

SOTHEBYS
Form 10-Q
November 08, 2012

UNITED STATES
SECURITIES AND EXCHANGE COMMISSION
WASHINGTON, D.C. 20549

FORM 10-Q

QUARTERLY REPORT PURSUANT TO SECTION 13 OR 15(d) OF
THE SECURITIES EXCHANGE ACT OF 1934

For the Quarterly Period Ended September 30, 2012
Commission File Number 1-9750
(Exact name of registrant as specified in its charter)

Delaware 38-2478409
(State or other jurisdiction of (I.R.S. Employer
incorporation or organization) Identification No.)

1334 York Avenue 10021
New York, New York (Zip Code)
(Address of principal executive offices)
Registrant's telephone number, including area code: (212) 606-7000

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days. Yes No

Indicate by check mark whether the registrant has submitted electronically and posted on its corporate Web site, if any, every Interactive Data File required to be submitted and posted pursuant to Rule 405 of the Regulation S-T (§232.405 of this chapter) during the preceding 12 months (or for such shorter period that the registrant was required to submit and post such files). Yes No

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, or a smaller reporting company. See the definitions of "large accelerated filer," "accelerated filer" and "smaller reporting company" in Rule 12b-2 of the Exchange Act.

Large accelerated filer Accelerated filer
Non-accelerated filer (Do not check if a smaller reporting company) Smaller reporting company

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Act). Yes No

As of October 31, 2012, there were 67,778,305 outstanding shares of Common Stock, par value \$0.01 per share, of the registrant.

SOTHEBY'S
NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS
(UNAUDITED)

1. Basis of Presentation

The Condensed Consolidated Financial Statements included herein have been prepared by Sotheby's pursuant to the rules and regulations of the Securities and Exchange Commission (the "SEC"). Certain information and footnote disclosures normally included in financial statements prepared in accordance with generally accepted accounting principles ("GAAP") in the United States of America (the "U.S.") have been condensed or omitted from this report, as is permitted by such rules and regulations; however, management of Sotheby's believes that the disclosures herein are adequate to make the information presented not misleading and that all adjustments necessary for a fair statement of results are reflected in the interim periods presented. It is suggested that these Condensed Consolidated Financial Statements be read in conjunction with the financial statements and notes thereto included in Sotheby's 2011 Annual Report on Form 10-K.

2. Seasonality of Business

The worldwide art auction market has two principal selling seasons, which generally occur in the second and fourth quarters of the year. Accordingly, Sotheby's auction business is seasonal, with peak revenues and operating income generally occurring in those quarters. Consequently, first and third quarter results have historically reflected a lower volume of auction activity when compared to the second and fourth quarters and, typically, a net loss due to the fixed nature of many of Sotheby's operating expenses.

3. (Loss) Earnings Per Share

Basic (loss) earnings per share—Basic (loss) earnings per share attributable to Sotheby's common shareholders is computed under the two-class method using the weighted average number of common shares outstanding during the period. The two-class method requires that the amount of net income attributable to participating securities be deducted from consolidated net income in the computation of basic earnings per share. In periods with a net loss, the net loss attributable to participating securities is not deducted from consolidated net loss in the computation of basic loss per share as the impact would be anti-dilutive. Sotheby's only participating securities are unvested restricted stock units, which have non-forfeitable rights to dividends.

Diluted (loss) earnings per share—Diluted (loss) earnings per share attributable to Sotheby's common shareholders is computed in a similar manner to basic (loss) earnings per share under the two-class method, using the weighted average number of common shares outstanding during the period and, if dilutive, potential common shares outstanding during the period. Sotheby's potential common shares include the following:

Unvested performance share units held by employees and incremental common shares issuable upon the exercise of employee stock options. Unvested performance share units are included in the computation of diluted (loss) earnings per share if the profitability targets inherent in such awards are achieved as of the balance sheet date. Incremental common shares issuable upon the exercise of employee stock options are included in the computation of diluted (loss) earnings per share in quarterly periods when the average price of Sotheby's common stock exceeds the exercise price of the stock options. (See Note 10 for detailed information related to Sotheby's share-based compensation programs.)

Deferred stock units issued pursuant to the Sotheby's Stock Compensation Plan for Non-Employee Directors.

In reporting periods during which the average price of Sotheby's common stock exceeds the \$34 per share conversion price of its 3.125% Convertible Notes (the "Convertible Notes"), the net shares that would be delivered to settle the conversion premium assuming all of the Convertible Notes are redeemed. (See Note 6 for detailed information related to the Convertible Notes.)

In reporting periods during which the average price of Sotheby's common stock exceeds the \$44.90 per share exercise price of the warrants that were sold in conjunction with the issuance of the Convertible Notes (the "Warrants"), the net

shares that would be delivered to settle the Warrants. (See Note 6 for detailed information related to the Warrants.)

7#

For the three months ended September 30, 2012 and 2011, 2.3 million and 2.5 million potential common shares, respectively, related to share-based payments were excluded from the computation of diluted loss per share because Sotheby's reported a net loss for the period, and, therefore, their inclusion in the computation would be anti-dilutive. For the nine months ended September 30, 2012 and 2011, 1.1 million and 0.6 million potential common shares, respectively, related to unvested performance share units were excluded from the computation of diluted earnings per share as the profitability targets inherent in such awards were not achieved as of the balance sheet dates.

The table below summarizes the computation of basic and diluted (loss) earnings per share for the three and nine months ended September 30, 2012 and 2011 (in thousands of dollars, except per share amounts):

	Three Months Ended September 30,		Nine Months Ended September 30,

Diluted (loss) earnings per share - Sotheby's common shareholders	\$(0.48) \$(0.44) \$0.61	\$1.43

4. Segment Reporting

Sotheby's operations are organized under three segments—Auction, Finance and Dealer. The table below presents Sotheby's revenues and (loss) income before taxes by segment for the three and nine months ended September 30, 2012 and 2011 (in thousands of dollars):

Three Months Ended September 30, 2012	Auction	Finance	Dealer	All Other	Reconciling items	Total
Revenues	\$59,711	\$6,414	\$1,815	\$2,363	\$(1,842)	\$68,461
Segment (loss) income before taxes	\$(50,518)	\$4,841	\$(2,567)	\$1,852	\$(31)	\$(46,423)
Three Months Ended September 30, 2011						
Revenues	\$52,916	\$3,507	\$591	\$1,780	\$(584)	\$58,210
Segment (loss) income before taxes	\$(51,399)	\$752	\$(7,006)	\$1,238	\$(1,485)	\$(57,900)
Nine Months Ended September 30, 2012						
Revenues	\$447,272	\$17,942	\$11,887	\$5,483	\$(5,215)	\$477,369
Segment income (loss) before taxes	\$50,401	\$13,510	\$(4,933)	\$3,955	\$(352)	\$62,581
Nine Months Ended September 30, 2011						
Revenues	\$516,841	\$12,193	\$16,848	\$4,876	\$(3,171)	\$547,587
Segment income (loss) before taxes	\$120,424	\$9,075	\$(7,979)	\$3,601	\$(1,582)	\$123,539

For the three and nine months ended September 30, 2011, Finance segment income before taxes includes a \$1.7 million non-operating loss and a \$0.8 million non-operating gain, respectively, related to the remeasurement of foreign currency denominated client loans and intercompany balances.

The reconciling item related to Revenues represents charges from the Finance segment to the Auction segment for interest-free or other below market consignee advances with maturities typically ranging between 3 and 6 months (see Note 5). For the three and nine months ended September 30, 2011, the reconciling item related to segment (loss) income before taxes is almost entirely attributable to a \$1.5 million loss recorded in the third quarter of 2011 to write-off a portion of the unamortized discount and deferred transaction costs related to Convertible Note redemptions in the period. In addition, for the three and nine months ended September 30, 2012 and 2011, the table above reflects immaterial reconciling items related to segment (loss) income before taxes representing Sotheby's pre-tax share of (earnings) losses associated with its equity investees. Such (earnings) losses are included in the table above in the results of the Dealer segment, but are presented net of taxes in the Condensed Consolidated Statements of Operations. Sotheby's Dealer segment principally includes the activities of Noortman Master Paintings ("NMP"), a wholly-owned art dealer. In the third quarter of 2011, following the fifth anniversary of the acquisition of NMP and the expiration of the related financial performance targets (see Note 10), management initiated a plan to restructure NMP's business and sales strategy. As a result of the restructuring of its business and sales strategy, NMP has reduced its inventory of lower valued Old Master Paintings and shifted its focus to a select group of high-valued works of art. In furtherance of this strategy and due in part to a lower level of profitable sales, in the third quarter of 2012, management closed NMP's Amsterdam office and consolidated its operations into NMP's London office. These actions have resulted in total exit costs of \$1.3 million recognized in 2012, with employee severance charges of \$0.5 million recorded in the second quarter of 2012 and lease termination costs of \$0.8 million recorded in the third quarter of 2012. Despite the charges recorded in 2012, Dealer results for the three and nine months ended September 30, 2012 reflect an improvement from the same periods in the prior year primarily due to a significantly lower level of inventory writedowns, which totaled \$5.7 million and \$8.3 million, respectively, in the prior year three and nine month periods. The prior year writedowns were the result of the previously discussed shift in NMP's selling strategy, as well as a general weakening of the private dealer market for certain categories of lower valued Old Master Paintings and a shift in the collecting tastes of NMP's clients. By comparison, Dealer inventory writedowns for the three and nine months ended September 30, 2012, totaled \$1.5 million and \$1.9 million, respectively.

9#

The table below presents Sotheby's assets by segment, as well as a reconciliation of segment assets to consolidated assets as of September 30, 2012, December 31, 2011 and September 30, 2011 (in thousands of dollars):

	September 30, 2012	December 31, 2011	September 30, 2011

Consolidated assets	\$2,243,488	\$2,399,414	\$1,919,764

5. Receivables

Accounts Receivable, Net—Sotheby's Auction segment functions principally as an agent by offering works of art for sale at auction and by brokering private art sales. In its role as agent, Sotheby's represents sellers of artworks by accepting property on consignment and by matching sellers to buyers through the auction or private sale process. Sotheby's invoices the buyer for the purchase price of the property (including the commission owed by the buyer), collects payment from the buyer and remits to the seller the net sale proceeds after deducting its commissions, expenses and applicable taxes and royalties. Sotheby's auction commissions include those paid by the buyer ("buyer's premium") and those paid by the seller ("seller's commission") (collectively, "auction commission revenue"), both of which are calculated as a percentage of the hammer price of the property sold at auction.

Under Sotheby's standard auction payment terms, payments from the buyer are due no more than 30 days from the sale date and payment to the consignor is due 35 days from the sale date. For private sales, payment from the buyer is typically due on the sale date with the net sale proceeds being due to the consignor shortly thereafter. Extended payment terms are sometimes provided to a buyer in order to support and market a sale. Such terms typically extend the payment due date to a date that is no longer than one year from the sale date. In certain instances, the payment terms may be extended to a date that is beyond one year from the sale date. Any changes from the standard auction and private sale payment terms are subject to approval under Sotheby's policy. When providing extended payment terms, Sotheby's attempts to match the timing of cash receipt from the buyer with the timing of payment to the consignor, but is not always successful in doing so. As of September 30, 2012, \$37.8 million of Accounts Receivable (net) (of which \$32.8 million is related to one buyer) and \$31.4 million of Due to Consignors were classified within Other Long-Term Assets and Other Long-Term Liabilities, respectively, based on their corresponding payment due dates. None of the property related to these receivables has been released to the buyer, and Sotheby's was able to match the consignor payment terms with the due dates for the \$32.8 million receivable that is related to one buyer. Under the standard terms and conditions of its auction and private sales, Sotheby's is not obligated to pay consignors for property that has not been paid for by buyers. However, in certain instances and subject to approval under Sotheby's policy, the consignor may be paid the net sale proceeds before payment is collected from the buyer and/or the buyer may be allowed to take possession of the property before making payment. As of September 30, 2012, Accounts Receivable (net) includes \$136 million related to situations when Sotheby's has paid the consignor before payment was collected from the buyer. As of September 30, 2012, Accounts Receivable (net) also includes \$35 million related to situations when the buyer has taken possession of the property before making payment to Sotheby's. As of September 30, 2012, \$56.1 million, or 13%, of Accounts Receivable (net) was due from one buyer. None of the property related to this receivable balance has been released to the buyer, but the related net sale proceeds have been paid to the consignors.

Notes Receivable, Net—As of September 30, 2012, December 31, 2011 and September 30, 2011, Notes Receivable (net) consisted of the following (in thousands of dollars):

	September 30, 2012	December 31, 2011	September 30, 2011
Finance segment:			
Secured loans	\$403,150	\$223,029	\$223,228
Auction segment:			
Consignor advances	25,000	7,512	10,000
Unsecured loan	2,142	2,142	2,142
Dealer segment:			
Secured loans	7,790	—	—
Total notes receivable, net	\$438,082	\$232,683	\$235,370

Notes Receivable (Finance Segment)—Through its Finance segment, Sotheby's provides certain collectors and art dealers with financing secured by works of art that Sotheby's either has in its possession or permits borrowers to possess. The Finance segment generally makes two types of secured loans: (1) advances secured by consigned property to borrowers who are contractually committed, in the near term, to sell the property at auction (a "consignor advance"); and (2) general purpose term loans secured by property not presently intended for sale (a "term loan"). A consignor advance allows a seller to receive funds upon consignment for an auction that will typically occur up to one year in the future, while preserving for the benefit of the seller the potential of the auction process. Term loans allow Sotheby's to establish or enhance mutually beneficial relationships with borrowers and may generate future auction consignments.

In certain situations, loans are also made to refinance clients' auction and private sale purchases. For the nine months ended September 30, 2012 and 2011, Sotheby's advanced \$65 million and \$34.3 million, respectively, of such loans. These loans are accounted for as non-cash transfers between Accounts Receivable (net) and Notes Receivable (net) and are, therefore, not reflected within investing activities in the statement of cash flows. Upon repayment, the cash received in settlement of such loans is classified within operating activities in the statement of cash flows. As of September 30, 2012, December 31, 2011 and September 30, 2011, Notes Receivable (net) included \$82.1 million, \$36.7 million and \$34.3 million, respectively, of such loans.

The collection of secured loans can be adversely impacted by a decline in the art market in general or in the value of the particular collateral. In addition, in situations when there are competing claims on the collateral and/or when a borrower becomes subject to bankruptcy or insolvency laws, Sotheby's ability to realize on its collateral may be delayed or limited.

The target loan-to-value ("LTV") ratio, which is defined as principal loan amount divided by the low auction estimate of the collateral, is 50% or lower. However, loans are also made at an initial LTV ratio higher than 50%. In addition, as a result of the periodic revaluation of loan collateral, the LTV ratio of certain loans may increase above the 50% target due to decreases in the low auction estimates of the collateral. The revaluation of loan collateral is performed by Sotheby's specialists on an annual basis or more frequently if there is a material change in circumstances related to the loan or the disposal plans for the collateral.

Management believes that the LTV ratio is the critical credit quality indicator for Finance segment secured loans. The table below provides information regarding the LTV ratio of Finance segment secured loans as of September 30, 2012, December 31, 2011 and September 30, 2011 (in thousands of dollars):

	September 30, 2012	December 31, 2011	September 30, 2011
Aggregate LTV ratio of Finance segment secured loans	48%	42%	44%
Finance segment secured loans with an LTV above 50%	\$250,688	\$134,300	\$116,040
Low auction estimate of collateral related to Finance segment secured loans with an LTV above 50%	\$423,863	\$225,200	\$200,067

From January 1, 2011 through September 30, 2012, Sotheby's recognized \$0.1 million of cumulative losses related to specific impaired Finance segment secured loans. The table below provides other credit quality information regarding Finance segment secured loans as of September 30, 2012, December 31, 2011 and September 30, 2011 (in thousands of dollars):

	September 30, 2012	December 31, 2011	September 30, 2011
Total secured loans	\$403,150	\$223,029	\$223,228
Loans past due	\$41,286	\$5,388	\$19,942
Loans more than 90 days past due	\$6,149	\$1,287	\$14,323
Non-accrual loans	\$—	\$—	\$—
Impaired loans	\$—	\$—	\$—
Allowance for credit losses:			
Allowance for credit losses - impaired loans	\$—	\$—	\$—
Allowance for credit losses based on historical data	1,149	875	874
Total allowance for credit losses - secured loans	\$1,149	\$875	\$874

Management considers a loan to be past due when principal payments are not paid in accordance with the stated terms of the loan. As of September 30, 2012, \$41.3 million of the Notes Receivable (net) balance was considered to be past due, of which \$6.1 million was more than 90 days past due. Management is continuing to accrue Finance Revenue on these past due loans. The collateral securing these loans has low auction estimates of approximately \$81.1 million and \$19.9 million, respectively. In consideration of the value of collateral securing these past due loans, current collateral disposal plans and negotiations with the borrowers, management believes that the principal and interest amounts due for these loans will be collected.

A non-accrual loan is a loan for which future Finance Revenue is not recorded due to management's determination that it is probable that future interest on the loan is not collectible. Any cash receipts subsequently received on non-accrual loans are first applied to reduce the recorded principal balance of the loan, with any proceeds in excess of the principal balance then applied to interest owed by the borrower. The recognition of Finance Revenue may resume on a non-accrual loan if sufficient additional collateral is provided by the borrower or if management becomes aware of other circumstances that indicate that it is probable that the borrower will make future interest payments on the loan. As of September 30, 2012, December 31, 2011 and September 30, 2011, Sothebys Finance segment had no non-accrual loans.

A loan is considered to be impaired when management determines that it is probable that a portion of the principal and interest owed by the borrower will not be recovered. If a loan is considered to be impaired, Finance Revenue is no longer recognized and bad debt expense is recorded for any principal or interest that is deemed uncollectible. As of September 30, 2012, December 31, 2011 and September 30, 2011, Sothebys Finance segment had no impaired loans. During the period January 1, 2011 to September 30, 2012, activity related to the allowance for credit losses was as follows (in thousands of dollars):

Allowance for credit losses as of January 1, 2011	\$971
Change in loan loss provision	41
Write-offs	(137)
Allowance for credit losses at December 31, 2011	875
Change in loan loss provision	274
Allowance for credit losses as of September 30, 2012	\$1,149

Finance segment loans are predominantly variable interest rate loans; however, interest-free advances with maturities typically ranging between three and six months are provided to certain consignors in order to secure high-value property for auction or private sale and can represent a significant portion of the client loan portfolio as of the end of certain quarterly reporting periods in advance of peak selling seasons. The carrying value of the Finance segment loan portfolio approximates its fair value.

As of September 30, 2012, loans to two borrowers totaling \$49.4 million (LTV of 65%) and \$46.3 million (LTV of 53%), respectively, each comprised approximately 11% of the Notes Receivable (net) balance. For the nine months

ended September 30, 2012, Finance segment results include revenue of \$2.8 million (16%) related to these two loans. No other individual loan exceeds 10% of the Notes Receivable (net) balance.

