**NEUSTAR, INC.**  
**NOTES TO UNAUDITED CONSOLIDATED FINANCIAL STATEMENTS**  
**FOR THE THREE MONTHS ENDED MARCH 31, 2006 AND 2007**

**1. DESCRIPTION OF BUSINESS AND ORGANIZATION**

NeuStar, Inc. (the Company) was incorporated as a Delaware corporation in 1998. The Company provides the communications industry with essential clearinghouse services. Its customers use the databases the Company contractually maintains in its clearinghouse to obtain data required to successfully route telephone calls in North America, to exchange information with other communications service providers and to manage technological changes in their own networks. The Company operates the authoritative directories that manage virtually all telephone area codes and numbers, and it enables the dynamic routing of calls among thousands of competing communications service providers, or CSPs, in the United States and Canada. All CSPs that offer telecommunications services to the public at large, or telecommunications service providers, must access the Company's clearinghouse to properly route virtually all of their customers' calls. The Company also provides clearinghouse services to emerging CSPs, including Internet service providers, mobile network operators, cable television operators, and voice over Internet Protocol, or VoIP, service providers. In addition, the Company provides domain name services, including internal and external managed DNS solutions that play a key role in directing and managing traffic on the Internet, and it also manages the authoritative directories for the .us and .biz Internet domains. The Company operates the authoritative directory for U.S. Common Short Codes, part of the short messaging service relied upon by the U.S. wireless industry, and provides solutions used by mobile network operators throughout Europe to enable mobile instant messaging for their end users.

The Company was founded to meet the technical and operational challenges of the communications industry when the U.S. government mandated local number portability in 1996. While the Company remains the provider of the authoritative solution that the communications industry relies upon to meet this mandate, the Company has developed a broad range of innovative services to meet an expanded range of customer needs. The Company provides the communications industry with critical technology services that solve the addressing, interoperability and infrastructure needs of CSPs. These services are now used by CSPs to manage a range of their technical and operating requirements, including:

*Addressing.* The Company enables CSPs to use critical, shared addressing resources, such as telephone numbers, Internet top-level domain names, and U.S. Common Short Codes.

*Interoperability.* The Company enables CSPs to exchange and share critical operating data so that communications originating on one provider's network can be delivered and received on the network of another CSP. The Company also facilitates order management and work flow processing among CSPs.

*Infrastructure and Other.* The Company enables CSPs to manage their networks more efficiently by centrally managing certain critical data they use to route communications over their own networks.

**2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES**

**Unaudited Interim Financial Information**

The accompanying unaudited consolidated financial statements have been prepared in accordance with U.S. generally accepted accounting principles for interim financial information and the instructions to Form 10-Q and Article 10 of Regulation S-X. Accordingly, they do not include all of the information and notes required by U.S. generally accepted accounting principles for complete financial statements. In the opinion of management, all adjustments (consisting of normal recurring adjustments) considered necessary for a fair presentation have been included. The results of operations for the three months ended March 31, 2007 are not necessarily indicative of the results that may be expected for the full fiscal year. The consolidated balance sheet as of December 31, 2006 has been derived from the audited consolidated financial statements at that date, but does not include all of the information and notes required by U.S. generally accepted accounting principles for complete financial statements.

These consolidated financial statements should be read in conjunction with the audited consolidated financial statements and notes thereto included in the Company's Annual Report on Form 10-K for the year ended December 31,

**NEUSTAR, INC.****NOTES TO UNAUDITED CONSOLIDATED FINANCIAL STATEMENTS (Continued)****Use of Estimates**

The preparation of financial statements in conformity with U.S. generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, the disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenue and expense during the reporting periods. Actual results could differ from those estimates.

**Goodwill**

Goodwill represents the excess of costs over fair value of net assets for businesses acquired. Goodwill and intangible assets that are determined to have an indefinite useful life are not amortized, but instead tested for impairment annually in accordance with the provisions of Statement of Financial Accounting Standards (SFAS) No. 142, *Goodwill and Other Intangible Assets*.

The Company performs its annual impairment analysis on October 1 of each year or more often if indicators of impairment arise. The impairment review may require an analysis of future projections and assumptions about the Company's operating performance. If such a review indicates that the assets are impaired, an expense would be recorded for the amount of the impairment, and the carrying value of the corresponding impaired assets would be reduced. There were no impairment charges recognized during the three months ended March 31, 2006 and 2007.

**Identifiable Intangible Assets**

Identifiable intangible assets are amortized over their respective estimated useful lives using a method of amortization that reflects the pattern in which the economic benefits of the intangible assets are consumed or otherwise used and are reviewed for impairment in accordance with SFAS No. 144, *Accounting for Impairment or Disposal of Long-Lived Assets* (SFAS No. 144).

The Company's identifiable intangible assets are amortized as follows:

	<b>Years</b>	<b>Method</b>
Acquired technologies	3 to 4	Straight-line
Customer lists and relationships	3 to 7	Various
Trade name	3	Straight-line

Amortization expense related to acquired technologies and customer lists and relationships is included in depreciation and amortization expense in the consolidated statements of operations.

**Impairment of Long-Lived Assets**

In accordance with SFAS No. 144, a review of long-lived assets for impairment is performed when events or changes in circumstances indicate the carrying value of such assets may not be recoverable. If an indicator of impairment is present, the Company compares the estimated undiscounted future cash flows to be generated by the asset to its carrying amount. If the undiscounted future cash flows are less than the carrying amount of the asset, the Company records an impairment loss equal to the excess of the asset's carrying amount over its fair value. The fair value is determined using customary valuation techniques, such as a discounted cash flow analysis. There were no impairment charges recognized during the three months ended March 31, 2006 and 2007.

**Revenue Recognition**

The Company provides the North American communications industry with essential clearinghouse services that address the industry's addressing, interoperability, and infrastructure needs. The Company's revenue recognition policies are in accordance with the SEC's Staff Accounting Bulletin No. 104, *Revenue Recognition*. The Company provides the following services pursuant to various private commercial and government contracts.

**NEUSTAR, INC.**

**NOTES TO UNAUDITED CONSOLIDATED FINANCIAL STATEMENTS (Continued)**

*Addressing*

The Company's addressing services include telephone number administration, implementing the allocation of pooled blocks of telephone numbers, directory services for Internet domain names and U.S. Common Short Codes, and internal and external managed DNS services. The Company generates revenue from its telephone number administration services under two government contracts. Under its contract to serve as the North American Numbering Plan Administrator, the Company earns a fixed annual fee and recognizes this fee as revenue on a straight-line basis as services are provided. In the event the Company estimates losses on its fixed fee contract, the Company recognizes these losses in the period in which a loss becomes apparent. Under the Company's contract to serve as the National Pooling Administrator, the Company is reimbursed for costs incurred plus a fixed fee associated with administration of the pooling system. The Company recognizes revenue for this contract based on costs incurred plus a pro rata amount of the fixed-fee.

In addition to the administrative functions associated with its role as the National Pooling Administrator, the Company also generates revenue from implementing the allocation of pooled blocks of telephone numbers under its long-term contracts with North American Portability Management LLC, and the Company recognizes revenue on a per-transaction fee basis as the services are performed. For its Internet domain name services, the Company generates revenue for Internet domain registrations, which generally have contract terms between one and ten years. The Company recognizes revenue on a straight-line basis over the lives of the related customer contracts.

