PROXY STATEMENT

INFORMATION CONCERNING THE SOLICITATION

We are sending you these proxy materials in connection with the solicitation by the Board of Directors of Sonoco Products Company of proxies to be used at the Annual Meeting of Shareholders (Annual Meeting) to be held on April 16, 2003, at 11:00 A.M. at The Center Theater, 212 North Fifth Street, Hartsville, South Carolina, and at any adjournment or postponement of the meeting. We, our, us, Sonoco, and the Company all refer to Sonoco Products Company. The proxy materials are first being mailed on or about March 14, 2003.

Who May Vote

You will only be entitled to vote at the Annual Meeting if our records show that you held your shares on February 21, 2003. At the close of business on February 21, 2003, a total of 96,458,612 shares of Common Stock were outstanding and entitled to vote. Each share of Common Stock has one vote.

Voting By Proxies

If your shares are held by a broker, bank or other nominee, it will send you instructions that you must follow to have your shares voted at the Annual Meeting. If you hold your shares in your own name as a record holder, you may instruct the proxy agents how to vote your shares by completing, signing, dating and mailing the proxy card in the enclosed postage-paid envelope; by dialing the toll-free telephone number shown on your proxy card (if you live in the United States or Canada); or by accessing the Web site shown on your proxy card. Of course, you can always come to the meeting and vote your shares in person.

The proxy agents will vote your shares as you instruct. If you sign and return your proxy card without giving instructions, the proxy agents will vote your shares **FOR** each person named in this Proxy Statement as a nominee for election to the Board of Directors and **FOR** ratification of the selection of PricewaterhouseCoopers LLP as the Company's independent accountants for the fiscal year ending December 31, 2003. The proxy agents will vote according to their best judgment on any other matter that properly comes before the Annual Meeting. At present, the Board of Directors does not know of any other such matters.

Table of Contents

How to Revoke Your Proxy

You may revoke your proxy at any time before it is voted. If you are a record shareholder, you may revoke your proxy in any of the following ways:

by giving notice of revocation at the Annual Meeting;

by delivering to the Secretary of the Company, 1 North Second Street, Hartsville, South Carolina, 29550 USA, written instructions revoking your proxy; or

by delivering to the Secretary an executed proxy bearing a later date.

Subsequent voting by telephone or via the Internet cancels your previous vote. If you are a shareholder of record, you may also attend the meeting and vote in person, in which case your proxy vote will not be used.

How Votes Will Be Counted

The Annual Meeting will be held if a majority of the outstanding shares of Common Stock entitled to vote (a quorum) is represented at the meeting. If you have submitted valid proxy instructions or attend the meeting in person, your shares will be counted for the purpose of determining whether there is a quorum, even if you wish to abstain from voting on some or all matters introduced. Broker non-votes also count in determining whether a quorum is present. A broker non-vote occurs when a broker, bank or nominee who holds shares for a beneficial owner attends the meeting in person or by proxy but does not vote on a particular proposal because the broker, bank or nominee does not have discretionary voting power for that proposal and has not received voting instructions from the beneficial owner.

If a quorum is present at the Annual Meeting, directors will be elected by a plurality of the votes cast by shares present and entitled to vote at the Annual Meeting. Votes that are withheld or that are not voted in the election of directors will have no effect on the outcome of election of directors. Cumulative voting is not permitted.

Ratification of the selection of PricewaterhouseCoopers LLP as independent accountants and approval of any other matter that may be brought before the meeting require that the votes cast in favor of the matter exceed the votes cast against the matter. Votes that are withheld or shares that are not voted will have no effect on the outcome of such matters.

Cost of This Proxy Solicitation

We will pay the cost of this proxy solicitation. In addition to soliciting proxies by mail, we expect that some of our officers and regular employees will solicit proxies by telephone, telefacsimile, e-mail or personal contact. None of these officers or employees will receive any additional or special compensation for doing this.

DIRECTORS COMPENSATION

Employee directors do not receive any additional compensation for serving on the Board of Directors. Until June 30, 2002, non-employee directors were paid an \$11,000 quarterly retainer fee and a \$1,000 attendance fee for special meetings. Beginning July 1, 2002, the quarterly retainer fee was increased to \$12,500.

Effective April 1, 2003, non-employee directors will begin receiving a fee of \$1,500 for all Board of Directors and all committee meetings, and Committee Chairpersons will receive an additional \$500 per committee meeting.

Directors may elect annually to defer part or all of their retainer and meeting fees. Directors can choose to have their deferrals earn interest credits at a market rate (the Merrill Lynch Ten-Year High Quality Bond Index) or be treated as if invested in equivalent units of Sonoco Common Stock (which are credited with reinvested dividend equivalents). Alternatively, directors can elect to receive stock options under the 1996 Non-Employee Directors Stock Plan (the Directors Plan) instead of receiving any part of their cash compensation. If a director chooses this alternative, he or she will receive an option to purchase four dollars worth of Sonoco Common Stock at the fair market value of the Common Stock on the date the option is granted for each one dollar of cash compensation the director chooses not to receive. During 2002, two directors received the following number of stock options instead of cash compensation: E. H. Lawton, III 7,607 shares and B. L. M. Kasriel 3,876 shares.