12#

As of September 30, 2012, unfunded commitments to extend additional credit through Sotheby's Finance Segment were \$23.5 million, of which \$0.9 million is committed to an employee of Sotheby's who is not an Executive Officer. As of September 30, 2012, this same employee had an outstanding Finance segment loan of approximately \$0.1 million.

Notes Receivable (Auction Segment)—Sotheby's is obligated under the terms of certain auction guarantees to advance all or a portion of the guaranteed amount prior to auction. Such Auction segment consignor advances are recorded on Sotheby's balance sheet within Notes Receivable (net). As of September 30, 2012, December 31, 2011 and September 30, 2011, auction guarantee advances totaled \$25 million, \$7.5 million and \$10 million, respectively. (See Note 9.)

Under certain circumstances, Sotheby's, through its Auction segment, finances the purchase of works of art by unaffiliated art dealers through unsecured loans. The property purchased pursuant to such unsecured loans is sold privately or at auction with any profit or loss shared by Sotheby's and the art dealer. As of September 30, 2012, December 31, 2011 and September 30, 2011, one such unsecured loan totaled \$2.1 million. Sotheby's is no longer accruing interest with respect to this unsecured loan, but management believes that the \$2.1 million balance is collectible based on discussions with the borrower.

Notes Receivable (Dealer Segment)—Sotheby's Dealer segment provides secured loans to certain art dealers to finance the purchase of works of art. In these situations, the Dealer segment acquires a partial ownership interest in the purchased property. Upon its eventual sale, any profit or loss is shared by Sotheby's and the dealer according to their respective ownership interests. As of September 30, 2012, Notes Receivable (net) included \$7.8 million of such loans. As of December 31, 2011 and September 30, 2011, there were no such loans outstanding.

Weighted Average Interest Rates—For the three months ended September 30, 2012 and 2011, the weighted average interest rates earned on consolidated Notes Receivable (net) were 5.4% and 5.9%, respectively. For the nine months ended September 30, 2012 and 2011, the weighted average interest rates earned on consolidated Notes Receivable (net) were 5.4% and 5.2%, respectively.

6. Debt

Revolving Credit Facility—Sotheby's and certain of its wholly-owned subsidiaries (collectively, the "Borrowers") are party to a credit agreement (the "Credit Agreement") with an international syndicate of lenders led by General Electric Capital Corporation ("GE Capital"). The following summary does not purport to be a complete summary of the Credit Agreement, as amended, and is qualified in its entirety by reference to the Credit Agreement and each of the respective amendments, copies of which were filed as exhibits to previous SEC filings. Terms used, but not defined in this summary, have the meanings set forth in the Credit Agreement and each of the respective amendments.

The Credit Agreement, as amended, provides for a \$200 million revolving credit facility (the "Revolving Credit Facility") and has a feature whereby any time on or before March 1, 2014 the Borrowers may request, subject to Lenders' approval, an increase to the facility by an amount not to exceed \$50 million. The amount of borrowings available under the Revolving Credit Facility is limited by a borrowing base which is determined by a calculation that is primarily based upon the carrying values of Sotheby's loan portfolio and art inventory. In addition, up to \$10 million of the borrowing capacity under the Revolving Credit Facility may be used to issue letters of credit. As of September 30, 2012, there were no Revolving Credit Facility borrowings outstanding and the amount of borrowings available under the Revolving Credit Facility was approximately \$200 million, as calculated under the borrowing base. Sotheby's has not borrowed or issued any letters of credit under the Revolving Credit Facility since its inception on August 31, 2009.

Borrowings under the Revolving Credit Facility are available in either Dollars to U.S. Borrowers or Pounds Sterling to U.K. Borrowers. The U.S. Borrowers and, subject to certain limitations, the U.K. Borrowers, are jointly and severally liable for all obligations under the Credit Agreement, as amended. In addition, certain subsidiaries of the Borrowers guarantee the obligations of the Borrowers under the Credit Agreement, as amended. The obligations under the Credit Agreement, as amended, are secured by liens on all or substantially all of the personal property of the Borrowers and the Guarantors.

The Credit Agreement, as amended, contains certain customary affirmative and negative covenants including, but not limited to, limitations on capital expenditures, limitations on net outstanding auction guarantees (i.e., auction

guarantees less the impact of related risk and reward sharing arrangements) and limitations on the use of proceeds from borrowings under the Credit Agreement, as amended. The Credit Agreement, as amended, also restricts quarterly dividend payments to the lesser of \$0.10 per share or \$8 million. However, the maximum level of quarterly dividend payments may be increased depending upon the achievement of a certain Fixed Charge Coverage Ratio in any period. Management believes that Sotheby's is in compliance with the covenants and terms of the Credit Agreement, as amended.

13#

The Credit Agreement, as amended, also contains certain financial covenants, which are only applicable during certain defined compliance periods. These financial covenants were not applicable for the twelve month period ended September 30, 2012.

The maturity date of the Credit Agreement, as amended, is September 1, 2014, subject to Sotheby's meeting certain liquidity requirements during the period commencing on December 15, 2012 and ending on the date Sotheby's 3.125% Convertible Notes are converted or discharged (see "Convertible Notes" below). Management expects to meet these liquidity requirements throughout this period.

Sotheby's has incurred approximately \$9.9 million in life-to-date fees related to the Credit Agreement, as amended, which are being amortized on a straight-line basis to Interest Expense over the term of the credit facility. Additionally, Sotheby's is charged commitment fees of 0.625% per year for undrawn amounts committed under the Revolving Credit Facility.

Long-Term Debt—As of September 30, 2012, December 31, 2011 and September 30, 2011, Long-Term Debt consisted of the following (in thousands of dollars):

	September 30, 2012	December 31, 2011	September 30, 2011
York Property Mortgage, net of unamortized discount of \$9,802, \$12,475 and \$13,366	\$218,576	\$218,027	\$218,167
2015 Senior Notes, net of unamortized discount of \$639, \$755 and \$791 (to be redeemed on November 25, 2012)	79,332	79,216	79,180
Convertible Notes, net of unamortized discount of \$5,800, \$11,583 and \$13,437	176,068	170,285	168,431
2022 Senior Notes	300,000	—	—
Less current portion:			
York Property Mortgage	(3,391) (2,976) (3,177
2015 Senior Notes	(79,332) —	—
Convertible Notes	(176,068) —	—
Total	\$515,185	\$464,552	\$462,601

(See the captioned sections below for detailed information related to the York Property Mortgage, the 2022 Senior Notes, the 2015 Senior Notes and the Convertible Notes.)

York Property Mortgage—On February 6, 2009, Sotheby's purchased the land and building located at 1334 York Avenue, New York, New York (the "York Property") from RFR Holding Corp. ("RFR") for a purchase price of \$370 million. The York Property is home to Sotheby's sole North American auction salesroom and its principal North American exhibition space, as well as its corporate headquarters.

Sotheby's funded the \$370 million purchase price through an initial \$50 million cash payment made in conjunction with the signing of the related purchase and sale agreement on January 11, 2008, an \$85 million cash payment made when the purchase was consummated on February 6, 2009 and the assumption of an existing \$235 million mortgage on the York Property (the "York Property Mortgage").

The York Property Mortgage matures on July 1, 2035, but has an optional pre-payment date of July 1, 2015 and bears an annual rate of interest of approximately 5.6%, which increases subsequent to July 1, 2015. It is Sotheby's current intention to either pre-pay or refinance the mortgage on or about July 1, 2015, subject to economic and financial market conditions and available cash balances. In conjunction with the final accounting for the York Property purchase in February 2009, the York Property Mortgage was recorded on Sotheby's balance sheet at its \$212.1 million fair value. The resulting \$22.9 million debt discount is being amortized to Interest Expense over the remaining expected term of the loan. Sotheby's paid fees of \$2.4 million in conjunction with the assumption of the York Property Mortgage, which are also being amortized to Interest Expense over the remaining expected term of the loan. The current portion of the York Property Mortgage (\$3.4 million) is recorded in Other Current Liabilities on Sotheby's balance sheet. As of September 30, 2012, the fair value of the York Property Mortgage was approximately \$237 million and is based on a present value calculation utilizing an interest rate obtained from a third party source.

The York Property and the York Property Mortgage are held by 1334 York, LLC, a separate legal entity of Sotheby's that maintains its own books and records and whose results are ultimately consolidated into Sotheby's financial statements. The assets of 1334 York, LLC are not available to satisfy the obligations of other Sotheby's affiliates or any other entity.

14#

2022 Senior Notes—On September 27, 2012, Sotheby's issued \$300 million aggregate principal amount of 5.25% Senior Notes, due October 1, 2022. The 2022 Senior Notes were offered only to qualified institutional buyers in accordance with Rule 144A and to non-U.S. Persons under Regulation S under the Securities Act of 1933, as amended (the "Securities Act"). Holders of the 2022 Senior Notes do not have registration rights, and the 2022 Senior Notes have not been and will not be registered under the Securities Act.

The net proceeds from the issuance of the 2022 Senior Notes were approximately \$294.6 million, after deducting fees paid to the initial purchasers, and will be used to redeem all of the outstanding 2015 Senior Notes (\$80 million) on November 25, 2012 and for general corporate purposes, including the repayment of other existing indebtedness. The 2022 Senior Notes are guaranteed, jointly and severally, on a senior unsecured basis by certain of Sotheby's existing and future domestic subsidiaries to the extent and on the same basis that such subsidiaries guarantee borrowings under the Revolving Credit Facility. Interest on the 2022 Senior Notes is payable semi-annually in cash on April 1 and October 1 of each year.

The 2022 Senior Notes will be redeemable by Sotheby's, in whole or in part, on or after October 1, 2017, at specified redemption prices set forth in the underlying indenture, plus accrued and unpaid interest to, but excluding, the redemption date. Prior to October 1, 2017, the 2022 Senior Notes are redeemable, in whole or in part, at a redemption price equal to 100% of the principal amount to be redeemed, plus accrued and unpaid interest to, but excluding, the redemption date, plus a premium equal to the greater of 1% of the principal amount of the 2022 Senior Notes and a make-whole premium (as defined in the underlying indenture).

In addition, at any time prior to October 1, 2015, Sotheby's may redeem up to 35% of the aggregate principal amount of the 2022 Senior Notes with the net cash proceeds of certain equity offerings at the redemption price of 105.25% plus accrued and unpaid interest.

As of September 30, 2012, the \$300 million principal amount of 2022 Senior Notes had a fair value of approximately \$306.8 million based on a broker quoted price derived via a pricing model using observable and unobservable inputs. As such, this fair value measurement is considered to be a Level 3 fair value measurement in the fair value hierarchy as per Accounting Standards Codification 820, Fair Value Measurements ("ASC 820").

2015 Senior Notes—On June 17, 2008, Sotheby's issued \$150 million aggregate principal amount of 7.75% Senior Notes, due June 15, 2015. The net proceeds from the issuance of the 2015 Senior Notes were approximately \$145.9 million, after deducting the initial purchasers' discounts and fees.

Through September 30, 2012, Sotheby's had repurchased an aggregate principal amount of \$70 million of 2015 Senior Notes for an aggregate purchase price of \$65.3 million. These repurchases have resulted in a life-to-date non-cash net gain of approximately \$2.5 million, net of fees, consisting of a \$7.8 million gain recognized in the fourth quarter of 2008, a \$1 million gain recognized in the first quarter of 2009 and a \$6.3 million loss recognized in the fourth quarter of 2010.

The remaining \$80 million principal amount of the 2015 Senior Notes have been called for redemption on November 25, 2012 (the "Redemption Date"). The redemption price will be 100% of the principal amount plus the greater of (i) 1.0% of the principal amount or (ii) the present value of 100% of the principal amount plus all required remaining scheduled interest due from the Redemption Date through the original June 15, 2015 maturity date, computed using a discount rate equal to the Treasury Rate (as defined in the underlying indenture) plus 0.5%, less the principal amount, plus any accrued and unpaid interest. The estimated redemption price of the 2015 Senior Notes is expected to be approximately \$97 million, which includes a premium of approximately \$14 million and unpaid accrued interest of \$2.7 million. The redemption of the 2015 Senior Notes is expected to result in a loss of approximately \$15 million, including the write-off of approximately \$1 million related to unamortized debt issuance costs and discounts, in the fourth quarter of 2012.

Convertible Notes—On June 17, 2008, Sotheby's issued \$200 million aggregate principal amount of 3.125% Convertible Notes, due June 15, 2013. The net proceeds from the issuance of the Convertible Notes were approximately \$194.3 million, after deducting transaction costs. Each of Sotheby's existing and future domestic subsidiaries have jointly, severally, fully and unconditionally guaranteed the Convertible Notes on a senior unsecured basis to the extent such subsidiaries guarantee borrowings under the Credit Agreement, as amended. Interest on the Convertible Notes is payable semi-annually in cash on June 15 and December 15 of each year. Sotheby's may not redeem the Convertible Notes prior to their stated maturity date. As of September 30, 2012, the \$181.9 million principal amount of Convertible Notes that remain outstanding had a fair value of \$200.7 million based on a broker quoted price derived via a pricing model using observable and unobservable inputs. As such, this fair value measurement is considered to be a Level 3 fair value measurement in the fair value hierarchy as per ASC 820.

Upon conversion, the principal amount of the Convertible Notes is payable in cash, shares of Sotheby's Common Stock, or a combination thereof, at the option of Sotheby's, based on an initial conversion rate of 29.4122 shares of Common Stock per \$1,000 principal amount of Convertible Notes, which is equivalent to a conversion price of approximately \$34 per share (the "Conversion Price"). The maximum number of shares of Common Stock that may be issued upon conversion is approximately 5.3 million shares. The conversion rate for the Convertible Notes is subject to adjustment for certain events.

The Convertible Notes may be converted at any time beginning on March 15, 2013 and ending on the close of business on June 14, 2013. Prior to March 15, 2013, the Convertible Notes may only be converted under certain conditions, including, if during any fiscal quarter (and only during such fiscal quarter), the closing price of Sotheby's Common Stock exceeds \$44.20 per share (i.e., 130% of the Conversion Price) for at least 20 trading days in the period of 30 consecutive trading days at the end of the previous quarter (the "Stock Price Trigger"). Upon conversion, Sotheby's will pay or deliver, as the case may be, cash, shares of Common Stock, or a combination thereof, at its election. It is Sotheby's current intent and policy to settle up to the principal amount of the Convertible Notes in cash. Additionally, depending on the level of available cash and liquidity, as well as the amount of conversion requests received at any one time, Sotheby's may elect to settle the entire conversion obligation (i.e., the principal amount redeemed plus any conversion premium) in cash.

On April 1, 2011, the trustee for the Convertible Notes notified bondholders that the Convertible Notes would be convertible at their option for a period beginning on April 1, 2011 and ending on June 30, 2011 as a result of the closing price of Sotheby's Common Stock exceeding \$44.20 for 20 trading days in the 30 consecutive trading days ending on March 31, 2011.

In June 2011, Sotheby's received conversion requests totaling a principal amount of \$18.1 million from holders of the Convertible Notes. In accordance with the terms of the Convertible Notes, the conversion obligation was based on a formula, which is the sum of 1/30th of the product of the applicable conversion rate and the daily per share volume weighted average stock price for 30 consecutive trading days beginning three days after the conversion request is received from the trustee. The conversion obligation of \$22.5 million related to these conversion requests, which consisted of \$18.1 million related to principal and approximately \$4.4 million related to the conversion premium, was settled entirely in cash in August 2011. In the third quarter of 2011, Sotheby's recognized a \$1.5 million loss representing the write-off of a proportionate amount of the unamortized discount and deferred transaction costs related to the Convertible Notes redeemed.

In August 2011, simultaneous with the settlement of the June 2011 Convertible Note conversion requests, Sotheby's received \$4.4 million in cash to fund the conversion premium through its exercise of a portion of the Convertible Note Hedges (see discussion below).

On January 1, 2009, upon the adoption of ASC 470-20, Debt - Debt With Conversion and Other Options, the liability and equity components of the Convertible Notes were separately accounted for in Sotheby's financial statements. The liability component was initially valued at \$161.8 million using Sotheby's nonconvertible debt borrowing rate, which was estimated to be 7.75% at the date of adoption, and was accounted for as Long-Term Debt. The equity component (i.e., the embedded conversion option) was initially valued at \$38.2 million (\$21 million, net of taxes) and was accounted for as a component of Additional Paid-In Capital within Shareholders' Equity. The corresponding debt discount is being amortized to Interest Expense over the life of the Convertible Notes using the effective interest rate

method. The amount recorded in Shareholders' Equity is not remeasured as long as it continues to meet the conditions for equity classification.

As a result of the cash settlement of the June 2011 conversion requests, \$8.2 million (\$5.4 million, net of taxes) of the amount originally attributed to the embedded conversion option and recorded within Shareholders' Equity no longer met the conditions for equity classification as of June 30, 2011. As a result, this amount was reclassified to Other Current Liabilities in Sotheby's June 30, 2011 balance sheet and was subsequently settled in August 2011.

16#

As of September 30, 2012, the unamortized discount related to the Convertible Notes was \$5.8 million and the carrying value of the embedded conversion option recorded in Shareholders' Equity was \$30 million (\$15.6 million, net of taxes). As of September 30, 2012, management evaluated the remaining embedded conversion option and concluded that it continued to meet the conditions for equity classification. Accordingly, the carrying value of the remaining embedded conversion option was not remeasured as of September 30, 2012 and remains recorded as a component of Additional Paid-In Capital within Shareholders' Equity.

As of September 30, 2012, the entire carrying value of the Convertible Notes (\$176.1 million) was reflected within Current Liabilities on Sotheby's balance sheet because the Convertible Notes are due on June 15, 2013, which is within twelve months of the current balance sheet date. The Stock Price Trigger inherent in the Convertible Notes was not met as of September 30, 2012, December 31, 2011 and September 30, 2011. Accordingly, as of December 31, 2011 and September 30, 2011, the entire carrying value of the Convertible Notes (\$170.3 million and \$168.4 million, respectively) was reflected within Long-Term Debt on Sotheby's balance sheet.

Convertible Note Hedges and Warrant Transactions —On June 11, 2008, in conjunction with the issuance of the Convertible Notes, Sotheby's entered into convertible note hedge transactions (the "Convertible Note Hedges") that allow Sotheby's to purchase its Common Stock from affiliates of Bank of America and Goldman Sachs & Co. (collectively, the "Counterparties") at a price equal to the Conversion Price of the Convertible Notes. The Convertible Note Hedges will cover, subject to customary anti-dilution adjustments, approximately 5.3 million shares of Sotheby's Common Stock. The Convertible Note Hedges may be settled in cash, Sotheby's Common Stock, or a combination thereof, and are intended to offset the impact of any conversion premium upon potential future conversions of the Convertible Notes. In the event that Sotheby's elects to settle the conversion premium related to any Convertible Note redemptions in cash, the Convertible Note Hedges allow Sotheby's to recover this amount in cash. In the event that Sotheby's elects to settle the conversion premium related to any Convertible Note redemptions in shares of its Common Stock, the Convertible Note Hedges offset the dilutive impact of any shares issued. The Convertible Note Hedges expire upon the maturity of the Convertible Notes.

