Prospectus supplement
(to prospectus dated March 7, 2014)

€500,000,000 2.000% Senior Notes due 2023

Interest payable on January 20

W. P. Carey Inc. ("W. P. Carey") is offering €500,000,000 aggregate principal amount of its 2.000% Senior Notes due 2023 (the "notes"). The notes will be issued in book-entry form only, in minimum denominations of €100,000 and integral multiples of €1,000 in excess thereof, except under limited circumstances. We will pay interest annually in arrears on January 20 of each year, beginning on January 20, 2016. The notes will mature on January 20, 2023. However, W. P. Carey may, at its option, redeem the notes, in whole at any time or in part from time to time at the applicable redemption price described in this prospectus supplement under the caption "Description of the notes Optional redemption." The notes will be senior unsecured obligations of W. P. Carey and rank equally in right of payment with all of its other senior unsecured indebtedness from time to time outstanding.

Investing in the notes involves risks. Before making a decision to invest in the notes, you should carefully read the information under the heading "Risk factors" beginning on page S-10 of this prospectus supplement and in the reports that we file with the Securities and Exchange Commission pursuant to the Securities Exchange Act of 1934, as amended, which are incorporated by reference in this prospectus supplement and the accompanying prospectus.

Neither the Securities and Exchange Commission nor any state or other securities commission has approved or disapproved of these securities or determined if this prospectus supplement or the accompanying prospectus is truthful or complete. Any representation to the contrary is a criminal offense.

	Public offering price(1)	Underwriting discount	Proceeds, before expenses, to us
Per note	99.220%	0.500%	98.720%
Total	€496,100,000	€2,500,000	€493,600,000

(1) Plus accrued interest, if any, from January 21, 2015, if settlement occurs after that date.

The notes are a new issue of securities with no established trading market. We intend to apply for listing of the notes on the New York Stock Exchange.

The underwriters expect to deliver the notes in book-entry form through Euroclear Bank S.A./N.V., as operator of the Euroclear System, and Clearstream Banking, société anonyme, on or about January 21, 2015.

Table of Contents

You should rely only on the information contained in, or incorporated by reference in, this prospectus supplement, the accompanying prospectus or any free writing prospectus prepared by us or on our behalf. We have not, and the underwriters have not, authorized anyone to provide you with different or additional information. If anyone provides you with different or additional information, you should not rely on it. We are not, and the underwriters are not, making an offer to sell these securities in any jurisdiction where the offer or sale is not permitted. You should not assume that the information contained in this prospectus supplement, the accompanying prospectus, any free writing prospectus or the documents incorporated by reference herein or therein is accurate as of any date other than the respective dates of such documents or such other dates as may be specified herein or therein. Our business, financial condition, liquidity, results of operations, adjusted funds from operations ("AFFO") and prospects may have changed since those respective dates.

About this prospectus supplement

We are providing information to you about this offering in two parts. The first part is this prospectus supplement, which describes certain terms of the notes and the offer and sale of the notes. The second part, the accompanying prospectus, gives more general information about us and the securities we may offer from time to time, some of which does not apply to the notes or this offering. If there is a conflict between the descriptions of the notes or this offering in this prospectus supplement and those in the accompanying prospectus, the descriptions in this prospectus supplement shall control.

Any information contained in this prospectus supplement, the accompanying prospectus or any document incorporated by reference herein and therein will be deemed to have been modified or superseded to the extent that a statement subsequently contained in this prospectus supplement or the accompanying prospectus, in any free writing prospectus we may provide to you in connection with this offering, or in any document we file with the United States Securities and Exchange Commission (the "SEC") under or pursuant to the Securities Exchange Act of 1934, as amended (the "Exchange Act"), that also is incorporated by reference into this prospectus supplement and the accompanying prospectus, modifies or supersedes the original statement. Any statement so modified or superseded will not be deemed, except as so modified or superseded, to be part of this prospectus supplement or the accompanying prospectus. You should read this prospectus supplement, the accompanying prospectus and any free writing prospectus we may provide to you in connection with this offering, together with the documents incorporated by reference into this prospectus supplement and the accompanying prospectus as described under the heading "Where you can find more information; Incorporation by reference" beginning on page S-50 of this prospectus supplement.

The notes are a new issue of securities with no established trading market. We intend to apply for listing of the notes on the New York Stock Exchange.

References in this prospectus supplement to "\$," "dollars" and "U.S. dollars" are to the currency of the United States of America; and references to "€" and "euro" are to the single currency introduced at the third stage of the European Monetary Union pursuant to the Treaty establishing the European Community, as amended.

Table of Contents

You should not consider any information in this prospectus supplement or the accompanying prospectus to be investment, accounting, legal or tax advice. You should consult your own counsel, accountants and other advisors for investment, accounting, legal, tax and related advice regarding an investment in the notes. We are not making any representation to you regarding the legality of an investment in the notes by you under applicable investment or similar laws.

Unless the context otherwise requires or as otherwise specified, references in this prospectus to "W. P. Carey," the "Company," "we," "us," or "our" refers to W. P. Carey and its consolidated subsidiaries and predecessors.

IN CONNECTION WITH THE ISSUANCE OF THE NOTES, J.P. MORGAN SECURITIES PLC (IN THIS CAPACITY, THE "STABILIZING MANAGER") (OR ANY PERSON ACTING ON ITS BEHALF) MAY OVER-ALLOT NOTES OR EFFECT TRANSACTIONS WITH A VIEW TO SUPPORTING THE MARKET PRICE OF THE NOTES AT A LEVEL HIGHER THAN THAT WHICH MIGHT OTHERWISE PREVAIL. HOWEVER, THERE IS NO ASSURANCE THAT THE STABILIZING MANAGER (OR PERSONS ACTING ON BEHALF OF THE STABILIZING MANAGER) WILL UNDERTAKE ANY STABILIZATION ACTION. ANY STABILIZATION ACTION MAY BEGIN ON OR AFTER THE DATE ON WHICH ADEQUATE PUBLIC DISCLOSURE OF THE FINAL TERMS OF THE OFFER OF THE NOTES IS MADE, AND, IF BEGUN, MAY BE ENDED AT ANY TIME, BUT IT MUST END NO LATER THAN THE EARLIER OF 30 DAYS AFTER THE ISSUE OF THE NOTES AND 60 DAYS AFTER THE DATE OF THE ALLOTMENT OF THE NOTES.

ANY STABILIZATION ACTION COMMENCED WILL BE CARRIED OUT IN ACCORDANCE WITH APPLICABLE LAWS AND REGULATIONS.

In the United Kingdom, this prospectus supplement and the accompanying prospectus is for distribution only to, and is only directed at, persons who (i) have professional experience in matters relating to investments and falling within Article 19(5) of the Financial Services and Markets Act 2000 (Financial Promotion) Order 2005, as amended, (the "Financial Promotion Order"), (ii) are persons falling within Article 49(2)(a) to (d) (high net worth companies, unincorporated associations, etc.) of the Financial Promotion Order or (iii) are persons to whom an invitation or inducement to engage in investment activity (within the meaning of section 21 of the Financial Services and Markets Act 2000) in connection with the issue or sale of any notes may otherwise lawfully be communicated (all such persons together being referred to as "relevant persons"). This prospectus supplement and the accompanying prospectus are directed only at relevant persons and must not be acted on or relied on by persons who are not relevant persons. Any investment or investment activity to which this document relates is available, only to relevant persons and will be engaged in only with relevant persons.

Forward-looking statements

This prospectus supplement, the accompanying prospectus and the documents incorporated by reference herein and therein contain information that is based on our current expectations, our estimates and forecasts, projections about our future performance, our business, our beliefs and our management's assumptions and other matters, and are "forward-looking statements" within the meaning of Section 27A of the Securities Act of 1933, as amended (the "Securities Act"), and Section 21E of the Exchange Act. These forward-looking statements relate to matters such as discussions regarding capital markets; tenant credit quality; general economic outlook;

Table of Contents

our corporate strategy; statements regarding estimated or future economic performance, including our underlying assumptions; statements that we make regarding our ability to remain qualified for taxation as a real estate investment trust ("REIT"); our expectations regarding our ability to structure acquisitions for ourselves and on behalf of the publicly held, non-traded REIT affiliates that we manage; the amount and timing of any future dividends, including those that we are required to make in order to maintain our REIT qualification; the benefits of our January 2014 merger with Corporate Property Associates 16 Global Incorporated; our existing or future leverage and debt service obligations; statements regarding our exercise of the Accordion Feature (as hereinafter defined); our future prospects for growth; our future capital expenditure levels; our historical and anticipated funds from operations; our future financing transactions; our estimates of growth; and our plans to fund our future liquidity needs; and are generally identified by the words "believe," "project," "expect," "anticipate," "estimate," "intend," "strategy," "plan," "may," "should," "will," "would," "will be," "will continue," "will likely result" and similar expressions. Actual results could differ materially from those contemplated by these forward-looking statements as a result of many factors.

The information under the caption "Risk factors" contained herein and in our Annual Report on Form 10-K for the year ended December 31, 2013 and in subsequent reports filed by us with the SEC that are incorporated by reference in this prospectus supplement and the accompanying prospectus, and other similar statements contained in this prospectus supplement, the accompanying prospectus or any related free writing prospectus prepared by us or on our behalf and the documents incorporated by reference herein and therein, identify important factors with respect to forward-looking statements, including certain risks and uncertainties that could cause actual results to differ materially from those contemplated by such forward-looking statements. Additional risks and uncertainties not presently known to us or that we currently believe to be immaterial also may materially and adversely affect us. Should any known or unknown risks and uncertainties develop into actual events, those developments could have a material adverse effect on our business, financial condition, liquidity, results of operations, AFFO and prospects.

In light of these risks and uncertainties, there can be no assurance that the results and events contemplated by the forward-looking statements contained in this prospectus supplement, the accompanying prospectus and the documents incorporated by reference herein and therein will in fact transpire. Moreover, because we operate in a very competitive and rapidly changing environment, new risk factors are likely to emerge from time to time. Given these risks and uncertainties, potential investors are cautioned not to place undue reliance on forward-looking statements as a prediction of future results. We do not undertake any obligation to update or revise any forward-looking statements except as required by applicable law. All subsequent written or oral forward-looking statements attributable to us or persons acting on our behalf are expressly qualified in their entirety by these cautionary statements.

Table of Contents

Prospectus supplement summary

The following summary highlights information more fully described elsewhere or incorporated by reference in this prospectus supplement and the accompanying prospectus. This summary is not complete and does not contain all of the information that may be important to you. Before making a decision to invest in the notes, you should carefully read this entire prospectus supplement, including the matters set forth under the caption "Risk factors," the accompanying prospectus, any free writing prospectus we may provide to you in connection with this offering, and the documents incorporated by reference in this prospectus supplement and the accompanying prospectus. This summary is qualified in its entirety by the more detailed information and financial statements, including the notes thereto, appearing elsewhere or incorporated by reference in this prospectus supplement and the accompanying prospectus.

The Company

W. P. Carey is a self-managed real estate investment trust and a leading global owner and manager of commercial properties, primarily net leased to companies on a long-term basis. As of September 30, 2014, we owned a diversified global investment portfolio that included full or partial ownership interests in 688 net lease properties located in 17 countries, with an occupancy rate of 98% and a weighted average remaining lease term of 8.5 years.

Our owned real estate portfolio is diversified by property type, tenant, tenant industry and geographic location. It is comprised primarily of single-tenant industrial, warehouse/distribution, office and retail facilities that are essential to our corporate tenants' operations. We have 215 corporate tenants that operate in a wide variety of business sectors, providing additional diversification to the portfolio. Furthermore, as of September 30, 2014, approximately two-thirds of our contractual minimum annualized base rent ("ABR") was from properties located in the United States and approximately one-third was from properties located outside the United States, primarily in Western and Northern Europe. Our European portfolio consists of 199 net leased properties located in 11 countries, with the largest concentrations in Germany, France, Finland, Poland and the United Kingdom.

Most of our net leases specify a base rent with scheduled rent increases (either fixed or tied to inflation) and require the tenant to pay substantially all of the costs associated with operating and maintaining the property. We actively manage our real estate portfolio to mitigate risk with respect to changes in tenant credit quality and the likelihood of lease renewal.

In addition to the lease revenues from our owned real estate portfolio, we earn fee revenue by advising publicly held, non-traded REIT affiliates (the "Managed REITs") through our investment management business. As of September 30, 2014, we managed approximately \$8.3 billion of total assets on behalf of the Managed REITs.

Recent developments

CPA@:16 Global merger

In January 2014, we completed a merger with one of our publicly held, non-traded REIT affiliates, Corporate Property Associates 16 Global Incorporated ("CPA@:16 Global"), pursuant to which CPA@:16 Global merged with and into one of our wholly-owned subsidiaries, in a transaction valued at approximately \$3.9 billion. As consideration for the merger, we issued

Table of Contents

approximately 30.7 million shares of our common stock to CPA®:16 Global stockholders. Immediately prior to the merger, CPA®:16 Global's portfolio was comprised of full or partial ownership interests in 325 leased properties (substantially all of which were net leased with a weighted average remaining lease term of 10.4 years) and two hotel properties. We believe that the benefits of the merger include increased portfolio diversification, a continued shift in the portion of our revenues attributable to stable lease revenue and simplification of our financial statements by consolidating our joint ventures with CPA®:16 Global's and our prior ownership in CPA®:16 Global. The merger also increased our size and equity market capitalization, and reinforced our position as a leading investment manager in the non-traded REIT space with the 15th successful liquidation of one of our Managed REITs.

Exercise of senior unsecured credit facility accordion feature

At our election, the aggregate principal amount available under our \$1.25 billion unsecured credit facility, comprised of a \$1.0 billion unsecured revolver and a \$250 million unsecured term loan (collectively, the "Senior Unsecured Credit Facility"), may be increased by up to an additional \$500 million, subject to bank approval (the "Accordion Feature"). Commitments have been received in support of exercising the Accordion Feature in full. Exercising the Accordion Feature will increase the maximum borrowing capacity under the unsecured revolving portion of our Senior Unsecured Credit Facility to \$1.5 billion. We intend to seek an increase to the existing alternative currency sublimit of \$250 million for a total of \$750 million and establish a new \$500 million accordion feature further increasing the maximum borrowing capacity under the unsecured revolving portion of our Senior Unsecured Credit Facility to \$2.0 billion. As of January 12, 2015, we had \$795 million outstanding on our unsecured revolver and \$250 million outstanding on our unsecured term loan.

Equity offering

In September 2014, we successfully completed an underwritten public offering of 4,600,000 shares of our common stock, which included full exercise of the underwriters' option to purchase additional shares. Total net proceeds from the offering, after underwriting discounts and offering expenses, were approximately \$282 million. Net proceeds were primarily used to repay amounts outstanding under our Senior Unsecured Credit Facility.

Investment activity

During the nine months ended September 30, 2014, we acquired assets with an aggregate purchase price of approximately \$253 million and structured acquisitions on behalf of the Managed REITs with an aggregate purchase price of approximately \$1.1 billion. Subsequent to September 30, 2014, we acquired assets in the United States, United Kingdom, Spain, Poland and Australia for an aggregate purchase price of approximately \$653 million. The assets purchased have an average lease term of approximately 18 years. In addition, subsequent to September 30, 2014, we structured acquisitions on behalf of the Managed REITs with an aggregate purchase price of approximately \$831 million.

Investment pipeline

We have entered into a purchase and sale agreement to acquire a net lease portfolio in the United Kingdom for a total purchase price of approximately €300 million. The unencumbered portfolio contains 73 properties consisting of approximately 1.5 million square feet to be leased for a 15-year term. The consummation of the proposed acquisition is subject to the satisfaction of various closing conditions and W. P. Carey can make no assurance that it will acquire any of the properties in the portfolio or, if it does, what the ultimate terms or timing of any such acquisition will be.

Table of Contents**The offering**

The following summary contains basic information about the notes and is not intended to be complete. It does not contain all the information that is important to you. For a more complete understanding of the notes, please refer to the sections entitled "Description of the notes" in this prospectus supplement and "Description of Debt Securities" in the accompanying prospectus.

Issuer	W. P. Carey Inc.
Securities offered	€500,000,000 aggregate principal amount of 2.000% Senior Notes due 2023.
Stated maturity date	The notes will mature on January 20, 2023, unless redeemed prior to such date.
Interest rate	2.000% per year, accruing from January 21, 2015.
Interest payment dates	January 20 of each year, beginning on January 20, 2016.
Currency of payment	All payments of principal of, and premium, if any, and interest on, the notes, including any payments made upon any redemption of the notes, will be made in euros. If the euro is unavailable to us due to the imposition of exchange controls or other circumstances beyond our control or the euro is no longer used by the member states of the European Monetary Union that have adopted the euro as their currency or for the settlement of transactions by public institutions within the international banking community, then all payments in respect of the notes will be made in U.S. dollars until the euro is again available to us or so used. See "Description of the notes Issuance in euros."
Denominations	W. P. Carey will issue the notes in minimum denominations of €100,000, and integral multiples of €1,000 in excess thereof.
Optional redemption	The notes will be redeemable, at the Company's sole option, in whole at any time or in part from time to time, in each case prior to October 20, 2022 (three months prior to the stated maturity date of the notes), for cash, at a redemption price equal to the greater of (i) 100% of the principal amount of the notes to be redeemed and (ii) a "make-whole" amount, plus, in each case, unpaid interest, if any, accrued to, but not including, the date of redemption. See "Description of the notes Optional redemption" in this prospectus supplement.

Table of Contents

In addition, at any time on or after October 20, 2022 (three months prior to the stated maturity date of the notes), the notes will be redeemable, at the Company's sole option, in whole at any time or in part from time to time, for cash, at a redemption price equal to 100% of the principal amount of the notes to be redeemed plus unpaid interest, if any, accrued to, but not including, the date of redemption.

Use of proceeds

The net proceeds from the sale of the notes, after deducting the underwriting discount and other estimated offering expenses payable by us, are estimated to be approximately €492,625,539. We intend to use the net proceeds from this offering to repay amounts outstanding under our Senior Unsecured Credit Facility, to fund potential future acquisitions and for general corporate purposes. See "Use of proceeds" in this prospectus supplement.

Conflicts of interest

Affiliates of certain of the underwriters are lenders under our Senior Unsecured Credit Facility and will receive their proportionate share of the net proceeds from this offering used to reduce such indebtedness. See "Underwriting (Conflicts of interest)" in this prospectus supplement.

Restrictive covenants

The indenture contains covenants that require the Company to maintain at all times a specified ratio of unencumbered assets to unsecured debt and limit the Company from incurring secured and unsecured indebtedness. However, those covenants are subject to significant exceptions. In addition, our ability to consummate a merger, consolidation or a transfer of all or substantially all of our consolidated assets to another person is limited unless certain conditions are satisfied. For additional information, see "Description of the notes Certain covenants" in this prospectus supplement and "Description of Debt Securities Merger, Consolidation and Transfer of Assets" in the accompanying prospectus.

Ranking

The notes are senior unsecured obligations of the Company and rank equally in right of payment with all of the Company's other senior unsecured indebtedness from time to time outstanding and effectively junior to (i) all of the indebtedness and other liabilities, whether secured or unsecured, and any preferred equity of the Company's subsidiaries and (ii) all of the Company's indebtedness that is secured by the Company's assets to the extent of the value of the collateral securing such indebtedness.

As of September 30, 2014, the Company had consolidated indebtedness of \$3.8 billion outstanding, of which \$2.7 billion was secured indebtedness.

Table of Contents

Further issuances

The Company may, from time to time, without notice to or the consent of the holders of the notes, increase the principal amount of debt securities of the series in which the notes are a part and issue such additional debt securities, in which case any additional debt securities so issued will have the same form and terms (other than the date of issuance, public offering price and, under certain circumstances, the date from which interest thereon will begin to accrue and the initial interest payment date), and will carry the same right to receive accrued and unpaid interest, as the notes and such additional debt securities will form a single series of debt securities under the indenture with the notes.

Additional amounts

Subject to certain exceptions and limitations set forth herein, we will pay additional amounts on the notes as are necessary so that the net payment by us or the paying agent of the principal of, and premium, if any, and interest on, the notes to a holder who is not a United States person (as defined below), after withholding or deduction for any present or future tax, duty, assessment or governmental charge of whatever nature imposed or levied by the United States or any taxing authority thereof or therein, will not be less than the amount provided in the notes to be then due and payable. See "Description of the notes Payment of additional amounts" in this prospectus supplement.

Redemption for tax reasons

We may redeem all, but not less than all, of the notes in the event of certain changes in the tax laws of the United States (or any taxing authority thereof or therein) that would obligate us to pay additional amounts as described above. This redemption would be at a redemption price equal to 100% of the principal amount of the notes, together with accrued and unpaid interest on the notes to, but not including, the date fixed for redemption. See "Description of the notes Redemption for tax reasons" in this prospectus supplement.

Listing

The notes are a new issue of securities with no established trading market. We intend to apply for listing of the notes on the New York Stock Exchange. The underwriters have advised us that they intend to make a market in the notes after this offering is completed, but they are not obligated to do so and may discontinue any market-making at any time without notice to or the consent of noteholders.

Table of Contents

Book-entry form

The notes will be issued in book-entry only form and will be represented by global notes deposited with, or on behalf of, a common depository on behalf of Clearstream Banking, société anonyme ("Clearstream"), and Euroclear Bank S.A./N.V., as operator of the Euroclear System ("Euroclear"), and registered in the name of the common depository or its nominee. Beneficial interests in any of the notes will be shown on, and transfers will be effected only through, records maintained by Clearstream and Euroclear and their participants, and these beneficial interests may not be exchanged for certificated notes, except in limited circumstances. See "Description of the notes Book-entry procedures" in this prospectus supplement.

Risk factors

You should read carefully the "Risk factors" beginning on page S-10 of this prospectus supplement and in the reports we file with the Securities and Exchange Commission, as well as all other information, in each case included and incorporated by reference in this prospectus supplement and the accompanying prospectus, before making a decision to invest in the notes.

Table of Contents

Risk factors

In addition to the risks incorporated by reference into this prospectus supplement and the accompanying prospectus from our Annual Report on Form 10-K for the year ended December 31, 2013 filed with the SEC and the other information included or incorporated by reference in this prospectus supplement and the accompanying prospectus, you should carefully consider the following risk factors before you decide to invest in the notes. The risks and uncertainties included or incorporated by reference in this prospectus supplement and the accompanying prospectus are those that we currently believe may materially affect our company. Additional risks not presently known or that are currently deemed immaterial could also materially and adversely affect our business, financial condition, liquidity, results of operations, AFFO and prospects. The realization of any of these risks could have a material adverse effect on our business, financial condition, liquidity, results of operations, AFFO and prospects, as well as our ability to service our indebtedness, including the notes. In addition, the market price of your notes could be adversely affected, potentially significantly, and you could lose all or a substantial part of your investment in the notes.

We may not be able to meet all of our debt service obligations, including those under the notes.

As of September 30, 2014, we had indebtedness and other liabilities of \$4.5 billion outstanding, of which \$3.8 billion represented our total consolidated secured and unsecured indebtedness.

Our level of indebtedness and the limitations imposed on us by our debt agreements could have significant adverse consequences to holders of the notes, including the following:

our cash flow may be insufficient to meet our debt service obligations with respect to the notes and our other indebtedness, which would enable lenders and other debtholders to accelerate the maturity of their indebtedness, or may be insufficient to fund other important business uses after meeting such obligations;

we may violate restrictive covenants in our debt agreements, which would entitle lenders and other debtholders to accelerate the maturity of their indebtedness;

debt service requirements and financial covenants relating to our indebtedness may limit our ability to maintain our REIT qualification;

we may be unable to borrow additional funds as needed or on favorable terms, which could, among other things, adversely affect our ability to capitalize upon acquisition opportunities or meet operational needs;

we may be unable to hedge our debt, counterparties may fail to honor their obligations under any of our hedge agreements, such agreements may not effectively hedge interest rate or currency fluctuation risk, and, upon the expiration of any of our hedge agreements, we would be exposed to then-existing market rates of interest or currency exchange rates and future rate volatility;

Table of Contents

we may be unable to refinance our indebtedness at maturity or earlier acceleration, if applicable, or the refinancing terms may be less favorable than the terms of our original indebtedness or otherwise be generally unfavorable;

because a portion of our debt bears interest at variable rates, increases in interest rates could materially increase our interest expense;

we may be forced to dispose of one or more of our properties, possibly on disadvantageous terms;

upon any default on our secured indebtedness, the lenders may foreclose on our properties or our interests in the entities that own the properties that secure such indebtedness and receive an assignment of rents and leases; and

we may be unable to raise additional funds as needed or on favorable terms.

If any one of these events were to occur, our business, financial condition, liquidity, results of operations, AFFO and prospects, as well as our ability to satisfy all of our debt obligations, including those under the notes, could be materially and adversely affected. Furthermore, foreclosures could create taxable income without accompanying cash proceeds, a circumstance that could hinder the Company's ability to meet the REIT distribution requirements imposed by the Internal Revenue Code of 1986, as amended (the "Code").

The effective subordination of the notes may limit our ability to meet all of our debt service obligations, including those under the notes.

The notes will be our unsecured and unsubordinated obligations and will rank equally in right of payment with each other and with all of our unsecured and unsubordinated indebtedness. However, the notes will be effectively subordinated in right of payment to all of our secured indebtedness to the extent of the value of the collateral securing such indebtedness. As of September 30, 2014, the Company had \$2.7 billion of secured consolidated indebtedness outstanding. While the indenture governing the notes will limit our ability to incur secured indebtedness in the future, it will not prohibit us from incurring such indebtedness if we and our subsidiaries are in compliance with certain financial ratios and other requirements at the time of its incurrence. In the event of a bankruptcy, liquidation, dissolution, reorganization or similar proceeding with respect to us, the holders of any secured indebtedness will be entitled to proceed directly against the collateral that secures the secured indebtedness. Therefore, such collateral will not be available for satisfaction of any amounts owed under our unsecured indebtedness, including the notes, until such secured indebtedness is satisfied in full.

The notes also will be effectively subordinated to all liabilities, whether secured or unsecured, and any preferred equity of our subsidiaries, which is particularly important since we have no significant operations or assets other than our equity interests in our subsidiaries. In the event of a bankruptcy, liquidation, dissolution, reorganization or similar proceeding with respect to any of our subsidiaries, we, as a common equity owner of such subsidiary, and therefore holders of our debt, including the notes, will be subject to the prior claims of such subsidiary's creditors, including trade creditors, and preferred equity holders. As of September 30, 2014, the Company's subsidiaries had \$3.5 billion of indebtedness and other liabilities outstanding and no preferred equity. Furthermore, while the indenture governing the notes will limit the ability of our subsidiaries to incur additional indebtedness in the future, it will not prohibit our

Table of Contents

subsidiaries from incurring such indebtedness if we and our subsidiaries are in compliance with certain financial ratios and other requirements at the time of its incurrence.

We may not be able to generate sufficient cash flow to meet all of our debt service obligations, including those under the notes.

Our ability to meet all of our debt service obligations, including those under the notes, to refinance our indebtedness, including the notes, and to fund our operations, working capital, acquisitions, capital expenditures and other important business uses, depends on our ability to generate sufficient cash flow in the future. To a certain extent, our cash flow is subject to general economic, industry, financial, competitive, operating, legislative, regulatory and other factors, many of which are beyond our control.

We cannot assure you that our business will generate sufficient cash flow from operations or that future sources of cash will be available to us on favorable terms, or at all, in an amount sufficient to enable us to meet all of our debt service obligations, including those under the notes, or to fund our other important business uses. Additionally, if we incur additional indebtedness in connection with future acquisitions or development projects or for any other purpose, our debt service obligations could increase significantly and our ability to meet those obligations could depend, in large part, on the returns from such acquisitions or projects, as to which no assurance can be given.

We may need to refinance all or a portion of our indebtedness, including the notes, at or prior to maturity. Our ability to refinance our indebtedness or obtain additional financing will depend on, among other things:

our business, financial condition, liquidity, results of operations, AFFO and prospects and market conditions at the time; and

restrictions in the agreements governing our indebtedness.

As a result, we may not be able to refinance any of our indebtedness, including the notes, or obtain additional financing on favorable terms, or at all.

If we do not generate sufficient cash flow from operations, and additional borrowings or refinancings are not available to us, we may be unable to meet all of our debt service obligations, including those under the notes. As a result, we would be forced to take other actions to meet those obligations, such as selling properties, raising equity or delaying capital expenditures, any of which could have a material adverse effect on us. Furthermore, we cannot assure you that we will be able to effect any of these actions on favorable terms, or at all.

Despite our substantial outstanding indebtedness, we may still incur significantly more indebtedness in the future, which would exacerbate any or all of the risks described herein.

We may be able to incur substantial additional indebtedness in the future. Although the agreements governing our indebtedness do, and the indenture governing the notes will, limit our ability to incur additional indebtedness, these restrictions are subject to a number of qualifications and exceptions and, under certain circumstances, debt incurred in compliance with these restrictions could be substantial. To the extent that we incur substantial additional indebtedness in the future, the risks associated with our substantial leverage described herein,

Table of Contents

including our inability to meet all of our debt service obligations, including those under the notes, would be exacerbated.

The indenture governing the notes will contain restrictive covenants that restrict our ability to expand or fully pursue our business strategies.

The indenture governing the notes will contain financial and operating covenants that, among other things, will restrict our ability to take specific actions, even if we believe them to be in our best interest, including (subject to various exceptions) restrictions on our ability to consummate a merger, consolidation or a transfer of all or substantially all of our consolidated assets to another person.

In addition, our current debt agreements require us to meet specified financial ratios and the indenture governing the notes will require us to limit the amount of our total debt and the amount of our secured debt before incurring new debt, to maintain at all times a specified ratio of unencumbered assets to unsecured debt and to meet a debt service coverage ratio before incurring new debt. These covenants may restrict our ability to expand or fully pursue our business strategies. Our ability to comply with these and other provisions of our debt agreements may be affected by changes in our operating and financial performance, changes in general business and economic conditions, adverse regulatory developments or other events beyond our control. The breach of any of these covenants could result in a default under our indebtedness, which could result in the acceleration of the maturity of such indebtedness and potentially other indebtedness. If any of our indebtedness is accelerated prior to maturity, we may not be able to repay such indebtedness or refinance such indebtedness on favorable terms, or at all.

There is currently no public market for the notes, so if an active trading market does not develop or is not maintained for the notes, you may not be able to resell them on favorable terms when desired, or at all.

While we intend to apply for listing of the notes on the New York Stock Exchange, no assurance can be given that we will be able to list the notes. Prior to this offering, there was no market for the notes and we cannot assure you that an active trading market will ever develop for the notes or, if one develops, will be maintained. Further, while the underwriters have advised us that they intend to make a market in the notes after this offering is completed, they are not obligated to do so and may discontinue any market-making at any time without notice to or the consent of noteholders. Accordingly, even if the notes are listed, no assurance can be given that a trading market for the notes will develop or be maintained. The lack of an active trading market could adversely affect your ability to sell the notes when desired, or at all, and the price at which you may be able to sell the notes. The liquidity of the trading market, if any, and future market prices of the notes will depend on many factors, including, among other things, prevailing interest rates, our business, financial condition, liquidity, results of operations, AFFO and prospects, the market for similar securities and the overall securities market, and may be adversely affected by unfavorable changes in these factors. It is possible that the market for the notes will be subject to disruptions which may have a negative effect on the holders of the notes, regardless of our business, financial condition, liquidity, results of operations, AFFO or prospects.

Table of Contents

The market price for the notes may be volatile.

The market price of the notes may be highly volatile and subject to wide fluctuations. The market price of the notes may fluctuate as a result of factors that are beyond our control or unrelated to our historical and projected business, financial condition, liquidity, results of operations, AFFO and prospects. It is impossible to assure investors that the market price of the notes will not fall in the future and it may be difficult for investors to resell the notes at prices they find attractive, or at all.

Volatility and disruption in capital markets could materially and adversely impact us.

The capital markets may experience extreme volatility and disruption, which could make it more difficult to raise capital. If we cannot access capital or if we cannot access capital upon favorable terms, we may be required to liquidate one or more investments in properties at times that may not permit us to realize the maximum return on those investments, which could also result in adverse tax consequences to us, and our ability to capitalize on acquisition opportunities and meet operational needs may be adversely affected. Moreover, market turmoil could lead to an increased lack of consumer confidence and widespread reduction of business activity generally, which may materially and adversely impact us, including our ability to acquire and dispose of properties.

