VERITAS DGC INC. AND SUBSIDIARIES

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED)

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

CONSOLIDATION

The accompanying consolidated financial statements include our accounts and the accounts of majority-owned domestic and foreign subsidiaries. Investment in an 80% owned joint venture is accounted for on the equity method due to provisions in the joint venture agreement that give minority shareholders the right to exercise control. All material intercompany balances and transactions have been eliminated. All material adjustments consisting only of normal recurring adjustments that, in the opinion of management are necessary for a fair statement of the results for the interim periods have been reflected. These interim financial statements should be read in conjunction with our annual consolidated financial statements.

USE OF ESTIMATES

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions. These estimates and assumptions affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

RECLASSIFICATION OF PRIOR YEAR BALANCES

Certain prior year balances have been reclassified for consistent presentation.

RECENT ACCOUNTING PRONOUNCEMENTS

In July 2001, the Financial Accounting Standards Board issued SFAS No. 141 (Business Combinations) and SFAS No. 142 (Goodwill and Other Intangible Assets). We adopted SFAS No. 141 upon its issuance, and we adopted SFAS No. 142 as of August 1, 2001. The main effect of SFAS No. 141 is to require purchase accounting to be used in all future business combinations, disallowing the pooling-of-interests method allowed under APB Opinion No.16. SFAS No. 142

Edgar Filing: VERITAS DGC INC - Form 10-Q

defines the booking and subsequent treatment of goodwill and other intangible assets derived from business combinations and supersedes APB Opinion No.17. This statement requires us to discontinue amortization of goodwill and requires that we test goodwill and other intangible assets for impairment in a specific manner on an annual basis or when certain events trigger such a test. We completed our initial evaluation of goodwill in January 2002 and found no impairment.

In August 2001, the Financial Accounting Standards Board issued SFAS No.143 (Asset Retirement Obligations). This standard requires that obligations associated with the retirement of a tangible long-lived asset be recorded as a liability when those obligations are incurred with the liability being initially measured at fair value. We will adopt the use of this accounting statement in fiscal 2003. We have not yet completed our evaluation of the effect of this statement on our accounting practices.

In October 2001, the Financial Accounting Standards Board issued SFAS No. 144 (Accounting for the Impairment or Disposal of Long Lived Assets). This standard develops one accounting model for long-lived assets that are to be disposed of by sale, requiring such assets to be measured at the lower of book value or fair value less cost to sell. The standard also provides guidance on the recognition of liabilities for the obligations arising from disposal activities. We will adopt the use of this accounting statement in fiscal 2003. We have not yet completed our evaluation of the effect of this statement on our accounting practices.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (CONTINUED) (UNAUDITED)

2. MERGER COSTS

On November 26, 2001, Petroleum Geo-Services ASA, a Norwegian public limited liability company ("PGS"), Veritas DGC Inc., a Delaware corporation ("Veritas"), Venus I, a Cayman Islands exempted company and a direct, wholly owned subsidiary of Veritas ("Caymanco"), Venus Holdco Inc., a Delaware corporation and an indirect, wholly owned subsidiary of Caymanco ("Veritas Holdco"), and Venus Mergerco Inc., a Delaware corporation and a direct, wholly owned subsidiary of Veritas Holdco ("Veritas Merger Sub"), entered into an Agreement and Plan of Merger and Exchange Agreement (the "Agreement"), whereby, subject to the conditions stated therein, (i) Caymanco will make an offer (the "Exchange Offer") to issue ordinary shares, par value \$0.01 per share, of Caymanco ("Caymanco Shares") in exchange for the issued and outstanding ordinary shares, nominal value NOK 5 per share, of PGS ("PGS Shares") and all issued and outstanding American Depositary Shares representing such PGS Shares ("PGS ADSs"), at an exchange ratio of 0.47 Caymanco Shares for each PGS Share and each PGS ADS; and (ii) immediately following the closing of the Exchange Offer, Veritas Merger Sub will be merged with and into Veritas (the "Merger" and, together with the Exchange Offer, the "Combination"), pursuant to which shares of common stock, par value \$0.01 per share, of Veritas ("Veritas Common Stock") will be converted into Caymanco Shares on a one-for-one basis and certain shares that are exchangeable for shares of Veritas Common Stock will become exchangeable for Caymanco Shares. Upon closing of the Combination, which is expected to occur before the end of fiscal 2002, PGS and Veritas would become subsidiaries of Caymanco. Under the terms of the agreement, PGS shareholders would hold approximately 60% of the shares to be issued by Caymanco, and Veritas shareholders would hold approximately 40% of such shares.