The Company generates revenue through internal and external managed DNS services. This revenue consists of customer set-up fees followed by transaction processing under contracts with terms ranging from one to three years. Customer set-up fees are not considered a separate deliverable and are deferred and recognized on a straight-line basis over the term of the contract. Under the Company's contracts to provide its managed DNS services, customers have contractually established monthly transaction volumes for which they are charged a recurring monthly fee. Transactions processed in excess of the pre-established monthly volume are billed at a contractual per-transaction rate. Each month the Company recognizes the recurring monthly fee and usage in excess of the established monthly volume on a per-transaction basis as services are provided. The Company generates revenue from its U.S. Common Short Code services under short-term contracts ranging from three to twelve months, and the Company recognizes revenue on a straight-line basis over the term of the customer contracts.

*Interoperability*

The Company's interoperability services consist primarily of wireline and wireless number portability and order management services. The Company generates revenue from number portability under its long-term contracts with North American Portability Management LLC and Canadian LNP Consortium, Inc. The Company recognizes revenue on a per-transaction fee basis as the services are performed. The Company provides order management services (OMS), consisting of customer set-up and implementation followed by transaction processing, under contracts with terms ranging from one to three years. Customer set-up and implementation are not considered separate deliverables; accordingly, the fees are deferred and recognized as revenue on a straight-line basis over the term of the contract. Per-transaction fees are recognized as the transactions are processed.

*Infrastructure and Other*

The Company's infrastructure services consist primarily of network management and connection services. The Company generates revenue from network management services under its long-term contracts with North American Portability Management LLC. The Company recognizes revenue on a per-transaction fee basis as the services are performed. In addition, the Company generates revenue from connection fees and system enhancements under its contracts with North American Portability Management LLC. The Company recognizes its connection fee revenue as the service is performed. System enhancements are provided under contracts in which the Company is reimbursed for costs incurred plus a fixed fee, and revenue is recognized based on costs incurred plus a pro rata amount of the fee.

**NEUSTAR, INC.****NOTES TO UNAUDITED CONSOLIDATED FINANCIAL STATEMENTS (Continued)***Significant Contracts*

The Company provides wireline and wireless number portability, implements the allocation of pooled blocks of telephone numbers and provides network management services pursuant to seven contracts with North American Portability Management LLC, an industry group that represents all telecommunications service providers in the United States. The Company recognizes revenue under its contracts with North American Portability Management LLC primarily on a per-transaction basis. The aggregate fees for transactions processed under these contracts are determined by the total number of transactions, and these fees are billed to telecommunications service providers based on their allocable share of the total transaction charges. This allocable share is based on each respective telecommunications service provider's share of the aggregate end-user services revenues of all U.S. telecommunications service providers, as determined by the Federal Communications Commission (FCC). Under the Company's contracts, the Company also bills a Revenue Recovery Collections (RRC) fee equal to a percentage of monthly billings to its customers, which is available to the Company if any telecommunications service provider fails to pay its allocable share of total transactions charges.

The per-transaction pricing under these contracts prior to 2007 provided for annual volume-based credits that were earned on all transactions in excess of the pre-determined annual volume threshold. For 2006, the maximum aggregate volume-based credit was \$7.5 million, which was applied via a reduction in per-transaction pricing once the pre-determined annual volume threshold was surpassed. When the aggregate credit was fully satisfied, the per-transaction pricing was restored to the prevailing contractual rate. The pre-determined annual transaction volume threshold under these contracts was exceeded in June 2006, which resulted in the issuance of \$2.1 million and \$5.4 million of volume-based credits for the three months ended June 30, 2006 and September 30, 2006, respectively.

In September 2006, these contracts were amended such that the expiration dates were extended from May 2011 to June 2015, the per-transaction fee charged to the Company's customers over the term of the contracts was reduced and volume-based credits were eliminated. Pricing for 2006, including volume-based credits, remained unchanged. For 2007, pricing is \$0.91 per transaction regardless of transaction volume.

*Service Level Standards*

Pursuant to certain of the Company's private commercial contracts, the Company is subject to service level standards and to corresponding penalties for failure to meet those standards. The Company records a provision for these performance-related penalties when it becomes aware that required service levels that would trigger such a penalty have not been met, which results in a corresponding reduction to revenue.

**Cost of Revenue and Deferred Costs**

Cost of revenue includes all direct materials, direct labor, and those indirect costs related to generation of revenue such as indirect labor, materials and supplies and facilities cost. The Company's primary cost of revenue is related to personnel costs associated with service implementation, product maintenance, customer deployment and customer care, including salaries, stock-based compensation and other personnel-related expense. In addition, cost of revenue includes costs relating to maintaining the Company's existing technology and services, as well as royalties paid related to the Company's U.S. Common Short Code services. Cost of revenue also includes the costs incurred by the Company's information technology and systems department, including network costs, data center maintenance, database management, data processing costs, and facilities costs.

Deferred costs represent direct labor related to professional services incurred for the setup and implementation of contracts. These costs are recognized in cost of revenue on a straight-line basis over the contract term. Deferred costs also include royalties paid related to the Company's U.S. Common Short Code services, which are recognized in cost of revenue on a straight-line basis over the contract term. Deferred costs are classified as such on the consolidated balance sheets.

**NEUSTAR, INC.****NOTES TO UNAUDITED CONSOLIDATED FINANCIAL STATEMENTS (Continued)****Stock-Based Compensation**

Prior to January 1, 2006, the Company accounted for its stock-based compensation plans under the recognition and measurement provisions of Accounting Principles Board Opinion No. 25, *Accounting for Stock Issued to Employees* (APB No. 25), and related interpretations, as permitted by SFAS No. 123, *Accounting for Stock-Based Compensation* (SFAS No. 123). Effective January 1, 2006, the Company adopted SFAS No. 123(R), *Share-Based Payment* (SFAS No. 123(R)), using the modified-prospective transition method. Under the modified-prospective transition method, compensation cost recognized in fiscal 2006 includes: (a) compensation cost for all stock-based awards granted prior to but not yet vested as of January 1, 2006, based on the grant date fair value estimated in accordance with the original provisions of SFAS No. 123, and (b) compensation cost for all stock-based awards granted subsequent to January 1, 2006, based on the grant-date fair value estimated in accordance with the provisions of SFAS No. 123(R). Results for prior periods are not restated under the modified-prospective transition method.

In accordance with Financial Accounting Standards Board (FASB) Staff Position No. FAS 123(R)-3, *Transition Election Related to Accounting for Tax Effects of Share-Based Payment Awards*, the Company has elected to adopt the alternative method provided in this FASB Staff Position for calculating the tax effects of stock-based compensation pursuant to SFAS No. 123(R). The alternative transition method includes a simplified method to establish the beginning balance of the additional paid-in capital pool (APIC pool) related to the tax effects of employee stock-based compensation, which is available to absorb tax deficiencies recognized subsequent to the adoption of SFAS No. 123(R). Prior to adoption of SFAS No. 123(R), the Company presented all benefits of tax deductions resulting from the exercise of stock-based compensation as an operating cash flow in the consolidated statements of cash flows. Beginning on January 1, 2006, the Company changed its cash flow presentation in accordance with SFAS No. 123(R), which requires benefits of tax deductions in excess of the compensation cost recognized (excess tax benefits) to be classified as a financing cash inflow with a corresponding operating cash outflow. For the three months ended March 31, 2006 and 2007, the Company presented \$27.1 million and \$10.3 million, respectively, of excess tax benefits as a financing cash inflow with a corresponding operating cash outflow.

**Basic and Diluted Net Income per Common Share**

Basic net income per common share excludes dilution for potential common stock issuances and is computed by dividing net income by the weighted-average number of common shares outstanding for the period. Diluted net income per common share reflects the potential dilution that could occur if securities or other contracts to issue common stock were exercised or converted into common stock.

