

Golub Capital BDC, Inc.
Form 10-Q
May 05, 2011

UNITED STATES

SECURITIES AND EXCHANGE COMMISSION
Washington, D.C. 20549

FORM 10-Q

☒ QUARTERLY REPORT PURSUANT TO SECTION 13 OR 15(d) OF
THE SECURITIES EXCHANGE ACT OF 1934

For the Quarterly Period Ended March 31, 2011

OR

☐ TRANSITION REPORT PURSUANT TO SECTION 13 OR 15(d) OF
THE SECURITIES EXCHANGE ACT OF 1934

For the transition period from _____ to _____

Commission File Number 333-163279

Golub Capital BDC, Inc.
(Exact name of registrant as specified in its charter)

Delaware
(State or other jurisdiction of incorporation or
organization)

27-2326940
(I.R.S. Employer Identification No.)

150 South Wacker Drive, Suite 800
Chicago, IL 60606
(Address of principal executive offices)

(312) 205-5050
(Registrant's telephone number, including area code)

(Former name, former address and former fiscal year, if changed since last report)

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days. Yes ☒ No ☐

Indicate by check mark whether the registrant has submitted electronically and posted on its corporate Web site, if any, every Interactive Data File required to be submitted and posted pursuant to Rule 405 of Regulation S-T during the preceding 12 months (or for such shorter period that the registrant was required to submit and post such files). Yes ☐ No ☒

Edgar Filing: Golub Capital BDC, Inc. - Form 10-Q

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, or a smaller reporting company. See definitions of “large accelerated filer,” “accelerated filer” and “smaller reporting company” in Rule 12b-2 of the Exchange Act.

Large accelerated filer ☐

Accelerated filer ☒

Non-accelerated filer ☐ (Do not check if a smaller reporting company)

Smaller reporting company ☐

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act).

Yes ☐ No ☒

As of May 5, 2011, the Registrant had 21,709,233 shares of common stock, \$0.001 par value, outstanding.

Part I. Financial Information

Item 1.	Financial Statements	
	Consolidated Statements of Financial Condition as of March 31, 2011 (unaudited) and September 30, 2010	3
	Consolidated Statements of Operations for the three and six months ended March 31, 2011 (unaudited) and 2010 (unaudited)	4
	Consolidated Statements of Changes in Net Assets for the six months ended March 31, 2011 (unaudited) and 2010 (unaudited)	5
	Consolidated Statements of Cash Flows for the six months ended March 31, 2011 (unaudited) and 2010 (unaudited)	6
	Consolidated Schedules of Investments as of March 31, 2011 (unaudited) and September 30, 2010	7
	Notes to Consolidated Financial Statements	16
Item 2.	Management's Discussion and Analysis of Financial Condition and Results of Operations	35
Item 3.	Quantitative And Qualitative Disclosures About Market Risk	51
Item 4.	Controls and Procedures	51

* Denotes that all or a portion of the loan secures the notes offered in the Debt Securitization.

- (1) The majority of the investments bear interest at a rate that may be determined by reference to LIBOR "L" or Prime "P" and which reset daily, quarterly or semiannually. For each we have provided the spread over LIBOR or Prime and the weighted average current interest rate in effect at March 31, 2011. Certain investments are subject to a LIBOR or Prime interest rate floor. For fixed rate loans, a spread above a reference rate is not applicable.
- (2) For portfolio companies with multiple interest rate contracts, the interest rate shown is a weighted average current interest rate in effect at March 31, 2011.
- (3) The negative fair value is the result of the capitalized discount on the loan or the unfunded commitment being valued below par. The negative cost is the result of the capitalized discount being greater than the principal amount outstanding on the loan.
- (4) The entire commitment was unfunded at March 31, 2011. As such, no interest is being earned on this investment.
- (5) Loan was on non-accrual status as of March 31, 2011, meaning that the Company has ceased recognizing interest income on the loan.

(6) A portion of the interest may be deferred through a payment-in-kind ("PIK") rate option.

* Denotes that all or a portion of the loan secures the notes offered in the Debt Securitization.

- (1) The majority of the investments bear interest at a rate that may be determined by reference to LIBOR "L" or Prime "P" and which reset daily, quarterly or semiannually. For each we have provided the spread over LIBOR or Prime and the weighted average current interest rate in effect at September 30, 2010. Certain investments are subject to a LIBOR or Prime interest rate floor. For fixed rate loans, a spread above a reference rate is not applicable.
- (2) For portfolio companies with multiple interest rate contracts, the interest rate shown is a weighted average current interest rate in effect at September 30, 2010.
- (3) The negative fair value is the result of the capitalized discount on the loan or the unfunded commitment being valued below par. The negative cost is the result of the capitalized discount being greater than the principal amount outstanding on the loan.
- (4) The entire commitment was unfunded at September 30, 2010. As such, no interest is being earned on this investment.
- (5) Loan was on non-accrual status as of September 30, 2010, meaning that the Company has ceased recognizing interest income on the loan.
- (6) A portion of the interest may be deferred through a payment-in-kind ("PIK") rate option.

See Notes to Consolidated Financial Statements.

Golub Capital BDC, Inc. and Subsidiaries
Notes to Consolidated Financial Statements
(In thousands, except shares and per share data)

Note 1. Organization

Golub Capital BDC, Inc. (“GBDC” and together with its subsidiaries, the “Company”) is an externally managed, closed-end, non-diversified management investment company. GBDC has elected to be treated as a business development company (“BDC”) under the Investment Company Act of 1940, as amended (the “1940 Act”). In addition, for tax purposes, GBDC intends to elect to be treated as a regulated investment company (“RIC”) under Subchapter M of the Internal Revenue Code of 1986, as amended (the “Code”).

On April 13, 2010, Golub Capital BDC LLC (“GC LLC”) converted from a Delaware limited liability company to a Delaware corporation, leaving GBDC as the surviving entity (the “Conversion”). At the time of the Conversion, all limited liability company interests were exchanged for 8,984,863 shares of common stock in GBDC. GBDC had no assets or operations prior to the Conversion, and as a result, the books and records of GC LLC have become the books and records of the surviving entity.

On April 14, 2010, GBDC priced its initial public offering (the “Offering”), selling 7,100,000 shares of its common stock at a public offering price of \$14.50 per share. Concurrent with the Offering, an additional 1,322,581 shares were sold through a private placement, also at \$14.50 per share. On May 19, 2010, an additional 305,000 shares at \$14.50 were issued upon the exercise of the underwriters’ over-allotment option.

GC LLC was formed in the State of Delaware on November 9, 2009 to continue and expand the business of Golub Capital Master Funding LLC (“GCMF”) which commenced operations on July 7, 2007. All of the outstanding limited liability company interests in GCMF were initially held by three Delaware limited liability companies, Golub Capital Company IV, LLC, Golub Capital Company V LLC, and Golub Capital Company VI LLC (collectively the “Capital Companies”). In November 2009, the Capital Companies formed GC LLC, into which they contributed 100% of the limited liability company interests of GCMF and from which they received a proportionate number of limited liability company interests in GC LLC. In February 2010, GEMS Fund L.P. (“GEMS”), a limited partnership affiliated through common management with the Capital Companies, purchased an interest in GC LLC. As a result of the Conversion, the Capital Companies and GEMS received shares of common stock in GBDC.

Subsequent to the Conversion, GCMF became a wholly owned subsidiary of GBDC. GCMF’s financial results are consolidated with GBDC, and the portfolio investments held by GCMF are included in the Company’s consolidated financial statements. All intercompany balances and transactions have been eliminated. For periods prior to November 19, 2009, the consolidated financial statements only reflect the financial results of GCMF.

On July 16, 2010, the Company completed a \$300,000 term Debt Securitization (defined in Note 6). The notes offered in the Debt Securitization were issued by Golub Capital BDC 2010-1 LLC, a newly formed, indirect subsidiary of the Company (the “Issuer”), and the Class A Notes and Class B Notes are secured by the assets held by the Issuer. The Debt Securitization was executed through a private placement of \$174,000 of Aaa/AAA Class A Notes of the Issuer. In partial consideration for the loans transferred to the Issuer as part of the Debt Securitization, Golub Capital BDC 2010-1 Holdings LLC (“Holdings”), a direct subsidiary of the Company, retained all of the Class B and Subordinated Notes, which totaled \$10,000 and \$116,000, respectively, and retained all the membership interests in the Issuer, which Holdings initially purchased for two hundred and fifty dollars. Assets related to transactions that do not meet Accounting Standards Codification (“ASC”) Topic 860 — Transfers and Servicing requirements for accounting sale treatment are reflected in the consolidated balance sheet of the Company as investments. Those assets are owned by the Issuer, a special purpose entity that is consolidated in the Company’s financial statements, the creditors of the

Issuer have received security interests in such assets and such assets are not intended to be available to the creditors of the Company (or any affiliate of the Company). For further information on the Debt Securitization, see Note 6.

Golub Capital BDC, Inc. and Subsidiaries
Notes to Consolidated Financial Statements
(In thousands, except shares and per share data)

On August 24, 2010, GC SBIC IV, L.P., a wholly owned subsidiary of the Company, received approval for a license from the United States Small Business Administration (“SBA”) to operate as a Small Business Investment Company (“SBIC”). As an SBIC, GC SBIC IV L.P. is subject to a variety of regulations and oversight by the SBA concerning the size and nature of companies in which it may invest as well as the structures of those investments.

The license allows GC SBIC IV, L.P. to obtain leverage by issuing SBA-guaranteed debentures, subject to issuance of a capital commitment by the SBA and customary procedures. These debentures are non-recourse to us, have interest payable semiannually and a ten-year maturity. The interest rate is fixed at the time of issuance at a market-driven spread over U.S. Treasury Notes with ten-year maturities.

The Company’s investment strategy is to invest in senior secured, unitranche, mezzanine and second lien loans to middle market companies that are, in most cases, sponsored by private equity investors. The Company has entered into an investment advisory agreement (the “Investment Advisory Agreement”) with GC Advisors LLC (the “Investment Adviser”), under which the Investment Adviser manages the day-to-day operations of, and provides investment advisory services to, the Company. Prior to April 14, 2010, Golub Capital Incorporated (the “Investment Manager”) served as the investment adviser for the Company.

Note 2. Accounting Policies and Recent Accounting Updates

Basis of Presentation: The accompanying consolidated financial statements of the Company and related financial information have been prepared in accordance with generally accepted accounting principles in the United States of America (“GAAP”) and pursuant to the requirements for reporting on Form 10-Q and Articles 6 or 10 of Regulation S-X. In the opinion of management, the consolidated financial statements reflect all adjustments and reclassifications consisting solely of normal accruals that are necessary for the fair presentation of financial results as of and for the periods presented. All intercompany balances and transactions have been eliminated. Certain prior period amounts have been reclassified to conform to the current period presentation.