An increase in interest rates could result in a decrease in the market value of the notes.

In general, as market interest rates rise, notes bearing interest at a fixed rate generally decline in value. Consequently, if you purchase these notes and market interest rates increase, the market price of your notes is likely to decline. We cannot predict the future level of market interest rates.

An adverse action to our credit ratings could have a materially adverse effect on us and the market price of the notes.

The credit ratings assigned to the notes could change based upon, among other things, our historical and projected business, financial condition, liquidity, results of operations, AFFO and prospects. These ratings are subject to ongoing evaluation by credit rating agencies and we cannot assure you that any rating will not be changed or withdrawn by a rating agency in the future if, in its judgment, circumstances warrant. Moreover, these credit ratings are not recommendations to buy, sell or hold the notes or any other securities. If any of the credit rating agencies that have rated the notes downgrades or lowers its credit rating, or if any credit rating agency indicates that it has placed any such rating on a so-called "watch list" for a possible downgrading or lowering, or otherwise indicates that its outlook for that rating is negative, it could have a material adverse effect on the market price of the notes and our costs and availability of capital, which could in turn have a material adverse effect on us and on our ability to satisfy our debt service obligations, including those under the notes, and to make dividends and distributions on the Company's common stock and the market price of the notes.

An investment in the notes by a purchaser whose home currency is not the euro entails significant risks.

An investment in securities that are denominated and payable in a currency other than the currency of the country in which the purchaser is resident or the currency in which the purchaser primarily conducts its business or activities (in each case, the "home currency") entails

Table of Contents

significant risks not associated with securities denominated and payable in the home currency. Accordingly, an investment in the notes by a purchaser whose home currency is not the euro entails significant risks. These risks include the possibility of significant changes in rates of exchange between the noteholder's home currency and the euro and the possibility of the imposition or subsequent modification of foreign exchange controls. These risks generally depend on factors over which we have no control, such as economic, financial and political events and the supply of and demand for the relevant currencies. In recent years, rates of exchange between the euro and certain currencies including the U.S. dollar have been highly volatile and noteholders should be aware that such volatility may occur in the future. Fluctuations in any particular exchange rate that have occurred in the past, however, are not necessarily indicative of fluctuations in the rate that may occur during the term of the notes. Depreciation of the euro against a noteholder's home currency would result in a decrease in the effective yield of the notes below its coupon rate and, in certain circumstances, could result in a loss to the noteholder.

If, as permitted by the notes, we make payments in U.S. dollars when we are unable to obtain euros, you will be exposed to significant risks if your home currency is not U.S. dollars.

If the euro is unavailable to us due to the imposition of exchange controls or other circumstances beyond our control, or the euro is no longer used by the member states of the European Monetary Union that have adopted the euro as their currency or for the settlement of transactions by public institutions within the international banking community, then all payments in respect of the notes will be made in U.S. dollars until the euro is again available to us or so used. The amount payable on any date in euros will be converted into U.S. dollars on the basis of the then most recently available market exchange rate for euros. See "Description of notes Issuance in euros." Any payment in respect of the notes so made in U.S. dollars will not constitute an event of default under the indenture governing the notes. If your home currency is not U.S. dollars, any such payment will expose you to the significant risks described above under " An investment in the notes by a purchaser whose home currency is not the euro entails significant risks."

In a lawsuit for payment on the notes, a noteholder may bear currency exchange risk.

The notes will be governed by, and construed in accordance with, the laws of the State of New York, and a lawsuit for payment on the notes may be heard in a state or federal court in New York state. A New York state statute presently in effect, but subject to amendment, would require a New York state court hearing such a lawsuit to render its decision or award in euros. The judgment entered on that award, however, will be denominated in U.S. dollars, and converted at the exchange rate prevailing on the date of the judgment's entry. Consequently, in a lawsuit for payment on the notes, investors would bear currency exchange risk until a New York state court judgment is entered, which could be a long time. A Federal court sitting in New York with diversity jurisdiction over a dispute arising in connection with the notes would be expected to apply the foregoing New York law.

In courts outside of New York, noteholders may not be able to obtain a judgment in a currency other than U.S. dollars. For example, a judgment for money in an action based on the notes in many other U.S. federal or state courts ordinarily would be enforced in the United States only in U.S. dollars. The date used to determine the rate of conversion of euros into U.S. dollars would depend upon various factors, including which court renders the judgment.

Table of Contents

Noteholders are exposed to the consequences of denomination of a minimum specified denomination plus a higher integral multiple.

The notes will be issued in minimum denominations of €100,000 and integral multiples of €1,000 in excess thereof. As is the case with any issue of notes that have a denomination consisting of a minimum specified denomination plus a higher integral multiple of another smaller amount, it is possible that the notes may be traded in amounts in excess of €100,000 (or its equivalent) that are not integral multiples of €1,000 (or its equivalent). In such case, a noteholder who, as a result of trading such amounts, holds a principal amount of less than the minimum specified denomination may not receive a definitive note in respect of such holding (should definitive notes be printed) and would need to purchase a principal amount of notes such that its holding amounts to the minimum specified denomination.

Your investment has various U.S. federal income tax risks.

Although the provisions of the Code generally relevant to an investment in the notes are described in "Additional material federal income tax considerations" in this prospectus supplement and "Material Federal Income Tax Considerations" in the accompanying prospectus, we urge you to consult your tax advisor concerning the effects of U.S. federal, state, local and foreign tax laws on you with regard to an investment in the notes.

Table of Contents**Our portfolio**

At September 30, 2014, our total owned real estate portfolio comprised of full or partial ownership interests in 688 properties, substantially all of which were net leased to 215 tenants, with an occupancy rate of 98%, and totaled approximately 81 million square feet. Our European portfolio of owned real estate as of such date comprised of full or partial ownership interests in 199 properties, substantially all of which were net leased to 47 tenants, with an occupancy rate of 97%, and totaled approximately 22 million square feet. The weighted average remaining lease terms as of such date for our total owned portfolio and our European portfolio were 8.5 years and 9.7 years, respectively.

Geographic diversification

Information regarding the geographic diversification of our net-leased properties as of September 30, 2014 is set forth below:

(in thousands, except percentages)

Thereafter	24	28,068	45,999	131,487	3.5%	6.0%
Total Non-recourse Debt	401	\$ 443,410	\$ 2,150,791	\$ 2,629,269	70.2%	5.2%
Recourse Debt						
Senior Unsecured Notes (due April 1, 2024)				500,000		
Unamortized discount on Senior Unsecured Notes				(1,700)		
Senior Unsecured Notes, net				498,300	13.3%	4.6%
Senior Unsecured Credit Facility Revolver (due January 31, 2018)(2)(3)				368,945	9.8%	1.2%
Senior Unsecured Credit Facility Term Loan (due January 31, 2016)(4)				250,000	6.7%	1.4%
Total Recourse Debt				\$ 1,117,245	29.8%	2.8%
Total Pro Rata Debt Outstanding(5)				\$ 3,746,514	100.0%	4.5%

(1) Total outstanding balance includes balloon payments, scheduled amortization and unamortized premium, net.

(2) We have an option to extend the maturity date of the revolver under our Senior Unsecured Credit Facility by one year, subject to the satisfaction of certain conditions.

(3) In October 2014, we utilized \$225.8 million of the net proceeds from our public equity offering to pay down a portion of the amount outstanding on the revolver under our Senior Unsecured Credit Facility.

- (4) We have two options to extend the maturity date of the term loan facility under our Senior Unsecured Credit Facility by one year, subject to satisfaction of certain conditions.
- (5) Represents our pro rata share of consolidated and unconsolidated debt.

S-19

Table of Contents

Currency conversion

Principal, premium, if any, and interest payments on the notes, including any payments made upon any redemption of the notes, will be payable in euros. If the euro is unavailable to us due to the imposition of exchange controls or other circumstances beyond our control, or the euro is no longer used by the member states of the European Monetary Union that have adopted the euro as their currency or for the settlement of transactions by public institutions within the international banking community, then all payments in respect of the notes will be made in U.S. dollars until the euro is again available to us or so used. The amount payable on any date in euros will be converted into U.S. dollars on the basis of the most recently available market exchange rate for euros. See "Description of the notes Issuance in euros." Any payment in respect of the notes so made in U.S. dollars will not constitute an event of default under the indenture governing the notes.

Investors will be subject to foreign exchange risks as to payments of principal of, and premium, if any, and interest on, the notes that may have important economic and tax consequences to them. See "Risk factors." You should consult your own financial and legal advisors as to the risks involved in an investment in the notes.

On January 12, 2015, the euro/U.S. dollar rate of exchange was €1.00/U.S.\$1.1834.

Use of proceeds

We estimate that the net proceeds from the sale of the notes offered by this prospectus supplement, after deducting the underwriting discount and other estimated expenses payable by us, will be approximately €492,625,539, or \$582,973,063 based on the euro/U.S. dollar exchange rate as of January 12, 2015.

We intend to use the net proceeds from this offering to repay amounts outstanding under our Senior Unsecured Credit Facility, to fund potential future acquisitions and for general corporate purposes.

Affiliates of certain of the underwriters are lenders under our Senior Unsecured Credit Facility and will receive their proportionate share of the net proceeds from this offering used to reduce such indebtedness. See "Underwriting (Conflicts of interest)".

Table of Contents**Ratio of earnings to fixed charges**

For purposes of calculating the ratio of earnings to fixed charges, the term "earnings" is the amount resulting from adding (i) pre-tax income from continuing operations before adjustment for non-controlling interests in consolidated subsidiaries or income or loss from equity investees, (ii) fixed charges, (iii) amortization of capitalized interest and (iv) distributed income of equity investees, reduced by (i) interest capitalized and (ii) the non-controlling interest in pre-tax income of subsidiaries that have not incurred fixed charges. "Fixed charges" consist of (i) interest expensed and capitalized, (ii) amortized premiums, discounts and capitalized expenses related to indebtedness and (iii) an estimate of the interest within rental expense.

	Nine months ended September 30,		Year ended December 31,			
	2014	2013	2012	2011	2010	2009
Ratio of earnings to fixed charges	2.21	1.88	2.47	7.64	6.49	7.27

S-21

Table of Contents**Capitalization**

The following table sets forth our capitalization (i) on an actual basis; (ii) as adjusted to reflect the repayment of certain non-recourse debt, as well as the balance of our Senior Unsecured Credit Facility as of January 12, 2015, which includes the repayment of \$225.8 million attributable to the net proceeds from our public equity offering in September 2014, borrowings thereunder relating to six acquisitions completed after September 30, 2014 for an aggregate purchase price of \$653 million as well as increases or decreases based on our normal course of operations and other developments with respect to our business after September 30, 2014; and (iii) as further adjusted to reflect the impact of our sale of the notes in this offering, after deducting the estimated underwriting discount and other offering expenses payable by us, and the application of the net proceeds of approximately €492,625,539, or \$582,973,063 based on the euro/U.S. dollar exchange rate as of January 12, 2015 therefrom to reduce amounts outstanding under our Senior Unsecured Credit Facility. You should read this table together with our unaudited financial statements and related notes as of, and for the three and nine months ended September 30, 2014, as well as management's discussion and analysis thereof, included in our Quarterly Report on Form 10-Q for the quarter ended September 30, 2014.

	As of September 30, 2014 (unaudited in thousands)		
	Actual	As adjusted	As further adjusted
Debt

Table of Contents

Description of the notes

The following summary of certain terms of the notes supplements and, to the extent inconsistent, replaces the description in the accompanying prospectus of the general terms and provisions of the debt securities, to which description reference is hereby made. The following summary of certain provisions of the notes and the indenture does not purport to be complete and is qualified in its entirety by reference to the actual provisions of the notes and the indenture. Certain terms used but not defined herein shall have the meanings given to them in the accompanying prospectus, the indenture or the notes, as the case may be. You can find definitions of certain capitalized terms used in this description under "Certain Covenants Definitions." As used in this section, "the Company" refers to W. P. Carey Inc., the issuer of the notes, and not to any of its subsidiaries.

General

The notes will be issued pursuant to an indenture, dated as of March 14, 2014 (the "base indenture"), between the Company and U.S. Bank National Association, as trustee (the "trustee"), as supplemented by a supplemental indenture to be dated as of January 21, 2015 (together with the base indenture, the "indenture"), between the Company and the trustee. You may request copies of the indenture and the form of the notes from the Company.

The notes will be the Company's unsecured and unsubordinated obligations and will rank equally in right of payment with each other and with all of the Company's other unsecured and unsubordinated indebtedness. However, the notes will be effectively subordinated in right of payment to the Company's mortgages and other secured indebtedness to the extent of the value of the collateral securing the same and to all liabilities, whether secured or unsecured, and any preferred equity of the Company's subsidiaries. As of September 30, 2014, the Company had indebtedness and other liabilities of \$4.5 billion outstanding, of which \$3.8 billion represented the Company's total consolidated secured and unsecured indebtedness.

See "Risk factors" beginning on page S-10 of this prospectus supplement.

The notes will initially be limited to an aggregate principal amount of €500 million. The Company may, from time to time, without notice to or the consent of any note holders, create and issue additional debt securities having the same terms as the notes in all respects, except for the issue date, public offering price and, under certain circumstances, the date from which interest begins to accrue and the first payment of interest thereon, provided that (i) such issuance complies with the covenants described below under "Certain covenants" and (ii) any additional debt securities must be fungible with the previously outstanding notes for U.S. federal income tax purposes. Additional debt securities issued in this manner will be consolidated with, and will form a single series of debt securities under the indenture with, the notes. The notes and any additional debt securities will rank equally and ratably in right of payment and will be treated as a single series of debt securities for all purposes under the indenture.

The notes will be issued only in fully registered, book-entry form, in minimum denominations of €100,000, and integral multiples of €1,000 in excess thereof. The book-entry system is described under "Book-entry procedures" below and in the accompanying prospectus under the caption "Description of Debt Securities Book-Entry Procedures." The registered holder of a

Table of Contents

note will be treated as its owner for all purposes under the indenture, regardless of its beneficial ownership.

The terms of the notes will provide that the Company is permitted to withhold from interest payments and payments upon the maturity or earlier redemption of notes any amounts it is required to withhold by law. For example, non-U.S. holders of notes may, under some circumstances, be subject to U.S. federal withholding tax with respect to payments of interest on such notes.

Except as described in this prospectus supplement under the caption " Certain covenants" and in the accompanying prospectus under the caption "Description of Debt Securities Merger, Consolidation and Transfer of Assets," the indenture will not contain any provisions that would limit the ability of the Company to incur indebtedness or substantially reduce or eliminate its consolidated assets or that would afford holders of the notes protection in the event of:

a recapitalization or other highly leveraged or similar transaction involving the Company, any of its subsidiaries or affiliates or its management;

a change of control involving the Company or its subsidiaries; or

a reorganization, restructuring, merger or similar transaction involving the Company, its subsidiaries or its affiliates.

Accordingly, the Company's ability to service its indebtedness (including the notes) could be materially and adversely affected in the future. The Company or one of its affiliates may, to the extent permitted by applicable law, at any time purchase notes in the open market, by tender at any price or by private agreement. Any notes so purchased may not be reissued or resold and will be canceled promptly.

Issuance in euros

Initial noteholders will be required to pay for the notes in euros, and principal, premium, if any, and interest payments in respect of the notes will be payable in euros. If the euro is unavailable to us due to the imposition of exchange controls or other circumstances beyond our control or the euro is no longer used by the member states of the European Monetary Union that have adopted the euro as their currency for the settlement of transactions by public institutions within the international banking community, then all payments in respect of the notes will be made in U.S. dollars until the euro is again available to us or so used. The amount payable on any date in euros will be converted to U.S. dollars on the basis of the Market Exchange Rate (as defined below) on the second business day before that payment is due, or if such Market Exchange Rate is not then available, on the basis of the most recently available Market Exchange Rate on or before the date that payment is due. Any payment in respect of the notes so made in U.S. dollars will not constitute an event of default under the indenture. Neither the trustee nor the paying agent shall be responsible for obtaining exchange rates, effecting conversions or otherwise handling re-denominations. See "Risk factors" beginning on page S-10 of this prospectus supplement.

"*Market Exchange Rate*" means the noon buying rate in the City of New York for cable transfers of euros as certified for customs purposes (or, if not so certified, as otherwise determined) by the Federal Reserve Bank of New York.

Table of Contents

Noteholders will be subject to foreign exchange risks as to payments of principal and interest that may have important economic and tax consequences to them. See "Risk Factors" beginning on page S-10 of this prospectus supplement.

Interest

Interest on the notes will accrue at the rate of 2.000% per year from, and including, January 21, 2015 or the most recent interest payment date to which interest has been paid or provided for, as the case may be, and will be payable annually in arrears on January 20 of each year, beginning on January 20, 2016 (each, an "interest payment date"). The interest so payable will be paid to each holder in whose name a note is registered at the close of business on the January 5 (whether or not a business day) immediately preceding the applicable interest payment date. Interest on the notes will be computed on the basis of an ACTUAL/ACTUAL (ICMA) (as defined in the rulebook of International Capital Markets Association) day count convention.

If any interest payment date, the stated maturity date or any redemption date is not a "business day," which for purposes of the notes, means any day, other than a Saturday or Sunday, (i) which is not a day on which banking institutions in the City of New York or London are authorized or required by law, regulation or executive order to close and (ii) on which the Trans-European Automated Real-Time Gross Settlement Express Transfer system (the TARGET2 system) or any successor thereto, is open, the payment otherwise required to be made on such date will be made on the next business day without any additional payment as a result of such delay.

Principal and maturity

The notes will mature on January 20, 2023 (the "stated maturity date"). The principal of each note payable at maturity or earlier redemption will be paid against presentation and surrender of the note at the office or agency maintained for such purpose in London, initially the corporate trust office of the paying agent, located at 125 Old Broad Street, London EC2N 1AR, United Kingdom, or by electronic means, in euros. The notes will not be entitled to the benefits of, or be subject to, any sinking fund.

Optional redemption

The notes will be redeemable, at the Company's sole option, in whole at any time or in part from time to time, in each case prior to October 20, 2022 (three months prior to the stated maturity date of the notes), for cash, at a redemption price equal to the greater of (i) 100% of the principal amount of the notes to be redeemed and (ii) the sum of the present values of the remaining scheduled payments of principal and interest on the notes to be redeemed (exclusive of interest accrued to, but not including, the date of redemption) discounted to the date of redemption on an annual basis (ACTUAL/ACTUAL (ICMA) (as defined in the rulebook of International Capital Markets Association)) at the applicable Comparable Government Bond Rate plus 30 basis points, plus, in each case, unpaid interest, if any, accrued to, but not including, the date of redemption.

In addition, at any time on or after October 20, 2022 (three months prior to the stated maturity date of the notes), the notes will be redeemable, at the Company's sole option, in

Table of Contents

whole at any time or in part from time to time, for cash, at a redemption price equal to 100% of the principal amount of the notes to be redeemed plus unpaid interest, if any, accrued to, but not including, the date of redemption. Notwithstanding the foregoing, interest will be payable to holders of the notes on the regular record date applicable to an interest payment date falling on or before a redemption date.

The notes are also subject to redemption prior to maturity if certain events occur involving United States taxation. If any of these special tax events do occur, the notes may be redeemed at a redemption price of 100% of their principal amount plus accrued and unpaid interest to, but not including, the date fixed for redemption. See "Redemption for tax reasons."

The following definitions will apply with respect to the foregoing:

"*Comparable Government Bond*" means, in relation to any Comparable Government Bond Rate calculation, at the discretion of an Independent Investment Banker, a German government bond whose maturity is closest to the maturity of the notes to be redeemed, or if the Independent Investment Banker in its discretion determines that such similar bond is not in issue, such other German government bond as such Independent Investment Banker may, with the advice of three brokers of, and/or market makers in, German government bonds selected by such Independent Investment Banker, determine to be appropriate for determining the Comparable Government Bond Rate.

"*Comparable Government Bond Rate*" means the price, expressed as a percentage (rounded to three decimal places, with 0.0005 being rounded upwards), at which the gross redemption yield on the notes to be redeemed, if they were to be purchased at such price on the third business day prior to the date fixed for redemption, would be equal to the gross redemption yield on such business day of the Comparable Government Bond on the basis of the middle market price of the Comparable Government Bond prevailing at 11:00 a.m. (London time) on such business day as determined by an Independent Investment Banker.

"Independent Investment Banker" means J.P. Morgan Securities plc, Barclays Bank PLC and Citigroup Global Markets Limited and their respective successors, or, if such firm is unwilling or unable to select the Comparable Government Bond, an independent investment banking institution of international standing appointed by the Company.

In order to exercise its right of optional redemption, the Company (or, at the Company's request, the paying agent on its behalf) must transmit a notice of redemption to each holder of notes to be redeemed at least 30 days but not more than 60 days prior to the redemption date. Such notice of redemption shall specify the principal amount of notes to be redeemed, the CUSIP, ISIN and Common Code numbers of the notes to be redeemed, the redemption date, the redemption price, the place or places of payment and that payment will be made upon presentation and surrender of such notes. Once notice of redemption is delivered to holders, the notes called for redemption will become due and payable on the redemption date at the redemption price. On the redemption date, the Company will deposit with the trustee or the paying agent an amount of money sufficient, as determined by the Company, to redeem on the redemption date all the notes so called for redemption at the redemption price.

Unless the Company defaults in payment of the redemption price, on and after the redemption date, interest will cease to accrue on the notes or any portion of the notes called for redemption on and not including the redemption date.

Table of Contents

If less than all of the notes are to be redeemed, the trustee, upon prior notice from the Company, will select the notes to be redeemed, which, in the case of notes in book-entry form, will be in accordance with the procedures of the applicable depository. The trustee may select notes and portions of notes in amounts of €100,000 and integral multiples of €1,000 in excess thereof.

Payment of additional amounts

All payments in respect of the notes will be made by or on behalf of us without withholding or deduction for, or on account of, any present or future taxes, duties, assessments or governmental charges of whatever nature, imposed or levied by the United States or any taxing authority thereof or therein, unless such withholding or deduction is required by law. If such withholding or deduction is required by law, we will pay to a holder who is not a United States person such additional amounts on the notes as are necessary in order that the net payment by us or a paying agent of the principal of, and premium, if any, and interest on, the notes to such holder, after such withholding or deduction, will not be less than the amount provided in the notes to be then due and payable; provided, however, that the foregoing obligation to pay additional amounts shall not apply:

1. to any tax, assessment or other governmental charge that would not have been imposed but for the holder, or a fiduciary, settlor, beneficiary, member or shareholder of the holder if the holder is an estate, trust, partnership or corporation, or a person holding a power over an estate or trust administered by a fiduciary holder, being considered as:
 - a. being or having been engaged in a trade or business in the United States or having had a permanent establishment in the United States or having had a qualified business unit which has the United States dollar as its functional currency;
 - b. having a current or former connection with the United States (other than a connection arising solely as a result of the ownership of the notes, the receipt of any payment or the enforcement of any rights thereunder) or being considered as having such relationship, including being or having been a citizen or resident of the United States;
 - c. being or having been a personal holding company, a passive foreign investment company or a controlled foreign corporation with respect to the United States or a foreign personal holding company that has accumulated earnings to avoid United States federal income tax; or
 - d. being a bank receiving payments on an extension of credit made pursuant to a loan agreement entered into in the ordinary course of its trade or business;
2. to any holder that is not the sole beneficial owner of the notes, or a portion of the notes, or that is a fiduciary, partnership or limited liability company, but only to the extent that a beneficiary or settlor with respect to the fiduciary, a beneficial owner or member of the partnership or limited liability company would not have been entitled to the payment of an additional amount had the beneficiary, settlor, beneficial owner or member received directly its beneficial or distributive share of the payment;
3. to any tax, assessment or other governmental charge that would not have been imposed but for the failure of the holder or any other person to comply with certification, identification

Table of Contents

or information reporting requirements concerning the nationality, residence, identity or connection with the United States of the holder or beneficial owner of the notes, if compliance is required by statute, by regulation of the United States or any taxing authority therein or by an applicable income tax treaty to which the United States is a party as a precondition to exemption from such tax, assessment or other governmental charge;

4. to any tax, assessment or other governmental charge that is imposed otherwise than by withholding by us or a paying agent from the payment;

5. to any tax, assessment or other governmental charge that would not have been imposed but for a change in law, regulation, or administrative or judicial interpretation that becomes effective more than 15 days after the payment becomes due or is duly provided for, whichever occurs later;

6. to any estate, inheritance, gift, sales, excise, transfer, wealth, capital gains or personal property tax or similar tax, assessment or other governmental charge;

7. to any withholding or deduction that is imposed on a payment to an individual and that is required to be made pursuant to any law implementing or complying with, or introduced in order to conform to, any European Union Directive on the taxation of savings;

8. to any tax, assessment or other governmental charge required to be withheld by any paying agent from any payment of principal of or interest on any note, if such payment can be made without such withholding by at least one other paying agent;

9. to any tax, assessment or other governmental charge that would not have been imposed but for the presentation by the holder of any note, where presentation is required, for payment on a date more than 30 days after the date on which payment became due and payable or the date on which payment thereof is duly provided for, whichever occurs later;

10. to any withholding or deduction that is imposed on a payment pursuant to Sections 1471 through 1474 of the Code and related Treasury regulations and pronouncements (the Foreign Account Tax Compliance Act) or any successor provisions and any regulations or official law, agreement or interpretations thereof implementing an intergovernmental approach thereto; or

11. in the case of any combination of items (1), (2), (3), (4), (5), (6), (7), (8), (9) and (10).

The notes are subject in all cases to any tax, fiscal or other law or regulation or administrative or judicial interpretation applicable to the notes. Except as specifically provided under this heading " Payment of additional amounts," we will not be required to make any payment for any tax, duty, assessment or governmental charge of whatever nature imposed by any government or a political subdivision or taxing authority of or in any government or political subdivision.

As used under this heading " Payment of additional amounts" and under the heading " Redemption for tax reasons," the term "United States" means the United States of America (including the states and the District of Columbia and any political subdivision thereof), and the term "United States person" means any individual who is a citizen or resident of the United States for U.S. federal income tax purposes; a corporation, partnership or other entity created or organized in or under the laws of the United States, any state of the United States or the District of Columbia, including an entity treated as a corporation for United States income tax

Table of Contents

purposes; or any estate or trust the income of which is subject to United States federal income taxation regardless of its source.

Redemption for tax reasons

If, as a result of any change in, or amendment to, the laws (or any regulations or rulings promulgated under the laws) of the United States (or any taxing authority thereof or therein), or any change in, or amendments to, an official position regarding the application or interpretation of such laws, regulations or rulings, which change or amendment is announced or becomes effective on or after the date of this prospectus supplement, we become or, based upon a written opinion of independent counsel selected by us, will become obligated to pay additional amounts as described herein under the heading " Payment of additional amounts" with respect to the notes, then we may at any time at our option, having given not less than 30 nor more than 60 days prior notice to holders, redeem, in whole, but not in part, the notes at a redemption price equal to 100% of their principal amount of the notes, together with accrued and unpaid interest on the notes to, but not including, the date fixed for redemption.

Certain covenants

Limitation on the incurrence of debt

The Company will not, and will not permit any of its Subsidiaries to, incur any Debt if, immediately after giving effect to the incurrence of such Debt and the application of the proceeds from such Debt on a pro forma basis, the aggregate principal amount of all of its and its Subsidiaries' outstanding Debt (determined on a consolidated basis in accordance with GAAP) is greater than 60% of its and its Subsidiaries' Total Asset Value.

As of September 30, 2014, the aggregate principal amount of all of the Company's and its Subsidiaries' outstanding Debt (determined on a consolidated basis in accordance with GAAP) was 40.0% of its and its Subsidiaries' Total Asset Value.

Limitation on the incurrence of secured debt

The Company will not, and will not permit any of its Subsidiaries to, incur any Debt (including, without limitation, Acquired Debt) secured by any Lien on any of its or any of its Subsidiaries' property or assets if, immediately after giving effect to the incurrence of such Debt and the application of the proceeds from such Debt on a pro forma basis, the aggregate principal amount of all of its and its Subsidiaries' outstanding Debt (determined on a consolidated basis in accordance with GAAP) secured by a Lien on any of its or its Subsidiaries' property or assets is greater than 40% of its and its Subsidiaries' Total Asset Value.

As of September 30, 2014, the aggregate principal amount of all of the Company's and its Subsidiaries' outstanding Debt (determined on a consolidated basis in accordance with GAAP) secured by a Lien on any of its or its Subsidiaries' property or assets was 28.1% of its and its Subsidiaries' Total Asset Value.

Limitation on the incurrence of debt based on consolidated EBITDA to annual debt service charge

The Company will not, and will not permit any of its Subsidiaries to, incur any Debt if, immediately after giving effect to the incurrence of such Debt and the application of the

Table of Contents

proceeds from such Debt on a pro forma basis, the ratio of Consolidated EBITDA to Annual Debt Service Charge (determined on a consolidated basis in accordance with GAAP) for the period consisting of the four consecutive fiscal quarters most recently ended prior to the date on which such Debt is to be incurred (for which consolidated financial statements have been filed with the SEC on Form 10-K or Form 10-Q, as the case may be, or, if such filing is not permitted under the Exchange Act, with the Trustee) shall have been less than 1.5:1, calculated on the following assumptions:

such Debt and any other Debt (including, without limitation, Acquired Debt) incurred by the Company or any of its Subsidiaries since the first day of such four consecutive fiscal quarterly period had been incurred, and the application of the proceeds from such Debt (including to repay or retire other Debt) had occurred, on the first day of such period;

the repayment or retirement of any other Debt of the Company or any of its Subsidiaries since the first day of such four consecutive fiscal quarterly period had occurred on the first day of such period (except that, in making this computation, the amount of Debt under any revolving credit facility, line of credit or similar facility will be computed based upon the average daily balance of such Debt during such period); and

in the case of any acquisition or disposition by the Company or any of its Subsidiaries of any asset or group of assets with a fair market value in excess of \$1.0 million since the first day of such four consecutive fiscal quarterly period, whether by merger, stock purchase or sale or asset purchase or sale or otherwise, such acquisition or disposition had occurred as of the first day of such period with the appropriate adjustments with respect to such acquisition or disposition being included in such pro forma calculation.

If the Debt giving rise to the need to make the calculation described above or any other Debt incurred after the first day of the relevant four-quarter period bears interest at a floating rate, then, for purposes of calculating the Annual Debt Service Charge, the interest rate on such Debt will be computed on a pro forma basis by applying the average daily rate which would have been in effect during the entire such four consecutive fiscal quarterly period to the greater of the amount of such Debt outstanding at the end of such period or the average amount of such Debt outstanding during such period.

As of September 30, 2014, the Company's ratio of Consolidated EBITDA to Annual Debt Service Charge (determined on a consolidated basis in accordance with GAAP) was 3.7:1.

Maintenance of unencumbered asset value

The Company will not have at any time Total Unencumbered Asset Value of less than 150% of the aggregate principal amount of all of its and its Subsidiaries' outstanding Unsecured Debt (determined on a consolidated basis in accordance with GAAP).

As of September 30, 2014, the Company's Total Unencumbered Asset Value was 285.8% of the aggregate principal amount of all of its and its Subsidiaries' outstanding Unsecured Debt (determined on a consolidated basis in accordance with GAAP).

Calculations in respect of the notes

Except as explicitly specified otherwise herein or in the Indenture, the Company will be responsible for making all calculations required under the notes. The Company will make all

Table of Contents

these calculations in good faith and, absent manifest error, its calculations will be final and binding on holders of the notes. The Company will provide a schedule of its calculations to the trustee and paying agent and, absent manifest error, the trustee and paying agent will be entitled to rely upon the accuracy of the Company's calculations without independent verification. The trustee will forward the Company's calculations to any holder of notes upon written request.

Definitions

As used in the indenture, the following terms have the respective meanings specified below:

"Acquired Debt" means Debt of a person:

existing at the time such person is merged or consolidated with or into the Company or any of its Subsidiaries or becomes a Subsidiary of the Company; or

assumed by the Company or any of its Subsidiaries in connection with the acquisition of assets from such person.

Acquired Debt shall be deemed to be incurred on the date the acquired person is merged or consolidated with or into the Company or any of its Subsidiaries or becomes a Subsidiary of the Company or the date of the related acquisition, as the case may be.

"Annual Debt Service Charge" means, for any period, the interest expense of the Company and its Subsidiaries on a pro forma basis for such period (determined on a consolidated basis in accordance with GAAP).

"Capitalization Rate" means 7.50%.

