We and the selling stockholders named in this prospectus supplement have agreed to indemnify the underwriter against certain liabilities, including liabilities under the Securities Act, and to contribute to payments that the underwriter may be required to make for these liabilities.

Stabilization and Short Positions

In connection with this offering, the underwriter may engage in stabilizing transactions, covering transactions or purchases for the purpose of pegging, fixing or maintaining the price of the common stock, in accordance with Regulation M under the Securities Exchange Act of 1934, as amended:

Stabilizing transactions permit bids to purchase the underlying security so long as the stabilizing bids do not exceed a specified maximum.

Covering transactions involve purchases of the common stock in the open market after the distribution has been completed in order to cover short positions.

These stabilizing transactions and covering transactions may have the effect of raising or maintaining the market price of our common stock or preventing or retarding a decline in the market price of our common stock. As a result, the price of our common stock may be higher than the price that might otherwise exist in the open market. These transactions, if commenced, may be discontinued at any time.

Neither we nor the underwriter make any representation or prediction as to the direction or magnitude of any effect that the transactions described above may have on the price of our common stock. In addition, neither we nor the underwriter make representation that the underwriter will engage in these stabilizing transactions or that any transaction, once commenced, will not be discontinued without notice.

Passive Market Making

In connection with the offering, the underwriter may engage in passive market making transactions in the common stock on the Nasdaq National Market in accordance with Rule 103 of Regulation M under the Securities Exchange Act of 1934, as amended, during the period before the commencement of offers or sales

of common stock and extending through the completion of distribution. A passive market maker must display its bids at a price not in excess of the highest independent bid of the security. However, if all independent bids are lowered below the passive market maker's bid that bid must be lowered when specified purchase limits are exceeded.

Electronic Distribution

A prospectus supplement and the accompanying prospectus in electronic format may be made available on the Internet sites or through other online services maintained by the underwriter or by its affiliates. In those cases, prospective investors may view offering terms online and may be allowed to place orders online. The underwriter may agree with us to allocate a specific number of shares for sale to online brokerage account holders. Any such allocation for online distributions will be made by the underwriter on the same basis as other allocations.

Other than the prospectus supplement and the accompanying prospectus in electronic format, the information on the underwriter's web site and any information contained in any other web site maintained by the underwriter is not part of the prospectus supplement and the accompanying prospectus or the registration statement of which this prospectus supplement and the accompanying prospectus form a part, has not been approved and/or endorsed by us or the underwriter in its capacity as underwriter and should not be relied upon by investors.

If you purchase shares of common stock offered in this prospectus supplement and the accompanying prospectus, you may be required to pay stamp taxes and other charges under the laws and practices of the country of purchase, in addition to the offering price listed on the cover page of this prospectus supplement and the accompanying prospectus.

Relationships

PROSPECTUS SUMMARY

This summary highlights selected information contained elsewhere in this prospectus and may not contain all the information that may be important to you. To understand the terms of the shares being offered by this prospectus, we encourage you to read the entire prospectus, especially the risks of investing in the shares described under the section Risk Factors, and the documents identified under the caption Where You Can Find More Information. Unless the context otherwise requires, all information in this prospectus which refers to Rent-A-Center, we, us or our means Rent-A-Center, Inc. and its wholly-owned subsidiaries.

Rent-A-Center

We are the largest rent-to-own operator in the United States with an approximate 34% market share based on store count. At September 8, 2004, we operated 2,863 company-owned stores nationwide and in Canada and Puerto Rico, including 21 stores in Wisconsin operated by our subsidiary Get It Now, LLC under the name Get It Now. Another of our subsidiaries, ColorTyme, Inc., is a national franchisor of rent-to-own stores. At June 30, 2004, ColorTyme had 311 franchised stores in 40 states, 299 of which operated under the ColorTyme name and 12 of which operated under the Rent-A-Center name. These franchise stores represent a further 4% market share based on store count.

Our stores generally offer high quality, durable products such as home electronics, appliances, computers and furniture and accessories under flexible rental purchase agreements that generally allow the customer to obtain ownership of the merchandise at the conclusion of an agreed upon rental period. These rental purchase agreements are designed to appeal to a wide variety of customers by allowing them to obtain merchandise that they might otherwise be unable to obtain due to insufficient cash resources or a lack of access to credit. These agreements also cater to customers who only have a temporary need or who simply desire to rent rather than purchase the merchandise. Get It Now offers our merchandise on an installment sales basis in Wisconsin. We offer well known brands such as Philips, Sony, JVC, Toshiba and Mitsubishi home electronics, Whirlpool appliances, Dell, IBM, Compaq and Hewlett-Packard computers and Ashley, England, Berkline and Standard furniture.