As previously discussed in this footnote, in June 2011, Sotheby's received conversion requests totaling a principal amount of \$18.1 million from holders of the Convertible Notes. As a result, in June 2011, Sotheby's exercised the portion of the Convertible Note Hedges related to these conversion requests, which enabled it to receive \$4.4 million in cash, which was equal to the amount of the conversion premium paid upon settlement of the Convertible Notes in August 2011.

The Convertible Note Hedges initially met the conditions for equity classification and, as a result, in June 2008, the related \$40.6 million cost (\$22.5 million, net of taxes) was recorded on Sotheby's balance sheet as a component of Additional Paid-In Capital within Shareholders' Equity. As a result of the cash settlement of the Convertible Note Hedges exercised in June 2011, \$8.2 million (\$5.3 million, net of taxes) of the amount originally recorded in Shareholders' Equity no longer met the conditions for equity classification as of June 30, 2011. As a result, this amount was reclassified in Sotheby's June 30, 2011 balance sheet to Other Current Assets and was subsequently settled in August 2011.

As of September 30, 2012, the carrying value of the Convertible Note Hedges recorded in Shareholders' Equity was \$32.4 million (\$17.2 million, net of taxes). As of September 30, 2012, management evaluated the remaining Convertible Note Hedges and concluded that they continued to meet the conditions for equity classification.

Accordingly, the carrying value of the remaining Convertible Note Hedges was not remeasured as of September 30, 2012 and remains recorded as a component of Additional Paid-In Capital within Shareholders' Equity.

On June 11, 2008, Sotheby's also entered into warrant transactions, whereby it sold to the Counterparties warrants (the "Warrants") to acquire, subject to customary anti-dilution adjustments, approximately 5.8 million shares of Common Stock at \$44.905 per share that may only be exercised beginning on the June 15, 2013 maturity date of the Convertible Notes. As of June 11, 2008, the Warrants met all of the applicable criteria for equity classification and, as a result, the \$22.3 million in net proceeds received from the sale of the Warrants was recorded on Sotheby's balance sheet within Additional Paid-In Capital in Shareholders' Equity. As of September 30, 2012, management evaluated the Warrants and concluded that they should not be accounted for separately as a derivative financial instrument because they continue to be indexed to Sotheby's Common Stock. Accordingly, the \$22.3 million in net proceeds received from the

sale of the Warrants remains recorded as a component of Additional Paid-In Capital within Shareholders' Equity.

17#

Future Principal and Interest Payments—As of September 30, 2012, the aggregate future principal and interest payments due under the York Property Mortgage, the 2022 Senior Notes, the 2015 Senior Notes, and the Convertible Notes through September 30, 2017 are as follows (in thousands of dollars):

October 2012 to September 2013	\$217,817
October 2013 to September 2014	37,952
October 2014 to September 2015	333,458
October 2015 to September 2016	15,750
October 2016 to September 2017	15,750
Total	\$620,727

As previously discussed in this footnote, the York Property Mortgage matures on July 1, 2035, but has an optional pre-payment date of July 1, 2015 and bears an annual rate of interest of approximately 5.6%, which increases subsequent to July 1, 2015. It is Sotheby's current intention to either pre-pay or refinance the mortgage on or about July 1, 2015, subject to economic and financial market conditions and available cash balances.

Also as previously discussed in this footnote, on November 25, 2012, Sotheby's will redeem the remaining \$80 million aggregate principal amount of 2015 Senior Notes for a redemption price of approximately \$97 million. The table above reflects Sotheby's indebtedness based on terms and conditions as of September 30, 2012 and, accordingly, does not reflect the impact of the redemption of the 2015 Senior Notes in the fourth quarter of 2012.

Interest Expense—For the three and nine months ended September 30, 2012 and 2011, Interest Expense consists of the following (in thousands of dollars):

	Three Months Ended September 30,		Nine Months Ended September 30,	
	2012	2011	2012	2011
Revolving credit facility:				
Amortization of amendment and arrangement fees	\$430	\$430	\$1,289	\$1,311
Commitment fees	316	326	944	948
Sub-total	746	756	2,233	2,259
York Property Mortgage	4,194	4,238	12,586	12,639
2015 Senior Notes and 2022 Senior Notes	1,761	1,586	4,936	4,755
Convertible Notes	3,386	3,402	10,045	10,414
Other interest expense	303	348	882	1,210
Total interest expense	\$10,390	\$10,330	\$30,682	\$31,277

Other interest expense consists primarily of the amortization of debt issuance costs related to the 2015 Senior Notes, the 2022 Senior Notes and the Convertible Notes.

For the three and nine months ended September 30, 2012 and 2011, Interest Expense related to the Convertible Notes consisted of the following (in thousands of dollars):

	Three Months Ended September 30,		Nine Months Ended September 30,	
	2012	2011	2012	2011
Contractual coupon interest expense	\$1,421	\$1,492	\$4,262	\$4,617
Discount amortization	1,965	1,910	5,783	5,797
Total	\$3,386	\$3,402	\$10,045	\$10,414

7. Defined Benefit Pension Plan

Sotheby's sponsors a defined benefit pension plan covering a portion of its U.K. employees (the "U.K. Pension Plan"). For the three and nine months ended September 30, 2012 and 2011, the components of the net pension benefit related to the U.K. Pension Plan are (in thousands of dollars):

	Three Months Ended September 30,		Nine Months Ended September 30,	
	2012	2011	2012	2011
Service cost	\$931	\$1,008	\$2,790	\$3,021
Interest cost	3,275	3,430	9,812	10,280
Expected return on plan assets	(4,887)	(5,838)	(14,639)	(17,498)
Net pension benefit	\$(681)	\$(1,400)	\$(2,037)	\$(4,197)

In 2012, Sotheby's expects to contribute approximately \$4.6 million to the U.K. Pension Plan, of which \$3.8 million was contributed through September 30, 2012.

8. Commitments and Contingencies

Employment Arrangements—As of September 30, 2012, Sotheby's had employment arrangements with certain senior employees, which expire at various points between March 2013 and March 2017. Such arrangements may provide, among other benefits, for minimum salary levels and for incentive compensation that is payable only if specified Company and individual goals are attained. Additionally, certain of these arrangements provide annual share-based payments, the accelerated vesting of certain share-based payments, severance payments, other cash compensation, and the continuation of benefits upon termination of employment under certain circumstances. The aggregate remaining commitment for salaries and other cash compensation related to these employment arrangements, excluding any participation in Sotheby's incentive compensation programs, was approximately \$14.6 million as of September 30, 2012.

Tax Contingencies—Sotheby's is subject to laws and regulations in many countries involving sales, use, value-added and other indirect taxes which are assessed by various governmental authorities and imposed on certain revenue-producing transactions between Sotheby's and its clients. The application of these laws and regulations to Sotheby's unique business and global client base is complex and requires a significant amount of judgment. As of September 30, 2012 and December 31, 2011, the total liability related to such tax contingencies was \$5.2 million and \$4.9 million, respectively, representing Sotheby's estimate of the amounts owed for uncollected sales taxes. The ultimate tax paid in respect to this liability may be higher or lower than the amount accrued.

Legal Actions—Sotheby's becomes involved in various claims and lawsuits incidental to the ordinary course of its business, including the matters described below. Management is required to assess the likelihood of any adverse judgments or outcomes in these matters, as well as potential ranges of probable or reasonably possible losses. A determination of the amount of losses, if any, to be recorded or disclosed as a result of these contingencies is based on a careful analysis of each individual exposure with, in some cases, the assistance of outside legal counsel. The amount of losses recorded or disclosed for such contingencies may change in the future due to new developments in each matter or a change in settlement strategy. Management does not believe that the outcome of any current pending claims or proceedings will have a material adverse effect on Sotheby's consolidated results of operations, financial condition and/or cash flows.

Sotheby's Inc. v. Halsey Minor is an action commenced by a subsidiary of Sotheby's in September 2008 in the U.S. District Court for the Southern District of New York, seeking to collect amounts due for three paintings that Mr. Minor purchased in auctions conducted by Sotheby's in the spring of 2008. Mr. Minor filed a counterclaim in that action.

During the course of the litigation, Sotheby's reoffered and sold the three paintings initially purchased by Mr. Minor in the spring of 2008 for \$9.5 million, thereby reducing the amounts due from him. In March 2010, the court granted Sotheby's motions for summary judgment, denied Mr. Minor's motion for partial summary judgment and entered a judgment in Sotheby's favor in the amount of \$6.6 million, which was collected by Sotheby's in the second quarter of 2010. This judgment included \$4.4 million for the shortfall resulting from the resale of the three paintings when compared to the original purchase prices and \$2.2 million in interest and late charges owed to Sotheby's. The judgment also included an award of attorney's fees, in an amount that the court later determined to be \$2.5 million. In April 2010, Mr. Minor filed a notice of appeal of the court's order and judgment. In January 2011, Sotheby's entered into an agreement with the California Franchise Tax Board (the "CFTB") that provides for the release by the CFTB of potential claims it might have had to the \$6.6 million that Sotheby's had collected from Mr. Minor. In February 2011, Mr. Minor and Sotheby's entered into a settlement agreement pursuant to which Mr. Minor dismissed his pending appeal and agreed to pay Sotheby's an additional \$2.5 million in exchange for a release by Sotheby's of the uncollected \$2.5 million judgment that it has against him and any claim for additional attorney's fees. As a result of the agreement with the CFTB in January 2011 and the February 2011 settlement with Mr. Minor, Sotheby's recognized a benefit of \$3 million in its statement of operations in the first quarter of 2011. This benefit relates to interest earned on Mr. Minor's overdue balance (\$2.2 million), compensation for lost auction commissions (\$0.4 million) and the partial reimbursement of legal fees (\$0.4 million).

As of September 30, 2012, approximately \$0.4 million of the \$2.5 million settlement amount that was agreed to in February 2011 was paid by Mr. Minor and has been recognized in Sotheby's financial statements. It is uncertain how much of the remaining \$2.1 million owed under the settlement will be paid and, as a result, this amount has not been recognized in Sotheby's financial statements. Sotheby's is not currently aware of any other asserted claims against Mr. Minor that could compromise or adversely impact its position in any of the judgments discussed above.

Estate of Robert Graham, et al. v. Sotheby's, Inc. is a purported class action commenced in the U.S. District Court for the Central District of California in October 2011 on behalf of U.S. artists (and their estates) whose artworks were sold by Sotheby's in the State of California or at auction by California sellers and for which a royalty was allegedly due under the California Resale Royalties Act (the "Resale Royalties Act"). Plaintiffs seek unspecified damages, punitive damages and injunctive relief for alleged violations of the Resale Royalties Act and the California Unfair Competition Law. In January 2012, Sotheby's filed a motion to dismiss the action on the grounds, among others, that the Resale Royalties Act violates the U.S. Constitution and is preempted by the U.S. Copyright Act of 1976. In February 2012, the plaintiffs filed their response to Sotheby's motion to dismiss. The court heard oral arguments on the motion to dismiss on March 12, 2012. On May 17, 2012, the court issued an order dismissing the action on the ground that the Resale Royalties Act violated the Commerce Clause of the U.S. Constitution. The plaintiffs have appealed this ruling. It is currently not possible to make an estimate of the amount or range of loss that could result from an unfavorable outcome of this matter. Sotheby's believes that there are meritorious defenses to the appeal.

Guarantee of Collection—A guarantee of collection is a guarantee to the consignor that, under certain conditions, Sotheby's will pay the consignor for property which has sold at auction but has not been paid for, within a certain amount of time, by the purchaser. It is not a guarantee that the property will be sold at a certain minimum price.

As of September 30, 2012, Sotheby's has guaranteed to a consignor the collection of up to approximately \$40 million in potential sales proceeds related to property that will be offered at auctions scheduled for the fourth quarter of 2012 and first quarter of 2013. The aggregate presale estimates of the property related to this guarantee of collection are \$33 million to \$47 million. In the event a purchaser defaults on any item which sold for an amount equal to or less than its mid-estimate, by the ninetieth day from the date of the auction, the consignor could elect for Sotheby's to pay the net sale proceeds to the consignor, but Sotheby's would then take title to the property and have the right to pursue the defaulting buyer and/or reoffer the property at a future sale. The guarantee of collection does not apply to any item sold for more than its mid-estimate. Alternatively, if a purchaser defaults, the consignor may elect to cancel the sale

and repossess the property. If any of the property under this guarantee of collection fails to meet its reserve price and as a result, does not sell at the auction, or if the consignor elects to cancel a sale due to buyer default, Sotheby's has no obligation to pay the consignor for those items. As of September 30, 2012, the carrying value of the liability representing the estimated fair value of Sotheby's obligation to perform under this guarantee of collection was not material.

(See Notes 9 and 11 for information on other contingencies. See Notes 5, 6 and 7 for information on other commitments.)

20#

9. Auction Guarantees

From time to time in the ordinary course of its business, Sotheby's will guarantee to consignors a minimum sale price in connection with the sale of property at auction (an "auction guarantee"). In the event that the property sells for less than the guaranteed price, Sotheby's must perform under the auction guarantee by funding the difference between the sale price at auction and the amount of the auction guarantee. Sotheby's is generally entitled to a share of the excess proceeds (the "overage") if the property under the auction guarantee sells above the guaranteed price. If the property does not sell, the amount of the auction guarantee must be paid, but Sotheby's has the right to recover such amount through the future sale of the property. In these situations, the guaranteed property is recorded as Inventory on Sotheby's balance sheet at the lower of cost (i.e., the amount paid under the auction guarantee) or management's estimate of the property's net realizable value (i.e., expected sale price upon disposition). The sale proceeds ultimately realized by Sotheby's in these situations may equal, exceed or be less than the amount recorded as Inventory on Sotheby's balance sheet.

Sotheby's may reduce its financial exposure under auction guarantees through contractual risk and reward sharing arrangements under which a counterparty contractually commits to bid a predetermined price on the guaranteed property (an "irrevocable bid"). Ordinarily, an irrevocable bid is obtained concurrent with the issuance of the related auction guarantee or the auction guarantee is conditional upon the receipt of an irrevocable bid. From time-to-time, auction guarantees are issued that are not conditional on the receipt of an irrevocable bid, and the corresponding irrevocable bid is secured after Sotheby's has issued the auction guarantee. If the irrevocable bid is the winning bid, the counterparty purchases the property at the predetermined price plus the applicable buyer's premium, which is the same amount that any other successful bidder would pay at that price. If the irrevocable bid is not the winning bid, the counterparty is generally entitled to receive a share of the auction commission earned on the sale and/or a share of any overage.

Sotheby's irrevocable bid counterparties are typically major international art dealers or major art collectors. Sotheby's could be exposed to losses in the event any of these counterparties do not perform according to the terms of these contractual arrangements.

Prior to 2009, Sotheby's usually assumed the entire financial risk under its auction guarantees. However, beginning in 2009, Sotheby's changed its strategy with respect to auction guarantees and since then has generally entered into auction guarantees only when it is able to reduce its financial exposure through irrevocable bid arrangements. While it is management's intent to seek to reduce Sotheby's auction guarantee exposure through the use of irrevocable bids, management may not always be able to secure irrevocable bids on terms that are acceptable to Sotheby's and in some instances may not choose to seek an irrevocable bid.

As of September 30, 2012, Sotheby's had outstanding auction guarantees totaling \$114.8 million. Each of these auction guarantees has a minimum guaranteed price that is within the range of the pre-sale auction estimates for the underlying property. Sotheby's financial exposure under these auction guarantees is substantially reduced by irrevocable bid arrangements. If each irrevocable bid is the winning bid at auction, the total purchase price owed to Sotheby's, including buyer's premium, would be no less than \$94.8 million. The property related to these auction guarantees will be offered at auctions in the fourth quarter of 2012 and the first quarter of 2013.

As of September 30, 2012, \$25 million of the guaranteed amount had been advanced by Sotheby's and is recorded on the balance sheet within Notes Receivable and Consignor Advances. As of September 30, 2012, December 31, 2011 and September 30, 2011, the carrying value of the liability representing the estimated fair value of Sotheby's obligation to perform under its auction guarantees totaled \$5.6 million, \$0.9 million and \$0.2 million, respectively, and is recorded on Sotheby's balance sheet within Accounts Payable and Accrued Liabilities.

As of November 7, 2012, Sotheby's had outstanding auction guarantees totaling \$155.6 million. Each of these auction guarantees has a minimum guaranteed price that is within the range of the pre-sale auction estimates for the underlying property. Sotheby's financial exposure under these auction guarantees is substantially reduced by irrevocable bids. If each irrevocable bid is the winning bid at auction, the total purchase price owed to Sotheby's, including buyer's premium, would be no less than \$139.4 million. The property related to these auction guarantees will be offered at auctions in the fourth quarter of 2012 and the first quarter of 2013. As of November 7, 2012, \$45.7 million of the aggregate guaranteed amount has been advanced by Sotheby's.

21#

10. Share-Based Payments and Dividends

Share-Based Payments—Share-based payments to employees include performance-based stock awards, shares of restricted stock, restricted stock units and stock options. Each of these share-based payments is explained in more detail below. Compensation expense related to share-based payments is recorded as a component of Salaries and Related Costs in the statements of operations. For the three and nine months ended September 30, 2012 and 2011, compensation expense related to share-based payments was as follows (in thousands of dollars):

	Three Months Ended September 30,		Nine Months Ended September 30,	
	2012	2011	2012	2011
Pre-Tax	\$4,256	\$3,797	\$13,333	\$14,196
After-Tax	\$2,741	\$2,164	\$9,163	\$9,504

For the nine months ended September 30, 2012 and 2011, Sotheby's realized \$3.3 million and \$7.2 million, respectively, of excess tax benefits related to share-based payment arrangements. These tax benefits represent the amount by which the tax deduction resulting from the exercise or vesting of share-based payments exceeded the tax benefit initially recognized in the financial statements upon the amortization of compensation expense for these awards. Such excess tax benefits are recognized in the balance sheet as an increase to Additional Paid-in Capital and are classified within financing activities in the statement of cash flows.

As of September 30, 2012, unrecognized compensation expense related to the unvested portion of share-based payments was \$22.5 million. This compensation expense is expected to be amortized over a weighted-average period of approximately 3 years. Sotheby's does not capitalize any compensation expense related to share-based payments to employees.

