SONOCO PRODUCTS COMPANY

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

(Dollars in thousands except per share data)

(unaudited)

Note 1: Basis of Interim Presentation

In the opinion of the management of Sonoco Products Company (the "Company" or "Sonoco"), the accompanying unaudited condensed consolidated financial statements contain all adjustments (consisting of only normal recurring adjustments, unless otherwise stated) necessary to state fairly the consolidated financial position, results of operations and cash flows for the interim periods reported herein. Operating results for the three months ended April 3, 2016, are not necessarily indicative of the results that may be expected for the year ending December 31, 2016. These condensed consolidated financial statements should be read in conjunction with the consolidated financial statements and the notes thereto included in the Company's Annual Report on Form 10-K for the fiscal year ended December 31, 2015.

With respect to the unaudited condensed consolidated financial information of the Company for the three-month periods ended April 3, 2016 and March 29, 2015 included in this Form 10-Q, PricewaterhouseCoopers LLP reported that they have applied limited procedures in accordance with professional standards for a review of such information. However, their separate report dated May 6, 2016 appearing herein, states that they did not audit and they do not express an opinion on that unaudited financial information. Accordingly, the degree of reliance on their report on such information should be restricted in light of the limited nature of the review procedures applied.

PricewaterhouseCoopers LLP is not subject to the liability provisions of Section 11 of the Securities Act of 1933 for their report on the unaudited financial information because that report is not a "report" or a "part" of a registration statement prepared or certified by PricewaterhouseCoopers LLP within the meaning of Sections 7 and 11 of the Act.

Note 2: New Accounting Pronouncements

In March 2016, the Financial Accounting Standards Board (FASB) issued ASU 2016-09, "Improvements to Employee Share-Based Payment Accounting," which simplifies several aspects of the accounting for share-based payment transactions, including 1) accounting for income taxes, 2) classification of excess tax benefits in the statement of cash flows, 3) forfeitures, 4) minimum statutory tax withholding requirements, 5) cash flow classification of employee taxes withheld in the form of shares, 6) the practical expedient for estimating the expected term, and 7) intrinsic value. The guidance is effective for annual reporting periods beginning after December 15, 2016, and interim periods within those annual periods. The Company does not expect the implementation of ASU 2016-09 to have a material effect on its consolidated financial statements.

In March 2016, the FASB issued ASU 2016-08, "Revenue from Contracts with Customers," "Principal versus Agent Considerations (Reporting Revenue Gross versus Net)," which provides guidance on recording revenue on a gross basis versus a net basis based on the determination of whether an entity is a principal or an agent when another party is involved in providing goods or services to a customer. The amendments in this Update affect the guidance in ASU No. 2014-09 and are effective in the same time frame as ASU 2014-09 as discussed below.

In February 2016, the FASB issued ASU 2016-02, which changes accounting for leases and requires lessees to recognize the assets and liabilities arising from all leases, including those classified as operating leases under previous accounting guidance on the balance sheet and requires disclosure of key information about leasing arrangements to increase transparency and comparability among organizations. The accounting for lessors does not fundamentally change except for changes to conform and align guidance to the lessee guidance. The guidance is effective for reporting periods beginning after December 15, 2018, including interim periods within those fiscal years and requires retrospective application. The Company is still assessing the impact of ASU 2016-02 on its consolidated financial statements.

In April 2015, the FASB issued ASU 2015-03, "Simplifying the Presentation of Debt Issuance Costs," which requires that debt issuance costs related to a recognized debt liability be presented in the balance sheet as a direct deduction from the carrying amount of that debt liability, consistent with debt discounts, and not recorded as separate assets. This update was effective for reporting periods beginning after December 15, 2015, and was required to be applied on a retrospective basis. Accordingly, the Company adopted ASU 2015-03 in the first quarter of 2016, and reclassified

debt issuance costs totaling \$6,427 and \$6,584 from "Other Assets" to "Long-Term Debt, Net of Current Portion" on the Company's Condensed Consolidated Balance Sheets as of April 3, 2016 and December 31, 2015, respectively. In May 2014, the FASB issued ASU 2014-09, "Revenue From Contracts With Customers," which changes the definitions/criteria used to determine when revenue should be recognized from being based on risks and rewards to being based on control. Among other changes, ASU 2014-09 changes the manner in which variable consideration is recognized, requires recognition of the time value of money when payment terms exceed one year, provides clarification on accounting for contract costs, and expands disclosure requirements. The effective date for implementation of ASU

SONOCO PRODUCTS COMPANY

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

(Dollars in thousands except per share data)

(unaudited)

2014-09 has been deferred and is now effective for reporting periods beginning after December 15, 2017. The Company is still assessing the impact of ASU 2014-09 on its consolidated financial statements.

During the three-month period ended April 3, 2016, there have been no other newly issued nor newly applicable accounting pronouncements that have had, or are expected to have, a material impact on the Company's financial statements. Further, at April 3, 2016, there were no other pronouncements pending adoption that are expected to have a material impact on the Company's consolidated financial statements.

Note 3: Acquisitions

Acquisition-related costs of \$326 and \$1,166 were incurred in the three months ended April 3, 2016 and March 29, 2015, respectively. These costs consisted primarily of legal and professional fees and are included in "Selling, general and administrative expenses" in the Company's Condensed Consolidated Statements of Income.

Note 4: Shareholders' Equity

Earnings per Share

The following table sets forth the computation of basic and diluted earnings per share:

	Three Months Ended	
	April 3, 2016	March 29, 2015

Numerator:

Net income attributable to Sonoco

\$59,914 \$ 85,780

Denominator:

Weighted average common shares outstanding:

Basic

101,628,000 1,283,000

Dilutive effect of stock-based compensation

701,000 884,000

Diluted

102,329,000 2,167,000

Reported net income attributable to Sonoco per common share:

Basic

\$0.59 \$ 0.85

Diluted

\$0.59 \$ 0.84

Certain stock appreciation rights to purchase shares of the Company's common stock are not dilutive because the exercise price is greater than the market price of the stock at the end of the reporting period. The average number of stock appreciation rights that were not dilutive and therefore not included in the computation of diluted earnings per share was 1,429,743 and 395,883 during the three month periods ended April 3, 2016 and March 29, 2015, respectively. No adjustments were made to reported net income attributable to Sonoco in the computations of earnings per share.

Stock Repurchases

On February 10, 2016, the Company's Board of Directors restored the remaining share repurchase authorization of the Company's common stock to its original 5,000,000 shares. During the three months ended April 3, 2016, a total of 353,722 shares were repurchased under this authorization at a cost of \$15,318; accordingly, at April 3, 2016, a total of 4,646,278 shares remain available for repurchase.

The Company frequently repurchases shares of its common stock to satisfy employee tax withholding obligations in association with certain share-based compensation awards. These repurchases, which are not part of a publicly announced plan or program, totaled 87,163 shares in the three months ended April 3, 2016 at a cost of \$3,613, and 166,485 shares in the three months ended March 29, 2015 at a cost of \$7,591.

SONOCO PRODUCTS COMPANY
 NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS
 (Dollars in thousands except per share data)
 (unaudited)

Dividend Declarations

On February 10, 2016, the Board of Directors declared a regular quarterly dividend of \$0.35 per share. This dividend was paid on March 10, 2016 to all shareholders of record as of February 24, 2016.

On April 20, 2016, the Board of Directors declared a regular quarterly dividend of \$0.37 per share. This dividend is payable June 10, 2016 to all shareholders of record as of May 13, 2016.

Note 5: Restructuring and Asset Impairment

The Company has engaged in a number of restructuring actions over the past several years. Actions initiated in 2016 and 2015 are reported as “2016 Actions” and “2015 Actions,” respectively. Actions initiated prior to 2015, all of which were substantially complete at April 3, 2016, are reported as “2014 and Earlier Actions.”

Following are the total restructuring and asset impairment charges/(credits), net of adjustments, and gains on dispositions recognized by the Company during the periods presented:

	April 3, 2016	March 29, 2015
Restructuring/Asset impairment:		
2016 Actions	\$6,413	\$—
2015 Actions	2,766	(851)
2014 and Earlier Actions	49	492
Restructuring/Asset impairment charges	\$9,228	\$(359)
Income tax benefit	(2,920)	(11,591)
Costs attributable to noncontrolling interests, net of tax	(7)	(15)
Total impact of restructuring/asset impairment charges, net of tax	\$6,301	\$(11,965)

Pre-tax restructuring and asset impairment charges are included in “Restructuring/Asset impairment charges” in the Condensed Consolidated Statements of Income.

When recognizable in accordance with GAAP, the Company expects to recognize future additional charges totaling approximately \$4,250 in connection with previously announced restructuring actions. The Company believes that the majority of these charges will be incurred and paid by the end of 2016. The Company continually evaluates its cost structure, including its manufacturing capacity, and additional restructuring actions are likely to be undertaken. The Company is attempting to sell a paper mill in France. In January 2016, the Company received a non-binding proposal from a prospective buyer for the purchase of this business. The proposal is subject to the results of an environmental review and other due diligence, which is ongoing. If a sale is consummated under the current terms of this proposal, the Company estimates that it would recognize a loss of approximately \$12,000. Should a sale not occur, the Company expects to pursue the closure of this facility in which case the Company estimates that it would incur additional severance, liquidation and other closing-related costs in excess of \$15,000.

SONOCO PRODUCTS COMPANY
 NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS
 (Dollars in thousands except per share data)
 (unaudited)

2016 Actions

During 2016, the Company announced the closure of one of its packaging services centers in Mexico (part of the Display and Packaging segment). In addition, approximately 60 positions were eliminated in the first quarter of 2016 in conjunction with the Company's ongoing organizational effectiveness efforts.