Under the Directors Plan, at the first regularly scheduled meeting of the Board of Directors during a calendar year, each non-employee director is granted an option to purchase 4,000 shares of Common Stock at a price equal to the fair market value as of the date the options are granted. Any person who later becomes a non-employee director also receives an option to purchase shares of Common Stock at the fair market value of the Common Stock on the date the option is granted. The number of shares for which options are granted is reduced 25% for each full quarter of the calendar year during which the person does not serve as a non-employee director. During 2002, each non-employee director, except Mr. Mullin, received an option covering 4,000 shares. Mr. Mullin joined the Board of Directors on July 17, 2002, and received an option covering 2,000 shares. Option shares are immediately vested but may not be exercised until one year after the grant date.

EXECUTIVE COMPENSATION COMMITTEE REPORT TO SHAREHOLDERS

The Executive Compensation Committee of the Board of Directors (the Committee) is responsible for setting the remuneration levels for executives of the Company. It also oversees the Company's various executive compensation plans, as well as the overall management compensation program. Additionally, the Committee reviews and plans for top management succession and reviews executive job performance. The Committee periodically evaluates the Company's executive compensation program in terms of appropriateness, including competitive positioning relative to other companies' practices. The Committee obtains independent and impartial advice from external compensation consulting firms. The Committee met five times during 2002 and had met once in 2003 as of the printing of this report.

Philosophy

The executive compensation program has been designed to attract, motivate, reward and retain senior management by providing competitive total compensation opportunities based on performance, teamwork and the creation of shareholder value. The program currently consists of salary, annual cash bonus awards, annual stock options, periodic contingent share awards, perquisites and employee benefits.

In order to determine competitive compensation levels, the Company participates in a number of surveys conducted by independent consulting firms. In these surveys, executive compensation levels are developed by looking at large numbers of similar positions across American industry and reflect adjustments based on company revenues. The Dow Jones Containers & Packaging Group Index (Index), which includes the Company, was used in the five-year shareholder return performance graph that appears on page 27. The companies in this Index are included, as available, among the companies whose survey data is used in the Company's compensation studies. From time to time, the Company contracts with independent consulting firms to perform customized compensation studies of companies in its industry group and/or of companies similar in size.

The total compensation package for executives for 2002 was generally structured to be competitive with 75th percentile total pay practices for executives of similar size corporations if challenging annual financial targets and corresponding longer term increases in shareholder value were achieved. To provide greater emphasis on the performance-based variable pay components of the package, base salary midpoints were targeted to be at the median of surveyed market rates. Incentive compensation, consisting of annual cash bonuses, annual stock option awards and periodic contingent share awards, constitutes the Company's performance-based compensation element. The levels of the combined award opportunities reflected 75th percentile competitive total annual and long-term incentive compensation opportunities for similar positions. These awards provided opportunities to motivate and reward executives for exceptional performance. If performance targets were not met, total compensation levels would fall below competitive median practice. In further support of the Company's pay-for-performance philosophy, executive perquisites were limited and provided a lower level of benefits than the market median. The benefits program for executives provided a benefit that was somewhat higher than the market median. This benefits program, in particular the retirement and life insurance plans, was designed to enhance retention of executives until normal retirement age.

The Committee has taken, and it intends to continue to take, steps necessary to assure the federal tax deductibility of compensation realized by senior executives. However, to the extent that such steps would not be practical or would not be consistent with the Committee's compensation objectives, there is the possibility that future compensation, in some circumstances, may not meet tax deductibility requirements.

Following is a discussion of elements of the executive compensation program, along with a description of the decisions and actions taken by the Committee, with regard to 2002 compensation. Also included is a specific discussion of the decisions regarding the compensation of Mr. DeLoach for performing the duties of President and Chief Executive Officer (CEO). The tables and accompanying narrative and footnotes that follow this report reflect the decisions covered by the discussions.

Salary

The Company's salary ranges and resulting salaries are based on relative valuing of the duties and responsibilities of each position. The Committee reviews the base salaries of all senior executives on an annual basis.

Merit salary increases are based on consideration of each executive's performance and position in his or her salary range. Promotional salary increases are awarded to recognize increased responsibilities and accountabilities. The Committee used these criteria to determine salary adjustments for Mr. DeLoach and for each of the executive officers, except Mr. Coker.

Mr. Coker, who remains an active member of the Board of Directors as Chairman, has elected to begin receiving his supplemental executive retirement plan (SERP) benefit for which he became eligible at his normal retirement date. Upon initiation of these payments, Mr. Coker's base salary was reduced to zero.

Annual Bonus Awards

The Company has an annual bonus plan that provides for cash incentive opportunities, based upon achievement of pre-determined annual financial performance goals, as well as attainment of key strategic and operational objectives. The purpose of this plan is to link a significant portion of executive pay to both the Company's operating performance for the year and to critical issues affecting the long-term health of the Company.