Recent Developments

Earnings Guidance. On September 8, 2004, we issued a press release lowering our earnings guidance. We continue to generate significant cash flow from operations and intended to continue to invest in new store development and acquisitions.

Table of Contents

RISK FACTORS

You should carefully consider the risks described below before making an investment decision. We believe these are all the material risks currently facing our business. Our business, financial condition or results of operations could be materially adversely affected by these risks. The trading price of our common stock could decline due to any of these risks, and you may lose all or part of your investment. You should also refer to the other information included or incorporated by reference in this prospectus, including our financial statements and related notes.

We may not be able to successfully implement our growth strategy, which could cause our future earnings to grow more slowly or even decrease.

As part of our growth strategy, we intend to increase our total number of stores in both existing markets and new markets through a combination of new store openings and store acquisitions. We increased our store base by 123 stores in 2001, 126 stores in 2002 and 241 stores in 2003 and by 198 stores in the first six months of 2004. Our growth strategy could place a significant demand on our management and our financial and operational resources. This growth strategy is subject to various risks, including uncertainties regarding our ability to open new stores and our ability to acquire additional stores on favorable terms. We may not be able to continue to identify profitable new store locations or underperforming competitors as we currently anticipate. If we are unable to implement our growth strategy, our earnings may grow more slowly or even decrease.

Our continued growth also depends on our ability to increase sales in our existing stores. Our same store sales decreased by 2.2% in the first six months of 2004 and increased by 8.0%, 6.0% and 3.0% for 2001, 2002 and 2003, respectively. As a result of new store openings in existing markets and because mature stores will represent an increasing proportion of our store base over time, our same store sale increases in future periods may be lower than historical levels.

If we fail to effectively manage our growth and integrate new stores, our financial results may be adversely affected.

The benefits we anticipate from our growth strategy may not be realized. The addition of new stores, both through store openings and through acquisitions, requires the integration of our management philosophies and personnel, standardization of training programs, realization of operating efficiencies and effective coordination of sales and marketing and financial reporting efforts. In addition, acquisitions in general are subject to a number of special risks, including adverse short-term effects on our reported operating results, diversion of management's attention and unanticipated problems or legal liabilities. Further, a newly opened store generally does not attain positive cash flow during its first year of operations.

There are legal proceedings pending against us seeking material damages. The costs we incur in defending ourselves or associated with settling any of these proceedings, as well as a material final judgment or decree against us, could materially adversely affect our financial condition by requiring the payment of the settlement amount, a judgment or the posting of a bond.

Some lawsuits against us involve claims that our rental agreements constitute installment sales contracts, violate state usury laws or violate other state laws enacted to protect consumers. We are also defending a class action lawsuit alleging we violated the securities laws and lawsuits alleging we violated state wage and hour laws. Because of the uncertainties associated with litigation, we cannot estimate for you our ultimate liability for these matters, if any. The failure to pay any judgment would be a default under our senior credit facilities and the indenture governing our outstanding subordinated notes.

Table of Contents

Our debt agreements impose restrictions on us which may limit or prohibit us from engaging in certain transactions. If a default were to occur, our lenders could accelerate the amounts of debt outstanding, and holders of our secured indebtedness could force us to sell our assets to satisfy all or a part of what is owed.

Covenants under our senior credit facilities and the indenture governing our outstanding subordinated notes each restrict our ability to pay dividends, engage in various operational matters, as well as require us to maintain specified financial ratios and satisfy specified financial tests. Our ability to meet these financial ratios and tests may be affected by events beyond our control. These restrictions could limit our ability to obtain future financing, make needed capital expenditures or other investments, repurchase our outstanding debt or equity, withstand a future downturn in our business or in the economy, dispose of operations, engage in mergers, acquire additional stores or otherwise conduct necessary corporate activities. Various transactions that we may view as important opportunities, such as specified acquisitions, are also subject to the consent of lenders under our senior credit facilities, which may be withheld or granted subject to conditions specified at the time that may affect the attractiveness or viability of the transaction.