**Income Taxes**

The Company accounts for income taxes in accordance with SFAS No. 109, *Accounting for Income Taxes* (SFAS No. 109). Under SFAS No. 109, the liability method is used in accounting for income taxes. Under this method, deferred tax assets and liabilities are determined based on temporary differences between the financial reporting bases and the tax bases of assets and liabilities. Deferred tax assets are also recognized for tax net operating loss carryforwards. These deferred tax assets and liabilities are measured using the enacted tax rates and laws that will be in effect when such amounts are expected to be reversed or utilized. The realization of total deferred tax assets is contingent upon the generation of future taxable income. Valuation allowances are provided to reduce such deferred tax assets to amounts more likely than not to be ultimately realized.

Income tax provision includes U.S. federal, state, local and foreign income taxes and is based on pre-tax income or loss. The interim period provision or benefit for income taxes is based upon the Company's estimate of its annual effective income tax rate. In determining the estimated annual effective income tax rate, the Company analyzes various factors, including projections of the Company's annual earnings and taxing jurisdictions in which the earnings will be generated, the impact of state and local income taxes and the ability of the Company to use tax credits and net operating loss carryforwards.

**NEUSTAR, INC.****NOTES TO UNAUDITED CONSOLIDATED FINANCIAL STATEMENTS (Continued)**

In June 2006, the FASB issued FASB Interpretation No. 48, *Accounting for Uncertainty in Income Taxes - an interpretation of FASB Statement No. 109* (FIN 48), which clarifies the accounting for uncertainty in income taxes recognized in an enterprise's financial statements in accordance with SFAS No. 109. FIN 48 is effective for fiscal years beginning after December 15, 2006, and was adopted by the Company on January 1, 2007. FIN 48 provides a two-step approach to recognize and measure tax benefits when the realization of the benefits is uncertain. The first step is to determine whether the benefit is to be recognized; the second step is to determine the amount to be recognized. Income tax benefits should be recognized when, based on the technical merits of a tax position, the entity believes that if a dispute arose with the taxing authority and were taken to a court of last resort, it is more likely than not (*i.e.*, a probability of greater than 50 percent) that the tax position would be sustained as filed. If a position is determined to be more likely than not of being sustained, the reporting enterprise should recognize the largest amount of tax benefit that is greater than 50 percent likely of being realized upon ultimate settlement with the taxing authority. The cumulative effect of applying the provisions of FIN 48 upon adoption is to be reported as an adjustment to beginning retained earnings. The Company's practice is to recognize interest and penalties related to income tax matters in income tax expense.

**Comprehensive Net Income**

There were no material differences between net income and comprehensive net income for the three months ended March 31, 2006 and 2007.

**Recent Accounting Pronouncements**

In September 2006, the FASB issued SFAS No. 157, *Fair Value Measurements* (SFAS No. 157). SFAS No. 157 provides enhanced guidance for using fair value to measure assets and liabilities. It clarifies the principle that fair value should be based on the assumptions market participants would use when pricing the asset or liability and establishes a fair value hierarchy that prioritizes the information used to develop those assumptions. SFAS No. 157 is effective for fiscal years beginning after November 15, 2007. The Company is currently evaluating the impact of SFAS No. 157 on its consolidated financial statements.

In February 2007, the FASB issued SFAS No. 159, *The Fair Value Option for Financial Assets and Financial Liabilities* (SFAS No. 159), to permit all entities to choose to elect, at specified election dates, to measure eligible financial instruments at fair value. An entity shall report unrealized gains and losses on items for which the fair value option has been elected in earnings at each subsequent reporting date, and recognize upfront costs and fees related to those items in earnings as incurred and not deferred. SFAS No. 159 applies to fiscal years beginning after November 15, 2007, with early adoption permitted for an entity that has also elected to apply the provisions of SFAS No. 157. An entity is prohibited from retrospectively applying SFAS No. 159, unless it chooses early adoption. The Company is currently evaluating the impact of the provisions of SFAS No. 159 on its consolidated financial statements.

**3. ACQUISITION****I-View.com, Inc. (d/b/a MetaInfo)**

On January 8, 2007, the Company acquired certain assets of I-View.com, Inc. (d/b/a MetaInfo) for cash consideration of \$1.7 million. The acquisition of MetaInfo expands the Company's enterprise DNS services. The acquisition was accounted for as a purchase business combination in accordance with SFAS No. 141, *Business Combinations* (SFAS No. 141) and the results of operations of MetaInfo have been included in the accompanying consolidated statement of operations since the date of acquisition. Of the total purchase price, a preliminary estimate of \$0.1 million has been allocated to net tangible liabilities assumed, \$0.5 million to definite-lived intangible assets and \$1.3 million to goodwill. Definite-lived intangible assets consist of customer relationships and acquired technology. The Company is amortizing the value of the customer relationships in proportion to the discounted cash flows over an estimated useful life of 3 years. Acquired technology is being amortized on a straight-line basis over 3 years.

**NEUSTAR, INC.****NOTES TO UNAUDITED CONSOLIDATED FINANCIAL STATEMENTS (Continued)**

The Company has currently not identified any material pre-acquisition contingencies where a liability is probable and the amount of the liability can be reasonably estimated. If information becomes available prior to the end of the purchase price allocation period which would indicate that such a liability is probable and the amounts can be reasonably estimated, such items will be included in the purchase price allocation.

**4. GOODWILL AND INTANGIBLE ASSETS**

Goodwill consists of the following (in thousands):

	<b>December 31, 2006</b>	<b>March 31, 2007 (unaudited)</b>
Goodwill	\$ 205,855	\$ 207,168

Intangible assets consist of the following (in thousands):

	<b>December 31, 2006</b>	<b>March 31, 2007 (unaudited)</b>	<b>Weighted- Average Amortization Period (In Years) (unaudited)</b>
Intangible assets:			
Customer lists and relationships	\$ 43,467	\$ 43,740	5.7
Accumulated amortization	(5,817)	(8,327)	
Customer lists and relationships, net	37,650	35,413	
Acquired technology	16,808	17,069	3.1
Accumulated amortization	(3,416)	(4,734)	
Acquired technology, net	13,392	12,335	
Trade name	200	200	3.0
Accumulated amortization	(46)	(63)	
Trade name, net	154	137	
Intangible assets, net	\$ 51,196	\$ 47,885	

Amortization expense related to intangible assets, which is included in depreciation and amortization expense, was approximately \$307,000 and \$3.8 million for the three months ended March 31, 2006 and 2007, respectively. Amortization expense related to intangible assets for the years ended December 31, 2007, 2008, 2009, 2010, and 2011, is expected to be approximately \$14.8 million, \$13.2 million, \$11.0 million, \$6.5 million, and \$5.0 million, respectively.

**5. NOTES PAYABLE**

On February 6, 2007, the Company entered into a new credit agreement, which provides for a revolving credit facility in an aggregate principal amount of up to \$100 million (2007 Credit Facility). Borrowings under the 2007

Credit Facility bear interest, at the Company's option, at either a Eurodollar rate plus a spread ranging from 0.625% to 1.25%, or at a base rate plus a spread ranging from 0.0% to 0.25%, with such spread in each case depending on the ratio of the Company's consolidated senior funded indebtedness to consolidated EBITDA. The 2007 Credit Facility expires on February 6, 2012. Borrowings under the 2007 Credit Facility may be used for working capital, capital expenditures, general corporate purposes and to finance acquisitions. There were no borrowings outstanding under the 2007 Credit Facility as of March 31, 2007, but available borrowings were reduced by letters of credit of \$9.6 million outstanding on that date.

