Item 2.02. Results of Operations and Financial Condition

On March 6, 2006, the Company furnished a Form 8-K to the Securities and Exchange Commission incorporating a press release that announced the Company's financial results for the quarter and fiscal year ended December 31, 2005. The Company reported net income in 2005, from continuing operations, of \$6.3 million (or \$0.16 per share) compared to a net loss in 2004 of \$9.6 million (or \$0.26

per share), from continuing operations, excluding the income tax benefit in 2004 of \$6.1 million related to the disposition of the Company's former Canadian subsidiary, Grey Wolf Exploration Inc. and the \$12.6 million gain on debt redemption booked as a result of the Company's refinancing completed in October of 2004. Net income in 2005, including discontinued operations, of \$16.9 million (or \$0.43 per share) compares to net income in 2004 of \$12.4 million (or \$0.34 per share), including discontinued operations.

On March 16, 2006, the Company issued a press release revising the previously reported earnings as a result of the accounting treatment of its gain on the disposition of Grey Wolf in February 2005. The change in accounting treatment resulted in an increase of \$2.2 million in income from discontinued operations. On March 17, 2006, the Company furnished a Form 8-K to the Securities and Exchange Commission incorporating the March 16, 2006 press release.

On March 16, 2006, the Company also filed a Form 12b-25 with the Securities and Exchange Commission stating that it could not file its Form 10-K for the year ended December 31, 2005 without unreasonable effort or expense because the Company was still in the process of providing information necessary for its independent auditors to complete: (i) their audit of the Company's financial statements for the year ended December 31, 2005, and (ii) their audit of management's assessment of the effectiveness of the Company's internal control over financial reporting as of December 31, 2005 in accordance with Section 404 of the Sarbanes-Oxley Act of 2002 and the related rules of the Public Company Accounting Oversight Board.

Item 4.02(a). Non-Reliance on Previously Issued Financial Statements or a Related Audit Report of Completed Interim Review.

On March 16, in connection with the Company's year-end audit procedures, after consultation with the Company's independent auditors, management and the Company's Audit Committee determined that there was an error in the calculation of the gain on the sale of the Company's former Canadian subsidiary, Grey Wolf. The error related to the other comprehensive income account of Grey Wolf related to foreign currency translation at the time of the disposition in February 2005. The correction of the error resulted in a non-cash increase of \$2.2 million to the previously reported gain. The gain is a component of discontinued operations, accordingly the correction of the error increases income from discontinued operations and net income by \$2.2 million.

Accordingly, the unaudited consolidated financial statements contained in the Company's Quarterly Reports on Form 10-Q for the quarters ended March 31, 2005, June 30, 2005 and September 30, 2005 should not be relied upon. The Company intends to effect the restatement through filing amended Quarterly Reports on Form 10-Q for the quarters ended March 31, 2005, June 30, 2005 and September 30, 2005.

The correction of this error is non-cash in nature and will not impact the Company's cash flow from operations or financial condition for the affected periods

The following table summarizes the impact of the restatement as well as the adjustment for the retrospective adoption of SFAS 123R.
