GIBRALTAR INDUSTRIES, INC.
 NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
 (unaudited)

1. CONSOLIDATED FINANCIAL STATEMENTS

The accompanying unaudited consolidated financial statements have been prepared by management in accordance with U.S. generally accepted accounting principles for interim financial information and with the instructions to Form 10-Q and Article 10 of Regulation S-X. In the opinion of management, all adjustments consisting of normal recurring adjustments considered necessary for the fair presentation of results for the interim period have been included. The results of operations for the three and six month periods ended June 30, 2017 are not necessarily indicative of the results expected for the full year. The Company is subject to reduced activity in the first and fourth quarters as colder, inclement weather reduces order rates from end markets it serves. The accompanying unaudited consolidated financial statements should be read in conjunction with the financial statements and notes thereto included in our annual Form 10-K for the year ended December 31, 2016.

Certain prior year amounts have been reclassified to conform to current year's presentation. Refer to Note 2 for a summary of ASUs we adopted during 2017 and the related financial statement impact.

Immaterial Adjustment to Previously Reported Interim Period

For the three and six month periods ended June 30, 2016, immaterial differences were identified between amounts presented in prior quarterly reports on Form 10-Q and amounts required to be recorded in accordance with U.S. generally accepted accounting principles due to errors in the Company's accounting for estimated total contract costs at completion as it is related to revenue recognition under the percentage of completion accounting method. Refer to the Company's Quarterly Report on Form 10-Q for the quarter ended September 30, 2016 for a complete description of these differences. The corrected amounts for the three and six month periods ended June 30, 2016, are presented in the accompanying consolidated statements of operations, comprehensive income and cash flows.

2. RECENT ACCOUNTING PRONOUNCEMENTS

Recent Accounting Pronouncements Adopted

Standard	Description	Financial Statement Effect or Other Significant Matters
ASU No. 2016-09 Compensation - Stock Compensation (Topic 718): Improvements to Employee Share-Based Payment Accounting	The standard simplifies the accounting for share-based payment award transactions including: income tax consequences, classification of awards as either equity or liabilities and classification on the statement of cash flows. The provisions of this standard are effective for fiscal years beginning after December 15, 2016, including interim periods within those fiscal years. Early adoption is permitted.	The Company has adopted all amendments included in this standard under each required transition method. The Company concluded there were no material changes to prior periods, except for the following: the Company (a) reclassified its prior interim period excess tax benefit for stock compensation of \$292,000 on its consolidated statement of cash flows from a financing activity to an operating activity; and (b) recognized a cumulative-effect adjustment of \$254,000 as an increase to retained earnings and decrease to additional paid-in capital on the Company's consolidated statement of shareholders' equity as of January 1, 2017 to reflect the change in value for a restricted stock unit liability award as of December 31, 2016, as if the award had been classified as an equity award since its respective grant date.

Date of adoption: Q1 2017

Table of Contents

Standard	Description	Financial Statement Effect or Other Significant Matters
ASU No. 2017-04 Intangibles - Goodwill and Other (Topic 350): Simplifying the Test for Goodwill Impairment	The standard eliminates the "Step 2" analysis to determine the amount of impairment realized when a reporting unit's carrying amount exceeds its fair value in its "Step 1" analysis of accounting for impairment of goodwill. The impairment charge would be the amount determined in "Step 1." The provisions of this standard are effective for fiscal years beginning after December 15, 2019, including interim periods within those fiscal years. Early adoption is permitted for annual and interim goodwill impairment testing dates after January 1, 2017.	The Company has adopted this standard and it did not have any impact on the Company's consolidated financial statements. Date of Adoption: Q1 2017
ASU No. 2017-07 Compensation - Retirement Benefits (Topic 715): Improving the Presentation of Net Periodic Pension Cost and Net Periodic Postretirement Benefit Cost	The standard requires an employer to recognize the service cost component of net periodic pension costs and net periodic postretirement benefit costs in the same line item(s) as other compensation costs from services rendered by pertinent employees during the period. Other components of net benefit cost are required to be presented separately from the service cost component and outside a subtotal of income from operations. The provisions of this standard are effective for annual reporting periods beginning after December 15, 2017, including interim periods within those annual periods. Early adoption is permitted as of the beginning of an annual period for which financial statements (interim or annual) have not been issued or made available for issuance.	The Company has adopted this standard and has applied it retrospectively for the presentation of the service cost component, as well as, other components of net periodic pension cost and net periodic postretirement benefit cost in our statement of operations. The adoption decreased selling, general, and administrative expense by \$160,000 for the three months ended June 30, 2016 and \$320,000 for the six months ended June 30, 2016, and comparably increased other expense by the same amounts, respectively. This guidance did not have any impact on our balance sheet or our statement of cash flows. Date of Adoption: Q1 2017
Recent Accounting Pronouncements Not Yet Adopted		
Standard	Description	Financial Statement Effect or Other Significant Matters
ASU No. 2014-09 Revenue from Contracts with Customers (Topic 606) And All Related ASUs	The standard requires an entity to recognize revenue to depict the transfer of promised goods or services to customers in an amount that reflects the consideration to which the entity expects to be entitled in exchange for those goods or services. The standard also requires additional disclosures about the nature, amount, timing, and uncertainty of revenue and cash flows arising from customer contracts, including significant judgments and assets recognized from costs incurred to obtain or fulfill a contract. The provisions of the standard, as well as all subsequently issued clarifications to the standard, are effective for fiscal years	The Company currently believes the most significant impact of this standard upon adoption relates to the revenue recognition for custom fabricated products within the Company's Industrial and Infrastructure Products segment. Under this standard, the Company expects to recognize revenue on an over time basis on custom fabricated products in the Industrial and Infrastructure Products segment which is a change from our current revenue recognition policy of point-in-time basis. The Company expects revenue recognition related to the remaining Industrial and Infrastructure Products segment, Residential Products segment and Renewable Energy and Conservation segment to remain substantially unchanged upon adoption of this standard. The Company has identified and is in the process of implementing appropriate changes to the

beginning after December 15, 2017 and interim periods within those fiscal years. The standard can be adopted using either a full retrospective or modified retrospective approach.

Company's business processes, systems and internal controls to support recognition and disclosure under this standard. The Company currently anticipates adopting the modified retrospective transition method approach. The Company has not yet completed the process of quantifying the effects of any changes that will result from adoption.

Planned date of adoption: Q1 2018

Table of Contents

Standard	Description	Financial Statement Effect or Other Significant Matters
ASU No. 2016-02 Leases (Topic 842)	The standard requires lessees to recognize most leases as assets and liabilities on the balance sheet, but record expenses on the statement of operations in a manner similar to current accounting. For lessors, the guidance modifies the classification criteria and accounting for sales-type and direct financing leases. The standard also requires additional disclosures about leasing arrangements and requires a modified retrospective transition approach for existing leases, whereby the standard will be applied to the earliest year presented. The provisions of the standard are effective for fiscal years beginning after December 15, 2018, including interim periods within those fiscal years. Early adoption is permitted.	The Company is currently evaluating the impact of this standard on the Company's consolidated financial statements and related disclosures, including the impact on the Company's current lease portfolio from both a lessor and lessee perspective. The adoption of this standard will primarily result in an increase in the assets and liabilities on the Company's consolidated balance sheet and related disclosures.
ASU No. 2016-15 Statement of Cash Flows (Topic 230): Classification of Certain Cash Receipts and Cash Payments	The standard provides guidance on eight specific cash flow issues to reduce diversity in reporting. The provisions of this standard are effective for fiscal years beginning after December 15, 2017, including interim periods within those fiscal years. Early adoption is permitted.	Planned date of adoption: Q1 2019 The Company is currently evaluating the requirements of this standard and has not yet determined its impact on the Company's consolidated financial statements.
ASU No. 2016-16 Income Taxes (Topic 740): Intra-Entity Transfers of Assets Other Than Inventory	The standard allows an entity to recognize income tax consequences of an intra-entity transfer of an asset other than inventory when the transfer occurs. The provisions of this standard are effective for annual reporting periods beginning after December 15, 2017, including interim reporting periods within those annual reporting periods. Early adoption is permitted as of the beginning of an annual reporting period for which financial statements (interim or annual) have not been issued or made available for issuance.	Planned date of adoption: Q1 2018 The Company is currently evaluating the requirements of this standard and has not yet determined its impact on the Company's consolidated financial statements.
		Planned date of adoption: Q1 2018

3. ACCOUNTS RECEIVABLE, NET

Accounts receivable consists of the following (in thousands):

	June 30, 2017	December 31, 2016
Trade accounts receivable	\$ 101,578	\$ 81,193
Contract receivables:		
Amounts billed	35,658	41,569

Costs in excess of billings	7,007	6,582
Total contract receivables	42,665	48,151
Total accounts receivable	144,243	129,344
Less allowance for doubtful accounts	(5,372)	(5,272)
Accounts receivable	\$138,871	\$124,072

Contract receivables are primarily associated with developers, contractors and customers in connection with the Renewable Energy and Conservation segment. Costs in excess of billings principally represent revenues recognized on contracts that were not billable as of the balance sheet date. These amounts will be billed in accordance with contract terms, generally as certain milestones are reached or upon shipment. All of the costs in excess of billings are expected to be collected within one year. In situations where billings exceed revenues recognized, the excess is included in billings in excess of cost in the Consolidated Balance Sheet.

