INFORMATION ABOUT THE ANNUAL MEETING AND VOTING

1. *What is being voted on at the Annual Meeting?*

The matters to be considered and voted upon at the Annual Meeting are as follows:

- 1. Election of Directors.** To elect thirteen (13) members of the Board of Directors who shall hold office until the next annual meeting of stockholders and until their successors are duly elected and qualified.

Table of Contents

- 2. Ratification of Appointment of Independent Auditors.** To approve a proposal to ratify the appointment of KPMG LLP as independent auditors for the Company for the fiscal year ending December 31, 2011.
- 3. Advisory Vote on Executive Compensation.** To consider and vote upon an advisory (non-binding) proposal to approve the compensation of the Company's named executive officers.
- 4. Frequency of Future Advisory Votes on Executive Compensation.** To consider and vote upon an advisory (non-binding) proposal regarding whether an advisory vote on the compensation of the Company's named executive officers should be held every one, two or three years.
- 5. Adjournments.** To consider and act upon a proposal to approve, if necessary, an adjournment or postponement of the Annual Meeting to solicit additional proxies.
- 6. Other Business.** To consider and act upon such other business and matters or proposals as may properly come before the Annual Meeting or any adjournments or postponements thereof.

2. *Who is entitled to vote? How many votes am I entitled to?*

Only stockholders of record as of the close of business on March 25, 2011 (the "Record Date") may vote at the Annual Meeting. According to Wells Fargo Shareowner Services, our transfer agent, there were 35,461,609 shares of common stock outstanding, excluding 1,756,437 shares of unvested time-based and performance-based restricted stock, held by approximately 1,661 stockholders as of the Record Date.

Each holder of the Company's common stock is entitled to one vote for each share recorded in their name on the books of the Company as of the Record Date on any matter submitted to the stockholders for a vote, except that stockholders may vote their shares cumulatively for the election of directors if certain conditions are met at the Annual Meeting. Cumulative voting provides each stockholder with a number of votes equal to the number of directors to be elected multiplied by the number of shares held by such stockholder, which such stockholder can then vote in favor of one or more nominees. For example, if you held 100 shares as of the Record Date, you would be entitled to 1,300 votes which you could then distribute among one or more nominees since there are thirteen (13) directors to be elected. Cumulative voting may only be exercised at the Annual Meeting if (i) the name of the candidate or candidates for whom such votes would be cast has been placed in nomination prior to the voting; and (ii) at least one stockholder has given notice at the Annual Meeting prior to the voting of such stockholder's intention to cumulate his/her votes.

3. *What is the vote necessary to approve each of the matters being considered at the Annual Meeting?*

The election of directors requires a plurality of the votes cast for the election of directors. Accordingly, the thirteen (13) directorships to be filled at the Annual Meeting will be filled by the nominees receiving the highest number of votes. In the election of directors, votes may be cast in favor or withheld with respect to any or all nominees. Votes that are withheld will be excluded entirely from the vote and will have no effect on the outcome of the vote.

The affirmative vote of the holders of a majority of the shares of common stock present at the Annual Meeting in person or by proxy and entitled to vote is required to approve (1) the ratification of the reappointment of KPMG LLP, (2) the advisory approval of the compensation of the Company's named executive officers, (3) the recommendation of the frequency of future advisory votes on the compensation of the Company's named executive officers, (4) any adjournment or postponement of the Meeting to solicit additional proxies, and (5) any other matters not included in this document that may properly be brought before the Annual Meeting.

The recommendation of the frequency of future advisory votes on executive compensation permits stockholders to vote for a frequency of one, two or three calendar years. As a result, it is possible that

Table of Contents

no option receives the affirmative vote of the holders of a majority of the shares of common stock present at the Annual Meeting in person or by proxy and entitled to vote. If no frequency receives the affirmative vote of a majority on the matter, we will consider the frequency for future advisory votes on executive compensation receiving the greatest number of votes to be the frequency (every one, two or three years) recommended by stockholders.

With respect to each matter to be acted upon, an abstention from voting will be treated as "present" for quorum purposes (other than in the election of directors). As such, shares present but not voted because of abstention will have the effect of a vote against the proposal to ratify the appointment of KPMG LLP as our independent auditor and the advisory vote on executive compensation but no effect on the outcome of the advisory vote on the frequency of future advisory votes on executive compensation. Broker non-votes (i.e., proxies from banks, brokers or other nominees indicating that such entities have not received instructions from the beneficial owners or other persons entitled to vote as to a matter which such bank, broker or other nominee does not have discretionary power to vote) will be treated as "present" for quorum purposes, but will not have an impact on the vote on any proposal.

4. *If I hold shares of PacWest Bancorp common stock pursuant to the PacWest Bancorp 401(k) Plan, will I be able to vote?*

Yes. You will receive a proxy card for the shares allocated to your 401(k) plan account, which you should return as indicated on the instructions accompanying the proxy card.

5. *How does the Board of Directors recommend I vote?*

The Board of Directors recommends a vote FOR each of the nominees for director, a vote to select "3 years" for the proposal regarding the frequency of future advisory votes on the compensation of the Company's named executive officers, and a vote FOR each of the other proposals.

6. *How many shares must be represented at the Annual Meeting to constitute a "quorum"?*

A majority of the outstanding shares must be present at the Annual Meeting, either in person or by proxy, to constitute a quorum. There must be a quorum for the Annual Meeting to be held. If you return a signed proxy card, you will be counted as being present, even if you abstain from voting. Broker non-votes will also be counted as being present for purposes of determining a quorum.

7. *What do I have to do to vote?*

Holders of record. If you are a holder of record (that is, if your shares are registered in your own name with our transfer agent), you may vote by Internet or by telephone as indicated on the proxy card. You may also vote by mail by marking, signing and dating the enclosed proxy card and returning it in the enclosed postage-paid envelope. If you mark the proxy card to show how you wish to vote, your shares will be voted as you direct. If you return a signed proxy card but do not mark the proxy card to show how you wish to vote, your shares will be voted FOR each of the Board of Directors' nominees for election as directors, FOR the ratification of the appointment of KPMG LLP as independent auditors, FOR the approval, on an advisory basis, of the compensation of the Company's named executive officers, FOR the selection of "3 years" for the proposal regarding the frequency of future advisory votes on the compensation of the Company's named executive officers, FOR adjournment or postponement of the Annual Meeting to solicit additional proxies, if needed, and otherwise in accordance with the judgment of the person or persons voting the proxy on any other

Table of Contents

matter properly brought before the Annual Meeting. You may change or revoke your vote at any time before it is counted at the Annual Meeting by:

Notifying our Secretary at the address shown above in writing that you wish to revoke your proxy;

Submitting a later dated proxy card; or

Attending the Annual Meeting and voting in person.

Attending the Annual Meeting will not automatically revoke your prior proxy. You must comply with one of the methods indicated above in order to revoke your proxy.

Street name holders. If you hold your shares in "street name" (that is, through a bank, broker or other nominee), you should receive a proxy from your bank or brokerage firm asking you how you want to vote your shares. If you do not receive a proxy, you may contact such bank or brokerage firm in whose name your shares are registered and obtain a proxy from them. Please refer to the information in the materials provided by your bank or brokerage firm for an explanation of how to vote and how to change or revoke your vote and of the effect of not indicating a vote.

8. *How will voting on any other business be conducted?*

We do not know of any business to be considered at the Annual Meeting other than the election of directors, the ratification of the appointment of KPMG LLP as the Company's independent auditors, the approval, on an advisory basis, of the compensation of the Company's named executive officers and the approval, on an advisory basis, of the frequency of an advisory vote on the compensation of the Company's named executive officers (and, if needed, adjournment or postponement of the Annual Meeting to solicit additional proxies). For holders of record, if any other business is properly presented at the Annual Meeting, any of the persons named on the proxy card as your designated proxies may vote on such matter in their discretion. If you hold your shares in "street name," please see the materials provided by your bank or brokerage firm for an explanation of how your shares will be voted on any other business.

9. *Who pays the cost of soliciting proxies on behalf of the Company?*

The Company will pay the cost of preparing, assembling and mailing the proxy materials and soliciting proxies for the Annual Meeting. In addition to the solicitation of proxies by mail, solicitation may be made by certain directors, officers and employees of the Company or its subsidiaries telephonically, electronically or by other means of communication. Such directors, officers and employees will receive no additional compensation for their services. We will reimburse brokers and other nominees for costs incurred by them in mailing proxy materials to beneficial owners in accordance with applicable rules.

