SECURITIES AND EXCHANGE COMMISSION

WASHINGTON, D.C. 20549

FORM 10-Q

(Mark One)

QUARTERLY REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934

For the quarterly period ended September 30, 2009

OR

TRANSITION REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934

For the transition period from _____ to _____

Commission file number 0-28366

Norwood Financial Corp.
(Exact name of Registrant as specified in its charter)

Pennsylvania
(State or other jurisdiction of
Incorporation or organization)

23-2828306
(I.R.S. employer identification no.)

717 Main Street, Honesdale, Pennsylvania
(Address of principal executive offices)

18431
(Zip Code)

(570) 253-1455
(Registrant's telephone number, including area code)

NA
(Former name, former address and former fiscal year, if changed since last report))

Indicate by check (x) whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to

Edgar Filing: NORWOOD FINANCIAL CORP - Form 10-Q

such filing requirements for the past 90 days. Yes No

Indicate by check mark whether the registrant has submitted electronically and posted on its corporate web site, if any, every Interactive Data File required to be submitted and posted pursuant to Rule 405 of Regulation S-T (§232.405 of this chapter) during the preceding 12 months (or for such shorter period that the registrant was required to submit and post such files). Yes No

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer or a smaller reporting company. See the definitions of "large accelerated filer," "accelerated filer" and "smaller reporting company" in Rule 12b-2 of the Exchange Act.

Large accelerated filer

Accelerated filer

Non-accelerated filer

Smaller reporting company

(Do not check if a smaller reporting company)

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act):
 Yes No

Indicate the number of shares outstanding of each of the issuer's classes of common stock, as of the latest practicable date.

Class	Outstanding as of November 6, 2009
Common stock, par value \$0.10 per share	2,762,783

Notes to the Unaudited Consolidated Financial Statements**1. Basis of Presentation**

The unaudited consolidated financial statements include the accounts of Norwood Financial Corp. (Company) and its wholly-owned subsidiary, Wayne Bank (Bank) and the Bank's wholly-owned subsidiaries, WCB Realty Corp., Norwood Investment Corp. and WTRO Properties. All significant intercompany transactions have been eliminated in consolidation.

The accompanying unaudited consolidated financial statements have been prepared in conformity with generally accepted accounting principles for interim financial statements and with instructions to Form 10-Q. Accordingly, they do not include all of the information and footnotes required by generally accepted principles for complete financial statements. In preparing the financial statements, management is required to make estimates and assumptions that affect the reported amounts of assets and liabilities as of the date of the balance sheet and revenues and expenses for the period. Actual results could differ from those estimates. The financial statements reflect, in the opinion of management all normal, recurring adjustments necessary to present fairly the financial position of the Company. The operating results for the three and nine month periods ended September 30, 2009 are not necessarily indicative of the results that may be expected for the year ending December 31, 2009 or any other future interim period.

These statements should be read in conjunction with the consolidated financial statements and related notes which are incorporated by reference in the Company's Annual Report on Form 10-K for the year-ended December 31, 2008.

The Company has evaluated events and transactions occurring subsequent to the balance sheet date of September 30, 2009 for items that should potentially be recognized or disclosed in these financial statements. The evaluation was conducted through November 9, 2009, the date these financial statements were issued.

2. Earnings Per Share

Basic earnings per share represents income available to common stockholders divided by the weighted average number of common shares outstanding during the period. Diluted earnings per share reflects additional common shares that would have been outstanding if dilutive potential common shares had been issued, as well as any adjustment to income that would result from the assumed issuance. Potential common shares that may be issued by the Company relate solely to outstanding stock options and are determined using the treasury stock method.

The following table sets forth the weighted average number of common shares used in the computations of basic and diluted earnings per share:

(in thousands)	Three Months Ended		Nine Months Ended	
	September 30,		September 30,	
	2009	2008	2009	2008
Basic EPS weighted average shares outstanding	2,757	2,738	2,745	2,742

Edgar Filing: NORWOOD FINANCIAL CORP - Form 10-Q

Dilutive effect of stock options	20	26	18	32
Diluted EPS weighted average shares outstanding	2,777	2,764	2,763	2,774

Stock options which had no intrinsic value because their effect would be anti-dilutive and therefore would not be included in the diluted EPS calculation were 103,000 and 89,150 as of September 30, 2009 and 2008, respectively.

7

3. Stock-Based Compensation

The Company's shareholders approved the Norwood Financial Corp 2006 Stock Option Plan at the annual meeting on April 25, 2006 and the Company awarded 47,700 options in 2006, 22,000 options in 2007, 24,000 options in 2008 and 1,000 options in 2009, all of which have a twelve-month vesting period. As of

September 30, 2009, there was approximately \$33,000 of total unrecognized compensation cost related to nonvested options under the plan, which will be fully amortized by April 2010.

A summary of stock options from all plans, adjusted for stock dividends declared, is shown below.

	Options	Weighted Average Exercise Price Per Share	Weighted Average Remaining Contractual Term	Aggregate Intrinsic Value (\$00)
Outstanding at January 1, 2009	176,443	\$ 25.95	6.5 Yrs.	\$ 273
Exercised	(28,740)	15.87		
Granted	1,000	28.90	9.5	
Outstanding at September 30, 2009	148,703	\$ 27.92	5.8	\$ 592
Exercisable at September 30, 2009	123,703	\$ 27.99	4.4	\$ 385

Intrinsic value represents the amount by which the market price of the stock on the measurement date exceeded the exercise price of the option. The stock price was \$31.10 and \$27.50 as of September 30, 2009 and December 31, 2008, respectively. The intrinsic value of options exercised during the nine months ended September 30, 2009 was \$311,000, cash received from such exercises was \$457,000 and the tax benefit recognized was \$146,000.

4. Cash Flow Information

For the purposes of reporting cash flows, cash and cash equivalents include cash on hand, amounts due from banks, interest-bearing deposits with banks and federal funds sold.

Cash payments for interest for the nine months ended September 30, 2009 and 2008 were \$5,713,000 and \$8,366,000 respectively. Cash payments for income taxes in 2009 were \$1,838,000 compared to \$2,236,000 in 2008. Non-cash investing activity for 2009 and 2008 included foreclosed mortgage loans transferred to real estate owned and repossession of other assets of \$213,000 and \$1,250,000, respectively.

5. Comprehensive Income

Accounting principles generally accepted in the United States of America require that recognized revenue, expenses, gains and losses be included in net income. Although certain changes in assets and liabilities such as unrealized gains and losses on available for sale securities, are reported as a separate component of the equity section of the balance sheet, such items, along with net income, are components of comprehensive income. The components of other comprehensive income and related tax effects are as follows.

8

(in thousands)

	Three Months Ended September 30,		Nine Months Ended September 30,	
	2009	2008	2009	2008
Unrealized holding gains (losses) on available for sale securities	\$ 1,989	\$ (953)	\$ 2,522	\$ (2,225)
Reclassification adjustment for gains (losses) realized in net income	(90)	27	(423)	18
Net unrealized gains (losses)	1,899	(926)	2,099	(2,207)
Income tax (benefit), expense	646	(313)	718	(752)
Other comprehensive income (loss)	\$ 1,253	\$ (613)	\$ 1,381	\$ (1,455)

6. Off-Balance Sheet Financial Instruments and Guarantees

The Bank is a party to financial instruments with off-balance-sheet risk in the normal course of business to meet the financing needs of its customers. These financial instruments include commitments to extend credit and letters of credit. Those instruments involve, to varying degrees, elements of credit and interest rate risk in excess of the amount recognized in the balance sheets.

