### Industrias Bachoco Announces Third Quarter 2009 Results

Celaya, Gto., Mexico, - October 26, 2009 - Industrias Bachoco S.A.B. de C.V. (“Bachoco” or “the Company”) (NYSE: IBA; BMV: Bachoco), Mexico’s leading producer and processor of poultry products, announced today its unaudited results for the third quarter and first nine months ended September 30, 2009. All figures have been prepared in accordance with Mexican GAAP. In line with the Mexican Accounting Principles, data is presented in nominal Mexican pesos.

#### Highlights:

- During the quarter total sales increased 19.3% over the 3Q08.
- The Company achieved a positive EBITDA margin of 3.6% compared with a negative result of 2.0% in the same year-ago quarter.
- Prices increased across the board for all of Bachoco’s main business lines.
- Earnings per ADS for the first nine months reached \$1.36 USD compared to \$0.48 USD for the same period of 2008. The result per ADS for 3Q09 even when negative at \$0.08 USD was better than the same year-ago period.

#### CEO’s Comments:

Cristóbal Mondragón, Bachoco’s CEO, stated, “During the third quarter, the Mexican economy continued to slow down, affecting the purchasing power of Mexican consumers, and, consequently, we saw a weaker demand for our products when compared with the second quarter.

“In particular, the Mexican poultry industry was affected by higher raw materials costs, mainly those of soybean meal, following the trends in the commodity market. The slowdown in the economy did not allow us to fully transfer the costs increases to our products’ prices. In addition, it is worth noting that traditionally this quarter is the weakest of the year.

“Despite this condition, we managed to increase our total sales and were able to reach positive operating results. We continued implementing our growth plans through the integration of several business agreements reached during the quarter, with which we expect to strength our leadership position in the Mexican poultry industry.

“Finally, our financial position remained strong, we generated a good level cash and our indebtedness level remained low,” concluded Mr. Mondragón.

## THIRD QUARTER 2009 RESULTS

## Net Sales

Net sales for the third quarter amounted to Ps. 5,613.6 million, 19.3% above the Ps. 4,704.5 million reported in 3Q08. This increase was mainly driven by a 24.7% increase in chicken sales, 1.7% increase in table eggs sales, and 7.3% increase in swine sales, but was partially offset by a 2.7% decrease in balance feed sales.

## RESULTS BY BUSINESS SEGMENT

## Chicken

Sales of chicken products increased 24.7% as chicken prices rose 14.3% and the volume grew 9.1%. Even when the result was positive, this business line was sharply affected by the pressure of chicken prices, decreasing significantly from 2Q09, mainly due to a weaker demand in the industry.

**Table Eggs**

Demand for table egg products was strong; sales of table eggs increased by 1.7% during the third quarter as egg prices rose 2.5% from the previous year. The result was partially offset by a slight volume decrease of 0.8% directly attributed to an adjustment in the Company's production.

**Balanced Feed**

**Swine**

The swine business line was stable during the third quarter, swine sales rose 7.3% as a result of a 2.0% increase in swine prices and a 5.2% increase in swine volumes when compared to the same period of 2008.
