(To Prospectus dated March 4, 2010)**

Resales of

2,092,022 Shares

Common Stock

Prospect Capital Corporation is a financial services company that lends to and invests in middle market, privately-held companies. We are organized as an externally-managed, non-diversified closed-end management investment company that has elected to be treated as a business development company under the Investment Company Act of 1940. Prospect Capital Management LLC manages our investments, and Prospect Administration LLC provides the administrative services necessary for us to operate.

On September 24, 2009, we issued 2,807,111 shares at \$9.00 per share in a private stock offering. Concurrent with the sale of these shares, we entered into a registration rights agreement (**Registration Rights Agreement**) in which we granted the purchasers certain registration rights with respect to these shares. Pursuant to the Registration Rights Agreement, certain selling stockholders (the **selling stockholders**) may offer the shares of our common stock purchased in such private transaction from time to time. The sale by selling stockholders of these shares may depress the current market price of our shares. See **Selling Stockholders** and **Plan of Distribution** in this prospectus supplement.

This prospectus supplement relates to the offer and sale from time to time by the selling stockholders identified in this prospectus supplement of up to 2,092,022 shares of our common stock. The selling stockholders will receive all of the proceeds from any sales of common stock offered pursuant to this prospectus supplement. The selling stockholders may sell the common stock at various times and in various types of transactions, including, but not limited to, sales in the open market, sales in negotiated transactions and sales by a combination of these methods. See **Plan of Distribution** in this prospectus supplement.

At our annual meeting of stockholders held on December 11, 2009, our stockholders approved our ability to sell an unlimited number of shares of our common stock at any level of discount from net asset value per share during the twelve month period following such approval. Sales of common stock at prices below net asset value per share dilute the interests of existing stockholders, have the effect of reducing our net asset value per share and may reduce our market price per share. See **Risk Factors** beginning on page S-6 and **Sales of Common Stock Below Net Asset Value** beginning on page S-13 of this prospectus supplement and on page 87 of the accompanying prospectus.

Our common stock is traded on the NASDAQ Global Select Market under the symbol **PSEC**. The last reported closing sales price for our common stock on March 5, 2010 was \$12.10 per share and our most recently determined net asset value per share was \$10.06 as of December 31, 2009 (\$10.07 on an as adjusted basis solely to give effect to our issuances of common stock on January 25, 2010 in connection with our dividend reinvestment plan).

This prospectus supplement and the accompanying prospectus contain important information you should know before investing in our securities. Please read it before you invest and keep it for future reference. We file annual, quarterly and current reports, proxy statements and other information about us with the Securities and Exchange Commission, or the SEC. This information is available free of charge by contacting us at 10 East 40th Street, 44th Floor, New York, NY 10016 or by telephone at (212) 448-0702. The SEC maintains a website at www.sec.gov where such information is available without charge upon written or oral request. Our Internet website address is www.prospectstreet.com. Information contained on our website is not incorporated by reference into this prospectus supplement or the accompanying prospectus and you should not consider information contained on our website to be part of this prospectus.

Investing in our common stock involves risks. See Risk Factors beginning on page S-6 of this prospectus supplement and on page 9 of the accompanying prospectus.

The SEC has not approved or disapproved of these securities or determined if this prospectus supplement or the accompanying prospectus is truthful or complete. Any representation to the contrary is a criminal offense.

Prospectus Supplement dated March 8, 2010

You should rely only on the information contained in this prospectus supplement and the accompanying prospectus. We have not authorized any other person to provide you with information that is different from that contained in this prospectus supplement or the accompanying prospectus. If anyone provides you with different or inconsistent information, you should not rely on it. We and the selling stockholders are not making an offer of these securities in any jurisdiction where the offer is not permitted. You should assume that the information appearing in this prospectus supplement and the accompanying prospectus is accurate only as of their respective dates. Our business, financial condition and results of operations may have changed since those dates. This prospectus supplement supersedes the accompanying prospectus to the extent it contains information that is different from or in addition to the information in that prospectus.

PROSPECTUS SUMMARY

*This summary highlights some information from this prospectus supplement and the accompanying prospectus, and it may not contain all of the information that is important to you. To understand the terms of the common stock offered hereby, you should read this prospectus supplement and the accompanying prospectus carefully. Together, these documents describe the specific terms of the shares we and the selling stockholders are offering. You should carefully read the sections titled *Risk Factors* in this prospectus supplement and in the accompanying prospectus and the documents identified in the section *Available Information*.*

*The terms *we*, *us*, *our* and *Company*, refer to Prospect Capital Corporation; *Prospect Capital Management and Investment Advisor* refer to Prospect Capital Management LLC; and *Prospect Administration and the Administrator* refer to Prospect Administration LLC.*

The Company

Prospect Capital Corporation is a financial services company that primarily lends to and invests in middle market privately-held companies. We are a closed-end investment company that has filed an election to be treated as a business development company under the Investment Company Act of 1940, or the 1940 Act. We invest primarily in senior and subordinated debt and equity of companies in need of capital for acquisitions, divestitures, growth, development, project financing and recapitalization. We work with the management teams or financial sponsors to seek investments with historical cash flows, asset collateral or contracted pro-forma cash flows.

Typically, we concentrate on making investments in companies with annual revenues of less than \$500 million and enterprise values of less than \$250 million. Our typical investment involves a secured loan of less than \$50 million with some form of equity participation. From time to time, we acquire controlling interests in companies in conjunction with making secured debt investments in such companies. In most cases, companies in which we invest are privately held at the time we invest in them. We refer to these companies as *target* or *middle market* companies and these investments as *middle market* investments.

We seek to maximize total returns to our investors, including both current yield and equity upside, by applying rigorous credit analysis and asset-based and cash-flow based lending techniques to make and monitor our investments. A majority of our investments to date have been in energy-related industries. We have made no investments to date in the real estate or mortgage industries, and we do not intend currently to focus on such investments.

We are currently pursuing multiple investment opportunities, including purchases of portfolios from private and public companies, as well as originations and secondary purchases of particular securities. There can be no assurance that we will successfully consummate any investment opportunity we are currently pursuing. Motivated sellers, including commercial finance companies, hedge funds, other business development companies, total return swap counterparties, banks, collateralized loan obligation funds, and other entities, are suffering from excess leverage, and we believe we are well positioned to capitalize as potential buyers of such assets at attractive prices. If any of these opportunities are consummated, there can be no assurance that investors will share our view of valuation or that any assets acquired will not be subject to future write downs, each of which could have an adverse effect on our stock price.

As of December 31, 2009, we held investments in 55 portfolio companies. The aggregate fair value as of December 31, 2009 of investments in these portfolio companies held on that date is approximately \$648 million. Our portfolio across all our long-term debt and certain equity investments had an annualized current yield of 15.6% as of

December 31, 2009. The yield includes interest as well as dividends.

S-1

Table of Contents

Recent Developments

On January 6, 2010, we announced a \$15 million increase in total commitments on our revolving credit facility, increasing the facility size from \$195 million to \$210 million.

On March 5, 2010 we announced that we had determined to terminate our solicitation in opposition to the proposed merger of Allied Capital Corporation with Ares Capital Corporation.

Annual Meeting of Stockholders

At our 2009 annual meeting of stockholders held on December 11, 2009, our stockholders approved our ability to sell an unlimited number of shares of our common stock at any level of discount from net asset value per share during the twelve month period following such approval.

Table of Contents**The Offering**

Common stock offered by the selling stockholders	Up to 2,092,022 shares.
Use of proceeds	We will not receive any proceeds from the sale of shares of our common stock by the selling stockholders.
The NASDAQ Global Select Market symbol	PSEC
Risk factors	See Risk Factors in this prospectus supplement and the accompanying prospectus and other information in this prospectus supplement and the accompanying prospectus for a discussion of factors you should carefully consider before you decide whether to make an investment in shares of our common stock.
Current distribution rate	For our second fiscal quarter of 2010, our Board of Directors declared a quarterly dividend of \$0.40875 per share, representing an annualized dividend yield of approximately 13.51% based on our March 5, 2010 closing stock price of \$12.10 per share. Such dividend was payable out of earnings. Our dividend is subject to change or discontinuance at any time in the discretion of our Board of Directors. Our future earnings and operating cash flow may not be sufficient to support a dividend.

Fees and Expenses

The following tables are intended to assist you in understanding the costs and expenses that an investor in this offering will bear directly or indirectly. In these tables, we assume that we have borrowed \$195 million under our recently completed extended credit facility, which is the maximum amount currently available under the credit facility at December 31, 2009. Except where the context suggests otherwise, whenever this prospectus supplement contains a reference to fees or expenses paid by you, us or Prospect Capital, or that we will pay fees or expenses, the Company will pay such fees and expenses out of our net assets and, consequently, you will indirectly bear such fees or expenses as an investor in the Company. However, you will not be required to deliver any money or otherwise bear personal liability or responsibility for such fees or expenses.

Stockholder transaction expenses:

Sales load (as a percentage of offering price)	None
Offering expenses borne by us (as a percentage of offering price)(1)	None
Dividend reinvestment plan expenses(2)	None
Total stockholder transaction expenses (as a percentage of offering price)	None
Annual expenses (as a percentage of net assets attributable to common stock)(3):	
Management Fees(4)	2.74%
Incentive fees payable under Investment Advisory Agreement (20% of realized capital gains and 20% of pre-incentive fee net investment income)(5)	2.29%
Interest payments on borrowed funds	1.84%(6)
Acquired Fund Fees and Expenses	0.02%(7)

Other expenses	1.99%(8)
Total annual expenses	8.89%(5)(8)

Example

The following table demonstrates the projected dollar amount of cumulative expenses we would pay out of net assets and that you would indirectly bear over various periods with respect to a hypothetical investment in our

S-3

Table of Contents

common stock. In calculating the following expense amounts, we have assumed that our annual operating expenses would remain at the levels set forth in the table above and that we pay the transaction costs shown in the table above.

	1 Year	3 Years	5 Years	10 Years
You would pay the following expenses on a \$1,000 investment, assuming a 5% annual return	\$ 65.96	\$ 194.73	\$ 319.42	\$ 614.16

While the example assumes, as required by the SEC, a 5% annual return, our performance will vary and may result in a return greater or less than 5%. The income incentive fee under our Investment Advisory Agreement with Prospect Capital Management would be zero at the 5% annual return assumption required by the SEC for this table, since no incentive fee is paid until the annual return exceeds 7%. This illustration assumes that we will not realize any capital gains computed net of all realized capital losses and unrealized capital depreciation in any of the indicated time periods. If we achieve sufficient returns on our investments, including through the realization of capital gains, to trigger an incentive fee of a material amount, our expenses, and returns to our investors after such expenses, would be higher. In addition, while the example assumes reinvestment of all dividends and distributions at NAV per share, participants in our dividend reinvestment plan will receive a number of shares of our common stock determined by dividing the total dollar amount of the dividend payable to a participant by the market price per share of our common stock at the close of trading on the valuation date for the dividend. See [Dividend Reinvestment Plan](#) in the accompanying prospectus for additional information regarding our dividend reinvestment plan.

This example and the expenses in the table above should not be considered a representation of our future expenses. Actual expenses (including the cost of debt, if any, and other expenses) may be greater or less than those shown.

- (1) The offering expenses of this offering were reported as a cost of the original issuance of the shares by the Company. The portion thereof attributable to registration of shares being sold by the selling stockholders will or has been paid by the Company on behalf of the stockholders as a whole and not by the selling stockholders.
- (2) The expenses of the dividend reinvestment plan are included in [other expenses](#).
- (3) Net assets attributable to our common stock equal net assets (i.e., total assets less liabilities other than liabilities for money borrowed for investment purposes) at December 31, 2009. See [Capitalization](#) in this prospectus supplement.
- (4) Our base management fee is 2% of our gross assets (which include any amount borrowed, i.e., total assets without deduction for any liabilities). Assuming that we have borrowed \$195 million (the size of our credit facility), the 2% management fee of gross assets equals 2.74% of net assets. See [Management Services Investment Advisory Agreement](#) in the accompanying prospectus and footnote 5 below.
- (5) Based on an annualized level of incentive fee paid during our quarter ended December 31, 2009, all of which consisted of an income incentive fee. For a more detailed discussion of the calculation of the two-part incentive fee, see [Management Services Investment Advisory Agreement](#) in the accompanying prospectus.
- (6) We may borrow additional money before and after the proceeds of this offering are substantially invested. After this offering, we will have an increased amount available for us under our \$195 million extended credit facility and we will continue to seek additional lenders to upsize the facility to up to \$250 million. For more information, see [Risk Factors Risks Relating To Our Business Changes in interest rates may affect our cost of capital and net investment income](#) and [Management's Discussion and Analysis of Financial Condition and Results of Operations Results of Operations Operating Expenses Financial Condition, Liquidity and Capital Resources](#) in the accompanying prospectus. The table above assumes that we have borrowed \$195 million under our credit facility, which is the maximum amount currently available under the credit facility. If we do not borrow amounts

following this offering, our base management fee, as a percentage of net assets attributable to common stock, will decrease from the percentage shown in the table above, as borrowings will not represent a portion of our overall assets.

- (7) The Company's stockholders indirectly bear the expenses of underlying investment companies in which the Company invests. This amount includes the fees and expenses of investment companies in which the Company is invested in as of December 31, 2009. When applicable, fees and expenses are based on historic fees and expenses for the investment companies and for those investment companies with little or no operating history, fees and expenses are based on expected fees and expenses stated in the investment companies' prospectus or other similar communication without giving effect to any performance. Future fees and expenses for certain investment companies may be substantially higher or lower because certain fees and expenses are based on the performance of the investment companies, which may fluctuate over time. The amount of the Company's average net assets used in calculating this percentage was based on average monthly net assets of approximately \$637 million for the six months ended December 31, 2009.
- (8) Other expense is based on our annualized expenses during our quarter ended December 31, 2009, as adjusted for the increased costs anticipated in connection with the extended credit facility. See Management Services Administration Agreement in the accompanying prospectus.

Table of Contents

RISK FACTORS

Investing in our common stock involves a high degree of risk. You should carefully consider the risks described below and in the accompanying prospectus, together with all of the other information included in this prospectus supplement and in the accompanying prospectus, before you decide whether to make an investment in our common stock. The risks set forth below and in the accompanying prospectus are not the only risks we face. If any of the adverse events or conditions described below or in the accompanying prospectus occur, our business, financial condition and results of operations could be materially adversely affected. In such case, our NAV and the trading price of our common stock could decline, we could reduce or eliminate our dividend and you could lose all or part of your investment.

Recent developments may increase the risks associated with our business and an investment in us.

The U.S. financial markets have been experiencing a high level of volatility, disruption and distress, which was exacerbated by the failure of several major financial institutions in the last few months of 2008. In addition, the U.S. economy has been in a recession, the aftermath of which may be severe and prolonged. Similar conditions have occurred in the financial markets and economies of numerous other countries and could worsen, both in the U.S. and globally. These conditions have raised the level of many of the risks described in the accompanying prospectus and could have an adverse effect on our portfolio companies as well as on our business, financial condition, results of operations, dividend payments, credit facility, access to capital, valuation of our assets, including our NAV and our stock price.

If we sell common stock at a discount to our NAV per share, stockholders who do not participate in such sale will experience immediate dilution in an amount that may be material.

We have obtained approval from our stockholders for us to be able to sell an unlimited number of shares of our common stock at any level of discount from NAV per share in certain circumstances during the one-year period ending on December 11, 2010 as described in the accompanying prospectus. The issuance or sale by us of shares of our common stock at a discount to net asset value poses a risk of dilution to our stockholders. In particular, stockholders who do not purchase additional shares at or below the discounted price in proportion to their current ownership will experience an immediate decrease in NAV per share (as well as in the aggregate NAV of their shares if they do not participate at all). These stockholders will also experience a disproportionately greater decrease in their participation in our earnings and assets and their voting power than the increase we experience in our assets, potential earning power and voting interests from such issuance or sale. In addition, such sales may adversely affect the price at which our common stock trades. For additional information about recent sales below NAV per share, see *Recent Sales of Common Stock Below Net Asset Value* in this prospectus supplement and for additional information and hypothetical examples of these risks, see *Sales of Common Stock Below Net Asset Value* in this prospectus supplement and in the accompanying prospectus.

Table of Contents

USE OF PROCEEDS

We will not receive any proceeds from the sale of shares of our common stock by the selling stockholders.

SELLING STOCKHOLDERS

On September 24, 2009 we issued 2,807,111 shares at \$9.00 per share in a private stock offering. After giving effect to this offering, the number of shares issued in the September 24, 2009 offering represented 5.13% of the total number of shares outstanding at such time. Concurrent with the sale of these shares, we entered into a registration rights agreement (Registration Rights Agreement) in which we granted the purchasers certain registration rights with respect to these shares. The prospectus and this prospectus supplement are part of a registration statement that we filed with the SEC utilizing a shelf or delayed offering process. Under this offering process, and pursuant to the terms of the Registration Rights Agreement, such purchasers may from time to time resell these shares in one or more offerings. However, as to any selling stockholder who is not an affiliate of the Company, any registration rights granted pursuant to the Registration Rights Agreement will expire six months after the date the selling stockholder purchased such shares. Accordingly, after March 21, 2010 any selling stockholder who is not an affiliate of the Company will not be entitled to sell shares pursuant to the registration statement and instead will be able to sell shares pursuant to Rule 144 under the Securities Act of 1933, which provides a safe harbor to enable affiliates and holders of unregistered shares of a public company to sell such shares publicly subject to specified conditions and limitations. As applied to the Company, Rule 144 permits nonaffiliates to sell an unlimited number of shares held by them for at least six months.

The term selling stockholder refers to purchasers in the private stock offerings referred to above who wish to be able to sell shares under this prospectus supplement and includes donees, pledges, transferees, or other successors-in-interest selling securities received from the named selling stockholder as a gift, pledge, stockholder distribution or other non-sale related transfer after the date of the prospectus. Under the rules of the SEC, beneficial ownership includes shares over which the indicated beneficial owner exercises voting or investment power. The inclusion of any securities in the following table does not constitute an admission of beneficial ownership by the persons named below.

Table of Contents

The following table provides certain information with respect to the selling stockholders, including their ownership of our common stock as of February 26, 2010. The amounts set forth below are based upon information provided to us by representatives of such selling stockholders as of February 26, 2010 and are accurate to the best of our knowledge as of such date.

Name	Common Stock	Shares That May Be Offered Hereby	Common Stock

* We do not know when or in what amounts a selling stockholder may offer shares for sale. The selling stockholders may choose not to sell any or all of the shares offered by this prospectus supplement. Because the selling stockholders may offer all or some of the shares pursuant to this offering, and because there are currently no agreements, arrangements or understanding with respect to the sale of any of the shares, we cannot estimate the number of the shares that will be held by the selling stockholders after completion of the offering. However, for purposes of this table, we have assumed that, after completion of the offering, none of the shares covered by this prospectus supplement will be held by the selling stockholders.

As of March 1, 2010, the Company had 63,586,731 shares of common stock outstanding.

- (1) Jonathan M. Glaser, Trustee of the selling stockholder, has investment power over the shares held by the selling stockholder, including the power to dispose, or to direct the disposition, of such shares.
- (2) Kingsbrook Partners LP (Kingsbrook Partners), as investment advisor of the selling stockholder, has investment power over the shares held by the selling stockholder, including the power to dispose, or to direct the disposition, of such shares. Kingsbrook Opportunities GP LLC (Opportunities GP) is the general partner of selling stockholder any may be considered the beneficial owner of any securities deemed to be beneficially owned by the selling stockholder. KB GP LLC (GP LLC) is the general partner of Kingsbrook Partners and may be considered the beneficial owner of any securities deemed to be beneficially owned by Kingsbrook Partners. Ari

J. Storch, Adam J. Chill and Scott M. Wallace are the sole managing members of Opportunities GP and GP LLC and as a result may be considered beneficial owners of any securities deemed beneficially owned by Opportunities GP and GP LLC. Each of Kingsbrook Partners, Opportunities GP, GP LLC, and Messrs. Storch, Chill and Wallace disclaim beneficial ownership of such shares.

- (3) Daybreak Capital Management LLC, as investment advisor of the selling stockholder, has investment power over the shares held by the selling stockholder, including the power to dispose, or to direct the disposition, of such shares. Mr. Lawrence J. Butz and Mr. John Prinz are the managers of Daybreak Capital Management LLC. Each of Daybreak Capital Management LLC and Messrs. Butz and Prinz may be deemed to have beneficial ownership of the shares of common stock beneficially held by the selling stockholder. Daybreak Capital Management LLC and Messrs. Butz and Prinz each disclaims beneficial ownership of such shares.
- (4) Downsview Capital, Inc. (Downsview) is the general partner of Cranshire Capital, L.P. (Cranshire) and consequently has voting control and investment discretion over securities held by Cranshire. Mitchell P. Kopin (Mr. Kopin), President of Downsview, has voting control over Downsview. As a result of the foregoing, each of Mr. Kopin and Downsview may be

Table of Contents

- deemed to have beneficial ownership (as determined under Section 13(d) of the Securities Exchange Act of 1934, as amended) of the shares of common stock beneficially owned by Cranshire.
- (5) Michel A. Amsalem and Joshua Thomas have investment power of over the shares held by the selling stockholder, including the power to dispose, or to direct the disposition, of such shares.
 - (6) Visium Asset Management, LP, as investment advisor of the selling stockholder, has investment power over the shares held by the selling stockholder, including the power to dispose, or to direct the disposition, of such shares. JG Asset, LLC is the general partner of the Visium Asset Management, LP and Jacob Gottlieb is the managing member of JG Asset, LLC. Each of Visium Asset Management, LP, JG Asset, LLC and Mr. Gottlieb may be deemed to have beneficial ownership of the shares of common stock beneficially held by the selling stockholder.
 - (7) The selling stockholder has identified itself to us as an affiliate of a broker-dealer(s) and that it did not receive the shares of common stock outside of the ordinary course of business nor, at the time of issuance or purchase of the common stock, did it have any view to or arrangements or understandings, directly or indirectly, with any person to distribute the shares of common stock.
 - (8) RL Capital Management LLC has investment parent over the shares held by the selling stockholder, including the power to dispose, or to direct the disposition of such shares. Messrs. Ronald Lazar and Anthony Polak are the managing members of RL Capital Management LLC.
 - (9) Highbridge Capital Management, LLC, as trading manager of the selling stockholder, has investment power over the shares held by the selling stockholder, including the power to dispose, or to direct the disposition, of such shares. Glen Dubin is the Chief Executive Officer of Highbridge Capital Management, LLC. Each of Highbridge Capital Management, LLC and Mr. Dubin disclaims any beneficial ownership of such shares.
 - (10) Sander Gerber has investment power over the shares held by the selling stockholder, including the power to dispose, or to direct the disposition, of such shares. Mr. Gerber disclaims any beneficial ownership of the securities held by the selling stockholder.
 - (11) DePrince, Race & Zollo, Inc., as investment advisor of the selling stockholders, has investment power over the shares held by the selling stockholder, including the power to dispose, or to direct the disposition, of such shares.
 - (12) Heights Capital Management, Inc., as authorized agent of the selling stockholder, has investment power over the shares held by the selling stockholder, including the power to dispose, or to direct the disposition, of such shares and may be deemed to be the beneficial owner of these shares. Martin Kobinger, as investment manager of Heights Capital Management, Inc., may be deemed to have beneficial ownership of the shares of common stock beneficially held by the selling stockholder and disclaims any beneficial ownership of such shares.
 - (13) Jonathan Silverman has investment power over the shares held by the selling stockholder, including the power to dispose, or to direct the disposition, of such shares. Mr. Silverman disclaims beneficial ownership of such shares.
 - (14) Barwon Investment Partners has investment power over the shares held by the selling stockholder, including the power to dispose, or to direct the disposition, of such shares.

Table of Contents**CAPITALIZATION**

The following table sets forth our capitalization as of December 31, 2009:

on an actual basis; and

on an as adjusted basis giving effect to our distribution of shares in connection with our dividend reinvestment plan on January 25, 2010 and additional borrowings and the sale of shares in connection with this offering (for which there is no effect on capitalization as they are reflected in the previous column);

This table should be read in conjunction with Use of Proceeds and our Management's Discussion and Analysis of Financial Condition and Results of Operations and our financial statements and notes thereto included in this prospectus supplement and the accompanying prospectus.

	As of December 31, 2009	
	Actual	As Adjusted for Stock Issuances and Additional Borrowing After December 31, 2009
	(In thousands, except shares and per share data) (Unaudited)	
Long-term debt, including current maturities:		
Borrowings under senior credit facility(1)	\$ 10,000	\$ 25,000
Amount owed to affiliates	7,412	7,412
Total long-term debt	17,412	32,412
Stockholders' equity:		
Common stock, par value \$0.001 per share (100,000,000 common shares authorized; 63,349,746 shares outstanding actual, 63,586,731(2) shares outstanding as adjusted for stock issuances in connection with our dividend reinvestment plan completed after December 31, 2009)	63	64
Paid-in capital in excess of par value	741,520	744,415
Undistributed (distributions in excess of) net investment income	(14,326)	(14,326)
Accumulated realized losses on investments	(104,279)	(104,279)
Net unrealized depreciation on investments	14,499	14,499
Total stockholders' equity	637,477	640,373
Total capitalization	\$ 654,889	\$ 672,785

- (1) As of December 31, 2009, we had \$10 million of borrowings outstanding under our credit facility. As of March 5, 2010, we had \$25.0 million of borrowings under our credit facility, representing a \$15.0 million increase in borrowing subsequent to December 31, 2009.
- (2) Includes 236,985 shares of our common stock issued on January 25, 2010 in connection with our dividend reinvestment plan.

Table of Contents**RECENT SALES OF COMMON STOCK BELOW NET ASSET VALUE**

At our 2008 annual meeting of stockholders held on February 12, 2009 and our 2009 annual meeting of stockholders held on December 11, 2009, our stockholders approved our ability to sell an unlimited number of shares of our common stock at any level of discount to NAV per share during the twelve-month period following such approval. Accordingly, we may make additional offerings of our common stock without any limitation on the total amount of dilution to stockholders. See *Sales of Common Stock Below Net Asset Value* in this supplement and in the base prospectus. Pursuant to this authority, we have made the following offerings:

Date of Offering	Price Per Share to Investors	Shares Issued	Estimated Net Asset Value Per Share	Percentage Dilution
March 18, 2009	\$ 8.20	1,500,000	\$ 14.43	2.20%
April 27, 2009	\$ 7.75	3,680,000	\$ 14.15	5.05%
May 26, 2009	\$ 8.25	7,762,500	\$ 13.44	7.59%
July 7, 2009	\$ 9.00	5,175,000	\$ 12.40	3.37%
August 20, 2009	\$ 8.50	3,449,686	\$ 11.57	1.78%
September 24, 2009	\$ 9.00	2,807,111	\$ 11.36	1.20%

Table of Contents

DISTRIBUTIONS AND PRICE RANGE OF COMMON STOCK

We have paid and intend to continue to distribute quarterly distributions to our stockholders out of assets legally available for distribution. Our distributions, if any, will be determined by our Board of Directors. Certain amounts of the quarterly distributions may from time to time be paid out of our capital rather than from earnings for the quarter as a result of our deliberate planning or by accounting reclassifications.

In order to maintain RIC tax treatment, we must distribute at least 90% of our ordinary income and realized net short-term capital gains in excess of realized net long-term capital losses, if any, out of the assets legally available for distribution. In order to avoid certain excise taxes imposed on RICs, we are required to distribute with respect to each calendar year by January 31 of the following year an amount at least equal to the sum of

98% of our ordinary income for the calendar year,

98% of our capital gains in excess of capital losses for the one-year period ending on October 31 of the calendar year, and

any ordinary income and net capital gains for preceding years that were not distributed during such years.

In December 2008, our Board of Directors elected to retain excess profits generated in the quarter ended September 30, 2008 and pay a 4% excise tax on such retained earnings. We paid \$533,000 for the excise tax with the filing of our tax return in March 2009.

In addition, although we currently intend to distribute realized net capital gains (which we define as net long-term capital gains in excess of short-term capital losses), if any, at least annually, out of the assets legally available for such distributions, we may decide in the future to retain such capital gains for investment. In such event, the consequences of our retention of net capital gains are as described under **Material U.S. Federal Income Tax Considerations** in the accompanying prospectus. We can offer no assurance that we will achieve results that will permit the payment of any cash distributions and, if we issue senior securities, we will be prohibited from making distributions if doing so causes us to fail to maintain the asset coverage ratios stipulated by the 1940 Act or if distributions are limited by the terms of any of our borrowings.

We maintain an **opt out** dividend reinvestment plan for our common stockholders. As a result, if we declare a dividend, then stockholders' cash dividends will be automatically reinvested in additional shares of our common stock, unless they specifically **opt out** of the dividend reinvestment plan so as to receive cash dividends. Stockholders who receive distributions in the form of stock are subject to the same U.S. Federal, state and local tax consequences as are stockholders who elect to receive their distributions in cash. See **Dividend Reinvestment Plan** in the accompanying prospectus. The tax consequences of distributions to stockholders are described in the accompanying prospectus under the label **Material U.S. Federal Income Tax Considerations** in the accompanying prospectus. To the extent prudent and practicable, we intend to declare and pay dividends on a quarterly basis.

With respect to the dividends paid to stockholders, income from origination, structuring, closing, commitment and other upfront fees associated with investments in portfolio companies were treated as taxable income and accordingly, distributed to stockholders. During the fiscal year ended June 30, 2009, we paid total dividends of approximately \$56.1 million. For the first and second quarters of the fiscal year ending June 30, 2010, we paid total distributions of approximately \$22.3 million and \$25.9 million, respectively.

Tax characteristics of all distributions will be reported to stockholders, as appropriate, on Form 1099-DIV after the end of the year. Our ability to pay distributions could be affected by future business performance, liquidity, capital needs, alternative investment opportunities and loan covenants.

Our common stock is quoted on the NASDAQ Global Select Market under the symbol PSEC. The following table sets forth, for the periods indicated, our NAV per share of common stock and the high and low closing prices per share of our common stock as reported on the NASDAQ Global Select Market. Our common stock historically trades at prices both above and below its NAV. There can be no assurance, however, that such premium or discount, as applicable, to NAV will be maintained. Common stock of business development companies, like that of closed-end investment companies, frequently trades at a discount to current NAV. In the past, our common stock has traded

S-11

Table of Contents

at a discount to our NAV. The risk that our common stock may continue to trade at a discount to our NAV is separate and distinct from the risk that our NAV per share may decline.

	NAV(1)	Stock Price High(2)	Low(2)	Premium (Discount) of High to NAV	Premium (Discount) of Low to NAV	Dividend Declared

(1) Net asset value per share is determined as of the last day in the relevant quarter and therefore may not reflect the net asset value per share on the date of the high or low sales price. The NAVs shown are based on outstanding

shares at the end of each period.

- (2) The High/Low Stock Price is calculated as of the closing price on a given day in the applicable quarter.
- (3) Our most recently determined NAV per share was \$10.06 as of December 31, 2009 (\$10.07 on an as adjusted basis solely to give effect to our issuance of common stock on January 25, 2010 in connection with our dividend reinvestment plan). NAV as of March 31, 2010 may be higher or lower than \$10.07 based on potential changes in valuations as of March 31, 2010.
- (4) NAV has not yet been finally determined for any day after December 31, 2009.
- (5) The dividend for the third quarter of 2010 will be declared in March 2010.

On March 5, 2010, the last reported sales price of our common stock was \$12.10 per share.

As of March 5, 2010, we had approximately 58 stockholders of record.

The below table sets forth each class of our outstanding securities as of March 5, 2010.

(1) Title of Class	(2) Amount Authorized	(3) Amount Held by Registrant or for its Account	(4) Amount Outstanding Exclusive of Amount Shown Under(3)
Common Stock	100,000,000	0	63,586,731

Table of Contents

SALES OF COMMON STOCK BELOW NET ASSET VALUE

At our 2008 annual meeting of stockholders held on February 12, 2009 and our 2009 annual meeting of stockholders held on December 11, 2009, our stockholders approved our ability to sell an unlimited number of shares of our common stock at any level of discount from net asset value (NAV) per share during the twelve-month period following such approval. In order to sell shares pursuant to this authorization a majority of our directors who have no financial interest in the sale and a majority of our independent directors must (a) find that the sale is in our best interests and in the best interests of our stockholders, and (b) in consultation with any underwriter or underwriters of the offering, make a good faith determination as of a time either immediately prior to the first solicitation by us or on our behalf of firm commitments to purchase such shares, or immediately prior to the issuance of such shares, that the price at which such shares are to be sold is not less than a price which closely approximates the market value of such shares, less any distributing commission or discount.

