayments on debt instruments.

We do not have off-balance sheet arrangements, financing or other relationships with unconsolidated entities or other persons. There are occasions whereupon we enter into forward contracts on foreign currencies, purely for the purpose of hedging exposure to changes in the value of accounts receivable in those currencies against the U.S. dollar. At March 31, 2014, none were outstanding. We currently have no other derivative instruments.

## Seasonality; Variability of Operating Results

The timing of orders placed by our customers has varied with, among other factors, orders for customers' finished goods, customer production schedules, competitive conditions and general economic conditions. The variability of the level and timing of orders has, from time to time, resulted in significant periodic and quarterly fluctuations in the operations of our business units. Such variability is particularly evident at the capital equipment business unit, included in the Engineered Products segment, which typically ships a few large systems per year.

## Critical Accounting Policies

Our critical accounting policies are described in Item 7. Management's Discussion and Analysis of Financial Condition and Results of Operations, and in the notes to our Consolidated Financial Statements for the year ended December 31, 2013 contained in our 2013 Annual Report on Form 10-K. There were no new accounting policies or updates to existing accounting policies as a result of new accounting pronouncements discussed in the notes to our condensed consolidated financial statements in this Quarterly Report on Form 10-Q. The application of our critical accounting policies may require management to make judgments and estimates about the amounts reflected in the Condensed Consolidated Financial Statements. Management uses historical experience and all available information to make these estimates and judgments, and different amounts could be reported using different assumptions and estimates.

## Forward-Looking Statements

This Quarterly Report on Form 10-Q contains certain statements that are "forward-looking statements" within the meaning of Section 27A of the Securities Act and Section 21E of the Exchange Act. The words "believes", "anticipates", "plans", "expects", "intends", "estimates" and similar expressions are intended to identify forward-looking statements.

These forward-looking statements involve known and unknown risks, uncertainties and other factors that may cause our actual results, performance and achievements, or industry results, to be materially different from any future results, performance or achievements expressed or implied by such forward-looking statements. These factors include, but are not limited to the following: our substantial indebtedness; the uncertainty of the global economic environment; general business conditions and competitive factors, including pricing pressures and product innovation; demand for our products and services; raw material availability and pricing; fluctuations in energy costs; component part availability and pricing; changes in our relationships with customers and suppliers; the financial condition of our customers, including the impact of any bankruptcies; our ability to successfully integrate recent and future acquisitions into existing operations; the amounts and timing, if any, of purchases of our common stock; changes in general domestic economic conditions such as inflation rates, interest rates, tax rates, unemployment rates, higher labor and healthcare costs, recessions and changing government policies, laws and regulations, including the uncertainties related to the current global financial crises; adverse impacts to us, our suppliers and customers from acts of terrorism or hostilities; our ability to meet various covenants, including financial covenants, contained in the agreements governing our indebtedness; disruptions, uncertainties or volatility in the credit markets that may limit our access to capital; potential disruption due to a partial or complete reconfiguration of the European Union; increasingly stringent domestic and foreign governmental regulations, including those affecting the environment; inherent

uncertainties involved in assessing our potential liability for environmental remediation-related activities; the outcome of pending and future litigation and other claims and disputes with customers; the outcome of the investigation being conducted by the special committee of our Board of Directors; our dependence on the automotive and heavy-duty truck industries, which are highly cyclical; the dependence of the automotive industry on consumer spending, which could be lower due to the effects of the recent financial crises; our ability to continue to pay cash dividends; our ability to negotiate contracts with labor unions; our dependence on key management; our

dependence on information systems; and the other factors we describe under the “Item 1A. Risk Factors” included in the Company’s annual report on Form 10-K for the year ended December 31, 2013. Any forward-looking statement speaks only as of the date on which such statement is made, and we undertake no obligation to update any forward-looking statement, whether as a result of new information, future events or otherwise, except as required by law. In light of these and other uncertainties, the inclusion of a forward-looking statement herein should not be regarded as a representation by us that our plans and objectives will be achieved.

Item 3. Quantitative and Qualitative Disclosure About Market Risk

We are exposed to market risk, including changes in interest rates. We are subject to interest rate risk on borrowings under the floating rate revolving credit facility and term loan provided by our Credit Agreement, which consisted of borrowings of \$132.3 million at March 31, 2014. A 100-basis-point increase in the interest rate would have resulted in an increase in interest expense of approximately \$0.3 million during the three-month period ended March 31, 2014.

