WATERSIDE CAPITAL CORPORATION

Notes to Unaudited Financial Statements

September 30, 2002

(1) Basis of Presentation

In the opinion of management, the accompanying unaudited interim financial statements of Waterside Capital Corporation (the Company) as of September 30, 2002 and for the three month periods ended September 30, 2001 and 2002 are prepared in accordance with generally accepted accounting principles (GAAP) for interim financial information and pursuant to the requirements for reporting on Form 10-Q and Article 10 of Regulation S-X. Accordingly, certain disclosures accompanying annual financial statements prepared in accordance with GAAP are omitted. In the opinion of management, all adjustments, consisting of normal recurring accruals necessary for the fair presentation of financial statements for the interim periods, have been included. The current period's results of operations are not necessarily indicative of results that ultimately may be achieved for the year. The Company's balance sheet as of June 30, 2002 has been derived from the audited financial statements as of June 30, 2002. The interim financial statements and notes thereto should be read in conjunction with the financial statements and notes thereto incorporated by reference in the Company's Form 10-K as of and for the year ended June 30, 2002, as filed with the Securities and Exchange Commission.

(2) Description of Business

The Company was incorporated in the Commonwealth of Virginia on July 13, 1993 and is a closed-end investment company licensed by the Small Business Administration (the SBA) as a Small Business Investment Corporation (SBIC). The Company makes equity investments in, and provides loans to, small business concerns to finance their growth, expansion and development. Under applicable SBA regulations, the Company is restricted to investing only in qualified small business concerns as contemplated by the Small Business Investment Act of 1958.

(3) Investments

Investments are carried at fair value, as determined by the Executive Committee of the Board of Directors. The Company, through its Board of Directors, has adopted the Model Valuation Policy, as published by the SBA, in Appendix III to Part 107 of Title 12 of the Code of Federal Regulations (the Policy). The Policy, among other things, presumes that loans and investments are acquired with the intent that they are to be held until maturity or disposed of in the ordinary course of business. Except for interest-bearing securities which are convertible into common stock, interest-bearing securities are valued at an amount not greater than cost, with unrealized depreciation being recognized when value is impaired. Equity securities of private companies are presumed to represent cost unless the performance of the portfolio company, positive or negative, indicates otherwise in accordance with the Policy

WATERSIDE CAPITAL CORPORATION

Notes to Unaudited Financial Statements

September 30, 2002

guidelines. The fair value of equity securities of publicly traded companies are generally valued at their quoted market price discounted due to the investment size or market liquidity concerns and for the effect of restrictions on the sale of such securities.

Discounts can range from 0% to 40% for investment size and market liquidity concerns. Actual liquidity discounts in the portfolio at September 30, 2002 ranged from 15% to 40%. Discounts for restriction on the sale of the investments are 15% in accordance with the provisions of the Policy. The Company maintains custody of its investments as permitted by the Investment Company Act of 1940.

Investments consist primarily of preferred stock and debt securities obtained from portfolio companies in accordance with SBIC investment regulations. The financial statements include securities valued at \$27,646,823 and \$27,021,386 at June 30, 2002 and September 30, 2002 (78.8% and 77.0% of assets), respectively. The valuation process completed by management includes estimates made by management and the Executive Committee in the absence of readily ascertainable market values. These estimated values may differ significantly from the values that would have been used had a ready market for the securities existed, and those differences could be material.

(4) Settlement of Investee Litigation

Litigation involving two former investees was settled during the three month period ended September 30, 2002, and the Company was awarded \$1,418,268 in connection with the settlements. Of this amount, \$935,018 was considered to be a recovery of expenses related to this litigation and is reflected as a component of operating income net of the expenses incurred this quarter. The remaining \$483,250 was considered to be a recovery of the investment and is reflected as a component of the realized loss on the investment.