10. *Can I attend the Annual Meeting?*

Any stockholder entitled to vote at the Annual Meeting may attend the Annual Meeting and vote in person. You will need to bring a picture identification. If you hold shares in "street name" and would like to attend the Annual Meeting and vote in person, you will need to bring a picture identification and a brokerage account statement or other acceptable evidence of ownership of common stock as of the Record Date. Alternatively, in order to vote, you may contact the person in whose name your shares are registered and obtain a proxy from that person and bring it to the Annual Meeting.

11. *How do I get more information about the Company?*

With this Proxy Statement, we are also sending you our Annual Report on Form 10-K for the fiscal year ended December 31, 2010, which includes our consolidated financial statements. If you did not receive our Annual Report, we will send it to you without charge. Our Annual Report includes a

Cumulative Voting and Vote Required

Each holder of PacWest common stock may vote their shares cumulatively for the election of directors if certain conditions are met at the Annual Meeting. Cumulative voting provides each stockholder with a number of votes equal to the number of directors to be elected multiplied by the number of shares held by such stockholder, which such stockholder can then vote in favor of one or more nominees. For example, if you held 100 shares as of the Record Date, you would be entitled to 1,300 votes which you could then distribute among one or more nominees since there are 13 directors to be elected. Cumulative voting may only be exercised at the Annual Meeting if (1) the name of the candidate or candidates for whom such votes would be cast has been placed in nomination prior to the voting, and (2) at least one stockholder has given notice at the Annual Meeting prior to the voting of such stockholder's intention to cumulate his/her votes.

Directors are elected by a plurality of votes cast for election of directors. Accordingly, the 13 director positions to be filled at the Annual Meeting will be filled by the nominees receiving the highest number of votes. In the election of directors, votes may be cast in favor or withheld with respect to any or all nominees. Votes that are withheld will be excluded entirely from the vote and will have no effect on the outcome of the vote.

Recommendation of the PacWest Board of Directors

The PacWest Board of Directors recommends a vote "FOR" all of the nominees listed above. Unless a contrary choice is specified, proxies solicited by the Board of Directors will be voted FOR each nominee listed above.

PROPOSAL 2: RATIFICATION OF THE APPOINTMENT OF INDEPENDENT AUDITORS

The Company's Audit Committee has appointed the firm of KPMG LLP as independent auditors for PacWest for the fiscal year ending December 31, 2011, and is submitting its selection for ratification by our stockholders. KPMG LLP has served as our independent auditors since the Company's formation in 2000. Subject to the matters discussed under the section entitled "Report of the Audit Committee," the Audit Committee carefully considered the firm's qualifications as independent auditors for PacWest. This included a review of the qualifications of the engagement team, the quality control procedures the firm has established and any issues raised by the most recent quality control review of the firm. The Audit Committee's review also included the matters regarding auditor independence discussed under the section entitled "Audit Committee Report," including whether the nature and extent of non-audit services would impair the independence of the auditors. Services provided to the Company and its subsidiaries by KPMG LLP in fiscal 2010 are described under the section entitled "Independent Auditors Independent Auditor Fees" below.

The Company's organizational documents do not require that stockholders ratify the appointment of KPMG LLP as the Company's independent auditor. The Company is doing so because the Board of Directors believes it is a matter of good corporate practice. If the stockholders do not ratify the appointment of KPMG LLP, the Audit Committee will consider the appointment of other independent auditors, but is not required to do so. The Audit Committee retains the power to replace the independent auditors whose appointment was ratified by stockholders if the Audit Committee determines that the best interests of PacWest warrant a change of its independent auditors.

A representative of KPMG LLP is expected to be present at the Annual Meeting and will have an opportunity to make a statement if he or she desires to do so. KPMG LLP's representative is expected to be available to respond to appropriate questions.

Vote Required and Recommendation of the PacWest Board of Directors

The affirmative vote of at least a majority of the shares of common stock present at the Annual Meeting in person or by proxy and entitled to vote is required to approve the ratification of the appointment of the independent auditors.

The PacWest Board of Directors recommends a vote "FOR" ratification of the appointment of KPMG LLP as the Company's independent auditors for the fiscal year ending December 31, 2011.

PROPOSAL 3: ADVISORY VOTE TO APPROVE EXECUTIVE COMPENSATION

Pursuant to Section 14A of the Exchange Act, we are seeking advisory stockholder approval of the compensation of our Named Executive Officers, as disclosed in this Proxy Statement.

As described in the section entitled "Executive Compensation Compensation Discussion and Analysis" beginning on page 24 of this Proxy Statement, the Company's goal for its executive compensation program is to link a substantial portion of executive compensation to the financial strength, long-term profitability and risk management of the Company, as well as to align the interests of our executive officers with the interests of our stockholders. The Company believes that its executive compensation program satisfies these goals. The Company requests stockholder approval of the compensation of the Company's Named Executive Officers as disclosed in this Proxy Statement

Table of Contents

pursuant to the SEC's compensation disclosure rules (which disclosure includes the Compensation Committee Report, the Compensation Discussion and Analysis, and the compensation tables).

This proposal, commonly known as a "say-on-pay" proposal, gives our stockholders the opportunity to express their views on the compensation of our Named Executive Officers. This vote is not intended to address any specific item of compensation, but rather our overall compensation policies and procedures relating to our Named Executive Officers described in this Proxy Statement. Accordingly, your vote will not directly affect or otherwise limit any existing compensation or award arrangement of any of our Named Executive Officers.

As an advisory vote, this proposal is not binding upon the Board or the Company. However, the CNG Committee, which is responsible for designing and administering the Company's executive compensation program, values the opinions expressed by stockholders in their vote on this proposal, and will consider the outcome of the vote when making future compensation decisions for Named Executive Officers.

Vote Required and Recommendation of the PacWest Board of Directors

The affirmative vote of at least a majority of the shares of common stock present at the Annual Meeting, in person or by proxy and entitled to vote, is required to approve the compensation of our Named Executive Officers as disclosed in this Proxy Statement.

The PacWest Board of Directors recommends a vote "FOR" advisory approval of the compensation of our Named Executive Officers as disclosed in this Proxy Statement pursuant to the disclosure rules of the SEC.

PROPOSAL 4: ADVISORY VOTE ON THE FREQUENCY OF FUTURE ADVISORY VOTES ON EXECUTIVE COMPENSATION

Pursuant to Section 14A of the Exchange Act, we are seeking advisory stockholder approval of the frequency of advisory stockholder votes on the compensation of our Named Executive Officers. By voting on this proposal, stockholders may indicate whether they would prefer a vote on Named Executive Officer compensation once every one, two, or three years.

After careful consideration of this Proposal, PacWest's Board has determined that an advisory vote on the compensation of our Named Executive Officers that occurs every three years is the most appropriate alternative for PacWest, and therefore our Board recommends that you vote for a three-year interval for the advisory vote on the compensation of our Named Executive Officers.

As described in the section entitled "Executive Compensation Compensation Discussion and Analysis" beginning on page 24 of this Proxy Statement, our executive compensation program is designed with a focus on long-term stockholder value creation. The Board intends that the program be responsive to stockholder interests, but is concerned that annual votes on the program could foster a short-term focus and undermine some of the program's most thoughtful features.

A triennial vote will allow stockholders to evaluate the effects of any changes to compensation plans and programs. Since long-term stockholder value creation is measured over a time frame longer than one year, the effects of changes made during a year, particularly those correlated to corporate performance, will not typically be evident in time for the stockholders to consider as they vote at the following year's annual meeting.

Table of Contents

An annual vote would not allow for the impact of changes to the Company's executive compensation program to be disclosed to the stockholders by the following stockholder advisory vote. For example, if the vote in May 2011 led to changes to the compensation program being made in January 2012 (at the beginning of the next fiscal year), those changes would be in place only a few months before the next annual vote would take place in May 2012. Incentive compensation payments made based on the changed programs would not be paid until January 2013, and therefore even the first year of results of the compensation actions would not be available until the 2013 annual meeting.

The Board will continue to engage in communication with our stockholders on executive compensation during the period between stockholder votes. As discussed under the section entitled "Communications with the Board of Directors" on page 42, the Company provides stockholders with an opportunity to communicate with the Board, including on issues of executive compensation.

You may cast your vote on your preferred voting frequency by choosing the option of one year, two years, three years or abstain from voting. Although the advisory vote is non-binding, our Board values the opinions of our stockholders and will consider the outcome of the vote when determining the frequency of advisory votes on the compensation of our Named Executive Officers. However, because this vote is advisory and not binding on the Board or PacWest in any way, the Board may decide that it is in the best interests of our stockholders and PacWest to hold an advisory vote on the compensation of our Named Executive Officers more or less frequently than the option approved by our stockholders. A frequency vote similar to this will occur at least once every six years.