Our foreign subsidiaries generally conduct business in local currencies. During the first three months of 2014, we recorded a favorable foreign currency translation adjustment of \$0.4 million related to net assets located outside the United States. This foreign currency translation adjustment resulted primarily from the strengthening of the U.S. dollar. Our foreign operations are also subject to other customary risks of operating in a global environment, such as unstable political situations, the effect of local laws and taxes, tariff increases and regulations and requirements for export licenses, the potential imposition of trade or foreign exchange restrictions and transportation delays.

The Company periodically enters into forward contracts on foreign currencies, primarily the euro and the British pound sterling, purely for the purpose of hedging exposure to changes in the value of accounts receivable in those currencies against the U.S. dollar. We currently use no other derivative instruments. At March 31, 2014, there were no such currency hedge contracts outstanding.

Item 4. Controls and Procedures

Under the supervision of and with the participation of our management, including our chief executive officer and chief financial officer, we evaluated the effectiveness of the design and operation of our disclosure controls and procedures (as defined in Rules 13a-15(e) and 15(d)-15(e) under the Securities Exchange Act of 1934) as of the end of the period covered by this Quarterly Report.

Based on that evaluation, our chief executive officer and chief financial officer have concluded that, as of the end of the period covered by this Quarterly Report, our disclosure controls and procedures were effective.

There have been no changes in our internal control over financial reporting that occurred during the first three months of 2014 that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

Table of Contents

Part II. Other Information

Item 1. Legal Proceedings

We are subject to various pending and threatened lawsuits in which claims for monetary damages are asserted in the ordinary course of business. While any litigation involves an element of uncertainty, in the opinion of management, liabilities, if any, arising from currently pending or threatened litigation are not expected to have a material adverse effect on our financial condition, liquidity or results of operations.

In addition to the routine lawsuits and asserted claims noted above, we were a party to the lawsuits and legal proceedings described below as of March 31, 2014:

We were a co-defendant in approximately 273 cases asserting claims on behalf of approximately 618 plaintiffs alleging personal injury as a result of exposure to asbestos. These asbestos cases generally relate to production and sale of asbestos-containing products and allege various theories of liability, including negligence, gross negligence and strict liability, and seek compensatory and, in some cases, punitive damages.

In every asbestos case in which we are named as a party, the complaints are filed against multiple named defendants. In substantially all of the asbestos cases, the plaintiffs either claim damages in excess of a specified amount, typically a minimum amount sufficient to establish jurisdiction of the court in which the case was filed (jurisdictional minimums generally range from \$25,000 to \$75,000), or do not specify the monetary damages sought. To the extent that any specific amount of damages is sought, the amount applies to claims against all named defendants.

There are only eight asbestos cases, involving 27 plaintiffs, that plead specified damages. In each of the eight cases, the plaintiff is seeking compensatory and punitive damages based on a variety of potentially alternative causes of action. In three cases, the plaintiff has alleged compensatory damages in the amount of \$3.0 million for four separate causes of action and \$1.0 million for another cause of action and punitive damages in the amount of \$10.0 million. In the fourth case, the plaintiff has alleged against each named defendant, compensatory and punitive damages, each in the amount of \$10.0 million, for seven separate causes of action. In the fifth case, the plaintiff has alleged compensatory damages in the amount of \$20.0 million for three separate causes of action and \$5.0 million for another cause of action and punitive damages in the amount of \$20.0 million. In the sixth case, plaintiffs have alleged compensatory and punitive damages in the amount of \$10.0 million for each of the five counts and on count of \$5.0 million for the sixth count. In the remaining two cases, the plaintiffs have each alleged against each named defendant, compensatory and punitive damages, each in the amount of \$50.0 million, for four separate causes of action.

Historically, we have been dismissed from asbestos cases on the basis that the plaintiff incorrectly sued one of our subsidiaries or because the plaintiff failed to identify any asbestos-containing product manufactured or sold by us or our subsidiaries. We intend to vigorously defend these asbestos cases, and believe we will continue to be successful in being dismissed from such cases. However, it is not possible to predict the ultimate outcome of asbestos-related lawsuits, claims and proceedings due to the unpredictable nature of personal injury litigation. Despite this uncertainty, and although our results of operations and cash flows for a particular period could be adversely affected by asbestos-related lawsuits, claims and proceedings, management believes that the ultimate resolution of these matters will not have a material adverse effect on our financial condition, liquidity or results of operations. Among the factors management considered in reaching this conclusion were: (a) our historical success in being dismissed from these types of lawsuits on the bases mentioned above; (b) many cases have been improperly filed against one of our subsidiaries; (c) in many cases the plaintiffs have been unable to establish any causal relationship to us or our products or premises; (d) in many cases, the plaintiffs have been unable to demonstrate that they have suffered any identifiable injury or compensable loss at all or that any injuries that they have incurred did in fact result from alleged exposure to asbestos; and (e) the complaints assert claims against multiple defendants and, in most cases, the damages alleged are

