VOTING INFORMATION

Who may vote? You may vote if you own shares of our stock at the close of business on April 1, 2005 (the record date). As of the record date, there were 162,631,969 shares outstanding.

Can I revoke my proxy? Yes. If you are a stockholder whose shares are registered in your name, your proxy may be revoked at any time by:

delivering to our secretary a written notice of revocation before the meeting;

executing a proxy bearing a later date; or

attending the annual meeting and voting in person.

If your shares are held in street name (through a broker, bank or other nominee), you cannot revoke your proxy and will not be permitted to vote in person at the meeting unless you first obtain a legal proxy issued in your name from the record holder (your broker, bank or other nominee).

What vote is required to pass an item of business? The holders of a majority of our outstanding stock, as of the record date, must be present in person or by proxy to transact business at the meeting. Abstentions and broker non-votes will be counted for quorum purposes, but will not affect voting results. Directors receiving the most votes will be elected. All other proposals require the affirmative vote of a majority of the shares of stock present or represented and voted at the meeting.

What is the deadline for making stockholder proposals for next year's meeting? Stockholders who wish to present proposals at our 2006 annual meeting must submit their proposals in accordance with our bylaws and be received by us no later than January 28, 2006 in order to be:

considered for inclusion in the proxy statement and form of proxy relating to that meeting; and

considered at the meeting.

Stockholder proposals must be delivered to us at our offices at 5000 Headquarters Drive, Plano, Texas 75024, attention: Corporate Secretary.

PROPOSALS TO BE VOTED ON

Proposal No. 1 Election of Directors

The nominees for election at the annual meeting are Mr. Robert Bucknam and Ms. Liane Wilson. Mr. Bucknam and Ms. Wilson are Class I directors. If elected, Mr. Bucknam and Ms. Wilson will each serve as directors until the annual meeting in 2008. The nominees receiving the highest number of affirmative votes of the shares will be elected as Class I directors.

Ms. Wilson has previously been elected to the board as a Class I director by our stockholders. Mr. Bucknam was first elected as a Class I director by the board in May 2003 to fill a vacancy. He was brought to the attention of the governance and nominations committee by a third party search firm. The board retained the search firm to help the governance and nominations committee identify and evaluate potential candidates. Following a process whereby the search firm helped the governance and nominations committee narrow the list of potential board candidates, Mr. Bucknam was interviewed by our chairman, our board of directors and members of management. Following these interviews, the governance and nominations committee recommended Mr. Bucknam to the board as its preferred candidate; the board accepted the recommendation and Mr. Bucknam was elected as a Class I director.

The board of directors recommends that you vote for Mr. Bucknam and Ms. Wilson.

Proposal No. 2 Amendment to the 1997 Stock Incentive Plan

We believe that stock options are an important factor in attracting, motivating, and retaining qualified personnel who are essential to our success. The 1997 Stock Incentive Plan is intended to offer a significant incentive by allowing employees to purchase our common stock. With certain exceptions, options to purchase our common stock are granted under our 1997 Stock Incentive Plan at a price equal to the fair market value on the date stock options are granted, and only become valuable if the price of our common stock increases over time and as the options vest.

Currently, a maximum of 32.48 million shares may be granted under the 1997 Stock Incentive Plan. As of March 31, 2005, 27,589,550 million shares had been granted and 4,885,450 million shares remained available for grant.

The amendment would increase the number of shares issuable under the 1997 Stock Incentive Plan by 6.0 million shares, bringing the total that may be granted under the 1997 Incentive Plan to 38.48 million shares. As of March 31, 2005, no benefits or amounts relating to the additional 6.0 million shares have been received by, or allocated to, any individuals.

The affirmative vote of the holders of a majority of the shares of common stock present or represented and voting at the annual meeting will be required to approve this proposal.

The board of directors recommends a vote for the amendment to the 1997 Stock Incentive Plan.

If you would like more information about the 1997 Stock Incentive Plan, a summary of its terms is included in Appendix A to this proxy statement.

Proposal No. 3 Amendment to the 2002 Employee Stock Purchase Plan

We believe that providing our employees with the opportunity to purchase shares of our common stock is also an important factor in attracting, motivating, and retaining qualified personnel who are essential to our success. Our 2002 Employee Stock Purchase Plan is intended to offer a significant incentive by allowing employees to purchase our common stock. Employees are allowed to purchase our common stock under our 2002 Employee Stock Purchase Plan at a price equal to 85% of the lower of the fair market value on either the opening or closing date of the respective purchase period.

Currently, a maximum of 4.0 million shares may be issued under our 2002 Employee Stock Purchase Plan. As of April 1, 2005, 2,776,640 million shares had been issued and 1,223,360 million shares remained available for issuance.

Table of Contents

The amendment would increase the number of shares issuable under the 2002 Employee Stock Purchase Plan by 1.0 million shares, bringing the total that may be granted under the 2002 Employee Stock Purchase Plan to 5.0 million shares.

The affirmative vote of the holders of a majority of the shares of common stock present or represented and voting at the annual meeting will be required to approve this proposal.

The board of directors recommends a vote for the amendment to the 2002 Employee Stock Purchase Plan.

If you would like more information about the 2002 Employee Stock Purchase Plan, a summary of its terms is included in Appendix B to this proxy statement.

Proposal No. 4 Ratification of Independent Public Accountants

The audit committee of our board of directors has selected Deloitte & Touche LLP (Deloitte) an independent registered public accounting firm to audit our financial statements for the fiscal year ending December 31, 2005. This selection is being presented to the stockholders for ratification at the meeting. A representative of Deloitte is expected to attend the annual meeting in order to respond to questions from stockholders and will have the opportunity to make a statement.

Audit Fees

For the fiscal years ending December 31, 2004 and 2003, our independent accountants were Deloitte and PriceWaterhouseCoopers LLP (PwC), respectively. Audit fees billed to us related to our 2004 fiscal year for the audit of our consolidated annual financial statements, the audit of management's assessment of our internal control over financial reporting and Deloitte's own audit of our internal control over financial reporting, review of the consolidated financial statements included in our quarterly reports on Form 10-Q, statutory audits for foreign entities and securities filings totaled \$6,002,000, including \$5,927,000 from Deloitte, and \$75,000 from PwC. Audit fees billed to us by PwC during our 2003 fiscal year for the audit of our consolidated annual financial statements, review of the consolidated financial statements included in our quarterly reports on Form 10-Q, statutory audits for foreign entities and securities filings totaled \$7,116,728. Audit fees billed to us by PwC during 2003 include \$5,130,928 relating to the restatement of our financial results for the years 1998 through 2001

Audit Related Fees

Fees billed to us by Deloitte and PwC related to our 2004 fiscal year for assurance services and services related to our audits and reviews of our consolidated financial statements which are not considered audit fees totaled \$441,000, including \$136,000 from Deloitte and \$305,000 from PwC. These fees included amounts paid for consulting on accounting matters. Fees billed to us by PwC during our 2003 fiscal year for assurance services and services related to our audits and reviews of our consolidated financial statements which are not considered audit fees totaled \$454,257. These fees included amounts paid for consulting on accounting matters.