Edgar Filing: VERITAS DGC INC - Form 10-Q

During the current quarter we spent \$2.8 million on merger related items, including investment banking, legal and accounting services. As the acquired company, for accounting purposes, we are required to expense these fees as incurred.

3. ARGENTINA DEVALUATION AND SHUTDOWN COSTS

On January 4th, 2002, Argentina devalued its currency, ending a ten-year period of parity with the U.S. dollar. At the same time, the Argentine government instituted sweeping law changes, including outlawing pricing linked to outside currencies and changing significant amounts of dollar-denominated consumer debt into peso-denominated debt on a 1-to-1-basis.

The law effecting dollar-denominated pricing affected us negatively, as we previously had very little financial exposure to the peso due to our contracting methods. This change put all of our accounts receivable in Argentina at risk during the period of devaluation, resulting in a \$1.4 million loss. Our customers are similarly affected, as their sales of oil on account are being repaid with dollar equivalent pesos, now worth approximately half that amount.

The Argentine banking law is also affecting us indirectly. Denominating consumer debt into pesos means that banks will be severely damaged as their loan portfolios decline precipitously in value. The Argentine government is proposing a 25% tax on oil production as a means to generate funds with which to repay the banks for this imposition. In response to this tax, and the general economic conditions in Argentina, our customers have significantly curtailed operations in this country. This led to our decision to shutdown our seismic acquisition business, resulting in the severance of most of our employees and redeployment of our equipment. The severance and redeployment costs are estimated to be \$0.9 million and have also been included in the operating expense section of our income statement.

4. OTHER INCOME-NET

Other income-net consists of the following:

	THREE MONTHS ENDED JANUARY 31,		SIX MONTH JANUARY 31,
	2002	2001	2002
	(IN THOUSANDS)		
Interest income	\$ (271)	\$ (1,634)	\$ (1,120)
Net gain on disposition of property and equipment ..	(53)	(320)	(1,694)
Net gain on sale of Air-Jac subsidiary	(658)		
Net foreign currency exchange gain	(320)	(573)	(88)

8. HEDGE TRANSACTION

In March 2001, we entered into a contract requiring payments in Norwegian kroner to charter the seismic vessel M/V Seisquest. The contract requires 36 monthly payments commencing on June 1, 2001. To protect our exposure to exchange rate risk, we entered into multiple forward contracts as cash flow hedges effectively locking our exchange rate for Norwegian kroner to the U.S. dollar. The unrealized loss on the hedge transaction is summarized below:

	JANUARY 31, 2002			JULY 31, 2001

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

This report contains forward-looking statements that involve risks and uncertainties. Our actual results could differ materially from those anticipated in the forward-looking statements as a result of certain factors. These factors are more fully described in other reports filed with the Securities and Exchange Commission, including our fiscal year 2001 Form 10-K, and include changes in market conditions in the oil and gas industry as well as declines in prices of oil and gas.

OUTLOOK

We have enjoyed a strong quarter in an environment of fairly weak commodity prices and general economic concerns. We expect that exploration spending will be reduced in 2002 but do not foresee large reductions in seismic spending, as the levels of spending have been fairly modest over recent quarters. While multi-client revenue is difficult to forecast, we expect this portion of our business to remain strong for the remainder of the fiscal year. We are seeing weakness in the land contract market in the Western Hemisphere, particularly in the lower 48 United States and in Argentina, where recent economic problems have disrupted the entire oil industry. However, we enjoy a strong relationship with land acquisition customers in Canada who are currently remaining active and we have a large project beginning in Peru in June. We have seen marine contract pricing stabilize at a profitable level, although we are concerned that overcapacity still exists in this market. Finally, demand for high-end data processing is continuing to increase and we are well positioned to meet the demand with multi-client products already on the shelf and with capacity to perform contract services. Against this background, we are comfortable with previous earnings guidance of \$1.00 to \$1.20 per share for fiscal 2002. This estimate does not include the effects of any unusual charges; such as the ones we recorded this quarter related to our proposed merger and the Argentine situation, both described in more detail below.

Edgar Filing: VERITAS DGC INC - Form 10-Q

On November 26, 2001, we entered into an Agreement and Plan of Merger and Exchange Agreement with Petroleum Geo-Services ASA (PGS). The proposed merger has passed all significant regulatory requirements. Upon closing, which is anticipated to occur before the end of fiscal 2002, Veritas DGC Inc. and Petroleum Geo-Services ASA would become subsidiaries of a new holding company incorporated in the Cayman Islands. See Note 2 of the Notes to Consolidated Financial Statements.

