NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED)

1) Basis of Presentation

In the opinion of management, the accompanying unaudited condensed consolidated financial statements contain all adjustments (consisting of normal recurring adjustments) necessary for a fair presentation of Glacier Bancorp Inc.'s (the "Company") financial condition as of June 30, 2007, and June 30, 2006, stockholders' equity for the six months ended June 30, 2007, the results of operations for the three and six months ended June 30, 2007 and 2006, and cash flows for the six months ended June 30, 2007 and 2006. The condensed consolidated statement of financial condition and statement of stockholders' equity and comprehensive income of the Company as of December 31, 2006 have been derived from the audited consolidated statements of the Company as of that date.

The accompanying condensed consolidated financial statements do not include all of the information and footnotes required by accounting principles generally accepted in the United States of America for complete financial statements. These condensed consolidated financial statements should be read in conjunction with the consolidated financial statements and notes thereto contained in the Company's Annual Report on Form 10-K for the year ended December 31, 2006. Operating results for the six months ended June 30, 2007 are not necessarily indicative of the results anticipated for the year ending December 31, 2007. Certain reclassifications have been made to the 2006 financial statements to conform to the 2007 presentation.

2) Organizational Structure

The Company, headquartered in Kalispell, Montana, is a Montana corporation

Edgar Filing: GLACIER BANCORP INC - Form 10-Q

Citizens Community Bank (ID Commercial bank)	First Bank of Montana (MT Commercial bank)	First National Bank of Morgan (UT Commercial bank)	Glacier Capital Trust II
Glacier Capital Trust III	Glacier Capital Trust IV	Citizens (ID) Statutory Trust I	

3) Ratios

Returns on average assets and average equity were calculated based on daily averages.

4) Dividends Declared

On June 27, 2007, the Board of Directors declared a \$.12 per share cash dividend payable on July 19, 2007 to stockholders of record on July 10, 2007.

5) Computation of Earnings Per Share

Basic earnings per common share is computed by dividing net earnings by the weighted average number of shares of common stock outstanding during the period presented. Diluted earnings per share is computed by including the net increase in shares as if dilutive outstanding stock options were exercised, using the treasury stock method.

8

The following schedule contains the data used in the calculation of basic and diluted earnings per share:

	Three months ended June 30, 2007	Three months ended June 30, 2006	Six months ended June 30, 2007	Six months ended June 30, 2006
Net earnings available to common stockholders	\$16,725,000	14,666,000	32,818,000	28,290,000
Average outstanding shares - basic	53,164,813	48,658,760	52,836,255	48,510,000
Add: Dilutive stock options	436,883	687,220	578,737	770,000
Average outstanding shares - diluted ..	53,601,696	49,345,980	53,414,992	49,280,000
Basic earnings per share	\$ 0.31	0.30	0.62	0.58
Diluted earnings per share	\$ 0.31	0.30	0.61	0.57

There were approximately 436,130 and 484,725 average shares excluded from the six months ended diluted share calculation as of June 30, 2007, and 2006,

Edgar Filing: GLACIER BANCORP INC - Form 10-Q

respectively, due to the option exercise price exceeding the market price.

(1) The mortgage servicing rights are included in other assets and the gross carrying value and accumulated amortization are not readily available.

Acquisitions are accounted for using the purchase accounting method as prescribed by Statement of Financial Accounting Standard Number 141, Business Combinations. Purchase accounting requires the total purchase price to be allocated to the estimated fair values of assets acquired and liabilities assumed, including certain intangible assets. Goodwill is recorded for the residual amount in excess of the net fair value.

Adjustment of the allocated purchase price may be related to fair value estimates for which all information has not been obtained or required for pre-acquisition contingencies of the acquired entity known or discovered during the allocation period, the period of time required to identify and measure the fair values of the assets and liabilities acquired in the business combination. The allocation period is generally limited to one year following consummation of a business combination.

The following is a summary of activity in goodwill for the six months ended June 30, 2007.

	=====

As a condition of acquiring FCB - Billings, a subsidiary of CDC which was acquired on October 1, 2006, bank regulators required Western to divest of Western's branch in Lewistown, Montana. Western was acquired in

14

February 2001 through the purchase of WesterFed Financial Corporation ("WesterFed"), its parent company. The WesterFed acquisition was accounted for using the purchase method of accounting with a portion of goodwill allocated to Western's Lewistown branch. With the January 2007 sale of the Lewistown branch, \$454 thousand of goodwill associated with such branch was removed.

