WESTERN SIZZLIN CORPORATION

Notes to Consolidated Financial Statements

Nine Months Ended September, 2008 and 2007

(Unaudited)

(1) Introduction and Basis of Presentation

Western Sizzlin Corporation is a holding company which owns a number of subsidiaries, with its primary business activities conducted through Western Sizzlin Franchise Corporation and Western Sizzlin Stores, Inc., which franchise and operate restaurants. Financial decisions are centralized at the holding company level, and management of operating businesses is decentralized at the business unit level. The Company's prime objective centers on achieving above-average returns on capital in pursuit of maximizing the eventual net worth of its stockholders. While the Company has historically been principally engaged, and intends at this time to remain principally engaged, in franchising and operating restaurants, it has recently made selective investments in other companies. At September 30, 2008, the Company had 106 franchised, 6 Company-operated and 1 joint venture restaurant operating in 19 states.

The consolidated financial statements include the accounts of Western Sizzlin Corporation and its wholly-owned subsidiaries, Western Sizzlin Franchise Corporation, The Western Sizzlin Stores, Inc., Western Sizzlin Stores of Little Rock, Inc., Austins of Omaha, Inc., Western Investments, Inc., Western Properties, Inc., a majority-owned limited partnership, Western Acquisitions, L.P, a solely-owned limited partnership, Western Real Estate, LP and Western Mustang Holdings, LLC (collectively the Company). All significant intercompany accounts and transactions have been eliminated in consolidation.

The accompanying unaudited consolidated financial statements of Western Sizzlin Corporation, (the Company) have been prepared in accordance with accounting principles generally accepted in the United States of America for interim financial reporting information and the instructions to Form 10-Q and Article 10 of Regulation S-X. Accordingly, they do not include all of the information and notes required by accounting principles generally accepted in the United States of America for complete financial statements. In the opinion of management, all material reclassifications and adjustments, consisting of normal recurring accruals, considered necessary for a fair presentation of the results of operations, financial position and cash flows for each period shown have been included. The unaudited consolidated financial statements and notes are presented as permitted by Form 10-Q and do not contain certain information included in the Company's annual consolidated financial statements and notes. For further information, refer to the consolidated financial statements and notes thereto included in the Company's annual report on Form 10-K for the year ended December 31, 2007.

Certain reclassifications have been made to the 2007 consolidated statements of operations and cash flows to place them on a basis comparable with 2008 information. The reclassifications have had no impact on net income or equity.

(2) Acquisition of Controlling Interests

On July 9, 2008, the Company completed an acquisition of a 50.5% controlling interest in Mustang Capital Advisors, LP and a 51% controlling interest in its general partner, Mustang Capital Management, LLC, through the Company's newly-formed wholly-owned subsidiary, Western Mustang Holdings, LLC. Mustang Capital Advisors, LP, a Texas limited partnership, is a registered investment advisor, and is the investment advisor to, and the general partner of Mustang Capital Partners I, LP and Mustang Capital Partners II, LP (the Funds). The Funds are private investment funds organized for the purpose of trading and investing in securities. The aggregate purchase price was \$1,245,640, which consisted of \$300,000 in cash, \$90,092 in transaction costs, and 54,563 shares of common stock issued at a per share price of \$15.68. Mustang Capital Advisors, LP managed approximately \$50 million in assets through its funds and managed accounts as of September 30, 2008. The value of the 54,563 common shares issued was determined based on the average market price of the Company's common shares over the 3-day period before and after the terms of the acquisition were agreed to and announced. The acquisition is accounted for as a purchase under GAAP (Generally Accepted Accounting Principles) and as a result, Mustang Capital Advisors, LP and Mustang Capital Management, LLC is consolidated into the Company's financial statements. As a result of the acquisition, the Company expects to diversify its holdings in marketable securities and increase the cash flow stream into the Company.

Table of Contents

The following table summarizes the estimated fair value of the assets acquired and liabilities assumed at the date of acquisition. The Company is in the process of valuing certain purchase related intangibles regarding client relationships; thus the allocation of the purchase price is subject to refinement.

	At July 9, 2008	
Cash	\$	10,219
Money market investments of investment advisory segment		4,728,645
Investments in marketable securities		5,253,811
Other assets		451
Goodwill		2,105,062
Total assets acquired		12,098,188
Accrued expenses		35,839
Purchase obligation		1,155,879
Total liabilities assumed		1,191,718
Minority interests		9,660,830
Net assets acquired	\$	1,245,640

In the event of the death, disability, or removal of the minority interest holder of Mustang Capital Advisors, LP (the Partnership) and of Mustang Capital Management, LLC, or at any time after the Company has received aggregate distributions from the Partnership and/or Mustang Capital Management, LLC equal to \$1,050,241, any of such events being a Put Event, the Company has the obligation to purchase from the minority interest holder or his legal representative all of the minority interest holder's ownership percentages, at a price and on terms contractually stipulated (the Purchase Obligation). Upon the occurrence of any Put Event, the Purchase Obligation shall equal the sum of the Applicable Amount and the Hypothetical Amount, as defined below.

The Applicable Amount means a dollar amount equal to the aggregate amount of assets under management by the Partnership at the date of the Put Event, multiplied by 5.074%, with such result multiplied by the minority interest holder's ownership percentage at the date of the Put Event. The Hypothetical Liquidation Amount means the amount expressed in dollars that the minority interest holder would receive if, on the date of the particular Put Event, the Partnership sold all of its tangible assets at their fair market values for cash, paid its liabilities and distributed the remaining amount to the partners.

At the date of settlement of the Purchase Obligation, the Applicable Amount shall be settled by payment of 28.56% in cash and 71.44% in common stock of Western Sizzlin Corporation, and the Hypothetical Liquidation amount shall be settled by payment of cash.

The calculated Purchase Obligation at September 30, 2008 (as if a Put Event has occurred) totals \$1,194,293 and is reported in accordance with the provisions of Statement of Financial Accounting Standards No. 150, *Accounting for Certain Financial Instruments with Characteristics of Both Liabilities and Equity* in the accompanying consolidated balance sheet as of September 30, 2008 in other long-term liabilities.

If the Purchase Obligation as of September 30, 2008 were settled on that date, the Company would be required to pay \$486,406 in cash and issue 49,159 shares of its common stock (based on a closing market value per share of \$14.40). Any change in the market value per share of the Company's common stock will increase or decrease the number of shares required to settle the Purchase Obligation, but will not change the

amount of the Purchase Obligation.

The accompanying consolidated financial statements include the results of operations and cash flows of Mustang Capital Advisors, LP and Mustang Capital Management, LLC from July 9, 2008 (date of acquisition) through September 30, 2008. The following pro forma financial information is presented for illustrative purposes only and is not necessarily indicative of (i) the results of operations and financial position that would have been achieved had the transaction taken place on January 1, 2007 or (ii) the future operations of the Company following the transaction. The following information should be relied on only for the limited purpose of presenting what the results of operations and financial position of the Company might have looked like had the transaction taken place at an earlier date:

Table of Contents

Proforma Results of Operations:

	Three Months Ended September 30, 2008	Nine Months Ended September 30, 2008	Three Months Ended September 30, 2007	Nine Months Ended September 30, 2007
Net income (loss):	\$ 2,934,000	\$ (2,123,000)	\$ 2,520,000	\$ 3,025,000

3) Investments in Marketable Securities

Investment and capital allocation decisions are made by Mr. Sardar Biglari, the Company's Chairman and Chief Executive Officer, under limited authority delegated by the Board of Directors for Western Sizzlin Corporation, and the management of Western Acquisitions, LP. The delegated authority includes the authority to borrow funds in connection with making investments in marketable securities or derivative securities, subject to Board reporting requirements and various limitations. As of the date of this filing, Mr. Biglari has authority to manage surplus cash up to \$10 million, and in addition, has authority to borrow a maximum of \$5 million. The Company has a margin securities account with a brokerage firm. The margin account bears interest at the Federal Funds Target Rate quoted by the Wall Street Journal, plus .5%, or approximately 1.50% as of the date of this report, with the minimum and maximum amount of any particular loan to be determined by the brokerage firm, in its discretion, from time to time. The margin loan balance at September 30, 2008 and 2007 was \$0. The collateral securing the margin loans would be the Company's holdings in marketable securities. The minimum and maximum amount of any particular margin may be established by the brokerage firm, in its discretion, regardless of the amount of collateral delivered to the brokerage firm, and the brokerage firm may change such minimum and maximum amounts from time to time.

The minority interest holder in the recently acquired controlling interest in Mustang Capital Advisors, LP and Mustang Capital Management, LLC, has authority to manage the investments in these particular Funds.

In the normal course of business, substantially all of the Company's securities transactions, money balances and security positions are transacted with a broker. The Company is subject to credit risk to the extent any broker with whom they conduct business is unable to fulfill contractual obligations on their behalf. The Company monitors the financial conditions of such brokers and does not anticipate any losses from these counterparties.

- ***Marketable Securities held by Western Sizzlin Corporation (the holding Company)***

Marketable equity securities held by Western Sizzlin Corporation (the holding company) are held for an indefinite period and thus are classified as available-for-sale. Available-for-sale securities are recorded at fair value in Investments in Marketable Securities on the consolidated balance sheet, with the change in fair value during the period excluded from earnings and recorded, net of tax, as a component of other comprehensive income (loss).

Edgar Filing: WESTERN SIZZLIN CORP - Form 10-Q

The Company completed its exchange offer for shares of ITEX Corporation on May 13, 2008. A total of 864,487 shares of ITEX common stock were validly tendered. The Company issued 57,196 shares of common stock in exchange for ITEX shares tendered, based upon the exchange ratio of one share of ITEX common stock for .06623 shares of the Company's common stock as set forth in the tender offer. After the completed exchange, the Company owns 1,565,201 shares of ITEX common stock, which represents approximately 9% of ITEX's total outstanding stock.