Accounting Standards Codification: In June 2009, the Financial Accounting Standards Board (“FASB”) issued Accounting Standards Codification TM (the “Codification”) which is the single source of authoritative GAAP recognized by the FASB to be applied by nongovernmental entities. The Codification combines all authoritative standards into a comprehensive, topically organized online database. One level of authoritative GAAP exists, other than guidance issued by the SEC. All other accounting literature excluded from the Codification is considered non-authoritative.

Fair value of financial instruments: The Company applies fair value to substantially all of its financial instruments in accordance with ASC Topic 820 — Fair Value Measurements and Disclosures. ASC Topic 820 defines fair value, establishes a framework used to measure fair value and requires disclosures for fair value measurements. In accordance with ASC Topic 820, the Company has categorized its financial instruments carried at fair value, based on the priority of the valuation technique, into a three-level fair value hierarchy. Fair value is a market-based measure considered from the perspective of the market participant who holds the financial instrument rather than an entity specific measure. Therefore, when market assumptions are not readily available, the Company’s own assumptions are set to reflect those that management believes market participants would use in pricing the financial instrument at the measurement date.

Golub Capital BDC, Inc. and Subsidiaries
Notes to Consolidated Financial Statements
(In thousands, except shares and per share data)

The availability of observable inputs can vary depending on the financial instrument and is affected by a wide variety of factors, including, for example, the type of product, whether the product is new, whether the product is traded on an active exchange or in the secondary market and the current market conditions. To the extent that the valuation is based on models or inputs that are less observable or unobservable in the market the determination of fair value requires more judgment. Accordingly, the degree of judgment exercised by the Company in determining fair value is greatest for financial instruments classified as Level 3.

Any changes to the valuation methodology are reviewed by management to confirm that the changes are justified. As markets change, new products develop and the pricing for products becomes more or less transparent, the Company will continue to refine its valuation methodologies.

Use of estimates: The preparation of the consolidated financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the consolidated financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Consolidation: As permitted under Regulation S-X and the American Institute of Certified Public Accountants, or the AICPA, Audit and Accounting Guide for Investment Companies, the Company will generally not consolidate its investment in a company other than an investment company subsidiary or a controlled operating company whose business consists of providing services to us. Accordingly, the Company consolidated the results of the Company's subsidiaries in its consolidated financial statements.

Segments: In accordance with ASC Topic 280 — Segment Reporting, the Company has determined that it has a single reporting segment and operating unit structure.

Cash and cash equivalents: Cash and cash equivalents are highly liquid investments with an original maturity of three months or less at the date of acquisition. The Company places its cash in financial institutions and, at times, such balances may be in excess of the Federal Deposit Insurance Corporation insurance limits.

Restricted cash and cash equivalents: Restricted cash and cash equivalents represent amounts that are collected and are held by trustees who have been appointed as custodians of the assets securing certain of the Company's financing transactions. Restricted cash is held by the trustees for payment of interest expense and principal on the outstanding borrowings or reinvestment into new assets.

Revenue recognition: Investments and related investment income: The Company's board of directors (the "Board") determines the fair value of its portfolio investments. Interest income is accrued based upon the outstanding principal amount and contractual interest terms of debt investments. In addition, the Company may generate revenue in the form of commitment, origination, amendment, structuring or due diligence fees, fees for providing managerial assistance and consulting fees. Loan origination fees, original issue discount and market discount or premium are capitalized, and the Company accretes or amortizes such amounts over the life of the loan as interest income. The Company records prepayment premiums on loans as interest income. When the Company receives principal payments on a loan in an amount that exceeds its amortized cost, it records the excess principal payment as interest income. For the three and six months ended March 31, 2011, interest income included \$1,228 and \$3,181 of such amounts, respectively. For the three and six months ended March 31, 2010, the Company recorded interest income from

amortization in the amounts of \$1,755 and \$4,847, respectively.

Golub Capital BDC, Inc. and Subsidiaries
Notes to Consolidated Financial Statements
(In thousands, except shares and per share data)

As of March 31, 2011 and September 30, 2010, the Company had interest receivable of \$2,181 and \$1,956, respectively. For the three and six months ended March 31, 2011, the Company earned interest of \$9,111 and \$18,248, respectively. For the three and six months ended March 31, 2010, the Company earned interest of \$7,645 and \$18,488, respectively. During the three and six months ended March 31, 2011, the Company received interest in cash in the amounts of \$8,932 and \$17,692, respectively. During the three and six months ended March 31, 2010, the Company received interest in cash in the amounts of \$7,490 and \$18,855, respectively.

For investments with contractual payment-in-kind interest ("PIK"), which represents contractual interest accrued and added to the principal balance that generally becomes due at maturity, the Company will not accrue PIK interest if the portfolio company valuation indicates that the PIK interest is not collectible. For the three and six months ended March 31, 2011, the Company recorded PIK income of \$192 and \$331, respectively. For the three and six months ended March 31, 2010, the Company recorded PIK income of \$68 and \$123, respectively.

Investment transactions are accounted for on a trade-date basis. Realized gains or losses on investments are measured by the difference between the net proceeds from the disposition and the cost basis of investment, without regard to unrealized gains or losses previously recognized. The Company reports changes in fair value of investments that are measured at fair value as a component of the net change in unrealized appreciation (depreciation) on investments in the consolidated statements of operations.

Non-accrual loans: A loan may be left on accrual status during the period the Company is pursuing repayment of the loan. Management reviews all loans that become 90 days or more past due on principal and interest or when there is reasonable doubt that principal or interest will not be collected for possible placement on non-accrual status. Accrued interest is generally reversed when a loan is placed on non-accrual. Interest payments received on non-accrual loans may be recognized as income or applied to principal depending upon management's judgment. Non-accrual loans are restored to accrual status when past due principal and interest is paid and, in management's judgment, are likely to remain current. The total fair value of non-accrual loans was \$2,653 and \$3,095 as of March 31, 2011 and September 30, 2010, respectively.

Income taxes: The Company intends to elect to be treated as a RIC under subchapter M of the Code and operates in a manner so as to qualify for the tax treatment applicable to RICs. In order to qualify as a RIC, among other things, the Company is required to meet certain source of income and asset diversification requirements and timely distribute to its stockholders at least 90% of investment company taxable income, as defined by the Code, for each year. The Company has made and intends to continue to make the requisite distributions to its stockholders, which will generally relieve the Company from U.S. federal income taxes with respect to all income distributed to its stockholders.

Depending on the level of taxable income earned in a tax year, the Company may choose to carry forward taxable income in excess of current year dividend distributions into the next tax year and pay a 4% excise tax on such income, as required. To the extent that the Company determines that its estimated current year annual taxable income will be in excess of estimated current year dividend distributions, the Company accrues excise tax, if any, on estimated excess taxable income as taxable income is earned. For the three and six month ended March 31, 2011 and 2010, no amount was recorded for U.S. federal excise tax.

The Company accounts for income taxes in conformity with ASC Topic 740 — Income Taxes. ASC Topic 740 provides guidelines for how uncertain tax positions should be recognized, measured, presented and disclosed in financial

statements. ASC Topic 740 requires the evaluation of tax positions taken in the course of preparing the Company's tax returns to determine whether the tax positions are "more-likely-than-not" to be sustained by the applicable tax authority. Tax benefits of positions not deemed to meet the more-likely-than-not threshold would be recorded as a tax expense in the current year. It is the Company's policy to recognize accrued interest and penalties related to uncertain tax benefits in income tax expense. There were no material uncertain income tax positions at March 31, 2011 and September 30, 2010. The 2007 through 2009 tax years remain subject to examination by U.S. federal and most state tax authorities.

Golub Capital BDC, Inc. and Subsidiaries
Notes to Consolidated Financial Statements
(In thousands, except shares and per share data)

Dividends and distributions: Dividends and distributions to common stockholders are recorded on the declaration date. The amount to be paid out as a dividend or distribution is determined by the Board each quarter and is generally based upon the earnings estimated by management. Net realized capital gains, if any, are distributed at least annually, although the Company may decide to retain such capital gains for investment.

The Company has adopted a dividend reinvestment plan (“DRIP”) that provides for reinvestment of any distributions the Company declares in cash on behalf of its stockholders, unless a stockholder elects to receive cash. As a result, if the Board authorizes, and the Company declares, a cash distribution, then stockholders who have not “opted out” of the dividend reinvestment plan will have their cash distribution automatically reinvested in additional shares of the Company’s common stock, rather than receiving the cash dividend. The Company may use newly issued shares to implement the plan (especially if the Company’s shares are trading at a premium to net asset value), or the Company may purchase shares in the open market in connection with the obligations under the plan. In particular, if the Company’s shares are trading at a significant discount to net asset value and the Company is otherwise permitted under applicable law to purchase such shares, the Company intends to purchase shares in the open market in connection with any obligations under its dividend reinvestment plan.

Deferred financing costs: Deferred financing costs represent fees and other direct incremental costs incurred in connection with the Company’s borrowings. As of March 31, 2011 and September 30, 2010, the Company had deferred financing costs of \$3,351 and \$2,748, respectively. These amounts are amortized and included in interest expense in the consolidated statements of operations over the estimated average life of the borrowings. Amortization expense for the three and six months ended March 31, 2011 was \$195 and \$365, respectively. There was no amortization expense for the three and six months ended March 31, 2010.

Deferred offering costs: Deferred offering costs consist of fees paid in relation to legal, accounting, regulatory and printing work completed in preparation of the Offering. Deferred offering costs are charged against the proceeds from equity offerings when received.

Earnings and net asset value per share: For historical periods prior to April 1, 2010, the Company did not have common shares outstanding or an equivalent and therefore earnings per share and weighted average shares outstanding information for historical periods prior to April 1, 2010 are not provided.

Note 3. Related Party Transactions

Investment Advisory and Management Agreement: On April 14, 2010, GBDC entered into the Investment Advisory Agreement with the Investment Adviser, under which the Investment Adviser manages the day-to-day operations of, and provides investment advisory services to, GBDC. The Investment Advisory Agreement was subsequently amended on July 16, 2010. The Investment Adviser is a registered investment adviser with the SEC. The Investment Adviser receives fees for providing services, consisting of two components, a base management fee and an incentive fee.

The base management fee is calculated at an annual rate equal to 1.375% of average adjusted gross assets at the end of the two most recently completed calendar quarters (excluding cash and cash equivalents and including assets purchased with borrowed funds and securitization-related assets) and is payable quarterly in arrears. To the extent that the Investment Adviser or any of its affiliates provides investment advisory, collateral management or other similar services to a subsidiary of the Company, the base management fee shall be reduced by an amount equal to the product

of (1) the total fees paid to the Investment Adviser by such subsidiary for such services and (2) the percentage of such subsidiary's total equity, including membership interests and any class of notes not exclusively held by one or more third parties, that is owned, directly or indirectly, by the Company. Prior to the Offering, the base management fee was calculated at an annual rate of 0.75% of the value of the GCMF investments under the terms of GCMF's Sale and Servicing Agreement with the Investment Manager.

