President's Letter

Dear Shareholder:

I am pleased to present the annual report for Neuberger Berman High Yield Strategies Fund for year ended December 31, 2009. The report includes a portfolio commentary, a listing of the Fund's investments and its audited financial statements for the reporting period.

The Fund's investment objective is to seek high total return through income plus capital appreciation by investing primarily in high yield debt securities. Its performance is dependent on several factors, including fluctuating bond prices, the rate of interest received on securities held by the Fund, the cost of any borrowings and financing arrangements utilized by the Fund and the impact of interest rate hedges that the Fund may use in seeking to manage short-term interest rate costs.

I would like to review briefly the Fund's tender offer activity. During the fiscal year, the Fund implemented a semi-annual tender offer program consisting of up to four tender offers over a two-year period. Under the Fund's tender offer program, if the Fund's common shares trade at an average daily discount to net asset value per share (NAV) of greater than 10% during a 12-week measurement period, the Fund will conduct a tender offer for between 5% and 20% of its outstanding common shares at a price equal to 98% of its NAV, determined on the day the tender offer expires. The first measurement period under the Fund's tender offer program commenced June 5, 2009 and ended on August 28, 2009. Over this measurement period, the Fund traded at an average discount of less than 10% and, therefore, in accordance with the tender offer program, was not required to conduct a tender offer.

In addition, in February 2010, the Fund's Board of Trustees approved a proposal to reorganize the Fund and Neuberger Berman Income Opportunity Fund Inc. into a newly formed fund pursuant to an Agreement and Plan of Reorganization, pending shareholder approval. The Fund currently anticipates that shareholders will consider this proposal at the Fund's 2010 annual meeting of shareholders.

Thank you for your trust in Neuberger Berman High Yield Strategies Fund. We will continue to do our best to earn it.

Sincerely,

Robert Conti
President and CEO
Neuberger Berman High Yield Strategies Fund

High Yield Strategies Fund Commentary

For the year ended December 31, 2009, Neuberger Berman High Yield Strategies Fund posted a strong absolute return and substantially outperformed its benchmark, the Barclays Capital U.S. Corporate High Yield 2% Issuer Cap Index, on a net asset value basis. One of the reasons for the Fund's strong results was the use of leverage, as it served to magnify the Fund's positive performance.

Following its weak performance the previous year, the high yield bond market produced unprecedented gains in 2009. Looking back, the high yield market faltered in 2008 due to the fallout from the financial crisis, a weakening global economy and forced selling into illiquid markets. Collectively, these factors triggered several flights to quality, as investors were drawn to the safety of short-term Treasuries and avoided securities that were perceived to be risky. In this environment, high yield bond prices fell sharply and spreads widened to all-time high levels.

In many ways, market conditions in 2009 were a complete reversal of the prior year. Early in 2009, conditions started to improve, as the government's aggressive initiatives to stabilize financial markets began to bear fruit. In addition, as the reporting period progressed, optimism grew regarding the outlook for the U.S. economy and corporate profits. The market also benefitted from an improvement in the new-issue market, which allowed high yield issuers to repair their balance sheets by extending maturities and increasing liquidity. These factors caused investor sentiment to reverse course, and risk aversion was replaced with increased risk appetite. Against this backdrop, non-Treasuries (or spread sectors) rallied sharply, especially high yield bonds.

High yield investors who stayed the course in 2008 were richly rewarded in 2009. In the past year, the Barclays Capital U.S. Corporate High Yield 2% Issuer Cap Index gained 58.76%. Over that time, high yield spreads narrowed from 1,794 to 662 basis points. From a credit quality perspective, higher-rated securities lagged their lower-rated counterparts, as BB and CCC rated bonds returned 45.88% and 95.28%, respectively.

When the fiscal year began, our portfolio had a somewhat defensive posture, given the weak economy, periods of illiquidity and expectations for rising high yield defaults. This was evident in the Fund's quality biases, as we began the period with an overweight in BB rated bonds and an underweight in CCC rated bonds. As financial conditions improved and the economy stabilized, we pared some of our more defensive exposures and increased our exposure to more cyclical areas. By the end of the fiscal year, we had an underweight in BB rated bonds and overweights in B and CCC rated bonds. This adjustment was beneficial for the Fund's performance as investors' appetite for risk rose sharply during the reporting period.

From an industry perspective, security selection in wireless, sector positioning in autos and security selection in metals and mining were the largest contributors to the Fund's performance relative to the benchmark. In contrast, underweights in banking and insurance and security selection in consumer cyclical services were the largest detractors from relative results.

Even with the sector's impressive gains during the reporting period, we remain positive in our outlook for high yield bond performance. We believe yield spreads between high yield securities and Treasuries have the potential to tighten further in 2010 and have positioned the portfolio accordingly. It is our belief that the sector will be supported by continued modest economic growth, lower-than-expected default rates and better-than-expected recovery rates (the percentage of a bond's par value that is repaid in event of default).

Sincerely,

Ann H. Benjamin and Thomas P. O'Reilly
Portfolio Co-Managers

Market Price ^{2,4}				
High Yield Strategies Fund	07/28/2003	113.27%	5.74%	8.46%

Closed-end funds, unlike open-end funds, are not continuously offered. There is an initial public offering and, once issued, common shares of closed-end funds are sold in the open market through a stock exchange.

The composition, industries and holdings of the Fund are subject to change. Investment return will fluctuate. Past performance is not indicative of future results.

Portfolios that invest in bonds and other fixed income securities can provide regular income and have historically been less volatile than most stock funds. However, they are subject to risks including credit risk, default on principal or interest payments and interest rate fluctuations. High yield bonds, also known as "junk bonds," are subject to additional risks such as the increased risk of default.

Endnotes

- 1 Returns based on Net Asset Value ("NAV") of the Fund.
- 2 Returns based on market price of Fund common shares on the New York Stock Exchange.
- 3 Unaudited performance data current to the most recent month-end are available at www.nb.com.
- 4 Neuberger Berman Management LLC ("Management") has voluntarily agreed to waive a portion of the management fees that it is entitled to receive from the Fund. Please see the notes to the financial statements for specific information regarding the rate of the management fees waived by Management. Absent such a waiver, the performance of the Fund would be lower.

Glossary of Indices

Barclays Capital
U.S. Corporate
High Yield 2%
Issuer Cap Index:

An unmanaged index that is an unmanaged sub-index of Barclays Capital U.S. Corporate High Yield Index, which covers the U.S. dollar-denominated, taxable, fixed rate, non-investment grade corporate bond market, capped such that no single issuer accounts for more than 2% of the index weight.

Please note that the index does not take into account any fees and expenses or any tax consequences of investing in the individual securities that it tracks and that individuals cannot invest directly in any index. Data about the performance of this index is prepared or obtained by Management and includes reinvestment of all income dividends and distributions. The Fund may invest in securities not included in the above-described index.

Notes to Schedule of Investments

† The value of investments in debt securities and interest rate swaps by Neuberger Berman High Yield Strategies Fund (the "Fund") is determined by Neuberger Berman Management LLC ("Management") primarily by obtaining valuations from independent pricing services based on readily available bid quotations, or if quotations are not available, by methods which include considerations such as: yields or prices of securities of comparable quality, coupon, maturity and type; indications as to values from dealers; and general market conditions. If a valuation is not available from an independent pricing service, the Fund seeks to obtain quotations from principal market makers. The value of investments in equity securities by the Fund is determined by Management primarily by obtaining valuations from an independent pricing service based on the latest sale price when that price is readily available. Securities traded primarily on the NASDAQ Stock Market are normally valued by the Fund at the NASDAQ Official Closing Price ("NOCP") provided by NASDAQ each business day. The NOCP is the most recently reported price as of 4:00:02 p.m., Eastern time, unless that price is outside the range of the "inside" bid and asked prices (i.e., the bid and asked prices that dealers quote to each other when trading for their own accounts); in that case, NASDAQ will adjust the price to equal the inside bid or asked price, whichever is closer. Because of delays in reporting trades, the NOCP may not be based on the price of the last trade to occur before the market closes. If there is no reported sale of a security on a particular day, the independent pricing service may value the security based on reported market quotations. In addition, for both debt and equity securities Management has developed a process to periodically review information provided by independent pricing services. For both debt and equity securities, if such quotations are not readily available, securities are valued using methods the Board of Trustees of the Fund (the "Board") has approved on the belief that they reflect fair value. Numerous factors may be considered when determining the fair value of a security, including available analyst, media or other reports, trading in futures or ADRs and whether the issuer of the security being fair valued has other securities outstanding. Fair value prices are necessarily estimates, and there is no assurance that such a price will be at or close to the price at which the security is next quoted or next trades. Short-term debt securities with less than 60 days until maturity may be valued at cost, which, when combined with interest earned, is expected to approximate market value.