In making a determination that an offering below NAV per share is in our and our stockholders' best interests, our Board of Directors would consider a variety of factors, including:

The effect that an offering below NAV per share would have on our stockholders, including the potential dilution they would experience as a result of the offering;

The amount per share by which the offering price per share and the net proceeds per share are less than the most recently determined NAV per share;

The relationship of recent market prices of par common stock to NAV per share and the potential impact of the offering on the market price per share of our common stock;

Whether the estimated offering price would closely approximate the market value of our shares;

The potential market impact of being able to raise capital during the current financial market difficulties;

The nature of any new investors anticipated to acquire shares in the offering;

The anticipated rate of return on and quality, type and availability of investments; and

The leverage available to us.

Our Board of Directors would also consider the fact that sales of common stock at a discount will benefit our Advisor as the Advisor will earn additional investment management fees on the proceeds of such offerings, as it would from the offering of any other securities of the Company or from the offering of common stock at premium to NAV per share.

We will not sell shares under a prospectus supplement to the registration statement or current post-effective amendment thereto of which this prospectus forms a part (the "current registration statement") if the cumulative dilution to our NAV per share from offerings under the current registration statement exceeds 15%. This limit would be measured separately for each offering pursuant to the current amendment by calculating the percentage dilution or accretion to aggregate NAV from that offering and then summing the percentage from each offering. For example, if our most recently determined NAV at the time of the first offering is \$10.06 and we have 64 million shares outstanding, sale of 16 million shares at net proceeds to us of \$5.03 per share (a 50% discount) would produce dilution

of 10.00%. If we subsequently determined that our NAV per share increased to \$11.00 on the then 80 million shares outstanding and then made an additional offering, we could, for example, sell approximately an additional 8.885 million shares at net proceeds to us of \$5.50 per share, which would produce dilution of 5.00%, before we would reach the aggregate 15% limit. If we file a new post-effective amendment, the threshold would reset.

Sales by us of our common stock at a discount from NAV pose potential risks for our existing stockholders whether or not they participate in the offering, as well as for new investors who participate in the offering.

S-13

Table of Contents

The following three headings and accompanying tables will explain and provide hypothetical examples on the impact of an offering at a price less than NAV per share on three different set of investors:

existing shareholders who do not purchase any shares in the offering;

existing shareholders who purchase a relatively small amount of shares in the offering or a relatively large amount of shares in the offering; and

new investors who become shareholders by purchasing shares in the offering.

Impact On Existing Stockholders Who Do Not Participate in the Offering

Our existing stockholders who do not participate in an offering below NAV per share or who do not buy additional shares in the secondary market at the same or lower price we obtain in the offering (after expenses and commissions) face the greatest potential risks. These stockholders will experience an immediate decrease (often called dilution) in the NAV of the shares they hold and their NAV per share. These stockholders will also experience a disproportionately greater decrease in their participation in our earnings and assets and their voting power than the increase we will experience in our assets, potential earning power and voting interests due to the offering. These shareholders may also experience a decline in the market price of their shares, which often reflects to some degree announced or potential increases and decreases in NAV per share. This decrease could be more pronounced as the size of the offering and level of discounts increases.

The following chart illustrates the level of NAV dilution that would be experienced by a nonparticipating stockholder in three different hypothetical offerings of different sizes and levels of discount from NAV per share. It is not possible to predict the level of market price decline that may occur.

The examples assume that the issuer has 64,000,000 common shares outstanding, \$700,000,000 in total assets and \$56,160,000 in total liabilities. The current NAV and NAV per share are thus \$643,840,000 and \$10.06. The chart illustrates the dilutive effect on Stockholder A of (1) an offering of 3,200,000 shares (5% of the outstanding shares) at \$9.56 per share after offering expenses and commission (a 5% discount from NAV), (2) an offering of 6,400,000 shares (10% of the outstanding shares) at \$9.05 per share after offering expenses and commissions (a 10% discount from NAV) and (3) an offering of 12,800,000 shares (20% of the outstanding shares) at \$8.05 per share after offering expenses and commissions (a 20% discount from NAV). The prospectus supplement pursuant to which any discounted offering is made will include a chart based on the actual number of shares in such offering and the actual discount to the most recently determined NAV, as applicable.

Percentage Dilution to Stockholder A (Dilution per Share Divided by Investment per Share)	(0.24)%	(0.91)%	(3.33)%
---	---------	---------	---------

Impact On Existing Stockholders Who Do Participate in the Offering

Our existing stockholders who participate in an offering below NAV per share or who buy additional shares in the secondary market at the same or lower price as we obtain in the offering (after expenses and commissions) will experience the same types of NAV dilution as the nonparticipating stockholders, albeit at a lower level, to the extent they purchase less than the same percentage of the discounted offering as their interest in our shares immediately prior to the offering. The level of NAV dilution will decrease as the number of shares such stockholders purchase increases. Existing stockholders who buy more than such percentage will experience NAV dilution but will, in contrast to existing stockholders who purchase less than their proportionate share of the offering, experience an increase (often called accretion) in NAV per share over their investment per share and will also experience a disproportionately greater increase in their participation in our earnings and assets and their voting power than our increase in assets, potential earning power and voting interests due to the offering. The level of accretion will increase as the excess number of shares such stockholder purchases increases. Even a stockholder who overparticipates will, however, be subject to the risk that we may make additional discounted offerings in which such stockholder does not participate, in which case such a stockholder will experience NAV dilution as described above in such subsequent offerings. These shareholders may also experience a decline in the market price of their shares, which often reflects to some degree announced or potential increases and decreases in NAV per share. This decrease could be more pronounced as the size of the offering and level of discounts increases.

The following chart illustrates the level of dilution and accretion in the hypothetical 20% discount offering from the prior chart (Example 3) for a stockholder that acquires shares equal to (1) 50% of its proportionate share of the offering (i.e., 6,400 shares, which is 0.05% of an offering of 12,800,000 shares) rather than its 0.10% proportionate share and (2) 150% of such percentage (i.e. 19,200 shares, which is 0.15% of an offering of 12,800,000 shares rather than its 0.10% proportionate share). The prospectus supplement pursuant to which any discounted offering is made will include a chart for these examples based on the actual number of shares in such offering and the actual discount from the most recently determined NAV per share, as applicable. It is not possible to predict the level of market price decline that may occur.

Table of Contents

	Prior to Sale Below NAV	50% Participation Following Sale	% Change	150% Participation Following Sale	% Change

Dilution/Accretion per Share Held by Stockholder A (NAV per Share Less Investment per Share)		\$ (0.19)		\$ 0.03	
Percentage Dilution/Accretion to Stockholder A (Dilution/Accretion per Share Divided by Investment per Share)			(1.93)%		0.32%

Impact On New Investors

Investors who are not currently stockholders and who participate in an offering below NAV but whose investment per share is greater than the resulting NAV per share due to selling compensation and expenses paid by the issuer will experience an immediate decrease, albeit small, in the NAV of their shares and their NAV per share compared to the price they pay for their shares. Investors who are not currently stockholders and who participate in an offering below NAV per share and whose investment per share is also less than the resulting NAV per share due to selling

compensation and expenses paid by the issuer being significantly less than the discount per share will experience an immediate increase in the NAV of their shares and their NAV per share compared to the price they pay for their shares. These investors will experience a disproportionately greater participation in our earnings and assets and their voting power than our increase in assets, potential earning power and voting interests. These investors will, however, be subject to the risk that we may make additional discounted offerings in which such new stockholder does not participate, in which case such new stockholder will experience dilution as described above in such subsequent offerings. These investors may also experience a decline in the market price of their shares, which often reflects to some degree announced or potential increases and decreases in NAV per share. This decrease could be more pronounced as the size of the offering and level of discounts increases.

The following chart illustrates the level of dilution or accretion for new investors that would be experienced by a new investor in the same hypothetical 5%, 10% and 20% discounted offerings as described in the first chart above. The illustration is for a new investor who purchases the same percentage (0.10%) of the shares in the offering as Stockholder A in the prior examples held immediately prior to the offering. The prospectus supplement pursuant to which any discounted offering is made will include a chart for these examples based on the actual number of shares in such offering and the actual discount from the most recently determined NAV per share, as applicable. It is not possible to predict the level of market price decline that may occur.

PLAN OF DISTRIBUTION

We previously issued shares representing 2,807,111 shares of our common stock to the selling stockholders in connection with a private stock offering. This prospectus supplement relates to the offer and sale of up to 2,092,022 of such shares of our common stock, as certain of the selling stockholders previously sold shares under a separate prospectus supplement. The registration of the common stock does not necessarily mean that any or all of the shares will be offered or sold by the selling stockholders under this prospectus supplement.

We will bear all of the expenses that we incur in connection with the offering of our shares of common stock under this prospectus supplement. Total expenses payable by us in connection with the offering were reported as a cost of the original issuance of the shares by us; provided, however, that a selling stockholder will pay all underwriting discounts and selling commissions, if any. We will indemnify the selling stockholders against liabilities, including some liabilities under the Securities Act of 1933, in accordance with the Registration Rights Agreement, or the selling stockholders will be entitled to contribution. We may be indemnified by the selling stockholders against civil liabilities, including liabilities under the Securities Act of 1933, that may arise from any written information furnished to us by the selling stockholder specifically for use in this prospectus, in accordance with the related Registration Rights Agreement, or we may be entitled to contribution.

Pursuant to the terms of the Registration Rights Agreement entered into by the Company, the selling stockholders may resell shares of our common stock under this prospectus supplement. The selling stockholders may sell common stock from time to time in one or more of the following types of transactions (including block transactions): (i) on any national exchange on which the shares may be listed or any automatic quotation system through which the shares may be quoted, (ii) in the over-the-counter market, (iii) in privately negotiated transactions, (iv) through put and call transactions, (v) through short sales, (vi) by pledge to secure debts and other obligations, (vii) to cover hedging transactions, (viii) through the issuance of derivative securities, including warrants, exchangeable securities, (ix) forward delivery contracts and the writing of options, underwritten offerings, (x) a combination of such methods of sale, and (xi) any other legally available means. The sales may be made at prevailing market prices at the time of sale or at privately negotiated prices. The selling stockholders may use brokers, dealers or agents to sell their respective shares. The persons acting as agents may receive compensation in the form of commissions, discounts or concessions. This compensation may be paid by the selling stockholders or the purchasers of the shares for whom the selling stockholders may act as agent, or to whom the selling stockholders may sell as a principal, or both.

The selling stockholders may enter into hedging transactions with broker-dealers or other financial institutions. In connection with these transactions, broker-dealers or other financial institutions may engage in short sales of the shares in the course of hedging positions they assume with the selling stockholders. The selling stockholders may also enter into options or other transactions with broker-dealers or other financial institutions which require the delivery to these broker-dealers or other financial institutions of shares, which such broker-dealer or other financial institution may resell under this prospectus supplement (as amended or supplemented to reflect such transaction). The selling stockholders may also engage in short sales of shares and, in those instances, the prospectus supplement may be delivered in connection with the short sales and the shares offered pursuant to the prospectus supplement may be used to cover the short sales. The selling stockholders and any broker-dealer participating in the distribution of the shares of common stock may be deemed to be underwriters within the meaning of the Securities Act of 1933, and any commission paid, or any discounts or concessions allowed to, any such broker-dealer may be deemed to be underwriting commissions or discounts under the Securities Act of 1933. At the time a particular offering of the shares of common stock is made, a prospectus supplement, if required, will be distributed which will set forth the aggregate amount of shares of common stock being offered and the terms of the offering, including the name or names of any broker-dealers or agents, any discounts, commissions and other terms constituting compensation from the selling

stockholders and any discounts, commissions or concessions allowed or reallocated or paid to broker-dealers.

The selling stockholders may choose not to sell any or may choose to sell less than all of the shares of common stock registered pursuant to the registration statement, of which this prospectus supplement forms a part. Once sold under the registration statement, of which this prospectus supplement forms a part, the shares of common stock will be freely tradable in the hands of persons other than our affiliates.

S-18

Table of Contents

In order to comply with the securities laws of most states, if applicable, the selling stockholders may only sell shares of common stock in those jurisdictions through registered or licensed brokers or dealers. In addition, in some states the shares of common stock may not be sold unless they have been registered or qualified for sale or an exemption from registration or qualification requirements is available and is complied with.

The selling stockholders and any other person participating in a distribution of the securities covered by the prospectus supplement will be subject to applicable provisions of the Securities Exchange Act of 1934, as amended, and the rules and regulations thereunder, including Regulation M, which may limit the timing of purchases and sales of any of the securities by the selling stockholders and any other such person. Furthermore, under Regulation M, any person engaged in the distribution of the securities may not simultaneously engage in market-making activities with respect to the particular securities being distributed for certain periods prior to the commencement of or during such distribution. Regulation M's prohibition on purchases may include purchases to cover short positions by the selling stockholders, and a selling stockholder's failure to cover a short position at a lender's request and subsequent purchases by the lender in the open market of shares to cover such short positions, may be deemed to constitute an inducement to buy shares, which is prohibited by Regulation M. All of the above may affect the marketability of the securities and the ability of any person or entity to engage in market-making activities with respect to the securities.

Certain selling stockholders have identified themselves to us as affiliates of broker-dealers. The selling stockholders who are affiliates of broker-dealers have each informed us that that they did not receive the shares of common stock outside of the ordinary course of business nor, at the time of issuance or purchase of the common stock, did they have any view to or arrangements or understandings, directly or indirectly, with any person to distribute the shares of common stock.

Our common stock is listed on the NASDAQ Global Select Market under the symbol PSEC.

LEGAL MATTERS

Certain legal matters regarding the common stock offered hereby have been passed upon for the Company by Skadden, Arps, Slate, Meagher & Flom LLP, New York, New York, and Venable LLP as special Maryland counsel.

INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

BDO Seidman LLP is the independent registered public accounting firm for the Company.

AVAILABLE INFORMATION

We have filed with the SEC a registration statement on Form N-2, together with all amendments and related exhibits, under the Securities Act of 1933, with respect to our common stock offered by this prospectus supplement. The registration statement contains additional information about us and the common stock being registered by this prospectus supplement. We file with or submit to the SEC annual, quarterly and current periodic reports, proxy statements and other information meeting the informational requirements of the Exchange Act. This information and the information specifically regarding how we voted proxies relating to portfolio securities for the period ended June 30, 2009, are available free of charge by contacting us at 10 East 40th Street, 44th floor, New York, NY 10016 or by telephone at toll-free (888) 748-0702. You may inspect and copy these reports, proxy statements and other information, as well as the registration statement and related exhibits and schedules, at the Public Reference Room of the SEC at 100 F Street NE, Washington, D.C. 20549. You may obtain information on the operation of the Public Reference Room by calling the SEC at (202) 551-8090. The SEC maintains an Internet site that contains reports, proxy and information statements and other information filed electronically by us with the SEC which are available on the SEC's Internet site at <http://www.sec.gov>. Copies of these reports, proxy and information statements and other

information may be obtained, after paying a duplicating fee, by electronic request at the following E-mail address: publicinfo@sec.gov, or by writing the SEC's Public Reference Section, Washington, D.C. 20549-0102.

PROSPECT CAPITAL CORPORATION

**Common Stock
Preferred Stock
Debt Securities
Warrants**

We may offer, from time to time, in one or more offerings or series, together or separately, up to \$500,000,000 of our common stock, preferred stock, debt securities or rights to purchase shares of common stock, preferred stock or debt securities, collectively, the Securities, to provide us with additional capital. Securities may be offered at prices and on terms to be disclosed in one or more supplements to this prospectus. You should read this prospectus and the applicable prospectus supplement carefully before you invest in our Securities.

We may offer shares of common stock at a discount to net asset value per share in certain circumstances. Sales of common stock at prices below net asset value per share dilute the interests of existing stockholders, have the effect of reducing our net asset value per share and may reduce our market price per share.

Our Securities may be offered directly to one or more purchasers, or through agents designated from time to time by us, or to or through underwriters or dealers. The prospectus supplement relating to the offering will identify any agents or underwriters involved in the sale of our Securities, and will disclose any applicable purchase price, fee, commission or discount arrangement between us and our agents or underwriters or among our underwriters or the basis upon which such amount may be calculated. See Plan of Distribution. We may not sell any of our Securities through agents, underwriters or dealers without delivery of the prospectus and a prospectus supplement describing the method and terms of the offering of such Securities. Our common stock is traded on The NASDAQ Global Select Market under the symbol PSEC. As of February 25 2010, the last reported sales price for our common stock was \$11.66.

Prospect Capital Corporation, or the Company, is a company that lends to and invests in middle market privately-held companies. Prospect Capital Corporation, a Maryland corporation, has been organized as a closed-end investment company since April 13, 2004 and has filed an election to be treated as a business development company under the Investment Company Act of 1940, as amended, or the 1940 Act, and is a non-diversified investment company within the meaning of the 1940 Act.

Prospect Capital Management LLC, our investment adviser, manages our investments and Prospect Administration LLC, our administrator, provides the administrative services necessary for us to operate.

Investing in our Securities involves a heightened risk of total loss of investment and is subject to risks. Before buying any Securities, you should read the discussion of the material risks of investing in our Securities in Risk Factors beginning on page 9 of this prospectus.

This prospectus contains important information about us that you should know before investing in our Securities. Please read it before making an investment decision and keep it for future reference. We file annual, quarterly and current reports, proxy statements and other information about us with the Securities and Exchange Commission, or the SEC. You may make inquiries or obtain this information free of charge by writing to Prospect Capital Corporation at 10 East 40th Street, 44th Floor, New York, NY 10016, or by calling 212-448-0702. Our Internet address is <http://www.prospectstreet.com>. You may also obtain information about us from our website and the SEC's website

(<http://www.sec.gov>).

The SEC has not approved or disapproved of these securities or determined if this prospectus supplement or the accompanying prospectus is truthful or complete. Any representation to the contrary is a criminal offense.

This prospectus may not be used to consummate sales of securities unless accompanied by a prospectus supplement.

The date of this Prospectus is March 4, 2010

ABOUT THIS PROSPECTUS

This prospectus is part of a registration statement that we have filed with the SEC, using the shelf registration process. Under the shelf registration process, we may offer, from time to time on a delayed basis, up to \$500,000,000 of our common stock, preferred stock, debt securities or warrants representing rights to purchase shares of our common stock, preferred stock or debt securities on the terms to be determined at the time of the offering. The Securities may be offered at prices and on terms described in one or more supplements to this prospectus. This prospectus provides you with a general description of the Securities that we may offer. Each time we use this prospectus to offer Securities, we will provide a prospectus supplement that will contain specific information about the terms of that offering. The prospectus supplement may also add, update or change information contained in this prospectus. Please carefully read this prospectus and any prospectus supplement together with any exhibits and the additional information described under the heading **Available Information** and the section under the heading **Risk Factors** before you make an investment decision.

Table of Contents

PROSPECTUS SUMMARY

The following summary contains basic information about this offering. It does not contain all the information that may be important to an investor. For a more complete understanding of this offering, we encourage you to read this entire document and the documents to which we have referred.

Information contained or incorporated by reference in this prospectus may contain forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995, which are statements about the future that may be identified by the use of forward-looking terminology such as may, will, expect, intend, plans, anticipate, estimate or continue or the negative thereof or other variations thereon or comparable terminology. These forward-looking statements do not meet the safe harbor for forward-looking statements pursuant to Section 27A of the Securities Act of 1933, as amended, or the Securities Act. The matters described in Risk Factors and certain other factors noted throughout this prospectus and in any exhibits to the registration statement of which this prospectus is a part, constitute cautionary statements identifying important factors with respect to any such forward-looking statements, including certain risks and uncertainties, that could cause actual results to differ materially from those in such forward-looking statements. The Company reminds all investors that no forward-looking statement can be relied upon as an accurate or even mostly accurate forecast because humans cannot forecast the future.

The terms we, us, our, and Company refer to Prospect Capital Corporation; Prospect Capital Management or the Investment Adviser refers to Prospect Capital Management LLC, our investment adviser; Prospect Administration or the Administrator refers to Prospect Administration LLC, our administrator; and Prospect refers to Prospect Capital Management LLC, its affiliates and its predecessor companies.

The Company

We are a financial services company that lends to and invests in middle market privately-held companies.

We were originally organized under the name Prospect Street Energy Corporation and we changed our name to Prospect Energy Corporation in June 2004. We changed our name again to Prospect Capital Corporation in May 2007 and at the same time terminated our policy of investing at least 80% of our net assets in energy companies. While we expect to be less focused on the energy industry in the future, we will continue to have significant holdings in the energy and energy related industries. On December 2, 2009, we completed our previously announced acquisition of Patriot Capital Funding, Inc., or Patriot, under the Agreement and Plan of Merger, dated as of August 3, 2009, by and among, us and Patriot. Pursuant to the terms of the merger agreement, we acquired Patriot for approximately \$200 million comprised of our common stock and cash to repay all of Patriot's outstanding debt, which amounted to \$107.3 million. In the merger, each outstanding share of Patriot common stock was converted into the right to receive 0.363992 shares of common stock of Prospect, representing 8,444,068 shares of the Company's common stock, and the payment of cash in lieu of fractional shares of Prospect common stock of less than \$200 resulting from the application of the foregoing exchange ratio.

We have been organized as a closed-end investment company since April 13, 2004 and have filed an election to be treated as a business development company under the 1940 Act. We are a non-diversified company within the meaning of the 1940 Act. Our headquarters are located at 10 East 40th Street, 44th Floor, New York, NY 10016, and our telephone number is (212) 448-0702.

The Investment Adviser

Prospect Capital Management, an affiliate of the Company, manages our investment activities. Prospect Capital Management is an investment adviser that has been registered under the Investment Advisers Act of 1940, or the Advisers Act, since March 31, 2004. Under an investment advisory and management agreement between us and Prospect Capital Management, or the Investment Advisory Agreement, we have agreed to pay Prospect Capital Management investment advisory fees, which will consist of an annual base management fee based on our gross assets, which we define as total assets without deduction for any liabilities, as well as a two-part incentive fee based on our performance.

Table of Contents

The Offering

We may offer, from time to time, in one or more offerings or series, together or separately, up to \$500,000,000 of our Securities, which we expect to use initially to maintain balance sheet liquidity, involving repayment of debt under our credit facility, investment in high quality short-term debt instruments or a combination thereof, and thereafter to make long-term investments in accordance with our investment objectives.

Our Securities may be offered directly to one or more purchasers, through agents designated from time to time by us, or to or through underwriters or dealers. The prospectus supplement relating to a particular offering will disclose the terms of that offering, including the name or names of any agents or underwriters involved in the sale of our Securities by us, the purchase price, and any fee, commission or discount arrangement between us and our agents or underwriters or among our underwriters, or the basis upon which such amount may be calculated. See Plan of Distribution. We may not sell any of our Securities through agents, underwriters or dealers without delivery of a prospectus supplement describing the method and terms of the offering of our Securities.

We may sell our common stock, or warrants, options or rights to acquire our common stock, at a price below the current net asset value of our common stock upon approval of our directors, including a majority of our independent directors, in certain circumstances. See Sales of Common Stock Below Net Asset Value in this prospectus and in the prospectus supplement, if applicable. Sales of common stock at prices below net asset value per share dilute the interests of existing stockholders, have the effect of reducing our net asset value per share and may reduce our market price per share.

Set forth below is additional information regarding the offering of our Securities:

Use of proceeds

Unless otherwise specified in a prospectus supplement, we intend to use the net proceeds from selling Securities pursuant to this prospectus initially to maintain balance sheet liquidity, involving repayment of debt under our credit facility, investments in high quality short-term debt instruments or a combination thereof, and thereafter to make long-term investments in accordance with our investment objective. See Use of Proceeds.

Distributions

We have paid quarterly distributions to the holders of our common stock and generally intend to continue to do so. The amount of the quarterly distributions is determined by our Board of Directors and is based on our estimate of our investment company taxable income and net short-term capital gains. Certain amounts of the quarterly distributions may from time to time be paid out of our capital rather than from earnings for the quarter as a result of our deliberate planning or accounting reclassifications. Distributions in excess of our current or accumulated earnings or profits constitute a return of capital and will reduce the stockholder's adjusted tax basis in such stockholder's common stock. After the adjusted basis is reduced to zero, these distributions will constitute capital gains to such stockholders. Certain additional amounts may be deemed as distributed to stockholders for income tax purposes. Other types of Securities will likely pay distributions in accordance with their terms. See Price Range of Common Stock, Distributions and Material U.S. Federal Income Tax Considerations.

Taxation

We have qualified and elected to be treated for U.S. Federal income tax purposes as a regulated investment company, or a RIC, under Subchapter M of the Internal Revenue Code of 1986, or the Code. As a RIC, we generally do not have to pay corporate-level U.S. Federal income taxes on any ordinary income or capital gains that we distribute to our stockholders as dividends. To maintain our qualification

Table of Contents

as a RIC and obtain RIC tax treatment, we must maintain specified source-of-income and asset diversification requirements and distribute annually at least 90% of our ordinary income and realized net short-term capital gains in excess of realized net long-term capital losses, if any. See [Distributions](#) and [Material U.S. Federal Income Tax Considerations](#).

Dividend reinvestment plan

We have a dividend reinvestment plan for our stockholders. This is an [opt out](#) dividend reinvestment plan. As a result, when we declare a dividend, the dividends are automatically reinvested in additional shares of our common stock, unless a stockholder specifically [opts out](#) of the dividend reinvestment plan so as to receive cash dividends. Stockholders who receive distributions in the form of stock are subject to the same U.S. Federal, state and local tax consequences as stockholders who elect to receive their distributions in cash. See [Dividend Reinvestment Plan](#).

The NASDAQ Global Select Market Symbol

PSEC

Anti-takeover provisions

Our charter and bylaws, as well as certain statutory and regulatory requirements, contain provisions that may have the effect of discouraging a third party from making an acquisition proposal for us. These anti-takeover provisions may inhibit a change in control in circumstances that could give the holders of our common stock the opportunity to realize a premium over the market price of our common stock. See [Description Of Our Capital Stock](#).

Management arrangements

Prospect Capital Management serves as our investment adviser. Prospect Administration serves as our administrator. For a description of Prospect Capital Management, Prospect Administration and our contractual arrangements with these companies, see [Management Services Investment Advisory Agreement](#), and [Management Services Administration Agreement](#).

Risk factors

Investment in our Securities involves certain risks relating to our structure and investment objective that should be considered by prospective purchasers of our Securities. In addition, investment in our Securities involves certain risks relating to investing in the energy sector, including but not limited to risks associated with commodity pricing, regulation, production, demand, depletion and expiration, weather, and valuation. We have a limited operating history upon which you can evaluate our business. In addition, as a business development company, our portfolio primarily includes securities issued by privately-held companies. These investments generally involve a high degree of business and financial risk, and are less liquid than public securities. We are required to mark the carrying value of our investments to fair value on a quarterly basis, and economic events, market conditions and events affecting individual portfolio companies can result in quarter-to-quarter mark-downs and mark-ups of the value of individual investments that collectively can materially affect our net asset value, or NAV. Also, our determinations of

fair value of privately-held securities may differ materially from the values that would exist if there was a ready market for these investments. A large number of entities compete for the same kind of

Table of Contents

investment opportunities as we do. Moreover, our business requires a substantial amount of capital to operate and to grow and we seek additional capital from external sources. In addition, the failure to qualify as a RIC eligible for pass-through tax treatment under the Code on income distributed to stockholders could have a materially adverse effect on the total return, if any, obtainable from an investment in our Securities. See **Risk Factors** and the other information included in this prospectus for a discussion of factors you should carefully consider before deciding to invest in our Securities.

Plan of distribution

We may offer, from time to time, up to \$500,000,000 of our common stock, preferred stock, debt securities or rights to purchase shares of our common stock, preferred stock or debt securities on the terms to be determined at the time of the offering. Securities may be offered at prices and on terms described in one or more supplements to this prospectus directly to one or more purchasers, through agents designated from time to time by us, or to or through underwriters or dealers. The supplement to this prospectus relating to the offering will identify any agents or underwriters involved in the sale of our Securities, and will set forth any applicable purchase price, fee and commission or discount arrangement or the basis upon which such amount may be calculated. We may not sell Securities pursuant to this prospectus without delivering a prospectus supplement describing the method and terms of the offering of such Securities. For more information, see **Plan of Distribution**.

Fees and Expenses

The following tables are intended to assist you in understanding the costs and expenses that an investor in this offering will bear directly or indirectly. We caution you that some of the percentages indicated in the table below are estimates and may vary. In these tables, we assume that we have borrowed \$195 million under our credit facility, which is the maximum amount available under the credit facility. Except where the context suggests otherwise, whenever this prospectus contains a reference to fees or expenses paid by you or us or that we will pay fees or expenses, the Company will pay such fees and expenses out of our net assets and, consequently, you will indirectly bear such fees or expenses as an investor in the Company. However, you will not be required to deliver any money or otherwise bear personal liability or responsibility for such fees or expenses.

Stockholder transaction expenses:

Sales load (as a percentage of offering price)(1)	5.00%
Offering expenses borne by us (as a percentage of offering price)(2)	0.50%
Dividend reinvestment plan expenses(3)	None
Total stockholder transaction expenses (as a percentage of offering price)(4)	5.50%
Annual expenses (as a percentage of net assets attributable to common stock)(4):	
Management Fees(5)	2.74%
Incentive fees payable under Investment Advisory Agreement (20% of realized capital gains and 20% of pre-incentive fee net investment income)(6)	2.29%
Interest payments on borrowed funds	1.84%
Acquired Fund Fees and Expenses	0.02%(7)
Other expenses	1.99%(8)

Total annual expenses

8.89%(6)(8)

5

Table of Contents**Example**

The following table demonstrates the projected dollar amount of cumulative expenses we would pay out of net assets and that you would indirectly bear over various periods with respect to a hypothetical investment in our common stock. In calculating the following expense amounts, we have assumed we would have borrowed all \$195 million available under our line of credit, that our annual operating expenses would remain at the levels set forth in the table above and that we would pay the costs shown in the table above.

	1 Year	3 Years	5 Years	10 Years
You would pay the following expenses on a \$1,000 investment, assuming a 5% annual return	\$ 117.33	\$ 239.02	\$ 356.86	\$ 635.38

While the example assumes, as required by the SEC, a 5% annual return, our performance will vary and may result in a return greater or less than 5%. The income incentive fee under our Investment Advisory Agreement with Prospect Capital Management would be zero at the 5% annual return assumption, as required by the SEC for this table, since no incentive fee is paid until the annual return exceeds 7%. This illustration assumes that we will not realize any capital gains computed net of all realized capital losses and unrealized capital depreciation in any of the indicated time periods. If we achieve sufficient returns on our investments, including through the realization of capital gains, to trigger an incentive fee of a material amount, our expenses, and returns to our investors after such expenses, would be higher. In addition, while the example assumes reinvestment of all dividends and distributions at NAV, participants in our dividend reinvestment plan will receive a number of shares of our common stock, determined by dividing the total dollar amount of the dividend payable to a participant by the market price per share of our common stock at the close of trading on the valuation date for the dividend. See [Dividend Reinvestment Plan](#) for additional information regarding our dividend reinvestment plan.

This example and the expenses in the table above should not be considered a representation of our future expenses. Actual expenses (including the cost of debt, if any, and other expenses) may be greater or less than those shown.

- (1) In the event that the Securities to which this prospectus relates are sold to or through underwriters, a corresponding prospectus supplement will disclose the estimated applicable sales load.
- (2) The related prospectus supplement will disclose the estimated amount of offering expenses, the offering price and the estimated offering expenses borne by us as a percentage of the offering price.
- (3) The expenses of the dividend reinvestment plan are included in other expenses.
- (4) The related prospectus supplement will disclose the offering price and the total stockholder transaction expenses as a percentage of the offering price.
- (5) Our base management fee is 2% of our gross assets (which include any amount borrowed, i.e., total assets without deduction for any liabilities). Although no plans are in place to borrow the full amount under our line of credit, assuming that we borrowed \$195 million, the 2% management fee of gross assets equals approximately 2.74% of net assets. See [Management Services](#) [Investment Advisory Agreement](#) and footnote 6 below.

