Accordingly, the condensed consolidated financial statements do not include information and footnotes required by generally accepted accounting principles. MANAGEMENT DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

GENERAL

NINE MONTHS ENDED SEPTEMBER 30, 2002 AND SEPTEMBER 30, 2001

Revenues for the first nine months of 2002 were \$7,858,000, representing an increase of \$3,981,000 (103%) from the \$3,877,000 reported for the nine month period ending September 30, 2001. The Company initiated the following sales and marketing programs that have significantly boosted revenue and profits: Continued success of the Physicians Lifestyles Program supported by the Company's teleweb programs, introductory sales of the Company's Medifast Plus for Diabetics to physicians and patients, the Company's robust and aggressive advertising program in National print magazines and newspapers such as Parade, and the continued success of the Take Shape for Life Health Network. Cost of sales for the first three quarters of 2002 increased by \$959,000 (59%) from 2001. Gross profit for the first three quarters of 2002 increased by \$3,022,000 (135%) from 2001 due to sales of higher margin products, such as Medifast Plus for Diabetics. Selling, general and administrative expenses for the first three quarters of 2002 of \$3,512,000 increased by \$1,954,000 (125%) over the same period of 2001. This was a result of increased advertising, customer service improvements, expansion, and infrastructure costs. Despite the increase, the Company maintained overall better cost controls.

The net profit from operations for the first nine months of 2002 was \$1,753,000, which is \$1,068,000 (156%) greater than the same period last year. The operating profit is attributable primarily to an Internet-focused teleweb sales and marketing strategy and higher margin new product and programs sales. Increased sales via Medifast Direct(R), Take Shape Health Advisors, and the Internet to medical practitioners and their patients significantly improved margins to 65%. The income before provision for income taxes for the nine month period was \$1,522,000, which is \$955,000 more than the \$567,000 profit for the first three quarters of 2001. Management significantly improved the balance sheet and the Company's profitability by paying off its short term debt, its Series "A" Preferred stockholders, purchasing its building and grounds and restructuring the long term debt on more favorable terms. Interest expense was \$80,000 during the nine month period ending September 30, 2002 as compared to \$160,000 for the same period in 2001. Current interest expense was stabilized, increasing cash flow and thereby reducing the need to increase borrowing. The Company has deferred patent development costs of \$125,000, which includes the Johns Hopkins Clinical Study and development costs of the patent pending "Medifast Plus(R) for Diabetics" product line. The Johns Hopkins Clinical Study is a two year clinical trial study led by Dr. Larry Cheskin to further evaluate the disease and weight management capabilities of Medifast Plus for Diabetics. This product line has received the Seal of Approval from the National Glycemic Research Institute for many of its products. The valuation allowance against income tax benefits to be realized from net operating loss carry forwards was reduced by \$957,000 during the first nine months of 2002 because the Company's operating results exceeded previous estimations.

Edgar Filing: MEDIFAST INC - Form 10QSB

THREE MONTHS ENDED SEPTEMBER 30, 2002 AND SEPTEMBER 30, 2001

Third quarter revenues for 2002 of \$3,058,000 increased by \$1,837,000 (150%) from \$1,221,000 for the three month period ended September 30, 2001. Cost of sales for the period was \$961,000, an increase of \$527,000 (121%) from \$434,000 during the same period of 2001. Gross profits of \$2,097,000 for the third quarter of 2002 increased by \$1,310,000 (166%) from \$787,000 in the third quarter of 2001. During the quarter the Company experienced a profit from operations of \$774,000 compared to a profit of \$163,000 for the third quarter of 2001. The income before provision for income taxes for the third quarter of 2002 was \$734,000 compared to a net profit of \$134,000 in the third quarter of 2001. A provision for income tax benefits of \$809,000 was recognized in the third quarter of 2002 due to the reduction in the valuation allowance against benefits to be realized from net operating loss carry forwards. This benefit arose because the Company's operating results exceeded those previously estimated.