In accordance with Accounting Standards Codification ("ASC") 820 "Fair Value Measurements and Disclosures" ("ASC 820"), formerly known as Financial Accounting Standards Board ("FASB") Statement of Financial Accounting Standards No. 157, "Fair Value Measurements," investments held by the Fund are carried at "fair value" as defined by ASC 820. Fair value is defined as the price that a fund would receive upon selling an investment in an orderly transaction to an independent buyer in the principal or most advantageous market for the investment under current market conditions. Various inputs, including the volume and level of activity for the asset or liability in the market are considered in determining the value of the Fund's investments, some of which are discussed above. Significant management judgement may be necessary to estimate fair value in accordance with ASC 820.

In addition to defining fair value, ASC 820 established a three-tier hierarchy of inputs to establish a classification of fair value measurements for disclosure purposes. The three-tier hierarchy of inputs is summarized in the three broad Levels listed below.

- Level 1 – quoted prices in active markets for identical investments
- Level 2 – other significant observable inputs (including quoted prices for similar investments, interest rates, prepayment speeds, credit risk, amortized cost, etc.)
- Level 3 – significant unobservable inputs (including the Fund's own assumptions in determining the fair value of investments)

The inputs or methodology used for valuing an investment are not necessarily an indication of the risk associated with investing in such investments.

Notes to Schedule of Investments (cont'd)

Notes to Schedule of Investments (cont'd)

§ The following is a reconciliation between the beginning and ending balances of investments in which significant unobservable inputs (Level 3) were used in determining value:

Investments in Securities	Beginning balance, as of 1/1/09	Accrued discounts/ (premiums)	Realized gain/loss and change in unrealized appreciation/ (depreciation)	Net purchases/ (sales)	Net transfers in and/or out of Level 3	Balance as of 12/31/09	Net change in unrealized appreciation/ (depreciation) from investments still held as of 12/31/09
Corporate Debt Securities							
Airlines	\$ —	\$47,959	\$447,224	\$1,929,812	\$ —	\$2,424,995	\$372,378
Preferred Stocks							
Banking	63,250	—	103,530	(21)	(166,759)	—	—

Liability Valuation Inputs

The following is a summary, by category of Level, of inputs used to value the Fund's derivatives as of December 31, 2009:

	Level 1	Level 2	Level 3	Total
Interest rate swap contracts	\$ —	\$(1,119,006)	\$ —	\$(1,119,006)

At December 31, 2009, the cost of investments for U.S. federal income tax purposes was \$183,946,347. Gross unrealized appreciation of investments was \$17,581,913 and gross unrealized depreciation of investments was \$3,337,382, resulting in net unrealized appreciation of \$14,244,531, based on cost for U.S. federal income tax purposes.

ñ Restricted security subject to restrictions on resale under federal securities laws. These securities may be resold in transactions exempt from registration, normally to qualified institutional buyers under Rule 144A under the Securities Act of 1933, as amended, and have been deemed by the investment manager to be liquid. At December 31, 2009, these securities amounted to \$51,973,642 or 37.6% of net assets applicable to common shareholders.

μ Floating rate securities are securities whose yields vary with a designated market index or market rate. These securities are shown at their current rates as of December 31, 2009.

È All or a portion of this security is on loan (see Note A of Notes to Financial Statements).

* Security did not produce income for the last twelve months.

‡ Managed by an affiliate of Management and could be deemed an affiliate of the Fund (see Notes A & E of Notes to Financial Statements).

∅∅ All or a portion of this security is segregated in connection with obligations for interest rate swap contracts and delayed delivery purchase commitments.

^^ Denotes a step-up bond: a zero coupon bond that converts to a fixed rate of interest at a designated future date.

^ All or a portion of this security was purchased on a delayed delivery basis. As of December 31, 2009, the value of the Fund's unfunded loan commitments was \$537,972, pursuant to the following loan agreement:

Borrower	Principal Amount	Value
United Airlines, Inc., Term Loan B, 2.28%, due 2/1/14	\$685,000	\$537,972

Notes to Financial Statements High Yield Strategies Fund

Note A—Summary of Significant Accounting Policies:

- 1 General: The Fund was organized as a Delaware statutory trust on April 8, 2003, and is registered under the Investment Company Act of 1940, as amended (the "1940 Act"), as a diversified, closed-end management investment company. Management is the investment adviser to the Fund. Neuberger Berman Fixed Income LLC (formerly known as Lehman Brothers Asset Management LLC) ("NBFI") is the sub-adviser to the Fund. The Fund's common shares are listed on the New York Stock Exchange under the symbol NHS.

The Fund's investment objective is to seek high total return (income plus capital appreciation). The Fund pursues its investment objective by investing its assets primarily in high yield debt securities.

The preparation of financial statements in accordance with U.S. generally accepted accounting principles requires Management to make estimates and assumptions at the date of the financial statements. Actual results could differ from those estimates.

- 2 Portfolio valuation: Investment securities are valued as indicated in the notes following the Schedule of Investments.
- 3 Securities transactions and investment income: Security transactions are recorded on trade date for financial reporting purposes. Dividend income is recorded on the ex-dividend date. Interest income, including amortization of premium, where applicable, and accretion of discount on securities (adjusted for original issue discount, where applicable) is recorded on the accrual basis. Realized gains and losses from security transactions are recorded on the basis of identified cost and stated separately in the Statement of Operations. Included in net realized gain (loss) on investments are proceeds from the settlements of class action litigation in which the Fund participated as a plaintiff. The amount of such proceeds for the year ended December 31, 2009 was \$5,493.
- 4 Income tax information: It is the policy of the Fund to continue to qualify as a regulated investment company by complying with the requirements of Subchapter M of the Internal Revenue Code applicable to regulated investment companies and to distribute substantially all of its earnings to its shareholders. Therefore, no federal income or excise tax provision is required.

The Fund has adopted the provisions of ASC 740 "Income Taxes" ("ASC 740"), formerly known as FASB Interpretation No. 48 "Accounting for Uncertainty in Income Taxes — an interpretation of FASB Statement No. 109." ASC 740 sets forth a minimum threshold for financial statement recognition of the benefit of a tax position taken, or expected to be taken, in a tax return. The Fund recognizes interest and penalties, if any, related to unrecognized tax benefits as an income tax expense in the Statement of Operations. The Fund is subject to examination by U.S. federal and state tax authorities for returns filed for the prior three fiscal years 2006 - 2008. As of December 31, 2009, the Fund did not have any unrecognized tax benefits.

Income distributions and capital gain distributions are determined in accordance with income tax regulations, which may differ from U.S. generally accepted accounting principles. These differences are primarily due to differing treatments of income and gains on various investment securities held by the Fund, timing differences and differing characterization of distributions made by the Fund as a whole.

As determined on December 31, 2009, permanent differences resulting primarily from different book and tax accounting for income recognized on interest rate swaps, non-deductible restructuring costs, and delayed settlement compensation on bank loans were reclassified at fiscal year-end. These reclassifications had no effect on net income, net asset value applicable to common shareholders or net asset value per common share of the Fund.

The tax character of distributions paid during the years ended December 31, 2009 and December 31, 2008 was as follows:

Ordinary Income		Distributions Paid From:				Total	
		Long-Term Capital Gain		Tax Return of Capital			
2009	2008	2009	2008	2009	2008	2009	2008
\$14,914,388	\$18,316,981	\$ —	\$ —	\$ —	\$1,198,186	\$14,914,388	\$19,515,167

As of December 31, 2009, the components of distributable earnings (accumulated losses) on a U.S. federal income tax basis were as follows:

Undistributed Ordinary Income	Undistributed Long-Term Gain	Unrealized Appreciation (Depreciation)	Loss Carryforwards and Deferrals	Total
\$ 634,580	\$ —	\$13,135,597	\$(36,254,442)	\$(22,484,265)

The difference between book basis and tax basis distributable earnings is attributable primarily to timing differences of wash sales, distribution payments, income recognized on interest rate swaps, delayed settlement compensation on bank loans, partnership basis adjustments, post October loss deferrals, and capital loss carryforwards.

To the extent the Fund's net realized capital gains, if any, can be offset by capital loss carryforwards, it is the policy of the Fund not to distribute such gains. As determined at December 31, 2009, the Fund had unused capital loss carryforwards available for federal income tax purposes to offset net realized capital gains, if any, as follows:

Expiring in:	
2016	2017
\$30,497,592	\$5,434,807

Under current tax law, certain net capital and net foreign currency losses realized after October 31 within the taxable year may be deferred and treated as occurring on the first day of the following tax year. For the year ended December 31, 2009, the Fund elected to defer \$322,043 of net capital losses arising between November 1, 2009 and December 31, 2009.