- (6) The incentive fee payable to our Investment Adviser under the Investment Advisory Agreement is based on our performance and will not be paid unless we achieve certain goals. Under the assumption of a 5% return required in the example, no incentive fee would be payable. For a more detailed discussion of the calculation of the two-part incentive fee, see Management Management Services Investment Advisory Agreement.
- (7) The Company's stockholders indirectly bear the expenses of underlying investment companies in which the Company invests. This amount includes the fees and expenses of investment companies in which the Company is invested in as of December 31, 2009. When applicable, fees and expenses are based on historic fees and expenses for the investment companies and for those investment companies with little or no operating history, fees and expenses are based on expected fees and expenses stated in the investment companies' prospectus or other similar communication without giving effect to any performance. Future fees and expenses for certain investment companies may be substantially higher or lower because certain fees and expenses are based on the performance of the investment companies, which may fluctuate over time. The amount of the Company's

Table of Contents

average net assets used in calculating this percentage was based on average monthly net assets of approximately \$637 million for the six months ended December 31, 2009.

- (8) Other expenses are based on estimated amounts for the current fiscal year. The amount shown above represents annualized expenses during our six months ended December 31, 2009 representing all of our estimated recurring operating expenses (except fees and expenses reported in other items of this table) that are deducted from our operating income and reflected as expenses in our Statement of Operations. The estimate of our overhead expenses, including payments under an administration agreement with Prospect Administration, or the Administration Agreement, based on our projected allocable portion of overhead and other expenses incurred by Prospect Administration in performing its obligations under the Administration Agreement. Other expenses does not include non-recurring expenses. See Management Management Services Administration Agreement.

Table of Contents**SELECTED CONDENSED FINANCIAL DATA**

You should read the condensed financial information below with the Financial Statements and Notes thereto included in this prospectus. Financial information below for the twelve months ended June 30, 2009, 2008, 2007, 2006 and 2005 has been derived from the financial statements that were audited by our independent registered public accounting firm. The selected consolidated financial data at and for the six months ended December 31, 2009 and 2008 have been derived from unaudited financial data, but in the opinion of our management, reflects all adjustments (consisting only of normal recurring adjustments) that are necessary to present fairly the results for such interim periods. Interim results at and for the six months ended December 31, 2009 are not necessarily indicative of the results that may be expected for the year ending June 30, 2010. Certain reclassifications have been made to the prior period financial information to conform to the current period presentation. See Management's Discussion and Analysis of Financial Condition and Results of Operations starting on page 27 for more information.

RISK FACTORS

Investing in our Securities involves a high degree of risk. You should carefully consider the risks described below, together with all of the other information included in this prospectus, before you decide whether to make an investment in our Securities. The risks set forth below are not the only risks we face. If any of the adverse events or conditions described below occur, our business, financial condition and results of operations could be materially adversely affected. In such case, our NAV, and the trading price of our common stock could decline, or the value of our preferred stock, debt securities, and warrants, if any are outstanding, may decline, and you may lose all or part of your investment.

Risks Relating To Our Business

Our financial condition and results of operations will depend on our ability to manage our future growth effectively.

Prospect Capital Management has been registered as an investment adviser since March 31, 2004, and we have been organized as a closed-end investment company since April 13, 2004. Our ability to achieve our investment objective depends on our ability to grow, which depends, in turn, on our Investment Adviser's ability to continue to identify, analyze, invest in and monitor companies that meet our investment criteria. Accomplishing this result on a cost-effective basis is largely a function of our Investment Adviser's structuring of investments, its ability to provide competent, attentive and efficient services to us and our access to financing on acceptable terms. As we continue to grow, Prospect Capital Management will need to continue to hire, train, supervise and manage new employees. Failure to manage our future growth effectively could have a materially adverse effect on our business, financial condition and results of operations.

We are dependent upon Prospect Capital Management's key management personnel for our future success.

We depend on the diligence, skill and network of business contacts of the senior management of our Investment Adviser. We also depend, to a significant extent, on our Investment Adviser's access to the investment professionals and the information and deal flow generated by these investment professionals in the course of their investment and portfolio management activities. The senior management team of the Investment Adviser evaluates, negotiates, structures, closes, monitors and services our investments. Our success depends to a significant extent on the continued service of the senior management team, particularly John F. Barry III and M. Grier Eliasek. The departure of any of the senior management team could have a materially adverse effect on our ability to achieve our investment objective. In addition, we can offer no assurance that Prospect Capital Management will remain our investment adviser or that we will continue to have access to its investment professionals or its information and deal flow.

We operate in a highly competitive market for investment opportunities.

A large number of entities compete with us to make the types of investments that we make in target companies. We compete with other business development companies, public and private funds, commercial and investment banks and commercial financing companies. Additionally, because competition for investment opportunities generally has increased among alternative investment vehicles, such as hedge funds, those entities have begun to invest in areas they have not traditionally invested in, including investments in middle-market companies. As a result of these new entrants, competition for investment opportunities at middle-market companies has intensified, a trend we expect to continue.

Many of our existing and potential competitors are substantially larger and have considerably greater financial, technical and marketing resources than we do. For example, some competitors may have a lower cost of funds and access to funding sources that are not available to us. In addition, some of our competitors may have higher risk tolerances or different risk assessments, which could allow them to consider a wider variety of investments and establish more or fuller relationships with borrowers and sponsors than us. Furthermore, many of our competitors are not subject to the regulatory restrictions that the 1940 Act imposes on us as a business development company. We cannot assure you that the competitive pressures we face will not have a materially adverse effect on our

Table of Contents

business, financial condition and results of operations. Also, as a result of existing and increasing competition and our competitors ability to provide a total package solution, we may not be able to take advantage of attractive investment opportunities from time to time, and we can offer no assurance that we will be able to identify and make investments that are consistent with our investment objective.

We do not seek to compete primarily based on the interest rates that we offer, and we believe that some of our competitors make loans with interest rates that are comparable to or lower than the rates we offer. We may lose investment opportunities if we do not match our competitors pricing, terms and structure. If we match our competitors pricing, terms and structure, we may experience decreased net interest income and increased risk of credit loss.

Most of our portfolio investments are recorded at fair value as determined in good faith by our Board of Directors and, as a result, there is uncertainty as to the value of our portfolio investments.

A large percentage of our portfolio investments consist of securities of privately held companies. Hence, market quotations are generally not readily available for determining the fair values of such investments. The determination of fair value, and thus the amount of unrealized losses we may incur in any year, is to a degree subjective, and the Investment Adviser has a conflict of interest in making the determination. We value these securities quarterly at fair value as determined in good faith by our Board of Directors based on input from our Investment Adviser, a third party independent valuation firm and our audit committee. Our Board of Directors utilizes the services of an independent valuation firm to aid it in determining the fair value of any securities. The types of factors that may be considered in determining the fair values of our investments include the nature and realizable value of any collateral, the portfolio company's ability to make payments and its earnings, the markets in which the portfolio company does business, comparison to publicly traded companies, discounted cash flow, current market interest rates and other relevant factors. Because such valuations, and particularly valuations of private securities and private companies, are inherently uncertain, the valuations may fluctuate significantly over short periods of time due to changes in current market conditions. The determinations of fair value by our Board of Directors may differ materially from the values that would have been used if an active market and market quotations existed for these investments. Our net asset value could be adversely affected if the determinations regarding the fair value of our investments were materially higher than the values that we ultimately realize upon the disposal of such securities.

Senior securities, including debt, expose us to additional risks, including the typical risks associated with leverage.

We currently use our revolving credit facility to leverage our portfolio and we expect in the future to borrow from and issue senior debt securities to banks and other lenders and may securitize certain of our portfolio investments.

With certain limited exceptions, as a BDC we are only allowed to borrow amounts such that our asset coverage, as defined in the 1940 Act, is at least 200% after such borrowing. The amount of leverage that we employ will depend on our Investment Adviser's and our Board of Directors' assessment of market conditions and other factors at the time of any proposed borrowing. There is no assurance that a leveraging strategy will be successful. Leverage involves risks and special considerations for stockholders, including:

A likelihood of greater volatility in the net asset value and market price of our common stock;

Diminished operating flexibility as a result of asset coverage or investment portfolio composition requirements required by lenders or investors that are more stringent than those imposed by the 1940 Act;

The possibility that investments will have to be liquidated at less than full value or at inopportune times to comply with debt covenants or to pay interest or dividends on the leverage;

Increased operating expenses due to the cost of leverage, including issuance and servicing costs;

Convertible or exchangeable securities issued in the future may have rights, preferences and privileges more favorable than those of our common stock; and

Table of Contents

Subordination to lenders – superior claims on our assets as a result of which lenders will be able to receive proceeds available in the case of our liquidation before any proceeds are distributed to our stockholders.

For example, the amount we may borrow under our revolving credit facility is determined, in part, by the fair value of our investments. If the fair value of our investments declines, we may be forced to sell investments at a loss to maintain compliance with our borrowing limits. Other debt facilities we may enter into in the future may contain similar provisions. Any such forced sales would reduce our net asset value and also make it difficult for the net asset value to recover. Our Investment Adviser and our Board of Directors in their best judgment nevertheless may determine to use leverage if they expect that the benefits to our stockholders of maintaining the leveraged position will outweigh the risks.

Illustration. The following table illustrates the effect of leverage on returns from an investment in our common stock assuming various annual returns, net of expenses. The calculations in the table below are hypothetical and actual returns may be higher or lower than those appearing below. The calculation assumes (i) \$667 million in total assets, (ii) an average cost of funds of 7.0%, (iii) \$124.8 million in debt outstanding and (iv) \$532.6 million of shareholders equity.

Assumed Return on Our Portfolio (net of expenses)	(10)%	(5)%	0%	5%	10%
Corresponding Return to Stockholder	(14.2)%	(7.9)%	(1.6)%	4.6%	10.9%

Changes in interest rates may affect our cost of capital and net investment income.

A significant portion of the debt investments we make bears interest at fixed rates and the value of these investments could be negatively affected by increases in market interest rates. In addition, as the interest rate on our revolving credit facility is at a variable rate based on an index, an increase in interest rates would make it more expensive to use debt to finance our investments. As a result, a significant increase in market interest rates could both reduce the value of our portfolio investments and increase our cost of capital, which would reduce our net investment income.

We need to raise additional capital to grow because we must distribute most of our income.

We need additional capital to fund growth in our investments. A reduction in the availability of new capital could limit our ability to grow. We must distribute at least 90% of our ordinary income and realized net short-term capital gains in excess of realized net long-term capital losses, if any, to our shareholders to maintain our RIC status. As a result, such earnings are not available to fund investment originations. We have sought additional capital by borrowing from financial institutions and may issue debt securities or additional equity securities. If we fail to obtain funds from such sources or from other sources to fund our investments, we could be limited in our ability to grow, which may have an adverse effect on the value of our common stock. In addition, as a business development company, we are generally required to maintain a ratio of total assets to total borrowings of at least 200%, which may restrict our ability to borrow in certain circumstances.

The lack of liquidity in our investments may adversely affect our business.

We generally make investments in private companies. Substantially all of these securities are subject to legal and other restrictions on resale or are otherwise less liquid than publicly traded securities. The illiquidity of our investments may make it difficult for us to sell such investments if the need arises. In addition, if we are required to liquidate all or a portion of our portfolio quickly, we may realize significantly less than the value at which we have

previously recorded our investments. In addition, we may face other restrictions on our ability to liquidate an investment in a portfolio company to the extent that we or our Investment Adviser has material non-public information regarding such portfolio company.

We may experience fluctuations in our quarterly results.

We could experience fluctuations in our quarterly operating results due to a number of factors, including the interest or dividend rates payable on the debt or equity securities we hold, the default rate on debt securities, the level of our expenses, variations in and the timing of the recognition of realized and unrealized gains or losses, the

Table of Contents

degree to which we encounter competition in our markets, the seasonality of the energy industry, weather patterns, changes in energy prices and general economic conditions. As a result of these factors, results for any period should not be relied upon as being indicative of performance in future periods.

Our most recent net asset value was calculated on December 31, 2009 and our NAV when calculated effective March 31, 2010 may be higher or lower.

Our most recently estimated NAV per share is \$10.07 on an as adjusted basis solely to give effect to our issuance of common shares on January 25, 2010 in connection with our dividend reinvestment plan, versus \$10.06 determined by us as of December 31, 2009. NAV as of March 31, 2010 may be higher or lower than \$10.07 based on potential changes in valuations and earnings for the quarter then ended. Our Board of Directors has not yet determined the fair value of portfolio investments subsequent to December 31, 2009. Our Board of Directors determines the fair value of our portfolio investments on a quarterly basis in connection with the preparation of quarterly financial statements and based on input from an independent valuation firm, our Investment Advisor and the audit committee of our Board of Directors.

Potential conflicts of interest could impact our investment returns.

Our executive officers and directors, and the executive officers of our Investment Adviser, Prospect Capital Management, may serve as officers, directors or principals of entities that operate in the same or related lines of business as we do or of investment funds managed by our affiliates. Accordingly, they may have obligations to investors in those entities, the fulfillment of which might not be in our best interests or those of our stockholders. Nevertheless, it is possible that new investment opportunities that meet our investment objective may come to the attention of one of these entities in connection with another investment advisory client or program, and, if so, such opportunity might not be offered, or otherwise made available, to us. However, as an investment adviser, Prospect Capital Management has a fiduciary obligation to act in the best interests of its clients, including us. To that end, if Prospect Capital Management or its affiliates manage any additional investment vehicles or client accounts in the future, Prospect Capital Management will endeavor to allocate investment opportunities in a fair and equitable manner over time so as not to discriminate unfairly against any client. If Prospect Capital Management chooses to establish another investment fund in the future, when the investment professionals of Prospect Capital Management identify an investment, they will have to choose which investment fund should make the investment.

In the course of our investing activities, under the Investment Advisory Agreement we pay base management and incentive fees to Prospect Capital Management, and reimburse Prospect Capital Management for certain expenses it incurs. As a result of the Investment Advisory Agreement, there may be times when the senior management team of Prospect Capital Management has interests that differ from those of our stockholders, giving rise to a conflict.

Prospect Capital Management receives a quarterly income incentive fee based, in part, on our pre-incentive fee net investment income, if any, for the immediately preceding calendar quarter. This income incentive fee is subject to a fixed quarterly hurdle rate before providing an income incentive fee return to the Investment Adviser. This fixed hurdle rate was determined when then current interest rates were relatively low on a historical basis. Thus, if interest rates rise, it would become easier for our investment income to exceed the hurdle rate and, as a result, more likely that our Investment Adviser will receive an income incentive fee than if interest rates on our investments remained constant or decreased. Subject to the receipt of any requisite stockholder approval under the 1940 Act, our Board of Directors may adjust the hurdle rate by amending the Investment Advisory Agreement.

The income incentive fee payable by us is computed and paid on income that may include interest that has been accrued but not yet received in cash. If a portfolio company defaults on a loan that has a deferred interest feature, it is possible that interest accrued under such loan that has previously been included in the calculation of the income

incentive fee will become uncollectible. If this happens, our Investment Adviser is not required to reimburse us for any such income incentive fee payments. If we do not have sufficient liquid assets to pay this incentive fee or distributions to stockholders on such accrued income, we may be required to liquidate assets in order to do so. This fee structure could give rise to a conflict of interest for our Investment Adviser to the extent that it may encourage

Table of Contents

the Investment Adviser to favor debt financings that provide for deferred interest, rather than current cash payments of interest.

We have entered into a royalty-free license agreement with Prospect Capital Management. Under this agreement, Prospect Capital Management agrees to grant us a non-exclusive license to use the name Prospect Capital. Under the license agreement, we have the right to use the Prospect Capital name for so long as Prospect Capital Management or one of its affiliates remains our Investment Adviser. In addition, we rent office space from Prospect Administration, an affiliate of Prospect Capital Management, and pay Prospect Administration our allocable portion of overhead and other expenses incurred by Prospect Administration in performing its obligations as Administrator under the Administration Agreement, including rent and our allocable portion of the costs of our chief financial officer and chief compliance officer and their respective staffs. This may create conflicts of interest that our Board of Directors monitors.

Our incentive fee could induce Prospect Capital Management to make speculative investments.

The incentive fee payable by us to Prospect Capital Management may create an incentive for our Investment Adviser to make investments on our behalf that are more speculative or involve more risk than would be the case in the absence of such compensation arrangement. The way in which the incentive fee payable is determined (calculated as a percentage of the return on invested capital) may encourage the Investment Adviser to use leverage to increase the return on our investments. Increased use of leverage and this increased risk of replacement of that leverage at maturity, would increase the likelihood of default, which would disfavor holders of our common stock. Similarly, because the Investment Adviser will receive an incentive fee based, in part, upon net capital gains realized on our investments, the Investment Adviser may invest more than would otherwise be appropriate in companies whose securities are likely to yield capital gains, as compared to income producing securities. Such a practice could result in our investing in more speculative securities than would otherwise be the case, which could result in higher investment losses, particularly during economic downturns.

The incentive fee payable by us to Prospect Capital Management could create an incentive for our Investment Adviser to invest on our behalf in instruments, such as zero coupon bonds, that have a deferred interest feature. Under these investments, we would accrue interest income over the life of the investment but would not receive payments in cash on the investment until the end of the term. Our net investment income used to calculate the income incentive fee, however, includes accrued interest. For example, accrued interest, if any, on our investments in zero coupon bonds will be included in the calculation of our incentive fee, even though we will not receive any cash interest payments in respect of payment on the bond until its maturity date. Thus, a portion of this incentive fee would be based on income that we may not have yet received in cash in the event of default may never receive.

Changes in laws or regulations governing our operations may adversely affect our business.

We and our portfolio companies are subject to regulation by laws at the local, state and U.S. Federal levels. These laws and regulations, as well as their interpretation, may be changed from time to time. Accordingly, changes in these laws or regulations could have a materially adverse effect on our business. For additional information regarding the regulations we are subject to, see Regulation.

Recent developments may increase the risks associated with our business and an investment in us.

The U.S. financial markets have been experiencing a high level of volatility, disruption and distress, which was exacerbated by the failure of several major financial institutions in the last few months of 2008. In addition, the U.S. economy has been in a recession, the aftermath of which may be severe and prolonged. Similar conditions have occurred in the financial markets and economies of numerous other countries and could worsen, both in the U.S. and

globally. These conditions have raised the level of many of the risks described in this document and could have an adverse effect on our portfolio companies as well as on our business, financial condition, results of operations, dividend payments, credit facility, access to capital, valuation of our assets, NAV and our stock price.

Table of Contents

Risks Relating To Our Operation As A Business Development Company

Our Investment Adviser and its senior management team have limited experience managing a business development company under the 1940 Act.

The 1940 Act imposes numerous constraints on the operations of business development companies. For example, business development companies are, with narrow exceptions, required to invest at least 70% of their total assets in securities of certain privately held, thinly traded or distressed U.S. companies, cash, cash equivalents, U.S. government securities and other high quality debt investments that mature in one year or less. Our Investment Adviser's and its senior management team's limited experience in managing a portfolio of assets under such constraints may hinder their ability to take advantage of attractive investment opportunities and, as a result, achieve our investment objective. In addition, our investment strategies differ in some ways from those of other investment funds that have been managed in the past by investment professionals.

A failure on our part to maintain our status as a business development company would significantly reduce our operating flexibility.

If we do not continue to qualify as a business development company, we might be regulated as a registered closed-end investment company under the 1940 Act; our failure to qualify as a BDC would make us subject to additional regulatory requirements, which may significantly decrease our operating flexibility by limiting our ability to employ leverage.

If we fail to qualify as a RIC, we will have to pay corporate-level taxes on our income, and our income available for distribution would be reduced.

To maintain our qualification for federal income tax purposes as a RIC under Subchapter M of the Code, and obtain RIC tax treatment, we must meet certain source of income, asset diversification and annual distribution requirements.

The source of income requirement is satisfied if we derive at least 90% of our annual gross income from interest, dividends, payments with respect to certain securities loans, gains from the sale or other disposition of securities or options thereon or foreign currencies, or other income derived with respect to our business of investing in such securities or currencies, and net income from interests in qualified publicly traded partnerships, as defined in the Code.

The annual distribution requirement for a RIC is satisfied if we distribute at least 90% of our ordinary income and realized net short-term capital gains in excess of realized net long-term capital losses, if any, to our stockholders on an annual basis. Because we use debt financing, we are subject to certain asset coverage ratio requirements under the 1940 Act and financial covenants that could, under certain circumstances, restrict us from making distributions necessary to qualify for RIC tax treatment. If we are unable to obtain cash from other sources, we may fail to qualify for RIC tax treatment and, thus, may be subject to corporate-level income tax.

To maintain our qualification as a RIC, we must also meet certain asset diversification requirements at the end of each calendar quarter. Failure to meet these tests may result in our having to dispose of certain investments quickly in order to prevent the loss of RIC status. Because most of our investments are in private companies, any such dispositions could be made at disadvantageous prices and may result in substantial losses.

If we fail to qualify as a RIC for any reason or become subject to corporate income tax, the resulting corporate taxes could substantially reduce our net assets, the amount of income available for distribution, and the actual amount of our distributions. Such a failure would have a materially adverse effect on us and our stockholders. For additional

information regarding asset coverage ratio and RIC requirements, see Regulation Senior Securities and Material U.S. Federal Income Tax Considerations .

Table of Contents

Regulations governing our operation as a business development company affect our ability to raise, and the way in which we raise, additional capital.

We have incurred indebtedness under our revolving credit facility and, in the future, may issue preferred stock and/or borrow additional money from banks or other financial institutions, which we refer to collectively as senior securities, up to the maximum amount permitted by the 1940 Act. Under the provisions of the 1940 Act, we are permitted, as a BDC, to incur indebtedness or issue senior securities only in amounts such that our asset coverage, as defined in the 1940 Act, equals at least 200% after each issuance of senior securities. If the value of our assets declines, we may be unable to satisfy this test, which would prohibit us from paying dividends and could prohibit us from qualifying as a RIC. If we cannot satisfy this test, we may be required to sell a portion of our investments or sell additional shares of common stock at a time when such sales may be disadvantageous in order to repay a portion of our indebtedness. In addition, issuance of additional common stock could dilute the percentage ownership of our current stockholders in us.

As a BDC regulated under provisions of the 1940 Act, we are not generally able to issue and sell our common stock at a price below the current net asset value per share. If our common stock trades at a discount to net asset value, this restriction could adversely affect our ability to raise capital. We may, however, sell our common stock, or warrants, options or rights to acquire our common stock, at a price below the current net asset value of our common stock in certain circumstances, including if (i)(1) the holders of a majority of our shares (or, if less, at least 67% of a quorum consisting of a majority of our shares) and a similar majority of the holders of our shares who are not affiliated persons of us approve the sale of our common stock at a price that is less than the current net asset value, and (2) a majority of our Directors who have no financial interest in the transaction and a majority of our independent Directors (a) determine that such sale is in our and our stockholders' best interests and (b) in consultation with any underwriter or underwriters of the offering, make a good faith determination as of a time either immediately prior to the first solicitation by us or on our behalf of firm commitments to purchase such shares, or immediately prior to the issuance of such shares, that the price at which such shares are to be sold is not less than a price which closely approximates the market value of such shares, less any distributing commission or discount or if (ii) a majority of the number of the beneficial holders of our common stock entitled to vote at our annual meeting, without regard to whether a majority of such shares are voted in favor of the proposal, approve the sale of our common stock at a price that is less than the current net asset value per share. At our 2008 annual meeting of stockholders held on February 12, 2009, and our 2009 annual meeting of stockholders held on December 11, 2009, we obtained the first method of approval from our shareholders. See If we sell common stock at a discount to our net asset value per share, stockholders who do not participate in such sale will experience immediate dilution in an amount that may be material discussed below.

To generate cash for funding new investments, we pledged a substantial portion of our portfolio investments under our revolving credit facility. These assets are not available to secure other sources of funding or for securitization. Our ability to obtain additional secured or unsecured financing on attractive terms in the future is uncertain.

Alternatively, we may securitize our future loans to generate cash for funding new investments. To securitize loans, we may create a wholly owned subsidiary and contribute a pool of loans to such subsidiary. This could include the sale of interests in the loans by the subsidiary on a non-recourse basis to purchasers who we would expect to be willing to accept a lower interest rate to invest in investment grade loan pools. We would retain a portion of the equity in the securitized pool of loans. An inability to successfully securitize our loan portfolio could limit our ability to grow our business and fully execute our business strategy, and could decrease our earnings, if any. Moreover, the successful securitization of our loan portfolio exposes us to a risk of loss for the equity we retain in the securitized pool of loans and might expose us to losses because the residual loans in which we do not sell interests may tend to be those that are riskier and more likely to generate losses. A successful securitization may also impose financial and operating covenants that restrict our business activities and may include limitations that could hinder our ability to finance additional loans and investments or to make the distributions required to maintain our status as a RIC under

Subchapter M of the Code. The 1940 Act may also impose restrictions on the structure of any securitizations.

Table of Contents

Our common stock may trade at a discount to our net asset value per share.

Common stock of BDCs, like that of closed-end investment companies, frequently trades at a discount to current net asset value, which could adversely affect the ability to raise capital. In the past, our common stock has traded at a discount to our net asset value. However, we have been able to periodically raise capital pursuant to authority granted by our stockholders at our 2008 and 2009 annual meetings to sell an unlimited number of shares of our common stock at any level of discount from net asset value during the 12 month period following such approval. The risk that our common stock may continue to trade at a discount to our net asset value is separate and distinct from the risk that our net asset value per share may decline.

If we sell common stock at a discount to our net asset value per share, stockholders who do not participate in such sale will experience immediate dilution in an amount that may be material.

At our 2009 annual meeting of stockholders held on December 11, 2009, our stockholders approved our ability to sell an unlimited number of shares of our common stock at any level of discount from net asset value per share during the 12 month period following the December 11, 2009 approval in accordance with the exception described above in

Regulations governing our operation as a business development company affect our ability to raise, and the way in which we raise, additional capital. The issuance or sale by us of shares of our common stock at a discount to net asset value poses a risk of dilution to our stockholders. In particular, stockholders who do not purchase additional shares at or below the discounted price in proportion to their current ownership will experience an immediate decrease in net asset value per share (as well as in the aggregate net asset value of their shares if they do not participate at all). These stockholders will also experience a disproportionately greater decrease in their participation in our earnings and assets and their voting power than the increase we experience in our assets, potential earning power and voting interests from such issuance or sale. They may also experience a reduction in the market price of our common stock. For additional information and hypothetical examples of these risks, see [Sales of Common Stock Below Net Asset Value](#) and the prospectus supplement pursuant to which such sale is made.

We may have difficulty paying our required distributions if we recognize income before or without receiving cash representing such income.

For U.S. Federal income tax purposes, we include in income certain amounts that we have not yet received in cash, such as original issue discount, which may arise if we receive warrants in connection with the making of a loan or possibly in other circumstances, or payment-in-kind interest, which represents contractual interest added to the loan balance and due at the end of the loan term. Such original issue discount, which could be significant relative to our overall investment activities, or increases in loan balances as a result of payment-in-kind arrangements, are included in our taxable income before we receive any corresponding cash payments. We also may be required to include in taxable income certain other amounts that we do not receive in cash. While we focus primarily on investments that will generate a current cash return, our investment portfolio currently includes, and we may continue to invest in, securities that do not pay some or all of their return in periodic current cash distributions.

The income incentive fee payable by us is computed and paid on income that may include interest that has been accrued but not yet received in cash. If a portfolio company defaults on a loan that is structured to provide accrued interest, it is possible that accrued interest previously used in the calculation of the income incentive fee will become uncollectible.

Since in some cases we may recognize taxable income before or without receiving cash representing such income, we may have difficulty meeting the tax requirement to distribute at least 90% of our ordinary income and realized net short-term capital gains in excess of realized net long-term capital losses, if any, to maintain RIC tax treatment. Accordingly, we may have to sell some of our investments at times we would not consider advantageous, raise

additional debt or equity capital or reduce new investment originations to meet these distribution requirements. If we are not able to obtain cash from other sources, we may fail to qualify for RIC treatment and thus become subject to corporate-level income tax. See Regulation Senior Securities and Material U.S. Federal Income Tax Considerations .

Table of Contents

Our ability to enter into transactions with our affiliates is restricted.

We are prohibited under the 1940 Act from knowingly participating in certain transactions with our affiliates without the prior approval of our independent directors. Any person that owns, directly or indirectly, 5% or more of our outstanding voting securities is our affiliate for purposes of the 1940 Act and we are generally prohibited from buying or selling any security or other property from or to such affiliate, absent the prior approval of our independent directors. The 1940 Act also prohibits joint transactions with an affiliate, which could include investments in the same portfolio company (whether at the same or different times), without prior approval of our independent directors. We are prohibited from buying or selling any security or other property from or to our Investment Adviser and its affiliates and persons with whom we are in a control relationship, or entering into joint transactions with any such person, absent the prior approval of the SEC.

The Company may be unable to realize the benefits anticipated by the merger with Patriot or may take longer than anticipated to achieve such benefits.

On December 2, 2009, we completed our previously announced acquisition of Patriot under the Agreement and Plan of Merger, dated as of August 3, 2009, by and among, us and Patriot. The realization of certain benefits anticipated as a result of the merger will depend in part on the integration of Patriot's investment portfolio with the Company and the successful inclusion of Patriot's investment portfolio in the Company's financing operations. There can be no assurance that Patriot's business can be operated profitably or integrated successfully into the Company's operations in a timely fashion or at all. The dedication of management resources to such integration may detract attention from the day-to-day business of the Company and there can be no assurance that there will not be substantial costs associated with the transition process or that there will not be other material adverse effects as a result of these integration efforts. Such effects, including but not limited to, incurring unexpected costs or delays in connection with such integration and failure of Patriot's investment portfolio to perform as expected, could have a material adverse effect on the financial results of the Company.

Risks Relating To Our Investments

We may not realize gains or income from our investments.

We seek to generate both current income and capital appreciation. However, the securities we invest in may not appreciate and, in fact, may decline in value, and the issuers of debt securities we invest in may default on interest and/or principal payments. Accordingly, we may not be able to realize gains from our investments, and any gains that we do realize may not be sufficient to offset any losses we experience. See **Business** **Our Investment Objective and Policies** .

Our portfolio is concentrated in a limited number of portfolio companies, particularly those in the energy industry, which subject us to a risk of significant loss if any of these companies defaults on its obligations under any of the securities that we hold or if the energy industry experiences a downturn.

As of February 25, 2010, we had invested in a number of companies in the energy and energy related industries. A consequence of this lack of diversification is that the aggregate returns we realize may be significantly and adversely affected if a small number of such investments perform poorly or if we need to write down the value of any one investment. Beyond our income tax diversification requirements, we do not have fixed guidelines for diversification, and our investments are concentrated in relatively few portfolio companies. In addition, to date we have concentrated on making investments in the energy industry. While we expect to be less focused on the energy and energy related industries in the future, we anticipate that we will continue to have significant holdings in the energy and energy related industries. As a result, a downturn in the energy industry could materially and adversely affect us.

The energy industry is subject to many risks.

We have a significant concentration in the energy industry. Our definition of energy, as used in the context of the energy industry, is broad, and different sectors in the energy industry may be subject to variable risks and economic pressures. As a result, it is difficult to anticipate the impact of changing economic and political conditions

Table of Contents

on our portfolio companies and, as a result, our financial results. The revenues, income (or losses) and valuations of energy companies can fluctuate suddenly and dramatically due to any one or more of the following factors:

Commodity Pricing Risk. Energy companies in general are directly affected by energy commodity prices, such as the market prices of crude oil, natural gas and wholesale electricity, especially for those that own the underlying energy commodity. In addition, the volatility of commodity prices can affect other energy companies due to the impact of prices on the volume of commodities transported, processed, stored or distributed and on the cost of fuel for power generation companies. The volatility of commodity prices can also affect energy companies' ability to access the capital markets in light of market perception that their performance may be directly tied to commodity prices. Historically, energy commodity prices have been cyclical and exhibited significant volatility. Although we generally prefer risk controls, including appropriate commodity and other hedges, by certain of our portfolio companies, if available, some of our portfolio companies may not engage in hedging transactions to minimize their exposure to commodity price risk. For those companies that engage in such hedging transactions, they remain subject to market risks, including market liquidity and counterparty creditworthiness. In addition, such companies may also still have exposure to market prices if such companies do not produce volumes or other contractual obligations in accordance with such hedging contracts.