Tax Fees

Fees billed to us related to our 2004 fiscal year for tax related services, including compliance, planning and tax advice, totaled \$2,211,000, including \$2,168,000 from Deloitte and \$43,000 from PwC. Fees billed to us by PwC during our 2003 fiscal year for tax related services, including compliance, planning and tax advice, totaled \$493,690.

All Other Fees

Other than as described above, no other fees were billed to us by Deloitte or PwC during our 2004 or 2003 fiscal years.

Table of Contents

Our audit committee charter includes a requirement that the audit committee of the board of directors pre-approve the services provided by our independent public accountants, including both audit and non-audit services. The pre-approval of non-audit services performed by our independent public accountants includes making a determination that the provision of the services is compatible with maintaining the independence of our independent accountants. All of the services performed by Deloitte and PwC described above under the captions Audit Related Fees, Tax Fees and All Other Fees were pre-approved by our audit committee.

The board of directors recommends a vote for ratification of the appointment of Deloitte & Touche LLP as our independent accountants.

Independent Public Accountants

On March 11, 2004, we reported in a Form 8-K that the audit committee of the board of directors approved the engagement of Deloitte as our independent public accountants for the fiscal year ending December 31, 2004, replacing PwC. We formally terminated our relationship with PwC on March 9, 2004 and the audit committee authorized, effective March 10, 2004, the engagement of Deloitte as our independent accountants. The audit reports of PwC on our consolidated financial statements as of and for the years ended December 31, 2003 and 2002, did not contain any adverse opinion or disclaimer of opinion, nor were they qualified or modified as to uncertainty, audit scope, or accounting principles. In connection with the audits of the two fiscal years ended December 31, 2003 and 2002 and during the subsequent interim period through March 10, 2004, there were no disagreements with PwC on any matter of accounting principles or practices, financial statement disclosure, or auditing scope or procedures, which disagreements if not resolved to their satisfaction would have caused them to make reference in connection with their opinion to the subject matter of the disagreement. Except as may be related to the events described in the paragraph below, during the two fiscal years ended December 31, 2003 and 2002 and during the subsequent interim period through March 10, 2004, there were no reportable events requiring disclosure pursuant to Section 229.304(a)(1)(v) of Regulation S-K. During the two fiscal years ended December 31, 2003 and 2002 and during the subsequent interim period through March 10, 2004, neither we nor anyone on our behalf consulted Deloitte regarding the application of accounting principles to a specified transaction, either completed or proposed, or the type of audit opinion that might be rendered on our company's consolidated financial statements, nor has Deloitte provided to us a written report or oral advice regarding such principles or audit opinion.

As more fully described in our 2003 Form 10-K and Form 8-K filed with the SEC on March 9, 2004:

During the preparation and analysis of our 2003 consolidated financial statements, we identified and reported to PwC and the audit committee of the board of directors required corrections to previously reported or announced financial information relating to the booking of international deferred revenue and the making of a \$2 million manual journal entry. These corrections required restatement of previously reported first, second and third quarter 2003 quarterly information and adjustment of previously announced fourth quarter 2003 and full year 2003 information, with the aggregate impact on 2003 revenues being an increase of \$3.8 million. In evaluating these corrections, PwC determined and reported to our audit committee that the underlying control issues should be considered a material weakness under standards established by the Public Company Accounting Oversight Board and that we should institute additional related control procedures. The audit committee has discussed the foregoing with PwC, and we have bolstered internal controls around the recognition of international revenues as part of our quarterly financial closing process and the manual journal entry process. We are also in the process of initiating additional internal control procedures to address the identified weaknesses, including the hiring of additional personnel, determining how to automate revenue recognition calculations so as to limit the number of manual adjustments, and engaging in additional testing of our control processes and procedures.

A letter stating that PwC agrees with these statements was filed as Exhibit 16.1 to our Form 8-K filed with the SEC on March 11, 2004.

Table of Contents**BOARD OF DIRECTORS**

nominations committee. Each member of our governance and nominations committee is independent as defined under the New York Stock Exchange corporate governance standards.

The board of directors has adopted a written charter for the governance and nominations committee which is available on our website at www.mcafee.com under About McAfee. A copy of our governance and nominations committee charter may be obtained without charge by calling or writing the corporate secretary at our corporate headquarters.

Historically, we have not had a formal policy concerning stockholder recommendations to the governance and nominations committee; however, the governance and nominations committee considers nominees recommended by stockholders provided that the provisions in our bylaws which address the process by which a stockholder may nominate an individual to stand for election to the board of directors are followed. In order to be considered timely for our 2006 annual meeting, written notice of a stockholder's nominee must be received by our corporate secretary by January 28, 2006. The notice must include the name and address of the stockholder and nominee; a representation that the stockholder is a holder of record of our stock and intends to appear in person or by proxy at the annual meeting to nominate the nominee; a description of all arrangements or understandings between the stockholder and nominee and any other persons pursuant to which the nomination is made; all other information regarding the nominee as required to be included in a proxy statement filed with the SEC had the nominee been nominated by the board of directors; and the consent of the nominee to serve as a director.

A stockholder desiring to recommend a nominee to the governance and nominations committee should review all of the requirements contained in our bylaws which address the process by which a stockholder may nominate an individual to stand for election to the board. Our bylaws are available on our website at www.mcafee.com under About McAfee.

It is our desire to position our company as a leader in corporate governance best practices. Therefore, the governance and nominations committee will periodically consider whether to adopt a formal policy concerning stockholder recommendations of board nominees.

In evaluating director nominees, the governance and nominations committee evaluates each individual in the context of the board as a whole, with the objective of recommending a group that will best serve our interests and the interests of our stockholders. Nominees for director are selected on the basis of, among other criteria, their:

broad experience in business, trade, finance or management;

knowledge of regional, national and international business affairs;

reputation for working constructively with others;

absence of conflicts of interest;

wisdom, integrity, and moral character;

ability to make independent analytical inquiries; and

understanding of our business and willingness to devote adequate time to board duties.

Other than the foregoing there are no stated minimum criteria for director nominees, although the governance and nominations committee may also consider such other factors as it may deem are in our best interests and the best interests of our stockholders.

