Table of Contents**SHOPSMITH, INC. AND SUBSIDIARIES****NOTES TO CONSOLIDATED FINANCIAL STATEMENTS**

- In the opinion of management, all adjustments (consisting of only normal and recurring adjustments) have been made as of September 29, 2001 and September 30, 2000 to present the financial statements fairly. However, the results of operations for the six months then ended are not necessarily indicative of results for the fiscal year. The financial statements and notes are presented as permitted by Form 10-Q, and do not contain certain information included in the annual financial statements. The financial statements accompanying this report should be read in conjunction with the financial statements and notes thereto included in the Annual Report to Shareholders for the year ended March 31, 2001.
- The provision for income taxes is as follows:

	Three Months Ended		Six Months Ended	
	September 29 2001	September 30 2000	September 29 2001	September 30 2000
Income (loss) before income taxes	\$ (225,536)	\$ 30,972	\$ (720,396)	\$ (538,156)
Provision for (recoverable) income taxes:				
Current				
Deferred	(71,000)	28,000	(235,000)	(171,000)
Change in valuation allowance	71,000	(28,000)	235,000	171,000
Net provision for (recoverable) income taxes	\$	\$	\$	\$

The Company has deferred tax assets amounting to \$1,280,000 at September 29, 2001 and March 31, 2001 which reflect the impact of temporary differences between the amount of assets and liabilities recorded for financial reporting purposes and such amounts as measured by tax laws and regulations. The Company believes that it is more likely than not that these assets are realizable and represent its best estimate based on the available evidence as prescribed in SFAS 109. For the current year through September 29, 2001 the Company has established a \$235,000 valuation allowance against its provision for recoverable income taxes because of the uncertainty of realizing its benefit.

- Basic loss per share is computed by dividing net loss by the weighted average number of common shares outstanding during the period. Diluted loss per share reflects per share amounts that would have resulted if stock options had been converted into common stock. The following reconciles amounts reported in the financial statements:

	Three Months Ended		Six Months Ended	
	September 29 2001	September 30 2000	September 29 2001	September 30 2000

Diluted income (loss) per share	\$ (0.09)	\$ 0.01	\$ (0.28)	\$ (0.21)

There were no additional dilutive shares included in the computation at September 29, 2001 and September 30, 2000 because the stock options were anti-dilutive.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

Results of Operations

Second quarter sales declined to \$3,289,000 or 17.8% from \$4,001,000 generated a year ago. This decrease in volume is primarily in our demonstration sales channel.

Gross margin rates decreased by two tenths of a percentage point compared to last year. Operating expenses were reduced to \$1,900,000 in the current fiscal year from \$2,050,000 last year.

Provisions for recoverable Federal income taxes (\$0 in FY2002 and FY 2001) are based on estimated annual effective rates, less a valuation reserve.

A net loss of \$226,000 or \$.09 per diluted share was experienced in the quarter ended September 29, 2001 compared to a restated net income of \$31,000 or \$.01 per diluted share for the same period of last year.

Liquidity and Financial Position

Cash used in operations totaled \$591,000 in the current year compared with \$931,000 for the preceding year. Net losses of \$720,000 were the main reasons for the cash usage in the current quarter.

Shopsmith has concluded arrangements with Lowe's to do Mark V sales demonstration events within Lowe's stores. This venture (which started at the end of October) will result in additional cash requirements for both receivables and for startup costs.

Our bank, Huntington National has informed Shopsmith that it is terminating our relationship on January 31, 2002. The Huntington National line of credit agreement includes among other financial covenants, a minimum net worth requirement of \$3,100,000 through December 31, 2001 and \$3,200,000 thereafter. Shopsmith was not in compliance with the minimum net worth covenant at September 29, 2001. Huntington National has modified the minimum net worth covenant of the agreement to \$2,838,583 until November 21, 2001, at which time it is anticipated that Shopsmith will not be in compliance and will have failed to satisfy the conditions applicable to drawing under the Company's line of credit. The Company plans to replace the Huntington National line of credit agreement with an arrangement to borrow up to \$500,000 from John Folkerth, the Company's CEO.

The Company's assets include \$1,280,000 of deferred income tax assets at September 29, 2001. Presently, the Company believes that these assets are realizable and represent management's best estimate based on the weight of available evidence as prescribed in SFAS 109. If the Company is unable to generate sufficient operating income in the future, a valuation allowance will have to be established by means of a charge against operating results.

The current ratio was 1.82 to 1 at September 29, 2001 compared to 2.00 to 1 at the beginning of the current fiscal year. The debt to equity ratio increased to 1.53 to 1 from 1.32 to 1 at March 31, 2001.

The company has now experienced losses in the last three fiscal years as well as the year to date in the current year. Continuation of operating losses will negatively affect the Company's liquidity as a result of negative cash flow caused by the losses.

Forward Looking Statements

The foregoing discussion and the Company's consolidated financial statements contain certain forward-looking statements that involve risks and uncertainties, including but not limited to the following: (a) the adequacy of operating cash flows together with currently available working capital to finance the operating needs of the Company and (b) generation of future taxable income to utilize existing deferred tax assets.