Following is a summary of marketable equity securities held by Western Sizzlin Corporation (the holding company) as of September 30, 2008 and December 31, 2007:

	Cost	Gross Unrealized Gains	Gross Unrealized Losses	Fair Value
September 30, 2008:	\$ 1,409,003	\$	\$ (409,284)	\$ 999,719
December 31, 2007:	\$ 605,689	\$ 128,845	\$	\$ 734,534

Table of Contents

There were no realized gains or losses from marketable equity securities held by Western Sizzlin Corporation (the holding company) for the three or nine months ended September 30, 2008 and 2007. Management has also evaluated unrealized losses on marketable equity securities held by Western Sizzlin Corporation (the holding Company) to determine if such impairment is other than temporary, and has concluded that they are temporary as of September 30, 2008 and that the Company has the ability and the intent to hold such securities until they recover their value. In the event management concludes in future periods that such losses are other than temporary, a charge will be taken in the statement of operations to reduce the cost of the securities to their fair value.

- **Marketable Securities held by Western Acquisitions, LP**

In April 2007, the Company formed Western Investments, Inc., a Delaware corporation and wholly-owned subsidiary, to serve as the general partner of Western Acquisitions, LP; a Delaware limited partnership that operates as a private investment fund. Through Western Investments, Inc., Mr. Biglari operates as the portfolio manager to the fund. During the third quarter of 2007, the Company contributed cash along with its holdings in the common stock of The Steak n Shake Company to Western Investments, Inc., which in turn contributed these assets to Western Acquisitions, LP. During the nine months ended September 30, 2007, cash contributions from outside investors of \$1,500,000 were made to the limited partnership. During the nine months ended September 30, 2008, cash contributions from outside investors of \$540,000 were made to the limited partnership.

As of September 30, 2008, Western Investments, Inc. owned 85.13% of Western Acquisitions, LP. As such, Western Acquisitions, LP has been consolidated into the accompanying financial statements with the 14.87% ownership by minority limited partners presented as minority interest on the accompanying consolidated balance sheet as of September 30, 2008. Western Acquisitions, LP is, for GAAP purposes, an investment company under the AICPA Audit and Accounting Guide *Investment Companies*. The Company has retained the specialized accounting for Western Acquisitions, LP pursuant to EITF Issue No. 85-12, *Retention of Specialized Accounting for Investment in Consolidation*. As such, marketable equity securities held by Western Acquisitions, LP are recorded at fair value in Investments in Marketable Securities, with unrealized gains and losses resulting from changes in fair value reflected in the Consolidated Statements of Operations.

Following is a summary of marketable equity securities held by Western Acquisitions, LP as of September 30, 2008 and December 31, 2007, of which all are in the United States:

	As of September 30, 2008		As of December 31, 2007	
	Cost	Fair Value	Cost	Fair Value
The Steak n Shake Co.	\$ 19,159,412	\$ 13,484,771	\$ 17,902,714	\$ 15,046,851
Other	222,057	171,727	138,660	115,480
Total marketable equity securities	\$ 19,381,468	\$ 13,656,498	\$ 18,041,374	\$ 15,162,331

Net realized gains (losses) and net change in unrealized gains (losses) from marketable equity securities held by Western Acquisitions, LP were as follows:

Three Months Ended September 30,	Nine Months Ended September 30,
--	---------------------------------------

Edgar Filing: WESTERN SIZZLIN CORP - Form 10-Q

	2008	2008
Realized gains	\$	\$
Realized losses		(39,852)
Net realized loss on sales of marketable securities	\$	\$ (39,852)
Net unrealized gains (losses) on marketable securities held Western Acquisitions, LP	\$ 3,597,201	\$ (2,845,923)

- ***Marketable Securities held by Mustang Capital Advisors, LP***

On July 9, 2008, the Company completed an acquisition of controlling interests in Mustang Capital Advisors, LP and its general partner, Mustang Capital Management, LLC, through the Company's newly-formed wholly-owned subsidiary, Western Mustang Holdings, LLC. The acquisition is accounted for as a purchase under GAAP and as a

Table of Contents

result, Mustang Capital Advisors, LP and Mustang Capital Management, LLC are consolidated into the Company's financial statements.

Western Mustang Holdings, LLC is, for GAAP purposes, an investment company under the AICPA Audit and Accounting Guide *Investment Companies*. The Company has retained the specialized accounting for Mustang Capital Advisors, LP pursuant to EITF Issue No. 85-12, *Retention of Specialized Accounting for Investment in Consolidation*. As such, marketable equity securities held by Mustang Capital Advisors, LP are recorded at fair value in Investments in Marketable Securities, with unrealized gains and losses resulting from changes in fair value reflected in the Consolidated Statements of Operations.

Following is a summary of marketable equity securities held by Western Mustang Holdings, LLC as of September 30, 2008 and July 9, 2008 (date of acquisition), of which all are in the United States:

	As of September 30, 2008		As of July 9, 2008	
	Cost	Fair Value	Cost	Fair Value
Total marketable equity securities	\$ 6,348,528	\$ 6,006,796	\$ 5,253,811	\$ 5,253,811

Net realized gains (losses) and net change in unrealized gains (losses) from marketable equity securities held by Mustang Capital Advisors, LP from July 9, 2008 (date of acquisition) through September 30, 2008, were as follows:

Realized gains	\$ 52,210
Realized losses	(28,088)
Net realized gains on sales of marketable securities	\$ 24,122
Net unrealized losses on marketable securities held by Mustang Capital Advisors, LP	\$ (341,732)

(4) Investment in Real Estate

On December 13, 2007, Western Real Estate, LP, a newly-formed Delaware limited partnership, managed by Western Properties, Inc., a newly-formed Delaware corporation and wholly-owned subsidiary of the Company, purchased approximately 23 acres of real property located in Bexar County, Texas, from unaffiliated third parties. Western Properties, Inc. serves as the general partner of Western Real Estate, LP, which intends to operate as a private real estate investment fund. Land held for investment by Western Real Estate, LP at December 31, 2007 and September 30, 2008 of \$3,745,152 is recorded at cost. The land was originally purchased using available cash and a \$2,000,000 draw on the Company's existing line of credit. On February 1, 2008, the purchase was refinanced through the issuance of a note payable of \$2,641,220, secured by the land held for investment. Interest accrues on the unpaid principal balance at prime minus 0.5%, or 4.5% as of September 30, 2008 with one payment of principal of \$264,122 due on January 29, 2009, and all remaining principal and accrued interest due on January 30, 2010.

(5) Goodwill and Other Intangible Assets

Goodwill

The Company conforms to the provisions of Statement of Financial Accounting Standards No. 142 (*SFAS 142*), *Goodwill and Other Intangible Assets*. Under SFAS 142, goodwill is reviewed for impairment and written down and charged to results of operations when carrying amount exceeds estimated fair value. The Company is required to perform impairment tests each year, or between yearly tests in certain circumstances, for goodwill. There can be no assurance that future impairment tests will not result in a charge to earnings.

On July 9, 2008, the Company completed an acquisition of controlling interests in Mustang Capital Advisors, LP and its general partner, Mustang Capital Management, LLC, through the Company's newly-formed wholly-owned subsidiary, Western Mustang Holdings, LLC. Goodwill in the amount of \$2,105,062 has initially been recorded in the Investment Activity Segment in the three-month period ended September 30, 2008 in connection with this acquisition, however; the Company is in the process of valuing certain related intangibles regarding client relationships; thus the allocation of the purchase price is subject to refinement.

Table of Contents

There were no changes in the net carrying amount of goodwill for the three and nine months ended September 30, 2007.

Amortizing Intangible Assets

Franchise royalty contracts are amortized on a straight-line basis over fifteen years, the estimated average life of the franchise agreements. The Company assesses the recoverability of this intangible asset by determining whether the amortization of the franchise royalty contracts over their remaining life can be recovered through undiscounted future operating cash flows of the acquired operation. The amount of impairment, if any, is measured based on projected discounted future operating cash flows using a discount rate reflecting the Company's average cost of funds. There were no impairments to amortizing intangible assets in the nine month period ended September 30, 2008 and 2007, respectively.

	Gross carrying amount	As of September 30, 2008 Weighted average amortization period	Accumulated amortization
Amortizing intangible assets:			
Franchise royalty contracts	\$ 9,454,431	15.0 yrs.	\$ 9,296,857

Aggregate amortization expense for amortizing intangible assets for the three and nine month periods ended September 30, 2007 was \$157,574 and \$472,722, respectively. Estimated amortization expense is \$630,296 for the year ended December 31, 2008, at which time the franchise royalty contracts will be fully amortized.

(6) Stock Options

As of September 30, 2008, the Company has two stock option plans: the 2005 Stock Option Plan and the 2004 Non-Employee Directors' Stock Option Plan. The 1994 Incentive and Non-qualified Stock Option Plan was terminated in 2008 with the exercise of all outstanding options under this plan during the nine months ended September 30, 2008. Under the 2005 and 2004 Plans, employees and directors may be granted options to purchase shares of common stock at the fair market value on the date of the grant.

Options granted under the 2005 and 2004 Plans vest at the date of the grant. The fair value of each option award is estimated on the date of grant using the Black-Scholes option-pricing model. Assumptions utilized in the model are evaluated and revised, as necessary, to reflect market conditions and experience on the respective dates of grant. The risk-free interest rate for periods within the contractual life of the option is based on the U.S. Treasury yield curve in effect at the time of the grant. Expected volatilities are based on the historical volatility of the Company's stock for a period equal to the expected term of the options. The expected term of the options represents the period of time that options granted are outstanding and is estimated using historical exercise and termination experience.

Prior to the adoption of SFAS No. 123R, the benefit of tax deductions in excess of recognized stock compensation expense was reported as a reduction of taxes paid within operating cash flows. SFAS No. 123R requires that such benefits be recognized as a financing cash flow. The benefits of tax deductions in excess of recognized stock compensation expense for the three and nine months ended September 30, 2008 and

Edgar Filing: WESTERN SIZZLIN CORP - Form 10-Q

2007 were immaterial.

There were no stock options granted during the nine month period ended September 30, 2008. There were -0- and 1,000 stock options granted during the three and nine month periods ended September 30, 2007, respectively, all at an estimated value of \$5.92. Accordingly, the Company recorded \$0 and \$5,920 of compensation expense for stock options for the three and nine month periods ended September 30, 2007, respectively.