**NEUSTAR, INC.**

**NOTES TO UNAUDITED CONSOLIDATED FINANCIAL STATEMENTS (Continued)**

The 2007 Credit Facility contains customary representations and warranties, affirmative and negative covenants, and events of default. The 2007 Credit Facility requires the Company to maintain a minimum consolidated earnings before interest, taxes, depreciation and amortization (EBITDA) to consolidated interest charge ratio and a maximum consolidated senior funded indebtedness to consolidated EBITDA ratio. If an event of default occurs and is continuing, the Company may be required to repay all amounts outstanding under the 2007 Credit Facility. Lenders holding more than 50% of the loans and commitments under the 2007 Credit Facility may elect to accelerate the maturity of amounts due thereunder upon the occurrence and during the continuation of an event of default.

Until February 6, 2007, the Company had a revolving credit facility, which provided it with up to \$15 million in available credit. The commitments under this credit agreement were terminated simultaneous with the closing of the 2007 Credit Facility on February 6, 2007.

**6. STOCKHOLDERS EQUITY**

**Stock-Based Compensation**

The Company has two stock incentive plans: the NeuStar, Inc. 1999 Equity Incentive Plan (the 1999 Plan) and the NeuStar, Inc. 2005 Stock Incentive Plan (the 2005 Plan). The Company may grant to its directors, employees and consultants awards in the form of incentive stock options, nonqualified stock options, stock appreciation rights, shares of restricted stock, restricted stock units, performance vested restricted stock units (PVRsUs), and other stock-based awards. The aggregate number of shares of Class A common stock with respect to which all awards may be granted under the 2005 Plan is 6,044,715, plus any shares that would otherwise be available for issuance under the 1999 Plan. As of March 31, 2007, 3,942,033 shares were available for grant or award under the 2005 Plan.

Stock-based compensation expense recognized under SFAS No. 123(R) for the three months ended March 31, 2006 and 2007 was \$2.4 million and \$3.6 million, respectively. As of March 31, 2007, total unrecognized compensation expense related to non-vested stock options, non-vested restricted stock and non-vested PVRsUs granted prior to that date is estimated at \$40.3 million, which the Company expects to recognize over a weighted average period of approximately 2.5 years. Total unrecognized compensation expense as of March 31, 2007 is estimated based on outstanding non-vested stock options, non-vested restricted stock and non-vested PVRsUs and may be increased or decreased in future periods for subsequent grants or forfeitures.

**Stock Options**

The Company has utilized the Black-Scholes option-pricing model for estimating the fair value of stock options granted during the three months ended March 31, 2006 and 2007, as well as for option grants during all prior periods. The weighted-average fair value of options at the date of grant for options granted during the three months ended March 31, 2006 and 2007 was \$11.98 and \$11.62, respectively.

**NEUSTAR, INC.****NOTES TO UNAUDITED CONSOLIDATED FINANCIAL STATEMENTS (Continued)**

The following are the weighted-average assumptions used in valuing the stock options granted during the three months ended March 31, 2006 and 2007, and a discussion of the Company's assumptions:

	<b>Three Months Ended March 31,</b>	
	<b>2006</b>	<b>2007</b>
Dividend yield	0.00%	0.00%
Expected volatility	39.33%	33.37%
Risk-free interest rate	4.54%	4.46%
Expected life of options (in years)	4.59	4.61

**Dividend yield** The Company has never declared or paid dividends on its common stock and does not anticipate paying dividends in the foreseeable future.

**Expected volatility** Volatility is a measure of the amount by which a financial variable such as a share price has fluctuated (historical volatility) or is expected to fluctuate (expected volatility) during a period. Given the Company's limited historical stock data from its initial public offering in June 2005, the Company has used a blended volatility to estimate expected volatility. The blended volatility includes the average of the Company's preceding weekly historical volatility from its initial public offering to the respective grant date, the Company's preceding six-months market implied volatility and an average of the Company's peer group preceding weekly historical volatility consistent with the expected life of the option. Market implied volatility is the volatility implied by the trading prices of publicly available stock options for the Company's common stock. The Company's peer group historical volatility includes the historical volatility of companies that are similar in revenue size, in the same industry or are competitors.

**Risk-free interest rate** This is the average U.S. Treasury rate (with a term that most closely resembles the expected life of the option) for the quarter in which the option was granted.

**Expected life of the options** This is the period of time that the options granted are expected to remain outstanding. This estimate is derived from the average midpoint between the weighted average vesting period and the contractual term as described in the SEC's Staff Accounting Bulletin No. 107, *Share-Based Payment*.

The following table summarizes the Company's stock option activity for the three months ended March 31, 2007:

	<b>Shares</b>	<b>Weighted-Average Exercise Price</b>
Outstanding at December 31, 2006	7,916,728	\$ 10.83
Options granted	644,330	32.59
Options exercised	(1,124,769)	4.52
Options canceled	(238,057)	13.82
Outstanding March 31, 2007	7,198,232	13.66
Exercisable at March 31, 2007	3,851,636	6.05

The aggregate intrinsic value of options exercised during the three months ended March 31, 2006 and 2007 was \$85.5 million and \$29.6 million, respectively. The aggregate intrinsic value for all options outstanding under the Company's stock plans as of March 31, 2007 was \$113.4 million. The aggregate intrinsic value for options exercisable under the Company's stock plans as of March 31, 2007 was \$87.0 million. The weighted-average remaining contractual life for all options outstanding under the Company's stock plans as of March 31, 2007 was 5.86 years. The

weighted-average remaining contractual life for options exercisable under the Company's stock plans as of March 31, 2007 was 5.01 years.

## NEUSTAR, INC.

## NOTES TO UNAUDITED CONSOLIDATED FINANCIAL STATEMENTS (Continued)

**Restricted Stock**

The following table summarizes the Company's non-vested restricted stock activity for the three months ended March 31, 2007:

	<b>Shares</b>	<b>Weighted-Average Grant Date Fair Value</b>
Non-vested December 31, 2006	103,223	\$ 31.41
Granted	5,000	32.59
Vested	(12,247)	30.20
Forfeited	(2,525)	30.20
Non-vested March 31, 2007	93,451	31.67

The aggregate intrinsic value for all non-vested restricted stock outstanding under the Company's stock plans at March 31, 2007 was \$2.7 million. During the three months ended March 31, 2007, the Company repurchased 2,709 shares of common stock for an aggregate purchase price of approximately \$139,000 pursuant to the participants' rights under the Company's stock incentive plan to elect to use common stock to satisfy their tax withholdings obligations.

**Performance Vested Stock Units**

During the three months ended March 31, 2007, the Company granted approximately 322,290 PVRsUs to certain officers with an aggregate fair value of \$10.4 million. The vesting of these stock awards is contingent upon the Company achieving specified financial targets at the end of specified performance period and the employees continued employment. The performance conditions affect the number of shares that will ultimately be issued. The range of possible stock-based award vesting is between 0% and 150% of the initial target. Under SFAS No. 123R, compensation expense related to these awards is being recognized over the requisite service period based on the Company's estimate of the achievement of the performance target. The Company has currently estimated that 125% of the target will be achieved. The fair value is measured by the closing market price of the Company's common stock on the date of the grant. Compensation expense is recognized ratably over the requisite service period based on those PVRsUs expected to vest.

The following table summarizes the Company's non-vested PVRsU activity for the three months ended March 31, 2007:

	<b>Shares</b>	<b>Weighted-Average Grant Date Fair Value</b>
Non-vested December 31, 2006		\$
Granted	322,290	32.59
Vested		
Forfeited	(800)	32.59
Non-vested March 31, 2007	321,490	32.59

The aggregate intrinsic value for all non-vested PVRsUs outstanding under the Company's stock plans at March 31, 2007 was \$9.1 million.

