NET SAVINGS LINK, INC.  
(A Development Stage Company)  
Notes to the Consolidated Unaudited Financial Statements

1. Nature of Operations and Continuance of Business

The unaudited interim consolidated financial statements included herein have been prepared by Net Savings Link, Inc. (“we”, “our” or the “Company”) in accordance with accounting principles generally accepted in the United States of America and the rules of the Securities and Exchange Commission. We suggest that these interim financial statements be read in conjunction with the audited financial statements and notes thereto included in our Form 10-K for the year ended November 30, 2010, as filed with the SEC. We believe that all adjustments, consisting of normal recurring adjustments, necessary for a fair presentation of financial position and the results of operations for the interim periods presented have been reflected herein and that the disclosures made are adequate to make the information not misleading. The results of operations for interim periods are not necessarily indicative of the results to be expected for the full year. Notes to the financial statements which would substantially duplicate the disclosure contained in the audited financial statements for the most recent fiscal year as reported in Form 10-K have been omitted.

2. Going Concern

These consolidated financial statements have been prepared on a going concern basis, which implies that the Company will continue to realize its assets and discharge its liabilities in the normal course of business. During the period from inception through August 31, 2011, the Company has generated limited revenue and has an accumulated deficit of \$2,227,314. The continuation of the Company as a going concern is dependent upon the continued financial support from its management, and its ability to identify future investment opportunities and obtain the necessary debt or equity financing, and generating profitable operations from the Company’s future operations. These factors raise substantial doubt regarding the Company’s ability to continue as a going concern. These financial statements do not include any adjustments to the recoverability and classification of recorded asset amounts and classification of liabilities that might be necessary should the Company be unable to continue as a going concern.

3. Related Party Transactions

As of August 31, 2011, the Company owes \$15,975 to the President and CEO of the Company for back due wages.

As of August 31, 2011, the Company owes \$145,118 to the Vice President and director of the Company for back due wages.

As of August 31, 2011, the Company owes \$400 to an employee of the Company for back due wages.

4. Convertible Promissory Notes Payable

During the period ended August 31, 2011, the Company issued four Unsecured Convertible Promissory Notes (the “Convertible Promissory Notes”) to the same entity in increments of \$100,000, \$499,952, \$249,980 and \$100,000, or a total of \$949,932. The Convertible Promissory Notes were unsecured, due two years from the date of issuance, accrued interest at 10% per annum and were convertible into shares of the Company’s common stock at any time at the option of the holder at fifty percent (50%) of the fair market value of one share of the Company’s common stock based on the lowest bid during the ten days prior to the conversion date.

Due to their being no explicit limit to the number of shares to be delivered upon settlement of the above conversion options embedded in the Convertible Promissory Notes, the conversion options are deemed and classified as

derivative liabilities and recorded at fair value.

NET SAVINGS LINK, INC.  
(A Development Stage Company)  
Notes to the Consolidated Unaudited Financial Statements

## 4. Convertible Promissory Notes Payable (Continued)

A summary of changes in Convertible Promissory Notes payable for the period ended August 31, 2011 is as follows:

Beginning balance	\$	-
Gross proceeds from the notes payable		949,932
Less: debt discount from conversion options		(949,932)
Add: amortization of discount		949,932
Less: conversions to common stock		(949,932)
 Total notes payable	 \$	 -

During the nine month ended August 31, 2011, the holders of the Notes elected to convert all of the outstanding principal of \$949,932 and interest of \$31,032 on the Notes into 13,079,513 shares of common stock, or \$0.075 per share. As the conversion price was greater than the contractually obligated conversion price of \$0.0255 per share, the Company recorded a gain on extinguishment of debt and an offsetting reduction in paid-in capital. Under the original terms, the note was convertible into 38,469,166 shares. As part of the settlement, the note was converted into only 13,079,513 shares. The gain on the settlement resulted from the fair value of the 25,389,643 shares not issued under the original loan terms calculated at the conversion date fair market value of \$0.12 per share, or \$3,072,147.

## 5. Derivative Liabilities

The Company analyzed the conversion options embedded in the Convertible Promissory Notes for derivative accounting consideration under Accounting Series Codification 815, Derivatives and Hedging, and determined that the instruments embedded in the Convertible Promissory Notes should be classified as liabilities and recorded at fair value due to their being no explicit limit to the number of shares to be delivered upon settlement of the conversion options. Additionally, the Convertible Promissory Notes contain dilutive issuance clauses. Under these clauses, based on future issuances of the Company's common stock or other convertible instruments, the conversion price of the Convertible Promissory Notes can be adjusted downward. Because the number of shares to be issued upon settlement of the Convertible Promissory Notes cannot be determined under this instrument, the Company cannot determine whether it will have sufficient authorized shares at a given date to settle any other future share instruments.

The fair values of the three instruments were determined using a Black-Scholes option-pricing model. Upon the issuance dates of the Convertible Promissory Notes, \$949,932 was recorded as debt discount and \$2,548,259 was recorded as day one loss on derivative liability. During August 2011, the related convertible notes were converted to common stock and the derivative liability was extinguished through a charge to paid-in capital. During the nine months ended August 31, 2011, the Company recognized a net loss on mark-to-market of the conversion options of \$3,704,814 as a result of the fair value of the options upon extinguishment being greater than their day one loss fair value.

The Company valued the conversion options derivatives using the Black-Scholes option-pricing model. Assumptions used include (1) risk-free interest rates between 0.07% to 0.73%, (2) lives of between 1.75 and 2.0 years, (3) expected volatility of between 628% to 688%, (4) zero expected dividends, (5) conversion prices as set forth in the Convertible Promissory notes, and (6) the common stock price of the underlying share on the valuation date.