Below is a summary of 2016 Actions and related expenses by segment and by type incurred and estimated to be incurred through completion.

2016 Actions	First Quarter 2016	Estimated Total Cost
Severance and Termination Benefits		
Consumer Packaging	\$965	\$ 1,515
Display and Packaging	1,376	3,076
Paper and Industrial Converted Products	2,411	2,661
Protective Solutions	322	322
Corporate	1,429	1,429
Asset Impairment / Disposal of Assets		
Consumer Packaging	(306)	(306)
Other Costs		
Consumer Packaging	198	698
Display and Packaging	—	50
Paper and Industrial Converted Products	18	18
Total Charges and Adjustments	\$6,413	\$ 9,463

The following table sets forth the activity in the 2016 Actions restructuring accrual included in "Accrued expenses and other" on the Company's Condensed Consolidated Balance Sheets:

2016 Actions	Severance and Termination Benefits	Asset Impairment/ Disposal of Assets	Other Costs	Total
Accrual Activity				
2016 Year to Date				
Liability at December 31, 2015	\$ —	\$ —	\$ —	\$ —
2016 charges/(income)	6,503	(306)	216	6,413
Cash receipts/(payments)	(2,962)	1,114	(170)	(2,018)
Asset write downs/disposals	—	(808)	—	(808)
Foreign currency translation	5	—	—	5
Liability at April 3, 2016	\$ 3,546	\$ —	\$ 46	\$3,592

"Other costs" consist primarily of costs related to plant closures including equipment removal, utilities, plant security, property taxes and insurance. The Company expects to pay the majority of the remaining 2016 Actions restructuring costs by the end of 2016 using cash generated from operations.

SONOCO PRODUCTS COMPANY

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

(Dollars in thousands except per share data)

(unaudited)

2015 Actions

During 2015, the Company initiated the following restructuring actions in its Consumer Packaging segment: the closure of six rigid paper facilities (two in the United States, one in Canada, one in Russia, one in Germany, and one in the United Kingdom); the closure of a production line at a thermoforming plant in the United States; and the sale of a portion of its metal ends and closures business in the United States. Restructuring actions initiated in the Paper and Industrial Converted Products segment include the closures of a tubes and cores plant and a recycling business in the United States. The Company also recognized an asset impairment charge related to the potential disposition of a paper mill in France. Restructuring actions initiated in the Display and Packaging segment consisted of the closure of a printed backer card facility in the United States. In addition, the Company continued to realign its cost structure, resulting in the elimination of approximately 235 positions.

Below is a summary of 2015 Actions and related expenses by segment and by type incurred and estimated to be incurred through completion.

2015 Actions	2016 First Quarter 2016	2015 First Quarter 2015	Total Incurred to Date	Estimated Total Cost
Severance and Termination Benefits				
Consumer Packaging	\$1,790	\$2,201	\$16,837	\$16,837
Display and Packaging	6	—	1,121	1,121
Paper and Industrial Converted Products	98	3,028	8,577	8,577

Liability at April 3, 2016	\$ 13,457	\$ —	\$118	\$13,575

“Other costs” consist primarily of costs related to plant closures including equipment removal, utilities, plant security, property taxes and insurance. The Company expects to pay the majority of the remaining 2015 Actions restructuring costs by the end of 2016 using cash generated from operations.

SONOCO PRODUCTS COMPANY
NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS
(Dollars in thousands except per share data)
(unaudited)

2014 and Earlier Actions

2014 and Earlier Actions are comprised of a number of plant closures and workforce reductions initiated prior to 2015. Charges for these actions in both 2016 and 2015 relate primarily to the cost of plant closures including severance, equipment removal, plant security, property taxes and insurance.

The Company expects to recognize future pretax charges of approximately \$100 associated with 2014 and Earlier Actions.

Below is a summary of expenses/(income) incurred by segment for 2014 and Earlier Actions for the three month periods ended April 3, 2016 and March 29, 2015.

	2016	2015
	Three	Three
	Months	Months
2014 & Earlier Actions		
Consumer Packaging	\$ —	\$ 32
Paper and Industrial Converted Products	(2)	364
Protective Solutions	51	96
Total Charges and Adjustments	\$ 49	\$ 492

The accrual for 2014 and Earlier Actions totaled \$360 and \$824 at April 3, 2016 and December 31, 2015, respectively, and is included in “Accrued expenses and other” on the Company’s Condensed Consolidated Balance Sheets. The accrual relates primarily to environmental remediation costs at a former paper mill in the United States and unpaid severance. The Company expects the majority of the liability associated with 2014 and Earlier Actions to be paid by the end of 2016 using cash generated from operations.

Note 6: Accumulated Other Comprehensive Loss

The following table summarizes the components of accumulated other comprehensive loss and the changes in the balances of each component of accumulated other comprehensive loss, net of tax as applicable, for the three months ended April 3, 2016 and March 29, 2015:

	Gains and Losses on Cash Flow Hedges	Defined Benefit Pension Items	Foreign Currency Items	Accumulated Other Comprehensive Loss
Balance at December 31, 2015	\$ (5,152)	\$ (444,244)	\$ (253,137)	\$ (702,533)
Other comprehensive income/(loss) before reclassifications	411	—	30,828	31,239
Amounts reclassified from accumulated other comprehensive loss to net income	1,514	5,948	—	7,462
Amounts reclassified from accumulated other comprehensive loss to fixed assets	(25)	—	—	(25)
Net current-period other comprehensive income	1,900	5,948	30,828	38,676
Balance at April 3, 2016	\$ (3,252)	\$ (438,296)	\$ (222,309)	\$ (663,857)
Balance at December 31, 2014	\$ (5,962)	\$ (475,286)	\$ (127,603)	\$ (608,851)

	\$ (5,948)	\$ (6,273)	Net of tax
Total reclassifications for the period	\$ (7,462)	\$ (8,784)	Net of tax

(a) See Note 10 for additional details.

At April 3, 2016, the Company had commodity contracts outstanding to fix the costs of certain anticipated purchases of natural gas and aluminum, and foreign currency contracts to hedge certain anticipated foreign currency denominated sales and purchases. The amounts included in accumulated other comprehensive loss related to these cash flow hedges were net losses of \$4,754 (\$3,252 after tax) at April 3, 2016, and net losses of \$8,036 (\$5,152 after tax) at December 31, 2015.

The cumulative tax benefit on Cash Flow Hedges included in Accumulated Other Comprehensive Loss was \$1,502 at April 3, 2016, and \$2,884 at December 31, 2015. During the three-month period ended April 3, 2016, the tax benefit on Cash Flow Hedges changed by \$(1,382).

The cumulative tax benefit on Defined Benefit Pension Items was \$244,212 at April 3, 2016, and \$247,788 at December 31, 2015. During the three-month period ended April 3, 2016, the tax benefit on Defined Benefit Pension Items changed by \$(3,576).

During the three-month period ended April 3, 2016, changes in noncontrolling interests included foreign currency translation adjustments of \$1,412.

Note 7: Goodwill and Other Intangible Assets

Goodwill

A summary of the changes in goodwill by segment for the three months ended April 3, 2016 is as follows:

	Consumer Packaging	Display and Packaging	Paper and Industrial Converted Products	Protective Solutions	Total
Goodwill at December 31, 2015	\$ 487,342	\$ 204,629	\$ 227,325	\$ 221,165	\$ 1,140,461
Foreign currency translation	10,401	—	4,093	—	14,494
Goodwill at April 3, 2016	\$ 497,743	\$ 204,629	\$ 231,418	\$ 221,165	\$ 1,154,955

The Company assesses goodwill for impairment annually and from time to time when warranted by the facts and circumstances surrounding individual reporting units or the Company as a whole. As part of this testing, the Company analyzes certain qualitative and quantitative factors in determining goodwill impairment. In its most recent annual assessment, completed in the third quarter of 2015, the Company concluded that there was no impairment of goodwill for any of its reporting units. The assessment reflected a number of significant management assumptions and estimates including the Company's forecast of sales volumes and prices, profit margins, income taxes, capital expenditures and changes in working capital requirements. Changes in these assumptions and/or discount rates could materially impact the Company's conclusions.

Although no reporting units failed the assessments noted above, in management's opinion, the reporting units having the greatest risk of a significant future impairment if actual results fall short of expectations are Display and Packaging, and Paper and Industrial Converted Products - Europe. Total goodwill associated with these reporting units was approximately \$204,600 and \$87,300, respectively, at April 3, 2016.

A large portion of sales in the Display and Packaging reporting unit is concentrated in one customer. Subsequent to the annual testing this customer informed the Company of its decision not to renew a contract to continue operating a packaging center in Irapuato, Mexico. This triggering event resulted in a reassessment of the most recent annual impairment test for the Display and Packaging reporting unit completed as of the third quarter of 2015. Accordingly, the Company reperformed the impairment analysis for this reporting unit taking into consideration the effect on sales and operating profit of the lower business volume and concluded that goodwill in the Display and Packaging reporting unit was not impaired. The remaining business with this customer is currently under negotiations for contract renewal. If a significant amount of business were lost and not replaced under similar terms, it is likely that a goodwill impairment charge could be incurred. There have been no other triggering events identified between the most recent annual impairment test and April 3, 2016.