**NEUSTAR, INC.**

**NOTES TO UNAUDITED CONSOLIDATED FINANCIAL STATEMENTS (Continued)**

**Restricted Stock Units**

In July 2006, the Compensation Committee of the board of directors issued 27,170 restricted stock units to the Company's non-management directors. The aggregate intrinsic value of the restricted stock units granted totaled \$880,000. For those directors who were elected at the 2006 Annual Meeting of Stockholders, as well as incumbent directors whose term did not expire in 2006, these restricted stock units were granted on July 1, 2006. For those directors appointed by the Company's board of directors on July 26, 2006, the date of grant was on July 27, 2006. These restricted stock units will fully vest on the first anniversary of the date of grant. Upon vesting, each director's restricted stock units will be automatically converted into deferred stock units, which will be delivered to the director in shares of the Company's stock six months following the director's termination of Board service. Upon the resignation of one of the Company's directors on July 26, 2006, 3,259 restricted stock units were forfeited. The aggregate intrinsic value for these restricted stock units as of March 31, 2007 was approximately \$680,000.

**Phantom Stock Units**

In July 2004, the board of directors granted 350,000 phantom stock units to one of the Company's officers. Effective March 1, 2007, the officer was no longer employed with the Company. On that date, 224,383 phantom stock units vested in accordance with the terms of the officer's phantom stock agreement, which had an aggregate intrinsic value of approximately \$7.3 million. Of the 224,383 shares of the Company's common stock issuable to the officer in respect of his vested phantom stock units, the Company repurchased 91,713 shares on March 1, 2007 for an aggregate purchase price of approximately \$3.0 million pursuant to the officer's right under the applicable stock incentive plan to elect to use common stock to satisfy his tax withholding obligations.

**Treasury Stock**

Pursuant to the Company's stock incentive plans, employees may elect to satisfy their tax withholding obligations upon vesting of restricted stock awards by having the Company make such payments and withhold a number of vested shares having a value on the date of vesting equal to their tax withholding obligation. As a result of such employee elections, the Company withheld 94,422 shares during the three months ended March 31, 2007 with a total market value of \$3.1 million, from previously granted restricted stock awards for settlement of employee tax liabilities pursuant to the Company's stock incentive plans as discussed elsewhere in Note 6, and these shares were accounted for as treasury stock.

## NEUSTAR, INC.

## NOTES TO UNAUDITED CONSOLIDATED FINANCIAL STATEMENTS (Continued)

## 7. BASIC AND DILUTED NET INCOME PER COMMON SHARE

The following table reconciles the number of shares used in the basic and diluted net income per share calculation (in thousands, except per share data):

	<b>Three Months Ended March 31,</b>	
	<b>2006</b>	<b>2007</b>
Computation of basic net income per common share:		
Net income	\$ 18,285	\$ 17,968
Weighted average common shares outstanding basic	70,339	74,688
Basic net income per common share	\$ 0.26	\$ 0.24
Computation of diluted net income per common share:		
Net income	\$ 18,285	\$ 17,968
Weighted average common shares outstanding basic	70,339	74,688
Effect of dilutive securities:		
Stock-based awards	7,318	4,343
Weighted average common shares outstanding diluted	77,657	79,031
Diluted net income per common share	\$ 0.24	\$ 0.23

## 8. SEGMENT INFORMATION

Prior to January 1, 2007, the Company operated in one business segment, providing critical technology services to the communications industry. The Company was not organized by market and was managed and operated as one business. A single management team reported to the chief operating decision maker who comprehensively managed the business. The Company did not operate any material separate lines of business or separate business entities with respect to its services. Accordingly, the Company did not accumulate discrete financial information with respect to separate service lines and did not have separately reportable segments as defined by SFAS No. 131, *Disclosure About Segments of an Enterprise and Related Information* (SFAS No. 131).

On November 27, 2006, the Company acquired Followup Inc. (Followup) and became a provider of next-generation communications solutions for mobile network operators by delivering instant messaging, presence, multimedia gateways, inter-carrier messaging hubs, and services for handset clients.

As a result of the Followup acquisition, the Company began accumulating discrete financial information with respect to separate service lines with separate reportable segments as defined by SFAS No. 131. The Company operated in two reportable business segments for the three months ended March 31, 2007, Clearinghouse Services and Next Generation Messaging (NGM) Services, and only one business segment, Clearinghouse Services, for the corresponding period ended March 31, 2006.

**NEUSTAR, INC.****NOTES TO UNAUDITED CONSOLIDATED FINANCIAL STATEMENTS (Continued)**

Information for the three months ended March 31, 2007 regarding the Company's reportable operating segments is as follows (in thousands):

	<b>Clearinghouse Services</b>	<b>NGM Services</b>	<b>Consolidated Total</b>
Revenue	\$ 96,906	\$ 542	\$ 97,448
Income (loss) from operations	37,828	(8,496)	29,332
Total assets	311,115	164,081	475,196
Goodwill	87,044	120,124	207,168
Intangible assets, net	20,182	27,703	47,885

**9. INCOME TAXES**

The Company adopted the provisions of FIN 48 on January 1, 2007. As a result of the adoption of FIN 48, the Company recognized no material adjustment in the liability for unrecognized income tax benefits. At the adoption date of January 1, 2007, the Company had \$2.2 million of unrecognized tax benefits, all of which would affect the Company's effective tax rate if recognized. At March 31, 2007, the Company had \$2.2 million of unrecognized tax benefits.

The Company recognizes interest and penalties related to uncertain tax positions in income tax expense. As of March 31, 2007, there was approximately \$128,000 of accrued interest related to uncertain tax positions.

The tax years 2004-2006 remain open to examination by the major taxing jurisdictions to which the Company is subject.

The Company is not aware of any unrecognized tax benefits that may significantly decrease or increase within the next twelve months.

## **Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations**

### **Forward-Looking Statements**

This quarterly report on Form 10-Q contains forward-looking statements, including, without limitation, statements concerning the conditions in our industry, our operations and economic performance, and our business and growth strategy. In some cases, you can identify forward-looking statements by terminology such as may, will, should, expects, intends, plans, anticipates, believes, estimates, predicts, potential, continue or the negative or other comparable terminology. These statements relate to future events or our future financial performance and involve known and unknown risks, uncertainties and other factors that may cause our actual results, levels of activity, performance or achievements to differ materially from any future results, levels of activity, performance or achievements expressed or implied by these forward-looking statements. Many of these risks are beyond our ability to control or predict. These forward-looking statements are based on estimates and assumptions by our management that, although we believe to be reasonable, are inherently uncertain and subject to a number of risks and uncertainties. These risks and uncertainties include, without limitation, those described in this report, in Part I, Item 1A. Risk Factors and elsewhere in our Annual Report on Form 10-K for the year ended December 31, 2006, and as updated in our subsequent periodic reports filed with the Securities and Exchange Commission. We undertake no obligation to publicly update or revise any forward-looking statement as a result of new information, future events or otherwise, except as otherwise required by law.

### **Overview**

During the first quarter of 2007, we continued to experience increased demand for our clearinghouse services. Under our contracts to provide telephone number portability services in the United States, we processed 71.2 million transactions during the three months ended March 31, 2007, a growth of 32% over the corresponding prior year period. Also in the first quarter, we continued to build upon our expanded DNS service offerings, especially our Ultra services, which play a key role in directing and managing Internet traffic. In the first quarter of 2007, Ultra services revenue grew 14% compared to the fourth quarter of 2006, and we continue to sign up large tier one eCommerce customers for these services.

We continue to integrate the business we acquired from Followap Inc. in November 2006, resulting in operating expenses totaling approximately \$9.0 million for this quarter. Since the acquisition of Followap, nine new network operators have selected our Next Generation Messaging, or NGM, services to provide mobile instant messaging services to their end users. Although revenue for NGM services in the first quarter totaled approximately \$0.5 million, we believe that the continued selection of our NGM services by tier one mobile network operators serves as a foundation for the long-term growth of this business.