Sotheby's Restricted Stock Unit Plan—The Sotheby's Restricted Stock Unit Plan (the “Restricted Stock Unit Plan”) provides for the issuance of unvested shares of Common Stock (“Restricted Stock”) and Restricted Stock Units (“RSU's”) to employees, subject to the approval of the Compensation Committee of Sotheby's Board of Directors (the “Compensation Committee”). In making awards under the Restricted Stock Unit Plan, the Compensation Committee takes into account the nature of the services rendered by employees, their present and potential contributions to Sotheby's success, and such other factors as the Compensation Committee in its discretion deems relevant. Restricted Stock and RSU's generally vest evenly over a four year service period. Prior to vesting, holders of Restricted Stock have voting rights and are entitled to receive dividends, while holders of RSU's do not have voting rights, but are entitled to receive dividend equivalents. Dividends and dividend equivalents paid to holders of unvested Restricted Stock and RSU's are not forfeitable. Restricted Stock and RSU's may not be sold, assigned, transferred, pledged or otherwise encumbered until they vest.

Performance Share Units—Performance Share Units (“PSU's”) are RSU's which vest ratably, generally over four years, if Sotheby's achieves certain profitability targets. Prior to vesting, holders of PSU's do not have voting rights and are not entitled to receive dividends or dividend equivalents. Dividend equivalents are credited to holders of PSU's and are only paid for the portion of PSU's that vest. PSU's may not be sold, assigned, transferred, pledged or otherwise encumbered until they vest. The Compensation Committee believes that PSU's better align Sotheby's variable compensation strategy with its financial performance and the cyclical nature of the art market and further align the interests of Sotheby's management with its shareholders. Accordingly, Sotheby's intends to grant future share-based payment awards only in the form of PSU's with both performance and service conditions.

In February 2012, Sotheby's issued 716,798 PSU's with a fair value of approximately \$27.5 million as follows: (i) 609,573 PSU's with a fair value of \$23.4 million related almost entirely to Sotheby's incentive compensation programs and (ii) 107,225 PSU's with a fair value of \$4.1 million issued to William F. Ruprecht, Sotheby's President and Chief Executive Officer, in relation to his September 2010 employment agreement.

Summary of Restricted Stock, RSU's and PSU's—For the nine months ended September 30, 2012, changes to the number of outstanding Restricted Stock shares, RSU's and PSU's were as follows (shares in thousands):

	Restricted Stock Shares, RSU's and PSU's	Weighted Average Grant Date Fair Value
Outstanding at January 1, 2012	1,990	\$23.89
Granted	717	\$38.40
Vested	(738) \$20.76
Canceled	(54) \$27.19
Outstanding at September 30, 2012	1,915	\$30.39

The aggregate fair value of Restricted Stock, RSU's and PSU's that vested during the nine months ended September 30, 2012 and 2011 was \$28.1 million and \$45.2 million, respectively, based on the closing stock price on the dates the shares vested. As of September 30, 2012, 1.2 million shares were available for future awards pursuant to the Restricted Stock Unit Plan.

Stock Options—Stock options issued pursuant to the Sotheby's 1997 Stock Option Plan are exercisable into authorized but unissued shares of Common Stock. Stock options vest evenly over 4 years and expire 10 years after the date of grant. As of September 30, 2012, 35,000 shares of Common Stock were available for the issuance of stock options under the Stock Option Plan.

For the nine months ended September 30, 2012, changes to the number of stock options outstanding were as follows (options and aggregate intrinsic value in thousands):

	Options	Weighted Average Exercise Price	Weighted Average Remaining Contractual Term (in Years)	Aggregate Intrinsic Value
Outstanding at January 1, 2012	392	\$21.94		
Exercised	(44) \$22.11		
Outstanding at September 30, 2012	348	\$21.92	7.3	\$3,342
Exercisable at September 30, 2012	99	\$21.43	7.0	\$995

The aggregate intrinsic value of options exercised during the nine months ended September 30, 2012 and 2011 was \$0.6 million and \$3.2 million, respectively. For the nine months ended September 30, 2012 and 2011, cash proceeds received as a result of stock option exercises were \$1.0 million and \$2.6 million, respectively. For the nine months ended September 30, 2012 and 2011, the related excess tax benefit realized from the exercise of stock options was \$0.1 million and \$0.8 million, respectively.

Noortman Master Paintings (“NMP”)—On June 7, 2006, Sotheby's entered into a sale and purchase agreement (the “Purchase Agreement”) with Arcimboldo S.A. (“Arcimboldo”) pursuant to which Sotheby's acquired all of the issued and outstanding shares of capital stock of NMP. Pursuant to the Purchase Agreement, Sotheby's paid initial consideration (the “Initial Consideration”) in the form of 1,946,849 shares of Sotheby's Common Stock. Pursuant to the Purchase Agreement, if NMP failed to achieve a minimum level of financial performance during the five years following the closing of the transaction, up to 20% of the Initial Consideration would be returned to Sotheby's. The minimum level of financial performance was not achieved and, as a result, 147,341 shares of Sotheby's Common Stock were returned to Sotheby's in the fourth quarter of 2011. For the nine months ended September 30, 2011, Sotheby's recognized a net benefit of \$0.6 million in Salaries and Related Costs to reflect the final number of shares of Common Stock that were returned to Sotheby's.

Dividends—During the three and nine months ended September 30, 2012, Sotheby's paid dividends of \$5.4 million and \$16.4 million, respectively. On November 7, 2012, Sotheby's Board of Directors declared a quarterly dividend of \$0.08 per share (approximately \$5.4 million) to be paid to shareholders of record as of December 3, 2012 on December 17, 2012.

The declaration and payment of future dividends to shareholders is at the discretion of Sotheby's Board of Directors and will depend on many factors, including Sotheby's financial condition (in particular, U.S. liquidity), cash flows, legal requirements and other factors as the Board of Directors deems relevant.

23#

11. Income Taxes

Reversal of Deferred Tax Asset Valuation Allowance—In the third quarter of 2011, Sotheby's reversed a valuation allowance recorded in 2009 against deferred tax assets related to certain state and local jurisdictions. The decision to reverse the valuation allowance was based upon management's conclusion that it was more likely than not that these deferred tax assets would be realized based on the weight of sufficient positive evidence, which included, but was not limited to, recent profitability, management's expectations of future profitability, the expected timing of the reversals of the deferred tax assets and economic conditions existing at the time of the reversal as compared to the economic conditions when the valuation allowance was established. The reversal of the valuation allowance resulted in the recognition of a non-recurring \$11.6 million benefit recorded as of September 30, 2011, which included a discrete benefit of \$9.6 million recognized in the third quarter of 2011 and an additional benefit of \$2 million recognized through Sotheby's annual effective income tax rate.

Uncertain Tax Positions—As of September 30, 2012, Sotheby's liability for unrecognized tax benefits, excluding interest and penalties, was \$35.1 million, representing an increase of \$0.4 million when compared to December 31, 2011. As of September 30, 2011, Sotheby's liability for unrecognized tax benefits was \$31.8 million. As of September 30, 2012 and 2011, the total amount of unrecognized tax benefits that, if recognized, would favorably affect Sotheby's effective tax rate was \$18.1 million and \$16.8 million, respectively.

Sotheby's believes it is reasonably possible that a decrease of \$2.4 million in the balance of unrecognized tax benefits can occur within 12 months of the September 30, 2012 balance sheet date as a result of the expiration of the statute of limitations and expected settlements of currently ongoing tax audits.

Sotheby's is subject to taxation in the U.S. and various state and foreign jurisdictions, and as a result, is subject to ongoing tax audits in various jurisdictions. Sotheby's U.S. federal and various state and foreign tax returns are currently under examination by taxing authorities. The earliest open tax year for the major jurisdictions in which Sotheby's does business, which include the U.S. (including various state and local jurisdictions), the U.K. and Hong Kong, is 2005.

Sotheby's recognizes interest expense and penalties related to unrecognized tax benefits as a component of Income Tax Expense. The accrual for such interest and penalties increased by \$0.5 million for the nine months ended September 30, 2012.

Sotheby's policy is to record interest expense related to sales, value added and other non-income based taxes as Interest Expense in its statements of operations. Penalties related to such taxes are recorded as General and Administrative Expenses in its statements of operations. Interest expense and penalties related to income taxes are recorded as a component of Income Tax Expense in Sotheby's statements of operations.

12. Related Party Transactions

From time-to-time, in the ordinary course of business, related parties such as members of Sotheby's Board of Directors and its employees, transact with Sotheby's to buy and sell property at auction and through private sales. For the nine months ended September 30, 2012, Sotheby's recognized total Auction and Related Revenues of \$4.9 million related to the sale and purchase of property by related parties. These revenues represent approximately 1% of total revenues for the period. For the three and nine months ended September 30, 2011, Sotheby's recognized total Auction and Related Revenues of \$0.9 million and \$5.9 million, respectively, related to the sale and purchase of property by related parties. These revenues represent approximately 2% and 1%, respectively, of total revenues for those periods. As of September 30, 2012, Accounts Receivable (net) includes \$0.1 million associated with purchases made by related parties and represents less than 1% of Accounts Receivable (net). As of December 31, 2011 and September 30, 2011, Accounts Receivable (net) includes \$24.4 million and \$4.6 million, respectively, of such related party receivables. These receivables represent approximately 4% and 1%, respectively, of Accounts Receivable (net) as of these dates. As of September 30, 2012, Notes Receivable (net) includes a \$0.1 million Finance segment loan to an employee who is not an Executive Officer.

13. Recently Issued Accounting Standards

In September 2011, the Financial Accounting Standards Board issued Accounting Standards Update ("ASU") 2011-08, Intangibles - Goodwill and Other: Testing Goodwill for Impairment, which is codified in Accounting Standards Codification 350, Intangibles - Goodwill and Other. This update gives entities testing goodwill for impairment the option of performing a qualitative assessment before calculating the fair value of a reporting unit in step 1 of the goodwill impairment test. If entities determine, on the basis of qualitative factors, that the fair value of a reporting unit is, more likely than not, less than the carrying amount, the two-step impairment test would be required. Otherwise, further testing would not be needed. This update became effective for Sotheby's quarterly and annual financial statements beginning in the first quarter of 2012. Early adoption was permitted. Sotheby's did not adopt this standard early in 2011 and is currently evaluating whether to perform the qualitative assessment allowed under ASU 2011-08 in 2012 as part of its annual goodwill impairment test to be conducted in the fourth quarter of 2012.

25#

ITEM 2: MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

Seasonality

The worldwide art auction market has two principal selling seasons, which generally occur in the second and fourth quarters of the year. Accordingly, Sotheby's auction business is seasonal, with peak revenues and operating income generally occurring in those quarters. Consequently, first and third quarter results have historically reflected a lower volume of auction activity when compared to the second and fourth quarters and, typically, a net loss due to the fixed nature of many of Sotheby's operating expenses.

Use of Non-GAAP Financial Measures

GAAP refers to generally accepted accounting principles in the United States of America. Included in Management's Discussion and Analysis of Financial Condition and Results of Operations (or "MD&A") are financial measures presented in accordance with GAAP and also on a non-GAAP basis. Net Liquidity, as presented in MD&A under "Key Performance Indicators," is a supplemental financial measure that is not required by or presented in accordance with GAAP.

Sotheby's is predominantly an agency business that collects and remits cash on behalf of its clients. Consequently, Sotheby's defines Net Liquidity as the amount of cash and cash equivalents that would remain assuming that all accounts receivable were collected and that all consignor payables, accounts payable and current accrued liabilities were paid as of each balance sheet date. This measure, among others, is used by management to assess the amount of Sotheby's available liquidity, excluding borrowings available under its revolving credit facility. Net Liquidity should not be considered as an alternative to cash and cash equivalents as reported in accordance with GAAP. A reconciliation of Net Liquidity to cash and cash equivalents reported in accordance with GAAP is presented below under "Reconciliation of Non-GAAP Financial Measures."

RESULTS OF OPERATIONS FOR THE THREE AND NINE MONTHS ENDED SEPTEMBER 30, 2012 AND 2011

This discussion should be read in conjunction with Note 4 ("Segment Reporting") of Notes to Condensed Consolidated Financial Statements.

Overview

As discussed above, due to the seasonality of Sotheby's auction business, the third quarter typically reflects a net loss. Accordingly, in the third quarter of 2012, Sotheby's reported a pre-tax loss of (\$46.4) million as compared to a pre-tax loss of (\$57.9) million in the prior year. The \$11.5 million (20%) improvement in Sotheby's pre-tax results for the quarter is largely the result of a \$6.8 million (13%) increase in auction and related revenues, which was driven by a \$4.9 million (50%) improvement in private sale commission revenues, and a \$1.6 million (56%) increase in Finance segment revenues.

For the three months ended September 30, 2012, Sotheby's reported a net loss of (\$32.6) million, which compares unfavorably to the net loss of (\$29.7) million reported in the prior year due to an \$11.6 million tax benefit recognized in the third quarter of 2011 as a result of the reversal of a valuation allowance against certain of Sotheby's deferred tax assets.

For the nine months ended September 30, 2012, Sotheby's net income decreased \$57.7 million (58%) when compared to the prior year. This decrease is primarily due to lower auction commission revenues resulting from a \$433.5 million (16%) reduction in Net Auction Sales, as 2011 included an unprecedented level of sales of single-owner collections. The decline in year-to-date auction commission revenues is partially offset by an \$8.2 million (17%) increase in private sale commission revenues and a \$6.4 million decrease in Dealer inventory writedowns, as well as \$4.5 million of charges recorded in 2011 as a result of restructuring actions implemented to streamline Sotheby's European selling operations.

See the discussion below for greater detail on the significant factors impacting Sotheby's results for the three and nine months ended September 30, 2012 and the comparison to the prior period.

Outlook

Management remains confident in the global art market, where demand and prices continue to be strong, particularly at the high-end of the market, although competition for these consignments is particularly fierce. Management continues to focus on stabilizing auction commission margins and maximizing revenues, as well as maintaining a rational cost structure while proceeding with measured investments in the strategic initiatives that are vital to Sotheby's future. (See statement on Forward Looking Statements. In addition, the art market has historically been cyclical; please refer to Item 1A, "Risk Factors," which summarizes the factors that could significantly influence and cause variability in Sotheby's operating results and liquidity.)

Legend:

* Represents a change in excess of 100%.

(a) Represents the hammer (sale) price of property sold at auction plus buyer's premium.

(b) Represents the hammer (sale) price of property sold at auction.

(c) Represents total auction commission revenues as a percentage of Net Auction Sales.

(d) Represents the total purchase price of property sold in private sales brokered by Sotheby's, including commissions.

(e) Represents the sum of Aggregate Auction Sales, Private Sales and Dealer revenues.

(f) Represents the average loan portfolio of Sotheby's Finance segment.

(g) See "Use of Non-GAAP Financial Measures" above and "Reconciliation of Non-GAAP Financial Measures" below.

(h) Represents the amount of cash and cash equivalents that would remain assuming that all accounts receivable were collected and that all consignor payables, accounts payable and current accrued liabilities were paid as of each balance sheet date. See "Net Liquidity" below for a more detailed discussion of this key performance indicator.

Impact of Changes in Foreign Currency Exchange Rates

For the three months ended September 30, 2012, foreign currency exchange rates had a net favorable impact of approximately \$1.4 million on Sotheby's results when compared to the prior period. For the nine months ended September 30, 2012, foreign currency exchange rates had a net unfavorable impact of approximately \$2 million on Sotheby's results when compared to the prior period, as summarized in the following table (in thousands of dollars):

Three Months Ended September 30, 2012	Favorable/ (Unfavorable)	
Total revenues	\$(1,282)
Total expenses	2,653	
Operating income	1,371	
Net interest expense and other	(4)

Total revenues	\$477,369	\$547,587	\$(70,218)	(13)	(%)

* Represents a change in excess of 100%.

** Principally includes commissions and other fees earned on sales brokered by third parties, fees charged to clients for catalogue production and insurance, catalogue subscription revenues and advertising revenues.

Auction and Related Revenues

For the three months ended September 30, 2012, auction and related revenues increased \$6.8 million (13%) primarily due to a 50% increase in private sale commission revenue and, to a lesser extent, slightly higher auction commission revenues. For the nine months ended September 30, 2012, auction and related revenues decreased \$69.6 million (13%) due to a \$79.4 million (17%) decline in auction commission revenue partially offset by an \$8.2 million (17%) increase in private sale commission revenue. The comparisons to the prior periods are also impacted by unfavorable changes in foreign currency exchange rates, which decreased auction and related revenues by approximately \$1.2 million and \$9.3 million during the three and nine month periods, respectively. See below for a more detailed discussion of these and the other significant factors impacting the comparisons of auction and related revenues between the current and prior periods.

Auction Commission Revenues—In its role as auctioneer, Sotheby's represents sellers of artworks by accepting property on consignment and by matching sellers to buyers through the auction process. Sotheby's invoices the buyer for the purchase price of the property (including the commission owed by the buyer), collects payment from the buyer and remits to the seller the net sale proceeds after deducting its commissions, expenses and applicable taxes and royalties. Sotheby's commissions include those paid by the buyer ("buyer's premium") and those paid by the seller ("seller's commission") (collectively, "auction commission revenue"), both of which are calculated as a percentage of Net Auction Sales.

For the three months ended September 30, 2012, auction commission revenues increased approximately \$1 million (2%) despite a 7% decrease in Net Auction Sales due to an improvement in Auction Commission Margin from 19.7% to 21.8%. For the nine months ended September 30, 2012, auction and related revenues decreased \$79.4 million (17%) due to a 16% decrease in Net Auction Sales and, to a much lesser extent, a decline in Auction Commission Margin. The comparison to the prior periods is unfavorably impacted by changes in foreign currency exchange rates, which decreased auction commission revenues by approximately \$0.7 million and \$8 million during the three and nine month periods, respectively. See "Net Auction Sales" and "Auction Commission Margin" below for a more detailed discussion of these key performance indicators.

Net Auction Sales—For the three months ended September 30, 2012, Net Auction Sales decreased \$14.9 million (7%) when compared to the prior year primarily due to a \$24 million decrease in the recurring various-owner Old Master Paintings sales in London, which in 2011 included the sale of Francesco Guardi's Venice, A View of The Rialto Bridge, Looking North, From The Fondamenta Del Carbon for a hammer price of \$38 million. This decrease is partially offset by a \$12.7 million improvement in recurring various-owner sales of Asian Art in New York.

For the nine months ended September 30, 2012, Net Auction Sales decreased \$433.5 million (16%) when compared to the prior year due to a number of significant single-owner sales occurring in the prior period, as well as a decrease in the volume of objects sold at recurring various-owner sales. Net Auction Sales are also unfavorably impacted by changes in foreign currency exchange rates, which contributed \$44.1 million to the overall decrease versus the prior year. More specifically, the year-to-date decrease in Net Auction Sales is attributable to the following factors:

Excluding collections of Impressionist Art and Contemporary Art, worldwide sales of single-owner collections decreased \$274.2 million (62%). The second quarter of 2011, in particular, included an unprecedented level of single-owner collections, including The Meiyintang Collection of Chinese Porcelain (\$76.5 million), The Mei Yun Tang Collection of Paintings by Chang Dai-chien (\$76.5 million), The Evill/Frost Collection of 20th Century British Art (\$59.8 million) and The Ullens Collection of Contemporary Chinese Art (\$46.5 million).