5 Foreign taxes: Foreign taxes withheld represent amounts withheld by foreign tax authorities net of refunds recoverable.

6 Distributions to common shareholders: The Fund earns income, net of expenses, daily on its investments. The Fund intends to make monthly distributions of net investment income to common shareholders. In addition, at least annually, the Fund distributes any net realized capital gains. There is no assurance that the Fund will always be able to pay distributions of a particular size, or that distributions will consist solely of net investment income and realized capital gains. The composition of the Fund's distributions for the year ended December 31, 2009 will be reported to Fund shareholders on IRS Form 1099DIV. The Fund may pay additional distributions to avoid excise tax or to satisfy the requirements of Subchapter M of the Internal Revenue Code. Distributions to common shareholders are recorded on the ex-date. Net realized capital gains, if any, will be offset to the extent of any available capital loss carryforwards.

Distributions to preferred shareholders are accrued and determined as described in note A-8.

On December 31, 2009, the Fund declared a monthly distribution to common shareholders in the amount of \$0.085 per share, payable after the close of the reporting period, on January 29, 2010, to shareholders of record on January 15, 2010, with an ex-date of January 13, 2010. Subsequent to December 31, 2009, the Fund declared a monthly distribution to common shareholders in the amount of \$0.11 per share, payable on February 26, 2010 to shareholders of record on February 16, 2010, with an ex-date of February 11, 2010.

7 Expense allocation: Certain expenses are applicable to multiple funds. Expenses directly attributable to the Fund are charged to the Fund. Expenses borne by the complex of related investment companies, which includes open-end and closed-end investment companies for which Management serves as investment manager, that are not directly attributed to the Fund, are allocated among the Fund and the other investment companies in the complex or series thereof, on the basis of relative net assets, except where a more appropriate allocation of expenses to each investment company in the complex or series thereof can otherwise be made fairly.

8 Financial leverage: On October 22, 2003, the Fund issued 3,600 Money Market Cumulative Preferred Shares ("MMP"), each without par value, with proceeds of \$90,000,000 in a public offering. On November 13, 2008, the Fund redeemed all 3,600 MMP at the liquidation price of \$25,000 per share plus any accumulated and unpaid dividends.

In September 2008, the Fund entered into a Master Securities Purchase Agreement and a Master Note Purchase Agreement pursuant to which it could issue privately placed notes ("PNs") and privately placed perpetual preferred shares ("PPS" and, together with PNs, "Private Securities"). In November 2008, the Fund issued PNs with an aggregate principal value of \$45,900,000 and issued 492 PPS with an aggregate liquidation preference of \$12,300,000 and used those proceeds to redeem outstanding MMP.

The PNs mature in November 2013 and interest thereon is accrued daily and paid quarterly. The PPS have a liquidation preference of \$25,000 per share plus any accumulated unpaid distributions, whether or not earned or declared by the Fund, but excluding interest thereon ("PPS Liquidation Value"). Distributions are accrued daily and paid quarterly for PPS. For the year ended December 31, 2009, the distribution rate on the PPS ranged from 3.15% to 4.41% and the interest rate on the PNs ranged from 1.65% to 2.86%. The Fund has paid up front offering and organizational expenses which are being amortized over the life of the PNs. The expenses are included in the interest expense that is reflected in the Statement of Operations.

The Fund may redeem PPS or prepay the PNs, in whole or in part, at its option after giving a minimum amount of notice to the relevant holders of the Private Securities but will incur additional expenses if it chooses to so redeem or prepay. The Fund is also subject to certain restrictions relating to the Private Securities. Failure to comply with these restrictions could preclude the Fund from declaring any distributions to common shareholders or repurchasing common shares and/or could trigger the mandatory redemption of PPS at PPS Liquidation Value and certain expenses and/or mandatory prepayment of PNs at par plus accrued but unpaid interest and certain expenses. The holders of PPS are entitled to one vote for each dollar of liquidation preference represented by PPS owned and will vote with holders of common shares as a single class, except that the holders of PPS will vote separately as a class on certain matters, as required by law or the Fund's organizational documents. The holders of PPS, voting as a separate class, are entitled at all times to elect two Trustees of the Fund, and to elect a majority of the Trustees of the Fund if the Fund fails to pay distributions on PPS for two consecutive years.

9 Security lending: A third party, eSecLending, currently serves as exclusive lending agent for the Fund. eSecLending, as agent, has assisted the Fund in conducting bidding processes to try to identify a principal that would pay a guaranteed amount to the Fund in consideration of the Fund entering into an exclusive securities lending arrangement. During the fiscal year, no principal had an exclusive securities lending arrangement with the Fund; as such, the Fund was not guaranteed any particular level of income.

Under the securities lending arrangement, the Fund receives cash collateral at the beginning of each transaction equal to at least 102% of the prior day's market value of the loaned securities (105% in the case of international securities). The Fund may invest all the cash collateral in Neuberger Berman Securities Lending Quality Fund, LLC ("Quality Fund"), a fund managed by NBF, an affiliate of Management. Effective July 1, 2009, Dwight Asset Management

Company LLC became the Sub-Adviser to the Quality Fund. The Quality Fund is not a money market fund that is registered under the 1940 Act and does not operate in accordance with all requirements of Rule 2a-7 under the 1940 Act. There is no assurance that the Quality Fund will maintain a \$1.00 share price.

The market value of the Fund's investments in the Quality Fund as of the fiscal year ended December 31, 2009, if any, is reflected in the Fund's Schedule of Investments. If it were necessary to liquidate assets in the Quality Fund to meet returns on outstanding securities loans at a time when the Quality Fund's price per share was less than \$1.00, the Fund may not receive an amount from the Quality Fund that is equal to the collateral the Fund would be required to return to the borrower of the securities and the Fund would be required to make up for this shortfall. In addition, as a result of recent reduced liquidity in the credit and fixed income markets, it may be difficult to dispose quickly of some securities in the Quality Fund at the price at which the Quality Fund is carrying them.

Net income from the lending program represents any amounts received from a principal plus income earned on the cash collateral invested in Quality Fund or in other investments, if applicable, less cash collateral fees and other expenses associated with the loans. For the fiscal year ended December 31, 2009, the Fund received net income under the securities lending arrangement of approximately \$20,010, which is reflected in the Statement of Operations under the caption "Income from securities loaned — net." For the fiscal year ended December 31, 2009, "Income from securities loaned — net" consisted of approximately \$29,806 in income earned on cash collateral and amounts received from a principal (including approximately \$4,026 of interest income earned from the Quality Fund), less fees and expenses paid of approximately \$9,796.

10 Repurchase agreements: The Fund may enter into repurchase agreements with institutions that Management has determined are creditworthy. Each repurchase agreement is recorded at cost. The Fund requires that the securities purchased in a repurchase agreement be transferred to the custodian in a manner sufficient to enable the Fund to assert a perfected security interest in those securities in the event of a default under the repurchase agreement. The Fund monitors, on a daily basis, the value of the securities transferred to ensure that their value, including accrued interest, is greater than amounts owed to the Fund under each such repurchase agreement.

11 Reverse repurchase agreements: The Fund may enter into reverse repurchase agreements with institutions deemed creditworthy by Management. A reverse repurchase agreement involves the sale of a security by the Fund, with an agreement to repurchase the same or substantially similar security at an agreed upon price and date. Securities purchased subject to repurchase agreements must have an aggregate market value greater than or equal to the repurchase price plus accrued interest at all times. Reverse repurchase agreements involve the risk that the market value of the securities purchased with the proceeds from the sale of securities received by the Fund may decline below the price of the securities that the Fund is obligated to repurchase. There were no reverse repurchase agreements outstanding at December 31, 2009.

12 Transactions with other funds managed by Neuberger Berman Management LLC: Pursuant to an Exemptive Order issued by the Securities and Exchange Commission, the Fund may invest in a money market fund managed by Management or an affiliate. Through August 10, 2009, the Fund invested in Neuberger Berman Prime Money Fund ("Prime Money"), as approved by the Board. Prime Money sought to provide the highest available current income consistent with safety and liquidity. For any cash that the Fund invested in Prime Money, Management waived a portion of its management fee equal to the management fee it received from Prime Money on those assets (the "Arrangement"). For the year ended December 31, 2009, management fees waived under this Arrangement amounted to \$3,901 and are reflected in the Statement of Operations under the caption "Investment management fees waived." For the year ended December 31, 2009, income earned under this Arrangement amounted to \$10,143 and is reflected in the Statement of Operations under the caption "Income from investments in affiliated issuers."