The fair values of options granted during the nine months ended September 30, 2007 were estimated on the date of grant using the Black-Scholes option pricing model based on the following weighted average assumptions in the table below:

Expected term (years)	5
Risk-free interest rate	4.5%
Volatility	78.83%
Dividend yield	

Table of Contents

The following table summarizes stock options outstanding as of September 30, 2008, as well as activity during the nine month period then ended:

	Options Outstanding	Exercise Price Per Share Weighted Average	Contractual Term Weighted Average	Aggregate Intrinsic Value
Balance, December 31, 2007	36,000	\$ 7.10	5.85	\$ 374,264
Granted				
Exercised	23,500	7.03		
Expired/Forfeited				
Balance, September 30, 2008	12,500	\$ 7.25	2.08	\$ 89,409

All options outstanding at September 30, 2008 are fully vested and exercisable. At September 30, 2008, there were 40,000 shares available for future grants under the plans; however, on April 25, 2007, the Company's Board of Directors elected to suspend future grants under all plans indefinitely.

(7) Stockholders Equity

The Board of Directors approved a share repurchase program on June 24, 2008 authorizing the Company to repurchase up to 500,000 shares of the Company's common stock commencing June 25, 2008 at prices set as the Company's management deems appropriate. Management expects to make, on an opportunistic basis, repurchases of the Company's common stock to the extent permitted by applicable regulatory requirements. The program can be suspended or terminated at any time without prior notice, but in any event shall terminate no later than June 25, 2009. No repurchases were consummated during the periods covered by this report.

During the quarter ended June 30, 2008, the Company issued 57,196 shares of common stock in exchange for 864,487 shares of ITEX Corporation common stock related to the exchange offer. The fair value of the Company's common stock issued was recorded at the closing market price of \$14.00 per share on May 13, 2008, the expiration date of the tender offer.

On July 9, 2008, the Company completed an acquisition of controlling interests in Mustang Capital Advisors, LP and its general partner, Mustang Capital Management, LLC, through the Company's newly-formed wholly-owned subsidiary, Western Mustang Holdings, LLC. The aggregate purchase price included the issuance of 54,563 shares of common stock issued at a per price share of \$15.68 (See Note 2).

(8) Income Taxes

The Company adopted the provisions of FASB Interpretation No. 48, *Accounting for Uncertainty in Income Taxes*, an Interpretation of FASB Statement No. 109 (FIN 48), on January 1, 2007. As of September 30, 2008, the Company has a recorded liability of \$7,552, including interest of \$2,236, for such uncertain tax positions. The recorded liability was reduced by \$20,904 during the nine months ended September 30, 2008, as

Edgar Filing: WESTERN SIZZLIN CORP - Form 10-Q

the Company continues to settle its estimated obligations for lesser amounts.

In assessing the realizability of deferred tax assets, management considers whether it is more likely than not that some portion or all of the deferred tax assets will not be realized. The ultimate realization of deferred tax assets is dependent upon the generation of future taxable income during the periods in which those temporary differences become deductible.

Management considers the scheduled reversal of deferred tax liabilities, projected future taxable income, and tax planning strategies in making this assessment. Based upon the level of historical taxable income and projections for future taxable income over the periods which the deferred tax assets are deductible, management believes it is more likely than not the Company will realize the benefits of these deductible differences, net of a valuation allowance of approximately \$1,260,000 and \$120,000 at September 30, 2008 and December 31, 2007, respectively, related to the unrealized losses of marketable securities. The provision for deferred income taxes for the three and nine month periods ended September 30, 2008 includes a provision for the valuation allowance of \$(1,074,000) and \$993,000, which impacted the Company's effective tax rate for the periods.

Table of Contents**(9) Earnings (Loss) Per Share**

Basic earnings (loss) per share excludes dilution and is computed by dividing income (loss) available to common stockholders by the weighted-average number of common shares outstanding for the period. Diluted earnings per share reflects the potential dilution that could occur if securities or other contracts to issue common stock were exercised or converted into common stock or resulted in the issuance of common stock that then shared in the earnings of the Company.

The following is a reconciliation of the numerators and denominators of the basic and diluted earnings (loss) per share computations for the periods indicated:

	Income (Loss) (Numerator)	Weighted Average Shares (Denominator)	Earnings (Loss) Per Share Amount
Three months ended September 30, 2008			
Net income basic	\$ 2,939,713	2,822,637	\$ 1.04
Net income diluted	\$ 2,939,713	2,826,513	\$ 1.04
Three months ended September 30, 2007			
Net income basic	\$ 2,472,115	1,797,750	\$ 1.38
Net income diluted	\$ 2,742,115	1,808,755	\$ 1.37
Nine months ended September 30, 2008			
Net loss basic	\$ (2,867,302)	2,750,132	\$ (1.04)
Net loss diluted	\$ (2,867,302)	2,750,132	\$ (1.04)
Nine months ended September 30, 2007			
Net income basic	\$ 2,854,235	1,792,823	\$ 1.59
Net income diluted	\$ 2,854,235	1,800,848	\$ 1.58

For the nine month period ended September 30, 2008, the Company excluded from the loss per share calculation all potential common stock because the effect on loss per share was anti-dilutive.

(10) Reportable Segments

The Company has organized segment reporting with additional information to reflect how the Company views its business activities. The Company-operated Restaurant segment consists of the operations of all Company-operated restaurants and derives its revenues from restaurant operations. The Franchising segment consists primarily of franchise sales and support activities and derives its revenues from sales of franchise

Edgar Filing: WESTERN SIZZLIN CORP - Form 10-Q

and development rights and collection of royalties from franchisees. The Investment Activity segment consists of investment activities and certain direct expenses associated with investment-related legal matters. The Company does not allocate certain expenses to any business segment. These costs include expenses of the following functions: legal, accounting, stockholder relations, personnel not directly related to a segment, information systems and other headquarter activities. These unallocated expenses are designated as unallocated corporate expenses. Certain other expenses (such as sublease property expense, impairment and other charges, gains on settlement of insurance claims, and corporate litigation fees and expenses) are also not allocated to any reportable segment.

The following table summarizes reportable segment information:

Edgar Filing: WESTERN SIZZLIN CORP - Form 10-Q

(11) Fair Value Measurement

Effective January 1, 2008, the Company adopted Statement of Financial Accounting Standards No. 159 (SFAS 159), *The Fair Value Option for Financial Assets and Financial Liabilities*. SFAS 159 permits entities to choose to measure many financial instruments and certain other items at fair value. We did not elect the fair value reporting option for any assets and liabilities not previously recorded at fair value.

Table of Contents

Effective January 1, 2008, the Company adopted the provisions of Statement of Financial Accounting Standards No. 157 (SFAS 157), *Fair Value Measurements*, applicable to all financial assets and liabilities and for nonfinancial assets and liabilities recognized or disclosed at fair value in the consolidated financial statements on a recurring basis (at least annually). SFAS 157 defines fair value as the exchange price that would be received for an asset or paid to transfer a liability (an exit price) in the principal or most advantageous market for the asset or liability in an orderly transaction between market participants on the measurement date. The standard also establishes a fair value hierarchy which requires an entity to maximize the use of observable inputs and minimize the use of unobservable inputs when measuring fair value. SFAS 157 describes three levels of inputs that may be used to measure fair value:

- Level 1** Quoted market prices in active markets for identical assets or liabilities.
- Level 2** Observable market-based inputs or unobservable inputs that are corroborated by market data.
- Level 3** Unobservable inputs that are not corroborated by market data.

At September 30, 2008, the Company's investments in marketable securities are carried at fair value, based on quoted market prices, in the consolidated balance sheets and are classified within Level 1 of the fair value hierarchy, with the exception of \$1.3 million that have been valued, in the absence of observable market prices, by Mustang Capital Advisors, LP. The Funds value investments in Level 1 securities are freely tradable and are listed on a national securities exchange or reported on the NASDAQ national market at their last sales price as of the last business day of the period.

Approximately \$1.3 million of the investments held by Mustang Capital Advisors, LP have been classified within Level 2 of the fair value hierarchy and have been valued, in the absence of observable market prices, by the management of Mustang Capital Advisors, LP. Fair value is determined using valuation methodologies after giving consideration to a range of observable factors including last known sales price; any current bids or offers on the stock; comparisons to publicly traded stocks with appropriate discounts for liquidity; size of position; control data research; and current market conditions. Those estimated values do not necessarily represent the amounts that may be ultimately realized due to the occurrence of future circumstances that can not be reasonably determined. Because of the inherent uncertainty of valuation, those estimated values may be materially higher or lower than the values that would have been used had a ready market for the securities existed.

(12) Commitments and Contingencies

Commitments

Western Investments, Inc. is the general partner of Western Acquisitions, LP. Limited partnership interests in Western Acquisitions, LP are either Class A or Class B. The classes are identical except that Class A interests must be held for two years, whereas Class B interests are held for five years. Additionally, Western Investments, Inc., will, at the end of the five year period, reimburse the holders of Class B interests for the first 30% of any cumulative net losses they may suffer. As of September 30, 2008, Western Acquisitions, LP, did not have any limited partners holding Class B interests. As of September 30, 2008 and December 31, 2007, minority limited partners holding Class A interests held 14.87% and 12.43% ownership, respectively.

Edgar Filing: WESTERN SIZZLIN CORP - Form 10-Q

On July 23, 2008, the Company entered into a severance and release agreement with an employee who held the position of President and Chief Executive Officer of Western Sizzlin Franchise Corporation and The Western Sizzlin Stores, Inc. Under the agreement, the Company agreed to pay severance equal to the employee's base pay, \$210,000, in bi-weekly installments through August 19, 2009. In addition, the Company will reimburse monthly health coverage premium payments through August 2009. The Company accrued the entire severance commitment in July 2008 of \$250,000.