Golub Capital BDC, Inc. and Subsidiaries
Notes to Consolidated Financial Statements
(In thousands, except shares and per share data)

The Company has structured the calculation of the incentive fee to include a fee limitation such that an incentive fee for any quarter can only be paid to the Investment Adviser if, after such payment, the cumulative incentive fees paid to the Investment Adviser since the effective date of the Company's election to become a BDC would be less than or equal to 20.0% of the Company's Cumulative Pre-Incentive Fee Net Income (as defined below).

The Company accomplishes this limitation by subjecting each quarterly incentive fee payable on the "Income and Capital Gains Incentive Fee Calculation" (as defined below) to a cap (the "Incentive Fee Cap"). The Incentive Fee Cap in any quarter is the difference between (a) 20.0% of Cumulative Pre-Incentive Fee Net Income and (b) cumulative incentive fees of any kind paid to the Investment Adviser by GBDC since the effective date of its election to become a BDC. To the extent the Incentive Fee Cap is zero or a negative value in any quarter, no incentive fee would be payable in that quarter. Cumulative Pre-Incentive Fee Net Income is equal to the sum of (a) Pre-Incentive Fee Net Investment Income for each period since the effective date of the Company's election to become a BDC and (b) cumulative aggregate realized capital gains, cumulative aggregate realized capital losses, cumulative aggregate unrealized capital depreciation and cumulative aggregate unrealized capital appreciation since the effective date of the Company's election to become a BDC.

Pre-Incentive Fee Net Investment Income means interest income, dividend income and any other income (including any other fees such as commitment, origination, structuring, diligence and consulting fees or other fees that the Company receives from portfolio companies but excluding fees for providing managerial assistance) accrued during the calendar quarter, minus operating expenses for the calendar quarter (including the base management fee, taxes, any expenses payable under the Investment Advisory Agreement and the Administration Agreement, as defined below, any expenses of securitizations and any interest expense and dividends paid on any outstanding preferred stock, but excluding the incentive fee). Pre-Incentive Fee Net Investment Income includes, in the case of investments with a deferred interest feature such as market discount, debt instruments with PIK interest, preferred stock with PIK dividends and zero coupon securities, accrued income that the Company has not yet received in cash.

Incentive fees are calculated and payable quarterly in arrears (or, upon termination of the Investment Advisory Agreement, as of the termination date) (a "Performance Period"). The Investment Adviser is not under any obligation to reimburse the Company for any part of the incentive fee it received that was based on accrued income that is never actually received.

The income and capital gains incentive fee calculation (the "Income and Capital Gain Incentive Fee Calculation") has two parts, the income component and the capital gains component. The income component is calculated quarterly in arrears based on the Company's Pre-Incentive Fee Net Investment Income for the immediately preceding calendar quarter.

Pre-Incentive Fee Net Investment Income does not include any realized capital gains, realized capital losses or unrealized capital appreciation or depreciation. Because of the structure of the income component, it is possible that an incentive fee may be calculated under this formula with respect to a period in which the Company has incurred a loss. For example, if the Company receives Pre-Incentive Fee Net Investment Income in excess of the hurdle rate (as defined below) for a calendar quarter, the income component will result in a positive value and an incentive fee will be paid unless the payment of such incentive fee would cause the Company to pay incentive fees on a cumulative basis that exceed 20.0% of Cumulative Pre-Incentive Fee Net Investment Income. Pre-Incentive Fee Net Investment Income, expressed as a rate of return on the value of the Company's net assets (defined as total assets less indebtedness and before taking into account any incentive fees payable during the period) at the end of the immediately preceding

calendar quarter, is compared to a fixed “hurdle rate” of 2.0% quarterly. If market interest rates rise, GBDC may be able to invest funds in debt instruments that provide for a higher return, which would increase Pre-Incentive Fee Net Investment Income and make it easier for the Investment Adviser to surpass the fixed hurdle rate and receive an incentive fee based on such net investment income. Our Pre-Incentive Fee Net Investment Income used to calculate this part of the incentive fee is also included in the amount of our total assets (other than cash and cash equivalents but including assets purchased with borrowed funds and securitization-related assets) used to calculate the 1.375% base management fee annual rate. The Company calculates the income component of the Income and Capital Gain Incentive Fee Calculation with respect to our Pre-Incentive Fee Net Investment Income quarterly, in arrears, as follows:

Golub Capital BDC, Inc. and Subsidiaries
Notes to Consolidated Financial Statements
(In thousands, except shares and per share data)

- Zero in any calendar quarter in which the Pre-Incentive Fee Net Investment Income does not exceed the hurdle rate;
- 100% of the Company's Pre-Incentive Fee Net Investment Income with respect to that portion of such Pre-Incentive Fee Net Investment Income, if any, that exceeds the hurdle rate but is less than 2.5% in any calendar quarter. This portion of the Company's Pre-Incentive Fee Net Investment Income (which exceeds the hurdle rate but is less than 2.5%) is referred to as the "catch-up" provision. The catch-up is meant to provide the Investment Adviser with 20.0% of the Pre-Incentive Fee Net Investment Income as if a hurdle rate did not apply if this net investment income exceeds 2.5% in any calendar quarter; and
- 20.0% of the amount of the Company's Pre-Incentive Fee Net Investment Income, if any, that exceeds 2.5% in any calendar quarter.

The sum of these calculations yields the Income Incentive Fee. This amount is appropriately adjusted for any share issuances or repurchases during the quarter. For the three and six months ended March 31, 2011, the Income Incentive Fee was \$158 and \$348, respectively. There was no Income Incentive Fee for the three and six months ended March 31, 2010.

The second part of the Incentive Fee Calculation (the "Capital Gain Incentive Fee") equals (a) 20.0% of the Company's "Capital Gain Incentive Fee Base," if any, calculated in arrears as of the end of each calendar year (or upon termination of the Investment Advisory Agreement, as of the termination date), which commenced with the calendar year ending December 31, 2010, less (b) the aggregate amount of any previously paid Capital Gain Incentive Fees. The Company's Capital Gain Incentive Fee Base equals the sum of (1) realized capital gains, if any, on a cumulative positive basis from the date the Company elected to become a BDC through the end of each calendar year, (2) all realized capital losses on a cumulative basis and (3) all unrealized capital depreciation on a cumulative basis.

- The cumulative aggregate realized capital losses are calculated as the sum of the amounts by which (a) the net sales price of each investment in the Company's portfolio when sold is less than (b) the accreted or amortized cost base of such investment.
- The cumulative aggregate realized capital gains are calculated as the sum of the differences, if positive, between (a) the net sales price of each investment in the Company's portfolio when sold and (b) the accreted or amortized cost basis of such investment.
- The aggregate unrealized capital depreciation is calculated as the sum of the differences, if negative, between (a) the valuation of each investment in the Company's portfolio as of the applicable Capital Gain Incentive Fee calculation date and (b) the accreted or amortized cost basis of such investment.

The sum of the Income Incentive Fee and the Capital Gain Incentive Fee will be the Incentive Fee.

The Company will accrue the Capital Gain Incentive Fee if, on a cumulative basis, the sum of net realized gains/(losses) plus net unrealized appreciation/(depreciation) is positive. The Capital Gain Incentive Fee is calculated on a cumulative basis from the date the Company elected to become a BDC through the end of each calendar year. For the three and six month period ended March 31, 2011, the Company accrued a Capital Gain Incentive Fee of \$63 and \$63, respectively. For the calendar year ended December 31, 2010, the Capital Gain Incentive Fee was zero.

The Incentive Fee will not be paid at any time if, after such payment, the cumulative Incentive Fees paid to date would be greater than 20.0% of the Company's cumulative Pre-Incentive Fee Net Income since the election to be treated as a

BDC. Such amount, less any Incentive Fees previously paid, is referred to as the Incentive Fee Cap. If, for any relevant period, the Incentive Fee Cap calculation results in the Company paying less than the amount of the Incentive Fee calculated above, then the difference between the Incentive Fee and the Incentive Fee Cap will not be paid by GBDC, and will not be received by the Investment Adviser as an Incentive Fee either at the end of such relevant period or at the end of any future period.

Golub Capital BDC, Inc. and Subsidiaries
Notes to Consolidated Financial Statements
(In thousands, except shares and per share data)

Administration Agreement: GBDC has also entered into an administration agreement (the “Administration Agreement”) with GC Service Company, LLC (the “Administrator”). Under the Administration Agreement, the Administrator furnishes GBDC with office facilities and equipment, provides it clerical, bookkeeping and record keeping services at such facilities and provides GBDC with other administrative services as the Administrator, subject to review by the Board, determines necessary to conduct GBDC’s day-to-day operations. GBDC reimburses the Administrator the allocable portion (subject to the review and approval of the Board) of overhead and other expenses incurred by it in performing its obligations under the Administration Agreement, including rent, the fees and expenses associated with performing compliance functions, and GBDC’s allocable portion of the cost of its chief financial officer and chief compliance officer and their respective staffs. The Board reviews such expenses to determine that these expenses are reasonable and comparable to administrative services charged by unaffiliated third party asset managers. Under the Administration Agreement, the Administrator also provides on the Company’s behalf significant managerial assistance to those portfolio companies to which GBDC is required to provide such assistance and will be paid an additional amount based on the services provided, not to exceed the amount GBDC receives from such portfolio companies.

Included in accounts payable and accrued expenses is \$214 and \$142 as of March 31, 2011 and September 30, 2010, respectively, for accrued allocated shared services under the Administration Agreement. The administrative service fee expense under the Administration Agreement for the three and six months ended March 31, 2011 was 214 and 387, respectively. The administrative service fee for the three and six months ended March 31, 2010 was 156 and 298, respectively.

Other Related Party Transactions: Prior to the Offering, the Investment Manager paid for certain unaffiliated third-party expenses on behalf of GCMF, all of which were subsequently reimbursed directly with cash or through a member’s equity contribution. Subsequent to the Offering, the Investment Adviser, an affiliate of the Investment Manager, pays for certain unaffiliated third-party expenses incurred by the Company. Such expenses include, but are not limited to, postage, printing, office supplies, and rating agency fees. These expenses are not marked-up and represent the same amount the Company would have paid had the Company paid the expense directly. These expenses were subsequently reimbursed in cash.

Total expenses reimbursed to the Investment Adviser and the Investment Manager, as applicable, during the three and six months ended March 31, 2011 were \$67 and \$198, respectively.

