Asset coverage per \$1,000 of debt outstanding at end of period	\$3,805	\$3,743	\$3,379

(1) Ratios and portfolio turnover have been annualized and total return has not been annualized.

(2) Total investment return is calculated assuming a purchase of common stock on the opening of the first day and a sale on the closing of the last day of each period reported. Dividends and distributions, if any, are assumed for the purpose of this calculation, to be reinvested at prices obtained under the Fund's dividend reinvestment plan. Generally, total investment return based on net asset value will be higher than total investment return based on market value in periods where there is an increase in the discount or decrease in the premium of the market value to the net asset value from the beginning to the end of such periods. Conversely, total investment return based on net asset value will be lower than total investment return based on market value in periods where there is a decrease in the discount or an increase in the premium of the market value to the net asset value from the beginning to the end of such periods.

(3) Adjusted average net assets excludes debt outstanding.

Edgar Filing: DELAWARE INVESTMENTS DIVIDEND & INCOME FUND INC - Form N-CSR

- (4) As required, effective December 1, 2001, the Fund adopted the provisions of the AICPA Audit and Accounting Guide for Investment Companies that requires amortization of all premium and discounts on debt securities. The effect of this change for the year ended November 30, 2002 was a decrease in net investment income per share of \$0.025, an increase in net realized and unrealized gain (loss) per share of \$0.025, a decrease in the ratio of net investment income to average net assets of 0.22%, and a decrease in the ratio of net investment income to adjusted net assets of 0.16%. Per share data and ratios for the periods prior to December 1, 2001 have not been restated to reflect this change in accounting.
- (5) The average shares outstanding method has been applied for per share information.
- (6) See Note 4 in "Notes to Financial Statements."

See accompanying notes

9

NOTES TO FINANCIAL STATEMENTS

DELAWARE INVESTMENTS DIVIDEND AND INCOME FUND, INC.
May 31, 2004 (Unaudited)

Delaware Investments Dividend and Income Fund, Inc. (the "Fund") is organized as a Maryland corporation and is a diversified closed-end management investment company under the Investment Company Act of 1940, as amended. The Fund's shares trade on the New York Stock Exchange under the symbol DDF.

The investment objective of the Fund is to seek high current income. Capital appreciation is a secondary objective.

1. SIGNIFICANT ACCOUNTING POLICIES

The following accounting policies are in accordance with U.S. generally accepted accounting principles and are consistently followed by the Fund.

Security Valuation -- Equity securities, except those traded on the Nasdaq Stock Market, Inc. (NASDAQ), are valued at the last quoted sales price as of the time of the regular close of the New York Stock Exchange (NYSE) on the valuation date. Securities traded on the NASDAQ are valued in accordance with the NASDAQ Official Closing Price, which may not be the last sales price. If on a particular day an equity security does not trade, then the mean between the bid and the asked prices will be used. U.S. government and agency securities are valued at the mean between the bid and asked prices. Long-term debt securities are valued by an independent pricing service and such prices are believed to reflect the fair value of such securities. Short-term debt securities having less than 60 days to maturity are valued at amortized cost, which approximates market value. Other securities and assets for which market quotations are not readily available are valued at fair value as determined in good faith under the direction of the Fund's Board of Directors. In determining whether market quotations are readily available or fair valuation will be used, various factors will be taken into consideration, such as market closures, or with respect to foreign securities, aftermarket trading or significant events after local market trading (e.g., government actions or pronouncements, trading volume or volatility on markets, exchanges among dealers, or news events).

Federal Income Taxes -- The Fund intends to continue to qualify for federal income tax purposes as a regulated investment company and make the requisite distributions to shareholders. Accordingly, no provision for federal income taxes has been made in the financial statements.