Contingencies

The Company accrues an obligation for contingencies, including estimated legal costs, when a loss is probable and the amount is reasonably estimable. As facts concerning contingencies become known to the Company, the

Table of Contents

Company reassesses its position with respect to accrued liabilities and other expenses. These estimates are subject to change as events evolve and as additional information becomes available during the litigation process.

Little Rock, Arkansas Lease

In September 2006, the Company was served with a lawsuit filed in the Circuit Court of Pulaski County, Arkansas, captioned *Parks Land Company, LLP, et al. v. Western Sizzlin Corporation, et al.* The plaintiffs are owners/landlords of four restaurant premises located in the Little Rock, Arkansas metropolitan area which had been leased pursuant to a single ten year lease agreement. The Company occupied these locations for a period of time, but before the end of the lease, subleased each of these premises to various operators. The ten year lease agreement expired on June 30, 2006. In the lawsuit the plaintiffs sought recovery of alleged damages for certain repair and maintenance expenses on the premises, for the replacement of certain equipment, for diminution of property value, and for loss of rental income, as well as interest and costs. On February 12, 2008, this case came before the Court for trial. On February 20, 2008, a 12 member jury returned a plaintiffs' verdict in the amount of \$689,526. On February 29, 2008, the Circuit Court of Pulaski County, Arkansas entered judgment on the jury's verdict in the case against the Company in the amount of \$689,666 plus plaintiff's legal costs. The Company has appealed the verdict and the judgment issued on it. If the appellate court affirms the judgment against the Company, the amount due the plaintiffs would include interest accrued on the judgment from February 29, 2008, through the period of the appeal. This additional amount is not expected to exceed \$50,000. The appellate record was filed on October 13, 2008, and the Company's brief will be due approximately 40 days from that date. The Company's appeal should be decided by the appropriate appellate court in Arkansas sometime in the first quarter of 2009. There has been no change in the Company's loss contingency accrual of \$900,000 since December 31, 2007.

Other

The Company is involved in various other claims and legal actions arising in the ordinary course of business. In the opinion of the management, the ultimate disposition of these matters will not have a material adverse effect on the Company's financial condition, results of operations or liquidity.

(13) Investment in Unconsolidated Joint Venture

The Company is a partner in a 50/50 joint venture with a franchisee for a new restaurant in Harrisonburg, Virginia. During October 2005, the joint venture entered into a loan agreement for \$3.05 million and the Company guaranteed 50% of the loan obligation. The estimated fair value of the guarantee of approximately \$30,000 is recorded in other long-term liabilities and in investments in unconsolidated joint venture on the accompanying consolidated balance sheets at September 30, 2008 and December 31, 2007. The term of the guarantee extends through July 1, 2026 and the Company would be required to perform under the guarantee should the joint venture not be able to meet its scheduled principal and interest payments. Pursuant to the joint venture agreement, a cash contribution of \$300,000 from each 50/50 partner was also made at the closing of this financing. The Company is accounting for the investment using the equity method and the Company's share of the net income of the joint venture is reported in the accompanying statements of operations as equity in earnings of unconsolidated joint venture. During the three month period ended September 30, 2008, the Company received a cash distribution from the joint venture of \$150,000.

Financial Data

The following is selected financial information for the joint venture as of and for the three and six month periods ended September 30, 2008 and 2007, respectively:

(14) Impact of Recently Issued Accounting Standards

In September 2006, the FASB issued Statement of Financial Accounting Standards No. 157 (SFAS 157), *Fair Value Measurements*. SFAS 157 defines fair value, establishes a framework for measuring fair value and expands disclosures about fair value measurements. SFAS 157 applies under other accounting pronouncements that require or permit fair value measurements, the FASB having previously concluded in those accounting pronouncements that fair value is the relevant measurement attribute. Accordingly, SFAS 157 does not require any new fair value measurements. Effective January 1, 2008, the Company adopted the provisions of SFAS 157 for financial assets and liabilities. The Company applied the provisions of FSP FAS 157-2, *Effective Date of FASB Statement 157*, which defers the provisions of SFAS 157 for nonfinancial assets and liabilities to the first fiscal period beginning after November 28, 2008. The nonfinancial assets for which we have deferred adoption include goodwill and long-lived assets. The Company is required to adopt SFAS 157 for nonfinancial assets and liabilities that are not measured at fair value on a recurring basis in the first quarter of 2009 and is still evaluating the impact on the Consolidated Financial Statements.

In May 2007, the FASB issued FASB Staff Position No. FIN 46(R)-7, *Application of FASB Interpretation No. 46(R) to Investment Companies* (FSP FIN 46(R)-7) which provides clarification on the applicability of FIN 46(R), as revised, to the accounting for investments by entities that apply the accounting guidance in the AICPA Audit and Accounting Guide, *Investment Companies*. FSP FIN 46(R)-7 amends FIN 46(R), as revised, to make permanent the temporary deferral of the application of FIN 46(R), as revised, to entities within the scope of the guide under Statement of Position (SOP) No. 07-1, *Clarification of the Scope of the Audit and Accounting Guide Investment Companies and Accounting by Parent Companies and Equity Method Investors for Investments in Investment Companies* (SOP 07-1). FSP FIN 46(R)-7 is effective upon adoption of SOP 07-1. The adoption of FSP FIN 46(R)-7 is not expected to have a material impact on the Company.

SOP 07-1, issued in June 2007, addresses whether the accounting principles of the AICPA Audit and Accounting Guide *Investment Companies* may be applied to an entity by clarifying the definition of an investment company and whether those accounting principles may be retained by a parent company in consolidation or by an investor in the application of the equity method of accounting. SOP 07-1, as originally issued, was to be effective for fiscal years beginning on or after December 15, 2007 with earlier adoption encouraged. In February 2008, the FASB issued FSP SOP 07-1-1, *Effective Date of AICPA Statement of Position 07-01*, to indefinitely defer the effective date of SOP 07-01.

Table of Contents

The Company's majority-owned subsidiaries, Western Acquisitions, LP and Mustang Capital Advisors, LP, are investment companies as currently defined in the AICPA Audit and Accounting Guide, *Investment Companies*. The Company has retained the specialized accounting for Western Acquisitions, LP and Mustang Capital Advisors, LP pursuant to EITF 85-12, *Retention of Specialized Accounting for Investments in Consolidation*. As such, marketable equity securities held by Western Acquisitions, LP and Mustang Capital Advisors, LP are recorded at fair value in Investments in Marketable Securities in the consolidated financial statements, with unrealized gains and losses resulting from the change in fair value reflected in the Consolidated Statement of Operations. The Company intends to monitor future developments associated with this Statement in order to assess the impact, if any, which may result.

In December 2007, the FASB issued Statement of Financial Accounting Standards No. 141(R), *Business Combinations* (SFAS 141R), and Statement of Financial Accounting Standard No. 160, *Noncontrolling Interest in Consolidated Financial Statements, an amendment of ARB No. 51* (SFAS 160). These new standards will significantly change the accounting for and reporting for business combinations and noncontrolling (minority) interests in consolidated financial statements. SFAS 141(R) and SFAS 160 are required to be adopted simultaneously and are effective for the first annual reporting period beginning on or after December 15, 2008. These standards will impact the Company if it completes an acquisition or obtains additional minority interests after the effective date. SFAS 160 amends ARB 51 to establish accounting and reporting standards for the noncontrolling interest in a subsidiary and for the deconsolidation of a subsidiary. It clarifies that a noncontrolling interest in a subsidiary, which is sometimes referred to as minority interest, is an ownership interest in the consolidated entity that should be reported as equity in consolidated financial statements. Among other requirements, this statement requires that the consolidated net income attributable to the parent and the noncontrolling interest be clearly identified and presented on the face of the consolidated income statement. SFAS 160 is effective for the first fiscal period beginning on or after December 15, 2008. The Company is required to adopt SFAS 160 in the first quarter of 2009 and is currently evaluating the impact of adopting SFAS 160 on its Consolidated Financial Statements.

In March 2008, the FASB issued Statement of Financial Accounting Standards SFAS No. 161 (SFAS 161), *Disclosures about Derivative Instruments and Hedging Activities - An Amendment of FASB Statement No. 133*. SFAS applies to all derivative instruments and related hedged items accounted for under SFAS No. 133, *Accounting for Derivative Instruments and Hedging Activities*. It requires entities to provide greater transparency about (a) how and why an entity uses derivative instruments, (b) how derivative instruments and related hedged items are accounted for under SFAS 133 and its related interpretations, and (c) how derivative instruments and related hedged items affect an entity's financial position, results of operations, and cash flows. SFAS 161 is effective for fiscal years and interim periods beginning after November 15, 2008. This standard is not expected to have a material impact on the Company's consolidated financial statements.

In April 2008, the FASB issued FASB Staff Position No. 142-3, *Determination of the Useful Life of Intangible Assets* (FSP 142-3). FSP 142-3 amends the factors that should be considered in developing renewal or extension assumptions used to determine the useful life of a recognized intangible asset under FASB Statement No. 142, *Goodwill and Other Intangible Assets* and requires enhanced related disclosures. FSP 142-3 must be applied prospectively to all intangible assets acquired subsequent to fiscal years beginning after December 15, 2008. The Company is currently evaluating the impact that FSP 142-3 will have on its consolidated financial statements.

In May 2008, the FASB issued Statement of Financial Accounting Standards No. 162 (SFAS 162), *The Hierarchy of Generally Accepted Accounting Principles*. SFAS 162 identifies the sources of accounting principles and the framework for selecting the principles to be used in the preparation of financial statements of nongovernmental entities that are presented in conformity with generally accepted accounting principles (GAAP) in the United States (the GAAP hierarchy). This Statement is effective 60 days following the SEC's approval of the Public Company Accounting Oversight Board amendments to AICPA Codification of Auditing Standards, AU Section 411, *The Meaning of Present Fairly in Conformity With Generally Accepted Accounting Principles*. The Company does not currently believe that adopting SFAS 162 will have a material impact on its consolidated financial statements.