If a default were to occur, the lenders under our senior credit facilities could accelerate the amounts outstanding under the credit facilities, and our other lenders could declare immediately due and payable all amounts borrowed under other instruments that contain certain provisions for cross-acceleration or cross-default. In addition, the lenders under these agreements could terminate their commitments to lend to us. If the lenders under these agreements accelerate the repayment of borrowings, we may not have sufficient liquid assets at that time to repay the amounts then outstanding under our indebtedness or be able to find additional alternative financing. Even if we could obtain additional alternative financing, the terms of the financing may not be favorable or acceptable to us.

The existing indebtedness under our senior credit facilities is secured by substantially all of our assets. Should a default or acceleration of this indebtedness occur, the holders of this indebtedness could sell the assets to satisfy all or a part of what is owed. Our senior credit facilities also contain provisions prohibiting the modification of our outstanding subordinated notes, as well as limiting the ability to refinance such notes.

A change of control could accelerate our obligation to pay our outstanding indebtedness, and we may not have sufficient liquid assets to repay these amounts.

Under our senior credit facilities, an event of default would result if a third party became the beneficial owner of 35.0% or more of our voting stock or upon certain changes in the constitution of our Board of Directors. As of July 14, 2004, we were required to make principal payments under our senior credit facilities of \$1.75 million in 2004, \$3.5 million in 2005, \$3.5 million in 2006, \$3.5 million in 2007, \$3.5 million in 2008, and \$334.25 million after 2008. These payments reduce our cash flow. If the lenders under our debt instruments accelerate these obligations, we may not have sufficient liquid assets to repay amounts outstanding under these agreements.

Under the indenture governing our outstanding subordinated notes, in the event that a change in control occurs, we may be required to offer to purchase all of our outstanding subordinated notes at 101% of their original aggregate principal amount, plus accrued interest to the date of repurchase. A change in control also would result in an event of default under our senior credit facilities, which would allow our lenders to accelerate indebtedness owed to them.

Rent-to-own transactions are regulated by law in most states. Any adverse change in these laws or the passage of adverse new laws could expose us to litigation or require us to alter our business practices.

As is the case with most businesses, we are subject to various governmental regulations, including specifically in our case regulations regarding rent-to-own transactions. There are currently 47 states that have passed laws regulating rental purchase transactions and another state that has a retail installment sales statute that excludes rent-to-own transactions from its coverage if certain criteria are met. These laws generally require certain contractual and advertising disclosures. They also provide varying levels of substantive consumer protection, such as requiring a grace period for late fees and contract reinstatement rights in the

Table of Contents

event the rental purchase agreement is terminated. The rental purchase laws of nine states limit the total amount of rentals that may be charged over the life of a rental purchase agreement. Several states also effectively regulate rental purchase transactions under other consumer protection statutes. We are currently subject to outstanding judgments and other litigation alleging that we have violated some of these statutory provisions.

Although there is no comprehensive federal legislation regulating rental-purchase transactions, adverse federal legislation may be enacted in the future. From time to time, legislation has been introduced in Congress seeking to regulate our business. In addition, various legislatures in the states where we currently do business may adopt new legislation or amend existing legislation that could require us to alter our business practices.

Our business depends on a limited number of key personnel, with whom we do not have employment agreements. The loss of any one of these individuals could disrupt our business.

Our continued success is highly dependent upon the personal efforts and abilities of our senior management, including Mark E. Speese, our Chairman of the Board and Chief Executive Officer, and Mitchell E. Fadel, our President and Chief Operating Officer. We do not have employment contracts with or maintain key-person insurance on the lives of any of these officers and the loss of any one of them could disrupt our business.

A small group of our directors and their affiliates have significant influence over the outcome of certain corporate transactions affecting us, including potential mergers or acquisitions, the constitution of our board of directors, and sales or changes in control.

Apollo Investment Fund IV, L.P. and Apollo Overseas Partners IV, L.P., collectively the Apollo Entities, hold all of our outstanding Series C preferred stock. Pursuant to the terms of a stockholders agreement entered into among us, the Apollo Entities, Mark E. Speese and certain other parties, the Apollo Entities have the right to designate two persons to be nominated to our board of directors. The terms of our Series C preferred stock as well as the stockholders agreement also contain provisions requiring the approval of the Apollo Entities to effect certain transactions involving us, including repurchasing shares of our common stock, declaring or paying any dividend on our common stock, increasing the size of our board of directors to more than eight persons, selling all or substantially all of our assets and entering into any merger or consolidation or other business combination.