Table of Contents

4. INVENTORIES

Inventories consist of the following (in thousands):

	June 30, December	
	2017	31, 2016
Raw material	\$42,528	\$ 41,758
Work-in-process	12,580	12,268
Finished goods	30,957	35,586
Total inventories	\$86,065	\$ 89,612

5. ACQUISITIONS

On February 22, 2017, the Company acquired all of the outstanding stock of Package Concierge. Package Concierge is a leading provider of multifamily electronic package delivery locker systems in the United States.

The acquisition of Package Concierge is expected to enable the Company to expand its position in the fast-growing package delivery solutions market. The results of Package Concierge have been included in the Company's consolidated financial results since the date of acquisition (within the Company's Residential Products segment). The final aggregate purchase consideration for the acquisition of Package Concierge was \$18,917,000, which includes a working capital adjustment of \$67,000 received by the Company during the second quarter of 2017 and certain other adjustments provided for in the stock purchase agreement.

The purchase price for the acquisition was allocated to the assets acquired and liabilities assumed based upon their respective fair values. The excess consideration was recorded as goodwill and approximated \$16,931,000, which is not deductible for tax purposes. Goodwill represents future economic benefits arising from other assets acquired that could not be individually identified including workforce additions, growth opportunities, and increased presence in the building products markets.

The allocation of the purchase consideration to the fair value of the assets acquired and liabilities assumed is as follows as of the date of the acquisition (in thousands):

Cash	\$590
Working capital	(2,071)
Property, plant and equipment	55
Acquired intangible assets	3,600
Other assets	8
Deferred income taxes	(196)
Goodwill	16,931
Fair value of purchase consideration	\$18,917

The intangible assets acquired in this acquisition consisted of the following (in thousands):

	Fair Value	Estimated Useful Life
Trademarks	\$ 600	Indefinite
Technology	1,300	10 years
Customer relationships	1,700	7 years
Total	\$ 3,600	

On October 11, 2016, the Company acquired all of the outstanding stock of Nexus Corporation ("Nexus"). Nexus is a leading provider of commercial-scale greenhouses to customers in the United States.

Table of Contents

The acquisition of Nexus is expected to enable the Company to strengthen its position in the commercial greenhouse market in the United States. The results of Nexus have been included in the Company's consolidated financial results since the date of acquisition (within the Company's Renewable Energy and Conservation segment). The final aggregate purchase consideration for the acquisition of Nexus was \$23,762,000, which includes a working capital adjustment and certain other adjustments provided for in the stock purchase agreement. The remaining estimated purchase adjustment accrued as of December 31, 2016 of \$1,000,000 was reduced to \$167,000 and was paid by the Company during the first quarter of 2017.

The purchase price for the acquisition was allocated to the assets acquired and liabilities assumed based upon their respective fair values. The excess consideration was recorded as goodwill and approximated \$11,451,000, of which all is deductible for tax purposes.

The allocation of the purchase consideration to the fair value of the assets acquired and liabilities assumed is as follows as of the date of the acquisition (in thousands):

Cash	\$2,495
Working capital	(1,109)
Property, plant and equipment	4,702
Acquired intangible assets	6,200
Other assets	23
Goodwill	11,451
Fair value of purchase consideration	\$23,762

The intangible assets acquired in this acquisition consisted of the following (in thousands):

	Fair Value	Estimated Useful Life
Trademarks	\$ 3,200	Indefinite
Technology	1,300	15 years
Customer relationships	800	11 years
Backlog	900	0.25 years
Total	\$ 6,200	

The acquisitions of Package Concierge and Nexus were funded from available cash on hand. The Company incurred certain acquisition-related costs composed of legal and consulting fees, and these costs were recognized as a component of selling, general and administrative expenses in the consolidated statements of operations.

The following table summarizes acquisition-related costs for the three and six months ended June 30 (in thousands):

	Three Months Ended June 30, 2017	Six Months Ended June 30, 2016	Six Months Ended June 30, 2017	Six Months Ended June 30, 2016
Acquisition-related costs	\$ 13	\$ —	—\$115	\$ 31

Table of Contents

6. GOODWILL AND RELATED INTANGIBLE ASSETS

Goodwill

The changes in the carrying amount of goodwill for the six months ended June 30, 2017 are as follows (in thousands):

	Residential Products	Industrial and Infrastructure Products	Renewable Energy & Conservation	Total
Balance at December 31, 2016	\$ 181,285	\$ 53,884	\$ 68,863	\$ 304,032
Acquired goodwill	16,931	—	—	16,931
Adjustments to prior year acquisitions	—	—	(832)	(832)
Foreign currency translation	—	197	520	717
Balance at June 30, 2017	\$ 198,216	\$ 54,081	\$ 68,551	\$ 320,848

Goodwill is recognized net of accumulated impairment losses of \$235,419,000 as of June 30, 2017 and December 31, 2016.

Acquired Intangible Assets

Acquired intangible assets consist of the following (in thousands):

	June 30, 2017		December 31, 2016		Estimated Life
	Gross Carrying Amount	Accumulated Amortization	Gross Carrying Amount	Accumulated Amortization	
Indefinite-lived intangible assets:					
Trademarks	\$45,352	\$ —	\$44,720	\$ —	Indefinite
Finite-lived intangible assets:					
Trademarks	5,842	2,749	5,808	2,427	5 to 15 Years
Unpatented technology	28,020	11,030	26,720	10,041	5 to 20 Years
Customer relationships	80,644	36,626	78,569	33,585	5 to 17 Years
Non-compete agreements	1,649	777	1,649	623	4 to 10 Years
Backlog	—	—	900	900	0.25 Years
	116,155	51,182	113,646	47,576	
Total acquired intangible assets	\$ 161,507	\$ 51,182	\$ 158,366	\$ 47,576	

The following table summarizes the acquired intangible asset amortization expense for the three and six months ended June 30 (in thousands):

	Three Months Ended June 30,		Six Months Ended June 30,	
	2017	2016	2017	2016
Amortization expense	\$2,230	\$2,201	\$4,392	\$4,382

Amortization expense related to acquired intangible assets for the remainder of fiscal 2017 and the next five years thereafter is estimated as follows (in thousands):

2017	\$4,363
2018	\$8,286
2019	\$7,615
2020	\$7,103
2021	\$6,501
2022	\$6,090

Table of Contents**7. LONG-TERM DEBT**

Long-term debt consists of the following (in thousands):

	June 30, 2017	December 31, 2016
Senior Subordinated 6.25% Notes	\$210,000	\$210,000
Other debt	2,400	2,800
Less unamortized debt issuance costs	(2,771)	(3,163)
Total debt	209,629	209,637
Less current maturities	400	400
Total long-term debt	\$209,229	\$209,237

The Company's Fifth Amended and Restated Credit Agreement dated December 9, 2015 (the "Senior Credit Agreement") was amended to convert our secured asset based credit facility into a secured cash flow revolver, and terminates on December 9, 2020.

The Senior Credit Agreement provides for a revolving credit facility and letters of credit in an aggregate amount of \$300 million. The Company has the option to request additional financing from the banks to either increase the revolving credit facility to \$500 million or to provide a term loan of up to \$200 million. The Senior Credit Agreement contains financial covenants. As of June 30, 2017, the Company is in compliance with all covenants.

Borrowings under the Senior Credit Agreement are secured by the trade receivables, inventory, personal property, equipment, and certain real property of the Company's significant domestic subsidiaries. Interest rates on the revolving credit facility are based on the LIBOR plus an additional margin that ranges from 1.25% to 2.25% for LIBOR loans based on the Total Leverage Ratio.

In addition, the revolving credit facility is subject to an undrawn commitment fee ranging between 0.20% and 0.30% based on the Total Leverage Ratio and the daily average undrawn balance.

Standby letters of credit of \$11,081,000 have been issued under the Senior Credit Agreement on behalf of the Company as of June 30, 2017. These letters of credit reduce the amount otherwise available under the revolving credit facility. As of June 30, 2017, the Company had \$288,919,000 of availability under the revolving credit facility. No borrowings were outstanding under the revolving credit facility at June 30, 2017 and December 31, 2016.

On January 31, 2013, the Company issued \$210 million of 6.25% Senior Subordinated Notes (6.25% Notes) due February 1, 2021. The provisions of the 6.25% Notes include, without limitation, restrictions on indebtedness, liens, and distributions from restricted subsidiaries, asset sales, affiliate transactions, dividends, and other restricted payments. Dividend payments are subject to annual limits and interest is paid semiannually on February 1 and August 1 of each year.

8. RELATED PARTY TRANSACTIONS

An officer of one of the Company's operating segments is the owner of certain real estate properties leased for manufacturing and distribution purposes by that operating segment. The leases are in effect until June 2018 and June 2020. For the three and six months ended June 30, 2017 and 2016, the Company incurred the following lease expense for these properties.