"Consolidated EBITDA" means the Net Income (Loss) of the Company and its Subsidiaries on a pro forma basis for the applicable period, plus (a) the sum of the following amounts of the Company and its Subsidiaries on a pro forma basis for such period (determined on a consolidated basis in accordance with GAAP) to the extent included in the determination of such Net Income (Loss): (i) depreciation expense, (ii) amortization expense and other non-cash charges, (iii) interest expense, (iv) income tax expense, (v) extraordinary losses and other non-recurring charges (and other losses on asset sales not otherwise included in extraordinary losses and other non-recurring charges), (vi) non-controlling interests, and (vii) adjustments as a result of the straight lining of rents, less (b) extraordinary gains (including, without limitation, gains on asset sales and gains resulting from the early extinguishment of indebtedness, in each case not otherwise included in extraordinary gains) of the Company and its Subsidiaries on a pro forma basis for such period (determined on a consolidated basis in accordance with GAAP) to the extent included in the determination of such Net Income (Loss).

"Debt" means, any indebtedness of the Company or any Subsidiary, whether or not contingent, in respect of:

borrowed money or evidenced by bonds, notes, debentures, loan agreements or similar instruments;

Table of Contents

indebtedness secured by any Lien on any property or asset owned by the Company or any Subsidiary, but only to the extent of the lesser of:

the amount of indebtedness so secured, and

the fair market value (determined in good faith by the board of directors of the Company or a duly authorized committee thereof) of the property subject to such Lien;

reimbursement obligations, contingent or otherwise, in connection with any letters of credit actually issued or amounts representing the balance deferred and unpaid of the purchase price of any property except any such balance that constitutes an accrued expense or trade payable; or

any lease of property by the Company or any Subsidiary as lessee which is required to be reflected on the consolidated balance sheet of the Company as a capitalized lease in accordance with GAAP;

and also includes, to the extent not otherwise included, any non-contingent obligation of the Company or any Subsidiary to be liable for, or to pay, as obligor, guarantor or otherwise (other than for purposes of collection in the ordinary course of business), Debt of the types referred to above of another person other than the Company or any Subsidiary (it being understood that Debt shall be deemed to be incurred by the Company or any Subsidiary whenever such person shall create, assume, guarantee or otherwise become liable in respect thereof).

"GAAP" means generally accepted accounting principles in the United States of America as set forth in the opinions and pronouncements of the Accounting Principles Board and the American Institute of Certified Public Accountants and statements and pronouncements of the Financial Accounting Standards Board or such other principles as may be approved by a significant segment of the accounting profession in the United States of America, that are applicable to the circumstances as of the date of determination, consistently applied.

"Lease" means a lease, license, concession agreement or other agreement providing for the use or occupancy of any portion of any Project, including all amendments, supplements, modifications and assignments thereof and all side letters or side agreements relating thereto.

"Lien" means any mortgage, deed of trust, lien, charge, pledge, security interest, security agreement or other encumbrance of any kind.

"Managed REIT" means a REIT managed or advised by the Company or its Subsidiaries.

"Management Contract" means a management contract or advisory agreement under which the Company or any of its Subsidiaries provides management and advisory services to a third party, consisting of management of properties or provision of advisory services on property acquisition and dispositions, equity and debt placements and related transactional matters.

"Management Revenues" means, for any period, an amount equal to the aggregate sum of revenues for such period earned by the Company and its Subsidiaries on a pro forma basis from providing management and advisory services under Management Contracts (determined on a consolidated basis in accordance with GAAP), including asset management revenue, performance revenue, structuring revenue, advisor's participation in cash flow (if any), interest

Table of Contents

income or any revenue earned as stipulated in a Management Contract and booked for financial reporting purposes, and distributions received for such period related to the ownership of equity in managed funds and Managed REITs but excluding revenue related to reimbursed costs; provided, however, that Management Revenues shall exclude any revenues earned under Management Contracts, or distributions received, by the Company and its Subsidiaries on a pro forma basis from a current Subsidiary that has not been a Subsidiary for the entirety of such period.

"Net Income (Loss)" means the aggregate of net income (or loss) of the Company and its Subsidiaries on a pro forma basis for the applicable period (determined on a consolidated basis in accordance with GAAP).

"Project" means any office, industrial/manufacturing facility, educational facility, retail facility, distribution/warehouse facility, assembly or production facility, hotel, day care center, storage facility, health care/hospital facility, restaurant, radio or TV station, broadcasting/communication facility (including any transmission facility), any combination of any of the foregoing, or any land to be developed into any one or more of the foregoing pursuant to a written agreement with respect to such land for a transaction involving a Lease (or franchise agreement, in the case of a hotel), in each case owned, directly or indirectly, by any of the Company or its Subsidiaries.

"Property EBITDA" means, for any period, an amount equal to Consolidated EBITDA plus corporate level general and administrative expenses less Management Revenues.

"REIT" means a domestic trust or corporation that qualifies as a real estate investment trust under the provisions of Sections 856 et seq. of the Internal Revenue Code of 1986, as amended.

"Subsidiary" means any person (as defined in the indenture but excluding an individual), a majority of the outstanding voting stock, partnership interests, membership interests or other equity interests, as the case may be, of which is owned or controlled, directly or indirectly, by the Company and/or by one or more other Subsidiaries of the Company, as the case may be, that is consolidated in the financial statements of the Company in accordance with GAAP and any other persons that are consolidated with the Company for purposes of GAAP; provided, however, that calculations with respect to a current Subsidiary that has not been a Subsidiary for the entire period covered by such calculation applicable to the notes will be calculated on a pro forma basis as if such Subsidiary was a Subsidiary as of the first day of such period. For the purposes of this definition, "voting stock, partnership interests, membership interests or other equity interests" means stock or interests having voting power for the election of directors, trustees or managers (or similar members of the governing body of such person), as the case may be, whether at all times or only so long as no senior class of stock has such voting power by reason of any contingency.

"Total Asset Value" means, as of any date, the sum of, without duplication:

in respect of Projects owned or ground-leased by the Company and its Subsidiaries for at least four fiscal quarters (whether or not the applicable Subsidiary of the Company has been a Subsidiary of the Company for at least four fiscal quarters), the Property EBITDA (excluding any EBITDA attributable to investments in unconsolidated limited partnerships, unconsolidated limited liability companies and other unconsolidated entities) for such Projects for the previous four consecutive fiscal quarters divided by the Capitalization Rate;

Table of Contents

in respect of Projects owned or ground-leased by the Company and its Subsidiaries for less than four fiscal quarters, the cost (original cost plus capital improvements) of such Projects and related intangibles, before depreciation and amortization, determined on a consolidated basis in accordance with GAAP; and

for all other assets of the Company and its Subsidiaries, excluding accounts receivable and intangible assets, the value as determined in accordance with GAAP.

"Total Unencumbered Asset Value" means, as of any date, the sum of, without duplication:

in respect of Projects owned or ground-leased by the Company and its Subsidiaries for at least four fiscal quarters (whether or not the applicable Subsidiary of the Company has been a Subsidiary of the Company for at least four fiscal quarters) and which are not subject to a Lien, the Property EBITDA (excluding any EBITDA attributable to investments in unconsolidated limited partnerships, unconsolidated limited liability companies and other unconsolidated entities) for such Projects for the previous four consecutive fiscal quarters divided by the Capitalization Rate;

in respect of Projects owned or ground-leased by the Company and its Subsidiaries for less than four fiscal quarters and which are not subject to a Lien, the cost (original cost plus capital improvements) of such Projects and related intangibles, before depreciation and amortization, determined on a consolidated basis in accordance with GAAP; and

for all other assets of the Company and its Subsidiaries not subject to a Lien, excluding accounts receivable and intangible assets, the value as determined in accordance with GAAP;

all determined on a consolidated basis in accordance with GAAP; provided, however, that, all investments in unconsolidated limited partnerships, unconsolidated limited liability companies and other unconsolidated entities shall be excluded from Total Unencumbered Asset Value.

"Unsecured Debt" means Debt of the Company or any of its Subsidiaries that is not secured by a Lien on any property or assets of the Company or any of its Subsidiaries.

Defeasance

The notes will be subject to legal defeasance and covenant defeasance as set forth in the indenture and described in "Description of Debt Securities Discharge, Legal Defeasance and Covenant Defeasance" in the accompanying prospectus.

Trustee

U.S. Bank National Association will initially act as the trustee for the notes, subject to replacement upon certain events specified in the indenture. Elavon Financial Services Limited, U.K. Branch, will act as paying agent and transfer agent for the notes, and Elavon Financial Services Limited will act as registrar for the notes, in each instance, subject to replacement upon certain events specified in the indenture.

Book-entry procedures

We have obtained the information in this section concerning Clearstream and Euroclear and their book-entry systems and procedures from sources that we believe to be reliable. We take

Table of Contents

no responsibility for an accurate portrayal of this information. In addition, the description of the clearing systems in this section reflects our understanding of the rules and procedures of Clearstream and Euroclear as they are currently in effect. Those systems could change their rules and procedures at any time.

Global clearance and settlement

The notes will be issued in the form of one or more global notes in fully registered form, without coupons, and will be deposited with, or on behalf of, a common depositary, and registered in the name of the nominee of the common depositary for, and in respect of interests held through, Euroclear and Clearstream. Except as described herein, certificates will not be issued in exchange for beneficial interests in the global notes.

Except as set forth below, the global notes may be transferred, in whole and not in part, only to Euroclear, Clearstream or their respective nominees.

Beneficial interests in the global notes will be represented, and transfers of such beneficial interests will be effected, through accounts of financial institutions acting on behalf of beneficial owners as direct or indirect participants in Euroclear or Clearstream. Those beneficial interests will be in denominations of €100,000 and integral multiples of €1,000 in excess thereof. Investors may hold notes directly through Euroclear or Clearstream, if they are participants in such systems, or indirectly through organizations that are participants in such systems.

Owners of beneficial interests in the global notes will not be entitled to have notes registered in their names, and, except as described herein, will not receive or be entitled to receive physical delivery of notes in definitive form. So long as the common depositary for Euroclear and Clearstream is the registered owner of the global notes, the common depositary for all purposes will be considered the sole holder of the notes represented by the global notes under the indenture and the global notes. Except as provided below, beneficial owners will not be considered the owners or holders of the notes under the indenture, including for purposes of receiving any reports delivered by us or the trustee pursuant to the indenture. Accordingly, each beneficial owner must rely on the procedures of the clearing systems and, if such person is not a participant of the clearing systems, on the procedures of the participant through which such person owns its interest, to exercise any rights of a holder under the indenture. Under existing industry practices, if we request any action of holders or a beneficial owner desires to give or take any action which a holder is entitled to give or take under the indenture, the clearing systems would authorize their participants holding the relevant beneficial interests to give or take action and the participants would authorize beneficial owners owning through the participants to give or take such action or would otherwise act upon the instructions of beneficial owners. Conveyance of notices and other communications by the clearing systems to their participants, by the participants to indirect participants and by the participants and indirect participants to beneficial owners will be governed by arrangements among them, subject to any statutory or regulatory requirements as may be in effect from time to time. The laws of some jurisdictions require that certain purchasers of securities take physical delivery of such securities in certificated form. These limits and laws may impair the ability to transfer beneficial interests in global notes.

Table of Contents

We have been advised by Clearstream and Euroclear, respectively, as follows:

Clearstream

Clearstream, has advised that it is incorporated under the laws of Luxembourg and licensed as a bank and professional depositary. Clearstream holds securities for its participating organizations and facilitates the clearance and settlement of securities transactions among its participants through electronic book-entry changes in accounts of its participants, thereby eliminating the need for physical movement of certificates. Clearstream provides to its participants, among other things, services for safekeeping, administration, clearance and settlement of internationally traded securities and securities lending and borrowing. Clearstream interfaces with domestic markets in several countries. Clearstream has established an electronic bridge with the Euroclear Operator (as defined below) to facilitate the settlement of trades between the nominees of Clearstream and Euroclear. As a registered bank in Luxembourg, Clearstream is subject to regulation by the Luxembourg Commission for the Supervision of the Financial Sector. Clearstream customers are recognized financial institutions around the world, including underwriters, securities brokers and dealers, banks, trust companies, clearing corporations and certain other organizations and may include the underwriters. Indirect access to Clearstream is also available to others, such as banks, brokers, dealers and trust companies that clear through, or maintain a custodial relationship with, a Clearstream participant, either directly or indirectly.

Distributions with respect to notes held beneficially through Clearstream will be credited to cash accounts of Clearstream participants in accordance with its rules and procedures.

Euroclear

Euroclear has advised that it was created in 1968 to hold securities for its participants and to clear and settle transactions between Euroclear participants through simultaneous electronic book-entry delivery against payment, thereby eliminating the need for physical movement of certificates and any risk from lack of simultaneous transfers of securities and cash. Euroclear includes various other services, including securities lending and borrowing and interfaces with domestic markets in several countries. Euroclear is operated by Euroclear Bank S.A. /N.V. (the "Euroclear Operator"). All operations are conducted by the Euroclear Operator, and all Euroclear securities clearance accounts and Euroclear cash accounts are accounts with the Euroclear Operator. Euroclear participants include banks (including central banks), securities brokers and dealers and other professional financial intermediaries and may include the underwriters. Indirect access to Euroclear is also available to other firms that clear through or maintain a custodial relationship with a Euroclear participant, either directly or indirectly.

Securities clearance accounts and cash accounts with the Euroclear Operator are governed by the Terms and Conditions Governing Use of Euroclear and the related operating procedures of Euroclear, and applicable Belgian law (collectively, the "Terms and Conditions"). The Terms and Conditions govern transfers of securities and cash within Euroclear, withdrawals of securities and cash from Euroclear, and receipts of payments with respect to securities in Euroclear. All securities in Euroclear are held on a fungible basis without attribution of specific certificates to specific securities clearance accounts. The Euroclear Operator acts under the Terms and Conditions only on behalf of Euroclear participants and has no records of or relationship with persons holding through Euroclear participants.

Table of Contents

Distributions with respect to the notes held beneficially through Euroclear will be credited to the cash accounts of Euroclear participants in accordance with the Terms and Conditions.

Euroclear and clearstream arrangements

So long as Euroclear or Clearstream or their nominee or their common depositary is the registered holder of the global notes, Euroclear, Clearstream or such nominee, as the case may be, will be considered the sole owner or holder of the notes represented by such global notes for all purposes under the Indenture and the notes. Payments of principal, interest and additional amounts, if any, in respect of the global notes will be made to Euroclear, Clearstream, such nominee or such common depositary, as the case may be, as registered holder thereof. None of us, the trustee, any underwriter and any affiliate of any of the above or any person by whom any of the above is controlled (as such term is defined in the Securities Act) will have any responsibility or liability for any records relating to or payments made on account of, beneficial ownership interests in the global notes or for maintaining, supervising or reviewing any records relating to such beneficial ownership interests.

Distributions of principal, premium, if any, and interest with respect to the global notes will be credited in euros to the extent received by Euroclear or Clearstream from the paying agent to the cash accounts of Euroclear or Clearstream customers in accordance with the relevant system's rules and procedures.

Due to the fact that Euroclear and Clearstream can only act on behalf of participants, who in turn act on behalf of indirect participants, the ability of a person having an interest in the global notes to pledge such interest to persons or entities that do not participate in the relevant clearing system, or otherwise take actions in respect of such interest, may be affected by the lack of a physical certificate in respect of such interest.

Initial settlement

We understand that investors that hold their notes through Clearstream or Euroclear accounts will follow the settlement procedures that are applicable to conventional eurobonds in registered form. Subject to applicable procedures of Clearstream and Euroclear, notes will be credited to the securities custody accounts of Clearstream and Euroclear participants on the business day following the settlement date, for the value on the settlement date.

Secondary market trading

Due to the fact that the purchaser determines the place of delivery, it is important to establish at the time of trading of any notes where both the purchaser's and seller's accounts are located to ensure that settlement can be made on the desired value date.

We understand that secondary market trading between Clearstream and/or Euroclear participants will occur in the ordinary way following the applicable rules and operating procedures of Clearstream and Euroclear. Secondary market trading will be settled using procedures applicable to conventional eurobonds in global registered form.

You should be aware that investors will only be able to make and receive deliveries, payments and other communications involving the notes through Clearstream and Euroclear on days when those systems are open for business. Those systems may not be open for business on days when banks, brokers and other institutions are open for business in the United States.

Table of Contents

In addition, because of time-zone differences, there may be problems with completing transactions involving Clearstream and Euroclear on the same business day as in the United States. U.S. investors who wish to transfer their interests in the notes, or to make or receive a payment or delivery of the notes, on a particular day, may find that the transactions will not be performed until the next business day in Luxembourg or Brussels, depending on whether Clearstream or Euroclear is used.

Clearstream or Euroclear will credit payments to the cash accounts of Clearstream customers or Euroclear participants, as applicable, in accordance with the relevant system's rules and procedures, to the extent received by its depository. Clearstream or the Euroclear Operator, as the case may be, will take any other action permitted to be taken by a holder under the Indenture on behalf of a Clearstream customer or Euroclear participant only in accordance with its relevant rules and procedures.

Clearstream and Euroclear have agreed to the foregoing procedures in order to facilitate transfers of the notes among participants of Clearstream and Euroclear. However, they are under no obligation to perform or continue to perform those procedures, and they may discontinue those procedures at any time.

Exchange of global notes for certificated notes

Subject to certain conditions, the notes represented by the global notes are exchangeable for certificated notes in definitive form of like tenor in minimum denominations of €100,000 principal amount and multiples of €1,000 in excess thereof if: (i) the common depository notifies us that it is unwilling, unable or no longer qualified to continue as depository for the global notes and we fail to appoint a successor depository within 90 calendar days; (ii) we, at our option, notify the trustee in writing that we elect to cause the issuance of certificated notes; or (iii) there has occurred and is continuing an Event of Default with respect to the notes.

In all cases, certificated notes delivered in exchange for any global note or beneficial interest therein will be registered in the names, and issued in any approved denominations, requested by or on behalf of the common depository (in accordance with its customary procedures).

Payments (including principal, premium and interest) and transfers with respect to notes in certificated form may be executed at the office or agency maintained for such purpose in London (initially the corporate trust office of the paying agent) or, at our option, by check mailed to the holders thereof at the respective addresses set forth in the register of holders of the notes (maintained by the Registrar), provided that all payments (including principal, premium and interest) on notes in certificated form, for which the holders thereof have given wire transfer instructions, will be required to be made by wire transfer of immediately available funds to the accounts specified by the holders thereof. No service charge will be made for any registration of transfer, but payment of a sum sufficient to cover any tax or governmental charge payable in connection with that registration may be required.

The paying agent for the notes will initially be Elavon Financial Services Limited, U.K. Branch.

Table of Contents

Additional material federal income tax considerations

General

The following is a general summary of the material U.S. federal income tax consequences of the purchase, ownership, and disposition of the notes. This discussion is for Holders (as defined below) that hold the notes as capital assets within the meaning of Section 1221 of the Internal Revenue Code of 1986, as amended (the "Code"), and does not purport to discuss all U.S. federal income tax consequences that may be applicable to the individual circumstances of Holders in special tax situations, including but not limited to banks, insurance companies, certain former citizens or residents of the United States, tax-exempt organizations, traders in securities that elect to use a mark-to-market method of accounting for their securities holdings, dealers in securities or currencies, mutual funds, real estate investment trusts, S corporations, estates and trusts, Holders that hold the notes as part of a hedge, straddle, or an integrated or conversion transaction, or U.S. Holders (as defined below) whose functional currency is not the U.S. dollar, or are partnerships or other pass-through entities. In all cases, prospective investors are advised to consult their own tax advisors regarding the U.S. federal income tax consequences of purchasing, owning, and disposing of notes, as well as any tax consequences arising under the laws of any state, local, foreign, or other taxing jurisdiction. In addition, this summary of certain U.S. federal income tax consequences is for general information only and is not tax advice for any particular Holder. Additionally, this summary does not address U.S. federal estate and gift tax consequences of holding the notes, the alternative minimum tax, or the tax laws of any state, locality or other political subdivision of the United States or other countries or jurisdictions.

As we use the term, a "U.S. person" means any of the following:

an individual who, for U.S. federal income tax purposes, is a citizen or resident of the United States;

a corporation (or other entity treated as a corporation for U.S. federal income tax purposes) created or organized in or under the laws of the United States, any state thereof, or the District of Columbia;

an estate whose income is subject to U.S. federal income taxation without regard to its source; or

a trust if a court within the United States is able to exercise primary supervision over its administration and at least one U.S. person has authority to control all substantial decisions of the trust. Certain trusts in existence on August 20, 1996, that were treated as "U.S. persons" within the meaning of Section 7701(a)(30) of the Code before that date may have in effect an election to continue to be treated as U.S. persons.

"U.S. Holder" means a U.S. person that beneficially owns a note. "Non-U.S. Holder" means a beneficial owner of a note that is an individual, a corporation, an estate, or a trust that is not a U.S. person. "Holder" means either a U.S. Holder or a Non-U.S. Holder.

If a partnership (or other entity or arrangement treated as a partnership for U.S. federal income tax purposes) holds notes, the treatment of a partner will generally depend upon the status of the particular partner and the activities of the partnership. If a partnership (or other

Table of Contents

entity or arrangement treated as such) holds notes, the partnership and its partners should consult their own tax advisors regarding the U.S. federal income tax consequences of the purchase, ownership and disposition of the notes.

The discussion below is based upon the Code, U.S. Treasury regulations thereunder, and judicial and administrative interpretations thereof, all as in effect as of the date of this Prospectus Supplement and any of which may at any time be repealed, revoked or modified or subject to differing interpretations, potentially retroactively, so as to result in U.S. federal income tax consequences different from those discussed below.

The summary of the U.S. federal income tax consequences set out below is for general information only. Prospective Holders should consult their own tax advisors regarding the tax consequences to them of purchasing, owning, and disposing of notes, including the tax consequences under state, local, foreign, and other tax laws and the possible effects of changes in U.S. federal or other tax laws

Certain contingent payments

In certain circumstances, we may redeem the notes at times earlier than the final maturity. In addition, in certain circumstances, we may be required to pay additional amounts to Non-U.S. Holders in respect of U.S. tax withholding or deductions. The possibility of such redemptions or the payment of such additional amounts may implicate the provisions of U.S. Treasury regulations relating to "contingent payment debt instruments." Under the applicable U.S. Treasury regulations, however, the possibility of redemption of the notes or the payment of additional amounts will not affect the amount, timing or character of income recognized by a Holder with respect to the notes if, as of the date the notes are issued, there is only a remote chance that we will redeem the notes or otherwise pay additional amounts on the notes, or certain other exceptions apply. We intend to take the position that the contingencies associated with any redemption or the payment of any additional amounts should not cause the notes to be subject to the contingent payment debt instrument rules. Our determination is binding on a Holder unless such Holder discloses its contrary position in the manner required by applicable U.S. Treasury regulations. Our determination is not, however, binding on the Internal Revenue Service ("IRS"), and if the IRS were to successfully challenge this determination, a Holder might be required to accrue interest income at a higher rate than the stated interest rate on the notes, and to treat as ordinary income any gain realized on the taxable disposition of a note. The remainder of this discussion assumes that the notes will not be treated as contingent payment debt instruments. Prospective Holders should consult their own tax advisors regarding the potential application to the notes of the contingent payment debt instrument rules and the consequences thereof.

U.S. Federal Income Tax Consequences to U.S. Holders

Payments of interest and principal

Payments of stated interest on the notes generally will be taxable to a U.S. Holder as ordinary income at the time that such payments are received or accrued, in accordance with such U.S. Holder's usual method of accounting for U.S. federal income tax purposes.

Stated interest paid in euros will be included in a U.S. Holder's gross income in an amount equal to the U.S. dollar value of euros regardless of whether such euros are converted into U.S.

Table of Contents

dollars. Generally, a U.S. Holder that uses the cash method of tax accounting will determine such U.S. dollar value using the spot rate of exchange on the date of receipt. A cash method U.S. Holder generally will not realize foreign currency gain or loss on the receipt of the interest payment but may have foreign currency gain or loss attributable to the actual disposition of euros received. Generally, a U.S. Holder that uses the accrual method of tax accounting will determine the U.S. dollar value of accrued interest income using the average rate of exchange for the accrual period (or, with respect to an accrual period that spans two taxable years, at the average rate for the partial period within each taxable year). Alternatively, an accrual basis U.S. Holder may make an election (which must be applied consistently to all debt instruments from year-to-year and cannot be changed without the consent of the IRS) to translate accrued interest income at the spot rate of exchange on the last day of the accrual period (or the last day of the portion of the accrual period within each taxable year in the case of a partial accrual period) or, if the date of receipt is within five business days of the last day of the interest accrual period, the spot rate on the date of receipt. A U.S. Holder that uses the accrual method of accounting for tax purposes will recognize foreign currency gain or loss on the receipt of an interest payment if the exchange rate in effect on the date payment is received differs from the rate used in translating the accrual of that interest. The amount of foreign currency gain or loss to be recognized by such U.S. Holder will be an amount equal to the difference between the U.S. dollar value of the euro interest payment determined on the basis of the spot rate on the date of receipt and the U.S. dollar value of the interest income that has accrued during the accrual period (as determined above), regardless of whether the payment is in fact converted to U.S. dollars. This foreign currency gain or loss will be ordinary income or loss and generally will not be treated as an adjustment to interest income or expense.

Any payments of principal on the notes will be made in euros. With respect to payments of principal on a note, a U.S. Holder will recognize foreign exchange gain or loss measured by the difference between the U.S. dollar equivalent of the principal payment received (translated at the spot rate on the date such payment is received) and the U.S. dollar equivalent of such amount translated at the spot rate in effect on the date such U.S. Holder acquired the note.

Original issue discount

It is expected that the issue price of the notes will equal the stated principal amount of the notes or the notes will be issued with no more than a de minimis amount of original issue discount ("OID") for U.S. federal income tax purposes.

OID is treated as de minimis for U.S. federal income tax purposes if it is less than $\frac{1}{4}\%$ of the principal amount of the notes multiplied by the number of complete years to maturity of the notes. If the notes are in fact issued at a greater than a de minimis OID or are treated as having been issued with OID under the U.S. Treasury regulations, then generally, the excess of the "stated redemption price at maturity" of the notes offered hereunder (generally equal to their principal amount as of the date of original issuance plus all interest other than "qualified stated interest payments" payable prior to or at maturity) over their original issue price (in this case, the initial offering price at which a substantial amount of the notes offered hereunder are sold to the public) will constitute OID. A Holder must include OID in income over the term of the notes under a constant yield method. In general, OID must be included in income in advance of the receipt of the cash representing that income.

Table of Contents

OID on a note will be determined for any accrual period in euros and then translated into U.S. dollars, in the same manner as interest income accrued by a U.S. Holder on the accrual basis, as described above. Upon receipt of a payment attributable to OID (an "OID payment"), a U.S. Holder generally will recognize ordinary gain or loss with respect to each OID payment (including, upon the sale of a note, the receipt of proceeds attributable to OID previously included in income) equal to the U.S. dollar value of such OID payment (determined by translating euros received at the spot rate for such foreign currency on the date such payment is received), minus the U.S. dollar value of the accrued OID previously included in income by such holder with respect to such OID payment (determined in the same manner as for accrued interest). For these purposes, all receipts on a note with OID will be viewed: (i) first, as the receipt of any stated interest payments called for under the terms of the note; (ii) second, as receipts of previously accrued OID (to the extent thereof), with such receipts attributed to the earliest accrual period in which OID has accrued and to which prior receipts have not been attributed; and (iii) third, as the receipt of principal.

Sale, exchange and redemption of notes

When a U.S. Holder sells, exchanges or otherwise disposes of a note in a taxable transaction, including by retirement or redemption, such U.S. Holder will recognize gain or loss equal to the difference, if any, between the amount realized on the disposition or retirement (not including any amount attributable to accrued but unpaid interest) and the U.S. Holder's tax basis in the note. A U.S. Holder's tax basis in a note generally will equal the amount paid for the note, increased by the amount of any OID (if any) included in the U.S. Holder's income with respect to the note. If a U.S. Holder purchases a note with euros, then the U.S. dollar cost of such investment generally will be the U.S. dollar value of the purchase price on the date of purchase calculated at the spot rate of exchange on that date.

The amount realized upon the disposition of a note generally will be the U.S. dollar value of the amount received on the date of the disposition calculated at the spot rate of exchange on that date; however, if the note is traded on an established securities market, a cash basis U.S. Holder (and, if it so elects, an accrual basis U.S. Holder) should determine the U.S. dollar value of the cost of or amount received on the note, as applicable, by translating the amount paid or received at the spot rate of exchange on the settlement date of the purchase or disposition, as applicable. The election available to accrual basis U.S. Holders in respect of the purchase and disposition of notes traded on an established securities market must be applied consistently from year-to-year and cannot be changed without the consent of the IRS. Subject to the foreign currency rules discussed below, any gain or loss recognized by a U.S. Holder on the sale, exchange or other disposition of a note will be capital gain or loss and will be long-term capital gain or loss if the note was held by the U.S. Holder for more than one year.

Gain or loss recognized by a U.S. Holder on the sale, exchange, retirement or other disposition of a note will generally be treated as ordinary income or loss to the extent that the gain or loss is attributable to changes in foreign currency exchange rates during the period in which the U.S. Holder held such note. Such foreign currency gain or loss will equal the difference between: (a) the U.S. dollar value of the U.S. Holder's euro sale price for the note calculated at the spot rate of exchange on the date of the sale, exchange, retirement or other disposition and (b) the U.S. dollar value of the U.S. Holder's euro purchase price for the note calculated at the spot rate of exchange on the date of purchase of the note. If the note is traded on an

Table of Contents

established securities market, with respect to a cash basis U.S. Holder (and, if it so elects, an accrual basis U.S. Holder), such foreign currency gain or loss will equal the difference between: (i) the U.S. dollar value of the U.S. Holder's euro sale price for the note calculated at the spot rate of exchange on the settlement date of the disposition and (ii) the U.S. dollar value of the U.S. Holder's euro purchase price for the note calculated at the spot rate of exchange on the settlement date of the purchase of the note. The realization of any foreign currency gain or loss, including foreign currency gain or loss with respect to amounts attributable to accrued and unpaid stated interest, will be limited to the amount of overall gain or loss realized on the disposition of the notes.

Exchange of amounts in other than U.S. dollars

If a U.S. Holder of a note receives euros as interest on a note or on the sale, exchange, retirement or other disposition of a note, then such U.S. Holder's tax basis in such euros will equal its U.S. dollar value when the interest is received or at the time of the sale, exchange, retirement or other disposition. If a U.S. Holder of a note purchased such note with previously owned non-U.S. currency, then gain or loss will be recognized in an amount equal to the difference, if any, between the U.S. Holder's tax basis in such currency and the spot rate of the foreign currency on the date of purchase. Any such gain or loss generally will be treated as ordinary income or loss.

Net investment income

A tax of 3.8% is imposed on the "net investment income" of certain individuals, trusts and estates. Among other items, net investment income generally includes gross income from interest and net gain attributable to the disposition of certain property, less certain deductions. U.S. Holders should consult their own tax advisors regarding the possible implications of this legislation in their particular circumstances.

U.S. Federal Income Tax Consequences to Non-U.S. Holders

Interest

The notes are intended to be treated as notes issued in registered form for U.S. federal income tax purposes. Payments of interest (including accrual of OID, if any) on a note held by a Non-U.S. Holder will be subject to a 30% U.S. federal income tax withheld at source, unless:

such Non-U.S. Holder meets the requirements for the portfolio interest exemption for Non-U.S. Holders described below;

such Non-U.S. Holder meets the requirements for a reduced rate of or exemption from withholding under a tax treaty or other statutory exemption (e.g., Section 892 of the Code); or

the interest is effectively connected with a trade or business conducted by such Non-U.S. Holder within the United States and the Non-U.S. Holder provides the required certification on IRS Form W-8ECI (or successor form).

In some circumstances, you may be able to claim amounts that are withheld as a refund or a credit against your U.S. federal income tax liability.