### **Recent Developments**

As a result of our acquisition of Followap on November 27, 2006, our financial results for the first quarter of 2007 contain segment information for our NGM business. Previously, we operated in one business segment. In our comparison of financial results for the first quarter of 2007 against the first quarter of 2006, we discuss the operations of both of our business segments on a consolidated basis. A separate discussion of the financial performance of our NGM business segment is set forth below under the heading Additional Information Regarding NGM Segment.

### **Critical Accounting Policies and Estimates**

The discussion and analysis of our financial condition and results of operations are based on our consolidated financial statements, which have been prepared in accordance with U.S. generally accepted accounting principles, or U.S. GAAP. The preparation of these financial statements in accordance with U.S. GAAP requires us to utilize accounting policies and make certain estimates and assumptions that affect the reported amounts of assets, liabilities, revenue and expense during a fiscal period. The Securities and Exchange Commission considers an accounting policy to be critical if it is important to a company's financial condition and results of operations, and if it requires significant judgment and estimates on the part of management in its application. We have discussed the selection and development of the critical accounting policies with the audit committee of our board of directors, and the audit committee has reviewed our related disclosures in this report. Although we believe that our judgments and

estimates are appropriate, actual results may differ from those estimates. See the information in our filings with the Securities and Exchange Commission from time to time, including Part I, Item 1A. Risk Factors, in our Annual Report on Form 10-K for the year ended December 31, 2006, and as updated in our subsequent periodic reports, for certain matters that may bear on our future results of operations. We discuss our critical accounting policies and estimates in our Management's Discussion and Analysis of Financial Condition and Results of Operations in our Annual Report on Form 10-K for the year ended December 31, 2006 and in our Notes to Unaudited Consolidated Financial Statements in this Quarterly Report on Form 10-Q. There have been no material changes to our critical accounting policies and estimates in 2007, except as follows:

#### ***Deferred Income Taxes***

We recognize deferred tax assets and liabilities based on temporary differences between the financial reporting bases and the tax bases of assets and liabilities. These deferred tax assets and liabilities are measured using the enacted tax rates and laws that will be in effect when such amounts are expected to reverse or be utilized. The realization of deferred tax assets is contingent upon the generation of future taxable income. When appropriate, we recognize a valuation allowance to reduce such deferred tax assets to amounts that are more likely than not to be ultimately realized. The calculation of deferred tax assets (including valuation allowances) and liabilities requires us to apply significant judgment related to such factors as the application of complex tax laws, changes in tax laws and our future operations. We review our deferred tax assets on a quarterly basis to determine if a valuation allowance is required based upon these factors. Changes in our assessment of the need for a valuation allowance could give rise to a change in such allowance, potentially resulting in additional expense or benefit in the period of change.

Income tax provision includes U.S. federal, state, local and foreign income taxes and is based on pre-tax income or loss. The provision or benefit for income taxes is based upon our estimate of our annual effective income tax rate. In determining the estimated annual effective income tax rate, we analyze various factors, including projections of our annual earnings and taxing jurisdictions in which the earnings will be generated, the impact of state and local income taxes and our ability to use tax credits and net operating loss carryforwards.

In June 2006, the Financial Accounting Standards Board, or FASB, issued FASB Interpretation No. 48, *Accounting for Uncertainty in Income Taxes - an interpretation of FASB Statement No. 109*, referred to in this report as FIN 48, which clarifies the accounting for uncertainty in income taxes recognized in an enterprise's financial statements in accordance with Statement of Financial Accounting Standards, or SFAS, No. 109, *Accounting for Income Taxes*. FIN 48 is effective for fiscal years beginning after December 15, 2006, and was adopted by us on January 1, 2007. FIN 48 provides a two-step approach to recognize and measure tax benefits when the realization of the benefits is uncertain. The first step is to determine whether the benefit is to be recognized; the second step is to determine the amount to be recognized. Income tax benefits should be recognized when, based on the technical merits of a tax position, the entity believes that if a dispute arose with the taxing authority and were taken to a court of last resort, it is more likely than not (*i.e.*, a probability of greater than 50 percent) that the tax position would be sustained as filed. If a position is determined to be more likely than not of being sustained, the reporting enterprise should recognize the largest amount of tax benefit that is greater than 50 percent likely of being realized upon ultimate settlement with the taxing authority. The cumulative effect of applying the provisions of FIN 48 upon adoption is to be reported as an adjustment to beginning retained earnings. Our practice is to recognize interest and penalties related to income tax matters in income tax expense.

#### **Acquisitions**

##### ***NeuLevel, Inc.***

In March 2006, we acquired 10% of NeuLevel, Inc. from Melbourne IT Limited for cash consideration of \$4.3 million, raising the Company's ownership interest from 90% to 100%. The acquisition of the remaining 10% of NeuLevel was accounted for as a purchase business combination in accordance with SFAS No. 141, *Business Combinations*. We allocated the purchase price principally to customer lists (\$4.1 million) based on their estimated fair values on the acquisition date. Customer lists are included in intangible assets and are being amortized on an accelerated basis over five years. In accordance with SFAS No. 109, we recorded a deferred tax liability of approximately \$1.6 million with a corresponding increase to goodwill.

***UltraDNS Corporation***

On April 21, 2006, we acquired UltraDNS Corporation for \$61.8 million in cash and acquisition costs of \$0.8 million. The acquisition further expanded our domain name services and our Internet Protocol technologies. The acquisition was accounted for as a purchase business combination in accordance with SFAS No. 141, *Business Combinations*, or SFAS No. 141. Of the total cash consideration, approximately \$6.1 million was distributed to an escrow account for indemnification claims as set forth in the acquisition agreement. All funds remaining in the account will be distributed to the former stockholders of UltraDNS in accordance with the acquisition agreement on the first anniversary of the acquisition.

Of the total purchase price, a preliminary estimate of \$9.5 million has been allocated to net tangible assets acquired and \$20.0 million has been allocated to definite-lived intangible assets acquired. We utilized a third party valuation specialist to assist management in determining the fair value of the definite-lived intangible asset base. The income approach, which includes an analysis of cash flows and the risks associated with achieving such cash flows, was the primary technique utilized in valuing the identifiable intangible assets. The \$20.0 million of definite-lived intangible assets acquired consists of the value assigned to UltraDNS's direct customer relationships of \$14.7 million, web customer relationships of \$0.3 million, acquired technology of \$4.8 million, and trade names of \$0.2 million. We are amortizing the value of the UltraDNS direct and web customer relationships in proportion to the respective discounted cash flows over an estimated useful life of 7 and 5 years, respectively. Both acquired technology and trade names are being amortized on a straight-line basis over 3 years.

***Followap Inc.***

On November 27, 2006, we acquired Followap Inc. for \$139.0 million in cash and acquisition costs of \$1.8 million along with the assumption and payment of certain Followap debt and other liabilities of \$5.6 million. The acquisition further expanded our Internet Protocol technologies, which is a key strategic initiative for us. The acquisition was accounted for as a purchase business combination in accordance with SFAS No. 141. Of the total cash consideration, approximately \$14.1 million was distributed to an escrow account for indemnification claims as set forth in the acquisition agreement. All funds remaining in the account will be distributed to the former stockholders of Followap in accordance with the acquisition agreement on the first anniversary of the acquisition.