Vote Required and Recommendation of the PacWest Board of Directors

The affirmative vote of at least a majority of the shares of common stock present at the Annual Meeting, in person or by proxy and entitled to vote, is required to approve one of the selections under this advisory proposal. It is possible that no option receives the affirmative vote of the holders of a majority of the shares of common stock present at the Annual Meeting in person or by proxy and entitled to vote. If no frequency receives the affirmative vote of a majority on the matter, we will consider the frequency for future advisory votes on executive compensation receiving the greatest number of votes (every one, two or three years) to be the frequency recommended by stockholders.

The PacWest Board of Directors recommends a vote for the option of "3 Years" as the frequency with which stockholders are provided an advisory vote on the compensation of our Named Executive Officers.

CORPORATE GOVERNANCE AND BOARD COMMITTEES

The Company is committed to maintaining good corporate governance practices and adhering to high standards of ethical conduct. The Board regularly reviews its governance procedures to ensure compliance with rapidly changing laws, rules and regulations that govern the Company's business. The Company's website at www.pacwestbancorp.com includes important information regarding Company policies and Board charters, including the Company's Corporate Governance Guidelines and its Code of Business Conduct and Ethics, and all of the Company's SEC filings and press releases, among other information.

During the fiscal year 2010, the Board of Directors of the Company met nine times. The independent directors also met four times in executive session during 2010. The sessions of the independent directors were presided over by Mr. Stephen Dunn, who was elected by the independent directors as lead independent director and has served in that capacity since May 2009. No director attended less than 75% of the Company's Board meetings and Committee meetings on which he or she served during 2010. In 2010, nine directors attended the 2010 Annual Meeting of Stockholders. The Board's policy regarding director attendance at the Annual Meeting of Stockholders is that directors are welcome to attend, and that the Company will make all appropriate arrangements for directors that choose to attend and reimburse their reasonable expenses in connection therewith.

Independence

A majority of the Board is composed of independent directors. At least annually, the Board, with the assistance of the CNG Committee, evaluates the independence of the directors based on the independence requirements of the Nasdaq listing standards and applicable SEC rules and regulations.

In March 2011, the Board affirmatively determined, upon the recommendation of the CNG Committee, that each director who served the Company during 2010 and each director and director nominee, with the exceptions of Mr. Eggemeyer, Mr. Platt and Mr. Wagner, meets the independence requirements of the Nasdaq listing standards and applicable SEC rules and regulations, including the independence requirements for committee membership. In making such determinations, the Board evaluated banking, commercial, service, familial or other transactions involving each director or immediate family member and their related interests and the Company, if any. For further information on Mr. Eggemeyer's relationship with the Company, please see the section entitled "Certain Relationships and Transactions with Related Persons" on page 39 of this Proxy Statement.

Board's Role in Risk Oversight

We believe that effective risk management is of primary importance to the success of our Company. We have a comprehensive risk management process that monitors, evaluates and manages the risks we assume in conducting our activities. Our Board's oversight of this risk management process is conducted through the responsibilities of the Board's standing committees: the Asset Liability Management Committee, Audit Committee, CNG Committee and Credit Risk Committee. As described in more detail below, each of these committees is responsible for monitoring components of risk and the Company's exposure to such risks. The Committees each report to the Board and the Board has overall responsibility for ensuring that overall risk awareness and risk management is appropriate. As a general matter, except for cases where a particular committee may choose to meet in executive session, all Board members are invited to attend (but not required to attend) the regular meetings of all Board committees, and our Board meetings are designed to facilitate attendance by all members. We believe that this open and collaborative structure provides for a more informed Board of

Directors and also helps the Board understand and monitor the various internal and external risks to which the Company may be exposed.

Asset Liability Management ("ALM") Committee

During 2010, the ALM Committee met four times. The ALM Committee monitors compliance by the Company and its subsidiaries with the Company's ALM policies and receives reports from the Company's executive management ALM committee, which oversees the management of the Company's investment portfolio and asset/liability strategy on a day-to-day basis. The objective of the Company's ALM policy is to manage balance sheet and off-balance sheet assets and liabilities in order to maximize the spread between interest earned and interest paid, to maintain acceptable levels of interest rate risk, and to ensure that the Company has the ability to pay liabilities as they come due and fund continued asset growth. The executive management members responsible for managing the Company's ALM activities generally meet monthly to discuss ALM activities. The ALM Committee reviews management reports and management's recommendations for the Company's ALM strategies on a going forward basis, and oversees management's development and implementation of asset/liability pricing in order to attain the overall strategic objectives of the Company.

Audit Committee

During 2010, the Audit Committee met 12 times. The Board has determined that each member of the Audit Committee is financially literate and that each of Mr. Carlson, Mr. Langley and Ms. Lester is qualified as an audit committee financial expert and that each of them has accounting or related financial management expertise, in each case in accordance with the rules of the SEC and the listing standards of Nasdaq. For additional information regarding the background and relevant experience of Mr. Carlson, Mr. Langley and Ms. Lester, please see the biographies of director nominees under the section entitled "Proposal 1: Election of Directors," beginning on page 10 of this Proxy Statement. Information regarding the functions performed by the Audit Committee is set forth in the "Audit Committee Report" included in this Proxy Statement, as well as in the Audit Committee charter. The charter of the Audit Committee was last amended as of May 2010, a copy of which may be obtained on the Company's website at <http://www.pacwestbancorp.com> under the section entitled "Corporate Governance."

Compensation, Nominating and Governance ("CNG") Committee

During 2010, the CNG Committee met five times. The CNG Committee reviews and approves, or makes recommendations to the Board of Directors on matters concerning, the salaries and benefits, including equity compensation, of the Company's executive officers, compensation of the directors, and director independence. The CNG Committee also reviews and approves the Company's incentive compensation plans and equity-based plans, 401(k) plans and other employee benefit plans. The CNG Committee assists the Board of Directors in promoting the best interests of the Company and its stockholders through the implementation of sound corporate governance principles and practices, including the review and approval or ratification of related-party transactions of the Company. The CNG Committee also makes recommendations to the Board of Directors regarding the composition and size of the Board and its committees. In furtherance thereof, the CNG Committee identifies, evaluates and recommends candidates for the Company's Board of Directors and considers nominees for directors nominated by the Company's stockholders in accordance with the Company's bylaws. The CNG Committee operates under a charter that was last amended as of May 2010, a copy of which may be obtained on the Company's website at www.pacwestbancorp.com under the section entitled "Corporate Governance."

In identifying and recommending nominees for positions on the Board of Directors, the CNG Committee places primary emphasis on the criteria set forth under "Selection of Directors" in our

Table of Contents

Corporate Governance Guidelines, namely: (1) personal qualities and characteristics, accomplishments and professional reputation; (2) current knowledge and contacts in the communities in which the Company does business and in the Company's industry or other industries relevant to the Company's business; (3) ability and willingness to commit adequate time to Board and committee matters; (4) the fit of the individual's skills and personality with those of other directors and potential directors in building a Board that is effective, collegial and responsive to the needs of the Company; (5) diversity of viewpoints, backgrounds, experience and geographical location; and (6) the ability and skill set required and other relevant experience. In addition, under the terms of the stock purchase agreement with CapGen Financial Group entered into in September 2008, CapGen was entitled to nominate one individual to the Company's Board of Directors. CapGen's nominee to the Company's Board of Directors was Mr. Rose. The CNG Committee has continued to recommend the nomination and election of Mr. Rose since that time. Mr. Carlson was referred to the CNG Committee as a candidate for the Board by certain members of the Board and senior management, based on their interaction with and respect for Mr. Carlson during his tenure with the California Department of Financial Institutions. The CNG Committee determined that Mr. Carlson would be a valuable director and recommended his nomination to the Board, which appointed him to the Board in November 2010.

The CNG Committee does not set specific, minimum qualifications that nominees must meet in order for the CNG Committee to recommend them to the Board of Directors, but rather believes that each nominee should be evaluated based on his or her individual merits, taking into account the needs of the Company and the composition of the Board of Directors. Through the Board's annual self-evaluation process, the CNG Committee evaluates the result, including whether the diversity of the Board members is appropriate to advise the Company on its risks and opportunities. Members of the CNG Committee may seek input from other members of the Board in identifying possible candidates, and may, in its discretion, engage one or more search firms to assist in the recruitment of director candidates. The CNG Committee will consider candidates recommended by stockholders against the same criteria as nominees not proposed by stockholders. Stockholders who wish to submit nominees for director for consideration by the CNG Committee for election at our 2012 Annual Meeting should follow the process detailed in the section entitled "Other Business Director Nominations" on page 42 of this Proxy Statement.