On August 10, 2009, the Fund ceased investing in Prime Money. On this date, the Fund's shares of Prime Money were redeemed in exchange for portfolio holdings of Prime Money, which were used to purchase Institutional Class shares of State Street Institutional Liquid Reserves Fund.

13 Concentration of credit risk: The Fund will normally invest at least 80% of its Managed Assets (as defined in Note B) in investments offering high current income, which generally will be in the lower rating categories of recognized rating agencies. These investments are regarded as predominantly speculative with respect to the issuer's

capacity to pay interest and repay principal in accordance with the terms of the obligations and will generally involve more credit risk than securities in the higher rating categories. In addition, the trading market for high yield investments may be relatively less liquid than the market for higher-rated investments.

Due to the inherent volatility and illiquidity of the high yield securities in which the Fund invests and the real or perceived difficulty of issuers of those high yield securities to meet their payment obligations during economic downturns or because of negative business developments relating to the issuer or its industry in general, the value and/or price of the Fund's common shares may fluctuate more than would be the case if the Fund did not concentrate in high yield securities.

14 Risk associated with the use of leverage: The Fund's use of leverage through the issuance of Private Securities, as well as the economic leverage inherent in certain derivatives, including credit default swaps, creates risks for holders of common shares. There is no assurance that the Fund's leveraging strategies will be successful. If the Fund issues Private Securities to make additional investments and the income and capital appreciation from those investments exceed the distributions payable on the PPS or the interest payable on the PNs, the Fund's investment return will be greater than if leverage had not been used. However, if the distributions payable on the PPS or the interest payable on the PNs exceed the income and capital appreciation from the additional investments, the Fund would lose money and its investment return will be lower than if leverage had not been used. Leverage creates risk which may adversely affect the return for holders of common shares, including:

(a) the likelihood of greater volatility of net asset value and market price of the Fund's common shares;

(b) the possibility either that common share income will fall if the PPS distribution rate or the PN interest rate rises or the Fund's borrowing costs increase, or that common share income will fluctuate because of changes in the Private Securities distribution and interest rates or borrowing costs.

15 Derivative instruments: The Fund is exposed to interest rate risk due to its use of leverage. During the year ended December 31, 2009, the Fund's use of derivatives was limited to interest rate swap contracts. The Fund adopted ASC 815 "Derivatives and Hedging" ("ASC 815"), formerly known as FASB Statement of Financial Accounting Standards No. 161 "Disclosures about Derivative Instruments and Hedging Activities," effective January 1, 2009.

Interest Rate Swaps: The Fund may enter into interest rate swap transactions, with institutions that Management has determined are creditworthy, to reduce the risk that an increase in short-term interest rates could reduce common share net earnings as a result of leverage. Under the terms of an interest rate swap contract, the Fund agrees to pay the swap counter party a fixed-rate payment in exchange for the counter party's paying the Fund a variable-rate payment that is intended to approximate all or a portion of the Fund's variable-rate payment obligations on the Fund's Private Securities. The fixed-rate and variable-rate payment flows are netted against each other, with the difference being paid by one party to the other on a monthly basis. The Fund segregates cash or liquid securities having a value at least equal to the Fund's net payment obligations under any swap transaction, marked to market daily.

Risks may arise if the counter party to a swap contract fails to comply with the terms of its contract. The loss incurred by the failure of a counter party is generally limited to the net interest payment to be received by the Fund and/or the termination value at the end of the contract. Additionally, risks may arise if there is no liquid market for these agreements or from movements in interest rates unanticipated by Management.

Periodic expected interim net interest payments or receipts on the swaps are recorded as an adjustment to unrealized gains/losses, along with the fair value of the future periodic payment streams on the swaps. The unrealized gains/losses associated with the periodic interim net interest payments are reclassified to realized gains/losses in conjunction with the actual net receipt or payment of such amounts. The reclassifications do not impact the Fund's

total net assets applicable to common shareholders or its total net increase (decrease) in net

assets applicable to common shareholders resulting from operations. At December 31, 2009, the Fund had an outstanding interest rate swap contract as follows:

Swap Counter Party	Notional Amount(1)	Termination Date	Rate Type		Accrued Net Interest Receivable (Payable)	Unrealized Appreciation (Depreciation)	Total Fair Value
			Fixed-rate Payments Made by the Fund	Variable-rate Payments Received by the Fund(2)			
Citibank, N.A.	\$45,000,000	January 28, 2011	2.92%	0.23%	\$(10,072)	\$(1,108,934)	\$(1,119,006)

(1) The notional amount at period end is indicative of the volume throughout the period.

(2) 30 day LIBOR (London Interbank Offered Rate) at December 24, 2009.

At December 31, 2009, the Fund held the following derivatives (not designated as hedging instruments under ASC 815) as open contracts, which are grouped by primary risk exposure below:

Liability Derivatives

	Interest Rate Risk
Interest Rate Swap Contract(1)	\$(1,119,006)
Total Value	\$(1,119,006)

(1) "Interest Rate Swap Contract" reflects the appreciation (depreciation) of the interest rate swap contract plus accrued interest, which is reported as "Interest rate swaps, at value" within the Statement of Assets and Liabilities.

The impact of the use of derivative instruments as reflected in the Statement of Operations during the year ended December 31, 2009, was as follows:

Realized Gain (Loss)(1)

	Interest Rate Risk
Interest Rate Swap Contract	\$(1,173,621)
Total Realized Gain (Loss)	\$(1,173,621)

Change in Appreciation (Depreciation)(2)

Interest Rate Risk

Interest Rate Swap Contract	\$448,123
Total Change in Appreciation (Depreciation)	\$448,123

(1) Statement of Operations location: Net realized gain (loss) on interest rate swap contracts.

(2) Statement of Operations location: Change in net unrealized appreciation (depreciation) in value of interest rate swap contracts.

16 Indemnifications: Like many other companies, the Fund's organizational documents provide that its officers and trustees are indemnified against certain liabilities arising out of the performance of their duties to the Fund. In addition, both in some of its principal service contracts and in the normal course of its business, the Fund enters into contracts that provide indemnifications to other parties for certain types of losses or liabilities. The Fund's maximum exposure under these arrangements is unknown as this could involve future claims against the Fund.

Note B—Management Fees, Administration Fees, Distribution Arrangements, and Other Transactions with Affiliates:

The Fund pays all expenses incurred in connection with the operations of the Fund. These expenses, among others, include custodian and fund accounting and administrative fees, legal and audit fees, fees and expenses of the Trustees who are not "interested persons" within the meaning of the 1940 Act ("Independent Fund Trustees"), and printing expenses.

The Fund pays Management a monthly fee computed at an annual rate of 0.60% of the Fund's average daily "Managed Assets" (net assets, including assets attributable to any outstanding preferred shares, plus the aggregate principal amount of any borrowings). Management is responsible for developing, implementing and supervising the Fund's investment program and providing certain administrative services to the Fund. Management has retained NBFi to serve as the sub-adviser of the Fund and to manage the Fund's investment portfolio. Management compensates NBFi for its services as sub-adviser. Management pays NBFi a monthly sub-advisory fee calculated at the following annual percentage rates of the Fund's average daily Managed Assets: 0.55% on the Fund's first \$25 million of Managed Assets, 0.45% on the next \$25 million of Managed Assets, 0.35% on the next \$50 million of Managed Assets, and 0.30% on Managed Assets that are in excess of \$100 million.

In connection with the May 2009 tender offer and the tender offer program, effective June 9, 2009, Management has agreed to voluntarily waive a portion of the management fee it is entitled to receive from the Fund at a rate of 0.05% of the average daily Managed Assets. For the year ended December 31, 2009, such waived fees amounted to \$52,002.

Until January 30, 2009, First Trust Portfolios L.P. ("First Trust") served as the Fund's distribution and marketing agent, and investor servicing agent. As the Fund's distribution and marketing agent, First Trust provided certain distribution and marketing services for the Fund's common shares including preparing marketing materials and presentations, developing contacts with brokers whose clients may have an interest in acquiring Fund shares and replying to information requests from prospective investors. In consideration for these services, First Trust received a fee paid by Management.

First Trust, as the investor servicing agent, developed and maintained a website for the Fund, assisted in the dissemination of the Fund's net asset value and market price, provided ongoing shareholder and account maintenance services, replied to information requests from shareholders and aided in secondary market support. In consideration for these services, the Fund paid First Trust a monthly fee computed at the annual rate of 0.05% of the Fund's average daily Managed Assets. For the period ended January 30, 2009, the Fund paid First Trust, as the investor servicing agent, a fee equal to \$6,600.