The Bank's exposure to credit loss in the event of nonperformance by the other party to the financial instrument for commitments to extend credit and letters of credit is represented by the contractual amount of those instruments. The Bank uses the same credit policies in making commitments and conditional obligations as it does for on-balance sheet instruments.

A summary of the Bank's financial instrument commitments is as follows:

(in thousands)

	September 30,	
	2009	2008
Commitments to grant loans	\$ 11,686	\$ 19,138
Unfunded commitments under lines of credit	35,117	35,904
Standby letters of credit	2,060	2,065
	\$ 48,863	\$ 57,107

Commitments to extend credit are agreements to lend to a customer as long as there is no violation of any condition established in the contract. Commitments generally have fixed expiration dates or other termination clauses and may require payment of a fee. Since some of the commitments are expected to expire without being drawn upon, the total commitment amount does not necessarily represent future cash requirements. The Bank evaluates each customer's credit worthiness on a case-by-case basis. The amount of collateral obtained, if deemed necessary by the Bank upon extension of credit, is based on management's credit evaluation of the customer and generally consists of real estate.

Edgar Filing: NORWOOD FINANCIAL CORP - Form 10-Q

The Bank does not issue any guarantees that would require liability recognition or disclosure, other than its standby letters of credit. Standby letters of credit written are conditional commitments issued by the Bank to guarantee the performance of a customer to a third party. Generally, all letters of credit, when issued have expiration dates within one year. The credit risk involved in issuing letters of credit is essentially the same as those that are involved in extending loan facilities to customers. The Bank, generally, holds collateral and/or personal guarantees supporting these commitments. Management believes that the

Edgar Filing: NORWOOD FINANCIAL CORP - Form 10-Q

proceeds obtained through a liquidation of collateral and the enforcement of guarantees would be sufficient to cover the potential amount of future payment required under the corresponding guarantees. The current amount of the liability as of September 30, 2009 for guarantees under standby letters of credit issued is not material.

7. Securities

The amortized cost and fair value of securities were as follows:

	September 30, 2009			
	Amortized Cost (In Thousands)	Gross Unrealized Gains	Gross Unrealized Losses	Fair Value
Available for Sale:				
U.S. Government agencies	\$ 30,117	\$ 469	\$ (8) \$ 30,578
States and political subdivisions	31,661	1,033	(17) 32,677
Corporate obligations	5,048	178	—	5,226
Mortgage-backed securities	55,131	1,933	(7) 57,057
	121,957	3,613	(32) 125,538
Equity securities	361	486	(36) 811
	\$ 122,318	\$ 4,099	\$ (68) \$ 126,349
Held to Maturity:				
States and political subdivisions	\$ 708	\$ 17	\$ —	\$ 725

	December 31, 2008			
	Amortized Cost (In Thousands)	Gross Unrealized Gains	Gross Unrealized Losses	Fair Value
Available for Sale:				
U.S. Government agencies	\$ 34,989	\$ 836	\$ (12) \$ 35,813
States and political subdivisions	25,436	110	(337) 25,209
Corporate obligations	6,065	—	(440) 5,625
Mortgage-backed securities	61,198	1,340	(220) 62,318
	127,688	2,286	(1,009) 128,965
Equity securities	500	754	(99) 1,155
	\$ 128,188	\$ 3,040	\$ (1,108) \$ 130,120
Held to Maturity:				
States and political subdivisions	\$ 707	\$ 13	\$ —	\$ 720

Edgar Filing: NORWOOD FINANCIAL CORP - Form 10-Q

The following tables show the Company's investments' gross unrealized losses and fair value aggregated by length of time that individual securities have been in a continuous unrealized loss position (in thousands):

	September 30, 2009					
	Less than 12 Months		12 Months or More		Total	
	Fair Value	Unrealized Losses	Fair Value	Unrealized Losses	Fair Value	Unrealized Losses
U.S. Government agencies	\$ 1,990	\$ (8)	\$ —	\$ —	\$ 1,990	\$ (8)
States and political subdivisions	986	(17)	—	—	986	(17)
Corporate obligations	—	—	—	—	—	—
Mortgage-backed securities	1,734	(7)	—	—	1,734	(7)
Equity securities	27	(14)	58	(22)	85	(36)
	\$ 4,737	\$ (46)	\$ 58	\$ (22)	\$ 4,795	\$ (68)

The Company has nine securities in an unrealized loss position in the less than twelve months category and three securities in the twelve months or more category. In Management's opinion the unrealized losses less than twelve months principally reflect changes in interest rates subsequent to the acquisition of specific securities. The Company holds a small amount of equity securities in other financial institutions. The value of these equity securities has been impacted by the overall weakness in the financial sector, three of which have been in a loss position for greater than one year. Management believes that the unrealized losses represent temporary impairment of the securities as the Company does not have the intent to sell these securities and it is more likely than not that it will not have to sell the securities before recovery of their cost basis.

	December 31, 2008					
	Less than 12 Months		12 Months or More		Total	
	Fair Value	Unrealized Losses	Fair Value	Unrealized Losses	Fair Value	Unrealized Losses
U.S. Government agencies	\$ 988	\$ (12)	\$ —	\$ —	\$ 988	\$ (12)
States and political subdivisions	13,653	(337)	—	—	13,653	(337)
Corporate obligations	3,886	(180)	1,739	(260)	5,625	(440)
Mortgage-backed securities	13,610	(220)	—	—	13,610	(220)
Equity securities	20	(3)	69	(96)	89	(99)
	\$ 32,157	\$ (752)	\$ 1,808	\$ (356)	\$ 33,965	\$ (1,108)

The amortized cost and fair value of debt securities as of September 30, 2009 by contractual maturity are shown below. Expected maturities may differ from contractual maturities because borrowers may have the right to prepay obligations with or without call or prepayment penalties.

Edgar Filing: NORWOOD FINANCIAL CORP - Form 10-Q

	Available for Sale		Held to Maturity

Proceeds from sales of securities	\$ 2,445	\$ 9	\$ 13,586	\$ 68

8. Fair Value Measurements

Generally accepted accounting principles in the United States of America established a fair value hierarchy that prioritizes the inputs to valuation methods used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy are as follows:

- Level 1: Unadjusted quoted prices in active markets that are accessible at the measurement date for identical, unrestricted assets or liabilities.
- Level 2: Quoted prices in markets that are not active, or inputs that are observable either directly or indirectly, for substantially the full term of the asset or liability.
- Level 3: Prices or valuation techniques that require inputs that are both significant to the fair value measurement and are unobservable (i.e. supported with little or no market activity).

Edgar Filing: NORWOOD FINANCIAL CORP - Form 10-Q

An asset's or liability's level within the fair value hierarchy is based on the lowest level of input that is significant to the fair value measurement.