Excluding Impressionist Art and Contemporary Art, recurring various-owner sales decreased \$151 million (13%) primarily due to decreases in worldwide sales of Asian Art (\$77.4 million), Old Master Paintings (\$55 million) and 19th Century Paintings (\$20 million), partially offset by an increase in worldwide sales of Jewelry (\$33 million). The decreases in sales of Asian Art may be attributable, in part, to the slowdown in the major economies of that region, and in particular, China.

These decreases are partially offset by an increase of \$63.7 million (6%) in worldwide sales of Impressionist Art and Contemporary Art. The second quarter auction of Impressionist Art in New York included the sale of Edvard Munch's The Scream for \$107 million (\$119.9 million including buyer's premium), the highest price ever for a work of art at auction.

Auction Commission Margin—Auction Commission Margin represents total auction commission revenues as a percentage of Net Auction Sales. Typically, the Auction Commission Margin is higher for lower value works of art or collections, while higher valued property earns a lower Auction Commission Margin. For example, in salesrooms in the U.S., the buyer's premium rate structure is 25% on the first \$50,000 of hammer (sale) price; 20% on the portion of hammer price above \$50,000 up to and including \$1 million; and 12% on any remaining amount above \$1 million. In certain situations, Auction Commission Margin is adversely impacted by arrangements whereby Sotheby's buyer's premium is shared with a consignor. In such situations, Sotheby's may share its buyer's premium with a consignor in order to secure a high value consignment without issuing an auction guarantee.

Auction Commission Margin may also be adversely impacted by the use of auction guarantees. For example, when issuing an auction guarantee, Sotheby's may enter into a risk and reward sharing arrangement with a counterparty

whereby Sotheby's financial exposure under the auction guarantee is reduced in exchange for sharing its auction commission. Also, in situations when guaranteed property sells for less than the guaranteed price, all or a portion of Sotheby's auction commissions are used to reduce the principal loss on the transaction. (See Note 9 of Notes to Condensed Consolidated Financial Statements for additional information on Sotheby's use of auction guarantees.)

31#

For the three months ended September 30, 2012, Auction Commission Margin increased from 19.7% to 21.8% primarily as a result of a lower level of shared auction commissions in the current period.

For the nine months ended September 30, 2012, Auction Commission Margin decreased from 16.6% to 16.3%. This decline is attributable to competitive pressures to win high value consignments, which resulted in a higher level of shared auction commissions in the year-to-date period, and to the sales mix, as there was a shift in the proportion of property sold in the various price bands of Sotheby's buyer's premium rate structure.

Private Sale Commission Revenues—For the three and nine months ended September 30, 2012, private sale commission revenues grew by \$4.9 million (50%) and \$8.2 million (17%), respectively, primarily due to increased sales of high value property, as well as an overall increase in the volume of sales transacted in the current periods, particularly in the Contemporary Art collecting category. Private sales continue to be a strategic focus for management and have become increasingly important to Sotheby's overall financial performance.

Finance Revenues

For the three and nine months ended September 30, 2012, Finance revenues increased \$1.6 million (56%) and \$3.7 million (41%), respectively, principally due to a \$91.1 million (42%) increase in the year-to-date average loan portfolio balance. This growth in the loan portfolio is attributable to increased demand for art-related financing associated with traditional client liquidity needs, the improved global reach of Sotheby's art-financing business and an increase in term loans made to refinance clients' auction and private sale purchases (see Note 5 of Notes to Condensed Consolidated Financial Statements).

(Note: For the purposes of Management's Discussion and Analysis, Finance revenues are presented on a consolidated basis and do not include intercompany revenues earned by the Finance segment from the Auction segment, which are eliminated in consolidation. See Note 4 of Notes to Condensed Consolidated Financial Statements.)

Dealer Revenues and Cost of Sales

Dealer revenues consist of revenues earned from the sale of inventory, which includes property owned by Noortman Master Paintings ("NMP") and artworks purchased for investment purposes. To a lesser extent, Dealer revenues also include commissions earned by NMP through the brokering of private art sales. Dealer cost of sales includes the net book value of Dealer inventory sold during the period and any writedowns to the carrying value of Dealer inventory. The table below summarizes Dealer revenues, cost of sales and gross (loss) profit for the three and nine months ended September 30, 2012 and 2011 (in thousands of dollars):

Three Months Ended September 30,	2012	2011	Favorable/(Unfavorable)		
			\$ Change	% Change	
Dealer revenues	\$1,815	\$591	\$1,224	*	
Dealer cost of sales	(2,553)	(6,012)	3,459	58	%
Dealer gross loss	\$(738)	\$(5,421)	\$4,683	86	%
			Favorable/(Unfavorable)		
Nine Months Ended September 30,	2012	2011	\$ Change	% Change	
Dealer revenues	\$11,887	\$16,848	\$(4,961)	(29)	%
Dealer cost of sales	(11,624)	(20,267)	8,643	43	%
Dealer gross profit (loss)	\$263	\$(3,419)	\$3,682	*	

* Represents a change in excess of 100%

Dealer results for the three and nine months ended September 30, 2012 reflect an improvement from the same periods in the prior year primarily due to a significantly lower level of inventory writedowns, which totaled \$5.7 million and \$8.3 million, respectively, in the prior year three and nine month periods. The prior year writedowns were the result of a shift in NMP's selling strategy, as well as a general weakening of the private dealer market for certain categories of lower valued Old Master Paintings and a shift in the collecting tastes of NMP's clients. By comparison, Dealer inventory writedowns for the three and nine months ended September 30, 2012, totaled \$1.5 million and \$1.9 million, respectively. Partially offsetting the decrease in Dealer inventory writedowns in the current periods is a lower level of profitable sales and fewer privately brokered sales when compared to the prior year.

32#

In the third quarter of 2011, following the fifth anniversary of the acquisition of NMP and the expiration of the related financial performance targets (see Note 10 of Notes to Condensed Consolidated Financial Statements), management initiated a plan to restructure NMP's business and sales strategy. As a result of the restructuring of its business and sales strategy, NMP has reduced its inventory of lower valued Old Master Paintings and shifted its focus to a select group of high-valued works of art. In furtherance of this strategy and due in part to a lower level of profitable sales, in the third quarter of 2012, management closed NMP's Amsterdam office and consolidated its operations into NMP's London office. These actions have resulted in total exit costs of \$1.3 million recognized in 2012, with employee severance charges of \$0.5 million recorded in the second quarter of 2012 and lease termination costs of \$0.8 million recorded in the third quarter of 2012.

License Fee Revenues

For the three and nine months ended September 30, 2012, license fee revenues increased \$0.6 million (45%) and \$0.4 million (10%), respectively. These increases are almost entirely attributable to a \$0.5 million brand development fee earned in the third quarter of 2012 in connection with a new master franchise agreement entered into by Realogy Corporation ("Realogy") to develop the Sotheby's International Realty brand in Australia's New South Wales market.

Expenses

For the three and nine months ended September 30, 2012 and 2011, expenses consisted of the following (in thousands of dollars):

Three Months Ended September 30,	2012	2011	Favorable / (Unfavorable)		
			\$ Change	% Change	
Direct costs of services	\$4,225	\$5,083	\$858	17	%
Dealer cost of sales	2,553	6,012	3,459	58	%
Marketing expenses	3,500	2,803	(697)	(25)	(%)
Salaries and related costs	53,447	45,724	(7,723)	(17)	(%)
General and administrative expenses	37,980	37,404	(576)	(2)	(%)
Depreciation and amortization expense	4,690	4,461	(229)	(5)	(%)
Restructuring charges, net	(25)) 2,208	2,233	*	
Total expenses	\$106,370	\$103,695	\$(2,675)	(3)	(%)
			Favorable / (Unfavorable)		
Nine Months Ended September 30,	2012	2011	\$ Change	% Change	
Direct costs of services	\$38,924	\$40,295	\$1,371	3	%
Dealer cost of sales	11,624	20,267	8,643	43	%
Marketing expenses	12,508	10,639	(1,869)	(18)	(%)
Salaries and related costs	194,549	194,186	(363)	—	%
General and administrative expenses	116,753	110,788	(5,965)	(5)	(%)
Depreciation and amortization expense	13,244	12,803	(441)	(3)	(%)
Restructuring charges, net	(3)) 4,476	4,479	*	
Total expenses	\$387,599	\$393,454	\$5,855	1	%

* Represents a change in excess of 100%.

Direct Costs of Services

Direct costs of services consists largely of sale specific marketing costs such as auction catalogue production and distribution expenses, sale advertising and promotion expenses, and traveling exhibition costs. Also included in direct costs of services are sale-related shipping expenses. The level of direct costs incurred in any period is generally dependent upon the volume and composition of Sotheby's auction and private sale offerings. For example, direct costs attributable to auctions of single-owner or other high-value collections are typically higher than those associated with standard various-owner auctions, mainly due to higher promotional costs for catalogues, special events and traveling exhibitions, as well as higher shipping expense.

For the three months ended September 30, 2012, direct costs of services decreased \$0.9 million (17%) when compared to the same period in the prior year. The decrease in direct costs of services in the current period is attributable to lower private sale exhibition expenses, as well as a decrease in auction-related direct costs consistent with the change in the level and composition of Sotheby's auction offerings when compared to the prior period.

For the nine months ended September 30, 2012, direct costs of services decreased \$1.4 million (3%) when compared to the prior year. Auction-related direct costs of services decreased during the current period, reflecting the level and composition of Sotheby's auction offerings, as well as favorable movements in foreign currency exchange rates. However, this decrease is largely offset by a \$1.1 million increase in private sale expenses, as well as a non-recurring \$0.9 million recovery recognized in the second quarter of 2011 related to the sale of an object that was subject to a previous property loss claim. The higher level of private selling expenses was almost entirely attributable to two selling exhibitions conducted in Hong Kong in the second quarter of 2012, for which there were no comparable costs in the prior period.

Marketing Expenses

Marketing expenses are costs related to the promotion of the Sotheby's brand consisting of costs related to corporate marketing activities, client service initiatives and strategic sponsorships of cultural institutions. For the three and nine months ended September 30, 2012, marketing expenses increased \$0.7 million (25%) and \$1.9 million (18%), respectively, largely due to brand promotion activities in Asia and in particular, China where Sotheby's incurred \$0.5 million in third quarter costs to promote the launch of its joint venture with Beijing GeHua Art Company (see "Strategic Initiatives in China" below).

Salaries and Related Costs

For the three and nine months ended September 30, 2012 and 2011, salaries and related costs consisted of the following (in thousands of dollars):

Three Months Ended September 30,	2012	2011	Favorable / (Unfavorable)		
			\$ Change	% Change	
Full-time salaries	\$32,849	\$31,700	\$(1,149)	(4)	%
Incentive compensation expense	3,258	2,316	(942)	(41)	%
Share-based payment expense	4,256	3,797	(459)	(12)	%
Payroll taxes	3,550	3,500	(50)	(1)	%
Employee benefits	6,115	649	(5,466)	*	
Labor union severance costs	250	—	(250)	N/A	
Other compensation expense**	3,169	3,762	593	16	%
Total salaries and related costs	\$53,447	\$45,724	\$(7,723)	(17)	%

Nine Months Ended September 30,	2012	2011	Favorable / (Unfavorable)		
			\$ Change	% Change	
Full-time salaries	\$98,603	\$95,697	\$(2,906)	(3)	%
Incentive compensation expense	34,237	45,953	11,716	25	%
Share-based payment expense	13,333	14,196	863	6	%
Payroll taxes	14,968	16,126	1,158	7	%
Employee benefits	17,966	9,773	(8,193)	(84)	%
Labor union severance costs	4,375	—	(4,375)	N/A	
Other compensation expense**	11,067	12,441	1,374	11	%
Total salaries and related costs	\$194,549	\$194,186	\$(363)	—	%

* Represents a change in excess of 100%.

** Principally includes expense related to the cost of temporary labor and overtime, and certain employment arrangements.

See below for a detailed discussion of the significant factors impacting the comparison of the various elements of salaries and related costs between the current and prior periods.

34#

Full-Time Salaries—For the three and nine months ended September 30, 2012, full-time salaries increased \$1.1 million (4%) and \$2.9 million (3%), respectively, primarily due to strategic headcount and salary increases partially offset by the impact of changes in foreign currency exchange rates which reduced full-time salaries by \$0.9 million and \$2.1 million, respectively.

Incentive Compensation—The amount of incentive compensation expense recorded in a period is largely dependent upon the level of Sotheby's earnings, as measured by Earnings Before Interest Expense, Income Tax Expense, and Depreciation and Amortization Expense (EBITDA), and is ultimately paid at the discretion of the Compensation Committee of the Board of Directors only after assessing Sotheby's full year financial results. In addition, incentive compensation includes amounts specifically awarded to employees for brokering certain eligible private sale transactions. The increase in accrued incentive compensation expense for the three months ended September 30, 2012 is attributable to the growth in private sale commission revenues in the period. The decrease in accrued incentive compensation expense for the nine months ended September 30, 2012 is predominantly due to the lower level of Sotheby's earnings relative to the prior period.

Share-Based Payment Expense—Share-based payment expense consist of amortization expense related to performance-based equity compensation awards, restricted stock units and stock options. Equity compensation awards are granted annually each February and the value of each annual award is generally dependent upon Sotheby's financial results for the year prior to the grant date. The amount of compensation expense recognized for share-based payments is based on management's estimate of the number of shares ultimately expected to vest as a result of employee service. In addition, for performance-based equity compensation awards, the amount and timing of expense recognition is significantly impacted by management's assessment of the likelihood and timing of achieving certain profitability targets. (See Note 10 of Notes to Condensed Consolidated Financial Statements for more detailed information related to Sotheby's share-based compensation programs.)

For the three months ended September 30, 2012, share-based payment expense increased \$0.5 million (12%) reflecting a \$1.3 million reduction to compensation expense recorded in the third quarter of 2011 as a result of management's normal periodic assessment of the likelihood and timing of achieving certain performance-based award profitability targets. For the nine months ended September 30, 2012, share-based payment expense decreased \$0.9 million (6%) principally due to a lower value of performance-based equity compensation awards expected to vest.

Payroll Taxes—For the nine months ended September 30, 2012, payroll taxes decreased \$1.2 million (7%) primarily due to a lower level of accrued incentive compensation costs.

Employee Benefits—Employee benefits include the cost of Sotheby's retirement plans and health and welfare programs, as well as certain employee severance costs. Sotheby's material retirement plans include defined benefit and defined contribution pension plans for its employees in the U.K. and defined contribution and deferred compensation plans for its U.S. employees.

Generally, the amount of employee benefit costs recognized in a period is dependent upon headcount and overall compensation levels, as well as Sotheby's financial performance. Additionally, the level of expense related to Sotheby's defined benefit pension plan in the United Kingdom (the "U.K. Pension Plan") is significantly influenced by interest rates, investment performance in the debt and equity markets and actuarial assumptions. Also, the expense recorded for Sotheby's Deferred Compensation Plan (the "DCP") is dependent upon changes in the fair value of the DCP liability during a period, which result from gains and losses in deemed participant investments. Gains in deemed participant investments increase the DCP liability and, therefore, increase employee benefit costs. Losses in deemed participant investments decrease the DCP liability and, therefore, decrease employee benefit costs. On a consolidated basis, the cost increases (decreases) related to the DCP liability are offset by market gains (losses) in the trust assets related to the DCP liability, which are reflected within other income (expense) (see discussion of "Other Income (Expense)" below).

For the three months ended September 30, 2012, employee benefit costs increased \$5.5 million primarily due to significantly improved investment performance associated with the DCP, which increased employee benefit costs by \$4.1 million. The comparison of third quarter employee benefit costs to the prior year is also negatively impacted by a \$0.7 million decrease in the net pension credit related to the U.K. Pension Plan (as discussed below) and a \$0.5 million increase in employee severance costs, as well as the impact of the headcount and full-time salary increases

discussed above. These increases are partially offset by a lower level of accrued costs related to Sotheby's U.S. retirement plans resulting from lower profit-sharing accruals during the current period.

For the nine months ended September 30, 2012, employee benefit costs increased \$8.2 million (84%) primarily due to significantly improved investment performance associated with the DCP, which increased employee benefit costs by \$4.6 million. The comparison of year-to-date employee benefit costs to the prior year is also negatively impacted by a \$2.2 million decrease in the net pension credit related to the U.K. Pension Plan (as discussed below) and a \$1.9 million increase in employee severance costs, as well as the impact of the headcount and full-time salary increases discussed above. These increases are

35#

partially offset by a lower level of accrued costs related to Sotheby's U.S. retirement plans resulting from lower profit-sharing and incentive compensation-related accruals during the current period.

The decreases in the net pension credit related to the U.K. Pension Plan are due to a decrease in the expected long-term rate of return on plan assets from 7.7% to 6.3%. For the year ending December 31, 2012, the net pension credit related to the U.K. Pension Plan is expected to be approximately \$2.7 million, a decrease of approximately \$2.8 million when compared to 2011. (See statement on Forward Looking Statements.)

Labor Union Severance Costs—On June 30, 2011, the collective bargaining agreement applicable to 42 property handlers employed at Sotheby's New York City office expired. During the process of negotiations with the union representing the property handlers, the union made statements to the media threatening a strike. In order to avoid the impact of the union's threatened strike during the autumn 2011 sales season and in support of Sotheby's bargaining proposals, Sotheby's locked out members of the bargaining unit on July 29, 2011. On May 31, 2012, Sotheby's and the union agreed to a new collective bargaining agreement. In conjunction with the new collective bargaining agreement, Sotheby's offered severance benefits to the union members in exchange for the voluntary termination of their employment. The voluntary severance offer expired on July 20, 2012 with a total of 35 union members accepting, resulting in a year-to-date charge of \$4.4 million, of which \$0.3 million was recognized in the third quarter of 2012. Management expects to recover a substantial portion of the total severance costs over the next three years as a result of cost savings associated with the new labor agreement with the property handlers union. (See statement on Forward Looking Statements.)

Other Compensation Expense—Other compensation expense typically includes the cost of temporary labor and overtime, as well as the amortization of expense related to certain employment arrangements. For the three months ended September 30, 2012, other compensation expense decreased \$0.6 million (16%) primarily due to lower temporary labor costs in New York as the prior period included a higher level of expense in response to the lockout of unionized property handlers in 2011. For the nine months ended September 30, 2012, other compensation expense decreased \$1.4 million (11%) primarily as a result of lower amortization expense related to certain employment arrangements.

General and Administrative Expenses

For the three and nine months ended September 30, 2012, general and administrative expenses increased \$0.6 million (2%) and \$6 million (5%), respectively, primarily due to the following factors:

Increases of \$1.2 million (10%) and \$4.4 million (12%), respectively, in professional fees, primarily attributable to a higher level of consulting fees in support of Sotheby's strategic and corporate initiatives, as well as a higher level of legal fees and technology development consulting costs.

