to the Condensed Financial Statements of Southern Company and Alabama Power under “Environmental Matters - New Source Review Actions” in each company’s Quarterly Report on Form 10-Q for the quarter ended March 31, 2015. On June 25, 2015, Alabama Power, the U.S. Environmental Protection Agency and the U.S. Department of Justice agreed to the filing with the U.S. District Court for the Northern District of Alabama (the “District Court”) of a proposed joint stipulation to modify a consent decree relating to the civil enforcement action filed in federal district court in 1999 against Alabama Power alleging violations of the NSR provisions of the Clean Air Act at certain coal-fired electric generating units, including a unit co-owned by Mississippi Power Company. The proposed modification, upon the District Court’s approval, would amend a 2006 consent decree agreed to by the parties relating to alleged violations at Plant Miller and would resolve all claims for relief alleged in the case. Under the modified consent decree, without admitting that any violations of the NSR provisions of the Clean Air Act occurred, Alabama Power has agreed to certain emission rates and caps at Plant Gorgas Units 8 through 10, Plant Greene County Units 1 and 2, and Plant Barry Units 1 and 2. In addition, and consistent with Alabama Power’s ongoing evaluation of recent environmental rules and regulations, Alabama Power has agreed to: (1) limit Plant Barry Units 1 and 2 to burning natural gas; (2) switch the fuel source at Plant Greene County Units 1 and 2 to natural gas; and (3) confirm the retirement of Plant Gorgas Units 6 and 7 and Plant Barry Unit 3 no later than 60 days after entry by the District Court of the modification. As part of the proposed modification to the consent decree, Alabama Power

has agreed to pay a \$100,000 penalty and invest \$1.5 million over a three-year period in electric vehicle charging infrastructure projects.

A separate NSR-related case against Georgia Power Company (including claims related to a unit co-owned by Gulf Power Company) has been administratively closed in the U.S. District Court for the Northern District of Georgia since 2001.

The ultimate outcome of these matters cannot be determined at this time.