The governance and nominations committee identifies nominees by first evaluating the current members of the board of directors willing to continue in service. Current members of the board with skills and experience that are relevant to our business and who are willing to continue in service are considered for re-nomination, balancing the value of continuity of service by existing members of the board with that of obtaining a new perspective. If any member of the board does not wish to continue in service or if the governance and nominations committee or the

board decides not to re-nominate a member for re-election, the governance and nominations committee identifies the desired skills and experience of a new nominee in light

7

of the criteria above. Current members of the governance and nominations committee and board are polled for suggestions as to individuals meeting the criteria of the governance and nominations committee. Research may also be performed to identify qualified individuals and third parties have been and in the future may be engaged to assist in identifying, evaluating and narrowing down the list of potential nominees.

Stockholders who want to communicate directly with the board should send their communications in writing to the attention of our corporate secretary at our offices at 5000 Headquarters Drive, Plano, Texas 75024. Our corporate secretary will review the communication and deliver it to the director or directors named in the correspondence, provided it is not determined to be inappropriate and not relating to our business. If the communication requires a response, the corporate secretary will prepare and send a response by working with the director or directors named in the correspondence.

Although we do not have a formal policy regarding attendance by members of the board of directors at our annual meeting of stockholders, our directors are encouraged to attend. Including our chairman and chief executive officer, four of our board members attended the 2004 annual meeting.

The board of directors has adopted corporate governance guidelines, a code of business conduct and ethics, and a chief executive officer/finance code of ethics, all of which are available on our website at www.mcafee.com under

About McAfee. A copy of our corporate governance guidelines, code of business conduct and ethics, or chief executive officer/finance code of ethics may be obtained without charge by calling or writing the corporate secretary at our corporate headquarters.

Also, during 2004, the board of directors conducted a self-evaluation of its performance.

Compensation of Directors

Directors fees, paid only to directors who are not employees, are as follows:

\$40,000 annual retainer, payable in quarterly installments (an additional \$10,000 annual retainer, payable in quarterly installments, is paid to our lead independent director and the chairpersons of our board committees);

\$1,500 for each board meeting attended;

\$1,500 for each board committee meeting attended;

expenses of attending board and committee meetings; and

medical insurance benefits for directors and their families.

Under our current Stock Option Plan for Outside Directors non-employee directors are automatically granted an option to purchase 50,000 shares of our common stock when they first become a director. Each year after the initial grant they are entitled to receive an additional option grant to purchase up to 25,000 shares of our common stock. All options under this plan are granted at the fair market value on the date of grant. The initial grant vests one-third each year over three years from the date of grant. The subsequent grants vest in full three years from the date of grant. All options granted under this plan become fully exercisable in the event of certain mergers, sales of assets or sales of the majority of our voting stock.

Our employee directors are eligible to receive options and be issued shares of common stock directly under the 1997 Stock Incentive Plan and are eligible to participate in our 2002 Employee Stock Purchase Plan and, if an executive officer, to participate in the Executive Bonus Plan.

COMPENSATION COMMITTEE REPORT ON EXECUTIVE COMPENSATION

The compensation committee of the board of directors consists of three independent directors, Messrs. Dutkowsky, O Leary and Pangia. The members of our compensation committee have not served as our employees or officers. The compensation committee is responsible for setting and administering policies governing compensation of executive officers, including the annual Executive Bonus Plan and the 1997 Stock Incentive Plan. In addition, the compensation committee reviews compensation levels of other management level employees, evaluates the performance of management and reviews other compensation-related issues.

Compensation Philosophy

Our compensation programs are designed to enable us to attract, motivate, retain and reward executive officers who are likely to contribute to our long-term success and the creation of stockholder value. The compensation committee believes that compensation decisions are complex and best made after a deliberate review of our performance and industry compensation levels. The compensation committee also believes that a strong correlation should exist between executive compensation, business objectives and our overall performance. The compensation committee awards compensation that is based upon company and individual performance, and that is designed to motivate our executive officers to achieve strategic business objectives and to continue to perform at the highest levels. The total compensation paid to our executive officers includes a significant equity component because the compensation committee believes that equity-based compensation aligns the long-term interests of the executive officers and employees with those of our stockholders.

In preparing the performance graph for this proxy statement, we have selected the CRSP Total Return Index for the NASDAQ Stock Market and the CRSP Total Return Industry Index for NASDAQ Computer and Data Processing Services Stock Index (collectively the CRSP Index). The companies which we use for comparison of salary and compensation information are not necessarily those included in the CRSP Index, because they were determined not to be competitive with us for executive talent or because compensation information was not available.

Components of Compensation

There are three components of our executive compensation program that are intended to attract and retain executive officers and to motivate them to improve our financial position and to create value for our stockholders.

Salary

We strive to offer salaries to our executive officers that are competitive with salaries offered by companies of similar size and capitalization in the software industry. Base salaries are reviewed on an annual basis and are subject to adjustment based upon the individual's contribution to us, responsibilities, tenure and changes in salary levels offered by comparable companies. In determining executive officers' salaries, the compensation committee considers information provided by our chief executive officer with respect to individual officer responsibilities and performance, as well as salary surveys and similar data available from independent sources. In addition, the compensation committee makes an independent assessment of the chief executive officer's responsibilities and performance.

Bonuses

Awards under our Executive Bonus Plan for 2004 were contingent upon us achieving certain performance goals established by the board of directors. For executive officers other than the chief executive officer, awards were also contingent on the achievement of individual performance objectives. Target amounts of bonuses for each executive officer are set annually by the compensation committee and are specifically weighted for identified financial, management, strategic and operational goals. The compensation committee reviews performance against the goals and approves payment of the bonuses. In 2004, bonuses awarded under the plan to Mr. Samenuk, our chief executive officer, totaled \$1,075,000. The bonus received by Mr. Samenuk under

Table of Contents

the plan was 58% of his total cash compensation. Bonuses awarded under the plan in 2004 to other executive officers represented between 34% and 51% of their total cash compensation.

Equity Incentives

The compensation committee believes that employee equity ownership is highly motivating, provides a major incentive to employees in building stockholder value and serves to align the interests of employees with the interests of our stockholders. Annual stock option grants for executive officers are a key element of our executive compensation program. In determining the amount of equity compensation to be awarded to executive officers in any fiscal year, the compensation committee considers the position of the officer, the current stock ownership of the officer, the number of shares which continue to be subject to vesting under outstanding options and the expected future contribution of the officer to our performance, giving primary weight to the officer's position and his expected future contributions. In addition, we compare the stock ownership and options held by each officer with the other officers' equity positions and the officer's experience and value to us.