These documents also provide that one member of each of our board committees must be a director who was designated for nomination by the Apollo Entities. In addition, the terms of our Series C preferred stock and the stockholders agreement restrict our ability to issue debt or equity securities with a value in excess of \$10 million without the majority affirmative vote of our finance committee, and in most cases, require the unanimous vote of our finance committee for the issuance of our equity securities with a value in excess of \$10 million.

Our organizational documents, Series C preferred stock and debt instruments contain provisions that may prevent or deter another group from paying a premium over the market price to our stockholders to acquire our stock.

Our organizational documents contain provisions that classify our board of directors, authorize our board of directors to issue blank check preferred stock and establish advance notice requirements on our stockholders for director nominations and actions to be taken at annual meetings of the stockholders. In addition, as a Delaware corporation, we are subject to Section 203 of the Delaware General Corporation Law relating to business combinations with interested stockholders. Our senior credit facilities, the indenture governing the outstanding subordinated notes and our Series C preferred stock certificate of designations each contain various change of control provisions which, in the event of a change of control, would cause a default under those provisions. These provisions and arrangements could delay, deter or prevent a merger, consolidation, tender offer or other business combination or change of control involving us that could include a premium

over the market price of our common stock that some or a majority of our stockholders might consider to be in their best interests.

Our stock price is volatile, and you may not be able to recover your investment if our stock price declines.

The stock price of our common stock has been volatile and can be expected to be significantly affected by factors such as:

quarterly variations in our results of operations, which may be impacted by, among other things, changes in same store sales and when and how many stores we acquire or open;

quarterly variations in our competitors' results of operations;

changes in earnings estimates or buy/sell recommendations by financial analysts;

the stock price performance of comparable companies; and

general market conditions or market conditions specific to particular industries.

Our stock price may decline if existing stockholders sell additional shares.

As of July 31, 2004 and assuming the exercise of all outstanding options, approximately 86.0% of our common stock on a fully diluted basis is held by the public, approximately 2.2% is held by Mr. Speese and approximately 11.8% is held by the Apollo Entities. If these stockholders sell shares of our common stock in the public market, the market price of our common stock could fall. These sales might make it more difficult for us to sell equity or equity-related securities in the future at a time and place that we deem appropriate.

Under the registration rights agreements we have entered into, the Apollo Entities and their affiliates have the right to request that their shares be registered, subject to a reduction in the number of shares upon the advice of a managing underwriter in the related offering.

Additional factors that could cause our actual results to differ materially from our expectations are discussed under the section entitled "Risk Factors" and elsewhere in this prospectus. You should not unduly rely on these forward-looking statements, which speak only as of the date of this prospectus. Except as required by law, we are not obligated to publicly release any revisions to these forward-looking statements to reflect events or circumstances occurring after the date of this prospectus or to reflect the occurrence of unanticipated events.

USE OF PROCEEDS

We will not receive any proceeds from the sales of shares of common stock offered under this prospectus. All proceeds will be payable directly to the selling stockholders.

SELLING STOCKHOLDERS

Selling Stockholders

We are registering for resale 10,134,163 shares of our common stock held by the selling stockholders identified below. The selling stockholders acquired the shares from us in private placements. The private placements were exempt from the registration requirements of the Securities Act of 1933 because we offered and sold the shares only to accredited investors in a transaction not involving a public offering. The offering of the shares of our common stock to be sold using this prospectus is being registered pursuant to registration rights granted to certain of our stockholders.

Former Rent Rite shareholders' registration rights. The former shareholders of Rent Rite, Inc. were granted registration rights for our common stock that they received pursuant to provisions contained in an Agreement and Plan of Merger and Reorganization that we entered into in connection with our acquisition of Rent Rite. In that agreement, we undertook to file a registration statement with regard to the resale of shares of our common stock that were issued as stock consideration and, subject to certain exceptions, to use commercially reasonable efforts to keep that registration statement effective until May 7, 2005.