Other Intangible Assets

A summary of other intangible assets as of April 3, 2016 and December 31, 2015 is as follows:

	April 3, 2016	December 31, 2015
Other Intangible Assets, gross		
Patents	\$ 13,102	\$ 12,716
Customer lists	386,586	381,938
Trade names	19,286	19,246
Proprietary technology	17,754	17,738
Land use rights	303	297
Other	1,248	1,223
Other Intangible Assets, gross	\$ 438,279	\$ 433,158

Accumulated Amortization \$(198,382) \$ (188,063)

Other Intangible Assets, net \$239,897 \$ 245,095

Other intangible assets are amortized on a straight-line basis over their respective useful lives, which generally range from three to forty years. The Company has no intangible assets with indefinite lives.

SONOCO PRODUCTS COMPANY
 NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS
 (Dollars in thousands except per share data)
 (unaudited)

Aggregate amortization expense was \$8,336 and \$8,150 for the three months ended April 3, 2016 and March 29, 2015, respectively. Amortization expense on other intangible assets is expected to total approximately \$32,000 in 2016, \$31,200 in 2017, \$30,400 in 2018, \$29,400 in 2019 and \$27,500 in 2020.

Note 8: Financial Instruments and Derivatives

The following table sets forth the carrying amounts and fair values of the Company's significant financial instruments for which the carrying amount differs from the fair value.

	April 3, 2016		December 31, 2015	
	Carrying Amount	Fair Value	Carrying Amount	Fair Value
Long-term debt, net of current portion	\$1,015,804	\$1,103,943	\$1,015,270	\$1,081,732

The carrying value of cash and cash equivalents, short-term debt and long-term variable-rate debt approximates fair value. The fair value of long-term debt is determined based on recent trade information in the financial markets of the Company's public debt or is determined by discounting future cash flows using interest rates available to the Company for issues with similar terms and maturities. It is considered a Level 2 fair value measurement.

Cash Flow Hedges

At April 3, 2016 and December 31, 2015, the Company had derivative financial instruments outstanding to hedge anticipated transactions and certain asset and liability related cash flows. These contracts, which have maturities ranging from May 2016 to December 2016, qualify as cash flow hedges under U.S. GAAP. To the extent considered effective, the changes in fair value of these contracts are recorded in other comprehensive income and reclassified to income or expense in the period in which the hedged item impacts earnings. The Company has determined all hedges to be highly effective and as a result no material ineffectiveness has been recorded.

Commodity Cash Flow Hedges

The Company has entered into certain derivative contracts to manage the cost of anticipated purchases of natural gas and aluminum. At April 3, 2016, natural gas swaps covering approximately 4.9 MMBTUs were outstanding. These contracts represent approximately 74% and 19% of anticipated U.S. and Canadian usage for the remainder of 2016 and 2017, respectively. Additionally, the Company had swap contracts covering 3,340 metric tons of aluminum and 1,980 short tons of OCC, representing approximately 54% and 1% of anticipated usage for the remainder of 2016, respectively. The fair values of the Company's commodity cash flow hedges netted to loss positions of \$(3,794) and \$(3,611) at April 3, 2016 and December 31, 2015, respectively. The amount of the loss included in Accumulated Other Comprehensive Loss at April 3, 2016, that is expected to be reclassified to the income statement during the next twelve months is \$(3,342).

SONOCO PRODUCTS COMPANY
 NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS
 (Dollars in thousands except per share data)
 (unaudited)

Foreign Currency Cash Flow Hedges

The Company has entered into forward contracts to hedge certain anticipated foreign currency denominated sales and purchases forecast to occur in 2016. The net positions of these contracts at April 3, 2016 were as follows (in thousands):

Currency	Action	Quantity
Colombian peso	purchase	4,246,472
Mexican peso	purchase	420,109
Canadian dollar	purchase	62,960
Russian ruble	purchase	6,428
British pound	purchase	4,499
Turkish lira	purchase	1,001
New Zealand dollar	sell	(468)
Australian dollar	sell	(1,348)
Polish zloty	sell	(1,919)
Euro	sell	(4,587)

The fair value of these foreign currency cash flow hedges netted to a loss position of \$(1,085) at April 3, 2016 and \$(4,612) at December 31, 2015, respectively. During the three months ended April 3, 2016, certain foreign currency cash flow hedges related to construction in progress were settled as the related capital expenditures were made. Losses from these hedges totaling \$25 were reclassified from accumulated other comprehensive loss and included in the carrying value of the assets acquired. During the next twelve months, a loss of \$(1,146) is expected to be reclassified from Accumulated Other Comprehensive Loss to the income statement.

Other Derivatives

The Company routinely enters into forward contracts or swaps to economically hedge the currency exposure of intercompany debt and existing foreign currency denominated receivables and payables. The Company does not apply hedge accounting treatment under ASC 815 for these instruments. As such, changes in fair value are recorded directly to income and expense in the periods that they occur.

The net positions of these contracts at April 3, 2016, were as follows (in thousands):

Currency	Action	Quantity
Colombian peso	purchase	66,739,152
Mexican peso	purchase	213,071
Canadian dollar	purchase	19,957
British pound	purchase	12,000
Euro	sell	(38,268)

The fair value of the Company's other derivatives was \$(802) and \$(2,180) at April 3, 2016 and December 31, 2015, respectively.

SONOCO PRODUCTS COMPANY

Note 9: Fair Value Measurements

Fair value is defined as an exit price, representing the amount that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants. Fair value is a market-based measurement that is determined based on assumptions that market participants would use in pricing an asset or liability. A three-tier fair value hierarchy is used to prioritize the inputs in measuring fair value as follows:

Level 1 - Observable inputs such as quoted market prices in active markets;

Level 2 - Inputs, other than quoted prices in active markets, that are observable either directly or indirectly; and

Level 3 - Unobservable inputs for which there is little or no market data, which require the reporting entity to develop its own assumptions.

The following table sets forth information regarding the Company's financial assets and financial liabilities, excluding retirement and postretirement plan assets, measured at fair value on a recurring basis:

Description	April 3, 2016	Level 1	Level 2	Level 3
Hedge derivatives, net:				
Commodity contracts	\$ (3,794)	\$ —	\$(3,794)	\$ —
Foreign exchange contracts	(1,085)	—	(1,085)	—
Non-hedge derivatives, net:				
Foreign exchange contracts	(802)	—	(802)	—
Deferred compensation plan assets	469	469	—	—

Description	December 31, 2015	Level 1	Level 2	Level 3
Hedge derivatives, net:				
Commodity contracts	\$ (3,611)	\$ —	\$(3,611)	\$ —
Foreign exchange contracts	(4,612)	—	(4,612)	—
Non-hedge derivatives, net:				
Foreign exchange contracts	(2,180)	—	(2,180)	—
Deferred compensation plan assets	460	460	—	—

As discussed in Note 8, the Company uses derivatives to mitigate the effect of raw material and energy cost fluctuations, foreign currency fluctuations and, from time to time, interest rate movements. Fair value measurements for the Company's derivatives are classified under Level 2 because such measurements are estimated based on observable inputs such as interest rates, yield curves, spot and future commodity prices and spot and future exchange rates.

Certain deferred compensation plan liabilities are funded by assets invested in various exchange traded mutual funds. These assets are measured using quoted prices in accessible active markets for identical assets.

The Company does not currently have any nonfinancial assets or liabilities that are recognized or disclosed at fair value on a recurring basis. None of the Company's financial assets or liabilities is measured at fair value using significant unobservable inputs. There were no transfers in or out of Level 1 or Level 2 fair value measurements during the three month period ended April 3, 2016.

Note 10: Employee Benefit Plans

Retirement Plans and Retiree Health and Life Insurance Plans

The Company provides non-contributory defined benefit pension plans for a majority of its employees in the United States and certain of its employees in Mexico and Belgium. The Company also sponsors contributory defined benefit pension plans covering the majority of its employees in the United Kingdom, Canada, and the Netherlands. In addition, the Company provides postretirement healthcare and life insurance benefits to a limited number of its retirees and their dependents in the United States and Canada, based on certain age and/or service eligibility requirements.

The Company froze participation in its U.S. qualified defined benefit pension plan effective December 31, 2003 for newly hired salaried and non-union hourly employees. At that time, the Company adopted a defined contribution plan, the Sonoco Investment and Retirement Plan (SIRP), covering its non-union U.S. employees hired on or after January 1, 2004, and former participants of the U.S. qualified defined benefit pension plan who elected to transfer out of that plan and into the SIRP under a one-time option effective January 1, 2010. On January 1, 2013, the SIRP was merged into the Sonoco Savings Plan and the name was changed to the Sonoco Retirement and Savings Plan. The Company provides an annual contribution to participant accounts in the Sonoco Retirement and Savings Plan, called the Sonoco Retirement Contribution (SRC), equal to 4% of the participant's eligible pay plus 4% of eligible pay in excess of the social security wage base.

On February 4, 2009, the U.S. qualified defined benefit pension plan was amended to freeze plan benefits for all active participants effective December 31, 2018. Remaining active participants in the U.S. qualified plan will become eligible for SRC contributions effective January 1, 2019.

The components of net periodic benefit cost include the following:

	Three Months Ended April 3, March 29, 2016 2015	
Retirement Plans		
Service cost	\$5,023	\$ 5,253
Interest cost	15,326	16,933
Expected return on plan assets	(22,044)	(22,726)
Amortization of net transition obligation	—	40
Amortization of prior service cost	193	180
Amortization of net actuarial loss	9,596	9,728
Net periodic benefit cost	\$8,094	\$ 9,408
Retiree Health and Life Insurance Plans		
Service cost	\$85	\$ 178
Interest cost	130	222
Expected return on plan assets	(404)	(393)
Amortization of prior service credit	(128)	(25)
Amortization of net actuarial loss	(137)	(5)
Net periodic benefit income	\$(454)	\$(23)

The Company made aggregate contributions of \$18,690 and \$4,152 to its defined benefit retirement and retiree health and life insurance plans during the three months ended April 3, 2016 and March 29, 2015, respectively. The Company anticipates that it will make additional aggregate contributions of approximately \$22,300 to its defined benefit retirement and retiree health and life insurance plans over the remainder of 2016.