Compensation of the Chief Executive Officer

George Samenuk's annual base salary for 2004 increased from \$720,000 to \$800,000 in the second quarter of 2004. Mr. Samenuk was paid a performance-based bonus of \$1,075,000. The compensation committee's criteria for determining Mr. Samenuk's compensation were driven by several factors including: the competitive marketplace, our position in the rapidly evolving technology sector in which we operate, our operating and financial performance in 2004, which included increasing revenue, earnings per share and operating margins, and most importantly, Mr. Samenuk's leadership and establishment and implementation of strategic direction for us which, during 2004, included the acquisition of Foundstone, Inc. and the divestitures of our Magic, Sniffer Technologies and McAfee Labs businesses. Mr. Samenuk's annual base salary and bonus eligibility for 2005 have not yet been determined by the compensation committee. When Mr. Samenuk's 2005 bonus is determined, its payment will be subject to the attainment of certain already agreed upon objectives, including objectives relating to financial measures, the strategic positioning and growth of the company, the quality and depth of our executive team, and the quality and control of our internal processes.

The chief executive officer evaluates the performance of all other executive officers on an annual basis and recommends salary adjustments, which are subject to review and approval by the compensation committee. Performance evaluations for individual executive officers are based both on individual performance and on predetermined individual goals proposed by management and approved by the compensation committee.

Deductibility of Executive Compensation

Section 162(m) of the Internal Revenue Code limits deductions, for federal income tax purposes, of certain executive compensation exceeding \$1,000,000 for any executive officer in any year. Our 1997 Stock Incentive Plan enables compensation recognized in connection with the exercise of options to qualify as an exception to the deduction limit. The compensation committee will continue to evaluate the issues relating to executive compensation and will take appropriate action where necessary. The compensation committee's policy is to qualify its executive compensation for deductibility under applicable tax laws, where possible.

Conclusion

Attracting and retaining talented and motivated executive officers and employees is essential to creating long-term value for our stockholders. Offering a competitive compensation program with a significant equity component helps to achieve this objective by aligning the interests of our executive officers and other key employees with those of our stockholders. The compensation committee believes that our compensation program meets these objectives.

AUDIT COMMITTEE REPORT

The audit committee of the board of directors consists of three independent directors, Messrs. Dutkowsky and Pangia and Ms. Wilson. The members of our audit committee have not served as our employees or officers. The audit committee is responsible for acting on behalf of the board of directors in the oversight of all aspects of our financial reporting, internal control and audit functions. The audit committee has the sole authority and responsibility to select, evaluate, compensate and replace our independent registered public accountants. Our management has the primary responsibility for the financial statements and the reporting process, including the systems of internal controls.

In fulfilling its oversight responsibilities, the audit committee reviewed and discussed the audited consolidated financial statements contained in the Annual Report on Form 10-K for the year ended December 31, 2004 with management. The audit committee discussed with management our major financial risk exposures and the steps management has taken to monitor and control such exposure, including our risk assessment and risk management policies. The audit committee also met with our internal auditors, with and without management present, to discuss the overall scope and plans for their audit, and to discuss the results of their examination and evaluation of our internal control over financial reporting.

The audit committee discussed with Deloitte & Touche LLP, our independent registered public accountants, the overall scope and plans for their audit. The audit committee also met with Deloitte, with and without management present, to discuss the results of their examination, management's response to any significant findings, their observations of our internal controls over financial reporting, the overall quality of our financial reporting, the selection, application and disclosure of critical accounting policies, new accounting developments and accounting-related disclosure, the key accounting judgments and assumptions made in preparing the financial statements and whether the financial statements would have materially changed had different judgments and assumptions been made, and other pertinent items related to our accounting, internal controls and financial reporting.

In connection with the audited consolidated financial statements contained in our Annual Report on Form 10-K, for the year ended December 31, 2004, the audit committee also:

reviewed the audited consolidated financial statements with our management and Deloitte;

discussed with Deloitte the materials required to be discussed by Statement of Auditing Standard 61, Communication with Audit Committees;

reviewed the written disclosures and the letter from Deloitte required by Independent Standards Board No. 1, Independence Discussions with Audit Committees;

discussed with representatives of Deloitte the accounting firm's independence from us and management; and

considered whether the provision by Deloitte of non-audit services is compatible with maintaining Deloitte's independence.

During 2004, management completed the documentation, testing and evaluation of our system of internal control over financial reporting in response to the requirements set forth in Section 404 of the Sarbanes-Oxley Act of 2002 and related regulations. The audit committee was kept apprised of the progress of the evaluation and provided oversight and advice to management during the process. In connection with this oversight, the audit committee received periodic updates provided by management and Deloitte at each regularly scheduled audit committee meeting. At the conclusion of the process, the audit committee reviewed a report by management on the effectiveness of our internal control over financial reporting. The audit committee also reviewed Deloitte's Report of Independent Registered Public Accounting Firm included in our Annual Report on Form 10-K related to its audit of management's assessment of the effectiveness of internal control over financial reporting and the effectiveness of internal control over financial reporting.

Table of Contents

In reliance on these reviews and discussions, the audit committee recommended to the board of directors that the audited financial statements be included in the Annual Report on Form 10-K for the year ended December 31, 2004 for filing with the Securities and Exchange Commission.

- (3) 1.2 million options were issued to Mr. Samenuk on January 3, 2001 and are immediately exercisable. 25% of these shares vested on January 3, 2002, the first anniversary of Mr. Samenuk's employment commencement, and the remaining shares vest at a rate of 1/36th per month for the remaining 36 months of the vesting period. If Mr. Samenuk exercises these stock options with respect to the unvested shares, we have repurchase rights with respect to those unvested shares.
- (4) Includes 47,000 shares of restricted stock with a value of \$1,359,000. Also includes 420,000 options issued to Mr. Samenuk on January 16, 2002 that vest 36 months from the date of grant.

George Samenuk entered into an agreement with us dated January 2, 2001 which was amended and restated on October 9, 2001 and further amended on January 20, 2004, which provides for his at will employment as our chief executive officer. This agreement also provides that if Mr. Samenuk is terminated other than for cause or resigns for good reason, he will be entitled to the following severance benefits: (i) all of Mr. Samenuk's shares of restricted stock, if any, and all stock options will become fully vested and, if applicable, any repurchase rights on his shares will lapse, (ii) twenty-four monthly severance payments based on twice Mr. Samenuk's monthly base salary and targeted bonus, (iii) any unpaid amount of Mr. Samenuk's sign-on bonus, and (iv) continued health and other welfare and fringe benefits through the earlier of (x) eighteen months from termination or (y) until Mr. Samenuk is covered by similar plans by a new employer. If Mr. Samenuk is terminated other than for cause, or resigns with good reason after (i) the occurrence of a transaction where our stockholders do not own at least 50% of the stock of the surviving corporation; (ii) there has been a change in our directors occurring within a two year period as a result of which fewer than a majority of our directors (x) were directors as of the date of the agreement or (y) were elected, or nominated for election, to the board by a vote of at least a majority of the incumbent directors at the time of such election or nomination; (iii) the acquisition of more than 50% of our stock by another party or (iv) the sale of substantially all of our assets, Mr. Samenuk will be entitled to all of the severance benefits noted above, all of his stock options will become fully vested and any repurchase rights on his shares of restricted stock will lapse. Under this agreement, we will indemnify Mr. Samenuk for any parachute tax payments that arise pursuant to the agreement.