Edgar Filing: WESTERN SIZZLIN CORP - Form 10-Q

In October 2008, the FASB issued FSP FAS No. 157-3, *Determining the Fair Value of a Financial Asset When the Market for That Asset Is Not Active* (FSP 157-3). The FSP clarifies the application of FAS No. 157, *Fair Value Measurements*, when the market for a financial asset is not active. The FSP was effective upon issuance, including reporting for prior periods for which financial statements have not been issued. The adoption of the FSP for reporting as of September 30, 2008, was given consideration when making estimates of Level 2 fair value estimates, as disclosed in Note 2.

(15) **Subsequent Event**

On October 3, 2008, the Company announced its intention to commence an exchange offer for up to 680,500 shares of common stock of Jack in the Box, Inc. The exchange ratio would be 1.607 shares of the Company's common stock for one share of Jack in the Box, Inc. common stock. On October 15, 2008, the Company filed a registration statement on Form S-4 related to the proposed exchange offer. The exchange offer is conditioned on the

Table of Contents

effectiveness of the registration statement, as the Company currently anticipates that the registration statement will be declared effective in the fourth quarter of 2008.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

Overview

The following discussion may include forward-looking statements including anticipated financial performance, business prospects, the future opening of Company-operated and franchised restaurants, anticipated capital expenditures, and other matters. All statements other than statements of historical fact are forward-looking statements. Section 27A of the Securities Act of 1933 (as amended) and Section 21E of the Securities Exchange Act of 1934 (as amended) provide safe harbors for forward-looking statements. In order to comply with the terms of these safe harbors, the Company notes that a variety of factors, individually or in the aggregate, could cause the Company's actual results and experience to differ materially from the anticipated results or other expectations expressed in the Company's forward-looking statements including, without limitation, those factors discussed in the section entitled "Item 1A. Risk Factors" in the Company's Form 10-K for the year ended December 31, 2007 and the following: the ability of the Company or its franchisees to obtain suitable locations for restaurant development; consumer spending trends and habits; competition in the restaurant segment with respect to price, service, location, food quality and personnel resources; weather conditions in the Company's operating regions; laws and government regulations; general business and economic conditions; availability of capital; success of operating initiatives and marketing and promotional efforts; and changes in accounting policies. In addition, the Company disclaims any intent or obligation to update those forward-looking statements.

Western Sizzlin Corporation is a holding company owning subsidiaries engaged in a number of diverse business activities. The Company's primary business activities are conducted through Western Sizzlin Franchise Corporation and Western Sizzlin Stores, Inc., which franchise and operate 113 restaurants in 19 states, including six Company-owned, 106 franchise restaurants, and one joint venture restaurant. The Company currently operates and/or franchises the following concepts: Western Sizzlin, Western Sizzlin Wood Grill, Western Sizzlin Express, Great American Steak & Buffet, and Quincy Steakhouses.

The consolidated financial statements include the accounts of Western Sizzlin Corporation and its wholly-owned subsidiaries, Western Sizzlin Franchise Corporation, The Western Sizzlin Stores, Inc., Western Sizzlin Stores of Little Rock, Inc., Austins of Omaha, Inc., Western Investments, Inc., Western Properties, Inc., a majority-owned limited partnership, Western Acquisitions, LP, a solely-owned limited partnership, Western Real Estate, LP, and Western Mustang Holdings, LLC. Unless otherwise noted, all entities are referred to collectively as the "Company".

In 2007, the Company formed Western Investments, Inc., a Delaware corporation and wholly-owned subsidiary to serve as the general partner of Western Acquisitions, LP; a Delaware limited partnership that operates as a private investment fund. Western Acquisitions, LP is, for generally accepted accounting principles (GAAP) purposes, an investment company under the American Institute of Certified Public Accountants (AICPA) Audit and Accounting Guide *Investment Companies*. The Company has retained the specialized accounting for Western Acquisitions, LP pursuant to FITF Issue No. 85-12, *Retention of Specialized Accounting for Investments in Consolidation*. As such, marketable equity securities held by Western Acquisitions, LP are recorded at fair value in Investments in Marketable Securities, with unrealized gains and losses resulting from the change in fair value reflected in the Statement of Operations.

Edgar Filing: WESTERN SIZZLIN CORP - Form 10-Q

The Company seeks to invest, at the holding company and through subsidiaries, including Western Acquisitions, LP, in stocks of businesses at prices below their intrinsic business value. The Company's preferred strategy is to allocate a meaningful amount of capital in each investee, resulting in concentration. The carrying values of these investments are exposed to market price fluctuations, which may be accentuated by a concentrated equity portfolio. A significant decline in the price of major investments may produce a large decrease in the Company's net earnings and its stockholders' equity (See Note 3 to the consolidated financial statements).

Financial decisions are centralized at the holding company level, and management of operating businesses is decentralized at the business unit level. Investment and all other capital allocation decisions are made for the Company and its subsidiaries by Mr. Sardar Biglari, Chairman and Chief Executive Officer. The minority interest holder in one recently acquired controlling interest in Mustang Capital Advisors, LP and Mustang Capital Management, LLC, has authority to manage the investments in these particular Funds. The Company's primary objective centers on achieving above average returns on capital in pursuit of maximizing the eventual net worth of its stockholders.

Table of Contents

While the Company has historically been principally engaged, and intends at this time to remain principally engaged, in franchising and operating restaurants, its recent investment activities could bring it within the definition of an investment company and require it to register as an investment company under the Investment Company Act of 1940. The Board of Directors has adopted a policy requiring management to restrict the Company's operations and investment activities to avoid becoming an investment company, until and unless the Board approves otherwise.

Although the Company does not presently intend to change its principal business, and the Board has not approved any such change, the Company has expanded its investment activities, and may decide in the future to register as an investment company under the Investment Company Act. Under certain circumstances, if it is successful in investment activities, then the Company may inadvertently fall within the definition of an investment company, in which event it may be required to register as an investment company. If the Company decides or is required to register as an investment company, then it would become subject to various provisions of the Investment Company Act and the regulations adopted under such Act, which are very extensive and could adversely affect its operations.

The Company completed its exchange offer for shares of ITEX Corporation on May 13, 2008. A total of 864,487 shares of ITEX common stock were validly tendered. The Company has issued 57,196 shares of common stock in exchange for ITEX shares tendered, based upon the exchange ratio of one share of ITEX common stock for .06623 shares of the Company's common stock as set forth in the tender offer. After the completed exchange, the Company owns 1,565,201 shares of ITEX common stock, which represents approximately 9% of ITEX's total outstanding stock.

On July 9, 2008, the Company completed an acquisition of controlling interests in Mustang Capital Advisors, LP and its general partner, Mustang Capital Management, LLC, through the Company's newly-formed wholly-owned subsidiary, Western Mustang Holdings, LLC. The aggregate purchase price was \$1,245,640, which consisted of \$300,000 in cash, \$90,092 in transaction costs and 54,563 shares of common stock issued at a per price share of \$15.68. Mustang Capital Advisors LP currently manages approximately \$46 million in assets through its funds and managed accounts. The acquisition is accounted for as a purchase under GAAP (generally accepted accounting principles) and as a result, Mustang Capital Advisors LP is consolidated into the Company's financial statements. As a result of the acquisition, the Company expects to diversify its holdings in marketable securities and increase the cash flow stream into the Company.

On August 11, 2008, the Company opened up a new Company-operated restaurant in Tupelo, Mississippi under the newly developed concept, Western Sizzlin Express. Western Sizzlin Express is a smaller, full service restaurant with a high quality, simpler menu created to turn tables faster in an efficient and pleasing environment. The Company is marketing this concept as a lower cost investment to prospective franchisees.

The Company opened two new Wood Grill Buffet franchised locations in California on October 22, 2008 and November 6, 2008. The Company is pleased by the performance and prospects of the Wood Grill Buffet concept.

Results of Operations

Net income (loss) for the three and nine months ended September 30, 2008 was \$2,939,713 and (\$2,867,302) compared to net income of \$2,472,115 and \$2,854,235 for the three and nine months ended September 30, 2007.

Edgar Filing: WESTERN SIZZLIN CORP - Form 10-Q

The following table sets forth for the periods presented the percentage relationship to total revenues of certain items included in the consolidated statements of income and certain restaurant data for the periods presented:

	Three Months Ended September 30,		Nine Months Ended September 30,

Revenues

Total revenues decreased 1.9% to \$4.44 million for the three months ended September 30, 2008 from \$4.52 million for the comparable three months ended September 30, 2007. Total revenues decreased 1.3% to \$13.17 million for the nine months ended September 30, 2008 from \$13.34 million for the comparable nine months ended September 30, 2007. Company-operated restaurant revenues decreased 0.3% to \$3.43 million for the three months ended September 30, 2008 as compared to \$3.44 million for the comparable three months ended September 30, 2007. Company-operated restaurant revenues increased .02% to \$10.05 million for the nine months ended September 30, 2008 as compared to \$10.03 million for the comparable nine months ended September 30, 2007. The Company opened up an additional Company-operated

Edgar Filing: WESTERN SIZZLIN CORP - Form 10-Q

restaurant in August 2008, with sales of \$80,000 through September 30, 2008. Same store sales for Company-operated restaurants and the Company's single joint venture restaurant experienced a decrease of 1.96% for the three months ended September 30, 2008 and a decrease of 0.48% for the nine months ended September 30, 2008. Franchise revenues decreased 7.2% to \$1.00 million for the three months ended September 30, 2008 as compared to \$1.08 million for the comparable three months ended

Table of Contents

September 30, 2007. Franchise revenues decreased 5.6% to \$3.12 million for the nine months ended September 30, 2008 as compared to \$3.31 million for the comparable nine months ended September 30, 2007. The overall decrease in franchise revenues is partially attributable to fewer franchised units in the system at September 30, 2008 as compared to September 30, 2007. Same store sales at franchise operations for the three and nine months ended September 30, 2008, experienced overall decreases of 4.97% and 2.71%, respectively.

