EXPLANATORY NOTE

Edgar Filing: ISLAND PACIFIC INC - Form 10-Q/A

This quarterly report on Form 10-Q/A is an amendment to the Form 10-Q filed by the Company on August 12, 2004 for the quarter ended June 30, 2004.

This quarterly report on Form 10-Q/A is being filed to reflect the restatement of the Company's Condensed Consolidated Financial Statements (the "Restatement"). The Restatement reflects the following:

1. Revised balance sheets due to restatements in prior periods,
2. Adjust royalty expense for the quarter,
3. Capitalize beneficial conversion interest charge on the March '04 Debentures and amortize over the life of the debt,
4. Capitalize legal fees incurred in connection with the acquisition of RTI,
5. Record fair value of RTI's stock options assumed at acquisition,
6. Reclassify amortization of software technology to cost of revenues,
7. Reverse amortization of a purchased software which was reversed in the prior periods, and
8. Separately present revenue earned from product and services revenues and related cost of revenue.

The Company will not file an amended Form 10-K/A for the year ended March 31, 2003 due to the immateriality of adjustments. However, certain disclosures that relate to and appear in Form 10-K/A for the year ended March 31, 2003 have been updated in the restated filings.

THIS REPORT DOES NOT OTHERWISE ATTEMPT TO UPDATE THE INFORMATION PROVIDED HEREIN BEYOND THE ORIGINAL FILING DATE.

ISLAND PACIFIC, INC. AND SUBSIDIARIES
NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

NOTE 1 - ORGANIZATION AND BASIS OF PREPARATION

The accompanying unaudited condensed consolidated financial statements have been prepared in accordance with generally accepted accounting principles applicable to interim financial statements. Accordingly, they do not include all of the information and notes required for complete financial statements. In the opinion of management, all adjustments necessary to present fairly the financial position, results of operations and cash flows at June 30, 2004 and for all the periods presented have been made.

Certain amounts in the prior periods have been reclassified to conform to the presentation for the three months ended June 30, 2004. The financial information included in this quarterly report should be read in conjunction with the consolidated financial statements and related notes thereto in our Form 10-K/A for the year ended March 31, 2004.

The results of operations for the three months ended June 30, 2004 and 2003 are not necessarily indicative of the results to be expected for the full year.

NOTE 2 - ACQUISITIONS (RESTATED)

PAGE DIGITAL INCORPORATED (RESTATED)

Effective January 30, 2004, we acquired all of the issued and outstanding shares of Page Digital Incorporated ("Page Digital"), a Colorado-based developer of

Edgar Filing: ISLAND PACIFIC INC - Form 10-Q/A

multi-channel commerce software, through a merger with our newly-formed wholly-owned subsidiary. The purchase price for the acquisition was \$7.1 million, consisting of \$2.0 million in cash, 2.5 million shares of our common stock valued at \$2.00 per share and \$138,000 in acquisition costs. Upon the consummation of this transaction, we entered into two-year employment agreements for executive officer positions with two of the principals of Page Digital and a two-year non-compete agreement with one of the two principals of Page Digital.

The following restated unaudited pro forma consolidated results of continuing operations for the three months ended June 30, 2003 assume the acquisition of Page Digital occurred as of April 1, 2003. The pro forma results are not necessarily indicative of the actual results that would have occurred had the acquisitions been completed as of the beginning of the period presented, nor are they necessarily indicative of future consolidated results.

RETAIL TECHNOLOGIES INTERNATIONAL, INC. (RESTATED)

Pursuant to an agreement dated June 1, 2004, we acquired Retail Technologies International, Inc. ("RTI") from Michael Tomczak, Jeffrey Boone and Intuit Inc. ("Intuit") in a merger transaction. On March 12, 2004, we, RTI, IPI Merger Sub, Inc., ("Merger Sub") and Michael Tomczak and Jeffrey Boone (the "Shareholders") entered the initial Agreement of Merger and Plan of Reorganization (the "March 12, 2004 Merger Agreement") which provided we would acquire RTI in a merger transaction in which RTI would merge with and into Merger Sub. The merger consideration contemplated by the March 12, 2004 Merger Agreement was a combination of cash and shares of our common stock. The March 12, 2004 Merger Agreement was amended by the Amended and Restated Agreement of Merger and Plan of Reorganization, dated June 1, 2004, by and between us, RTI, Merger Sub, IPI Merger Sub II, Inc. ("Merger Sub II") and the Shareholders (the "Amended Merger Agreement").

Pursuant to the Amended Merger Agreement, the Merger (as defined below) was completed with the following terms: (i) we assumed RTI's obligations under those certain promissory notes issued by RTI on December 20, 2002 with an aggregate principal balance of \$2.3 million; (ii) the total consideration paid at the closing of the Merger was \$11.6 million paid in shares of our common stock with fair value of \$1.2 million, newly designated Series B convertible preferred stock ("Series B Preferred") with fair value of \$5.7 million, acquisition costs of \$110,000, assumption of RTI's incentive stock option plan valued at \$1.0

Edgar Filing: ISLAND PACIFIC INC - Form 10-Q/A

million and promissory notes totaling \$3.6 million; (iii) the Shareholders and Intuit are entitled to price protection payable if and to the extent that the average trading price of our common stock is less than \$0.76 at the time the shares of our common stock issued in the Merger and issuable upon conversion of the Series B Preferred are registered pursuant to the registration rights agreement dated June 1, 2004 between us, the Shareholders and Intuit (the "Registration Rights Agreement"); and (iv) the merger consisted of two steps (the "Merger"), first, Merger Sub merged with and into RTI, Merger Sub's separate corporate existence ceased and RTI continued as the surviving corporation (the "Reverse Merger"), immediately thereafter, RTI merged with and into Merger Sub II, RTI's separate corporate existence ceased and Merger Sub II continued as the surviving corporation (the "Second-Step Merger").

As a result of the Merger, each Shareholder received 1,258,616 shares of Series B Preferred and a promissory note payable monthly over two years in the principal amount of \$1,295,000 bearing interest at 6.5% per annum. As a result of the Merger, Intuit, the holder of all of the outstanding shares of RTI's Series A Preferred stock, received 1,546,733 shares of our common stock and a promissory note payable monthly over two years in the principal amount of \$530,700 bearing interest at 6.5% per annum.

The Shareholders and Intuit were also granted registration rights. Under the Registration Rights Agreement, we agreed to register the common stock issuable upon conversion of the Series B Preferred issued to the Shareholders within 30 days of the automatic conversion of the Series B Preferred into common stock. The automatic conversion will occur upon us filing an amendment to our certificate of incorporation with the Delaware Secretary of State increasing the authorized number of shares of our common stock ("Certificate of Amendment") after securing shareholder approval for the Certificate of Amendment. Under the Registration Rights Agreement, Intuit is entitled to demand registration or to have its shares included on any registration statement filed prior the registration statement covering the Shareholders' shares, subject to certain conditions and limitations, or if not previously registered to have its shares included on the registration statement registering the Shareholders' shares. The Shareholders and Intuit are entitled to price protection payments of up to a maximum of \$0.23 per share payable by promissory note, if and to the extent that the average closing price of our common stock for the 10 days immediately preceding the date the registration statement covering their shares is declared effective by the Securities and Exchange Commission, is less than the 10 day average closing price as of June 1, 2004, which was \$0.76. We have not recorded the liability relating to the price protection at the date of acquisition as the contingency is based on future events and cannot yet be determined. We will compute the total liability as soon as it can be determined and record it as a liability. The total cost of the price protection contingency will be deferred and amortized over the shortest of the remaining useful lives of the assets acquired in the acquisition in accordance with SFAS 141, "Business Combinations".

Pursuant to the Amended Merger Agreement, The Sage Group, plc as well as certain officers and directors signed voting agreements that provide they will not dispose of or transfer their shares of our capital stock and that they will vote their shares of our capital stock in favor of the Certificate of Amendment and the Amended Merger Agreement and transactions contemplated therein.

Upon the consummation of the Merger, Michael Tomczak, RTI's former President and Chief Executive Officer, was appointed our President, Chief Operating Officer and director and Jeffrey Boone, RTI's former Chief Technology Officer, was appointed our Chief Technology Officer. We entered into two-year employment agreements and non-competition agreements with Mr. Tomczak and Mr. Boone.

We entered into an employment agreement with Michael Tomczak on June 1, 2004. The term of the agreement is two years. Under the agreement, Mr. Tomczak is entitled to \$360,000 in annual compensation. He also received an option to purchase 1,772,354 shares of our common stock. Mr. Tomczak's right to purchase 886,178 of the shares subject to the option shall vest at the first anniversary date of this agreement, thereafter, the remaining option shall vest at the rate of 73,848 shares per month during the second year of this agreement. If Mr.

Tomczak's employment with us is terminated without cause during the term of the agreement, he will receive severance in the amount of the lesser of \$360,000 or the balance of compensation payable over the remaining term of the agreement, but in no event should the amount be less than \$180,000. We also entered into non-competition agreement with Mr. Tomczak, pursuant to which Mr. Tomczak agreed not to engage in any business or activity that in any way competes with us for a period of two years after the termination of his employment with us.

We entered into an employment agreement with Jeffrey Boone on June 1, 2004. The term of the agreement is two years. Under the agreement, Mr. Boone is entitled to \$240,000 in annual compensation. He also received an option to purchase 1,572,354 shares of our common stock. Mr. Boone's right to purchase 786,179 of the shares subject to the option shall vest at the first anniversary date of this agreement, thereafter, the remaining option shall vest at the rate of 65,514 shares per month during the second year of this agreement. If Mr. Boone's employment with us is terminated without cause during the term of the agreement, he will receive severance in the amount of the lesser of \$240,000 or the balance of his compensation payable over the remaining term of the agreement, but in no event should the amount be less than \$120,000. We also entered into non-competition agreement with Mr. Boone, pursuant to which Mr. Boone agreed not to engage in any business or activity that in any way competes with us for a period of two years after the termination of his employment with us.

The acquisition has been accounted for as a purchase. The results of the operations of RTI have been included in the consolidated financial statements since the date of the acquisition. The excess of purchase price over the fair values of net assets acquired was approximately \$11.3 million and has been recorded as goodwill. The fair value of assets acquired and liabilities assumed were as follows (in thousands) (restated):

NOTE 3 - NOTE RECEIVABLE

Effective April 1, 2003, we sold our wholly-owned subsidiary, SVI Training Products, Inc. ("Training Products"), to its former president, for the sale price of \$180,000 plus earn-out payments equal to 20% of the total gross revenues of Training Products in each of its next two fiscal years, to the extent the revenues in each of those years exceed certain targets. We received a promissory note for the amount of \$180,000 and the earn-out payments, if any, will be made in quarterly installments following each fiscal year, bearing an annual interest rate of 5%. We agreed to postpone the payments due January 2004 and April 2004 until April 2008. The note has a balance of \$153,000 and \$162,000 at June 30, 2004 and March 31, 2004, respectively, of which \$36,000 is current.

During the quarter ended June 30, 2004, we recorded approximately \$11.3 million goodwill, \$1.4 million software, \$1.7 million customer relationships, \$800,000 trademark and \$29,000 non-compete agreement in connection with the acquisition of RTI. Software and customer relationships are amortized on a straight-line basis over their useful lives, seven and ten years, respectively. The goodwill and the trademark have indefinite useful lives and are not subject to amortization. The non-compete agreement will be amortized its remaining useful life of seven months.

Transactions in goodwill during three months ended June 30, 2004 and fiscal year ended March 31, 2004 are as follows (in thousands):

NOTES PAYABLE TO RELATED PARTIES

In connection with the RTI acquisition, we issued promissory notes to RTI's two principal officers totaling \$2,585,000, payable in installments totaling \$20,000 per month for the period of June 1, 2004 through May 1, 2005 and increasing to \$200,000 per month from June 1, 2005 through June 1, 2006, at 6.5% interest per annum. The notes have a balance of \$2,585,000 as of June 30, 2004, of which \$451,000 is current. There were no notes payable due to related parties at March 31, 2004.

	=====	=====

In March 2004, we entered into a Securities Purchase Agreement for the sale of convertible debentures (the "March '04 Debentures") to two investors (the "Purchasers") for the total gross proceeds of \$3.0 million. The debentures mature in May 2006, bear an interest rate of 9% per annum and provide for interest only payments on a quarterly basis, payable, at our option, in cash or shares of our common stock. The debentures are convertible into shares of our common stock at a conversion price of \$1.32 per share, subject to adjustment if we offer or sell any securities for an effective per share price that is less than 87% of the then current conversion price, negatively restate any of our financial statement or make any public disclosure that negatively revises or supplements any prior disclosure regarding a material transaction consummated prior to March 15, 2004 or trigger other customary anti-dilution protections. If certain conditions are met, we have the option to redeem the March '04 Debentures at 110% of their face value, plus accrued but unpaid interest.

We must redeem the debentures at the initial monthly amount of \$233,333 commencing on February 1, 2005. If the daily volume weighted average price of our common stock on the American Stock Exchange exceeds \$1.15 by more than 200% for 15 consecutive trading days, we have the option to cause the Purchasers to convert the then outstanding principal amount of March '04 debentures into our common stock at the conversion price then in effect.

We also issued the Purchasers two warrants as follows: (1) Series A Warrants to purchase up to an aggregate of 1,043,479 shares of our common stock at an exercise price of \$1.15 per share with a five-year term, exercisable at anytime after September 16, 2004, subject to adjustment if we offer or sell any securities for an effective per share price that is less than the then current exercise price, negatively restate any of our financial statements or make any public disclosure that negatively revises or supplements any prior disclosure regarding a material transaction consummated prior to March 15, 2004 or trigger other customary anti-dilution protections and (2) Series B Warrants to purchase up to 8,500,000 shares of our common stock with an exercise price of \$5 per share, these warrants are immediately exercisable and expire on the earlier of the six-month anniversary of the effective date of the registration statement that is required to be filed or 18 months from March 15, 2004, subject to adjustment upon the issuance or sale of securities in a public offering for an effective per share price that is less than the then-current exercise price and upon the trigger of other customary anti-dilution protections.

For a period of one hundred eighty (180) days following the date the registration statement is declared effective ("Effective Date"), each Purchaser has the right, in its sole discretion, to elect to purchase such Purchaser's pro rata portion of additional Debentures and Series A Warrants for an aggregate purchase price of up to \$2,000,000 in a second closing (the "Second Closing"). The terms of the Second Closing shall be identical to the terms set forth in the Purchase Agreement and related documents, except that, the conversion price for the additional debentures and the exercise price for the additional warrants shall be equal to 115% of the average of the daily volume weighted average price of our common stock on the American Stock Exchange for the ten (10) days preceding the Second Closing ("Second Closing Price"). The Series A Warrant coverage for the Second Closing shall be 40% of each Purchaser's subscription amount divided by the Second Closing Price.

For a period of one hundred eighty (180) days following the Effective Date, if the daily volume weighted average price of our common stock for twenty (20) consecutive trading days exceeds \$2.00, subject to adjustment, we may, on one occasion, in our sole determination, require the Purchasers to purchase each such Purchaser's pro rata portion of additional debentures and Series A Warrants for an aggregate purchase price of up to \$2,000,000. Any such additional investment shall be under the terms set forth in the Purchase Agreement and related documents, except that, the conversion price for the additional Debentures and the exercise price for the additional warrants shall be equal to the then current conversion price and warrant exercise price for the 9% Debentures and warrants purchased on March 15, 2004.

For a period of six (6) months from the Effective Date, the Purchasers have a right of first refusal to participate in certain future financings by us involving the sale of our common stock or equivalent securities. The Purchasers were also granted registration rights under a Registration Rights Agreement dated March 15, 2004, pursuant to which we were required to file a registration

Edgar Filing: ISLAND PACIFIC INC - Form 10-Q/A

statement respecting the common stock issuable upon the conversion of the debentures and exercise of the warrants within thirty (30) days after March 15, 2004, and to use best efforts to have the registration statement declared effective at the earliest date. If a registration statement was not filed within such thirty (30) day period or declared effective within such ninety (90) day period (or within one hundred twenty (120) days in the event of a full review by the SEC), we became obligated to pay liquidated damages to the Purchasers equal to 2% per month of each such Purchasers' subscription amount under the Purchase Agreement plus the value of any warrants issued pursuant to the Purchase Agreement then held by such Purchaser. The registration statement has not been filed as of the date of this report, June 30, 2004; therefore, liquidated damages in the amounts of \$81,000 and \$120,000 have been recorded in the quarters ended June 30, 2004 and March 31, 2004, respectively.