After January 30, 2009 Management assumed the functions that First Trust provided.

The Fund pays no compensation to its officers or to its trustees who are interested Trustees of Management or its affiliates.

In order to satisfy rating agency requirements and the terms of the Private Securities, the Fund is required to provide the rating agency and holders of Private Securities a report on a monthly basis verifying that the Fund is maintaining eligible assets having a discounted value equal to or greater than the basic maintenance amount, which is the minimum level set by the rating agency as one of the conditions to maintain the AAA rating on the Private Securities. "Discounted value" refers to the fact that the rating agency requires the Fund, in performing this calculation, to discount portfolio securities below their face value, at rates determined by the rating agency. The Fund pays State Street Bank & Trust Company ("State Street") for the preparation of this report, which is reflected in the Statement of Operations under the caption "Basic maintenance expense."

State Street serves as the Fund's custodian and The Bank of New York Mellon serves as the Fund's transfer agent, registrar, and dividend paying agent.

The Fund retains Management as its administrator under an Administration Agreement. The Fund pays Management an administration fee at the annual rate of 0.05% of its average daily Managed Assets under this agreement. Additionally, Management retains State Street as its sub-administrator under a Sub-Administration Agreement. Management pays State Street a fee for all services received under the agreement.

During the reporting period, the predecessor of Management, the investment adviser of the Fund, and Lehman Brothers Asset Management LLC, the sub-adviser of the Fund, were wholly owned subsidiaries of Lehman Brothers Holdings Inc. ("Lehman Brothers"), a publicly owned holding company. On September 15, 2008, Lehman Brothers filed a voluntary petition under Chapter 11 of the U.S. Bankruptcy Code. On December 3, 2008, NBSH Acquisition, LLC ("NBSH"), an entity organized by key members of Neuberger Berman's senior management, was selected as the successful bidder in the public auction to acquire a majority interest in Neuberger Berman's business and the fixed income and certain alternative asset management businesses of Lehman Brothers' Investment Management Division (together with Neuberger Berman, the "Acquired Businesses") (the "Acquisition"). On December 22, 2008, the bankruptcy court having jurisdiction over the Lehman Brothers matter approved the sale of the Acquired Businesses to NBSH (or its successor or assign), as the successful bidder.

The Acquisition closed on May 4, 2009. The Acquired Businesses are now indirectly owned by, among others, portfolio managers, Neuberger Berman's management team, and certain key members and senior professionals who are employed in various parts of the Neuberger Berman complex of companies, with a minority interest retained by Lehman Brothers and certain affiliates of Lehman Brothers.

The closing of the Acquisition resulted in an "assignment" of the Fund's Investment Advisory Agreement and Sub-Advisory Agreement. Such an assignment, by law, would automatically terminate those agreements. Accordingly, prior to the closing, the Board, including the Independent Fund Trustees, considered and approved a new Investment Advisory Agreement and Sub-Advisory Agreement and an interim Investment Advisory Agreement and Sub-Advisory Agreement for the Fund. The interim agreements, which are virtually identical to the agreements previously in effect and can remain in effect for up to 150 days, became effective upon the closing of the Acquisition. The new agreements, which are virtually identical to those previously in effect and require shareholder approval, were approved by a vote of the Fund's shareholders on May 13, 2009.

These events have not had a material impact on the Fund or its operations. Management and NBFI continue to operate in the ordinary course of business as the investment adviser and sub-adviser of the Fund, respectively.

The Fund has an expense offset arrangement in connection with its custodian contract. For the year ended December 31, 2009, the impact of this arrangement was a reduction of expenses of \$174.

Note C—Securities Transactions:

For the year ended December 31, 2009, there were purchases and sales of investments (excluding short-term securities and interest rate swap contracts) of \$264,666,154 and \$276,930,326, respectively.

Note D—Capital:

At December 31, 2009, the common shares outstanding and the common shares of the Fund owned by Neuberger were as follows:

Common Shares	Common Shares
Outstanding	Owned by Neuberger

11,029,127

—

The Fund's Declaration of Trust authorizes the Trustees to issue an unlimited number of common shares for the Fund, each without par value. Transactions in common shares for the years ended December 31, 2009 and December 31, 2008 were as follows:

Redemption of Common Shares		Net Decrease in Common Shares Outstanding	
2009	2008	2009	2008
(1,225,458)	—	(1,225,458)	—

Note E—Investments In Affiliates:

Name of Issuer	Balance of Shares Held December 31, 2008	Gross Purchases and Additions	Gross Sales and Reductions	Balance of Shares Held December 31, 2009	Value December 31, 2009	Income from Investments in Affiliated Issuers Included in Total Income
Neuberger Berman Prime Money Fund Trust Class*	7,789,974	93,339,933	101,129,907	—	\$ —	\$ 10,143
Neuberger Berman Securities Lending Quality Fund, LLC**	—	30,244,766	25,288,125	4,956,641	5,055,774	4,026
Total					\$5,055,774	\$ 14,169

* Prime Money was also managed by Management and may have been considered an affiliate since it had the same officers, Board members, and investment manager as the Fund and because, at times, the Fund may have owned 5% or more of the outstanding voting securities of Prime Money.

** Quality Fund, a fund managed by NBF, an affiliate of Management, is used to invest cash the Fund receives as collateral for securities loans as approved by the Board. Because all shares of Quality Fund are held by funds in the related investment management complex, Quality Fund may be considered an affiliate of the Fund.

Note F—Tender Offer:

The Fund conducted a tender offer that commenced on May 1, 2009 and expired on May 29, 2009. The Fund offered to purchase up to 10% of its outstanding common shares at a price equal to 98% of its NAV determined on the day the

tender offer expired. The Fund's tender offer was oversubscribed. In accordance with the terms of the tender offer, the Fund accepted all shares properly tendered by shareholders holding fewer than 100 common shares that tendered all their shares and that provided appropriate certification as part of the tender ("odd-lot adjustment"). The Fund purchased the remainder of the common shares on a pro-rata basis, after making the odd-lot adjustment, based on the number of shares properly tendered. Under the terms of the tender offer, on June 5, 2009, the Fund accepted 1,225,458 common shares, representing approximately 10% of its then outstanding common shares. Final payment was made at \$9.60 per share, representing 98% of the NAV per share on May 29, 2009.

In addition, the Fund's Board has authorized a semi-annual tender offer program consisting of up to four tender offers over a two-year period ("Tender Offer Program"). Under the Tender Offer Program, if the Fund's common shares trade at an average daily discount to NAV per share of greater than 10% during a 12-week measurement period, the Fund would conduct a tender offer for between 5% and 20% of its outstanding common shares at a price equal to 98% of its NAV per share determined on the day the tender offer expires.

The Fund's initial measurement period under the Tender Offer Program commenced June 5, 2009 and ended August 28, 2009 (the "Measurement Period"). During the Measurement Period, the Fund traded at an average daily

discount to NAV of less than 10% and, therefore, in accordance with its Tender Offer Program, did not conduct a tender offer.

In connection with the May 2009 tender offer and the Tender Offer Program, Management agreed to implement a voluntary waiver of 0.05% of its investment advisory fees to offset some of the expenses associated with, or possible increases in the Fund's expense ratio resulting from, the tender offers (see Note B for additional disclosure). The Board retains the ability, consistent with its fiduciary duty, to opt out of the Tender Offer Program should circumstances arise that the Board believes could cause a material negative effect on the Fund or the Fund's shareholders.

Note G—Subsequent Events:

The Board of Trustees of the Fund approved a proposal to reorganize the Fund and Neuberger Berman Income Opportunity Fund Inc. into a newly formed entity pursuant to an Agreement and Plan of Reorganization, pending shareholder approval. The Fund currently anticipates that shareholders will consider this proposal at the Fund's 2010 annual meeting of shareholders.

In accordance with the provision set forth in ASC 855 "Subsequent Events" ("ASC 855"), formerly known as FAS 165, "Subsequent Events," Management has evaluated the possibility of subsequent events existing in the Fund's financial statements through February 17, 2010. Except as noted above, Management has determined that there are no other material events that, in accordance with ASC 855, would require disclosure in the Fund's financial statements through this date.

Note H—Market Events:

During the past year, the U.S. and global economies and the financial markets experienced significant disruptions, the effects of which are continuing to work their way through the economy. Because these market events are widespread and unprecedented, it is difficult to predict their ultimate severity or duration or the way in which they will affect particular issuers or market sectors.