	Three Months Ended June 30,		Six Months Ended June 30,	
	2017	2016	2017	2016
Cost of sales	\$263	\$235	\$525	\$452

Table of Contents

9. ACCUMULATED OTHER COMPREHENSIVE (LOSS) INCOME

The cumulative balance of each component of accumulated other comprehensive loss, net of tax, is as follows (in thousands):

	Foreign Currency Translation Adjustment	Minimum Pension Liability Adjustment	Unamortized Post Retirement Health Care Costs	Post Total Pre-Tax Amount	Tax (Benefit) Expense	Accumulated Other Comprehensive (Loss) Income
Balance at December 31, 2016	\$ (5,848)	\$ 197	\$ (3,150)	\$ (8,801)	\$ (1,080)	\$ (7,721)
Minimum pension and post retirement health care plan adjustments	—	(9)	95	86	33	53
Foreign currency translation adjustment	1,770	—	—	1,770	—	1,770
Balance at June 30, 2017	\$ (4,078)	\$ 188	\$ (3,055)	\$ (6,945)	\$ (1,047)	\$ (5,898)

The realized adjustments relating to the Company's minimum pension liability and post retirement health care costs were reclassified from accumulated other comprehensive loss and included in other expense in the consolidated statements of operations.

10. EQUITY-BASED COMPENSATION

On May 6, 2016, the shareholders of the Company authorized the Gibraltar Industries, Inc. 2016 Stock Plan for Non-Employee Directors ("Non-Employee Directors Plan"). The Non-Employee Directors Plan is a compensation plan that allows the Company to grant awards of shares of the Company's common stock to non-employee Directors of the Company. In connection with the Non-Employee Directors Plan, the Company adopted a new stock deferral plan, the Gibraltar Industries, Inc. Non-Employee Director Stock Deferral Plan ("Deferral Plan"). The Deferral Plan permits non-employee Directors of the Company to defer receipt of shares of common stock which the non-employee Director is entitled to receive pursuant to the terms of the Non-Employee Directors Plan.

On May 7, 2015, the shareholders of the Company authorized the Gibraltar Industries, Inc. 2015 Equity Incentive Plan (the "Plan") and simultaneously amended the 2005 Equity Incentive Plan (the "Prior Plan") to terminate issuance of further awards from the Prior Plan. The Plan is an incentive compensation plan that allows the Company to grant equity-based incentive compensation awards to eligible participants. Awards under the Plan may be in the form of options, restricted shares, restricted units, performance shares, performance stock units, and rights.

Equity Based Awards - Settled in Stock

The following table provides the number of stock unit awards granted which will convert to shares upon vesting during the six months ended June 30, along with the weighted average grant date fair values:

Awards	2017		2016	
	Number of Awards	Weighted Average Grant Date Fair Value	Number of Awards	Weighted Average Grant Date Fair Value
Performance stock units	108,748	\$ 42.72	—	\$ —
Restricted stock units	74,292	\$ 42.39	109,210	\$ 21.44
Options	25,000	\$ 42.35	—	\$ —
Deferred stock units	10,170	\$ 34.42	11,945	\$ 29.30
Restricted shares	2,034	\$ 34.42	3,185	\$ 29.30

Included in the performance stock units disclosed above are 78,482 units awarded in February 2017 and 5,266 units award in April 2017 for which the final number of units that will convert to shares will be determined based on the Company's actual return on invested capital (ROIC) relative to the ROIC targeted for the performance period ended December 31, 2017. Additionally, included in the performance stock units disclosed above, there were 20,000 units awarded in February 2017 and 5,000 units award in April 2017. For these awards, the final number of shares to be

issued to the recipient will be determined based upon the ranking of the Company's total shareholder return over a three (3) year performance period ended February 1, 2020 compared to the total shareholder return of companies in the S&P Small Cap Industrial Sector over such period.

Table of Contents

Performance Stock Units - Settled in Cash

The Company awarded performance stock units ("PSUs") that will convert to cash after three years based upon a one year performance period in 2016 and 2015. The cost of these awards is recognized over the requisite vesting period. The PSUs earned over the performance period are determined based on the Company's actual return on invested capital (ROIC) relative to the ROIC targeted for the performance period.

During the 2016 performance period, the participants earned an aggregate of 256,000 PSUs, representing 200% of the targeted

2016 award of 128,000. This award will convert to cash payable in January 2019.

During the 2015 performance period, the participants earned an aggregate of 438,000 PSUs, representing 200% of the targeted 2015 award of 219,000. This award will convert to cash payable in January 2018.

The following table summarizes the compensation expense recognized for the PSUs which will convert to cash for the three and six months ended June 30, (in thousands):

	Three Months Ended June 30, 2017		Six Months Ended June 30, 2016	
Performance stock unit compensation expense	\$341	\$2,916	\$2,078	\$3,741

Management Stock Purchase Plan

The Management Stock Purchase Plan ("MSPP") provides participants the ability to defer a portion of their compensation, which deferral is converted to restricted stock units, and credited to an account. Under the MSPP, the Company provides a matching award in restricted stock units equal to a percentage of the employees' compensation. Matching awards are not provided to directors. The account represents a share-based liability converted to and settled in cash which is payable to participants upon retirement or a termination of their service to the Company.

The following table provides the number of restricted stock units credited to active participant accounts and the payments made with respect to restricted stock units issued under the MSPP during the six months ended June 30,

	2017	2016
Restricted stock units credited	88,344	185,685
Share-based liabilities paid (in \$1000s)	\$2,353	\$1,984

11. FAIR VALUE MEASUREMENTS

Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Depending on the nature of the asset or liability, various techniques and assumptions can be used to estimate fair value. A financial asset or liability's classification within the hierarchy is determined based on the lowest level input that is significant to the fair value measurement as follows:

Level 1 - Quoted prices in active markets for identical assets or liabilities.

Level 2 - Observable inputs other than quoted prices in active markets for similar assets and liabilities.

Level 3 - Inputs that are unobservable inputs for the asset or liability.

The Company had no financial assets or liabilities measured at fair value on a recurring basis at June 30, 2017 and December 31, 2016. The Company's only financial instrument for which the carrying value differs from its fair value is long-term debt. At June 30, 2017 and December 31, 2016, the fair value of outstanding debt net of unamortized debt issuance costs was \$219,750,000 and \$219,898,000, respectively, compared to its carrying value of \$209,629,000 and \$209,637,000, respectively. The fair value of the Company's Senior Subordinated 6.25% Notes is classified as Level 2 within the fair value hierarchy and was estimated based on quoted market prices adjusted for unamortized debt issuance costs.

12. DISCONTINUED OPERATIONS

For certain divestiture transactions completed in prior years, the Company has agreed to indemnify the buyer for various liabilities that may arise after the disposal date, subject to limits of time and amount. The Company is a party to certain claims made under these indemnification provisions. As of June 30, 2017, the Company has a contingent liability recorded for such provisions related to discontinued operations. Management does not believe that the outcome of this claim, or other claims, would significantly affect the Company's financial condition or results of operation.

13. EXIT ACTIVITY COSTS AND ASSET IMPAIRMENTS

16

Table of Contents

The Company is in its third year of a five year planned transformation strategy formulated to transform its operations and improve its financial results over this five year period. This strategy includes an 80/20 simplification initiative which, in part, focuses the Company's internal resources on further increasing the value provided to our customers. A result of this initiative was the identification of low-volume, low margin, internally-produced products which have been or will be outsourced or discontinued. Portfolio management, another key part of the strategy and a natural adjunct to the 80/20 initiative, is another initiative in which management conducts strategic reviews of our current portfolio for future profitable growth and greater shareholder returns. This initiative has resulted in the sale and exiting of less profitable businesses or products lines in order to enable the Company to re-allocate leadership, time, capital and resources to the highest potential platforms and businesses. Exit activity costs and asset impairment charges were incurred as a result of these initiatives.

Exit activity costs were incurred during the six months ended June 30, 2017 which related to contract termination costs, severance costs, and other moving and closing costs. These costs were the result of the closing and consolidation of facilities, relocation of inventory and equipment at those facilities and the reduction of workforce associated with the discontinued products and closed facilities. During the six months ended June 30, 2017, asset impairment charges incurred were more than offset by a gain on sale of assets previously impaired in 2016 as a result of businesses and product lines discontinued. Specifically, the exit of both the Company's small European residential solar racking business and the exit of the Company's U.S. bar grating product line, which commenced during the fourth quarter of 2016, transacted sales of assets during the six months ended June 30, 2017 which resulted in a net gain. These exits were completed in the first half of 2017. During the six months ended June 30, 2017, asset impairment charges were incurred related to the write-down of inventory and impairment of machinery and equipment associated with either discontinued product lines or the reduction of manufactured goods offered within a product line. These assets were written down to their sale or scrap value, and were subsequently sold or disposed of. During the six months ended June 30, 2017, the company closed three facilities as a result of these initiatives.