Regulatory Risk. The profitability of energy companies could be adversely affected by changes in the regulatory environment. The businesses of energy companies are heavily regulated by federal, state and local governments in diverse ways, such as the way in which energy assets are constructed, maintained and operated and the prices energy companies may charge for their products and services. Such regulation can change over time in scope and intensity. For example, a particular by-product of an energy process may be declared hazardous by a regulatory agency, which can unexpectedly increase production costs. Moreover, many state and federal environmental laws provide for civil penalties as well as regulatory remediation, thus adding to the potential liability an energy company may face. In addition, the deregulation of energy markets and the unresolved regulatory issues related to some power markets such as California create uncertainty in the regulatory environment as rules and regulations may be adopted on a transitional basis. We cannot assure you that the deregulation of energy markets will continue and if it continues, whether its impact on energy companies' profitability will be positive.

Production Risk. The profitability of energy companies may be materially impacted by the volume of crude oil, natural gas or other energy commodities available for transporting, processing, storing, distributing or power generation. A significant decrease in the production of natural gas, crude oil, coal or other energy commodities, due to the decline of production from existing facilities, import supply disruption, depressed commodity prices, political events, OPEC actions or otherwise, could reduce revenue and operating income or increase operating costs of energy companies and, therefore, their ability to pay debt or dividends.

Demand Risk. A sustained decline in demand for crude oil, natural gas, refined petroleum products and electricity could materially affect revenues and cash flows of energy companies. Factors that could lead to a decrease in market demand include a recession or other adverse economic conditions, an increase in the market price of the underlying commodity, higher taxes or other regulatory actions that increase costs, or a shift in consumer demand for such products.

Depletion and Exploration Risk. A portion of any one energy company's assets may be dedicated to natural gas, crude oil and/or coal reserves and other commodities that naturally deplete over time. Depletion could have a materially adverse impact on such company's ability to maintain its revenue. Further, estimates of energy reserves may not be accurate and, even if accurate, reserves may not be fully utilized at reasonable costs. Exploration of energy resources, especially of oil and gas, is inherently risky and requires large amounts

of capital.

Weather Risk. Unseasonable extreme weather patterns could result in significant volatility in demand for energy and power. In addition, hurricanes, storms, tornados, floods, rain, and other significant weather events could disrupt supply and other operations at our portfolio companies as well as customers or suppliers to such companies. This volatility may create fluctuations in earnings of energy companies.

Table of Contents

Operational Risk. Energy companies are subject to various operational risks, such as failed drilling or well development, unscheduled outages, underestimated cost projections, unanticipated operation and maintenance expenses, failure to obtain the necessary permits to operate and failure of third-party contractors (for example, energy producers and shippers) to perform their contractual obligations. In addition, energy companies employ a variety of means of increasing cash flow, including increasing utilization of existing facilities, expanding operations through new construction, expanding operations through acquisitions, or securing additional long-term contracts. Thus, some energy companies may be subject to construction risk, acquisition risk or other risk factors arising from their specific business strategies.

Competition Risk. The progress in deregulating energy markets has created more competition in the energy industry. This competition is reflected in risks associated with marketing and selling energy in the evolving energy market and a competitor's development of a lower-cost energy or power source, or of a lower cost means of operations, and other risks arising from competition.

Valuation Risk. Since mid-2001, excess power generation capacity in certain regions of the United States has caused substantial decreases in the market capitalization of many energy companies. While such prices have recovered to some extent, we can offer no assurance that such decreases in market capitalization will not recur, or that any future decreases in energy company valuations will be insubstantial or temporary in nature.

Terrorism Risk. Since the September 11th attacks, the United States government has issued public warnings indicating that energy assets, specifically those related to pipeline infrastructure, production facilities and transmission and distribution facilities, might be specific targets of terrorist activity. The continued threat of terrorism and related military activity will likely increase volatility for prices of natural gas and oil and could affect the market for products and services of energy companies. In addition, any future terrorist attack or armed conflict in the United States or elsewhere may undermine economic conditions in the United States in general.

Financing Risk. Some of our portfolio companies rely on the capital markets to raise money to pay their existing obligations. Their ability to access the capital markets on attractive terms or at all may be affected by any of the risks associated with energy companies described above, by general economic and market conditions or by other factors. This may in turn affect their ability to satisfy their obligations with us.

Climate Change. There is evidence of global climate change. Climate change creates physical and financial risk and some of our portfolio companies may be adversely affected by climate change. For example, customers of energy companies needs vary with weather conditions, primarily temperature and humidity. To the extent weather conditions are affected by climate change, energy use could increase or decrease depending on the duration and magnitude of any changes. Increased energy use due to weather changes may require additional investments by our portfolio companies in more pipelines and other infrastructure to serve increased demand. A decrease in energy use due to weather changes may affect our portfolio companies financial condition, through decreased revenues. Extreme weather conditions in general require more system backup, adding to costs, and can contribute to increased system stresses, including service interruptions. Energy companies could also be affected by the potential for lawsuits against or taxes or other regulatory costs imposed on greenhouse gas emitters, based on links drawn between greenhouse gas emissions and climate change.

Our investments in prospective portfolio companies may be risky and we could lose all or part of our investment.

Some of our portfolio companies have relatively short or no operating histories. These companies are and will be subject to all of the business risk and uncertainties associated with any new business enterprise, including the risk that these companies may not reach their investment objective and the value of our investment in them may decline substantially or fall to zero.

Table of Contents

In addition, investment in the middle market companies that we are targeting involves a number of other significant risks, including:

these companies may have limited financial resources and may be unable to meet their obligations under their securities that we hold, which may be accompanied by a deterioration in the value of their securities or of any collateral with respect to any securities and a reduction in the likelihood of our realizing on any guarantees we may have obtained in connection with our investment;

they may have shorter operating histories, narrower product lines and smaller market shares than larger businesses, which tend to render them more vulnerable to competitors' actions and market conditions, as well as general economic downturns;

because many of these companies are privately held companies, public information is generally not available about these companies. As a result, we will depend on the ability of our Investment Adviser to obtain adequate information to evaluate these companies in making investment decisions. If our Investment Adviser is unable to uncover all material information about these companies, it may not make a fully informed investment decision, and we may lose money on our investments;

they are more likely to depend on the management talents and efforts of a small group of persons; therefore, the death, disability, resignation or termination of one or more of these persons could have a materially adverse impact on our portfolio company and, in turn, on us;

they may have less predictable operating results, may from time to time be parties to litigation, may be engaged in changing businesses with products subject to a risk of obsolescence and may require substantial additional capital to support their operations, finance expansion or maintain their competitive position;

they may have difficulty accessing the capital markets to meet future capital needs;

increased taxes, regulatory expense or the costs of changes to the way they conduct business due to the effects of climate change may adversely affect their business, financial structure or prospects.

In addition, our executive officers, directors and our Investment Adviser could, in the ordinary course of business, be named as defendants in litigation arising from proposed investments or from our investments in the portfolio companies.

Economic recessions or downturns could impair our portfolio companies and harm our operating results.

The U.S. financial markets have been experiencing a high level of volatility, disruption and distress, which was exacerbated by the failure of several major financial institutions in the last few months of 2008. In addition, the U.S. economy has been in a recession, the aftermath of which may be severe and prolonged. Similar conditions have occurred in the financial markets and economies of numerous other countries and could worsen, both in the U.S. and globally. Our portfolio companies will generally be affected by the conditions and overall strength of the national, regional and local economies, including interest rate fluctuations, changes in the capital markets and changes in the prices of their primary commodities and products. These factors also impact the amount of residential, industrial and commercial growth in the energy industry. Additionally, these factors could adversely impact the customer base and customer collections of our portfolio companies.

As a result, many of our portfolio companies may be susceptible to economic slowdowns or recessions and may be unable to repay our loans or meet other obligations during these periods. Therefore, our non-performing assets are

likely to increase, and the value of our portfolio is likely to decrease, during these periods. Adverse economic conditions also may decrease the value of collateral securing some of our loans and the value of our equity investments. Economic slowdowns or recessions could lead to financial losses in our portfolio and a decrease in revenues, net income and assets. Unfavorable economic conditions also could increase our funding costs, limit our access to the capital markets or result in a decision by lenders not to extend credit to us. These events could prevent us from increasing investments and harm our operating results.

A portfolio company's failure to satisfy financial or operating covenants imposed by us or other lenders could lead to defaults and, potentially, termination of its loans and foreclosure on its secured assets, which could trigger

Table of Contents

cross-defaults under other agreements and jeopardize a portfolio company's ability to meet its obligations under the debt or equity securities that we hold. We may incur expenses to the extent necessary to seek recovery upon default or to negotiate new terms, which may include the waiver of certain financial covenants, with a defaulting portfolio company. In addition, if one of our portfolio companies were to go bankrupt, even though we may have structured our interest as senior debt or preferred equity, depending on the facts and circumstances, including the extent to which we actually provided managerial assistance to that portfolio company, a bankruptcy court might re-characterize our debt or equity holding and subordinate all or a portion of our claim to those of other creditors.

The lack of liquidity in our investments may adversely affect our business.

We make investments in private companies. A portion of these investments may be subject to legal and other restrictions on resale, transfer, pledge or other disposition or will otherwise be less liquid than publicly traded securities. The illiquidity of our investments may make it difficult for us to sell such investments if the need arises. In addition, if we are required to liquidate all or a portion of our portfolio quickly, we may realize significantly less than the value at which we have previously recorded our investments. In addition, we face other restrictions on our ability to liquidate an investment in a business entity to the extent that we or our Investment Adviser has or could be deemed to have material non-public information regarding such business entity.

We may have limited access to information about privately held companies in which we invest.

We invest primarily in privately-held companies. Generally, little public information exists about these companies, and we are required to rely on the ability of our Investment Adviser's investment professionals to obtain adequate information to evaluate the potential returns from investing in these companies. These companies and their financial information are not subject to the Sarbanes-Oxley Act and other rules that govern public companies. If we are unable to uncover all material information about these companies, we may not make a fully informed investment decision, and we may lose money on our investment.

We may not be in a position to control a portfolio investment when we are a debt or minority equity investor and its management may make decisions that could decrease the value of our investment.

We make both debt and minority equity investments in portfolio companies. As a result, we are subject to the risk that a portfolio company may make business decisions with which we disagree, and the management of such company, as representatives of the holders of their common equity, may take risks or otherwise act in ways that do not serve our interests. As a result, a portfolio company may make decisions that could decrease the value of our portfolio holdings.

Our portfolio companies may incur debt or issue equity securities that rank equally with, or senior to, our investments in such companies.

We may invest in mezzanine debt and dividend-paying equity securities issued by our portfolio companies. Our portfolio companies usually have, or may be permitted to incur, other debt, or issue other equity securities, that rank equally with, or senior to, the securities in which we invest. By their terms, such instruments may provide that the holders are entitled to receive payment of dividends, interest or principal on or before the dates on which we are entitled to receive payments in respect of the securities in which we invest. Also, in the event of insolvency, liquidation, dissolution, reorganization or bankruptcy of a portfolio company, holders of securities ranking senior to our investment in that portfolio company would typically be entitled to receive payment in full before we receive any distribution in respect of our investment. After repaying the senior security holders, the portfolio company may not have any remaining assets to use for repaying its obligation to us. In the case of securities ranking equally with securities in which we invest, we would have to share on an equal basis any distributions with other security holders in the event of an insolvency, liquidation, dissolution, reorganization or bankruptcy of the relevant portfolio company.

Table of Contents

We may not be able to fully realize the value of the collateral securing our debt investments.

Although a substantial amount of our debt investments are protected by holding security interests in the assets of the portfolio companies, we may not be able to fully realize the value of the collateral securing our investments due to one or more of the following factors:

our debt investments are primarily made in the form of mezzanine loans, therefore our liens on the collateral, if any, are subordinated to those of the senior secured debt of the portfolio companies, if any. As a result, we may not be able to control remedies with respect to the collateral;

the collateral may not be valuable enough to satisfy all of the obligations under our secured loan, particularly after giving effect to the repayment of secured debt of the portfolio company that ranks senior to our loan;

bankruptcy laws may limit our ability to realize value from the collateral and may delay the realization process;

our rights in the collateral may be adversely affected by the failure to perfect security interests in the collateral;

the need to obtain regulatory and contractual consents could impair or impede how effectively the collateral would be liquidated and could affect the value received; and

some or all of the collateral may be illiquid and may have no readily ascertainable market value. The liquidity and value of the collateral could be impaired as a result of changing economic conditions, competition, and other factors, including the availability of suitable buyers.

Our investments in foreign securities may involve significant risks in addition to the risks inherent in U.S. investments.

Our investment strategy contemplates potential investments in securities of foreign companies. Investing in foreign companies may expose us to additional risks not typically associated with investing in U.S. companies. These risks include changes in exchange control regulations, political and social instability, expropriation, imposition of foreign taxes, less liquid markets and less available information than is generally the case in the United States, higher transaction costs, less government supervision of exchanges, brokers and issuers, less developed bankruptcy laws, difficulty in enforcing contractual obligations, lack of uniform accounting and auditing standards and greater price volatility.

Although currently most of our investments are, and we expect that most of our investments will be, U.S. dollar-denominated, investments that are denominated in a foreign currency will be subject to the risk that the value of a particular currency will change in relation to one or more other currencies. Among the factors that may affect currency values are trade balances, the level of short-term interest rates, differences in relative values of similar assets in different currencies, long-term opportunities for investment and capital appreciation, and political developments.

We may expose ourselves to risks if we engage in hedging transactions.

We may employ hedging techniques to minimize certain investment risks, such as fluctuations in interest and currency exchange rates, but we can offer no assurance that such strategies will be effective. If we engage in hedging transactions, we may expose ourselves to risks associated with such transactions. We may utilize instruments such as forward contracts, currency options and interest rate swaps, caps, collars and floors to seek to hedge against fluctuations in the relative values of our portfolio positions from changes in currency exchange rates and market

interest rates. Hedging against a decline in the values of our portfolio positions does not eliminate the possibility of fluctuations in the values of such positions or prevent losses if the values of such positions decline. However, such hedging can establish other positions designed to gain from those same developments, thereby offsetting the decline in the value of such portfolio positions. Such hedging transactions may also limit the opportunity for gain if the values of the portfolio positions should increase. Moreover, it may not be possible to hedge against an exchange rate or interest rate fluctuation that is so generally anticipated that we are not able to enter into a hedging transaction at an acceptable price.

Table of Contents

The success of our hedging transactions depends on our ability to correctly predict movements, currencies and interest rates. Therefore, while we may enter into such transactions to seek to reduce currency exchange rate and interest rate risks, unanticipated changes in currency exchange rates or interest rates may result in poorer overall investment performance than if we had not engaged in any such hedging transactions. The degree of correlation between price movements of the instruments used in a hedging strategy and price movements in the portfolio positions being hedged may vary. Moreover, for a variety of reasons, we may not seek to establish a perfect correlation between such hedging instruments and the portfolio holdings being hedged. Any such imperfect correlation may prevent us from achieving the intended hedge and expose us to risk of loss. In addition, it may not be possible to hedge fully or perfectly against currency fluctuations affecting the value of securities denominated in non-U.S. currencies.

Our Board of Directors may change our operating policies and strategies without prior notice or stockholder approval, the effects of which may be adverse to us and could impair the value of our stockholders' investment.

Our Board of Directors has the authority to modify or waive our current operating policies and our strategies without prior notice and without stockholder approval. We cannot predict the effect any changes to our current operating policies and strategies would have on our business, financial condition, and value of our common stock. However, the effects might be adverse, which could negatively impact our ability to pay dividends and cause stockholders to lose all or part of their investment.

Risks Relating To Our Securities

Investing in our securities may involve a high degree of risk.

The investments we make in accordance with our investment objective may result in a higher amount of risk than alternative investment options and volatility or loss of principal. Our investments in portfolio companies may be speculative and aggressive, and therefore, an investment in our shares may not be suitable for someone with low risk tolerance.

The market price of our securities may fluctuate significantly.

The market price and liquidity of the market for our securities may be significantly affected by numerous factors, some of which are beyond our control and may not be directly related to our operating performance. These factors include:

significant volatility in the market price and trading volume of securities of business development companies or other companies in the energy industry, which are not necessarily related to the operating performance of these companies;

changes in regulatory policies or tax guidelines, particularly with respect to RICs or business development companies;

loss of RIC qualification;

changes in earnings or variations in operating results;

changes in the value of our portfolio of investments;

any shortfall in revenue or net income or any increase in losses from levels expected by investors or securities analysts;

departure of one or more of Prospect Capital Management's key personnel;

operating performance of companies comparable to us;

changes in prevailing interest rates;

litigation matters;

Table of Contents

general economic trends and other external factors; and

loss of a major funding source.

Sales of substantial amounts of our securities in the public market may have an adverse effect on the market price of our securities.

As of February 25, 2010, we have 63,586,731 shares of common stock outstanding. Sales of substantial amounts of our securities or the availability of such securities for sale could adversely affect the prevailing market price for our securities. If this occurs and continues it could impair our ability to raise additional capital through the sale of securities should we desire to do so.

There is a risk that you may not receive distributions or that our distributions may not grow over time.

We have made and intend to continue to make distributions on a quarterly basis to our stockholders out of assets legally available for distribution. We cannot assure you that we will achieve investment results or maintain a tax status that will allow or require any specified level of cash distributions or year-to-year increases in cash distributions. In addition, due to the asset coverage test applicable to us as a business development company, we may be limited in our ability to make distributions.

Provisions of the Maryland General Corporation Law and of our charter and bylaws could deter takeover attempts and have an adverse impact on the price of our common stock.

Our charter and bylaws and the Maryland General Corporation Law contain provisions that may have the effect of delaying, deferring or preventing a transaction or a change in control that might involve a premium price for our stockholders or otherwise be in their best interest. These provisions may prevent shareholders from being able to sell shares of its common stock at a premium over the current of prevailing market prices.

Our charter provides for the classification of our Board of Directors into three classes of directors, serving staggered three-year terms, which may render a change of control or removal of our incumbent management more difficult. Furthermore, any and all vacancies on our Board of Directors will be filled generally only by the affirmative vote of a majority of the remaining directors in office, even if the remaining directors do not constitute a quorum, and any director elected to fill a vacancy will serve for the remainder of the full term until a successor is elected and qualifies.

Our Board of Directors is authorized to create and issue new series of shares, to classify or reclassify any unissued shares of stock into one or more classes or series, including preferred stock and, without stockholder approval, to amend our charter to increase or decrease the number of shares of common stock that we have authority to issue, which could have the effect of diluting a stockholder's ownership interest. Prior to the issuance of shares of common stock of each class or series, including any reclassified series, our Board of Directors is required by our governing documents to set the terms, preferences, conversion or other rights, voting powers, restrictions, limitations as to dividends or other distributions, qualifications and terms or conditions of redemption for each class or series of shares of stock.

Our charter and bylaws also provide that our Board of Directors has the exclusive power to adopt, alter or repeal any provision of our bylaws, and to make new bylaws. The Maryland General Corporation Law also contains certain provisions that may limit the ability of a third party to acquire control of us, such as:

The Maryland Business Combination Act, which, subject to certain limitations, prohibits certain business combinations between us and an interested stockholder (defined generally as any person who beneficially owns 10% or more of the voting power of the common stock or an affiliate thereof) for five years after the most recent date on which the stockholder becomes an interested stockholder and, thereafter, imposes special minimum price provisions and special stockholder voting requirements on these combinations; and

The Maryland Control Share Acquisition Act, which provides that control shares of a Maryland corporation (defined as shares of common stock which, when aggregated with other shares of common stock controlled by the stockholder, entitles the stockholder to exercise one of three increasing ranges of

Table of Contents

voting power in electing directors, as described more fully below) acquired in a control share acquisition (defined as the direct or indirect acquisition of ownership or control of control shares) have no voting rights except to the extent approved by stockholders by the affirmative vote of at least two-thirds of all the votes entitled to be cast on the matter, excluding all interested shares of common stock.

The provisions of the Maryland Business Combination Act will not apply, however, if our Board of Directors adopts a resolution that any business combination between us and any other person will be exempt from the provisions of the Maryland Business Combination Act. Although our Board of Directors has adopted such a resolution, there can be no assurance that this resolution will not be altered or repealed in whole or in part at any time. If the resolution is altered or repealed, the provisions of the Maryland Business Combination Act may discourage others from trying to acquire control of us.

As permitted by Maryland law, our bylaws contain a provision exempting from the Maryland Control Share Acquisition Act any and all acquisitions by any person of our common stock. Although our bylaws include such a provision, such a provision may also be amended or eliminated by our Board of Directors at any time in the future, provided that we will notify the Division of Investment Management at the SEC prior to amending or eliminating this provision.

We may in the future choose to pay dividends in our own stock, in which case our shareholders may be required to pay tax in excess of the cash they receive.

We may distribute taxable dividends that are payable in part in our stock. Under IRS Revenue Procedure 2010-12, which extended and modified Revenue Procedure 2009-15, up to 90% of any such taxable dividend for 2009, 2010, and 2011 could be payable in our stock. The IRS has also issued (and where Revenue Procedure 2009-15 or 2010-12 is not currently applicable, the IRS continues to issue) private letter rulings on cash/stock dividends paid by regulated investment companies and real estate investment trusts using a 20% cash standard (instead of the 10% cash standard of Revenue Procedures 2009-15 and 2010-12) if certain requirements are satisfied. Taxable stockholders receiving such dividends would be required to include the full amount of the dividend as ordinary income (or as long-term capital gain to the extent such distribution is properly designated as a capital gain dividend) to the extent of its current and accumulated earnings and profits for United States federal income tax purposes. As a result, a U.S. stockholder may be required to pay tax with respect to such dividends in excess of any cash received. If a U.S. stockholder sells the stock it receives as a dividend in order to pay this tax, it may be subject to transaction fees (e.g. broker fees or transfer agent fees) and the sales proceeds may be less than the amount included in income with respect to the dividend, depending on the market price of our stock at the time of the sale. Furthermore, with respect to non-U.S. stockholders, we may be required to withhold U.S. tax with respect to such dividends, including in respect of all or a portion of such dividend that is payable in stock. In addition, if a significant number of our stockholders determine to sell shares of its stock in order to pay taxes owed on dividends, it may put downward pressure on the trading price of our stock. It is unclear whether and to what extent we will be able to pay dividends in cash and our stock (whether pursuant to Revenue Procedure 2009-15 or 2010-12, a private letter ruling, or otherwise).

**MANAGEMENT'S DISCUSSION AND ANALYSIS OF
FINANCIAL CONDITION AND RESULTS OF OPERATIONS**

(All figures in this section are in thousands except share, per share and other data)

The following discussion should be read in conjunction with our financial statements and related notes and other financial information appearing elsewhere in this prospectus. In addition to historical information, the following discussion and other parts of this prospectus contain forward-looking information that involves risks and uncertainties. Our actual results could differ materially from those anticipated by such forward-looking information due to the factors discussed under Risk Factors and Forward-Looking Statements appearing elsewhere herein.

Note on Forward Looking Statements

Some of the statements in this report constitute forward-looking statements, which relate to future events or our future performance or financial condition. The forward-looking statements contained herein involve risks and uncertainties, including statements as to:

our future operating results;

our business prospects and the prospects of our portfolio companies;

the impact of investments that we expect to make;

our contractual arrangements and relationships with third parties;

the dependence of our future success on the general economy and its impact on the industries in which we invest;

the ability of our portfolio companies to achieve their objectives;

our expected financings and investments;

the adequacy of our cash resources and working capital; and

the timing of cash flows, if any, from the operations of our portfolio companies.

We generally use words such as anticipates, believes, expects, intends and similar expressions to identify forward-looking statements. Our actual results could differ materially from those projected in the forward-looking statements for any reason, including the factors set forth in Risk Factors and elsewhere in this prospectus. These forward-looking statements do not meet the safe harbor for forward-looking statements pursuant to Section 27A of the Securities Act.

We have based the forward-looking statements included in herein on information available to us on the date of this document, and we assume no obligation to update any such forward-looking statements. Although we undertake no obligation to revise or update any forward-looking statements, whether as a result of new information, future events or otherwise, you are advised to consult any additional disclosures that we may make directly to you or through reports

that we in the future may file with the Securities and Exchange Commission (SEC), including any annual reports on Form 10-K, quarterly reports on Form 10-Q and current reports on Form 8-K.

General

We are a financial services company that primarily lends to and invests in middle market privately-held companies. We are a closed-end investment company that has filed an election to be treated as a business development company under the Investment Company Act of 1940, or the 1940 Act. We invest primarily in senior and subordinated debt and equity of companies in need of capital for acquisitions, divestitures, growth, development, project financing and recapitalization. We work with the management teams or financial sponsors to seek investments with historical cash flows, asset collateral or contracted pro-forma cash flows.

Table of Contents

We seek to be a long-term investor with our portfolio companies. Since the fiscal year ended June 30, 2007, we have invested primarily in industries related to the industrial/energy economy. Since then, we have widened our strategy to focus in other sectors of the economy and continue to diversify our portfolio holdings.

Patriot Acquisition

On December 2, 2009, we acquired the outstanding shares of Patriot Capital Funding, Inc. (Patriot) common stock for \$201,083. Under the terms of the merger agreement, Patriot common shareholders received 0.363992 shares of our common stock for each share of Patriot common stock, resulting in 8,444,068 shares of common stock being issued by us. In connection with the transaction, we repaid all the outstanding borrowings of Patriot, in compliance with the merger agreement.

On December 2, 2009, Patriot made a final dividend equal to its undistributed net ordinary income and capital gains of \$0.38 per share. In accordance with a recent IRS revenue procedure, the dividend was paid 10% in cash and 90% in newly issued shares of Patriot s common stock. The exchange ratio was adjusted to give effect to the tax distribution.

The merger has been accounted for as an acquisition of Patriot by Prospect Capital Corporation (Prospect) in accordance with acquisition method of accounting as detailed in ASC 805, *Business Combinations* (ASC 805). The fair value of the consideration paid was allocated to the assets acquired and liabilities assumed based on their fair values as the date of acquisition. As described in more detail in ASC 805, goodwill, if any, would have been recognized as of the acquisition date, if the consideration transferred exceeded the fair value of identifiable net assets acquired. As of the acquisition date, the fair value of the identifiable net assets acquired exceeded the fair value of the consideration transferred, and we recognized the excess as a gain. A gain of \$5,714 was recorded by Prospect in the quarter ended December 31, 2009 related to the acquisition of Patriot. The acquisition of Patriot was negotiated in July 2009 with the purchase agreement being signed on August 3, 2009. Between July 2009 and December 2, 2009, our valuation of certain of the investments acquired from Patriot increased due to market improvement, which resulted in the recognition of the gain at closing.

The purchase price has been allocated to the assets acquired and the liabilities assumed based on their estimated fair values as summarized in the following table:

Cash (to repay Patriot debt)	\$ 107,313
Cash (to fund purchase of restricted stock from former Patriot employees)	970
Common stock issued(1)	92,800
Total purchase price	201,083
Assets acquired:	
Investments(2)	207,126
Cash and cash equivalents	1,697
Other assets	3,859
Assets acquired	212,682
Other liabilities assumed	(5,885)
Net assets acquired	206,797
Preliminary gain on Patriot acquisition(3)	\$ 5,714

- (1) The value of the shares of common stock exchanged with the Patriot common shareholders was based upon the closing price of our common stock on December 2, 2009, the price immediately prior to the closing of the transaction.
- (2) The fair value of Patriot's investments were determined by the Board of Directors in conjunction with an independent valuation agent. This valuation resulted in a purchase price which was \$98,150 below the amortized cost of such investments. For those assets which are performing, Prospect will record the accretion to par value in interest income over the remaining term of the investment.

Table of Contents

- (3) The preliminary gain has been determined based upon the estimated value of certain liabilities which are not yet settled. Any changes to such accruals will be recoded in future periods as an adjustment to such gain. We do not believe such adjustments will be material.

During the period from the acquisition of Patriot on December 2, 2009 to December 31, 2009, we recognized \$7,495 of interest income from the assets acquired from Patriot. Included in this amount is \$4,560 resulting from the acceleration of purchase discounts from the early repayments of three loans, three revolving lines of credit and the sale of one investment position.

Market Conditions

In 2008 and 2009, the financial services industry has been negatively affected by turmoil in the global capital markets. What began in 2007 as a deterioration of credit quality in subprime residential mortgages has spread rapidly to other credit markets. Market liquidity and credit quality conditions continue to remain weaker today than two years ago.

We believe that Prospect Capital is well positioned to navigate through these adverse market conditions. As a business development company, we are limited to a maximum 1 to 1 debt to equity ratio, and as of December 31, 2009, we had \$62,914 available under our credit facility, of which \$10,000 was outstanding. In addition, we had \$105,050 of eligible assets from the Patriot acquisition in the process of being pledged to the facility which will generate an additional \$67,086 of availability. Further, as we make additional investments that are eligible to be pledged under the credit facility, we will generate additional availability. The revolving period for the extended credit facility continues until June 25, 2010, with an amortization running to June 25, 2011.

We also continue to generate liquidity through public and private stock offerings. On July 7, 2009 we completed a public stock offering for 5,175,000 shares of our common stock at \$9.00 per share, raising \$46,575 of gross proceeds. On August 20, 2009 and September 24, 2009, we issued 3,449,686 shares and 2,807,111 shares, respectively, of our common stock at \$8.50 and \$9.00 per share, respectively, in private stock offerings, raising \$29,322, and \$25,264 of gross proceeds, respectively. Concurrent with the sale of these shares, we entered into a registration rights agreement in which we granted the purchasers certain registration rights with respect to the shares. Under the terms and conditions of the registration rights agreement, we filed with the SEC a post-effective amendment to the registration statement on Form N-2 on November 6, 2009. Such amendment was declared effective by the SEC on November 9, 2009.

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America (GAAP) requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities at the date of the financial statements and the reported amounts of income and expenses during the reported period. Changes in the economic environment, financial markets and any other parameters used in determining these estimates could cause actual results to differ.

Critical Accounting Policies and Estimates

Our discussion and analysis of our financial condition and results of operations are based upon our financial statements, which have been prepared in accordance with GAAP. The preparation of these financial statements requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, revenues and expenses. Changes in the economic environment, financial markets and any other parameters used in determining such estimates could cause actual results to differ materially. In addition to the discussion below, our critical accounting policies are further described in the notes to the financial statements.

Basis of Consolidation

Under the 1940 Act rules, the regulations pursuant to Article 6 of Regulation S-X, and the American Institute of Certified Public Accountants Audit and Accounting Guide for Investment Companies, we are precluded from consolidating any entity other than another investment company or an operating company which provides substantially all of its services and benefits to us. Our December 31, 2009 and June 30, 2009 financial statements include our accounts and the accounts of Prospect Capital Funding, LLC, our only wholly-owned, closely-managed

Table of Contents

subsidiary that is also an investment company. All intercompany balances and transactions have been eliminated in consolidation.

Investment Classification

We are a non-diversified company within the meaning of the 1940 Act. We classify our investments by level of control. As defined in the 1940 Act, control investments are those where there is the ability or power to exercise a controlling influence over the management or policies of a company. Control is generally deemed to exist when a company or individual possesses or has the right to acquire within 60 days or less, a beneficial ownership of 25% or more of the voting securities of an investee company. Affiliated investments and affiliated companies are defined by a lesser degree of influence and are deemed to exist through the possession outright or via the right to acquire within 60 days or less, beneficial ownership of 5% or more of the outstanding voting securities of another person.

Investments are recognized when we assume an obligation to acquire a financial instrument and assume the risks for gains or losses related to that instrument. Investments are derecognized when we assume an obligation to sell a financial instrument and forego the risks for gains or losses related to that instrument. Specifically, we record all security transactions on a trade date basis. Investments in other, non-security financial instruments are recorded on the basis of subscription date or redemption date, as applicable. Amounts for investments recognized or derecognized but not yet settled are reported as Receivables for investments sold and Payables for investments purchased, respectively, in the Consolidated Statements of Assets and Liabilities.