Table of Contents

Portfolio interest exemption for non-U.S. holders

Payments of interest on a note held by a Non-U.S. Holder that are not effectively connected with a trade or business of the Non-U.S. Holder within the United States (or if an income tax treaty applies, are not attributable to a U.S. permanent establishment maintained by the Non-U.S. Holder) generally will be exempt from U.S. federal income and withholding taxes if the following conditions are satisfied:

the person otherwise required to withhold (the "Withholding Agent") receives, in the manner provided by U.S. tax authorities, a certification that the Non-U.S. Holder is not a U.S. person. A Non-U.S. Holder may provide this certification either (a) by providing a properly completed IRS Form W-8BEN, IRS Form W-8BEN-E or other documentation as may be prescribed by U.S. tax authorities, (b) by holding its note directly through a qualified intermediary and certain conditions are satisfied or (c) if a securities clearing organization, bank or other financial institution that holds customers' securities in the ordinary course of its trade or business and holds the note on behalf of the Non-U.S. Holder certifies to the Withholding Agent under penalties of perjury that it, or the financial institution between it and the Non-U.S. Holder, has received from the Non-U.S. Holder a statement, under penalties of perjury, that such holder is not a United States person and provides the Withholding Agent with a copy of such statement. The appropriate documentation must be effective as to the interest and be provided prior to the payment of such interest. If a change in circumstances makes any information on such documentation incorrect, then the Non-U.S. Holder must report the change within 30 days and provide new documentation.

the Non-U.S. Holder (1) is not a bank that receives payments on the notes that are described in Section 881(c)(3)(A) of the Code, (2) does not own a 10% or greater interest in our capital or profits within the meaning of Section 871(h)(3) of the Code, and (3) is not a controlled foreign corporation related to us within the meaning of Section 881(c)(3)(C) of the Code.

Payments of interest on a note held by a Non-U.S. Holder that are effectively connected with a trade or business of the Non-U.S. Holder within the United States (and if an income tax treaty applies, are attributable to a U.S. permanent establishment maintained by the Non-U.S. Holder) may be exempt from U.S. federal withholding taxes, provided the Non-U.S. Holder provides a properly completed Form W-8ECI (or successor form) to the Withholding Agent. Although exempt from the 30% U.S. federal withholding tax, such payments may be subject to U.S. federal income tax on a net basis at graduated rates as if such Non-U.S. Holder were a U.S. Holder and, in the case of a Non-U.S. Holder that is a corporation, may also be subject to U.S. federal branch profits tax.

Sale, exchange and redemption of notes

Generally, Non-U.S. Holders will not be subject to U.S. federal income tax on gain realized on the sale, exchange, redemption, retirement or other taxable disposition of a note (other than amounts attributable to accrued interest) unless:

such Non-U.S. Holder is an individual who is present in the United States for 183 days or more during the taxable year of sale, exchange, redemption, retirement or other taxable disposition and meets certain conditions; or

Table of Contents

the gain is effectively connected with a U.S. trade or business of such Non-U.S. Holder, and if an income tax treaty applies, is attributable to a permanent establishment in the United States maintained by the Non-U.S. Holder.

If any gain realized on a taxable disposition of a note is effectively connected with a U.S. trade or business of a Non-U.S. Holder (and if an income tax treaty applies, is attributable to a U.S. permanent establishment maintained by the Non-U.S. Holder), such payments may be subject to U.S. federal income tax on a net basis at graduated rates as if such Non-U.S. Holder were a U.S. Holder and, in the case of a Non-U.S. Holder that is a corporation, such gain may also be subject to U.S. federal branch profits tax.

Information reporting and backup withholding

Payments of interest (including accrual of OID, if any) on notes held by non-exempt U.S. Holders are required to be reported to the IRS and the U.S. Holders. Payments of interest (including accrual of OID, if any) on notes held by Non-U.S. Holders generally will be reported to the IRS and the Non-U.S. Holders.

Backup withholding of U.S. federal income tax at the applicable rate may apply to payments made on the notes and payments of proceeds from the sale of a note. Backup withholding will apply to such payments to beneficial owners who are not exempt recipients and that fail to provide certain identifying information, such as their taxpayer identification number, in the manner required. Generally, individuals are not exempt recipients, while certain entities and Non-U.S. Holders who certify their status as such are exempt recipients.

If a Holder (other than an exempt recipient) sells a note before the stated maturity to (or through) certain brokers, the broker must report the sale to the IRS and the Holder unless, in the case of a Non-U.S. Holder, the Non-U.S. Holder certifies that it is not a U.S. person (and certain other conditions are met). The broker may be required to withhold U.S. federal income tax at the applicable rate on the entire sale price unless such Holder provides certain information and, in the case of a Non-U.S. Holder, the Non-U.S. Holder certifies that it is not a U.S. person (and certain other conditions are met).

Any amounts withheld under the backup withholding rules from a payment to a Holder would be allowed as a refund or credit against such Holder's U.S. federal income tax liability, provided the required information is timely provided to the IRS.

FATCA withholding

Pursuant to the Sections 1471 through 1474 of the Code and the U.S. Treasury regulations promulgated thereunder ("FATCA"), we may be required to withhold U.S. tax at the rate of 30% on interest payable on or after July 1, 2014, and on the gross proceeds from the sale or other taxable disposition of the notes payable on or after January 1, 2017, made to non-U.S. financial institutions and certain other non-U.S. non-financial entities (including, in some instances, where such an entity is acting as an intermediary) that fail to comply with certain information reporting obligations. If an amount in respect of U.S. withholding tax were to be deducted or withheld from interest or principal payments on the notes as a result of a Holder's failure to comply with these rules or the presence in the payment chain of an intermediary that does not comply with these rules, neither we nor any paying agent nor any other person

Table of Contents

would be required to pay additional amounts as a result of the deduction or withholding of such tax. As a result, Holders may receive less interest or principal than expected. Certain countries have entered into, and other countries are expected to enter into, agreements with the United States to facilitate the type of information reporting required under FATCA. While the existence of such agreements will not eliminate the risk that notes will be subject to the withholding described above, these agreements are expected to reduce the risk of the withholding for Non-U.S. Holders in (or Holders indirectly holding notes through financial institutions in) those countries. Non-U.S. Holders should consult their own tax advisors regarding FATCA.

EU savings directive

Under EC Council Directive 2003/48/EC on the taxation of savings income (the "Savings Directive"), each member state of the European Union (a "Member State") is required to provide to the tax authorities of another Member State details of payments of interest (or similar income) made by a person within its jurisdiction to, or collected by such a person for, an individual resident in that other Member State or certain limited types of entity established in that other Member State. However, for a transitional period, Luxembourg and Austria may instead apply (unless during such period they elect otherwise) a withholding system in relation to such payments deducting tax at a rate of 35%. The transitional period is to terminate at the end of the first full fiscal year following agreement by certain non-EU countries to the exchange of information relating to such payments. The Luxembourg Government has announced its intention to abolish the withholding system with effect from January 1, 2015, in favour of automatic exchange under the Savings Directive.

A number of non-EU countries and certain dependent or associated territories of certain Member States have adopted similar measures (either provision of information or transitional withholding) in relation to payments made by a person within their respective jurisdictions to, or collected by such a person for, an individual resident or certain limited types of entity established in a Member State. In addition, the Member States have entered into provision of information or transitional withholding arrangements with certain of those dependent or associated territories in relation to payments made by a person in a Member State to, or collected by such a person for, an individual resident or certain limited types of entity established in one of those territories.

On March 24, 2014, the Council of the European Union adopted a directive amending the Savings Directive to extend its scope to cover additional types of income payable on securities. The directive will also expand the circumstances in which payments that indirectly benefit an individual resident in a Member State must be reported. This approach will apply to payments made to, or secured for, persons, entities or legal arrangements (including trusts) where certain conditions are satisfied, and may in some cases apply where the person, entity or arrangement is established or effectively managed outside of the European Union. Member States have until January 1, 2016 to adopt domestic legislation to give effect to these changes, which must be applied from January 1, 2017.

Table of Contents**Underwriting (Conflicts of interest)**

We have entered into an underwriting agreement relating to the notes with the underwriters named below, for whom J.P. Morgan Securities plc, Barclays Bank PLC and Citigroup Global Markets Limited are acting as representatives. Subject to certain conditions, we have agreed to sell to the underwriters and each underwriter has severally, and not jointly, agreed to purchase the amount of notes indicated in the following table.

Underwriter	Principal amount of notes
J.P. Morgan Securities plc	€149,000,000
Barclays Bank PLC	75,000,000
Citigroup Global Markets Limited	75,000,000
The Royal Bank of Scotland plc	60,000,000
Fifth Third Securities, Inc.	47,000,000
PNC Capital Markets LLC	47,000,000
U.S. Bancorp Investments, Inc.	47,000,000
Total	€500,000,000

The underwriters are committed to take and pay for all of the notes being offered, if any are taken. If an underwriter defaults, the underwriting agreement provides that the purchase commitments of the nondefaulting underwriters may be increased or the underwriting agreement may be terminated.

We have agreed to indemnify the underwriters against certain liabilities, including liabilities under the Securities Act, or to contribute to payments they are required to make in respect thereof.

Notes sold by the underwriters to the public will initially be offered at the public offering price set forth on the cover of this prospectus supplement. Any notes sold by the underwriters to securities dealers may be sold at a price that represents a concession not in excess of 0.300% of the principal amount of the notes. The underwriters may allow, and these dealers may re-allow, a concession of not more than 0.225% of the principal amount of the notes to other dealers. After the notes are released for sale, the underwriters may change the offering price and the other selling terms.

The notes are a new issue of securities for which no established trading market exists. Although we intend to apply to list the notes on the New York Stock Exchange, no assurance can be given that we will be able to list the notes. Even if the notes are listed, no assurance can be given that a trading market for the notes will develop or be maintained. If an active trading market does not develop for the notes, noteholders may not be able to resell them at all or at prices acceptable to them. Although the underwriters for this offering have advised us that they intend to make a market in the notes after completion of the offering, they are not obligated to do so and may discontinue market making at any time. We cannot assure you that a liquid trading market will develop for the notes, that you will be able to sell your notes at a particular time or that the prices that you receive when you sell will be favorable.

In connection with this offering, the underwriters may purchase and sell notes in the open market. These transactions may include short sales, stabilizing transactions and purchases to

Table of Contents

cover positions created by short sales. Short sales involve the sale by the underwriters of a greater principal amount of notes than they are required to purchase in this offering.

Stabilizing transactions consist of certain bids or purchases made for the purpose of preventing or retarding a decline in the market price of the notes while this offering is in progress.

These activities by the underwriters may stabilize, maintain or otherwise affect the market price of the notes. As a result, the price of the notes may be higher than the price that otherwise might exist in the open market. If these activities are commenced, they may be discontinued by the underwriters at any time. These transactions may be effected in the over-the-counter market or otherwise.

We have agreed that we will not offer, sell, contract to sell or otherwise dispose of any debt securities issued or guaranteed by us having a term of more than one year until one day after settlement of the notes without the prior written consent of the representatives.

We estimate that our share of the total expenses of this offering, excluding the underwriting discount, will be approximately €974,461, or \$1,153,177 based on the euro/U.S. dollar exchange rate as of January 12, 2015 and will be payable by us.

It is expected that delivery of the notes will be made against payment therefor on or about January 21, 2015, which is the fourth business day following the date of this prospectus supplement (such settlement cycle being referred to as "T+4"). Under Rule 15c6-1 under the Exchange Act, trades in the secondary market generally are required to settle in three business days unless the parties to any such trade expressly agree otherwise. Accordingly, purchasers who wish to trade the notes prior to the third business day preceding the closing date will be required, by virtue of the fact that the notes initially will settle in T+4, to specify an alternative settlement cycle at the time of any such trade to prevent failed settlement. Purchasers of the notes who wish to trade the notes prior to the third business day preceding the closing date should consult their own advisors.

Other relationships

The underwriters and their respective affiliates are full service financial institutions engaged in various activities, which may include securities trading, commercial and investment banking, financial advisory, investment management, investment research, principal investment, hedging, financing and brokerage activities.

Some of the underwriters and their affiliates have engaged in, and may in the future engage in, investment banking and other commercial dealings in the ordinary course of business with us or our affiliates. They have received, or may in the future receive, customary fees and commissions for these transactions.

In addition, in the ordinary course of their business activities, the underwriters and their affiliates may make or hold a broad array of investments and actively trade debt and equity securities (or related derivative securities) and financial instruments (including bank loans) for their own account and for the accounts of their customers. Such investments and securities activities may involve securities and/or instruments of ours or our affiliates. If any of the underwriters or their affiliates has a lending relationship with us, certain of those underwriters or their affiliates routinely hedge and certain others of those underwriters or their affiliates

Table of Contents

may hedge their credit exposure to us consistent with their customary risk management policies. Typically, these underwriters and their affiliates would hedge such exposure by entering into transactions that consist of either the purchase of credit default swaps or the creation of short positions in our securities, including potentially the notes offered hereby. Any such credit default swaps or short positions could adversely affect future trading prices of the notes offered hereby. The underwriters and their affiliates may also make investment recommendations and/or publish or express independent research views in respect of such securities or financial instruments and may hold, or recommend to clients that they acquire, long and/or short positions in such securities and instruments.

Conflicts of Interest

JPMorgan Chase Bank, N.A., an affiliate of J.P. Morgan Securities plc, Barclays Bank PLC, and Citibank, N.A., an affiliate of Citigroup Global Markets Limited and certain of the other underwriters or their affiliates are lenders under our Senior Unsecured Credit Facility and will receive their proportionate share of the net proceeds from this offering used to reduce such indebtedness. Due to the fact that such underwriters have an interest in the successful completion of this offering beyond the underwriting discount they will receive, a conflict of interest exists.

Notice to prospective investors in the European Economic Area

This prospectus supplement and the accompanying prospectus are not prospectuses for purposes of the Prospectus Directive (2003/71/EC, as amended) (the "Prospectus Directive"). This prospectus supplement and the accompanying prospectus have been prepared on the basis that any offer of notes in any Member State of the European Economic Area that has implemented the Prospectus Directive (each, a "Relevant Member State") will be made pursuant to an exemption under the Prospectus Directive, as implemented in that Relevant Member State, from the requirement to produce a prospectus for offers of notes.

Notice to prospective investors in the United Kingdom

The applicable provisions of the United Kingdom's Financial Services and Markets Act 2000 (the "FSMA") must be complied with in respect of anything done in relation to the notes in, from or otherwise involving the United Kingdom.

Any invitation or inducement to engage in investment activity (within the meaning of Section 21 of the FSMA), in connection with the issue or sale of the notes, has only been and will only be communicated or caused to be communicated in circumstances in which Section 21(1) of the FSMA does not apply to us.

Table of Contents

Legal matters

The validity of the notes offered hereby and certain other legal matters in connection with this offering will be passed upon for us by DLA Piper LLP (US). Sidley Austin LLP will act as counsel for the underwriters.

Experts

The financial statements and management's assessment of the effectiveness of internal control over financial reporting (which is included in Management's Report on Internal Control over Financial Reporting) incorporated in this prospectus supplement and the accompanying prospectus by reference to the Annual Report on Form 10-K of W. P. Carey Inc. for the year ended December 31, 2013; the audited historical financial statements of Corporate Property Associates 16 Global Incorporated included in Exhibit 99.1 of W. P. Carey Inc.'s Current Report on Form 8-K dated March 7, 2014; and the audited historical financial statements of Corporate Property Associates 15 Incorporated included in Exhibit 99.6 of W. P. Carey Inc.'s Current Report on Form 8-K dated October 19, 2012 have been so incorporated in reliance on the reports of PricewaterhouseCoopers LLP, an independent registered public accounting firm, given on the authority of said firm as experts in auditing and accounting.

Where you can find more information; Incorporation by reference

We file annual, quarterly and current reports, proxy statements and other information with the SEC. You may read and copy any reports, statements or other information that we have filed with the SEC at the SEC's Public Reference Room at 100 F Street, N.E., Washington, D.C. 20549. You may request copies of these documents, upon payment of a copying fee, by writing to the SEC. Please call the SEC at 1-800-SEC-0330 for information on the operation of the Public Reference Room. Our SEC filings are also available to the public on the SEC internet site at <http://www.sec.gov>.

Our filings with the SEC are also available to the public on our website at www.wpcarey.com. However, the contents of our website are not incorporated by reference into this prospectus supplement or the accompanying prospectus.

We have filed a registration statement on Form S-3 with the SEC. This prospectus supplement and the accompanying prospectus do not contain all of the information included in the registration statement. If a reference is made in this prospectus supplement or the accompanying prospectus to any of our contracts or other documents filed or incorporated by reference as an exhibit to the registration statement, the reference may not be complete and you should refer to the filed copy of the contract or document.

As described in the accompanying prospectus under the caption "Where You Can Find More Information; Incorporation by Reference," we have incorporated by reference into this prospectus supplement and the accompanying prospectus specified documents that we have filed or may file with the SEC prior to the termination of this offering. However, notwithstanding anything in this prospectus supplement or the accompanying prospectus to the contrary, no document, exhibit or information, or any portion thereof, that we have

Edgar Filing: W. P. Carey Inc. - Form 424B2

Table of Contents

"furnished" or may in the future "furnish" to (rather than "file" with) the SEC shall be incorporated by reference into this prospectus supplement or the accompanying prospectus.

This prospectus supplement incorporates by reference the documents listed below, all of which have been previously filed with the SEC:

our Annual Report on Form 10-K for the year ended December 31, 2013, filed on March 3, 2014;

our Quarterly Reports on Form 10-Q for the quarter ended September 30, 2014, filed on November 6, 2014, for the quarter ended June 30, 2014, filed on August 7, 2014 and for the quarter ended March 31, 2014, filed on May 9, 2014;

our Definitive Proxy Statement filed with the SEC on April 30, 2014; and

our Current Reports on Form 8-K (excluding any information furnished therein) filed on January 13, 2014 (as amended on January 15, 2014), January 24, 2014, January 27, 2014 (regarding Item 5.07 only), January 29, 2014, February 4, 2014 (as amended on March 3, 2014), March 7, 2014, March 12, 2014, March 14, 2014, March 26, 2014, April 30, 2014, June 25, 2014, September 26, 2014, and September 30, 2014.

PROSPECTUS

W. P. CAREY INC.

**Common Stock
Preferred Stock
Debt Securities
Depositary Shares
Stock Purchase Contracts
Stock Purchase Unit
Warrants**

We may from time to time, in one or more offerings, offer, issue and sell (i) shares of our common stock, \$0.001 par value per share ("**Common Stock**"), (ii) one or more series of our preferred stock, \$0.001 par value per share ("**Preferred Stock**," and together with the Common Stock, the "**Capital Stock**"), (iii) debt securities ("**Debt Securities**"), (iv) depositary shares, which may represent a fractional interest in a share of a particular class or series of our Preferred Stock (the "**Depositary Shares**"), (v) stock purchase contracts and stock purchase units (collectively, the "**Purchase Agreements**"), and (vi) warrants ("**Warrants**") (collectively, the "**Securities**"). One or more of the Securities, including but not limited to the Preferred Stock, Debt Securities, Depositary Shares and Warrants, may be convertible into or exercisable or exchangeable for shares of Common Stock, Preferred Stock or our other Securities.

This prospectus describes some of the general terms that may apply to the Securities. When we decide to offer the Securities, we will prepare a prospectus supplement describing the offering and the particular terms of the Securities that we are selling, which terms will include, among other things, (i) in the case of Common Stock, any public offering price, (ii) in the case of Preferred Stock, the specific title and stated value, any distribution, liquidation, redemption, conversion, voting and other rights, and any initial public offering price, (iii) in the case of Debt Securities, the particular terms of the Debt Securities, which will include, among other things, the specific title of the Debt Securities, the aggregate amount of the offering and the offering price, and the denominations in which the Debt Securities may be offered, (iv) in the case of Depositary Shares, the fractional Preferred Stock represented by each Depositary Share and the applicable terms of the Preferred Stock, (v) in the case of Purchase Agreements, the particular combination of Securities constituting any Purchase Agreement, and (vi) in the case of Warrants, the exercise price and other specific terms of the Warrants, including a description of the underlying Security.

The applicable prospectus supplement also will contain information, where applicable, about the material United States federal income tax considerations relating to, and any listing on a securities exchange of, the Securities covered by such prospectus supplement, not contained in this prospectus. In addition, such specific terms may include limitations on direct or beneficial ownership and restrictions on transfer of the Securities, in each case as may be appropriate to assist in maintaining our status as a real estate investment trust (a "**REIT**") for federal income tax purposes. You should read carefully this prospectus and the applicable prospectus supplement before you make your investment decision.

Our Common Stock is listed on the New York Stock Exchange (the "**NYSE**"), under the symbol "WPC." On March 6, 2014, the last reported sale price of the Common Stock on the NYSE was \$63.84 per share.

The Securities may be offered directly by us, through agents designated from time to time by us, or to or through underwriters or dealers. If any agents or underwriters are involved in the sale of any of the Securities, their names, and any applicable purchase price, fee, commission or discount arrangement with, between or among them, will be set forth, or will be calculable from the information set forth, in an accompanying prospectus supplement. See "Plan of Distribution" beginning on page 51. No Securities may be sold without delivery of a prospectus supplement describing the method and terms of the offering of such Securities.

Investing in our Securities involves risks. See "Risk Factors" beginning on page 4 of this prospectus, in the documents incorporated by reference and in any applicable prospectus supplement or free writing prospectus. This prospectus may not be used to offer or sell any

Securities unless it is accompanied by the applicable prospectus supplement.

Neither the Securities and Exchange Commission nor any state securities commission has approved or disapproved of these securities or determined if this prospectus is truthful or complete. Any representation to the contrary is a criminal offense.

The date of this prospectus is March 7, 2014

We have not authorized any person to give any information or to make any representations in connection with this offering other than those contained or incorporated or deemed to be incorporated by reference in this prospectus and any applicable prospectus supplement or free writing prospectus, and, if given or made, such information or representations must not be relied upon as having been so authorized. This prospectus does not constitute an offer to sell or a solicitation of an offer to buy by anyone in any jurisdiction in which such offer or solicitation is not authorized, or in which the person is not qualified to do so or to any person to whom it is unlawful to make such offer or solicitation. Neither the delivery of this prospectus nor any sale hereunder shall, under any circumstances, create any implication that there has been no change in our affairs since the date hereof, that the information contained herein is correct as of any time subsequent to its date, or that any information incorporated or deemed to be incorporated by reference herein is correct as of any time subsequent to its date.

ABOUT THIS PROSPECTUS

This prospectus is part of an automatic shelf registration statement that we filed with the Securities and Exchange Commission (the "**SEC**") as a "well-known seasoned issuer" as defined in Rule 405 under the Securities Act of 1933, as amended (the "**Securities Act**"). By using an automatic shelf registration statement, we may, at any time and from time to time, sell the Securities described in this prospectus or in any applicable prospectus supplement in one or more offerings. The exhibits to the registration statement contain the full text of certain contracts and other important documents we have summarized in this prospectus. Since these summaries may not contain all the information that you may find important in deciding whether to purchase the Securities we offer, you should review the full text of these documents. The registration statement and the exhibits can be obtained from the SEC as indicated under the heading "Where You Can Find More Information; Incorporation by Reference" beginning on page 2.

This prospectus only provides you with a general description of the Securities that we may offer. Each time we sell Securities, we will provide a prospectus supplement that will contain specific information about the terms of those Securities. The prospectus supplement may also add, update or change information contained in this prospectus. You should read both this prospectus and any prospectus supplement together with the documents incorporated or deemed to be incorporated by reference in this prospectus and the additional information described under the heading "Where You Can Find More Information; Incorporation by Reference" beginning on page 2.

Unless the context otherwise requires or as otherwise specified, references in this prospectus to "W. P. Carey," the "Company," "we," "us," or "our" refers to W. P. Carey Inc. and its consolidated subsidiaries and predecessors, unless otherwise specified.

FORWARD LOOKING STATEMENTS

This prospectus and the documents incorporated or deemed incorporated by reference as described under "Where You Can Find More Information; Incorporation by Reference" contain certain information that is based on current expectations, estimates, forecasts and projections about us, our future performance, our business or others on our behalf, our beliefs and our management's assumption and are to be considered "forward-looking statements" within the meaning of Section 27A of the Securities Act of 1933, as amended. These forward-looking statements relate to such things as discussions regarding tenant credit, general economic outlook, discussions regarding our overall corporate strategy, statements regarding estimated or future results of operations, statements that we make regarding our ability to qualify or to remain qualified as a REIT, the amount and timing of any future distributions including those that we are required to make as a REIT, our existing or future leverage and debt service obligations, our future prospects of growth, our future capital expenditure levels, our future financing transactions, and our plans to fund our future liquidity needs, and are

Table of Contents

generally identified by the words "believe," "project," "expect," "anticipate," "estimate," "intend," "strategy," "plan," "may," "should," "will," "would," "will be," "will continue," "will likely result," and similar expressions. Actual results could differ materially from those contemplated by these forward-looking statements as a result of many factors.

The cautionary statements under the caption "Risk Factors" contained in our Annual Report on Form 10-K for the year ended December 31, 2013 filed with the SEC on March 3, 2014, and subsequent reports filed by us with the SEC, all of which are incorporated herein by reference, and other similar statements contained in this prospectus, any prospectus supplement or any related free writing prospectus and the documents incorporated or deemed incorporated by reference herein and therein identify important factors with respect to forward-looking statements, including certain risks and uncertainties, that could cause actual results to differ materially from those in such forward-looking statements. Additional risks and uncertainties not presently known to us or that we currently believe to be immaterial also may adversely affect us. Should any known or unknown risks and uncertainties develop into actual events, those developments could have a material adverse effect on our business, financial condition and results of operations.

In light of these risks and uncertainties, there can be no assurance that the results and events contemplated by the forward-looking information contained in this prospectus and the documents incorporated by reference or deemed incorporated by reference herein and therein will in fact transpire. Potential investors are cautioned not to place undue reliance on these forward-looking statements. We do not undertake any obligation to update or revise any forward-looking statements. All subsequent written or oral forward-looking statements attributable to us or persons acting on our behalf are expressly qualified in their entirety by these cautionary statements.

WHERE YOU CAN FIND MORE INFORMATION; INCORPORATION BY REFERENCE

We are subject to the information reporting requirements of the Exchange Act of 1934, as amended (the "**Exchange Act**"), and in accordance with these requirements, we file annual, quarterly and current reports, proxy statements and other information with the SEC. Such reports, proxy statements and other information may be inspected and copied at the SEC's Public Reference Room, 100 F Street, N.E., Washington, D.C. 20549. Information on the operation of the Public Reference Room may be obtained by calling 1-800-SEC-0330. Our filings with the SEC are available to the public at the SEC's website at <http://www.sec.gov>. You may also inspect information that we file with the NYSE at the offices of the NYSE at 20 Broad Street, New York, New York 10005. We have filed this prospectus with the SEC as part of a registration statement on Form S-3. This prospectus does not contain all of the information set forth in the registration statement.

We "incorporate by reference" certain information from filings with the SEC, which means that we can disclose important information to you by referring you to those documents. The information incorporated by reference is an important part of this prospectus, and any information contained in this prospectus or in any document incorporated or deemed to be incorporated by reference in this prospectus will be deemed to have been modified or superseded to the extent that a statement contained in this prospectus, or, if applicable, the accompanying prospectus supplement, or in any other document we subsequently file with the SEC that also is incorporated or deemed to be incorporated by reference in this prospectus, modifies or supersedes the original statement. Any statement so modified or superseded will not be deemed, except as so modified or superseded, to be a part of this prospectus.

We incorporate by reference the documents listed below and any future filings made by W. P. Carey with the SEC under Sections 13(a), 13(c), 14 or 15(d) of the Exchange Act between the date of this prospectus and the termination of the offering of Securities described in this prospectus; *provided*,

Exhibits to the filings will not be sent, however, unless those exhibits have specifically been incorporated by reference into this prospectus and any accompanying prospectus supplement.

Table of Contents**THE COMPANY**

W. P. Carey is a leading global owner and manager of commercial properties net leased to companies on a long-term basis. In addition, we act as an advisor to a series of income-oriented non-traded real estate investment trusts, or REITs, through our investment management business. We own and manage a diversified global investment portfolio of 1,021 properties located in 21 countries. Our owned and managed diversified global investment portfolio had a combined enterprise value of more than \$15.0 billion at December 31, 2013. Our properties are generally industrial, warehouse/distribution, office or retail facilities which we believe are essential to our corporate tenants' operations and are triple-net leased to single tenants. Our leases typically require our tenants to pay substantially all of the costs associated with operating and maintaining the property. Our corporate tenants operate in a wide variety of business sectors.

Originally founded in 1973, since 1979, we have sponsored a series of seventeen income-generating investment programs that invest primarily in commercial properties net leased to single tenants, under the Corporate Property Associates, or CPA® brand name. We are currently the advisor to Corporate Property Associates 17 Global Incorporated and Corporate Property Associates 18 Global Incorporated, and together, the "CPA® REITs", as well as Carey Watermark Investors Incorporated, which invests in lodging and lodging-related properties.

In September 2012, we reorganized as a REIT in connection with our merger with Corporate Property Associates 15 Incorporated. In January 2014, we merged with Corporate Property Associates 16 Global Incorporated.

Our shares of Common Stock are listed on the NYSE under the symbol "WPC." Headquartered in New York, we have offices in Dallas, London, Amsterdam, Hong Kong and Shanghai. At December 31, 2013, we employed 251 individuals. Our principal executive offices are located at 50 Rockefeller Plaza, New York, New York 10020. Our telephone number is (212) 492-1100. On our website, www.wpcarey.com, investors can find press releases, financial filings and other information about us.

RISK FACTORS

Investing in our Securities involves risks. In evaluating an investment in our Securities, you should carefully consider the risk factors incorporated by reference to our most recent Annual Report on Form 10-K, any subsequent Quarterly Reports on Form 10-Q or Current Reports on Form 8-K that we file after the date of this prospectus, and all other information contained or incorporated by reference into this prospectus, as updated by our subsequent filings under the Exchange Act, and the risk factors and other information contained in the applicable prospectus supplement before acquiring any of such Securities. The occurrence of any of these risks might cause you to lose all or part of your investment in the offered Securities. Please also refer to the section above entitled "Forward Looking Statements."

USE OF PROCEEDS

Unless otherwise indicated in a prospectus supplement accompanying this prospectus, we intend to use the proceeds from the sale of the Securities for working capital and other general business purposes. Pending the application of the net proceeds, we may invest the proceeds in short-term, interest-bearing instruments or other investment-grade Securities.

RATIO OF EARNINGS TO FIXED CHARGES

The following table sets forth information regarding our ratio of earnings to fixed charges for the periods shown.

	Year Ended December 31,			
2013	2012	2011	2010	2009
1.88	2.47	7.64	6.49	7.27

Table of Contents

DESCRIPTION OF CAPITAL STOCK

The following contains a summary of certain material provisions of the W. P. Carey Articles of Amendment and Restatement ("Charter") and W. P. Carey Bylaws ("Bylaws") relating to the shares of our Common Stock that are incorporated by reference into this Prospectus and which can be found at Exhibit 3.1 and Exhibit 3.2, respectively. The following description of the shares of Common Stock does not purport to be complete and is qualified in its entirety by reference to the Charter and Bylaws.

General

Our Charter provides that we have authority to issue 500,000,000 shares of Capital Stock, \$0.001 par value per share, consisting of 450,000,000 shares of Common Stock, and 50,000,000 shares of Preferred Stock, \$0.001 par value per share. A majority of our entire board of directors, without any action by our stockholders, may amend our Charter from time to time to increase or decrease the aggregate number of shares of our capital stock or the number of shares of our capital stock of any class or series that we have authority to issue.

Common Stock

Subject to the rights of any other class or series of stock and to the provisions of our Charter restricting the transfer and ownership of shares of our stock, each outstanding share of Common Stock entitles the holder to one vote on all matters submitted to a vote of stockholders, including one vote for each director to be elected in the election of directors, and, except as provided with respect to any other class or series of shares of our stock, the holders of our Common Stock possess exclusive voting power. There is no cumulative voting in the election of directors, which means that the holders of a majority of the outstanding shares of Common Stock can elect all of the directors then standing for election, and the holders of the remaining shares will not be able to elect any directors.

In accordance with Maryland law, a Maryland corporation generally cannot dissolve, amend its charter, merge, sell all or substantially all of its assets, engage in a share exchange or engage in similar transactions outside the ordinary course of business unless declared advisable by the board of directors and approved by the affirmative vote of stockholders entitled to cast at least two-thirds of all votes entitled to be cast on the matter, unless a lesser percentage (but not less than a majority of all the votes entitled to be cast on the matter) is set forth in the corporation's charter. Our Charter requires the affirmative vote of the holders of not less than a majority of all of the votes entitled to be cast on the matter to approve such matters, except that any amendment to the sections of the Charter concerning the removal of directors, restrictions on transfer and ownership of shares and the voting requirements for the amendment of such provisions must be approved by the board of directors and by the affirmative vote of stockholders entitled to cast at least two-thirds of all the votes entitled to be cast on the matter.