During the six months ended June 30, 2016, the Company incurred asset impairment charges and exit activity costs resulting from the above initiatives as well. As a result of these initiatives, the Company sold its European industrial manufacturing business to a third party in April 2016, as well as closed one other facility during the first half of 2016. The following tables set forth the asset impairment charges and exit activity costs incurred by segment during the three and six months ended June 30, related to the restructuring activities described above (in thousands):

	Three Months Ended					
	June 30, 2017			2016		
	Inventory write-downs &/or asset impairment recoveries, net	Exit activity costs	Total	Inventory write-downs &/or asset impairment charges	Exit activity costs	Total
Residential Products	\$(126)	\$ 207	\$81	\$118	\$ 140	\$258
Industrial & Infrastructure Products	(1,694)	315	(1,379)	46	805	851
Renewable Energy & Conservation	—	1,369	1,369	—	—	—
Corporate	—	135	135	—	—	—
Total exit activity costs & asset impairments	\$(1,820)	\$ 2,026	\$206	\$164	\$ 945	\$1,109
	Six Months Ended					
	June 30, 2017			2016		
	Inventory write-downs	Exit activity	Total	Inventory write-downs	Exit activity	Total

Edgar Filing: GIBRALTAR INDUSTRIES, INC. - Form 10-Q

	&/or asset impairment recoveries, net	costs		&/or asset impairment charges	costs	
Residential Products	\$(147)	\$ 392	\$245	\$806	\$ 470	\$1,276
Industrial & Infrastructure Products	(2,590)	2,971	381	268	1,263	1,531
Renewable Energy & Conservation	—	2,419	2,419	—	—	—
Corporate	—	163	163	—	—	—
Total exit activity costs & asset impairments	\$(2,737)	\$ 5,945	\$3,208	\$1,074	\$ 1,733	\$ 2,807

Table of Contents

The following table provides a summary of where the asset impairments and exit activity costs were recorded in the statement of operations for the three and six months ended June 30, (in thousands):

	Three Months		Six Months	
	Ended		Ended	
	June 30,		June 30,	
	2017	2016	2017	2016
Cost of sales	\$(1,472)	\$560	\$(478)	\$1,678
Selling, general, and administrative expense	1,678	549	3,686	1,129
Net asset impairment and exit activity charges	\$206	\$1,109	\$3,208	\$2,807

The following table reconciles the beginning and ending liability for exit activity costs relating to the Company's facility consolidation efforts (in thousands):

	2017	2016
Balance at January 1	\$3,744	\$603
Exit activity costs recognized	5,945	1,733
Cash payments	(8,288)	(1,527)
Balance at June 30	\$1,401	\$809

As noted above, the Company sold its European industrial manufacturing business to a third party on April 15, 2016 from its Industrial and Infrastructure Products segment. This divestiture did not meet the criteria to be reported as a discontinued operation as it does not represent a strategic shift that has or will have a major effect on the Company's operations. Therefore, prior period results of continuing operations have not been restated to exclude the impact of the divested business's financial results. The pretax loss on disposal is presented within other expense (income) in the consolidated statement of operations. Neither the exiting of the Company's small European residential solar racking business nor its U.S. bar grating product line met the criteria to be reported as a discontinued operation as well.

14. INCOME TAXES

The following table summarizes the provision for income taxes for continuing operations (in thousands) for the three and six months ended June 30, and the applicable effective tax rates:

	Three Months Ended		Six Months Ended	
	June 30,		June 30,	
	2017	2016	2017	2016
Provision for income taxes	\$7,853	\$(1,897)	\$9,906	\$3,179
Effective tax rate	37.3 %	(11.3)%	36.6 %	10.3 %

The effective tax rate for the three months and six months ended June 30, 2017 was greater than the U.S. federal statutory rate of 35% due to state taxes and \$2.0 million of pretax losses generated by the European residential solar racking business for which no tax benefit has been recorded as such benefit is not expected to be realizable partially offset by net deductible permanent differences and favorable discrete items. The effective tax rate for the three and six months ended June 30, 2016 was less than the U.S. federal statutory rate of 35% due to net deductible permanent differences and favorable discrete items partially offset by state taxes.

The Company recorded a discrete tax benefit of \$11.4 million during the three months ended June 30, 2016 due to the effect of a worthless stock deduction and an associated bad debt deduction of inter-company debt resulting from the sale of its European industrial manufacturing business to a third party. The amount of this benefit was subsequently adjusted in the fourth quarter of 2016.

Table of Contents

15. EARNINGS PER SHARE

Basic earnings and diluted weighted-average shares outstanding are as follows for the three and six months ended June 30, (in thousands):

	Three Months Ended June 30,		Six Months Ended June 30,	
	2017	2016	2017	2016
Numerator:				
Income from continuing operations	\$13,174	\$18,612	\$17,170	\$27,641
Loss from discontinued operations	(405)	—	(405)	—
Net income available to common shareholders	\$12,769	\$18,612	\$16,765	\$27,641
Denominator for basic earnings per share:				
Weighted average shares outstanding	31,709	31,475	31,698	31,447
Denominator for diluted earnings per share:				
Weighted average shares outstanding	31,709	31,475	31,698	31,447
Common stock options and restricted stock	474	532	521	469
Weighted average shares and conversions	\$32,183	\$32,007	\$32,219	\$31,916

The weighted average number of diluted shares does not include potential anti-dilutive common shares aggregating 556,000 and 764,000 for the three months ended June 30, 2017 and 2016, respectively, and 541,000 and 724,000 for the six months ended June 30, 2017 and 2016, respectively .

16. SEGMENT INFORMATION

The Company is organized into three reportable segments on the basis of the production process and products and services provided by each segment, identified as follows:

- (i) Residential Products, which primarily includes roof and foundation ventilation products, mail and package storage products, rain dispersion products and roofing accessories;
- (ii) Industrial and Infrastructure Products, which primarily includes expanded and perforated metal, expansion joints and structural bearings; and
- (iii) Renewable Energy and Conservation, which primarily includes designing, engineering, manufacturing and installation of solar racking systems and greenhouse structures.

When determining the reportable segments, the Company aggregated operating segments based on their similar economic and operating characteristics.

Table of Contents

The following table illustrates certain measurements used by management to assess performance of the segments described above for the three and six months ended June 30, (in thousands):

	Three Months Ended		Six Months Ended	
	June 30,		June 30,	
	2017	2016	2017	2016
Net sales:				
Residential Products	\$127,252	\$119,965	\$231,803	\$220,112
Renewable Energy and Conservation	62,763	64,766	114,555	122,640
Industrial and Infrastructure Products	57,926	81,380	108,644	161,397
Less: Intersegment sales	(314)	(373)	(770)	(740)

Total consolidated net sales	\$247,627	\$265,738	\$454,232	\$503,409
Income from operations:				
Residential Products	\$22,579	\$20,725	\$38,220	\$32,956
Renewable Energy and Conservation	3,492	10,296	6,832	18,603
Industrial and Infrastructure Products	3,397	6,190	3,360	9,516
Unallocated Corporate Expenses	(4,538)	(8,635)	(13,803)	(14,738)
Total income from operations	\$24,930	\$28,576	\$34,609	\$46,337

17. SUPPLEMENTAL FINANCIAL INFORMATION

The following information sets forth the consolidating summary financial statements of the issuer (Gibraltar Industries, Inc.) and guarantors, which guarantee the Senior Subordinated 6.25% Notes due February 1, 2021, and the non-guarantors. The guarantors are 100% owned domestic subsidiaries of the issuer and the guarantees are full, unconditional, joint and several.

Investments in subsidiaries are accounted for by the parent using the equity method of accounting. The guarantor subsidiaries and non-guarantor subsidiaries are presented on a combined basis. The principal elimination entries eliminate investments in subsidiaries and intercompany balances and transactions.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

Certain information set forth herein includes statements that express our opinions, expectations, beliefs, plans, objectives, assumptions or projections regarding future events or future results and, therefore, are or may be deemed to be, "forward-looking statements." These forward-looking statements can generally be identified by the use of forward-looking terminology, including the terms "believes," "anticipates," "expects," "estimates," "seeks," "projects," "intends," "plans," "may," "will" or "should" or, in each case, their negative or other variations or comparable terminology. These forward-looking statements include all matters that are not historical facts. They include statements regarding our intentions, beliefs or current expectations concerning, among other things, our results of operations, financial condition, liquidity, prospects, growth, competition, strategies and the industry in which we operate. By their nature, forward-looking statements involve risks and uncertainties because they relate to events and depend on circumstances that may or may not occur in the future. We believe that these risks and uncertainties include, but are not limited to, those described in the "Risk Factors" disclosed in our Annual Report on Form 10-K. Although we base these forward-looking statements on assumptions that we believe are reasonable when made, we caution you that forward-looking statements are not guarantees of future performance and that our actual results of operations, financial condition and liquidity and the development of the industries in which we operate may differ materially from those made in or suggested by the forward-looking statements contained herein. In addition, even if our results of operations, financial condition and liquidity and the development of the industries in which we operate are consistent with the forward-looking statements contained in this quarterly report, those results or developments may not be indicative of results or developments in subsequent periods. Given these risks and uncertainties, you are cautioned not to place undue reliance on these forward-looking statements. Any forward-looking statements that we make herein speak only as of the date of those statements, and we undertake no obligation to update those statements or to publicly announce the results of any revisions to any of those statements to reflect future events or developments. Comparisons of results for current and any prior periods are not intended to express any future trends or indications of future performance, unless expressed as such, and should only be viewed as historical data.