Costs and Expenses Company-operated restaurants and franchise operations

Costs of Company-operated restaurants, consisting primarily of food, beverage, and labor costs increased \$119,000 (4.8%) to \$2.61 million for the three months ended September 30, 2008 from \$2.49 million for the three months ended September 30, 2007. These costs for the three month period as a percentage of Company-operated restaurants revenue were 75.9% and 72.3% for the three months ended September 30, 2008 and 2007, respectively. Costs of Company-operated restaurants increased \$180,000 (2.5%) to \$7.41 million for the nine months ended September 30, 2008 from \$7.23 million for the nine months ended September 30, 2007. These costs for the nine month period as a percentage of Company-operated restaurants revenue were 73.7% and 72.1% for the nine months ended September 30, 2008 and 2007, respectively. These costs have increased due to the rising costs of commodities and the addition of a Company-operated restaurant in Tupelo, Mississippi in August 2008.

Restaurant occupancy and other, which include utilities, insurance, maintenance, rent and other such costs of the Company-operated restaurants, increased by \$32,000 (5.4 %) for the three months ended September 30, 2008 versus the prior year's comparable period. These costs for the three month period increased as a percentage of Company-operated restaurant revenues from 17.3% in 2007 to 18.3% in 2008. Restaurant occupancy and other decreased by \$13,000 (0.7%) for the nine months ended September 30, 2008 versus the prior year's comparable period. These costs for the nine month period decreased as a percentage of Company-operated restaurant revenues from 17.7% in 2007 to 17.5% in 2008.

Cost of franchise operations direct support expense decreased by \$17,500 and \$10,000 for the three and nine months ended September 30, 2008 versus the prior year's comparable periods. The decreases for the three and nine months ended September 30, 2008 are primarily attributable to the Company's on-going cost control efforts.

Subleased properties include net costs associated with subleasing former Company-operated restaurants and maintenance of vacant premises. These expenses increased by \$335,000 and \$355,000 for the three and nine months ended September 30, 2008 versus the prior year's comparable periods. The increases were largely attributable to repairs and maintenance to subleased properties undertaken by the Company in anticipation of surrendering possession to the landlord in October and November of 2008. Inflationary increases in costs associated with vacant properties also contributed to the increases in subleased properties expense. Current subleasing arrangements, and the related master lease, are scheduled to expire by the end of 2008.

Unallocated corporate expenses consist of certain expenses not allocated to any business segment. These expenses include legal, accounting, stockholder relations, personnel not directly related to a segment, information systems, and other headquarter's activities. These expenses increased by \$290,000 and \$238,000 for the three and nine month periods ended September 30, 2008 versus the prior year's comparable periods. The increases are a result of accruing \$250,000 payable under the Company's severance agreement with its former President in July 2008 and hiring of a new President in June 2008 for the subsidiary operations of Western Sizzlin Franchise Corporation and The Western Sizzlin Stores, Inc.

Depreciation and amortization expense for 2008 were comparable to 2007.

Corporate litigation fees are comparable for the three months ended September 30, 2008 versus the prior year's comparable period and increased \$84,000 for the nine months ended September 30, 2008 versus the prior year's comparable period. The nine months ended September 30, 2008 increase is due to increased legal fees associated with the trial and appeal of the Company's lawsuit in Little Rock, Arkansas. (See Note 12 to the Consolidated Financial Statements).

Equity in income of Joint Venture

Equity in income of joint venture decreased \$9,000 and increased \$32,000 for the three and nine months ended September 30, 2008, respectively, versus the prior year's comparable periods, due to better operating performance of the restaurant overall during 2008. (See Note 13 to the Consolidated Financial Statements)

Table of Contents

Income (Loss) from Investment Activities

Investment advisory fee income of \$124,024 resulted from the acquisition of Mustang Capital Advisors, LP as of July 9, 2008. Investment activities include net realized gains (losses) on sales of marketable securities of \$24,000 and (\$16,000) for the three and nine months ended September 30, 2008, respectively, compared to \$3.56 million for the three and nine months ended September 30, 2007. The realized gain on sale of marketable securities of \$3.56 million in 2007, was largely from the sale of the investment in Friendly Ice Cream Corporation. Net unrealized gains (losses) on marketable securities held by the limited partnerships, Western Acquisitions, LP and Mustang Capital Advisors, LP, were \$3.3 million and (\$3.2) million for the three and nine months ended September 30, 2008, respectively. Expenses associated with investment activities were \$507,000 and \$70,000 for the three months ended September 30, 2008 and 2007, respectively, and \$1.1 million and \$206,000 for the nine months ended September 30, 2008 and 2007, respectively. However, during the quarter ended September 30, 2008, The Steak n Shake Company reimbursed the Company \$332,750 for certain expenses associated with the proxy contest conducted by the Company during the fourth quarter of 2007 and first quarter of 2008. The increase in expenses for 2008 versus the prior year's comparable periods are attributable to expenses associated with the Steak n Shake proxy contest, the ITEX tender offer, proposed exchange offer for shares of Jack in the Box, Inc., and other investment-related activities. There were no management fees charged or collected by Western Acquisitions, LP from outside investors in 2008 or 2007. Future management fees will depend on portfolio performance.

On June 19, 2008, the Board of Directors of The Steak n Shake Company appointed Sardar Biglari as Executive Chairman of the Board, effectively immediately. On August 5, 2008, Mr. Biglari was appointed Chief Executive Officer of The Steak n Shake Company. Management believes that the recently announced restructuring efforts underway at Steak n Shake are positive steps toward rebuilding value for all of its stockholders.

Other Income (Expense)

Interest expense decreased \$16,000 and \$2,000 for the three and nine months ended September 30, 2008 over the comparable periods in 2007. Interest income fluctuates according to the levels of available cash balances.

Other income for 2008 was comparable to 2007.

Income Tax Expense

Income tax expense is directly affected by the levels of pretax income and the valuation allowance established on deferred tax assets. The Company's effective tax rate was (2.4)% and 36.5% for the three months ended September 30, 2008 and 2007, respectively and (4.6)% and 36.9% for the nine months ended September 30, 2008 and 2007, respectively. The provisions for deferred income taxes for the three and nine month periods ended September 30, 2008 includes provisions for the valuation allowance on its deferred tax assets of \$(1,116,000) and \$1,140,000, respectively, which impacted the Company's effective tax rate for the periods. The changes in the valuation allowance for deferred tax assets were primarily related to the changes in unrealized losses on investment securities, which management has concluded are more likely than not to not be realized as deductions or capital losses on the Company's tax returns.

Cash and Cash Equivalents

As of September 30, 2008, the Company had \$745,000 of cash and cash equivalents which is comparable to \$727,000 as of December 31, 2007.

Investment of Available Capital

The Company's cash flows from restaurant and franchise activities have exceeded the working capital, financing and capital investment needs of its restaurant and franchise operations, and management expects that the Company's cash flows will continue to exceed its operating cash needs for the foreseeable future. The Company regularly evaluates how best to use available capital to increase stockholder value. The Company may pursue investments in the form of acquisitions, joint ventures and partnerships where the Company believes attractive returns can be obtained. Further, the Company may determine under certain market conditions that available capital is best utilized to fund investments that it believes offers the Company attractive return opportunities, whether or not related to its ongoing business activities.

Table of Contents

The Company's Board of Directors has delegated authority to direct investment of the Company's surplus cash to its Chairman, Sardar Biglari, subject to Board reporting requirements and various limitations that have been or may be from time to time adopted by the Board of Directors. These investments may include significant and highly concentrated direct investments with respect to the equity securities of public companies. Any such investments will involve risks, and stockholders should recognize that the Company's balance sheet may change depending on the performance of investments. Furthermore, such investments could be subject to volatility that may affect both the recorded value of the investments as well as the Company's periodic earnings.

Operating Activities and Cash Flows

The Company used approximately \$983,000 and \$3.2 million in operating cash flows for the nine months ended September 30, 2008 and 2007, respectively, including the purchase of marketable securities of \$6.7 million and \$14.1 million in the nine months ended September 30, 2008 and 2007, respectively. Net unrealized losses on marketable securities were \$3.2 million and \$0 for the nine months ended September 30, 2008 and 2007, respectively. The Company's primary source of operating cash flows is the operating profits generated from Company's restaurant and franchise operations. Adjustments to reconcile net income (loss) to net cash provided by restaurant and franchise activities were approximately \$1.2 million and \$2.7 million for the nine months ended September 30, 2008 and 2007, respectively. Adjustments to reconcile net income (loss) to net cash used in investment activities were approximately \$729,000 and (\$8.7 million) for the nine months ended September 30, 2008 and 2007, respectively.

Investing Activities

The Company's investing activities on its statements of cash flows are related to improvements to its operating properties as well as distributions from unconsolidated joint venture and purchase of Mustang Capital Advisors during 2008. Prior to 2007, the Company considered purchases and sales of marketable securities to be investing activities; however, during the fourth quarter of 2007 with the expanded investment activities of the Company, and more specifically the organization of Western Acquisitions, LP and the investment of minority limited partner interests, the Company began to consider such activities to be operating activities of the Company. This presentation is consistent with the guidance in the AICPA's Audit and Accounting Guide, Investment Companies.

During the nine months ended September 30, 2008 and 2007, the Company spent \$23,000 and \$33,000 on capital expenditures on Company restaurants.

On July 9, 2008, in connection with its acquisition of controlling interests in Mustang Capital Advisors, LP and Mustang Capital Management, LLC, the Company paid \$390,000 in purchase price and related transaction costs and acquired \$10,000 in cash.

Financing Activities

The Company made scheduled payments on long-term debt of \$93,000 and \$121,000 for the nine months ended September 30, 2008 and 2007, respectively. Also during 2008 and 2007, respectively, \$165,000 and \$85,000 were received from the exercise of stock options, proceeds of \$2.6

Edgar Filing: WESTERN SIZZLIN CORP - Form 10-Q

million in 2008 were received from the issuance of a note payable, capital contributions of \$540,000 and \$1.5 million in 2008 and 2007, respectively, were received from minority interests in the limited partnership, and payment of \$2 million in 2008 was made on the line of credit.

Certain notes payable require pre-payment premiums in certain circumstances. In addition, certain notes payable contain certain restrictive covenants including debt coverage ratios, periodic reporting requirements and maintenance of operations at certain Company-operated restaurants that collateralize the notes payable. At September 30, 2008, the Company was in compliance with all covenants on the notes payable.