Total expenses reimbursed to the Investment Adviser and the Investment Manager, as applicable, during the three and six months ended March 31, 2010 were \$225 and \$424, respectively. Of these amounts, during both the three and six months ended March 31, 2010, \$225 was reimbursed via a members’ equity contribution, respectively.

As of March 31, 2011 and September 30, 2010, included in accounts payable and accrued expenses is \$94 and \$116, respectively, for accrued expenses paid on behalf of the Company by the Investment Adviser.

Note 5. Fair Value Measurements

The Company follows ASC Topic 820 for measuring the fair value of portfolio investments. Fair value is the price that would be received in the sale of an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Where available, fair value is based on observable market prices or parameters, or derived from such prices or parameters. Where observable prices or inputs are not available, valuation models are applied. These valuation models involve some level of management estimation and judgment, the degree of which is dependent on the price transparency for the instruments or market and the instruments' complexity. The Company's fair value analysis includes an analysis of the value of any unfunded loan commitments. Financial investments recorded at fair value in the consolidated financial statements are categorized for disclosure purposes based upon the level of judgment associated with the inputs used to measure their value. The valuation hierarchical levels are based upon the transparency of the inputs to the valuation of the investment as of the measurement date. The three levels are defined as follows:

Level 1: Inputs are unadjusted, quoted prices in active markets for identical financial instruments at the measurement date.

Level 2: Inputs include quoted prices for similar financial instruments in active markets and inputs that are observable for the financial instruments, either directly or indirectly, for substantially the full term of the financial instrument.

Level 3: Inputs include significant unobservable inputs for the financial instruments and include situations where there is little, if any, market activity for the investment. The inputs into the determination of fair value are based upon the best information available and may require significant management judgment or estimation.

In certain cases, the inputs used to measure fair value may fall into different levels of the fair value hierarchy. In such cases, an investment's level within the fair value hierarchy is based on the lowest level of input that is significant to the fair value measurement. The Company's assessment of the significance of a particular input to the fair value measurement in its entirety requires judgment, and considers factors specific to the financial instrument. The following section describes the valuation techniques used by the Company to measure different financial instruments at fair value and includes the level within the fair value hierarchy in which the financial instrument is categorized.

With the exception of money market funds held at large financial institutions (Level 1 investment), all of the financial instruments that were recorded at fair value as of March 31, 2011 were valued using Level 3 inputs of the fair value hierarchy. As of September 30, 2010, the Company also invested in commercial paper, which is a Level 2 investment. Level 1 assets are valued using quoted market prices. Level 2 assets are valued using market consensus prices that are corroborated by observable market data and quoted market prices for similar instruments. Financial instruments that are recorded at Level 3 of the valuation hierarchy are the Company's debt and equity investments. Level 3 assets are valued at fair value as determined in good faith by the Board, based on input of management, the audit committee and independent valuation firms that have been engaged at the direction of the Board to assist in the valuation of each portfolio investment without a readily available market quotation at least once during a trailing twelve-month period under a valuation policy and a consistently applied valuation process. This valuation process is conducted at the end of each fiscal quarter, with approximately 25% (based on fair value) of the Company's valuation of portfolio companies without readily available market quotations subject to review by an independent valuation firm.

When valuing Level 3 debt and equity investments, the Company may take into account the following factors, where relevant, in determining the fair value of the investments: the enterprise value of a portfolio company, the nature and

realizable value of any collateral, the portfolio company's ability to make payments and its earnings and discounted cash flows, the markets in which the portfolio company does business, comparisons to publicly traded securities, changes in the interest rate environment and the credit markets generally that may affect the price at which similar investments may be made and other relevant factors. In addition, for certain debt and equity investments, the Company may base its valuation on indicative bid and ask prices provided by an independent third party pricing service. Bid prices reflect the highest price that the Company and others may be willing to pay. Ask prices represent the lowest price that the Company and others may be willing to accept for an investment. The Company generally uses the midpoint of the bid/ask range as the best estimate of fair value of such investment.

Golub Capital BDC, Inc. and Subsidiaries
Notes to Consolidated Financial Statements
(In thousands, except shares and per share data)

ASC Topic 820 requires disclosure of the fair value of financial instruments for which it is practical to estimate the value. As a result, with the exception of the line item titled “debt” which is reported at cost, all assets and liabilities approximate fair value on the consolidated statements of financial condition due to their short maturity.

Due to the inherent uncertainty of determining the fair value of Level 3 investments that do not have a readily available market value, the fair value of the investments may differ significantly from the values that would have been used had a ready market existed for such investments and may differ materially from the values that may ultimately be received or settled. Further, such investments are generally subject to legal and other restrictions or otherwise are less liquid than publicly traded instruments. If the Company were required to liquidate a portfolio investment in a forced or liquidation sale, the Company may realize significantly less than the value at which such investment had previously been recorded.

The Company’s investments are subject to market risk. Market risk is the potential for changes in the value of investments due to market changes. Market risk is directly impacted by the volatility and liquidity in the markets in which the investments are traded.

The following table presents information about the Company’s investments measured at fair value on a recurring basis, and indicates the fair value hierarchy of the valuation techniques utilized by the Company to determine such fair value:

As of March 31, 2011:		Fair Value Measurements Using		
Description	Level 1	Level 2	Level 3	Total
Assets:				
Debt investments	\$ -	\$ -	\$ 382,109	\$ 382,109
Equity investments	-	-	6,951	6,951

Golub Capital BDC, Inc. and Subsidiaries
Notes to Consolidated Financial Statements
(In thousands, except shares and per share data)

The net change in unrealized depreciation for the three and six months ended March 31, 2011 reported within the net change in unrealized depreciation on investments in the Company's consolidated statements of operation attributable to the Company's Level 3 assets held as of March 31, 2011 was \$354 and \$501, respectively.

The following table presents the changes in investments measured at fair value using Level 3 inputs:

	Six months ended March 31, 2011		
	Debt Investments	Equity Investments	Total
Fair value, beginning of period	\$ 342,233	\$ 2,636	\$ 344,869
Net change in unrealized (depreciation) appreciation on investments	(618)	117	(501)
Realized gain on investments	1,925	-	1,925
Proceeds from revolving loans, net	(1,092)	-	(1,092)
Fundings of portfolio investments	145,796	4,198	149,994
Proceeds from principal payments and sales of portfolio investments	(109,316)	-	(109,316)
Amortization of discount and premium	3,181	-	3,181
Fair value, end of period	\$ 382,109	\$ 6,951	\$ 389,060

The following are the carrying values and fair values of the Company's debt liabilities as of March 31, 2011 and September 30, 2010. Fair value is calculated using discounted cash flows based on the Company's incremental borrowing rates for the debt and market prices for similar instruments at the measurement date.

	As of March 31, 2011		As of September 30, 2010	
	Carrying Value	Fair Value	Carrying Value	Fair Value
Debt	\$ 194,000	\$ 197,651	\$ 174,000	\$ 174,000

Note 6. Borrowings

In accordance with the 1940 Act, with certain limited exceptions, the Company is only allowed to borrow amounts such that our asset coverage, as defined in the 1940 Act, is at least 200% after such borrowing. As of March 31, 2011, the Company's asset coverage for borrowed amounts was 234.4%.

Debt Securitization: On July 16, 2010, the Company completed a \$300,000 term debt securitization ("Debt Securitization"). The notes offered in the Debt Securitization (the "Notes") were issued by the Issuer, and the Class A Notes and Class B Notes are secured by the assets held by the Issuer. The Debt Securitization was executed through a private placement of \$174,000 of Aaa/AAA Class A Notes which bear interest at three-month London Inter Bank Offered Rate ("LIBOR") plus 2.40%. The \$10,000 face amount of Class B Notes bear interest at a rate of three-month LIBOR plus 2.40%, and the \$116,000 face amount of Subordinated Notes do not bear interest. The Class A Notes are

included in the March 31, 2011 and September 30, 2010 consolidated balance sheet. In partial consideration for the loans transferred to the Issuer as part of the Debt Securitization, Holdings retained all of the Class B and Subordinated Notes totaling \$10,000 and \$116,000 respectively, and all of the membership interests in the Issuer, which Holdings initially purchased for two hundred and fifty dollars.

Golub Capital BDC, Inc. and Subsidiaries
Notes to Consolidated Financial Statements
(In thousands, except shares and per share data)

During a period of up to three years from the closing date (which may be extended for two additional years, upon satisfaction of certain conditions), all principal collections received on the underlying collateral may be used by the Issuer to purchase new collateral under the direction of the Investment Adviser in its capacity as collateral manager of the Issuer and in accordance with the Company's investment strategy, allowing the Company to maintain the initial leverage in the securitization for such three-year period. The Notes are scheduled to mature on July 20, 2021.

The proceeds of the private placement of the Notes, net of expenses, were used to repay and terminate the Company's prior credit facility, which was a \$300,000 credit facility entered into on July 27, 2007. As part of the Debt Securitization, the Company entered into a master loan sale agreement with Holdings and the Issuer under which the Company agreed to sell or contribute certain senior secured and second lien loans (or participation interests therein) to Holdings, and Holdings agreed to sell or contribute such loans (or participation interests therein) to the Issuer and to purchase or otherwise acquire Subordinated Notes issued by the Issuer. The Notes are the secured obligations of the Issuer, and an indenture governing the Notes includes customary covenants and events of default.

The Investment Adviser serves as collateral manager to the Issuer under a collateral management agreement and receives a fee for providing these services. As a result, the Company has amended and restated its Investment Advisory Agreement to provide that the base management fee payable under such agreement is reduced by an amount equal to the total fees that are paid to the Investment Adviser by the Issuer for rendering such collateral management services.

As of March 31, 2011 and September 30, 2010, there were 81 and 77 portfolio companies with a total fair value of \$284,332 and \$272,836 securing the Notes, respectively. The pool of loans in the Debt Securitization must meet certain requirements, including, but not limited to, asset mix and concentration, collateral coverage, term, agency rating, minimum coupon, minimum spread and sector diversity requirements.

The interest charged under the Debt Securitization is based on three-month LIBOR, which as of March 31, 2011 was 0.3%. For the three and six months ended March 31, 2011, the effective annualized average interest rate, which includes amortization of debt issuance costs on the Debt Securitization, was 3.2% and 3.4%, respectively. For the three and six months ended March 31, 2011, interest expense was \$1,216 and \$2,610, respectively. Cash paid for interest during the three and six months ended March 31, 2011 was \$2,849 and \$2,849, respectively.

For the three and six months ended March 31, 2010, the effective annualized average interest rate on the Company's prior credit facility was 1.4% and 1.2%, respectively. For the three and six months ended March 31, 2010, interest expense was \$862 and 1,552, respectively. Cash paid for interest during the three and six months ended March 31, 2010 was \$833 and \$1,534, respectively.

