Item 2.05 Costs Associated with Exit or Disposal Activities.

In April 2004, we announced the commencement of an ongoing cost reduction and profitability plan (the Plan) designed to enhance our operating margins. As part of the Plan, from time-to-time, our board or management may commit the company to certain actions constituting exit or disposal activities under Statement of Financial Accounting Standards No. 146, Accounting for Costs Associated with Exit or Disposal Activities (SFAS No. 146), which may result in material charges under accounting principles generally accepted in the United States of America (US GAAP).

Not all actions being considered as part of the Plan, when committed to, will constitute an exit or disposal activity or employee terminations under a plan of termination or will result in material restructuring charges under US GAAP. As we execute against the Plan and commit to exit or disposal activities or employee terminations under a plan of termination, we will file Reports on Form 8-K with respect to those actions that result in material charges under US GAAP.

On September 30, 2004, as part of the ongoing Plan, we vacated an additional two floors in our Santa Clara facility. We previously vacated four floors in the first quarter of 2003. In connection with this activity, we expect to incur restructuring charges in the third quarter of 2004 related to lease termination costs of between \$6 million and \$8 million, all of which will result in cash expenditures over the term of the lease which expires in March 2013. The above ranges reflect, among other things, the present value of future expenditures and are subject to a number of assumptions (including assumptions regarding future sublease rental rates, terms of sublease rentals and changes in assumptions related to previous restructuring charges) and actual results may differ, perhaps materially.