#### 7. Intangible Assets - Website Development Costs

Balance Sheet

As at August 31, 2011, the Company had total assets of \$592,650 compared with total assets of \$61,366 as at November 30, 2010. The assets are comprised of cash balances in the Company's bank account and website development costs. The increases are attributed to proceeds from financing received during the period.

The Company had total liabilities of \$171,669 at August 31, 2011 compared with \$178,476 as at November 30, 2010. The decrease in total liabilities is mainly attributed to a reduction in accounts payable, partially offset by an increase in amounts due to related parties for wages.

Operating Revenues

Edgar Filing: Net Savings Link, Inc. - Form 10-Q

During the three and nine months ended August 31, 2011, the Company received \$840 and \$1,242 in commissions revenue, respectively, compared to no revenue in the same periods ended August 31, 2010.

-9-

---

### Operating Expenses

During the three months ended August 31, 2011, the Company incurred operating expenses totaling \$197,388 compared with \$111,298 for the three months ended August 31, 2010. The increase in operating expenses is attributed to an increase in overall operating activity as the Company had minimal operations during the same period in fiscal 2010.

During the nine months ended August 31, 2011, the Company incurred operating expenses totaling \$420,016 compared with \$135,169 for the nine months ended August 31, 2010. The increase in operating expenses is attributed to an increase in overall operating activity as the Company had minimal operations during the same period in fiscal 2010.

### Net Loss

During the three months ended August 31, 2011, the Company realized net loss of \$315,303 compared with a net loss of \$111,298 for the three months ended August 31, 2010. The increase in net loss was primarily due to a \$2,293,086 loss on mark-to-market of derivatives during the three months ended August 31, 2011 and an increase in operational costs as a result of commencement of sales operations during the current fiscal year whereas, in the prior year, the Company only had minimal activity, partially offset by a gain on extinguishment of debt related to conversion of debt on favorable terms of \$3,072,147.

During the nine months ended August 31, 2011, the Company incurred a net loss of \$2,032,472 compared with a net loss of \$135,169 for the nine months ended August 31, 2010. The increase in net loss was primarily due to the recognition of \$3,704,814 in loss on mark-to-market of derivatives and the Company's commencement of sales operations during the current fiscal year, partially offset by a \$3,072,147 gain on extinguishment of debt related to conversion of debt on favorable terms.

### Liquidity and Capital Resources

As at August 31, 2011, the Company had a cash balance of \$473,631 and working capital of \$310,898 compared with a cash balance of \$21,366 and a working capital deficit of \$157,110 at November 30, 2010. The increase in working capital is mainly due to the receipt of \$949,932 in cash in exchange for four convertible promissory notes payable during the nine months ended August 31, 2011.

### Cash Flows from Operating Activities

During the nine months ended August 31, 2011, the Company used \$421,430 of cash flow from operating activities compared with use of \$84,736 of cash flow during the nine months ended August 31, 2010. The increase in the use of cash flow for operating activities reflect the increase in operating activity for the period as the Company has raised additional financing in order to finance the repayment of existing and future obligations.

### Cash Flows from Investing Activity

During the nine months ended August 31, 2011, the Company used \$76,237 in the purchase of office equipment and development of its website. The Company did not have any investing activities during the same period in 2010.

### Cash Flows from Financing Activities

Edgar Filing: Net Savings Link, Inc. - Form 10-Q

During the nine months ended August 31, 2011, the Company received proceeds of \$949,932 from four convertible promissory notes payable, which were unsecured, convertible into the common stock of the Company, due interest at 10% per annum, and due two years from the dates of issuance. During the nine months ended August 31, 2010, the Company received \$82,428 from the issuance of a note payable.

### Going Concern

We have not attained profitable operations and are dependent upon obtaining financing to pursue any extensive acquisitions and activities. For these reasons, our auditors stated in their report on our audited financial statements that they have substantial doubt that we will be able to continue as a going concern without further financing.

### Off-Balance Sheet Arrangements

We have no significant off-balance sheet arrangements that have or are reasonably likely to have a current or future effect on our financial condition, changes in financial condition, revenues or expenses, results of operations, liquidity, capital expenditures or capital resources that are material to stockholders.

### Future Financings

We will continue to rely on equity sales of our common shares in order to continue to fund our business operations. Issuances of additional shares will result in dilution to existing stockholders. There is no assurance that we will achieve any additional sales of the equity securities or arrange for debt or other financing to fund planned acquisitions and exploration activities.

## ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK.

We are a smaller reporting company as defined by Rule 12b-2 of the Securities Exchange Act of 1934 and are not required to provide the information under this item.

## ITEM 4. CONTROLS AND PROCEDURES.

Under the supervision and with the participation of our management, including the Principal Executive Officer and Principal Financial Officer, we have evaluated the effectiveness of our disclosure controls and procedures as required by Exchange Act Rule 13a-15(b) as of the end of the period covered by this report. Based on that evaluation, the Principal Executive Officer and Principal Financial Officer have concluded that these disclosure controls and procedures are not effective because procedures were not in place to provide for timely, complete, accurate reporting of events. The foregoing was a result of our president's lack of experience with his reporting and disclosure obligations. Our president is committed to educating himself through the seminars and consulting with attorneys to become fully knowledgeable with his obligations. In addition, currently there are no written policies or procedures that clearly define the roles in the disclosure and reporting process.

There were no changes in our internal control over financial reporting during the quarter ended May 31, 2011 that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

## PART II - OTHER INFORMATION