Edgar Filing: DELAWARE INVESTMENTS DIVIDEND & INCOME FUND INC - Form N-CSR

Distributions -- The Fund has a managed distribution policy. Under the policy, the Fund declares and pays monthly distributions and is managed with a goal of generating as much of the distribution as possible from ordinary income (net investment income and short-term capital gains). The balance of the distribution then comes from long-term capital gains and if necessary, a return of capital. The current annualized rate is \$0.96 per share. The Fund continues to evaluate its monthly distribution in light of ongoing economic and market conditions and may change the amount of the monthly distributions in the future.

Borrowings -- The Fund issues short-term commercial paper at a discount from par. The discount is amortized as interest expense over the life of the commercial paper using the straight-line method (See Note 6).

Use of Estimates -- The preparation of financial statements in conformity with U.S. generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Other -- Expenses common to all funds within the Delaware Investments Family of Funds are allocated amongst the funds on the basis of average net assets. Management fees and other expenses are paid monthly. Security transactions are recorded on the date the securities are purchased or sold (trade date). Costs used in calculating realized gains and losses on the sale of investment

securities are those of the specific securities sold. Dividend income is recorded on the ex-dividend date and interest income is recorded on the accrual basis. Discounts and premiums are amortized to interest income over the lives of the respective securities. Distributions received from investments in Real Estate Investment Trusts are recorded as dividend income on ex-dividend date, subject to reclassification upon notice of the character of such distribution by the issuer.

Through March 31, 2004 certain expenses of the Fund were paid through commission arrangements with brokers. The amount of these expenses was approximately \$1,266 for the six months ended May 31, 2004. The expense paid under the above arrangement is included in "other" on the Statement of Operations with the corresponding expense offset shown as "expenses paid indirectly."

2. INVESTMENT MANAGEMENT, ADMINISTRATION AGREEMENTS AND OTHER TRANSACTIONS WITH AFFILIATES

In accordance with the terms of its investment management agreement, the Fund pays Delaware Management Company (DMC), a series of Delaware Management Business Trust and the investment manager, an annual fee of 0.55%, which is calculated daily based on the adjusted average weekly net assets.

The Fund has engaged Delaware Service Company, Inc. (DSC), an affiliate of DMC, to provide accounting and administration services. The Fund pays DSC a monthly fee computed at the annual rate of 0.05% of the Fund's adjusted average weekly net assets, subject to an annual minimum of \$85,000.

For purposes of the calculation of investment management fees and administration fees, adjusted average weekly net assets does not include the commercial paper liability.

At May 31, 2004, the Fund had liabilities payable to affiliates as follows:

Edgar Filing: DELAWARE INVESTMENTS DIVIDEND & INCOME FUND INC - Form N-CSR

Investment management fee payable to DMC	\$93,938
Accounting and administration fees and other expenses payable to DSC	47,795
Other expense payable to DMC and affiliates*	6,461

*DMC, as part of its administration services, pays operating expenses on behalf of the Fund and is reimbursed on a periodic basis. Such expenses include items such as printing of shareholder reports, fees for audit, legal and tax services, stock exchange fees, custodian fees and directors fees.

As provided in the investment management agreement, the Fund bears the cost of certain legal services expenses, including in house legal services provided to the Fund by DMC employees. For the six months ended May 31, 2004, the Fund had costs of \$5,104.

Certain officers of DMC and DSC are officers and/or directors the Fund. These officers and directors are paid no compensation by the Fund.

3. INVESTMENTS

For the six months ended May 31, 2004, the Fund made purchases of \$103,477,139 and sales of \$109,420,798 of investment securities other than U.S. government securities and short-term investments.

At May 31, 2004, the cost of investments for federal income tax purposes has been estimated since the final tax characteristics cannot be determined until fiscal year end. At May 31, 2004, the cost of investments was \$190,038,925. At May 31, 2004, the net unrealized appreciation was \$20,036,967, of which \$27,634,358 related to unrealized appreciation of investments and \$7,597,391 related to unrealized depreciation of investments.