For financial assets measured at fair value on a recurring basis, the fair value measurements by level within the fair value hierarchy used at September 30, 2009 and December 31, 2008 are as follows:

12

<u>Description</u>	Fair Value Measurement Reporting Date Using			
	Total (In thousands)	(Level 1) Quoted Prices in Active Markets For Identical Assets	(Level 2) Significant Other Observable Inputs	(Level 3) Significant Unobservable Inputs
September 30, 2009				
US Government agencies	\$ 30,578	\$ —	\$ 30,578	\$ —
States and political subdivisions	32,677	—	32,677	—
Corporate securities	5,226	—	5,226	—
Mortgage-backed securities	57,057	—	57,057	—
Equity securities	811	811	—	—
Total	\$ 126,349	\$ 811	\$ 125,538	\$ —
December 31, 2008				
Available for Sale:				
US Government agencies	\$ 35,813	\$ —	\$ 35,813	\$ —
States and political subdivisions	25,209	—	25,209	—
Corporate securities	5,625	—	5,625	—
Mortgage-backed securities	62,318	—	62,318	—
Equity securities	1,155	1,155	—	—
Total	\$ 130,120	\$ 1,155	\$ 128,965	\$ —

For financial assets measured at fair value on a nonrecurring basis, the fair value measurements by level within the fair value hierarchy used at September 30, 2009 and December 31, 2008 are as follows:

<u>Description</u>	Fair Value Measurement Reporting Date Using			
	Total	(Level 1) Quoted Prices in Active Markets For Identical Assets	(Level 2) Significant Other Observable Inputs	(Level 3) Significant Unobservable Inputs
(In thousands)				
September 30, 2009				
Impaired Loans	\$ 4,326	\$ —	\$ —	\$ 4,326
Other real estate owned	562	—	—	562
	\$ 4,888	\$ —	\$ —	\$ 4,888
December 31, 2008				
Impaired Loans	\$ 2,976	\$ —	\$ —	\$ 2,976

The following information should not be interpreted as an estimate of the fair value of the entire Company since a fair value calculation is only provided for a limited portion of the Company's assets and liabilities. Due to a wide range of valuation techniques and the degree of subjectivity

Edgar Filing: NORWOOD FINANCIAL CORP - Form 10-Q

used in making the estimates, comparisons between the Company's disclosures and those of other companies may not be meaningful. The following methods and assumptions were used to estimate the fair values of the Company's financial instruments at September 30, 2009 and December 31, 2008.

13

Edgar Filing: NORWOOD FINANCIAL CORP - Form 10-Q

Cash and cash equivalents (carried at cost):

The carrying amounts reported in the consolidated balance sheet for cash and short-term instruments approximate those assets' fair values.

Securities:

The fair value of securities available for sale (carried at fair value) and held to maturity (carried at amortized cost) are determined by obtaining quoted market prices on nationally recognized securities exchanges (Level 1), or matrix pricing (Level 2), which is a mathematical technique used widely in the industry to value debt securities without relying exclusively on quoted market prices for the specific securities but rather by relying on the securities' relationship to other benchmark quoted prices. For certain securities which are not traded in active markets or are subject to transfer restrictions, valuations are adjusted to reflect illiquidity and/or non-transferability, and such adjustments are generally based on available market evidence (Level 3). In the absence of such evidence, management's best estimate is used. Management's best estimate consists of both internal and external support on certain Level 3 investments. Internal cash flow models using a present value formula that includes assumptions market participants would use along with indicative exit pricing obtained from broker/dealers (where available) are used to support fair values of certain Level 3 investments, if applicable.

Loans receivable (carried at cost):

The fair values of loans are estimated using discounted cash flow analyses, using market rates at the balance sheet date that reflect the credit and interest rate-risk inherent in the loans. Projected future cash flows are calculated based upon contractual maturity or call dates, projected repayments and prepayments of principal. Generally, for variable rate loans that reprice frequently and with no significant change in credit risk, fair values are based on carrying values.

Impaired loans (generally carried at fair value):

The Bank measures impairment generally based on the fair value of the loan's collateral. Fair value is generally determined based upon independent third-party appraisals of the property or discounted cash flows based upon the expected proceeds. These assets are included as Level 3 fair values, based upon the lowest level of input that is significant to the fair value measurements. The fair value investment in impaired loans requiring an allowance for loan losses was \$1,185,000, which is net of a valuation allowance of \$50,000 and \$3,141,000 not requiring an allowance for loan losses as of September 30, 2009. The fair value investment in impaired loans not requiring an allowance for loan losses was \$2,976,000, net of a charge-off against the allowance for loan losses of \$380,000 at December 31, 2008.

Other real estate owned:

Real estate properties acquired through, or in lieu of loan foreclosure are to be sold and are carried at fair value less estimated cost to sell. Fair value is based upon independent market prices, appraised value of the collateral or management's estimation of the value of the collateral. These assets are included in Level 3 fair value based upon the lowest level of input that is significant to the fair value measurement. For the nine months ended September 30, 2009, a property consisting of a single residential building lot was acquired through foreclosure and is carried at its

Edgar Filing: NORWOOD FINANCIAL CORP - Form 10-Q

net realizable value of \$30,000, based on a current appraisal. At September 30, 2009 the Company was also carrying a property it acquired in the previous year with a net realizable value of \$532,000 based on a current listing agreement.

Edgar Filing: NORWOOD FINANCIAL CORP - Form 10-Q

Restricted investment in Federal Home Loan Bank stock (carried at cost):

Restricted stock which represents required investment in the common stock of correspondent banks is carried at cost and as of September 30, 2009 and December 31, 2008, consists of the common stock of Federal Home Loan Bank of Pittsburgh. In December 2008, the FHLB of Pittsburgh notified member banks that it was suspending dividend payments and the repurchase of excess capital stock.

Management evaluates the restricted stock for impairment. Management's determination of whether these investments are impaired is based on their assessment of the ultimate recoverability of their cost rather than by recognizing temporary declines in value. The determination of whether a decline affects the ultimate recoverability of their cost is influenced by criteria such as (1) the significance of the decline in net assets of the FHLB as compared to the capital stock amount for the FHLB and the length of time this situation has persisted, (2) commitments by the FHLB to make payments required by law or regulation and the level of such payments in relation to the operating performance of the FHLB, and (3) the impact of legislative and regulatory changes on institutions and, accordingly, on the customer base of the FHLB. Management believes no impairment charge is necessary related to FHLB stock as of September 30, 2009.

Accrued interest receivable and payable (carried at cost):

The carrying amount of accrued interest receivable and accrued interest payable approximates its fair value.

Deposit liabilities (carried at cost):

The fair values disclosed for demand deposits (e.g., interest and noninterest checking, passbook savings and money market accounts) are, by definition, equal to the amount payable on demand at the reporting date (i.e., their carrying amounts). Fair values for fixed-rate certificates of deposit are estimated using a discounted cash flow calculation that applies interest rates currently being offered in the market on certificates to a schedule of aggregated expected monthly maturities on time deposits.

Short-term borrowings (carried at cost):

The carrying amounts of short-term borrowings approximate their fair values.

Other borrowings (carried at cost):

Fair values of FHLB advances are estimated using discounted cash flow analysis, based on quoted prices for new FHLB advances with similar credit risk characteristics, terms and remaining maturity. These prices obtained from this active market represent a market value that is deemed to represent the transfer price if the liability were assumed by a third party.

Off-balance sheet financial instruments (disclosed at cost):

Fair values for the Company's off-balance sheet financial instruments (lending commitments and letters of credit) are based on fees currently charged in the market to enter into similar agreements, taking into account, the remaining terms of the agreements and the counterparties' credit standing.

15

Edgar Filing: NORWOOD FINANCIAL CORP - Form 10-Q

The estimated fair values of the Bank's financial instruments were as follows at September 30, 2009 and December 31, 2008.

	September 30, 2009		December 31, 2008	
	Carrying Amount	Fair Value	Carrying Amount	Fair Value

9. New Accounting Pronouncements

In June 2009, the Financial Accounting Standards Board ("FASB") issued Accounting Standards Update ("ASU") No. 2009-11, *Topic 105 - Generally Accepted Accounting Principles - FASB Accounting Standards Codification and the Hierarchy of Generally Accepted Accounting Principles*. The Codification is the single source of authoritative nongovernmental U.S. generally accepted accounting principles (GAAP). The Codification does not change current GAAP, but is intended to simplify user access to all authoritative GAAP by providing all the authoritative literature related to a particular topic in one place. Rules and interpretive releases of the SEC under federal securities laws are also sources of authoritative GAAP for SEC registrants. The Company adopted this standard for the interim reporting period ending September 30, 2009. The adoption of this standard did not have a material impact on the Company's results of operations or financial position.