Net increases of \$1.5 million (15%) and \$4.9 million (16%), respectively, in facilities-related expenses. These increases are primarily due to quarter and year-to-date increases of \$0.9 million and \$3 million, respectively, in rent expense for Sotheby's expanded premises in Hong Kong. In addition, an incremental \$1 million in year-to-date security costs were incurred in order to minimize the business disruption associated with the lockout of Sotheby's unionized property handlers in New York, which ended on May 31, 2012 (see "Labor Union Severance Costs" under Salaries and Related Costs above).

• A \$0.9 million (5%) year-to-date increase in travel and entertainment expense incurred in part to support Sotheby's strategic initiatives in emerging markets.

• A year-to-date increase of \$0.6 million in technology costs primarily in support of the Sotheby's.com website.

The overall increase in general and administrative expenses for the three months ended September 30, 2012 is partially offset by a \$1.2 million benefit recorded in the third quarter of 2012 to reverse a portion of Sotheby's liability for sales, use, and other indirect tax contingencies (see Note 8 in Notes to Condensed Consolidated Financial Statements) and favorable changes in foreign currency exchange rates, which decreased general and administrative expenses by approximately \$0.9 million. The overall increase in general and administrative expenses for the nine months ended September 30, 2012 is also partially offset by a decrease of \$2.3 million in litigation claims and client goodwill gestures and favorable changes in foreign currency exchange rates, which decreased general and administrative expenses \$2.1 million.

36#

Restructuring Plans and Related Charges

For the three and nine months ended September 30, 2011, Sotheby's recorded net Restructuring Charges of approximately \$2.2 million and \$4.5 million, respectively.

On June 27, 2011, the Executive Committee of Sotheby's Board of Directors approved a restructuring plan (the "2011 Restructuring Plan") impacting Sotheby's operations in Italy and the Netherlands. The 2011 Restructuring Plan streamlined Sotheby's European selling operations, with a renewed emphasis on relationships with key clients and the sourcing of important collections. The 2011 Restructuring Plan has also allowed Sotheby's global management to focus resources on growing markets, especially China, and other strategic priorities. In the Netherlands, the 2011 Restructuring Plan resulted in the cessation of all local auction sales. In Italy, Sotheby's significantly reduced its auction sales calendar, but has continued to conduct auctions of Contemporary and Modern Art. Sotheby's streamlined European operations continues to source property to its other selling locations throughout the world, as well as pursue private sale opportunities.

The 2011 Restructuring Plan reduced staff by 24, which represented approximately 46% of Sotheby's then current headcount in Italy and the Netherlands and 2% of its global headcount. The 2011 Restructuring Plan also allowed Sotheby's to completely exit its leased Amsterdam salesroom, replacing it with a smaller local office, and significantly reduce the cost associated with its Milan premises.

For the nine months ended September 30, 2011, the charges associated with the 2011 Restructuring Plan consisted of \$2.6 million in lease termination costs related to the Amsterdam salesroom and \$1.9 million in employee termination benefits and other restructuring related charges.

Net Interest Expense

For the nine months ended September 30, 2012, net interest expense increased \$2 million (7%) primarily due to \$2.2 million of interest income recognized in the first quarter of 2011 as a result of the resolution of a legal matter related to a delinquent client account, for which there was no comparable event in the current year (see Note 8 of Notes to Condensed Consolidated Financial Statements).

On September 27, 2012, Sotheby's issued \$300 million aggregate principal amount of 5.25% Senior Notes, due October 1, 2022 (the "2022 Senior Notes"). The net proceeds of the issuance of the 2022 Senior Notes will be used to redeem all of the outstanding (\$80 million) 7.75% Senior Notes due June 2015 (the "2015 Senior Notes") and for general corporate purposes, including the repayment of other existing indebtedness. It is management's current intent to utilize \$181.9 million of the net proceeds to settle Sotheby's 3.125% Convertible Notes (the "Convertible Notes"), which mature in June 2013.

The remaining \$80 million principal amount of the 2015 Senior Notes have been called for redemption on November 25, 2012. The estimated redemption price of the 2015 Senior Notes is expected to be approximately \$97 million, which includes a premium of approximately \$14 million and unpaid accrued interest of \$2.7 million. The redemption of the 2015 Senior Notes is expected to result in a loss of approximately \$15 million, including the write-off of approximately \$1 million related to unamortized debt issuance costs and discounts, in the fourth quarter of 2012. As a result of the issuance of the 2022 Senior Notes and the redemption of the 2015 Senior Notes, interest expense for the year ending December 31, 2012 is expected to increase \$5.3 million when compared to the prior year. However, following the maturity of the Convertible Notes, Sotheby's expects to achieve annualized interest expense savings of approximately \$4.7 million due to the lower interest rate on the 2022 Senior Notes (5.25%) when compared to the weighted average effective interest rate on the 2015 Senior Notes and the Convertible Notes (7.83%), partially offset by a higher principal amount of long-term debt outstanding.

(See "Liquidity and Capital Resources" below and statement on Forward Looking Statements.)

Extinguishment of Debt, Net

On April 1, 2011, the trustee for the Convertible Notes notified bondholders that the Convertible Notes would be convertible at their option for a period beginning on April 1, 2011 and ending on June 30, 2011 as a result of the closing price of Sotheby's Common Stock exceeding \$44.20 for 20 trading days in the 30 consecutive trading days ending on March 31, 2011. In June 2011, Sotheby's received conversion requests totaling a principal amount of \$18.1 million from holders of the Convertible Notes. The conversion obligation of \$22.5 million related to these conversion requests, which consisted of \$18.1 million related to principal and approximately \$4.4 million related to the conversion premium, was settled entirely in cash in August 2011. Sotheby's simultaneously received \$4.4 million in cash to fund the conversion premium through its exercise of a portion of its Convertible Note Hedges. In the third quarter of 2011, Sotheby's recognized a \$1.5 million loss representing the write-off of a proportionate amount of the unamortized discount and deferred transaction costs related to the Convertible Notes redeemed.

(See Note 6 of Notes to Condensed Consolidated Financial Statements.)

Other Income (Expense)

For the three and nine months ended September 30, 2012, Sotheby's results include other income of \$1.6 million and \$2.4 million, respectively, as compared to other expense of (\$1.1) million and (\$1.5) million, respectively, in the prior year. The favorable comparisons versus the prior year are largely the result of the significantly improved performance of the trust assets related to the DCP liability, which resulted in gains of \$1.2 million and \$2 million for the three and nine months ended September 30, 2012, respectively. For the three and nine months ended September 30, 2011, other expense included losses of (\$3.1) million and (\$2.6) million, respectively, from the changes in the fair value of these assets. On a consolidated basis, the impact of the gains (losses) on the trust assets related to the DCP are largely offset by increases (decreases) in the value of the DCP liability, which are recorded within employee benefits costs (see discussion of "Salaries and Related Expenses" above).

Income Tax (Benefit) Expense

The quarterly income tax provision is calculated using an estimated annual effective income tax rate for the period using actual historical information and forward looking estimates. The estimated annual effective income tax rate may fluctuate due to changes in forecasted annual pre-tax income, changes in the jurisdictional mix of forecasted pre-tax income and changes to actual or forecasted permanent book to tax differences (i.e., non-deductible expenses). Furthermore, the effective income tax rate may fluctuate as the result of positive or negative changes to the valuation allowance for net deferred tax assets and the impact of future tax settlements with federal, state or foreign tax authorities; or the impact of tax law changes. Management identifies items which are unusual and non-recurring in nature and treats these as discrete events. The tax effect of discrete items is booked entirely in the quarter in which the discrete event occurs.

As discussed above, changes in the jurisdictional mix of forecasted pre-tax income could result in pre-tax income being higher or lower than anticipated in countries with lower statutory tax rates, which could cause Sotheby's effective income tax rate to fluctuate. The impact of such changes could be meaningful in countries with statutory tax rates that are significantly lower than the U.S. statutory tax rate of 35%. This is particularly true in countries where Sotheby's has significant auction operations such as the U.K., Hong Kong, and Switzerland where the current statutory tax rates are approximately 24% (see "U.K. Finance Act 2012" below), 17%, and 23%, respectively. For the year ended December 31, 2011, pre-tax income of the U.K., Hong Kong, and Switzerland was \$82.8 million, \$63.8 million, and \$21.5 million, respectively, which cumulatively comprised approximately 90% of foreign pre-tax income and approximately 73% of consolidated pre-tax income.

Management anticipates that Sotheby's annual effective income tax expense rate for 2012, excluding discrete items, will be approximately 32%. The anticipated annual effective income tax expense rate for 2012 is lower than the U.S. statutory tax rate of 35% primarily due to foreign earnings taxed at lower rates, partially offset by state and local income taxes and additional U.S. tax on earnings from foreign subsidiaries. (See statement on Forward Looking Statements.)

The table below summarizes Sotheby's income tax (benefit) / expense and effective tax rate for the three and nine months ended September 30, 2012 and 2011, including the impact of discrete items (in thousands of dollars):

Three Months Ended September 30,	2012		2011	
Loss before taxes	\$ (46,423)	\$ (57,900)
Income tax benefit	\$ (13,841)	\$ (28,206)
Effective tax rate	29.8	%	48.7	%
Nine Months Ended September 30,	2012		2011	
Income before taxes	\$ 62,581		\$ 123,539	
Income tax expense	\$ 20,574		\$ 23,631	
Effective tax rate	32.9	%	19.1	%

The change in Sotheby's effective income tax rate when compared to the prior periods is primarily due to a non-recurring \$11.6 million tax benefit recognized in the third quarter of 2011 related to the reversal of a valuation allowance against certain of its deferred tax assets. Sotheby's effective income tax rate for the three and nine months ended September 30, 2012 was also impacted by an increase in foreign earnings that are taxable in the U.S., as well as a lower proportion of consolidated pre-tax income being earned in countries with lower statutory tax rates such as Hong Kong.

U.K. Finance Act 2012-The U.K. Finance Act 2012 (the "Act") was enacted on July 17, 2012. The Act, among other things, reduced the U.K. statutory tax rate from 25% to 24%, effective April 1, 2012. This legislation is not expected to have a material impact on Sotheby's 2012 results.

FINANCIAL CONDITION AS OF SEPTEMBER 30, 2012

This discussion should be read in conjunction with Sotheby's Condensed Consolidated Statements of Cash Flows. For the nine months ended September 30, 2012, total cash and cash equivalents decreased \$304.9 million to \$585.8 million primarily due to the factors discussed below.

Cash Used by Operating Activities—The amount of cash provided or used by Sotheby's operating activities in a period is generally a reflection of its net income or loss, the volume of Net Auction Sales, the timing of auction and private sale settlements, the amount and timing of payments made to vendors, the amount and timing of compensation-related payments and the amount and timing of the collection and/or payment of tax-related balances. (See Note 5 of Notes to Condensed Consolidated Financial Statements for more detailed information related to Sotheby's auction and private sale payment terms, as well as its receivable balances.)

Net cash used by operating activities of approximately \$437.6 million for the nine months ended September 30, 2012 is principally attributable to net cash outflows of \$441.6 million related to the settlement of auction and private sale transactions during the period. This net cash outflow was particularly influenced by net sale proceeds paid to consignors in the first quarter of 2012 in relation to certain high-value sales for which buyer payments were collected in the fourth quarter of 2011, and to a lesser extent, an increase in the balance of accounts receivable associated with situations when Sotheby's has paid the consignor in advance of receiving payment from the buyer. Also contributing to the cash outflows from operating activities was the funding of approximately \$58 million in 2011 incentive compensation payments in February 2012 and \$50 million in tax-related payments. These net cash outflows were partially offset by cash inflows associated with Sotheby's net income of \$42.2 million earned in the period.

Cash Used by Investing Activities—Net cash used by investing activities of \$144.7 million for the nine months ended September 30, 2012 is principally attributable to \$155.4 million in net cash outflows related to client loans reflecting increased demand for art-related financing associated with traditional client liquidity needs, as well as the improved global reach of Sotheby's art-financing business. Cash used by investing activities also includes capital expenditures of \$13.4 million during the first nine months of 2012, a portion of which were made to support certain strategic initiatives, including the expansion of Sotheby's premises in Hong Kong. These cash outflows were partially offset by a decrease of \$23.3 million in restricted cash as a result of net auction proceeds paid to consignors during the period in certain foreign countries where auction houses are legally required to maintain consignor funds in segregated accounts.

Cash Provided by Financing Activities—Net cash provided by financing activities of \$269 million for the nine months ended September 30, 2012 is almost entirely attributable to \$294.6 million in net proceeds received in the third quarter

of 2012 from the issuance of Sotheby's 5.25% Senior Notes, due October 1, 2022. This cash inflow is partially offset by dividend payments (\$16.4 million) and the funding of employee tax obligations upon the vesting of share-based payments (\$11.3 million).

39#

NET LIQUIDITY

Sotheby's is predominantly an agency business that collects and remits cash on behalf of its clients. Consequently, Sotheby's defines Net Liquidity as the amount of cash and cash equivalents that would remain assuming that all accounts receivable were collected and that all consignor payables, accounts payable and current accrued liabilities were paid as of each balance sheet date. This measure, among others, is used by management to assess the amount of Sotheby's available liquidity, excluding borrowings available under its revolving credit facility. As of September 30, 2012, December 31, 2011 and September 30, 2011, Net Liquidity was as follows (in thousands of dollars):

	September 30, 2012	December 31, 2011	September 30, 2011
Cash and cash equivalents	\$ 585,772	\$ 890,633	\$ 542,400
Add: Restricted cash	5,132	28,143	22,703
Add: Accounts receivable, net	441,325	553,502	375,973
Subtract: Due to consignors	(264,570)	(774,535)	(367,235)
Subtract: Accounts payable and other accrued liabilities	(150,912)	(189,262)	(159,155)
Net Liquidity	\$ 616,747	\$ 508,481	\$ 414,686

On September 27, 2012, Sotheby's issued \$300 million aggregate principal amount of 5.25% Senior Notes, due October 1, 2022. The net proceeds received from the issuance of the 2022 Senior Notes were approximately \$294.6 million after deducting fees paid to the initial purchasers and are included in Cash and Cash Equivalents in the table above as of September 30, 2012. The net proceeds of the issuance of the 2022 Senior Notes will be used to redeem all of the outstanding 2015 Senior Notes on November 25, 2012 (\$80 million) and for general corporate purposes, including the repayment of other existing indebtedness. It is management's current intent to utilize \$181.9 million of the net proceeds to settle Sotheby's Convertible Notes, which mature on June 15, 2013. (See "Liquidity and Capital Resources" below and statement on Forward Looking Statements.)

40#

CONTRACTUAL OBLIGATIONS AND COMMITMENTS

The following table summarizes Sotheby's material contractual obligations and commitments as of September 30, 2012 (in thousands of dollars):

	Payments Due by Period				
	Total	Less Than One Year	1 to 3 Years	3 to 5 Years	After 5 Years
York Property Mortgage (1)					
Principal payments	\$228,330	\$3,391	\$224,939	\$—	\$—
Interest payments	35,197	12,613	22,584	—	—
Sub-total	263,527	16,004	247,523	—	—
Unsecured debt (2)					
Principal payments	561,839	181,868	79,971	—	300,000
Interest payments	181,986	19,945	43,916	31,500	86,625
Sub-total	743,825	201,813	123,887	31,500	386,625
Other commitments:					
Operating lease obligations (3)	107,564	16,562	29,550	25,778	35,674
Employment arrangements (4)	14,636	8,128	5,056	1,452	—
Auction guarantees (5)	114,800	114,800	—	—	—
Uncertain tax positions (6)	335	335	—	—	—
Sub-total	237,335	139,825	34,606	27,230	35,674
Total	\$1,244,687	\$357,642	\$406,016	\$58,730	\$422,299

Represents the outstanding principal and monthly interest payments due on the York Property Mortgage. The York Property Mortgage matures on July 1, 2035, has an optional pre-payment date of July 1, 2015, and bears an annual (1) interest rate of approximately 5.6%, which increases subsequent to July 1, 2015. It is Sotheby's current intention to either pre-pay or refinance the York Property Mortgage on or about July 1, 2015, subject to economic and financial market conditions and available cash balances.

(2) Represents Sotheby's aggregate outstanding principal and semi-annual interest payments due on the following outstanding unsecured debt:

\$300 million 5.25% Senior Notes issued on September 27, 2012 and due on October 1, 2022;

\$80 million 7.75% Senior Notes due on June 15, 2015; and

\$182 million 3.125% Convertible Notes, which are due on June 15, 2013, but may be converted at any time beginning on March 15, 2013 and ending on the close of business on June 14, 2013. Prior to March 15, 2013, the Convertible Notes may only be converted: (i) during any fiscal quarter (and only during such fiscal quarter), if the closing price of Sotheby's Common Stock exceeds \$44.20 per share (i.e., 130% of the conversion price of the Convertible Notes) for at least 20 trading days in the period of 30 consecutive trading days at the end of the previous quarter (the "Stock Price Trigger"), (ii) if the trading price of the Convertible Notes falls below a certain threshold over a defined period, or (iii) upon the occurrence of certain specified corporate transactions (as set forth in the Convertible Notes Indenture). It is Sotheby's current intent and policy to settle up to the principal amount of the Convertible Notes in cash.

The remaining \$80 million principal amount of the 2015 Senior Notes have been called for redemption on November 25, 2012. The estimated redemption price of the 2015 Senior Notes is expected to be approximately \$97 million, which includes a premium of approximately \$14 million and unpaid accrued interest of \$2.7 million. The redemption of the 2015 Senior Notes is expected to result in a loss of approximately \$15 million, including the write-off of

approximately \$1 million related to unamortized debt issuance costs and discounts, in the fourth quarter of 2012. The table above reflects Sotheby's indebtedness based on terms and conditions as of September 30, 2012 and, accordingly, does not reflect the impact of the redemption of the 2015 Senior Notes in the fourth quarter of 2012.

(See Note 6 of Notes to Condensed Consolidated Financial Statements for additional information related to the 2022 Senior Notes, the 2015 Senior Notes and the Convertible Notes.)

41#

(3) Represents rental payments due under Sotheby's operating lease obligations.

Represents the remaining commitment for future salaries and other cash compensation (excluding any participation in Sotheby's incentive compensation and share-based payment programs) related to employment arrangements with certain senior employees, which expire at various points between March 2013 and March 2017. Such arrangements (4) may provide, among other benefits, for minimum salary levels and for incentive compensation that is payable only if specified Company and individual goals are attained. Additionally, certain of these arrangements provide annual share-based payments, the accelerated vesting of certain share-based payments, severance payments, other cash compensation, and the continuation of benefits upon termination of employment under certain circumstances.