Overview

Gibraltar Industries, Inc. (the "Company") is a leading manufacturer and distributor of building products for the industrial, transportation infrastructure, residential housing, renewable energy and resource conservation markets. Our business strategy is designed to significantly elevate and accelerate the growth and financial returns of the Company. We believe this can be achieved, in part, from a transformational change in the Company's portfolio, as well as, the implementation of the strategy described below. Our business strategy has four key elements, or "pillars," which are: operational excellence, product innovation, portfolio management, and acquisitions as a strategic accelerator. We strive to deliver best-in-class, sustainable value creation for our shareholders for the long-term.

Operational excellence is our first pillar in this strategy. 80/20 simplification ("80/20") is a core part of the operational excellence pillar and is based on the analysis that 25% of the customers typically generate 89% of the revenue in a business, and 150% of the profitability. Through analysis of data generated by our 80/20 practices, we are focusing on our largest and best opportunities (the "80") and eliminating complexity associated with less profitable opportunities (the "20") in order to generate more earnings year over year, at a higher rate of return with a more efficient use of capital.

We are in the third year of our multi-year simplification initiative. Since initiation of 80/20 in 2015, we have exceeded our initial five-year target ending 2019 of \$25 million of pre-tax savings. We are currently in the middle of this 80/20 initiative, which means that there is both more work and more opportunity ahead. We are targeting greater structural changes affecting our balance sheet. We are starting the follow-on management tools of in-lining our manufacturing processes linked with market-rate-of-demand replenishment tools. These follow-on tools are focused on manufacturing the highest-volume products for our largest customers, and on a much higher level of capacity utilization. We expect these methods will yield additional benefits including lower manufacturing costs, lower inventories and fixed assets, and an even higher level of service to customers.

The second pillar of our strategy is portfolio management, which is a natural adjunct to the 80/20 initiative. Using the 80/20 process, we conduct strategic reviews of our customers and end markets, and allocate leadership time, capital and resources to the platforms and businesses with the highest revenue and margin potential. Following the sale of our European industrial manufacturing business to a third party in April 2016, we decided in December 2016 to exit our small European residential solar racking business and U.S. bar grating product line, both of which proceeded as planned. These portfolio changes have helped contribute to the Company's realization of a higher rate of return on invested capital in 2016. We have now acted on all near-term portfolio assessments and expect no additional changes in 2017 while we continue to position our resources on more attractive projects and markets.

Table of Contents

Product innovation is our third strategic pillar. Innovation is centered on the allocation of new and existing resources to opportunities that we believe will produce sustainable returns. Our focus is on driving top line growth with new and innovative products. We are focused on those products and technologies that have relevance to the end-user and can be differentiated from our competition. Our initiatives will be tailored toward reallocating sales and marketing talent to target specific end user groups in order to better understand their needs and the various market opportunities that may be available. This effort is expected to produce ideas and opportunities that generate profitable growth. Our focus on innovation is centered on four markets: postal and parcel products, residential air management, infrastructure and renewable energy. These respective markets are expected to grow based on demand for: centralized mail and parcel delivery systems; zero carbon footprint homes; the need for repairs to elevated bridges that are structurally deficient or functionally obsolete; and energy sources not dependent on fossil fuels.

The fourth pillar of our strategy is acquisitions. We have targeted five key markets in which to make strategic acquisitions, four of which are served by existing platforms within the Company. The existing platforms include the same areas in which we are targeting the development of innovative products: postal and parcel solutions, infrastructure, residential air management and renewable energy. The new market we are targeting for strategic acquisitions is water management and conservation. These platforms are all in large markets in which the underlying trends for customer convenience and safety, energy-savings and resource conservation are of increasing importance to consumers and are expected to drive long-term demand. We believe these markets also offer the opportunity for higher returns on our investments than those we have generated in the past. The acquisitions of Rough Brothers Manufacturing, Inc., RBI Solar, Inc., and affiliates, collectively known as "RBI" in June 2015 and more recently, Nexus Corporation ("Nexus") in October 2016 and Package Concierge in February 2017, were the direct result of this strategy.

On February 22, 2017, the Company acquired all of the outstanding stock of Package Concierge for approximately \$19 million subject to a working capital adjustment and certain other adjustments provided for in the stock purchase agreement. The acquisition was financed through cash on hand. Package Concierge is a leading provider of multifamily electronic package delivery locker systems in the United States. The results of operations of Package Concierge have been included within the Residential Products segment of the Company's consolidated financial statements from the date of acquisition.

On February 6, 2017, the Company completed the sale of substantially all of its U.S. bar grating product line assets to a third party. The Company had previously announced, on December 2, 2016, its intentions to exit its U.S. bar grating product line as part of its portfolio management initiative. These assets were a part of our Industrial and Infrastructure Products segment.

On December 2, 2016, the Company announced its decision to exit its European residential solar racking business and U.S. bar grating product line as part of its portfolio management and 80/20 strategic initiatives. These businesses contributed a combined \$75 million in revenue and pre-tax operating losses of \$6 million in 2016. This action resulted in the sale and closing of 3 facilities in early 2017.

On October 11, 2016, the Company acquired all of the outstanding stock of Nexus for approximately \$24 million. The acquisition was financed through cash on hand. Nexus is a leading provider of commercial-scale greenhouses to customers in the United States. The results of operations of Nexus have been included within the Renewable Energy and Conservation segment of the Company's consolidated financial statements from the date of acquisition.

On April 15, 2016, the Company sold its European industrial manufacturing business to a third party for net of cash proceeds of \$8.3 million. This business, which supplied expanded metal products for filtration and other applications, contributed \$36 million in revenue to the Company's Industrial and Infrastructure Products segment in 2015 and had nearly break-even operating results. The Company's divestiture of this business was the result of the Company's portfolio management assessments.

The Company serves customers primarily throughout North America and, to a lesser extent, Asia. Our customers include major home improvement retailers, wholesalers, industrial distributors, contractors, solar developers and institutional and commercial growers of plants. As of June 30, 2017, we operated 42 facilities in 17 states, Canada, China, and Japan, giving us a base of operations to provide customer support, delivery, service and quality to a number of regional and national customers and providing us with manufacturing and distribution efficiencies in North America, as well as a presence in the Asian markets.

The Company operates and reports its results in the following three reporting segments, entitled:

Residential Products;

Renewable Energy and Conservation; and

Industrial and Infrastructure Products.

Table of Contents

Our Residential Products segment services residential repair and remodeling activity and new residential housing construction with products including roof and foundation ventilation products, mail and package storage products, rain dispersion products and roof ventilation accessories. This segment's products are sold through major retail home centers, building material wholesalers, distributor groups, residential contractors and property management companies.

Our Renewable Energy and Conservation segment focuses on the design, engineering, manufacturing and installation of solar racking systems and commercial, institutional, and retail greenhouse structures. This segment's services and products are provided directly to developers, select distribution channels, and end users/owners.

Our Industrial and Infrastructure Products segment focuses on a variety of markets including industrial and commercial construction, highway and bridge construction, automotive, airports and energy and power generation markets with products including perimeter security, expanded and perforated metal, plank grating, as well as, expansion joints and structural bearings for roadways and bridges. This segment sells its products through steel fabricators and distributors, commercial and transportation contractors, and original equipment manufacturers. The end markets our businesses serve include residential housing, industrial manufacturing, transportation infrastructure, and renewable energy and conservation. These end markets are subject to economic conditions that are influenced by various factors. These factors include but are not limited to changes in general economic conditions, interest rates, exchange rates, commodity costs, demand for residential construction, governmental policies and funding, tax policies and the volume of non-residential construction and infrastructure projects. We believe the key elements of our strategy will allow us to respond timely to changes in these factors. We have and expect to continue to restructure our operations, including consolidation of facilities, reducing overhead costs, curtailing investments in inventory, and managing our business to generate incremental cash. Additionally, we believe our strategy has enabled us to better react to fluctuations in commodity costs and customer demand, and has helped in improving margins. We have used the improved cash flows generated by these initiatives to maintain low levels of debt, improve our liquidity position, and invest in growth initiatives. Overall, we are striving to achieve stronger financial results, make more efficient use of capital, and deliver higher shareholder returns.

