Item 12. Results of Operations and Financial Condition

On May 24, 2004, Dycom Industries, Inc. ("Dycom") issued a press release with respect to its conference call to be held on May 25, 2004. The press release is attached hereto as Exhibit 12.1 and is incorporated in its entirety by reference herein.

On May 25, 2004, Dycom held a tele-conference call to review its results and to address its outlook.

In calculating days sales outstanding ("DSO") for the quarter ended January 24, 2004 (second quarter), Dycom has excluded amounts related to UtiliQuest Holdings Corp. ("UtiliQuest") and First South Utility Construction, Inc. ("First South"). Dycom believes that the presentation of DSO for the quarter ended January 24, 2004, excluding the revenues and receivables attributable to UtiliQuest and First South, provides more useful information to investors. The consolidated receivable balance at January 24, 2004, includes receivables of UtiliQuest and First South, some of which were generated from operations that took place prior to their respective acquisitions. However, Dycom's consolidated revenues for the quarter include UtiliQuest and First South only from the date of their respective acquisitions. Therefore, Dycom believes that calculations of DSO for the quarter excluding the receivables and revenues attributable to UtiliQuest and First South provides a better indication of performance for the quarter ended January 24, 2004.

In addition to presenting net income and earnings per share, Dycom has presented net income and earnings per share excluding, for the nine months ended April 24, 2004, the adjustment for gain on sale of long term accounts receivable, and excluding, for the three months and nine months ended April 24, 2004, a charge related to a reserve recorded in connection with an ongoing employment tax audit. Dycom believes that the information presented, excluding these items, provide a better basis for evaluating the performance of the business.

For the quarter ended April 24, 2004, specialty contracting services related to the telecommunications industry, underground utility locating and electrical and other construction and maintenance to electric utilities and others contributed approximately 74%, 23% and 3%, respectively, to Dycom's total contract revenues.

The information in this Current Report on Form 8-K, including the exhibits, shall not be deemed "filed" for the purposes of or otherwise subject to the liabilities under Section 18 of the Securities Exchange Act of 1934, and shall not be deemed to be incorporated by reference into the filings of the registrant under the Securities Act of 1933.