Investment Valuation

Our Board of Directors has established procedures for the valuation of our investment portfolio. These procedures are detailed below.

Investments for which market quotations are readily available are valued at such market quotations.

For most of our investments, market quotations are not available. With respect to investments for which market quotations are not readily available or when such market quotations are deemed not to represent fair value, our Board of Directors has approved a multi-step valuation process each quarter, as described below:

- 1) Each portfolio company or investment is reviewed by our investment professionals with the independent valuation firm engaged by our Board of Directors;
- 2) the independent valuation firm conducts independent appraisals and makes their own independent assessment;
- 3) the audit committee of our Board of Directors reviews and discusses the preliminary valuation of our Investment Adviser and that of the independent valuation firm; and
- 4) the Board of Directors discusses the valuations and determines the fair value of each investment in our portfolio in good faith based on the input of our Investment Adviser, the independent valuation firm and the audit committee.

In September 2006, the Financial Accounting Standards Board (FASB) issued Accounting Standards Codification (ASC or Codification) 820, *Fair Value Measurements and Disclosures* (ASC 820). ASC 820 defines fair value, establishes a framework for measuring fair value in GAAP, and expands disclosures about fair value measurements. We adopted ASC 820 on a prospective basis beginning in the quarter ended September 30, 2008.

ASC 820 classifies the inputs used to measure these fair values into the following hierarchy:

Level 1: Quoted prices in active markets for identical assets or liabilities, accessible by the Company at the measurement date.

Level 2: Quoted prices for similar assets or liabilities in active markets, or quoted prices for identical or similar assets or liabilities in markets that are not active, or other observable inputs other than quoted prices.

Level 3: Unobservable inputs for the asset or liability.

Table of Contents

In all cases, the level in the fair value hierarchy within which the fair value measurement in its entirety falls has been determined based on the lowest level of input that is significant to the fair value measurement. Our assessment of the significance of a particular input to the fair value measurement in its entirety requires judgment and considers factors specific to each investment.

The changes to generally accepted accounting principles from the application of ASC 820 relate to the definition of fair value, framework for measuring fair value, and the expanded disclosures about fair value measurements. ASC 820 applies to fair value measurements already required or permitted by other standards.

In accordance with ASC 820, the fair value of our investments is defined as the price that we would receive upon selling an investment in an orderly transaction to an independent buyer in the principal or most advantageous market in which that investment is transacted.

In April 2009, the FASB issued ASC 820-10-65, *Determining Fair Value When the Volume and Level of Activity for the Asset or Liability Have Significantly Decreased and Identifying Transactions That Are Not Orderly* (ASC 820-10-65). This update provides further clarification for ASC 820 in markets that are not active and provides additional guidance for determining when the volume of trading level of activity for an asset or liability has significantly decreased and for identifying circumstances that indicate a transaction is not orderly. ASC 820-10-65 is effective for interim and annual reporting periods ending after June 15, 2009. The adoption of ASC 820-10-65 for the three and six months ended December 31, 2009, did not have any effect on our net asset value, financial position or results of operations as there was no change to the fair value measurement principles set forth in ASC 820.

In January 2010, the FASB issued Accounting Standards Update 2010-06, Fair Value Measurements and Disclosures (Topic 820): Improving Disclosures about Fair Value Measurements (ASC 2010-06). ASU 2010-06 amends ASC 820-10 and clarifies and provides additional disclosure requirements related to recurring and non-recurring fair value measurements and employers' disclosures about postretirement benefit plan assets. ASU 2010-06 is effective for interim and annual reporting periods beginning after December 15, 2009. Our management does not believe that the adoption of the amended guidance in ASC 820-10 will have a significant effect on our financial statements.

Federal and State Income Taxes

We have elected to be treated as a regulated investment company and intend to continue to comply with the requirements of the Internal Revenue Code of 1986 (the Code), applicable to regulated investment companies. We are required to distribute at least 90% of our investment company taxable income and intend to distribute (or retain through a deemed distribution) all of our investment company taxable income and net capital gain to stockholders; therefore, we have made no provision for income taxes. The character of income and gains that we will distribute is determined in accordance with income tax regulations that may differ from GAAP. Book and tax basis differences relating to stockholder dividends and distributions and other permanent book and tax differences are reclassified to paid-in capital.

If we do not distribute (or are not deemed to have distributed) at least 98% of our annual taxable income in the calendar year earned, we will generally be required to pay an excise tax equal to 4% of the amount by which 98% of our annual taxable income exceeds the distributions from such taxable income for the year. To the extent that we determine that our estimated current year annual taxable income will be in excess of estimated current year dividend distributions from such taxable income, we accrue excise taxes, if any, on estimated excess taxable income as taxable income is earned using an annual effective excise tax rate. The annual effective excise tax rate is determined by dividing the estimated annual excise tax by the estimated annual taxable income.

We adopted FASB ASC 740, *Income Taxes* (ASC 740). ASC 740 provides guidance for how uncertain tax positions should be recognized, measured, presented, and disclosed in the financial statements. ASC 740 requires the evaluation of tax positions taken or expected to be taken in the course of preparing our tax returns to determine whether the tax positions are more-likely-than-not of being sustained by the applicable tax authority. Tax positions not deemed to meet the more-likely-than-not threshold are recorded as a tax benefit or expense in the current year. Adoption of ASC 740 was applied to all open tax years as of July 1, 2007. The adoption of ASC 740 did not have an effect on our net asset value, financial condition or results of operations as there was no liability for

Table of Contents

unrecognized tax benefits and no change to our beginning net asset value. As of December 31, 2009 and for the three and six months then ended, we did not have a liability for any unrecognized tax benefits. Management's determinations regarding ASC 740 may be subject to review and adjustment at a later date based upon factors including, but not limited to, an on-going analysis of tax laws, regulations and interpretations thereof.

Revenue Recognition

Realized gains or losses on the sale of investments are calculated using the specific identification method.

Interest income, adjusted for amortization of premium and accretion of discount, is recorded on an accrual basis. Origination, closing and/or commitment fees associated with investments in portfolio companies are accreted into interest income over the respective terms of the applicable loans. Upon the prepayment of a loan or debt security, any prepayment penalties and unamortized loan origination, closing and commitment fees are recorded as interest income.

Loans are placed on non-accrual status when principal or interest payments are past due 90 days or more or when there is reasonable doubt that principal or interest will be collected. Unpaid accrued interest is generally reversed when a loan is placed on non-accrual status. Interest payments received on non-accrual loans may be recognized as income or applied to principal depending upon management's judgment. Non-accrual loans are restored to accrual status when past due principal and interest is paid and in management's judgment, are likely to remain current. As of December 31, 2009, approximately 5.7% of our net assets are in non-accrual status.

Dividend income is recorded on the ex-dividend date.

Structuring fees and similar fees are recognized as income as earned, usually when paid. Structuring fees, excess deal deposits, net profits interests and overriding royalty interests are included in other income.

Statement of Assets and Liabilities Overview

During the six months ended December 31, 2009, net assets have increased by \$104,881 from \$532,596 as of June 30, 2009 to \$637,477 as of December 31, 2009. This net increase in assets primarily resulted from \$195,833 of capital share transactions including 8,444,068 of shares issued in conjunction with the Patriot Acquisition, offset by \$67,721 in dividends declared to our stockholders. During this six month period we recognized net investment income of \$29,243, a decrease in net assets due to realized losses of \$51,229 and a decrease in net assets due to changes in unrealized depreciation of investments of \$1,245.

The aggregate fair value of our portfolio investments was \$648,135 and \$547,168 as of December 31, 2009 and June 30, 2009, respectively. During the six months ended December 31, 2009, our net cost of investments increased by \$102,212, or 19.2%, primarily from the acquisition of Patriot. At December 31, 2009, we were invested in 55 long-term portfolio investments.

Investment Activity

During the six months ended December 31, 2009, we acquired \$207,126 of investments from Patriot, completed follow-on investments in existing portfolio companies totaling approximately \$7,321, and recorded PIK interest of \$2,059, resulting in gross investment originations with a cost basis of \$216,506. The more significant of these investments are described briefly in the following:

During the six months ended December 31, 2009, we made follow-on secured debt investments of \$1,423 in Iron Horse Coiled Tubing, Inc. (Iron Horse) in support of the build out of additional equipment and to fund working capital

requirements.

During the six months ended December 31, 2009, we provided additional fundings of \$3,376 to Yatesville Coal Holdings, Inc. (Yatesville) to fund ongoing operations.

On October 5, 2009 we purchased an additional secured debt investment of \$1,675 in Resco Products, Inc. (Resco) at a discount of \$670, increasing our cost basis by \$1,005 in this investment.

Table of Contents

On October 30, 2009, we made a follow-on secured subordinated debt investment of \$500 in Ajax Rolled Ring & Machine (Ajax).

On December 2, 2009, we acquired portfolio investments with a face amount of \$289,030 for \$207,126 from Patriot.

During the six months ended December 31, 2009, we closed-out six positions which are briefly described below.

On August 31, 2009, C&J Cladding, LLC (C&J) repaid the \$3,150 loan receivable to us and we received an additional 5% prepayment penalty totaling \$158. We continue to hold warrants for common units in this investment.

On September 4, 2009, Peerless Manufacturing Co. repaid the \$20,000 loan receivable to us.

On December 4, 2009, CS Operating, LLC repaid the \$4,460 loan receivable to us.

On December 10, 2009, Resco repaid the \$11,425 loan receivable to us.

On December 17, 2009, ADAPCO, Inc. (ADAPCO) repaid the \$7,466 loan receivable to us. We continue to hold warrants for common stock in this investment.

On December 18, 2009, Quartermaster, Inc. (Quartermaster) repaid the \$11,274 loan receivable to us.

On December 31, 2009, we sold our investment in Aylward Enterprises, LLC (Aylward) for net amount of \$4,775.

During the six months ended December 31, 2009, we also received principal amortization payments of \$7,184 on several loans.

On September 30, 2008, we settled our net profits interests (NPIs) in IEC Systems LP (IEC) and Advanced Rig Services LLC (ARS) with the companies for a combined \$12,576. IEC and ARS originally issued the NPIs to us when we loaned a combined \$25,600 to IEC and ARS on November 20, 2007. In conjunction with the NPI realization, we recognized other income of \$12,576 simultaneously reinvested the \$12,576 as incremental senior secured debt in IEC and ARS. The incremental debt will amortize over the period ending November 20, 2010.

The following is a quarter-by-quarter summary of our investment activity:

Quarter-End	Acquisitions(1)	Dispositions(2)
December 31, 2009	\$ 210,438	\$ 45,494
September 30, 2009	6,066	24,241
June 30, 2009	7,929	3,148
March 31, 2009	6,356	10,782
December 31, 2008	13,564	2,128
September 30, 2008	70,456	10,949
June 30, 2008	118,913	61,148
March 31, 2008	31,794	28,891
December 31, 2007	120,846	19,223
September 30, 2007	40,394	17,949
June 30, 2007	130,345	9,857
March 31, 2007	19,701	7,731

Edgar Filing: PROSPECT CAPITAL CORP - Form 497

December 31, 2006	62,679	17,796
September 30, 2006	24,677	2,781
June 30, 2006	42,783	5,752
March 31, 2006	15,732	901
December 31, 2005		3,523
September 30, 2005	25,342	
June 30, 2005	17,544	
March 31, 2005	7,332	
December 31, 2004	23,771	32,083
September 30, 2004	30,371	
Since inception	\$ 1,027,033	\$ 304,377

(1) Includes new deals, additional fundings, refinancings and PIK interest.

(2) Includes scheduled principal payments, prepayments and refinancings.

Table of Contents**Investment Holdings**

As of December 31, 2009, we continue to pursue our investment strategy. Despite our name change to Prospect Capital Corporation and the termination of our policy to invest at least 80% of our net assets in energy companies in May 2007, we currently have a concentration of investments in companies in the energy and energy related industries. This concentration continues to decrease as we make investments outside of the energy and energy related industries. Some of the companies in which we invest have relatively short or no operating histories. These companies are and will be subject to all of the business risk and uncertainties associated with any new business enterprise, including the risk that these companies may not reach their investment objective or the value of our investment in them may decline substantially or fall to zero.

Our portfolio had an annualized current yield of 15.6% and 16.0% across all our long-term debt and certain equity investments as of December 31, 2009 and December 31, 2008, respectively. At December 31, 2009, this yield includes interest from all of our long-term investments as well as dividends from Gas Solutions Holdings, Inc. (GSHI) and NRG Manufacturing, Inc. (NRG). We expect the current yield to decline over time as add to the portfolio. Monetization of other equity positions that we hold is not included in this yield calculation. In each of our portfolio companies, we hold equity positions, ranging from minority interests to majority stakes, which we expect over time to contribute to our investment returns. Some of these equity positions include features such as contractual minimum internal rates of returns, preferred distributions, flip structures and other features expected to generate additional investment returns, as well as contractual protections and preferences over junior equity, in addition to the yield and security offered by our cash flow and collateral debt protections.

We classify our investments by level of control. As defined in the 1940 Act, control investments are those where there is the ability or power to exercise a controlling influence over the management or policies of a company. Control is generally deemed to exist when a company or individual possesses or has the right to acquire within 60 days or less, a beneficial ownership of 25% or more of the voting securities of an investee company. Affiliated investments and affiliated companies are defined by a lesser degree of influence and are deemed to exist through the possession outright or via the right to acquire within 60 days or less, beneficial ownership of 5% or more of the outstanding voting securities of another person.

As of December 31, 2009, we own controlling interests in Ajax, AWCNC, LLC, C&J, Change Clean Energy Holdings, Inc. (CCEHI), Coalbed, Inc./Coalbed, LLC (formerly Conquest Cherokee, LLC) (Coalbed), Fischbein, LLC (Fischbein), Freedom Marine Services LLC (Freedom Marine), GSHI, Integrated Contract Services, Inc. (ICS), Iron Horse, NRG, Nupla Corporation (Nupla), R-V Industries, Inc. (R-V), Sidump r Trailer Company, Inc. (Sidump r) and Yatesville. We also own an affiliated interest in Appalachian Energy Holdings, LLC (AEH), Biotronic NeuroNetwork (Biotronic), Boxercraft Incorporated (Boxercraft), KTPS Holdings, LLC (KTPS), Miller Petroleum, Inc. (Miller), Smart, LLC (Smart) and Sport Helmets Holdings, LLC (Sport Helmets).

The following is a summary of our investment portfolio by level of control:

Level of Control	Cost	December 31, 2009		June 30, 2009		Cost	Fair Value	Percent of Portfolio
		Percent of Portfolio	Fair Value	Percent of Portfolio	Fair Value			
Control	\$ 165,867	25.2%	\$ 191,898	28.6%	\$ 187,105	29.7%	\$ 206,332	31.9%

Investment Valuation

In determining the fair value of our portfolio investments at December 31, 2009, the Audit Committee considered valuations from the independent valuation firm and from management having an aggregate range of \$604,614 to \$680,622, excluding money market investments.

In determining the range of value for debt instruments, management and the independent valuation firm generally shadow rated the investment and then based upon the range of ratings, determined appropriate yields to maturity for a loan rated as such. A discounted cash flow analysis was then prepared using the appropriate yield to maturity as the

discount rate, yielding the ranges. For equity investments, the enterprise value was determined by applying EBITDA multiples for similar recent investment sales. For stressed equity investments, a liquidation analysis was prepared.

The Board of Directors looked at several factors in determining where within the range to value the asset including: recent operating and financial trends for the asset, independent ratings obtained from third parties and comparable multiples for recent sales of companies within the industry. The composite of all these analysis, applied to each investment, was a total valuation of \$648,135, excluding money market investments.

Our investments are generally lower middle market companies, outside of the financial sector, with less than \$30,000 of annual EBITDA. We believe our market has experienced less volatility than others because we believe there are more buy and hold investors who own these less liquid investments.

During the six months ended December 31, 2009, there has been a general improvement in the markets in which we operate and market rates of interest demanded for middle market loans have decreased. The fair value is limited on the high side to the loans par value, plus any prepayment penalties that would be imposed. Many of the debt investments in this category have not seen a significant change in value as they were previously valued at or near par value. In comparison to assets held as of June 30, 2009, these assets include: American Gilsonite Company,

Table of Contents

Biotronic, Castro Cheese Company, Inc., IEC/ARS, Maverick Healthcare, LLC, Qualitest Pharmaceuticals, Inc., Regional Management Corp., Shearer's Foods, Inc., Stryker Energy, LLC, TriZetto Group and Unitek. Such assets acquired from Patriot include: Aircraft Fasteners International, LLC, Boxercraft, Copernicus Group, EXL Acquisition Corp., Fairchild Industrial Products Co., Hudson Products Holdings, Inc., KTPS, Label Corp Holdings, Inc., LHC Holdings Corp., Northwestern Management Services LLC, R-O-M Corporation and Sport Helmets.

Nine debt investments were made to companies that are not performing in line with budget expectations as of December 31, 2009 and have seen a diminution of value since June 30, 2009 (Ajax, Coalbed, Deb Shops, Inc., H&M Oil & Gas, LLC, Iron Horse, NRG, R-V, Wind River Resources Corp. and Wind River II Corp. and Yatesville). The valuation of these assets is further stressed by declining market demand within their respective industries, primarily retail, industrial and energy-related. For these assets, we have increased the market interest rates to take into account the increased credit risk, illiquidity and general changes in current interest rates for similar assets to determine their fair value.

Five portfolio companies (ADAPCO, C&J, Diamondback, Miller and R-V) are equity investments for which the previously outstanding debt has been repaid.

Control investments offer increased risk and reward over straight debt investments. Operating results and changes in market multiples can result in dramatic changes in values from quarter to quarter. Significant downturns in operations can further result in our looking to recoveries on sales of assets rather than the enterprise value of the investment. Several control investments in our portfolio are under enhanced scrutiny by our senior management and our Board of Directors and are discussed below.

Ajax Rolled Ring & Machine, Inc.

We acquired a controlling equity interest in Ajax in a recapitalization of the company that was closed on April 4, 2008. We funded \$22,000 of senior secured term debt, \$11,500 of subordinated term debt and \$6,300 of equity as of that closing. As of December 31, 2009, we control 78.1% of the fully-diluted common and preferred equity.

Ajax forges seamless steel rings sold to various customers. The rings are used in a range of industrial applications, including in construction equipment and wind power turbines. Ajax's business is cyclical, and the business suffered in light of the global macroeconomic crisis of the past several quarters. 2008 was relatively strong for Ajax, but in the first half of 2009, Ajax experienced massive cuts in ordering of steel rings by its key customers. The second half of 2009 showed steady improvement versus very weak performance in the first half of the year and despite improvement in the second half of the year, Ajax's overall performance in 2009 was well below that of 2008. At December 31, 2009, Ajax had a backlog of new business that would indicate continued improvement through 2010.

The Board of Directors wrote-down the fair value of our investment in Ajax to \$25,802 as of December 31, 2009, a reduction of \$14,059 from its amortized cost, compared to the \$7,581 unrealized loss recorded at June 30, 2009.

Change Clean Energy Holdings Inc. and Change Clean Energy, Inc., f/k/a Worcester Energy Partners, Inc.

Change Clean Energy, Inc. (CCEI) is an investment that we originated in September 2005 which owns and operated a bio-mass energy plant. In March 2009 CCEI ceased operations temporarily as it was not economically feasible to make a profit based on the cost of materials and the price being paid for electricity. During that quarter, we determined that it was appropriate to institute foreclosure proceedings against the co-borrowers of our debt to take full control of the assets. In anticipation of such proceedings CCEHI was established and on March 11, 2009, the foreclosure was completed and the assets were assigned to a wholly owned subsidiary of CCEHI. During the six months ended December 31, 2009, we provided additional funding of \$296 to CCEHI to fund ongoing operations. CCEI currently

has no material operations. At June 30, 2009 we determined that the impairment at both CCEI and CCEHI was other than temporary and recognized a realized loss of \$41,134, which was the amount by which the amortized cost exceeded the fair value. At December 31, 2009, our Board of Directors, under recommendation from senior management, has set the value of the CCEHI investment at \$1,976, a reduction of \$849 from its amortized cost.

Table of Contents

Gas Solutions Holdings, Inc.

GSHI is an investment that we made in September 2004 in which we own 100% of the equity. GSHI is a midstream gathering and processing business located in East Texas. GSHI has improved its operations and we have experienced an increase in revenue, gross margin, and EBITDA (the later two metrics on both an absolute and a percentage of revenues basis) over the past five years.

During the past two years, we have been in discussions with multiple interested purchasers for Gas Solutions. While we wish to unlock the value in Gas Solutions, we do not wish to enter into any agreement at any time that does not recognize the long term value we see in Gas Solutions. As a well hedged midstream asset, which will generate predictable and consistent cash flows to us, Gas Solutions is a valuable asset that we wish to sell at a value-maximizing price, or not at all. We continue discussions with interested parties, but have a patient approach toward the process. In addition, a sale of the assets, rather than the stock of GSHI, might result in a significant tax liability at the GSHI level which will need to be paid prior to any distribution to us.

In early May 2008, Gas Solutions II Ltd purchased a series of propane puts at \$0.10 out of the money and at prices of \$1.53 per gallon and \$1.394 per gallon covering the periods May 1, 2008, through April 30, 2009, and May 1, 2009, through April 30, 2010, respectively. These hedges were executed at close to the highest market propane prices ever achieved on an historical basis; such hedges preserve the upside of Gas Solutions II Ltd to benefit from potential future increases in commodity prices. GSHI generated approximately \$26,172 of EBITDA for the fiscal year ending December 31, 2008, an increase of 67% from 2007 results. Despite the volatility in commodity prices over the last year, GSHI generated approximately \$25,816 of EBITDA for the fiscal year ending December 31, 2009.

In determining the value of GSHI, we have utilized several valuation techniques to determine the value of the investment. These techniques offer a wide range of values. Our Board of Directors has determined the value to be \$85,187 for our debt and equity positions at December 31, 2009 based upon a combination of a discounted cash flow analysis and a public comparables analysis. At December 31, 2009 and June 30, 2009, GSHI was valued \$50,184 above its amortized cost.

Integrated Contract Services, Inc.

ICS is an investment that we made in April 2007. Prior to January 2009, ICS owned the assets of ESA Environmental Specialists, Inc. (ESA) and 100% of the stock of The Healing Staff (THS). ESA originally defaulted under our contract governing our investment in ESA, prompting us to commence foreclosure actions with respect to certain ESA assets in respect of which we have a priority lien. In response to our actions, ESA filed voluntarily for reorganization under the bankruptcy code on August 1, 2007. On September 20, 2007, the U.S. Bankruptcy Court approved a Section 363 Asset Sale from ESA to us. To complete this transaction, we contributed our ESA debt to a newly-formed entity, ICS, and provided funds for working capital on October 9, 2007. In return for the ESA debt, we received senior secured debt in ICS of equal amount to our ESA debt, preferred stock of ICS, and 49% of the ICS common stock. ICS subsequently ceased operations and assigned the collateral back to us. ICS is in default of both payment and financial covenants. During September and October 2007, we provided \$1,170 to THS for working capital.

In January 2009, we foreclosed on the real and personal property of ICS. Through this foreclosure process, we gained 100% ownership of THS and certain ESA assets. Based upon an analysis of the liquidation value of the ESA assets and the enterprise value of THS, our Board of Directors affirmed the fair value of our investment in ICS at \$5,275 at December 31, 2009, a reduction of \$11,377 from its amortized cost, compared to the \$11,652 unrealized loss recorded at June 30, 2009.

Iron Horse Coiled Tubing, Inc.

Iron Horse is an investment that we made in April 2006. Iron Horse had been a provider of coiled tubing subcontractor services prior to making a strategic decision in late 2007 to directly service natural gas and oil producers in the Western Canadian Sedimentary Basin (WCSB) as a fracturing services provider. As a result of the business transition, the Company s 2008 financial performance declined significantly from 2007 levels. Iron

Table of Contents

Horse completed its transition from a subcontractor to a direct service provider in 2009, but natural gas prices fell to trough levels due to the recession and heightened natural gas inventory levels. Since November 2009, Iron Horse has seen increased activity in the WCSB and is now completing wells for several large producers in the WCSB.

Prior to December 31, 2007, we owned 8.5% of the common stock in Iron Horse. On December 31, 2007, we received an additional 50.3% of the common stock in Iron Horse, which increased our total ownership to 58.8%. Through a series of subsequent loans that were used to construct equipment and facilitate the transition from a subcontractor to a direct service provider, we secured an additional 21.0% of the common stock in Iron Horse in September 2008, which increased our total ownership to 79.8% of the common stock in Iron Horse.

The Board of Directors wrote-down the fair value of our investment in Iron Horse to \$12,318 as of December 31, 2009, a reduction of \$8,399 from its amortized cost, compared to the \$6,738 unrealized loss recorded at June 30, 2009.

Yatesville Coal Holdings, Inc.

All of our coal holdings have been consolidated under common management in Yatesville. Yatesville began to show improvement after the consolidation of the coal holdings, but the company exhausted its permitted reserves in December 2008 and has not had any meaningful revenue stream since. We continue to evaluate strategies for Yatesville such as soliciting indications of interest regarding a transaction involving part or all of recoverable reserves. During the six months ended December 31, 2009, we provided additional funding of \$3,376 to Yatesville to fund ongoing operations including new permitting. During the quarter, we discontinued operations at Yatesville. As of December 31, 2009, our Board of Directors determined that consistent with the decision to discontinue operations, the impairment of Yatesville was other than temporary and we recorded a realized loss of \$51,228 which was the amount that the amortized cost exceeded the fair value at December 31, 2009. Our Board of Directors set the value of the remaining Yatesville investment at \$1,035, which represents the residual value of recoverable reserves, as of December 31, 2009, a reduction of \$12,062 from its value as of June 30, 2009.

Capitalization

Our investment activities are capital intensive and the availability and cost of capital is a critical component of our business. We capitalize our business with a combination of debt and equity. Our debt is currently consists of a revolving credit facility availing us of the ability to borrow debt subject to borrowing base determinations and our equity capital is currently comprised entirely of common equity.

On June 25, 2009, we completed a first closing on an expanded \$250,000 syndicated revolving credit facility (the Facility). The new Facility, for which six lenders have closed on \$210,000 to date, includes an accordion feature which allows the Facility to accept up to an aggregate total of \$250,000 of commitments for which we continue to solicit additional commitments from other lenders for the additional \$40,000. The revolving period of the Facility extends through June 2010, with an additional one year amortization period after the completion of the revolving period. As of December 31, 2009 and June 30, 2009, we had \$10,000 and \$124,800 of borrowings outstanding under our credit facility, respectively.

Interest on borrowings under the credit facility is one-month Libor plus 400 basis points, subject to a minimum Libor floor of 200 basis points after that date. The maintenance of this facility requires us to pay a fee for the amount not drawn upon. This fee assessed at the rate of 100 basis points per annum. The following table shows the facility amounts and outstanding borrowings at December 31, 2009 and June 30, 2009:

As of

As of

	December 31, 2009		June 30, 2009	
	Facility Amount	Amount Outstanding	Facility Amount	Amount Outstanding
Revolving Credit Facility	\$ 195,000	\$ 10,000	\$ 175,000	\$ 124,800

Table of Contents

The following table shows the contractual maturity of our revolving credit facility at December 31, 2009:

	Payments Due By Period		
	Less Than 1 Year	1-3 Years	More Than 3 Years
Credit Facility Payable	\$ 10,000	\$	\$

During the six months ended December 31, 2009, we completed public and private offerings and raised \$97,675 of additional equity by issuing 11,431,797 shares of our common stock below net asset value diluting shareholder value by \$0.75 per share. We also issued 8,444,068 shares to acquire Patriot increasing net asset value to shareholders by \$0.03 per share. The following table shows the calculation of net asset value per share as of December 31, 2009 and June 30, 2009:

	As of December 31, 2009	As of June 30, 2009
Net Assets	\$ 637,477	\$ 532,596
Shares of common stock outstanding	63,349,746	42,943,084
Net asset value per share	\$ 10.06	\$ 12.40

At December 31, 2009, we had 63,349,746 of our common stock issued and outstanding.

Results of Operations

For the three months ended December 31, 2009 and December 31, 2008, the net (decrease) increase in net assets resulting from operations was (\$16,853) and \$6,524, respectively, representing (\$0.29) and \$0.22 per share, respectively. We experienced a net realized and unrealized loss of \$33,778 or approximately \$0.59 per share in the three months ended December 31, 2009. This compares with the net realized and unrealized loss of \$5,436 during the three months ended December 31, 2008 or approximately \$0.18 per share.

For the six months ended December 31, 2009 and December 31, 2008, the net (decrease) increase in net assets resulting from operations was (\$23,231) and \$20,522, respectively, representing (\$0.43) and \$0.69 per share, respectively. We experienced a net realized and unrealized loss of \$52,474 or approximately \$0.98 per share in the six months ended December 31, 2009. This compares with the net realized and unrealized loss of \$14,940 during the six months ended December 31, 2008 or approximately \$0.51 per share.

While we seek to maximize gains and minimize losses, our investments in portfolio companies can expose our capital to risks greater than those we may anticipate as these companies are typically not issuing securities rated investment grade, have limited resources, have limited operating history, are generally private companies with limited operating information available and are likely to depend on a small core of management talents. Changes in any of these factors can have a significant impact on the value of the portfolio company.

Investment Income

We generate revenue in the form of interest income on the debt securities that we own, dividend income on any common or preferred stock that we own, and amortized loan origination fees on the structuring of new deals. Our investments, if in the form of debt securities, will typically have a term of one to ten years and bear interest at a fixed or floating rate. To the extent achievable, we will seek to collateralize our investments by obtaining security interests in our portfolio companies' assets. We also may acquire minority or majority equity interests in our portfolio companies, which may pay cash or in-kind dividends on a recurring or otherwise negotiated basis. In addition, we may generate revenue in other forms including prepayment penalties and possibly consulting fees. Any such fees generated in connection with our investments are recognized as earned.

Investment income consists of interest income, including accretion of loan origination fees and prepayment penalty fees, dividend income and other income, including net profits interest, overriding royalties interest and

Table of Contents

structuring fees. The following table details the various components of investment income and the related levels of debt investments for the three months ended December 31, 2009 and December 31, 2008:

	For the Three Months Ended December 31,		For the Six Months Ended December 31,	
	2009	2008	2009	2008
Interest income	\$ 18,539	\$ 17,241	\$ 33,374	\$ 34,797
Dividend income	4,170	4,665	10,388	9,388
Other income	6,174	307	6,638	13,827
Total investment income	\$ 28,883	\$ 22,213	\$ 50,400	\$ 58,012
Average debt principal of investments	\$ 571,809	\$ 537,101	\$ 535,069	\$ 517,421
Weighted-average interest rate earned	12.86%	12.74%	12.37%	13.34%

Total investment income increased significantly from \$22,213 for the three months ended December 31, 2008 to \$28,883 for the six months ended December 31, 2009. This \$6,670 increase is primarily due to the Patriot acquisition, for which we recognized a gain from the acquisition of \$5,714 and purchase discount accretion of \$5,320 during the three months ended December 31, 2009. The discount accretion includes \$4,560 of accelerated accretion from early repayments of ADAPCO, Quartermaster and Aylward. Total investment income has decreased for the six months ended December 31, 2009 from the amount reported for the six months ended December 31, 2008 primarily due to a decrease in other income. This \$7,189 decrease in other income is primarily due to the settlement of our net profit interests in IEC/ARS for \$12,576 during the six months ended December 31, 2008, partially offset but gain from the acquisition of Patriot.

Average principal balances of debt investments have increased from \$537,101 for the three months ended December 31, 2008 to \$571,809 for the three months ended December 31, 2009. For the six months ended December 31, 2008 and 2009, average principal balances of debt investments increased from \$517,421 to \$535,069, respectively. These increases are primarily due to the Patriot acquisition which resulted in an additional \$289,030 of debt principal to our portfolio.