Results of Operations

Three Months Ended June 30, 2017 Compared to the Three Months Ended June 30, 2016

The following table sets forth selected data from our statements of operations and the related percentage of net sales for the three months ended June 30, (in thousands):

	2017		2016	
Net sales	\$247,627	100.0 %	\$265,738	100.0 %
Cost of sales	185,802	75.0 %	196,895	74.1 %
Gross profit	61,825	25.0 %	68,843	25.9 %
Selling, general, and administrative expense	36,895	14.9 %	40,267	15.1 %
Income from operations	24,930	10.1 %	28,576	10.8 %
Interest expense	3,550	1.4 %	3,666	1.4 %
Other expense	353	0.2 %	8,195	3.1 %
Income before taxes	21,027	8.5 %	16,715	6.3 %
Provision for (benefit of) income taxes	7,853	3.2 %	(1,897)	(0.7)%
Income from continuing operations	13,174	5.3 %	18,612	7.0 %
Loss from discontinued operations	(405)	(0.1)%	—	0.0 %
Net income	\$12,769	5.2 %	\$18,612	7.0 %

The following table sets forth the Company's net sales by reportable segment for the three months ended June 30, (in thousands):

	2017	2016	Total Change	Change due to		
				Divestitures	Acquisitions	Operations
Net sales:						
Residential Products	\$127,252	\$119,965	\$7,287	\$—	\$1,702	\$5,585
Renewable Energy and Conservation	62,763	64,766	(2,003)	(2,900)	4,522	(3,625)
Industrial and Infrastructure Products	57,926	81,380	(23,454)	(17,715)	—	(5,739)
Less: Intersegment sales	(314)	(373)	59	—	—	59
Net Industrial and Infrastructure Products	57,612	81,007	(23,395)	(17,715)	—	(5,680)
Consolidated	\$247,627	\$265,738	\$(18,111)	\$(20,615)	\$6,224	\$(3,720)

Consolidated net sales decreased by \$18.1 million, or 6.8%, to \$247.6 million for the three months ended June 30, 2017 compared to the three months ended June 30, 2016. The decrease in sales was primarily the result of divestitures related to the Company's portfolio management activities during 2016. The Company sold its European industrial manufacturing business in April 2016 to a third party and exited both the Company's small European residential solar racking business and the Company's U.S. bar grating product line, both of which commenced during the fourth quarter of 2016. These divestitures resulted in a decrease in revenues of \$20.6 million from the prior year quarter. Along with the divestitures, volumes in ongoing revenue streams quarter over quarter decreased 3.0%. Slightly offsetting these declines were net sales contributions from our recent acquisitions in our Renewable Energy and Conservation and Residential Products Segments, Nexus in October 2016 and Package Concierge in February 2017, along with a modest 2.0% increase in pricing to customers.

Net sales in our Residential Products segment increased 6.1%, or \$7.3 million to \$127.3 million for the three months ended June 30, 2017 compared to \$120.0 million in the three months ended June 30, 2016. The increase was the result of sales generated from the acquisition of Package Concierge, an increase in pricing to customers, and a net increase in volume. The net sales volume increase was primarily due to an increase in demand for our commercial package solutions as well as our roofing-related ventilation and rain dispersion products.

Net sales in our Renewable Energy and Conservation segment decreased 3.1%, or \$2.0 million to \$62.8 million for the three months ended June 30, 2017 compared to \$64.8 million for the three months ended June 30, 2016. The decrease was the result of the effects of the exit of the Company's small European residential solar racking business, and continued softness in our international markets, partially offset by sales generated from the acquisition of Nexus. The decrease in volume was expected as we entered the second quarter of 2017. Ending backlog for this segment has increased during the second quarter of 2017.

Net sales in our Industrial and Infrastructure Products segment decreased 28.9%, or \$23.4 million to \$57.6 million for the three months ended June 30, 2017 compared to \$81.0 million for the three months ended June 30, 2016. The decrease in net sales was the combined result of the Company's exit from its U.S. bar grating product line and the divestiture of our European industrial manufacturing business, along with a 8.0% decrease in volume as compared to the second quarter in the prior year. A decrease in demand for our infrastructure products, which include components for bridges and elevated highways, contributed to the decline in volume due to continued delay in infrastructure projects. We expect this decline to be temporary due to federal and state funding availability and as evidenced by an increase in segment backlog during the quarter.

Our consolidated gross margin slightly decreased to 25.0% for the three months ended June 30, 2017 compared to 25.9% for the three months ended June 30, 2016. The decrease in margin was largely the result of increased costs for steel and aluminum, less favorable alignment of material costs to customer selling prices and competitive pressures on pricing. This decrease was largely offset by portfolio management actions during 2016 in which less profitable businesses or product lines were sold or exited in order to enable the Company to re-allocate leadership, time, capital and resources to the highest potential platforms and businesses.

Selling, general, and administrative (SG&A) expenses decreased by \$3.4 million, or 8.4%, to \$36.9 million for the three months ended June 30, 2017 from \$40.3 million for the three months ended June 30, 2016. The \$3.4 million decrease was primarily due to \$5.3 million of lower performance-based compensation expenses. This was partially offset by \$2.4 million of additional expense from the acquisitions of Nexus and Package Concierge, as well as a \$1.6

million increase in restructuring costs related

36

to our portfolio management and 80/20 initiatives. SG&A expenses as a percentage of net sales slightly decreased to 14.9% in the three months ended June 30, 2017 compared to 15.1% in the three months ended June 30, 2016.

The following table sets forth the Company's income from operations and income from operations as a percentage of net sales by reportable segment for the three months ended June 30, (in thousands):

	2017		2016		Total Change
Income (loss) from operations:					
Residential Products	\$22,579	17.7 %	\$20,725	17.3 %	\$1,854
Renewable Energy and Conservation	3,492	5.6 %	10,296	15.9 %	(6,804)
Industrial and Infrastructure Products	3,397	5.9 %	6,190	7.6 %	(2,793)
Unallocated Corporate Expenses	(4,538)	(1.8)%	(8,635)	(3.2)%	4,097
Consolidated income from operations	\$24,930	10.1 %	\$28,576	10.8 %	\$(3,646)

Our Residential Products segment generated an operating margin of 17.7% during the three months ended June 30, 2017 compared to 17.3% during the three months ended June 30, 2016. The increase of \$1.9 million of operating profit is due to the benefits of improved operational efficiencies and contributions from the 80/20 initiative.

The Renewable Energy and Conservation segment generated an operating margin of 5.6% in the current year quarter compared to 15.9% in the prior year quarter. The decrease was primarily due to lower volume, an unfavorable alignment of material costs to customer selling prices, and field installation issues isolated to the second quarter, along with \$1.4 million of costs incurred to divest the European solar racking business.

Our Industrial and Infrastructure Products segment generated an operating margin of 5.9% during the three months ended June 30, 2017 compared to 7.6% during the three months ended June 30, 2016. The decrease was mainly the result of lower volumes resulting from the divestitures of our U.S. bar grating product line and our European industrial manufacturing business not fully offset by the effects of manufacturing efficiencies resulting from the 80/20 initiative. Unallocated corporate expenses decreased \$4.1 million from \$8.6 million during the three months ended June 30, 2016 to \$4.5 million during the three months ended June 30, 2017. This decrease from the prior year quarter was largely due to a \$5.3 million decrease in performance-based compensation expenses.

The Company recorded other expense of \$0.4 million for the three months ended June 30, 2017. Other expense of \$8.2 million for the three months ended June 30, 2016 was primarily comprised of the \$8.5 million pre-tax loss on the sale of our European industrial manufacturing business, partially offset by net gains on foreign currency transactions. Interest expense decreased by \$0.1 million to \$3.6 million for the three months ended June 30, 2017 compared to \$3.7 million for the three months ended June 30, 2016. During the three months ended June 30, 2017 and 2016, no amounts were outstanding under our revolving credit facility.

We recognized a provision for income taxes of \$7.9 million for the three months ended June 30, 2017, an effective tax rate of 37.3%, compared with a benefit from income taxes of \$1.9 million, with an effective tax rate of (11.3)% for the three months ended June 30, 2016, respectively. The effective tax rate for the second quarter of 2017 exceeded the U.S. federal statutory rate of 35% due to state taxes and \$2.0 million of pretax losses generated by the European residential solar racking business for which no tax benefit has been recorded as such benefit is not expected to be realizable, partially offset by net deductible permanent differences and favorable discrete items. The effective tax rate for the second quarter of 2016 was less than the U.S. federal statutory rate of 35% primarily due to a discrete tax benefit of \$11.4 million resulting from the sale of our European industrial manufacturing business along with net deductible permanent differences, partially offset by state taxes.