In March 2007, Western adjusted its purchase price allocation for FCB - Billings based upon new information available to management concerning the estimated fair value of property as of the acquisition date. Accordingly, the fair value of certain property was increased by \$1.25 million with a related \$490 thousand increase in deferred tax liability, resulting in a \$760 thousand decrease in goodwill.

In February 2007, Western became aware of a preacquisition contingency in regards to a loan that was impaired as of the October 1, 2006 acquisition of FCB - Billings. After taking into consideration recoveries, the amount of impairment determined to have occurred on or before the acquisition date is estimated to be \$6.3 million with such amount charged off against the loan balance. No further loss is expected as the balance of the loan, after such charge-off, has been collected. On an after tax basis, the increase to goodwill is \$3.8 million. Management continues to pursue additional recoveries and remedies from the guarantors and other third parties. Additional recoveries, if any, occurring on or before September 30, 2007, i.e., the expected end of the allocation period will be an adjustment of goodwill, with any recoveries occurring after such date recorded in earnings in the period in which the recoveries are received or accrued.

On April 30, 2007, the Company acquired North Side State Bank of Rock Springs, and the purchase price included core deposit intangible of \$2,524,000 and goodwill of \$7,675,000.

11) Stockholders' Equity

The Federal Reserve Board has adopted capital adequacy guidelines that are used to assess the adequacy of capital in supervising a bank holding company. The following table illustrates the Federal Reserve Board's capital adequacy guidelines and the Company's compliance with those guidelines as of June 30, 2007.

12) Federal and State Income Taxes

The Company and its financial institution subsidiaries join together in the filing of consolidated income tax returns in the following jurisdictions: federal, Montana, Idaho and Utah. Although 1st Bank has operations in Wyoming and Mountain West has operations in Washington, neither Wyoming nor Washington imposes a corporate level income tax. All required income tax returns have been timely filed. Income tax returns for the years ended December 31, 2003, 2004, 2005 and 2006, remain subject to examination by federal, Montana, Idaho and Utah tax authorities.

On January 1, 2007, the Company adopted FASB Interpretation No. 48 ("FIN 48"), Accounting for Uncertainty in Income Taxes. There was no cumulative effect recognized in retained earnings as a result of adopting FIN

16

48. The Company determined its unrecognized tax benefit to be \$300,000 as of June 30, 2007. In accordance with FIN 48, the Company reclassified such amount from a deferred tax liability to a current tax liability.

If the unrecognized tax benefit amount was recognized, it would decrease the Company's effective tax rate from 34.0 percent to 33.7 percent. Management believes that it is unlikely that the balance of its unrecognized tax benefits will significantly increase or decrease over the next twelve months.

The Company recognizes interest related to unrecognized income tax benefits in interest expense and penalties are recognized in other expense. During the six months ended June 30, 2007 and 2006, the Company recognized \$0 interest expense and recognized \$0 penalty with respect to income tax liabilities. The Company had approximately \$50,000 and \$0 accrued for the payment of interest at June 30, 2007 and 2006, respectively. The Company had accrued \$0 for the payment of penalties at June 30, 2007 and 2006.

13) Comprehensive Income

The Company's only component of comprehensive income other than net earnings is the unrealized gains and losses on available-for-sale securities.

14) Segment Information

The Company evaluates segment performance internally based on individual bank charters, and thus the operating segments are so defined. The following schedule provides selected financial data for the Company's operating segments. Centrally provided services to the Banks are allocated based on estimated usage of those services. The operating segment identified as "Other" includes the Parent, non-bank units, and elimination of transactions between segments.

15) Rate/Volume Analysis

Net interest income can be evaluated from the perspective of relative dollars of change in each period. Interest income and interest expense, which are the components of net interest income, are shown in the following table on the basis of the amount of any increases (or decreases) attributable to changes in the dollar levels of the Company's interest-earning assets and interest-bearing liabilities ("Volume") and the yields earned and rates paid on such assets and liabilities ("Rate"). The change in interest income and interest expense attributable to changes in both volume and rates has been allocated proportionately to the change due to volume and the change due to rate.