Apollo Entities' registration rights. In connection with the issuance of our preferred stock in 1998, we entered into a registration rights agreement with the Apollo Entities which, among other things, granted them the right to request that their shares be registered if the Company files certain types of registration statements. The Apollo Entities have requested to be included in this Registration Statement pursuant to and in compliance with the terms and conditions of the registration rights agreement.

The Registration Statement to which this prospectus relates is intended to satisfy our obligations under our agreements with the former Rent Rite shareholders and the Apollo Entities.

The following table sets forth:

the names of the selling stockholders, other than those immaterial selling stockholders who are listed as a group as described below;

the number and percent of shares of our common stock that the selling stockholders beneficially owned as of June 30, 2004, before the offering for resale of the shares under this prospectus;

the number of shares of our common stock that may be offered for resale for the account of the selling stockholders under this prospectus; and

the number and percent of shares of our common stock to be beneficially owned by the selling stockholders after the offering of the resale shares (assuming all of the offered resale shares are sold by the selling stockholders).

Table of Contents

The number of shares in the column **Number of Shares Offered** represents all of the shares that each selling stockholder may offer under this prospectus. We do not know how long the selling stockholders will hold the shares before selling them or how many shares they will sell and we currently have no agreements, arrangements or understandings with any of the selling stockholders regarding the sale of any of the resale shares. The shares offered by this prospectus may be offered from time to time by the selling stockholders listed below. The selling stockholders are not obligated to sell any of the shares of common stock offered by this prospectus.

This table is prepared solely based on information supplied to us by the listed selling stockholders, and assumes the sale of all of the shares offered by this prospectus and that no selling stockholder owns shares of our common stock of which we have no knowledge. The applicable percentages of beneficial ownership are based on an aggregate of shares of our common stock issued and outstanding on June 30, 2004, adjusted as may be required by rules of the SEC. The table set forth below includes immaterial selling stockholders that, as a group, hold less than 1% of our outstanding common stock in the aggregate and are listed in the table as **Other Selling Stockholders**.

- (1) Unless noted otherwise, all shares of common stock are beneficially owned by the selling stockholders. Beneficial ownership is calculated in accordance with SEC Rule 13d-3. Under that rule, shares underlying stock options are deemed to be beneficially owned only if the stock options are exercisable *within 60 days*. Therefore, the number of shares reflected in the **Shares Beneficially Owned Before Offering** column *excludes* shares underlying options that are only exercisable after 60 days from July 31, 2004, while the **Number of Shares Offered** column may include shares underlying options that are exercisable either before or after 60 days from July 31, 2004. Accordingly, the number of **Number of Shares Offered** shown for a stockholder may be greater than the number of shares shown for the same stockholder under **Shares Beneficially Owned Before Offering**.
- (2) Assumes the sale of all shares that may be sold hereby.
- (3) The number of shares reported as beneficially owned by Apollo Advisors IV, L.P. includes the shares of common stock owned of record by each of the Apollo Entities. Apollo Advisors IV, L.P. is the general partner and Apollo Management IV, L.P. is the day-to-day manager of Apollo Overseas Partners IV, L.P. and Apollo Investment Fund IV, L.P. Apollo Advisors IV, L.P. and Apollo Management IV, L.P. disclaim beneficial ownership of the shares held by the Apollo Entities.

The Company's Relationships with the Selling Stockholders

Apollo Entities' relationships with the Company. In August 1998, the Company issued \$260.0 million of redeemable convertible voting preferred stock with a \$0.01 par value to various purchasers, including the Apollo Entities. In connection with such issuance, the Company entered into a registration rights agreement with the Apollo Entities which, among other things, granted them two rights to request that their shares be registered and the right to participate in any company-initiated registration of shares, subject to certain exceptions. In May 2002, Apollo exercised one of their two rights to request that their shares be registered. In connection therewith, Apollo converted shares of Rent-A-Center's preferred stock held by them into shares of the Company's common stock, which they sold in the May 2002 public offering that was the subject of the Apollo Entities' request. The Company did not receive any of the proceeds from that offering.

On August 5, 2002, the first date in which the Company had the right to optionally redeem the shares of preferred stock, the holders of the Company's preferred stock converted all but two shares of the Company's preferred stock held by them into shares of the Company's common stock. There are currently 5,000,000 shares of preferred stock authorized and only two shares are issued and outstanding, of which one share is held by each of the Apollo Entities.