not attributed to individual defendants. Additionally, we do not believe that the amounts claimed in any of the asbestos cases are meaningful indicators of our potential exposure because the amounts claimed typically bear no relation to the extent of the plaintiff's injury, if any.

Table of Contents

Our cost of defending these lawsuits has not been material to date and, based upon available information, our management does not expect its future costs for asbestos-related lawsuits to have a material adverse effect on our results of operations, liquidity or financial position.

ATM was the defendant in a lawsuit in the United States District Court for the Eastern District of Arkansas. The plaintiff is IPSCO Tubulars Inc. d/b/a TMK IPSCO. The complaint alleged claims for breach of contract, gross negligence and constructive fraud, and TMK IPSCO sought approximately \$6.0 million in direct and \$4.0 million in consequential damages as well as an unspecified amount of punitive damages. ATM denies the allegations against it, believes it has a number of meritorious defenses and vigorously defended the lawsuit. A motion for partial summary judgment filed by ATM that, among other things, denied the plaintiff's fraud claims was granted by the district court. The remaining claims were the subject of a bench trial in May 2013. At the close of TMK IPSCO's case, the court entered partial judgment in favor of ATM, dismissing the gross negligence claim, dismissing a portion of the breach of contract claim, and dismissing any claim for punitive damages. The trial proceeded with respect to the remainder of TMK IPSCO's claim for damages and, in September 2013, the district court awarded TMK IPSCO damages of approximately \$5.2 million. ATM is appealing the court's decision. TMK IPSCO is also appealing the decision and, additionally, it has asked for \$3.8 million in attorney's fees.

In August 2013, the Company received a subpoena from the staff of the SEC in connection with the staff's investigation of a third party. At that time, the Company also learned that the Department of Justice ("DOJ") is conducting a criminal investigation of the third party. In connection with responding to the staff's subpoena, the Company disclosed to the staff of the SEC that, in November 2007, the third party participated in a payment on behalf of the Company to a foreign tax official that implicates the Foreign Corrupt Practices Act.

The Board of Directors of the Company has formed a special committee to review the Company's transactions with the third party and to make any recommendations to the Board of Directors with respect thereto.

The Company intends to cooperate fully with the SEC and the DOJ in connection with their investigations of the third party and with the SEC in light of the Company's disclosure. The Company is unable to predict the outcome or impact of the special committee's investigation or the length, scope or results of the SEC's review or the impact on its results of operations.

Item 1A. Risk Factors

There have been no material changes in the risk factors previously disclosed in the Company's Annual Report on Form 10-K for the fiscal year ended December 31, 2013.

Table of Contents

## Item 2. Unregistered Sales of Equity Securities and Use of Proceeds

Set forth below is information regarding our repurchases of our common stock during the three months ended March 31, 2014.

Period	Total Number of Shares Purchased	Average Price Paid Per Share	Total Number of Shares Purchased as Part of Publicly Announced Plans (1)	Maximum Number of Shares That May Yet Be Purchased Under the Plans or Program (1)
January 1 — January 31, 2014	—	\$—	—	988,334
February 1 — February 28, 2014	14,658	(2) 52.64	—	988,334
March 1 — March 31, 2014	—	—	—	988,334
Total	14,658	\$52.64	—	988,334

(1) On March 4, 2013, we announced a share repurchase program whereby we may repurchase up to 1.0 million shares of our outstanding common stock.

(2) Consists of 14,658 shares of common stock we acquired from recipients of restricted stock awards at the time of vesting of such awards in order to settle recipient minimum withholding tax liabilities.

## Item 6. Exhibits

The following exhibits are included herein:

31.1 Principal Executive Officer's Certification Pursuant to Section 302 of the Sarbanes-Oxley Act of 2002

31.2 Principal Financial Officer's Certification Pursuant to Section 302 of the Sarbanes-Oxley Act of 2002