For further information on the Company's processes and procedures for the consideration and determination of director compensation, please see the section entitled "Compensation of Directors" on page 20 of this Proxy Statement. For further information on the Company's processes and procedures for the consideration and determination of executive compensation, please see the section entitled "Executive Compensation Compensation Discussion and Analysis" on page 24 of this Proxy Statement.

Credit Risk Committee

During 2010, the Credit Risk Committee met four times. The Credit Risk Committee is responsible for monitoring trends in the Company's loan portfolio and the Company's allowance for credit losses, as well as establishing internal limits related to the Company's lending exposure. The Company's chief credit officer reports on a quarterly basis to the Credit Risk Committee, or more frequently, as needed, regarding the Company's loan portfolio and allowance for credit losses. The Credit Risk Committee also receives reports from the Company's external loan review consultants.

Executive Committee

During 2010, the Executive Committee met two times. The Executive Committee reviews and makes recommendations to the Board of Directors with respect to strategy, acquisitions and other opportunities for the Company and acts on behalf of the Board, to the full extent permitted by law, when it is impractical for the full Board to meet. In addition, the Executive Committee is a forum to

review other significant matters not addressed by the other Board committees and to make appropriate recommendations to the Board of Directors.

Family Relationships

There are no family relationships among any of the directors or executive officers of the Company.

Compensation Committee Interlocks and Insider Participation

During 2010, Mr. Dunn, Mr. Fitzpatrick, Mr. Matz, Mr. Messer and Mr. Stine served on the CNG Committee. None of these directors was formerly an officer or employee of the Company or any of its subsidiaries. No executive officer of the Company serves on the board of directors of any other company that has one or more executive officers serving as a member of the CNG Committee. In addition, no executive officer of the Company serves as a member of the compensation committee of the board of any other company that has one or more executive officers serving as a member of the Company's Board of Directors. No such interlocking relationships existed during 2010.

COMPENSATION OF DIRECTORS

The Company compensates its non-management directors through an annual cash retainer, paid quarterly. The Company does not pay per Board meeting or per committee meeting fees.

The CNG Committee of the Board evaluates director compensation, and compares the compensation of the Company's directors to that offered by peer companies. The Company also subscribes to surveys to further provide information on director compensation at peer companies. The CNG Committee recommends compensation for non-employee directors to the full Board, which in turn determines director compensation for each fiscal year. The compensation is designed to attract and retain qualified directors, and to compensate them for the time and risk associated with being a director. The Company reimburses its directors for their reasonable travel, lodging, food and other expenses incurred in connection with their service on the Board and its committees. The table below details director compensation for 2010.

EXECUTIVE COMPENSATION

Compensation Discussion and Analysis

Overview

In addition to its responsibilities to make recommendations for nominees to the Company's Board and its committees and to oversee the governance and evaluation process of the Board and its committees, it is the duty of the CNG Committee to administer the Company's compensation system and various incentive plans, including the Company's 2003 Stock Incentive Plan, which we refer to as the Incentive Plan, and the Executive Incentive Plan, or EIC Plan. The CNG Committee reviews and approves compensation levels of members of executive management, including the five executives who are identified in the 2010 Summary Compensation Table on page 32 of this Proxy Statement (whom we refer to as our Named Executive Officers), evaluates the performance of the executive management team and considers executive management succession and related matters. With respect to the

Table of Contents

compensation of the CEO, the CNG Committee evaluates and recommends such compensation to the Board for approval annually. The CNG Committee reviews with the Board, at least annually, all material aspects of compensation for the Company's executive officers.

Compensation Philosophy and Objectives

The primary goal of our compensation program is to link a substantial portion of executive compensation to the financial strength, long-term profitability and risk management of the Company. The CNG Committee achieves this goal by tying meaningful grants of equity compensation and an annual cash bonus to significant measures of financial and non-financial performance, as provided in the EIC Plan.

The second goal of our compensation program is to align the interests of our executive officers with the interests of our stockholders. We attempt to accomplish this by establishing performance goals for incentive compensation and performance-based restricted stock that are also tied to financial objectives that are meaningful to our stockholders, such as growth in EPS and other measures of financial strength that promote the long-term success of the Company.

The third goal of the compensation program is to retain highly competent executives. Our executives, and particularly our Named Executive Officers, are talented managers and they are often presented with opportunities at other institutions, including opportunities at potentially higher compensation levels. The Company does not currently have employment agreements with any of its employees. Accordingly, we seek to retain our executives by setting base compensation and incentives at competitive levels and by awarding meaningful stock-based awards. The CNG Committee reviews executive compensation levels paid by peer companies across a range of asset sizes, based on available data, as discussed below. Key elements of compensation to our Named Executive Officers and other executive officers include payout following the achievement of long-range financial and strategic objectives. The CNG Committee intends to pay incentive compensation at the high end of peer group incentive compensation, but only if the Company performs at the high end among peers.

We combine the compensation elements for each of our Named Executive Officers and other executive officers in a way we believe will maximize such executive's contribution to the Company and contribute to the Company's long-term success. The CNG Committee has not established a policy or target for the allocation between either cash and non-cash or short-term and long-term compensation. Rather, the CNG Committee undertakes a subjective analysis in light of the goals described above and, in connection with their analysis, reviews and considers information provided by independent compensation consultants and surveys to which the Company subscribes to determine the appropriate level and mix of base compensation, performance-based pay and other elements of compensation.

Components of Compensation

The Company compensates its executive officers in three ways: base compensation, annual cash bonus opportunity under our EIC Plan, and periodic grants of time-based and performance-based restricted stock under the Incentive Plan. Our executives can defer base salary through our tax-qualified 401(k) plan. In addition, we provide change in control severance protection to our executive officers through our Executive Severance Pay Plan. We also provide certain perquisites to our executive officers, such as an auto allowance or use of a company vehicle, reimbursement of club dues for clubs that are used frequently for business purposes, and life, disability and long-term care insurance. The CNG Committee reviews at least annually all components of compensation payable to the CEO and the other executive officers, in terms of current compensation, long-term and incentive compensation, perquisites and payouts upon or following a change in control of the Company, to ensure that the compensation program is meeting the goals of the Company's compensation philosophy described above. The overall review of compensation is also reviewed by the Board annually.

Table of Contents

Base Salary The CNG Committee reviews the base compensation of the CEO and of the executive officers reporting to him. The CNG Committee makes compensation recommendations for the CEO to the full Board (excluding the CEO). Based on recommendations from the CEO, the CNG Committee evaluates and determines compensation levels for the other members of the Company's executive management team. The CNG Committee reviews banking-related salary survey data related to a peer group as described below under " Annual Review of Executive Compensation Program" and last received external guidance during November 2008 from an independent compensation consultant. The CNG Committee does not tie its base compensation decisions to any particular benchmarks, formulas, measurements or criteria, but the CNG Committee considers the Company's performance, individual executive performance and compensation levels paid by comparable financial institutions, as well as economic conditions in the Company's market areas, and refers to analyses or guidance from consultants during the annual review process.

Annual Cash Bonus Pursuant to the Company's EIC Plan, annual cash bonuses are paid to executives based on the achievement of certain performance targets and satisfactory individual performance. Performance targets may be financial goals or non-financial goals tied to the management of organizational risk, such as the achievement of satisfactory results related to internal audits or regulatory examinations. Not all eligible executive officers will necessarily receive a bonus and not all eligible executive officers will necessarily receive the same bonus. Additional amounts may be paid as bonuses to members of the Company's executive management team who are deemed by the CNG Committee to have achieved superior performance during the fiscal year. Depending on an individual's overall compensation, payments of any amounts to the Named Executive Officers outside of amounts established under the EIC Plan, however, may not be eligible for tax deductibility. The performance target under the EIC Plan generally represents a meaningful increase in the performance target over the previous fiscal year, a significant achievement in a given economic environment, or meaningful goals that balance the performance of the Company and return to stockholders with prudent risk management. Financial performance targets corresponding to achievement of a payout equal to a participant's target bonus are typically set at levels equal to the Company's budgeted financial performance for the current fiscal year. The achievement levels and corresponding award opportunities are not determined by the CNG Committee based on any set formula or pre-determined methodology, but rather reflect the subjective analysis and determination by the CNG Committee as to the appropriate incentive to focus management on the profitability, targeted growth and corresponding management of risk for the Company.