Maryland law permits the merger of a 90% or more owned subsidiary with or into its parent without stockholder approval provided (a) the charter of the successor is not amended other than in certain minor respects and (b) the contract rights of any stock of the successor issued in the merger in exchange for stock of the other corporation are identical to the contract rights of the stock for which it is exchanged. Also, because Maryland law may not require the stockholders of a parent corporation to approve a merger or sale of all or substantially all of the assets of a subsidiary entity, including where a substantial number of operating assets are held by the subsidiary, as in our situation, our subsidiaries may be able to merge or sell all or substantially all of their assets without a vote of our stockholders.

Holders of shares of Common Stock are entitled to receive distributions paid ratably on the Common Stock if and when authorized by our board of directors and declared by us out of assets legally available for the payment of distributions. They also are entitled to share ratably in our assets legally available for distribution to our stockholders in the event of our liquidation, dissolution or

Table of Contents

winding up, after payment of or adequate provision has been made for all of our known debts and liabilities. These rights are subject to the preferential rights in respect of distributions or upon liquidation, dissolution or winding up of any other class or series of our stock that we may subsequently classify or reclassify and to the provisions of our Charter regarding restrictions on transfer and ownership of our stock.

Holders of our shares of stock generally have no appraisal, preference, conversion, exchange, sinking fund or redemption rights or preemptive rights to subscribe for any of our securities, except as may be provided under the terms of any class or series of stock that we may subsequently classify or reclassify. Subject to the restrictions on transfer and ownership of stock contained in our Charter and the rights of any other class or series of stock that we may subsequently classify or reclassify, each share of Common Stock has equal distribution, liquidation and other rights.

We may sell shares of Common Stock. In a prospectus supplement, we will describe the aggregate number of shares of Common Stock offered and the offering price or prices of the shares.

Preferred Stock; Power to Reclassify Shares of Our Stock

Our Charter authorizes our board of directors to classify any unissued shares of Common Stock or Preferred Stock and to reclassify any previously classified, but unissued, shares of Common Stock or Preferred Stock into one or more classes or series of stock. Prior to issuance of shares of any class or series of stock, our board of directors is required by Maryland law and our Charter to fix, subject to our Charter restrictions on transfer and ownership, the terms, preferences, conversion or other rights, voting powers, restrictions, limitations as to dividends or other distributions, qualifications and terms or conditions of redemption for each class or series of stock. Therefore, our board of directors could authorize the issuance of shares of Common Stock or Preferred Stock with terms and conditions that could have the effect of delaying, deferring or preventing a transaction or a change of control of our company that might involve a premium price for you or otherwise be in your best interests.

We may sell shares of Preferred Stock in one or more class or series. In a prospectus supplement, we will describe the specific designation, the aggregate number of shares offered, the dividend rate or manner of calculating the dividend rate, the dividend periods or manner of calculating the dividend periods, the ranking of the shares of the series with respect to dividends, liquidation and dissolution, the stated value of the shares of the series, the voting rights of the shares of the series, if any, whether and on what terms the shares of the series will be convertible or exchangeable, whether and on what terms we can redeem the shares of the series, whether we will list the shares of Preferred Stock on a securities exchange and any other specific terms of the class or series of Preferred Stock.

Power to Increase or Decrease Authorized Stock and Issue Additional Shares of Common Stock and Preferred Stock

Our board of directors has the power (a) to amend our Charter from time to time to increase or decrease the aggregate number of shares of our stock or the number of shares of stock of any class or series that we have authority to issue, (b) to issue additional shares of Common Stock or Preferred Stock and (c) to classify unissued shares of our Common Stock or Preferred Stock or to reclassify any previously classified, but unissued, shares of Common Stock or Preferred Stock, into other classes or series of stock and thereafter to issue the classified or reclassified shares of stock. We believe this ability provides us with increased flexibility in structuring possible future financings and acquisitions and in meeting other needs which might arise. The additional classes or series of stock, as well as our Common Stock, are available for issuance without further action by our stockholders, unless stockholder action is required by applicable law or the rules of any stock exchange on which our securities may be listed or the terms of any classes or series of stock that we may subsequently classify

Table of Contents

or reclassify. Although our board of directors does not currently intend to do so, it could authorize us to issue a class or series of Common Stock or Preferred Stock that could, depending upon the terms of the particular class or series, delay, defer or prevent a transaction or a change in control of our company that might involve a premium price for you or otherwise be in your best interests.

Restrictions on Ownership and Transfer

Our Charter provides that our board of directors may decide whether it is in the best interests of our company to qualify and maintain status as a REIT under the Internal Revenue Code, as amended (the "**Code**"). In order to qualify as a REIT under the Code, our shares of stock must be beneficially owned by 100 or more persons during at least 335 days of a taxable year of 12 months or during a proportionate part of a shorter taxable year. Also, no more than 50% of the value of our outstanding shares of stock may be owned, directly or indirectly, by five or fewer individuals (as defined by the Code to include certain entities) during the last half of any taxable year. Neither the requirement to be held by 100 or more persons or the provision disallowing ownership by five or fewer individuals apply to the first taxable year of a REIT.

To help us to qualify as a REIT, among other purposes, our Charter, subject to certain exceptions, contains restrictions on the number of shares of our stock that a person may own. Our Charter provides that generally no person may own beneficially, or be deemed to own by virtue of the attribution provisions of the Code, either (i) more than 7.9% in value or in number of shares, whichever is more restrictive, of the aggregate outstanding shares of our stock excluding any outstanding shares of our stock not treated as outstanding for federal income tax purposes or (ii) more than 7.9% in value or in number of shares, whichever is more restrictive, of the aggregate outstanding shares of our Common Stock excluding any outstanding shares of our Carey Common Stock not treated as outstanding for federal income tax purposes.

Our Charter also prohibits any person from (a) beneficially or constructively owning shares of our stock that would result in our being "closely held" under Section 856(h) of the Code, (b) transferring shares of our stock if such transfer would result in our stock being beneficially owned by fewer than 100 persons, (c) beneficially or constructively owning shares of our stock that would cause us to own, directly or indirectly, 10% or more of the ownership interests in a tenant of our company (or a tenant of any entity owned or controlled by us), (d) beneficially or constructively owning shares of our stock that would cause any independent contractor to not be treated as such under Section 856(d)(3) of the Code, or (e) beneficially or constructively owning shares of stock that will otherwise cause us to fail to qualify as a REIT. Any person who acquires or attempts or intends to acquire beneficial or constructive ownership of shares of our stock that will or may violate any of the foregoing restrictions on transferability and ownership, and any person who would have owned shares of our stock that resulted in a transfer of shares to a charitable trust (as described below), will be required to give written notice immediately to us, or in the case of a proposed or attempted transaction, to give at least 15 days' prior written notice to us, and provide us with such other information as we may request in order to determine the effect of such transfer on our status as a REIT. The foregoing restrictions on transferability and ownership will not apply if our board of directors determines that it is no longer in our best interests to continue to qualify as a REIT or that compliance is no longer required for us to qualify as a REIT.

Our board of directors, in its sole discretion, may exempt (prospectively or retroactively) a person from the above ownership limits and the restrictions described in clauses (c) and (d) above. However, the board of directors may not grant an exemption to any person unless the board of directors obtains such representations, covenants and undertakings as the board of directors may deem appropriate in order to determine that granting the exemption would not result in losing our status as a REIT. As a condition of granting the exemption, our board of directors may require a ruling from the

Table of Contents

IRS or an opinion of counsel, in either case in form and substance satisfactory to the board of directors in its sole discretion, in order to determine or ensure our status as a REIT.

Our board of directors may increase or decrease the Common Stock ownership limit and/or the aggregate stock ownership limit so long as the change would not result in five or fewer persons beneficially owning more than 49.9% in value of our outstanding stock. Any decrease in the Common Stock ownership limit and/or the aggregate stock ownership limit shall not apply to any person whose percentage ownership of stock is in excess of the decreased ownership limits until such time as such person's percentage ownership of stock equals or falls below the decreased ownership limits. Absent an exemption from the ownership limits, any further acquisition of shares of our stock by such person will be in violation of the ownership limits unless and until such person's percentage ownership of stock falls below the ownership limit (in which case such person may acquire shares up to such ownership limits).

Pursuant to our Charter, if any transfer of our shares of stock occurs that, if effective, would result in any person beneficially or constructively owning shares of stock in excess, or in violation, of the above ownership limitations or restrictions on transfer, known as a prohibited owner, then that number of shares of stock, the beneficial or constructive ownership of which otherwise would cause such person to violate the ownership limitations or restrictions on transfer (rounded up to the nearest whole share), will be automatically transferred to a charitable trust for the exclusive benefit of a charitable beneficiary and the prohibited owner will not acquire any rights in such shares. This automatic transfer will be considered effective as of the close of business on the business day before the violative transfer. If the transfer to the charitable trust would not be effective for any reason to prevent the violation of the above transfer or ownership limitations, then the transfer of that number of shares of stock that otherwise would cause any person to violate the above limitations will be null and void. Shares of stock held in the charitable trust will continue to constitute issued and outstanding shares of our stock. The prohibited owner will not benefit economically from ownership of any shares of stock held in the charitable trust, will have no rights to distributions and will not possess any rights to vote or other rights attributable to the shares of stock held in the charitable trust. The trustee of the charitable trust will be designated by us and must be unaffiliated with us or any prohibited owner and will have all voting rights and rights to distributions with respect to shares of stock held in the charitable trust, and these rights will be exercised for the exclusive benefit of the trust's charitable beneficiary. Any dividend or other distribution paid before our discovery that shares of stock have been transferred to the trustee will be paid by the recipient of such dividend or distribution to the trustee upon demand, and any dividend or other distribution authorized but unpaid will be paid when due to the trustee. Any dividend or distribution so paid to the trustee will be held in trust for the trust's charitable beneficiary. The prohibited owner will have no voting rights with respect to shares of stock held in the charitable trust, and, subject to Maryland law, effective as of the date that such shares of stock have been transferred to the trustee, the trustee, in its sole discretion, will have the authority to:

rescind as void any vote cast by a prohibited owner prior to our discovery that such shares have been transferred to the trustee; and

recast such vote in accordance with the desires of the trustee acting for the benefit of the trust's beneficiary.

However, if we have already taken irreversible corporate action, then the trustee will not have the authority to rescind and recast such vote.

Within 20 days of receiving notice from us that shares of stock have been transferred to the charitable trust, and unless we buy the shares first as described below, the trustee will sell the shares of stock held in the charitable trust to a person, designated by the trustee, whose ownership of the shares will not violate the ownership limitations in our Charter. Upon the sale, the interest of the charitable beneficiary in the shares sold will terminate and the trustee will distribute the net proceeds of the sale

Table of Contents

to the prohibited owner and to the charitable beneficiary. The prohibited owner will receive the lesser of:

the price paid by the prohibited owner for the shares or, if the prohibited owner did not give value for the shares in connection with the event causing the shares to be held in the charitable trust (for example, in the case of a gift or devise), the market price of the shares on the day of the event causing the shares to be held in the charitable trust; and

the price per share received by the trustee from the sale or other disposition of the shares held in the charitable trust (less any commission and other expenses of a sale).

The trustee may reduce the amount payable to the prohibited owner by the amount of dividends and other distributions paid to the prohibited owner and owed by the prohibited owner to the trustee. Any net sale proceeds in excess of the amount payable to the prohibited owner will be paid immediately to the charitable beneficiary. If, before our discovery that shares of stock have been transferred to the charitable trust, such shares are sold by a prohibited owner, then:

such shares will be deemed to have been sold on behalf of the charitable trust; and

to the extent that the prohibited owner received an amount for such shares that exceeds the amount that the prohibited owner was entitled to receive as described above, the excess must be paid to the trustee upon demand.

In addition, shares of stock held in the charitable trust will be deemed to have been offered for sale to us, or our designee, at a price per share equal to the lesser of:

the price per share in the transaction that resulted in such transfer to the charitable trust (or, in the case of a gift or devise, the market price at the time of the gift or devise); and

the market price on the date we, or our designee, accept such offer.

We may reduce the amount payable to the prohibited owner by the amount of dividends and other distributions paid to the prohibited owner and owed by the prohibited owner to the trustee. We may pay the amount of such reduction to the trustee for the benefit of the charitable beneficiary. We will have the right to accept the offer until the trustee has sold the shares of stock held in the charitable trust. Upon such a sale to us, the interest of the charitable beneficiary in the shares sold will terminate and the trustee will distribute the net proceeds of the sale to the prohibited owner and any distributions held by the trustee will be paid to the charitable beneficiary.

All certificates, if any, representing shares of our stock will bear a legend referring to the restrictions described above.

Every owner of more than 5% (or such lower percentage as required by the Code or the regulations promulgated thereunder) in value of the outstanding shares of our stock, within 30 days after the end of each taxable year, must give written notice to us stating the name and address of such owner, the number of shares of each class and series of shares of our stock that the owner beneficially owns and a description of the manner in which the shares are held. Each such owner must also provide to us such additional information as we may request in order to determine the effect, if any, of the owner's beneficial ownership on our status as a REIT and to ensure compliance with our ownership limitations. In addition, each of our stockholders, whether or not an owner of 5% or more of our stock, must, upon demand, provide to us such information as we may request, in good faith, in order to determine our status as a REIT and to comply with the requirements of any taxing authority or governmental authority or to determine such compliance and to ensure our compliance with the ownership restrictions in our Charter.

Table of Contents

The ownership and transfer limitations in our Charter could delay, defer or prevent a transaction or a change in control of us that might involve a premium price for holders of our Common Stock or might otherwise be in the best interests of our stockholders.

Business Combinations

Maryland law prohibits "business combinations" between us and an interested stockholder or an affiliate of an interested stockholder for five years after the most recent date on which the interested stockholder becomes an interested stockholder. These business combinations include a merger, consolidation, share exchange, or, in circumstances specified in the statute, an asset transfer or issuance or transfer of equity securities, liquidation plan or reclassification of equity securities. Maryland law defines an interested stockholder as:

any person or entity who beneficially owns 10% or more of the voting power of our outstanding voting stock; or

an affiliate or associate of ours who, at any time within the two-year period immediately prior to the date in question, was the beneficial owner of 10% or more of the voting power of our then-outstanding stock.

A person is not an interested stockholder if our board of directors approves in advance the transaction by which the person otherwise would have become an interested stockholder. However, in approving a transaction, our board of directors may provide that its approval is subject to compliance, at or after the time of approval, with any terms and conditions determined by our board of directors.

After the five-year prohibition and in addition to any vote otherwise required by Maryland law and our Charter, any business combination between us and an interested stockholder or an affiliate of an interested stockholder generally must be recommended by our board of directors and approved by the affirmative vote of stockholders entitled to cast at least:

80% of the votes entitled to be cast by holders of our then-outstanding shares of voting stock; and

two-thirds of the votes entitled to be cast by holders of our voting stock other than stock held by the interested stockholder with whom or with whose affiliate the business combination is to be effected or stock held by an affiliate or associate of the interested stockholder.

These super-majority vote requirements do not apply if our common stockholders receive a minimum price, as defined under Maryland law, for their shares in the form of cash or other consideration in the same form as previously paid by the interested stockholder for its stock.

The statute permits various exemptions from its provisions, including business combinations that are approved or exempted by the board of directors before the time that the interested stockholder becomes an interested stockholder.

Pursuant to the statute, our board of directors, by resolution, has exempted any business combinations between us and any person who is an existing, or becomes in the future an, "interested stockholder." Consequently, the five-year prohibition and the supermajority vote requirements will not apply to business combinations between us and any such person. As a result, such persons may be able to enter into business combinations with us that may not be in the best interest of our stockholders, without compliance with the super-majority vote requirements and the other provisions of the statute. Additionally, this resolution may be altered, revoked or repealed in whole or in part at any time and we may opt back into the business combination provisions of the Maryland General Corporation Law (the "*MGCL*"). If this resolution is revoked or repealed, the statute may discourage others from trying to acquire control of us and increase the difficulty of consummating any offer.

Table of Contents

Control Share Acquisitions

Maryland law provides that holders of "control shares" of a Maryland corporation acquired in a "control share acquisition" have no voting rights, except to the extent approved by the affirmative vote of stockholders entitled to cast at least two-thirds of the votes entitled to be cast on the matter. Shares owned by the acquiror or by officers or by employees who are also our directors are excluded from the shares entitled to vote on the matter. "Control shares" are voting shares of stock that, if aggregated with all other shares of stock currently owned by the acquiring person, or in respect of which the acquiring person is able to exercise or direct the exercise of voting power (except solely by virtue of a revocable proxy), would entitle the acquiring person to exercise voting power in electing directors within one of the following ranges of voting power:

one-tenth or more but less than one-third;

one-third or more but less than a majority; or

a majority or more of all voting power.

Control shares do not include shares the acquiring person is then entitled to vote as a result of having previously obtained stockholder approval. A "control share acquisition" means the acquisition of issued and outstanding control shares, subject to certain exceptions. A person who has made or proposes to make a control share acquisition may compel our board of directors to call a special meeting of stockholders to be held within 50 days of the demand to consider the voting rights of the shares. The right to compel the calling of a special meeting is subject to the satisfaction of certain conditions, including an undertaking to pay the expenses of the meeting. If no request for a meeting is made, we may present the question at any stockholders' meeting.

If voting rights are not approved at the stockholders' meeting or if the acquiring person does not deliver the statement required by Maryland law, then, subject to certain conditions and limitations, we may redeem any or all of the control shares, except those for which voting rights have previously been approved, for fair value. Fair value is determined, without regard to the absence of voting rights for the control shares, as of the date of the last control share acquisition by the acquiror or of any meeting of stockholders at which the voting rights of the shares were considered and not approved. If voting rights for control shares are approved at a stockholders' meeting and the acquiror becomes entitled to vote a majority of the shares entitled to vote, all other stockholders may exercise appraisal rights. The fair value of the shares for purposes of these appraisal rights may not be less than the highest price per share paid by the acquiror in the control share acquisition. The control share acquisition statute does not apply to shares acquired in a merger, consolidation or share exchange if we are a party to the transaction, nor does it apply to acquisitions approved by or exempted by our Charter or Bylaws.

Our Bylaws contain a provision exempting from the control share acquisition statute any and all acquisitions by any person of our stock and, consequently, the control share acquisition statute will not apply to us unless our board of directors later amends our Bylaws to modify or eliminate this provision, which it may do without stockholder approval, and which it may make effective prospectively or retrospectively.

Maryland Unsolicited Takeovers Act

Subtitle 8 of Title 3 of the MGCL permits a Maryland corporation with a class of equity securities registered under the Exchange Act and at least three independent directors to elect to be subject, by provision in its charter or bylaws or a resolution of its board of directors and notwithstanding any contrary provision in the charter or bylaws, to any or all of five provisions:

a classified board;

Table of Contents

a two-thirds vote requirement for removing a director;

a requirement that the number of directors be fixed only by vote of directors;

a requirement that a vacancy on the board be filled only by the remaining directors and for the remainder of the full term of the directorship in which the vacancy occurred; and

a majority requirement for the calling of a special meeting of stockholders.

In our Charter, we have elected that vacancies on the board be filled only by the remaining directors, even if the remaining directors do not constitute a quorum, and for the remainder of the full term of the directorship in which the vacancy occurred. Through provisions in our Charter and Bylaws unrelated to Subtitle 8, we (a) require the affirmative vote of the stockholders entitled to cast at least two-thirds of all votes entitled to be cast generally in the election of directors for the removal of any director from the board, (b) vest in the board the exclusive power to fix the number of directorships and (c) provide that unless called by our Chairman of our board of directors, our President, our Chief Executive Officer or our board of directors, a special meeting of stockholders may only be called by our Secretary upon the written request of (and satisfaction of certain procedural and information requirements by) the stockholders entitled to cast not less than a majority of all the votes entitled to be cast on any matter that may be properly considered at the meeting.

Transfer Agent and Registrar

The transfer agent and registrar for our Common Stock is Computershare Investor Services.

Authorized but Unissued Capital Stock

The listing requirements of the NYSE, which applies so long as our shares of Common Stock are listed on the NYSE, require stockholder approval of certain issuances equal to or exceeding 20% of the then-outstanding voting power or then-outstanding number of shares of our Common Stock.

Table of Contents

DESCRIPTION OF DEBT SECURITIES

The Debt Securities will be issued in one or more series under an indenture, to be entered into between the Company and U.S. Bank National Association, as trustee. References herein to the "**Indenture**" refer to such indenture and references to the "**Trustee**" refer to such trustee or any other trustee for any particular series of Debt Securities issued under the Indenture. The terms of the Debt Securities of any series will be those specified in or pursuant to the Indenture and in the applicable Debt Securities of that series and those made part of the Indenture by the Trust Indenture Act of 1939, as amended (the "**Trust Indenture Act**").

The following description of Debt Securities describes general terms and provisions of the series of Debt Securities to which any prospectus supplement may relate. When the Debt Securities of a particular series are offered for sale, the specific terms of such Debt Securities will be described in the applicable prospectus supplement. If any terms of such Debt Securities described in a prospectus supplement are inconsistent with any of the terms of the Debt Securities generally described in this prospectus, then the terms described in the applicable prospectus supplement will supersede the terms described in this prospectus.

The following description of selected provisions of the Indenture and the Debt Securities is not complete, and the description of selected terms of the Debt Securities of a particular series included in the applicable prospectus supplement also will not be complete. You should review the form of the Indenture and the form of the applicable Debt Securities, which forms have been or will be filed as exhibits to the registration statement of which this prospectus is a part or as exhibits to documents which have been or will be incorporated by reference in this prospectus. To obtain a copy of the form of the Indenture or the form of the applicable Debt Securities, see "Where You Can Find More Information; Incorporation by Reference" in this prospectus. The following description of Debt Securities and the description of the Debt Securities of a particular series in the applicable prospectus supplement are qualified in their entirety by reference to all of the provisions of the Indenture and the applicable Debt Securities, which provisions, including defined terms, are, or will be, incorporated by reference in this prospectus, and to those made part of the Indenture by the Trust Indenture Act. Capitalized terms used but not defined in the following description shall have the meanings assigned to those terms in the Indenture or, if applicable, the Debt Securities.

The Debt Securities will be obligations solely of the Company and will not be obligations of, or directly or indirectly guaranteed by, any of its subsidiaries or any other entity. Accordingly, the Debt Securities are structurally subordinated to the liabilities of, and any preferred equity in, its subsidiaries and, as a result, the Company's right to participate as a common equity holder of a subsidiary in any distribution of assets of such subsidiary upon such subsidiary's liquidation or otherwise, and thus the ability of the holders of the Debt Securities to benefit from such distribution, is junior to creditors and any preferred equity holders of such subsidiary, except to the extent that any claims the Company may have as a creditor or preferred equity holder of such subsidiary are recognized. The Company may also guarantee obligations of its subsidiaries. Any liability the Company may have for its subsidiaries' obligations could reduce its assets that are available to satisfy its direct creditors, including holders of the Debt Securities. In addition, the Debt Securities will rank junior to the Company's secured debt to the extent of the value of the collateral security securing the same.

General

The Debt Securities will constitute the unsecured and unsubordinated obligations of the Company and will rank on a parity in right of payment among themselves and with all of the Company's other existing and future unsecured and unsubordinated indebtedness. The Company may issue an unlimited principal amount of Debt Securities under the Indenture. The Indenture provides that Debt Securities of any series may be issued up to the aggregate principal amount that may be

Edgar Filing: W. P. Carey Inc. - Form 424B2

Table of Contents

authorized from time to time by the Company. Please read the applicable prospectus supplement relating to the Debt Securities of the particular series being offered thereby for selected terms of such Debt Securities, including, without limitation, where applicable:

the title of such series of the Debt Securities;

the aggregate principal amount of the Debt Securities of such series and any limit thereon;

the date or dates on which the Company will pay the principal of, and premium, if any, on, the Debt Securities of such series, or the method or methods, if any, used to determine such date or dates;

the rate or rates, which may be fixed or variable, at which the Debt Securities of such series will bear interest, if any, or the method or methods, if any, used to determine such rate or rates;

the basis used to calculate interest, if any, on the Debt Securities of such series if other than a 360-day year of twelve 30-day months;

the date or dates, if any, from which interest on the Debt Securities of such series will accrue, or the method or methods, if any, used to determine such date or dates;

the date or dates, if any, on which interest on the Debt Securities of such series will be payable and the record dates for any such payment of interest;

the terms and conditions, if any, upon which the Company is required to, or may, at its option, redeem Debt Securities of such series;

the terms and conditions, if any, upon which the Company will be required to repurchase Debt Securities of such series at the option of holders of Debt Securities of such series;

the terms of any sinking fund or analogous provision applicable to the Debt Securities of such series;

the portion of the principal amount of the Debt Securities of such series payable upon acceleration of the maturity thereof if other than the full principal amount;

the authorized denominations in which the Debt Securities of such series will be issued, if other than minimum denominations of \$2,000 and any integral multiple of \$1,000 in excess thereof;

the place or places where (1) amounts due on the Debt Securities of such series will be payable, (2) the Debt Securities of such series may be surrendered for registration of transfer and exchange and (3) notices or demands to or upon the Company or the Trustee in respect of the Debt Securities of such series or the Indenture may be served, if different than the corporate trust office of the Trustee;

if other than U.S. dollars, the currency or currencies in which purchases of, and payments on, the Debt Securities of such series must be made;

whether the amount of payments due on the Debt Securities of such series may be determined with reference to an index, formula, or other method or methods (any of those Debt Securities being referred to as Indexed Securities) and the manner used to determine those amounts;

any addition to, modification of, or deletion of, any covenant or Event of Default (as defined below) with respect to the Debt Securities of such series;

Table of Contents

the identity of the depository for the global Debt Securities if other than The Depository Trust Company and the terms of the depository arrangement if other than as specified below;

the circumstances under which the Company will pay Additional Amounts on the Debt Securities of such series in respect of any tax, assessment, or other governmental charge and whether the Company will have the option to redeem such Debt Securities rather than pay the Additional Amounts; and

any other terms of the Debt Securities of such series.

As used in this prospectus, references to the principal of, and premium, if any, and interest, if any, on, the Debt Securities of a series include Additional Amounts, if any, payable on the Debt Securities of such series in that context.

The Company may issue Debt Securities as original issue discount securities to be sold at a substantial discount below their principal amount. In the event of an acceleration of the maturity of any original issue discount security, the amount payable to the holder upon acceleration will be determined in the manner described in the applicable prospectus supplement. Important federal income tax and other considerations applicable to original issue discount securities will be described in the applicable prospectus supplement.

The terms of the Debt Securities of any series may be inconsistent with the terms of the Debt Securities of any other series. Unless otherwise specified in the applicable prospectus supplement, the Company may, without the consent of, or notice to, the holders of the Debt Securities of any series, reopen an existing series of Debt Securities and issue additional Debt Securities of that series.

Other than to the extent provided in "Merger, Consolidation and Transfer of Assets" below or to the extent provided with respect to the Debt Securities of a particular series and described in the applicable prospectus supplement, the Indenture will not contain any provisions that would limit the Company's ability to incur indebtedness or to substantially reduce or eliminate its consolidated assets or that would afford holders of the Debt Securities protection in the event of:

1. a recapitalization or other highly leveraged or similar transaction involving the Company, any of its subsidiaries or affiliates or its management;
2. a change of control involving the Company or its subsidiaries; or
3. a reorganization, restructuring, merger, or similar transaction involving the Company, its subsidiaries or its affiliates.

Accordingly, the Company's ability to service its indebtedness (including the Debt Securities) could be materially and adversely affected in the future.

Registration, Transfer, Payment and Paying Agent

Unless otherwise specified in the applicable prospectus supplement, each series of Debt Securities will be issued in registered form only, without coupons.

Unless otherwise specified in the applicable prospectus supplement, the Debt Securities will be payable and may be surrendered for registration of transfer or exchange at an office of the Company or an agent of the Company in The City of New York. However, the Company, at its option, may make payments of interest on any interest payment date for a Debt Security by check mailed to the address of the person entitled to receive that payment or by wire transfer to an account maintained by the payee with a bank located in the United States.

Any interest not punctually paid or duly provided for on any interest payment date with respect to the Debt Securities of any series will forthwith cease to be payable to the holders of those Debt

Table of Contents

Securities on the applicable regular record date and may be paid to the persons in whose names those Debt Securities are registered at the close of business on a special record date for the payment of the interest not punctually paid or duly provided for to be fixed by the Trustee or the Company, notice whereof shall be given to the holders of those Debt Securities not less than 10 days prior to the special record date, or may be paid at any time in any other lawful manner, all as completely described in the Indenture.

Subject to certain limitations imposed on Debt Securities issued in book-entry form, the Debt Securities of any series will be exchangeable for other Debt Securities of the same series and of a like aggregate principal amount and tenor of different authorized denominations upon surrender of those Debt Securities at the designated place or places. In addition, subject to certain limitations imposed upon Debt Securities issued in book-entry form, the Debt Securities of any series may be surrendered for registration of transfer or exchange thereof at the designated place or places if duly endorsed or accompanied by a written instrument of transfer. No service charge shall be made for any registration of transfer or exchange, redemption or repurchase of Debt Securities, but the Company may require payment of a sum sufficient to cover any tax or other governmental charge that may be imposed in connection with certain of those transactions.

Unless otherwise specified in the applicable prospectus supplement, the Company will not be required to:

issue, register the transfer of, or exchange Debt Securities of any series during a period beginning at the opening of business 15 days before any selection of Debt Securities of that series of like tenor and terms to be redeemed and ending at the close of business on the day of that selection;

register the transfer of or exchange any Debt Security, or portion of any Debt Security, called for redemption, except the unredeemed portion of any Debt Security being redeemed in part; or

issue, register the transfer of or exchange a Debt Security that has been surrendered for repurchase at the option of the holder, except the portion, if any, of the Debt Security not to be repurchased.

Outstanding Debt Securities

In determining whether the holders of the requisite principal amount of outstanding Debt Securities have given any request, demand, authorization, direction, notice, consent, or waiver under the Indenture:

the principal amount of an original issue discount security that shall be deemed to be outstanding for these purposes shall be that portion of the principal amount of the original issue discount security that would be due and payable upon acceleration of the maturity of such original issue discount security as of the date of the determination;

the principal amount of any Indexed Security that shall be deemed to be outstanding for these purposes shall be the principal amount of the Indexed Security determined on the date of its original issuance;

the principal amount of a Debt Security denominated in a currency other than U.S. Dollars shall be the U.S. dollar equivalent, determined on the date of its original issuance, of the principal amount of such Debt Security; and

a Debt Security owned by the Company or any other obligor of such Debt Security or any affiliate of the Company or such other obligor shall be deemed not to be outstanding.

Table of Contents

Redemption and Repurchase

The Debt Securities of any series may be redeemable at the Company's option or may be subject to mandatory redemption by the Company as required by a sinking fund or otherwise. In addition, the Debt Securities of any series may be subject to repurchase by the Company at the option of the holders thereof. The applicable prospectus supplement will describe the terms and conditions regarding any optional or mandatory redemption or optional repurchase of the Debt Securities of the particular series.

Merger, Consolidation and Transfer of Assets

The Indenture provides that the Company may not, in any transaction or series of related transactions, (i) consolidate or amalgamate with or merge into any other person or (ii) sell, lease, assign, transfer or otherwise convey all or substantially all of the assets of the Company and its subsidiaries, taken as a whole, to any other person, in each case, unless:

in such transaction or transactions, either (1) the Company shall be the continuing person (in the case of a merger) or (2) the successor person (if other than the Company) formed by or resulting from the consolidation, amalgamation or merger or to which such assets shall have been sold, leased, assigned, transferred or otherwise conveyed (i) is a corporation, limited liability company, partnership or trust organized and existing under the laws of the United States of America, any state thereof or the District of Columbia or any territory thereof, and (ii) shall, by a supplemental indenture, expressly assume the due and punctual performance of all of the Company's payment and other obligations under the Indenture and all of the Debt Securities outstanding thereunder;

immediately after giving effect to such transaction or transactions, no Event of Default under the Indenture, and no event which, after notice or lapse of time or both would become an Event of Default under the Indenture, shall have occurred and be continuing; and

the Trustee shall have received an officer's certificate and opinion of counsel from the Company to the effect that all conditions precedent to such transaction or transactions have been satisfied.