WATERSIDE CAPITAL CORPORATION

ITEM 2

MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

General

Waterside Capital Corporation (Waterside or the Company) is a specialty finance company located in Norfolk, Virginia. The Company invests in equity and debt securities to finance the growth, expansion and modernization of small private businesses, primarily in the Mid-Atlantic Region. The Company was formed in 1993 as the Eastern Virginia Small Business Investment Corporation. Through June 30, 1996, the Company operated as a development stage company focused primarily on preparation to commence operation. The Company was licensed in 1996 by the Small Business Administration (SBA) as a Small Business Investment Company (SBIC) under the Small Business Investment Act of 1958. In October 1996 the Company made its first portfolio investment. In January 1998 the Company completed its Initial Public Offering (IPO) to raise additional equity to support its growth strategy.

The majority of the Company's operating income is derived from dividend and interest income on portfolio investments and application and processing fees related to investment originations. The remaining portion of the Company's operating income comes from interest earned on cash equivalents. The Company's operating expenses primarily consist of interest expense on borrowings and payroll and other expenses incidental to operations. Waterside currently has 6 full time employees.

Results of Operations

Comparison of Three Months Ended September 30, 2002 and September 30, 2001

For the three months ended September 30, 2002, total operating income was \$861,000 compared to \$1,182,000 reported during the same period of 2001, a decrease of \$321,000 or 27.2%. The decrease in operating income is due to a combination of the following:

Managements decision to discontinue the accrual of dividend and interest income on an increased number of investments due to the uncertainty of collection of the income

Redemption or repayment of a number of performing investments resulting in the reduction in rates earned on the investment of the Company's assets from approximately 12% to the current rates earned on temporary cash equivalent investments of approximately 1.5%.

The Company's cash position increased from \$1.4 million at September 30, 2001 to \$4.5 million at September 30, 2002 due to the redemptions and repayments.

Fee income for the three months ended September 30, 2001 included a late fee of \$75,000 on a delinquent investment that was earned during the quarter.

The Company's quarterly operating income for the three months ended September 30, 2002 consisted of dividends of \$498,000, interest on debt securities of \$347,000, interest on cash equivalents of \$12,000 and fee and other income of \$3,000. For the comparable period of 2001 quarterly operating income consisted of dividends of \$601,000, interest on debt securities of \$406,000, interest on cash equivalents of \$8,000 and fee income of \$168,000.

Total operating expenses were \$849,000 for the three months ended September 30, 2002, which is consistent with the \$840,000 reported for the three months ended September 30, 2001. Total operating expenses for the three months ended September 30, 2002 consisted of interest expense of \$528,000, salaries and benefits of \$190,000, legal and accounting expenses of \$57,000 and other operating expenses of \$74,000. For the three months ended September 30, 2001 total operating expenses consisted of interest expense of \$523,000, salaries and benefits of \$193,000, legal and accounting expenses of \$44,000 and other operating expenses of \$79,000.

During the quarter ended September 30, 2002, litigation involving two former investees was settled for \$1,418,000. As a result, a recovery of \$615,000 of legal and other expenses associated with the litigation, net of expenses incurred in the first quarter of 2003 was recorded in net operating income during the quarter.

The Company's net operating income was \$627,000 for the three month ended September 30, 2002 compared to \$418,000 reported for the three months ended September 30, 2001.

During the quarter ended December 31, 2001, the Company ceased recognizing deferred tax benefits associated with the generation of net operating losses from operations and its realized losses because management could no longer conclude that it is more likely than not that those benefits could be realized. Because the Company operates as a licensed SBIC, its dividend income is not taxable. As a result, it is unlikely that the Company will generate taxable income from operations in the foreseeable future. Unless the Company is able to generate significant realized gains on sales of investments, the benefits of tax losses from operations and any realized losses from settlement of investments are not likely to be realized. As a result, the Company has provided a valuation allowance against its deferred tax asset to reflect an amount that is more likely than not to be realized.

The realized losses on investments recognized during the quarter ended September 30, 2002 were due to the realization of the previously recorded unrealized losses on two investments related to the litigation settled during the first quarter of 2003. The losses consisted of \$1,480,000 related to the Capital Markets Group, Inc. investment and \$1,040,000 related to the National Assisted Living investment. The realized loss on investments, net of income tax benefit, of \$1,095,000 for the three months ended September 30, 2001 was primarily due to the realization of the previously recorded unrealized loss related to Tangent Solutions, Inc. (Formerly named Electronic Business Systems, Inc and Triangle Imaging Group, Inc.) The realization was due to a bankruptcy ruling.