RESULTS OF OPERATIONS

THREE MONTHS ENDED JANUARY 31, 2002 COMPARED WITH THREE MONTHS ENDED JANUARY 31, 2001

Revenues. Revenues decreased by 11% overall. Multi-client revenues increased 10% due to increased licensing of Gulf of Mexico data and continued acquisition by both Veritas Vikings of the well-funded multi-client Brazil Cluster survey. The multi-client revenue increase was offset by the contract revenue decrease of 28% primarily due to declines in the land acquisition business. The decrease was caused, in part, by warmer than normal weather in Canada and Alaska which delayed the winter season. The economic and political situation in Argentina added to the shortfall, as our customers ceased their exploration activity in that country. As a result, we are suspending our land acquisition business in Argentina, severing most of our employees there and moving our equipment to other countries.

Operating Income. Operating income increased by 3%, from \$14.4 million to \$14.8 million, however, the current quarter income includes unusual charges of \$2.8 million for costs related to our proposed merger with PGS and \$2.4 million for Argentine costs including foreign exchange losses, severance and equipment relocation. The foreign exchange component of the unusual charge occurred due to a change in Argentine law outlawing the use of dollar denominated contracts, even if the contracts were executed before the change in law. Before this law changed, we had little exposure to the Argentine peso devaluation. Excluding these unusual charges, the operating income was \$19.9 million, or a 38% increase. Cost of services as a percentage of revenue decreased from 70% to 62% due to slightly improved contract margins and improved revenue mix, with multi-client revenues representing 56% of total revenue compared with 45% in the prior year.

Other income-net. Other income-net decreased by \$1.3 million, from \$2.6 million to \$1.3 million. This decrease is primarily due to the decrease in interest income by \$1.4 million as a result of lower cash balances and lower interest rates. In addition, currency gains decreased from \$0.6 million to \$0.3 million. A \$0.7 million gain in the current year from the sale of our transition zone shot-hole drilling business, Air-Jac Drilling, partially offset the lower interest income and foreign exchange gains.

9

Provision for income taxes. The effective income tax rate decreased from 47% to 39%. This change is due to fewer unbenefitted losses in non-U.S. entities in the current year, an addition to the effective tax rate in the prior year as a result of the inability to utilize foreign taxes as credits against U.S. profits, and the cessation of goodwill amortization which is generally not tax deductible.

SIX MONTHS ENDED JANUARY 31, 2002 COMPARED WITH SIX MONTHS ENDED JANUARY 31, 2001

Edgar Filing: VERITAS DGC INC - Form 10-Q

Revenues. Revenues decreased 2% with the drop occurring equally in multi-client and contract revenue. The strong year over year increase in the contract land business seen in the first quarter of this year has been offset for the six-month period by the U.S. and Argentine problems of the current quarter. The multi-client business has shown the opposite trend; softness in the first quarter was followed by strong sales and high activity on well-funded surveys in the current quarter.

Operating Income. Operating income increased 21%, from \$24.8 million to \$29.9 million. Without the unusual charge of \$5.1 million related to the merger and Argentina, the increase would be 41%. The largest contributor to this increase were improved contract margins in the current year due to a focus on higher margin work.

Other income-net. Other income-net decreased by \$2.0 million primarily due to a \$1.5 million decrease in interest income as a result of lower cash balances and lower interest rates. Currency gains decreased from \$0.4 million to \$0.1 million. In addition, gain on the sale of fixed assets decreased by \$0.7 million. A net \$0.6 million gain in the current year from the sale of our transition zone shot-hole drilling business, Air-Jac Drilling, partially offset the interest income and foreign exchange reductions.

Provision for income taxes. Income taxes increased from \$9.6 million to \$9.7 million as a result of our higher earnings in the current year. The decrease in the effective income tax rate from 44% to 39% is due to fewer unbenefitted losses in non-U.S. entities in the current year, an addition to the effective tax rate in the prior year as a result of the inability to utilize foreign taxes as credits against U.S. profits, and the cessation of goodwill amortization which is generally not tax deductible.

LIQUIDITY AND CAPITAL RESOURCES

SOURCES AND USES

Our internal sources of liquidity are cash, cash equivalents and cash flow from operations. External sources include public financing, equity sales, the unutilized portion of a revolving credit facility, equipment financing and trade credit. We believe that these sources of funds are adequate to meet our liquidity needs for fiscal 2002.