Golub Capital BDC, Inc. and Subsidiaries
Notes to Consolidated Financial Statements
(In thousands, except shares and per share data)

The classes, amounts, ratings and interest rates (expressed as a spread to LIBOR) of the Class A Notes are as follows:

Description	Class A Notes
Type	Senior Secured Floating Rate
Amount Outstanding	\$174,000
Moody's Rating	"Aaa"
S&P Rating	"AAA"
Interest Rate	LIBOR + 2.40%
Stated Maturity	July 20, 2021

SBA Debentures: As described in Note 1, on August 24, 2010, GC SBIC IV, L.P., a wholly owned subsidiary of the Company, received approval for a license from the SBA to operate an SBIC.

This license allows GC SBIC IV, L.P. to obtain leverage by issuing SBA-guaranteed debentures, subject to issuance of a capital commitment by SBA and customary procedures. These debentures are non-recourse to the Company, have interest payable semi-annually and a ten-year maturity. The interest rate is fixed at the time of issuance at a market-driven spread over U.S. Treasury Notes with ten-year maturities.

Under present SBIC regulations, the maximum amount of SBA-guaranteed debentures that may be issued by multiple licensees under common management is \$225,000. It is possible that GC SBIC IV, L.P. will be constrained in its ability to issue SBA-guaranteed debentures in the future if other Golub Capital SBICs have already issued such debentures. As of March 31, 2011, Golub Capital operated two other SBIC licensees with an aggregate of \$137,000 of SBA-guaranteed debentures outstanding, leaving borrowing capacity of a maximum of \$88,000 of SBA-guaranteed debentures for GC SBIC IV, L.P. and the two other SBIC licensees, none of which is required to be allocated to GC SBIC IV, L.P. The borrowing capacity of GC SBIC IV, L.P. could be expanded if any other Golub Capital SBICs retire their SBA-guaranteed debentures. Any available issue amounts of SBA-guaranteed debentures will be allocated among GC SBIC IV, L.P. and Golub Capital's two existing SBIC subsidiaries in accordance with the allocation policies and procedures of GC Advisors.

GC SBIC IV, L.P. is able to borrow funds from the SBA against regulatory capital that is paid-in, subject to customary regulatory requirements including, but not limited, to an examination by the SBA. As of March 31, 2011, the Company had committed and funded \$40,000 to GC SBIC IV, L.P. and had SBA debentures of \$20,000 outstanding, which mature in March of 2021. The interest rate on the \$20,000 of outstanding debentures was fixed on March 29, 2011 at an interest rate of 4.5%. Prior to this date, the Company was charged an interim financing rate of approximately 1.0%. For the three and six months ended March 31, 2011, the effective annualized average interest rate, which includes amortization of fees paid on the debentures, was 1.9% and 1.8%, respectively. For the three and six months ended March 31, 2011, interest expense was \$57 and \$71, respectively. Cash paid for interest during the three and six months ended March 31, 2011 was \$64 and \$64, respectively.

As of March 31, 2011, the Company had available commitments of \$28,300 from the SBA, which expire on September 30, 2013. These unfunded commitments are subject to funding approval through the SBA's draw request process.

The Company applied for exemptive relief from the SEC on July 9, 2010 and filed amended applications on November 12, 2010 and March 31, 2011 to permit it to exclude the debt of GC SBIC IV, L.P. from the Company's 200% asset coverage test under the 1940 Act. If the Company receives an exemption for this SBA debt, the Company would have increased flexibility under the 200% asset coverage test.

Golub Capital BDC, Inc. and Subsidiaries
Notes to Consolidated Financial Statements
(In thousands, except shares and per share data)

The average debt outstanding (including both the debt under the Debt Securitization and the SBA debentures) for the three and six months ended March 31, 2011 was \$194,000 and \$186,640, respectively. The average debt outstanding under the Company's prior credit facility for the three and six months ended March 31, 2010 was \$238,761 and \$270,019, respectively.

For the three and six months ended March 31, 2011, the effective annualized average interest rate on the Company's total debt outstanding was 3.0% and 3.3%, respectively.

Note 7. Commitments and Contingencies

Commitments: The Company had outstanding commitments to fund investments totaling \$36,491 and \$26,622 under various undrawn revolvers and other credit facilities as of March 31, 2011 and September 30, 2010, respectively.

Indemnifications: In the normal course of business, the Company enters into contracts and agreements that contain a variety of representations and warranties that provide general indemnifications. The Company's maximum exposure under these arrangements is unknown, as these involve future claims that may be made against the Company but that have not occurred. The Company expects the risk of any future obligations under these indemnifications to be remote.

Legal proceedings: In the normal course of business, the Company may be subject to legal and regulatory proceedings that are generally incidental to its ongoing operations. While there can be no assurance of the ultimate disposition of any such proceedings, the Company does not believe their disposition will have a material adverse effect on the Company's consolidated financial statements.

(In thousands, except shares and per share data)

Note 9. Earnings Per Share

The following information sets forth the computation of the net increase in net assets per share resulting from operations for the three and six months ended March 31, 2011:

	Three months ended March 31, 2011	Six months ended March 31, 2011
Earnings available to stockholders	\$ 5,876	\$ 11,838
Basic and diluted weighted average shares outstanding	17,738,395	17,725,418
Basic and diluted earnings per share	\$ 0.33	\$ 0.67

For historical periods that include financial results prior to April 1, 2010, the Company did not have common shares outstanding or an equivalent and therefore earnings per share and weighted average shares outstanding information for the three and six months ended March 31, 2010 are not provided.

Note 10. Dividends and Distributions

The Company's dividends and distributions are recorded on the record date. The following table summarizes the Company's dividend declaration and distribution during the six month period ending March 31, 2011.

Date Declared	Record Date	Payment Date	Amount Per Share	Cash Distribution	DRIP Shares Issued	DRIP Shares Value
12/8/2010	12/20/2010	12/30/2010	\$ 0.31	\$ 5,028	25,753	\$ 462
2/8/2011	3/18/2011	3/30/2011	\$ 0.32	\$ 5,375	17,779	\$ 303

Note 11. Subsequent Events

On March 31, 2011, the Company priced a public offering of 3,500,000 shares of its common stock at a public offering price of \$15.75 per share, raising approximately \$55,125 in gross proceeds. Wells Fargo Securities and UBS Investment Bank were the joint book-running managers for the offering. Stifel Nicolaus Weisel, RBC Capital Markets, and Janney Montgomery Scott were the co-managers for the offering. On April 6, 2011, the transaction closed, the shares were delivered, and proceeds, net of offering costs, of \$52,620 were received. Golub Capital and its affiliates purchased an aggregate of \$2.0 million of shares in this common stock offering. In addition, Mr. William M. Webster IV, one of the Company's directors, purchased 25,000 shares in the offering.

On May 2, 2011, the Company sold an additional 453,257 shares of its common stock at a public offering price of \$15.75 per share pursuant to the underwriters' partial exercise of the over-allotment option the Company granted to the underwriters in connection with its public offering of 3,500,000 shares of common stock. Settlement of this partial exercise of the over-allotment option resulted in gross proceeds of \$7,139 and net proceeds, before expenses, of \$6,800.

On May 3, 2011, the Company's Board declared a quarterly distribution of \$0.32 per share payable on June 29, 2011 to holders of record as of June 17, 2011. Additionally, on May 3, 2011, the Company's Board approved an amendment to the DRIP that in the event the market price per share of the Company's common stock on the date of a distribution exceeds the most recently computed net asset value per share of the common stock, the Company will issue shares of common stock to participants in the DRIP at the greater of the most recently computed net asset value per share of common stock or 95% of the current market price per share of common stock (or such lesser discount to the current market price per share that still exceeds the most recently computed net asset value per share of common stock). This amendment is expected to be effective for the distribution payable on June 29, 2011 to holders of record as of June 17, 2011.

Item 2: Management's Discussion and Analysis of Financial Condition and Results of Operations

The information contained in this section should be read in conjunction with our consolidated financial statements and related notes thereto appearing elsewhere in this quarterly report on Form 10-Q. For periods prior to April 13, 2010, the consolidated financial statements and related footnotes reflect the performance of Golub Capital BDC LLC and its predecessor and wholly owned subsidiary, Golub Capital Master Funding LLC, or GCMF, which was formed on June 6, 2007.

Forward-Looking Statements

Some of the statements in this quarterly report on Form 10-Q constitute forward-looking statements, which relate to future events or our performance or financial condition. The forward-looking statements contained in this quarterly report on Form 10-Q involve risks and uncertainties, including statements as to:

- our future operating results;
- our business prospects and the prospects of our portfolio companies;
- the effect of investments that we expect to make;
- our contractual arrangements and relationships with third parties;
- actual and potential conflicts of interest with our investment adviser, GC Advisors LLC, or GC Advisors, and other affiliates of Golub Capital Incorporated and Golub Capital Management LLC, collectively, Golub Capital;
- the dependence of our future success on the general economy and its effect on the industries in which we invest;
 - the ability of our portfolio companies to achieve their objectives;
 - the use of borrowed money to finance a portion of our investments;
 - the adequacy of our financing sources and working capital;
- the timing of cash flows, if any, from the operations of our portfolio companies;
- the ability of GC Advisors to locate suitable investments for us and to monitor and administer our investments;
 - the ability of GC Advisors or its affiliates to attract and retain highly talented professionals;
 - our ability to qualify and maintain our qualification as a RIC and as a business development company;
- the impact on our business of the Dodd-Frank Wall Street Reform and Consumer Protection Act and the rules and regulations issued thereunder; and
 - the effect of changes to tax legislation and our tax position.

Such forward-looking statements may include statements preceded by, followed by or that otherwise include the words “may,” “might,” “will,” “intend,” “should,” “could,” “can,” “would,” “expect,” “believe,” “estimate,” “anticipate,” “predict” or similar words. The forward looking statements contained in this quarterly report on Form 10-Q involve risks and uncertainties. Our actual results could differ materially from those implied or expressed in the forward-looking statements for any reason, including the factors set forth as “Risk Factors” and elsewhere in this quarterly report on Form 10-Q.

We have based the forward-looking statements included in this report on information available to us on the date of this report, and we assume no obligation to update any such forward-looking statements. Actual results could differ materially from those anticipated in our forward-looking statements and future results could differ materially from historical performance. Although we undertake no obligation to revise or update any forward-looking statements, whether as a result of new information, future events or otherwise, you are advised to consult any additional disclosures that we may make directly to you or through reports that we have filed or in the future may file with the Securities and Exchange Commission, or the SEC, including annual reports on Form 10-K, registration statements on Form N-2, quarterly reports on Form 10-Q and current reports on Form 8-K.

You should understand that, under Sections 27A(b)(2)(B) of the Securities Act and Section 21E(b)(2)(B) of the Exchange Act, the “safe harbor” provisions of the Private Securities Litigation Reform Act of 1995 do not apply to this quarterly report on Form 10-Q.