SEASONALITY

The Company's weight management products and programs are subject to seasonality. Traditionally the holiday season in November/December of each year is considered poor for diet control products and services. January and February generally show increases in sales, as these months are considered the commencement of the "diet season."

LIQUIDITY AND CAPITAL RESOURCES

The Company was successful in refinancing its lines of credit as follows:

- o On July 26, 2002 Jason Pharmaceuticals purchased Seven Crondall Associates, a Maryland Limited Liability Corporation which owns the assets of the building and grounds of 11445 Cronhill Drive, Owings Mills, Maryland. The building is an FDA approved manufacturing facility. Medifast purchased the LLC company for Three Million Four Hundred Thousand Dollars (\$3,400,000). The loan for \$2,850,000 has a 15-year maturity and carries an interest rate of LIBOR plus 275 basis points.
- o On July 26, 2002 Jason Pharmaceuticals opened a \$550,000 revolving line of credit at the Prime rate, with Mercantile-Safe Deposit and Trust Company.

The purchase of the manufacturing facility and the new revolving credit line gives the Company the necessary financing to fund its growth and business plan while securing its future in a state of the art food and pharmaceutical grade manufacturing facility.

8

- o On September 1, 2002, the Company announced the implementation of Take Shape for Life, Inc., a Delaware Corporation, which is a wholly owned subsidiary of Medifast, Inc. This is a dynamic health network and marketing program that is dedicated to providing disease and weight management solutions through certified and trained health advisors and professionals across the United States. Management anticipates that this program should double in size over the next twelve to eighteen months given that new physicians and health advisors are enrolled from the Company's efforts and its database, which already contains over 15,000 medical professionals. Based on historical trends, management estimates that approximately 15% of the physicians and health advisors will be converted into the health

Edgar Filing: MEDIFAST INC - Form 10QSB

network. This program currently has 40 physicians and 200 certified and trained health advisors. Dr. Wayne Anderson, Medical Director, Richard Logsdail, President and Daniel Bell, Executive Vice President, are the Executive Team recently hired to operate this subsidiary.

- o The Company has recently formed Jason Properties, LLC, a Delaware Limited Liability Corporation which is a wholly owned subsidiary of Medifast, Inc. Jason Properties, LLC., introduced the implementation of the MEDSLIM(R)Program, which allows licensing opportunities for its medically prescribed weight control program. Since 1980, the Company estimates that over 15,000 physicians nationwide have used Medifast as a treatment for their overweight patients and that an estimated 750,000 patients have used its products to lose and maintain their weight. The new MEDSLIM(R)Program has already signed up two functioning clinics during the fourth quarter of 2002. The Company anticipates that over the next two years at least 100 clinics across the country will be fully engaged. The program offers a competitive marketing edge through a regional advertising program providing exclusive territories, marketing support, and web-based patient referrals
- o On July 26, 2002 Jason Properties, LLC., a wholly owned subsidiary, purchased the intellectual property of Jason Pharmaceuticals, Inc., which consists of the Medifast, Inc., Trademarks and Patents. The Company will also import health related items from the Far East to support its weight management business.
- o On September 23, 2002, the Company announced a joint venture with Elegant World SDN BHD (Elken) of Indonesia. The venture calls for Medifast, Inc. to manufacture its Take Shape(R) weight management products and programs for the Asian market. Medifast Take Shape products were selected in the four-year U.S. government National Institute of Health (Doctor Koop Study) weight management study at the University of Vermont, and achieved significant weight loss results. The Company has received large orders for the Take Shape(R) product that will be shipped in the next six months, and anticipates continuous orders in the upcoming quarters, supporting their efforts to launch this clinical product in Asia.

The Company had working capital of \$2,041,000 on September 30, 2002 compared with \$1,501,000 at December 31, 2001. The \$540,000 net increase reflects the profits in the first, second and third quarters from operations. The Company has sufficient cash flow from operations to fund its current business plan.

9

INFLATION

To date, inflation has not had a material effect on the Company's business.