Stock-Based Awards Stock-based awards granted to executive officers of the Company under the Incentive Plan may be granted from time to time at the discretion of the CNG Committee upon its own determination or recommendation from the CEO, and may be granted to the CEO upon recommendation of the CNG Committee and approval of the Board. Typically, the CNG Committee decides whether to approve the grant of equity awards, and the terms of such grant, after discussion with executive management presenting the grant proposals. Awards of long-term incentive compensation in the form of restricted stock grants to our Named Executive Officers and other executive officers generally occur during the first quarter along with the formal annual evaluation of such executive's total compensation. Additionally, grants may also coincide with promotions or the vesting of a previous grant. In considering whether to recommend the grant of an equity award and the size of the grant to be awarded, the CNG Committee considers, with respect to the executive officer, the salary level, the contributions expected toward the strategic growth, financial strength, risk management and profitability of the Company. The CNG Committee also evaluates survey data indicating grants made to similarly situated officers at comparable financial institutions, as detailed in reports or peer groups advised by its consultants, as described below under " Annual Review of Executive Compensation Program."

Table of Contents

Since 2003, the Company has granted time-based and performance-based restricted stock in lieu of granting stock options as incentive compensation. Although the Company has not granted stock options recently, it reserves the right to do so in the future pursuant to the terms of the Incentive Plan. While stock options and time-based restricted stock link an executive's interests to those of stockholders, they do not have a performance component or measure. Performance-based restricted stock, however, has a performance component and the Company has historically used performance-based restricted stock to tie the incentive pay of executives to the performance of the Company. Because restricted stock, both performance-based and time-based, generally has value whether or not the Company's stock price fluctuates, the Company can grant fewer shares of restricted stock compared to stock options, resulting in less dilution to stockholders. The value of both time-based and performance-based restricted stock fluctuates directly with changes in our stock price and, with respect to performance-based restricted stock, only vests to the extent that specific internal financial performance targets are achieved. If the minimum or set performance targets are not achieved, no vesting occurs and the granted shares are forfeited. Amortization of all performance-based restricted stock was suspended in the fourth quarter of 2007 and the accumulated amortization was reversed in the fourth quarter of 2008 when management determined that it would be improbable to achieve the financial targets. All granted shares accelerate vesting upon a change in control of the Company, as defined in the Incentive Plan. On all grants to date of time-based and performance-based restricted stock, the Company has elected to pay dividends to the grantee on such shares prior to vesting at the same rate as dividends are paid to stockholders generally. Dividends paid prior to vesting are treated as compensation to the grantee and taxed at ordinary income rates for tax purposes.

401(k) Plan. Our 401(k) plan allows executives and other participants to defer a portion of their compensation and, for 2010, the Company provided participants a match of 1.5% of contributions up to 6% of their base salaries, subject to IRS limitations. We currently have no tax-deferred investment alternatives for our executive officers other than our 401(k) Plan.

Change in Control Protection. The Company has adopted an Executive Severance Pay Plan, or the Severance Plan, which provides for severance compensation for our executive officers in the event of termination without "cause" or for "good reason" (as each is defined in the Severance Plan) within two years following a change in control. The purposes of the Severance Plan are to assist in recruiting, encourage retention and minimize the uncertainty and distraction caused by the potential for bank acquisitions, and to allow our executive officers to focus on performance by providing transition assistance if there is a change in control. In addition, the program is intended to align executive and stockholder interests by enabling the executive officers to consider corporate transactions that are in the best interests of the stockholders and other constituents of the Company without undue concern over whether the transactions may jeopardize the executives' own employment. The Severance Plan requires that there be both a change in control and an involuntary termination without "cause" or a voluntary termination for "good reason", which is often referred to as a "double-trigger." Under the double-trigger formula, the Company's successor is obligated to make payments under the Severance Plan only if the executive is actually or constructively discharged as a result of the change in control. In addition, under the Company's Incentive Plan, all granted equity awards fully vest upon a change in control. The Company determined that accelerated vesting is appropriate under this circumstance as a means to attract and retain executives in light of the uncertainty that accompanies consolidation in the banking sector. For more information on the Severance Plan, please see the section entitled "Potential Payments on Termination and Change in Control" beginning on page 34 of this Proxy Statement.

Risk Management

Through the Company's compensation program, the CNG Committee attempts to balance appropriate compensation and performance incentives with the Company's risk profile. Specifically, the CNG Committee alters the performance measures under the EIC Plan, for a given year, based on

Table of Contents

financial and operating metrics the Company seeks to achieve. For example, in a particular year, net operating earnings may be a performance measure but have a lower weight than a prior year. In the current operating environment, in determining target award opportunities under the EIC Plan, the CNG Committee has placed less emphasis on earnings and loan growth than in prior years, and more emphasis on deposit growth and overall risk management (through the use of composite regulatory rating as a performance measure). Additionally, the CNG Committee has made grants of time-based restricted stock in lieu of performance-based restricted stock, in order to balance the ratio of time-based and performance-based restricted stock of the Company's executives, and to place more emphasis on steady achievement than performance goals that have a higher level of volatility and lower level of probability. These changes were adopted in part in response to recommendations of the Company's outside compensation consultant engaged in November 2008. See " Annual Review of Executive Compensation Program" below.

Annual Review of Executive Compensation Program

Generally, an overall review of compensation is conducted by the CNG Committee at the end of each fiscal year in advance of salary and compensation recommendations made at the beginning of the subsequent fiscal year in conjunction with the annual budgeting process. The CNG Committee last engaged an outside consultant at the end of 2008 to help evaluate the overall compensation program for its executive officers and to help determine compensation for 2009. No compensation consultant was engaged in 2009 or 2010 for the determination of 2010 or 2011 compensation. However, the CNG Committee further implemented during 2009 and 2010 many of the recommendations made by the outside consultant at the end of 2008.

The consultant analyzed the Company's total compensation program, including retention and incentive goals, against a peer group of publicly traded, regional financial institutions. The analysis included data generated from a variety of surveys and peer groups. The peer group against which the Company evaluated its compensation ranged in assets from \$3 billion to \$12 billion and included the following financial institutions: Bank of Hawaii Corporation, Boston Private Financial Holdings, Inc., Capitol Bancorp, Ltd., Cathay General Bancorp, Columbia Banking System Inc., CVB Financial Corp., East West Bancorp, Pacific Capital Bancorp, Pinnacle Financial Partners, Inc., Private Bancorp, Sterling Bancshares, SVB Financial Group, Umpqua Holdings Corp, and Westamerica Bancorporation. The compensation consultant reviewed total compensation elements relative to these peers and the Company's financial performance relative to the peer group.

Overall, the compensation consultant determined that during the prior fiscal year, referring to 2007, and for the average of the prior three fiscal years, the Company's financial performance was in the top 25 percentile relative to the peer group for several financial ratios. The consultant also determined that total cash compensation levels for the Named Executive Officers were between the median and the top 25 percentile of the peer group. The compensation consultant also determined that the intended value of long-term incentive compensation, including performance-based restricted stock, was targeted at the higher end of the market. However, the consultant noted that much of the granted performance-based stock was unlikely to vest, and accordingly its incentive value and retention value were low to the executives. The consultant noted that previous grants of performance-based restricted stock intended as both retention tools and incentive compensation were granted with goals so far in the future as to make such goals unrealistic. In addition, such goals were overly weighted on all-or-nothing performance measures.

Table of Contents

The compensation consultant recommended that the CNG Committee develop a more balanced policy for making stock grants. In particular, the consultant advised the Company to revise its policy relating to stock grants to make more regular, periodic grants of both time-based and performance-based restricted stock. The consultant also recommended that grants of time-based restricted stock be made annually or less frequently and should provide for annual vesting components. The consultant also recommended that grants of performance-based restricted stock should be set based on incentive-based objectives attainable over a shorter horizon than the Company typically set previously. In addition, the consultant recommended that the Company broaden the range of goals under the Company's EIC plan. Noting that in two of the prior three years no cash bonuses were awarded despite the relatively strong financial performance of the Company, the consultant recommended that goals for awarding annual cash bonuses include more than one performance measure, with each performance target weighted as a percentage of the overall cash bonus.

As a result of these recommendations, the CNG Committee adopted an internal restricted stock grant policy that provides a framework for making grants that would provide for more balance between grants of time-based and performance-based restricted stock and also reduce the performance horizon for performance-based goals. It is expected that any future grants of time-based or performance-based restricted stock to the Company's executive officers would be made pursuant to this framework. Additionally, the CNG Committee approved EIC Plan targets for 2010 that included a broader set of performance measures, as described below under "2010 Executive Compensation."