(5) From time to time in the ordinary course of its business, Sotheby's will guarantee to consignors a minimum price in connection with the sale of property at auction (an "auction guarantee"). As of September 30, 2012, Sotheby's had outstanding auction guarantees totaling \$114.8 million. Each of these auction guarantees has a minimum guaranteed price that is within the range of the pre-sale auction estimates for the underlying property. Sotheby's financial exposure under these auction guarantees is substantially reduced by irrevocable bid arrangements. If each irrevocable bid is the winning bid at auction, the total purchase price owed to Sotheby's, including buyer's premium, would be no less than \$94.8 million. The property related to these auction guarantees will be offered at auctions in the fourth quarter of 2012 and the first quarter of 2013. (See Note 9 of Notes to Condensed Consolidated Financial Statements for more detailed information on auction guarantees.)

Excludes the \$23 million liability recorded for uncertain tax positions that would be settled by cash payments to the respective taxing authorities, which are classified as long-term liabilities on Sotheby's balance sheet as of (6) September 30, 2012. This liability is excluded from the table above because management is unable to make reliable estimates of the period of settlement with the respective taxing authorities. (See Note 11 of Notes to Condensed Consolidated Financial Statements for more detailed information on uncertain tax positions.)

OFF-BALANCE SHEET ARRANGEMENTS

For information related to Off-Balance Sheet Arrangements, see Notes 8 and 9 of Notes to Condensed Consolidated Financial Statements.

CONTINGENCIES

For information related to Contingencies, see Notes 8, 9 and 11 of Notes to Condensed Consolidated Financial Statements.

UNCERTAIN TAX POSITIONS

For information related to uncertain tax positions, see Note 11 of Notes to Condensed Consolidated Financial Statements.

LIQUIDITY AND CAPITAL RESOURCES

Cash and Cash Equivalents—As of September 30, 2012, Sotheby's had global cash and cash equivalents of approximately \$585.8 million, of which \$215.1 million was held in the U.S. and \$370.7 million was held by foreign subsidiaries. The focus of Sotheby's current investment policy is to preserve principal and ensure liquidity. Accordingly, current cash balances are invested in the highest rated overnight deposits.

The September 30, 2012 balance of U.S. cash and cash equivalents represents a net increase of \$145.2 million versus the June 30, 2012 balance, reflecting the \$294.6 million in net proceeds received in the third quarter of 2012 from the issuance of Sotheby's 5.25% Senior Notes, due October 1, 2022. These net proceeds were partially offset by the funding of the settlement of foreign intercompany loans and the impact of the seasonality of Sotheby's business.

The net proceeds received from the issuance of the 2022 Senior Notes will be used to redeem all of the outstanding 2015 Senior Notes on November 25, 2012 (\$80 million) and for general corporate purposes, including the repayment of other existing indebtedness. It is management's current intent to utilize \$181.9 million of the net proceeds to settle Sotheby's 3.125% Convertible Notes, which mature on June 15, 2013. (See statement on Forward Looking Statements.)

42#

The remaining \$80 million principal amount of the 2015 Senior Notes have been called for redemption on November 25, 2012. The estimated redemption price of the 2015 Senior Notes is expected to be approximately \$97 million, which includes a premium of approximately \$14 million and unpaid accrued interest of \$2.7 million. The redemption of the 2015 Senior Notes is expected to result in a loss of approximately \$15 million, including the write-off of approximately \$1 million related to unamortized debt issuance costs and discounts, in the fourth quarter of 2012, in the fourth quarter of 2012. (See Note 6 of Notes to Condensed Consolidated Financial Statements for more detailed information on Sotheby's long-term debt obligations and the redemption of the 2015 Senior Notes.) (See statement on Forward Looking Statements.)

Revolving Credit Facility—Sotheby's and certain of its wholly-owned subsidiaries (collectively, the “Borrowers”) are party to a credit agreement (the “Credit Agreement”) with an international syndicate of lenders led by General Electric Capital Corporation (“GE Capital”). The following summary does not purport to be a complete summary of the Credit Agreement, as amended, and is qualified in its entirety by reference to the Credit Agreement and each of the respective amendments, copies of which were filed as exhibits to previous SEC filings. Terms used, but not defined in this summary, have the meanings set forth in the Credit Agreement and each of the respective amendments.

The Credit Agreement, as amended, provides for a \$200 million revolving credit facility (the “Revolving Credit Facility”) and has a feature whereby any time on or before March 1, 2014 the Borrowers may request, subject to Lenders' approval, an increase to the facility by an amount not to exceed \$50 million. The amount of borrowings available under the Revolving Credit Facility is limited by a borrowing base which is determined by a calculation that is primarily based upon the carrying values of Sotheby's loan portfolio and art inventory. In addition, up to \$10 million of the borrowing capacity under the Revolving Credit Facility may be used to issue letters of credit. As of September 30, 2012, there were no Revolving Credit Facility borrowings outstanding and the amount of borrowings available under the Revolving Credit Facility was approximately \$200 million, as calculated under the borrowing base. Sotheby's has not borrowed or issued any letters of credit under the Revolving Credit Facility since its inception on August 31, 2009.

Borrowings under the Revolving Credit Facility are available in either Dollars to U.S. Borrowers or Pounds Sterling to U.K. Borrowers. The U.S. Borrowers and, subject to certain limitations, the U.K. Borrowers, are jointly and severally liable for all obligations under the Credit Agreement, as amended. In addition, certain subsidiaries of the Borrowers guarantee the obligations of the Borrowers under the Credit Agreement, as amended. The obligations under the Credit Agreement, as amended, are secured by liens on all or substantially all of the personal property of the Borrowers and the Guarantors.

The Credit Agreement, as amended, contains certain customary affirmative and negative covenants including, but not limited to, limitations on capital expenditures, limitations on net outstanding auction guarantees (i.e., auction guarantees less the impact of related risk and reward sharing arrangements) and limitations on the use of proceeds from borrowings under the Credit Agreement, as amended. The Credit Agreement, as amended, also restricts quarterly dividend payments to the lesser of \$0.10 per share or \$8 million. However, the maximum level of quarterly dividend payments may be increased depending upon the achievement of a certain Fixed Charge Coverage Ratio in any period. Management believes that Sotheby's is in compliance with the covenants and terms of the Credit Agreement, as amended.

The Credit Agreement, as amended, also contains certain financial covenants, which are only applicable during certain defined compliance periods. These financial covenants were not applicable for the twelve month period ended September 30, 2012.

The maturity date of the Credit Agreement, as amended, is September 1, 2014, subject to Sotheby's meeting certain liquidity requirements during the period commencing on December 15, 2012 and ending on the date Sotheby's 3.125% Convertible Notes are converted or discharged. Management expects to meet these liquidity requirements throughout this period.

Liquidity and Capital Requirements—Sotheby's generally relies on operating cash flows and existing cash balances, supplemented by Revolving Credit Facility borrowings, if needed, to meet its liquidity and capital requirements. The timing and extent of any borrowings under the Revolving Credit Facility is dependent upon a number of factors including, but not limited to, the cyclical nature of the global art market, the seasonality of Sotheby's business, the

timing of auction sale settlements, the funding of notes receivable and consignor advances, and the geographic mix of cash and cash equivalent balances.

43#

As of September 30, 2012, Sotheby's had global cash and cash equivalents of approximately \$585.8 million, of which \$215.1 million was held in the U.S. and \$370.7 million was held by foreign subsidiaries. Of the \$370.7 million in foreign cash balances, approximately \$293 million would be subject to additional income taxes if repatriated. Based on current projections and management's planned use of foreign cash balances, it is expected that this \$293 million in foreign cash will be indefinitely reinvested outside of the U.S. and will not need to be repatriated to fund Sotheby's U.S. operations or debt repayments. Management continually evaluates its assertions regarding the indefinite reinvestment of certain foreign cash balances. If circumstances were to change and cause management to change its assertion with respect to indefinitely reinvested foreign cash balances, Sotheby's would incur additional income tax expense. (See statement on Forward Looking Statements.)

Sotheby's short-term operating needs and capital requirements include the funding of working capital, the funding of notes receivable and consignor advances, the funding of the redemption of the 2015 Senior Notes, the funding of the settlement of the 3.125% Convertible Notes, the funding of monthly payments on the York Property Mortgage, the funding of capital expenditures and the payment of dividends, as well as the funding of the other short-term commitments due on or before September 30, 2013, as summarized in the table of contractual obligations and commitments above. Capital expenditures are expected to be in the range of \$23 million to \$25 million for the year ended December 31, 2012, including an investment of approximately \$8 million for the expansion of Sotheby's premises in Hong Kong. (See statement on Forward Looking Statements.)

Sotheby's long-term operating needs and capital requirements include the funding of working capital, the funding of notes receivable and consignor advances, the funding of capital expenditures and the payment of dividends, as well as the funding of the presently anticipated long-term contractual obligations and commitments summarized in the table of contractual obligations and commitments above.

On November 7, 2012, Sotheby's Board of Directors declared a quarterly dividend of \$0.08 per share (approximately \$5.4 million) to be paid to shareholders of record as of December 3, 2012 on December 17, 2012. The declaration and payment of future dividends to shareholders is at the discretion of Sotheby's Board of Directors and will depend on many factors, including Sotheby's financial condition and cash flows (in particular, U.S. cash balances and liquidity), as well as other factors that the Board of Directors deems relevant. It is the intention of Sotheby's to continue to pay quarterly dividends at a rate of at least \$0.08 per share, subject to Board approval and depending on economic, financial, market and other conditions at the time. (See statement on Forward Looking Statements.)

Management believes that operating cash flows and existing cash balances, supplemented by Revolving Credit Facility borrowings, if needed, will be adequate to meet Sotheby's anticipated short-term and long-term commitments, operating needs and capital requirements through the September 1, 2014 expiration of the Credit Agreement, as amended. Also, on September 12, 2012, Sotheby's filed an automatically effective Registration Statement on Form S-3ASR (the "Registration Statement") with the Securities and Exchange Commission, which Sotheby's could use to facilitate the raising of further capital through the issuance of debt securities, which may be in the form of notes or other types of debt securities. Sotheby's does not currently intend to issue any additional long-term debt.

Sotheby's continues to have significant cash balances and strong liquidity, especially in consideration of the \$294.6 million in net proceeds received from the issuance of the 2022 Senior Notes on September 27, 2012. As discussed above, approximately \$94 million of these net proceeds will be utilized to redeem the remaining \$80 million principal amount of 2015 Senior Notes on November 25, 2012. Additionally, management currently intends to utilize \$181.9 million of the net proceeds to settle Sotheby's 3.125% Convertible Notes which mature on June 15, 2013. The remaining net proceeds, along with existing cash balances, will continue to provide Sotheby's flexibility in funding potential future operational and capital needs, including the potential domestic and international growth of the Finance segment loan portfolio and possible future expenditures related to international growth markets such as China. Additionally, should business operations and liquidity, and in particular, U.S. cash balances and liquidity, remain strong, management will continue to evaluate traditional corporate finance alternatives, including repurchases of shares of Sotheby's Common Stock and/or some action with respect to Sotheby's dividend. (See statement on Forward Looking Statements.)

44#

FUTURE IMPACT OF RECENTLY ISSUED ACCOUNTING STANDARDS

In September 2011, the Financial Accounting Standards Board issued Accounting Standards Update ("ASU") 2011-08, Intangibles - Goodwill and Other: Testing Goodwill for Impairment, which is codified in Accounting Standards Codification 350, Intangibles - Goodwill and Other. This update gives entities testing goodwill for impairment the option of performing a qualitative assessment before calculating the fair value of a reporting unit in step 1 of the goodwill impairment test. If entities determine, on the basis of qualitative factors, that the fair value of a reporting unit is, more likely than not, less than the carrying amount, the two-step impairment test would be required. Otherwise, further testing would not be needed. This update became effective for Sotheby's quarterly and annual financial statements beginning in the first quarter of 2012. Early adoption was permitted. Sotheby's did not adopt this standard early in 2011 and is currently evaluating whether to perform the qualitative assessment allowed under ASU 2011-08 in 2012 as part of its annual goodwill impairment test to be conducted in the fourth quarter of 2012.

STRATEGIC INITIATIVES IN CHINA

On September 26, 2012, Sotheby's received the approvals from the Chinese government to form and operate a 10-year equity joint venture agreement (the "Joint Venture Agreement") with Beijing GeHua Art Company ("GeHua"). Sotheby's expects to make an initial investment in the joint venture of approximately \$1.2 million (representing an 80% ownership interest) no later than the first quarter of 2013, and it is expected that GeHua will invest approximately \$0.3 million (representing a 20% ownership interest) concurrent with Sotheby's initial investment. The Board of Directors of the joint venture consists of five members, with four members (including the Chairman) appointed by Sotheby's. Structural changes to the joint venture require the unanimous vote of the Board of Directors, while all other decisions require a super majority of two-thirds of the vote. Sotheby's will be responsible for the day-to-day management of the joint venture.

The Joint Venture Agreement will allow Sotheby's to take advantage of a planned free port project that GeHua is developing within the Tianzhu Free Trade Zone in Beijing (the "Beijing Free Port"), which will serve as a tax-advantaged storage location and provide a platform for art-related auctions and private selling exhibitions of non-cultural relics, travelling exhibitions, and educational activities. The date of completion of the Beijing Free Port and the commencement and scope of any storage, auction or private selling activities by the joint venture, as well as any earnings or losses resulting from the operation of the joint venture, are uncertain. However, management believes that the Joint Venture Agreement will strategically enhance Sotheby's long-term presence in mainland China and allow it to potentially capitalize on the opportunities presented by the Chinese art market, which Sotheby's currently serves through its existing operations in Hong Kong. (See statement on Forward Looking Statements and Item 1A, "Risk Factors".)

Sotheby's is also currently in negotiations with the Chinese government to obtain the license required to operate as a Foreign-Invested Commercial Enterprise ("FICE") in order to establish a wholly-owned subsidiary, through which Sotheby's would operate independently in China outside of the Beijing Free Port in the same or similar businesses conducted by the joint venture. Management intends to establish the FICE in Beijing in 2013, with an initial focus on private sales, the hosting of traveling exhibitions and other client liaison activities. (See statement on Forward Looking Statements and Item 1A, "Risk Factors".)

RECENT LEGISLATION

In March 2010, the Patient Protection and Affordable Care Act and the Health Care and Education Reconciliation Act of 2010 were signed into law in the U.S. This legislation expands health care coverage to many uninsured individuals and expands coverage to those already insured. The changes required by this legislation could result in additional health care and other costs for Sotheby's, but management does not expect any material short-term impact on Sotheby's financial results as a result of the legislation and is currently assessing the extent of any long-term impact. Sotheby's does not provide retiree health benefits, and therefore will not be impacted by the elimination of the tax deductibility of the Medicare Part D subsidy resulting from this legislation. (See statement on Forward Looking Statements.)

In July 2010, the Dodd-Frank Wall Street Reform and Consumer Protection Act (the "Dodd-Frank Act") was signed into law in the U.S. This legislation will significantly change the current banking and financial institution regulatory structure and affect the lending, deposit, investment, trading and operating activities of such financial institutions. Management continues to review the provisions of the Dodd-Frank Act, many of which are phased-in over the next

several months and years, and to assess its impact on Sotheby's operations. However, the ultimate effect of the Dodd-Frank Act on the financial services industry in general, and Sotheby's in particular, is uncertain at this time. (See statement on Forward Looking Statements.)

45#

FORWARD LOOKING STATEMENTS

This Form 10-Q contains certain forward looking statements; as such term is defined in Section 21E of the Securities Exchange Act of 1934, as amended, relating to future events and the financial performance of Sotheby's. Such statements are only predictions and involve risks and uncertainties, resulting in the possibility that the actual events or performance will differ materially from such predictions. Major factors which could cause the actual results to differ materially from the predicted results in the forward looking statements include, but are not limited to, the factors listed below under Part II, Item 1A, "Risk Factors," which are not ranked in any particular order.

RECONCILIATION OF NON-GAAP FINANCIAL MEASURES

The following is a reconciliation of cash and cash equivalents to Net Liquidity as of September 30, 2012, December 31, 2011 and September 30, 2011 (in thousands of dollars):

	September 30, 2012	December 31, 2011	September 30, 2011
Cash and cash equivalents	\$ 585,772	\$ 890,633	\$ 542,400
Add: Restricted cash	5,132	28,143	22,703
Add: Accounts receivable, net	441,325	553,502	375,973
Subtract: Due to consignors	(264,570) (774,535) (367,235
Subtract: Accounts payable and other accrued liabilities	(150,912) (189,262) (159,155
Net Liquidity	\$ 616,747	\$ 508,481	\$ 414,686

ITEM 3: QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

Sotheby's continually evaluates the market risk associated with its financial instruments in the normal course of its business. As of September 30, 2012, Sotheby's material financial instruments include: (i) cash and cash equivalents, (ii) restricted cash, (iii) notes receivable, (iv) the York Property Mortgage, (v) the 2015 Senior Notes, (vi) the 2022 Senior Notes, (vii) the Convertible Notes, (viii) the DCP liability and related trust assets, and (ix) outstanding forward exchange contracts.

Management believes that the interest rate risk associated with its financial instruments is minimal as a hypothetical 10% increase or decrease in interest rates is immaterial to its cash flow, earnings, and the fair value of its financial instruments. As of September 30, 2012, a hypothetical 10% strengthening or weakening of the U.S. dollar relative to all other currencies would result in a decrease or increase in Sotheby's cash balances of approximately \$36.8 million. Sotheby's utilizes forward exchange contracts to hedge cash flow exposures related to foreign currency exchange rate movements, which primarily arise from short-term foreign currency denominated intercompany balances and, to a much lesser extent, foreign currency denominated client payable balances. Such forward exchange contracts are typically short-term with settlement dates less than six months from their inception. Additionally, on rare occasions, Sotheby's may purchase foreign currency option contracts to hedge risks associated with foreign currency denominated client payable balances. All derivative financial instruments are entered into by Sotheby's global treasury function, which is responsible for monitoring and managing Sotheby's exposure to foreign currency exchange rate movements. As of September 30, 2012, the notional value of outstanding forward exchange contracts was \$103 million. Notional values do not quantify risk or represent assets or liabilities of Sotheby's, but are used to calculate cash settlements under outstanding forward exchange contracts. Sotheby's is exposed to credit-related risks in the event of nonperformance by the three counterparties to its outstanding forward exchange contracts. Sotheby's does not expect any of these counterparties to fail to meet their obligations, given their high short-term (A1/P1) credit ratings.

ITEM 4: CONTROLS AND PROCEDURES**Disclosure Controls and Procedures**

As of September 30, 2012, the Company has carried out an evaluation, under the supervision and with the participation of the Company's management, including the Company's Chief Executive Officer and Chief Financial Officer, of the effectiveness of the Company's disclosure controls and procedures. Based upon that evaluation, the Company's Chief Executive Officer and Chief Financial Officer have concluded that the Company's disclosure controls and procedures (as defined in Exchange Act Rule 13a-15(e)) were effective as of September 30, 2012.