Upon any consolidation or amalgamation by the Company with, or the Company's merger into, any other person or any sale, lease, assignment, transfer or other conveyance of all or substantially all of the assets of the Company and its subsidiaries, taken as a whole, to any person, in each case in accordance with the provisions of the Indenture described above, the successor person formed by the consolidation or amalgamation or into which the Company is merged or to which such sale, lease, assignment, transfer or other conveyance is made, as applicable, shall succeed to, and be substituted for, the Company and may exercise every right and power of the Company under the Indenture with the same effect as if such successor person had been named as the Company in the Indenture; and thereafter, the predecessor person shall be released from all of its obligations and covenants under the Indenture and the outstanding Debt Securities.

Events of Default

Unless otherwise specified in the applicable prospectus supplement, an Event of Default with respect to the Debt Securities of any series is defined in the Indenture as being:

1. default for 30 days in the payment of any interest on, or any Additional Amounts payable in respect of any interest on, any Debt Security of that series;
2. default in payment of any principal of, or premium, if any, on, or any Additional Amounts payable in respect of any principal of, or premium, if any, on, any Debt

Table of Contents

Security of that series when due, whether at stated maturity, upon redemption, upon repurchase at the option of the holder or otherwise;

3. default in the deposit of any sinking fund payment or payment under any analogous provision when due with respect to any Debt Security of that series;
4. default in the performance or observance, or breach, of any covenant or other agreement of the Company in the Indenture or any Debt Security of that series not covered elsewhere in this section, other than a covenant or other agreement included in the Indenture solely for the benefit of a series of Debt Securities other than that series, which shall not have been remedied for a period of 60 days after written notice to the Company by the Trustee or to the Company and the Trustee by the holders of at least 25% in aggregate principal amount of the Debt Securities of that series then outstanding;
5. default by the Company to make any payment when due (whether by scheduled maturity, required prepayment, acceleration, demand, or otherwise), in respect of any indebtedness for money borrowed by the Company in excess of \$25,000,000 principal amount, or a default under any such indebtedness resulting in the acceleration prior to the stated maturity of the principal amount of such indebtedness in excess of \$25,000,000, and such indebtedness is not discharged or such acceleration is not rescinded or annulled within 30 days thereafter;
6. specified events of bankruptcy, insolvency, or reorganization with respect to the Company or its significant subsidiaries (as defined in Regulation S-X under the Securities Act); or
7. any other Event of Default established for the Debt Securities of that series.

No Event of Default with respect to any particular series of Debt Securities necessarily constitutes an Event of Default with respect to any other series of Debt Securities. The Trustee is required to give notice to holders of the Debt Securities of the applicable series within 90 days after a responsible officer of the Trustee has actual knowledge (as such knowledge is described in the Indenture) of a default relating to such Debt Securities.

If an Event of Default specified in clause (6) above occurs, then the principal amount of all the outstanding Debt Securities and unpaid interest, if any, accrued thereon shall automatically become immediately due and payable. If any other Event of Default with respect to the outstanding Debt Securities of the applicable series occurs and is continuing, either the Trustee or the holders of at least 25% in aggregate principal amount of the Debt Securities of that series then outstanding may declare the principal amount of, or if Debt Securities of that series are original issue discount securities such lesser amount as may be specified in the terms of, the Debt Securities of that series, and unpaid interest, if any, accrued thereon to be due and payable immediately. However, upon specified conditions, the holders of a majority in aggregate principal amount of the Debt Securities of that series then outstanding may rescind and annul any such declaration of acceleration and its consequences.

The Indenture provides that no holders of Debt Securities of any series may institute any proceedings, judicial or otherwise, with respect to the Indenture, or for the appointment of a receiver or Trustee, or for any remedy thereunder, except in the case of failure of the Trustee, for 60 days, to act after it has received a written request to institute proceedings in respect of an Event of Default from the holders of at least 25% in aggregate principal amount of the outstanding Debt Securities of that series, as well as an offer of indemnity or security reasonably satisfactory to it, and no inconsistent direction has been given to the Trustee during such 60 day period by the holders of a majority in aggregate principal amount of the outstanding Debt Securities of that series. Notwithstanding any other provision of the Indenture, each holder of a Debt Security will have the right, which is absolute and

Table of Contents

unconditional, to receive payment of the principal of, and premium, if any, and interest, if any, and any Additional Amounts on, that Debt Security on the respective due dates for those payments and to institute suit for the enforcement of those payments, and this right shall not be impaired without the consent of such holder.

Subject to the provisions of the Trust Indenture Act requiring the Trustee, during the continuance of an Event of Default under the Indenture, to act with the requisite standard of care, the Trustee is under no obligation to exercise any of its rights or powers under the Indenture at the request or direction of any of the holders of Debt Securities of any series unless those holders have offered the Trustee indemnity or security reasonably satisfactory to it. The holders of a majority in aggregate principal amount of the outstanding Debt Securities of any series will have the right to direct the time, method and place of conducting any proceeding for any remedy available to the Trustee, or of exercising any trust or power conferred upon the Trustee, provided that the direction would not conflict with any rule or law or with the Indenture or with any series of Debt Securities, such direction would not be unduly prejudicial to the rights of any other holder of Debt Securities of that series (or the Debt Securities of any other series), and the Trustee may take any other action deemed proper by the Trustee which is not inconsistent with such direction.

Within 120 days after the close of each fiscal year, the Company must deliver to the Trustee an officer's certificate stating whether or not the certifying officer has knowledge of any Event of Default or default which, with notice or lapse of time or both, would become an Event of Default under the Indenture and, if so, specifying each such default and the nature and status thereof.

Modification, Waivers and Meetings

The Indenture permits the Company and the Trustee, with the consent of the holders of a majority in aggregate principal amount of the outstanding Debt Securities of each series issued under the Indenture and affected by a modification or amendment (voting as separate classes), to modify or amend any of the provisions of the Indenture or of the Debt Securities of the applicable series or the rights of the holders of the Debt Securities of the applicable series under the Indenture. However, no modification or amendment shall, without the consent of the holder of each outstanding Debt Security affected thereby:

change the stated maturity of the principal of, or premium, if any, or any installment of interest, if any, on, or any Additional Amounts, if any, with respect to, any Debt Security, or

reduce the principal of, or premium, if any, on, any Debt Security or reduce the rate (or modify the calculation of such rate) of interest, if any, on, or the redemption or repurchase price of, or any Additional Amounts with respect to, any Debt Security or change the Company's obligation to pay Additional Amounts, or

reduce the amount of principal of any original issue discount security that would be due and payable upon acceleration of the maturity thereof, or

change the date(s) on which, or period(s) in which, any Debt Security is subject to redemption or repurchase or otherwise alter the provisions with respect to the redemption or repurchase of any Debt Security in a manner that is adverse to the interests of the holder of such Debt Security, or

change any place where, or the currency in which, any Debt Security is payable, or

Table of Contents

impair the holder's right to institute suit to enforce the payment of any Debt Security on or after their stated maturity, or in the case of redemption, on or after the redemption date, or in the case of repurchase, on or after the date for repurchase, or

reduce the percentage of the outstanding Debt Securities of any series whose holders must consent to any modification or amendment or any waiver of compliance with specific provisions of such Indenture or specified defaults under the Indenture and their consequences, or

modify the provisions relating to the requirements for the modification or amendment of the Indenture with the consent of each holder, of the waiver of compliance with specific provisions of the Indenture or specified defaults under the Indenture, except to increase the percentage of holders of Debt Securities of any series outstanding under the Indenture required to effect that action or to provide that certain other provisions of the Indenture may not be modified or waived without the consent of the holder of each outstanding Debt Security affected thereby, or

reduce the requirements for a quorum or voting at a meeting of holders of the applicable Debt Securities.

The Indenture also contains provisions permitting the Company and the Trustee, without the consent of the holders of any Debt Securities, to modify or amend the Indenture, among other things:

to add to the Events of Default for all or any series of Debt Securities;

to add to the covenants for the benefit of the holders of all or any series of Debt Securities;

to provide for security of Debt Securities of all or any series or to add guarantees in favor of Debt Securities of all or any series;

to establish the form or terms of Debt Securities of any series, and the form of the guarantee, if any, of Debt Securities of any series;

to cure any mistake or ambiguity or correct or supplement any provision in the Indenture which may be defective or inconsistent with other provisions in the Indenture, or to make any other provisions with respect to matters or questions arising under the Indenture, or to make any change necessary to comply with any requirement of the SEC in connection with the Indenture under the Trust Indenture Act, in each case which shall not adversely affect the interests of the holders of any Debt Securities;

to amend or supplement any provision contained in the Indenture, provided that the amendment or supplement does not apply to any outstanding Debt Securities issued before the date of the amendment or supplement and entitled to the benefits of that provision;

to conform the terms of the Indenture or the Debt Securities of a series to the description thereof contained in any prospectus, prospectus supplement or other offering document relating to the offer and sale of those Debt Securities; or

to modify, alter, amend or supplement the Debt Securities in any other respect that shall not adversely affect the interests of any of the holders of any Debt Securities.

Edgar Filing: W. P. Carey Inc. - Form 424B2

The holders of a majority in aggregate principal amount of the outstanding Debt Securities of any series may, on behalf of all holders of Debt Securities of that series, waive any continuing default under the Indenture with respect to the Debt Securities of that series and its consequences, except a default (i) in the payment of the principal of, or premium, if any, or interest, if any, on, the Debt Securities of that series, or (ii) in respect of a covenant or provision that cannot be modified or amended without the consent of the holder of each outstanding Debt Security of the affected series.

Table of Contents

The Indenture contains provisions for convening meetings of the holders of Debt Securities. A meeting may be called at any time by the Trustee, the Company or the holders of at least 10% in aggregate principal amount of the outstanding Debt Securities of any series. Notice of a meeting must be given in accordance with the provisions of the Indenture. Except for any consent or waiver that must be given by the holder of each outstanding Debt Security affected in the manner described above, any resolution presented at a meeting or adjourned meeting duly reconvened at which a quorum, as described below, is present may be adopted by the affirmative vote of the holders of a majority in aggregate principal amount of the outstanding Debt Securities of the applicable series. However, any resolution with respect to any request, demand, authorization, direction, notice, consent, waiver, or other action that may be made, given or taken by the holders of a specified percentage, other than a majority, in aggregate principal amount of the outstanding Debt Securities of a series may be adopted at a meeting or adjourned meeting duly reconvened at which a quorum is present by the affirmative vote of the holders of that specified percentage in aggregate principal amount of the outstanding Debt Securities of that series. Any resolution passed or decision taken at any meeting of holders of Debt Securities of any series duly held in accordance with the Indenture will be binding on all holders of Debt Securities of that series. The quorum at any meeting called to adopt a resolution, and at any reconvened meeting, will be persons holding or representing a majority in aggregate principal amount of the outstanding Debt Securities of the applicable series, subject to exceptions; provided, however, that if any action is to be taken at that meeting with respect to a consent or waiver that may be given by the holders of a supermajority in aggregate principal amount of the outstanding Debt Securities of a series, the persons holding or representing that specified supermajority percentage in aggregate principal amount of the outstanding Debt Securities of that series will constitute a quorum.

Book-Entry Procedures

Global Notes

Debt Securities of a series may be represented by one or more Debt Securities of such series in global form (a "global note"). Global notes will be deposited upon issuance with the Trustee as custodian for DTC, in New York, New York, and registered in the name of DTC or its nominee. Each global note will be credited to the account of a direct or indirect participant in DTC as described below.

Except as set forth below, a global note may be transferred, in whole and not in part, only to another nominee of DTC or to a successor of DTC or its nominee. Beneficial interests in a global note may not be exchanged for Debt Securities in certificated form except as described below under "Exchanges of Global Note for Certificated Debt Securities."

Exchanges of Global Note for Certificated Debt Securities

A beneficial ownership interest in a global note may not be exchanged for Debt Securities of the same series in certificated form unless:

DTC notifies the Company that it is unwilling or unable to continue as depositary for the global note or has ceased to be a clearing agency registered under the Exchange Act and, in either case, the Company fails to appoint a successor depositary within 60 days;

the Company, at its option, notifies the Trustee in writing that it has elected to issue the Debt Securities in certificated form; or

an Event of Default with respect to the Debt Securities represented by the global note has occurred and is continuing.

Table of Contents

Book-Entry Procedures

DTC has indicated that it intends to use the following procedures for global notes. DTC may change these procedures from time to time. The Company is not responsible for these procedures. You should contact DTC or its participants directly to discuss these matters.

DTC is a limited-purpose trust company organized under the New York Banking Law, a "banking organization" within the meaning of the New York Banking Law, a member of the Federal Reserve System, a "clearing corporation" within the meaning of the New York Uniform Commercial Code, and a "clearing agency" registered pursuant to the provisions of Section 17A of the Exchange Act. DTC holds securities that DTC's participants ("direct participants") deposit with DTC. DTC also facilitates the post-trade settlement among direct participants of securities transactions in deposited securities, through electronic computerized book-entry transfers and pledges between direct participants' accounts. This system eliminates the need for physical movement of securities certificates. Direct participants include both U.S. and non-U.S. securities brokers and dealers, banks, trust companies, clearing corporations, and certain other organizations. Access to the DTC system is also available to others such as both U.S. and non-U.S. securities brokers and dealers, banks, trust companies, and clearing corporations that clear through or maintain a custodial relationship with a direct participant, either directly or indirectly ("indirect participants"). DTC rules applicable to its participants are on file with the SEC. More information about DTC can be found at www.dtcc.com and www.dtc.org.

Purchases of Debt Securities under the DTC system must be made by or through direct participants, which will receive a credit for the securities on DTC's records. The beneficial ownership interest of each actual purchaser ("beneficial owner") is in turn to be recorded on the direct and indirect participants' records. Beneficial owners will not receive written confirmation from DTC of their purchase. Beneficial owners are, however, expected to receive written confirmations providing details of the transaction, as well as periodic statements of their holdings, from the direct or indirect participant through which the beneficial owner entered into the transaction. Transfers of beneficial ownership interests in a global note are to be accomplished by entries made on the books of direct and indirect participants acting on behalf of beneficial owners. Beneficial owners will not receive certificates representing their beneficial ownership interests in a global note, except in the event that use of the book-entry system for their Debt Securities is discontinued.

To facilitate subsequent transfers, all global notes deposited by direct participants with DTC will be registered in the name of DTC's partnership nominee, Cede & Co., or such other name as may be requested by an authorized representative of DTC. The deposit of global notes with DTC and their registration in the name of Cede & Co. or such other DTC nominee do not effect any change in beneficial ownership. DTC has no knowledge of the actual beneficial owners of global notes; DTC's records reflect only the identity of the direct participants to whose accounts a global note is credited, which may or may not be the beneficial owners. The direct and indirect participants will remain responsible for keeping account of their holdings on behalf of their customers.

AS LONG AS DTC, OR ITS NOMINEE, IS THE REGISTERED HOLDER OF A GLOBAL NOTE, DTC OR ITS NOMINEE, AS THE CASE MAY BE, WILL BE CONSIDERED THE SOLE OWNER AND HOLDER OF THE DEBT SECURITIES REPRESENTED BY THE GLOBAL NOTE FOR ALL PURPOSES UNDER THE INDENTURE AND THE DEBT SECURITIES.

The laws of some states require that persons take physical delivery in definitive form of securities that they own. The ability to transfer beneficial ownership interests in a global note to such persons may be limited to that extent. Because DTC can act only on behalf of its direct participants, which in turn act on behalf of indirect participants and banks, the ability of a person having a beneficial ownership interest in a global note to pledge such interest to persons that do not participate

Table of Contents

in the DTC system, or take other actions in respect of such interest, may be affected by the lack of a physical certificate.

Conveyance of notices and other communications by DTC to direct participants, by direct participants to indirect participants, and by direct participants and indirect participants to beneficial owners will be governed by arrangements among them, subject to any statutory or regulatory requirements as may be in effect from time to time.

Neither DTC nor Cede & Co. (nor any other DTC nominee) will consent or vote with respect to a global note unless authorized by a direct participant in accordance with DTC's procedures. Under its usual procedures, DTC will mail an omnibus proxy to the Company as soon as possible after the record date. The omnibus proxy assigns Cede & Co.'s consenting or voting rights to those direct participants to whose accounts a global note is credited on the record date (identified in a listing attached to the omnibus proxy).

Payments of the principal of, and premium, if any, and interest, if any, on, global notes will be made to Cede & Co., or such other nominee as may be requested by an authorized representative of DTC. DTC's practice is to credit direct participants' accounts upon DTC's receipt of funds on the payment date in accordance with their respective holdings shown on DTC's records. Payments by participants to beneficial owners will be governed by standing instructions and customary practices, as is the case with securities held for the accounts of customers in bearer form or registered in "street name," and will be the responsibility of each participant and not of DTC, the Trustee or the Company, subject to any statutory or regulatory requirements as may be in effect from time to time. Payment of the principal of, and premium, if any, and interest, if any, on the global notes to DTC will be the responsibility of the Company, disbursement of such payments to direct participants will be the responsibility of DTC, and disbursement of such payments to the beneficial owners will be the responsibility of direct and indirect participants.

The Company will send any redemption or repurchase notices to DTC. If less than all of the Debt Securities of a particular series are being redeemed or repurchased, DTC's practice is to determine by lot the amount of the interest of each direct participant in such issue to be redeemed or repurchased.

DTC may discontinue providing its services as depository with respect to global notes at any time by giving reasonable notice to the Company or the Trustee. Under such circumstances, in the event that a successor depository is not obtained, Debt Securities in certificated form are required to be printed and delivered.

The Company may decide to discontinue use of the system of book-entry-only transfers through DTC (or a successor securities depository). In that event, Debt Securities in certificated form will be printed and delivered to DTC.

The information in this section concerning DTC and DTC's book-entry system has been obtained from sources that the Company believes to be reliable, but it takes no responsibility for the accuracy or completeness thereof.

Neither the Company, the Trustee nor their respective agents are responsible for the performance by DTC or its direct participants or indirect participants of their obligations under the rules and procedures governing their operations.

Discharge, Legal Defeasance and Covenant Defeasance

Satisfaction and Discharge

Upon the Company's direction, the Indenture shall cease to be of further effect with respect to the Debt Securities of any series specified by the Company, subject to the survival of specified

Table of Contents

provisions of the Indenture, including (unless the accompanying prospectus supplement provides otherwise) the Company's obligation to repurchase such Debt Securities at the option of the holders thereof, if applicable, and the Company's obligation to pay Additional Amounts in respect of such Debt Securities to the extent described below, when:

either

- (A) all outstanding Debt Securities of that series have been delivered to the Trustee for cancellation, subject to exceptions, or
- (B) all Debt Securities of that series have become due and payable or will become due and payable at their maturity within one year or are to be called for redemption within one year, and the Company has deposited with the Trustee, in trust, funds in the currency in which the Debt Securities of that series are payable in an amount sufficient to pay and discharge the entire indebtedness on the Debt Securities of that series, including the principal thereof and, premium, if any, and interest, if any, thereon, and, to the extent that (x) the Debt Securities of that series provide for the payment of Additional Amounts and (y) the amount of any Additional Amounts that are or will be payable is at the time of deposit reasonably determinable by the Company, in the exercise of its sole discretion, those Additional Amounts, to the date of such deposit, if the Debt Securities of that series have become due and payable, or to the stated maturity or redemption date of the Debt Securities of that series, as the case may be;

the Company has paid all other sums payable under the Indenture with respect to the Debt Securities of that series (including amounts payable to the Trustee); and

the Trustee has received an officer's certificate and an opinion of counsel from the Company to the effect that all conditions precedent to the satisfaction and discharge of the Indenture in respect of the Debt Securities of such series have been satisfied.

If the Debt Securities of any series provide for the payment of Additional Amounts, the Company will remain obligated, following the deposit described above, to pay Additional Amounts on those Debt Securities to the extent that they exceed the amount deposited in respect of those Additional Amounts as described above.

Legal Defeasance and Covenant Defeasance

Unless otherwise specified in the applicable prospectus supplement, the Company may elect with respect to the Debt Securities of the particular series either:

to defease and discharge itself from any and all obligations with respect to those Debt Securities ("legal defeasance"), except for, among other things:

- (A) the obligation to pay Additional Amounts, if any, upon the occurrence of specified events of taxation, assessment, or governmental charge with respect to payments on those Debt Securities to the extent that those Additional Amounts exceed the amount deposited in respect of those amounts as provided below,
- (B) the obligations to register the transfer or exchange of those Debt Securities,
- (C) the obligation to replace temporary or mutilated, destroyed, lost, or stolen Debt Securities,

Table of Contents

- (D) the obligation to maintain an office or agent of the Company in The City of New York in respect of those Debt Securities,
- (E) the obligation to hold moneys for payment in respect of those Debt Securities in trust, and
- (F) the obligation, if applicable, to repurchase those Debt Securities at the option of the holders thereof, or

to be released from its obligations with respect to those Debt Securities under any covenants as may be specified in the applicable prospectus supplement, and any omission to comply with those obligations shall not constitute a default or an Event of Default with respect to those Debt Securities ("covenant defeasance"), in either case upon the irrevocable deposit with the Trustee, or other qualifying Trustee, in trust for that purpose, of funds in the currency in which those Debt Securities are payable at maturity or, if applicable, upon redemption, and/or government obligations (as defined in the Indenture) in an amount that, through the payment of principal and interest in accordance with their terms, will provide money, in an amount sufficient, in the written opinion of a nationally recognized firm of independent public accountants or a nationally recognized investment bank, to pay the principal thereof and premium, if any, and interest, if any, thereon, and, to the extent that (x) those Debt Securities provide for the payment of Additional Amounts and (y) the amount of any Additional Amounts that are or will be payable is at the time of deposit reasonably determinable by the Company, in the exercise of its sole discretion, the Additional Amounts with respect to those Debt Securities, and any mandatory sinking fund or analogous payments on those Debt Securities, on the due dates for those payments, whether at stated maturity, upon redemption, upon repurchase at the option of the holder or otherwise.

The legal defeasance or covenant defeasance described above shall only be effective if, among other things:

it shall not result in a breach or violation of, or constitute a default under, the Indenture or any other agreement or instrument to which the Company or any significant subsidiary is a party or is bound;

in the case of legal defeasance, the Company shall have delivered to the Trustee an opinion of counsel confirming that:

- (A) the Company has received from, or there has been published by, the Internal Revenue Service a ruling;
or
- (B) since the date of the Indenture, there has been a change in applicable federal income tax law,

in either case to the effect that, and based on this ruling or change the opinion of counsel shall confirm that, the holders of the Debt Securities of the applicable series will not recognize income, gain or loss for U.S. federal income tax purposes as a result of the legal defeasance and will be subject to U.S. federal income tax on the same amounts, in the same manner and at the same times as would have been the case if the legal defeasance had not occurred;

in the case of covenant defeasance, the Company shall have delivered to the Trustee an opinion of counsel to the effect that the holders of the Debt Securities of the applicable series will not recognize income, gain or loss for U.S. federal income tax purposes as a result of the covenant defeasance and will be subject to U.S. federal income tax on the same amounts, in the same manner and at the same times as would have been the case if the covenant defeasance had not occurred;

Table of Contents

if the cash and government obligations deposited are sufficient to pay the outstanding Debt Securities of the applicable series on a particular redemption date, the Company shall have given the Trustee irrevocable instructions to redeem those Debt Securities on that date;

no Event of Default or default that with notice or lapse of time or both would become an Event of Default with respect to Debt Securities of the applicable series shall have occurred and be continuing on the date of the deposit into trust; and, solely in the case of legal defeasance, no Event of Default arising from specified events of bankruptcy, insolvency, or reorganization with respect to the Company or default which with notice or lapse of time or both would become such an Event of Default shall have occurred and be continuing during the period ending on the 91st day after the date of the deposit into trust; and

the Company shall have delivered to the Trustee an officer's certificate and opinion of counsel to the effect that all conditions precedent to the legal defeasance or covenant defeasance, as the case may be, have been satisfied.

In the event the Company effects covenant defeasance with respect to Debt Securities of any series and those Debt Securities are declared due and payable because of the occurrence of any Event of Default other than an Event of Default with respect to the covenants as to which covenant defeasance has been effected, which covenants would no longer be applicable to the Debt Securities of that series after covenant defeasance, the amount of monies and/or government obligations deposited with the Trustee to effect covenant defeasance may not be sufficient to pay amounts due on the Debt Securities of that series at the time of any acceleration resulting from that Event of Default. However, the Company would remain liable to make payment of those amounts due at the time of acceleration.

The applicable prospectus supplement may further describe the provisions, if any, permitting or restricting legal defeasance or covenant defeasance with respect to the Debt Securities of a particular series.

Concerning the Trustee

The Indenture provides that there may be more than one Trustee under the Indenture, each with respect to one or more series of Debt Securities. If there are different Trustees for different series of Debt Securities, each Trustee will be a trustee separate and apart from any other Trustee under the Indenture. Unless otherwise specified in the applicable prospectus supplement, any action permitted to be taken by a Trustee may be taken by such Trustee only with respect to the one or more series of Debt Securities for which it is the trustee under the Indenture. Any Trustee under the Indenture may resign or be removed with respect to one or more series of Debt Securities. All payments of principal of, and premium, if any, and interest, if any, on, and all registration, transfer, exchange, authentication and delivery (including authentication and delivery on original issuance of the Debt Securities) of, the Debt Securities of a series will be effected by the Trustee with respect to that series at an office designated by the Trustee.

U.S. Bank National Association is the trustee under the Indenture. The Company may maintain corporate trust relationships in the ordinary course of business with the Trustee. The Trustee shall have and be subject to all the duties and responsibilities specified with respect to an indenture trustee under the Trust Indenture Act. Subject to the provisions of the Trust Indenture Act, the Trustee is under no obligation to exercise any of the powers vested in it by the Indenture at the request of any holder of Debt Securities unless offered indemnity or security reasonably acceptable to it by the holder against the costs, expense and liabilities which might be incurred thereby.

Under the Trust Indenture Act, the Indenture is deemed to contain limitations on the right of the Trustee, should it become a creditor of the Company, to obtain payment of claims in some cases or to realize on certain property received in respect of any such claim as security or otherwise. The

Table of Contents

Trustee may engage in other transactions with the Company. If it acquires any conflicting interest relating to any of its duties with respect to the Debt Securities, however, it must eliminate the conflict or resign as Trustee.

Governing Law

The Indenture and the Debt Securities will be governed by, and construed in accordance with, the laws of the State of New York.

Notices

All notices to holders of Debt Securities shall be validly given if in writing and mailed, first-class postage prepaid, to them at their respective addresses in the register maintained by the Trustee or by electronic means in the case of global securities.

Table of Contents

DESCRIPTION OF DEPOSITARY SHARES

We may issue Depositary Shares, each of which will represent a fractional interest in a share of a particular class or series of our Preferred Stock, as specified in the applicable prospectus supplement. Shares of a class or series of Preferred Stock represented by Depositary Shares will be deposited under a separate deposit agreement that we will enter into with a bank or trust company named therein, as depositary, which depositary receipts will evidence the Depositary Shares. Subject to the terms of the deposit agreement, each owner of a depositary receipt will be entitled, in proportion to the fractional interest in a share of a particular class or series of Preferred Stock represented by the Depositary Shares evidenced by that depositary receipt, to the rights and preferences of, and will be subject to the limitations and restrictions on, the class or series of Preferred Stock represented by those Depositary Shares (including, if applicable, dividend, voting, conversion, redemption and liquidation rights).

Some of the particular terms of the Depositary Shares offered by the applicable prospectus supplement, as well as some of the terms of the related deposit agreement, will be described in the prospectus supplement, which may also include a discussion of certain U.S. federal income tax consequences.

Copies of the applicable form of deposit agreement and depositary receipt will be filed with the SEC as an exhibit to, or incorporated by reference in, the registration statement of which this prospectus is a part. The statements in this prospectus relating to any deposit agreement, the depositary receipts to be issued thereunder and the related Depositary Shares are summaries of certain anticipated provisions thereof and do not purport to be complete and are subject to, and qualified in their entirety by reference to, all of the provisions of the applicable deposit agreement and related depositary receipts. Accordingly, you should read the form of deposit agreement and depositary receipt in their entirety before making an investment decision.

In a prospectus supplement, we will describe the particular combination of Securities constituting any Depositary Shares and any other specific terms.

Table of Contents

DESCRIPTION OF STOCK PURCHASE CONTRACTS

AND STOCK PURCHASE UNITS

The following summarizes the general terms of stock purchase contracts and stock purchase units that we may issue. The particular terms of any stock purchase contracts or stock purchase units that we offer will be described in the prospectus supplement. This description is subject to the stock purchase contracts, and any collateral arrangements and depositary arrangements, relating to the stock purchase contracts or stock purchase units.

We may issue stock purchase contracts, including contracts obligating holders to purchase from us, and obligating us to sell to the holders, a specified number of shares of Common Stock or Preferred Stock at a future date or dates. We may fix the consideration per share of our Common Stock or Preferred Stock at the time we issue the stock purchase contracts, or the consideration may be determined by referring to a specific formula stated in the stock purchase contracts. We may issue the stock purchase contracts separately or as a part of stock purchase units consisting of a stock purchase contract and Debt Securities, preferred securities, Warrants or debt obligations of third parties, including U.S. Treasury securities, which secure the holders' obligations to purchase the Common Stock or Preferred Stock under the stock purchase contracts. The stock purchase contracts may require us to make periodic payments to the holders of the stock purchase units or vice versa. These payments may be unsecured or prefunded on some basis. The stock purchase contracts may require holders to secure their obligations in a specified manner.

In a prospectus supplement, we will describe the particular combination of Securities constituting any Purchase Agreement and any other specific terms.

Table of Contents

DESCRIPTION OF WARRANTS

We may issue separately, or together with shares of our Preferred Stock or Common Stock offered by any prospectus supplement, Warrants for the purchase of additional shares of Preferred Stock or Common Stock. The Warrants may be issued under warrant agreements to be entered into between us and a bank or trust company, as warrant agent, and may be represented by certificates evidencing the Warrants, all as set forth in the prospectus supplement relating to the particular series of Warrants.

The following summaries of certain provisions of the Warrants are not complete and are subject to, and are qualified in their entirety by reference to, all the provisions of any related Warrant agreement and Warrant certificate, respectively, which will be filed with the SEC as an exhibit to, or incorporated by reference in, the registration statement of which this prospectus is a part. A prospectus supplement will describe the terms of the Warrants in respect of which this prospectus is being delivered including, where applicable, the following:

the title of the Warrants;

the aggregate number of the Warrants;

the price or prices at which the Warrants will be issued;

the designation, terms and number of shares of our Common Stock or Preferred Stock that may be purchased upon exercise of the Warrants;

the designation and terms of the securities, if any, with which the Warrants are issued and the number of the Warrants issued with each such offered security;

the date, if any, on and after which the Warrants and related shares of our Common Stock or Preferred Stock with which the Warrants are issued will be separately transferable;

the price (or manner of calculation of the price) at which each share of our Common Stock or Preferred Stock may be purchased upon exercise of the Warrant;

the date on which the right to exercise the Warrants will commence and the date on which the right will expire;

the minimum or maximum amount of the Warrants that may be exercised at any one time;

information with respect to book-entry procedures, if any;

a discussion of material federal income tax considerations; and

any other terms of the Warrants, including terms, procedures and limitations relating to the exchange and exercise of the Warrants.

The exercise of any Warrants will be subject to, and limited by, the transfer and ownership restrictions in our Charter. See "Description of Stock Restriction on Ownership and Transfer."

Edgar Filing: W. P. Carey Inc. - Form 424B2

We may sell Warrants to purchase our Common Stock or Preferred Stock. In a prospectus supplement, we will inform you of the exercise price and other specific terms of the Warrants, including whether our or your obligations, if any, under any Warrants may be satisfied by delivering or purchasing the underlying securities or their cash value.