In accordance with generally accepted accounting principles, the difference between the conversion price of \$1.32 and our stock price of the date of issuance of the debentures amounted to \$265,000 and is being amortized over the term of the debentures. We recognized a beneficial interest expense of \$31,000 in the quarter ended June 30, 2004.

12

We have also allocated the proceeds received from convertible debt with detachable warrants using the relative fair market value of the individual elements at the time of issuance. The amount allocated to the warrants was determined to be \$720,000 and is being amortized over the term of the convertible debentures. We recorded an interest expense of \$83,000 in the quarter ended June 30, 2004.

Subsequent to June 30, 2004, we sold and issued a secured convertible term note to an unrelated investor for \$7.0 million (the "Laurus Transaction") (see Note 16). Part of the proceeds from this debt financing were used to pay off \$1.95 million due to one of the two investors (\$1.75 million balance plus \$0.2 million in accrued interest). We issued 600,000 shares of our common stock to the remaining investor which we valued at \$240,000 to pay liquidated damages and secure such investor's consent to the Laurus Transaction. We also amended the remaining investor's debenture in exchange for the remaining investors consent for the Laurus Transaction. Pursuant to Amendment No. 1 to the 9% Debenture Due May 15, 2006 Issued to Midsummer Investments, Ltd. And Waiver, the terms of the remaining debenture were amended as follows:

- o Prepayment penalty is eliminated,
- o Conversion price is reduced to \$0.56 per share,
- o Interest payments are due on a monthly basis, and
- o The commencement of monthly redemption payments was accelerated to September 1, 2004 and the payments due were revised such that payments of \$50,000 are due monthly from September 1, 2004 and the monthly payments increase to \$62,500 starting February 1, 2005. Monthly redemption payments are payable in cash or registered shares at a 90% of the average of the 20 days volume weighted average price

In addition, the exercise price of the Series A Warrants held by both investors was reduced to \$0.56 per share.

NOTE 7 - CAPITAL LEASES

In connection with the acquisition of Page Digital, we assumed capital lease obligations on certain office equipment and fixtures leases expiring from November 2004 through November 2006. The capital leases bear interest at rates between 7% and 11% per annum and monthly lease payments range between approximately \$1,000 to \$8,000.

In connection with the acquisition of RTI, we assumed a capital lease obligation for certain office equipment, expiring in February 2006. The capital lease bears interest at a rate of approximately 11% per annum and monthly lease payments of approximately \$600.

The balance of capital leases is \$228,000 and \$258,000 at June 30, 2004 and March 31, 2004, respectively, of which the current portion is \$176,000 and \$169,000, respectively.

NOTE 8 - LINE OF CREDIT

In connection with the acquisition of RTI, we assumed obligation under a line of credit with a balance of \$182,000 at June 30, 2004. Subsequent to June 30, 2004, the line of credit was paid off in full.

NOTE 9 - DEFERRED REVENUE (RESTATED)

NOTE 10 - PREFERRED STOCK

The Series A Convertible Preferred Stock (the "Series A Preferred") has a stated value of \$100 per share and is redeemed at our option any time prior to the maturity date of December 31, 2006 for 107% of the stated value and accrued and unpaid dividends. The preferred shares are entitled to cumulative dividends of 7.2% per annum, payable semi-annually, and have cumulative dividends of \$2.3 million, or \$16.22 per share, and \$2.0 million, or \$14.19 per share, at June 30, 2004 and March 31, 2004, respectively. The holders may convert each share of Series A Preferred at any time into the number of shares of our common stock determined by dividing the stated value plus all accrued and unpaid dividends, by a conversion price initially equal to \$0.80. The conversion price increases at an annual rate of 3.5% calculated on a semi-annual basis. The conversion

Edgar Filing: ISLAND PACIFIC INC - Form 10-Q/A

price as of July 1, 2004 is \$0.86. The Series A Preferred is entitled upon liquidation to an amount equal to its stated value plus accrued and unpaid dividends in preference to any distributions to common stockholders. The Series A Preferred has no voting rights prior to conversion into common stock, except with respect to proposed impairments of the Series A Preferred rights and preferences, or as provided by law. We have the right of first refusal to purchase all but not less than all of any shares of Series A Preferred or shares of common stock received on conversion which the holder may propose to sell to a third party, upon the same price and terms as the proposed sale to a third party.

On November 14, 2003, the Sage Group plc (the "Sage Group") acquired substantially all the assets of Softline, including Softline's 141,000 shares of our Series A Preferred, 8,923,915 shares of our common stock and options to purchase 71,812 shares of our common stock. On September 17, 2003, 500,000 shares of common stock constituting accrued dividends on our Series A Preferred were issued to various financial institutions.

The Series B Convertible Preferred Stock (the "Series B Preferred") has no stated value and is entitled to cumulative dividends at the rate of \$0.136 per share per annum, payable annually commencing on January 1, 2005. Upon our filing of an amendment to our Certificate of Incorporation ("Certificate") increasing the number of shares of common stock, we are authorized to issue, to a sufficient number of shares to permit full conversion of all Series B Preferred, each share of Series B Preferred will automatically convert into the number of shares of our common stock determined by dividing the conversion value of \$3 per share by the conversion price of \$1 per share. The Series B Preferred is entitled upon liquidation to \$2.27 per share plus unpaid dividends in preference to any distributions to common stockholders. Each holder of Series B Preferred is entitled to the number of votes equal to the number of shares of common stock into which such shares of Series B Preferred are convertible. No dividends have been declared as of June 30, 2004.

NOTE 11 - EQUITY TRANSACTIONS

During the quarter ended June 30, 2004, we have the following equity transactions:

- o Issued 1,546,733 shares of common stock, with a fair value of \$1,169,000, to Intuit in connection with the acquisition of RTI.
- o Issued an aggregate of 2,517,232 shares of Series B Convertible Preferred Stock, with a fair value of \$5,709,000 to Michael Tomczak, our director, COO and President, and Jeffrey Boone, our CTO, in connection with acquisition of RTI.
- o Granted options to purchase 1,572,364 and 1,772,364 shares of common stock at an exercise price of \$0.77 per share to Messrs. Boone and Tomczak, respectively, in accordance with their employment agreements.
- o Issued warrants to purchase an aggregate of 20,000 shares of common stock at exercise prices of \$0.75 and \$1.05 per share to a consulting firm for investor relation services rendered for a fair value of \$3,000.
- o In connection with the acquisition of RTI, we assumed RTI's incentive stock option plan and converted all outstanding options at June 1, 2004 into our options at a conversion rate of 1.5562. As a result, RTI's option holders have options to purchase an aggregate of 1,366,911 shares of our common stock at an exercise price of \$0.02 with a fair value of \$1,037,000.

Edgar Filing: ISLAND PACIFIC INC - Form 10-Q/A

- o Granted options to purchase an aggregate of 67,500 shares of common stock at exercise prices ranging from \$0.62 to \$1.17 to employees hired during the quarter ended June 30, 2004.

14

- o Granted options to purchase an aggregate of 20,000 shares of common stock at an exercise price of \$0.96 to certain outside directors of the board as directors' fees during June 30, 2004.

In December 2002, the FASB issued Statement of Financial Accounting Standards No. 148 ("SFAS 148"), "Accounting for Stock-Based Compensation-Transition and Disclosure." This Statement amends SFAS 123, "Accounting for Stock-Based Compensation," to provide alternative methods of transition for a voluntary change to the fair value based method of accounting for stock-based employee compensation. In addition, SFAS 148 amends the disclosure requirements of Statement 123 to require prominent disclosures in both annual and interim financial statements about the method of accounting for stock-based employee compensation and the effect of the method used on reported results.

The following table presents pro forma disclosures required by SFAS 123 and SFAS 148 of net income (loss) and basic and diluted earnings (loss) per share as if stock-based employee compensation had been recognized during the quarter ended June 30, 2004 and 2003. The compensation expense for these periods has been determined under the fair value method using the Black-Scholes pricing model, and assumes graded vesting.

NOTE 12 - EARNINGS (LOSS) PER SHARE (RESTATED)

Basic earnings (loss) per common share are calculated by dividing net income (loss) by the weighted average number of common shares outstanding during the reporting period. Diluted earnings per common shares ("diluted EPS") reflect the potential dilutive effect, determined by the treasury method, of additional common shares that would have been outstanding if the dilutive potential common shares had been issued. Earnings per share for the three months ended June 30,

NOTE 13 - BUSINESS SEGMENTS AND GEOGRAPHIC DATA (RESTATED)

We are a provider of software solutions and services to the retail industry. Our solutions and services have been developed specifically to meet the needs of the retail industry. We provide high value innovative solutions that help retailers understand, create, manage and fulfill consumer demand. Our

Edgar Filing: ISLAND PACIFIC INC - Form 10-Q/A

solutions help retailers improve the efficiency and effectiveness of their operations and build stronger, longer lasting relationships with their customers. We acquired Page Digital, which offers multi-channel retail solutions, on January 31, 2004 and RTI, which offers point-of-sale and inventory management solutions, on June 1, 2004.

We currently operate in the Americas and Europe. On June 1, 2004, we commenced operations in Asia. The geographic distribution of our revenues and long-lived assets are as follows (in thousands):

We structure our operations into three business units that have separate reporting infrastructures. Each unit is evaluated primarily based on total revenues and operation income. Identifiable assets are also managed by business units. Our three business units are as follows:

- o RETAIL MANAGEMENT SOLUTIONS ("RETAIL MANAGEMENT") - offers suite of applications, which builds on our long history in retail software design and development. We provide our customers with an extremely reliable, widely deployed, comprehensive and fully integrated retail management solutions. Retail Management includes merchandise management that optimizes workflow and provides the highest level of data integrity. This module supports all operational areas of the supply chain including planning, open-to-buy purchase order

Edgar Filing: ISLAND PACIFIC INC - Form 10-Q/A

management, forecasting, warehouse and store receiving distribution, transfers, price management, performance analysis and physical inventory. In addition, Retail Management includes a comprehensive set of tools for analysis and planning, replenishment and forecasting, event and promotion management, warehouse, ticketing, financials and sales audit. Through collaborations with strategic partners, Retail Management offers tools for loss prevention, communication with stores and vendors, integration needs, purchase and allocation decisions, analysis of weather impact, control and management of business processes, consumer research, tracking consumer shopping patterns, forecasting and replenishment, and analyzing store people productivity.

- o STORE SOLUTIONS - offers suites of applications built on our long history of providing multi-platform, client server in-store solutions. We market these sets of applications under the name "OnePointe,"(TM) and "Retail Pro"(R). With more than 15 years of development, OnePointe(TM) is a solution with a high degree of fit and value out of the box. Additionally, the software was designed for easy customization, enabling our development team to quickly develop solutions to meet retailers' specific point-of-sale ("POS") and in-store processor (server) requirements. Retail Pro(R) is a leading point-of-sale and inventory management software used by specialty retailers worldwide.
- o MULTI-CHANNEL RETAIL SOLUTIONS ("MULTI-CHANNEL RETAIL") - Page Digital designs its application to specifically address direct commerce business processes, which primarily relate to interactions with the end-user. Having developed its software out of necessity to manage its own former direct commerce operation, Page Digital has been extremely attentive to functionality, usability and scalability. Its software components include applications for customer relations management, order management, call centers, fulfillment, data mining and financial management. Specific activities like partial ship orders, payments with multiple tenders, back order notification, returns processing and continuum marketing, represent just a few of the more than 1,000 parameterized direct commerce activities that have been built into its "Synaro"(R) applications. Page Digital makes these components and its interfacing technology available to customers, systems integrators and independent software developers who may modify them to meet their specific needs. This growing base of inherited functionality continues to improve the market relevance of its products.

During the quarter ended June 30, 2004, the Store Solutions business unit acquired \$11.3 million goodwill in connection with the acquisition of RTI. There are no changes in goodwill of the Retail Management and Multi-channel retail business units.

NOTE 14 - COMMITMENTS AND CONTINGENCIES

Edgar Filing: ISLAND PACIFIC INC - Form 10-Q/A

We decided in the third quarter of fiscal 2002 to sell certain assets of our Australian subsidiary to the former management of such subsidiary, and then cease Australian operations. Such sale was, however, subject to the approval of National Australia Bank, the subsidiary's secured lender. The bank did not approve the sale and the subsidiary ceased operations in February 2002. The bank caused a receiver to be appointed in February 2002 to sell substantially all of the assets of the Australian subsidiary and pursue collections on any outstanding receivables. The receiver proceeded to sell substantially all of the assets for \$300,000 in May 2002 to an entity affiliated with the former management, and actively pursued the collection of receivables. If the sale proceeds plus collections on receivables had been insufficient to discharge the indebtedness to National Australia Bank, we might have been called upon to pay the deficiency under our guarantee to the bank. At March 31, 2004 we accrued

18

\$187,000 as the maximum amount of our potential exposure. In June 2004, we settled this obligation by paying \$69,000 to the bank. As a result, the \$118,000 accrual in excess of settlement amount was written off to the consolidated statement of operations as other income in the quarter ended June 30, 2004.

On May 15, 2002, an employee who was out on disability/worker's compensation leave, Debora Hintz, filed a claim with the California Labor Commissioner seeking \$41,000 in alleged unpaid commissions. On or about December of 2002, Ms. Hintz filed a discrimination claim against us with the Department of Fair Employment and Housing, alleging harassment and sexual orientation discrimination. We had responded appropriately to both the wage claim and the discrimination allegations, which we believed lack merit based on present information. On December 1, 2003, the Department of Fair Housing and Employment closed the case on the basis of no probable cause to prove violation of statute, and gave notice of right to sue. In January 2004, we terminated Ms. Hintz's employment with us and, as a result, her medical insurance was terminated. On February 12, 2004, Ms. Hintz filed a petition for violation of Labor Code Section 132(a) before the Workers' Compensation Appeals Board of the State of California.

On November 22, 2002, we and Sabica Ventures, Inc. ("Sabica", our wholly-owned subsidiary), were sued in a matter entitled *Stemley vs. Shea Homes, Inc. et. al.*, in San Diego Superior Court Case No. GIC 787680, as Pacific Cabinets. The case dealt with alleged construction defects. Pacific Cabinets was dismissed from the litigation for a waiver of fees and costs. At this time, neither we nor Pacific Cabinets are parties to this action. Because no significant discovery was done, it is not possible at this time to provide an evaluation of potential exposure, though it appears highly unlikely that Pacific Cabinets or we would be brought back into this suit.

On April 2, 2004, we filed a federal court action in the Southern District of California against 5R Online, Inc., John Frabasile, Randy Pagnotta, our former officers, and Terry Buckley for fraud, breach of fiduciary duty, breach of contract, and unfair business practice arising from their evaluation of, recommendation for, and ultimately engagement in a development arrangement between IPI and 5R. Pursuant to the development agreement entered into in June 2003 and upon reliance of the representations of the individual defendants that product development was progressing, we paid and expensed \$640,000 in development payments in the fiscal year ended March 31, 2004 but received no product. The amount in controversy is the \$640,000 development payments as well as a claim for punitive damages. Defendants Pagnotta and Buckley have

Edgar Filing: ISLAND PACIFIC INC - Form 10-Q/A

counterclaimed against defendant Frabasile, who has moved to dismiss in light of a parallel action pending in Canada. Frabasile's and 5R Online, Inc.'s response to IPI's complaint was due on August 9, 2004. Settlement negotiations are currently underway.

RTI was named as a cross-defendant in an action by General Electric Capital Corporation as plaintiff ("GE Capital"), against San Francisco City Stores LLC, dated May 10, 2004. The cross-complaint filed on behalf of San Francisco City Stores names GE Capital, Big Hairy Dog Information Systems, and RTI as cross-defendants, claiming breach of warranty and unfair competition (against RTI), and makes various other claims against GE Capital and Big Hairy Dog Information Systems. The claim is for approximately \$83,000. However, we believe the claims made against RTI are without merit and we intend to vigorously defend them.

Certain of our standard software license agreements contain a limited infringement indemnity clause under which we agree to indemnify and hold harmless our customers and business partners against certain liability and damages arising from claims of various copyright or other intellectual property infringement by our products. These terms constitute a form of guarantee that is subject to the disclosure requirements, but not the initial recognition or measurement provisions of Financial Accounting Standards Board issued FASB Interpretation No. 45, "Guarantor's Accounting and Disclosure Requirements for Guarantees, Including Indirect Guarantees of the Indebtedness of others." We have never lost an infringement claim and our cost to defend such lawsuits has been insignificant. Although it is possible that in the future third parties may claim that our current or potential future software solutions infringe on their intellectual property, we do not currently expect a significant impact on our business, operating results or financial condition.