Net cash provided by operating activities increased from \$91.8 million in the first six months of 2001 to \$106.3 million in 2002. Major components of this change were a \$3.1 million increase in net income and an \$18.4 million favorable change in operating assets and liabilities. Net cash used by investing activities increased from \$128.3 million in the first six months of 2001 to \$150.4 million in 2002 due to higher capital spending and investments in multi-client library. We require significant amounts of working capital to support our operations and fund our research and development program. We are forecasting capital expenditures for fiscal 2002 of approximately \$100 million, which includes expenditures of approximately \$60 million to expand or upgrade our marine fleet. We are also forecasting approximately \$200 million in gross spending on our multi-client data library.

We will require substantial cash flow to continue our investment in our multi-client data library, complete our capital expenditure and research and development programs and meet our principal and interest obligations with respect to outstanding indebtedness. While we believe that we have adequate sources of funds to meet our liquidity needs, our ability to meet our obligations depends on our future performance, which, in turn, is subject to many factors beyond our control. Key internal factors affecting future results include utilization levels of acquisition and processing assets and the level of

Edgar Filing: VERITAS DGC INC - Form 10-Q

multi-client data library licensing, all of which are driven by the external factors of exploration spending and, ultimately, underlying commodity prices.

10

Net cash provided by financing activities decreased from \$89.6 million in the first six months of 2001 to \$1.3 million in 2002. The prior year includes proceeds from a common stock offering of \$82.4 million. As of January 31, 2002, we had \$135.0 million in senior notes outstanding due in October 2003. These notes contain a change of control provision allowing the holders to require our redemption of the notes under certain conditions. We also have a revolving credit facility due August 2003 from commercial lenders that provides U.S. advances up to \$80.0 million and non-U.S. advances up to \$20 million. Advances bear interest, at our election, at LIBOR plus a margin or prime rate plus a margin. These margins are based on either certain of our financial ratios or our credit rating. At January 31, 2002 the LIBOR margin was 1.25% and the prime rate margin was 0%. As of January 31, 2002, there were no outstanding advances under the credit facility, but \$4.0 million of the credit facility was utilized for letters of credit, leaving \$96.0 million available for borrowings.

OTHER

Since our quasi-reorganization on July 31, 1991 with respect to Digicon Inc., the tax benefits of net operating loss carry-forwards existing at the date of the quasi-reorganization have been recognized through a direct addition to additional paid-in capital, when realization is more likely than not. Additionally, the utilization of the net operating loss carry-forwards existing at the date of the quasi-reorganization is subject to certain limitations. For the six months ended January 31, 2002, we recognized \$1.4 million related to these benefits.

We receive some account receivable payments in foreign currency. We currently do not conduct a hedging program for accounts receivable because we do not consider our current exposure to foreign currency fluctuations to be significant. We have hedged certain future charter payments to be made in a foreign currency.

In July 2001, the Financial Accounting Standards Board issued SFAS No. 141 (Business Combinations) and SFAS No. 142 (Goodwill and Other Intangible Assets). We adopted SFAS No. 141 upon its issuance, and we adopted SFAS No. 142 as of August 1, 2001. The main effect of SFAS No. 141 is to require purchase accounting to be used in all future business combinations, disallowing the pooling-of-interests method allowed under APB Opinion No.16. SFAS No. 142 defines the booking and subsequent treatment of goodwill and other intangible assets derived from business combinations and supersedes APB Opinion No.17. This statement requires us to discontinue amortization of goodwill and requires that we test goodwill and other intangible assets for impairment in a specific manner on an annual basis or when certain events trigger such a test. We have completed our initial evaluation of goodwill in January 2002 and found no impairment.

In August 2001, the Financial Accounting Standards Board issued SFAS No.143 (Asset Retirement Obligations). This standard requires that obligations associated with the retirement of a tangible long-lived asset be recorded as a liability when those obligations are incurred with the liability being initially measured at fair value. We will adopt the use of this accounting statement in fiscal 2003. We have not yet completed our evaluation of the effect of this statement on our accounting practices.

In October 2001, the Financial Accounting Standards Board issued SFAS No. 144 (Accounting for the Impairment or Disposal of Long Lived Assets). This standard

Edgar Filing: VERITAS DGC INC - Form 10-Q

develops one accounting model for long-lived assets that are to be disposed of by sale, requiring such assets to be measured at the lower of book value or fair value less cost to sell. The standard also provides guidance on the recognition of liabilities for the obligations arising from disposal activities. We will adopt the use of this accounting statement in fiscal 2003. We have not yet completed our evaluation of the effect of this statement on our accounting practices.