The Company's preferred stock is convertible, at any time, into shares of the Company's common stock at a conversion price equal to \$11.174 per share (on a split adjusted basis), and has a liquidation preference of \$1,000 per share, plus all accrued and unpaid dividends. No distributions may be made to holders of common stock until the holders of the preferred stock have received the liquidation preference. Dividends accrue on a quarterly basis, at the rate of \$37.50 per annum, per share. During 2002 and 2001, Rent-A-Center accounted for shares of preferred stock distributed as dividends in-kind at the greater of the stated value or the value of the common stock obtainable upon conversion on the payment date. During 2003, the Company paid all preferred stock dividends in cash. During 2002 and 2001, the Company paid approximately \$8.2 million and \$10.7 million in preferred dividends by issuing 8,151 and 10,678 shares of preferred stock, respectively to the Apollo Entities.

Pursuant to the terms of a stockholders agreement entered into among the Company, the Apollo Entities and certain other parties, the Apollo Entities have the right to designate two persons to be nominated to the Company's Board of Directors, subject to reduction in the event Apollo reduces its share ownership below certain thresholds. The terms of the Company's Series C preferred stock as well as the stockholders agreement also contain provisions requiring the Apollo Entities' approval to effect certain transactions involving the Company, including repurchasing shares of the Company's common stock, declaring or paying any dividend on its common stock, increasing the size of the Company's Board of Directors to more than eight persons, selling all or substantially all of the Company's assets and entering into any merger or consolidation or other business combination.

These documents also provide that one member of each of the Company's board committees must be a director who was designated for nomination by the Apollo Entities. In addition, the terms of the Company's Series C preferred stock and the stockholders agreement restrict the Company's ability to issue debt or equity securities with a value in excess of \$10 million without the majority affirmative vote of the Company's finance committee, and in most cases, require the unanimous vote of its finance committee for the issuance of the Company's equity securities with a value in excess of \$10 million.

Former Rent Rite shareholders' relationships with the Company. None of the former Rent Rite shareholders that are participating in the offering pursuant to this registration statement and prospectus have,

within the past three years, held any position, office or other material relationship with us or any of our predecessors or affiliates, except each of them was a shareholder of Rent Rite, Inc., which we acquired on May 7, 2004, and Karl A. Schledwitz, John P. Cooper, Roger Knox, J. Kevin Hyneman, Terry A. Lynch, William N. Morris, Jr., Edward J. Stanko and James S. Gilliland were directors of Rent Rite and Edward J. Stanko, Thomas B. Mitchell and Terry A. Lynch were executive officers of Rent Rite. Our subsidiary that acquired Rent Rite has an obligation to indemnify the former Rent Rite officers and directors relating to their services performed as officers and directors, respectively. We also have customary arrangements with a number of the officers and directors arising from our acquisition of Rent Rite, including non-competition agreements with Edward Stanko, J. Kevin Hyneman and Everett P. Hailey. Also certain of the former officers and directors of Rent Rite received severance payments of approximately \$1.5 million in connection with the Rent Rite acquisition.

In each of May 2001 and October 2002, the Company purchased a rent-to-own store from an entity affiliated with William M. Wendell, one of the selling stockholders. The total purchase price for these transactions was approximately \$482,000 and in connection with each transaction, Wendell entered into a non-compete agreement with the Company for a period of three years.

PLAN OF DISTRIBUTION

The selling stockholders may sell the shares at any time and from time to time to purchasers

directly by the selling stockholders; or

through underwriters, broker-dealers or agents who may receive compensation in the form of discounts, concessions or commissions from the selling stockholders or from purchasers of the common shares.

The selling stockholders will act independently of us in making decisions regarding the timing, manner and size of each sale. Each selling stockholder reserves the right to accept and, together with its agents from time to time, reject, in whole or in part any proposed purchase of the common shares to be made directly or through agents.

The selling stockholders and broker-dealers or agents, if any, who participate in the distribution of the common shares offered under this prospectus may be deemed to be underwriters within the meaning of Section 2(a)(11) of the Securities Act of 1933. As a result, any profits on the sale of the common shares by selling stockholders and any discounts, commissions or concessions received by any participating broker-dealers or agents might be deemed to be underwriting discounts or commissions under the Securities Act of 1933. Selling stockholders who are deemed to be underwriters may be subject to certain statutory liabilities, including, but not limited to, those under Sections 11, 12 and 17 of the Securities Act of 1933 and Rule 10b-5 under the Securities Exchange Act of 1934. Because the selling stockholders may be deemed to be underwriters within the meaning of the Securities Act, they will be subject to the prospectus delivery requirements of the Securities Act. In addition, any securities covered by this prospectus that qualify for resale pursuant to Rule 144 under the Securities Act may be sold under Rule 144 rather than under this prospectus.