Six Months Ended June 30, 2017 Compared to the Six Months Ended June 30, 2016

The following table sets forth selected data from our statements of operations and the related percentage of net sales for the six months ended June 30, (in thousands):

	2017		2016	
Net sales	\$454,232	100.0 %	\$503,409	100.0 %
Cost of sales	343,152	75.5 %	380,416	75.6 %
Gross profit	111,080	24.5 %	122,993	24.4 %
Selling, general, and administrative expense	76,471	16.9 %	76,656	15.2 %
Income from operations	34,609	7.6 %	46,337	9.2 %
Interest expense	7,126	1.5 %	7,357	1.5 %
Other expense	407	0.1 %	8,160	1.6 %
Income before taxes	27,076	6.0 %	30,820	6.1 %
Provision for income taxes	9,906	2.2 %	3,179	0.6 %
Income from continuing operations	17,170	3.8 %	27,641	5.5 %
Loss from discontinued operations	(405)	(0.1)%	—	0.0 %
Net income	\$16,765	3.7 %	\$27,641	5.5 %

The following table sets forth the Company's net sales by reportable segment for the six months ended June 30, (in thousands):

	2017	2016	Total Change	Change due to		
				Divestitures	Acquisitions	Operations
Net sales:						
Residential Products	\$231,803	\$220,112	\$11,691	\$—	\$ 2,278	\$9,413
Renewable Energy and Conservation	114,555	122,640	(8,085)	(4,300)	8,829	(12,614)
Industrial and Infrastructure Products	108,644	161,397	(52,753)	(44,819)	—	(7,934)
Less: Intersegment sales	(770)	(740)	(30)	—	—	(30)
Net Industrial and Infrastructure Products	107,874	160,657	(52,783)	(44,819)	—	(7,964)
Consolidated	\$454,232	\$503,409	\$(49,177)	\$(49,119)	\$ 11,107	\$(11,165)

Consolidated net sales decreased by \$49.2 million, or 9.8%, to \$454.2 million for the six months ended June 30, 2017 compared to the six months ended June 30, 2016. The decrease in sales was primarily the result of divestitures related to the Company's portfolio management activities during 2016. The Company sold its European industrial manufacturing business in April 2016 to a third party and exited both the Company's small European residential solar racking business and the Company's U.S. bar grating product line, both of which commenced during the fourth quarter of 2016. These divestitures resulted in a decrease in revenues of \$49.1 million from the prior year. Along with the divestitures, volumes in comparable revenue streams decreased 4.0% year over year. Net sales contributions from our recent acquisitions in our Renewable Energy and Conservation and Residential Products Segments, Nexus in October 2016 and Package Concierge in February 2017, in conjunction with a modest 2.0% increase in pricing to customers, partially offset these declines.

Net sales in our Residential Products segment increased 5.3%, or \$11.7 million to \$231.8 million for the six months ended June 30, 2017 compared to \$220.1 million in the six months ended June 30, 2016. The increase was the result of sales generated from the acquisition of Package Concierge, an increase in pricing to customers, and net increase in volume. The net sales volume increase was primarily due to an increase in demand for our postal and parcel storage products.

Net sales in our Renewable Energy and Conservation segment decreased 6.6%, or \$8.1 million to \$114.6 million for the six months ended June 30, 2017 compared to \$122.6 million for the six months ended June 30, 2016. The decrease was the result of the effects of the exit of the Company's small European residential solar racking business, continued softness in our international markets, and a reduction in the domestic business, partially offset by sales generated from the acquisition of Nexus. As expected, volume declined in the first half of 2017 with lower backlogs as compared to the beginning of 2016. Ending backlog for this segment now exceeds its prior year level.

Net sales in our Industrial and Infrastructure Products segment decreased 32.9%, or \$52.8 million to \$107.9 million for the six months ended June 30, 2017 compared to \$160.7 million for the six months ended June 30, 2016. The decrease in net sales was the combined result of the Company's exit from its U.S. bar grating product line and the divestiture of our European industrial manufacturing business, along with a 6.0% decrease in volume as compared to the same period in the prior year. A decrease in demand for our infrastructure products, which include components for bridges and elevated highways, contributed to the decline in volume due to continued delay in infrastructure projects. We expect this decline to be temporary due to pending federal and state funding availability and as evidenced by an increase in segment backlog for first half of the current year.

Our consolidated gross margin remained relatively unchanged at 24.5% for the six months ended June 30, 2017 compared to 24.4% for the six months ended June 30, 2016. The Company benefited from portfolio management actions during 2016 in which less profitable businesses or products lines were sold or exited in order to enable the Company to re-allocate leadership, time, capital and resources to the platforms and businesses with the highest potential revenue and margins. In addition, other portfolio management actions taken resulting from our 80/20 initiatives contributed to maintaining the margin as well. These benefits were largely offset by less favorable alignment of material costs to customer selling prices.

Selling, general, and administrative (SG&A) expenses modestly decreased by \$0.2 million, or 0.3%, to \$76.5 million for the six months ended June 30, 2017 from \$76.7 million for the six months ended June 30, 2016. The \$0.2 million decrease was primarily due to a \$3.9 million decrease in performance-based compensation expenses. This was partially offset by a \$3.7 million increase in portfolio management charges related to our 80/20 initiatives, as well as senior leadership transition costs. SG&A expenses as a percentage of net sales increased to 16.9% in the six months ended June 30, 2017 compared to 15.2% in the six months ended June 30, 2016.

The following table sets forth the Company's income from operations and income from operations as a percentage of net sales by reportable segment for the six months ended June 30, (in thousands):

	2017		2016		Total Change
Income (loss) from operations:					
Residential Products	\$38,220	16.5 %	\$32,956	15.0 %	\$5,264
Renewable Energy and Conservation	6,832	6.0 %	18,603	15.2 %	(11,771)
Industrial and Infrastructure Products	3,360	3.1 %	9,516	5.9 %	(6,156)
Unallocated Corporate Expenses	(13,803)	(3.0)%	(14,738)	(2.9)%	935
Consolidated income from operations	\$34,609	7.6 %	\$46,337	9.2 %	\$(11,728)

Our Residential Products segment generated an operating margin of 16.5% during the six months ended June 30, 2017 compared to 15.0% during the six months ended June 30, 2016. The increase of \$5.3 million of operating profit is primarily due to the benefits of improved operational efficiencies and contributions from the 80/20 initiative.

The Renewable Energy and Conservation segment generated an operating margin of 6.0% in the current year compared to 15.2% in the prior year. The decrease was primarily due to lower volume, an unfavorable alignment of material costs to customer selling prices, along with \$2.4 million of reduction of workforce and facility cleanup costs incurred to divest the European solar racking business.

Our Industrial and Infrastructure Products segment generated an operating margin of 3.1% during the six months ended June 30, 2017 compared to 5.9% during the six months ended June 30, 2016. The decrease was largely an unfavorable alignment of material costs to customer selling prices.

Unallocated corporate expenses decreased \$0.9 million from \$14.7 million during the six months ended June 30, 2016 to \$13.8 million during the six months ended June 30, 2017. The largest contributor to the lower expenses in the current year was the decrease in performance-based compensation expenses. Senior leadership transition costs recorded during the current year partially offset the decreased compensation expenses over the comparable period for 2016.

The Company recorded other expense of \$0.4 million for the six months ended June 30, 2017. Other expense of \$8.2 million for the six months ended June 30, 2016 was primarily comprised of the \$8.5 million pre-tax loss on the sale of

our European industrial manufacturing business, partially offset by net gains on foreign currency transactions.

39

Interest expense decreased by \$0.2 million to \$7.1 million for the six months ended June 30, 2017 compared to \$7.4 million for the six months ended June 30, 2016. During the six months ended June 30, 2017 and 2016, no amounts were outstanding under our revolving credit facility.

We recognized a provision for income taxes of \$9.9 million and \$3.2 million, with effective tax rates of 36.6% and 10.3% for the six months ended June 30, 2017, and 2016, respectively. The effective tax rate for the six months ended June 30, 2017 exceeded the U.S. federal statutory rate of 35% due to state taxes and \$2.0 million of pretax losses generated by the European residential solar racking business for which no tax benefit has been recorded as such benefit is not expected to be realizable, partially offset by net deductible permanent differences and favorable discrete items. The effective tax rate for the six months ended June 30, 2016 was less than the U.S. federal statutory rate of 35% primarily due to a discrete tax benefit of \$11.4 million resulting from the sale of our European industrial manufacturing business along with net deductible permanent differences, partially offset by state taxes.

Outlook

For the second half of 2017, we continue to expect generally favorable market conditions for each of our segments, increased bidding activity and continued growth of backlogs in both our Industrial & Infrastructure and Renewable Energy & Conservation segments, as well as increased revenues from our new product development initiatives. As we head into our seasonally strongest quarter, we are maintaining our full year guidance of revenues in the \$970 million to \$980 million range and earnings per share ("EPS") to be between \$1.37 and \$1.50 per diluted share, comparing favorably to \$1.05 in 2016.

For the second half of 2017 our financial priorities will be to accelerate sales through innovative products, seek value-added acquisitions in attractive end markets, and continue to advance our 80/20 initiatives.

For the third quarter of 2017, we expect revenues in the range of \$275 million to \$280 million, and EPS to be between \$0.51 and \$0.58 per diluted share, compared to \$0.43 in the third quarter of 2016.

Liquidity and Capital Resources

General

Our principal capital requirements are to fund our operations' working capital and capital improvements and to fund acquisitions. We will continue to invest in growth opportunities as appropriate while focusing on working capital efficiency and profit improvement opportunities to minimize the cash invested to operate our business. We have successfully generated positive cash flows from operating activities which have funded our capital requirements and recent acquisitions as noted below in "Cash Flows."

On December 9, 2015, we entered into the Company's Fifth Amended and Restated Credit Agreement (the "Senior Credit Agreement") which includes a 5-year, \$300 million revolving credit facility and provides the Company with access to capital and improved financial flexibility. As of June 30, 2017, our liquidity of \$471.3 million consisted of \$182.4 million of cash plus \$288.9 million of availability under our revolving credit facility. We believe this liquidity, together with the cash expected to be generated from operations, should be sufficient to fund working capital needs and simplification initiatives that likely will need cash to fund transitions and future growth. We continue to search for strategic acquisitions and larger acquisitions may require additional borrowings and/or the issuance of our common stock.