Financial Highlights

High Yield Strategies Fund

Notes to Financial Highlights High Yield Strategies Fund

† Total return based on per share net asset value reflects the effects of changes in net asset value on the performance of the Fund during each fiscal period. Total return based on per share market value assumes the purchase of common shares at the market price on the first day and sales of common shares at the market price on the last day of the period indicated. Distributions, if any, are assumed to be reinvested at prices obtained under the Fund's distribution reinvestment plan. Results represent past performance and do not guarantee future results. Current returns may be lower or higher than the performance data quoted. Investment returns may fluctuate and shares when sold may be worth more or less than original cost. Total return would have been lower if Management had not waived certain expenses.

The Fund is required to calculate an expense ratio without taking into consideration any expense reductions related to expense offset arrangements.

§ After waiver of a portion of the investment management fee by Management. Had Management not undertaken such action, the annualized net expenses to average daily net assets would have been:

Year Ended December 31,		
2009	2008	2007
2.65%	1.65%	1.44%

@ Calculated by subtracting the Fund's total liabilities (excluding accumulated unpaid distributions on PPS (MMP prior to November 13, 2008)) from the Fund's total assets and dividing by the number of PPS/MMP outstanding.

@@ Calculated by subtracting the Fund's total liabilities (excluding accumulated unpaid distributions on PPS (MMP prior to November 13, 2008) and the Notes payable) from the Fund's total assets and dividing by the outstanding notes payable balance.

†† Expense ratios do not include the effect of distribution payments to preferred shareholders. Income ratios include income earned on assets attributable to PPS (MMP prior to November 13, 2008) outstanding. Income ratios also include the effect of interest expense from the PNs.

¢ Calculated based on the average number of shares outstanding during each fiscal period.

*** Rounds to less than \$0.01.

^^ Effective February 28, 2007, Management became the Fund's investment adviser.

¢¢ From October 22, 2003, to November 13, 2008, the Fund had 3,600 Money Market Cumulative Preferred Shares outstanding; since November 13, 2008, the Fund has 492 PPS outstanding (See Note A-8 to Financial Statements).

∅ Interest expense is included in expense ratios. The annualized ratio of interest expense to average net assets applicable to common shareholders was:

Year Ended December 31,	
2009	2008
1.05%	0.16%

Report of Independent Registered Public Accounting Firm

To the Board of Trustees and Shareholders of

Neuberger Berman High Yield Strategies Fund

We have audited the accompanying statement of assets and liabilities, including the schedule of investments, of Neuberger Berman High Yield Strategies Fund ("Fund") as of December 31, 2009, and the related statement of operations for the year then ended, the statement of changes in net assets for each of the two years in the period then ended, and the financial highlights for each of the five years in the period then ended. These financial statements and financial highlights are the responsibility of the Fund's management. Our responsibility is to express an opinion on these financial statements and financial highlights based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements and financial highlights are free of material misstatement. We were not engaged to perform an audit of the Fund's internal control over financial reporting. Our audits included consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Fund's internal control over financial reporting. Accordingly, we express no such opinion. An audit also includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements and financial highlights, assessing the accounting principles used and significant estimates made by management, and evaluating the overall financial statement presentation. Our procedures included confirmation of securities owned as of December 31, 2009 by correspondence with the custodian and brokers or by other appropriate auditing procedures where replies from brokers were not received. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements and financial highlights referred to above present fairly, in all material respects, the financial position of Neuberger Berman High Yield Strategies Fund at December 31, 2009, the results of its operations for the year then ended, the changes in its net assets for each of the two years in the period then ended, and financial highlights for each of the five years in the period then ended, in conformity with U.S. generally accepted accounting principles.

Boston, Massachusetts

February 17, 2010

Dividend Reinvestment Plan

The Fund has a Dividend Reinvestment Plan (the "Plan") commonly referred to as an "opt-out" plan. Each common shareholder will have all distributions of dividends and capital gains automatically reinvested in additional common shares by The Bank of New York Mellon, as agent for shareholders pursuant to the Plan (the "Plan Agent"), unless the shareholder elects to receive cash or unless the shares are registered in the name of a broker-dealer or other nominee (that is, in "street name") and the respective nominee does not participate in the Plan. For Plan participants, the Plan Agent will either (i) effect purchases of common shares under the Plan in the open market or (ii) distribute newly issued common shares of the Fund. Shareholders who elect not to participate in the Plan will receive all distributions in cash paid by check mailed directly to the shareholder of record (or if the shares are held in street or other nominee name, then to the nominee) by the Plan Agent, as dividend disbursing agent. Certain broker-dealers and nominees do not permit their clients to participate in dividend reinvestment plans. Shareholders whose common shares are held in the name of a broker or nominee should contact the broker or nominee to determine whether and how they may participate in the Plan.

The Plan Agent serves as agent for the shareholders in administering the Plan. After the Fund declares a dividend or makes a capital gain distribution, the Plan Agent will, as agent for the participants, either (i) receive the cash payment and use it to buy common shares in the open market, on the New York Stock Exchange or elsewhere, for the participants' accounts or (ii) distribute newly issued common shares of the Fund on behalf of the participants. The Plan Agent will receive cash from the Fund with which to buy common shares in the open market if, on the determination date, the net asset value per share exceeds the market price per share plus estimated brokerage commissions on that date. The Plan Agent will receive the dividend or distribution in newly issued common shares of the Fund if, on the determination date, the market price per share plus estimated brokerage commissions equals or exceeds the net asset value per share of the Fund on that date. The number of shares to be issued will be computed at a per share rate equal to the greater of (i) the net asset value or (ii) 95% of the closing market price per share on the payment date.

Participants in the Plan may withdraw from the Plan upon written notice to the Plan Agent. Such withdrawal will be effective immediately if received not less than ten days prior to a distribution record date; otherwise, it will be effective for all subsequent dividend record dates. When a participant withdraws from the Plan or upon termination of the Plan as provided below, certificates for whole common shares credited to his or her account under the Plan will be issued and a cash payment will be made for any fraction of a common share credited to such account. In the alternative, upon receipt of the participant's instructions, common shares will be sold and the proceeds sent to the participant less brokerage commissions and any applicable taxes.

The Plan Agent maintains each shareholder's account in the Plan and furnishes confirmations of all acquisitions made for the participant. Common shares in the account of each Plan participant will be held by the Plan Agent on behalf of the participant. Proxy material relating to shareholders' meetings of the Fund will include those shares purchased as well as shares held pursuant to the Plan.

In the case of shareholders, such as banks, brokers or nominees, which hold common shares for others who are the beneficial owners, the Plan Agent will administer the Plan on the basis of the number of common shares certified from time to time by the record shareholders as representing the total amount registered in the record shareholder's name and held for the account of beneficial owners who are participants in the Plan.

The Plan Agent's fees for the handling of reinvestment of dividends and other distributions will be paid by the Fund. Each participant will pay a pro rata share of brokerage commissions incurred with respect to the Plan Agent's open market purchases in connection with the reinvestment of distributions. There are no other charges to participants for reinvesting dividends or capital gain distributions; however, the Fund reserves the right to amend the Plan to include a

service charge payable by the participants.

The automatic reinvestment of dividends and other distributions will not relieve participants of any income tax that may be payable or required to be withheld on such dividends or distributions.

The Fund and the Plan Agent reserve the right to amend or terminate the Plan.

--------------------------	-------------------------------------	---

- (1) The business address of each listed person is 605 Third Avenue, New York, New York 10158.
- (2) Pursuant to the by-laws of the Fund, each officer elected by the Fund Trustees shall hold office until his or her successor shall have been elected and qualified or until his or her earlier death, inability to serve, or resignation. Officers serve at the pleasure of the Fund Trustees and may be removed at any time with or without cause.
- (3) Except as otherwise indicated, each individual has held the positions shown for at least the last five years.

Proxy Voting Policies and Procedures

A description of the policies and procedures that the Fund uses to determine how to vote proxies relating to portfolio securities is available, without charge, by calling 1-800-877-9700 (toll-free) and on the website of the Securities and Exchange Commission, at www.sec.gov. Information regarding how the Fund voted proxies relating to portfolio securities during the most recent 12-month period ended June 30 is also available without charge, by calling 1-800-877-9700 (toll-free), on the website of the Securities and Exchange Commission, at www.sec.gov, and at www.nb.com.

Quarterly Portfolio Schedule

The Fund files a complete schedule of portfolio holdings with the Securities and Exchange Commission for the first and third quarters of each fiscal year on Form N-Q. The Fund's Forms N-Q are available on the Securities and Exchange Commission's website at www.sec.gov and may be reviewed and copied at the Securities and Exchange Commission's Public Reference Room in Washington, D.C. Information on the operation of the Public Reference Room may be obtained by calling 1-800-SEC-0330. The information on Form N-Q is available upon request, without charge, by calling 1-800-877-9700 (toll-free).