Except as set forth above, we are not involved in any material legal proceedings, other than ordinary routine litigation proceedings incidental to our business, none of which are expected to have a material adverse effect on our financial position or results of operations. However, litigation is subject to inherent uncertainties, and an adverse result in existing or other matters may arise from time to time which may harm our business.

NOTE 15 - RELATED-PARTY TRANSACTIONS

Included in other receivables at June 30, 2004 and March 31, 2004 are amounts due from our officers and employees in the amount of \$14,000 and \$37,000, respectively.

In connection with the Page Digital acquisition, we assumed a three-party lease agreement for our Colorado offices between CAH Investments, LLC ("CAH"), wholly owned by the spouse of our executive officer, Larry Page, and Southfield Crestone, LLC, whereby Page Digital agreed to lease offices for ten years expiring on December 31, 2013. CAH and Southfield Crestone LLC are equal owners of the leased property. Rent expense related to this lease is \$200,000 for the three months ended June 30, 2004. Security deposit of \$170,000 relating to this lease is included in other long-term assets at June 30, 2004 and March 31, 2004.

Edgar Filing: ISLAND PACIFIC INC - Form 10-Q/A

We retain our former CEO and Chairman of the Board, Barry Schechter, to provide consulting services starting August 2003. For the quarters ended June 30, 2004 and 2003, the expense for this service was \$111,000 and \$0, respectively.

We retained an entity owned by an immediate family member of our former CEO and Chairman, Harvey Braun, to provide recruiting and marketing services. For the quarters ended June 30, 2004 and 2003, the expense for this service was \$0 and \$10,000, respectively.

In May 2004, Mr. Braun resigned from his position as Chief Executive Officer. We are currently negotiating a separation agreement as of July 31, 2004. We reserved an estimated severance payment of \$163,000 in the three months ended June 30, 2004 and included this in accrued expenses at June 30, 2004.

NOTE 16 - SUBSEQUENT EVENTS

Pursuant to a Securities Purchase Agreement dated July 12, 2004, we sold and issued to an investor a secured convertible term note ("Note") for a gross proceed of \$7.0 million. In addition, we issued to the investor a warrant to purchase up to 3,750,000 shares of our common stock at a price of \$0.71 per share ("Warrant"). The investor is aware that we have exceeded our authorized share capital limit of 100,000,000 shares and that we intend to increase our authorized share capital limit to 250,000,000. We submitted a proposal to amend our Certificate of Incorporation to increase our authorized shares of common stock to 250,000,000 to our stockholders at our annual meeting on August 11, 2004. We did not receive sufficient votes to authorize the increase at that time and adjourned the meeting until August 27, 2004 to provide us additional time to secure sufficient votes to effect the increase. Our obligations under the Note are secured by all of our assets. All our wholly owned subsidiaries guaranteed our obligations under the Note. We also pledged all of our interests in the outstanding stock of our subsidiaries as security for our obligations under the Note.

The Note matures on September 1, 2004 (Maturity Date"); provided however, the maturity of the Note will be automatically extended to July 12, 2007 upon the stockholders approving an amendment to our Certificate increasing the authorized common stock to 250 million shares and us filing an amendment to our Certificate to effect the increase with the Secretary of State of Delaware by August 31, 2004. We are required to make monthly payments in the amount of \$212,000 plus any unpaid interest commencing on August 1, 2004. In July 2004, the investor agreed to defer the August 1, 2004 payment until Maturity Date.

The Note accrues interest at a rate per annum (the "Interest Rate") equal to the "prime rate" (4.25% as of July 31, 2004) published in The Wall Street Journal from time to time, plus two percent. Interest under the Note is payable monthly in arrears commencing on August 1, 2004. The Interest Rate is calculated on the last day of each month (the "Determination Date") and is subject to adjustment as follows: (1) if the shares issuable upon conversion of the Note or exercise of the Warrant have been registered with the U.S. Securities and Exchange Commission ("SEC") under the Securities Act of 1933, as amended (the "Securities Act") and the market price of our common stock for the five trading days immediately preceding the Determination Date exceeds the then applicable conversion price for the Note by at least 25%, then the Interest Rate for the succeeding calendar month shall be reduced by 2% for each incremental 25% increase over the then applicable conversion price or (2) if all of the conditions set forth in subparagraph (1) have been satisfied, except that the shares issuable upon conversion of the Note or exercise of Warrant have not been registered, then the Interest Rate for the succeeding calendar month shall be reduced by 1% for each incremental 25% increase over the then applicable conversion price. The initial conversion price under the Note is \$0.56 per share, subject to adjustment upon our issuance of securities at a price per

share below the fixed conversion price, a stock split or combination, declaration of a dividend on our common stock or reclassification of our common stock. We have the option to redeem the Note by paying the investor 125% of the principal amount due under the Note together with all accrued and unpaid interest.

The Warrant is immediately exercisable and has a seven year term. We have the right to require exercise of the Warrant in whole or in part if: (1) all of our obligations under the Note have been irrevocably paid in full, (2) the common stock underlying the Warrant has been registered on a registration statement declared effective by the SEC, and such registration statement remains effective, and (3) the average closing price of our common stock for the ten (10) trading days immediately prior to the proposed date of the mandatory exercise of the Warrant is greater than three hundred percent (300%) of the then applicable exercise price.

We are obligated to file a registration statement on Form S-3 (or if Form S-3 is not available another appropriate form) (the "Registration Statement") registering the shares of our common stock issuable upon conversion of the Note or exercise of the Warrant (the "Underlying Shares") pursuant to the Registration Rights Agreement between us and the investor (the "Registration Rights Agreement"). We are required to file the Registration Statement by September 10, 2004 (the "Filing Date") and have the Registration Statement declared effective by the SEC no later than 90 days after it is filed (the "Effectiveness Date"). If the Registration Statement is not filed by the Filing Date, declared effective by the Effectiveness Date, ceases to be effective for more than 30 days in any calendar year or 10 consecutive calendar days or if our common stock is not listed or traded or is suspended from trading for three consecutive trading days, we are required to pay the investor liquidated damages equal to 2% of original principal balance on the Note for each 30 day period (with partial periods prorated) that such event continues. We are obligated to keep the Registration Statement effective until the earlier of when (1) all of the Underlying Shares have been sold or (2) such time as all of the Underlying Shares can be sold without registration or volume restrictions under Rule 144(k) of the Securities Act (the "Effectiveness Period"). If there is not an effective Registration Statement covering the Underlying Shares at any time during the Effectiveness Period and we propose to file a registration statement for our own account or the account of others, we will be obligated to include the Underlying Shares on that registration statement.

In accordance with generally accepted accounting principles, the difference between the conversion price of \$0.56 and our stock price on the date of issuance of the Note amounted to \$281,000 and will be amortized over the term of the Note.

We allocated the proceeds received from the Note with a detachable warrant using the relative fair market value of the individual elements at the time of issuance. The amount allocated to the warrant was \$531,000 and is being amortized over the term of the Note.

Effective July 1, 2004, Robert P. Wilkie and Ivan M. Epstein resigned from our board of directors. Messrs. Wilke and Epstein were both independent directors

Edgar Filing: ISLAND PACIFIC INC - Form 10-Q/A

and we are currently looking for two independent individuals to fill the vacancies resulting from their resignations.

Effective as of July 14, 2004, Steven Beck resigned from our board of directors and Donald Radcliffe, who previously served as our director from May 1998 to October 2003, was appointed to replace Mr. Beck. Effective July 29, 2004, Mr. Beck resigned from his position as executive officer. We agreed to pay Mr. Beck \$325,000 with \$109,000 payable on July 29, 2004 and the balance payable in four monthly installments of \$54,000 commencing on August 15, 2004.

NOTE 17 - RESTATEMENT

Subsequent to the issuance of our condensed consolidated financial statements for the three months ended June 30, 2004, our management determined that:

- * The royalty expense for the quarter should be reported as costs of product revenue,
- * The interest charge on the March '04 Debentures should be capitalized and amortized over the life of the debt,
- * The legal fees incurred in connection with the acquisition of RTI should be capitalized as acquisition costs,
- * The fair value of RTI stock options we assumed in connection with the acquisition should be recorded,
- * The amortization of software technology should be classified as cost of product revenue,
- * The revenue earned from product and services revenues and related cost of revenue are to be presented separately,
- * The amortization of purchased software should be reduced as it was related to a purchased software that was reversed in a prior period, and
- * The financial statements for certain prior periods should be restated as explained in footnote below.

As a result, the condensed consolidated financial statement for the three months ended June 30, 2004 have been restated from the amounts previously reported. A summary of the significant effects of the restatement is as follows:

	As Previously Reported	Restatement Adjustment
	-----	-----
At June 30, 2004:		
Prepaid expenses and other current assets	\$ 673	\$ 1

1. Prepaid expenses and other current assets were revised to include the current portion of a prepaid royalty in the amount of \$175,000 and other assets was revised to include \$125,000 long-term portion of prepaid royalty.
2. Goodwill was revised to include \$110,000 acquisition costs incurred and \$1,037,000 fair value of stock options assumed in connection with the RTI acquisition and \$138,000 acquisition costs for Page Digital acquisition.
3. Other intangible assets were revised to:
 - a. reflect a restatement in fiscal year ended March 31, 2004 to reverse \$3.9 million software purchased, and
 - b. reverse total accumulated amortization of \$195,000 related to the \$3.9 million software.
4. Accrued expenses and other long-term liabilities were revised to include royalty fee accrual of \$175,000 current portion and \$125,000 long-term portion, respectively.
5. Long-term convertible debentures were revised to include \$31,000 amortization of beneficial conversion interest and a restatement in fiscal year 2004 to defer a beneficial conversion charge with a balance of \$260,000.
6. Additional paid-in capital was revised to include \$1,037,000 fair value of stock options assumed in connection with the RTI acquisition and restatements from prior periods of \$1,275,000 in connection with the debt discount and beneficial conversion interest charges on the March '03, April '03 and May '03 debt financings.
7. Accumulated deficit was revised to reflect restatements made in prior periods:
 - a. To reverse recognition of \$3.9 million revenue from a sale of software technology in fiscal year ended March 31, 2004, and
 - b. To recognize amortization expense of \$1,275,000 in connection with debt discount and beneficial conversion interest charges of the March '03, April '03 and May '03 debt financings.
8. Cost of revenues was revised to include \$803,000 amortization of software previously reported as depreciation and amortization expense and \$75,000 royalty expense previously reported as selling, general and administrative expense.
9. In addition to reclassification of \$803,000 amortization of software to cost of revenues, depreciation and amortization was revised to reverse \$97,000 amortization of a purchased

Edgar Filing: ISLAND PACIFIC INC - Form 10-Q/A

10. software being reversed in the period ended March 31, 2004. Selling, general and administrative was revised to reclassify royalty expense of \$75,000 to cost of product revenue, to eliminate \$75,000 royalty expense and capitalize acquisition costs of \$56,000 for RTI acquisition as goodwill.
11. Interest expense was revised to include amortization of beneficial conversion interest of \$31,000.

FORWARD-LOOKING STATEMENTS

THIS REPORT CONTAINS FORWARD-LOOKING STATEMENTS WITHIN THE MEANING OF SECTION 27A OF THE SECURITIES ACT OF 1933 AND SECTION 21E OF THE SECURITIES EXCHANGE ACT OF 1934 AND THE COMPANY INTENDS THAT CERTAIN MATTERS DISCUSSED IN THIS REPORT ARE "FORWARD-LOOKING STATEMENTS" INTENDED TO QUALIFY FOR THE SAFE HARBOR FROM LIABILITY ESTABLISHED BY THE PRIVATE SECURITIES LITIGATION REFORM ACT OF 1995. THESE FORWARD-LOOKING STATEMENTS CAN GENERALLY BE IDENTIFIED BY THE CONTEXT OF THE STATEMENT WHICH MAY INCLUDE WORDS SUCH AS THE COMPANY ("IPI," "WE" OR "US") "BELIEVES," "ANTICIPATES," "EXPECTS," "FORECASTS," "ESTIMATES" OR OTHER WORDS SIMILAR MEANING AND CONTEXT. SIMILARLY, STATEMENTS THAT DESCRIBE FUTURE PLANS, OBJECTIVES, OUTLOOKS, TARGETS, MODELS, OR GOALS ARE ALSO DEEMED FORWARD-LOOKING STATEMENTS. THESE FORWARD-LOOKING STATEMENTS ARE SUBJECT TO CERTAIN RISKS AND UNCERTAINTIES THAT COULD CAUSE ACTUAL RESULTS TO DIFFER MATERIALLY FROM THOSE FORECASTED OR ANTICIPATED AS OF THE DATE OF THIS REPORT. CERTAIN OF SUCH RISKS AND UNCERTAINTIES ARE DESCRIBED IN CLOSE PROXIMITY TO SUCH STATEMENTS AND ELSEWHERE IN THIS REPORT INCLUDING ITEM 2, "MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS." STOCKHOLDERS, POTENTIAL INVESTORS AND OTHER READERS ARE URGED TO CONSIDER THESE FACTORS IN EVALUATING THE FORWARD-LOOKING STATEMENTS AND ARE CAUTIONED NOT TO PLACE UNDUE RELIANCE ON SUCH FORWARD-LOOKING STATEMENTS OR CONSTRUE SUCH STATEMENTS TO BE A REPRESENTATION BY US THAT OUR OBJECTIVES OR PLANS WILL BE ACHIEVED. THE FORWARD-LOOKING STATEMENTS INCLUDED IN THIS REPORT ARE MADE ONLY AS OF THE DATE OF THIS REPORT, AND WE UNDERTAKE NO OBLIGATION TO PUBLICLY UPDATE SUCH FORWARD-LOOKING STATEMENTS TO REFLECT SUBSEQUENT EVENTS OR CIRCUMSTANCES.

THE FOLLOWING DISCUSSION SHOULD BE READ IN CONJUNCTION WITH OUR CONSOLIDATED FINANCIAL STATEMENTS AND THE RELATED NOTES AND OTHER FINANCIAL INFORMATION APPEARING ELSEWHERE IN THIS FORM 10-Q/A. READERS ARE ALSO URGED TO CAREFULLY REVIEW AND CONSIDER THE VARIOUS DISCLOSURES MADE BY US WHICH ATTEMPT TO ADVISE INTERESTED PARTIES OF THE FACTORS WHICH AFFECT OUR BUSINESS, INCLUDING WITHOUT LIMITATION THE DISCLOSURES MADE UNDER THE CAPTION "MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS," AND THE AUDITED CONSOLIDATED FINANCIAL STATEMENTS AND RELATED NOTES INCLUDED IN OUR ANNUAL REPORT FILED ON FORM 10-K/A FOR THE YEAR ENDED MARCH 31, 2004, AND THE DISCLOSURES UNDER THE HEADING "RISK FACTORS" IN THE FORM 10-K/A, AS WELL AS OTHER REPORTS AND FILINGS MADE WITH THE SECURITIES AND EXCHANGE COMMISSION.

OVERVIEW

We are a provider of software solutions and services to the retail industry. We provide solutions that help retailers understand, create, manage and fulfill

Edgar Filing: ISLAND PACIFIC INC - Form 10-Q/A

consumer demand. We derive the majority of our revenues from three sources: the initial sale of application software licenses, or license revenues, professional services and support, or maintenance services. Application software license fees are dependent upon the sales volume of our customers, the number of users of the application(s), and/or the number of locations in which the customer plans to install and utilize the application(s). As the customer grows in sales volume, adds additional users and/or adds additional locations, we charge additional license fees. Professional services relate to implementation of our software, training of customer personnel and modification or customization work. Support, maintenance and software updates are a source of recurring revenues and are generally based on a percentage of the software license revenues and are charged on an annual basis pursuant to renewable maintenance contracts. We typically charge for professional services including consulting, implementation and project management services on an hourly basis.

As the vast majority of our revenues are derived from the retail industry, we are heavily dependent on the financial strength of retailers and their capital budgets. Deterioration in the health of retailers or a reduction in their capital budget or a decision to delay the purchase of new systems have a direct impact on our business. Our sales cycles are long, generally three to twelve months, and our ability to close a pipeline of potential transaction is very unpredictable. As such, management believes that license revenue and growth in license revenue are the best indicator of the Company's business as they signify either new customers or an expansion of licenses of existing customers. While there's generally a time lag between a sale of new license and when we provide services and support, an increase in license revenue will generally lead to an increase in services and support revenues in future quarters.