Our Senior Credit Agreement provides the Company with liquidity and capital resources for use by our U.S. operations. Historically, our foreign operations have generated cash flow from operations sufficient to invest in working capital and fund their capital improvements. As of June 30, 2017, our foreign subsidiaries held \$23.5 million of cash in U.S. dollars. We believe cash held by our foreign subsidiaries provides our foreign operations with the necessary liquidity to meet future obligations and allows the foreign business units to reinvest in their operations. These cash resources could eventually be used to grow our business internationally. Repatriation of this cash for domestic purposes could result in significant tax consequences.

Over the long-term, we expect that future obligations, including strategic business opportunities such as acquisitions, may be financed through a number of sources, including internally available cash, availability under our revolving credit facility, new debt financing, the issuance of equity securities, or any combination of the above. Any potential

acquisitions are evaluated based on our acquisition strategy, which includes the enhancement of our existing products, operations, or capabilities, expanding our access to new products, markets, and customers, and the improvement of shareholder value. The recent acquisitions of Nexus Corporation and Package Concierge on October 11, 2016 and February 22, 2017, respectively, were financed through cash on hand.

Table of Contents

These expectations are forward-looking statements based upon currently available information and may change if conditions in the credit and equity markets deteriorate or other circumstances change. To the extent that operating cash flows are lower than current levels, or sources of financing are not available or not available at acceptable terms, our future liquidity may be adversely affected.

Cash Flows

The following table sets forth selected cash flow data for the six months ended June 30, (in thousands):

	2017	2016
Cash provided by (used in):		
Operating activities of continuing operations	\$21,720	\$49,441
Investing activities of continuing operations	(8,990)	3,410
Financing activities of continuing operations	(1,156)	1,141
Effect of exchange rate changes	628	1,264
Net increase in cash and cash equivalents	\$12,202	\$55,256

During the six months ended June 30, 2017, we generated net cash from operating activities totaling \$21.7 million, composed of net income of \$17.2 million plus \$12.1 million from non-cash charges including depreciation, amortization, stock compensation, and exit activities, partially offset by an investment in working capital and other net assets of \$7.5 million. Net cash provided by operating activities for the six months ended June 30, 2016 totaled \$49.4 million, primarily composed of net income from continuing operations of \$27.6 million plus non-cash charges including depreciation, amortization, stock compensation and loss on sale of business of \$24.2 million, partially offset by a \$2.4 million investment in working capital.

During the six months ended June 30, 2017, the cash invested in working capital and other net assets of \$7.5 million included a \$14.5 million increase in accounts receivable and a \$10.1 and \$2.1 million decrease in accrued expenses and other non-current liabilities and total other current assets, respectively, partially offset by a \$17.0 million increase in accounts payable and a \$2.2 million decrease in inventory. The increase in accounts receivable is a result of the seasonal increase in manufacturing activity. The decrease in accrued expenses and other non-current liabilities was largely due to the decrease in liabilities for equity based incentive plans as well as annual customer rebate payments made during the first quarter, offset by billings in excess of cost related to the timing of customer contracts. The increase in total other current assets is primarily due to the timing of prepaid expenses. Accounts payable increased due to the seasonal increase in manufacturing activity as well as the timing of quarter end vendor payments. The decrease in inventory is due to the Company's continued 80/20 simplification process efforts, resulting in disposal of inventory associated with less profitable product lines.

Net cash used in investing activities for the six months ended June 30, 2017 of \$9.0 million primarily consisted of \$18.3 million of net cash paid for the acquisition of Package Concierge, capital expenditures of \$3.3 million and a payment of \$0.2 million related to the final purchase adjustment for the acquisition of Nexus. These payments were partially offset by net proceeds of \$12.8 million from the sale of property and equipment. Net cash provided by investing activities for the six months ended June 30, 2016 of \$3.4 million was primarily due to net proceeds of \$8.5 million from the sale of our European industrial manufacturing business partially offset by capital expenditures of \$4.0 million and \$2.3 million related to the final purchase adjustment for the acquisition of RBI.

Net cash used in financing activities for the six months ended June 30, 2017 of \$1.2 million consisted of the purchase of treasury stock of \$1.0 million and payment of long-term debt borrowings of \$0.4 million partially offset by the proceeds received from the issuance of common stock of \$0.2 million. Net cash provided by financing activities for the six months ended June 30, 2016 of \$1.1 million consisted of the proceeds received from the issuance of common stock of \$2.0 million partially offset by the purchase of treasury stock of \$0.5 million and payment of long-term debt borrowings of \$0.4 million.

Senior Credit Agreement and Senior Subordinated Notes

Our Senior Credit Agreement is committed through December 9, 2020. Borrowings under the Senior Credit Agreement are secured by the trade receivables, inventory, personal property, equipment, and certain real property of

the Company's significant domestic subsidiaries. The Senior Credit Agreement provides for a revolving credit facility and letters of credit in an aggregate amount of \$300 million. The Company can request additional financing from the banks to increase the revolving credit facility to \$500 million or to provide a term loan of up to \$200 million subject to conditions set forth in the Senior Credit Agreement. The Senior Credit Agreement contains three financial covenants. As of June 30, 2017, the Company is in compliance with all three covenants.

Table of Contents

Interest rates on the revolving credit facility are based on the LIBOR plus an additional margin that ranges from 1.25% to 2.25% for LIBOR loans based on the Total Leverage Ratio. In addition, the revolving credit facility is subject to an undrawn commitment fee ranging between 0.20% and 0.30% based on the Total Leverage Ratio and the daily average undrawn balance.

As of June 30, 2017, we had \$288.9 million of availability under the Senior Credit Agreement net of outstanding letters of credit of \$11.1 million. No amounts were outstanding under our revolving credit facility as of either June 30, 2017 or December 31, 2016.

In addition to our Senior Credit Agreement, the Company issued \$210.0 million of 6.25% Notes in January 2013 which are due February 1, 2021. Provisions of the 6.25% Notes include, without limitation, restrictions on indebtedness, liens, and distributions from restricted subsidiaries, asset sales, affiliate transactions, dividends, and other restricted payments. Dividend payments are subject to annual limits and interest is paid semiannually on February 1 and August 1 of each year.

Off Balance Sheet Financing Arrangements

We have no off-balance sheet arrangements, other than operating leases, that have or are reasonably likely to have a current or future effect on our financial condition, changes in financial condition, revenues or expenses, results of operations, liquidity, capital expenditures, or capital resources that is material to investors.

Contractual Obligations

Our contractual obligations have not changed materially from the disclosures included in Item 7 of the Company's Annual Report on Form 10-K for the year ended December 31, 2016.

Critical Accounting Policies

In the current year, there have been no changes to our critical accounting policies and estimates from those disclosed in the consolidated financial statements and accompanying notes contained in Company's Annual Report on Form 10-K for the year ended December 31, 2016.

Recent Accounting Pronouncements

See Note 2 to the Company's consolidated financial statements in Part I, Item 1 of this Form 10-Q for further information on recent accounting pronouncements.

Item 3. Qualitative and Quantitative Disclosures About Market Risk

In the ordinary course of business, the Company is exposed to various market risk factors, including changes in general economic conditions, competition, foreign exchange rates, and raw materials pricing and availability. In addition, the Company is exposed to other financial market risks, primarily related to its long-term debt and foreign operations. There have been no material changes to the Company's exposure to market risk since December 31, 2016.

Item 4. Controls and Procedures

(a) Evaluation of Disclosure Controls and Procedures

The Company maintains a system of disclosure controls and procedures (as defined in Rule 13a-15(e) and 15d-15(e) under the Securities Exchange Act of 1934). The Company's Chief Executive Officer and the Chief Financial Officer evaluated the effectiveness of the Company's disclosure controls as of the end of the period covered in this report. Based upon that evaluation and the definition of disclosure controls and procedures contained in Rule 13a-15(e) and 15d-15(e) under the Securities Exchange Act of 1934, the Company's Chief Executive Officer and Chief Financial Officer have concluded that as of the end of such period the Company's disclosure controls and procedures were effective.

(b) Changes in Internal Control over Financial Reporting

There have been no changes in the Company's internal control over financial reporting (as defined by Rule 13a-15(f) or 15d-15(f)) that occurred during the period covered by this Quarterly Report on Form 10-Q that have materially affected the Company's internal control over financial reporting.

PART II. OTHER INFORMATION

Item 1. Legal Proceedings

Not applicable.

Item 1A. Risk Factors

In addition to the other information set forth in this report, you should carefully consider the risks discussed in "Part I, Item 1A. Risk Factors" in our Annual Report on Form 10-K for the fiscal year ended December 31, 2016. These risks and uncertainties have the potential to materially affect our business, financial condition, results of operation, cash flows, and future prospects. Additional risks and uncertainties not currently known to us or that we currently deem immaterial may materially adversely impact our business, financial condition, or operating results.

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds

Not applicable.

Item 3. Defaults Upon Senior Securities

Not applicable.

Item 4. Mine Safety Disclosures

Not applicable.

Item 5. Other Information

Not applicable.