In December 2007, the FASB issued an accounting standard related to business combinations which is effective for fiscal years beginning on or after December 15, 2008. This standard establishes principles and requirements for how an acquirer recognizes and measures in its financial statements the identifiable assets acquired, the liabilities assumed, and any noncontrolling interest in an acquiree, including the recognition and measurement of goodwill acquired in a business combination. This accounting standard was subsequently codified into Accounting Standards Codification (ASC) Topic 805, *Business Combinations*. The adoption of this standard is not expected to have a material effect on the Company's results of operations or financial position.

Edgar Filing: NORWOOD FINANCIAL CORP - Form 10-Q

In September 2006, the FASB issued an accounting standard related to fair value measurements, which was effective for the Company on January 1, 2008. This standard defined fair value, established a framework for measuring fair value, and expanded disclosure requirements about fair value measurements. On January 1, 2008, the Company adopted this accounting standard related to fair value measurements for the Company's financial assets and financial liabilities. The Company deferred adoption of this accounting standard related to fair value measurements for the Company's nonfinancial assets and nonfinancial liabilities, except for those items recognized or disclosed at fair value on an annual or more frequently recurring basis, until January 1, 2009. The adoption of this accounting standard related to fair value measurements for the Company's nonfinancial assets and nonfinancial liabilities had no impact on retained earnings and is not expected to have a material impact on the Company's statements of income and condition. This accounting standard was subsequently codified into ASC Topic 820, *Fair Value Measurements and Disclosures*.

In December 2007, the FASB issued an accounting standard related to noncontrolling interests in consolidated financial statements, which is effective for fiscal years beginning on or after December 15, 2008. This standard establishes accounting and reporting standards for the noncontrolling interest in a subsidiary and for the deconsolidation of a subsidiary. It clarifies that a noncontrolling interest in a subsidiary, which is sometimes referred to as minority interest, is an ownership interest in the consolidated entity that should be reported as equity in the consolidated financial statements. Among other requirements, this statement requires consolidated net income to be reported at amounts that include the amounts attributable to both the parent and the noncontrolling interest. It also requires disclosure, on the face of the consolidated income statement, of the amounts of consolidated net income attributable to the parent and to the noncontrolling interest. This accounting standard was subsequently codified into ASC 810-10, *Consolidation*. The adoption of this standard is not expected to have a material effect on the Company's results of operations or financial position.

In March 2008, the FASB issued an accounting standard related to disclosures about derivatives and hedging activities, which is effective for fiscal years and interim periods beginning after November 15, 2008. This standard requires enhanced disclosures about derivative instruments and hedging activities and therefore should improve the transparency of financial reporting. This accounting standard was subsequently codified into ASC 815-10, *Derivatives and Hedging*. The adoption of this standard is not expected to have a material effect on the Company's results of operations or financial position.

In June 2009, the FASB issued an accounting standard related to the accounting for transfers of financial assets, which is effective for fiscal years beginning after November 15, 2009, and interim periods within those fiscal years. This standard enhances reporting about transfers of financial assets, including securitizations, and where companies have continuing exposure to the risks related to transferred financial assets. This standard eliminates the concept of a "qualifying special-purpose entity" and changes the requirements for derecognizing financial assets. This standard also requires additional disclosures about all continuing involvements with transferred financial assets including information about gains and losses resulting from transfers during the period. This accounting standard was subsequently codified into ASC Topic 860. The adoption of this standard is not expected to have a material effect on the Company's results of operations or financial position.

In June 2009, the FASB issued FAS No. 167, *Amendments to FASB Interpretation No. 46(R)*. FAS 167, which amends FASB Interpretation No. 46 (revised December 2003), *Consolidation of Variable Interest Entities*, (FIN 46(R)). Under FASB's Codification at ASC 105-10-65-1-d, FAS No. 167 will remain authoritative until integrated into the FASB Codification. This statement prescribes a qualitative model for identifying whether a company has a controlling financial interest in a variable interest entity (VIE) and eliminates the quantitative model prescribed by FIN 46(R). The new model identifies two primary characteristics of a controlling financial interest: (1) provides a company with the power to direct significant activities of the VIE, and (2) obligates a company to absorb losses of and/or provides rights to receive benefits from the VIE. FAS No. 167 requires a company to reassess on an ongoing basis whether it holds a controlling financial interest in a VIE. A company that holds a controlling financial interest is deemed to be the primary beneficiary of the VIE and is required to consolidate the VIE. This

Edgar Filing: NORWOOD FINANCIAL CORP - Form 10-Q

statement is effective for fiscal years beginning after November 15, 2009, and interim periods within those fiscal years. The adoption of this standard is not expected to have a material effect on the Company's results of operations or financial position.

In April 2009, the FASB issued new guidance impacting ASC Topic 820, *Fair Value Measurements and Disclosures*. This ASC provides additional guidance in determining fair values when there is no active market or where the price inputs being used represent distressed sales. It reaffirms the need to use judgment to ascertain if a formerly active market has become inactive and in determining fair values when markets have become inactive. The adoption of this new guidance did not have a material effect on the Company's results of operations or financial position.

In April 2009, the FASB issued new guidance impacting ASC 825-10-50, *Financial Instruments*, which relates to fair value disclosures for any financial instruments that are not currently reflected on the balance sheet of companies at fair value. This guidance amended existing GAAP to require disclosures about fair value of financial instruments for interim reporting periods of publicly traded companies as well as in annual financial statements. This guidance is effective for interim and annual periods ending after June 15, 2009. The Company has presented the necessary disclosures in Note 8 herein.

In April 2009, the FASB issued new guidance impacting ASC 320-10, *Investments — Debt and Equity Securities*, which provides additional guidance designed to create greater clarity and consistency in accounting for and presenting impairment losses on securities. This guidance is effective for interim and annual periods ending after June 15, 2009. The Company has presented the necessary disclosures in Note 8 herein.

In August 2009, the FASB issued ASU No. 2009-05, *Fair Value Measurements and Disclosures (Topic 820) – Measuring Liabilities at Fair Value*. This ASU provides amendments for fair value measurements of liabilities. It provides clarification that in circumstances in which a quoted price in an active market for the identical liability is not available, a reporting entity is required to measure fair value using one or more techniques. ASU 2009-05 also clarifies that when estimating a fair value of a liability, a reporting entity is not required to include a separate input or adjustment to other inputs relating to the existence of a restriction that prevents the transfer of the liability. ASU 2009-05 is effective for the first reporting period (including interim periods) beginning after issuance or fourth quarter 2009. The Company is currently evaluating the impact of this standard on the Company's financial condition, results of operations, and disclosures.

In June 2008, the FASB issued accounting guidance related to determining whether instruments granted in share-based payment transactions are participating securities, which is effective for financial statements issued for fiscal years beginning after December 15, 2008, and interim periods within those years. This guidance clarified that instruments granted in share-based payment transactions can be participating securities prior to the requisite service having been rendered. A basic principle of this guidance is that unvested share-based payment awards that contain nonforfeitable rights to dividends or dividend equivalents (whether paid or unpaid) are participating securities and are to be included in the computation of EPS pursuant to the two-class method. All prior-period EPS data presented (including interim financial statements, summaries of earnings, and selected financial data) are required to be adjusted retrospectively to conform with this guidance. This accounting guidance was subsequently codified into ASC Topic 260, *Earnings Per Share*. The Company is currently evaluating the impact the adoption of the standard will have on the Company's results of operations.