Sonoco Retirement Contribution (SRC)

The Sonoco Retirement Contribution, which is funded annually in the first quarter, totaled \$13,352 during the three months ended April 3, 2016, and \$12,865 during the three months ended March 29, 2015. No additional SRC contributions are expected during the remainder of 2016. The Company recognized expense related to the SRC of \$3,018 and \$3,627 for the three month periods ended April 3, 2016 and March 29, 2015, respectively.

SONOCO PRODUCTS COMPANY

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

(Dollars in thousands except per share data)

(unaudited)

Note 11: Income Taxes

The Company's effective tax rate for the three-month periods ending April 3, 2016 and March 29, 2015, was 33.2% and 23.7%, respectively. The rates for the three-month periods of both years varied from the U.S. statutory rate due primarily to the favorable effect of certain international operations that are subject to tax rates generally lower than the U.S. rate, the favorable effect of the manufacturer's deduction on U.S. taxes, and the effect of changes in uncertain tax positions. The effective tax rate for the three-month period ended March 29, 2015 was further reduced by the recognition of beneficial tax attributes associated with the disposition of the Company's Canton, Ohio metal ends and closures facilities.

The Company and/or its subsidiaries file federal, state and local income tax returns in the United States and various foreign jurisdictions. With few exceptions, the Company is no longer subject to U.S. federal, or non-U.S., income tax examinations by tax authorities for years before 2012. With respect to state and local income taxes, the Company is no longer subject to examination for years prior to 2011, with few exceptions.

The Company's total liability for uncertain tax benefits has not changed significantly since December 31, 2015. The Company has \$3,300 of reserves for uncertain tax benefits for which it believes it is reasonably possible that a resolution may be reached within the next twelve months. Although the Company's estimate for the potential outcome for any uncertain tax issue is highly judgmental, management believes that any reasonably foreseeable outcomes related to these matters have been adequately provided for. However, future results may include favorable or unfavorable adjustments to estimated tax liabilities in the period the assessments are made or resolved or when statutes of limitation on potential assessments expire. Additionally, the jurisdictions in which earnings or deductions are realized may differ from current estimates. As a result, the Company's effective tax rate may fluctuate significantly on a quarterly basis. The Company has operations and pays taxes in many countries outside of the U.S. and taxes on those earnings are subject to varying rates. The Company is not dependent upon the favorable benefit of any one jurisdiction to an extent that loss of those benefits would have a material effect on the Company's overall effective tax rate.

Note 12: Segment Reporting

The Company reports its financial results in four reportable segments: Consumer Packaging, Display and Packaging, Paper and Industrial Converted Products, and Protective Solutions.

The Consumer Packaging segment includes the following products and services: round and shaped rigid containers and trays (both composite and thermoformed plastic); blow-molded plastic bottles and jars; extruded and injection-molded plastic products; printed flexible packaging; global brand artwork management; and metal and peelable membrane ends and closures.

The Display and Packaging segment includes the following products and services: designing, manufacturing, assembling, packing and distributing temporary, semipermanent and permanent point-of-purchase displays; supply chain management services, including contract packing, fulfillment and scalable service centers; retail packaging, including printed backer cards, thermoformed blisters and heat sealing equipment; and paper amenities, such as coasters and glass covers.

The Paper and Industrial Converted Products segment includes the following products: paperboard tubes and cores; fiber-based construction tubes and forms; wooden, metal and composite wire and cable reels and spools; and recycled paperboard, linerboard, corrugating medium, recovered paper and material recycling services.

The Protective Solutions segment includes the following products: custom-engineered, paperboard-based and expanded foam protective packaging and components; and temperature-assured packaging.

The following table sets forth net sales, intersegment sales and operating profit for the Company's reportable segments. "Segment operating profit" is defined as the segment's portion of "Income before interest and income taxes" excluding restructuring charges, asset impairment charges, acquisition-related costs, and certain other items, if any, the exclusion of which the Company believes improves comparability and analysis of the financial performance of the business.

General corporate expenses have been allocated as operating costs to each of the Company's reportable segments. "Other, net" for the three months ended March 29, 2015 is largely comprised of a \$32,543 gain from the reversal of environmental liability reserves related to Fox River.

Note 13: Commitments and Contingencies

Pursuant to U.S. GAAP, accruals for estimated losses are recorded at the time information becomes available indicating that losses are probable and that the amounts are reasonably estimable. As is the case with other companies in similar industries, the Company faces exposure from actual or potential claims and legal proceedings from a variety of sources. Some of these exposures, as discussed below, have the potential to be material.

Environmental Matters

The Company is subject to a variety of environmental and pollution control laws and regulations in all jurisdictions in which it operates.

Fox River Settlement and Remaining Claim

In March 2014, U.S. Paper Mills Corp. (U.S. Mills), a wholly owned subsidiary of the Company, and five other defendants reached a settlement with the United States Environmental Protection Agency (EPA) and the Wisconsin Department of Natural Resources (WDNR) for natural resource damages and the environmental cleanup of the lower Fox River in Wisconsin. The terms of the settlement, which became final on April 7, 2015, required U.S. Mills to pay \$14,700, which was paid in April 2014, and protects U.S. Mills from claims by other parties relating to natural resource damages and the cleanup of the lower Fox River, except claims pursuant to Section 107 of the Comprehensive Environment Response, Compensation and Liability Act (CERCLA).

The finalization of the settlement leaves intact a claim by Appvion, Inc., under Section 107 of CERCLA against eight defendants, including U.S. Mills, to recover response costs allegedly incurred by Appvion consistent with the national contingency plan for responding to release or threatened release of hazardous substances into the lower Fox River. The claim is asserted for approximately \$200,000. Although the Company believes that the maximum amount for which the defendants could be liable is substantially less, the court has not yet ruled on the issue.

At December 31, 2015, U.S. Mills had reserves totaling \$3,896 for potential liabilities associated with the Appvion claim. Through April 3, 2016, the Company has spent approximately \$304 on legal costs related to this claim, leaving a reserve of \$3,592 remaining at April 3, 2016. The actual costs that may be incurred associated with the Appvion claim are dependent upon many factors and it is possible that costs could ultimately be higher than the amount provided for in the

SONOCO PRODUCTS COMPANY

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

(Dollars in thousands except per share data)

(unaudited)

remaining reserve. Because of the continuing uncertainties surrounding U.S. Mills' possible liability, including a potentially favorable resolution, the Company cannot currently estimate its potential liability, damages or range of potential loss, if any, beyond the amounts reserved, and an adverse resolution of these matters could have an adverse effect on the Company's financial position, results of operations and/or cash flows. The Company believes that the maximum additional exposure to its consolidated financial position beyond the amount reserved at is limited to the equity position of U.S. Mills, which was approximately \$125,000 at April 3, 2016.

Tegrant

On November 8, 2011, the Company completed the acquisition of Tegrant. During its due diligence, the Company identified several potential environmentally contaminated sites. The total remediation cost of these sites was estimated to be \$18,850 at the time of acquisition and an accrual in this amount was recorded on Tegrant's opening balance sheet. Since the acquisition, the Company has spent a total of \$741 on remediation of these sites. During 2014 and 2015, the Company increased its reserves for these sites by a total of \$392 in order to reflect its best estimate of what it is likely to pay in order to complete the remediation. At April 3, 2016 and December 31, 2015, the Company's accrual for Tegrant's environmental contingencies totaled \$18,501 and \$18,521, respectively. The Company cannot currently estimate its potential liability, damages or range of potential loss, if any, beyond the amounts accrued with respect to this exposure. However, the Company does not believe that the resolution of this matter has a reasonable possibility of having a material adverse effect on the Company's financial statements.

Village of Rockton

The previously disclosed actions instituted by the Village of Rockton against the Company on September 15, 2014, were dismissed with prejudice by stipulation of the parties on April 19, 2016, with no impact to the Company's financial statements.

Other environmental matters

The Company has been named as a potentially responsible party at several other environmentally contaminated sites. All of the sites are also the responsibility of other parties. The potential remediation liabilities are shared with such other parties, and, in most cases, the Company's share, if any, cannot be reasonably estimated at the current time. However, the Company does not believe that the resolution of these matters has a reasonable possibility of having a material adverse effect on the Company's financial statements.

Summary

As of April 3, 2016 and December 31, 2015, the Company (and its subsidiaries) had accrued \$24,806 and \$25,195, respectively, related to environmental contingencies. These accruals are included in "Accrued expenses and other" on the Company's Condensed Consolidated Balance Sheets.

Other Legal Matters

In addition to those matters described above, the Company is subject to other various legal proceedings, claims, and litigation arising in the ordinary course of business. While the outcome of these matters could differ from management's expectations, the Company does not believe the resolution of these matters has a reasonable possibility of having a material adverse effect on the Company's financial statements.

Report of Independent Registered Public Accounting Firm

To the Shareholders and Directors of Sonoco Products Company:

We have reviewed the accompanying condensed consolidated balance sheet of Sonoco Products Company (the "Company") and its subsidiaries as of April 3, 2016, and the related condensed consolidated statements of income and comprehensive income for the three-month periods ended April 3, 2016 and March 29, 2015 and the condensed consolidated statement of cash flows for the three-month periods ended April 3, 2016 and March 29, 2015. These interim financial statements are the responsibility of the Company's management.