Of the total estimated purchase price, a preliminary estimate of \$3.9 million has been allocated to net tangible liabilities assumed and \$30.6 million has been allocated to definite-lived intangible assets acquired. We utilized a third party valuation in determining the fair value of the definite-lived intangible asset base. The income approach, which includes an analysis of cash flows and the risks associated with achieving such cash flows, was the primary technique utilized in valuing the identifiable intangible assets. The \$30.6 million of definite lived intangible assets acquired consists of the value assigned to Followap's customer relationships of \$20.8 million and acquired technology of \$9.8 million. We are amortizing the value of the Followap customer relationships using an accelerated basis over five years and the value of the acquired technology on a straight-line basis over 3 years.

***I-View.com, Inc. (d/b/a MetaInfo)***

On January 8, 2007, we acquired certain assets of I-View.com, Inc. (d/b/a MetaInfo) for cash consideration of \$1.7 million. The acquisition of MetaInfo expands our enterprise DNS services. The acquisition was accounted for as a purchase business combination in accordance with SFAS No. 141 and the results of operations of MetaInfo have been included in the accompanying consolidated statement of operations since the date of acquisition. Of the total purchase price, we allocated \$ 0.1 million to net tangible liabilities assumed, \$0.5 million to definite-lived intangible assets and \$1.3 million to goodwill. Definite-lived intangible assets consist of customer intangibles and acquired technology. We are amortizing the value of the customer intangibles in proportion to the discounted cash flows over an estimated useful life of 3 years. Acquired technology is being amortized on a straight-line basis over 3 years.

**Consolidated Results of Operations****Three Months Ended March 31, 2006 Compared to Three Months Ended March 31, 2007**

The following table presents an overview of our results of operations for the three months ended March 31, 2006 and 2007. The following tabular data and the discussion that follows include consolidated financial information for both of our business segments. A separate discussion of the financial performance of our NGM business segment is set forth below under the heading *Additional Information Regarding NGM Segment*.

	<b>Three Months Ended March 31,</b>		<b>Three Months Ended March 31,</b>

Diluted	77,657	79,031

## **Revenue**

*Total revenue.* Total revenue increased \$21.3 million due primarily to increases in addressing, interoperability and infrastructure transactions under our contracts to provide telephone number portability services in the United States, our expanded range of DNS services, and growth in the use of U.S. Common Short Codes.

*Addressing.* Addressing revenue increased \$3.6 million due to the expanded range of DNS services we offer as a result of the acquisition of UltraDNS Corporation in April 2006. In addition, addressing revenue increased in part due to the continued increase in the number of subscribers for U.S. Common Short Codes, which was in turn driven in part by an increase in the number of service providers that carried U.S. Common Short Codes across their networks. Specifically, revenue from DNS services increased \$7.4 million, consisting of \$6.9 million in revenue from NeuStar Ultra Services, for which there was no corresponding revenue in the first quarter of 2006, and a \$0.5 million increase in revenue from our other DNS services as a result of an increased number of domain names under management. In addition, revenue from U.S. Common Short Codes increased \$2.5 million as compared to the first quarter of 2006. These increases were offset by a decrease of \$6.1 million in revenue from addressing transactions under our contracts to provide telephone number portability services in the United States, which was due to lower carrier network expansion activity and lower contractual pricing effective January 1, 2007.

*Interoperability.* Interoperability revenue increased \$0.8 million due predominantly to increased demand for telephone number portability services in Canada in advance of wireless number portability implementation. Specifically, revenue from number portability services in Canada increased \$3.7 million, offset by a decrease in revenue of \$2.0 million under our contracts to provide telephone portability services in the United States, as well as a decrease of \$1.0 million in revenue from our order management services.

*Infrastructure and other.* Infrastructure and other revenue increased \$16.9 million due primarily to an increase in the demand for our network management services. Of this increase, \$18.8 million was attributable to customers making changes to their networks that required actions such as disconnects and modifications to network elements. We believe these changes were driven largely by trends in the industry, including the implementation of new technologies by our customers, wireless technology upgrades, carrier vendor changes and network optimization. This increase was offset by a decrease of \$2.3 million in revenue resulting from connection fees and other revenues under our contracts to provide telephone number portability services in the United States.

## **Expense**

*Cost of revenue.* Cost of revenue increased \$2.2 million due to growth in personnel, increased support fees for our data centers and technology platforms and royalties related to our U.S. Common Short Code services. Of this amount, personnel and personnel-related expense increased \$0.8 million due predominantly to increased headcount resulting from our newly acquired NGM business. Included in personnel-related expense for the three months ended March 31, 2007 is \$0.5 million in stock-based compensation expense, all of which is attributable to our Clearinghouse segment as compared to \$0.4 million in stock-based compensation expense recorded for the three months ended March 31, 2006. Cost of revenue also increased by \$1.4 million due to royalty expenses related to U.S. Common Short Code services and revenue share costs associated with our Internet domain names and registry gateway services.

*Sales and marketing.* Sales and marketing expense increased \$9.5 million predominantly due to additions to our sales and marketing team to focus on branding, product launches, expanded DNS service offerings, NGM services and new business development opportunities, including international expansion. Of this amount, personnel and personnel-related expense increased \$7.4 million and costs related to industry events increased \$1.4 million. Included in personnel-related expense for the three months ended March 31, 2007 is \$1.2 million in stock-based compensation expense, all of which is attributable to our Clearinghouse segment, as compared to \$0.8 million in stock-based compensation expense for the three months ended March 31, 2006.

*Research and development.* Research and development expense increased \$2.4 million due to additions to our research and development team to support new service offerings. Of this increase, personnel and personnel-related costs increased \$2.6 million, offset by a reduction in professional fees in the amount of \$0.4 million. Included in personnel-related expense for the three months ended March 31, 2007 is \$0.4 million in stock-based compensation expense, all of which is attributable to our Clearinghouse segment, as compared to \$0.2 million in stock-based compensation expense for the three months ended March 31, 2006.

*General and administrative.* General and administrative expense increased \$3.5 million primarily due to costs incurred to support business growth and costs associated with the support and integration of our NGM business. Specifically, personnel and personnel-related expenses increased \$3.1 million to support business growth and ongoing operations. Included in personnel-related expense for the three months ended March 31, 2007 is \$1.5 million in stock-based compensation expense, all of which is attributable to our Clearinghouse segment, as compared to \$1.0 million for the three months ended March 31, 2006.

*Depreciation and amortization.* Depreciation and amortization expense for the three months ended March 31, 2007 increased \$4.6 million as compared to the three months ended March 31, 2006, due to a \$3.5 million increase in the amortization of identified intangibles primarily as a result of our acquisition of UltraDNS and Followap, and a \$1.0 million increase in depreciation and amortization expense relating to additional capital assets to support operations.

*Interest expense.* Interest expense remained relatively constant during the three months ended March 31, 2007 as compared to the three months ended March 31, 2006.

*Interest income.* Interest income remained relatively constant during the three months ended March 31, 2007 as compared to the three months ended March 31, 2006.

*Provision for income taxes.* Income tax provision for the three months ended March 31, 2007 decreased \$0.6 million as compared to the three months ended March 31, 2006 due primarily to a decrease in income from operations. Our annual effective statutory tax rate decreased to 39.4% for the three months ended March 31, 2007 from 40.1% for the three months ended March 31, 2006.

#### **Additional Information regarding NGM Segment**

The following discussion focuses on the financial information regarding the performance of our NGM business segment in the first quarter of 2007, the first full quarter for which we have separately presented financial results for this business segment.

*NGM Revenue.* NGM revenue totaled \$0.5 million for the three months ended March 31, 2007.