10. Branch Closure

On December 26, 2008, the Company filed notifications with the Pennsylvania Department of Banking and the FDIC, requesting authorization to discontinue branch operations at its Hamlin Office, as the lease for the location expires in 2009, with no renewal options available. The Company entered into an agreement with NBT Bank to assume the deposits of the Hamlin

location and the office was closed on March 31, 2009. The gain on the transaction was \$150,000 with expense related to the closing, including final lease payments, of \$46,000, included in other expense in the consolidated income statement.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

Forward-Looking Statements

The Private Securities Litigation Reform Act of 1995 contains safe harbor provisions regarding forward-looking statements. When used in this discussion, the words believes, anticipates, contemplates, expects, and similar expressions are intended to identify forward-looking statements. Such statements are subject to certain risks and uncertainties, which could cause actual results to differ materially from those projected. Those risks and uncertainties include changes in interest rates, risks associated with the effect of opening a new branch, the ability to control costs and expenses, demand for real estate and general economic conditions. The Company undertakes no obligation to publicly release the results of any revisions to those forward-looking statements which may be made to reflect events or circumstances after the date hereof or to reflect the occurrence of unanticipated events.

Critical Accounting Policies

Note 2 to the Company's consolidated financial statements for the year ended December 31, 2008 (incorporated by reference in Item 8 of the Form 10-K) lists significant accounting policies used in the development and presentation of its financial statements. This discussion and analysis, the significant accounting policies, and other financial statement disclosures identify and address key variables and other qualitative and quantitative factors that are necessary for an understanding and evaluation of the Company and its results of operations.

Material estimates that are particularly susceptible to significant change in the near term relate to the determination of the allowance for loan losses, potential impairment of restricted stock, accounting for stock options, the valuation of deferred tax assets and the determination of other-than-temporary impairment losses on investments in securities.

Refer to the discussion of the allowance for loan losses calculation under "Non-performing Assets and Allowance for Loan Losses" in the "Changes in Financial Condition" section.

The Company uses the modified prospective transition method. Under this method companies are required to record compensation expense, based on the fair value of options over the vesting period.

Deferred income taxes reflect temporary differences in the recognition of the revenue and expenses for tax reporting and financial statement purposes, principally because certain items are recognized in different periods for financial reporting and tax return purposes. Although realization is not assured, the Company believes that it is more likely than not that all deferred tax assets will be realized.

Edgar Filing: NORWOOD FINANCIAL CORP - Form 10-Q

Restricted stock which represents required investment in the common stock of correspondent banks is carried at cost and as of September 30, 2009 and December 31, 2008, consists of the common stock of Federal Home Loan Bank of Pittsburgh. In December 2008, the FHLB of Pittsburgh notified member banks that it was suspending dividend payments and the repurchase of excess capital stock.

Management evaluates the restricted stock for impairment. Management's determination of whether these investments are impaired is based on their assessment of the ultimate recoverability of their cost rather than by recognizing temporary decline in value. The determination of whether a decline affects the ultimate recoverability of their cost is influenced by criteria such as (1) the significance of the decline in net assets of the FHLB as compared to the capital stock amount for the FHLB and length of time this situation has persisted, (2) commitments by the FHLB to make payments required by law or regulation and the level of

Edgar Filing: NORWOOD FINANCIAL CORP - Form 10-Q

such payments in relation to the operating performance of the FHLB, and (3) the impact of legislative and regulatory changes on institutions and, accordingly, on the customer base of the FHLB. Management believes no impairment charge is necessary related to the restricted stock as of September 30, 2009 and December 31, 2008.

In estimating other-than-temporary impairment losses on securities, the Company considers 1) the length of time and extent to which the fair value has been less than cost 2) the financial condition of the issuer and 3) the intent and ability of the Company to hold the security to allow for a recovery to fair value. The Company believes that the unrealized losses in certain specific securities at September 30, 2009 and December 31, 2008 represent temporary impairment of the securities, related to changes in interest rates.

Changes in Financial Condition

General

Total assets as of September 30, 2009 were \$514.9 million compared to \$504.3 million as of December 31, 2008, an increase of \$10.6 million. The increase reflects a \$14.5 million increase in deposits used to fund \$10.1 million growth in loans and pay down short-term borrowings.

Securities

The fair value of securities available for sale as of September 30, 2009 was \$126.3 million compared to \$130.1 million as of December 31, 2008. The Company purchased \$41.9 million of securities using the proceeds from \$34.5 million of securities called, maturities and principal reductions. The Company sold \$13.6 million in securities from the available for sale portfolio.

Loans Receivable

Loans receivable totaled \$359.5 million compared to \$349.4 million as of December 31, 2008. Commercial real estate loans increased \$14.0 million during the period, reflecting new activity principally centered in the Monroe County, Pennsylvania market area. Residential real estate loans decreased \$5.9 million principally due to pay offs of home equity loans.

Set forth below is selected data relating to the composition of the loan portfolio at the dates indicated:

Types of loans (dollars in thousands)	September 30, 2009		December 31, 2008		
Real Estate-Residential	\$ 127,546	35.5	% \$ 133,417	38.1	%
Commercial	173,449	48.2	159,476	45.7	
Construction and land development	16,100	4.5	14,856	4.2	
Commercial, financial and agricultural	27,125	7.5	25,886	7.4	
Consumer loans to individuals	15,641	4.3	16,087	4.6	
Total loans	359,861	100.0	% 349,722	100.0	%

Edgar Filing: NORWOOD FINANCIAL CORP - Form 10-Q

Deferred fees (net)	(379)	(318)
	359,482		349,404	
Allowance for loan losses	(4,663)	(4,233)
Net loans receivable	\$ 354,819		\$ 345,171	

20

Allowance for Loan Losses and Non-performing Assets

Following is a summary of changes in the allowance for loan losses for the periods indicated:

(dollars in thousands)	Three Months		Nine Months	
	Ended September 30,		Ended September 30,	
	2009	2008	2009	2008
Balance, beginning	\$ 4,574	\$ 4,237	\$ 4,233	\$ 4,081
Provision for loan losses	140	130	585	315
Charge-offs	(58)	(45)	(190)	(116)
Recoveries	7	9	35	51
Net charge-offs	(51)	(36)	(155)	(65)
Balance, ending	\$ 4,663	\$ 4,331	\$ 4,663	\$ 4,331
Allowance to total loans	1.30 %	1.27 %	1.30 %	1.27 %
Net charge-offs to average loans (annualized)	.06 %	.04 %	.06 %	.03 %

The allowance for loan losses totaled \$4,663,000 as of September 30, 2009 and represented 1.30% of total loans compared to \$4,233,000 at the prior year end, and \$4,331,000 as of September 30, 2008. The Company had net charge-offs for the nine months of \$155,000 compared to \$65,000 in the comparable period in 2008. The Company's loan review process assesses the adequacy of the allowance for loan losses on a quarterly basis. The process includes an analysis of the risks inherent in the loan portfolio. It includes an analysis of impaired loans and a historical review of credit losses by loan type. Other factors considered include: concentration of credit in specific industries; economic and industry conditions; trends in delinquencies and loan classifications, large dollar exposures and loan growth. Management considers the allowance adequate at September 30, 2009 based on the Company's criteria. However, there can be no assurance that the allowance for loan losses will be adequate to cover significant losses, if any, that might be incurred in the future.