24

In recent periods, we have reported flat to decreased revenues and have suffered operating and net losses, largely attributable to general economic and competitive conditions. In this regard, we have taken a number of steps designed to improve our operations, including:

- o Acquired two complementary companies with substantial revenues and earnings potential;
- o Revamped our management team by adding a new President and COO and CTO, as well as a new CFO;
- o Improved our IBM-based core products through continuing internal research and development;
- o Obtained the rights to distribute complementary products, including a new easy-to-install and easy-to-use, open-architecture software system for very small retailers, which we are currently offering;
- o Established partnerships with several value added resellers to provide a variety of options and product extensions;
- o Improved our distribution capabilities by adding new third party channels, such as IBM and IBM's resellers, and professional service firms, such as CGI and LakeWest.

We believe that these actions will position us to achieve revenue growth and profitability.

RESTATEMENT OF QUARTERLY INFORMATION

As discussed in the notes to condensed consolidated financial statements, we

Edgar Filing: ISLAND PACIFIC INC - Form 10-Q/A

restated our June 30, 2004 financial statements to:

1. Report royalty expense as costs of product revenue,
 2. Capitalize beneficial conversion interest charge on the March '04 Debentures and amortize it over the term of the debt,
 3. Capitalize legal fees incurred in connection with the acquisition of RTI as acquisition costs,
 4. Record the fair value of RTI stock options assumed in connection with the RTI acquisition,
 5. Report amortization of software technology as cost of product revenue,
 6. Present revenues earned from product and services revenues separately and related cost of revenue,
 7. Reverse amortization of purchased software as it was related to a purchased software being reversed in the prior periods, and
7. Revise the financial statements for certain prior periods restatements.

These changes had no impact on the net cash flows from operations.

RECENT DEVELOPMENTS

- o In June 2004, we completed the acquisition of RTI. See "Acquisition of RTI" below.
- o Upon completion of RTI's acquisition, Michael Tomczak, RTI's CEO and President, was appointed our President, Chief Operating Officer and director and Jeffrey Boone, RTI's Chief Technology Officer, was appointed our CTO. Mr. Tomczak replaced Steve Beck, who was serving as our president and Mr. Page, who was serving as our COO. Mr. Boone replaced Mr. Page as our CTO. Mr. Beck served as our President from April 2003 to June 2004 and our COO from April 2003 to February 2004. Mr. Page served as our CTO from January 2004 to June 2004 and as our COO from February 2004 to June 2004.
- o Harvey Braun resigned from the board of directors and the position of CEO in May 2004.
- o Mr. Beck resigned from the board of directors and the position of executive officer in July 2004. Donald Radcliffe, who previously served as our director from May 1998 to October 2003, was appointed to replace Mr. Beck.
- o In July, we sold and issued a secured convertible note for a gross proceed of \$7.0 million. See "Indebtedness - Laurus" below.

ACQUISITION OF RTI

Pursuant to an agreement dated June 1, 2004, we acquired RTI from Michael Tomczak, Jeffrey Boone and Intuit in a merger transaction. On March 12, 2004, we, RTI, Merger Sub and the Shareholders entered the March 12, 2004 Merger Agreement which provided we would acquire RTI in a merger transaction in which

Edgar Filing: ISLAND PACIFIC INC - Form 10-Q/A

RTI would merge with and into Merger Sub. The merger consideration contemplated by the March 12, 2004 Merger Agreement was a combination of cash and shares of our common stock. The March 12, 2004 Merger Agreement was amended by the Amended Merger Agreement dated June 1, 2004.

Pursuant to the Amended Merger Agreement, the Merger was completed with the following terms: (i) we assumed RTI's obligations under those certain promissory notes issued by RTI on December 20, 2002 with an aggregate principal balance of \$2.3 million; (ii) the total consideration paid at the closing of the Merger was \$11.6 million paid in shares of our common stock, with a fair value of \$1.2 million, newly designated Series B Preferred with a fair value of \$5.7 million, assumption of RTI's incentive stock option plan valued at \$1.0 million, acquisition costs totaling \$110,000 and promissory notes totaling \$3.6 million; (iii) the Shareholders and Intuit are entitled to price protection payable if and to the extent that the average trading price of our common stock is less than \$0.76 at the time the shares of our common stock issued in the Merger and issuable upon conversion of the Series B Preferred are registered pursuant to the Registration Rights Agreement dated June 1, 2004 between us, the Shareholders and Intuit; and (iv) the merger consisted of two steps (the "Merger"), first, Merger Sub merged with and into RTI, Merger Sub's separate corporate existence ceased and RTI continued as the surviving corporation (the "Reverse Merger"), immediately thereafter, RTI merged with and into Merger Sub II, RTI's separate corporate existence ceased and Merger Sub II continued as the surviving corporation (the "Second-Step Merger").

As a result of the Merger, each Shareholder received 1,258,616 shares of Series B Preferred and a promissory note payable monthly over two years in the principal amount of \$1,295,000 bearing interest at 6.5% per annum. As a result of the Merger, Intuit, the holder of all of the outstanding shares of RTI's Series A Preferred stock, received 1,546,733 shares of our common stock and a promissory note payable monthly over two years in the principal amount of \$530,700 bearing interest at 6.5% per annum.

The Shareholders and Intuit were also granted registration rights. Under the Registration Rights Agreement, we agreed to register the common stock issuable upon conversion of the Series B Preferred issued to the Shareholders within 30 days of the automatic conversion of the Series B Preferred into common stock. The automatic conversion will occur upon us filing the Certificate of Amendment with the Delaware Secretary of State increasing the authorized number of shares of our common stock after securing shareholder approval for the Certificate of Amendment. Under the Registration Rights Agreement, Intuit is entitled to demand registration or to have its shares included on any registration statement filed prior the registration statement covering the Shareholders' shares, subject to certain conditions and limitations, or if not previously registered to have its shares included on the registration statement registering the Shareholders' shares. The Shareholders and Intuit are entitled to price protection payments of up to a maximum of \$0.23 per share payable by promissory note, if and to the extent that the average closing price of our common stock for the 10 days immediately preceding the date the registration statement covering their shares is declared effective by the Securities and Exchange Commission, is less than the 10 day average closing price as of June 1, 2004, which was \$0.76. We have not recorded the liability relating to the price protection at the date of acquisition as the contingency is based on future events and cannot yet be determined. We will compute the total liability as soon as it can be determined and recorded as a liability. The total cost of the price protection contingency will be deferred and amortized over the shortest of the remaining useful lives of the assets acquired in the acquisition in accordance with SFAS 141, "Business Combinations".

Edgar Filing: ISLAND PACIFIC INC - Form 10-Q/A

Pursuant to the Amended Merger Agreement, The Sage Group, plc as well as certain officers and directors signed voting agreements that provide they will not dispose of or transfer their shares of our capital stock and that they will vote their shares of our capital stock in favor of the Certificate of Amendment and the Amended Merger Agreement and transactions contemplated therein.

26

Upon the consummation of the Merger, Michael Tomczak, RTI's former President and Chief Executive Officer, was appointed our President, Chief Operating Officer and director and Jeffrey Boone, RTI's former Chief Technology Officer, was appointed our Chief Technology Officer. We entered into two-year employment agreements and non-competition agreements with Mr. Tomczak and Mr. Boone.

The combination of Island Pacific and RTI, will enable us to offer a fully integrated solution to mid-tier retailers that will be unique in the marketplace. As a result of this transaction, smaller retailers will now be able to cost-effectively acquire a solution that provides both front and back-end support. The combination instantly expands our products, services offerings and distribution channels.

RECENT ACCOUNTING PRONOUNCEMENTS

None.

QUARTER ENDED JUNE 30, 2004 COMPARED TO QUARTER ENDED JUNE 30, 2003

REVENUES

Product revenues increased \$1.3 million, or 40%, to \$4.5 million in the quarter ended June 30, 2004 from \$3.2 million in the quarter ended June 30, 2003, primarily due to the inclusion of \$0.6 million of product revenue for RTI, \$0.5 million of product revenue for Page Digital and a \$0.4 million increase in hardware revenue, offset by \$0.3 million decrease in alliance revenue. Services revenue decreased by \$1.5 million, or 65% to \$0.8 million in the quarter ended June 30, 2004 from \$2.3 million in the quarter ended June 30, 2003 primarily due to \$1.3 million decrease in revenue from Toys R Us., Inc. "(Toys)" contract and \$0.2 million in decreased services, offset by the inclusion of \$0.4 million of services revenue for Page Digital. Toys revenue in fiscal 2004 consisted primarily of implementation services. Toys had been a major customer since fiscal 2000 and terminated its contract in third quarter of fiscal 2004. As we don't anticipate additional material Toys revenue in the near future, the loss of Toys will have a significant impact on future revenues as we attempt to replace those revenues with revenues generated from new customers. Total revenues decreased \$0.2 million, or 3%, to \$5.3 million in the quarter ended June 30, 2004 from \$5.5 million in the quarter ended June 30, 2003 due to the above factors. Excluding Toys revenues, total revenues were \$5.2 million for the quarter ended June 30, 2004 compared to \$4.2 million in the quarter ended June 30, 2003, a 24% increase.

COST OF REVENUES/GROSS PROFIT

Cost of revenues increased by \$0.5 million, or 23%, to \$2.7 million in the quarter ended June 30, 2004 from \$2.2 million in the quarter ended June 30, 2003. Cost of product revenues increased \$1.0 million, or 83%, to \$2.2 million

Edgar Filing: ISLAND PACIFIC INC - Form 10-Q/A

in the quarter ended June 30, 2004 from \$1.2 million in the quarter ended June 30, 2003. Cost of product revenues included amortization expense of \$0.8 million and \$0.6 million for the quarters ended June 30, 2004 and 2003, respectively. Cost of services revenue decreased \$0.5 million, or 53%, to \$0.5 million in the quarter ended June 30, 2004 from \$1.0 million in the quarter ended June 30, 2002. Total gross profit decreased \$0.6 million, or 19%, to \$2.6 million in the quarter ended June 30, 2004 from \$3.2 million in the quarter ended June 30, 2003 due primarily to a large decrease in service revenues, offset by an increase in product revenues. Total gross profit was 49% and 59% for the quarter ended June 30, 2004 and 2003, respectively. Gross profit on products was 50% and 62% for the quarters ended June 30, 2004 and 2003, respectively, while gross profit on services was 41% and 56% for the quarters ended June 30, 2004 and 2003, respectively. The decrease in gross profit margin on products was due primarily to higher amortization of capitalized software in the quarter ended June 30, 2004 from the acquisition of Page Digital and RTI. The decrease in gross margin on services was due primarily to an increase, in the quarter ended June 30, 2004, of the percentage of reimbursed costs, which carry 100% costs, as a percentage of total services as well as lower margins achieved at the Store Solutions business segment compared to higher margin Toys service business in the quarter ended June 30, 2003.

APPLICATION DEVELOPMENT EXPENSE

Application development expense increased by \$1.1 million, or 1100%, to \$1.2 million in the quarter ended June 30, 2004 from \$0.1 million in the quarter ended June 30, 2003. The increase is primarily due to \$0.6 million decrease in capitalization of development costs for new products and our continuing efforts in enhancing and improving our existing products. We've made significant investments in our new products in fiscal 2004 and the first quarter of fiscal 2005. Most of these new products were completed in the quarter ended June 30, 2004.

DEPRECIATION AND AMORTIZATION

Depreciation and amortization increased by \$0.1 million, or 42%, to \$0.4 million in the quarter ended June 30, 2004 from \$0.3 million in the quarter ended June 30, 2003. The increase is due to additions of fixed assets and intangible assets from acquisitions of Page Digital in the fourth quarter of fiscal 2004 and RTI in the first quarter of fiscal 2005.

SELLING, GENERAL AND ADMINISTRATIVE EXPENSES

Selling, general and administrative expenses increased by \$1.5 million, or 54%, to \$4.3 million in the quarter ended June 30, 2004 from \$2.8 million in the quarter ended June 30, 2003. The increase is mainly due to the additions of selling, general and administrative expenses of \$0.5 million from the acquisition of Page Digital and \$0.6 million from the acquisition of RTI. In addition, the increase is due to increasing our efforts and spending in marketing and sales activities and professional fees related to the acquisition of RTI and financing activities.

Edgar Filing: ISLAND PACIFIC INC - Form 10-Q/A

INCOME (LOSS) FROM OPERATIONS

Loss from operations which included depreciation and amortization expense, was \$3.4 million for the quarter ended June 30, 2004, compared to an income from operations of \$0.01 million for the quarter ended June 30, 2003.

INTEREST EXPENSE

Interest expense was \$0.3 million in the quarters ended June 30, 2004 and 2003.

PROVISION FOR INCOME TAXES

No provision was made at June 30, 2004 due to the availability of tax losses. Provision for income taxes for the quarter ended June 30, 2003 produced an income of \$0.6 million. The income tax refund of \$0.6 million at June 30, 2003 resulted from the amendment of prior years' income tax returns to carry back net operating losses incurred in the prior years.

CUMULATIVE PREFERRED DIVIDENDS

Cumulative dividends on the outstanding preferred stock attributable to the quarter ended June 30, 2004 and 2003 were \$0.3 million.

LIQUIDITY AND CAPITAL RESOURCES

CASH FLOWS

During the quarter ended June 30, 2004, we financed our operations, using cash on hand and, internally generated cash. At June 30, 2004 and March 31, 2004, we had cash of \$1.3 million and \$2.1 million, respectively.

Operating activities used cash of \$1.0 million in the quarter ended June 30, 2004 and \$1.3 million in the quarter ended June 30, 2003. Cash used for operating activities in the quarter ended June 30, 2004 resulted from \$3.6 million net loss, \$0.5 million increase in accounts receivable and other receivables and \$0.3 million decrease in accounts payable and accrued expenses; offset in part by \$1.2 million increase in deferred revenue and \$1.3 million of non-cash depreciation and amortization.

28

Investing activities provided cash of \$0.3 million in the quarter ended June 30, 2004 and used cash of \$0.9 million in the quarter ended June 30, 2003. Cash provided by investing activities in the current quarter was primarily from \$0.6 million cash from acquisition of RTI; offset in part by capitalization of \$0.3 million software development costs.

Financing activities used cash of \$0.2 million in the quarter ended June 30, 2004 and provided cash of \$8.0 million in the quarter ended June 30, 2003. Cash used for financing activities in the quarter ended June 30, 2004 was primarily \$0.2 million payments on notes payable to related parties.

Accounts receivable increased to \$6.6 million at June 30, 2004 from \$4.6 million at March 31, 2004. The increase is primarily due to increase in current receivables for semi-annual maintenance contracts billed in the quarter ended

Edgar Filing: ISLAND PACIFIC INC - Form 10-Q/A

June 30, 2004 and \$1.3 million in receivables from RTI in the current quarter.

We believe that our cash and cash equivalent and funds generated from operations will provide adequate liquidity to meet our normal operating requirements for at least the next twelve months. Our future capital requirements depend on many factors, including our application development, sales and marketing activities. In addition, we have incurred losses for the last three fiscal years and we had a negative working capital at June 30, 2004. In the next twelve months, we anticipate raising additional capital through public or private equity or debt financings. In the long-term, we anticipate that cash from operations will be sufficient to provide liquidity for our normal operating requirements. As such, we do not know whether additional financing will be available when needed, or available on terms acceptable to us. We may raise capital through public or private equity or debt financings. If we are unable to raise the needed funds, we may be forced to curtail some or all of our activities and we may not be able to grow.

INDEBTEDNESS

NATIONAL AUSTRALIA BANK LIMITED

We decided in the third quarter of fiscal 2002 to sell certain assets of the Australian subsidiary to the former management of such subsidiary, and then cease Australian operations. The sale was subject to the approval of National Australia Bank, the subsidiary's secured lender. The bank did not approve the sale and the subsidiary ceased operations in February 2002. The bank caused a receiver to be appointed in February 2002 to sell substantially all of the assets of the Australian subsidiary and pursue collections on any outstanding receivables. The receiver proceeded to sell substantially all of the assets for \$300,000 in May 2002 to an entity affiliated with former management, and actively pursued the collection of receivables. If the sale proceeds plus collections on receivables were insufficient to discharge the indebtedness to National Australia Bank, we might be called upon to pay the deficiency under our guarantee to the bank. We accrued \$187,000 as the maximum amount of our potential exposure as of March 31, 2004. In June 2004, we settled this obligation by paying \$69,000 to the bank. As a result, the \$118,000 accrual in excess of settlement amount was written off to the consolidated statement of operations as other income in the quarter ended June 30, 2004.