We conducted our review in accordance with the standards of the Public Company Accounting Oversight Board (United States). A review of interim financial information consists principally of applying analytical procedures and making inquiries of persons responsible for financial and accounting matters. It is substantially less in scope than an audit conducted in accordance with the standards of the Public Company Accounting Oversight Board (United States), the objective of which is the expression of an opinion regarding the financial statements taken as a whole.

Accordingly, we do not express such an opinion.

Based on our review, we are not aware of any material modifications that should be made to the accompanying condensed consolidated interim financial statements for them to be in conformity with accounting principles generally accepted in the United States of America.

We previously audited, in accordance with the standards of the Public Company Accounting Oversight Board (United States), the consolidated balance sheet as of December 31, 2015, and the related consolidated statements of income, of comprehensive income, of changes in total equity, and of cash flows for the year then ended (not presented herein), and in our report dated February 29, 2016, we expressed an unqualified opinion on those consolidated financial statements. In our opinion, the information set forth in the accompanying condensed consolidated balance sheet as of December 31, 2015, is fairly stated in all material respects in relation to the consolidated balance sheet from which it has been derived. As discussed in Note 2 to the accompanying consolidated interim financial statements, the Company changed its method of accounting for Debt Issuance Costs in the three-month period ended April 3, 2016. The accompanying December 31, 2015 consolidated balance sheet reflects this change.

SONOCO PRODUCTS COMPANY

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations.

Statements included in this Quarterly Report on Form 10-Q that are not historical in nature, are intended to be, and are hereby identified as "forward-looking statements" for purposes of the safe harbor provided by Section 21E of the Securities Exchange Act of 1934, as amended. In addition, the Company and its representatives may from time to time make other oral or written statements that are also "forward-looking statements." Words such as "estimate," "project," "intend," "expect," "believe," "consider," "plan," "strategy," "opportunity," "commitment," "target," "anticipate," "objective," "guidance," "outlook," "forecast," "future," "re-envision," "will," "would," "can," "could," "may," "might," "aspires," "potential," "possibility," "may occur," "could occur," "may result," "might result," "could result," "may be," "might be," "could be," "may not," "might not," "could not," "may not be," "might not be," "could not be," "may not occur," "might not occur," "could not occur," "may not result," "might not result," "could not result," "may not be," "might not be," "could not be," "may not occur," "might not occur," "could not occur," "may not result," "might not result," "could not result," the negative thereof, and similar expressions identify forward-looking statements. Forward-looking statements include, but are not limited to, statements regarding:

- availability and supply of raw materials, and offsetting high raw material costs;
- improved productivity and cost containment;
- improving margins and leveraging strong cash flow and financial position;
- effects of acquisitions and dispositions;
- realization of synergies resulting from acquisitions;
- costs, timing and effects of restructuring activities;
- adequacy and anticipated amounts and uses of cash flows;
- expected amounts of capital spending;
- refinancing and repayment of debt;
- financial strategies and the results expected of them;
- financial results for future periods;
- producing improvements in earnings;
- profitable sales growth and rates of growth;
- market leadership;
- research and development spending;
- extent of, and adequacy of provisions for, environmental liabilities;
- adequacy of income tax provisions, realization of deferred tax assets, outcomes of uncertain tax issues and tax rates;
- goodwill impairment charges and fair values of reporting units;
- future asset impairment charges and fair values of assets;
- anticipated contributions to pension and postretirement benefit plans, fair values of plan assets, long-term rates of return on plan assets, and projected benefit obligations and payments;
- creation of long-term value and returns for shareholders;
- continued payment of dividends; and
- planned stock repurchases.

Such forward-looking statements are based on current expectations, estimates and projections about our industry, management's beliefs and certain assumptions made by management. Such information includes, without limitation, discussions as to guidance and other estimates, perceived opportunities, expectations, beliefs, plans, strategies, goals and objectives concerning our future financial and operating performance. These statements are not guarantees of future performance and are subject to certain risks, uncertainties and assumptions that are difficult to predict. Therefore, actual results may differ materially from those expressed or forecasted in such forward-looking statements. The risks, uncertainties and assumptions include, without limitation:

- availability and pricing of raw materials, energy and transportation, and the Company's ability to pass raw material, energy and transportation price increases and surcharges through to customers or otherwise manage these commodity pricing risks;
- costs of labor;
- work stoppages due to labor disputes;

• success of new product development, introduction and sales;
• consumer demand for products and changing consumer preferences;
• ability to be the low-cost global leader in customer-preferred packaging solutions within targeted segments;
• competitive pressures, including new product development, industry overcapacity, and changes in competitors' pricing for products;

24

SONOCO PRODUCTS COMPANY

ability to maintain or increase productivity levels, contain or reduce costs, and maintain positive price/cost relationships;

ability to negotiate or retain contracts with customers, including in segments with concentration of sales volume;

ability to improve margins and leverage cash flows and financial position;

continued strength of our paperboard-based tubes and cores and composite can operations;

ability to manage the mix of business to take advantage of growing markets while reducing cyclical effects of some of the Company's existing businesses on operating results;

ability to maintain innovative technological market leadership and a reputation for quality;

ability to profitably maintain and grow existing domestic and international business and market share;

ability to expand geographically and win profitable new business;

ability to identify and successfully close suitable acquisitions at the levels needed to meet growth targets, and successfully integrate newly acquired businesses into the Company's operations;

the costs, timing and results of restructuring activities;

availability of credit to us, our customers and suppliers in needed amounts and on reasonable terms;

effects of our indebtedness on our cash flow and business activities;

fluctuations in obligations and earnings of pension and postretirement benefit plans;

accuracy of assumptions underlying projections of benefit plan obligations and payments, valuation of plan assets, and projections of long-term rates of return;

cost of employee and retiree medical, health and life insurance benefits;

resolution of income tax contingencies;

foreign currency exchange rate fluctuations, interest rate and commodity price risk and the effectiveness of related hedges;

changes in U.S. and foreign tax rates, and tax laws, regulations and interpretations thereof;

accuracy in valuation of deferred tax assets;

accuracy of assumptions underlying projections related to goodwill impairment testing, and accuracy of management's assessment of goodwill impairment;

accuracy of assumptions underlying fair value measurements, accuracy of management's assessments of fair value and fluctuations in fair value;

liability for and anticipated costs of environmental remediation actions;

effects of environmental laws and regulations;

operational disruptions at our major facilities;

failure or disruptions in our information technologies;

loss of consumer or investor confidence;

ability to protect our intellectual property rights;

actions of domestic or foreign government agencies and changes in laws and regulations affecting the Company;

international, national and local economic and market conditions and levels of unemployment; and

economic disruptions resulting from terrorist activities and natural disasters.

More information about the risks, uncertainties and assumptions that may cause actual results to differ materially from those expressed or forecasted in forward-looking statements is provided in the Company's Annual Report on Form 10-K under Item 1A - "Risk Factors" and throughout other sections of that report and in other reports filed with the Securities and Exchange Commission. In light of these various risks, uncertainties and assumptions, the forward-looking events discussed in this report might not occur.

The Company undertakes no obligation to publicly update or revise forward-looking statements, whether as a result of new information, future events or otherwise. You are, however, advised to review any further disclosures we make on related subjects, and about new or additional risks, uncertainties and assumptions, in our future filings with the Securities and Exchange Commission on Forms 10-K, 10-Q and 8-K.

SONOCO PRODUCTS COMPANY

COMPANY OVERVIEW

Sonoco is a leading provider of consumer packaging, industrial products, protective packaging and packaging supply chain services, with approximately 330 locations in 34 countries.

Sonoco competes in multiple product categories, with its operations organized and reported in four segments: Consumer Packaging, Display and Packaging, Paper and Industrial Converted Products, and Protective Solutions. The majority of the Company's revenues are from products and services sold to consumer and industrial products companies for use in the packaging of their products for sale or shipment. The Company also manufactures paperboard, primarily from recycled materials, for both internal use and open market sale. Each of the Company's operating units has its own sales staff and maintains direct sales relationships with its customers.

First Quarter 2016 Compared with First Quarter 2015

RECONCILIATIONS OF GAAP TO NON-GAAP FINANCIAL MEASURES

Measures calculated and presented in accordance with generally accepted accounting principles are referred to as GAAP financial measures. The following tables reconcile the Company's non-GAAP financial measures to their most directly comparable GAAP financial measures in the Company's Condensed Consolidated Statements of Income for each of the periods presented. These non-GAAP financial measures (referred to as "Base") are the GAAP measures adjusted to exclude (dependent upon the applicable period) restructuring charges, asset impairment charges, acquisition charges, specifically identified tax adjustments and certain other items, if any, the exclusion of which the Company believes improves comparability and analysis of the underlying financial performance of the business.

26

SONOCO PRODUCTS COMPANY

RESULTS OF OPERATIONS

The following discussion provides a review of results for the three months ended April 3, 2016 versus the three months ended March 29, 2015.

OVERVIEW

Net sales for the first quarter of 2016 increased 1.7% to \$1,226 million, compared with \$1,206 million in the same period last year. As a result of the Company's accounting calendar, the first quarter of 2016 contained 94 days, which is 6 more calendar days than last year's quarter. However, for the majority of the Company's operations, the current quarter only contained 3 more business days, a 4.9% increase over last year's quarter. In addition to the impact of more days, sales benefited from other volume/mix improvements along with acquisition-related sales. These gains were partially offset by a negative impact from foreign currency translation along with lower selling prices stemming from a year-over-year decline in recovered paper and resin costs.