2010 Executive Compensation

The CNG Committee (and the Board, in the case of the CEO) reviewed and approved the compensation of Matthew Wagner, the CEO, Victor Santoro, the CFO, and each of the other Named Executive Officers and executive officers for 2010.

2010 Base Salary. The CNG Committee approved 2010 base salaries in February 2010, to take effect March 1, 2010. For 2010, the CNG Committee approved an increase in the base salary for Mr. Wolff in light of increased responsibilities Mr. Wolff assumed in mid-2009. No other change in base salaries or in potential cash bonus compensation was approved or recommended by the CNG Committee with respect to the Named Executive Officers for 2010. The CNG Committee had last increased base salaries, and reduced potential cash bonus compensation, for the Named Executive Officers and certain other executive officers in 2008. Mr. Wagner's base salary and potential cash bonus opportunity was last raised in February 2007.

2010 Annual Bonus/EIC Plan Awards. The CNG Committee established the performance targets, achievement levels and corresponding award opportunities under the EIC Plan in March 2010 for 2010 cash bonuses, which were paid in February 2011 based on subsequent approval. Annual cash bonus opportunities for each of the Named Executive Officers, except for the CEO, were set for 2010 at 60% of base salary. Mr. Wagner's annual cash bonus opportunity for 2010 under the EIC Plan was set at 100% of base salary. Below are the target award opportunities for each category of participant under the EIC Plan:

Participant	Target Award Opportunities
CEO	100% of Base Salary
Other Executive Officers ⁽¹⁾	60% of Base Salary
Officers (grade B) ⁽²⁾	50% of Base Salary
Officers (grade C) ⁽²⁾	10% to 30% of Base Salary

(1) Includes each of the other Named Executive Officers and an additional 11 executive officers, grades 2, 3 and A.

(2) Includes 22 officers in grade B and 54 officers in grade C.

Table of Contents

Three performance measures were established and each assigned a weight, representing the percentage of the target bonus that such performance measures represented. The performance measures for 2010 were net operating earnings, core deposit growth and composite regulatory rating. Achievement of budgeted net operating earnings and core deposit growth corresponded to a 100% payout of that performance measure's bonus weight.

The following are the target performance measures, weights and corresponding award opportunities that were approved for the Company's executive officers for 2010:

Performance Measure	Weight	Performance and Corresponding Payout of Target Award Opportunity		
		75%	100%	110%
Net Earnings	30%	80% of Budget	Budget	120% of Budget
Core Deposit Growth	30%	80% of Budget	Budget	120% of Budget
Composite Regulatory Rating	30%	Lower range	Current range	Current range and 110% payout of at least 2 other targets
Loan Growth	10%	80% of Budget	Budget	120% of Budget

For 2010, net earnings was set at \$34.0 million, which represented budgeted net earnings. Budgeted net earnings for 2010 represented an increase over the net loss in 2009 of \$9.4 million. Budgeted net earnings for 2010 was based on, and subject to, expectations of stabilization of the economy and the credit environment. Core deposit growth was set at 7% and represented a meaningful increase over the prior year as the Company's momentum continued to positively attract high quality deposits and reflected the Company's expectation of deposit growth organically and through FDIC acquisitions. Deposit growth was budgeted based on expectations for core deposits, which excludes growth in certificates of deposit and any brokered deposits. Composite regulatory rating was based on maintaining a composite regulatory rating that would permit the Company and the Bank to operate comfortably in the current environment. Loan growth was budgeted for 3%. It was set at a modest level for 2010 in light of the continuing uncertainty of the economic climate and the Company's efforts to manage risk.

During 2010, the CNG Committee determined that the Company increased core deposits by 13.1%, well in excess of the 7% growth goal, corresponding to 187% of its growth target and a 110% payout. The CNG Committee also determined that the Company met its composite regulatory rating at target levels corresponding to 100% payout, and that the Company increased loans by 3.9%, or 132% of its growth target and corresponding to a 110% payout. The CNG Committee determined that the Company did not meet the minimum threshold for payout of the net operating earnings performance target since the Company incurred a net loss for 2010. Accordingly, the Company achieved performance targets at a level corresponding to payment to participants in the EIC of approximately 76% of their respective target bonuses. In light of these accomplishments, the CNG awarded to the Named Executive Officers (other than the CEO) cash bonuses under the EIC plan equal to 80% of their target bonus opportunities and recommended to the Board that the CEO be awarded a cash bonus equal to 80% of his bonus opportunity, which the Board approved. The Company had fully accrued for payout at the 80% level during 2010.

Stock-Based Awards. During 2010, the CNG Committee (or the Board, upon recommendation of the CNG Committee, in the case of Mr. Wagner) awarded certain time-based restricted stock awards to the Named Executive Officers or other executive officers. Mr. Wagner was awarded 100,000 shares, each of Mr. Santoro and Mr. Wolff were awarded 50,000 shares, Mr. Perdue was awarded 30,000 shares, and Mr. Cecala was awarded 25,000 shares. Each of the awards were for shares of restricted stock that vest over four years, with the first third vesting after two years, an additional third after the

Table of Contents

third year and the remaining third after the fourth year. In granting the restricted stock awards to the Named Executive Officers and other executive officers, the CNG Committee (and the Board, in the case of Mr. Wagner) determined that these grants were an important element of the overall compensation program, in light of base salaries and other components of compensation, and would provide appropriate compensation and retention for the Company's key employees.

Statement Regarding Deductibility

Under Internal Revenue Code Section 162(m), the Company's tax deduction may be limited to the extent total compensation paid to "covered officers" exceeds \$1 million in any one tax year. Applicable IRS regulations define "covered officers" to include the CEO and each of the next three most highly compensated executive officers (but excluding in all cases the CFO). The deduction limit does not apply to payments that qualify as "performance-based" provided certain requirements are met, including receipt of stockholder approval of the plan under which such performance-based payments are made. Regulations under Section 162(m) also permit stock options to be excluded from compensation if certain conditions are met, but restricted stock and restricted stock awards (other than performance-based stock and performance-based stock awards) may not be exempt if the aggregate compensation of the executive officer would exceed the limit. The CNG Committee believes that all performance-based restricted stock granted under the Incentive Plan meet these conditions. Generally, it is the intent of the CNG Committee to structure the Company's cash and stock-based compensation programs so that compensation payments and stock-based awards are tax deductible. In 2010, the Company's stockholders approved the Company's EIC Plan, in order to ensure future bonus awards under that plan meet the requirements for deductibility under Section 162(m). However, the CNG Committee reserves the discretion to make payments or stock-based awards that are not tax deductible. As described above, the CNG Committee awarded, and in the case of Mr. Wagner recommended to the Board and the Board awarded bonus compensation under the EIC Plan to the Company's executive officers in excess of the performance payout under the EIC Plan. Additionally, certain performance targets used in the EIC Plan for 2010 were not set forth in the plan approved by stockholders. As a result of such awards, a portion of Mr. Wagner's compensation was not deductible as compensation expense under Section 162(m). For the reasons described above, the Company believes that such awards were in the best interests of the Company and that the portion of compensation that was not deductible was an acceptable cost to the Company in light of the Company's overall compensation goals and objectives.

Potential Payments on Termination and Change in Control

Edgar Filing: PACWEST BANCORP - Form DEF 14A

Change in Control Severance Plan. The Company has an Executive Severance Pay Plan, or the Severance Plan, in which the Named Executive Officers, and other company officers, are participants. The Severance Plan provides severance to participants in the event of a change in control and, within two years thereof, termination of employment by a participant for Good Reason or termination of a participant other than for Cause. Under those circumstances, the Company will (i) provide or pay, as

Table of Contents

the case may be, the participant (a) his or her accrued base salary and benefits through termination, plus his or her pro rata target annual bonus for the year in which the participant is terminated, and (b) a designated multiple of the participant's annual compensation (annual base salary plus annual target bonus, auto allowance and club dues) and (ii) provide the participant and his or her dependents with medical, dental and vision coverage for the number of years corresponding to the participant's severance multiple, unless the participant obtains other health coverage. If a participant is subject to any excise tax imposed under Section 4999 of the Internal Revenue Code by reason of a change in control, then the Company will pay to the participant an amount as specified in the Severance Plan. In consideration for the severance, a participant will be subject to a non-solicitation covenant following any termination of his or her employment for the number of years corresponding to the participant's severance multiple. Mr. Wagner has a severance multiple of three and each of the other Named Executive Officers has a severance multiple of two. The Severance Plan is administered by the Company's CNG Committee and was last approved on November 4, 2009.