OMICRON/MIDSUMMER

In March 2004, we entered into a Securities Purchase Agreement for the sale of 9% convertible debentures (the "March '04 Debentures") to Omicron Master Trust ("Omicron") for gross proceeds of \$1.75 million ("Omicron Debenture") and Midsummer Investments, Ltd. ("Midsummer") for gross proceeds of \$1.25 million ("Midsummer Debenture"). With proceeds from the sale of a secured convertible term note to Laurus Master Fund, Ltd. ("Laurus") in July 2004 for \$7.0 million, the Omicron Debenture with the principal balance of \$1.75 million was paid off in full together with \$0.1 million in accrued interest, liquidated damages and prepayment penalty. We also amended the Midsummer Debenture pursuant to Amendment No. 1 to the 9% Convertible Debenture, Due May 15, 2006 Issued to Midsummer and Waiver dated July 30, 2004 as partial consideration for Midsummer consenting to the transaction with Laurus and issued 600,000 shares of common stock to Midsummer as payment for \$112,000 in liquidated damages and as partial consideration for for Midsummer consenting to the transaction with Laurus and issued 600,000 shares of common stock to Midsummer as payment for \$112,000 in liquidated damages and as partial consideration for its consent to the Laurus Transaction.

Edgar Filing: ISLAND PACIFIC INC - Form 10-Q/A

The amended Midsummer Debenture matures in May 2006 and bears an interest rate of 9% per annum. Interest only payments, payable, at our option, in cash or shares of common stock, are payable on a monthly basis. The amended Midsummer Debenture is convertible into shares of our common stock at a conversion price of \$0.56 per share, subject to adjustment if we offer or sell any securities for an effective per share price that is less than 87% of the then current conversion price, negatively restate any of our financial statement or make any public disclosure that negatively revises or supplements any prior disclosure regarding a material transaction consummated prior to March 15, 2004 or trigger other customary anti-dilution protections. If certain conditions are met, we have the option to redeem the amended Midsummer Debenture at 100% of its face value, plus accrued but unpaid interest.

We must redeem the amended Midsummer Debenture at the initial monthly amount of \$50,000 commencing on September 1, 2004 which increases to \$62,500 as of February 1, 2005. If the daily volume weighted average price of our common stock on the American Stock Exchange exceeds the then current conversion price by more than 200% for 15 consecutive trading days, we have the option to cause Midsummer to convert the then outstanding principal amount of amended Midsummer Debenture into our common stock at the conversion price then in effect.

We also issued Omicron and Midsummer (the "Purchasers") two warrants as follows: (1) Series A Warrants to purchase up to an aggregate of 1,043,479 shares of our common stock at an exercise price of \$1.15 per share, which was reduced to \$0.56 per share as a result of the transaction with Laurus, with a five-year term, exercisable at anytime after September 16, 2004, subject to adjustment if the we offer or sell any securities for an effective per share price that is less than the then current exercise price, negatively restate any of our financial statements or make any public disclosure that negatively revises or supplements any prior disclosure regarding a material transaction consummated prior to March 15, 2004 or trigger other customary anti-dilution protections and (2) Series B Warrants to purchase up to 8,500,000 shares of our common stock with an exercise price of \$5 per share, these warrants are immediately exercisable and expire on the earlier of the six-month anniversary of the effective date of the registration statement that is required to be filed or 18 months from March 15, 2004, subject to adjustment upon the issuance or sale of securities in a public offering for an effective per share price that is less than the then-current exercise price and upon the trigger of other customary anti-dilution protections.

For a period of one hundred eighty (180) days following the date the registration statement is declared effective ("Effective Date"), each Purchaser has the right, in its sole discretion, to elect to purchase such Purchaser's pro rata portion of additional Debentures and Series A Warrants for an aggregate purchase price of up to \$2,000,000 in a second closing (the "Second Closing"). The terms of the Second Closing shall be identical to the terms set forth in the

Purchase Agreement and related documents, except that, the conversion price for the additional debentures and the exercise price for the additional warrants shall be equal to 115% of the average of the daily volume weighted average price of our common stock on the American Stock Exchange for the ten (10) days preceding the Second Closing ("Second Closing Price"). The Series A Warrant coverage for the Second Closing shall be 40% of each Purchaser's subscription amount divided by the Second Closing Price.

For a period of one hundred eighty (180) days following the Effective Date, if

Edgar Filing: ISLAND PACIFIC INC - Form 10-Q/A

the daily volume weighted average price of our common stock for twenty (20) consecutive trading days exceeds \$2.00, subject to adjustment, we may, on one occasion, in our sole determination, require the Purchasers to purchase each such Purchaser's pro rata portion of additional debentures and Series A Warrants for an aggregate purchase price of up to \$2,000,000. Any such additional investment shall be under the terms set forth in the Purchase Agreement and related documents, except that, the conversion price for the additional Debentures and the exercise price for the additional warrants shall be equal to the then current conversion price and warrant exercise price for the 9% Debentures and warrants purchased on March 15, 2004.

30

For a period of six (6) months from the Effective Date, the Purchasers have a right of first refusal to participate in certain future financings by us involving the sale of our common stock or equivalent securities. The Purchasers were also granted registration rights under a Registration Rights Agreement dated March 15, 2004, pursuant to which we were required to file a registration statement respecting the common stock issuable upon the conversion of the debentures and exercise of the warrants within thirty (30) days after March 15, 2004, and to use best efforts to have the registration statement declared effective at the earliest date. If a registration statement was not filed within such thirty (30) day period or declared effective within such ninety (90) day period (or within one hundred twenty (120) days in the event of a full review by the SEC), we became obligated to pay liquidated damages to the Purchasers equal to 2% per month of each such Purchasers' subscription amount under the Purchase Agreement plus the value of any warrants issued pursuant to the Purchase Agreement then held by such Purchaser. The registration statement has not been filed as of July 31, 2004; therefore, liquidated damages in the amount of \$201,000 in liquidated damages have been recorded and included in accrued expenses at June 30, 2004.

In accordance with generally accepted accounting principles, the difference between the original conversion price of \$1.32 and our stock price of the date of issuance of the Omicron Debenture amounted to \$155,000 and was being amortized over the term of the debt. A total of \$21,000 had been amortized during the period from the date of issuance to the date the debt was repaid. Upon repayment of the Omicron Debenture, the remaining balance of \$134,000 was expensed.

The difference between the original conversion price of \$1.32 and our stock price of the date of issuance of the Midsummer Debenture amounted to \$110,000 and is being amortized over the term of the debt. A total of \$15,000 had been amortized during the period from the date of issuance through June 30, 2004.

We allocated the proceeds received from convertible debt with detachable warrants using the relative fair market value of the individual elements at the time of issuance. The amount allocated to the warrants issued to Omicron was \$420,000 and was being amortized over the term of the Omicron Debenture. A total of \$57,000 had been amortized during the period from the issuance of the debt to the date the debt was repaid. Upon repayment of the Omicron Debenture, the remaining balance of \$363,000 was expensed. The amount allocated to warrants issued to Midsummer was \$300,000 and is being amortized over the term of the debt. A total of \$75,000 had been amortized during the period from the date of issuance through June 30, 2004.

Edgar Filing: ISLAND PACIFIC INC - Form 10-Q/A

The outstanding balance of Midsummer Debenture, including accrued interest, is \$1.3 million at July 31, 2004.

INTUIT

In connection with the RTI acquisition in June 2004, we issued a promissory note to Intuit for \$0.5 million ("Intuit Note"). The Intuit Note is due on June 1, 2006 and payable in monthly installments of \$4,000 from June 1, 2004 through December 1, 2004, increasing to \$30,000 from January 1, 2005. The Intuit Note earns interest at a rate of 6.5% per annum. The balance of Intuit Note including accrued interest is \$0.5 million at July 31, 2004.

RTI NOTEHOLDERS

In connection with the RTI acquisition in June 2004, we assumed RTI's obligations on notes payable totaling \$1.8 million and issued additional \$0.5 million to the holders of these notes. These notes are secured by common stock of our subsidiary IP Retail Technology International, Inc. (formerly known as IPI Merger Sub II, Inc.; "IP RTI"). The notes are due on May 31, 2005 and payable in monthly installments in aggregate of \$197,000 commencing May 31, 2004. These notes earn interest at a rate of 6.5% per annum. The balance of these notes, including accrued interest, is \$1.9 million at July 31, 2004.

TOMCZAK/BOONE

In connection with the RTI acquisition in June 2004, we issued promissory notes to RTI's two principals, Michael Tomczak and Jeffrey Boone, totaling \$2.6 million ("Officers Notes"). The Officers Notes are due on June 1, 2006 and payable in monthly installments in aggregate of \$20,000 from June 1, 2004 through May 1, 2005, increasing to \$200,000 from June 1, 2005. The Officers Notes earn interest at a rate of 6.5% per annum. The balance of the Officers Notes is \$2.6 million at July 31, 2004.

LAURUS

Pursuant to a Securities Purchase Agreement dated July 12, 2004, we sold and issued to an investor a secured convertible term note ("Note") for gross proceeds of \$7.0 million. In addition, we issued to the investor a warrant to purchase up to 3,750,000 shares of our common stock at a price of \$0.71 per share ("Warrant"). The investor is aware that we have exceeded our authorized share capital limit of 100,000,000 shares and that we intend to increase our authorized share capital limit to 250,000,000. We submitted a proposal to amend our Certificate of Incorporation to increase our authorized shares of common stock to 250,000,000 to our stockholders at our annual meeting on August 11, 2004. We did not receive sufficient votes to approve the amendment to the Certificate of Incorporation at that time and have adjourned the meeting until August 27, 2004 to provide us time to secure additional votes sufficient to effect such amendment. Our obligations under the Note are secured by all of our assets. All our wholly owned subsidiaries guaranteed our obligations under the Note. We also pledged all of our interests in the outstanding stock of our subsidiaries as security for our obligations under the Note.

The Note matures on September 1, 2004 ("Maturity Date"); provided however, the maturity of the Note will be automatically extended to July 12, 2007 upon the

Edgar Filing: ISLAND PACIFIC INC - Form 10-Q/A

stockholders approving an amendment to our Certificate increasing our authorized common stock to 250 million shares and us filing an amendment to our Certificate to effect the increase with the Secretary of State of Delaware by August 31, 2004. We are required to make monthly payments of \$212,000 commencing August 1, 2004. In July 2004, the investor agreed to defer the August 1, 2004 payment until Maturity Date.

The Note accrues interest at a rate per annum (the "Interest Rate") equal to the "prime rate" published in The Wall Street Journal from time to time, plus two percent. Interest under the Note is payable monthly in arrears commencing on August 1, 2004. The Interest Rate is calculated on the last day of each month (the "Determination Date") and is subject to adjustment as follows: (1) if the shares issuable upon conversion of the Note or exercise of the Warrant have been registered with the U.S. Securities and Exchange Commission ("SEC") under the Securities Act of 1933, as amended (the "Securities Act") and the market price of our common stock for the five trading days immediately preceding the Determination Date exceeds the then applicable conversion price for the Note by at least 25%, then the Interest Rate for the succeeding calendar month shall be reduced by 2% for each incremental 25% increase over the then applicable conversion price or (2) if all of the conditions set forth in subparagraph (1) have been satisfied, except that the shares issuable upon conversion of the Note or exercise of Warrant have not been registered, then the Interest Rate for the succeeding calendar month shall be reduced by 1% for each incremental 25% increase over the then applicable conversion price. The initial conversion price under the Note is \$0.56 per share, subject to adjustment upon our issuance of securities at a price below the fixed conversion price, a stock split or combination, declaration of a dividend on our common stock or reclassification of our common stock. We have the option to redeem the Note by paying the investor 125% of the principal amount due under the Note together with all accrued and unpaid interest.

The Warrant is immediately exercisable and has a seven year term. We have the right to require exercise of the Warrant in whole or in part if: (1) all of our obligations under the Note have been irrevocably paid in full, (2) the common stock underlying the Warrant has been registered on a registration statement declared effective by the SEC, and such registration statement remains effective, and (3) the average closing price of our common stock for the ten (10) trading days immediately prior to the proposed date of the mandatory exercise of the Warrant is greater than three hundred percent (300%) of the then applicable exercise price.

We are obligated to file a registration statement on Form S-3 (or if Form S-3 is not available another appropriate form) (the "Registration Statement") registering the shares of our common stock issuable upon conversion of the Note or exercise of the Warrant (the "Underlying Shares") pursuant to the Registration Rights Agreement between us and the investor (the "Registration Rights Agreement"). We are required to file the Registration Statement by September 10, 2004 (the "Filing Date") and have the Registration Statement declared effective by the SEC no later than 90 days after it is filed (the "Effectiveness Date"). If the Registration Statement is not filed by the Filing

Date, declared effective by the Effectiveness Date, ceases to be effective for more than 30 days in any calendar year or 10 consecutive calendar days or if our common stock is not listed or traded or is suspended from trading for three consecutive trading days, we are required to pay the investor liquidated damages equal to 2% of original principal balance on the Note for each 30 day period

Edgar Filing: ISLAND PACIFIC INC - Form 10-Q/A

(with partial periods prorated) that such event continues. We are obligated to keep the Registration Statement effective until the earlier of when (1) all of the Underlying Shares have been sold or (2) such time as all of the Underlying Shares can be sold without registration or volume restrictions under Rule 144(k) of the Securities Act (the "Effectiveness Period"). If there is not an effective Registration Statement covering the Underlying Shares at any time during the Effectiveness Period and we propose to file a registration statement for our own account or the account of others, we will be obligated to include the Underlying Shares on that registration statement.

In accordance with generally accepted accounting principles, the difference between the conversion price of \$0.56 and our stock price on the date of issuance of the Note amounted to \$281,000 and is being amortized over the term of the Note.

We will also allocate the proceeds received from the Note with detachable warrant using the relative fair market value of the individual elements at the time of issuance. The amount allocated to the warrant is \$531,000 and is being amortized over the term of the Note.

The balance of the Note, including accrued interest, is \$7.0 million at July 31, 2004.

CONTRACTUAL OBLIGATIONS

The following table summarizes our contractual obligations, including purchase commitments at June 30, 2004, and the effect such obligations are expected to have on our liquidity and cash flow in future periods.

CRITICAL ACCOUNTING POLICIES AND ESTIMATES

Our discussion and analysis of financial condition and results of operations are based upon our consolidated financial statements, which have been prepared in accordance with accounting principles generally accepted in the United States of America. The preparation of these financial statements requires us to make estimates and judgments that affect the reported amounts of assets, liabilities, revenues and expenses, and related disclosure of contingent assets and

Edgar Filing: ISLAND PACIFIC INC - Form 10-Q/A

liabilities. On an on-going basis, we evaluate our estimates, based on historical experience, and various other assumptions that are believed to be reasonable under the circumstances, the results of which form the basis for making judgments about the carrying values of assets and liabilities that are not readily apparent from other sources. Actual results may differ from these estimates under different assumptions or conditions.

We believe the following critical accounting policies affect significant judgments and estimates used in the preparation of our consolidated financial statements:

33

- o REVENUE RECOGNITION. Our revenue recognition policy is significant because our revenue is a key component of our results of operations. In addition, our revenue recognition determines the timing of certain expenses such as commissions and royalties. We follow specific and detailed guidelines in measuring revenue; however, certain judgments affect the application of our revenue policy.

We license software under non-cancelable agreements and provide related services, including consulting, training, customization of software and customer support. We recognize revenue in accordance with Statement of Position 97-2 (SOP 97-2), Software Revenue Recognition, as amended and interpreted by Statement of Position 98-9, Modification of SOP 97-2, Software Revenue Recognition, with respect to certain transactions, as well as Staff Accounting Bulletin ("SAB") 101, "Revenue Recognition", updated by SAB's 103 and 104, "Update of Codification of Staff Accounting Bulletins", and Technical Practice Aids issued from time to time by the American Institute of Certified Public Accountants.