17) Recent Acquisitions

On April 30, 2007, the Company completed the acquisition of North Side of Rock Springs, Wyoming, which was merged into 1st Bank, the Company's Evanston, Wyoming subsidiary. As of April 30, 2007, North Side had approximate total assets of \$119 million, loans of \$40 million, and deposits of \$100 million. A portion of the purchase price was allocated to core deposit intangible of \$2,524,000 and goodwill of \$7,675,000.

Acquisitions are accounted for under the purchase method of accounting. Accordingly, the assets and liabilities of the acquired banks are recorded by the Company at their respective fair values at the date of the acquisition and the results of operations are included with those of the Company since the date of acquisition. The excess of the Company's purchase price over the net fair value of the assets acquired and liabilities assumed, including identifiable intangible assets, is recorded as goodwill.

Adjustment of the allocated purchase price may be related to fair value estimates for which all information has not been obtained or required for pre-acquisition contingencies of the acquired entity known or discovered during the allocation period, the period of time required to identify and measure the fair values of the assets and liabilities acquired in the business combination. The allocation period is generally limited to one year following consummation of a business combination.

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

Key Management

The Company appointed Don Chery as Chief Administrative Officer for the Company by the Board of Directors. Don brings with him nearly 20 years of experience with the Company, most recently as President of Big Sky. Don will begin his new role August 20. Ron Ostermiller has been appointed the new President of Big Sky. Ron has been with the Company for 9 years as the Senior Credit Officer of Big Sky and has been in the banking industry for 38 years.

Impact of Recently Issued Accounting Standards

In February 2007, the FASB issued Statement No. 159, "The Fair Value Option for Financial Assets and Financial Liabilities--including an amendment of FASB Statement No. 115" (Statement 159). Statement 159 permits entities to choose to measure many financial instruments and certain other items at fair value and amends Statement 115 to, among other things, require certain disclosures for amounts for which the fair value option is applied. This standard is effective as of the beginning of an entity's first fiscal year that begins after November 15, 2007, or January 1, 2008 for the Company. Early adoption is permitted as of the beginning of a fiscal year that begins on or before November 15, 2007, provided the entity also elects to apply the provisions of Statement 157. The Company has not completed its assessment of SFAS 159 and the impact, if any, on the consolidated financial statements.

Edgar Filing: GLACIER BANCORP INC - Form 10-Q

In September 2006, the Financial Accounting Standards Board (FASB) issued SFAS No. 157, Fair Value Measurements, which defines fair value, establishes a framework for measuring fair value in generally accepted accounting principles (GAAP), and expands disclosures about fair value measurements. This Statement applies under other accounting pronouncements that require or permit fair value measurements, FASB having previously concluded in those accounting pronouncements that fair value is the relevant measurement attribute. Accordingly, this Statement does not require any new fair value measurements. SFAS No. 157 is effective for financial statements issued for fiscal years beginning after November 15, 2007, and interim periods within those fiscal years. The Company is currently evaluating the impact of the adoption of this standard, but does not expect it to have a material effect on the Company's financial position or results of operations.

Financial Condition

This section discusses the changes in the Statement of Financial Condition items from June 30, 2006 and December 31, 2006, to June 30, 2007.

Effective with its acquisition on April 30, 2007, North Side of Rock Springs, Wyoming was merged into 1st Bank, the Company's subsidiary bank in Evanston, Wyoming. On June 21, 2007, the remaining two CDC subsidiaries, i.e., First National Bank of Lewistown and Western Bank of Chinook, merged to become First Bank of Montana. In June, each of the combining CDC bank's operating systems and First National Bank of Morgan's operating systems were converted to the core operating system used by the Company's banking subsidiaries.

The results of operations and financial condition include the acquisition of North Side from May 1, 2007 forward. Cash of \$8.8 million and 793,580 shares of the Company's common stock were issued to North Side shareholders. The following table provides information on selected classifications of assets and liabilities acquired:

(UNAUDITED - \$ IN THOUSANDS)	North Side State Bank -----
Total assets	118,803
Investments	61,456
Fed funds sold	10,100
Net loans	39,541
Non-interest bearing deposits	22,101
Interest bearing deposits	77,467

As reflected on the next schedule, total assets at June 30, 2007 were \$4.673 billion, which is \$202 million, or 4.5 percent, higher than the December 31, 2006 total assets of \$4.471 billion, and \$757 million, or 19.3 percent, greater than the June 30, 2006 total assets of \$3.916 billion.