Notice to Shareholders (Unaudited)

For Neuberger Berman High Yield Strategies Fund, 0.10% of dividends distributed during the fiscal year ended December 31, 2009 qualifies for the dividends received deduction for corporate shareholders.

For the fiscal year ended December 31, 2009, the Fund designates \$15,772, or up to the maximum amount of such dividends allowable pursuant to the Internal Revenue Code, as qualified dividend income eligible for reduced tax rates. These lower rates range from 5% to 15% depending upon an individual's tax bracket. Complete information regarding the Fund's distributions during the calendar year 2009 will be reported in conjunction with Form 1099DIV.

Item 2. Code of Ethics

The Board of Trustees (“Board”) of Neuberger Berman High Yield Strategies Fund (“Registrant”) adopted a code of ethics that applies to the Registrant’s principal executive officer, principal financial officer, principal accounting officer or controller, or persons performing similar functions (“Code of Ethics”). For the period covered by this Form N-CSR, there were no amendments to the Code of Ethics and there were no waivers from the Code of Ethics granted to the Registrant’s principal executive officer, principal financial officer, principal accounting officer or controller, or persons performing similar functions.

A copy of the Code of Ethics is incorporated by reference to the Registrant’s Form N-CSR, Investment Company Act file number 811-21342 (filed on March 12, 2007). The Code of Ethics is also available, without charge, by calling 1-800-877-9700 (toll-free).

Item 3. Audit Committee Financial Expert

The Board has determined that the Registrant has two audit committee financial experts serving on its audit committee. The Registrant’s audit committee financial experts are Martha Goss and George Morriss. Ms. Goss and Mr. Morriss are independent trustees as defined by Form N-CSR.

Item 4. Principal Accountant Fees and Services

Ernst & Young LLP (“E&Y”) serves as independent registered public accounting firm to the Registrant.

(a) Audit Fees

The aggregate fees billed for professional services rendered by E&Y for the audit of the annual financial statements or services that are normally provided by E&Y in connection with statutory and regulatory filings or engagements were \$36,000 and \$40,500 for the fiscal years ended 2008 and 2009, respectively.

(b) Audit-Related Fees

The aggregate fees billed to the Registrant for assurance and related services by E&Y that are reasonably related to the performance of the audit of the Registrant’s financial statements and are not reported above in Audit Fees were \$13,000 and \$26,000 for the fiscal years ended 2008 and 2009, respectively. The nature of the services provided involved agreed upon procedures relating, in 2008, to Money Market Cumulative Preferred Shares, privately placed notes and privately placed perpetual preferred shares, and in 2009, to privately placed notes and privately placed perpetual preferred shares. The Audit Committee approved 0% and 0% of these services provided by E&Y for the fiscal years ended 2008 and 2009, respectively, pursuant to the waiver provisions of Rule 2-01(c)(7)(i)(C) of Regulation S-X.

The fees billed to other entities in the investment company complex for assurance and related services by E&Y that are reasonably related to the performance of the audit that the Audit Committee was required to approve because the engagement related directly to the operations and financial reporting of the Registrant were \$0 and \$0 for the fiscal years ended 2008 and 2009, respectively.

(c) Tax Fees

The aggregate fees billed to the Registrant for professional services rendered by E&Y for tax compliance, tax advice, and tax planning were \$9,250 and \$9,250 for the fiscal years ended 2008 and 2009, respectively. The nature of the services provided comprised tax compliance, tax advice, and tax planning. The Audit Committee approved 0% and 0% of these services provided by E&Y for the fiscal years ended 2008 and 2009, respectively, pursuant to the waiver provisions of Rule 2-01(c)(7)(i)(C) of Regulation S-X.

The fees billed to other entities in the investment company complex for professional services rendered by E&Y for tax compliance, tax advice, and tax planning that the Audit Committee was required to approve because the engagement related directly to the operations and financial reporting of the Registrant were \$0 and \$0 for the fiscal years ended 2008 and 2009, respectively.

(d) All Other Fees

The aggregate fees billed to the Registrant for products and services provided by E&Y, other than services reported in Audit Fees, Audit-Related Fees, and Tax Fees were \$0 and \$0 for the fiscal years ended 2008 and 2009, respectively.

The fees billed to other entities in the investment company complex for products and services provided by E&Y, other than services reported in Audit Fees, Audit-Related Fees, and Tax Fees, that the Audit Committee was required to approve because the engagement related directly to the operations and financial reporting of the Registrant were \$0 and \$0 for the fiscal years ended 2008 and 2009, respectively.

(e) Audit Committee's Pre-Approval Policies and Procedures

(1) The Audit Committee's pre-approval policies and procedures for the Registrant to engage an accountant to render audit and non-audit services delegate to each member of the Committee the power to pre-approve services between meetings of the Committee.

(2) None of the services described in paragraphs (b) through (d) above were approved by the Audit Committee pursuant to paragraph (c)(7)(i)(C) of Rule 2-01 of Regulation S-X.

(f) Hours Attributed to Other Persons

Not applicable.

(g) Non-Audit Fees

Non-audit fees billed by E&Y for services rendered to the Registrant were \$22,250 and \$35,250 for the fiscal years ended 2008 and 2009, respectively.

Non-audit fees billed by E&Y for services rendered to the Registrant's investment adviser and any entity controlling, controlled by, or under common control with the adviser that provides ongoing services to the Registrant were \$400,000 and \$100,000 for the fiscal years ended 2008 and 2009, respectively.

(h) The Audit Committee of the Board considered whether the provision of non-audit services rendered to the Registrant's investment adviser and any entity controlling, controlled by, or under common control with the adviser that provides ongoing services to the Registrant that were not pre-approved by the Audit Committee because the engagement did not relate directly to the operations and financial reporting of the Registrant is compatible with maintaining E&Y's independence.

Item 5. Audit Committee of Listed Registrants

The Board has established a separately-designated standing audit committee established in accordance with Section 3(a)(58)(A) of the Securities Exchange Act of 1934, as amended ("Exchange Act"). Its members are Martha C. Goss, George W. Morriss, Cornelius T. Ryan (Chairman), Tom D. Seip, and Peter P. Trapp.

Item 6. Schedule of Investments

The complete schedule of investments for the Registrant is disclosed in the Registrant's Annual Report, which is included as Item 1 of this Form N-CSR.

Item 7. Disclosure of Proxy Voting Policies and Procedures for Closed-End Management Investment Companies

The Board has delegated to Neuberger Berman Management LLC ("NB Management") the responsibility to vote proxies related to the securities held in the Registrant's portfolio. Under this authority, NB Management is required by the Board to vote proxies related to portfolio securities in the best interests of the Registrant and its shareholders. The Board permits NB Management to contract with a third party to obtain proxy voting and related services, including research of current issues.

NB Management has implemented written Proxy Voting Policies and Procedures ("Proxy Voting Policy") that are designed to reasonably ensure that NB Management votes proxies prudently and in the best interest of its advisory clients for whom NB Management has voting authority, including the Registrant. The Proxy Voting Policy also describes how NB Management

addresses any conflicts that may arise between its interests and those of its clients with respect to proxy voting.

NB Management's Proxy Committee is responsible for developing, authorizing, implementing and updating the Proxy Voting Policy, overseeing the proxy voting process and engaging and overseeing any independent third-party vendors as voting delegate to review, monitor and/or vote proxies. In order to apply the Proxy Voting Policy noted above in a timely and consistent manner, NB Management utilizes Glass, Lewis & Co. ("Glass Lewis") to vote proxies in accordance with NB Management's voting guidelines.

NB Management's guidelines adopt the voting recommendations of Glass Lewis. NB Management retains final authority and fiduciary responsibility for proxy voting. NB Management believes that this process is reasonably designed to address material conflicts of interest that may arise between NB Management and a client as to how proxies are voted.

In the event that an investment professional at NB Management believes that it is in the best interests of a client or clients to vote proxies in a manner inconsistent with NB Management's proxy voting guidelines or in a manner inconsistent with Glass Lewis recommendations, the Proxy Committee will review information submitted by the investment professional to determine that there is no material conflict of interest between NB Management and the client with respect to the voting of the proxy in that manner.

If the Proxy Committee determines that the voting of a proxy as recommended by the investment professional presents a material conflict of interest between NB Management and the client or clients with respect to the voting of the proxy, the Proxy Committee shall: (i) take no further action, in which case Glass Lewis shall vote such proxy in accordance with the proxy voting guidelines or as Glass Lewis recommends; (ii) disclose such conflict to the client or clients and obtain written direction from the client as to how to vote the proxy; (iii) suggest that the client or clients engage another party to determine how to vote the proxy; or (iv) engage another independent third party to determine how to vote the proxy.