Software license revenue, including third party license revenues or partner products, is generally recognized when a license agreement has been signed, the software product has been delivered, there are no uncertainties surrounding product acceptance, the fees are fixed and determinable, and collection is considered probable. If a software license contains an undelivered element, the fair value of the undelivered element is deferred and the revenue recognized once the element is delivered. We can establish value specific objective evidence ("VSOE") for all elements and not just undelivered elements. The undeliverable elements are primarily training, consulting and maintenance services. VSOE of fair value for training and consulting services is based upon hourly rates charged when those services are sold separately. VSOE of fair value for maintenance is the price the customer will be required to pay when it is sold separately (that is, the renewal rate). In addition, if a software license contains contingencies, such as specific customer acceptance criteria, right of return or a cancellation right, the software revenue is recognized upon the later of customer acceptance or the expiration of the acceptance period or cancellation right. Typically, payments for our software licenses are due in installments within twelve months from the date of delivery. Where software license agreements call for payment terms of twelve months or more from the date of delivery, revenue is recognized as payments become due and all other conditions for revenue recognition have been satisfied. Deferred revenue consists

Edgar Filing: ISLAND PACIFIC INC - Form 10-Q/A

primarily of prepaid maintenance support revenues, prepaid services revenue and deferred licenses.

Consulting services are separately priced, are generally available from a number of suppliers, and are not essential to the functionality of our software products. Consulting services, which include project management, system planning, design and implementation, customer configurations, and training are billed on both an hourly basis and under fixed price contracts. Consulting services revenue billed on an hourly basis is recognized as the work is performed. Under most fixed price contracts, consulting services revenue is recognized using the percentage of completion method of accounting by relating hours incurred to date to total estimated hours at completion. In instances where our fixed price contracts require the achievement of certain milestones, the milestones are agreed with the customer and revenues are recognized only when the milestones are delivered and accepted by the customer.

Customization of software is billed on both an hourly basis and under fixed price contracts. Customization services billed on an hourly basis are recognized as the work is performed. Under most fixed price contracts, customization services revenue is recognized using the percentage of completion method of accounting by relating hours incurred to date to total estimated hours at completion. In instances where our fixed price contracts require the achievement of certain milestones, the milestones are agreed with the customer and revenues are recognized only when the milestones are delivered and accepted by the customer.

34

Customer support services include post contract support and the rights to unspecified upgrades and enhancements. Maintenance revenues from ongoing customer support services are billed on a monthly basis and recorded as revenue in the applicable month, or on an annual basis with the revenue being deferred and recognized ratably over the maintenance period. If an arrangement includes multiple elements, the fees are allocated to the various elements based upon vendor-specific objective evidence of fair value.

- o ACCOUNTS RECEIVABLE. We typically extend credit to our customers. Software licenses are generally due in installments within twelve months from the date of delivery. Billings for customer support and consulting services performed on a time and material basis are due upon receipt. From time to time software and consulting services are provided under fixed price contracts where the revenue is only recognized and the payments are only due upon customer acceptance and the achievement of certain milestones. Management estimates the probability of collection of the receivable balances and provides an allowance for doubtful accounts based upon an evaluation of our customers' ability to pay and general economic conditions.
- o VALUATION OF LONG-LIVED AND INTANGIBLE ASSETS AND GOODWILL. We do not amortize goodwill, but instead test goodwill for impairment on an annual basis or more frequently if certain events occur. Goodwill is to be measured for impairment by reporting units, which currently consist of our operating segments. At each impairment test for a business unit, we are required to compare the carrying value of the business unit to the fair value of the business unit. If the fair value exceeds the carrying value, goodwill will not be considered impaired. If the fair value is less than the carrying value, we will perform a second test comparing the implied fair value of reporting

Edgar Filing: ISLAND PACIFIC INC - Form 10-Q/A

unit goodwill with the carrying amount of that goodwill. The difference if any between the carrying amount of that goodwill and the implied fair value will be recognized as an impairment loss, and the carrying amount of the associated goodwill will be reduced to its implied fair value. These tests require us to make estimates and assumptions concerning prices for similar assets and liabilities, if available, or estimates and assumptions for other appropriate valuation techniques.

For our intangible assets with finite lives, including our capitalized software and non-compete agreements, we assess impairment at least annually or whenever events and circumstances suggest the carrying value of an asset may not be recoverable based on the net future cash flows expected to be generated from the asset on an undiscounted basis. When we determine that the carrying value of intangibles with finite lives may not be recoverable, we measure any impairment based on a projected discounted cash flow method using a discount rate determined by our management to be commensurate with the risk inherent in our current business model.

- o APPLICATION DEVELOPMENT. The costs to develop new software products and enhancements to existing software products are expensed as incurred until technological feasibility has been established. Technological Feasibility has occurred when all planning, designing, coding and testing have been completed according to design specifications. Once technological feasibility is established, any additional costs would be capitalized, in accordance with SFAS No. 86, "Accounting for the Costs of Computer Software to Be Sold, Leased or Otherwise Marketed".
- o STOCK-BASED COMPENSATION. We do not record compensation expense for options granted to our employees as all options granted under our stock option plans have an exercise price equal to the market value of the underlying common stock on the date of grant. In addition, we do not record compensation expense for shares issued under our employee stock purchase plan. As permitted under SFAS No. 123, "Accounting for Stock-Based Compensation" and SFAS No. 148, "Accounting for Stock-Based Compensation-Transition and Disclosure", we account for costs of stock based compensation in accordance with the provisions of Accounting Principles Board Opinion No. 25, "Accounting for Stock Issued to Employees," and accordingly, discloses the pro forma effect on net income (loss) and related per share amounts using the fair-value method defined in SFAS No. 123, updated by SFAS No. 148.

BUSINESS RISKS

INVESTORS SHOULD CAREFULLY CONSIDER THE FOLLOWING RISK FACTORS AND ALL OTHER INFORMATION CONTAINED IN OUR FORM 10-K/A FOR THE YEAR ENDED MARCH 31, 2004 AND FORM 10-Q/A FOR THE QUARTER ENDED JUNE 30, 2004. INVESTING IN OUR COMMON STOCK INVOLVES A HIGH DEGREE OF RISK. IN ADDITION TO THOSE DESCRIBED BELOW, RISKS AND UNCERTAINTIES THAT ARE NOT PRESENTLY KNOWN TO US OR THAT WE CURRENTLY BELIEVE ARE IMMATERIAL MAY ALSO IMPAIR OUR BUSINESS OPERATIONS. IF ANY OF THE FOLLOWING RISKS OCCUR, OUR BUSINESS COULD BE HARMED, THE PRICE OF OUR COMMON STOCK COULD DECLINE AND OUR INVESTORS MAY LOSE ALL OR PART OF THEIR INVESTMENT. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS IN THIS FORM 10-Q/A.

WE INCURRED LOSSES FOR FISCAL YEARS 2004, 2003 AND 2002.

We incurred losses of \$8.9 million, \$2.7 million and \$14.7 million in the fiscal years ended March 31, 2004, 2003, and 2002 respectively. The losses in the past three years have generally been due to difficulties completing sales for new application software licenses, the resulting change in sales mix toward lower margin services, and debt service expenses. We will need to generate additional revenue to achieve profitability in future periods. If we are unable to achieve profitability, or maintain profitability if achieved, our business and stock price may be adversely effected and we may be unable to continue operations at current levels, if at all.

WE HAD NEGATIVE WORKING CAPITAL IN PRIOR FISCAL YEAR, AND WE HAVE EXTENDED PAYMENT TERMS WITH A NUMBER OF OUR SUPPLIERS.

At June 30, 2004, we had negative working capital of \$7.4 million. We have had difficulty meeting operating expenses, including interest payments on debt, lease payments and supplier obligations. We have at times deferred payroll for our executive officers, and borrowed from related parties to meet payroll obligations. We have extended payment terms with our trade creditors wherever possible.

As a result of extended payment arrangements with suppliers, we may be unable to secure products and services necessary to continue operations at current levels from these suppliers. In that event, we will have to obtain these products and services from other parties, which could result in adverse consequences to our business, operations and financial condition, and we may be unable to obtain these products from other parties on terms acceptable to us, if at all.

OUR REVENUES HAVE DECLINED IN RECENT FISCAL YEARS. WE EXPERIENCED A SUBSTANTIAL DECREASE IN APPLICATION SOFTWARE LICENSE SALES. OUR GROWTH AND PROFITABILITY IS DEPENDENT ON THE SALE OF HIGHER MARGIN LICENSES.

Our revenues decreased by 20% in the fiscal year ended March 31, 2004, compared to the fiscal year ended March 31, 2003. Our revenues decreased by 16% in the fiscal year ended March 31, 2003 compared to the fiscal year ended March 31, 2002. We experienced a substantial decrease in application license software sales in fiscal year 2003 and 2002, which typically carry a much higher margin than other revenue sources. We must improve new application license sales to become profitable. We have taken steps to refocus our sales strategy on core historic competencies, but our typically long sales cycles make it difficult to evaluate whether and when sales will improve. We cannot be sure that the decline in sales has not been due to factors which might continue to negatively affect sales.

OUR FINANCIAL CONDITION MAY INTERFERE WITH OUR ABILITY TO SELL NEW APPLICATION SOFTWARE LICENSES.

Future sales growth may depend on our ability to improve our financial condition. Our past financial condition has made it difficult for us to complete sales of new application software licenses. Because our applications typically require lengthy implementation and extended servicing arrangements, potential customers require assurance that these services will be available for the expected life of the application. These potential customers may defer buying decisions until our financial condition improves, or may choose the products of our competitors whose financial conditions are, or are perceived to be,

Edgar Filing: ISLAND PACIFIC INC - Form 10-Q/A

stronger. Customer deferrals or lost sales will adversely affect our business, financial conditions and results of operations.

36

OUR SALES CYCLES ARE LONG AND PROSPECTS ARE UNCERTAIN. THIS MAKES IT DIFFICULT FOR US TO PREDICT REVENUES AND BUDGET EXPENSES.

The length of sales cycles in our business makes it difficult to evaluate the effectiveness of our sales strategies. Our sales cycles historically have ranged from three to twelve months, which has caused significant fluctuations in revenues from period to period. Due to our difficulties in completing new application software sales in recent periods and our refocused sales strategy, it is difficult to predict revenues and properly budget expenses.

Our software applications are complex and perform or directly affect mission-critical functions across many different functional and geographic areas of the retail enterprise. In many cases, our customers must change established business practices when they install our software. Our sales staff must dedicate significant time consulting with a potential customer concerning the substantial technical and business concerns associated with implementing our products. The purchase of our products is often discretionary, so lengthy sales efforts may not result in a sale. Moreover, it is difficult to predict when a license sale will occur. All of these factors can adversely affect our business, financial condition and results of operations.

OUR OPERATING RESULTS AND REVENUE HAVE FLUCTUATED SIGNIFICANTLY IN THE PAST, AND THEY MAY CONTINUE TO DO SO IN THE FUTURE, WHICH COULD ADVERSELY AFFECT OUR STOCK PRICE.

Our quarterly operating results have fluctuated significantly in the past and may fluctuate in the future as a result of several factors, which are outside of our control including: the size and timing of orders, the general health of the retail industry, the length of our sales cycles and technological changes. If revenue declines in a quarter, our operating results will be adversely affected because many of our expenses are relatively fixed. In particular, sales and marketing, application development and general and administrative expenses do not change significantly with variations in revenue in a quarter. It is likely that in some future quarter our revenues or operating results will be below the expectations of public market analysts or investors. If that happens, our stock price will likely decline.

Further, due to these fluctuations, we do not believe period to period comparisons of our financial performance are necessarily meaningful nor should they be relied on as an indication of our future performance.

WE MAY EXPERIENCE SEASONAL DECLINES IN SALES, WHICH COULD CAUSE OUR OPERATING RESULTS TO FALL SHORT OF EXPECTATIONS IN SOME QUARTERS.

We may experience slower sales of our applications and services from October through December of each year as a result of retailers' focus on the holiday retail-shopping season. This can negatively affect revenues in our third fiscal quarter and in other quarters, depending on our sales cycles.

OUR DEBT COULD ADVERSELY AFFECT US.

Edgar Filing: ISLAND PACIFIC INC - Form 10-Q/A

As of July 31, 2004, our debt, including any accrued interest, is as follows:

- o \$1.3 million in convertible debenture issued in March 2004 to Midsummer Investment, Ltd. due in full in May 2006, with monthly redemptions to commence in September 2004.
- o \$0.5 million in promissory note issued in June 2004 to Intuit Inc. due in full on June 1, 2006, payable in monthly installments.
- o \$1.9 million in promissory notes issued in June 2004 to RTI's noteholders due on May 1, 2005, payable in monthly installments.
- o \$2.6 million in promissory notes issued in June 2004 to Michael Tomczak and Jeffrey Boone due on June 1, 2006, payable in monthly installments.
- o \$7.0 million in a secured convertible term note issued to Laurus Master Fund, Ltd. in July 2004, matures on September 1, 2004, subject to automatic extension if we increase our authorized shares after such action is approved by our stockholders'.

37

The substantial amount of our indebtedness impacts us in a number of ways:

- o We have to dedicate a portion of cash flow from operations to principal and interest payments on the debt, which reduces funds available for other purposes.
- o We may not have sufficient funds to pay principal and/or interest when they become due resulting in a default, which could lead to our debt holders exercising rights under their respective debt instruments, including, without limitation, declaring debt immediately due and payable or taking possession or control of the assets that secure the respective debt instruments.

These are just some factors pertaining to our debt that generally place us at a disadvantage to our less leveraged competitors. Any or all of these factors could cause our stock price to decline.

WE MAY NEED TO RAISE CAPITAL TO GROW OUR BUSINESS. OBTAINING THIS CAPITAL COULD IMPAIR THE VALUE OF YOUR INVESTMENT.

We may need to raise further capital to:

- o pay our debts outstanding at July 31, 2004 as set forth above;
- o support unanticipated capital requirements;
- o take advantage of acquisition or expansion opportunities;
- o continue our current development efforts;

Edgar Filing: ISLAND PACIFIC INC - Form 10-Q/A

- o develop new applications or services; or
- o address working capital needs.

Our future capital requirements depend on many factors including our application development, sales and marketing activities. We do not know whether additional financing will be available when needed, or available on terms acceptable to us. If we cannot raise needed funds for the above purposes on acceptable terms, we may be forced to curtail some or all of the above activities and we may not be able to grow our business or respond to competitive pressures or unanticipated developments.

We may raise capital through public or private equity offerings or debt financings. To the extent we raise additional capital by issuing equity securities or convertible debt securities, our stockholders may experience substantial dilution and the new securities may have greater rights, preferences or privileges than our existing common stock.

INTANGIBLE ASSETS MAY BE IMPAIRED MAKING IT MORE DIFFICULT TO OBTAIN FINANCING.

Goodwill, capitalized software, non-compete agreements and other intangible assets represent approximately 86% of our total assets as of June 30, 2004. We may have to impair or write-off these assets, which will cause a charge to earnings and could cause our stock price to decline. Any such impairment will also reduce our assets, as well as the ratio of our assets to our liabilities. These balance sheet effects could make it more difficult for us to obtain capital, and could make the terms of capital we do obtain more unfavorable to our existing stockholders.

FOREIGN CURRENCY FLUCTUATIONS MAY IMPAIR OUR COMPETITIVE POSITION AND AFFECT OUR OPERATING RESULTS.

Fluctuations in currency exchange rates affect the prices of our applications and services and our expenses, and foreign currency losses will negatively affect profitability or increase losses. Approximately 80%, 19 % and 1% of our revenues were in the Americas, Europe and Asia, respectively, in the three months ended June 30, 2004. Approximately 90%, 10% and 0% of our revenues were in the Americas, Europe and Asia, respectively, in the three months ended June 30, 2003. Many of our expenses related to foreign revenues, such as corporate level administrative overhead and development, are denominated in U.S. dollars. When accounts receivable and accounts payable arising from international revenues and services are converted to U.S. dollars, the resulting gain or loss contributes to fluctuations in our operating results. We do not hedge against foreign currency exchange rate risks.

38

HISTORICALLY WE HAVE BEEN DEPENDENT ON A SMALL NUMBER OF CUSTOMERS FOR A SIGNIFICANT AMOUNT OF OUR BUSINESS.

One customer accounted for 12% of our consolidated revenues in the quarter ended June 30, 2004. Another customer accounted for 24% in the quarter ended June 30, 2003.

IF WE LOSE THE SERVICES OF ANY MEMBER OF OUR SENIOR MANAGEMENT OR KEY TECHNICAL

Edgar Filing: ISLAND PACIFIC INC - Form 10-Q/A

AND SALES PERSONNEL, OR IF WE ARE UNABLE TO RETAIN OR ATTRACT ADDITIONAL TECHNICAL PERSONNEL, OUR ABILITY TO CONDUCT AND EXPAND OUR BUSINESS WILL BE IMPAIRED.