Financial performance goals were weighted from 80% to 100% of total bonus opportunity. For senior executives with corporate responsibility, 75% of the plan's financial goals were based on corporate earnings per share from ongoing operations and the remainder on revenue growth. For executives with business unit responsibility, 25% of the bonus opportunity available for financial performance was based on business unit revenue growth, and the remainder was divided between corporate earnings per share (EPS) (from 18.75% to 37.5%) and business unit profit before interest and taxes (from 56.25% to 37.5%) as appropriate for the position.

High impact personal performance objectives for 2002 were established for each officer and were weighted at 20% of salary.

Table of Contents

On February 4, 2003, the Committee reviewed and approved the 2002 annual bonus payments for executive officers. Initial bonus amounts were assigned to each executive officer (except Messrs. DeLoach, Sullivan, Holley, Bowen and Hupfer), based on the scoring of financial goal attainment and subjective evaluations of how well their strategic and operational objectives were met. In some cases, the Committee used additional discretion based on its assessment of individual performance and internal equity in the determination of final bonus amounts. Mr. DeLoach's bonus, which reflects the Committee's assessment of his contribution and efforts in 2002, is shown under the Bonus caption in the Summary Compensation Table on page 28. In determining the amount, the Committee considered the challenges associated with the position of CEO, the Company's financial performance, and his role in restructuring the management team to address problems associated with underperforming business units. The bonus awards for Messrs. Sullivan, Holley, Bowen and Hupfer were determined in the same manner as the bonus award for Mr. DeLoach. In lieu of any fixed compensation, Mr. Coker participated in a special variable-pay incentive compensation plan, based on earnings per share goals and revenue goals.

Stock Options

In 2002, the Committee granted to Mr. DeLoach, the executive officers and other key management employees options to purchase shares of Common Stock under a plan which previously had been approved by the Company's shareholders. The price of these options was set at the prevailing market price on the date the options were awarded. Accordingly, these options will be valuable to the recipients only if the market price of Company stock increases. Stock option awards for Mr. DeLoach and the other named officers are included in the Summary Compensation Table on page 28 under the caption Number of Securities Underlying Options Granted and in the Option Grants in Last Fiscal Year table on page 31.

On November 14, 2002, the Committee amended the 1991 Plan to provide for termination in 2005 of the perpetual evergreen share replenishment provisions of the plan.

Other

Effective December 31, 2002, the Committee granted awards of contingent share units to thirty-three executives, including Mr. DeLoach and five other persons named in the Summary Compensation Table. These awards, consisting of career share restricted stock shares with accelerated vesting if performance targets are met, provide corporate and business unit managers with an additional compensation opportunity that can be realized if targeted creation of shareholder value is achieved. The number of restricted shares granted was based on the Committee's judgment as to the appropriate size of an award, the individual's level within the Company and the earlier mentioned surveys of competitive compensation levels. Any shares disbursed as a part of this program will be funded from shares allocated in the 1991 Plan.

In 2002, the Company also amended the 2001 contingent share awards to exclude the impact of year-to-year change in pension expense (income), net of normal service cost measures.

The award to Mr. DeLoach reflects the Committee's recognition of his leadership in the development of a comprehensive plan for sustainable growth for the Company. The awards to the other participants also are intended to reward achievement of performance goals that will lead to above-average shareholder

returns. As described in more detail on page 29, awards will vest depending on cumulative EPS and average return on net assets employed (RONAE) for the three-year performance period. Except for death, disability or retirement other than for cause, termination of a participant s employment prior to the end of the performance period will result in forfeiture of an award. Officers are required to defer receipt of any vested shares until one year after their retirement or termination.

Awards are made in the form of contingent Company share units. The vesting of awards is tied to growth in earnings (cumulative EPS) and improved capital effectiveness (average RONAE) over a three-year period as described in the Compensation Committee's Report that begins on page 23. Both measures are exclusive of the impact of year-to-year change in pension expense (income), net of normal service cost

Table of Contents

measures. In 2002, the Company also amended the 2001 contingent share awards to exclude the impact of year-to-year change in pension expense (income), net of normal service cost measures. For two-thirds of the designated shares, threshold vesting is earned if three-year cumulative EPS is 95.32% of target, and maximum vesting is earned if three-year cumulative EPS is 105.07% or more of target. For the remaining one-third of the designated shares, three targets have been established for average RONAE, depending on the amount of capital the Company invests in acquisitions during the three-year performance period. For the RONAE targets, threshold vesting is earned if the three-year average performance is from 94.74% to 95.24% of target, and maximum vesting is earned if three-year average performance is from 104.76% to 105.26% of target. For all measures, the target shares vest when performance is 100% of target. If no stock units vest at the end of the three-year performance period, the number of threshold shares will vest after five years (December 31, 2007). Dividend equivalents with respect to such shares are automatically reinvested in additional stock units, subject to vesting conditions previously described.