Gene Hodges entered into an agreement with us dated December 3, 2001, which provides for his at will employment as our president. This agreement provides that if Mr. Hodges is terminated for any reason, he shall be entitled to a pro rata targeted bonus if the relevant goals for the quarter are met, in addition to his accrued salary and vacation pay. If Mr. Hodges is terminated other than for cause or resigns for good reason, he will be entitled to the following severance benefits: (i) twelve monthly severance payments based on Mr. Hodges' monthly base salary and one-third of his targeted quarterly bonus, (ii) continued health and other welfare and fringe benefits through the earlier of (x) twelve months from termination or (y) until Mr. Hodges is covered by similar plans by a new employer and (iii) all of Mr. Hodges' shares of restricted stock, if any, and all stock options will become fully vested and, if applicable, any repurchase rights on his shares of restricted stock will lapse. After (i) the occurrence of a transaction where our stockholders do not own at least 50% of the stock of the surviving corporation; (ii) there has been a change in our directors occurring within a two year period as a result of which fewer than a majority of our directors (x) were directors as of the date of the agreement or (y) were elected, or nominated for election, to the board by a vote of at least a majority of the incumbent directors at the time of such election or nomination; (iii) the acquisition of more than 50% of our stock by another party, or (iv) the sale of substantially all of our assets, all of Mr. Hodges' shares of

If Mr. Richards is actually or constructively terminated other than for cause, after (i) the occurrence of a transaction where our stockholders do not own at least 50% of the stock of the surviving corporation; (ii) there has been a change in our directors occurring within a two year period as a result of which fewer than a majority of our directors (x) were directors as of the date of the agreement or (y) were elected, or nominated for election, to the board by a vote of at least a majority of the incumbent directors at the time of such election or nomination; (iii) the acquisition of more than 50% of our stock by another party or (iv) the sale of substantially all of our assets, Mr. Richards will be entitled to the severance noted above, all of his stock options will become fully vested, and he will be provided with continued health care coverage through the earlier of twelve months from termination or until he is covered by similar plans by a new employer. Under this agreement, we will indemnify Mr. Richards for any parachute tax payments that arise pursuant to the agreement.

On September 3, 2004 Mr. Richards entered into a Transition Agreement in connection with his retirement that amended certain provisions of his employment agreement. After (i) the occurrence of a transaction where our stockholders do not own at least 50% of the stock of the surviving corporation; (ii) there has been a change in our directors occurring within a two year period as a result of which fewer than a majority of our directors (x) were directors as of the date of the agreement or (y) were elected, or nominated for election, to the board by a vote of at least a majority of the incumbent directors at the time of such election or nomination; (iii) the acquisition of more than 50% of our stock by another party or (iv) the sale of substantially all of our assets, all of Mr. Weiss' shares of restricted stock, if any, and all stock options held by him will become fully vested and if applicable, any repurchase rights on his shares will lapse. Under this agreement, we agreed to indemnify Mr. Smets for any parachute tax payments that arose pursuant to the agreement. Mr. Smets left the Company in July 2004 following the closing of the sale of the Sniffer Technologies division to Network General Corporation.

Eric Brown entered into an agreement with us dated December 10, 2004, which provides for his at will employment as our executive vice president and chief financial officer. The company's other option plans do not have this restriction. As of December 31, 2004, 546,875 shares were outstanding under the Directors Plan at a weighted average exercise price of \$15.37, and 227,185 shares remained available for future issuance.

2000 Nonstatutory Stock Option Plan

In January 2000, the board of directors approved the 2000 Nonstatutory Stock Option Plan (the 2000 Plan). The 2000 Plan provides for the grant of nonqualified stock options to employees, consultants and in certain cases, officers and directors. The plan administrator determines the exercise price of options granted under the 2000 Plan and when such options may be exercised. The 2000 Plan provides that vested options may be exercised for 3 months after termination of employment other than due to death or disability and for 1 year after termination of employment as a result of death or disability. The 2000 Plan permits options to be exercised with cash, check, certain other shares of our common stock, promissory notes, cancellation of indebtedness, waiver of compensation due or consideration received by us under cashless exercise programs. In the event that we merge with or into another corporation, or sell substantially all of our assets, the 2000 Plan provides that each outstanding option will fully vest and become exercisable unless provision is made for options to be assumed or substituted for by the successor corporation. There are 11,500,000 shares of common stock reserved under the 2000 Plan. As of December 31, 2004, no shares remained available for future issuance under the 2000 Plan.

1999 Nonstatutory Stock Plan

In May 1999, the board of directors approved the 1999 Nonstatutory Stock Plan (the 1999 Plan). The 1999 Plan provides for the grant of nonqualified stock options to employees, officers, directors and consultants at exercise prices determined by the plan administrator. The plan administrator determines the exercise price of options granted under the 1999 Plan and when such options may be exercised. The 1999 Plan permits options to be exercised with

cash, check, certain other shares of our common stock, promissory notes, cancellation of indebtedness, waiver of compensation due or consideration received by us under cashless exercise programs. In the event that we merge with or into another corporation, or sell substantially all of our assets, the 1999 Plan provides that each outstanding option will fully vest and become exercisable unless provision is made for options to be assumed or substituted for by the successor corporation. There are

1,000,000 shares of common stock reserved under the 1999 Plan. As of December 31, 2004, no shares remained available for future issuance under the 1999 Plan.

1997 Non-Officer Stock Plan

In January 1997, the board of directors approved the 1997 Non-Officer Stock Plan (the 1997 Non-Officer Plan). The 1997 Non-Officer Plan provides for the grant of nonqualified nonstatutory stock options to employees and consultants who are not officers of the Company at exercise prices determined by the committee administering the plan, but in no event less than 85% of the fair market value of the common stock on the date of the grants. Each stock option agreement entered into under the 1997 Non-Officer Plan shall specify the exercise price, the date on which all or any installment of the option is to become exercisable and the term of the option. The 1997 Non-Officer Plan permits options to be exercised with cash or cash equivalents, certain other shares of common stock, promissory notes (provided, however, that the par value of the shares being purchased shall be paid in cash) and waiver of compensation due or consideration received by us under cashless exercise programs. In the event that we merge with or into another corporation, or sell substantially all of our assets, the 1997 Non-Officer Plan provides that the committee administering the plan may determine, at the time of granting an option or thereafter, that all or part of such option shall fully vest and become exercisable. There are 3,000,000 shares of common stock reserved under the 1997 Non-Officer Plan and there are no shares available for issuance under this plan.