The change in unrealized appreciation on investments of \$2,352,000 for the three months ended September 30, 2002 was due to a combination of the reversal of unrealized depreciation related to the previously mentioned realized loss of the Capital Markets Group, Inc. investment and the National Assisted Living investment. The Company additionally recognized unrealized losses of \$652,000 due to the revaluation of stock warrants held in ISR Solutions, Inc. The change in unrealized appreciation on investments, net of taxes, of \$1,331,000 for the three months ended September 30, 2001 was due to a combination of the reversal of unrealized depreciation related to the Tangent Solutions, Inc. realized loss and the recognition of \$540,000 of unrealized appreciation related to the Netplex Group, Inc investment.

The net increase in stockholders' equity resulting from operations of \$459,000 or \$.29 per share for the three months ended September 30, 2002, compared to an increase of \$655,000 or \$.41 per share, for the comparable three months ended September 30, 2001 is due to the items noted above.

Financial Condition, Liquidity And Capital Resources

At September 30, 2002, the Company's investment portfolio totaled \$27.0 million compared with the \$27.6 million reported at June 30, 2002. For the three months ended September 30, 2002, the Company funded no new investments and received payments and proceeds from sales of investments of \$72,000. For the comparable three months ended September 30, 2001, the Company funded \$280,000 in new investments and received proceeds of \$1,014,000 from sales of investments and principal collected on debt securities.

Net asset value per common share increased to \$5.82 per share at September 30, 2002, from \$5.52 per share reported at June 30, 2002.

During the three months ended September 30, 2002, the net cash used in operating activities was \$1,028,000 compared to the \$358,000 used during the three months ended September 30, 2001. This increase in cash used in operating activities is due to the decline in dividend and interest income as a result of the increased number of non-performing investments and the redemption or repayment of some performing investments. In addition, during the

three months ended September 30, 2002, the Company incurred and paid certain legal and other expenses related to the litigation involving two former investees but the Company did not receive settlement proceeds from this litigation until after September 30, 2002. The net cash provided by investing activities was \$72,000 for the three months ended September 30, 2002 as compared to the \$674,000 provided during three months ended September 30, 2001. This fluctuation is primarily due to proceeds from the sale of investments and principal collected on debt securities of \$1,014,000, partially offset by new investments made of \$280,000 during the three months ended September 30, 2001 compared to proceeds from the sale of investments and principal collected on debt securities of \$72,000 and no investments made during the three months ended September 30, 2002. There were no cash flows provided by financing activities for the three months ending September 30, 2002 or 2001.

Quantitative and Qualitative Disclosure About Market Risk

The Company's business activities contain elements of risk. The Company considers the principal types of market risk to be: risk of lending and investing in small privately owned companies, valuation risk of portfolio, risk of illiquidity of portfolio investments and the competitive market for investment opportunities. The Company considers the management of risk essential to conducting its business and to maintaining profitability. Accordingly, the Company's risk management systems and procedures are designed to identify and analyze the Company's risks, to set appropriate policies and limits and to continually monitor these risks and limits by means of reliable administrative and information systems and other policies and programs.

The Company manages its market risk by maintaining a portfolio of equity interests that is diverse by industry, geographic area, size of individual investment and borrower. The Company is exposed to a degree of risk of public market price fluctuations as three of the Company's twenty-five investments are in thinly traded, small public companies, whose stock prices have been volatile. The other twenty-two investments are in private business enterprises. Since there is typically no public market for the equity interests of the small companies in which the Company invests, the valuation of the equity interests in the Company's portfolio of private business enterprises is subject to the estimate of the Company's Executive Committee. In the absence of a readily ascertainable market value, the estimated value of the Company's portfolio of equity interests may differ significantly from the values that would be placed on the portfolio if a ready market for the equity interests existed. Any changes in estimated value are recorded in the Company's statement of operations as Change in unrealized appreciation (depreciation) on investments. Each hypothetical 1% increase or decrease in value of the Company's portfolio of equity securities of \$27.0 million at September 30, 2002 would have resulted in unrealized gains or losses and would have changed net increase in stockholders' equity resulting from operations for the quarter by \$270,000.