Table of Contents

MATERIAL FEDERAL INCOME TAX CONSIDERATIONS

The following is a summary of the material federal income tax considerations of holding shares of our Common Stock. The law firm of DLA Piper LLP (US) has acted as counsel and reviewed this summary. For purposes of this section titled "Material Federal Income Tax Considerations," references to "we," "our" and "us" mean only W. P. Carey Inc. and not its subsidiaries or other lower-tier entities, except as otherwise indicated. This summary is based upon the Code, the regulations promulgated by the U.S. Department of Treasury, rulings and other administrative pronouncements issued by the United States Internal Revenue Service (the "**IRS**"), and judicial decisions, all as currently in effect, and all of which are subject to differing interpretations or to change, possibly with retroactive effect. No assurance can be given that the IRS would not assert, or that a court would not sustain, a position contrary to any of the tax consequences described below. We have not sought and do not currently expect to seek an advance ruling from the IRS regarding any matter discussed in this prospectus. This summary is also based upon the assumption that we will operate our Company and our subsidiaries and affiliated entities in accordance with their applicable organizational documents. This summary is for general information only and does not purport to discuss all aspects of federal income taxation that may be important to a particular investor in light of its investment or tax circumstances or to investors subject to special tax rules, such as:

financial institutions;

insurance companies;

broker-dealers;

regulated investment companies;

partnerships and trusts;

persons subject to the alternative minimum tax;

persons who hold our stock on behalf of other persons as nominees;

persons who receive our stock through the exercise of employee stock options (if we ever have employees) or otherwise as compensation;

persons holding our stock as part of a "straddle," "hedge," "conversion transaction," "constructive ownership transaction," "synthetic security" or other integrated investment;

"S" corporations;

and, except to the extent discussed below:

tax-exempt organizations; and

foreign investors.

Edgar Filing: W. P. Carey Inc. - Form 424B2

This summary assumes that investors will hold their shares of our Common Stock as a capital asset, which generally means as property held for investment.

The holding of shares of our Common Stock depends in some instances on determinations of fact and interpretations of complex provisions of federal income tax law for which no clear precedent or authority may be available. In addition, the tax consequences to any particular stockholder holding our common stock will depend on the stockholder's particular tax circumstances. You are urged to consult your tax advisor regarding the federal, state, and local and foreign income and other tax consequences to you in light of your particular investment or tax circumstances of acquiring, holding, exchanging, or otherwise disposing of our Common Stock.

Table of Contents

Taxation of W. P. Carey Inc.

We elected to be taxed as a REIT commencing with our taxable year ended December 31, 2012. We believe that we have been organized and operated in such a manner as to qualify for taxation as a REIT.

The law firm of DLA Piper LLP (US) is acting as our tax counsel and has provided an opinion that we have been organized in conformity with the requirements for qualification and taxation as a REIT under the Code from February 15, 2012, our date of incorporation, through our taxable year ended December 31, 2013 and that our present and proposed organization, ownership and method of operation will enable us to continue to meet the requirements for qualification and taxation as a REIT. It must be emphasized that the opinion of DLA Piper LLP (US) is based on various assumptions relating to our organization and operation and conditioned upon fact-based representations and covenants made by our management regarding our organization, assets, and income, and the future conduct of our business operations. While we believe that we have been organized and operated and intend to continue to operate so that we qualify as a REIT, given the highly complex nature of the rules governing REITs, the ongoing importance of factual determinations, and the possibility of future changes in our circumstances, no assurance can be given by DLA Piper LLP (US) or by us that we will qualify as a REIT for any particular year. The opinion of DLA Piper LLP (US) is expressed as of the date issued. DLA Piper LLP (US) has no obligation to advise us or our stockholders of any subsequent change in the matters stated, represented or assumed, or of any subsequent change in the applicable law. You should be aware that opinions of counsel are not binding on the IRS, and no assurance can be given that the IRS will not challenge the conclusions set forth in such opinions.

Qualification and taxation as a REIT depends on our ability to meet on a continuing basis, through actual operating results, distribution levels, and diversity of stock and asset ownership, various qualification requirements imposed upon REITs by the Code. Our ability to qualify as a REIT also requires that we satisfy certain asset tests, some of which depend upon the fair market values of assets that we own directly or indirectly. Such values may not be susceptible to a precise determination. Accordingly, no assurance can be given that the actual results of our operations for any taxable year will satisfy such requirements for qualification and taxation as a REIT.

Taxation of REITs in General

As indicated above, our qualification and taxation as a REIT depends upon our ability to meet, on a continuing basis, various qualification requirements imposed upon REITs by the Code. The material qualification requirements are summarized below under the section titled " Requirements for REIT Qualification General." While we intend to operate so that we qualify as a REIT, no assurance can be given that the IRS will not challenge our qualification, or that we will be able to operate in accordance with the REIT requirements in the future. See the section below titled " Failure to Qualify."

Provided that we qualify as a REIT, generally we will be entitled to a deduction for dividends that we pay and therefore will not be subject to federal corporate income tax on our taxable income that is currently distributed to our stockholders. This treatment substantially eliminates the "double taxation" at the corporate and stockholder levels that generally results from investment in a corporation. In general, the income that we generate and distribute currently is taxed only at the stockholder level upon distribution to our stockholders.

As of January 1, 2013, most domestic stockholders that are individuals, trusts or estates are taxed on qualified corporate dividends at a maximum rate of 20% (the same as long-term capital gains). With limited exceptions, however, dividends from us or from other entities that are taxed as REITs are generally not eligible for this rate and will continue to be taxed at rates applicable to ordinary income. See the section titled " Taxation of Stockholders Taxation of Taxable Domestic Stockholders Distributions."

Edgar Filing: W. P. Carey Inc. - Form 424B2

Table of Contents

Any net operating losses and other tax attributes of ours generally do not pass through to our stockholders, subject to special rules for certain items such as the capital gains that we recognize. See the section titled "Taxation of Stockholders."

If we qualify as a REIT, we will nonetheless be subject to U.S. federal tax in the following circumstances:

We will be taxed at regular corporate rates on any undistributed taxable income, including undistributed net capital gains;

We may be subject to the "alternative minimum tax" on our items of tax preference, including any deductions of net operating losses;

If we have net income from prohibited transactions, which are, in general, sales or other dispositions of inventory or property held primarily for sale to customers in the ordinary course of business, other than foreclosure property, such income will be subject to a 100% tax. See "Prohibited Transactions" and "Foreclosure Property" below;

If we elect to treat property that we acquire in connection with a foreclosure of a mortgage loan or certain leasehold terminations as "foreclosure property," we may thereby avoid the 100% tax on gain from a resale of that property (if the sale would otherwise constitute a prohibited transaction), but the income from the sale or operation of the property may be subject to corporate income tax at the highest applicable rate (currently 35%);

If we should fail to satisfy the 75% gross income test or the 95% gross income test, as discussed below, but nonetheless maintain our qualification as a REIT because we satisfy other requirements, we will be subject to a 100% tax on an amount based on the magnitude of the failure, as adjusted to reflect the profit margin associated with our gross income;

If we should violate the asset tests (other than certain de minimis violations) or other requirements applicable to REITs, as described below, and yet maintain our qualification as a REIT because there is reasonable cause for the failure and other applicable requirements are met, we would be subject to an excise tax. In that case, the amount of the excise tax will be at least \$50,000 per failure, and, in the case of certain asset test failures, will be determined as the amount of net income generated by the assets in question multiplied by the highest corporate tax rate (currently 35%) if that amount exceeds \$50,000 per failure;

If we should fail to distribute during a calendar year at least the sum of (1) 85% of our REIT ordinary income for such year, (2) 95% of our REIT capital gain net income for such year, and (3) any undistributed taxable income from prior periods, we would be subject to a nondeductible 4% excise tax on the excess of the required distribution over the sum of (i) the amounts that we actually distributed and (ii) the amounts of income from the taxable year we retained and upon which we paid income tax at the corporate level;

We may be required to pay monetary penalties to the IRS in certain circumstances, including if we fail to meet record keeping requirements intended to monitor our compliance with rules relating to the composition of a REIT's stockholders, as described below in "Requirements for REIT Qualification - General";

A 100% tax may be imposed on transactions between us and a taxable REIT subsidiary ("**TRS**") (as described below) that do not reflect arm's-length terms;

If we acquire appreciated assets from a corporation that is not a REIT and is taxable under subchapter C of the Code in a transaction in which the adjusted tax basis of the assets in our hands is determined by reference to the adjusted tax basis of the assets in the hands of the subchapter C corporation, we may be subject to tax on such appreciation at the highest corporate income tax rate then applicable if we subsequently recognize gain on a disposition

Table of Contents

of any such assets during a specified period (as of 2014, this period is ten years) following their acquisition from the subchapter C corporation; and

The earnings of our subsidiaries, including any subsidiary we may elect to treat as a TRS, are subject to federal corporate income tax to the extent that such subsidiaries are taxable as subchapter C corporations.

In addition, we and our subsidiaries may be subject to a variety of taxes, including payroll taxes and state and local and foreign income, property and other taxes on our assets and operations. We could also be subject to tax in situations and on transactions not presently contemplated.

Requirements for REIT Qualification General

The Code defines a REIT as a corporation, trust or association:

- (1) that is managed by one or more trustees or directors;
- (2) the beneficial ownership of which is evidenced by transferable shares, or by transferable certificates of beneficial interest;
- (3) that would be taxable as a domestic corporation but for its election to be subject to tax as a REIT;
- (4) that is neither a financial institution nor an insurance company subject to specific provisions of the Code;
- (5) the beneficial ownership of which is held by 100 or more persons;
- (6) in which, during the last half of each taxable year, not more than 50% in value of the outstanding stock is owned, directly or indirectly, by five or fewer "individuals" (as defined in the Code to include specified tax-exempt entities); and
- (7) which meets other tests described below, including with respect to the nature of its income and assets.

The Code provides that conditions (1) through (4) must be met during the entire taxable year, and that condition (5) must be met during at least 335 days of a taxable year of 12 months, or during a proportionate part of a shorter taxable year. Conditions (5) and (6) need not be met during a corporation's initial tax year as a REIT. In our case, we elected to be taxed as a REIT commencing with our taxable year ended December 31, 2012. Our Charter provides restrictions regarding the ownership and transfer of our shares, which are intended to assist us in satisfying the share ownership requirements described in conditions (5) and (6) above.

To monitor compliance with the share ownership requirements, we generally are required to maintain records regarding the actual ownership of our shares of Common Stock. To do so, we must demand written statements each year from the record holders of significant percentages of our Common Stock pursuant to which the record holders must disclose the actual owners of the shares (i.e., the persons required to include our distributions in their gross income). We must maintain a list of those persons failing or refusing to comply with this demand as part of our records. We could be subject to monetary penalties if we fail to comply with these record-keeping requirements. If you fail or refuse to comply with the demands, you will be required by U.S. Department of Treasury Regulations to submit a statement with your tax return disclosing your actual ownership of our shares and other information.

In addition, a corporation generally may not elect to become a REIT unless its taxable year is the calendar year. We have adopted December 31 as our taxable year-end, and thereby satisfy this requirement.

Table of Contents

The Code provides relief from violations of the REIT gross income requirements, as described below under "Income Tests," in cases where a violation is due to reasonable cause and not to willful neglect, and other requirements are met, including the payment of a penalty tax that is based upon the magnitude of the violation. In addition, certain provisions of the Code extend similar relief in the case of certain violations of the REIT asset requirements and other REIT requirements, again provided that the violation is due to reasonable cause and not willful neglect, and other conditions are met, including the payment of a penalty tax. If we fail to satisfy any of the various REIT requirements, there can be no assurance that these relief provisions would be available to enable us to maintain our qualification as a REIT, and, if such relief provisions are available, the amount of any resultant penalty tax could be substantial.

Subsidiary Entities

Ownership of Partnership Interests

If we are a partner in an entity that is treated as a partnership for federal income tax purposes, U.S. Department of Treasury Regulations provide that we are deemed to own our proportionate share of the partnership's assets, and to earn our proportionate share of the partnership's income, for purposes of the asset and gross income tests applicable to REITs. Our proportionate share of a partnership's assets and income is based on our capital interest in the partnership (except that for purposes of the 10% value test, our proportionate share of the partnership's assets is based on our proportionate interest in the equity and certain debt securities issued by the partnership). In addition, the assets and gross income of the partnership are deemed to retain the same character in our hands. Thus, our proportionate share of the assets and items of income of any of our subsidiary partnerships will be treated as our assets and items of income for purposes of applying the REIT requirements.

Disregarded Subsidiaries

If we own a corporate subsidiary that is a qualified REIT subsidiary (a "*QRS*"), that subsidiary is generally disregarded for federal income tax purposes, and all of the subsidiary's assets, liabilities and items of income, deduction and credit are treated as our assets, liabilities and items of income, deduction and credit, including for purposes of the gross income and asset tests applicable to REITs. A QRS is any corporation, other than a TRS (as described below), that is directly or indirectly (through other disregarded entities) wholly owned by a REIT. Other entities that are wholly owned by us, including single member, domestic limited liability companies that have not elected to be taxed as corporations for federal income tax purposes, are also generally disregarded as separate entities for federal income tax purposes, including for purposes of the REIT income and asset tests. Disregarded subsidiaries, along with any partnerships in which we hold an equity interest, are sometimes referred to herein as "pass-through subsidiaries."

In the event that a disregarded subsidiary of ours ceases to be wholly owned—for example, if any equity interest in the subsidiary is acquired by a person other than us or another disregarded subsidiary of ours—the subsidiary's separate existence would no longer be disregarded for federal income tax purposes. Instead, the subsidiary would have multiple owners and would be treated as either a partnership or a taxable corporation. Such an event could, depending on the circumstances, adversely affect our ability to satisfy the various asset and gross income requirements applicable to REITs, including the requirement that REITs generally may not own, directly or indirectly, more than 10% of the securities of another corporation.

Foreign Assets and Subsidiaries

With respect to any foreign properties, we have maintained, and will continue to maintain, appropriate books and records for our foreign properties in local currencies. Accordingly, for federal income tax purposes, including the 75% and 95% gross income tests summarized herein, our income,

Table of Contents

gains and losses from our foreign operations that are not held in TRSs will generally be calculated first in the applicable local currency, and then translated into United States dollars at appropriate exchange rates. On the periodic repatriation of monies from such foreign operations to the United States, we will be required to recognize foreign exchange gains or losses; however, any foreign exchange gains we recognize from repatriation are expected to constitute "real estate foreign exchange gains" under Section 856(n)(2) of the Code, and will thus be excluded from the 75% and 95% gross income tests summarized above.

In addition, we own interests in entities that are both TRSs and "controlled foreign corporations" for federal income tax purposes, and we are deemed to receive our allocable share of certain income, referred to as Subpart F Income, earned by such controlled foreign corporations whether or not that income is actually distributed to us. Numerous exceptions apply in determining whether an item of income is Subpart F Income, including exceptions for rent received from an unrelated person and derived in the active conduct of a trade or business. Rents from real property are generally treated as earned in an active trade or business if the landlord/licensor regularly performs active and substantial management and operational functions with respect to the property while it is leased, but only if such activities are performed through the landlord/licensor's own officers or staff of employees. We believe our controlled foreign corporations generally do not satisfy this active rental exception however, and as a result we may recognize material amounts of Subpart F Income. Based on advice of counsel, we believe that the types of Subpart F Income most likely to be recognized by us qualify under the 95% gross income test. However, we do not believe our Subpart F income qualifies under the 75% gross income test.

REIT Subsidiaries

Some of our subsidiaries may also be taxable as REITs. Provided such entities qualify as REITs under the Code, our equity in such entities will be a qualifying REIT asset under the quarterly REIT asset tests described below, and any dividends and/or gain on disposition of such equity will be qualifying REIT gross income under both the 75% and 95% gross income tests discussed below.

Taxable REIT Subsidiaries

We will jointly elect with certain of our U.S. and non-U.S. subsidiary corporations, whether or not wholly owned, to treat such subsidiary corporations as TRSs. We generally may not own more than 10% of the securities of a taxable corporation, as measured by voting power or value, unless we and such corporation elect to treat such corporation as a TRS. The separate existence of a TRS or other taxable corporation is not ignored for federal income tax purposes. Accordingly, a TRS or other taxable corporation generally would be subject to corporate income tax on its earnings, which may reduce the cash flow that we and our subsidiaries generate in the aggregate, and may reduce our ability to make distributions to our stockholders.

We are not generally treated as holding the assets of a TRS or other taxable subsidiary corporation or as receiving any income that the subsidiary earns. Rather, the stock issued by a taxable subsidiary to us is an asset in our hands, and we treat the distributions paid to us from such taxable subsidiary, if any, as income, gain, or return of capital, as applicable. This treatment can affect our income and asset test calculations, as described below. Because we do not generally include the assets and income of TRSs or other taxable subsidiary corporations in determining our compliance with the REIT requirements, we will use such entities to undertake indirectly activities that the REIT rules might otherwise preclude us from doing directly or through pass-through subsidiaries. For example, we may use TRSs or other taxable subsidiary corporations to conduct activities that give rise to certain categories of income such as management fees or activities that would be treated in our hands as prohibited transactions.

Table of Contents

Income Tests

In order to qualify as a REIT, we must satisfy two gross income requirements on an annual basis. First, at least 75% of our gross income for each taxable year, excluding gross income from sales of inventory or dealer property in "prohibited transactions" and certain hedging and foreign currency transactions, generally must be derived from investments relating to real property or mortgages on real property, including interest income derived from mortgage loans secured by real property (including certain types of mortgage-backed securities), "rents from real property," distributions received from other REITs, and gains from the sale of real estate assets (including REIT shares), as well as specified income from temporary investments. Second, at least 95% of our gross income in each taxable year, excluding gross income from prohibited transactions and certain hedging transactions, must be derived from some combination of such income from investments in real property (i.e., generally income that qualifies under the 75% income test described above), as well as other dividends, interest, and gain from the sale or disposition of stock or securities, which need not have any relation to real property.

We and our subsidiaries may hold investments in and pay taxes to foreign countries. Taxes that we pay in foreign jurisdictions may not be passed through to, or used by, our stockholders as a foreign tax credit or otherwise. Our foreign investments might also generate foreign currency gains and losses. For purposes of either one or both of the 75% and 95% gross income tests, two categories of foreign currency gain may be excluded from gross income: "real estate foreign exchange gain" and "passive foreign exchange gain." Real estate foreign exchange gain is not treated as gross income for purposes of both the 75% and 95% gross income tests. Real estate foreign exchange gain includes gain derived from certain qualified business units of the REIT and foreign currency gain attributable to (i) qualifying income under the 75% gross income test, (ii) the acquisition or ownership of obligations secured by mortgages on real property or interests in real property, or (iii) being an obligor on an obligation secured by mortgages on real property or on interests in real property. In addition, passive foreign exchange gain is not treated as gross income for purposes of the 95% gross income test only. Passive foreign exchange gain includes real estate foreign exchange gain and foreign currency gain attributable to (i) qualifying income under the 95% gross income test, (ii) the acquisition or ownership of obligations, or (iii) being the obligor on obligations and that, in the case of (ii) and (iii), does not fall within the scope of the real estate foreign exchange definition. In all cases, we intend that any foreign currency transactions will be structured in a manner that will not jeopardize our status as a REIT. No assurance can be given that any foreign currency gains that we recognize directly or through pass-through subsidiaries will not adversely affect our ability to satisfy the REIT qualification requirements.

Interest income constitutes qualifying mortgage interest for purposes of the 75% income test (as described above) to the extent that the obligation upon which such interest is paid is secured by a mortgage on real property. If we receive interest income with respect to a mortgage loan that is secured by both real property and other property, and the highest principal amount of the loan outstanding during a taxable year exceeds the fair market value of the real property on the date that we acquired or originated the mortgage loan, the interest income will be apportioned between the real property and the other collateral, and our income from the arrangement will qualify for purposes of the 75% income test only to the extent that the interest is allocable to the real property. Even if a loan is not secured by real property, or is undersecured, the income that it generates may nonetheless qualify for purposes of the 95% income test.

To the extent that the terms of a loan provide for contingent interest that is based on the cash proceeds realized upon the sale of the property securing the loan (a "shared appreciation provision"), income attributable to the participation feature will be treated as gain from sale of the underlying property, which generally will be qualifying income for purposes of both the 75% and 95% gross income tests provided that the real property is not held as inventory or dealer property or primarily for sale to customers in the ordinary course of business. To the extent that we derive interest income from

Table of Contents

a mortgage loan or income from the rental of real property (discussed below) where all or a portion of the amount of interest or rental income payable is contingent, such income generally will qualify for purposes of the gross income tests only if it is based upon the gross receipts or sales and not on the net income or profits of the borrower or lessee. This limitation does not apply, however, where the borrower or lessee leases substantially all of its interest in the property to tenants or subtenants to the extent that the rental income derived by the borrower or lessee, as the case may be, would qualify as rents from real property had we earned the income directly.

Rents received by us will qualify as "rents from real property" in satisfying the gross income requirements described above only if several conditions are met. If rent is partly attributable to personal property leased in connection with a lease of real property, the portion of the rent that is attributable to the personal property will not qualify as "rents from real property" unless it constitutes 15% or less of the total rent received under the lease. In addition, the amount of rent generally must not be based in whole or in part on the income or profits of any person. Amounts received as rent, however, generally will not be excluded from rents from real property solely by reason of being based on fixed percentages of gross receipts or sales. Moreover, for rents received to qualify as "rents from real property," we generally must not operate or manage the property or furnish or render services to the tenants of such property, other than through an "independent contractor" from which we derive no revenue and that meets certain other requirements or through a TRS. We are permitted, however, to perform services that are "usually or customarily rendered" in connection with the rental of space for occupancy only and which are not otherwise considered rendered to the occupant of the property. In addition, we may directly or indirectly provide noncustomary services to tenants of our properties without disqualifying all of the rent from the property if the income from such services does not exceed 1% of the total gross income from the property. For purposes of this test, we are deemed to have received income from such non-customary services in an amount at least 150% of the direct cost of providing the services. Moreover, we are generally permitted to provide services to tenants or others through a TRS without disqualifying the rental income received from tenants for purposes of the income tests. Also, rental income will qualify as rents from real property only to the extent that we do not directly or constructively hold a 10% or greater interest, as measured by vote or value, in the lessee's equity.

We may directly or indirectly receive distributions from TRSs or other corporations that are not REITs or QRSs. These distributions generally are treated as dividend income to the extent of the earnings and profits of the distributing corporation. Such dividends will generally constitute qualifying income for purposes of the 95% gross income test, but not for purposes of the 75% gross income test. Any dividends that we receive from a REIT, however, will be qualifying income for purposes of both the 95% and 75% income tests.

If we fail to satisfy one or both of the 75% or 95% gross income tests for any taxable year, we may still qualify as a REIT for such year if we are entitled to relief under applicable provisions of the Code. These relief provisions will be generally available if (1) our failure to meet these tests was due to reasonable cause and not due to willful neglect and (2) following our identification of the failure to meet the 75% or 95% gross income test for any taxable year, we file a schedule with the IRS setting forth each item of our gross income for purposes of the 75% or 95% gross income test for such taxable year in accordance with U.S. Department of Treasury Regulations. It is not possible to state whether we would be entitled to the benefit of these relief provisions in all circumstances. If these relief provisions are inapplicable to a particular set of circumstances, we will not qualify as a REIT. As discussed above under "Taxation of REITs in General," even where these relief provisions apply, the Code imposes a tax based upon the amount by which we fail to satisfy the particular gross income test.

Table of Contents

Asset Tests

At the close of each calendar quarter, we must also satisfy four tests relating to the nature of our assets. First, at least 75% of the value of our total assets must be represented by some combination of "real estate assets," cash, cash items, U.S. government securities, and, under some circumstances, stock or debt instruments purchased with new capital. For this purpose, real estate assets include interests in real property, such as land, buildings, leasehold interests in real property, stock of other corporations that qualify as REITs and some kinds of mortgage-backed securities and mortgage loans. Assets that do not qualify for purposes of the 75% test are subject to the additional asset tests described below.

Second, the value of any one issuer's "securities" (defined to exclude "real estate assets") that we own (other than a TRS or QRS) may not exceed 5% of the value of our total assets.

Third, we may not own more than 10% of any one issuer's outstanding securities, as measured by either voting power or value. The 10% asset tests do not apply to securities of TRSs and QRSs and the 10% asset test by value does not apply to "straight debt" having specified characteristics and to certain other securities described below. Solely for purposes of the 10% asset test by value, the determination of our interest in the assets of a partnership in which we own an interest will be based on our proportionate interest in any securities issued by the partnership, excluding for this purpose certain securities described in the Code, as well as our equity interest in the partnership, if any.

Fourth, the aggregate value of all securities of TRSs that we hold may not exceed 25% of the value of our total assets.

Notwithstanding the general rule, as noted above, that for purposes of the REIT income and asset tests we are treated as owning our proportionate share of the underlying assets of a subsidiary partnership, if we hold indebtedness issued by a partnership, the indebtedness will be subject to, and may cause a violation of, the asset tests unless the indebtedness is a qualifying mortgage asset or other conditions are met. Similarly, although stock of another REIT is a qualifying asset for purposes of the REIT asset tests, any non-mortgage debt that is issued by another REIT may not so qualify (such debt, however, will not be treated as a "security" for purposes of the 10% asset test by value, as explained below).

Certain relief provisions are available to REITs to satisfy the asset requirements or to maintain REIT qualification notwithstanding certain violations of the asset and other requirements. One such provision allows a REIT which fails one or more of the asset requirements to nevertheless maintain its REIT qualification if (1) the REIT provides the IRS with a description of each asset causing the failure, (2) the failure is due to reasonable cause and not willful neglect, (3) the REIT pays a tax equal to the greater of (i) \$50,000 per failure, and (ii) the product of the net income generated by the assets that caused the failure multiplied by the highest applicable corporate tax rate (currently 35%), and (4) the REIT either disposes of the assets causing the failure within six months after the last day of the quarter in which it identifies the failure, or otherwise satisfies the relevant asset tests within that time frame.

In the case of de minimis violations of the 10% and 5% asset tests, a REIT may maintain its qualification despite a violation of such requirements if (1) the value of the assets causing the violation does not exceed the lesser of 1% of the REIT's total assets and \$10,000,000, and (2) the REIT either disposes of the assets causing the failure within six months after the last day of the quarter in which it identifies the failure, or the relevant tests are otherwise satisfied within that time frame.

Certain securities will not cause a violation of the 10% asset test described above. Such securities include instruments that constitute "straight debt." A security does not qualify as "straight debt" where a REIT (or a controlled TRS of the REIT) owns other securities of the same issuer which do not qualify as straight debt, unless the value of those other securities constitute, in the aggregate,

Table of Contents

1% or less of the total value of that issuer's outstanding securities. In addition to straight debt, the Code provides that certain other securities will not violate the 10% asset test. Such securities include (1) any loan made to an individual or an estate, (2) certain rental agreements pursuant to which one or more payments are to be made in subsequent years (other than agreements between a REIT and certain persons related to the REIT under attribution rules), (3) any obligation to pay rents from real property, (4) securities issued by governmental entities that are not dependent in whole or in part on the profits of (or payments made by) a non-governmental entity, (5) any security (including debt securities) issued by another REIT, and (6) any debt instrument issued by a partnership if the partnership's income is of a nature that it would satisfy the 75% gross income test described above under "Income Tests." In applying the 10% asset test by value, a debt security issued by a partnership is not taken into account to the extent, if any, of the REIT's proportionate interest in the equity and certain debt securities issued by that partnership.

We believe that our holdings of securities and other assets comply with the foregoing REIT asset requirements, and we intend to monitor compliance on an ongoing basis. Certain mezzanine loans we make or acquire may qualify for the safe harbor of Revenue Procedure 2003-65 pursuant to which certain loans secured by a first priority security interest in ownership interests in a partnership or limited liability company will be treated as qualifying assets for purposes of the 75% real estate asset test and the 10% vote or value test. See "Income Tests." We may make some mezzanine loans that do not qualify for that safe harbor, qualify as "straight debt" securities or qualify for one of the other exclusions from the definition of "securities" for purposes of the 10% value test. We intend to make such investments in such a manner as not to fail the asset tests described above.

Some of our assets will consist of goodwill. We do not expect the value of any such goodwill to be significant, and, in any event, to negatively impact our compliance with the REIT asset tests.

No independent appraisals will be obtained to support our conclusions as to the value of our total assets or the value of any particular security or securities. Moreover, values of some assets, may not be susceptible to a precise determination, and values are subject to change in the future. Furthermore, the proper classification of an instrument as debt or equity for federal income tax purposes may be uncertain in some circumstances, which could affect the application of the REIT asset requirements. Accordingly, there can be no assurance that the IRS will not contend that our interests in our subsidiaries or in the securities of other issuers will not cause a violation of the REIT asset tests.

If we should fail to satisfy the asset tests at the end of a calendar quarter, such a failure would not cause us to lose our REIT qualification if (1) we satisfied the asset tests at the close of the preceding calendar quarter and (2) the discrepancy between the value of our assets and the asset requirements was not wholly or partly caused by an acquisition of non-qualifying assets, but instead arose from changes in the market value of our assets. If the condition described in (2) were not satisfied, we still could avoid disqualification by eliminating any discrepancy within 30 days after the close of the calendar quarter in which it arose or by making use of relief provisions described above.

Annual Distribution Requirements

In order to qualify as a REIT, we are required to distribute dividends, other than capital gain dividends, to our stockholders in an amount at least equal to:

- (1) the sum of
 - (i) 90% of our "REIT taxable income," computed without regard to our net capital gains and the dividends paid deduction, and
 - (ii) 90% of our net income, if any, (after tax) from foreclosure property (as described below), minus
- (2) the sum of specified items of non-cash income.

Table of Contents

We generally must make these distributions in the taxable year to which they relate, or in the following taxable year if declared before we timely file our tax return for the year and if paid with or before the first regular dividend payment after such declaration. In order for dividends to provide a tax deduction for us, the distributions must not be "preferential dividends." A distribution is not a preferential dividend if the distribution is (1) pro rata among all outstanding shares of stock within a particular class, and (2) in accordance with the preferences among different classes of stock as set forth in our organizational documents.

To the extent that we distribute at least 90%, but less than 100%, of our "REIT taxable income," as adjusted, we will be subject to tax at ordinary corporate tax rates on the retained portion. We may elect to retain, rather than distribute, our net long-term capital gains and pay tax on such gains. In this case, we could elect for our stockholders to include their proportionate shares of such undistributed long-term capital gains in income, and to receive a corresponding credit for their share of the tax that we paid. Our stockholders would then increase their adjusted basis of their stock by the difference between (1) the amounts of capital gain distributions that we designated and that they include in their taxable income, and (2) the tax that we paid on their behalf with respect to that income.

To the extent that we have available net operating losses carried forward from prior REIT tax years, such losses may reduce the amount of distributions that we must make in order to comply with the REIT distribution requirements. Such losses, however, will generally not affect the character, in the hands of our stockholders, of any distributions that are actually made as ordinary dividends or capital gains. See "Taxation of Stockholders Taxation of Taxable Domestic Stockholders Distributions."

If we should fail to distribute during a calendar year at least the sum of (1) 85% of our REIT ordinary income for such year, (2) 95% of our REIT capital gain net income for such year, and (3) any undistributed taxable income from prior periods, we would be subject to a non-deductible 4% excise tax on the excess of such required distribution over the sum of (i) the amounts actually distributed, and (ii) the amounts of income for the taxable year we retained and on which we have paid corporate income tax.

It is possible that, from time to time, we may not have sufficient cash to meet the distribution requirements due to timing differences between (1) our actual receipt of cash, including receipt of distributions from our subsidiaries, and (2) our inclusion of items in income for federal income tax purposes. Other potential sources of non-cash taxable income include:

"residual interests" in a real estate mortgage investment conduit or taxable mortgage pools;

loans or mortgage-backed securities held as assets that are issued at a discount and require the accrual of taxable economic interest in advance of receipt in cash; and

loans on which the borrower is permitted to defer cash payments of interest, and distressed loans on which we may be required to accrue taxable interest income even though the borrower is unable to make current servicing payments in cash.

In the event that such timing differences occur, in order to meet the distribution requirements, it might be necessary for us to arrange for short-term, or possibly long-term, borrowings, or to pay distributions in the form of taxable in-kind distributions of stock or other property.

We may be able to rectify a failure to pay sufficient dividends for any year by paying "deficiency dividends" to stockholders in a later year. These deficiency dividends may be included in our deduction for dividends paid for the earlier year, but an interest charge would be imposed upon us for the delay in distribution.

Table of Contents

Failure to Qualify

If we fail to satisfy one or more requirements for REIT qualification other than the gross income or asset tests, we could avoid disqualification if our failure is due to reasonable cause and not to willful neglect and we pay a penalty of \$50,000 for each such failure. Relief provisions are available for failures of the gross income tests and asset tests, as described above in "Income Tests" and "Asset Tests."