Net income attributable to Sonoco for the first quarter of 2016 was \$59.9 million, compared to \$85.8 million reported for the same period of 2015. Current quarter net income includes after-tax restructuring and asset impairment charges of \$6.3 million. Results for the prior year's quarter include after-tax benefits from the reversal of environmental reserves and a gain on the sale of two plants of \$19.9 million and \$16.8 million, respectively. Additionally, first quarter 2015 results also include after-tax restructuring and asset impairment charges of \$4.8 million and after-tax acquisition charges of \$1.1 million. Base net income attributable to Sonoco (base earnings) was \$66.5 million (\$0.65 per diluted share) in the first quarter of 2016 versus \$55.0 million (\$0.54 per diluted share) in 2015.

Strong year-over-year earnings improvements in each of the Company's segments resulted in a 20.5% increase in base earnings per share compared to the prior-year quarter. Overall, the current quarter benefited from a positive price/cost relationship, improvements in manufacturing productivity, lower pension and postretirement benefit costs, and gains from volume/mix, which showed improvement beyond the positive impact of additional business days. Partially offsetting these positive factors were higher labor, maintenance and other operating costs, the negative impact of foreign currency translation due to a stronger U.S. dollar, and an increase in the effective tax rate. Current-quarter earnings reflect a 173 basis point increase in the Company's overall gross profit margin compared to the prior year's quarter, largely due to the favorable price/cost relationship and improved productivity.

OPERATING REVENUE

Net sales for the first quarter of 2016 increased \$20 million over the prior-year period.

The components of the sales change were:

	(\$ in millions)
Volume/mix	\$ 78
Selling prices	(16)
Acquisitions and Divestitures	4
Foreign currency translation and other, net	(46)
 Total sales increase	 \$ 20

COSTS AND EXPENSES

A positive price/cost relationship (the relationship of the change in sales prices to the change in costs of materials, energy and freight), which was due to costs decreasing more than selling prices, productivity improvements and lower pension expense, benefited gross margin, but was partially offset by higher maintenance, labor, and other costs. The translation impact of a stronger dollar lowered reported cost of goods sold by approximately \$36 million compared to the first quarter of 2015. The gross profit margin percentage improved to 20.0% this quarter compared to 18.3% in the prior-year quarter.

SONOCO PRODUCTS COMPANY

First-quarter selling, general and administrative ("SG&A") costs increased \$37.5 million, or 38.8%, from the prior year reflecting last year's \$32.5 million reversal of Fox River environmental reserves. Absent that reversal, SG&A costs would have increased \$5.0 million, or 5.2%. This increase was primarily due to the additional days in the current year quarter, but also reflects wage inflation and higher management incentive costs offset by lower pension and postretirement expense and the impact of foreign currency translation.

Current quarter restructuring and restructuring-related asset impairment charges totaled \$9.2 million compared with \$(0.4) million in the same period last year. Charges in the current year are primarily related to the Company's ongoing organizational effectiveness efforts and plant closure costs. Charges in the prior year's first quarter were offset by a pretax gain of \$7.3 million from the sale of two metal ends and closures plants. Additional information regarding restructuring and asset impairment charges is provided in Note 5 to the Company's Condensed Consolidated Financial Statements included in Part I, Item 1 of this Form 10-Q.

Net interest expense for the first quarter increased to \$13.8 million, compared with \$13.2 million during the first quarter of 2015. The increase was due to the additional days in the current year's quarter partially offset by lower year-over-year debt levels.

The effective tax rate on GAAP and base earnings in the first quarter of 2016 was 33.2% and 33.0%, respectively, compared with 23.7% and 32.0%, respectively, for last year's quarter. The main driver of the year-over-year increase in the GAAP income tax rate is the recognition in the prior year of beneficial tax attributes associated with the first quarter 2015 sale of two metal ends and closures plants.

REPORTABLE SEGMENTS

The following table recaps net sales for the first quarters of 2016 and 2015 (\$ in thousands):

	Three Months Ended		
	April 3, 2016	March 29, 2015	% Change
Net sales:			
Consumer Packaging	\$527,338	\$519,877	1.4 %
Display and Packaging	144,267	145,786	(1.0)%
Paper and Industrial Converted Products	423,074	422,311	0.2 %
Protective Solutions	131,597	118,078	11.4 %
Consolidated	\$1,226,276	\$1,206,052	1.7 %

Consolidated operating profits, also referred to as "Income before interest and income taxes" on the Company's Condensed Consolidated Statements of Income, are comprised of the following (\$ in thousands):

	Three Months Ended		
	April 3, 2016	March 29, 2015	% Change
Income before interest and income taxes:			
Segment operating profit			
Consumer Packaging	\$62,865	\$54,028	16.4 %
Display and Packaging	3,281	838	291.5 %
Paper and Industrial Converted Products	33,299	27,797	19.8 %
Protective Solutions	12,026	9,685	24.2 %
Restructuring/Asset impairment charges	(9,228)	359	(2,670.5)%
Other, net	(411)	31,377	
Consolidated	\$101,832	\$124,084	(17.9)%

SONOCO PRODUCTS COMPANY

The following table recaps restructuring/asset impairment charges attributable to each of the Company's segments during the first quarters of 2016 and 2015 (\$ in thousands):

	Three Months Ended	
	April 3, 2016	March 29, 2015
Restructuring/Asset impairment charges:		
Consumer Packaging	\$3,012	\$ (5,023)
Display and Packaging	1,382	—
Paper and Industrial Converted Products	3,032	3,402
Protective Solutions	373	96
Corporate	1,429	1,166
Total	\$9,228	\$ (359)

Segment results viewed by Company management to evaluate segment performance do not include restructuring charges, asset impairment charges, acquisition-related charges, interest expense, income taxes, or certain other items, if any, the exclusion of which the Company believes improves the comparability and analysis of the underlying financial performance of the business. Accordingly, the term "segment operating profit" is defined as the segment's portion of "Income before interest and income taxes" excluding those items. All other general corporate expenses have been allocated as operating costs to each of the Company's reportable segments.

Consumer Packaging

The Consumer Packaging segment includes the following products and services: round and shaped rigid containers and trays (both composite and thermoformed plastic); blow-molded plastic bottles and jars; extruded and injection-molded plastic products; printed flexible packaging; global brand artwork management; and metal and peelable membrane ends and closures.

Segment sales grew 1.4% over the prior year's quarter due to the additional business days along with acquisitions, partially offset by lower selling prices, stemming primarily from lower resin and metal costs, and the negative impact of foreign currency translation. Excluding the estimated benefit of additional business days, overall volume was relatively flat as volume improved in global composite cans and flexible packaging, but declined in rigid plastic containers.

Segment operating profit increased 16.4% over the prior year's quarter and segment operating margins improved to 11.9 percent of sales during the quarter. Overall, the segment benefited from a positive price/cost relationship, including a favorable change in LIFO inventory reserves driven by declining commodity prices, productivity improvements and lower pension costs. These positive factors were partially offset by higher labor, maintenance and other operating costs, and the negative impact of foreign currency translation.

Display and Packaging

The Display and Packaging segment includes the following products and services: designing, manufacturing, assembling, packing and distributing temporary, semipermanent and permanent point-of-purchase displays; supply chain management services, including contract packing, fulfillment and scalable service centers; retail packaging, including printed backer cards, thermoformed blisters and heat sealing equipment; and paper amenities, such as coasters and glass covers.

Reported sales for the quarter were down 1.0% compared to last year's quarter due primarily to the negative impact of foreign currency translation, largely offset by the impact of additional business days. Absent the impact of days, volumes were higher in our international packaging fulfillment businesses as well as our packaging center operations in Poland.

Operating profits increased \$2.4 million from the prior year's quarter due to a positive price/cost relationship and productivity gains.

SONOCO PRODUCTS COMPANY

Paper and Industrial Converted Products

The Paper and Industrial Converted Products segment includes the following products: paperboard tubes and cores; fiber-based construction tubes and forms; wooden, metal and composite wire and cable reels and spools; and recycled paperboard, linerboard, corrugating medium, recovered paper and material recycling services.

Reported segment sales were essentially flat with the prior year's quarter as volume gains, which were driven primarily by the impact of additional business days, were offset by the negative impact of foreign currency translation and lower selling prices stemming from reduced recovered fiber costs. Volume/mix, excluding additional business days, showed improvement in our global tube and core operations, while in our paper operations, gains in North America's paperboard businesses were partially offset by lower corrugating medium results.

Operating profit improved 19.8% on solid productivity gains, a positive price/cost relationship, lower pension expense and the benefit from additional days in the quarter, which were partially offset by inflation in labor and other operating expenses.

Protective Solutions

The Protective Solutions segment includes the following products: custom-engineered, paperboard-based and expanded foam protective packaging and components; and temperature-assured packaging.

Segment sales for the quarter were up 11.4% year over year on strong volume beyond the impact of additional business days, partially offset by the negative impact of foreign currency exchange translation and lower selling prices.

Operating profits increased 24.2% as volume gains, including the impact of additional days, and a positive price/cost relationship were only partially offset by higher labor, maintenance and other operating costs.