As of September 30, 2009, non-performing loans totaled \$3,177,000, which is .88% of total loans compared to \$2,087,000, or 0.60% of total loans at December 31, 2008. The increase was principally related to one home equity loan in which the Company is in first lien position and two loans to a land developer. The recorded investment for impaired loans requiring a specific allowance for loan losses was \$1,235,000 of which \$50,000 was specifically reserved due to a shortfall in the collateral based upon a sales agreement for the property. Impaired loans not requiring a specific allowance for loan losses totaled \$3,141,000 as of September 30, 2009 and \$2,976,000 as of December 31, 2008. Other real estate totals \$562,000 as of September 30, 2009 compared to \$660,000 as of year-end. The balance principally consists of undeveloped residential building lots in Monroe County, PA.

Edgar Filing: NORWOOD FINANCIAL CORP - Form 10-Q

The following table sets forth information regarding non-performing loans and foreclosed real estate at the dates indicated:

	September 30, 2009	December 31, 2008		
(dollars in thousands)				
Loans accounted for on a non-accrual basis:				
Commercial and all other	\$ —	\$ —		
Real Estate	2,646	2,087		
Consumer	—	—		
Total	2,646	2,087		
Accruing loans which are contractually				
past due 90 days or more	531	—		
Total non-performing loans	3,177	2,087		
Other real estate	562	660		
Total non-performing assets	\$ 3,739	\$ 2,747		
Allowance for loan losses	\$ 4,663	\$ 4,233		
Coverage of non-performing loans	1.47	x	2.03	x
Non-performing loans to total loans	.88	%	.60	%
Non-performing assets to total assets	.73	%	.54	%

Deposits

Total deposits as of September 30, 2009 were \$382.9 million increasing from \$359.6 million as of December 31, 2008, an increase of \$23.3 million. The growth in deposits is net of the sale of \$3.6 million in deposits related to a branch closure as described in Note 10. Non-interest bearing demand deposits increased \$6.8 million to \$63.6 million reflecting seasonal growth in certain commercial and municipal accounts. Time deposits less than \$100,000 totaled \$126.1 million as of September 30, 2009, an increase of \$8.9 million. The increase was principally due to the results of a 13 month CD product. The growth in deposits was used to fund loan growth and pay down short-term borrowings.

Edgar Filing: NORWOOD FINANCIAL CORP - Form 10-Q

The following table sets forth deposit balances as of the dates indicated.

(dollars in thousands)	September 30, 2009	December 31, 2008
Non-interest bearing demand	\$ 63,600	\$ 56,839
Interest bearing demand	37,107	35,322
Money Market Deposit Accounts	62,921	60,623
Savings	43,564	44,577
Time deposits ≤\$100,000	126,120	117,179
Time deposits ≥\$100,000	49,551	45,095
Total	\$ 382,863	\$ 359,635

Borrowings

Short-term borrowings as of September 30, 2009 totaled \$19.6 million compared to \$38.1 million as of December 31, 2008. Securities sold under agreements to repurchase declined \$4.0 million principally due to the seasonality of school district cash management accounts. The Company utilized short-term deposits to replace the short term FHLB advances which declined by \$11 million. Short-term borrowings consist of the following:

(dollars in thousands)

	September 30, 2009	December 31, 2008
Securities sold under agreements to repurchase	\$ 19,387	\$ 23,404
Federal funds purchased	—	3,600
Short-term FHLB advances	—	11,000
U.S. Treasury demand notes	166	122
	\$ 19,553	\$ 38,126

Other borrowings consisted of the following:

(dollars in thousands)	September 30, 2009	December 31, 2008
Notes with the FHLB:		
Fixed rate note due September 2010 at 3.53%	\$ 5,000	\$ 5,000
Convertible note due January 2011 at 5.24%	3,000	3,000
Convertible note due August 2011 at 2.69%	10,000	10,000
Fixed rate note due September 2011 at 4.06%	5,000	5,000
Convertible note due October 2012 at 4.37%	5,000	5,000
Convertible note due May 2013 at 3.015%	5,000	5,000
Convertible note due January 2017 at 4.71%	10,000	10,000

\$ 43,000

\$ 43,000

The convertible notes contain an option that allows the FHLB, at quarterly intervals to change the note to an adjustable-rate advance at three-month LIBOR plus 11 to 17 basis points. If the notes are converted, the option allows the Bank to put the funds back to the FHLB at no charge.

Off- Balance Sheet Arrangements

The Bank is a party to financial instruments with off-balance sheet risk in the normal course of business to meet the financing needs of its customers. These financial instruments include commitments to extend credit and

23

Edgar Filing: NORWOOD FINANCIAL CORP - Form 10-Q

letters of credit. Those instruments involve, to varying degrees, elements of credit and interest rate risk in excess of the amount recognized in the balance sheet.

The Bank's exposure to credit loss in the event of nonperformance by the other party to the financial instrument for commitments to extend credit and letters of credit is represented by the contractual amount of those instruments. The Bank uses the same credit policies in making commitments and conditional obligations as it does for on-balance sheet instruments. Commitments to grant loans totaled \$11.7 million as of September 30, 2009 compared to \$19.3 million as of December 31, 2008. The decrease is related to a slow down in new commercial and residential construction financing.

A summary of the contractual amount of the Company's financial instrument commitments is as follows:

	September 30, 2009	December 31, 2008
	(in thousands)	
Commitments to grant loans	\$ 11,686	\$ 19,254
Unfunded commitments under lines of credit	35,117	36,980
Standby letters of credit	2,060	1,897
	\$ 48,863	\$ 58,131

In order to increase the funds available to the Deposit Insurance Fund, the Federal Deposit Insurance Corporation has proposed that all insured depository institutions prepay their federal deposit insurance assessments through 2012. If the proposal is made final in its current form, the prepayment would be due December 31, 2009 and would be based on the institution's assessment base and assessment rate as of September 30, 2009 assuming a three basis point increase in the assessment rate and 5% annual growth in deposits during years 2011 and 2012. Based on our deposits and assessment rate at September 30, 2009, we estimate that our prepayment amount will be approximately \$1,651,000. We expect that we will be able to make the prepayment from available cash on hand.

Stockholders' Equity and Capital Ratios

At September 30, 2009, total stockholders' equity totaled \$63.7 million, compared to \$58.7 million as of December 31, 2008. The net change in stockholders' equity included \$5,261,000 in net income, that was partially offset by \$2,229,000 of dividends declared. In addition, accumulated other comprehensive income increased \$1,381,000 due to an increase in fair value of securities in the available for sale portfolio, net of tax. This increase in fair value is the result of a change in interest rates, which may impact the value of the securities. Because of interest rate volatility, the Company's accumulated other comprehensive income could materially fluctuate for each interim and year-end period.

A comparison of the Company's regulatory capital ratios is as follows:

	September 30, 2009		December 31, 2008	
	(in thousands)			
Tier 1 Capital (To average assets)	12.05	%	11.45	%
Tier 1 Capital (To risk-weighted assets)	16.90	%	16.22	%

Edgar Filing: NORWOOD FINANCIAL CORP - Form 10-Q

Total Capital (To risk-weighted assets)	18.20	%	17.50	%
--	-------	---	-------	---

24

Edgar Filing: NORWOOD FINANCIAL CORP - Form 10-Q

The minimum capital requirements imposed by the FDIC on the Bank for leverage, Tier 1 and Total Capital are 4%, 4% and 8%, respectively. The Company has similar capital requirements imposed by the Board of Governors of the Federal Reserve System (FRB). The Bank is also subject to more stringent Pennsylvania Department of Banking (PDB) guidelines. The Bank's capital ratios do not differ significantly from the Company's ratios. Although not adopted in regulation form, the PDB utilizes capital standards requiring a minimum of 6.5% leverage capital and 10% total capital. The Company and the Bank were in compliance with the FRB, FDIC and PDB capital requirements as of September 30, 2009 and December 31, 2008.