The weighted-average interest rate earned increased from 12.74% for the three months ended December 31, 2008 to 12.86% for the three months ended December 31, 2009. This increase is primarily the result of purchase discount accretion of \$5,320 from the Patriot acquisition. For the six months ended December 31, 2008 and 2009, weighted-average interest rate earned decreased from 13.34% to 12.37%, respectively. This decrease is primarily the result of Patriot acquisition purchase discount accretion, offset by foregone interest on non-accrual loans. During the six month period ended December 31, 2009, interest of \$12,510 was foregone on non-accrual debt investments compared to \$4,983 of forgone interest for the three months ended December 31, 2008. Without adjustments for foregone interest and purchase discount accretion from the Patriot acquisition, the weighted average interest rates earned on debt investments would have been 15.0% and 15.3% for the three months ended December 31, 2009 and 2008, respectively.

Operating Expenses

Our primary operating expenses consist of investment advisory fees (base management and income incentive fees), credit facility costs, legal and professional fees and other operating and overhead-related expenses. These expenses include our allocable portion of overhead under the Administration Agreement with Prospect Administration under which Prospect Administration provides administrative services and facilities for us. Our investment advisory fees compensate our Investment Adviser for its work in identifying, evaluating, negotiating, closing and monitoring our investments. We bear all other costs and expenses of our operations and transactions in accordance with our Administration Agreement with Prospect Administration. Operating expenses were \$11,958 and \$10,253 for the three months ended December 31, 2009 and December 31, 2008, respectively. Operating expenses were \$21,157 and \$22,550 for the six months ended December 31, 2009 and December 31, 2008, respectively.

Table of Contents

The base management fee was \$3,176 and \$2,940 for the three months ended December 31, 2009 and December 31, 2008, respectively. The base management fee was \$6,385 and \$5,763 for the six months ended December 31, 2009 and December 31, 2008, respectively. The increase in this expense for the three and six months ended December 31, 2009 is directly related to our growth in total assets.

For the three months ended December 31, 2009 and December 31, 2008, we incurred \$4,231 and \$2,990, respectively, of income incentive fees. The \$1,241 increase in the income incentive fee for the respective three-month period is driven by an increase in pre-incentive fee net investment income from \$14,950 for the three months ended December 31, 2008 to \$21,156 for the three months ended December 31, 2009, primarily the result of additional investment income from the Patriot acquisition. For the six months ended December 31, 2009 and December 31, 2008, we incurred \$7,311 and \$8,865, respectively, of income incentive fees. The \$1,554 decrease in the income incentive fee for the respective six-month period is driven by a decrease in pre-incentive fee net investment income from \$44,327 for the six months ended December 31, 2008 to \$36,554 for the six months ended December 31, 2009, primarily the result of the settlement of net profits interest in IEC/ARS in the 2008 period offset by the income from the Patriot acquisition. No capital gains incentive fee has yet been incurred pursuant to the Investment Advisory Agreement.

During the three and six months ended December 31, 2009, we incurred \$1,995 and \$3,369 of expenses related to our credit facility. This compares with expenses of \$1,965 and \$3,483 incurred during the three and six months ended December 31, 2008. These expenses are related directly to the leveraging capacity put into place for each of those periods and the levels of indebtedness actually undertaken during those quarters. The table below describes the various credit facility expenses and the related indicators of leveraging capacity and indebtedness during these periods.

	For the Three Months Ended December 31,		For the Six Months Ended December 31,	
	2009	2008	2009	2008
Interest on borrowings	\$ 266	\$ 1,712	\$ 393	\$ 2,942
Amortization of deferred financing costs	1,282	180	2,106	360
Commitment and other fees	447	73	870	181
Total	\$ 1,995	\$ 1,965	\$ 3,369	\$ 3,483
Weighted-average debt outstanding	\$ 17,609	\$ 137,525	\$ 13,003	\$ 125,845
Weighted-average interest rate on borrowings	6.00%	4.94%	6.00%	4.64%
Facility amount at beginning of period	\$ 195,000	\$ 200,000	\$ 195,000	\$ 200,000

The increase in our interest rate incurred is primarily due to an increase of 150 basis points in our current borrowing rate effective June 25, 2009.

As our asset base has grown and we have added complexity to our capital raising activities, due, in part, to our assumption of the sub-administration role from Vastardis, we have commensurately increased the size of our administrative and financial staff, accounting for a significant increase in the overhead allocation from Prospect

Administration. Over the last year, Prospect Administration has added several additional staff members, including a senior finance professional, a controller, two corporate counsels and other finance professionals. As our portfolio continues to grow, we expect to continue to increase the size of our administrative and financial staff on a basis that provides increasing returns to scale. However, initial investments in administrative and financial staff may not provide returns to scale immediately, perhaps not until the portfolio increases to a greater size. Other allocated expenses from Prospect Administration have, as expected, increased alongside with the increase in staffing and asset base.

Legal costs increased from \$184 for the three months ended December 31, 2008 to \$390 for the three months ended December 31, 2009 primarily due to the increased size of our portfolio. Legal costs decreased from \$483 for the six months ended December 31, 2008 to \$390 for the six months ended December 31, 2009 as there were legal matters in the prior year that are no longer active.

Table of Contents**Net Investment Income, Net Realized (Loss) Gains, (Decrease) Increase in Net Assets from Net Change in Unrealized Depreciation/Appreciation and Net (Decrease) Increase in Net Assets Resulting from Operations**

Net investment income was \$16,925 and \$11,960 for the three months ended December 31, 2009 and December 31, 2008, respectively. This \$4,965 increase was due primarily to the Patriot acquisition, for we recognized a gain from the acquisition and purchase discount accretion, partially offset by increased advisory fees and forgone interest related to Iron Horse. Net investment income was \$29,243 and \$35,462 for the six months ended December 31, 2009 and December 31, 2008, respectively. This \$6,219 decrease is due primarily to the settlement of our net profit interests in IEC/ARS during the six months ended December 31, 2008, offset by the Patriot acquisition, increased advisory fees and forgone interest related to Iron Horse for the six months ended December 31, 2009.

Net realized (loss) gains were (\$51,229) and \$16 for the three months ended December 31, 2009 and December 31, 2008, respectively. Net realized (loss) gains were (\$51,229) and \$1,661 for the six months ended December 31, 2009 and December 31, 2008, respectively. The net realized loss of \$51,229 for the three and six months ended December 31, 2009 was due primarily to the impairment of Yatesville. See *Investment Valuations* for further discussion.

Net increase (decrease) in net assets from changes in unrealized appreciation/depreciation was \$17,451 and (\$5,452) for the three months ended December 31, 2009 and December 31, 2008, respectively. For the three months ended December 31, 2009, the \$17,451 increase in net assets from the net change in unrealized appreciation/depreciation was driven primarily by our impairment of Yatesville which resulted in \$40,856 being reversed out of unrealized, partially offset by write-downs of our investments in Ajax, H&M, NRG and R-V. For the three months ended December 31, 2008, the \$5,452 decrease in net assets from the net change in unrealized appreciation/depreciation was driven primarily by write-downs to our investments in Deb Shops, Iron Horse, Qualitest, RMC, Resco, WEPI, and Yatesville which were partially offset by unrealized appreciation of our investment in GSHI.

Net decrease in net assets from changes in unrealized appreciation/depreciation was \$1,245 and \$16,601 for the six months ended December 31, 2009 and December 31, 2008, respectively. The \$1,245 decrease occurring during the six months ended December 31, 2009 was primarily attributable to unrealized depreciation recognized for our investments in Ajax, Coalbed, Deb Shops, H&M, NRG, and R-V partially offset by the impairment of our investment in Yatesville of \$51,228. The \$16,601 decrease occurring during the six months ended December 31, 2008 was attributable to unrealized depreciation recognized for our investments in Deb Shops, Iron Horse, Qualitest, RMC, Resco, WEPI, and Yatesville partially offset by a write-up of our investment in GSHI.

Financial Condition, Liquidity and Capital Resources

For the six months ended December 31, 2009 and December 31, 2008, our operating activities provided (used) \$155,128 and (\$23,126) of cash, respectively. Investing activities for the Patriot acquisition used \$106,586 and zero for the six months ended December 31, 2009 and December 31, 2008, respectively. Financing activities provided \$54,640 and \$25,009 of cash during the six months ended December 31, 2009 and December 31, 2008, respectively, which included the payments of dividends of \$36,469 and \$22,221, during the six months ended December 31, 2009 and December 31, 2008, respectively.

Our primary uses of funds have been to continue to invest in our investments in portfolio companies, to add new companies to our investment portfolio, acquire Patriot, repay outstanding borrowings and to make cash distributions to holders of our common stock.

We have and may continue to fund a portion of our cash needs through borrowings from banks, issuances of senior securities or secondary offerings. We may also securitize a portion of our investments in mezzanine or senior secured loans or other assets. Our objective is to put in place such borrowings in order to enable us to expand our portfolio. At December 31, 2009, we had \$10,000 outstanding borrowings on our \$195,000 revolving credit facility. Subsequent to December 31, 2009, we completed a closing for an additional \$15,000 commitment to the revolving credit facility, increasing total commitments to \$210,000.

Table of Contents

On September 6, 2007, our Registration Statement on Form N-2 was declared effective by the SEC. At December 31, 2009, under the Registration Statement, we had remaining availability to issue up to approximately \$147,500 of our equity securities over the next eight months.

We also continue to generate liquidity through public and private stock offerings. On July 7, 2009 we completed a public stock offering for 5,175,000 shares of our common stock at \$9.00 per share, raising \$46,575 of gross proceeds. On August 20, 2009 and September 24, 2009, we issued 3,449,686 shares and 2,807,111 shares, respectively, of our common stock at \$8.50 and \$9.00 per share, respectively, in private stock offerings, raising \$29,322, and \$25,264 of gross proceeds, respectively. Concurrent with the sale of these shares, we entered into a registration rights agreement in which we granted the purchasers certain registration rights with respect to the shares. Under the terms and conditions of the registration rights agreement, we filed with the SEC a post-effective amendment to the registration statement on Form N-2 on November 6, 2009. Such amendment was declared effective by the SEC on November 9, 2009.

On December 2, 2009 we acquired the outstanding shares of Patriot common stock for approximately \$201,083. Under the terms of the merger agreement, Patriot common shareholders received 0.363992 shares of our common stock for each share of Patriot common stock, resulting in 8,444,068 shares of common stock being issued by us. In connection with the transaction, we repaid all the outstanding borrowings of Patriot, in compliance with the merger agreement.

Off-Balance Sheet Arrangements

At December 31, 2009, we did not have any off-balance sheet liabilities or other contractual obligations that are reasonably likely to have a current or future material effect on our financial condition, other than those which originate from 1) the investment advisory and management agreement and the administration agreement and 2) the portfolio companies.

Developments Since the End of the Fiscal Quarter

On January 25, 2010, we issued 236,985 shares of our common stock in connection with the dividend reinvestment plan.

On January 4, 2010, we completed a closing for an additional \$15,000 commitment to the Facility, increasing total commitments to \$210,000.

Merger Discussions with Allied Capital Corporation

On January 14, 2010, Prospect Capital delivered a proposal letter to the Allied Capital Board (the "First Prospect Capital Merger Offer Letter") containing an offer to acquire each outstanding Allied Capital Corporation ("Allied Capital") Share in exchange for 0.385 of a share of Prospect Capital Common Stock (the "First Prospect Capital Merger Offer").

On January 19, 2010, Allied Capital filed a Form 8-K stating that the Allied Capital Board determined that the First Prospect Capital Merger Offer did not constitute a "Superior Proposal" as such term is defined in the Ares Capital Merger Agreement.

On January 20, 2010, Prospect Capital issued a press release containing a copy of a letter it subsequently sent to the Allied Capital Board in connection with the First Prospect Capital Merger Offer.

On January 26, 2010, Prospect Capital announced that it delivered another letter to the Allied Capital Board, raising its offer to acquire Allied Capital (the Second Prospect Capital Merger Offer Letter).

Table of Contents

On February 3, 2010, Allied Capital informed us and filed a Form 8-K stating that the Allied Capital Board determined that the Second Prospect Capital Merger Offer did not constitute a Superior Proposal as such term is defined in the Ares Capital Merger Agreement.

On February 9, 2010, Prospect Capital announced that it delivered another letter to the Allied Capital Board, raising its offer to acquire Allied Capital (the Third Prospect Capital Merger Offer Letter).

On February 11, 2010, Allied Capital informed us and filed a Form 8-K stating that the Allied Capital Board determined that the Third Prospect Capital Merger Offer did not constitute a Superior Proposal as such term is defined in the Ares Capital Merger Agreement. Prospect Capital has filed proxy materials to solicit Allied Shareholders to vote against Allied s proposed merger with Ares Capital Corporation. A merger with Allied would be material to Prospect Capital and its shareholders. If Prospect Capital were to negotiate a merger agreement with Allied, Prospect Capital would provide extensive disclosure to its shareholders regarding the terms and conditions of and risks regarding such transaction.

REPORT OF MANAGEMENT ON INTERNAL CONTROL OVER FINANCIAL REPORTING

Management is responsible for establishing and maintaining adequate internal control over financial reporting, and for performing an assessment of the effectiveness of internal control over financial reporting as of June 30, 2009. Internal control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. The Company's internal control over financial reporting includes those policies and procedures that (i) pertain to assets of the Company; (ii) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the Company are being made only in accordance with authorizations of management and directors of the Company; and (iii) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the Company's assets that could have a material effect on the financial statements.

Management performed an assessment of the effectiveness of the Company's internal control over financial reporting as of June 30, 2009 based upon criteria in Internal Control – Integrated Framework issued by the Committee of Sponsoring Organizations of the Treadway Commission (COSO). Based on our assessment, management determined that the Company's internal control over financial reporting was effective as of June 30, 2009 based on the criteria on Internal Control – Integrated Framework issued by COSO. There were no changes in our internal control over financial reporting during the quarter ended June 30, 2009 that have materially affected, or are reasonably likely to affect, our internal control over financial reporting.

Our management's assessment of the effectiveness of our internal control over financial reporting as of June 30, 2009 has been audited by BDO Seidman LLP, an independent registered public accounting firm, as stated in their report which appears in the 10-K.

USE OF PROCEEDS

Unless otherwise specified in a prospectus supplement, we intend to use the net proceeds from selling Securities pursuant to this prospectus initially to maintain balance sheet liquidity, involving repayment of debt under our credit facility, investments in high quality short-term debt instruments or a combination thereof, and thereafter to make long-term investments in accordance with our investment objective. A supplement to this prospectus relating to each offering will provide additional detail, to the extent known at the time, regarding the use of the proceeds from such offering including any intention to utilize proceeds to pay expenses in order to avoid sales of long-term assets.

We anticipate that substantially all of the net proceeds of an offering of Securities pursuant to this prospectus will be used for the above purposes within six months, depending on the availability of appropriate investment opportunities consistent with our investment objective and market conditions. In addition, we expect that there will be several offerings pursuant to this prospectus; we expect that substantially all of the proceeds from all offerings will be used within three years. Pending our new investments, we plan to invest a portion of net proceeds in cash equivalents, U.S. government securities and other high-quality debt investments that mature in one year or less from the date of investment and other general corporate purposes. The management fee payable by us will not be reduced while our assets are invested in such securities. See Regulation – Temporary Investments for additional information about temporary investments we may make while waiting to make longer-term investments in pursuit of our investment objective.

FORWARD-LOOKING STATEMENTS

Our annual report on Form 10-K for the year ended June 30, 2009, any of our quarterly reports on Form 10-Q or current reports on Form 8-K, or any other oral or written statements made in press releases or otherwise by or on behalf of Prospect Capital Corporation including this prospectus may contain forward looking statements within the meaning of the Section 21E of the Securities Exchange Act of 1934, as amended, which involve substantial risks and uncertainties. Forward looking statements predict or describe our future operations, business plans, business and investment strategies and portfolio management and the performance of our investments and our investment

Table of Contents

management business. These forward-looking statements are not historical facts, but rather are based on current expectations, estimates and projections about our industry, our beliefs, and our assumptions. Words such as intends, intend, intended, goal, estimate, estimates, expects, expect, expected, project, projected, project, anticipates, anticipated, should, could, may, will, designed to, foreseeable future, believe, believes, variations of these words and similar expressions are intended to identify forward-looking statements. Our actual results or outcomes may differ materially from those anticipated. Readers are cautioned not to place undue reliance on these forward looking statements, which speak only as of the date the statement was made. We undertake no obligation to publicly update or revise any forward looking statements, whether as a result of new information, future events or otherwise. These forward-looking statements do not meet the safe harbor for forward-looking statements pursuant to Section 27A of the Securities Act. These statements are not guarantees of future performance and are subject to risks, uncertainties, and other factors, some of which are beyond our control and difficult to predict and could cause actual results to differ materially from those expressed or forecasted in the forward-looking statements, including without limitation:

our future operating results,

our business prospects and the prospects of our portfolio companies,

the impact of investments that we expect to make,

the dependence of our future success on the general economy and its impact on the industries in which we invest,

the ability of our portfolio companies to achieve their objectives,

difficulty in obtaining financing or raising capital, especially in the current credit and equity environment,

the level and volatility of prevailing interest rates and credit spreads, magnified by the current turmoil in the credit markets,

adverse developments in the availability of desirable loan and investment opportunities whether they are due to competition, regulation or otherwise,

a compression of the yield on our investments and the cost of our liabilities, as well as the level of leverage available to us,

our regulatory structure and tax treatment, including our ability to operate as a business development company and a regulated investment company;

the adequacy of our cash resources and working capital;

the timing of cash flows, if any, from the operations of our portfolio companies;

the ability of our investment adviser to locate suitable investments for us and to monitor and administer our investments,

authoritative generally accepted accounting principles or policy changes from such standard-setting bodies as the Financial Accounting Standards Board, the Securities and Exchange Commission, Internal Revenue Service, the New York Stock Exchange, and other authorities that we are subject to, as well as their

counterparts in any foreign jurisdictions where we might do business; and

the risks, uncertainties and other factors we identify in Risk Factors and elsewhere in this prospectus and in our filings with the SEC.

Although we believe that the assumptions on which these forward-looking statements are based are reasonable, any of those assumptions could prove to be inaccurate, and as a result, the forward-looking statements based on those assumptions also could be inaccurate. Important assumptions include our ability to originate new loans and investments, certain margins and levels of profitability and the availability of additional capital. In light of these and other uncertainties, the inclusion of a projection or forward-looking statement in this prospectus should not be regarded as a representation by us that our plans and objectives will be achieved. These risks and uncertainties include those described or identified in Risk Factors and elsewhere in this prospectus. You should not place undue reliance on these forward-looking statements, which apply only as of the date of this prospectus.

Table of Contents

DISTRIBUTIONS

We have paid and intend to continue to distribute quarterly distributions to our stockholders out of assets legally available for distribution. Our distributions, if any, will be determined by our Board of Directors. Certain amounts of the quarterly distributions may from time to time be paid out of our capital rather than from earnings for the quarter as a result of our deliberate planning or by accounting reclassifications.

In order to maintain RIC tax treatment, we must distribute at least 90% of our ordinary income and realized net short-term capital gains in excess of realized net long-term capital losses, if any, out of the assets legally available for distribution. In order to avoid certain excise taxes imposed on RICs, we are required to distribute with respect to each calendar year by January 31 of the following year an amount at least equal to the sum of

98% of our ordinary income for the calendar year,

98% of our capital gains in excess of capital losses for the one-year period ending on October 31 of the calendar year, and

any ordinary income and net capital gains for preceding years that were not distributed during such years.

In December 2008, our Board of Directors elected to retain excess profits generated in the quarter ended September 30, 2008 and pay a 4% excise tax on such retained earnings. This tax of \$533,000 was paid in the quarter ending March 31, 2009.

In addition, although we currently intend to distribute realized net capital gains (which we define as net long-term capital gains in excess of short-term capital losses), if any, at least annually, out of the assets legally available for such distributions, we may decide in the future to retain such capital gains for investment. In such event, the consequences of our retention of net capital gains are as described under Material U.S. Federal Income Tax Considerations. We can offer no assurance that we will achieve results that will permit the payment of any cash distributions and, if we issue senior securities, we may be prohibited from making distributions if doing so causes us to fail to maintain the asset coverage ratios stipulated by the 1940 Act or if distributions are limited by the terms of any of our borrowings.

We maintain an opt out dividend reinvestment plan for our common stockholders. As a result, if we declare a dividend, then stockholders cash dividends will be automatically reinvested in additional shares of our common stock, unless they specifically opt out of the dividend reinvestment plan so as to receive cash dividends. See Dividend Reinvestment Plan. To the extent prudent and practicable, we intend to declare and pay dividends on a quarterly basis.

With respect to the dividends paid to stockholders, income from origination, structuring, closing, commitment and other upfront fees associated with investments in portfolio companies were treated as taxable income and accordingly, distributed to stockholders. For the fiscal year ended June 30, 2009, we declared total dividends of approximately \$56.1 million. For the first and second quarters of the fiscal year ending June 30, 2010, we paid total distributions of approximately \$22.3 million and \$25.9 million, respectively.

Tax characteristics of all distributions will be reported to stockholders, as appropriate, on Form 1099-DIV after the end of the year. Our ability to pay distributions could be affected by future business performance, liquidity, capital needs, alternative investment opportunities and loan covenants.

Table of Contents

The following table lists the quarterly distributions per share since shares of our common stock began being regularly quoted on The NASDAQ Global Select Market:

Date Declared	Record Date	Payment Date	Per Share	Amount
11/11/2004	12/10/2004	12/30/2004	\$ 0.100	\$ 705,510
2/9/2005	3/11/2005	3/31/2005	\$ 0.125	\$ 881,888
4/21/2005	6/10/2005	6/30/2005	\$ 0.150	\$ 1,058,265
9/15/2005	9/22/2005	9/29/2005	\$ 0.200	\$ 1,411,020

Total Declared				\$ 181,845,840

Table of Contents**SENIOR SECURITIES**

Information about our senior securities is shown in the following table as of each fiscal year ended June 30 since the Company commenced operations and as of December 31, 2009, unless otherwise noted. The report of our independent registered public accounting firm on the senior securities table as of June 30, 2009 is attached as an exhibit to the registration statement of which this prospectus is a part.

Class and Year	Total Amount Outstanding(1)	Asset Coverage per Unit(2)	Involuntary Liquidating	Average Market Value
			Preference Per Unit(3)	Per Unit(4)
Credit Facility				
Fiscal 2010 (as of December 31, 2009, unaudited)	\$ 10,000	\$ 64,748		
Fiscal 2009 (as of June 30, 2009)	124,800	5,268		
Fiscal 2008 (as of June 30, 2008)	91,167	5,712		
Fiscal 2007 (as of June 30, 2007)		N/A		
Fiscal 2006 (as of June 30, 2006)	28,500	4,799		
Fiscal 2005 (as of June 30, 2005)		N/A		
Fiscal 2004 (as of June 30, 2004)		N/A		

- (1) Total amount of each class of senior securities outstanding at the end of the period presented (in 000 s).
- (2) The asset coverage ratio for a class of senior securities representing indebtedness is calculated as our consolidated total assets, less all liabilities and indebtedness not represented by senior securities, divided by senior securities representing indebtedness. This asset coverage ratio is multiplied by \$1,000 to determine the Asset Coverage Per Unit.
- (3) This column is inapplicable because we have had only bank debt outstanding during the time periods.
- (4) This column is inapplicable because we have not had any preferred stock outstanding during any of the time periods.

Table of Contents**PRICE RANGE OF COMMON STOCK**

Our common stock is quoted on The NASDAQ Global Select Market under the symbol PSEC. The following table sets forth, for the periods indicated, our net asset value per share of common stock and the high and low sales prices per share of our common stock as reported on The NASDAQ Global Select Market. Our common stock historically trades at prices both above and below its NAV. There can be no assurance, however, that such premium or discount, as applicable, to NAV will be maintained.

	NAV(1)	Stock Price High(2)	Low(2)	Premium (Discount) of High to NAV	Premium (Discount) of Low to NAV	Dividend Declared

Third quarter (to 2/25/10)	(3)(4)	13.20	10.45	(4)	(4)	(5)

- (1) Net asset value per share is determined as of the last day in the relevant quarter and therefore may not reflect the net asset value per share on the date of the high or low sales price. The NAVs shown are based on outstanding shares at the end of each period.
- (2) The High/Low Stock Price is calculated as of the closing price on a given day in the applicable quarter.
- (3) Our most recently determined NAV per share was \$10.06 as of December 31, 2009 (\$10.07 on an as adjusted basis solely to give effect to our issuance of common stock on January 25, 2010 in connection with our dividend reinvestment plan). NAV as of March 31, 2010 may be higher or lower than \$10.07 based on potential changes in valuations as of March 31, 2010.
- (4) NAV has not yet been finally determined for any day after December 31, 2009.
- (5) The dividend for the third quarter of 2010 will be declared in March 2010.

On February 25, 2010, the last reported sales price of our common stock was \$11.66 per share. As of February 25, 2010, we had approximately 69 stockholders of record.

Table of Contents

BUSINESS

General

We are a financial services company that primarily lends to and invests in middle market privately-held companies. We are a closed-end investment company that has filed an election to be treated as a business development company under the Investment Company Act of 1940, or the 1940 Act. We invest primarily in senior and subordinated debt and equity of companies in need of capital for acquisitions, divestitures, growth, development, project financing and recapitalization. We work with the management teams or financial sponsors to seek investments with historical cash flows, asset collateral or contracted pro-forma cash flows.

On July 27, 2004, we completed our initial public offering, or IPO, and sold 7 million shares of common stock at a price of \$15.00 per share, less underwriting discounts and commissions totaling \$1.05 per share. An additional 55,000 shares were issued through the exercise of an over-allotment option with respect to the IPO on August 27, 2004. Since the IPO and the exercise of the related over-allotment option, we have made eleven other share offerings and six related over-allotment options resulting in the issuance of 43,493,836 shares at prices ranging from \$7.75 to \$17.70. The most recent offering was completed on September 24, 2009 pursuant to which the Company sold 2,807,111 at an unregistered direct price of \$9.00 per share.

On December 2, 2009, we completed our previously announced acquisition of Patriot under the Agreement and Plan of Merger, dated as of August 3, 2009, by and among, us and Patriot. Pursuant to the terms of the merger agreement, we acquired Patriot for approximately \$200 million comprised of our common stock and cash to repay all of Patriot's outstanding debt, which amounted to \$107.3 million. In the merger, each outstanding share of Patriot common stock was converted into the right to receive 0.363992 shares of common stock of Prospect, representing 8,444,068 shares of the Company's common stock, and the payment of cash in lieu of fractional shares of Prospect common stock of less than \$200 resulting from the application of the foregoing exchange ratio.

Our headquarters are located at 10 East 40th Street, 44th Floor, New York, NY 10016, and our telephone number is (212) 448-0702. Our investment adviser is Prospect Capital Management LLC.

Our Investment Objective and Policies

Our investment objective is to generate both current income and long-term capital appreciation through debt and equity investments. We focus on making investments in private companies, and many of our investments are in energy companies. We are a non-diversified company within the meaning of the 1940 Act.

Typically, we concentrate on making investments in companies with annual revenues of less than \$500 million and enterprise values of less than \$250 million. Our typical investment involves a secured loan of less than \$50 million with some form of equity participation. From time to time, we acquire controlling interests in companies in conjunction with making secured debt investments in such companies. In most cases, companies in which we invest are privately held at the time we invest in them. We refer to these companies as target or middle market companies and these investments as middle market investments.

We seek to maximize returns and protect risk for our investors by applying rigorous analysis to make and monitor our investments. While the structure of our investments varies, we can invest in senior secured debt, senior unsecured debt, subordinated secured debt, subordinated unsecured debt, mezzanine debt, convertible debt, convertible preferred equity, preferred equity, common equity, warrants and other instruments, many of which generate current yield. Our

investments primarily range between approximately \$5 million and \$50 million each, although this investment size may vary as the size of our capital base changes.

While our primary focus is to seek current income through investment in the debt and/or dividend-paying equity securities of eligible privately-held, thinly-traded or distressed companies and long-term capital appreciation by acquiring accompanying warrants, options or other equity securities of such companies, we may invest up to 30% of the portfolio in opportunistic investments in order to seek enhanced returns for stockholders. Such investments may include investments in the debt and equity instruments of broadly-traded public companies. We expect that these public companies generally will have debt securities that are non-investment grade. Within this 30% basket, we may also invest in debt and equity securities of companies located outside of the United States.

Table of Contents

Our investments may include other equity investments, such as warrants, options to buy a minority interest in a portfolio company, or contractual payment rights or rights to receive a proportional interest in the operating cash flow or net income of such company. When determined by our Investment Adviser to be in our best interest, we may acquire a controlling interest in a portfolio company. Any warrants we receive with our debt securities may require only a nominal cost to exercise, and thus, as a portfolio company appreciates in value, we may achieve additional investment return from this equity interest. We have structured, and will continue to structure, some warrants to include provisions protecting our rights as a minority-interest or, if applicable, controlling-interest holder, as well as puts, or rights to sell such securities back to the company, upon the occurrence of specified events. In many cases, we obtain registration rights in connection with these equity interests, which may include demand and piggyback registration rights.

We plan to hold many of our investments to maturity or repayment, but will sell our investments earlier if a liquidity event takes place, such as the sale or recapitalization of a portfolio company, or if we determine a sale of one or more of our investments to be in our best interest.

We have qualified and elected to be treated for U.S. Federal income tax purposes as a Registered Investment Company (RIC) under Subchapter M of the Code. As a RIC, we generally do not have to pay corporate-level U.S. Federal income taxes on any ordinary income or capital gains that we distribute to our stockholders as dividends. To continue to qualify as a RIC, we must, among other things, meet certain source-of-income and asset diversification requirements (as described below). In addition, to qualify for RIC tax treatment we must distribute to our stockholders, for each taxable year, at least 90% of our investment company taxable income, which is generally our ordinary income plus the excess of our realized net short-term capital gains over our realized net long-term capital losses.

For a discussion of the risks inherent in our portfolio investments, see Risk Factors Risks Relating to our Investments.

Industry Sectors

We have invested significantly in industrial and energy related companies. However, we continue to widen our focus in other sectors of the economy to diversify our portfolio holdings. The energy industry consists of companies in the direct energy value chain as well as companies that sell products and services to, or acquire products and services from, the direct energy value chain. In this prospectus, we refer to all of these companies as energy companies and assets in these companies as energy assets. The categories of energy companies in this chain are described below. The direct energy value chain broadly includes upstream businesses, midstream businesses and downstream businesses:

Upstream businesses find, develop and extract energy resources, including natural gas, crude oil and coal, which are typically from geological reservoirs found underground or offshore, and agricultural products.

Midstream businesses gather, process, refine, store and transmit energy resources and their by products in a form that is usable by wholesale power generation, utility, petrochemical, industrial and gasoline customers.

Downstream businesses include the power and electricity segment as well as businesses that process, refine, market or distribute hydrocarbons or other energy resources, such as customer-ready natural gas, propane and gasoline, to end-user customers.

Ongoing Relationships with Portfolio Companies

Monitoring

Prospect Capital Management monitors our portfolio companies on an ongoing basis. Prospect Capital Management will continue to monitor the financial trends of each portfolio company to determine if it is meeting its business plan and to assess the appropriate course of action for each company.

Table of Contents

Prospect Capital Management employs several methods of evaluating and monitoring the performance and value of our investments, which may include, but are not limited to, the following:

Assessment of success in adhering to the portfolio company's business plan and compliance with covenants;

Regular contact with portfolio company management and, if appropriate, the financial or strategic sponsor, to discuss financial position, requirements and accomplishments;

Attendance at and participation in board meetings of the portfolio company; and

Review of monthly and quarterly financial statements and financial projections for the portfolio company.

Investment Valuation

Our Board of Directors has established procedures for the valuation of our investment portfolio. These procedures are detailed below.

Investments for which market quotations are readily available are valued at such market quotations.

For most of our investments, market quotations are not available. With respect to investments for which market quotations are not readily available or when such market quotations are deemed not to represent fair value, our Board of Directors has approved a multi-step valuation process each quarter, as described below:

1) each portfolio company or investment is reviewed by our investment professionals with the independent valuation firm engaged by our Board of Directors;

2) the independent valuation firm conducts independent appraisals and makes their own independent assessment;

3) the audit committee of our Board of Directors reviews and discusses the preliminary valuation of our Investment Adviser and that of the independent valuation firm; and

4) the Board of Directors discusses the valuations and determines the fair value of each investment in our portfolio in good faith based on the input of our Investment Adviser, the independent valuation firm and the audit committee.