Liquidity

The Company's primary sources of liquidity are cash generated from operations and, if needed, borrowings under its existing line of credit. The Company continually reviews available financing alternatives. In addition, the Company may consider, on an opportunistic basis, strategic decisions to create value and improve operational performance.

Table of Contents

CONTRACTUAL OBLIGATIONS

Edgar Filing: WESTERN SIZZLIN CORP - Form 10-Q

The table below sets forth a summary of contractual obligations that will impact future liquidity as of September 30, 2008:

Contractual Obligations	Payment due by period							Totals
	2008	2009	2010	2011	2012	Thereafter		
Long-term debt	\$ 25,776	\$ 109,803	\$ 121,385	\$ 134,189	\$ 148,342	\$ 52,606	\$ 592,101	
Promissory note land held for investment		264,122	2,377,098				2,641,220	
Operating leases, net (1)	165,647	634,425	623,880	367,611	399,171	1,171,994	3,362,728	
Interest expense (2)	14,688	97,041	40,459	27,655	13,501	1,101	209,771	
Tax obligations (3)	16,829						16,829	
Other long-term liabilities (4)						486,406	486,406	
Totals	\$ 448,264	\$ 1,105,391	\$ 3,162,822	\$ 519,455	\$ 561,014	\$ 1,712,107	\$ 7,509,053	

- (1) Operating lease commitments are presented net of sublease rentals. Gross operating lease commitments for the periods above aggregate to approximately \$3.4 million.
- (2) Reflects future interest payments through scheduled maturity dates based upon average borrowing rates, outstanding debt balances and scheduled principal payments on long-term debt. Interest on the Company's variable rate debt is based on the interest rate in effect at September 30, 2008.
- (3) Reflect recognized liabilities for uncertain tax positions under the provision FIN 48. (See Note 8 to the consolidated financial statements).
- (4) Reflects the cash portion of the Company's obligation to purchase the ownership percentage of the minority interest holder of Mustang Capital Advisors, LP (see Note 2 to the consolidated financial statements). The timing of the settlement of the obligation is not determinable as of September 30, 2008.

CRITICAL ACCOUNTING POLICIES

The discussion and analysis of financial condition and results of operations is based on the consolidated financial statements and accompanying notes that have been prepared in accordance with United States generally accepted accounting principles. The preparation of these consolidated financial statements requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and the disclosure of contingent assets and liabilities at the date of the consolidated financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Application of the critical accounting policies discussed below requires significant judgments by management, often as a result of the need to make estimates of matters that are inherently uncertain. If actual results were to differ materially from the estimates made, the reported results could be materially affected. The Company is not currently aware of any reasonably likely events or circumstance that would result in materially different results. Senior management has reviewed the critical accounting policies and estimates and the Management's Discussion and Analysis regarding them with the Audit Committee of the Board of Directors.

For additional information regarding the impact of recently issued accounting standards, see Note 13 of Notes to the Consolidated Financial Statements in Part I, Item 1 of this Form 10-Q.

Edgar Filing: WESTERN SIZZLIN CORP - Form 10-Q

Trade Accounts and Notes Receivable and the Allowance for Doubtful Accounts

The Company collects royalties, and in some cases rent, from franchisees. The Company views trade accounts and notes receivable and the related allowance for doubtful accounts as a critical accounting estimate since the allowance for doubtful accounts is based on judgments and estimates concerning the likelihood that individual franchisees will pay the amounts included as receivables from them. In determining the amount of allowance for doubtful accounts to be recorded for individual franchisees, the Company considers the age of the receivable, the financial stability of the franchisee, discussions that may have occurred with the franchisee and a judgment as to the

Table of Contents

overall collectability of the receivable from the franchisee. In addition, the Company establishes an allowance for all other receivables for which no specific allowances are deemed necessary. If average sales or the financial health of franchisees were to deteriorate, the Company might have to increase the allowance for doubtful accounts.

Investments

Marketable equity securities held by Western Sizzlin Corporation are held for an indefinite period and thus are classified as available-for-sale. Available-for-sale securities are recorded at fair value in Investments in Marketable Securities on the consolidated balance sheet, with the change in fair value during the period excluded from earnings and recorded net of tax as a component of other comprehensive income (loss). Fair value is determined through the use of quoted market values on national exchanges. Management has also evaluated unrealized losses on marketable equity securities held by Western Sizzlin Corporation (the holding company) to determine if such impairment is other than temporary, and has concluded that they are temporary as of September 30, 2008 and that the Company has the ability and the intent to hold such securities until they recover their value. In the event management concludes in future periods that such losses are other than temporary, a charge will be taken in the statement of operations to reduce the cost of the securities to their fair value.

Western Acquisitions, LP and Mustang Capital Advisors, LP are, for GAAP purposes, investment companies under the AICPA Audit and Accounting Guide *Investment Companies*. The Company has retained the specialized accounting for Western Acquisitions, LP and Mustang Capital Advisors, LP pursuant to EITF Issue No. 85-12, *Retention of Specialized Accounting for Investments in Consolidation*. As such, marketable equity securities held by Western Acquisitions, LP and Mustang Capital Advisors, LP are recorded at fair value in Investments in Marketable Securities, with unrealized gains and losses resulting from the change in fair value reflected in the Statement of Operations. Fair value is primarily determined through the use of quoted market values on national exchanges. (See Note 11 to the consolidated financial statements for related disclosures)

Long-lived Assets, Franchise Royalty Contracts and Goodwill

The Company views the determination of the carrying value of long-lived assets, franchise royalty contracts and goodwill as critical accounting estimates since it must evaluate the estimated economic useful life in order to properly depreciate or amortize its long-lived assets and franchise royalty contracts and because it must consider if the value of any of our long-lived assets have been impaired, requiring adjustments to the carrying value. Goodwill is not subject to amortization but is subject to at least an annual impairment test to determine if the carrying amount exceeds its fair value.

Economic useful life is the duration of time the asset is expected to be productively employed, which may be less than its physical life. The estimated economic useful life of an asset is monitored to determine if it continues to be appropriate in light of changes in business circumstances.

The Company must also consider whether long-lived assets (including property and equipment and intangible assets) have been impaired to the extent that it must recognize a loss on such impairment, including goodwill impairment. The Company evaluates long-lived assets for impairment at the restaurant and franchise levels on an annual basis or whenever changes or events indicate that the carrying value may not be recoverable. The Company assesses impairment of each level of assets based on the operating cash flows of the restaurant and franchise

Edgar Filing: WESTERN SIZZLIN CORP - Form 10-Q

operations and the plans for each restaurant unit or franchisee contract. Generally, all units with negative cash flows from operations for the most recent twelve months at each quarter end are included in our assessment. In performing the assessment, the Company must make assumptions regarding estimated future cash flows, including estimated proceeds from similar asset sales, and other factors to determine both the recoverability and the estimated fair value of the respective assets. If the long-lived assets of a restaurant are not recoverable based upon estimated future, undiscounted cash flows, the Company writes the assets down to their fair value. If these estimates or their related assumptions change in the future, the Company may be required to record additional impairment charges. There were no impairment changes for the periods ended September 30, 2008 and 2007, respectively.

The Company evaluates goodwill for impairment on an annual basis during the fourth quarter of each year, or more frequently if an event occurs that triggers an interim impairment test. The Company determines the fair values of its reporting units using the discounted cash flow method. This method uses projections of cash flows from each of the reporting units. Several of the key assumptions in estimating future cash flows include periods of operations, projections of operating profits, and weighted average cost of capital. These assumptions are derived from internal budgets and consideration of available market data. The factors which contribute the greatest variability in the Company's estimates of fair values are the weighted average cost of capital and estimates of future operating profits.

Table of Contents

The Company currently has goodwill of \$770,000 related to the franchising reporting unit and \$3.5 million allocated to the restaurant reporting unit, and \$2.1 million allocated to investment activities.

Purchase Obligation

As stated in Note 2 of the Notes to the Consolidated Financial Statements in Part I, Item 1 of this Form 10-Q, the Company, in connection with its acquisition of a controlling interest in Mustang Capital Advisors, LP and Mustang Capital Management, LLC, is obligated to purchase the minority interest holders ownership percentage upon the occurrence of certain events. The purchase obligation will ultimately be settled in cash and shares of the Company's common stock. The Company is accounting for this purchase obligation pursuant to Statement of Financial Accounting Standards No. 150 (As Amended) - *Accounting for Certain Financial Instruments with Characteristics of Both Liabilities and Equity*.

Commitments and Contingencies

The Company views accounting for contingencies as a critical accounting estimate since loss contingencies arising from claims, assessments, litigation, fines and penalties and other sources require judgment as to any probable liabilities incurred. Actual results could differ from the expected results determined based on such estimates.

Income Taxes

The Company records valuation allowances against its deferred tax assets, when necessary, in accordance with SFAS No. 109, *Accounting for Income Taxes*. Realization of deferred tax assets is dependent on future taxable earnings and is therefore uncertain. The Company assesses the likelihood that its deferred tax assets in each of the jurisdictions in which the Company operates will be recovered from future taxable income. Deferred tax assets do not include future tax benefits that the Company deems likely not to be realized.

In July 2006, the FASB issued FASB Interpretation Number 48, *Accounting for Uncertainty in Income Taxes, an Interpretation of FASB Statement No. 109*, (FIN 48). FIN 48 prescribes a recognition threshold and measurement attributes for the financial statement recognition and measurement of a tax position taken in a tax return. The Company must determine whether it is more-likely-than-not that a tax position will be sustained upon examination, including resolution of any related appeals or litigation processes, based on the technical merits of the position. Once it is determined that a position meets the more-likely-than-not recognition threshold, the position is measured to determine the amount of benefit to recognize in the financial statements. FIN 48 applies to all tax positions related to income taxes subject to FASB Statement No. 109, *Accounting for Income Taxes*.

For additional information regarding the adoption of FIN 48, see Note 8 of Notes to Consolidated Financial Statements in Part I, Item 1 of this Form 10-Q.