Liquidity

As of September 30, 2009, the Company had cash and cash equivalents of \$12.0 million in the form of cash, federal funds sold and due from banks, and short-term deposits with other institutions. In addition, the Company had total securities available for sale of \$126.3 million which could be used for liquidity needs. This totals \$138.3 million and represents 26.9% of total assets compared to \$136.6 million and 27.1% of total assets as of December 31, 2008. The Company also monitors other liquidity measures, all of which were within the Company's policy guidelines as of September 30, 2009 and December 31, 2008. Based upon these measures, the Company believes its liquidity is adequate.

Capital Resources

The Company has a line of credit commitment available from the Federal Home Loan Bank (FHLB) of Pittsburgh for borrowings of up to \$20,000,000 which expires in December 2011. There were no borrowings under this line at September 30, 2009 and December 31, 2008.

The Company has a line of credit commitment from Atlantic Central Bankers Bank for \$7,000,000 which expires in May 2010. There were no borrowings under these lines as of September 30, 2009 and December 31, 2008. The Company has a line of credit commitment available which has no stated expiration date from PNC for \$12,000,000. Borrowings under this line were \$-0- as of September 30, 2009 and \$3,600,000 as of December 31, 2008. The Bank has access to the Federal Reserve Discount Window with total availability of \$8,000,000 based upon qualifying collateral held by the Federal Reserve Bank. Borrowings from the discount window were \$-0- as of September 30, 2009 and December 31, 2008.

The Bank's maximum borrowing capacity with the Federal Home Loan Bank was approximately \$168,000,000 of which \$43,000,000 was outstanding at September 30, 2009 and \$54,000,000 at December 31, 2008. Advances from the Federal Home Loan Bank are secured by qualifying assets of the Bank.

Non-GAAP Financial Measures

This report contains or references fully taxable-equivalent (fte) interest income and net interest income, which are non-GAAP financial measures. Interest income (fte) and net interest income (fte) are derived from GAAP interest income and net interest income using an assumed tax rate of 34%. We believe the presentation of interest income (fte) and net interest income (fte) ensures comparability of interest income and net interest income arising from both taxable and tax-exempt sources and is consistent with industry practice. Net interest income (fte) is reconciled to GAAP net interest income on page 26 and page 30. Although the Company believes that these non-GAAP financial measures enhance investors' understanding of our business and performance, these non-GAAP financial measures should not be considered an alternative to GAAP measures.

Comparison of Operating Results for Three Months Ended September 30, 2009 and September 30, 2008**General**

For the three months ended September 30, 2009, net income totaled \$1,775,000 which represents an increase of \$183,000 or 11.5% over the \$1,592,000 earned in the similar period of 2008. The increase was principally due to a lower level of foreclosed real estate costs which totaled \$130,000 in the 2009 period and \$519,000 for the 2008 period. Earnings per share for the current period were \$.64 per share compared to \$.58 per share for the similar period in 2008, for both a basic and fully diluted basis. The resulting annualized return on average assets and annualized return on average equity for the three months ended September 30, 2009 were 1.40% and 11.25%, respectively, compared to 1.28% and 11.15%, respectively, for the similar period in 2008.

The following table sets forth changes in net income:

(dollars in thousands)	Three Months Ended	
	September 30, 2009 to September 30, 2008

Foreclosed real estate		389
All other expenses		40
Income tax expense		(29)
Net income three months ended September 30, 2009	\$	1,775

Net Interest Income

Net interest income on a fully taxable equivalent basis (fte) for the three months ended September 30, 2009 totaled \$4,973,000 compared to \$4,932,000 in the similar period in 2008. The fte net interest spread and net interest margin were 3.62% and 4.07%, respectively for the three months ended September 30, 2009 compared to 3.67% and 4.21% respectively for the similar period in 2008.

Interest income (fte) totaled \$6,887,000 with a yield on average earning assets of 5.63% compared to \$7,215,000 and 6.15% for the 2008 period. The decrease in yield was partially due to a lower prime interest rate which was 3.25% as of September 30, 2009 compared to 5.00% as of September 30, 2008. The Company has \$69 million of floating rate loans tied to prime rate which were impacted by this decrease in prime rate. To offset this decline, the Company has established minimum rates or interest rate floors on floating rate lines of credit as they are reviewed. Residential mortgage rates have also declined resulting in a portion of the portfolio refinancing at lower rates. The level of non-accrual loans has

also increased which has a negative impact on the yield of the loan portfolio. As a result of these factors, the fee yield on loans declined to 6.06% from 6.61% for the similar period in the prior year.

Edgar Filing: NORWOOD FINANCIAL CORP - Form 10-Q

The yield on the available-for-sale securities taxable portfolio also declined 77 basis points to 4.05% reflecting current lower rates. This was partially offset by a \$9.2 million increase in the tax-exempt sector of the portfolio with an average fee yield in that portfolio of 5.85%. Average earning assets totaled \$489.1 million for the three months ended September 30, 2009, an increase of \$20.0 million over the average for the similar period in 2008. This increase in average earning assets helped offset the decline in asset yields.

Interest expense for the three months ended September 30, 2009 totaled \$1,914,000 at an average cost of 2.02% compared to \$2,283,000 at an average cost of 2.48% for the similar period in 2008. With the decrease in short-term interest rates, the Company reduced rates on its money market deposit accounts and cash management products which are included in short-term borrowings. The cost of time deposits, which is the most significant component of funding representing 45.4% of average interest-bearing liabilities declined to 2.78% from 3.68%. As time deposits matured, they repriced downward at the current lower rates.

Other Income

Other income totaled \$1,018,000 for the three months ended September 30, 2009 compared to \$973,000 for the similar period in 2008. The increase was principally related to a \$90,000 gain on the sale of investment securities compared to a \$27,000 loss in the 2008 period. Service charges and fees decreased \$42,000 to \$614,000. The decline was principally due to a lower level of non-sufficient fund fees which was impacted by the closing of the Hamlin branch in March 2009.

Other Expenses

Other expenses totaled \$3,174,000 for the three months ended September 30, 2009 a decrease of \$187,000 from \$3,361,000 in the similar period of 2008. The decrease was principally due to a lower level of costs associated with other real estate owned which totaled \$130,000 in 2009 compared to \$519,000 in 2008. The costs were principally related to write-downs of property to net realizable value. The FDIC insurance assessments increased to \$133,000 from \$25,000 in 2008 due to the general increases in the assessment rates.

Income Tax Expense

Income tax expense totaled \$695,000 for an effective tax rate of 28.1% for the period ending September 30, 2009 compared to \$666,000 for an effective tax rate of 29.5% for the similar period in 2008. The decrease in the effective tax rate was principally due to a higher level of tax-exempt income related to the purchase of municipal obligations in the available-for-sale portfolio.

Comparison of Operating Results for Nine Months Ended September 30, 2009 and September 30, 2008

General

For the nine months ended September 30, 2009, net-income totaled \$5,261,000 compared to \$5,092,000 earned in the similar period of 2008, an increase of \$169,000 or 3.3%. Earnings per share for the current period were \$1.92 per share basic and \$1.90 per share fully diluted compared to \$1.86 per share basic and \$1.84 per share diluted for the nine months ended September 30, 2008. The resulting annualized return on average assets and annualized

Edgar Filing: NORWOOD FINANCIAL CORP - Form 10-Q

return on average equity for the nine months ended September 30, 2009 were 1.39% and 11.51% and 1.40% and 12.00%, respectively, for the similar period in 2008.