OTHER ITEMS

On October 23, 2015, the Company announced its intention to offer for sale its paper mill in Schweighouse-sur-Moder, France. The two paper machines at this facility are capable of producing approximately 95,000 metric tons of recycled paperboard annually and generate approximately \$34 million of annual sales. During the first quarter of 2016, the Company received a non-binding proposal from a prospective buyer for the purchase of this business. The proposal is subject to the results of an environmental review and other due diligence. If a sale is consummated under the current terms of this proposal, the Company estimates it would recognize a loss of approximately \$12 million. Should the sale not occur, the Company expects to pursue the closure of this facility in which case the Company estimates it would incur additional severance, liquidation and other closing-related costs in excess of \$15 million.

Financial Position, Liquidity and Capital Resources

Cash flows provided by operations totaled \$66.4 million in the first three months of 2016 compared with \$60.3 million during the same period last year, an increase of \$6.1 million. The year-over-year decrease in net income of \$25.5 million was largely due to a \$32.5 million pretax, \$19.9 million after tax, non-cash benefit from the reversal of Fox River environmental reserves in the first quarter of 2015. Last year's first quarter also included a \$9.2 million net tax benefit related to the sale of two metal ends and closures plants for which there was no cash impact, and a pretax gain of \$7.3 million on the sale of the metal ends and closures plants. Non-cash depreciation and amortization charges were \$1.7 million higher year over year. Higher year-over-year contributions to the Company's pension and postretirement plans, combined with lower non-cash pension and postretirement plan expense, decreased operating cash flow by a total of \$17.4 million in the first three months of 2016 from the same period last year. Trade accounts receivable increased in both the current and prior year three-month periods, reflecting higher levels of business activity from their respective prior year ends; however, the magnitude of the increase was not as great in 2016, resulting in the year-over-year use of cash being \$7.3 million lower in 2016. Changes in inventories used \$11.2 million of cash in the first three months of 2016 compared to using \$6.1 million in the first three months of 2015. Inventory levels typically increase during the first three months of the year following a normal seasonal slowdown at year end. Inventory levels at the end of 2015 were lower than at the end of 2014 as a result of a more significant

seasonal slowdown in 2015. As such, the seasonal increase in inventories to normal levels during the first three months resulted in an additional use of cash of \$5.2 million during the first three months of 2016 compared to the same period in 2015.

30

SONOCO PRODUCTS COMPANY

Trade accounts payable used \$17.2 million of cash in the first three months of 2016 compared with providing \$7.1 million in the first three months of 2015. Run rate increases were much less significant in 2016 from 2015 compared to 2015 from 2014, especially during the final month of each quarter which has the most direct influence on ending accounts payable balances. Accrued expenses used \$6.2 million of cash in the first three months of 2016 compared with \$4.0 million in the same period last year. The increased consumption of \$2.1 million is primarily due to the timing of payments for payroll-related taxes and withholdings. Changes in income tax related items increased year-over-year operating cash flows by \$13.1 million, driven in large part by lower tax payments made in the first three months of 2016 compared to the 2015 period. Changes in other assets and liabilities provided \$17.0 million of additional cash in 2016 compared to 2015, driven by receipts of cash related to rebates, value added taxes, and customer reimbursable costs in 2016, which were higher than 2015. Additionally, in 2015 increases to other receivables related to insurance gains were recorded in the first three months of 2015 that did not provide cash in that period.

Cash used in investing activities was \$53.0 million in the first three months of 2016, compared with \$13.1 million in the same period last year. The \$40.0 million increase in the net use of cash is due in part to a \$14.7 million increase in year-over-year spending for property, plant, and equipment due largely to increased capital investment in the Company's rigid paper operations in Europe. Proceeds from the sale of assets were \$28.1 million lower year over year as the last year's first quarter included \$29.1 million of cash proceeds from the sale of two metal ends and closures plants. The change in "investment in affiliates and other, net" is primarily due to the purchase of long-term investment properties in Venezuela in 2015 using locally available cash. Additional capital spending of approximately \$150 million is expected during the remainder of 2016.

Cash used by financing activities totaled \$40.0 million in the first three months of 2016, compared with \$25.2 million in the same period last year, an increase of \$14.8 million. This change was almost exclusively due to the Company's use of \$15.3 million to repurchase approximately 354 thousand shares of outstanding stock under a \$100 million repurchase program announced in December 2015. The Company expects to spend an additional \$85 million to repurchase its common shares on the open market during the remaining nine months of 2016. Outstanding debt was \$1.13 billion at April 3, 2016 compared with \$1.13 billion at December 31, 2015. These balances reflect net borrowings of \$2.8 million during the first three months of 2016, compared with net borrowings of \$1.3 million during the same period last year. The Company paid cash dividends of \$35.4 million during the first three months of 2016, an increased use of cash of \$3.1 million over the same period last year. Net proceeds from the exercise of stock awards were \$0.6 million in the three months ended April 3, 2016, compared with \$1.2 million in the same period last year, a decrease of \$0.6 million.

The Company operates a \$350 million commercial paper program, supported by a bank credit facility of the same amount. The revolving bank credit facility is committed through October 2019. There was no commercial paper outstanding at April 3, 2016 or December 31, 2015. The Company has \$75.3 million of outstanding 5.625% debentures due June 15, 2016. These debentures are expected to be settled upon maturity with a combination of available cash and short-term borrowings.

Cash and cash equivalents totaled \$152.3 million and \$182.4 million at April 3, 2016 and December 31, 2015, respectively. Of these totals, \$77.0 million and \$96.3 million, respectively, were held outside of the United States by the Company's foreign subsidiaries. Cash held outside of the United States is available to meet local liquidity needs, or for capital expenditures, acquisitions, and other offshore growth opportunities. Under current law, cash repatriated to the United States is subject to federal income taxes, less applicable foreign tax credits. As the Company has domestic liquidity through a combination of operating cash flow generation and access to bank and capital markets borrowings, we have generally considered our offshore cash balances to be indefinitely invested outside the United States and we currently have no plans to repatriate cash balances. Accordingly, as of April 3, 2016, the Company is not providing for U.S. tax liability on these amounts for financial reporting purposes. However, if any such balances were to be repatriated, additional U.S. federal income tax payments could result. Computation of the potential deferred tax liability associated with unremitted earnings deemed to be indefinitely reinvested is not practicable.

The Company uses a notional pooling arrangement with an international bank to help manage global liquidity requirements. Under this pooling arrangement, the Company and its participating subsidiaries may maintain either

cash deposit or borrowing positions through local currency accounts with the bank, so long as the aggregate position of the global pool is a notionally calculated net cash deposit. Because it maintains a security interest in the cash deposits, and has the right to offset the cash deposits against the borrowings, the bank provides the Company and its subsidiaries favorable interest terms on both. During the three months ended April 3, 2016, the Company recognized a net decrease in cash and cash equivalents of \$3.5 million due to exchange rates as the unfavorable impact of the weakening U.S. dollar

SONOCO PRODUCTS COMPANY

on euro-denominated borrowings under this pooling arrangement was only partially offset by the favorable impact of the weakening U.S. dollar on other foreign-denominated cash balances, most notably the Brazilian real, the Canadian dollar, and the euro.

Certain of the Company's debt agreements impose restrictions with respect to the maintenance of financial ratios and the disposition of assets. The most restrictive covenant currently requires the Company to maintain a minimum level of interest coverage, and a minimum level of net worth, as defined in the agreements. As of April 3, 2016, the Company's interest coverage and net worth were substantially above the minimum levels required under these covenants.

The Company anticipates making additional contributions to its pension and postretirement plans of approximately \$22 million during the remainder of 2016, which would result in total 2016 contributions of approximately \$54 million. Future funding requirements beyond the current year will vary depending largely on actual investment returns, future actuarial assumptions, and legislative actions.

Fair Value Measurements, Foreign Exchange Exposure and Risk Management

Certain assets and liabilities are reported in the Company's financial statements at fair value, the fluctuation of which can impact the Company's financial position and results of operations. Items reported by the Company on a recurring basis at fair value include derivative contracts and pension and deferred compensation related assets. The valuation of the vast majority of these items is based either on quoted prices in active and accessible markets or on other observable inputs.

As a result of operating globally, the Company is exposed to changes in foreign exchange rates. The exposure is well diversified, as the Company's facilities are spread throughout the world, and the Company generally sells in the same countries where it produces. The Company monitors these exposures and may use traditional currency swaps and forward exchange contracts to hedge a portion of forecasted transactions that are denominated in foreign currencies, foreign currency assets and liabilities or net investment in foreign subsidiaries. The Company's foreign operations are exposed to political and cultural risks, but the risks are mitigated by diversification and the relative stability of the countries in which the Company has significant operations.

In January 2003, the Venezuelan government suspended the free exchange of bolivars (BsF) for foreign currency and, since January 1, 2010, the Company has considered Venezuela to be a hyperinflationary economy and has accounted for its operations accordingly. Prior to July 1, 2015, the Company used Venezuela's official exchange rate to report the results of its operations in Venezuela. Effective July 1, 2015, the Company began translating its Venezuelan operations using an alternative exchange rate. As a result, first-quarter 2016 Venezuela operating results and all monetary assets and liabilities in Venezuela as of April 3, 2016 and December 31, 2015 are reflected in the consolidated financial statements using SIMADI-based rates; the SIMADI rate at the end of March 2016 was 270 bolivars to the dollar compared to the official rate of 6.3 to 1. At April 3, 2016, the carrying value of the Company's net investment in its Venezuela operations is approximately \$2.5 million.