The Company's sensitivity to changes in interest rates is regularly monitored and analyzed by measuring the characteristics of assets and liabilities. The Company utilizes various methods to assess interest rate risk in terms of the potential effect of interest income net of interest expense, the market value of net assets and the value at risk in an effort to ensure that the Company is insulated from any significant adverse effects from changes in interest rates. Based on the model used for the sensitivity of interest income net of interest expense, if the balance sheet were to remain constant and no actions were taken to alter the existing interest rate sensitivity, a hypothetical immediate 100 basis point change in interest rates would have affected net increase in stockholders' equity resulting from operations negligibly over a three-month horizon. Although management believes that this measure is indicative of the Company's sensitivity to interest rate changes, it does not adjust for potential changes in credit quality, size and composition of the balance sheet and other business developments that could affect operating results. Accordingly, no assurances can be given that actual results would not differ materially from the potential outcome simulated by this estimate.

Forward-Looking Statements

Included in this report and other written and oral information by management from time to time, including reports to shareholders, quarterly and semi-annual shareholder letters, filings with the Commission, news releases and investor presentations, are forward-looking statements about business objectives and strategies, market potential, the Company's ability to expand the geographic scope of its investments, the quality of the Company's due diligence

efforts, its financing plans, its vendors, suppliers, and portfolio companies, future financial performance and other matters that reflect management's expectations as of the date made.

Except for historical information, all of the statements, expectations and assumptions contained in the foregoing are forward-looking statements (within the meaning of the Private Securities Litigation Reform Act of 1995) that involve a number of risks and uncertainties. It is possible that the assumptions made by management including, but not limited to, the average maturity of our investments, the potential to realize investment gains as these investments mature, investment opportunities, results, performance or expectations may not materialize. Actual results may differ materially from those projected or implied in any forward-looking statements. In addition to the above factors, other important factors that may affect the company's performance include: the risks associated with the performance of the Company's portfolio companies, dependencies on key employees, interest rates, the level of economic activity, and competition, as well as other risks described from time to time in the Company's filings with the Securities Exchange Commission, press releases, and other communications. The Company disclaims any intent or obligation to update these forward-looking statements, whether as a result of new information, future events, or otherwise.

Item 4. Controls Procedures

(a) Within the 90-day period prior to the date of this report, the Company carried out an evaluation, under the supervision and with the participation of the Company's management, including the Company's Chief Executive Officer and Chief Financial Officer, of the effectiveness of the design and operation of the Company's disclosure controls and procedures pursuant to Rule 13a-14 of the Securities Exchange Act of 1934, as amended (the Exchange Act). Based upon the evaluation, the Chief Executive Officer and Chief Financial Officer concluded that the Company's disclosure controls and procedures are effective in timely alerting them to material information relating to the Company required to be included in the Company's Exchange Act filings.

(b) There have been no significant changes in the Company's internal controls or in other factors which could significantly affect its internal controls subsequent to the date the Company carried out its evaluation.

PART II. OTHER INFORMATION:

ITEM 1. LEGAL PROCEEDINGS

The Company is not a party to any material legal proceedings.

ITEM 2. CHANGES IN SECURITIES AND USE OF PROCEEDS

Not Applicable.

ITEM 3. DEFAULT UPON SENIOR SECURITIES

Not Applicable.

ITEM 4. SUBMISSION OF MATTERS TO A VOTE OF SECURITY HOLDERS

None.

ITEM 5. OTHER INFORMATION

None.

ITEM 6. EXHIBITS AND REPORTS ON FORM 8-K

None.

SIGNATURES

Pursuant to the requirements of the Securities Exchange Act of 1934, the Company has duly caused this Form 10-Q to be signed on its behalf by the undersigned, thereunto duly authorized, in the City of Norfolk, Commonwealth of Virginia on the 13th day of November 2002.