Foundstone, Inc. 2000 Stock Plan

On October 1, 2004 the company completed the acquisition of Foundstone, Inc. In connection with the acquisition, the company assumed the Foundstone, Inc. 2000 Stock Plan (the Foundstone Plan). The Foundstone Plan provides for the grant of incentive stock options, nonqualified nonstatutory stock options and stock purchase rights to employees, directors and consultants of the company and its subsidiaries at exercise prices determined by the committee administering the plan, but in no event less than 85% of the fair market value of the common stock on the date of the grant. However, due to restrictions imposed by the Internal Revenue Service the company will only grant nonqualified nonstatutory stock options under the Foundstone Plan in the future and due to restrictions imposed by the New York Stock Exchange following the acquisition of Foundstone, the company may not grant awards under the Foundstone Plan to individuals who were employed by the company or its subsidiaries, immediately prior to the acquisition of Foundstone. Each stock option agreement entered into under the Foundstone Plan shall specify the exercise price, the date on which all or any installment of the option is to become exercisable and the term of the option. The Foundstone Plan permits options to be exercised with cash or cash equivalents, certain other shares of common stock, promissory notes or consideration received by us under cashless exercise programs. In the event that we merge with or into another corporation, or sell substantially all of our assets, the Foundstone Plan provides that the successor corporation (or a parent or subsidiary) may assume outstanding options and awards under the Plan or substitute a substantially similar option or award. If the successor corporation does not assume or substitute the outstanding options and awards, they will fully vest and become exercisable and all forfeiture restrictions will lapse. There are 747,144 shares of common stock reserved under the Foundstone Plan, of which 359,149 are available for issuance as of April 1, 2005.

**APPENDIX A
SUMMARY OF THE 1997 STOCK INCENTIVE PLAN**

The key provisions of the 1997 Stock Incentive Plan (the Incentive Plan) are summarized below. This summary, however, is not intended to be a complete description of all terms of the Incentive Plan. A copy of the plan text will be furnished to any stockholder upon request. Such a request should be directed to the Corporate Secretary at 5000 Headquarters Drive, Plano, Texas 75024.

Administration and Eligibility. The Compensation Committee administers the Incentive Plan. Employees, non-employee directors and consultants of the company are eligible to participate in the Incentive Plan, although incentive stock options may be granted only to employees. As of April 1, 2005, approximately 2,913 employees and consultants would have been eligible to participate in the Incentive Plan.

Form of Awards. Awards under the Incentive Plan may take the form of options to acquire common stock of the company, stock appreciation rights (SARs), restricted shares or stock units, or any combination of these. No payment is required upon the grant of an award, except for the payment of the par value of any Restricted Stock awarded.

Options may include nonstatutory stock options (NSOs) as well as incentive stock options (ISOs) intended to qualify for special tax treatment. The term of an option cannot exceed 10 years. The exercise price of an ISO must be equal to or greater than the fair market value of the common stock on the date of grant, while the exercise price of an NSO must be equal to or greater than 85% of fair market value. As of April 1, 2005, the closing price of the company's common stock on the New York Stock Exchange was \$23.05 per share.

The exercise price of an option may be paid in any legal form permitted by the Compensation Committee, including:

a full-recourse promissory note (except as would be prohibited by the Sarbanes-Oxley Act of 2002);

the surrender of shares of common stock; or

the surrender of restricted shares already owned by the optionee.

The Compensation Committee may also permit optionees to pay off their withholding tax obligation upon exercise of an NSO by surrendering a portion of their option shares to the company. The Incentive Plan also allows the optionee to pay the exercise price of an option through a cashless exercise in a broker assisted transaction.

At any point in time, the Compensation Committee may offer to buy out an outstanding option for cash or give an optionee the right to give up their option for cash, except with respect to underwater options.

A SAR permits the participant to elect to receive any appreciation in the value of the underlying stock from the company. This appreciation may be in shares of common stock, cash or a combination of the two, with the Compensation Committee having the discretion to determine the form in which such payment is made. The amount payable on exercise of an SAR is measured by the difference between the market value of the underlying stock at exercise and the exercise price. All SARs intended to be exempt from the section 162(m) limit will be granted with an exercise price equal to or greater than 100% of the fair market value of the common stock on the date of grant. SARs may, but need not, be granted in conjunction with options. Upon exercise of an SAR granted in tandem with an option, the corresponding portion of the related option must be surrendered and cannot thereafter be exercised. Conversely, upon exercise of an option to which an SAR is attached, the SAR may no longer be exercised to the extent that the corresponding option has been exercised.

Restricted shares are shares of common stock that are subject to forfeiture in the event that the applicable vesting conditions are not satisfied. Restricted shares have the same voting and dividend rights as other shares of common stock. The recipient of restricted shares may pay all projected withholding taxes relating to the award with shares of common stock rather than cash.

Table of Contents

A stock unit is an unfunded bookkeeping entry representing the equivalent of one share of common stock. A holder of stock units has no voting rights or other privileges as a stockholder but may be entitled to receive dividend equivalents equal to the amount of dividends paid on the same number of shares of common stock. Dividend equivalents may be converted into additional stock units or settled in the form of cash, common stock or a combination of both. Stock units, when vested, may be settled by distributing shares of common stock or by a cash payment corresponding to the fair market value of an equivalent number of shares of common stock, or a combination of both. Vested stock units are settled at the time determined by the Compensation Committee. If the time of settlement is deferred, interest or additional dividend equivalents may be credited on the deferred payment. The recipient of stock units may pay all withholding taxes relating to the settlement of the award with common stock rather than cash.

Options and SARs granted under the Incentive Plan may not be repriced unless stockholder approval is obtained in advance.

Vesting Conditions. The Compensation Committee determines the vesting and other conditions. The vesting conditions may be based on:

the length of the recipient's service;

his or her individual performance;

the company's performance; and

other appropriate criteria.

In the case of restricted shares and stock units, vesting is based on the company's performance.

Where company performance is used as a vesting or issuance condition, performance goals are based on business criteria specified by the Compensation Committee, selected from one or more of the following:

cash flow,
earnings per share,
gross margin,
net income,
operating income,
operating margin,
pre-tax profit,
return on assets,

return on capital,
return on stockholder equity,
growth with respect to any of the foregoing measures,
expense reduction,
growth in bookings,
growth in revenues, and
stock price increase.