We are heavily dependent on our Chief Operating Officer, Michael Tomczak, and our Chief Technology, Jeffrey Boone. We are also heavily dependent on our former Chairman, Barry Schechter, who remains a consultant to us. We also believe our future success will depend largely upon our ability to attract and retain highly-skilled software programmers, managers, and sales and marketing personnel. Competition for personnel is intense, particularly in international markets. The software industry is characterized by a high level of employee mobility and aggressive recruiting of skilled personnel. We compete against numerous companies, including larger, more established companies, for our personnel. We may not be successful in attracting or retaining skilled sales, technical and managerial personnel. The loss of key employees or our inability to attract and retain other qualified employees could negatively affect our financial performance and cause our stock price to decline.

WE ARE DEPENDENT ON THE RETAIL INDUSTRY, AND IF ECONOMIC CONDITIONS IN THE RETAIL INDUSTRY FURTHER DECLINE, OUR REVENUES MAY ALSO DECLINE. RETAIL SALES HAVE BEEN AND MAY CONTINUE TO BE SLOW.

Our future growth is critically dependent on increased sales to the retail industry. We derive the substantial majority of our revenues from the licensing of software applications and the performance of related professional and consulting services to the retail industry. The retail industry as a whole is currently experiencing increased competition and weakening economic conditions that could negatively impact the industry and our customers' ability to pay for our products and services. In addition, the retail industry may be consolidating, and it is uncertain how consolidation will affect the industry. Such consolidation and weakening economic conditions have in the past, and may in the future, negatively impact our revenues, reduce the demand for our products and may negatively impact our business, operating results and financial condition. Specifically, uncertain economic conditions and the specter of terrorist activities have adversely impacted sales of our software applications, and we believe mid-tier specialty retailers may be reluctant during the current economic climate to make the substantial infrastructure investment that generally accompanies the implementation of our software applications, which may adversely impact our business.

THERE MAY BE AN INCREASE IN CUSTOMER BANKRUPTCIES DUE TO WEAK ECONOMIC CONDITIONS.

We have in the past and may in the future be impacted by customer bankruptcies. During weak economic conditions, such as those currently being experienced in many geographic regions around the world, there is an increased risk that certain of our customers will file bankruptcy. When our customers file bankruptcy, we may be required to forego collection of pre-petition amounts owed, and to repay amounts remitted to us during the 90-day preference period preceding the filing. Accounts receivable balances related to pre-petition amounts may in certain of these instances be large due to extended payment terms for software license fees, and significant billings for consulting and implementation services on large projects. The bankruptcy laws, as well as the specific circumstances of each bankruptcy, may severely limit our ability to collect pre-petition amounts, and may force us to disgorge payments made during the 90-day preference period. We also face risk from international customers who file for bankruptcy protection in foreign jurisdictions, in that the application of foreign bankruptcy laws may be less certain or harder to predict. Although we believe that we have sufficient reserves to cover anticipated customer bankruptcies, there can be no assurance that such reserves will be adequate, and if they are not adequate, our business, operating results and financial condition would be adversely affected.

Edgar Filing: ISLAND PACIFIC INC - Form 10-Q/A

WE MAY NOT BE ABLE TO MAINTAIN OR IMPROVE OUR COMPETITIVE POSITION BECAUSE OF THE INTENSE COMPETITION IN THE RETAIL SOFTWARE INDUSTRY.

39

We conduct business in an industry characterized by intense competition. Most of our competitors are very large companies with an international presence. We must also compete with smaller companies which have been able to develop strong local or regional customer bases. Many of our competitors and potential competitors are more established, benefit from greater name recognition and have significantly greater resources than us. Our competitors may also have lower cost structures and better access to the capital markets than us. As a result, our competitors may be able to respond more quickly than we can to new or emerging technologies and changes in customer requirements. Our competitors may:

- o introduce new technologies that render our existing or future products obsolete, unmarketable or less competitive;
- o make strategic acquisitions or establish cooperative relationships among themselves or with other solution providers, which would increase the ability of their products to address the needs of our customers; and
- o establish or strengthen cooperative relationships with our current or future strategic partners, which would limit our ability to compete through these channels.

We could be forced to reduce prices and suffer reduced margins and market share due to increased competition from providers of offerings similar to, or competitive with, our applications, or from service providers that provide services similar to our services. Competition could also render our technology obsolete.

OUR MARKETS ARE SUBJECT TO RAPID TECHNOLOGICAL CHANGE, SO OUR SUCCESS DEPENDS HEAVILY ON OUR ABILITY TO DEVELOP AND INTRODUCE NEW APPLICATIONS AND RELATED SERVICES.

The retail software industry is characterized by rapid technological change, evolving standards and wide fluctuations in supply and demand. We must cost-effectively develop and introduce new applications and related services that keep pace with technological developments to compete. If we do not gain market acceptance for our existing or new offerings or if we fail to introduce progressive new offerings in a timely or cost-effective manner, our financial performance will suffer.

The success of application enhancements and new applications depends on a variety of factors, including technology selection and specification, timely and efficient completion of design, and effective sales and marketing efforts. In developing new applications and services, we may:

- o Fail to respond to technological changes in a timely or cost-effective manner;
- o Encounter applications, capabilities or technologies developed by others that render our applications and services obsolete or non-competitive or that shorten the life cycles of our

Edgar Filing: ISLAND PACIFIC INC - Form 10-Q/A

existing applications and services;

- o Experience difficulties that could delay or prevent the successful development, introduction and marketing of these new applications and services; or
- o Fail to achieve market acceptance of our applications and services.

The life cycles of our applications are difficult to estimate, particularly in the emerging electronic commerce market. As a result, new applications and enhancements, even if successful, may become obsolete before we recoup our investment.

OUR PROPRIETARY RIGHTS OFFER ONLY LIMITED PROTECTION AND OUR COMPETITORS MAY DEVELOP APPLICATIONS SUBSTANTIALLY SIMILAR TO OUR APPLICATIONS AND USE SIMILAR TECHNOLOGIES WHICH MAY RESULT IN THE LOSS OF CUSTOMERS. WE MAY HAVE TO BRING COSTLY LITIGATION TO PROTECT OUR PROPRIETARY RIGHTS.

40

Our success and competitive position is dependent in part upon our ability to develop and maintain the proprietary aspects of our intellectual property. Our intellectual property includes our trademarks, trade secrets, copyrights and other proprietary information. Our efforts to protect our intellectual property may not be successful. Effective copyright and trade secret protection may be unavailable or limited in some foreign countries. We hold only one patent. Consequently, others may develop, market and sell applications substantially equivalent to ours or utilize technologies similar to those used by us, so long as they do not directly copy our applications or otherwise infringe our intellectual property rights.

We may find it necessary to bring claims or initiate litigation against third parties for infringement of our proprietary rights or to protect our trade secrets. These actions would likely be costly and divert management resources. These actions could also result in counterclaims challenging the validity of our proprietary rights or alleging infringement on our part. The ultimate outcome of any litigation will be difficult to predict.

OUR APPLICATIONS MAY BE SUBJECT TO CLAIMS THEY INFRINGE ON THE PROPRIETARY RIGHTS OF THIRD PARTIES, WHICH MAY EXPOSE US TO LITIGATION.

We may become subject to litigation involving patents or proprietary rights of third parties. Patent and proprietary rights litigation entails substantial legal and other costs, and we do not know if we will have the necessary financial resources to defend or prosecute our rights in connection with any such litigation. Responding to and defending claims related to our intellectual property rights, even ones without merit, can be time consuming and expensive and can divert management's attention from other business matters. In addition, these actions could cause application delivery delays or require us to enter into royalty or license agreements. Royalty or license agreements, if required, may not be available on terms acceptable to us, if they are available at all. Any or all of these outcomes could have a material adverse effect on our business, operating results and financial condition.

DEVELOPMENT AND MARKETING OF OUR OFFERINGS DEPENDS ON STRATEGIC RELATIONSHIPS WITH OTHER COMPANIES. OUR EXISTING STRATEGIC RELATIONSHIPS MAY NOT ENDURE AND MAY NOT DELIVER THE INTENDED BENEFITS, AND WE MAY NOT BE ABLE TO ENTER INTO

Edgar Filing: ISLAND PACIFIC INC - Form 10-Q/A

FUTURE STRATEGIC RELATIONSHIPS.

Since we do not possess all of the technical and marketing resources necessary to develop and market our offerings to target markets, our business strategy substantially depends on our strategic relationships. While some of these relationships are governed by contracts, most are non-exclusive and all may be terminated on short notice by either party. If these relationships terminate or fail to deliver the intended benefits, our development and marketing efforts will be impaired and our revenues may decline. We may not be able to enter into new strategic relationships, which could put us at a disadvantage to those of our competitors, who do successfully exploit strategic relationships.

OUR PRIMARY COMPUTER AND TELECOMMUNICATIONS SYSTEMS ARE IN A LIMITED NUMBER OF GEOGRAPHIC LOCATIONS, WHICH MAKES THEM MORE VULNERABLE TO DAMAGE OR INTERRUPTION. THIS DAMAGE OR INTERRUPTION COULD HARM OUR BUSINESS.

Substantially all of our primary computer and telecommunications systems are located in two geographic areas. These systems are vulnerable to damage or interruption from fire, earthquake, water damage, sabotage, flood, power loss, technical or telecommunications failure or break-ins. Our business interruption insurance may not adequately compensate us for our lost business and will not compensate us for any liability we incur due to our inability to provide services to our customers. Although we have implemented network security measures, our systems are vulnerable to computer viruses, physical or electronic break-ins and similar disruptions. These disruptions could lead to interruptions, delays, loss of data or the inability to service our customers. Any of these occurrences could impair our ability to serve our customers and harm our business.

IF PRODUCT LIABILITY LAWSUITS ARE SUCCESSFULLY BROUGHT AGAINST US, WE MAY INCUR SUBSTANTIAL LIABILITIES AND MAY BE REQUIRED TO LIMIT COMMERCIALIZATION OF OUR APPLICATIONS.

Our business exposes us to product liability risks. Any product liability or other claims brought against us, if successful and of sufficient magnitude, could negatively affect our financial performance and cause our stock price to decline.

41

Our applications are highly complex and sophisticated and they may occasionally contain design defects or software errors that could be difficult to detect and correct. In addition, implementation of our applications may involve customer-specific customization by us or third parties, and may involve integration with systems developed by third parties. These aspects of our business create additional opportunities for errors and defects in our applications and services. Problems in the initial release may be discovered only after the application has been implemented and used over time with different computer systems and in a variety of other applications and environments. Our applications have in the past contained errors that were discovered after they were sold. Our customers have also occasionally experienced difficulties integrating our applications with other hardware or software in their enterprise.

We are not currently aware of any defects in our applications that might give rise to future lawsuits. However, errors or integration problems may be discovered in the future. Such defects, errors or difficulties could result in loss of sales, delays in or elimination of market acceptance, damage to our

Edgar Filing: ISLAND PACIFIC INC - Form 10-Q/A

brand or to our reputation, returns, increased costs and diversion of development resources, redesigns and increased warranty and servicing costs. In addition, third-party products, upon which our applications are dependent, may contain defects which could reduce or undermine entirely the performance of our applications.

Our customers typically use our applications to perform mission-critical functions. As a result, the defects and problems discussed above could result in significant financial or other damage to our customers. Although our sales agreements with our customers typically contain provisions designed to limit our exposure to potential product liability claims, we do not know if these limitations of liability are enforceable or would otherwise protect us from liability for damages to a customer resulting from a defect in one of our applications or the performance of our services. Our product liability insurance may not cover all claims brought against us.

THE SAGE GROUP HAS THE RIGHT TO ACQUIRE A SIGNIFICANT PERCENTAGE OF OUR COMMON STOCK, WHICH IF ACQUIRED BY THE SAGE GROUP, MAY ENABLE THE SAGE GROUP TO EXERCISE EFFECTIVE CONTROL OF US.

The Sage Group beneficially owns approximately 38.2% of our outstanding common stock, including shares the Sage Group has the right to acquire upon conversion of its Series A Convertible Preferred Stock and exercise of its outstanding options. Although the Series A Convertible Preferred Stock is non-voting as to most matters and is redeemable by us, if the Sage Group converts its Series A Convertible Preferred Stock to common stock, it may have effective control over all matters affecting us, including:

- o The election of all of our directors;
- o The allocation of business opportunities that may be suitable for the Sage Group and us;
- o Any determinations with respect to mergers or other business combinations involving us;
- o The acquisition or disposition of assets or businesses by us;
- o Debt and equity financing, including future issuance of our common stock or other securities;
- o Amendments to our charter documents;
- o The payment of dividends on our common stock; and
- o Determinations with respect to our tax returns.

THE SAGE GROUP'S POTENTIAL INFLUENCE ON OUR COMPANY COULD MAKE IT DIFFICULT FOR ANOTHER COMPANY TO ACQUIRE US, WHICH COULD DEPRESS OUR STOCK PRICE.

The Sage Group beneficially owns a significant percentage of our common stock. In addition, two of the current members of our board of directors are employed by a subsidiary of the Sage Group. The Sage Group's potential effective voting control could discourage others from initiating any potential merger, takeover or other change of control transaction that may otherwise be beneficial to our business or our stockholders. As a result, the Sage Group's potential effective control could reduce the price that investors may be willing to pay in the future for shares of our stock, or could prevent any party from attempting to acquire us at any price.

Edgar Filing: ISLAND PACIFIC INC - Form 10-Q/A

OUR STOCK PRICE HAS BEEN HIGHLY VOLATILE.

The market price of our common stock has been, and is likely to continue to be, volatile. When we or our competitors announce new customer orders or services, change pricing policies, experience quarterly fluctuations in operating results, announce strategic relationships or acquisitions, change earnings estimates, experience government regulatory actions or suffer from generally adverse economic conditions, our stock price could be affected. Some of the volatility in our stock price may be unrelated to our performance. Recently, companies similar to ours have experienced extreme price fluctuations, often for reasons unrelated to their performance.

WE HAVE NEVER PAID A DIVIDEND ON OUR COMMON STOCK NOR DO WE INTEND TO PAY DIVIDENDS ON OUR COMMON STOCK IN THE FORESEEABLE FUTURE.

We have not previously paid any cash or other dividend on our common stock. We anticipate that we will use our earnings and cash flow for repayment of indebtedness, to support our operations, and for future growth, and we do not have any plans to pay dividends in the foreseeable future. Holders of our Series A and Series B Convertible Preferred Stock are entitled to dividends in preference and priority to common stockholders. Future equity financing(s) may further restrict our ability to pay dividends.

THE TERMS OF OUR PREFERRED STOCK MAY REDUCE THE VALUE OF YOUR COMMON STOCK.

We are authorized to issue up to 5,000,000 shares of preferred stock in one or more series. We issued 141,000 shares of Series A Convertible Preferred Stock in May 2002 and 2,517,232 shares of Series B Convertible Preferred Stock in June 2004. Our board of directors may determine the terms of subsequent series of preferred stock without further action by our stockholders. If we issue additional preferred stock, it could affect your rights or reduce the value of your common stock. In particular, specific rights granted to future holders of preferred stock could be used to restrict our ability to merge with or sell our assets to a third party. These terms may include voting rights, preferences as to dividends and liquidation, conversion and redemption rights, and sinking fund provisions. We are actively seeking capital, and some of the arrangements we are considering may involve the issuance of preferred stock.

FAILURE TO COMPLY WITH THE AMERICAN STOCK EXCHANGE'S LISTING STANDARDS COULD RESULT IN OUR DELISTING FROM THAT EXCHANGE AND LIMIT THE ABILITY TO SELL ANY OF OUR COMMON STOCK.

Our stock is currently traded on the American Stock Exchange. The Exchange has published certain guidelines it uses in determining whether a security warrants continued listing. Pursuant to these guidelines the Exchange will consider suspending trading in a listed security or delisting a security when, in the opinion of the Exchange: (i) the financial condition and/or operating results of the issuer appear to be unsatisfactory; (ii) the aggregate market value of the security has become so reduced as to make further dealings on the Exchange inadvisable; (iii) the issuer has sold or otherwise disposed of its principal operating assets, or has ceased to be an operating company; (iv) the issuer has failed to comply with its listing agreements with the Exchange; or (v) any other event shall occur or any condition shall exist which makes further dealings on the Exchange unwarranted. As a result of our financial condition or other factors, the American Stock Exchange could in the future determine that our stock does not merit continued listing. If our stock were delisted from the American Stock Exchange, the ability of our stockholders to sell our common

Edgar Filing: ISLAND PACIFIC INC - Form 10-Q/A

stock could become limited, and we would lose the advantage of some state and federal securities regulations imposing lower regulatory burdens on exchange-traded issuers.

