Form 425

FILED BY FREEPORT-MCMORAN COPPER & GOLD INC.  
PURSUANT TO RULE 425 UNDER THE SECURITIES ACT OF 1933  
SUBJECT COMPANY: MCMORAN EXPLORATION CO.  
REGISTRATION STATEMENT NO. 333-185742

The information below is excerpted from Freeport-McMoRan Copper & Gold Inc.'s (FCX) (1) press release dated January 22, 2013, announcing its fourth-quarter and year ended December 31, 2012, results and (2) slides that accompanied FCX's January 22, 2013, earnings conference call.

**PENDING ACQUISITIONS OF PLAINS EXPLORATION & PRODUCTION COMPANY (PXP) AND McMoRAN EXPLORATION CO. (MMR)**

On December 5, 2012, FCX announced definitive agreements to acquire PXP and MMR. PXP per-share consideration is equivalent to 0.6531 shares of FCX common stock and \$25.00 in cash (approximately \$3.4 billion in cash and 91 million shares of FCX common stock). MMR per-share consideration consists of \$14.75 in cash (approximately \$3.4 billion in cash, or \$2.1 billion net of MMR interests currently owned by FCX and PXP) and 1.15 units of a royalty trust, which will hold a five percent overriding royalty interest in future production from MMR's existing ultra-deep exploration prospects. The value of the transactions, including assumed debt of the targets, approximates \$20 billion. The combined company would be a premier U.S.-based natural resource company with a growing production profile and an industry leading global portfolio of mineral assets and significant oil and gas resources. The addition of a high quality, U.S.-focused oil and gas resource base is expected to provide strong margins and cash flows, exploration leverage and financially attractive long-term investment opportunities to enhance long-term returns for FCX shareholders. After giving effect to the transactions, FCX's estimated pro forma total debt would have approximated \$20 billion (or \$16 billion net of cash) at September 30, 2012, and total pro forma outstanding FCX common shares would have approximated 1.04 billion. On a pro forma basis for 2013, the combined company's estimated EBITDA (equal to operating income plus depreciation, depletion, and amortization) is expected to approximate \$12 billion (approximately 74 percent from mining and 26 percent from oil and gas, with 48 percent of combined EBITDA from U.S. operations).

Completion of the transactions is subject to receipt of PXP and MMR shareholder approval, regulatory approvals (including U.S. antitrust clearance under the Hart-Scott-Rodino Act), and other customary conditions. On December 26, 2012, the U.S. Federal Trade Commission granted early termination of the Hart-Scott-Rodino waiting period with respect to both transactions. PXP and MMR shareholder meetings to approve the transactions will be scheduled upon the effectiveness of the registration statements filed with the U.S. Securities and Exchange Commission on December 28, 2012. The transactions are expected to close in second-quarter 2013.
