Item 5. Other Events and Regulation FD

McAfee, Inc. (the "Registrant") determined, on July 26, 2004, that it would restate operating results for Q1 2004 and file an amendment to its 10-Q and the related financials for the period. For Q1 2004, the adjustments will increase revenue by \$2.5 million, reduce expenses by \$0.2 million, increase net income by \$2 million and increase diluted earnings per share by \$0.01. The revenue adjustment is being made to properly reflect revenue on a limited number of products identified by McAfee in the context of its recent review of revenue recognition procedures. Prior to 2004, sales of these products were not significant. The expense adjustment relates primarily to a partial reversal of an expense accrual in the appropriate period based upon its settlement for less than the amount of the original accrual. These adjustments were discussed by McAfee's board of directors with McAfee's accountants.