The common shares may be sold from time to time on any stock exchange or automated interdealer quotation system on which such common shares are listed, in the over-the-counter market, in privately negotiated transactions or otherwise, at fixed prices that may be changed, at market prices prevailing at the time of sale, at prices related to prevailing market prices or at prices otherwise negotiated.

The selling stockholders may sell the common shares by one or more of the following methods, without limitation:

block trades in which the broker or dealer so engaged will attempt to sell the common shares as agent but may position and resell a portion of the block as principal to facilitate the transaction;

purchases by a broker or dealer as principal and resale by the broker or dealer for its own account;

ordinary brokerage transactions and transactions in which the broker solicits purchases;

Table of Contents

privately negotiated transactions;

closing out of short sales;

satisfying delivery obligations relating to the writing of options on the common shares, whether or not the options are listed on an options exchange;

one or more underwritten offerings on a firm commitment or best efforts basis; and

any combination of any of these methods.

The selling stockholders may engage brokers and dealers, and any brokers or dealers may arrange for other brokers or dealers to participate in effecting sales of the common shares. These brokers, dealers or underwriters may act as principals, or as an agent of a selling stockholder. Broker-dealers may agree with a selling stockholder to sell a specified number of the common shares at a stipulated price per security. If the broker-dealer is unable to sell the common shares as agent for a selling stockholder, it may purchase as principal any unsold common shares at the stipulated price. Broker-dealers who acquire common shares as principal may thereafter resell the common shares from time to time in transactions in any stock exchange or automated interdealer quotation system on which the common shares are then listed, at prices and on terms then prevailing at the time of sale, at prices related to the then-current market price or in negotiated transactions. Broker-dealers may use block transactions and sales to and through broker-dealers, including transactions of the nature described above.

A selling stockholder may enter into hedging transactions with broker-dealers and the broker-dealers may engage in short sales of the common shares in the course of hedging the positions they assume with that selling stockholder, including without limitation, in connection with distributions of the common shares by those broker-dealers. A selling stockholder may enter into option or other transactions with broker-dealers that involve the delivery of the common shares offered hereby to the broker-dealers, who may then resell or otherwise transfer those common shares. A selling stockholder may also loan or pledge the common shares offered hereby to a broker-dealer and the broker-dealer may sell common shares offered hereby so loaned or upon a default may sell or otherwise transfer the pledged common shares offered hereby.

To our knowledge, there are currently no plans, arrangements or understandings between any selling stockholders and any underwriter, broker-dealer or agent regarding the sale of the common shares offered by this prospectus. Selling stockholders may decide not to sell any of the common shares offered under this prospectus, or they might decide to transfer the common shares by other means not described in this prospectus. Additionally, selling stockholders may resell all or a portion of their common shares in open market transactions pursuant to Rule 144 under the Securities Act of 1933 rather than pursuant to this prospectus, so long as they meet the applicable criteria and conform to the requirements of those rules.

Under applicable rules and regulations under the Securities and Exchange Act of 1934, any person engaged in the distribution of the shares may not simultaneously engage in market making activities with respect to our common stock for a period of two business days prior to the commencement of the distribution. In addition, the selling stockholders will be subject to applicable provisions of the Exchange Act and the rules and regulations thereunder, including Regulation M, which may limit the timing of purchases and sales of shares of our common stock by the selling stockholders or any other person. This may affect the marketability of the common shares as well as the ability of any person or entity to engage in market-making activities with respect to the common shares. We will make copies of this prospectus available to the selling stockholders and we have informed them of the requirement to deliver a copy of this prospectus to each purchaser at or prior to the time of the sale.

We will bear all costs, expenses and fees associated with the registration of the shares. The selling stockholders will bear all fees and expenses, if any, of counsel or other advisors to the selling stockholders and all commissions, brokerage fees and discounts, if any, associated with the sale of the shares.