46#

Changes in Internal Control over Financial Reporting

There was no change in the Company's internal control over financial reporting that occurred during the Company's most recent fiscal quarter that has materially affected, or is reasonably likely to materially affect, the Company's internal control over financial reporting.

PART II: OTHER INFORMATION

ITEM 1: LEGAL PROCEEDINGS

Sotheby's becomes involved in various claims and lawsuits incidental to the ordinary course of its business, including the matter described below. Management is required to assess the likelihood of any adverse judgments or outcomes in these matters, as well as potential ranges of probable or reasonably possible losses. A determination of the amount of losses, if any, to be recorded as a result of these contingencies is based on a careful analysis of each individual exposure with, in some cases, the assistance of outside legal counsel. The amount of losses recorded for such contingencies may change in the future due to new developments in each matter or a change in settlement strategy. Management does not believe that the outcome of any of these pending claims or proceedings will have a material adverse effect on Sotheby's consolidated results of operations, financial condition and/or cash flows.

Estate of Robert Graham, et al. v. Sotheby's, Inc. is a purported class action commenced in the U.S. District Court for the Central District of California in October 2011 on behalf of U.S. artists (and their estates) whose artworks were sold by Sotheby's in the State of California or at auction by California sellers and for which a royalty was allegedly due under the California Resale Royalties Act (the "Resale Royalties Act"). Plaintiffs seek unspecified damages, punitive damages and injunctive relief for alleged violations of the Resale Royalties Act and the California Unfair Competition Law. In January 2012, Sotheby's filed a motion to dismiss the action on the grounds, among others, that the Resale Royalties Act violates the United States Constitution and is pre-empted by the United States Copyright Act of 1976. In February 2012, the plaintiffs filed their response to Sotheby's motion to dismiss. The court heard oral arguments on the motion to dismiss on March 12, 2012. On May 17, 2012, the court issued an order dismissing the action on the ground that the Resale Royalties Act violated the Commerce Clause of the U.S. Constitution. The plaintiffs have appealed this ruling. It is currently not possible to make an estimate of the amount or range of loss that could result from an unfavorable outcome of this matter. Sotheby's believes that there are meritorious defenses to the appeal.

ITEM 1A: RISK FACTORS

Sotheby's operating results and liquidity are significantly influenced by a number of risk factors, many of which are not within its control. These factors, which are not ranked in any particular order, are discussed below.

The global economy and the financial markets and political conditions of various countries may negatively affect Sotheby's business and clients, as well as the supply of and demand for works of art.

The international art market is influenced over time by the overall strength and stability of the global economy and the financial markets of various countries, although this correlation may not be immediately evident. In addition, global political conditions and world events may affect Sotheby's business through their effect on the economies of various countries, as well as on the willingness of potential buyers and sellers to purchase and sell art in the wake of economic uncertainty. Sotheby's business can be particularly influenced by the economies, financial markets and political conditions of the U.S., the U.K., China and the other major countries or territories of Europe and Asia (including the Middle East). Accordingly, weakness in those economies and financial markets can adversely affect the supply of and demand for works of art and Sotheby's business. Furthermore, global political conditions may also influence the enactment of legislation that could adversely impact Sotheby's business.

Government laws and regulations may restrict or limit Sotheby's business.

Many of Sotheby's activities are subject to laws and regulations including, but not limited to, import and export regulations, cultural property ownership laws, data protection and privacy laws, anti-money laundering laws, antitrust laws, copyright and resale royalty laws, and laws and regulations involving sales, use, value-added and other indirect taxes. In addition, Sotheby's is subject to local auction regulations, such as New York City Auction Regulations Subchapter M of Title 6 §§ 2-121-2-125, et. seq. Such regulations currently do not impose a material impediment to the worldwide business of Sotheby's, but do affect the market generally. A material adverse change in such regulations, such as the Equity for Visual Artists bill introduced in the U.S. Congress imposing a 7% resale royalty on sales of art through large auction houses, could affect Sotheby's business. Additionally, export and import laws and cultural property ownership laws could affect the availability of certain kinds of property for sale at Sotheby's principal auction locations or could increase the cost of moving property to such locations.

Foreign currency exchange rate movements can significantly increase or decrease Sotheby's results of operations. Sotheby's has operations throughout the world, with approximately 62% of its revenues earned outside of the U.S. in 2011. Revenues and expenses relating to Sotheby's foreign operations are translated using weighted average monthly exchange rates during the period in which they are recognized. Accordingly, fluctuations in foreign currency exchange rates, particularly for the Pound Sterling and the Euro, can significantly increase or decrease Sotheby's results of operations.

Competition in the international art market is intense and may adversely impact Sotheby's results of operations. Sotheby's competes with other auctioneers and art dealers to obtain valuable consignments to offer for sale either at auction or through private sale. The level of competition is intense and can adversely impact Sotheby's ability to obtain valuable consignments for sale, as well as the commission margins achieved on such consignments.

Sotheby's cannot be assured of the amount and quality of property consigned for sale at auction, which may cause significant variability in its financial results.

The amount and quality of property consigned for sale is influenced by a number of factors not within Sotheby's control. Many major consignments, and specifically single-owner sale consignments, often become available as a result of the death or financial or marital difficulties of the owner, all of which are unpredictable and may cause significant variability in Sotheby's financial results from period to period.

The demand for art is unpredictable, which may cause significant variability in Sotheby's financial results.

The demand for art is influenced not only by overall economic conditions, but also by changing trends in the art market as to which collecting categories and artists are most sought after and by the collecting preferences of individual collectors, all of which are difficult to predict and which may adversely impact the ability of Sotheby's to obtain and sell consigned property, potentially causing significant variability in Sotheby's financial results from period to period.

The loss of key personnel could adversely impact Sotheby's ability to compete.

Sotheby's is largely a service business in which the ability of its employees to develop and maintain relationships with potential sellers and buyers of works of art is essential to its success. Moreover, Sotheby's business is unique, making it important to retain key specialists and members of management. Accordingly, Sotheby's business is highly dependent upon its success in attracting and retaining qualified personnel.

The strategic initiatives being implemented by Sotheby's may not succeed.

Sotheby's current core strategic initiatives are focused on extending the breadth and depth of its relationships with major clients, developing a presence in China and other emerging markets, and enhancing its ability to conduct private sales. Over the past several years, Sotheby's has made substantial investments in information technology to provide clients with access to on-line bidding, improve post-sale client service, and enhance the sothebys.com website. In addition, Sotheby's has hosted new and innovative private sale exhibitions, and, in 2011, completed the construction of a dedicated private sale exhibition gallery, the SI2 Gallery, at its York Avenue headquarters in New York. Sotheby's has also implemented a restructuring plan in 2011 whereby it has streamlined certain European selling operations to allow global management to focus resources on growing markets, especially China, and other strategic priorities. In September 2012, Sotheby's received approval from the Chinese government to form and operate a 10-year equity joint venture with Beijing GeHua Art Company in China, which management believes will strategically enhance Sotheby's

long-term presence in mainland China and allow it to potentially capitalize on the opportunities presented by the Chinese art market. (See "Strategic Initiatives in China" above and statement on Forward Looking Statements.)

48#

Sotheby's future operating results are dependent in part on management's success in implementing these and other strategic initiatives. Furthermore, the inability of Sotheby's to successfully implement its strategic initiatives could result in, among other things, the loss of clients, the impairment of assets, and inefficiencies from operating in new and emerging markets. Also, Sotheby's short-term operating results could be unfavorably impacted by the costs associated with the implementation of its strategic plans.

Sotheby's recently approved joint venture in China is a foreign-invested enterprise under Chinese law. As such, enforcement of certain of Sotheby's rights within the joint venture are subject to approval from the Chinese government, which could limit Sotheby's ability to operate the joint venture.

Because Sotheby's recently approved joint venture in China is a foreign-invested enterprise under Chinese law, all changes in shareholding and constitution of the joint venture will be subject to approval by the Chinese government, including in the event Sotheby's is seeking to terminate the joint venture agreement, exercise its put option, or wind up the joint venture. Accordingly, Sotheby's ability to operate the joint venture and enforce the joint venture agreement provisions could be constrained by the Chinese government and other unforeseen circumstances. (See "Strategic Initiatives in China" above.)

Sotheby's is currently in negotiations with the Chinese government to obtain the license required to operate as a Foreign-Invested Commercial Enterprise ("FICE") in order to establish a wholly-owned subsidiary in China.

Sotheby's negotiations to obtain the license required to operate as a FICE in China may not be successful.

Sotheby's establishment of a wholly-owned subsidiary in China is subject to the receipt of a license from the Chinese government. Sotheby's may not be successful in obtaining this license, which could delay or inhibit its ability to further implement its strategic initiatives in China. (See "Strategic Initiatives in China" above.)

A breach of the security measures protecting Sotheby's global network of information systems may occur.

Sotheby's is dependent on a global network of information systems to conduct its business. A breach of the security measures protecting Sotheby's information systems could adversely impact its operations, reputation and brand.

Sotheby's business continuity plans may not be effective in addressing the impact of unexpected events that could impact its business.

Sotheby's inability to successfully implement its business continuity plans in the wake of an unexpected event, such as an act of God or a terrorist attack occurring near one of its major selling and/or sourcing offices and/or any other unexpected event, could disrupt its ability to operate and adversely impact its operations.

Sotheby's relies on a small number of clients who make a significant contribution to its revenues, profitability and operating cash flows.

Sotheby's relies on a small number of clients who make a significant contribution to its revenues, profitability and operating cash flows. Accordingly, Sotheby's revenues, profitability and operating cash flows are highly dependent upon its ability to develop and maintain relationships with this small group of clients, as well as the financial strength of these clients.

On a limited basis and subject to approval under Sotheby's policy, Sotheby's will pay the consignor before payment is collected from the buyer and/or allows the buyer to take possession of the property before payment is received. In these situations, Sotheby's is exposed to losses in the event the buyer does not make payment.

Under the standard terms and conditions of its auction sales, Sotheby's is not obligated to pay consignors for property that has not been paid for by buyers. However, on a limited basis and subject to approval under Sotheby's policy, the consignor may be paid the net sale proceeds before payment is collected from the buyer while retaining possession of the property. In such situations, if the buyer does not make payment, Sotheby's will take title to the property, but could be exposed to losses if the value of the property declines. In other certain limited instances and subject to approval under Sotheby's policy, Sotheby's allows the buyer to take possession of the property before making payment. In these situations, Sotheby's is liable to the seller for the net sale proceeds whether or not the buyer makes payment and would incur losses in the event of buyer default.

Sotheby's ability to collect auction receivables may be adversely impacted by buyers from emerging markets, as well as by the banking and foreign currency laws and regulations, and judicial systems of the countries in which it operates and in which its clients reside.

Sotheby's operates in 40 countries and has a worldwide client base that has grown in recent years due in part to a dramatic increase in the activity of buyers from emerging markets, and in particular, China. The collection of auction receivables related to buyers from emerging markets may be adversely impacted by the buyer's lack of familiarity with the auction process and the buyer's financial condition. Sotheby's ability to collect auction receivables may also be adversely impacted by the banking and foreign currency laws and regulations regarding the movement of funds out of certain countries, as well as by Sotheby's ability to enforce its rights as a creditor in jurisdictions where the applicable laws and regulations may be less defined, particularly in emerging markets.

Demand for art-related financing is unpredictable, which may cause variability in Sotheby's financial results.

Sotheby's business is, in part, dependent on the demand for art-related financing, which can be significantly influenced by overall economic conditions and by the often unpredictable financial requirements of owners of major art collections. Accordingly, the financial results of Sotheby's Finance segment are subject to variability from period to period.

The ability of Sotheby's to realize proceeds from the sale of collateral for Finance segment loans may be delayed or limited.

In situations when there are competing claims on the collateral for Finance segment loans and/or when a borrower becomes subject to bankruptcy or insolvency laws, Sotheby's ability to realize proceeds from the sale of its collateral may be limited or delayed.

The value of art is subjective and often fluctuates, exposing Sotheby's to losses in the value of its inventory and loan collateral and significant variability in its financial results.

The art market is not a highly liquid trading market. As a result, the valuation of art is inherently subjective, and the realizable value of art often fluctuates over time. Accordingly, Sotheby's is at risk both as to the realizable value of art held in inventory and as to the realizable value of art pledged as collateral for client loans.

In estimating the realizable value of art, management relies on the opinions of Sotheby's specialists, who consider the following complex array of factors when valuing art: (i) whether the artwork is expected to be offered at auction or sold privately, in the ordinary course of Sotheby's business; (ii) the supply and demand for works of art, taking into account economic conditions and changing trends in the art market as to which collecting categories and artists are most sought after; and (iii) recent sale prices achieved in the art market for comparable works of art within a particular collecting category and/or by a particular artist.

If management determines that the estimated realizable value of a specific artwork held in inventory is less than its carrying value, a loss is recorded to reflect management's revised estimate of realizable value. In addition, if the estimated realizable value of the art pledged as collateral for a client loan is less than the corresponding loan balance, management assesses whether it is necessary to record a loss to reduce the carrying value of the loan, after taking into account the ability of the borrower to repay any shortfall between the value of the collateral and the amount of the loan. These factors may cause significant variability in Sotheby's financial results from period to period.

Sotheby's could be exposed to losses as a result of various claims and lawsuits incidental to the ordinary course of its business.

Sotheby's becomes involved in various claims and lawsuits incidental to the ordinary course of its business.

Management is required to assess the likelihood of any adverse judgments or outcomes in these matters, as well as potential ranges of probable or reasonably possible losses. A determination of the amount of losses, if any, to be recorded or disclosed as a result of these contingencies is based on a careful analysis of each individual exposure with, in some cases, the assistance of outside legal counsel. The amount of losses recorded or disclosed for such contingencies may change in the future due to new developments in each matter or a change in settlement strategy.

Sotheby's could be exposed to losses in the event of title or authenticity claims arising from sales or auctions of works of art.

The assessment of works of art offered for auction or private sale can involve potential claims regarding title and authenticity. Items sold by Sotheby's may be subject to statutory warranties as to title and to a limited guarantee as to authenticity under the Conditions of Sale and Terms of Guarantee that are published in Sotheby's auction sale catalogues. The authentication of works of art is based on scholarship and research, but necessarily requires a degree of judgment from Sotheby's art experts. In the event of a title or authenticity claim against Sotheby's, Sotheby's may have recourse against the seller of the property and may have the benefit of insurance, but a claim could nevertheless expose Sotheby's to losses and to reputational risk.

Auction guarantees create the risk of loss resulting from the potential inaccurate valuation of art.

As discussed above, the art market is not a highly liquid trading market and, as a result, the valuation of art is inherently subjective. Accordingly, Sotheby's is at risk with respect to management's ability to estimate the likely selling prices of works of art offered with auction guarantees. If management's judgments about the likely selling prices of works of art offered with auction guarantees prove to be inaccurate, there could be a significant adverse impact on Sotheby's results of operations, financial condition and liquidity.

Sotheby's could be exposed to losses in the event of nonperformance by its counterparties in auction guarantee risk and reward sharing arrangements.

In certain situations, Sotheby's reduces its financial exposure under auction guarantees through risk and reward sharing arrangements. Sotheby's counterparties to these risk and reward sharing arrangements are typically major international art dealers or major art collectors. Sotheby's could be exposed to losses in the event any of these counterparties do not perform according to the terms of these contractual arrangements.

Sotheby's Convertible Notes have early conversion features that, if triggered, could reduce its liquidity in the short-term.

Sotheby's 3.125% Convertible Notes have a stated maturity date of June 15, 2013, but may be exercised during any fiscal quarter if the closing price of Sotheby's Common Stock exceeds \$44.20 per share (i.e., 130% of the conversion price of the Convertible Notes) for at least 20 trading days in the period of 30 consecutive trading days at the end of the previous quarter (the "Stock Price Trigger"). It is Sotheby's current intent and policy to settle up to the principal amount of the Convertible Notes in cash. The Stock Price Trigger was not met during the third quarter of 2012 and, as a result, the Convertible Notes will not be convertible for the fiscal quarter beginning on October 1, 2012 and ending on December 31, 2012. However, if the Convertible Notes were to become exercisable during any fiscal quarter subsequent to December 31, 2012, and if any holders of the Convertible Notes elected to exercise during such periods, Sotheby's liquidity would be reduced.

On September 27, 2012, Sotheby's issued \$300 million aggregate principal amount of 5.25% Senior Notes, due October 1, 2022. The net proceeds received from the issuance of the 2022 Senior Notes were approximately \$294.6 million after deducting fees paid to the initial purchasers. It is management's current intent to utilize \$181.9 million of the net proceeds to settle the Convertible Notes, which mature on June 15, 2013. (See "Liquidity and Capital Resources" above and statement on Forward Looking Statements.)

Future costs and obligations related to the Sotheby's U.K. Pension Plan are dependent on unpredictable factors, which may cause significant variability in employee benefit costs.

Future costs and obligations related to Sotheby's defined benefit pension plan in the U.K. are heavily influenced by changes in interest rates, investment performance in the debt and equity markets and actuarial assumptions, each of which is unpredictable and may cause significant variability in Sotheby's employee benefit costs.

Tax matters may cause significant variability in Sotheby's financial results.

Sotheby's operates in many tax jurisdictions throughout the world and the provision for income taxes involves a significant amount of management judgment regarding interpretation of relevant facts and laws in the jurisdictions in which Sotheby's operates. Sotheby's effective income tax rate can vary significantly between periods due to a number of complex factors including, but not limited to: (i) future changes in applicable laws; (ii) projected levels of taxable income; (iii) pre-tax income being lower than anticipated in countries with lower statutory rates or higher than anticipated in countries with higher statutory rates; (iv) increases or decreases to valuation allowances recorded against deferred tax assets; (v) tax audits conducted by various tax authorities; (vi) adjustments to income taxes upon finalization of income tax returns; (vii) the ability to claim foreign tax credits; (viii) the repatriation of non-U.S. earnings for which Sotheby's has not previously provided for income taxes; and (ix) tax planning.

Sotheby's clients reside in various tax jurisdictions throughout the world. To the extent that there are changes to tax laws or tax reporting obligations in any of these jurisdictions, such changes could adversely impact the ability and/or willingness of clients to purchase or sell works of art through Sotheby's. Additionally, Sotheby's unique business and global client base may also expose Sotheby's to complicated and uncertain sales, use, value-added and other indirect tax analyses, which could lead to claims from tax authorities.

Insurance coverage for artwork may become more difficult to obtain, exposing Sotheby's to losses for artwork in Sotheby's possession.

Sotheby's maintains insurance coverage through brokers and underwriters for the works of art it owns and for works of art consigned to it by its clients, which are stored at Sotheby's facilities around the world. An inability to adequately insure such works of art due to limited capacity of the global art insurance market in the future could have an adverse impact on Sotheby's business.