NOTES TO FINANCIAL STATEMENTS (CONTINUED)

4. DIVIDEND AND DISTRIBUTION INFORMATION

Income and long-term capital gain distributions are determined in accordance with federal income tax regulations, which may differ from U.S. generally accepted accounting principles. The tax character of dividends and distributions paid during the six months ended May 31, 2004 and year ended November 30, 2003 were as follows:

	Six Months Ended 5/31/04*	Year Ended 11/30/03
	-----	-----
Ordinary income	\$3,979,884	\$9,189,360
Return of capital	2,201,123	5,490,473
	-----	-----
Total	\$6,181,007	\$14,679,833
	=====	=====

*Tax information for the six months ended May 31, 2004 is an estimate and the tax character of dividends and distributions may be redesignated at fiscal year end.

The components of net assets for federal income tax purposes are estimated since final tax characteristics cannot be determined until fiscal year end. As of May 31, 2004, the estimated components of net assets on a tax basis were as follows:

Edgar Filing: DELAWARE INVESTMENTS DIVIDEND & INCOME FUND INC - Form N-CSR

Shares of beneficial interest	\$153,248,420
Capital loss carryforwards	(19,365,503)
Unrealized appreciation of investments	20,036,967

Net assets	\$153,919,884
	=====

The differences between book basis and tax basis components of net assets are primarily attributable to tax deferral of losses on wash sales and tax treatment of market discount and premium on debt instruments.

For financial reporting purposes, capital accounts and distributions to shareholders are adjusted to reflect the tax character of book/tax differences. For the six months ended May 31, 2004, the Fund recorded an estimate of these differences since the final tax characteristics cannot be determined until fiscal year end. Reclassifications are primarily due to tax treatment of gain (loss) on foreign currency transactions and market discount and premium on certain debt instruments. Results of operations and net assets were not affected by these reclassifications.

Undistributed net investment income	\$2,463,789
Accumulated realized gain (loss)	(262,667)
Paid in capital	(2,201,122)

At November 30, 2003, for federal income tax purposes, the Fund had capital loss carryforwards of \$24,106,870 which may be carried forward and applied against future capital gains. Such capital loss carryforwards expire as follows: \$6,557,294 expires in 2009, \$15,759,675 expires in 2010 and \$1,789,901 expires in 2011.

For the six months ended May 31, 2004, the Fund had capital gains of \$4,741,367, which may be offset by the capital loss carryforwards.

5. CAPITAL STOCK

The Fund did not have any transactions in common shares during the six months ended May 31, 2004.

Shares issuable under the Fund's dividend reinvestment plan are purchased by the Fund's transfer agent, Mellon Investor Services, LLC, in the open market.

6. COMMERCIAL PAPER

As of May 31, 2004, \$55,000,000 (par value) of commercial paper was outstanding with an amortized cost of \$54,883,034. The weighted average discount rate of commercial paper outstanding at May 31, 2004, was 1.16%. The average daily balance of commercial paper outstanding during the six months ended May 31, 2004, was \$54,901,101 at a weighted discount rate of 1.16%. The maximum amount of commercial paper outstanding at any time during the six months was \$55,000,000. In conjunction with the issuance of the commercial paper, the Fund entered into a line of credit arrangement with J.P. Morgan Chase for \$30,000,000 with a scheduled termination date of January 6, 2005. Interest on borrowings is based on market rates in effect at the time of borrowing. The commitment fee is computed at the rate of 0.15% per annum on the unused balance. For the six months ended May 31, 2004, the Fund was charged a commitment fee of \$22,875, which is included in "commercial paper fees" on the Statement of Operations. During the six months ended May 31, 2004, there were no borrowings under this arrangement.