*Operating expense.* NGM operating expense is comprised primarily of cost of revenue, sales and marketing, research and development, general and administrative, and depreciation and amortization expenses. Operating expense for the three months ended March 31, 2007 totaled approximately \$9.0 million. The components of each of these categories of expense are identical to those in our Clearinghouse segment. For a description of the components of each category of expense, see Management's Discussion and Analysis of Financial Condition and Results of Operations. Our Company in Item 7 of Part II of our Annual Report on Form 10-K for the fiscal year ended December 31, 2006.

*Segment loss from operations.* Segment loss from operations for the NGM business segment totaled \$8.5 million for the period ended March 31, 2007.

#### **Liquidity and Capital Resources**

Prior to 2006, our principal source of liquidity was cash provided by operations. Following our adoption of SFAS No. 123(R), *Share-Based Payment*, on January 1, 2006, the benefits of tax deductions in excess of compensation cost recognized for the exercise of common stock options (excess tax benefits) have been classified as a financing cash inflow and a corresponding operating cash outflow, rather than as an operating cash flow as required prior to the adoption of SFAS No. 123(R). As a result, currently our principal sources of liquidity are cash provided by operating activities and cash inflows relating to excess tax benefits.

Our principal uses of cash have been to fund acquisitions, facility expansions, capital expenditures, working capital and debt service requirements. We anticipate that our principal uses of cash in the future will be acquisitions, working capital, capital expenditures and facility expansion.

Total cash and cash equivalents and short-term investments were \$72.1 million at March 31, 2007, an increase from \$58.3 million at December 31, 2006. This increase was due primarily to cash provided by operating activities and cash provided by financing activities.

On February 6, 2007, we entered into a new credit agreement, which provides for a revolving credit facility in an aggregate principal amount of up to \$100 million. As of March 31, 2007, there were no borrowings outstanding under the new credit agreement, but available borrowings were reduced by outstanding letters of credit of \$9.6 million. This credit facility replaced our previous \$15 million revolving credit facility.

We believe that our existing cash and cash equivalents, short-term investments and cash from operations and excess tax benefits included in financing activities will be sufficient to fund our operations for the next twelve months.

### **Discussion of Cash Flows**

#### ***Cash flows from operations***

Net cash provided by operating activities for the three months ended March 31, 2007 was \$9.7 million, as compared to cash used in operating activities of \$15.1 million for the three months ended March 31, 2006. This \$24.8 million increase in net cash provided by operating activities was principally the result of an increase of non-cash adjustments of \$22.5 million, including a cash outflow decrease of \$16.8 million relating to excess tax benefits from stock-based compensation, and an increase of net changes in operating assets and liabilities of \$2.6 million.

#### ***Cash flows from investing***

Net cash used in investing activities for the three months ended March 31, 2007 was \$4.4 million, as compared to \$29.0 million for the three months ended March 31, 2006. This \$24.6 million decrease in net cash used in investing activities was principally due to a decrease in net purchases of short-term investments totaling \$23.3 million and a decrease of \$2.7 million in cash paid for acquisitions. This net decrease was offset by \$1.4 million increase in purchases of property and equipment.

#### ***Cash flows from financing***

Net cash provided by financing activities was \$10.4 million for the three months ended March 31, 2007 compared to net cash provided by financing activities of \$32.6 million for the three months ended March 31, 2006. This \$22.2 million decrease in net cash provided by financing activities was principally the result of a decrease of \$16.8 million of excess tax benefits from stock-based compensation and a decrease of \$2.5 million of proceeds from the exercise of common stock options. In addition, the overall decrease in net cash provided by financing activities resulted from \$3.1 million of shares repurchased by us during the first quarter of 2007 pursuant to the exercise by stock incentive plan participants of their right to elect to use common stock to satisfy their tax withholding obligations.

### **Recent Accounting Pronouncements**

In September 2006, the Financial Accounting Standards Board, or FASB, issued SFAS No. 157, *Fair Value Measurements* (SFAS No. 157). SFAS No. 157 provides enhanced guidance for using fair value to measure assets and liabilities. It clarifies the principle that fair value should be based on the assumptions market participants would use when pricing the asset or liability and establishes a fair value hierarchy that prioritizes the information used to develop those assumptions. SFAS No. 157 is effective for fiscal years beginning after November 15, 2007. We are currently evaluating the impact of SFAS No. 157 on our consolidated financial statements.

In February 2007, the FASB issued SFAS No. 159, *The Fair Value Option for Financial Assets and Financial Liabilities* (SFAS No. 159), to permit all entities to choose to elect, at specified election dates, to measure eligible financial instruments at fair value. An entity shall report unrealized gains and losses on items for which the fair value option has been elected in earnings at each subsequent reporting date, and recognize upfront costs and fees related to those items in earnings as incurred and not deferred. SFAS No. 159 applies to fiscal years beginning after November 15, 2007, with early adoption permitted for an entity that has also elected to apply the provisions of SFAS No. 157. An entity is prohibited from retrospectively applying SFAS No. 159, unless it chooses early adoption. We are currently evaluating the impact of the provisions of SFAS No. 159 on our consolidated financial statements.

**Off-Balance Sheet Arrangements**

We had no off-balance sheet arrangements as of or for the period ended March 31, 2007.

**Item 3. Quantitative and Qualitative Disclosures about Market Risk**

For quantitative and qualitative disclosures about market risk affecting NeuStar, see *Quantitative and Qualitative Disclosures About Market Risk* in Item 7A of Part II of our Annual Report on Form 10-K for the fiscal year ended December 31, 2006. Our exposure to market risk has not changed materially since December 31, 2006.

**Item 4. Controls and Procedures**

We maintain disclosure controls and procedures that are designed to ensure that information required to be disclosed in our reports filed or submitted under the Securities Exchange Act of 1934 is recorded, processed, summarized and reported within the time periods specified in the Securities and Exchange Commission's rules and forms, and that such information is accumulated and communicated to our management, including our Chief Executive Officer and Chief Financial Officer, as appropriate, to allow for timely decisions regarding required disclosure. In designing and evaluating the disclosure controls and procedures, management recognized that any controls and procedures, no matter how well designed and operated, can provide only reasonable assurance of achieving the desired control objectives, and management is required to apply its judgment in evaluating the cost-benefit relationship of possible controls and procedures.

As of March 31, 2007, we carried out an evaluation, under the supervision and with the participation of our management, including our Chief Executive Officer and our Chief Financial Officer, of the effectiveness of the design and operation of our disclosure controls and procedures. Based on the foregoing, our Chief Executive Officer and Chief Financial Officer concluded that our disclosure controls and procedures were effective and were operating at the reasonable assurance level.

In addition, there were no changes in our internal control over financial reporting that occurred in the first quarter of 2007 that materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

## **PART II OTHER INFORMATION**

### **Item 1. Legal Proceedings**

From time to time, we are subject to claims in legal proceedings arising in the normal course of our business. We do not believe that we are party to any pending legal action that could reasonably be expected to have a material adverse effect on our business or operating results.

### **Item 1A. Risk Factors**

In addition to the other information set forth in this report, you should carefully consider the factors discussed in Part I, Item 1A. Risk Factors in our Annual Report on Form 10-K for the year ended December 31, 2006 and as updated in our subsequent periodic reports, which could materially affect our business, financial condition or future results. The risks described in our Form 10-K and subsequent reports are not the only risks we face. Additional risks and uncertainties not currently known to us or that we currently deem to be immaterial also may materially adversely affect our business, financial condition and/or operating results.

### **Item 2. Unregistered Sales of Equity Securities and Use of Proceeds**

None.

### **Item 3. Defaults upon Senior Securities**

None.

### **Item 4. Submission of Matters to a Vote of Security Holders**

None.

### **Item 5. Other Information**

None.

**Item 6. Exhibits**

<b>Exhibit No.</b>	<b>Description</b>