Vesting may be accelerated in the event of the recipient's death, disability or retirement or in the event of a transfer of control with respect to the company. Transfer of control is defined in the Incentive Plan as:

the direct or indirect sale or exchange by the stockholders of the company of all or substantially all of the voting stock of the company;

a merger in which the company is a party; or

the sale, exchange or transfer of all or substantially all of the assets of the company.

A transfer of control will also occur in the event of a liquidation or dissolution of the company.

Deferral of Awards. The Compensation Committee may permit or require the recipient of an award to:

have cash that otherwise would be paid to him or her, as a result of the exercise of an SAR or the settlement of stock units, credited to a deferred compensation account established for him or her as an entry on the company's books;

to have shares of common stock that otherwise would be delivered to him or her as a result of the exercise of an option or SAR converted into an equal number of stock units; or

A-2

Table of Contents

to have shares that otherwise would be delivered to him or her as a result of the exercise of an option or SAR or the settlement of stock units converted into an amount credited to a deferred compensation account established for him or her on the company's books.

The amount to be credited is measured by reference to the fair market value of common stock as of the date when shares otherwise would have been delivered to the award recipient. A deferred compensation account established under this provision may be credited with interest or other forms of investment return, as determined by the Compensation Committee.

Number of Reserved Shares and Maximum Awards. The total number of shares of the company's common stock that may be issued under the Incentive Plan, subject to shareholder approval, is 38.48 million. Under the terms of the Incentive Plan, if:

any options, SARs, restricted shares or stock units are forfeited;

if options or SARs terminate for any other reason prior to exercise;

if options currently outstanding under the Predecessor Plan are forfeited or otherwise terminate unexercised; or

if stock units are settled,

then only the number of shares (if any) actually issued in settlement of such stock units reduces the number of shares available under the Incentive Plan and the balance again becomes available for awards under the Plan. If SARs are exercised, then only the number of shares (if any) actually issued in settlement of such SARs reduces the number available and the balance again becomes available for awards. No individual may receive options or SARs covering more than one million shares in any calendar year (subject to anti-dilution adjustments), except that the limit is 1.5 million shares for a new employee in the year in which he or she is hired. In the case of an award that is subject to performance vesting conditions, no individual may receive more than 300,000 restricted shares or stock units in any calendar year (subject to anti-dilution adjustments).

New Plan Benefits. Awards under the Incentive Plan are discretionary. Therefore, it is not possible to determine the benefits that will be received in the future by participants in the Incentive Plan.

The following table summarizes the option grants that were made to each of the executive officers listed in the Summary Compensation Table, as well as the groups indicated below, under the Incentive Plan during the fiscal year ended December 31, 2004:

FEDERAL TAX CONSEQUENCES

The federal income tax consequences of awards under the Incentive Plan are summarized as follows:

Options

The award of stock options will have no federal income tax consequences to the company or the optionee at the time of the option grant.

For ISOs the exercise will not result in any regular taxable income to the optionee at the time and neither will the company be entitled to any deduction, however, at the time of exercise, the excess of the fair market value over the exercise price is an adjustment for purposes of computing alternative minimum taxable income.

If the optionee holds the shares for the required statutory period, the difference between the sale price and the exercise price generally will be taxed as a capital gain or loss. If the optionee holds the shares for less than the statutory period, the optionee will generally recognize ordinary income at the time of the sale equal to the excess of the fair market value of the shares at exercise (or if less, the sales proceeds) over the exercise price and the company will generally be entitled to a deduction for the same amount. Any additional gain on the disposition will generally be taxed as a capital gain.

For NSOs the optionee will generally recognize taxable income equal to the excess of the fair market value at the time of exercise over the exercise price. This taxable income will be subject to withholding tax. Also the company can take a deduction equal to the ordinary income recognized by the optionee. Upon any subsequent disposition of the shares, the difference between the sale price and the exercise price will generally be taxed as capital gain or loss.

Restricted Shares

For restricted shares, unless the purchaser elects to be taxed at the time of issuance, these shares will generally be taxed in the same way as NSOs. However, due to the company's right to repurchase the shares when the purchaser stops providing services to the company, the holder does not recognize ordinary income at the time of the sale, but at the time at which the company's right to repurchase the shares stops. Ordinary income is measured as the difference between the purchase price and the fair market value of the shares on the date that the company's right to repurchase the shares stops.

Stock Appreciation Rights

For SARs, no income is recognized at the time of the grant. When the right is exercised, the recipient will recognize taxable income equal to the amount of the cash received and the fair market value of any common stock received. For a recipient who is also an employee, the income recognized will be subject to withholding and the company will be able to take a deduction equal to the same amount of that income. For common stock received upon exercise of an SAR, the subsequent sale will be treated in the same way as the gain or loss on an NSO.

Stock Units

The grant of a stock unit award results in no federal income tax consequences for the participant or the company. The payment of a stock unit award results in taxable income to the participant equal to the amount of the payment received. The value is based on the fair market value of the common stock on the date of the payment. The company will be able to take a deduction equal to the same amount.

APPENDIX B
SUMMARY OF THE 2002 EMPLOYEE STOCK PURCHASE PLAN

Summary of the Purchase Plan

The key provisions of our 2002 Employee Stock Purchase Plan (the "Purchase Plan") are summarized below. This summary, however, is not intended to be a complete description of all terms of the Purchase Plan. A copy of the plan text will be furnished to any stockholder upon request. Such request should be directed to the Corporate Secretary at 5000 Headquarters Drive, Plano, Texas 75024.

General. The Purchase Plan is intended to qualify as an employee stock purchase plan under section 423 of the Code. Each participant in the Purchase Plan is granted a purchase right at the beginning of each offering period under the plan, which gives the participant the right to purchase shares of our common stock through accumulated payroll deductions.

Shares Subject to Plan. A maximum of 4,000,000 (increased to 5,000,000 if Proposal No. 3 is approved by our stockholders) of our authorized but unissued or reacquired shares of common stock may be issued under the Purchase Plan, subject to appropriate adjustment in the event of any stock dividend, stock split, reverse stock split, recapitalization, combination, reclassification, or similar change in the capital structure of the company, or in the event of any merger, sale of assets or other reorganization of the company. If a purchase right expires or terminates, the shares subject to the unexercised portion of the purchase right will again be available for issuance under the Purchase Plan.

Administration. The Purchase Plan is administered by the board of directors or a duly appointed committee of the board. Subject to the provisions of the Purchase Plan, the board determines the terms and conditions of purchase rights. The board will interpret the Purchase Plan and purchase rights granted thereunder, and all determinations of the board will be final and binding on all persons having an interest in the Purchase Plan or any purchase right. The Purchase Plan provides, subject to certain limitations, for indemnification by the company of any director, officer or employee against all reasonable expenses, including attorneys' fees, incurred in connection with any legal action arising from such person's action or failure to act in administering the plan.