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES REGARDING MARKET RISK

At January 31, 2002, we had limited market risk related to foreign currencies. In March 2001, we entered into a contract requiring payments in Norwegian kroner to charter the seismic vessel M/V Seisquest. The contract requires 36 monthly payments commencing on June 1, 2001. To protect our exposure to exchange rate risk, we entered into multiple forward contracts as cash flow hedges fixing our exchange rates for Norwegian kroner to the U.S. dollar. The total fair value of the open forward contracts at January 31, 2002 in U.S. dollars is \$6.9 million.

11

ITEM 4. SUBMISSION OF MATTERS TO A VOTE OF SECURITY HOLDERS

On December 11, 2001 at the Annual Meeting of Stockholders, the stockholders voted to amend and restate Veritas' 1997 Employee Stock Purchase Plan to increase the number of shares available for purchase by 500,000, bringing the total number of shares reserved under the plan to 1,000,000. Votes were cast in the following numbers: 25,250,018 in favor, 873,467 against and 13,649 abstaining.

The stockholders also voted, as follows, to elect eight directors of Veritas DGC Inc.

Name	Votes For	Votes Withheld
Clayton P. Cormier	26,007,115	130,519
Lawrence C. Fichtner	26,010,103	127,531
James R. Gibbs	26,007,803	129,831
Stephen J. Gilbert	17,939,391	8,198,243
Stephen J. Ludlow	26,007,240	130,394
Brian F. MacNeill	26,009,853	127,781
Jan Rask	26,008,203	129,431
David B. Robson	21,063,296	5,074,338

 - (iv) Shared power to dispose or to direct the disposition of: 8,139,721

Item 5. Ownership of Five Percent or Less of a Class

If this statement is being filed to report the fact that as of the date hereof the reporting person has ceased to be the beneficial owner of more than five percent of the class of securities, check the following o .

Item 6. Ownership of More than Five Percent on Behalf of Another Person.

Neuberger Berman Group LLC and its affiliates may be deemed to be beneficial owners of securities for purposes of Exchange Act Rule 13d-3 because they or certain affiliated persons have shared power to retain, dispose of or vote the securities of unrelated clients. Neuberger Berman Group LLC or its affiliated persons do not, however, have any economic interest in the securities of those clients. The clients have the sole right to receive and the power to direct the receipt of dividends from or proceeds from the sale of such securities. No one client has an interest of more than 5% of the issuer.

With regard to the shares set forth under item 4(c)(ii), Neuberger Berman Group LLC may be deemed to be the beneficial owner for purposes of Rule 13d-3 because certain affiliated persons have shared power to retain, dispose of and vote the securities. In addition to the holdings of individual advisory clients, Neuberger Berman Investment Advisers LLC serves as investment manager of Neuberger Berman Group LLC's various registered mutual funds which hold such shares. The holdings belonging to clients of Neuberger Berman Trust Co N.A., Neuberger Berman Trust Co of Delaware N.A., NB Alternatives Advisers LLC and Neuberger Berman Investment Advisers LLC are also aggregated to comprise the holdings referenced herein.

In addition to the shares set forth under Item 4(c)(ii) for which Neuberger entities also have shared power to dispose of the shares, item 4(c)(iv) also includes shares from individual client accounts over which Neuberger Berman Investment Advisers LLC has shared power to dispose but does not have voting power over these shares. The holdings of Neuberger Berman Trust Co N.A., Neuberger Berman Trust Co of Delaware N.A., NB Alternatives Advisers LLC and Neuberger Berman Investment Advisers LLC, are also aggregated to comprise the holdings referenced herein.

Item 7. Identification and Classification of the Subsidiary Which Acquired the Security Being Reported on By the Parent Holding Company

Item 8. Identification and Classification of Members of the Group

Item 9. Notice of Dissolution of Group

Item Certification
10.

By signing below I certify that, to the best of my knowledge and belief, the securities referred to above were acquired and are held in the ordinary course of business and were not acquired and are not held for the purpose of or with the effect of changing or influencing the control of the issuer of the securities and were not acquired and are not held in connection with or as a participant in any transaction having that purpose or effect, other than activities solely in connection with a nomination under §240.14a-11.

SIGNATURE

After reasonable inquiry and to the best of my knowledge and belief, I certify that the information set forth in this statement is true, complete and correct.