If we fail to qualify for taxation as a REIT in any taxable year, and the relief provisions described above do not apply, we would be subject to tax, including any applicable alternative minimum tax, on our taxable income at regular corporate rates. We cannot deduct dividends to stockholders in any year in which we do not qualify to be taxed as a REIT, nor would we be required to make distributions in such a year. In this situation, to the extent of current and accumulated earnings and profits, distributions to domestic stockholders that are individuals, trusts and estates will generally be taxable at qualified dividend rates. In addition, subject to the limitations of the Code, corporate distributees may be eligible for the dividends received deduction. Unless we are entitled to relief under specific statutory provisions, we would also be disqualified from re-electing to be taxed as a REIT for the four taxable years following the year during which we lost qualification. It is not possible to state whether, in all circumstances, we would be entitled to this statutory relief.

Sale-Leaseback Transactions

Our investments may be in the form of sale-leaseback transactions. We normally intend to treat these transactions as true leases for federal income tax purposes. However, depending on the terms of any specific transaction, the IRS might take the position that the transaction is not a true lease but is more properly treated in some other manner, such as a financing arrangement or loan for federal income tax purposes. Even if our sale-leasebacks are treated as secured loans, for purposes of the REIT asset tests and the 75% gross income test, each "loan" would likely be considered to be collateralized by real property to the extent of the fair market value of the underlying property. As a result, we believe that we would continue to meet the REIT assets tests and gross income tests. However, it is possible that if one or more of our leases were recharacterized as a financing, the recharacterization of one or more of these transactions could cause us to fail to satisfy the REIT asset tests or gross income tests described above based upon the asset we would be treated as holding or the income we would be treated as having earned as a result of such recharacterization, and such failure could result in our failing to qualify as a REIT. In addition, if one or more of our leases were recharacterized as a loan, tax attributes associated with the ownership of real property principally depreciation would not be available to us, and the timing of our income inclusion would be affected. These changes in amount or timing of income inclusion or the loss of depreciation deductions resulting from the recharacterization could cause us to fail to meet the distribution requirement described above for one or more taxable years absent the availability of the deficiency dividend procedure or might result in a larger portion of our dividends being treated as ordinary income to our stockholders.

Prohibited Transactions

Net income that we derive from a prohibited transaction is subject to a 100% tax. The term "prohibited transaction" generally includes a sale or other disposition of property (other than foreclosure property, as discussed below) that is held primarily for sale to customers in the ordinary course of a trade or business. We intend to conduct our operations so that no asset that we own (or are treated as owning) will be treated as, or as having been, held for sale to customers, and that a sale of any such asset will not be treated as having been in the ordinary course of our business. Whether property is held "primarily for sale to customers in the ordinary course of a trade or business" depends on the particular facts and circumstances. No assurance can be given that any property that we sell will not be treated as property held for sale to customers, or that we can comply with certain safe-harbor provisions of the Code that would prevent such treatment. The 100% tax does not apply to gains from the sale of property that is held through a TRS or other taxable corporation, although such income will potentially be subject to tax in the hands of the corporation at regular corporate rates.

Table of Contents

Foreclosure Property

Foreclosure property is real property and any personal property incident to such real property (1) that we acquire as the result of having bid on the property at foreclosure, or having otherwise reduced the property to ownership or possession by agreement or process of law, after a default (or upon imminent default) on a lease of the property or a mortgage loan held by us and secured by the property, (2) for which we acquired the related loan or lease at a time when default was not imminent or anticipated, and (3) with respect to which we made a proper election to treat the property as foreclosure property. We generally will be subject to tax at the maximum corporate rate (currently 35%) on any net income from foreclosure property, including any gain from the disposition of the foreclosure property, other than income that would otherwise be qualifying income for purposes of the 75% gross income test. Any gain from the sale of property for which a foreclosure property election has been made will not be subject to the 100% tax on gains from prohibited transactions described above, even if the property would otherwise constitute inventory or dealer property. To the extent that we receive any income from foreclosure property that does not qualify for purposes of the 75% gross income test, we intend to make an election to treat the related property as foreclosure property.

Derivatives and Hedging Transactions

We and our subsidiaries may enter into hedging transactions with respect to interest rate and foreign currency exposure on one or more of our assets or liabilities. Hedging transactions could take a variety of forms, including the use of derivative instruments such as interest rate swaps, interest rate cap agreements, options, futures contracts, forward rate agreements or similar financial instruments. Except to the extent provided by U.S. Department of Treasury Regulations, any income from a hedging transaction we entered into (1) in the normal course of our business primarily to manage risk of interest rate, inflation and/or currency fluctuations with respect to borrowings made or to be made, or ordinary obligations incurred or to be incurred, to acquire or carry real estate assets, which is clearly identified as specified in U.S. Department of Treasury Regulations before the closing of the day on which it was acquired, originated, or entered into, including gain from the sale or disposition of such a transaction, and (2) primarily to manage risk of currency fluctuations with respect to any item of income or gain that would be qualifying income under the 75% or 95% income tests which is clearly identified as such before the closing of the day on which it was acquired, originated, or entered into, will not constitute gross income for purposes of the 75% or 95% gross income tests. To the extent that we enter into other types of hedging transactions, the income from those transactions is likely to be treated as non-qualifying income for purposes of the 75% or 95% gross income tests. We intend to structure any hedging transactions in a manner that does not jeopardize our qualification as a REIT. We may conduct some or all of our hedging activities through our TRS or other corporate entity, the income from which may be subject to federal income tax, rather than by participating in the arrangements directly or through pass-through subsidiaries. No assurance can be given, however, that our hedging activities will not give rise to income that does not qualify for purposes of either or both of the REIT gross income tests, or that our hedging activities will not adversely affect our ability to satisfy the REIT qualification requirements.

Taxation of Stockholders

Taxation of Taxable Domestic Stockholders

In this section, the phrase "domestic stockholder" means a holder of shares of our Common Stock that for federal income tax purposes is:

a citizen or resident of the United States;

Table of Contents

a corporation, or other entity treated as a corporation for federal income tax purposes created or organized in or under the laws of the United States or of any political subdivision thereof;

an estate, the income of which is subject to federal income taxation regardless of its source; or

a trust, if (1) a U.S. court is able to exercise primary supervision over the administration of the trust and one or more U.S. persons have the authority to control all substantial decisions of the trust or (2) it has a valid election in place to be treated as a U.S. person.

If a partnership, including for this purpose any entity that is treated as a partnership for federal income tax purposes, holds shares of our shares Inc. Common Stock, the tax treatment of a partner in the partnership will generally depend upon the status of the partner and the activities of the partnership. An investor that is a partnership and the partners in such partnership should consult their tax advisors about the federal income tax consequences of the acquisition, ownership and disposition of shares of our Common Stock.

Distributions

So long as we qualify as a REIT, the distributions that we make to our taxable domestic stockholders out of current or accumulated earnings and profits that we do not designate as capital gain distributions will generally be taken into account by stockholders as ordinary income and will not be eligible for the dividends received deduction for corporations. With limited exceptions, our dividends are not eligible for taxation at the preferential income tax rates (i.e., the 20% federal rate) for qualified dividends received by domestic stockholders that are individuals, trusts and estates from taxable C corporations. Such stockholders, however, are taxed at the preferential rates on dividends designated by and received from REITs to the extent that the dividends are attributable to:

income retained by the REIT in the prior taxable year on which the REIT was subject to corporate level income tax (less the amount of tax);

qualified dividends received by the REIT from TRSs or other taxable C corporations; or

income in the prior taxable year from the sales of "built-in gain" property acquired by the REIT from C corporations in carryover basis transactions (less the amount of corporate tax on such income).

Distributions that we designate as capital gain dividends will generally be taxed to our stockholders as long-term capital gains, to the extent that such distributions do not exceed our actual net capital gain for the taxable year, without regard to the period for which the stockholder that receives such distribution has held its stock. We may elect to retain and pay taxes on some or all of our net long-term capital gains, in which case provisions of the Code will treat our stockholders as having received, solely for tax purposes, our undistributed capital gains, and the stockholders will receive a corresponding credit for taxes that we paid on such undistributed capital gains. See "Annual Distribution Requirements." Corporate stockholders may be required to treat up to 20% of some capital gain distributions as ordinary income. Long-term capital gains are generally taxable at maximum federal rates of 20% in the case of stockholders that are individuals, trusts and estates, and 35% in the case of stockholders that are corporations. Capital gains attributable to the sale of depreciable real property held for more than 12 months are subject to a 25% maximum federal income tax rate for taxpayers who are taxed as individuals, to the extent of previously claimed depreciation deductions.

Distributions in excess of our current and accumulated earnings and profits will generally represent a return of capital and will not be taxable to a stockholder to the extent that the amount of such distributions do not exceed the adjusted basis of the stockholder's shares in respect of which the

Table of Contents

distributions were made. Rather, the distribution will reduce the adjusted basis of the stockholder's shares. To the extent that such distributions exceed the adjusted basis of a stockholder's shares, the stockholders generally must include such distributions in income as long-term capital gain, or short-term capital gain if the shares have been held for one year or less. In addition, any distribution that we declare in October, November or December of any year and that is payable to a stockholders of record on a specified date in any such month will be treated as both paid by us and received by the stockholders on December 31 of such year, provided that we actually pay the distribution during January of the following calendar year.

To the extent that we have available net operating losses and capital losses carried forward from prior tax years, such losses may reduce the amount of distributions that we must make in order to comply with the REIT distribution requirements. See "Annual Distribution Requirements." Such losses, however, are not passed through to stockholders and do not offset income of stockholders from other sources, nor would such losses affect the character of any distributions that we make, which are generally subject to tax in the hands of stockholders to the extent that we have current or accumulated earnings and profits.

Dispositions of our stock

In general, capital gains recognized by individuals, trusts and estates upon the sale or disposition of our stock will be subject to a maximum federal income tax rate of 20% if the stock is held for more than one year, and will be taxed at ordinary income rates (of up to 39.6%) if the stock is held for one year or less. Gains recognized by stockholders that are corporations are subject to federal income tax at a maximum rate of 35%, whether or not such gains are classified as long-term capital gains. Capital losses recognized by a stockholder upon the disposition of our stock that was held for more than one year at the time of disposition will be considered long-term capital losses, and are generally available only to offset capital gain income of the stockholder but not ordinary income (except in the case of individuals, who may offset up to \$3,000 of ordinary income each year). In addition, any loss upon a sale or exchange of shares of our stock by a stockholder who has held the shares for six months or less, after applying holding period rules, will be treated as a long-term capital loss to the extent of distributions that we make that are required to be treated by the stockholder as long-term capital gain.

If an investor recognizes a loss upon a subsequent disposition of our stock or other securities in an amount that exceeds a prescribed threshold, it is possible that the provisions of U.S. Department of Treasury Regulations involving "reportable transactions" could apply, with a resulting requirement to separately disclose the loss-generating transaction to the IRS. These regulations, though directed towards "tax shelters," are broadly written and apply to transactions that may not typically be considered tax shelters. The Code imposes significant penalties for failure to comply with these requirements. You should consult your tax advisor concerning any possible disclosure obligation with respect to the receipt or disposition of our stock or securities or transactions that we might undertake directly or indirectly. Moreover, you should be aware that we and other participants in the transactions in which we are involved (including their advisors) might be subject to disclosure or other requirements pursuant to these regulations.

Passive activity losses and investment interest limitations Distributions that we make and gain arising from the sale or exchange by a domestic stockholder of our stock will not be treated as passive activity income. As a result, stockholders will not be able to apply any "passive losses" against income or gain relating to our stock. If we make dividends to non-corporate domestic stockholders, the dividends will be treated as investment income for purposes of computing the investment interest limitation. However, net capital gain from the disposition of our stock (or distributions treated as such), capital gain dividends and dividends taxed at net capital gains rates generally will be excluded from

Table of Contents

investment income except to the extent the domestic stockholder elects to treat such amounts as ordinary income for federal income tax purposes.

On March 30, 2010, President Obama signed into law the Health Care and Education Reconciliation Act of 2010, which requires certain domestic stockholders who are individuals, estates or trusts to pay an additional 3.8% tax on, among other things, dividends on and capital gains from the sale or other disposition of stock for taxable years beginning after December 31, 2012. Domestic stockholders should consult their tax advisors regarding the effect, if any, of this legislation on their ownership and disposition of shares of our Common Stock.

Taxation of Non-U.S. Holders

The following is a summary of certain federal income and estate tax consequences of the ownership and disposition of our stock applicable to certain non-U.S. holders. A "non-U.S. holder" is any person other than a domestic stockholder or an entity treated as a partnership for federal income tax purposes.

The following discussion is based on current law, and is for general information only. It addresses only selected, and not all, aspects of federal income and estate taxation.

Ordinary dividends

The portion of distributions received by non-U.S. holders that (1) is payable out of our earnings and profits, (2) is not attributable to our capital gains and (3) is not effectively connected with a U.S. trade or business of the non-U.S. holder, will be subject to U.S. withholding tax at the rate of 30%, unless reduced or eliminated by treaty. We generally plan to withhold U.S. income tax at the rate of 30% on the gross amount of any such distribution paid to a non-U.S. holder unless either:

a lower treaty rate applies and the non-U.S. stockholder files an IRS Form W-8BEN evidencing eligibility for that reduced rate with us; or

the non-U.S. stockholder files an IRS Form W-8ECI with us claiming that the distribution is effectively connected income.

Reduced treaty rates and other exemptions are not available to the extent that income is attributable to excess inclusion income (i.e., certain income from taxable mortgage pools or REMIC residual interests) allocable to the non-U.S. holder. Accordingly, we will withhold at a rate of 30% on any portion of a distribution that is paid to a non-U.S. holder and attributable to that holder's share of our excess inclusion income. As required by IRS guidance, we intend to notify our stockholders if a portion of a distribution paid by us is attributable to excess inclusion income.

Subject to the discussion below, in general, non-U.S. holders will not be considered to be engaged in a U.S. trade or business solely as a result of their ownership of our stock. In cases where the dividend income from a non-U.S. holder's investment in our stock is, or is treated as, effectively connected with the non-U.S. holder's conduct of a U.S. trade or business, the non-U.S. holder generally will be subject to federal income tax at graduated rates, in the same manner as domestic stockholders are taxed with respect to such distributions. Such income must generally be reported on a U.S. income tax return filed by or on behalf of the non-U.S. holder. The income may also be subject to the 30% branch profits tax in the case of a non-U.S. holder that is a corporation.

Non-dividend distributions

Unless our stock constitutes a U.S. real property interest (a "*USRPI*"), distributions that we make that are not out of our earnings and profits will not be subject to U.S. income tax. If we cannot determine at the time a distribution is made whether or not the distribution will exceed current and

Table of Contents

accumulated earnings and profits, the distribution will be subject to withholding at the rate applicable to ordinary dividends. The non-U.S. holder may seek a refund from the IRS of any amounts withheld if it is subsequently determined that the distribution was, in fact, in excess of our current and accumulated earnings and profits. If our stock constitutes a USRPI, as described below, distributions that we make in excess of the sum of (1) the stockholder's proportionate share of our earnings and profits, plus (2) the stockholder's basis in its stock, will be taxed under the Foreign Investment in Real Property Tax Act of 1980 ("FIRPTA"), at the rate of tax, including any applicable capital gains rates, that would apply to a domestic stockholder of the same type (e.g., an individual or a corporation, as the case may be), and the collection of the tax will be enforced by a refundable withholding at a rate of 10% of the amount by which the distribution exceeds the stockholder's share of our earnings and profits.

Capital gain distributions

Under FIRPTA, a distribution that we make to a non-U.S. holder, to the extent attributable to gains from dispositions of USRPIs that we held directly or through pass-through subsidiaries, or "USRPI capital gains," will, except as described below, be considered effectively connected with a U.S. trade or business of the non-U.S. holder and will be subject to U.S. income tax at the rates applicable to U.S. individuals or corporations, without regard to whether we designate the distribution as a capital gain distribution. See above under " Ordinary Dividends," for a discussion of the consequences of income that is effectively connected with a U.S. trade or business. In addition, we will be required to withhold tax equal to 35% of the amount of distributions to the extent the distributions constitute USRPI capital gains. Distributions subject to FIRPTA may also be subject to a 30% branch profits tax in the hands of a non-U.S. holder that is a corporation. A distribution is not a USRPI capital gain if we held an interest in the underlying asset solely as a creditor. Capital gain distributions received by a non-U.S. holder that are attributable to dispositions of our assets other than USRPIs are not subject to federal income or withholding tax, unless (1) the gain is effectively connected with the non-U.S. holder's U.S. trade or business and, if certain treaties apply, is attributable to a U.S. permanent establishment maintained by the non-U.S. holder, in which case the non-U.S. holder would be subject to the same treatment as U.S. holders with respect to such gain, or (2) the non-U.S. holder is a nonresident alien individual who was present in the United States for 183 days or more during the taxable year and has a "tax home" in the United States, in which case the non-U.S. holder will incur a 30% tax on his or her capital gains.

A capital gain distribution that would otherwise have been treated as a USRPI capital gain will not be so treated or be subject to FIRPTA, and generally will not be treated as income that is effectively connected with a U.S. trade or business, and instead will be treated in the same manner as an ordinary dividend, if (1) the capital gain distribution is received with respect to a class of stock that is regularly traded on an established securities market located in the United States, and (2) the recipient non-U.S. holder does not own more than 5% of that class of stock at any time during the year ending on the date on which the capital gain distribution is received. The shares of our Common Stock are listed on the NYSE under the symbol "WPC."

Dispositions of our stock

Unless our stock constitutes a USRPI, a sale of our stock by a non-U.S. holder generally will not be subject to U.S. taxation under FIRPTA. Our stock could be treated as a USRPI if 50% or more of our assets at any time during a prescribed testing period consist of interests in real property located within the United States, excluding, for this purpose, interests in real property solely in a capacity as a creditor we expect to meet this 50% test.

Even if the foregoing 50% test is met, however, our stock nonetheless will not constitute a USRPI if we are a "domestically-controlled qualified investment entity." A domestically-controlled

Table of Contents

qualified investment entity includes a REIT, less than 50% of value of which is held directly or indirectly by non-U.S. holders at all times during a specified testing period. We believe that we will be a domestically-controlled qualified investment entity, and that a sale of our stock should not be subject to taxation under FIRPTA.

In the event that we are not a domestically-controlled qualified investment entity, but our stock is "regularly traded," as defined by applicable U.S. Department of Treasury Regulations, on an established securities market, a non-U.S. holder's sale of our common stock nonetheless would not be subject to tax under FIRPTA as a sale of a USRPI, provided that the selling non-U.S. holder held 5% or less of our outstanding common stock at all times during a specified testing period.

If gain on the sale of our stock were subject to taxation under FIRPTA, the non-U.S. holder would be required to file a federal income tax return and would be subject to the same treatment as a U.S. stockholder with respect to such gain, subject to applicable alternative minimum tax and a special alternative minimum tax in the case of non-resident alien individuals, and the purchaser of the stock could be required to withhold 10% of the purchase price and remit such amount to the IRS.

Wash sales

In general, special wash sale rules apply if a stockholder owning more than 5% of our Common Stock avoids a taxable distribution of gain recognized from the sale or exchange of U.S. real property interests by selling our common stock before the ex-dividend date of the distribution and then, within a designated period, enters into an option or contract to acquire shares of the same or a substantially identical class of our common stock. If a wash sale occurs, then the seller/repurchaser will be treated as having gain recognized from the sale or exchange of U.S. real property interests in the same amount as if the avoided distribution had actually been received. Non-U.S. holders should consult their own tax advisors on the special wash sale rules that apply to non-U.S. holders.

Estate tax

If our stock is owned or treated as owned by an individual who is not a citizen or resident (as specially defined for federal estate tax purposes) of the United States at the time of such individual's death, the stock will be includable in the individual's gross estate for federal estate tax purposes, unless an applicable estate tax treaty provides otherwise, and may therefore be subject to federal estate tax.

New legislation relating to foreign accounts

The Hiring Incentives to Restore Employment Act (the "**HIRE Act**"), which was enacted in 2010, imposes a 30% withholding tax on certain types of payments made to "foreign financial institutions" and certain other non-U.S. entities unless certain due diligence, reporting, withholding, and certification requirements are satisfied. The portion of the HIRE Act that provides for this withholding tax and related provisions is known as the "Foreign Account Tax Compliance Act" or "**FATCA**."

On January 17, 2013, the U.S. Department of Treasury issued final regulations relating to FATCA. As a general matter, and among other things, FATCA will impose a 30% withholding tax on dividends on, and gross proceeds from the sale or other disposition of, our shares if paid to a foreign entity unless (i) if the foreign entity is a "foreign financial institution," the foreign entity undertakes certain due diligence, reporting, withholding, and certification obligations, (ii) if the foreign entity is not a "foreign financial institution," the foreign entity certifies it has no substantial U.S. owners or furnishes information regarding each substantial U.S. owner, or (iii) the foreign entity is otherwise excepted under FATCA. The requirements under FATCA may be modified by an intergovernmental agreement between the United States and another country. Under delayed effective dates provided for in the regulations and published IRS guidance, the withholding tax described above will apply (i) to

Table of Contents

dividends on our shares beginning on July 1, 2014, and (ii) to payments of gross proceeds from a sale or other disposition of our shares beginning on January 1, 2017. Prospective investors should consult their tax advisors regarding the effect of FATCA in their particular circumstances.

Taxation of Tax-Exempt Stockholders

Tax-exempt entities, including qualified employee pension and profit sharing trusts and individual retirement accounts, generally are exempt from federal income taxation. However, they may be subject to taxation on their UBTI. While some investments in real estate may generate UBTI, the IRS has ruled that dividend distributions from a REIT to a tax-exempt employee pension trust do not automatically constitute UBTI. Based on that ruling, and provided that (1) a tax-exempt stockholder has not held our stock as "debt financed property" within the meaning of the Code (e.g., where the acquisition or holding of the property is financed through a borrowing by the tax-exempt stockholder), and (2) our stock is not otherwise used in an unrelated trade or business, distributions that we make and income from the sale of our stock generally should not give rise to UBTI to a tax-exempt stockholder.

Tax-exempt stockholders that are social clubs, voluntary employee benefit associations, supplemental unemployment benefit trusts, and qualified group legal services plans exempt from federal income taxation under Sections 501(c)(7), (c)(9), (c)(17) and (c)(20) of the Code are subject to different UBTI rules, which generally require such stockholders to characterize distributions that we make as UBTI.

In certain circumstances, a pension trust that owns more than 10% of our stock by value could be required to treat a percentage of its distributions as UBTI, if we are a "pension-held REIT." We will not be a pension-held REIT unless either (1) one pension trust owns more than 25% of the value of our stock, or (2) a group of pension trusts, each individually holding more than 10% of the value of our stock, collectively owns more than 50% of the value of our stock. Certain restrictions on ownership and transfer of our stock should generally prevent a tax-exempt entity from owning more than 10% of the value of our stock and should generally prevent us from becoming a "pension-held REIT."

Tax-exempt stockholders are urged to consult their tax advisors regarding the federal, state, local and foreign income and other tax consequences of owning our stock.

Backup Withholding and Information Reporting

We will report to our domestic stockholders and the IRS the amount of dividends paid during each calendar year and the amount of any tax withheld. Under the backup withholding rules, a domestic stockholder may be subject to backup withholding with respect to dividends paid unless the holder is a corporation or comes within other exempt categories and, when required, demonstrates this fact or provides a taxpayer identification number or social security number, certifies as to no loss of exemption from backup withholding and otherwise complies with applicable requirements of the backup withholding rules. A domestic stockholder that does not provide his or her correct taxpayer identification number or social security number may also be subject to penalties imposed by the IRS. Backup withholding is not an additional tax. In addition, we may be required to withhold a portion of a capital gain distribution to any domestic stockholders who fails to certify its non-foreign status.

We must report annually to the IRS and to each non-U.S. stockholder the amount of dividends paid to such holder and the tax withheld with respect to such dividends, regardless of whether withholding was required. Copies of the information returns reporting such dividends and withholding may also be made available to the tax authorities in the country in which the non-U.S. stockholder resides under the provisions of an applicable income tax treaty. A non-U.S. stockholder may be subject to backup withholding unless applicable certification requirements are met.

Table of Contents

Payment of the proceeds of a sale of our common stock within the U.S. is subject to both backup withholding and information reporting unless the beneficial owner certifies under penalties of perjury that it is a non-U.S. stockholder (and the payor does not have actual knowledge or reason to know that the beneficial owner is a U.S. person) or the holder otherwise establishes an exemption. Payment of the proceeds of a sale of our common stock conducted through certain U.S. related financial intermediaries is subject to information reporting (but not backup withholding) unless the financial intermediary has documentary evidence in its records that the beneficial owner is a non-U.S. stockholder and specified conditions are met or an exemption is otherwise established. Any amounts withheld under the backup withholding rules may be allowed as a refund or a credit against such holder's federal income tax liability provided the required information is furnished to the IRS.

Legislative or Other Actions Affecting REITs

The rules dealing with federal income taxation are constantly under review by persons involved in the legislative process and by the IRS and the U.S. Department of Treasury. Changes to the federal tax laws and interpretations thereof could adversely affect an investment in our stock.

State, Local and Foreign Taxes

We and our subsidiaries and stockholders may be subject to state, local or foreign taxation in various jurisdictions including those in which we or they transact business, own property or reside. We own real property assets located in numerous jurisdictions, and will be required to file tax returns in some of those jurisdictions. Our state, local or foreign tax treatment and that of our stockholders may not conform to the federal income tax treatment discussed above. We may own foreign real estate assets and pay foreign property taxes, and dispositions of foreign property or operations involving, or investments in, foreign real estate assets may give rise to foreign income or other tax liability in amounts that could be substantial. Any foreign taxes that we incur do not pass through to stockholders as a credit against their federal income tax liability. Prospective investors should consult their tax advisors regarding the application and effect of state, local and foreign income and other tax laws on an investment in our stock.

PLAN OF DISTRIBUTION

Unless otherwise set forth in a prospectus supplement accompanying this prospectus, we may sell the Securities offered pursuant to this prospectus to or through one or more underwriters or dealers or we may sell the Securities to investors directly on our own behalf in those jurisdictions where we are authorized to do so or through agents. Any such underwriter, dealer or agent involved in the offer and sale of the Securities will be named in the applicable prospectus supplement.

Underwriters may offer and sell the Securities at a fixed price or prices that may be changed, at market prices prevailing at the time of sale, at prices related to such prevailing market prices or at negotiated prices. We also may, from time to time, authorize dealers or agents to offer and sell the Securities upon such terms and conditions as may be set forth in the applicable prospectus supplement. In connection with the sale of any of the Securities, underwriters may receive compensation from us in the form of underwriting discounts or commissions and may also receive commissions from purchasers of the Securities for whom they may act as agent. Underwriters may sell the Securities to or through dealers, and such dealers may receive compensation in the form of discounts, concessions or commissions from the underwriters or commissions from the purchasers for whom they may act as agents.

Shares of our Common Stock may also be sold in one or more of the following transactions: (a) block transactions (which may involve crosses) in which a broker-dealer may sell all or a portion of such shares as agent, but may position and resell all or a portion of the block as principal to facilitate the transaction; (b) purchases by any such broker-dealer as principal, and resale by such broker-dealer for its own account pursuant to a prospectus supplement; (c) a special offering, an exchange distribution or a secondary distribution in accordance with applicable NYSE or other stock exchange, quotation system or over-the-counter market rules; (d) ordinary brokerage transactions and transactions in which any such broker-dealer solicits purchasers; (e) sales "at the market" to or through a market maker or into an existing trading market, on an exchange or otherwise, for such shares; and (f) sales in other ways not involving market makers or established trading markets, including direct sales to purchasers.

Any underwriting compensation paid by us to underwriters or agents in connection with the offering of the Securities, and any discounts or concessions or commissions allowed by underwriters to participating dealers, will be set forth in the applicable prospectus supplement. Dealers and agents participating in the distribution of the Securities may be deemed to be underwriters, and any discounts and commissions received by them and any profit realized by them on resale of the Securities may be deemed to be underwriting discounts and commissions.

Underwriters, dealers and agents may be entitled, under agreements entered into with us, to indemnification against and contribution toward certain civil liabilities, including liabilities under the Securities Act. Unless otherwise set forth in an accompanying prospectus supplement, the obligations of any underwriters to purchase any of the Securities will be subject to certain conditions precedent, and the underwriters will be obligated to purchase all of such Securities, if any are purchased.

Underwriters, dealers and agents may engage in transactions with, or perform services for, us and our affiliates in the ordinary course of business.

If indicated in the prospectus supplement, we may authorize underwriters or other agents to solicit offers by institutions to purchase Securities from us pursuant to contracts providing for payment and delivery on a future date. Institutions with which we may make these delayed delivery contracts include commercial and savings banks, insurance companies, pension funds, investment companies, educational and charitable institutions and others. The obligations of any purchaser under any such delayed delivery contract will be subject to the condition that the purchase of the Securities shall not at the time of delivery be prohibited under the laws of the jurisdiction to which the purchaser is subject.

Table of Contents

The underwriters and other agents will not have any responsibility with regard to the validity or performance of these delayed delivery contracts.

In connection with the offering of the Securities hereby, certain underwriters and selling group members and their respective affiliates may engage in transactions that stabilize, maintain or otherwise affect the market price of the applicable Securities. Such transactions may include stabilization transactions effected in accordance with Rule 104 of Regulation M promulgated by the SEC pursuant to which such persons may bid for or purchase Securities for the purpose of stabilizing their market price. The underwriters in an offering of Securities may also create a "short position" for their account by selling more Securities in connection with the offering than they are committed to purchase from us. In such case, the underwriters could cover all or a portion of such short position by either purchasing Securities in the open market following completion of the offering of such Securities or by exercising any over-allotment option granted to them by us. In addition, the managing underwriter may impose "penalty bids" under contractual arrangements with other underwriters, which means that they can reclaim from an underwriter (or any selling group member participating in the offering), for the account of the other underwriters, the selling concession with respect to Securities that are distributed in the offering but subsequently purchased for the account of the underwriters in the open market. Any of the transactions described in this paragraph or comparable transactions that are described in any accompanying prospectus supplement may result in the maintenance of the price of the Securities at a level above that which might otherwise prevail in the open market. None of such transactions described in this paragraph or in an accompanying prospectus supplement are required to be taken by any underwriters and, if they are undertaken, may be discontinued at any time.

Shares of our Common Stock are listed on the NYSE under the symbol "WPC." Any Debt Securities, series of Preferred Stock or Warrants we offer will be new issues of Securities with no established trading market and may or may not be listed on a national securities exchange, quotation system or over-the-counter market. Any underwriters or agents to or through which securities are sold by us may make a market in such securities, but such underwriters or agents will not be obligated to do so and any of them may discontinue any market making at any time without notice. No assurance can be given as to the liquidity of or trading market for any Securities sold by us.

Selling securityholders may use this prospectus in connection with resales of the Securities. The applicable prospectus supplement will identify the selling securityholders and the terms of the Securities. Selling securityholders may be deemed to be underwriters in connection with the Securities they resell and any profits on the sales may be deemed to be underwriting discounts and commissions under the Securities Act. The selling securityholders will receive all the proceeds from the sale of the securities. We will not receive any proceeds from sales by selling securityholders.

EXPERTS

The financial statements and management's assessment of the effectiveness of internal control over financial reporting (which is included in Management's Report on Internal Control over Financial Reporting) incorporated in this Prospectus by reference to the Annual Report on Form 10-K of W. P. Carey Inc. for the year ended December 31, 2013; the audited historical financial statements of Corporate Property Associates 16 Global Incorporated included in Exhibit 99.1 of W. P. Carey Inc.'s Current Report on Form 8-K dated March 7, 2014; and the audited historical financial statements of Corporate Property Associates 15 Incorporated included in Exhibit 99.6 of W. P. Carey Inc.'s Current Report on Form 8-K dated October 19, 2012 have been so incorporated in reliance on the reports of PricewaterhouseCoopers LLP, an independent registered public accounting firm, given on the authority of said firm as experts in auditing and accounting.

Table of Contents

SELLING SECURITYHOLDERS

Information about selling securityholders, where applicable, will be set forth in a prospectus supplement, in a post-effective amendment, or in filings we make with the SEC. We will not receive any of the proceeds from the sale of Securities to which this prospectus relates that are offered by any selling securityholders.

LEGAL MATTERS

The legality of the Securities offered hereby by W. P. Carey is being passed upon for W. P. Carey by DLA Piper LLP (US). In addition, the description of federal income tax consequences contained in the section entitled "Material Federal Income Tax Considerations" is based on the opinion of DLA Piper LLP (US), which opinion is subject to various assumptions and is based on current tax law of the United States. Certain legal matters may be passed upon for any of the underwriters or agents by counsel named in the applicable prospectus supplement.