OTHER

Impact of Inflation

The impact of inflation on the costs of food and beverage products, labor and real estate can affect the Company's operations. Management believes the Company has historically been able to pass on increased costs through certain selected menu price increases and has offset increased costs by increased productivity and purchasing efficiencies, but there can be no assurance that the Company will be able to do so in the future. Management anticipates that the average cost of restaurant real estate leases and construction cost could increase in the future which could affect the Company's ability to expand. In addition, mandated health care or additional increases in the federal or state minimum wages could significantly increase the Company's costs of doing business.

Item 3. Quantitative and Qualitative Disclosure about Market Risk

As of September 30, 2008, the Company's financial instruments are not exposed to significant market risk due to foreign currency exchange risk. However, the Company is exposed to market risk related to changes in market prices of marketable securities, interest rates related to certain debt obligations, and commodity risks.

Table of Contents

Market Price Risk

The Company's marketable securities are currently concentrated in a few investments. A change in market prices exposes the Company to market risk related to the investments in marketable securities. As of September 30, 2008, the Company held \$21 million in marketable securities. A hypothetical 10% decline in the market value of those securities would result in a \$2.1 million unrealized losses and a corresponding decline in their fair values at September 30, 2008. This hypothetical decline would not affect the Company's cash flows unless the securities were disposed of.

Interest Rate Risk

The Company has exposure to interest rate risk related to certain instruments entered into for other than trading purposes. Specifically, borrowings under the loan associated with the Texas land purchase and revolving credit facility bear interest at variable rates based on the prime rate minus .5%. The nature and amount of borrowings under the credit facility may vary as a result of future business requirements, market conditions and other factors.

Commodity Price Risk

The Company purchases certain food products such as beef, poultry, pork, eggs and coffee, and utilities such as gas and electricity, which are affected by commodity pricing and are, therefore, subject to price volatility caused by weather, production problems, delivery difficulties and other factors that are outside of the Company's control and which are generally unpredictable. Changes in commodity prices affect the Company and competitors generally and often simultaneously. In general, the Company purchases food products and utilities based upon market prices established with vendors. Although many of the items purchased are subject to changes in commodity prices, the majority of our purchasing arrangements are structured to contain features that minimize price volatility by establishing fixed pricing and/or price ceilings and floors. The Company uses these types of purchase arrangements to control costs as an alternative to using financial instruments to hedge commodity prices. The Company has determined that our purchasing agreements do not qualify as derivative financial instruments or contain embedded derivative instruments. In many cases, the Company believes it will be able to address commodity cost increases which are significant and appear to be long-term in nature by adjusting our menu pricing or changing our product delivery strategy. However, competitive circumstances could limit such actions and, in those circumstances, increases in commodity prices could lower its margins. Because of the often short-term nature of commodity pricing aberrations and our ability to change menu pricing or product delivery strategies in response to commodity price increases, the Company believes that the impact of commodity price risk is not significant.

The Company has established a policy to identify, control and manage market risks which may arise from changes in interest rates, commodity prices and other relevant rates and prices.

The table below provides information about debt obligations that are sensitive to changes in interest rates. The table presents principal cash flows and related weighted average interest rates by expected maturity dates. Debt obligations held for other than trading purposes at September 30, 2008 (dollars in thousands):

Edgar Filing: WESTERN SIZZLIN CORP - Form 10-Q

EXPECTED MATURITY DATE

	2008	2009	2010	2011	2012	Thereafter	Total	Estimated Fair Value
Long-term debt:								
Fixed Rate	\$ 26	\$ 110	\$ 121	\$ 134	\$ 148	53	\$ 592	\$ 673
Average Interest Rate	10.07%	10.07%	10.07%	10.07%	10.07%	10.07%	10.07%	
Variable Rate Prime minus .5%	0	264	2,377	0	0	0	2,641	\$ 2,641

Interest on the Company's variable rate debt is based on the interest rate in effect at September 30, 2008.

Item 4T. Controls and Procedures

The Company's senior management, including the Chief Executive Officer and Chief Financial Officer, evaluated the effectiveness of the disclosure controls and procedures (as defined in Rules 13a-15(e) and 15d-15(e) under the

Table of Contents

Securities Exchange Act of 1934, as amended) as of September 30, 2008. Based on its evaluation as of December 31, 2007, the Company concluded that the disclosure controls and procedures were ineffective in providing reasonable assurance that the information required to be disclosed in the Annual Report on Form 10-K was summarized and reported within the time periods specified in the Securities and Exchange Commission's rules and Form 10-K due to the material weaknesses discussed below. These weaknesses have been remediated as of September 30, 2008 and the effectiveness of the disclosure controls and procedures is considered effective.

A material weakness is a control deficiency (as defined by the PCAOB), or a combination of control deficiencies, that results in there being more than a remote likelihood that a material misstatement of the annual or interim financial statements will not be prevented or detected. The following is a description of the material weakness that the Company noted as of December 31, 2007 and March 31, 2008, as well as a discussion of the related remediation efforts:

The Company's independent registered public accounting firm recommended to management to change the presentation and reporting of marketable securities held by a limited partnership. Using the guidance in AICPA Audit and Accounting Guide, Investment Companies, and pursuant to EITF 85-12, Retention of Specialized Accounting for Investments in Consolidation, the Company concluded that it should retain this same accounting when preparing its consolidated financial statements. Adjustments were made in the process of preparing the 2007 consolidated financial statements to present this subsidiary's financial statements in accordance with the provisions of EITF 85-12. Solely as a result of this material weakness in internal controls the Company identified in accounting for the consolidation of the investment partnership, the Company concluded that it did not maintain effective internal control over financial reporting as of December 31, 2007 or at March 31, 2008 based on criteria established in *Internal Control - Integrated Framework* issued by COSO.

Subsequent to December 31, 2007, the Company implemented several important changes in its internal controls, including additional procedures over the identification of accounting issues, consultation with outside accountants, and review and evaluation of the accounting for significant transactions. As a result of the changes, management has concluded the control deficiencies have been remediated and that controls are effective as of September 30, 2008.

The Company acquired Mustang Capital Advisors, LP on July 9, 2008. As permitted by guidance issued by the staff of the U.S. Securities and Exchange Commission, Mustang Capital Advisors, LP has been excluded from the scope of the Company's quarterly discussion of material changes in internal control over financial reporting below. The Company has performed additional procedures to review accounting records and substantiate the financial information of Mustang Capital Advisors, LP included in this report. Mustang Capital Advisors, LP was included in the Company's results of operations subsequent to its acquisition on July 9, 2008.

There were no other changes in the Company's internal controls or in other factors that could materially affect internal controls over financial reporting during the quarter ended September 30, 2008.

PART II. OTHER INFORMATION

Item 1. Legal Proceedings

Edgar Filing: WESTERN SIZZLIN CORP - Form 10-Q

In addition to those proceedings discussed in Note 12 in the Company's Consolidated Financial Statements, the Company is involved in various other claims and legal actions which are routine litigation matters incidental to the business. In the opinion of the management, the ultimate disposition of these other matters will not have a material adverse effect on the Company's financial condition, results of operations or liquidity.

Item 1A. Risk Factors

An investment in the common stock of any company involves a degree of risk. Investors should consider carefully the risks and uncertainties described in the section entitled "Item 1A. Risk Factors" in the Company's Annual Report on Form 10-K, as amended, filed with the SEC, and those other risks described elsewhere in this report, before deciding whether to purchase our common stock. Additional risks and uncertainties not currently known to us or that we currently deem immaterial may also become important factors that may harm the Company's business, financial condition, and results of operations. The occurrence of risk factors could harm the Company's business, financial condition, and results of operations for company operations, as well as franchised operations. The trading price of the Company's common stock could decline due to any of these risks and uncertainties, and stockholders may lose part or all of their investment.

The risks described below update the section entitled "Item 1A. Risk Factors" in the Company's Annual Report on Form 10-K, as amended, for the year ended December 31, 2007.

Table of Contents**Current levels of market volatility are unprecedented.**

There has been substantial uncertainty and disruption in the capital and credit markets over the past twelve months, and in recent weeks the uncertainty and disruption have reached unprecedented levels. This uncertainty could cause fluctuation in the Company's stock price and could negatively impact the Company's access to financing if needed. Additionally, these conditions could have an adverse effect on the Company's business, including the future operating results of the Company's restaurants and the value of the Company's investments.

The Company is vulnerable to changes in economic conditions and consumer spending patterns that could harm its business, financial condition, results of operations and cash flow.

The restaurant industry is sensitive to changes in general economic conditions, both nationally and locally. Recessionary economic cycles, higher interest rates, higher fuel and other energy costs, inflation, increases in commodity prices, higher levels of unemployment, higher consumer debt levels, higher tax rates and other economic factors could adversely affect the demand for the Company's products. In addition, the recent turmoil in the financial markets may have an adverse effect on the U.S. and world economies, which could negatively impact consumer spending patterns. There can be no assurances that government responses to the disruptions in the financial markets will restore consumer confidence. Furthermore, the Company could experience reduced customer traffic or limitations on the prices it can charge for its products, either of which could reduce the Company's sales and profit margins and have a material adverse effect on the Company's financial condition and results of operations. Also, economic factors such as those listed above and increased transportation costs, inflation, higher costs of labor, insurance and healthcare and changes in other laws and regulations may increase the Company's costs of sales and otherwise adversely affect the financial condition and results of operations of the Company.

Item 4. Submission of Matters to a Vote of Security Holders

At the Annual Meeting of the Stockholders held July 9, 2008, the following persons were elected to the Board of Directors for a one-year term, until the 2009 Annual Meeting of Stockholders, or until their successors are elected and qualified:

Nominees	Shares voted for	Shares withheld
Sardar Biglari	2,398,382	33,250
Philip L. Cooley	2,403,428	28,474
Titus W. Greene	2,403,428	28,474
Kenneth R. Cooper	2,398,481	33,421
Jonathan Dash	2,403,428	28,474
Martin S. Fridson	2,398,481	33,421