7. SECURITIES LENDING

The Fund, along with other funds in the Delaware Investments Family of Funds,

Edgar Filing: DELAWARE INVESTMENTS DIVIDEND & INCOME FUND INC - Form N-CSR

may lend its securities pursuant to a security lending agreement (Lending Agreement) with J.P. Morgan Chase. Initial security loans made pursuant to the Lending Agreement are required to be secured by U.S. government obligations and/or cash collateral not less than 102% of the market value of the securities issued in the United States. With respect to each loan, if the aggregate market value of the collateral held on any business day is less than the aggregate market value of the securities which are the subject of such loan, the borrower will be notified to provide additional collateral not less than the applicable collateral requirements. Cash collateral received is invested in fixed-income securities, with a weighted average maturity not to exceed 90 days, rated in one of the top two tiers by Standard & Poor's Ratings Group or Moody's Investors Service, Inc. or repurchase agreements collateralized by such securities. However, in the event of default or bankruptcy by the lending agent, realization and/or retention of the collateral may be subject to legal proceedings. In the event the borrower fails to return loaned securities and the collateral received is insufficient to cover the value of the loaned securities and provided such collateral shortfall is not the result of investment losses, the lending agent has agreed to pay the amount of the shortfall to the Fund, or at the discretion of the lending agent, replace the loaned securities. The Fund continues to record dividends on the securities loaned and is subject to change in fair value of the securities loaned that may occur during the term of the loan. The Fund has the right under the Lending Agreement to recover the securities from the borrower on demand. The security lending agent and the borrower retain a portion of the earnings from the collateral investments. The Funds records security lending income net of such allocation.

At May 31, 2004, the market value of securities on loan was \$28,232,652 for which the Fund received securities collateral, comprised of U.S. government obligations valued at \$8,834,651 and cash collateral of \$19,904,843. Investments purchased with the cash collateral are presented on the Statement of Net Assets under the caption "Securities Lending Collateral."

NOTES

TO FINANCIAL STATEMENTS (CONTINUED)

DELAWARE INVESTMENTS DIVIDEND AND INCOME FUND, INC.

8. CREDIT AND MARKET RISKS

The Fund invests in high-yield fixed income securities, which carry ratings of BB or lower by Standard & Poor's Ratings Group and Ba or lower by Moody's Investors Service, Inc. Investments in these higher yielding securities are generally accompanied by a greater degree of credit risk than higher rated securities. Additionally, lower rated securities may be more susceptible to adverse economic and competitive industry conditions than investment grade securities.

The Fund may invest up to 10% of its total assets in illiquid securities, which may include securities with contractual restrictions on resale, securities exempt from registration under Rule 144A of the Securities Act of 1933, as amended, and other securities which may not be readily marketable. The relative illiquidity of these securities may impair the Fund from disposing of them in a timely manner and at a fair price when it is necessary or desirable to do so.

The Fund invests in real estate investment trusts (REITs) and is subject to some of the risks associated with that industry. If the Fund holds real estate directly as a result of defaults or receives rental income directly from real

Edgar Filing: DELAWARE INVESTMENTS DIVIDEND & INCOME FUND INC - Form N-CSR

estate holdings, its tax status as a regulated investment company may be jeopardized. There were no direct holdings during the six months ended May 31, 2004. The Fund's REIT holdings are also affected by interest rate changes, particularly if the REITs it holds use floating rate debt to finance their ongoing operations.

9. CONTRACTUAL OBLIGATIONS

The Fund enters into contracts in the normal course of business that contain a variety of indemnifications. The Fund's maximum exposure under these arrangements is unknown. However, the Fund has not had prior claims or losses pursuant to these contracts. Management has reviewed the Fund's existing contracts and expects the risk of loss to be remote.

This semiannual report is for the information of Delaware Investments Dividend and Income Fund, Inc. shareholders. The figures in this report represent past results which are not a guarantee of future results. The return and principal value of an investment in the Fund will fluctuate so that shares, when sold, may be worth more or less than their original cost.

Notice is hereby given in accordance with Section 23(c) of the Investment Company Act of 1940 that the Fund may, from time to time, purchase shares of its Common Stock on the open market at market prices.