Overview

We are an externally managed, closed-end, non-diversified management investment company that has elected to be treated as a business development company under the Investment Company Act of 1940, as amended, or the 1940 Act. In addition, for tax purposes, we intend to elect to be treated as a regulated investment company, or RIC, under Subchapter M of the Internal Revenue Code of 1986, as amended, or the Code. We were formed in November 2009 to continue and expand the business of our predecessor, GCMF, which commenced operations in July 2007, in making investments in senior secured, unitranche (a loan that combines characteristics of traditional first lien senior secured loans and second lien or subordinated loans), mezzanine (a loan that ranks senior only to a borrower's equity securities and ranks junior to all of such borrower's other indebtedness in priority of payment) and second lien loans of middle-market companies that are, in most cases, sponsored by private equity firms.

Our shares are currently listed on The NASDAQ Global Select Market under the symbol "GBDC".

Our investment objective is to maximize the total return to our stockholders in the form of current income and capital appreciation through debt and minority equity investments. We intend to achieve our investment objective by (1) accessing the established loan origination channels developed by Golub Capital, a leading lender to middle-market companies with over \$4.5 billion of capital under management as of March 31, 2011, (2) selecting investments within our core middle-market company focus, (3) partnering with experienced private equity firms, or sponsors, in many cases with whom we have invested alongside in the past, (4) implementing the disciplined underwriting standards of Golub Capital and (5) drawing upon the aggregate experience and resources of Golub Capital.

Our investment activities are managed by GC Advisors and supervised by our board of directors, of which a majority of the members are independent of us.

Under an investment advisory agreement, or the Investment Advisory Agreement, entered into on April 14, 2010, and amended and restated on July 16, 2010, we have agreed to pay GC Advisors an annual base management fee based on our average adjusted gross assets as well as an incentive fee based on our investment performance. We have also entered into an administration agreement with GC Service Company, LLC, or GC Service, under which we have agreed to reimburse GC Service for our allocable portion (subject to the review and approval of our independent directors) of overhead and other expenses incurred by GC Service in performing its obligations under the Administration Agreement.

As of March 31, 2011, our portfolio at fair value was comprised of 55.8% senior secured loans, 29.2% unitranche loans, 6.8% second lien loans, 6.4% mezzanine loans and 1.8% equity. As of September 30, 2010, our portfolio at fair value was comprised of 65.8% senior secured loans, 26.2% unitranche loans, 3.3% second lien loans, 3.9% mezzanine loans, and 0.8% equity. Over time we expect that senior secured loans will represent a smaller percentage of our investment portfolio as we grow our business, these investments are repaid and we invest in a different mix of assets.

We seek to create a diverse portfolio that includes senior secured, unitranche, mezzanine and second lien loans and warrants and minority equity securities by investing approximately \$5 to \$25 million of capital, on average, in the securities of middle-market companies. We may also selectively invest more than \$25 million in some of our portfolio companies and generally expect that the size of our individual investments will vary proportionately with the size of our capital base.

As of March 31, 2011 and September 30, 2010, we had debt investments in 98 and 94 portfolio companies, respectively. For the three months ended March 31, 2011 and September 30, 2010, our income producing assets,

which represented nearly 100% of our total portfolio, had a weighted average annualized interest income (which excludes income resulting from amortization of fees and discounts) yield of 8.3% and 8.1% and a weighted average annualized investment income (which includes interest income and amortization of fees and discounts) yield of 9.9% and 9.8%, respectively.

Revenues: We generate revenue in the form of interest income on debt investments and capital gains and distributions, if any, on portfolio company investments that we originate or acquire. Our debt investments, whether in the form of senior secured, unitranche, mezzanine or second lien loans, typically have a term of three to seven years and bear interest at a fixed or floating rate. In some instances, we receive payments on our debt investments based on scheduled amortization of the outstanding balances. In addition, we receive repayments of some of our debt investments prior to their scheduled maturity date. The frequency or volume of these repayments fluctuates significantly from period to period. Our portfolio activity also reflects the proceeds of sales of securities. In some cases, our investments provide for deferred interest payments or payment-in-kind, or PIK, interest. The principal amount of loans and any accrued but unpaid interest generally become due at the maturity date. In addition, we may generate revenue in the form of commitment, origination, amendment, structuring or due diligence fees, fees for providing managerial assistance and consulting fees. Loan origination fees, original issue discount and market discount or premium are capitalized, and we accrete or amortize such amounts as interest income. We record prepayment premiums on loans as interest income. When we receive partial principal payments on a loan in an amount that exceeds its amortized cost, we record the excess principal payment as interest income. Dividend income, if any, is recognized on an accrual basis to the extent that we expect to collect such amounts.

Expenses: Our primary operating expenses include the payment of fees to GC Advisors under the Investment Advisory Agreement, our allocable portion of overhead expenses under the Administration Agreement and other operating costs described below. Additionally, we pay interest expense on our outstanding debt. We bear all other out-of-pocket costs and expenses of our operations and transactions, including:

- organizational expenses;
- calculating our net asset value (including the cost and expenses of any independent valuation firm);
- fees and expenses incurred by GC Advisors payable to third parties, including agents, consultants or other advisors, in monitoring financial and legal affairs for us and in monitoring our investments and performing due diligence on our prospective portfolio companies or otherwise relating to, or associated with, evaluating and making investments;
- interest payable on debt, if any, incurred to finance our investments and expenses related to unsuccessful portfolio acquisition efforts;
- offerings of our common stock and other securities;
- investment advisory and management fees;
- administration fees and expenses, if any, payable under the Administration Agreement (including payments under the Administration Agreement between us and GC Service based upon our allocable portion of GC Service's overhead in performing its obligations under the Administration Agreement, including rent and the allocable portion of the cost of our chief compliance officer, chief financial officer and their respective staffs);
- fees payable to third parties, including agents, consultants or other advisors, relating to, or associated with evaluating and making, investments in portfolio companies, including costs associated with meeting financial sponsors;
- transfer agent, dividend agent and custodial fees and expenses;
- U.S. federal and state registration and franchise fees;
- all costs of registration and listing our shares on any securities exchange;
- U.S. federal, state and local taxes;
- independent directors' fees and expenses;
- costs of preparing and filing reports or other documents required by the SEC or other regulators;
- costs of any reports, proxy statements or other notices to stockholders, including printing costs;
- costs associated with individual or group stockholders;
- our allocable portion of any fidelity bond, directors and officers/errors and omissions liability insurance, and any other insurance premiums;

- direct costs and expenses of administration, including printing, mailing, long distance telephone, copying, secretarial and other staff, independent auditors and outside legal costs;
 - proxy voting expenses; and
- all other expenses incurred by us or GC Service in connection with administering our business.

GC Advisors, as collateral manager for the Securitization Issuer under the collateral management agreement, is entitled to receive an annual fee in an amount equal to 0.35% of the principal balance of the portfolio loans held by the Securitization Issuer at the beginning of the collection period relating to each payment date, which is payable in arrears on each payment date. This fee, which is less than the management fee payable under the Investment Advisory Agreement, is paid directly by the Securitization Issuer to GC Advisors and offset against such management fee. Accordingly, the 1.375% management fee paid by the Company to GC Advisors under the Investment Advisory Agreement on all of our assets, including those indirectly held through the Securitization Issuer, is reduced, on a dollar-for-dollar basis, by an amount equal to such 0.35% fee paid to GC Advisors by the Securitization Issuer. The term “collection period” refers to a quarterly period running from the day after the end of the prior collection period to the fifth business day of the calendar month in which a payment date occurs. This fee may be waived by the collateral manager. The collateral management agreement does not include any incentive fee payable to GC Advisors. In addition, the Securitization Issuer paid Wells Fargo Securities, LLC a structuring and placement fee for its services in connection with the initial structuring of the Debt Securitization. The Securitization Issuer also agreed to pay ongoing administrative expenses to the trustee, collateral manager, independent accountants, legal counsel, rating agencies and independent managers in connection with developing and maintaining reports, and providing required services in connection with, the administration of the Debt Securitization. The administrative expenses are paid by the Securitization Issuer on each payment date in two parts: (1) a component that is paid in a priority to other amounts distributed by the Securitization Issuer, subject to a cap equal to the sum of 0.04% per annum on the adjusted principal balance of the portfolio loans and other assets held by the Securitization Issuer on the last day of the collection period relating to such payment date, plus \$150,000 per annum, and (2) a component that is paid in a subordinated position relative to other amounts distributed by the Securitization Issuer, equal to any amounts that exceed the aforementioned administrative expense cap.

Recent Developments

On March 31, 2011, we priced a public offering of 3,500,000 shares of our common stock at a public offering price of \$15.75 per share, raising approximately \$55.1 million in gross proceeds. Wells Fargo Securities and UBS Investment Bank were the joint book-running managers for the offering. Stifel Nicolaus Weisel, RBC Capital Markets, and Janney Montgomery Scott were the co-managers for the offering. On April 6, 2011, the transaction closed, the shares were delivered, and proceeds, net of offering costs, of \$52.6 million were received.

On May 2, 2011, we sold an additional 453,257 shares of our common stock at a public offering price of \$15.75 per share pursuant to the underwriters' partial exercise of the over-allotment option we granted to the underwriters in connection with our public offering of 3,500,000 shares of common stock. Settlement of this partial exercise of the over-allotment option resulted in gross proceeds of \$7.1 million and net proceeds, before expenses, of \$6.8 million.

We intend to use the net proceeds from the offering and the exercise of the over-allotment option to invest in portfolio companies in accordance with our investment objectives and strategies.

On May 3, 2011, our Board declared a quarterly distribution of \$0.32 per share payable on June 29, 2011 to holders of record as of June 17, 2011.

As expected, our originations slowed in the quarter ended March 31, 2011, but have since rebounded. We expect origination and growth in total investments to be robust in the quarter ended June 30, 2011. With the proceeds of our recent follow-on offering and additional borrowings through our SBIC, we are well-positioned to take advantage of opportunities to grow our portfolio, advance toward our targeted asset mix, and grow net investment income. Through April 30, 2011, we have invested approximately \$33.3 million in new middle market portfolio companies.

Consolidated Results of Operations

The consolidated results of operations set forth below include historical financial information of our predecessor, GCMF, prior to our election to become a business development company and our intended election to be treated as a RIC for U.S. federal income tax purposes. As a business development company and a RIC, we are also subject to certain constraints on our operations, including limitations imposed by the 1940 Act and the Code. Also, the management fee that we pay to GC Advisors under the Investment Advisory Agreement is determined by reference to a formula that differs materially from the management fee paid by GCMF in prior periods. In addition, our portfolio of investments consisted primarily of senior secured and unitranche loans as of March 31, 2011 and 2010, and over time we expect that senior secured loans will represent a smaller percentage of our investment portfolio as we grow our business, these investments are repaid and we invest in a different mix of assets. For these and other reasons, the results of operations for the three and six-month periods ended March 31, 2011 and 2010 described below may not be indicative of the results we report in future periods.