Item 8. Portfolio Managers of Closed-End Management Investment Companies

(a)(1) The following Portfolio Managers have day-to-day management responsibility of the Registrant's portfolio as of the date of the filing of this Form N-CSR.

Ann H. Benjamin and Thomas P. O'Reilly serve as portfolio managers for the Registrant since inception. Ann H. Benjamin is a Managing Director of NB Management, Neuberger Berman LLC and Neuberger Berman Fixed Income LLC. She has been part of the Registrant's management team since 2005. Ms. Benjamin also manages high yield portfolios for Neuberger Berman Fixed Income LLC and its predecessor, an affiliate of Neuberger Berman LLC. She has managed money for Neuberger Berman Fixed Income LLC since 1997.

Thomas P. O'Reilly is a Managing Director of NB Management, Neuberger Berman LLC and Neuberger Berman Fixed Income LLC. He has been part of the Registrant's management team since 2005. Mr. O'Reilly also manages high yield portfolios for Neuberger Berman Fixed Income LLC and its predecessor, an affiliate of Neuberger

Berman LLC. He has managed money for Neuberger Berman Fixed Income LLC since 1997.

(a)(2) The table below describes the other accounts for which each of the Registrant's Portfolio Managers has day-to-day management responsibility as of December 31, 2009.

Type of Account	Number of Accounts Managed	Total Assets Managed (\$ millions)	Number of Accounts Managed for which Advisory Fee is Performance-Based	Assets Managed for which Advisory Fee is Performance-Based (\$ millions)
Ann H. Benjamin				
Registered Investment Companies*	4	1,285	0	0
Other Pooled Investment Vehicles	2	827	0	0
Other Accounts**	23	4,877	1	149
Thomas P. O'Reilly				
Registered Investment Companies*	4	1,285	0	0
Other Pooled Investment Vehicles	2	827	0	0
Other Accounts**	23	4,877	1	149

*Registered Investment Companies include: Mutual Funds.

**Other Accounts include: Institutional Separate Accounts, Sub-Advised Accounts and Managed Accounts (WRAP).

Conflicts of Interest

Actual or apparent conflicts of interest may arise when a Portfolio Manager has day-to-day management responsibilities with respect to more than one fund or other account. The management of multiple funds and accounts (including proprietary accounts) may give rise to actual or potential conflicts of interest if the funds and accounts have different or similar objectives, benchmarks, time horizons, and fees, as the Portfolio Manager must allocate his time and investment ideas across multiple funds and accounts. The Portfolio Manager may execute transactions for another fund or account that may adversely impact the value of securities held by the Registrant, and which may include transactions that are directly contrary to the positions taken by the Registrant. For example, a Portfolio Manager may engage in short sales of securities for another account that are the same type of securities in which the Registrant also invests. In such a case, the Portfolio Manager could be seen as harming the performance of the Registrant for the benefit of the account engaging in short sales if the short sales cause the market value of the securities to fall. Additionally, if a Portfolio Manager identifies a limited investment opportunity that may be suitable for more than one fund or other account, Registrant may not be able to take full advantage of that opportunity. If one account were to buy or sell portfolio securities shortly before another account bought or sold the same securities, it could affect the price paid or received by the second account. Securities selected for funds or accounts other than the Registrant may outperform the securities selected for the Registrant. Finally, a conflict of interest may arise if NB Management and a Portfolio Manager have a financial

incentive to favor one account over another, such as a performance-based management fee that applies to one account but not the Registrant or other accounts for which the Registrant's Portfolio Manager is responsible.

NB Management, Lehman Brothers Asset Management and the Registrant have adopted certain compliance procedures which are designed to address these types of conflicts. However, there is no guarantee that such procedures will detect each and every situation in which a conflict arises.

(a)(3) Compensation (as of December 31, 2009)

A portion of the compensation paid to the Portfolio Managers for management of the mutual funds in the fund family is determined by comparisons to pre-determined peer groups and benchmarks, as opposed to a system dependent on a percent of management fees. The Portfolio Managers are paid a base salary that is not dependent on performance. The Portfolio Managers also has a "target bonus," which is set each year and can be increased or decreased prior to payment based in part on performance measured against the relevant peer group and benchmark. Performance is measured on a three-year rolling average in order to emphasize longer-term performance. There is also a subjective component to determining the bonus, which consists of the following factors: (i) the individual's willingness to work with the marketing and sales groups; (ii) his or her effectiveness in building a franchise; and (iii) client servicing. Senior management determines this component in appropriate cases. There are additional components that comprise the Portfolio Managers' compensation packages, including: (i) whether the Portfolio Managers were a partner/principal of Neuberger Berman LLC prior to Neuberger Berman Holdings LLC's initial public offering; (ii) for more recent hires, incentives that may have been negotiated at the time the Portfolio Managers joined the Neuberger Berman complex; and (iii) the total amount of assets for which the Portfolio Managers are responsible.

The Portfolio Managers may manage products other than mutual funds, such as high net worth separate accounts. For the management of these accounts the Portfolio Managers will generally receive a percentage of pre-tax revenue determined on a monthly basis less third party payouts (e.g., a "finder's fee" or "referral fee" paid to a third party). To determine the percentage of revenue the Portfolio Manager receives, the aggregate fees collected on the accounts for which the Portfolio Manager are responsible are compared to a predetermined benchmark of fees that is grown 4% per annum.

NB Management's Portfolio Managers have always had a degree of independence that they would not get at other firms that have, for example, investment committees. NB Management believes that its Portfolio Managers are retained not only through compensation and opportunities for advancement, but also by a collegial and stable money management environment.

NB Management believes the measurement versus the peer groups on a three-year rolling average basis creates a meaningful disincentive to try and beat the peer group and benchmark in any given year by taking undue risks in portfolio management. The incentive is to be a solid performer over the longer-term, not necessarily to be a short-term winner in any given year.

(a)(4) Ownership of Securities

Set forth below is the dollar range of equity securities beneficially owned by the Registrant's Portfolio Managers in the Registrant as of December 31, 2009.

Portfolio Manager	Dollar Range of Equity Securities Owned in the Registrant
Ann H. Benjamin	D
Thomas P. O'Reilly	A
A = None	E = \$100,001-\$500,000
B = \$1-\$10,000	F = \$500,001-\$1,000,000
C = \$10,001 - \$50,000	G = \$1,000,001 or More
D = \$50,001-\$100,000	

(b) Not applicable.

Item 9. Purchases of Equity Securities by Closed-End Management Investment Company and Affiliated Purchasers

No reportable purchases for the period covered by this report.

Item 10. Submission of Matters to a Vote of Security Holders

There were no changes to the procedures by which stockholders may recommend nominees to the Board.

Item 11. Controls and Procedures

- (a) Based on an evaluation of the disclosure controls and procedures (as defined in Rule 30a-3(c) under the Investment Company Act of 1940, as amended (the "Act")) as of a date within 90 days of the filing date of this document, the Chief Executive Officer and Treasurer and Principal Financial and Accounting Officer of the Registrant have concluded that such disclosure controls and procedures are effectively designed to ensure that information required to be disclosed by the Registrant on Form N-CSR and Form N-Q is accumulated and communicated to the Registrant's management to allow timely decisions regarding required disclosure.
- (b) There were no significant changes in the Registrant's internal controls over financial reporting (as defined in Rule 30a-3(d) under the Act) that occurred during the Registrant's second fiscal quarter of the period covered by this report that have materially affected, or are reasonably likely to materially affect, the Registrant's internal control

Edgar Filing: NEUBERGER BERMAN HIGH YIELD STRATEGIES FUND - Form N-CSR
over financial reporting.

Item 12. Exhibits

(a)(1) A copy of the Code of Ethics is incorporated by reference to the Registrant's Form N-CSR, Investment Company Act file number 811-21342 (filed March 12, 2007).

(a)(2) The certifications required by Rule 30a-2(a) of the Act and Section 302 of the Sarbanes-Oxley Act of 2002 ("Sarbanes-Oxley Act") are filed herewith.

(a)(3) Not applicable to the Registrant.

(b) The certifications required by Rule 30a-2(b) of the Act and Section 906 of the Sarbanes-Oxley Act are filed herewith.

The certifications provided pursuant to Rule 30a-2(b) of the Act and Section 906 of the Sarbanes-Oxley Act are not deemed "filed" for purposes of Section 18 of the Exchange Act, or otherwise subject to the liability of that section. Such certifications will not be deemed to be incorporated by reference into any filing under the Securities Act of 1933 or the Exchange Act, except to the extent that the Registrant specifically incorporates them by reference.
