Cash and short-term investments increased by US\$9.6 million to US\$59.8 million in fiscal 2014, despite US\$7.9 million in additions to capital assets, including the asset acquisitions of ByteSphere and Aito Technologies.

“After a challenging first quarter, EXFO delivered bookings growth of 6% to 10% year-over-year in each of the last three quarters to close fiscal 2014 with a bookings increase of 3% and a book-to-bill ratio of 1.04 compared to 0.96 in a more difficult 2013,” said Germain Lamonde, EXFO’s Chairman, President and CEO. “This bookings trend demonstrates we have passed an inflection point on the strength of several new products and solutions that are starting to have a consistent market impact. EXFO has significantly transformed itself in 2014 by bringing to market end-to-end solutions related to key challenges faced by fixed and mobile network operators such as increasing network capacity, assuring quality of experience, enhancing productivity, or introducing new strategic technologies like VoLTE, NFV and SDN.”

“Given our continued flow of innovative solutions, recent contract wins with tier-1 wireless operators and two strategic technology acquisitions, I am confident our bookings momentum will persist and allow EXFO to deliver revenue and earnings growth,” Mr. Lamonde added. “Based on cost savings of US\$6 million in 2014, we are also entering 2015 with strong earnings leverage as reflected in the second half of 2014 in which we increased sales and bookings 3.2% and 6.9% year-over-year while generating adjusted EBITDA of US\$13.1 million, or 10.6% of sales. With impending sales growth and continued cost controls, our 15% adjusted EBITDA margin target is clearly achievable in a not-too-distant future.”