Consolidated operating results for the three and six months ended March 31, 2011 and 2010 are as follows:

	For the three months ended March 31,		For the six months ended March 31,	
	2011	2010	2011	2010
	(In thousands)		(In thousands)	
Total investment income	\$ 9,111	\$ 7,645	\$ 18,248	\$ 18,488

Edgar Filing: Golub Capital BDC, Inc. - Form 10-Q

Total expenses	3,930	2,627	7,834	4,287
Net investment income	5,181	5,018	10,414	14,201
Net realized gains (losses)	1,049	-	1,925	-
Net change in unrealized (depreciation) appreciation on investments	(354)	1,925	(501)	1,085
Net income	\$ 5,876	\$ 6,943	\$ 11,838	\$ 15,286
Average investments, at fair value	\$ 382,478	\$ 308,678	\$ 367,264	\$ 331,994
Average debt outstanding	\$ 194,000	\$ 238,761	\$ 186,640	\$ 270,019

Net income can vary substantially from period to period for various reasons, including the recognition of realized gains and losses and unrealized appreciation and depreciations. As a result, quarterly comparisons of net income may not be meaningful.

Investment Income

Investment income increased by \$1.5 million, or 19.2%, for the three months ended March 31, 2011 as compared to the three months ended March 31, 2010. The increase in investment income was primarily a result of an increase in the average balance of investments as well as an increase on the yield of income producing investments, which was partially offset by a decrease in income from the amortization of discounts and origination fees. For the three months ended March 31, 2011, total investment income consisted of \$7.9 million in interest income from investments and \$1.2 million in income from the amortization of discounts and origination fees. For the three months ended March 31, 2010, total investment income consisted of \$5.9 million in interest income and \$1.7 million in income from the amortization of discounts and origination fees.

Investment income decreased by \$0.2 million, or 1.3%, for the six months ended March 31, 2011 as compared to the six months ended March 31, 2010. The decrease in investment income was primarily a result of a decrease in income from the amortization of discounts and origination fees, which was partially offset by a higher average investment balance and higher yield on investments. For the six months ended March 31, 2011, total investment income consisted of \$15.1 million in interest income from investments and \$3.1 million in income from the amortization of discounts and origination fees. For the six months ended March 31, 2010, total investment income consisted of \$13.6 million in interest income and \$4.9 million in income from the amortization of discounts and origination fees.

Expenses

Total expenses increased by \$1.3 million, or 49.6%, to \$3.9 million for the three months ended March 31, 2011 as compared to the three months ended March 31, 2010. Total interest expense increased by \$0.6 million or 70.2% and all other expenses increased by \$0.7 million or 39.5%. Total expenses increased by \$3.5 million, or 82.7%, to \$7.8 million for the six months ended March 31, 2011 as compared to the six months ended March 31, 2010. Total interest expense increased by \$1.5 million or 96.1% and all other expenses increased by \$2.0 million or 75.1%.

Interest expense was higher in the three and six months ended March 31, 2011 than the three and six months ended March 31, 2010 due to higher interest rates on the debt outstanding at March 31, 2011.

Excluding interest expense, expenses increased for both the three and six month period ended March 31, 2011 due to an increase in professional fees, management fees, incentive fees, administrative service fees, and general administrative expenses as a result of us becoming a public entity. Professional fees increased due to higher legal, audit, and valuation services. In addition, following the completion of our initial public offering, we accrued management and incentive fees under the Investment Advisory Agreement, which provides for a higher management fee percentage as compared to amounts previously paid by GCMF. In addition, this agreement provides for the calculation of an incentive fee, which was \$0.2 million for the three months ended March 31, 2011 and \$0.4 million for the six months ended March 31, 2011. Prior to completion of our initial public offering, we did not pay an incentive fee or an administrative servicing fee.

Prior to completion of our initial public offering, Golub Capital Incorporated, or the Investment Manager, paid for certain expenses on behalf of GCMF, all of which were subsequently reimbursed directly with cash or through a member's equity contribution. Subsequent to our initial public offering, GC Advisors, an affiliate of the Investment Manager, pays for certain expenses incurred by us. These expenses are subsequently reimbursed in cash. Total expenses reimbursed to GC Advisors and the Investment Manager, as applicable, for the three and six months ended March 31, 2011 were \$0.1 million and \$0.2 million, respectively.

Total expenses reimbursed to GC Advisors and the Investment Manager, as applicable, for the three and six months ended March 31, 2010 were \$0.2 million and \$0.4 million, respectively. Of these amounts, for the three and six months ended March 31, 2010, \$0.2 million and \$0.4 million were reimbursed via a members' equity contribution, respectively.

As of March 31, 2011 and September 30, 2010, included in accounts payable and accrued expenses were \$0.1 million and \$0.1 million, respectively, for accrued expenses paid on behalf of us by the GC Advisors.

Net Realized and Unrealized Gains and Losses

During the three and six months ended March 31, 2011, we had \$1.0 million and \$1.9 million in net realized gains, respectively. For the three months ended March 31, 2011, we had \$2.4 million in unrealized depreciation on 76 portfolio company investments, which was partially offset by \$2.0 million in unrealized appreciation on 26 portfolio company investments. For the six months ended March 31, 2011, we had \$5.2 million in unrealized depreciation on 71 portfolio company investments, which was partially offset by \$4.7 million in unrealized appreciation on 44 portfolio company investments.

Net unrealized depreciation during the three and six months ended March 31, 2011 was primarily due to sales of securities in an unrealized gain position. As described above, these sales resulted in realized gains of \$1.0 million and \$1.9 million, respectively.

During the three and six months ended March 31, 2010, we had \$0 in net realized loss and \$3.7 million and \$13.9 million in unrealized appreciation on 58 and 75 portfolio company investments, respectively. These amounts more than offset unrealized depreciation on 40 and 47 portfolio company investments totaling approximately \$1.8 million and \$12.8 million, respectively. Unrealized appreciation during the three and six months ended March 31, 2010 resulted from an increase in fair value primarily due to the rise in market prices and a reversal of prior period unrealized depreciation. Unrealized depreciation resulted from a reduction in fair value primarily due to market yield adjustments.

Liquidity and Capital Resources

As a business development company, we distribute substantially all of our net income to our stockholders and will have an ongoing need to raise additional capital for investment purposes. To fund growth, we have a number of alternatives available to increase capital, including raising equity, increasing debt and funding from operational cash flow.

For the six months ended March 31, 2011, we experienced a net decrease in cash and cash equivalents of \$17.4 million. During the period we used \$41.1 million in operating activities, primarily as a result of fundings of portfolio investments of \$150.0 million. This was partially offset by proceeds from principal payments of \$75.4 million and sales of portfolio investments of \$33.9 million and net investment income of \$10.4 million. During the same period, cash provided by financing activities was \$8.0 million, primarily due to borrowings on debt of \$20.0 million, partially offset by distributions paid of \$10.4 million. Lastly, net cash provided by investing activities was \$15.7 million as a result of a decrease in restricted cash and cash equivalents.

For the six months ended March 31, 2010, there was an increase in cash and cash equivalents of \$24.8 million. During the period, cash provided by operating activities was \$99.1 million, primarily a result of proceeds from principal payments of \$82.9 million and net investment income of \$14.2 million. During the same period, cash used in financing activities was \$71.2 million, which was primarily a result of repayments of debt of \$104.9 million and payments of members' equity distributions of \$13.5 million, partially offset by proceeds from members' equity contributions of \$47.2 million. Lastly, net cash used in investment activities was \$3.1 million as a result of an increase in restricted cash and cash equivalents.

As of March 31, 2011 and September 30, 2010, we had cash and cash equivalents of \$43.9 million and \$61.2 million, respectively. In addition, we had restricted cash and cash equivalents of \$16.1 million and \$31.8 million as of March 31, 2011 and September 30, 2010, respectively. Cash and cash equivalents are available to fund new investments, pay

operating expenses and pay distributions. Restricted cash and cash equivalents can be used to fund new investments that meet the investment guidelines established in the Debt Securitization, which are described in further detail in Note 6 to our consolidated financial statements and for the payment of interest expense on the notes issued in the Debt Securitization.

At March 31, 2011 and September 30, 2010, our investment portfolio included \$16.4 million and \$48.2 million, respectively, in liquid, broadly syndicated loans that we anticipate selling in future periods as we find opportunities to redeploy those assets into higher yielding investments. For the three and six months ended March 31, 2011, we had sales of broadly syndicated loans in ten and 14 portfolio companies aggregating approximately \$16.5 million and \$27.7 million, respectively. For both the three and six months ended September 30, 2010, we had sales of broadly syndicated loans in one portfolio company aggregating approximately \$1.2 million.

Although we expect to fund the growth of our investment portfolio through the net proceeds from future securities offerings and through our dividend reinvestment plan as well as future borrowings, to the extent permitted by the 1940 Act, we cannot assure you that our efforts to raise capital will be successful. In addition to capital not being available, it also may not be available on favorable terms.

We believe that our existing cash and cash equivalents as of March 31, 2011 will be sufficient to fund our anticipated requirements through at least March 31, 2012.

Portfolio Composition, Investment Activity and Yield

As of March 31, 2011 and September 30, 2010, we had investments in 98 and 94 portfolio companies, respectively, with a total value of \$389.1 million and \$344.9 million, respectively. For the three months ended March 31, 2011 we funded 17 senior secured loans, three unitranche loans, and one equity security with values of \$34.5 million, \$17.4 million and \$0.5 million, respectively. For the six months ended March 31, 2011, we funded 32 senior secured loans, six unitranche loans, four second lien loans, three subordinated loans and eight equity securities have values of \$77.3 million, \$37.8 million, \$19.6 million, \$11.1 million and \$4.2 million, respectively.

For the three months ended September 30, 2010, we originated 15 senior secured loans, two unitranche loans, one subordinated loan, and two equity securities having values of \$47.5 million, \$17.7 million, \$9.4 million, and \$2.6 million, respectively. For the six months ended September 30, 2010, we originated 20 senior secured loans, two unitranche loans, two subordinated loans, and two equity securities having values of \$60.7 million, \$17.7 million, \$13.3 million, and \$2.6 million, respectively.

For the three and six months ended March 31, 2011, we had approximately \$24.1 million and \$75.4 in debt repayments, respectively. For the three and six months ended March 31, 2011, we had sales of securities in 13 and 18 portfolio companies aggregating approximately \$21.9 million and \$33.9 million, respectively.

