FOR IMMEDIATE RELEASE

## TURKCELL ANNOUNCES REVISION TO INTERCONNECTION AGREEMENT WITH TELSİM

Istanbul, Turkey, October 13, 2003 - Turkcell (NYSE:TKC, ISE:TCELL), the leading provider of mobile communications services in Turkey, today announced that it has signed an agreement with Telsim amending certain sections of the Interconnection Agreement dated October 4, 1999, between Turkcell and Telsim ("the Agreement"). Turkcell and Telsim amended pricing terms of the Agreement in response to the Access and Interconnection Regulation introduced by the Telecommunication Authority of Turkey in May 2003. The amended agreement came into effect as of today.

All the following rates are set in Turkish Lira and will be revised by the parties every three months based on the consumer price index. During periods of sharp devaluation of the Turkish Lira, the devaluation rate will also be taken into consideration in such revisions. The amended pricing terms of the Agreement will be applicable until the end of 2004 when both parties will revise them based on conditions reached at that time. All the rates are net of all applicable taxes. US Dollar rates given in brackets after Turkish Lira denominated rates below are calculated based on the current exchange rate and may be subject to change.

According to the revised agreement, Turkcell will pay TRL210,000 (apprx. US\$0.152) per minute to Telsim for traffic originating on Turkcell's network and terminating on Telsim's network. Telsim will pay the same rate to Turkcell for the reverse traffic. This rate, after quarterly revisions, will be subject to a discount of 4.762% in May 2004 as part of this agreement. Turkcell will pay Telsim TRL25,000 (apprx. US\$0.018), for each SMS originating on Turkcell's network and terminating on Telsim's network. Telsim will pay the same rate to Turkcell for the reverse traffic.

FOR IMMEDIATE RELEASE

TURKCELL ANNOUNCES THE DISPUTE ON FREQUENCY USAGE FEES IS RESOLVED

Istanbul, Turkey, October 15, 2003 - Turkcell (NYSE:TKC, ISE:TCELL), the leading provider of mobile communications services in Turkey, today announced that the dispute with the Telecommunications Authority (the "Authority") on frequency usage fee is resolved.

In January 2002, Turkcell applied to the Authority requesting it to review the protocol obligating Turkcell to collect frequency usage fees from its subscribers on the grounds that it was impossible to collect these fees from prepaid subscribers. Upon the request of the Authority in February 2002 to pay the frequency usage fees, Turkcell filed a lawsuit against the Authority

## Edgar Filing: TURKCELL ILETISIM HIZMETLERI A S - Form 6-K

requesting cancellation of the protocols obligating it to collect the frequency usage fees from prepaid subscribers. In July 2002, the court decided in favor of Turkcell. However, the Authority appealed the decision and in March 2003 the Court of Appeals accepted the Authority's appeal and annulled the decision of the lower court.

After the Court of Appeals' decision, Turkcell paid TL86.9 trillion (US\$61.1 million, as of June 30, 2003) for the year 2003. Turkcell did not paid the fees due for 2002, as the legal process was ongoing, however, Turkcell accrued legal reserves in its financials. The disputed amount for the year 2002 is TL52.3 trillion (US\$36.8 million, as of June 30, 2003) in principal and TL58.6 trillion (US\$41.2 million as of June 30, 2003) in interest as of June 30, 2003.

The lower court revised its decision to make it in line with the Court of Appeal's decision and rejected Turkcell's request the cancellation of the protocols obligating it to collect the frequency usage fees from the prepaid subscribers. The decision is final and not subject to appeal.