Under the Severance Plan:

a "Change in Control" generally means (1) a change in the majority control of the Company; (2) a change in the majority (two-thirds under the Incentive Plan) control of the Company's Board of Directors; or (3) the consummation of certain business combinations, including a reorganization, merger or consolidation, or the sale of all or substantially all of the assets of the Company, if the Company's stockholders do not hold at least a majority (70% under the Incentive Plan) of the combined voting power of the resulting company and the existing directors do not constitute at least half (two-thirds under the Incentive Plan) of the board of directors of the resulting company.

"Good Reason" generally means (1) the executive is assigned duties inconsistent with his position and present responsibilities; (2) the executive's base salary is reduced or benefits are significantly reduced; (3) the executive is terminated other than for Cause (see below); or (4) the executive is required to be based more than 25 miles from the location of his place of employment immediately before the Change in Control, except for normal business travel in connection with his duties with the Company. Isolated, insubstantial and inadvertent actions, taken in good faith and fully corrected by the Company before the date of termination do not generally constitute Good Reason.

"Cause" generally refers to (1) an executive's intentional, continued failure to perform his duties for reasons other than physical or mental illness; or (2) an intentional illegal act or gross misconduct which is materially and demonstrably injurious to the Company, as determined by a vote of two-thirds of the board of directors of the Company.

The following table sets forth the potential payments that may be made to the Named Executive Officers upon a termination in connection with a change in control or otherwise. Except as described pursuant to the Severance Plan, there are no agreements, arrangements or plans that entitle executive officers to severance, perquisites or other enhanced benefits upon termination of their employment. Any agreement to provide such payments or benefits to a terminated executive officer (other than following a change in control) would be in the discretion of the CNG Committee. The payments calculated below are based on the executive's salary as of December 31, 2010 and indicate payments

(1) Assumes an effective date of a change in control of December 31, 2010. In addition to the payments provided in this row, in the event the Named Executive Officer is terminated within 24 months following a change in control either (i) by the Company for any reason other than cause or (ii) by the executive for good reason, the executive is entitled to receive accrued benefits, including salary and bonus, which are earned through the date of termination.

(2) Under the Company's employee severance policy, full-time employees of the Company are entitled to receive a severance benefit in the event their employment is terminated because of the elimination of a previously required position or previously required service, or due to the consolidation of departments, abandonment of plants or offices, or technological change or declining business activities, where such termination is intended to be permanent. The amount of severance benefit is determined based on the length of service and the employee's base salary. In general, an eligible employee is entitled to a severance benefit of one week of base salary for each year of service plus a supplemental severance benefit based on level and term of service. Amounts based on 18 weeks salary for each Named Executive Officer. In addition, eligible employees are entitled to a bonus prorated from the beginning of the calendar year to the date of separation. The above table does not include any prorated bonuses because the involuntary termination severance payments presented therein are as of the end of the year.

(3) The Severance Plan is a "double trigger" program, meaning payments are made only if the employee suffers a covered termination of employment within two years following the change in control. The amounts shown in the first three columns of the above table for "termination without cause or for good reason after change in control" are based on the following

Table of Contents

assumptions and provisions of the Severance Plan: in the event the named executive is terminated within two years after a change in control either (i) by the Company for any reason other than cause or (ii) by the executive for good reason, the Company is required to pay an amount equal to 200% (300% in the case of Mr. Wagner) of the sum of the executive's base salary and target EIC Plan award. For a termination at December 31, 2010:

Mr. Wagner had a base salary of \$750,000 and an EIC Plan target of 100% of his base salary, or \$750,000;

Mr. Santoro had a base salary of \$456,250 and an EIC Plan target of 60% of his base salary, or \$273,750;

Mr. Perdue had a base salary of \$387,508 and an EIC Plan target of 60% of his base salary, or \$232,505;

Mr. Wolff had a base salary of \$393,750 and an EIC Plan target of 60% of his base salary, or \$236,250; and

Mr. Cecala had a base salary of \$250,000 and an EIC Plan target of 60% of his base salary, or \$150,000.

- (4) The EIC Plan is an annual cash-based performance incentive plan under which payments are made in the year following the year in which performance is measured. For purposes of this table, the EIC Plan numbers represent target payments under the plan in 2011 for 2010 performance. See "Compensation Discussion and Analysis 2010 Executive Compensation" on page 29 of this Proxy Statement for more information regarding the award opportunities under the EIC Plan during 2010.
- (5) Under the Incentive Plan, upon a change in control, any unvested stock options, unvested time-based or performance-based restricted stock, or other equity awards would fully vest. The Company ceased granting stock options in 2003 and all outstanding stock options have vested. The amounts in this column represent the value of the unvested time-based and performance-based restricted stock held by the Named Executive Officers based on the closing price of the Company's common stock on December 31, 2010.
- (6) For amounts listed with respect to termination without cause or for good reason after a change in control, the payments relating to time-based and performance-based shares represent the value of unvested and accelerated stock as of December 31, 2010, calculated by multiplying the number of accelerated shares by the closing price of Company stock on December 31, 2010.
- (7) Represents reimbursement for COBRA payments based on employee's premiums for health and dental insurance at December 31, 2010 multiplied by employee's severance multiple.
- (8) Upon a change in control of the Company, the executive may be subject to certain excise taxes pursuant to Section 4999 of the Internal Revenue Code of 1986, as amended. The Company has agreed to reimburse each Named Executive Officer for all excise taxes that are imposed on the executive under Section 4999 and any income and excise taxes that are payable by the executive as a result of any reimbursements for Section 4999 excise taxes. The calculation of the Section 4999 gross-up amount in the above tables is based upon a Section 4999 excise tax rate of 20%, a 35% federal income tax rate, a 1.45% Medicare tax rate and a 10.55% state income tax rate. In calculating such payments, Treasury Regulation Section 1.280G-1 Q&A 24(c) was used when valuing payments for time-based restricted stock and Treasury Regulation Section 1.280G-1 Q&A 24(d)(3) was used when valuing payments for performance-based restricted stock. In valuing the payments for performance-based restricted stock, a portion of such stock was treated as reasonable compensation for services rendered prior to the assumed change in control. No value was assigned to any non-solicitation covenants that may arise in a change in control.
- (9) Other amounts include three-times the sum of the amounts for automobile allowance, life and disability insurance premiums paid by the Company, and club dues for Mr. Wagner and two-times the sum of the same amounts for the other Named Executive Officers.
- (10) A termination of employment due to death or disability does not entitle the Named Executive Officers to any payments or benefits that are not available to salaried employees generally. However, unvested stock awards vest upon death.

Currently, the Incentive Plan provides for the issuance of performance and restricted stock grants, stock appreciation rights and options to purchase up to 5,000,000 shares of the Company's common stock.

The Board has determined, upon recommendations from the CNG Committee, that each member of the Audit Committee is financially literate and that each of Mr. Craig A. Carlson, Mr. George E. Langley, and Ms. Susan E. Lester is qualified as an audit committee financial expert and that each of them has accounting or relating financial management expertise, in each case in accordance with the rules of the SEC and the listing standards of Nasdaq.

The Audit Committee operates pursuant to a written charter that was last amended and restated as of May 12, 2010. A copy of the Audit Committee charter may be obtained on the Company's website at <http://www.pacwestbancorp.com> under the section entitled "Corporate Governance." As set forth in such charter, management of the Company is responsible for the preparation, presentation and integrity of the Company's consolidated financial statements, the Company's accounting and financial reporting principles and internal controls and procedures designed to assure compliance with accounting standards and applicable laws and regulations. The independent auditors are responsible for performing an independent audit of the financial statements in accordance with the standards of the Public Company Accounting Oversight Board (United States), expressing an opinion as to the conformity of such financial statements with generally accepted accounting principles and the effectiveness of internal control over financial reporting.

During 2010, the Audit Committee performed all of its duties and responsibilities under the Audit Committee charter. The Audit Committee has reviewed and discussed the audited consolidated financial statements as of and for the year ended December 31, 2010 with management and the independent auditors. The Audit Committee has also discussed with the independent auditors the matters required to be discussed by the statement on Auditing Standards No. 61, *Communication with Audit Committees*, as amended, as adopted by the Public Company Accounting Oversight Board in Rule 3200T. The Audit Committee has also received the written disclosures and the letter from the independent auditors required by applicable requirements of the Public Company Accounting Oversight Board regarding the independent auditors' communications with the Audit Committee concerning independence, and has discussed with the independent auditors the independent auditors' independence.