The following table sets forth changes in net income:

Nine Months Ended

September 30, 2009 to September 30, 2008

(dollars in thousands)

Net income nine months ended September 30, 2008	\$ 5,092
Change due to:	
Net interest income	608
Provision for loan losses	(270)
Gain on sales of loans, securities & deposits	401
Other income	(131)
Salaries and employee benefits	(299)
FDIC insurance assessment	(579)
Foreclosed real estate owned	423
All other expenses	(20)
Income tax expense	36
Net income nine months ended September 30, 2009	\$ 5,261

Net Interest Income

Net interest income on a fully taxable equivalent basis (fte) for the nine months ended September 30, 2009 totaled \$14,837,000, an increase of \$688,000, or 4.9% over the similar period in 2008. The fte net interest spread and net interest margin were 3.64% and 4.08%, respectively compared to 3.47% and 4.06%, respectively in 2008.

Interest income (fte) totaled \$20,668,000 with a yield on average earning assets of 5.68% compared to \$21,636,000 and 6.21% for the similar period in 2008. The decrease in yield was due in part to the lower prime interest rate which was 3.25% as of September 30, 2009 declining from 5.00% as of September 30, 2008. The Company has \$69 million of floating rate loans which were impacted by the lower prime rate. The Company has offset a portion of the decrease by establishing interest minimums, or floors, on commercial lines of credit, as they are renewed. Residential mortgage rates have also declined with a portion of the portfolio refinancing at the current lower rates. The yield on the available for sale taxable securities portfolio declined 58 basis points to 4.23% as the reinvestment of cash flows, calls, maturities and proceeds from sales were reinvested at current lower rates. The average balance of the taxable sector of the portfolio declined \$9.1 million and the tax-exempt sector increased \$6.2 million. Average earning assets totaled \$485.4 million for the nine months ended September 30, 2009, an increase of \$20.6 million over the similar period in 2008. The growth in average earning asset partially offset the decline in asset yields.

Interest expense for the nine months ended September 30, 2009 totaled \$5,831,000 with an average cost of 2.03% compared to \$7,487,000 and 2.73% for the similar period in 2008. As short-term rates declined, the Company reduced rates paid on its money market accounts, 83 basis points and short-term borrowings by 79 basis points. The cost of time deposits, which represent 44.2% of average interest bearing liabilities was 2.88% for the 2009 period

Edgar Filing: NORWOOD FINANCIAL CORP - Form 10-Q

declining 108 basis points from 3.96% for the 2008 period. This reflects time deposits maturing and repricing at the current lower rates.

Other Income

Other income totaled \$3,467,000 for the nine months ended September 30, 2009 compared to \$3,197,000 for the similar period in 2008, an increase of \$270,000. Gains on the sales of investment securities totaled \$423,000 on the sales of \$13.6 million compared to \$18,000 loss for the similar period in 2008. The Company also had a \$150,000 gain on the sale of deposits related to a branch closure in 2009 (see footnote 10). The 2009 period includes \$296,000 in gains on the sales of \$21.6 million on mortgage loans and servicing rights compared to \$486,000 in similar gains on the sales of \$14.4 million of mortgage loans and servicing rights in the 2008 period. Service charges and fees declined \$110,000 to a \$1,854,000 in 2009 principally due to a lower volume of non-sufficient fees related in part to the branch closure.

Other Expenses

Other expense totals \$9,769,000 for the nine months ended September 30, 2009 compared to \$9,294,000 in the similar period of 2008, an increase of \$475,000. The increase was partially due to a higher level of FDIC insurance assessments, which totaled \$617,000 in 2009 compared to \$38,000 in the similar period of 2008. The 2009 period includes \$225,000 related to an FDIC special assessment. This was partially offset by a lower level of foreclosed real estate costs which totaled \$148,000 in the 2009 period and \$571,000 in 2008, as a result of a lower level of write-downs on properties.

Income Tax Expense

Income tax expense totaled \$2,134,000 for an effective tax rate of 28.9% for the 2009 period compared to \$2,170,000 and 29.9% in 2008. The decrease in the effective tax rate was principally due to a higher level of tax-exempt income related to purchases of municipal obligations held in the available-for-sale securities portfolio.

Item 3. Quantitative and Qualitative Disclosures about Market Risk

Market Risk

Interest rate sensitivity and the repricing characteristics of assets and liabilities are managed by the Asset and Liability Management Committee (ALCO). The principal objective of ALCO is to maximize net interest income within acceptable levels of risk, which are established by policy. Interest rate risk is monitored and managed by using financial modeling techniques to measure the impact of changes in interest rates.

Net interest income, which is the primary source of the Company's earnings, is impacted by changes in interest rates and the relationship of different interest rates. To manage the impact of the rate changes, the balance sheet must be structured so that repricing opportunities exist for both assets and liabilities at approximately the same time intervals. The Company uses net interest simulation to assist in interest rate risk management. The process includes simulating various interest rate environments and their impact on net interest income. As of September 30, 2009, the level of net interest income at risk in a 200 basis points change in interest rates was within the Company's policy limits. The Company's policy allows for a decline of no more than 8% of net interest income.

Imbalance in repricing opportunities at a given point in time reflect interest-sensitivity gaps measured as the difference between rate-sensitive assets (RSA) and rate-sensitive liabilities (RSL). These are static gap measurements that do not take into account any future activity, and as such are principally used as early indications of potential interest rate exposures over specific intervals.

As of September 30, 2009, the Bank had a positive 90 day interest sensitivity gap of \$54.5 million or 10.6% of total assets, increasing from \$20.4 million, 4.0% of total assets as of December 31, 2008. The change was principally due to a decrease in time deposits maturing in 90 days. A positive gap means that rate-sensitive assets are greater than rate-sensitive liabilities at the time interval. This would indicate that in a falling rate environment, the

Edgar Filing: NORWOOD FINANCIAL CORP - Form 10-Q

yield on interest-earning assets would decrease faster than the cost of interest-bearing liabilities in the 90 day time frame. The one year gap is neutral as a large amount of time deposits mature in the three to twelve bucket. The repricing intervals are managed by ALCO strategies, including adjusting the average life of the investment portfolio, pricing of deposit liabilities to attract longer or shorter term time deposits, loan pricing to encourage variable, implementing interest rate floors on loans or fixed rate products and evaluation of loan sales of long-term fixed rate mortgages.

September 30, 2009

Item 4. Controls and Procedures

The Company's management evaluated, with the participation of the Company's Chief Executive Officer and Chief Financial Officer, the effectiveness of the Company's disclosure controls and procedures, as of the end of the period covered by this report. Based on that evaluation, the Chief Executive Officer and the Chief Financial Officer concluded that the Company's disclosure controls and procedures are effective to ensure that information required to be disclosed by the Company in the reports that it files or submits under the Securities Exchange Act of 1934 is recorded, processed, summarized and reported within the time periods specified in the Securities and Exchange Commission's rules and forms.

Edgar Filing: NORWOOD FINANCIAL CORP - Form 10-Q

There were no changes in the Company's internal control over financial reporting that occurred during the Company's last fiscal quarter that have materially affected, or are reasonably likely to materially affect, the Company's internal control over financial reporting.

PART II. OTHER INFORMATION

Item 1. Legal Proceedings

Not applicable

Item 1A. Risk Factors

There have been no material changes in the risk factors affecting the Company that were identified in Item 1A of Part I of the Company's Form 10-K for the year ended December 31, 2008.

Item 2. Unregistered Sales of Securities and Use of Proceeds

Not applicable.

Item 3. Defaults Upon Senior Securities