Investments are valued utilizing a market approach, an income approach, or both approaches, as appropriate. The market approach uses prices and other relevant information generated by market transactions involving identical or comparable assets or liabilities (including a business). The income approach uses valuation techniques to convert future amounts (for example, cash flows or earnings) to a single present value amount (discounted) calculated based on an appropriate discount rate. The measurement is based on the net present value indicated by current market expectations about those future amounts. In following these approaches, the types of factors that we may take into account in fair value pricing our investments include, as relevant: available current market data, including relevant and applicable market trading and transaction comparables, applicable market yields and multiples, security covenants, call protection provisions, information rights, the nature and realizable value of any collateral, the portfolio company's ability to make payments, its earnings and discounted cash flows, the markets in which the portfolio company does business, comparisons of financial ratios of peer companies that are public, M&A comparables, the principal market and enterprise values, among other factors.

In September 2006, the Financial Accounting Standards Board (FASB) issued Accounting Standards Codification (ASC or Codification) 820, *Fair Value Measurements and Disclosures* (ASC 820). ASC 820 defines fair value,

establishes a framework for measuring fair value in GAAP, and expands disclosures about fair value measurements. We adopted ASC 820 on a prospective basis beginning in the quarter ended September 30, 2008.

ASC 820 classifies the inputs used to measure these fair values into the following hierarchy:

Level 1: Quoted prices in active markets for identical assets or liabilities, accessible by the Company at the measurement date.

Table of Contents

Level 2: Quoted prices for similar assets or liabilities in active markets, or quoted prices for identical or similar assets or liabilities in markets that are not active, or other observable inputs other than quoted prices.

Level 3: Unobservable inputs for the asset or liability.

In all cases, the level in the fair value hierarchy within which the fair value measurement in its entirety falls has been determined based on the lowest level of input that is significant to the fair value measurement. Our assessment of the significance of a particular input to the fair value measurement in its entirety requires judgment and considers factors specific to each investment.

The changes to generally accepted accounting principles from the application of ASC 820 relate to the definition of fair value, framework for measuring fair value, and the expanded disclosures about fair value measurements. ASC 820 applies to fair value measurements already required or permitted by other standards.

In accordance with ASC 820, the fair value of our investments is defined as the price that we would receive upon selling an investment in an orderly transaction to an independent buyer in the principal or most advantageous market in which that investment is transacted.

In April 2009, the FASB issued ASC 820-10-65, *Determining Fair Value When the Volume and Level of Activity for the Asset or Liability Have Significantly Decreased and Identifying Transactions That Are Not Orderly* (ASC 820-10-65). This update provides further clarification for ASC 820 in markets that are not active and provides additional guidance for determining when the volume of trading level of activity for an asset or liability has significantly decreased and for identifying circumstances that indicate a transaction is not orderly. ASC 820-10-65 is effective for interim and annual reporting periods ending after June 15, 2009. The adoption of ASC 820-10-65 for the three and six months ended December 31, 2009, did not have any effect on our net asset value, financial position or results of operations as there was no change to the fair value measurement principles set forth in ASC 820.

In January 2010, the FASB issued Accounting Standards Update 2010-06, *Fair Value Measurements and Disclosures (Topic 820): Improving Disclosures about Fair Value Measurements* (ASC 2010-06). ASU 2010-06 amends ASC 820-10 and clarifies and provides additional disclosure requirements related to recurring and non-recurring fair value measurements and employers' disclosures about postretirement benefit plan assets. ASU 2010-06 is effective for interim and annual reporting periods beginning after December 15, 2009. Our management does not believe that the adoption of the amended guidance in ASC 820-10 will have a significant effect on our financial statements.

For a discussion of the risks inherent in determining the value of securities for which readily available market values do not exist, see *Risk Factors* *Risks relating to our business*. Most of our portfolio investments are recorded at fair value as determined in good faith by our Board of Directors and, as a result, there is uncertainty as to the value of our portfolio investments.

Valuation of Other Financial Assets and Financial Liabilities

In February 2007, FASB issued ASC Subtopic 820-10-05-1, *The Fair Value Option for Financial Assets and Financial Liabilities* (ASC 820-10-05-1). ASC 820-10-05-1 permits an entity to elect fair value as the initial and subsequent measurement attribute for many of assets and liabilities for which the fair value option has been elected and similar assets and liabilities measured using another measurement attribute. We have adopted this statement on July 1, 2008 and have elected not to value some assets and liabilities at fair value as would be permitted by ASC 820-10-05-1.

The Investment Adviser

Prospect Capital Management manages our investments as our investment adviser. Prospect Capital Management is a Delaware limited liability corporation that has been registered as an investment adviser under the Advisers Act since March 31, 2004. Prospect Capital Management is led by John F. Barry III and M. Grier Eliasek, two senior executives with significant investment advisory and business experience. Both Messrs. Barry and Eliasek spend a significant amount of their time in their roles at Prospect Capital Management working on the Company's behalf. The principal executive offices of Prospect Capital Management are 10 East 40th Street,

Table of Contents

44th Floor, New York, NY 10016. We depend on the diligence, skill and network of business contacts of the senior management of our Investment Adviser. We also depend, to a significant extent, on our Investment Adviser's investment professionals and the information and deal flow generated by those investment professionals in the course of their investment and portfolio management activities. The Investment Adviser's senior management team evaluates, negotiates, structures, closes, monitors and services our investments. Our future success depends to a significant extent on the continued service of the senior management team, particularly John F. Barry III and M. Grier Eliasek. The departure of any of the senior managers of our Investment Adviser could have a materially adverse effect on our ability to achieve our investment objective. In addition, we can offer no assurance that Prospect Capital Management will remain our Investment Adviser or that we will continue to have access to its investment professionals or its information and deal flow. Under our Investment Advisory Agreement, we pay Prospect Capital Management investment advisory fees, which consist of an annual base management fee based on our gross assets as well as a two-part incentive fee based on our performance. Mr. Barry currently controls Prospect Capital Management. See Management Management Services Board of Directors approval of the Investment Advisory Agreement.

As a business development company, we offer, and must provide upon request, managerial assistance to certain of our portfolio companies. This assistance could involve, among other things, monitoring the operations of our portfolio companies, participating in board and management meetings, consulting with and advising officers of portfolio companies and providing other organizational and financial guidance. We may receive fees for these services. Such fees would not qualify as "good income" for purposes of the 90% income test that we must meet each year to qualify as a RIC. Prospect Administration provides such managerial assistance on our behalf to portfolio companies when we are required to provide this assistance.

Staffing

Mr. John F. Barry III, our chairman and chief executive officer, Mr. Grier Eliasek, our chief operating officer and president, and Mr. Brian H. Oswald, our chief financial officer, chief compliance officer, treasurer and secretary, comprise our senior management. Over time, we expect to add additional officers and employees. Messrs. Barry and Eliasek each also serves as an officer of Prospect Administration and performs his respective functions under the terms of the Administration Agreement. Our day-to-day investment operations are managed by Prospect Capital Management. In addition, we reimburse Prospect Administration for our allocable portion of expenses incurred by it in performing its obligations under the Administration Agreement, including rent and our allocable portion of the costs of our Chief Executive Officer, President, Chief Financial Officer, Chief Operating Officer, Chief Compliance Officer, Treasurer and Secretary and their respective staffs. See Management Management Services Administration Agreement.

Properties

We do not own any real estate or other physical properties materially important to our operation. Our corporate headquarters are located at 10 East 40th Street, 44th Floor, New York, NY 10016, where we occupy an office space pursuant to the Administration Agreement.

Legal Proceedings

On December 6, 2004, Dallas Gas Partners, L.P. ("DGP") served us with a complaint filed November 30, 2004 in the U.S. District for the Southern District of Texas, Galveston Division. DGP alleges that DGP was defrauded and that we breached our fiduciary duty to DGP and tortiously interfered with DGP's contract to purchase Gas Solutions, Ltd. (a subsidiary of our portfolio company, GSHI) in connection with our alleged agreement in September 2004 to loan DGP funds with which DGP intended to buy Gas Solutions, Ltd. for approximately \$26 million. The complaint sought relief not limited to \$100 million. On November 30, 2005, U.S. Magistrate Judge John R. Froeschner of the

U.S. District Court for the Southern District of Texas, Galveston Division, issued a recommendation that the court grant our Motion for Summary Judgment dismissing all claims by DGP. On February 21, 2006, U.S. District Judge Samuel Kent of the U.S. District Court for the Southern District of Texas, Galveston Division issued an order granting our Motion for Summary Judgment dismissing all claims by DGP, against us. On May 16, 2007, the Court also granted us summary judgment on DGP's liability to us on our

Table of Contents

counterclaim for DGP's breach of a release and covenant not to sue. On January 4, 2008, the Court, Judge Melinda Harmon presiding, granted our motion to dismiss all DGP's claims asserted against certain of our officers and affiliates. On August 20, 2008, Judge Harmon entered a Final Judgment dismissing all of DGP's claims. DGP appealed to the U.S. Court of Appeals for the Fifth Circuit, which affirmed the Final Judgment on June 24, 2009. DGP has moved for rehearing. Our damage claims against DGP remain pending.

In May 2006, based in part on unfavorable due diligence and the absence of investment committee approval, we declined to extend a loan for \$10 million to a potential borrower (plaintiff). Plaintiff was subsequently sued by its own attorney in a local Texas court for plaintiff's failure to pay fees owed to its attorney. In December 2006, plaintiff filed a cross-action against us and certain of our affiliates (the defendants) in the same local Texas court, alleging, among other things, tortious interference with contract and fraud. We petitioned the United States District Court for the Southern District of New York (the District Court) to compel arbitration and to enjoin the Texas action. In February 2007, our motions were granted. Plaintiff appealed that decision. On July 24, 2008, the Second Circuit Court of Appeals affirmed the judgment of the District Court. The arbitration commenced in July 2007 and concluded in late November 2007. Post-hearing briefings were completed in February 2008. On April 14, 2008, the arbitrator rendered an award in our favor, rejecting all of plaintiff's claims. On April 18, 2008, we filed a petition before the District Court to confirm the award. On October 8, 2008, the District Court granted the Company's petition to confirm the award, confirmed the awards and subsequently entered judgment thereon in favor of the Company in the amount of \$2.3 million. After filing a defective notice of appeal to the United States Court of Appeals for the Second Circuit on November 5, 2008, plaintiff's counsel resubmitted a new notice of appeal on January 9, 2009. The plaintiff subsequently requested that the Company agree to stipulate to the withdrawal of plaintiff's appeal to the Second Circuit. Such a stipulation was filed with the Second Circuit on or about April 14, 2009. Based on this stipulation, the Second Circuit issued a mandate terminating the appeal, which was transmitted to the District Court on April 23, 2009. Post-judgment discovery against plaintiff is continuing and we have filed a motion for sanctions against plaintiff's counsel. Argument for the motion for sanctions was held on November 19, 2009 and a decision from the court is pending.

We are involved in various investigations, claims and legal proceedings that arise in the ordinary course of our business. These matters may relate to intellectual property, employment, tax, regulation, contract or other matters. The resolution of such matters that may arise out of these investigations, claims and proceedings will be subject to various uncertainties and, even if such matters are without merit, could result in the expenditure of significant financial and managerial resources.

We are not aware of any other material pending legal proceeding, and no such material proceedings are contemplated to which we are a party or of which any of our property is subject.

Management

Our business and affairs are managed under the direction of our Board of Directors. Our Board of Directors currently consists of five directors, three of whom are not interested persons of the Company as defined in Section 2(a)(19) of the 1940 Act. We refer to these individuals as our independent directors. Our Board of Directors elects our officers to serve for a one-year term and until their successors are duly elected and qualify, or until their earlier removal or resignation.

Board Of Directors And Executive Officers

Under our charter, our directors are divided into three classes. Directors are elected for a staggered term of three years each, with a term of office of one of the three classes of directors expiring each year. At each annual meeting of our stockholders, the successors to the class of directors whose terms expire at such meeting are elected to hold office for

a term expiring at the annual meeting of stockholders held in the third year following the year of their election. Each director holds office for the term to which he or she is elected and until his or her successor is duly elected and qualifies.

Table of Contents**Directors and Executive Officers**

Our directors and executive officers and their positions are set forth below. The address for each director and executive officer is c/o Prospect Capital Corporation, 10 East 40th Street, 44th Floor, New York, NY 10016.

Independent Directors

Name and Age	Position(s) Held with the Company	Term of Office(1) and Length of Time Served	Principal Occupation(s) During Past 5 Years	Number of Portfolios in Fund Complex Overseen by Director	Other Directorships Held by Director(2)
Graham D.S. Anderson, 45	Director	Class I Director since September 2008; Term expires 2011	General Partner of Euclid SR Partners from 2000 to present. From 1996 to 2000, Mr. Anderson was a General Partner of Euclid Partners, the predecessor to Euclid SR Partners.	One	None
Eugene S. Stark, 52	Director	Class III Director since September 2008; Term expires 2010	Principal Financial Officer, Chief Compliance Officer and Vice President Administration of General American Investors Company, Inc. from May 2005 to present. Prior to his role with General American Investors Company, Inc., Mr. Stark served as the Chief Financial Officer of Prospect Capital Corporation from January 2005 to April 2005. From May 1987 to December 2004 Mr. Stark served as Senior Vice President and Vice President with Prudential Financial, Inc.	One	None
Andrew C. Cooper, 48	Director	Class II Director since February 2009; Term expires 2012	Mr. Cooper is an entrepreneur, who over the last 11 years has founded, built, run and sold three companies. Independent Directors

Graham D.S. Anderson. Mr. Anderson has served as General Partner of Euclid SR Partners from 1996 to present. Mr. Anderson currently serves as a member of the Board of Directors of Acurian, Inc. (a clinical trial recruitment company), FatWire Software Corp. (a web content management company), iJet Risk Management (an operational risk management information company), Plateau Systems Limited (a human capital management software company) and SkinMedica Inc. (a dermatology and cosmeceuticals company).

Andrew C. Cooper. Mr. Cooper has 24 years of experience in growth company management, venture investing and investment banking. He has a wide range of operational, marketing, technology, and debt and equity capital raising expertise. Mr. Cooper is an entrepreneur, who over the last 11 years has founded, built, run and sold three companies. Prior to that, Mr. Cooper focused on venture capital and investment banking for Morgan Stanley for 14 years. He is Co-Chief Executive Officer of Unison Site Management, Inc., a specialty finance company focusing on cell site easements, and Executive Director of Brand Asset Digital, a digital media marketing and distribution company. His current Board appointments include Unison Site Management, LLC, Brand Asset Digital, LLC and Aquatic Energy, LLC.

Table of Contents

Eugene S. Stark. Mr. Stark has served as Principal Financial Officer, Chief Compliance Officer and Vice President Administration of General American Investors Company, Inc. from May 2005 to present. Prior to his role with General American Investors Company, Inc., Mr. Stark served as the Chief Financial Officer of Prospect Capital Corporation from January 2005 to April 2005. From May 1987 to December 2004 Mr. Stark served as Senior Vice President (division level) and Vice President (corporate level) with Prudential Financial, Inc. in various financial management positions. Mr. Stark serves as a member of the Board of Directors of Prospect Capital Funding LLC, a wholly-owned subsidiary of the Company, and sits on the Board of Trustees and is a Member of the Finance Committee of Mount Saint Mary Academy.

Interested Directors

John F. Barry III. Mr. Barry is chairman and chief executive officer of the Company and is a control person of Prospect Capital Management and a managing director of Prospect Administration. Mr. Barry is chairman of Prospect's investment committee and has been an officer of Prospect since 1990. In addition to overseeing Prospect, Mr. Barry has served on the boards of directors of twelve private and public Prospect portfolio companies. Mr. Barry has served on the board of advisors of USEC Inc., a publicly-traded energy company. Mr. Barry has served as chairman and chief executive officer of Bondnet Trading Systems. From 1988 to 1989, Mr. Barry managed the investment bank of L.F. Rothschild & Company, focusing on private equity and debt financings for energy and other companies. From 1983 to 1988, Mr. Barry was a senior investment and merchant banker at Merrill Lynch & Co., where he was a founding member of the project finance group, executing more than \$4 billion in energy and other financings. From 1979 to 1983, Mr. Barry was a corporate securities attorney at Davis Polk & Wardwell, where he advised energy companies and their commercial and investment bankers. From 1978 to 1979, Mr. Barry served as law clerk to Circuit Judge, formerly Chief Judge, J. Edward Lumbard of the U.S. Court of Appeals for the Second Circuit in New York City. Mr. Barry is chairman of the board of directors of the Mathematics Foundation of America, a non-profit foundation which enhances opportunities in mathematics education for students from diverse backgrounds. Mr. Barry received his JD cum laude from Harvard Law School, where he was an editor of the Harvard Law Review, and his Bachelor of Arts magna cum laude from Princeton University, where he was a University Scholar.

M. Grier Eliasek. Mr. Eliasek is president and chief operating officer of the Company and a managing director of Prospect Capital Management and Prospect Administration. At the Company, Mr. Eliasek is responsible for various administrative and investment management functions and leads and supervises other Prospect professionals in origination and assessment of investments. Mr. Eliasek has served as a senior investment professional at Prospect since 1999. Prior to joining Prospect, Mr. Eliasek assisted the chief financial officer of Amazon.com in 1999 in corporate strategy, customer acquisition, and new product launches. From 1995 to 1998, Mr. Eliasek served as a consultant with Bain & Company, a global strategy consulting firm, where he managed engagements for companies in several different industries. At Bain, Mr. Eliasek analyzed new lines of businesses, developed market strategies, revamped sales organizations and improved operational performance. Mr. Eliasek received his MBA from Harvard Business School. Mr. Eliasek received his Bachelor of Science in Chemical Engineering with Highest Distinction from the University of Virginia, where he was a Jefferson Scholar and a Rodman Scholar.

Executive Officer

Brian H. Oswald. Mr. Oswald is chief financial officer, chief compliance officer, secretary and treasurer of the Company. He began his career at KPMG Peat Marwick, where he held various positions over his ten-year tenure, finishing as a Senior Manager in the financial institutions group. During his time at KPMG, he served as the reviewing senior manager for several initial public offerings of financial institutions. After KPMG, Mr. Oswald served as the Executive Vice President and President of Gloversville Federal Savings and Loan Association, served as the Director of Financial Reporting and Subsidiary Accounting for River Bank America and served as the Corporate Controller for Magic Solutions, Inc. In each of these positions, Mr. Oswald instituted significant operational changes and was

instrumental in raising additional equity for River Bank America. From 2003 to 2005, Mr. Oswald led Capital Trust, Inc., a self-managed finance and investment management REIT which specializes in credit-sensitive structured financial products, as Chief Financial Officer. From 1997 to 2003, he served as Chief Accounting Officer for Capital Trust. Prior to joining the Company, Mr. Oswald spent two years with the Structured

Table of Contents

Finance Division of GSC Group, serving as Managing Director of Finance for this asset management company. At GSC, Mr. Oswald managed the finances for a REIT, two hedge funds and thirteen CDOs. Mr. Oswald joined the Administrator on June 16, 2008. Mr. Oswald holds a B.A. degree in Accounting from Moravian College. He is a licensed Certified Public Accountant in the States of New York and Pennsylvania, and is a Certified Management Accountant. Mr. Oswald also serves as a board member of RMJ Laboratories, Inc.

Committees of the Board of Directors

Our Board of Directors has established an Audit Committee and a Nominating and Corporate Governance Committee. For the fiscal year ended June 30, 2009, our Board of Directors held twenty-two Board of Director meetings, eleven Audit Committee meetings, and five Nominating and Corporate Governance Committee meeting. All directors attended at least 75% of the aggregate number of meetings of the Board of Directors and of the respective committees on which they served. We require each director to make a diligent effort to attend all board and committee meetings, as well as each annual meeting of stockholders.

The Audit Committee. The Audit Committee operates pursuant to a charter approved by the Board of Directors. The charter sets forth the responsibilities of the Audit Committee, which include selecting or retaining each year an independent registered public accounting firm, or the independent accountants, to audit the accounts and records of the Company; reviewing and discussing with management and the independent accountants the annual audited financial statements of the Company, including disclosures made in management's discussion and analysis, and recommending to the Board of Directors whether the audited financial statements should be included in the Company's annual report on Form 10-K; reviewing and discussing with management and the independent accountants the Company's quarterly financial statements prior to the filings of its quarterly reports on Form 10-Q; pre-approving the independent accountants' engagement to render audit and/or permissible non-audit services; and evaluating the qualifications, performance and independence of the independent accountants. The Audit Committee is presently composed of three persons: Messrs. Anderson, Cooper and Stark, each of whom is not an interested person as defined in the 1940 Act and is considered independent under the Marketplace Rules of the NASDAQ Stock Market LLC. The Company's Board of Directors has determined that Mr. Stark is an audit committee financial expert as that term is defined under Item 407 of Regulation S-K and Mr. Stark serves as the Chairman of the Audit Committee. The Audit Committee may delegate its pre-approval responsibilities to one or more of its members. The member(s) to whom such responsibility is delegated must report, for informational purposes only, any pre-approval decisions to the Audit Committee at its next scheduled meeting. Messrs. Stark, Anderson and Cooper were added to the Audit Committee concurrent with their election to the Board of Directors on September 4, 2008, September 15, 2008 and February 12, 2009, respectively.

The function of the Audit Committee is oversight. Our management is primarily responsible for maintaining appropriate systems for accounting and financial reporting principles and policies and internal controls and procedures that provide for compliance with accounting standards and applicable laws and regulations. The independent accountants are primarily responsible for planning and carrying out a proper audit of our annual financial statements in accordance with generally accepted accounting standards. The independent accountants are accountable to the Board of Directors and the Audit Committee, as representatives of our stockholders. The Board of Directors and the Audit Committee have the ultimate authority and responsibility to select, evaluate and, where appropriate, replace our independent accountants (subject, if applicable, to stockholder ratification).

In fulfilling their responsibilities, it is recognized that members of the Audit Committee are not our full-time employees or management and are not, and do not represent themselves to be, accountants or auditors by profession.

As such, it is not the duty or the responsibility of the Audit Committee or its members to conduct field work or other types of auditing or accounting reviews or procedures, to determine that the financial statements are complete and accurate and are in accordance with generally accepted accounting principles, or to set auditor independence standards. Each member of the Audit Committee is entitled to rely on (a) the integrity of those persons within and outside us and management from which it receives information; (b) the accuracy of the financial and other information provided to the Audit Committee absent actual knowledge to the contrary (which is required to be

Table of Contents

promptly reported to the Board of Directors); and (c) statements made by our officers and employees, our Investment Adviser or other third parties as to any information technology, internal audit and other non-audit services provided by the independent accountants to us.

The Nominating and Corporate Governance Committee. The Nominating and Corporate Governance Committee, or the Nominating and Governance Committee, is responsible for selecting qualified nominees to be elected to the Board of Directors by stockholders; selecting qualified nominees to fill any vacancies on the Board of Directors or a committee thereof; developing and recommending to the Board of Directors a set of corporate governance principles applicable to the Company; overseeing the evaluation of the Board of Directors and management; and undertaking such other duties and responsibilities as may from time to time be delegated by the Board of Directors to the Nominating and Governance Committee. The Nominating and Governance Committee is presently composed of three persons: Messrs. Anderson, Cooper and Stark, each of whom is not an interested person as defined in Section 2(a)(19) of the 1940 Act and Mr. Anderson serves as the Chairman of the Nominating and Governance Committee. Messrs. Stark, Anderson and Cooper were added to the Nominating and Governance Committee concurrent with their election to the Board of Directors on September 4, 2008, September 15, 2008 and February 12, 2009, respectively.

The Nominating and Governance Committee will consider stockholder recommendations for possible nominees for election as directors when such recommendations are submitted in accordance with the Company's bylaws and any applicable law, rule or regulation regarding director nominations. Nominations should be sent to the Corporate Secretary, c/o Prospect Capital Corporation, 10 East 40th Street, 44th Floor, New York, New York 10016. When submitting a nomination to the Company for consideration, a stockholder must provide all information that would be required under applicable SEC rules to be disclosed in connection with election of a director, including the following minimum information for each director nominee: full name, age and address; principal occupation during the past five years; current directorships on publicly held companies and investment companies; number of shares of our common stock owned, if any; and, a written consent of the individual to stand for election if nominated by the Board of Directors and to serve if elected by the stockholders. Criteria considered by the Nominating and Governance Committee in evaluating the qualifications of individuals for election as members of the Board of Directors include compliance with the independence and other applicable requirements of the Marketplace Rules of NASDAQ and the 1940 Act and all other applicable laws, rules, regulations and listing standards, the criteria, policies and principles set forth in the Nominating and Corporate Governance Committee Charter, and the ability to contribute to the effective management of the Company, taking into account our needs and such factors as the individual's experience, perspective, skills, expertise and knowledge of the industries in which the Company operates, personal and professional integrity, character, business judgment, time availability in light of other commitments, dedication and conflicts of interest. The Nominating and Governance Committee also may consider such other factors as it may deem to be in our best interests and those of our stockholders. The Board of Directors also believes it is appropriate for certain key members of our management to participate as members of the Board of Directors.

Corporate Governance

Corporate Governance Guidelines. Upon the recommendation of the Nominating and Governance Committee, the Board of Directors has adopted Corporate Governance Guidelines on behalf of the Company. These Corporate Governance Guidelines address, among other things, the following key corporate governance topics: director responsibilities; the size, composition, and membership criteria of the Board of Directors; composition and responsibilities of directors serving on committees of the Board of Directors; director access to officers, employees, and independent advisors; director orientation and continuing education; director compensation; and an annual performance evaluation of the Board of Directors.

Code of Conduct. We have adopted a code of conduct which applies to, among others, our senior officers, including our Chief Executive Officer and Chief Financial Officer, as well as all of our employees. Our code of conduct is an

exhibit to our Annual Report on Form 10-K filed with the SEC, and can be accessed via the Internet site of the SEC at <http://www.sec.gov>. We intend to disclose amendments to or waivers from a required provision of the code of conduct on Form 8-K.

Code of Ethics. We, Prospect Capital Management and Prospect Administration have each adopted a code of ethics pursuant to Rule 17j-1 under the 1940 Act that establishes procedures for personal investments and restricts

Table of Contents

certain personal securities transactions. Personnel subject to each code may invest in securities for their personal investment accounts, including securities that may be purchased or held by us, so long as such investments are made in accordance with the code s requirements.

Internal Reporting and Whistle Blower Protection Policy. The Company s Audit Committee has established guidelines and procedures regarding the receipt, retention and treatment of complaints regarding accounting, internal accounting controls or auditing matters, collectively, Accounting Matters, and the confidential, anonymous submission by our employees of concerns regarding questionable accounting or auditing matters. Persons with complaints or concerns regarding Accounting Matters may submit their complaints to our Chief Compliance Officer, or CCO. Persons who are uncomfortable submitting complaints to the CCO, including complaints involving the CCO, may submit complaints directly to our Audit Committee Chairman. Complaints may be submitted on an anonymous basis.

The CCO may be contacted at: Prospect Capital Corporation, Chief Compliance Officer, 10 East 40th Street, 44th Floor, New York, New York 10016.

The Audit Committee Chairman may be contacted at: Prospect Capital Corporation, Audit Committee Chairman, 10 East 40th Street, 44th Floor, New York, New York 10016.

Independent Directors

The Board of Directors, in connection with the 1940 Act and the applicable Marketplace Rules of NASDAQ, has considered the independence of members of the Board of Directors who are not employed by Prospect Capital Management and has concluded that Messrs. Anderson, Cooper and Stark are not interested persons as defined by the 1940 Act and therefore qualify as independent directors under the standards promulgated by the Marketplace Rules of NASDAQ. In reaching this conclusion, the Board of Directors concluded that Messrs. Anderson, Cooper and Stark had no relationships with Prospect Capital Management or any of its affiliates, other than their positions as directors of the Company and, if applicable, investments in us that are on the same terms as those of other stockholders.

Proxy Voting Policies And Procedures

We have delegated our proxy voting responsibility to Prospect Capital Management. The guidelines are reviewed periodically by Prospect Capital Management and our non-interested directors, and, accordingly, are subject to change. See Regulation Proxy Voting Policies and Procedures.

Compensation of Directors and Officers

The following table sets forth information regarding the compensation received by the directors and executive officers from the Company for the fiscal year ended June 30, 2009. No compensation is paid to the interested directors by the Company.

Name and Position	Aggregate Compensation from the Company	Pension or Retirement Benefits Accrued as Part of the Company s Expenses(1)	Total Compensation Paid to Director/ Officer

Eugene S. Stark(5)	\$ 70,500	None	\$ 70,500

Executive Officers

William E. Vastardis(6,7)		None	
Brian H. Oswald(2)	None	None	None

(1) We do not have a bonus, profit sharing or retirement plan, and directors do not receive any pension or retirement benefits.

Table of Contents

- (2) We have not paid, and we do not intend to pay, any annual cash compensation to our executive officers for their services as executive officers. Messrs. Barry and Eliasek are compensated by Prospect Capital Management from the income Prospect Capital Management receives under the management agreement between Prospect Capital Management and us. Mr. Oswald is compensated by Prospect Administration from the income Prospect Administration receives under the Administration Agreement.
- (3) Mr. Anderson joined our Board of Directors on September 15, 2008.
- (4) Mr. Cooper joined our Board of Directors on February 12, 2009.
- (5) Mr. Stark joined our Board of Directors on September 4, 2008.
- (6) Mr. Vastardis is no longer employed by the Company, but served as Chief Compliance Officer from January 4, 2005 through September 30, 2008, and served as Chief Financial Officer and Treasurer from April 30, 2005 through November 11, 2008. Mr. Vastardis served as Secretary from April 30, 2005 through June 6, 2008.
- (7) The compensation of William E. Vastardis for his service as Chief Financial Officer and Treasurer of the Company was paid by Vastardis Fund Services LLC, formerly our sub-administrator. Vastardis Fund Services was in turn paid by the Company at a monthly minimum rate of \$33,333.33 or annual fees on gross assets of 0.20% on the first \$250 million, 0.15% on the next \$250 million, 0.10% on the next \$250 million, 0.075% on the next \$250 million and 0.05% over one billion. The compensation of William E. Vastardis for his service as Chief Compliance Officer of the Company was paid by Vastardis Compliance Services LLC. Vastardis Compliance Services LLC was in turn paid by the Company at a monthly rate of \$6,250. In addition, the Company paid Vastardis Compliance Services LLC for certain other services at the rate of \$270 per hour. Both Vastardis Fund Services LLC and Vastardis Compliance Services LLC determined the compensation to be paid to Mr. Vastardis with respect to the Company based on a case-by-case evaluation of the time and resources that is required to fulfill his duties to the Company. For the fiscal year ending June 30, 2009, the Company paid Vastardis Compliance Services LLC \$25,000 for services rendered by Mr. Vastardis as Chief Compliance Officer. For the fiscal year ending June 30, 2009, the Company paid Vastardis Fund Services LLC approximately \$827,083 for services required to be provided by Prospect Administration, including, but not limited to, (a) clerical, bookkeeping and record keeping services, (b) conducting relations with custodians, depositories, transfer agents and other third-party service providers and (c) furnishing reports to Prospect Administration and the Board of Directors of the Company of its performance of obligations. In addition, the fees paid to Vastardis Fund Service LLC cover the services rendered by Mr. Vastardis as our Chief Financial Officer and Treasurer.

Effective July 1, 2008, the independent directors received an annual fee of \$90,000 plus reimbursement of any reasonable out-of-pocket expenses incurred. The chairman of the Audit Committee received an additional annual cash retainer of \$7,500 and the chairman of the Nominating and Corporate Governance Committee received an additional annual cash retainer of \$5,000. Effective September 15, 2008, the independent directors who do not serve on any committees of the board receive an annual fee of \$11,250.

Effective October 1, 2008, the independent directors who serve on a committee of the Board receive an annual fee of \$85,000 plus reimbursement of any reasonable out-of-pocket expenses incurred and committee chairmen no longer receive any additional compensation.