At April 3, 2016, the Company had commodity contracts outstanding to fix the cost of a portion of anticipated raw materials and natural gas purchases. The total net fair market value of these instruments was an unfavorable position of \$(3.8) million at April 3, 2016, and an unfavorable position of \$(3.6) million at December 31, 2015. Natural gas, aluminum, and OCC hedge contracts covering an equivalent of 4.9 MMBTUs, 3,340 metric tons, and 1,980 short tons, respectively, were outstanding at April 3, 2016. Additionally, the Company had various currency contracts outstanding to fix the exchange rate on certain anticipated foreign currency cash flows. The total market value of these instruments was a net unfavorable position of \$(1.1) million at April 3, 2016, compared with a net unfavorable position of \$(4.6) million at December 31, 2015. These contracts qualify as cash flow hedges and mature within twelve months of their respective reporting dates.

In addition, at April 3, 2016, the Company had various currency contracts outstanding to fix the exchange rate on certain foreign currency assets and liabilities. Although placed as an economic hedge, the Company does not apply hedge accounting to these contracts. The fair value of these currency contracts was a net unfavorable position of \$(0.8) million at April 3, 2016 and \$(2.2) million at December 31, 2015.

At April 3, 2016, the U.S. dollar had weakened against most of the functional currencies of the Company's foreign operations compared to December 31, 2015, resulting in a translation gain of \$30.8 million being recorded in accumulated other comprehensive loss during the three months ended April 3, 2016.

SONOCO PRODUCTS COMPANY

Restructuring and Impairment

Information regarding restructuring charges and restructuring-related asset impairment charges is provided in Note 5 to the Company's Condensed Consolidated Financial Statements, included in Part I, Item 1 of this Form 10-Q.

New Accounting Pronouncements

Information regarding new accounting pronouncements is provided in Note 2 to the Company's Condensed Consolidated Financial Statements, included in Part I, Item 1 of this Form 10-Q.

Item 3. Quantitative and Qualitative Disclosures About Market Risk.

Information about the Company's exposure to market risk is discussed under Part I, Item 2 in this report and was disclosed in its Annual Report on Form 10-K for the year ended December 31, 2015, which was filed with the Securities and Exchange Commission on February 29, 2016. There have been no other material quantitative or qualitative changes in market risk exposure since the date of that filing.

Item 4. Controls and Procedures.

Evaluation of Disclosure Controls and Procedures

Under the supervision, and with the participation of our management, including our Company's Chief Executive Officer ("CEO") and Chief Financial Officer ("CFO"), we conducted an evaluation pursuant to Rule 13a-15(b) under the Securities Exchange Act of 1934, as amended, (the "Exchange Act") of our disclosure controls and procedures (as defined in Rule 13a-15(e) under the Exchange Act). Based upon that evaluation, our CEO and CFO concluded that, due to the material weakness in internal control over financial reporting described in Part II, Item 9A of the 2015 Form 10-K, filed on February 29, 2016, the Company's disclosure controls and procedures were not effective as of April 3, 2016, to ensure that information we are required to disclose in reports that we file or submit under the Exchange Act is recorded, processed, summarized and reported within the time periods specified in SEC rules and forms. For this purpose, disclosure controls and procedures include controls and procedures designed to ensure that information that is required to be disclosed under the Exchange Act is accumulated and communicated to the Company's management, including the CEO and CFO, as appropriate to allow timely decisions regarding required disclosure.

Notwithstanding this material weakness, each of the Company's CEO and CFO has certified that, based on his knowledge, the financial statements, and other financial information included in this report, fairly present, in all material respects, the financial condition, results of operations and cash flows of the Company as of, and for, the periods presented in this report.

Changes in Internal Control Over Financial Reporting

The Company is continuously seeking to improve the efficiency and effectiveness of its operations and of its internal controls, which routinely results in refinements to processes throughout the Company. However, there have been no changes in the Company's internal control over financial reporting (as defined in Rule 13a-15(f) under the Exchange Act) during the most recent fiscal quarter that have materially affected, or are reasonably likely to materially affect, the Company's internal control over financial reporting other than as described in the following paragraph.

Remediation

As previously described in Part II, Item 9A of the 2015 Form 10-K, filed on February 29, 2016, the Company has implemented a redesigned division-level balance sheet review process for its domestic operations to address the weakness referred to above. We are in the process of testing the newly implemented process and related procedures. The material weakness cannot be considered remediated until the control has operated for a sufficient period of time and until management has concluded, through testing, that the control is operating effectively. We expect to complete our testing of the control and remediate the material weakness during fiscal 2016.

SONOCO PRODUCTS COMPANY

PART II. OTHER INFORMATION

Item 1. Legal Proceedings.

Information with respect to legal proceedings and other exposures appears in Part I - Item 3 - "Legal Proceedings" and Part II - Item 8 - "Financial Statements and Supplementary Data" (Note 14 - "Commitments and Contingencies") in the Company's amended Annual Report on Form 10-K for the year ended December 31, 2015, and in Part I - Item 1 - "Financial Statements" (Note 13 - "Commitments and Contingencies") of this report.

Environmental Matters

The Company has been named as a potentially responsible party (PRP) at several environmentally contaminated sites not owned by the Company. All of the sites are also the responsibility of other parties. The Company's liability, if any, is shared with such other parties, but the Company's share has not been finally determined in most cases. In some cases, the Company has cost-sharing arrangements with other PRPs with respect to a particular site. Such agreements relate to the sharing of legal defense costs or cleanup costs, or both. The Company has assumed, for purposes of estimating amounts to be accrued, that the other parties to such cost-sharing agreements will perform as agreed. It appears that final resolution of some of the sites is years away, and actual costs to be incurred for these environmental matters in future periods is likely to vary from current estimates because of the inherent uncertainties in evaluating environmental exposures. Accordingly, the ultimate cost to the Company with respect to such sites, beyond what has been accrued at April 3, 2016, cannot be determined. As of April 3, 2016 and December 31, 2015, the Company had accrued \$24.8 million and \$25.2 million, respectively, related to environmental contingencies. The Company periodically reevaluates the assumptions used in determining the appropriate reserves for environmental matters as additional information becomes available and, when warranted, makes appropriate adjustments.

Fox River Settlement and Remaining Claim

In March 2014, the Company's wholly owned subsidiary, U. S. Paper Mills Corp. (U.S. Mills) reached a conditional agreement with the U. S. Environmental Protection Agency (EPA) and the Wisconsin Department of Natural Resources (WDNR) to settle claims made by those agencies against U. S. Mills regarding the environmental cleanup of the lower Fox River in Wisconsin and related natural resource damages. U.S. Mills' portion of the settlement was \$14.7 million and was paid in April 2014. The settlement was subject to approval by the United States District Court for the Eastern District of Wisconsin, (District Court). The District Court approved the settlement on February 6, 2015 and the time for appeal of the court's order expired on April 7, 2015, with no appeal having been taken. The settlement protects U.S. Mills from claims by other parties relating to natural resource damages and the cleanup of the lower Fox River, except claims pursuant to Section 107 of the Comprehensive Environmental Response, Compensation and Liability Act (CERCLA).

The finalization of the settlement leaves intact a claim by Appvion, Inc., under Section 107 of CERCLA against eight defendants, including U.S. Mills, to recover response costs allegedly incurred by Appvion consistent with the national contingency plan for responding to release or threatened release of hazardous substances into the lower Fox River. Appvion's claim is made in Civil Action No. 8-CV-16-WCG pending in the District Court. The claim is asserted for approximately \$200 million. Although the Company believes that the maximum amount for which the defendants could be liable is substantially less, the court has not yet ruled on the issue. The case is presently set for trial in 2017. U.S. Mills plans to continue to defend its interests in the Appvion lawsuit vigorously. The Company also believes that all of its exposure to any liability for the Fox River is contained within its wholly owned subsidiary, U.S. Mills. At December 31, 2015, the Company had reserves totaling \$3.9 million for the Section 107 claim that remains in litigation. Through April 3, 2016, approximately \$0.3 million has been spent on legal fees related to this claim, leaving a total of \$3.6 million reserved as of April 3, 2016.

Village of Rockton

The previously disclosed actions instituted by the Village of Rockton against the Company on September 15, 2014, were dismissed with prejudice by stipulation of the parties on April 19, 2016, with no impact to the Company's financial statements.

Other legal matters

Additional information regarding legal proceedings is provided in Note 13 to the Condensed Consolidated Financial Statements of this Quarterly Report on Form 10-Q.

SONOCO PRODUCTS COMPANY

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds

ISSUER PURCHASES OF EQUITY SECURITIES

Period	(a) Total Number of Shares Purchased ¹	(b) Average Price Paid per Share	(c) Total Number of Shares Purchased as Part of Publicly Announced Plans or Programs ²	(d) Maximum Number of Shares that May Yet be Purchased under the Plans or Programs ²
1/01/16 - 2/07/16	3,197	\$ 38.89	—	2,867,500
2/08/16 - 3/06/16	382,724	\$ 42.55	305,824	4,694,176
3/07/16 - 4/03/16	54,964	\$ 45.85	47,898	4,646,278
Total	440,885	\$ 42.94	353,722	4,646,278

A total of 87,163 common shares were repurchased in the first quarter of 2016 related to shares withheld to satisfy 1 employee tax withholding obligations in association with certain share-based compensation awards. These shares were not repurchased as part of a publicly announced plan or program.

At December 31, 2015, a total of 2,867,500 shares remained available for repurchase under an authorization approved by the Company's Board of Directors (the Board) on April 20, 2011. On February 10, 2016, the Board 2 restored the original share repurchase authorization to 5,000,000 shares. A total of 353,722 shares were repurchased under this authorization during the first quarter of 2016; accordingly, a total of 4,646,278 shares remain available for repurchase at April 3, 2016.