At June 30, 2007, total loans were \$3,384,276, an increase of \$177 million, or 5.5 percent over total loans of \$3,207,686 at March 31, 2007. The second quarter loan growth included \$40 million from the North Side acquisition. Total loans increased \$169 million from December 31, 2006. For the first half of 2007, commercial loans have increased \$102 million, or 5.5 percent, real estate loans increased \$30 million, or 3.7 percent, and consumer loans grew by \$38 million, or 6.7 percent. Total loans have increased \$682 million, or 25 percent, from June 30, 2006, with all loan categories showing increases. Commercial loans grew the most with an increase of

23

\$465 million, or 31 percent, followed by real estate loans which increased \$122 million, or 18 percent, and consumer loans, which are primarily comprised of home equity loans, increasing by \$95 million, or 18 percent.

Investment securities, including interest bearing deposits in other financial institutions and federal funds sold, have increased \$11 million from December 31, 2006, or 1.32 percent, and have declined \$35 million, or 3.91 percent, from June 30, 2006. The investment portfolio of North Side was sold immediately after the acquisition was completed with the sale proceeds invested in higher yielding loans. Investment securities at June 30, 2007 represented 19% of total assets versus 23% the prior year.

The Company typically sells a majority of long-term mortgage loans originated, retaining servicing only on loans sold to certain lenders. The sale of loans in the secondary mortgage market reduces the Company's risk of holding long-term, fixed rate loans in the loan portfolio. Mortgage loans sold for the six months ended June 30, 2007 and 2006 were \$310 million and \$210 million, respectively, and for the three months ended June 30, 2007 and 2006 were \$168 million and \$120 million, respectively. The Company has also been active in generating commercial SBA loans. A portion of some of those loans is sold to other investors. The amount of loans sold and serviced for others at June 30, 2007 was approximately \$170 million.

Non-interest bearing deposits decreased \$9 million, or 1.04 percent, since December 31, 2006. However, non-interest bearing deposits increased by \$32 million, or 4.10 percent, since March 31, 2007, and increased by \$100 million, or 14 percent, since June 30, 2006. Increasing non-interest bearing deposits continues to be a primary focus of each of the banks. Interest bearing deposits increased \$156 million from December 31, 2006, with \$123 million of such growth occurring in the second quarter, and the primary changes attributable to growth in broker originated certificates of deposits ("CD's"). The June 30, 2007 balance of interest bearing deposits includes \$227 million in broker originated CD's. Since June 30, 2006, interest bearing deposits increased \$562 million, or 28 percent, including an increase of \$57 million in CD's from broker sources. Federal Home Loan Bank ("FHLB") advances decreased \$47 million from year end and decreased \$176 million from June 30, 2006. Repurchase agreements and other borrowed funds increased \$52 million from December 31, 2006. Included in this latter category are U. S. Treasury Tax and Loan Term Auction funds. FHLB advances are \$176 million less than the June 30, 2006 balances due primarily to the above described changes in funding.

Liquidity and Capital Resources

The objective of liquidity management is to maintain cash flows adequate to meet current and future needs for credit demand, deposit withdrawals, maturing liabilities and corporate operating expenses. The principal source of the Company's cash revenues is the dividends received from the Company's banking subsidiaries. The payment of dividends is subject to government regulation, in that regulatory authorities may prohibit banks and bank holding companies from paying dividends which would constitute an unsafe or unsound banking practice. The subsidiaries' source of funds is generated by deposits, principal and interest payments on loans, sale of

loans and securities, short and long-term borrowings, and net earnings. In addition, all of the banking subsidiaries are members of the FHLB. As of June 30, 2007, the Company had \$887 million of available FHLB credit of which \$260 million was utilized. Accordingly, management of the Company has a wide range of versatility in managing the liquidity and asset/liability mix for each individual institution as well as the Company as a whole.

Lending Commitments

Edgar Filing: GLACIER BANCORP INC - Form 10-Q

In the normal course of business, there are various outstanding commitments to extend credit, such as letters of credit and un-advanced loan commitments, which are not reflected in the accompanying condensed consolidated financial statements. Management does not anticipate any material losses as a result of these transactions.