Effective January 12, 2009, the independent directors who serve on both committees of the Board receive an annual fee of \$85,000 plus reimbursement of any reasonable out-of-pocket expenses incurred, the independent directors who serve on one committee of the Board receive an annual fee of \$60,000 plus reimbursement of any reasonable

out-of-pocket expenses incurred and the independent directors who do not serve on any committees of the board receive an annual fee of \$11,250. No compensation was paid to directors who are interested persons of the Company as defined in 1940 Act. In addition, the Company purchases directors and officers liability insurance on behalf of the directors and officers. Through December 31, 2009, each of the three independent directors has been paid \$42,500 for the fiscal year ending June 30, 2010.

Table of Contents**Management Services*****Investment Advisory Agreement***

We have entered into the Investment Advisory Agreement with Prospect Capital Management under which the Investment Adviser, subject to the overall supervision of our Board of Directors, manages the day-to-day operations of, and provides investment advisory services to, us. Under the terms of the Investment Advisory Agreement, our Investment Adviser: (i) determines the composition of our portfolio, the nature and timing of the changes to our portfolio and the manner of implementing such changes, (ii) identifies, evaluates and negotiates the structure of the investments we make (including performing due diligence on our prospective portfolio companies); and (iii) closes and monitors investments we make.

Prospect Capital Management's services under the Investment Advisory Agreement are not exclusive, and it is free to furnish similar services to other entities so long as its services to us are not impaired. For providing these services the Investment Adviser receives a fee from us, consisting of two components: a base management fee and an incentive fee. The base management fee is calculated at an annual rate of 2% on our gross assets (including amounts borrowed). For services rendered under the Investment Advisory Agreement, the base management fee is payable quarterly in arrears. The base management fee is calculated based on the average value of our gross assets at the end of the two most recently completed calendar quarters and appropriately adjusted for any share issuances or repurchases during the current calendar quarter. Base management fees for any partial month or quarter are appropriately prorated.

The incentive fee has two parts. The first part, the income incentive fee, which is payable quarterly in arrears, will equal 20% of the excess, if any, of our pre-incentive fee net investment income that exceeds a 1.75% quarterly (7% annualized) hurdle rate, subject to a catch up provision measured as of the end of each calendar quarter. In the three months ended December 31, 2009, we paid an incentive fee of \$4.23 million (see calculation below). For this purpose, pre-incentive fee net investment income means interest income, dividend income and any other income (including any other fees (other than fees for providing managerial assistance), such as commitment, origination, structuring, diligence and consulting fees and other fees that we receive from portfolio companies) accrued during the calendar quarter, minus our operating expenses for the quarter (including the base management fee, expenses payable under the Administration Agreement described below, and any interest expense and dividends paid on any issued and outstanding preferred stock, but excluding the incentive fee). Pre-incentive fee net investment income includes, in the case of investments with a deferred interest feature (such as original issue discount, debt instruments with payment in kind interest and zero coupon securities), accrued income that we have not yet received in cash. Pre-incentive fee net investment income does not include any realized capital gains, realized capital losses or unrealized capital appreciation or depreciation. Pre-incentive fee net investment income, expressed as a rate of return on the value of our net assets at the end of the immediately preceding calendar quarter, is compared to a hurdle rate of 1.75% per quarter (7% annualized).

We expect the incentive fees we pay to increase to the extent we earn greater interest and dividend income through our investments in portfolio companies and, to a lesser extent, realize capital gains upon the sale of warrants or other equity investments in our portfolio companies and to decrease if our interest and dividend income and capital gains decrease. The catch-up provision requires us to pay 100% of our pre-incentive fee net investment income with respect to that portion of such income, if any, that exceeds the hurdle rate but is less than 125% of the quarterly hurdle rate in any calendar quarter (8.75% annualized assuming an annualized hurdle rate of 7%). The catch-up provision is meant to provide Prospect Capital Management with 20% of our pre-incentive fee net investment income as if a hurdle rate did not apply when our pre-incentive fee net investment income exceeds 125% of the quarterly hurdle rate in any calendar quarter (8.75% annualized assuming an annualized hurdle rate of 7%). The income incentive fee will be computed and paid on income that may include interest that is accrued but not yet received in cash. If interest income is accrued but never paid, the Board of Directors would decide to write off the accrual in the quarter when the accrual

is determined to be uncollectible. The write off would cause a decrease in interest income for the quarter equal to the amount of the prior accrual. The Investment Adviser is not under any obligation to reimburse us for any part of the incentive fee it received that was based on accrued income that we never receive as a result of a default by an entity on the obligation that resulted in the accrual of such income.

Table of Contents

The net investment income used to calculate this part of the incentive fee is also included in the amount of the gross assets used to calculate the 2% base management fee. We pay the Investment Adviser an income incentive fee with respect to our pre-incentive fee net investment income in each calendar quarter as follows:

no incentive fee in any calendar quarter in which our pre-incentive fee net investment income does not exceed the hurdle rate;

100.00% of our pre-incentive fee net investment income with respect to that portion of such pre-incentive fee net investment income, if any, that exceeds the hurdle rate but is less than 125.00% of the quarterly hurdle rate in any calendar quarter (8.75% annualized assuming a 7.00% annualized hurdle rate); and

20.00% of the amount of our pre-incentive fee net investment income, if any, that exceeds 125.00% of the quarterly hurdle rate in any calendar quarter (8.75% annualized assuming a 7.00% annualized hurdle rate).

These calculations are appropriately prorated for any period of less than three months and adjusted for any share issuances or repurchases during the current quarter.

The second part of the incentive fee, the capital gains incentive fee, is determined and payable in arrears as of the end of each calendar year (or upon termination of the Investment Advisory Agreement, as of the termination date), and equals 20% of our realized capital gains for the calendar year, if any, computed net of all realized capital losses and unrealized capital depreciation at the end of such year. In determining the capital gains incentive fee payable to the Investment Adviser, we calculate the aggregate realized capital gains, aggregate realized capital losses and aggregate unrealized capital depreciation, as applicable, with respect to each investment that has been in our portfolio. For the purpose of this calculation, an investment is defined as the total of all rights and claims which may be asserted against a portfolio company arising out of our participation in the debt, equity, and other financial instruments issued by that company. Aggregate realized capital gains, if any, equals the sum of the differences between the aggregate net sales price of each investment and the aggregate cost basis of such investment when sold or otherwise disposed. Aggregate realized capital losses equal the sum of the amounts by which the aggregate net sales price of each investment is less than the aggregate cost basis of such investment when sold or otherwise disposed. Aggregate unrealized capital depreciation equals the sum of the differences, if negative, between the aggregate valuation of each investment and the aggregate cost basis of such investment as of the applicable calendar year-end. At the end of the applicable calendar year, the amount of capital gains that serves as the basis for our calculation of the capital gains incentive fee involves netting aggregate realized capital gains against aggregate realized capital losses on a since-inception basis and then reducing this amount by the aggregate unrealized capital depreciation. If this number is positive, then the capital gains incentive fee payable is equal to 20% of such amount, less the aggregate amount of any capital gains incentive fees paid since inception.

The following is a calculation of the most recently paid incentive fee paid in January 2010 (for the quarter ended December 31, 2009) (in thousands):

Prior Quarter Net Asset Value (adjusted for stock offerings during the quarter)	\$ 637,507
Quarterly Hurdle Rate	1.75%
Current Quarter Hurdle	\$ 11,156
125% of the Quarterly Hurdle Rate	2.1875%
125% of the Current Quarter Hurdle	\$ 13,945

Edgar Filing: PROSPECT CAPITAL CORP - Form 497

Current Quarter Pre Incentive Fee Net Investment Income	\$ 21,156
Incentive Fee Catch-Up	\$ 2,789
Incentive Fee 20% in excess of 125% of the Current Quarter Hurdle	\$ 1,442
Total Current Quarter Incentive Fee	\$ 4,231

The total base management fees earned by and paid to Prospect Capital Management during the twelve months ended June 30, 2009, June 30, 2008 and June 30, 2007 were \$11.9 million, \$8.9 million and \$5.4 million,

Table of Contents

respectively. The total base management fees earned by and paid to Prospect Capital Management for the six months ended December 31, 2009 and December 31, 2008 were \$6.4 million and \$5.7 million, respectively.

The income incentive fees were \$14.8 million, \$11.3 million and \$5.8 million for the twelve months ended June 30, 2009, June 30, 2008 and June 30, 2007, respectively. No capital gains incentive fees were earned for the twelve months ended June 30, 2009, June 30, 2008 and June 30, 2007. The total income incentive fees for the six months ended December 31, 2009 and December 31, 2008 were \$7.3 million and \$8.9 million, respectively.

The total investment advisory fees were \$26.7 million, \$20.2 million and \$11.2 million for the twelve months ended June 30, 2009, June 30, 2008 and June 30, 2007, respectively. The total investment advisory fees for the six months ended December 31, 2009 and December 31, 2008 were \$13.7 million and \$14.6 million, respectively.

Because of the structure of the incentive fee, it is possible that we may have to pay an incentive fee in a quarter where we incur a loss. For example, if we receive pre-incentive fee net investment income in excess of the hurdle rate for a quarter, we will pay the applicable income incentive fee even if we have incurred negative total return in that quarter due to realized or unrealized losses on our investments.

Examples of Quarterly Incentive Fee Calculation

Example 1: Income Incentive Fee(*):

Alternative 1

Assumptions

Investment income (including interest, dividends, fees, etc.) = 1.25%

Hurdle rate(1) = 1.75%

Base management fee(2) = 0.50%

Other expenses (legal, accounting, custodian, transfer agent, etc.)(3) = 0.20%

(*) The hypothetical amount of pre-incentive fee net investment income shown is based on a percentage of total net assets.

(1) Represents 7% annualized hurdle rate

(2) Represents 2% annualized base management fee.

(3) Excludes organizational and offering expenses.

Pre-incentive fee net investment income (investment income (base management fee + other expenses)) = 0.55%

Pre-incentive net investment income does not exceed hurdle rate, therefore there is no income incentive fee.

Alternative 2

Assumptions

Investment income (including interest, dividends, fees, etc.) = 2.70%

Hurdle rate(1) = 1.75%

Base management fee(2) = 0.50%

Other expenses (legal, accounting, custodian, transfer agent, etc.)(3) = 0.20%

Pre-incentive fee net investment income (investment income (base management fee + other expenses)) = 2%

Table of Contents

Pre-incentive net investment income exceeds hurdle rate, therefore there is an income incentive fee payable by us to our Investment Adviser.

$$\begin{aligned}
 \text{Income incentive Fee} &= 100\% \times \text{Catch Up} + \text{the greater of } 0\% \text{ AND } (20\% \times (\text{pre-incentive fee net investment} \\
 &\text{income} - 2.1875)\%) \\
 &= (100\% \times (2\% - 1.75\%)) + 0\% \\
 &= 100\% \times 0.25\% + 0\% \\
 &= 0.25\%
 \end{aligned}$$

Alternative 3

Assumptions

Investment income (including interest, dividends, fees, etc.) = 3%

Hurdle rate(1) = 1.75%

Base management fee(2) = 0.50%

Other expenses (legal, accounting, custodian, transfer agent, etc.)(3) = 0.20%

Pre-incentive fee net investment income (investment income (base management fee + other expenses)) = 2.30%

Pre-incentive net investment income exceeds hurdle rate, therefore there is an income incentive fee payable by us to our Investment Adviser.

$$\begin{aligned}
 \text{Income incentive Fee} &= 100\% \times \text{Catch Up} + \text{the greater of } 0\% \text{ AND } (20\% \times (\text{pre-incentive fee net investment} \\
 &\text{income} - 2.1875)\%) \\
 &= (100\% \times (2.1875\% - 1.75\%)) + \text{the greater of } 0\% \text{ AND} \\
 &\text{(} 20\% \times (2.30\% - 2.1875\%)) \\
 &= (100\% \times 0.4375\%) + (20\% \times 0.1125\%) \\
 &= 0.4375\% + 0.0225\% \\
 &= 0.46\%
 \end{aligned}$$

Example 2: Capital Gains Incentive Fee:

Alternative 1

Assumptions

Year 1: \$20 million investment made

Year 2: Fair market value, or FMV of investment determined to be \$22 million

(1) Represents 7% annualized hurdle rate.

- (2) Represents 2% annualized base management fee.
- (3) Excludes organizational and offering expenses.

Year 3: FMV of investment determined to be \$17 million

Year 4: Investment sold for \$21 million

The impact, if any, on the capital gains portion of the incentive fee would be:

Year 1: No impact

Year 2: No impact

Year 3: Decrease base amount on which the second part of the incentive fee is calculated by \$3 million (unrealized capital depreciation)

Year 4: Increase base amount on which the second part of the incentive fee is calculated by \$4 million (\$1 million of realized capital gain and \$3 million reversal in unrealized capital depreciation)

Table of Contents

Alternative 2

Assumptions

Year 1: \$20 million investment made

Year 2: FMV of investment determined to be \$17 million

Year 3: FMV of investment determined to be \$17 million

Year 4: FMV of investment determined to be \$21 million

Year 5: FMV of investment determined to be \$18 million

Year 6: Investment sold for \$15 million

The impact, if any, on the capital gains portion of the incentive fee would be:

Year 1: No impact

Year 2: Decrease base amount on which the second part of the incentive fee is calculated by \$3 million (unrealized capital depreciation)

Year 3: No impact

Year 4: Increase base amount on which the second part of the incentive fee is calculated by \$3 million (reversal in unrealized capital depreciation)

Year 5: Decrease base amount on which the second part of the incentive fee is calculated by \$2 million (unrealized capital depreciation)

Year 6: Decrease base amount on which the second part of the incentive fee is calculated by \$3 million (\$5 million of realized capital loss offset by a \$2 million reversal in unrealized capital depreciation)

Alternative 3

Assumptions

Year 1: \$20 million investment made in company A, or Investment A, and \$20 million investment made in company B, or Investment B

Year 2: FMV of Investment A is determined to be \$21 million, and Investment B is sold for \$18 million

Year 3: Investment A is sold for \$23 million

The impact, if any, on the capital gains portion of the incentive fee would be:

Year 1: No impact

Year 2: Decrease base amount on which the second part of the incentive fee is calculated by \$2 million (realized capital loss on Investment B)

Year 3: Increase base amount on which the second part of the incentive fee is calculated by \$3 million (realized capital gain on Investment A)

Alternative 4

Assumptions

Year 1: \$20 million investment made in company A, or Investment A, and \$20 million investment made in company B, or Investment B

Year 2: FMV of Investment A is determined to be \$21 million, and FMV of Investment B is determined to be \$17 million

Year 3: FMV of Investment A is determined to be \$18 million, and FMV of Investment B is determined to be \$18 million

Table of Contents

Year 4: FMV of Investment A is determined to be \$19 million, and FMV of Investment B is determined to be \$21 million

Year 5: Investment A is sold for \$17 million, and Investment B is sold for \$23 million

The impact, if any, on the capital gains portion of the incentive fee would be:

Year 1: No impact

Year 2: Decrease base amount on which the second part of the incentive fee is calculated by \$3 million (unrealized capital depreciation on Investment B)

Year 3: Decrease base amount on which the second part of the incentive fee is calculated by \$1 million (\$2 million in unrealized capital depreciation on Investment A and \$1 million recovery in unrealized capital depreciation on Investment B)

Year 4: Increase base amount on which the second part of the incentive fee is calculated by \$3 million (\$1 million recovery in unrealized capital depreciation on Investment A and \$2 million recovery in unrealized capital depreciation on Investment B)

Year 5: Increase base amount on which the second part of the incentive fee is calculated by \$1 million (\$3 million realized capital gain on Investment B offset by \$3 million realized capital loss on Investment A plus a \$1 million reversal in unrealized capital depreciation on Investment A from Year 4)

Payment of our expenses

All investment professionals of the Investment Adviser and its staff, when and to the extent engaged in providing investment advisory and management services, and the compensation and routine overhead expenses of such personnel allocable to such services, will be provided and paid for by the Investment Adviser. We bear all other costs and expenses of our operations and transactions, including those relating to: organization and offering; calculation of our net asset value (including the cost and expenses of any independent valuation firm); expenses incurred by Prospect Capital Management payable to third parties, including agents, consultants or other advisers (such as independent valuation firms, accountants and legal counsel), in monitoring our financial and legal affairs and in monitoring our investments and performing due diligence on our prospective portfolio companies; interest payable on debt, if any, and dividends payable on preferred stock, if any, incurred to finance our investments; offerings of our debt, our preferred shares, our common stock and other securities; investment advisory fees; fees payable to third parties, including agents, consultants or other advisers, relating to, or associated with, evaluating and making investments; transfer agent and custodial fees; registration fees; listing fees; taxes; independent directors' fees and expenses; costs of preparing and filing reports or other documents with the SEC; the costs of any reports, proxy statements or other notices to stockholders, including printing costs; our allocable portion of the fidelity bond, directors and officers/errors and omissions liability insurance, and any other insurance premiums; direct costs and expenses of administration, including auditor and legal costs; and all other expenses incurred by us, by our Investment Adviser or by Prospect Administration in connection with administering our business, such as our allocable portion of overhead under the Administration Agreement, including rent and our allocable portion of the costs of our chief compliance officer and chief financial officer and his staff, including the internal legal staff.

Duration and termination

The Investment Advisory Agreement was originally approved by our Board of Directors on June 23, 2004 and was recently re-approved by the Board of Directors on June 17, 2009 for an additional one-year term expiring June 24, 2010. Unless terminated earlier as described below, it will remain in effect from year to year thereafter if approved annually by our Board of Directors or by the affirmative vote of the holders of a majority of our outstanding voting securities, including, in either case, approval by a majority of our directors who are not interested persons. The Investment Advisory Agreement will automatically terminate in the event of its assignment. The Investment Advisory Agreement may be terminated by either party without penalty upon not more than 60 days

Table of Contents

written notice to the other. See Risk factors Risks Relating to Our Business We are dependent upon Prospect Capital Management's key management personnel for our future success.

Administration Agreement

We have also entered into an Administration Agreement with Prospect Administration under which Prospect Administration, among other things, provides (or arranges for the provision of) administrative services and facilities for us. For providing these services, we reimburse Prospect Administration for our allocable portion of overhead incurred by Prospect Administration in performing its obligations under the Administration Agreement, including rent and our allocable portion of the costs of our chief compliance officer and chief financial officer and his staff, including the internal legal staff. Under this agreement, Prospect Administration furnishes us with office facilities, equipment and clerical, bookkeeping and record keeping services at such facilities. Prospect Administration also performs, or oversees the performance of, our required administrative services, which include, among other things, being responsible for the financial records that we are required to maintain and preparing reports to our stockholders and reports filed with the Securities and Exchange Commission, or the SEC. In addition, Prospect Administration assists us in determining and publishing our net asset value, overseeing the preparation and filing of our tax returns and the printing and dissemination of reports to our stockholders, and generally oversees the payment of our expenses and the performance of administrative and professional services rendered to us by others. Under the Administration Agreement, Prospect Administration also provides on our behalf managerial assistance to those portfolio companies to which we are required to provide such assistance. The Administration Agreement may be terminated by either party without penalty upon 60 days' written notice to the other party. Prospect Administration is a wholly owned subsidiary of our Investment Adviser.

Prospect Administration previously engaged Vastardis Fund Services LLC (Vastardis) to serve as our sub-administrator to perform certain services required of Prospect Administration. On April 30, 2009 we gave a 60-day notice to Vastardis of termination of our agreement for Vastardis to provide sub-administration services effective June 30, 2009. We entered into a new consulting services agreement for the period from July 1, 2009 until the filing of our Form 10-K for the year ended June 30, 2009. We paid Vastardis a total of \$30,000 for services rendered in conjunction with preparation of Form 10-K under the new agreement. All administration services were assumed by Prospect Administration effective September 14, 2009.

We reimbursed Prospect Administration \$2.9 million, \$2.1 million and \$0.5 million for the twelve months ended June 30, 2009, June 30, 2008 and June 30, 2007, respectively, for services it provided to the Company at cost.

Indemnification

The Investment Advisory Agreement provides that, absent willful misfeasance, bad faith or gross negligence in the performance of its duties or by reason of the reckless disregard of its duties and obligations, Prospect Capital Management and its officers, managers, agents, employees, controlling persons, members and any other person or entity affiliated with it are entitled to indemnification from us for any damages, liabilities, costs and expenses (including reasonable attorneys' fees and amounts reasonably paid in settlement) arising from the rendering of Prospect Capital Management's services under the Investment Advisory Agreement or otherwise as our investment adviser.

The Administration Agreement provides that, absent willful misfeasance, bad faith or negligence in the performance of its duties or by reason of the reckless disregard of its duties and obligations, Prospect Administration and its officers, managers, partners, agents, employees, controlling persons, members and any other person or entity affiliated with it are entitled to indemnification from us for any damages, liabilities, costs and expenses (including reasonable attorneys' fees and amounts reasonably paid in settlement) arising from the rendering of Prospect Administration's services under the Administration Agreement or otherwise as our administrator.

Under the sub-administration agreement (which, as described above, was terminated as of June 30, 2009), Vastardis and its officers, partners, agents, employees, controlling persons, members, and any other person or entity affiliated with Vastardis, are not liable to the Administrator or to us for any action taken or omitted to be taken by Vastardis in connection with the performance of any of its duties or obligations or otherwise as sub-administrator for the Administrator on our behalf. The agreement also provides that, absent willful misfeasance, bad faith or

Table of Contents

negligence in the performance of Vastardis' duties or by reason of the reckless disregard of Vastardis' duties and obligations, Vastardis and its officers, partners, agents, employees, controlling persons, members, and any other person or entity affiliated with Vastardis are entitled to indemnification from the Administrator and us. All damages, liabilities, costs and expenses (including reasonable attorneys' fees and amounts reasonably paid in settlement) incurred in or by reason of any pending, threatened or completed action, suit, investigation or other proceeding (including an action or suit by or in the right of the Administrator or us or our security holders) arising out of or otherwise based upon the performance of any of Vastardis' duties or obligations under the agreement or otherwise as sub-administrator for the Administrator on our behalf.

Board of Directors approval of the Investment Advisory Agreement

On June 17, 2009, our Board of Directors voted unanimously to renew the Investment Advisory Agreement for the 12-month period ending June 24, 2010. In its consideration of the Investment Advisory Agreement, the Board of Directors focused on information it had received relating to, among other things: (a) the nature, quality and extent of the advisory and other services to be provided to us by Prospect Capital Management; (b) comparative data with respect to advisory fees or expense ratios paid by other business development companies with similar investment objectives; (c) our projected operating expenses; (d) the projected profitability of Prospect Capital Management and any existing and potential sources of indirect income to Prospect Capital Management or Prospect Administration from their relationships with us and the profitability of those relationships; (e) information about the services to be performed and the personnel performing such services under the Investment Advisory Agreement; (f) the organizational capability and financial condition of Prospect Capital Management and its affiliates and (g) the possibility of obtaining similar services from other third party service providers or through an internally managed structure. In approving the renewal of the Investment Advisory Agreement, the Board of Directors, including all of the directors who are not interested persons, considered the following:

Nature, Quality and Extent of Services. The Board of Directors considered the nature, extent and quality of the investment selection process employed by Prospect Capital Management. The Board of Directors also considered Prospect Capital Management's personnel and their prior experience in connection with the types of investments made by us. The Board of Directors concluded that the services to be provided under the Investment Advisory Agreement are generally the same as those of comparable business development companies described in the available market data.

Investment Performance. The Board of Directors reviewed our investment performance as well as comparative data with respect to the investment performance of other externally managed business development companies. The Board of Directors concluded that Prospect Capital Management was delivering results consistent with our investment objective and that our investment performance was satisfactory when compared to comparable business development companies.

The reasonableness of the fees paid to Prospect Capital Management. The Board of Directors considered comparative data based on publicly available information on other business development companies with respect to services rendered and the advisory fees (including the management fees and incentive fees) of other business development companies as well as our projected operating expenses and expense ratio compared to other business development companies. The Board of Directors, on behalf of the Company, also considered the profitability of Prospect Capital Management. Based upon its review, the Board of Directors concluded that the fees to be paid under the Investment Advisory Agreement are reasonable compared to other business development companies.

Economies of Scale. The Board of Directors considered information about the potential of Prospect Capital Management to realize economies of scale in managing our assets, and determined that at this time there were

not economies of scale to be realized by Prospect Capital Management.

Based on the information reviewed and the discussions detailed above, the Board of Directors (including all of the directors who are not interested persons) concluded that the investment advisory fee rates and terms are fair and reasonable in relation to the services provided and approved the renewal of the Investment Advisory Agreement with Prospect Capital Management as being in the best interests of the Company and its stockholders.

Table of Contents**Portfolio Managers**

The following individuals function as portfolio managers primarily responsible for the day-to-day management of our portfolio. Our portfolio managers are not responsible for day-to-day management of any other accounts. For a description of their principal occupations for the past five years, see above.

Name	Position	Length of Service with Company (Years)
John F. Barry	Chairman and Chief Executive Officer	5
M. Grier Eliasek	President and Chief Operating Officer	5

Mr. Eliasek receives no compensation from the Company. Mr. Eliasek receives a salary and bonus from Prospect Capital Management that takes into account his role as a senior officer of the Company and of Prospect Capital Management, his performance and the performance of each of Prospect Capital Management and the Company. Mr. Barry receives no compensation from the Company. Mr. Barry, as the sole member of Prospect Capital Management, receives a salary and/or bonus from Prospect Capital Management and is entitled to equity distributions after all other obligations of Prospect Capital Management are met.

The following table sets forth the dollar range of our common stock beneficially owned by each of the portfolio managers described above as of June 30, 2009.

Name	Aggregate Dollar Range of Common Stock Beneficially Owned by Prospect Capital Management
John F. Barry	Over \$100,000
M. Grier Eliasek	Over \$100,000

Managerial Assistance

As a business development company, we offer, and must provide upon request, managerial assistance to certain of our portfolio companies. This assistance could involve, among other things, monitoring the operations of our portfolio companies, participating in board and management meetings, consulting with and advising officers of portfolio companies and providing other organizational and financial guidance. We billed \$846,000, \$1,027,000, and \$505,000 of managerial assistance fees for the years ended June 30, 2009, June 30, 2008, and June 30, 2007, respectively, of which \$60,000 and \$380,000 remains on the consolidated statement of assets and liabilities as of June 30, 2009, and June 30, 2008, respectively. These fees are paid to the Administrator so we simultaneously accrue a payable to the Administrator for the same amounts, which remain on the consolidated statements of assets and liabilities.

License Agreement

We entered into a license agreement with Prospect Capital Management, pursuant to which Prospect Capital Management agreed to grant us a nonexclusive, royalty free license to use the name Prospect Capital. Under this agreement, we have a right to use the Prospect Capital name, for so long as Prospect Capital Management or one of its

affiliates remains our investment adviser. Other than with respect to this limited license, we have no legal right to the Prospect Capital name. This license agreement will remain in effect for so long as the Investment Advisory Agreement with our Investment Adviser is in effect.

CERTAIN RELATIONSHIPS AND TRANSACTIONS

We have entered into the Investment Advisory Agreement with Prospect Capital Management. Our Chairman of the Board of Directors is the sole member of and controls Prospect Capital Management. Our senior management may in the future also serve as principals of other investment managers affiliated with Prospect Capital Management that may in the future manage investment funds with investment objectives similar to ours. In addition, our executive officers and directors and the principals of Prospect Capital Management may serve as officers, directors or principals of entities that operate in the same or related lines of business as we do or of investment funds managed by affiliates. Accordingly, we may not be given the opportunity to participate in certain investments made by investment funds managed by advisers affiliated with Prospect Capital Management. However, our Investment Adviser and other members of the affiliated present and predecessor companies of Prospect Capital Management

Table of Contents

intend to allocate investment opportunities in a fair and equitable manner consistent with our investment objectives and strategies so that we are not disadvantaged in relation to any other client. See Risk Factors Risks Relating To Our Business Potential conflicts of interest could impact our investment returns.

In addition, pursuant to the terms of the Administration Agreement, Prospect Administration provides, or arranges to provide, the Company with the office facilities and administrative services necessary to conduct our day-to-day operations. Prospect Capital Management is the sole member of and controls Prospect Administration.

We have no intention of investing in any portfolio company in which Prospect Capital Management or any affiliate currently has an investment.

CONTROL PERSONS AND PRINCIPAL STOCKHOLDERS

As of February 25, 2010, there were no persons that owned 25% or more of our outstanding voting securities, and we believe no person should be deemed to control us, as such term is defined in the 1940 Act.

The following table sets forth, as of February 25, 2010, certain ownership information with respect to our common stock for those persons who directly or indirectly own, control or hold with the power to vote, 5% or more of our outstanding common stock and all officers and directors, as a group. Unless otherwise indicated, we believe that the beneficial owners set forth in the tables below have sole voting and investment power.

Name and Address	Type of Ownership	Shares Owned	Percentage of Common Stock Outstanding(1)
Prospect Capital Management LLC(2)	Record and beneficial	968,251	1.52%
All officers and directors as a group (6 persons)(3)	Record and beneficial	1,940,391	3.05%

(1) Does not reflect shares of common stock reserved for issuance upon any exercise of any underwriters overallotment option.

(2) John F. Barry is a control person of Prospect Capital Management.

(3) Represents shares of common stock held by Prospect Capital Management. Because John F. Barry controls Prospect Capital Management, he may be deemed to be the beneficial owner of shares of our common stock held by Prospect Capital Management. The address for all officers and directors is c/o Prospect Capital Corporation, 10 East 40th Street, 44th Floor, New York, NY 10016.

The following table sets forth the dollar range of our equity securities beneficially owned by each of our directors and officers as of December 31, 2009. We are not part of a family of investment companies as that term is defined in the 1940 Act.

Name of Director or Officer	Dollar Range of Equity Securities in the Company(1)
------------------------------------	--

Independent Directors

Graham D.S. Anderson	\$50,001	\$100,000
Andrew C. Cooper	None	
Eugene S. Stark	\$50,001	\$100,000

Interested Directors

John F. Barry III(2)	Over \$100,000	
M. Grier Eliasek	Over \$100,000	

Officer

Brian H. Oswald	\$50,001	\$100,000
-----------------	----------	-----------

(1) Dollar ranges are as follows: none, \$1-\$10,000, \$10,001-\$50,000, \$50,001-\$100,000 or over \$100,000.

(2) Represents an indirect beneficial ownership in shares of our common stock, that are beneficially owned directly by Prospect Capital Management, by reason of Mr. Barry's position as a control person of Prospect Capital Management.

Table of Contents**PORTFOLIO COMPANIES**

The following is a listing of our portfolio companies at December 31, 2009. Values are as of December 31, 2009.

The portfolio companies are presented in three categories: companies more than 25% owned are portfolio companies in which Prospect directly or indirectly owns more than 25% of the outstanding voting securities of such portfolio company and, therefore, such portfolio company is presumed to be controlled by us under the 1940 Act; companies owned 5% to 25% are portfolio companies where Prospect directly or indirectly owns 5% to 25% of the outstanding voting securities of such portfolio company and/or holds one or more seats on the portfolio company's Board of Directors and, therefore, such portfolio company is deemed to be an affiliated person with us under the 1940 Act; companies less than 5% owned are portfolio companies where Prospect directly or indirectly owns less than 5% of the outstanding voting securities of such portfolio company and where it has no other affiliations with such portfolio company. As of December 31, 2009, Prospect owned 100.00% of the fully diluted common equity of GSHI, 100.00% of the common equity of CCEHI, 49.00% of the fully diluted common equity of Integrated, 79.83% of the fully diluted common equity of Iron Horse, 100.00% of the members unit of AWCNC, LLC, 100.00% of the common equity of Coalbed, Inc., 100.00% of the fully diluted equity of Freedom Marine Holdings Inc., 79.40% of the fully diluted equity of Nupla Corporation, 80.00% of the fully diluted common equity of NRG, 40.00% of the fully diluted equity of Sidump r Trailer Company, Inc., 74.51% of the fully diluted equity of R-V, 78.11% of the fully diluted common equity of Ajax and 100.00% of the fully diluted common equity of Yatesville. Prospect makes available significant managerial assistance to its portfolio companies. Prospect generally requests and may receive rights to observe the meetings of its portfolio companies' Boards of Directors.