Based upon the reports and discussions described above, and subject to the limitations on the role and responsibilities of the Audit Committee referred to above and in the Audit Committee's charter, the Audit Committee recommended to the Board that the audited consolidated financial statements of the Company for 2010 be included in its Annual Report on Form 10-K for the year ended December 31, 2010 for filing with the SEC.

CERTAIN RELATIONSHIPS AND TRANSACTIONS WITH RELATED PERSONS

Related-Party Transactions Policy

The Company's Board of Directors has adopted a written policy ("Policy") governing the approval of Related-Party Transactions. "Related-Party Transactions" include any transaction, or any amendment or modification to a transaction, involving a director or director nominee, executive officer, a 5% stockholder of the Company or any person known by the Company to be an immediate family member of any of the foregoing individuals that would need to be disclosed under Item 404(a) of Regulation S-K promulgated by the SEC. Such transactions do not include, however, indemnification payments or compensation paid to directors and executive officers for their services as directors and executive officers. The Policy prohibits all Related-Party Transactions, unless they are approved or ratified by the CNG Committee in accordance with the Policy. Under the Policy, the Company's legal department, in consultation with management and outside counsel, analyzes all potential Related-Party Transactions brought to the attention of the Company to determine whether they constitute Related-Party Transactions. If the Legal Department determines a transaction constitutes a Related-Party Transaction, the CNG Committee will then review the transaction to determine whether or not to approve or ratify it. In making its determination, the CNG Committee considers several factors including, but not limited to, whether the terms of the Related-Party Transaction are fair to the Company; whether the Company has compelling business reasons to enter into the transaction; whether the transaction will impair the independence of an outside director; and whether the transaction presents an improper conflict of interest for any directors or executive officers of the Company. Members of the CNG Committee having an interest in a transaction under review must abstain from voting on the approval of the Related-Party Transaction, but may, if the Chairperson of the CNG Committee so requests, participate in the CNG Committee's discussions of the transaction.

Certain Relationships and Related-Party Transactions

John M. Eggemeyer was appointed to the Board of Rancho Santa Fe National Bank on February 27, 1995 and was appointed Chairman of the Board on that date. Mr. Eggemeyer became chairman of the Board of the Company upon the Company's formation on May 31, 2000. Pursuant to an agreement, dated April 30, 2010, with Castle Creek Financial, LLC of which Mr. Eggemeyer is chief executive officer, the Company named Castle Creek Financial as the Company's exclusive financial advisor. We refer to this agreement as the Castle Creek Contract. The Castle Creek Contract provides for the payment of the following fees upon the consummation of certain transactions: (a) 1.0% of the aggregate consideration paid in the event the Company is sold; and (b) in the event of an acquisition of another financial institution by the Company: 1.0% of the aggregate value of the transaction if the aggregate value is \$20 million or less; and, if the aggregate value is over \$20 million, \$200,000 plus 0.65% of the amount of the transaction in excess of \$20 million. Castle Creek Financial is also entitled to reimbursement of its reasonable expenses incurred on behalf of the Company. The Castle Creek Contract may be terminated by either party upon 30 days prior notice. In the event of termination, Castle Creek shall still be entitled to its fees pursuant to the terms of the contract should the Company engage in a transaction (i) on which Castle Creek provided advice or participated in discussions with any of the investors in such transaction or (ii) with any of the parties as to which Castle Creek advised the Company or with whom the Company engaged in discussions regarding a possible transaction prior to the termination of the Castle Creek Contract, provided that such transaction is completed within 18 months following the termination of the contract.

The Castle Creek Contract, and similar predecessor agreements which have been entered into with the Company since 2000, have been reviewed annually by the CNG Committee pursuant to the Company's Related-Party Transactions Policy. In approving the Castle Creek Contract, the CNG Committee concluded that the contract was in the best interests of the Company and its stockholders and was on terms comparable to those prevailing for similar transactions with other persons not having

any relationship with the Company. Castle Creek Financial and its affiliates did not receive any fees from the Company for services rendered in 2010, 2009 or 2008.

Since July 2001, the Company has engaged Martin J. Wolff & Co., Inc. as its insurance broker to help the Company evaluate and obtain certain insurance products for the Company and its subsidiaries, including its group health insurance coverage, life and disability insurance and other insurance benefit products. Martin J. Wolff, the chairman of Martin J. Wolff & Co., Inc., is the father of Jared M. Wolff, the Company's Executive Vice President, General Counsel and Assistant Secretary, and President of the Los Angeles and Ventura Regions of Pacific Western Bank, who joined the Company in October 2002. Jared Wolff was previously associated with the law firm of Sullivan & Cromwell LLP, which firm has been outside counsel to the Company since its formation in 2000. During 2010, the Company purchased comprehensive group insurance, disability insurance, executive life insurance and other insurance products from Martin J. Wolff & Co., Inc. totaling approximately \$7.7 million in premiums. To the best knowledge of the Company, Martin J. Wolff & Co., Inc. received approximately \$388,000 in commissions from such purchases. Jared Wolff is not involved in the analysis, negotiation or acquisition of group health, disability, executive life or other insurance products purchased by the Company from Martin J. Wolff & Co., Inc. The CNG Committee has approved this relationship pursuant to the Company's Related-Party Transactions Policy. In the opinion of the Company's management, the transactions are in the best interests of the Company and its stockholders and have occurred on terms comparable to those available from other providers of similar products who have no relationship with the Company.

Certain directors and executive officers, entities associated with them and members of their immediate families were customers of and had banking transactions, including loans, with the Company's subsidiary bank in the ordinary course of business during fiscal 2010. Such loans were made on substantially the same terms, including interest rates and collateral, as those prevailing at the time for comparable transactions with other persons. These loans did not involve more than the normal risk of collection or present other unfavorable features. The Company expects its subsidiary bank to have banking transactions with such persons in the future.

INDEPENDENT AUDITORS

The Audit Committee has reappointed the firm of KPMG LLP as independent auditors to audit the financial statements of the Company for the current fiscal year. Representatives from KPMG LLP are expected to be present at the Annual Meeting. They will have an opportunity to make a statement if they so desire and will be available to respond to appropriate questions.

All Other Fees. There were no other fees billed to the Company by KPMG LLP for the year ended December 31, 2010 or 2009.

Pre-Approval Policies and Procedures. The Audit Committee has adopted a policy that requires advance approval by the Audit Committee of all audit, audit-related, tax services and all other services performed by the independent auditor. During 2010, the Audit Committee pre-approved all audit services, non-audit services, audit-related services and tax services performed for the Company by KPMG LLP. In approving any non-audit services, the Audit Committee considered whether the provision of such services would be compatible with maintaining KPMG's independence.

Such directors, executive officers and 10% stockholders are also required to furnish the Company with copies of all Section 16(a) reports that they file. Based solely on a review of the copies of such reports received by the Company, and on written representations from certain reporting persons, the Company believes that all Section 16(a) filing requirements applicable to its directors, executive officers and 10% stockholders were complied with during 2010.

"HOUSEHOLDING" OF PROXY MATERIALS

The SEC has approved a rule concerning the delivery of annual reports and proxy statements. It permits a single set of these reports to be sent to any household at which two or more stockholders reside if they appear to be members of the same family. Each stockholder continues to receive a separate proxy card. This procedure, referred to as householding, reduces the volume of duplicate information stockholders receive and reduces mailing and printing expenses of the Company. In accordance with a notice sent to certain stockholders who shared a single address, only one annual report and proxy statement will be sent to that address unless any stockholder at that address requested that multiple sets of documents be sent. However, if any stockholder who agreed to householding wishes to receive a separate proxy statement or annual report either now or in the future, he or she may contact our transfer agent Wells Fargo Shareowner Services at (800) 468-9176 or by mail at P.O. Box 64874, St. Paul, MN 55164-0874. Stockholders sharing an address who wish to receive a single set of reports or proxy statements may do so by contacting their banks or brokers, if they are beneficial holders, or by contacting Wells Fargo Shareowner Services at the address set forth above, if they are record holders.

INCORPORATION BY REFERENCE

The sections in this Proxy Statement entitled "Compensation Committee Report" and "Audit Committee Report" do not constitute soliciting material and should not be deemed filed or incorporated by reference into any other Company filing under the Securities Act of 1933 or the Securities Exchange Act of 1934, except to the extent the Company specifically incorporates any such Reports by reference therein.