Edgar Filing: GLACIER BANCORP INC - Form 10-Q

Reserve Bank Peer Group average of .51 percent at March 31, 2007, the most recent information available. The allowance for loan losses was 438 percent of non-performing assets at June 30, 2007, down from 461 percent a year ago. The allowance, including \$6.434 million from acquisitions, has increased \$11.227 million, or 27 percent, from a year ago. The allowance of \$52.422 million, is 1.55 percent of June 30, 2007 total loans outstanding, up slightly from the 1.52 percent a year ago. The second quarter provision for loan losses expense was \$1.210 million, a decrease of \$145 thousand from the same quarter in 2006. Recovery of previously charged-off loans exceeded amounts charged-off during the quarter by \$33 thousand. Loan growth, average loan size, and credit quality considerations will determine the level of additional provision expense.

RESULTS OF OPERATIONS - THE THREE MONTHS ENDED JUNE 30, 2007 COMPARED TO THE THREE MONTHS ENDED JUNE 30, 2006.

The Company reported record net earnings of \$16.725 million for the second quarter, an increase of \$2.1 million, or 14 percent, over the \$14.666 million for the second quarter of 2006. Diluted earnings per share of \$.31 for the quarter is an increase of 3 percent over the diluted earnings per share of \$.30 for the second quarter of 2006. Net earnings for the second quarter of 2007 were reduced by \$623,000, or \$.01 per share, for share-based compensation expense. Annualized return on average assets and return on average equity for the quarter were 1.47 percent and 13.79 percent, respectively, which compares with prior year returns for the first quarter of 1.52 percent and 16.81 percent.

Net Interest Income

Net interest income for the quarter increased \$7.570 million, or 20 percent, over the same period in 2006, and increased \$2.105 million, or 5 percent, from the first quarter of 2007. Total interest income increased \$15.360 million from the prior year's quarter, or 26 percent, while total interest expense was \$7.790 million, or 35 percent higher. The increase in interest income and interest expense is primarily attributable to the volume and rate increases in interest bearing deposits. The net interest margin as a percentage of earning assets, on a tax equivalent basis, was 4.36 percent which was unchanged from the first quarter of 2007, and was 2 basis points higher than the 4.34 percent result for the second quarter of 2006.

Non-interest Income

Edgar Filing: GLACIER BANCORP INC - Form 10-Q

Fee income increased \$2.409 million, or 26 percent, over the same period last year, driven primarily by an increased number of loan and deposit accounts from internal growth and acquisitions. Gain on sale of loans increased \$938 thousand, or 34 percent, from the second quarter of last year. Loan origination activity for housing construction and purchases remains stable in the bank's markets.

Non-interest Expense

Non-interest expense increased by \$8.124 million, or 30 percent, from the same quarter of 2006. Compensation and benefit expense increased \$4.855 million, or 31 percent, which is primarily attributable to increased staffing levels, including staffing from the acquisitions of First National Bank of Morgan and CDC during 2006, new branches, as well as increased compensation, including commissions tied to increased production, and benefits, including health insurance, and overtime associated with the merger and operating systems conversions in the second quarter of 2007. The number of full-time-equivalent employees has increased from 1,147 to 1,469, a 28 percent increase, since June 30, 2006. Occupancy and equipment expense increased \$1.381 million, or 40 percent, reflecting the bank acquisitions, cost of additional branch locations and facility upgrades. Other expenses increased \$1.477 million, or 22 percent, primarily from acquisitions, data conversions, additional marketing expenses, and costs associated with new branch offices. The efficiency ratio (non-interest expense/net interest income plus non-interest income) was 57 percent for the 2007 second quarter, up from 53 percent for the 2006 second quarter.

RESULTS OF OPERATIONS - THE SIX MONTHS ENDED JUNE 30, 2007 COMPARED TO THE SIX MONTHS ENDED JUNE 30, 2006.

Record net earnings of \$32,818 million for the first half of 2007 is an increase of \$4.523 million, or 16 percent over the first half of the prior year. Diluted earnings per share of \$0.61 versus \$0.57 for the same period last year is an increase of 7 percent. Included in net earnings for the first half of 2007 is a \$1.0 million gain (pre-tax gain of \$1.6 million) from the January 19, 2007 sale of Western Security Bank's Lewistown branch, a requirement imposed by bank regulators to complete the acquisition of Citizens Development Company ("CDC"). Also, included in the first half earnings is approximately \$500,000 of non-recurring expenses and costs associated with the January 26, 2007 merger of three of the five CDC subsidiaries into Company subsidiaries.