Eligibility. Any employee of ours or of any present or future parent or subsidiary corporation designated by the board for inclusion in the Purchase Plan is eligible to participate, so long as the employee customarily works at least 20 hours per week and has been employed for at least 30 days. However, no employee who owns or holds options to purchase, or who, as a result of participation in the Purchase Plan, would own or hold options to purchase, 5% or more of the total combined voting power or value of all classes of our stock or of any parent or subsidiary corporation is eligible to participate in the Purchase Plan. As of April 1, 2005, approximately 2,784 employees, including all of our executive officers, were eligible to participate in the Purchase Plan.

Offerings. Currently, the Purchase Plan provides for sequential and overlapping offering of approximately twenty-four months' duration commencing on or about February 1 and August 1 of each year and ending on or about the last days of the second January and July thereafter, respectively. Each twenty-four month offering period generally consists of four six-month purchase periods. Commencing with the August 1, 2005 offering period, new offering periods will generally be no more than six months in duration, commencing on or about August 1 and February 1 of each year and ending on or about the last day of the next January and July thereafter, respectively. The board may establish different starting or ending dates for any offering period or purchase period.

Participation and Purchase of Shares. Participation in an offering is limited to eligible employees who deliver a properly completed subscription form prior to the offering date, which is the first day of an offering period. Payroll deductions may not exceed 10% (or such other rate as the board determines) of an employee's compensation on any payday during the offering period. An employee who becomes a participant in the Purchase Plan will automatically participate in each subsequent offering period beginning immediately after

the last day of the offering period in which he or she is a participant until the employee withdraws from the Purchase Plan, becomes ineligible to participate, or terminates employment.

Subject to any limitations or notice requirements which we impose, a participant may increase or decrease his or her rate of payroll deductions or withdraw from the Purchase Plan at any time during an offering. Upon withdrawal, we will refund without interest the participant's accumulated payroll deductions not previously applied to the purchase of shares. A participant who withdraws from an offering may not again participate in the same offering. With respect to twenty-four month offering periods, if the fair market value of a share of common stock on the last day of a purchase period, other than the final purchase period of an offering, is less than the fair market value of a share of common stock on the offering date of that offering, then, unless a participant elects otherwise, each participant will be withdrawn automatically from the current offering after purchasing shares and enrolled in the new offering commencing immediately following thereafter.

Subject to certain limitations, each participant in an offering is granted a purchase right equal to the lesser of a number of whole shares determined by dividing \$50,000 by the fair market value of a share of common stock on the offering date or 10,000 shares. In addition, no participant may purchase shares under this plan or any other employee stock purchase plan of ours (or of our subsidiaries) to the extent that the right to purchase shares accrues at a rate exceeding \$25,000 (based on the fair market value of the shares on the offering date) for each calendar year in which the purchase right is outstanding. Purchase rights are nontransferable and may only be exercised by the participant.

On the last day of the purchase period, each participant purchases a number of shares determined by dividing the amount of his or her payroll deductions accumulated during the purchase period by the purchase price, limited in any case by the number of shares subject to the participant's purchase right for that offering.

The price at which shares are sold under the Purchase Plan is equal to 85% of the lesser of the fair market value per share of our common stock on (i) the offering date or (ii) the purchase date. The fair market value of our common stock on any relevant date generally will be the closing price per share as reported on the New York Stock Exchange. Any payroll deductions under the Purchase Plan not applied to the purchase of shares will be returned to the participant without interest, unless the amount remaining is less than the amount necessary to purchase an additional whole share, in which case the remaining amount may be applied to the next purchase period.

Change in Control. In the event of a change in control, as defined in the Purchase Plan, the surviving, continuing, successor or purchasing corporation or other business entity or parent thereof may assume our rights and obligations under the Purchase Plan. However, if the acquiror elects not to assume such rights and obligations, the purchase date of the then current purchase period will be accelerated to a date before the change in control specified by the board. Any purchase rights that are not assumed or exercised prior to the change in control will terminate.

Termination or Amendment. The Purchase Plan will continue until terminated by the board or until all of the shares reserved for issuance under the plan have been issued. The board may at any time amend or terminate the Purchase Plan, except that the approval of our stockholders is required within twelve months of the adoption of any amendment increasing the number of shares authorized for issuance under the Purchase Plan, or changing the definition of the corporations which may be designated by the board as corporations whose employees may participate in the Purchase Plan.

New Plan Benefits. Because benefits under the Purchase Plan will depend on employees' elections to participate and the fair market value of our common stock at various future dates, it is not possible to determine the benefits that will be received by executive officers and other employees. Non-employee directors are not eligible to participate in the Purchase Plan.

Summary of United States Federal Income Tax Consequences

The following summary is intended only as a general guide as to the United States federal income tax consequences under current law of participation in the Purchase Plan and does not attempt to describe all possible federal or other tax consequences of such participation or tax consequences based on particular circumstances.

Generally, there are no tax consequences to an employee of either becoming a participant in the Purchase Plan or purchasing shares under the Purchase Plan. The tax consequences of a disposition of shares vary depending on the period such stock is held before its disposition. If a participant disposes of shares within two years after the offering date or within one year after the purchase date on which the shares are acquired (a disqualifying disposition), the participant recognizes ordinary income in the year of disposition in an amount equal to the difference between the fair market value of the shares on the purchase date and the purchase price. Any additional gain or resulting loss recognized by the participant from the disposition of the shares is a capital gain or loss.

If the participant disposes of shares at least two years after the offering date and at least one year after the purchase date on which the shares are acquired, the participant recognizes ordinary income in the year of disposition in an amount equal to the lesser of (i) the difference between the fair market value of the shares on the date of disposition and the purchase price or (ii) an amount equal to 15% of the fair market value of the shares on the offering date. Any additional gain recognized by the participant on the disposition of the shares is a capital gain. If the fair market value of the shares on the date of disposition is less than the purchase price, there is no ordinary income, and the loss recognized is a capital loss.

A capital gain or loss will be long-term if the participant holds the shares for more than 12 months and short-term if the participant holds the shares for 12 months or less. Currently, long-term capital gains are generally subject to a maximum tax rate of 20%.

If the participant disposes of the shares in a disqualifying disposition, we should be entitled to a deduction equal to the amount of ordinary income recognized by the participant as a result of the disposition, except to the extent such deduction is limited by applicable provisions of the Code or the regulations thereunder. In all other cases, we are not allowed a tax deduction.