SHARES ISSUABLE UPON THE EXERCISE OF OPTIONS, WARRANTS, DEBENTURES AND CONVERTIBLE NOTES OR UNDER ANTI-DILUTION PROVISIONS IN CERTAIN AGREEMENTS COULD DILUTE YOUR STOCK HOLDINGS AND ADVERSELY AFFECT OUR STOCK PRICE.

We have issued options and warrants to acquire common stock to our employees and certain other persons at various prices, some of which are or may in the future have exercise prices at below the market price of our stock. We currently have outstanding options and warrants for 32,271,203 shares. Of these options and warrants, as of July 31, 2004, 26,864,459 have exercise prices above the recent market price of \$0.52 per share, and 5,406,744 have exercise prices at or below that recent market price. If exercised, these options and warrants will cause immediate and possibly substantial dilution to our stockholders.

Our existing stock option plan currently has approximately 973,485 shares available for issuance as of July 31, 2004. Future options issued under the plan may have further dilutive effects.

43

Sales of shares issued pursuant to exercisable options, warrants, convertible notes or anti-dilution provisions could lead to subsequent sales of the shares in the public market, and could depress the market price of our stock by creating an excess in supply of shares for sale. Issuance of these shares and sale of these shares in the public market could also impair our ability to raise capital by selling equity securities.

ALL OF OUR AUTHORIZED COMMON STOCK IS ISSUED AND OUTSTANDING OR IS RESERVED FOR ISSUANCE PURSUANT TO EXERCISE OF OUTSTANDING OPTIONS OR WARRANTS OR CONVERSION OF DEBENTURES OR PREFERRED STOCK. OUR INABILITY TO ISSUE ADDITIONAL SHARES OF COMMON STOCK IN THE FUTURE MAY LIMIT OUR ABILITY TO RAISE CAPITAL, ENTER STRATEGIC TRANSACTIONS AND SATISFY CONTRACTUAL OBLIGATIONS.

Our authorized capital stock under our Amended and Restated Certificate of Incorporation is 100,000,000 shares of common stock, 54,809,255 of which were issued and outstanding as of July 31, 2004 and 5,000,000 shares of preferred stock consisting of 141,000 shares of Series A Preferred Stock, all of which were issued and outstanding as of July 31, 2004, and 2,517,232 Series B Preferred Stock, all of which were issued and outstanding as of July 31, 2004. In addition, we have 47,237,225 shares of common stock reserved for issuance upon exercise of options or warrants or conversion of debentures or preferred stock. As a result, we have 102,046,480 shares of common stock outstanding or reserved for issuance, which exceeds our authorized shares of common stock by 2,046,480 shares. In addition, the Company has contractual obligations to issue additional shares of common stock to holders of its Series A Preferred Stock and Series B Preferred Stock and to maintain sufficient shares of common stock available for future issuances on exercise of options, warrants and conversion of convertible securities to certain members of management and certain investors pursuant to employment compensation arrangements and securities purchase agreements, which are not currently reserved. We submitted a proposal to amend our Certificate of Incorporation to increase the number of shares of common stock we are authorized to issue from 100,000,000 to 250,000,000 to our stockholders at our annual meeting on August 11, 2004. We did not receive sufficient votes to approve the amendment to the Certificate of Incorporation at

Edgar Filing: ISLAND PACIFIC INC - Form 10-Q/A

that time and have adjourned the meeting until August 27, 2004 to provide us time to secure additional votes sufficient to effect such amendment. However, there can be no assurances that such a proposal will be approved by the requisite vote of the stockholders. If we are unable to increase our authorized common stock our ability to obtain additional capital through sales of our common stock, to engage in acquisitions or other strategic transactions and to satisfy contractual commitments will be severely limited.

WE MAY BE UNABLE TO SUCCESSFULLY INTEGRATE OUR OPERATIONS WITH PAGE DIGITAL OR RTI OR REALIZE ALL OF THE ANTICIPATED BENEFITS OF THESE ACQUISITIONS.

On January 30, 2004, we acquired Page Digital and on June 1, 2004, we acquired Retail Technologies, Inc. (see "Recent Transactions" below). These acquisitions involve integrating two companies that previously operated independently into Island Pacific. These integrations will be complex, costly and time-consuming processes. The difficulties of combining these companies' operations include, among other things:

- o Coordinating geographically disparate organizations, systems and facilities;
- o Strain on management resources due to integration demands;
- o Integrating personnel with diverse business backgrounds;
- o Consolidating corporate and administrative functions;
- o Coordinating product development;
- o Coordinating sales and marketing functions;
- o Retaining key employees; and
- o Preserving relationships with key customers.

BUSINESS RISKS FACED BY PAGE DIGITAL COULD DISADVANTAGE OUR BUSINESS.

Page Digital is a developer of multi-channel commerce software and faces several business risks that could disadvantage our business. These risks include many of the risks that we face, described above, as well as:

44

- o LONG AND VARIABLE SALES CYCLES MAKE IT DIFFICULT TO PREDICT OPERATING RESULTS - Historically, the period between initial contact with a prospective customer and the licensing of Page Digital's products has ranged from one to twelve months. Page Digital's average sales cycle is currently three months. The licensing of Page Digital's products is often an enterprise wide decision by customers that involves a significant commitment of resources by Page Digital and its prospective customer. Customers generally consider a wide range of issues before committing to purchase Page Digital's products, including product benefits, cost and time of implementation, ability to operate with existing and future computer systems, ability to accommodate increased transaction volume and product reliability. As a part of the sales process, Page

Edgar Filing: ISLAND PACIFIC INC - Form 10-Q/A

Digital spends a significant amount of resources informing prospective customers about the use and benefits of Page Digital products, which may not result in a sale, therefore increasing operating expenses. As a result of this sales cycle, Page Digital's revenues are unpredictable and could vary significantly from quarter to quarter causing our operating results to vary significantly from quarter to quarter.

- DEFECTS IN PRODUCTS COULD DIMINISH DEMAND FOR PRODUCTS AND RESULT IN LOSS OF REVENUES - From time to time errors or defects may be found in Page Digital's existing, new or enhanced products, resulting in delays in shipping, loss of revenues or injury to Page Digital's reputation. Page Digital's customers use its products for business critical applications. Any defects, errors or other performance problems could result in damage to Page Digital's customers' businesses. These customers could seek significant compensation from Page Digital for any losses. Further, errors or defects in Page Digital's products may be caused by defects in third-party software incorporated into Page Digital products. If so, Page Digital may not be able to fix these defects without the assistance of the software providers.
- FAILURE TO FORMALIZE AND MAINTAIN RELATIONSHIPS WITH SYSTEMS INTEGRATORS COULD REDUCE REVENUES AND HARM PAGE DIGITAL'S ABILITY TO IMPLEMENT PRODUCTS - A significant portion of Page Digital's sales are influenced by the recommendations of systems integrators, consulting firms and other third parties who assist with the implementation and maintenance of Page Digital's products. These third parties are under no obligation to recommend or support Page Digital's products. Failing to maintain strong relationships with these third parties could result in a shift by these third parties toward favoring competing products, which could negatively affect Page Digital's software license and service revenues.
- PAGE DIGITAL'S PRODUCT MARKETS ARE SUBJECT TO RAPID TECHNOLOGICAL CHANGE, SO PAGE DIGITAL'S SUCCESS DEPENDS HEAVILY ON ITS ABILITY TO DEVELOP AND INTRODUCE NEW APPLICATIONS AND RELATED SERVICES - The retail software industry is characterized by rapid technological change, evolving standards and wide fluctuations in supply and demand. Page Digital must cost-effectively develop and introduce new applications and related services that keep pace with technological developments to compete. If Page Digital fails to gain market acceptance for its existing or new offerings or if Page Digital fails to introduce progressive new offerings in a timely or cost-effective manner, our financial performance may suffer.
- FAILURE TO PROTECT PROPRIETARY RIGHTS OR INTELLECTUAL PROPERTY, OR INTELLECTUAL PROPERTY INFRINGEMENT CLAIMS AGAINST PAGE DIGITAL COULD RESULT IN PAGE DIGITAL LOSING VALUABLE ASSETS OR BECOMING SUBJECT TO COSTLY AND TIME-CONSUMING LITIGATION - Page Digital's success and ability to compete depend on its proprietary rights and intellectual property. Page Digital relies on trademark, trade secret and copyright

laws to protect its proprietary rights and intellectual property. Page Digital also has one issued patent. Despite Page Digital's efforts to protect intellectual property, a third party could obtain access to Page Digital's software source code or other proprietary information without authorization, or could independently duplicate Page Digital's software. Page Digital may need to litigate to enforce intellectual property rights. If Page Digital is unable to protect its intellectual property it may lose a valuable asset. Further, third parties could claim Page Digital has infringed their intellectual property rights. Any claims, regardless of merit, could be costly and time-consuming to defend.

- o COMPETITION IN THE SOFTWARE MARKET IS INTENSE AND COULD REDUCE PAGE DIGITAL'S SALES OR PREVENT THEM FROM ACHIEVING PROFITABILITY - The market for Page Digital's products is intensely competitive and subject to rapid technological change. Competition is likely to result in price reductions, reduced gross margins and loss of Page Digital's market share, any one of which could reduce future revenues or earnings. Further, most of Page Digital's competitors are large companies with greater resources, broader customer relationships, greater name recognition and an international presence. As a result, Page Digital's competitors may be able to better respond to new and emerging technologies and customer demands.

BUSINESS RISKS FACED BY RTI COULD DISADVANTAGE OUR BUSINESS.

RTI is a provider of retail management store solutions to small through mid-tier retailers via an international network of retailers and faces several business risks that could disadvantage our business. These risks include many of the risks that we face, described above, as well as:

- o RTI FACES INTENSE COMPETITION IN THE RETAIL POINT OF SALE INDUSTRY - RTI operates in an extremely competitive industry, which is subject to rapid technological and market changes. We anticipate that the competition will increase as more companies focus on providing technology solutions to small and mid-tier retailers. Many of our current and potential competitors, such as Microsoft, have more resources to devote to product development, marketing and distribution. While RTI believes that it has competitive strengths in its market, there can be no assurance that RTI will continue to compete successfully against larger more established competitors.
- o RTI IS DEPENDENT ON THEIR VALUE-ADDED RESELLERS (VARs) - RTI does not have a direct sales force and relies on VARs to distribute and sell its products. RTI currently has approximately 67 VARs - 27 in North America, 7 in South America, 11 in Asia, 19 in Europe and the Middle East, 1 in Africa, and 1 each in Australia and New Zealand. Combined, RTI's four largest VARs account for approximately 35% of its revenues, although no one is over 15%. RTI's VARs are independently owned businesses and there can be no assurance that one or more will not go out of business or cease to sell RTI products. Until a replacement VAR could be recruited, and trained, or until an existing VAR could expand into the

Edgar Filing: ISLAND PACIFIC INC - Form 10-Q/A

vacated territory, such a loss could result in a disruption in RTI's revenue and profitability. Furthermore, there can be no assurance that an adequate replacement could be located.

- o A PROLONGED SLOWDOWN IN THE GLOBAL ECONOMY COULD ADVERSELY IMPACT RTI'S REVENUES - A slowdown in the global economy might lead to decreased capital spending, fewer new retail business start ups, and slower new store expansion at existing retail businesses. Such conditions, even on a regional basis could severely impact one or more of RTI's VARs and result to a disruption in RTI's revenues, and profitability.

46

- o RTI'S PRODUCT MARKETS ARE SUBJECT TO RAPID TECHNOLOGICAL CHANGE, SO RTI'S SUCCESS DEPENDS HEAVILY ON ITS ABILITY TO DEVELOP AND INTRODUCE NEW APPLICATIONS AND RELATED SERVICES - We believe RTI's ability to succeed in its market is partially dependent on its ability to identify new product opportunities and rapidly, cost-effectively bring them to market. However, there is no guarantee that they will be able to gain market acceptance for any new products. In addition, there is no guarantee that one of RTI competitors will not be able to bring competing applications to market faster or market them more effectively. Failure to successfully develop new products, bring them to market and gain market acceptance could result in decreased market share and ultimately have a material adverse affect on RTI.
- o RTI DOES NOT HOLD ANY PATENTS OR COPYRIGHTS, ANY TERMINATION OF OR ADVERSE CHANGE TO RTI'S LICENSE RIGHTS COULD HAVE A MATERIAL ADVERSE EFFECT ON ITS BUSINESS - RTI has a license to develop, modify, market, sell, and support its core technology from a third party. Any termination of, or disruption in this license could have a material adverse affect on RTI's business. Further, we believe that most of the technology used in the design and development of RTI's core products is widely available to others. Consequently, there can be no assurance that others will not develop, and market applications that are similar to RTI's, or utilize technologies that are equivalent to RTI's. Likewise, while RTI believes that its products do not infringe on any third party's intellectual property, there can be no assurance that they will not become involved in litigation involving intellectual property rights. If such litigation did occur, it could have a material adverse affect on RTI's business.

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

Market risk represents the risk of loss that may impact our consolidated financial position, results of operations or cash flows. We are exposed to market risks, which include changes in foreign currency exchange rate as measured against the U.S. dollar.

INTEREST RATE RISK

We do not have debt or borrowings with variable rate term.

Edgar Filing: ISLAND PACIFIC INC - Form 10-Q/A

FOREIGN CURRENCY EXCHANGE RATE RISK

We conduct business in various foreign currencies, primarily in Europe. Sales are typically denominated in the local foreign currency, which creates exposures to changes in exchange rates. These changes in the foreign currency exchange rates as measured against the U.S. dollar may positively or negatively affect our sales, gross margins and retained earnings. We attempt to minimize currency exposure risk through decentralized sales, development, marketing and support operations, in which substantially all costs are local-currency based. There can be no assurance that such an approach will be successful, especially in the event of a significant and sudden decline in the value of the foreign currency. We do not hedge against foreign currency risk. Approximately 18% and 10% of our total revenues were denominated in currencies other than the U.S. dollar for the three months ended June 30, 2004 and 2003, respectively.

EQUITY PRICE RISK

We have no direct equity investments.

47

ITEM 4. CONTROLS AND PROCEDURES

Our management, including our principal executive officer and principal financial and accounting officer, have conducted an evaluation of the effectiveness of our disclosure controls and procedures, as such term is defined under Rule 13a-15(e) promulgated under the Securities Exchange Act of 1934, as amended (the "Exchange Act"), that were in effect at the end of the period covered by this report. Based on their evaluation, our principal executive officer and principal financial and accounting officer have concluded that our disclosure controls and procedures that were in effect on June 30, 2004 were effective to ensure that all material information relating to us that is required to be included in the reports that we file with the SEC is recorded, processed, summarized and reported, within the time periods specified in the SEC's rules and forms. There have been no changes in internal controls over financial reporting that were identified during the evaluation that occurred during our last fiscal quarter that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

PART II. OTHER INFORMATION

ITEM 1. LEGAL PROCEEDINGS

Except as discussed in the footnotes to our interim financial statements (see Note 14), we are not involved in any material legal proceedings, other than ordinary routine litigation proceedings incidental to our business, none of which are expected to have a material adverse effect on our financial position or results of operations. However, litigation is subject to inherent uncertainties, and an adverse result in existing or other matters may arise from time to time which may harm our business.

ITEM 2. CHANGES IN SECURITIES AND USE OF PROCEEDS

During the quarter ended June 30, 2004, we issued:

Edgar Filing: ISLAND PACIFIC INC - Form 10-Q/A

- o 1,546,733 shares of common stock to Intuit, Inc. in connection with the acquisition of RTI.
- o an aggregate of 2,517,232 shares of Series B Convertible Preferred Stock to Michael Tomczak, our COO and President, and Jeffrey Boone, our CTO, in connection with acquisition of RTI.
- o Options to purchase 1,572,364 and 1,772,364 shares of common stock at an exercise price of \$0.77 per share to Messrs. Boone and Tomczak, respectively, in accordance with their employment agreements.
- o Warrants to purchase an aggregate of 20,000 shares of common stock at exercise prices of \$0.75 and \$1.05 per share to a consulting firm for investor relation services rendered.

The foregoing securities were offered and sold without registration under the Securities Act of 1933 to sophisticated investors who had access to all information which would have been in a registration statement, in reliance upon the exemption provided by Section 4(2) under such Act and Regulation D thereunder.