Compensation and benefit expense increased \$9.050 million, or 29 percent, which is primarily attributable to increased staffing levels, including staffing from the acquisitions of First National Bank of Morgan and CDC during 2006, de novo branches, increased compensation and benefits, including health insurance, and overtime associated with the merger and operating systems conversions in the first half of 2007. The first half of 2007 included approximately \$500,000 of non-recurring expenses and costs associated with the January 26, 2007 merger of three of the five CDC subsidiaries into Company subsidiaries. Occupancy and equipment expense increased

\$2.348 thousand, or 34 percent, reflecting the acquisitions, cost of additional locations and facility upgrades. Other expenses increased \$3.223 million, or 26 percent, primarily from acquisitions, additional marketing expenses, and costs associated with new branch offices. The efficiency ratio (non-interest expense/net interest income plus non-interest income) increased to 57 percent from 54 percent for the first six months of 2006.

Allowance for Loan Loss and Non-Performing Assets

The provision for loan losses expense was \$2.405 million for the first six months of 2007, a decrease of \$115 thousand, or 5 percent, from the same period in 2007. Recovery of previously charged-off loans exceeded amounts charged-off during the six months ended June 30, 2007 by \$119 thousand.

Critical Accounting Policies

Companies apply certain critical accounting policies requiring management to make subjective or complex judgments, often as a result of the need to estimate the effect of matters that are inherently uncertain. The Company considers its only critical accounting policy to be the allowance for loan losses. The allowance for loan losses is established through a provision for loan losses charged against earnings. The balance of allowance for loan loss is maintained at the amount management believes will be adequate to absorb known and inherent losses in the loan portfolio. The appropriate balance of allowance for loan losses is determined by applying estimated loss factors to the credit exposure from outstanding loans. Estimated loss factors are based on subjective measurements including management's assessment of the internal risk classifications, changes in the nature of the loan portfolio, industry concentrations and the impact of current local, regional and national economic factors on the quality of the loan portfolio. Changes in these estimates and assumptions are reasonably possible and may have a material impact on the Company's consolidated financial statements, results of operations and liquidity.

Effect of inflation and changing prices

Generally accepted accounting principles require the measurement of financial position and operating results in terms of historical dollars, without

consideration for change in relative purchasing power over time due to inflation. Virtually all assets of a financial institution are monetary in nature; therefore, interest rates generally have a more significant impact on a company's performance than does the effect of inflation.

Forward Looking Statements

This Form 10-Q includes forward looking statements, which describe management's expectations regarding future events and developments such as future operating results, growth in loans and deposits, continued success of the Company's style of banking and the strength of the local economies in which it operates. Future events are difficult to predict, and the expectations described above are necessarily subject to risk and uncertainty that may cause actual results to differ materially and adversely. In addition to discussions about risks and uncertainties set forth from time to time in the Company's public filings, factors that may cause actual results to differ materially from those contemplated by such forward looking statements include, among others, the following possibilities: (1) local, national and international economic conditions are less favorable than expected or have a more direct and pronounced effect on the Company than expected and adversely affect the company's ability to continue its internal growth at historical rates and maintain the quality of its earning assets; (2) changes in interest rates reduce interest margins more than expected and negatively affect funding sources; (3) projected business increases following strategic expansion or opening or acquiring new banks and/or branches are lower than expected; (4) costs or difficulties related to the integration of acquisitions are greater than expected; (5) competitive pressure among financial institutions increases significantly; (6) legislation or regulatory requirements or changes adversely affect the businesses in which the Company is engaged.

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURE ABOUT MARKET RISK

ITEM 4. CONTROLS AND PROCEDURES

Evaluation of Disclosure Controls and Procedures

The Company's Chief Executive Officer and Chief Financial Officer have reviewed and evaluated the effectiveness of our disclosure controls and procedures (as required by Exchange Act Rules 240.13a-15(b) and 15d-14(c)) as of the date of this quarterly report. Based on that evaluation, the Chief Executive Officer and Chief Financial Officer have concluded that the Company's current disclosure controls and procedures are effective and timely, providing them with material information relating to the Company required to be disclosed in the reports the Company files or submits under the Exchange Act.

Changes in Internal Controls

There have not been any changes in the Company's internal control over financial reporting (as such term is defined in Rules 13a-15(f) and 15d-15(f) under the Exchange Act) during the second quarter 2007, to which this report relates that have materially affected, or are reasonably likely to materially affect the Company's internal control over financial reporting.