For the three and six months ended September 30, 2010 we had approximately \$12.3 million and \$46.9 million in debt repayments in existing portfolio companies, respectively. For both the three and six months ended September 30, 2010, we had sales of securities in one portfolio company aggregating approximately \$1.2 million.

The following table shows the weighted average rate, spread over LIBOR and fees on investments originated and the weighted average rate on full principal payments and sales of investments during the three and six months ended March 31, 2011. There were no new investments during the three and sixth months ended March 31, 2010.

	Three months ended March 31, 2011		Six months ended March 31, 2011	
Weighted average rate of new investment fundings	7.2	%	8.3	%
Weighted average spread over LIBOR of new investment fundings	5.6	%	6.6	%
Weighted average fees of new investment fundings	1.2	%	1.7	%
Weighted average rate of sales and payoffs of portfolio companies	6.0	%	6.6	%

The following table shows the new investment commitments and payoffs of portfolio companies and sales of investments during the three and six months ended March 31, 2011 and 2010:

For the three months ended March 31,	For the six months ended March 31,
---	---------------------------------------

Edgar Filing: Golub Capital BDC, Inc. - Form 10-Q

	2011	2010	2011	2010
New investment fundings	\$ 52,416	\$ -	\$ 149,994	\$ -
Payoffs of portfolio companies and sales	46,033	32,729	109,316	82,929

The following table shows the par, amortized cost and fair value of our portfolio of investments by asset class:

	As of March 31, 2011 (1)			As of September 30, 2010 (1)		
	Par	Amortized Cost	Fair Value (In thousands)	Par	Amortized Cost	Fair Value
Senior Secured:						
Performing	\$220,221	\$216,432	\$214,506	\$231,404	\$223,962	\$223,953
Non-accrual(2)	4,422	4,373	2,653	4,422	4,346	3,095
Unitranche:						
Performing	114,811	112,939	113,794	91,931	90,309	90,369
Non-accrual(2)	-	-	-	-	-	-
Second Lien(3):						
Performing	26,336	25,805	26,336	11,396	11,192	11,380
Non-accrual(2)	-	-	-	-	-	-
Subordinated Debt:						
Performing	24,820	24,246	24,820	13,436	13,091	13,436
Non-accrual(2)	-	-	-	-	-	-
Equity	N/A	6,834	6,951	N/A	2,636	2,636
Total	\$390,610	\$390,629	\$389,060	\$352,589	\$345,536	\$344,869

- (1) Nine and six of our loans included a feature permitting a portion of the interest due on such loan to be PIK interest as of March 31, 2011 and September 30, 2010, respectively.
- (2) We refer to a loan as non-accrual when we cease recognizing interest income on the loan because we have stopped pursuing repayment of the loan or, in certain circumstances, it is past due 90 days or more on principal and interest or our management has reasonable doubt that principal or interest will not be collected. See "—Critical Accounting Policies—Revenue Recognition"
- (3) Second lien loans included \$12.7 million and zero of loans structured as first lien last out term loans as of March 31, 2011 and September 30, 2010, respectively

For the three and six months ended March 31, 2011, the weighted average annualized interest income (which excludes income resulting from amortization of fees and discounts) yield on the fair value of income producing investments in our portfolio were 8.3% and 8.3%, respectively. For the three and six months ended March 31, 2010, the weighted average annualized interest income (which excludes income resulting from amortization of fees and discounts) yield on the fair value of income producing investments in our portfolio were 7.6% and 8.1%, respectively. As of March 31, 2011, 71.4% and 71.6% of our portfolio at fair value and at cost, respectively, had interest rate floors that limit the minimum applicable interest rates on such loans. As of September 30, 2010, 59.2% and 60.0% of our portfolio at fair value and at cost, respectively, had interest rate floors that limited minimum interest rates on such loans.

GC Advisors regularly assesses the risk profile of each of our investments and rates each of them based on an internal system developed by Golub Capital and its affiliates. This system is not generally accepted in our industry or used by our competitors. It is based on the following categories, which we refer to as GC Advisors' investment performance rating:

Risk Ratings Definition

Rating

Definition

5	Involves the least amount of risk in our portfolio. The borrower is performing above expectations, and the trends and risk factors are generally favorable.
4	Involves an acceptable level of risk that is similar to the risk at the time of origination. The borrower is generally performing as expected, and the risk factors are neutral to favorable.
3	Involves a borrower performing below expectations and indicates that the loan's risk has increased somewhat since origination. The borrower may be out of compliance with debt covenants; however, loan payments are generally not past due.
2	Involves a borrower performing materially below and indicates that the loan's risk has increased materially since origination. In addition to the borrower being generally out of compliance with debt covenants, loan payments may be past due (but generally not more than 180 days past due).
1	Indicates that the borrower is performing substantially below expectations and the loan risk has substantially increased since origination. Most or all of the debt covenants are out of compliance and payments are substantially delinquent. Loans graded 1 are not anticipated to be repaid in full and we will reduce the fair market value of the loan to the amount we anticipate will be recovered.

The following table shows the distribution of our investments on the 1 to 5 investment performance rating scale at fair value as of March 31, 2011 and September 30, 2010.

Investment Performance Rating	March 31, 2011		September 30, 2010	
	Investments at Fair Value (In thousands)	Percentage of Total Investments	Investments at Fair Value (In thousands)	Percentage of Total Investments
5	\$ 67,250	17.3 %	98,307	28.5 %

Contractual Obligations and Off-Balance Sheet Arrangements

A summary of our significant contractual payment obligations as of March 31, 2011 is as follows:

	Total	Payments Due by Period (In millions)			
		Less Than 1 Year	1-3 Years	3-5 Years	More Than 5 Years
Debt Securitization	\$174.0	\$-	\$-	\$-	\$174.0
SBA Debentures	20.0	-	-	-	20.0
Unfunded commitments(1)	36.5	36.5	-	-	-
Total contractual obligations	\$230.5	\$36.5	\$-	\$-	\$194.0

(1) Unfunded commitments represented all amounts unfunded as of March 31, 2011. These amounts may or may not be funded to the borrowing party now or in the future. The unfunded commitments relate to loans with various maturity dates but we are showing this amount in the less than one-year category, as this entire amount was eligible for funding to the borrowers as of March 31, 2011.

We may become a party to financial instruments with off-balance sheet risk in the normal course of our business to meet the financial needs of our portfolio companies. These instruments may include commitments to extend credit and involve, to varying degrees, elements of liquidity and credit risk in excess of the amount recognized in the balance sheet. As of March 31, 2011 and September 30, 2010, we had outstanding commitments to fund investments totaling \$36.5 million and \$26.6 million, respectively.

We have certain contracts under which we have material future commitments. We have entered into the Investment Advisory Agreement with GC Advisors in accordance with the 1940 Act. The Investment Advisory Agreement became effective upon the pricing of our initial public offering and was amended and restated on July 16, 2010 in order to offset fees payable in connection with the Debt Securitization against the base management fee. Under the Investment Advisory Agreement, GC Advisors provides us with investment advisory and management services. We pay for these services (1) a management fee equal to a percentage of the average adjusted value of our gross assets and (2) an incentive fee based on our performance. To the extent that GC Advisors or any of its affiliates provides investment advisory, collateral management or other similar services to a subsidiary of ours, we intend to reduce the base management fee by an amount equal to the product of (1) the total fees paid to GC Advisors by such subsidiary for such services and (2) the percentage of such subsidiary's total equity that is owned, directly or indirectly, by us. See "Business—Management Agreements—Management Fee."

We also entered into the Administration Agreement with GC Service as our administrator on April 14, 2010. Under the Administration Agreement, GC Service furnishes us with office facilities and equipment, provides us clerical, bookkeeping and record keeping services at such facilities and provides us with other administrative services necessary to conduct our day-to-day operations. We reimburse GC Service for the allocable portion (subject to the review and approval of our Board) of overhead and other expenses incurred by it in performing its obligations under the Administration Agreement, including rent, the fees and expenses associated with performing compliance functions and our allocable portion of the cost of our chief financial officer and chief compliance officer and their respective staffs. GC Service also provides on our behalf significant managerial assistance to those portfolio companies to which we are required to offer to provide such assistance.

If any of the contractual obligations discussed above are terminated, our costs under any new agreements that we enter into may increase. In addition, we would likely incur significant time and expense in locating alternative parties to

provide the services we receive under our Investment Advisory Agreement and our Administration Agreement. Any new investment advisory agreement would also be subject to approval by our stockholders.

Distributions

In order to qualify as a RIC and to avoid corporate level tax on the income we distribute to our stockholders, we are required under the Code to distribute at least 90% of our net ordinary income and net short-term capital gains in excess of net long-term capital losses, if any, to our net stockholders on an annual basis. Additionally, we must annually during each calendar year distribute an amount at least equal to 98% of our ordinary income (determined on a calendar year basis) plus 98.2% of net capital gains in excess of capital losses (for our one year period ending October 31) and any net ordinary income and net capital gains for preceding years that were not distributed during such years and on which we previously paid no U.S. federal income tax to avoid a U.S. federal excise tax. We intend to distribute quarterly distributions to our stockholders as determined by our board of directors.

We may not be able to achieve operating results that will allow us to make distributions at a specific level or to increase the amount of our distributions from time to time. In addition, we may be limited in our ability to make distributions due to the asset coverage requirements applicable to us as a business development company under the 1940 Act. If we do not distribute a certain percentage of our income annually, we will suffer adverse tax consequences, including the possible loss of our qualification as a RIC. We cannot assure stockholders that they will receive any distributions.

To the extent our taxable earnings fall below the total amount of our distributions for that fiscal year, a portion of those distributions may be deemed a return of capital to our stockholders for U.S. federal income tax purposes. Thus, the source of a distribution to our stockholders may be the original capital invested by the stockholder rather than our income or gains. Stockholders should read any written disclosure accompanying a dividend payment carefully and should not assume that the source of any distribution is our ordinary income or gains.

We have adopted an “opt out” dividend reinvestment plan for our common stockholders. As a result, if we declare a distribution, then our stockholders’ cash distributions will be automatically reinvested in additional shares of our common stock unless a stockholder specifically “opts out” of our dividend reinvestment plan. If a stockholder opts out, that stockholder will receive cash distributions. Although distributions paid in the form of additional shares of our common stock will generally be subject to U.S. federal, state and local taxes in the same manner as cash distributions, stockholders participating in our dividend reinvestment plan will not receive any corresponding cash distributions with which to pay any such applicable taxes.

Related Party Transactions

We have entered into a number of business relationships with affiliated or related parties, including the following:

- We entered into an Investment Advisory Agreement with GC Advisors. Mr. Lawrence Golub, our chairman, is a manager of GC Advisors, and Mr. David Golub, our chief executive officer, is a manager of GC Advisors, and each of Messrs. Lawrence Golub and David Golub owns an indirect pecuniary interest in GC Advisors.
 - GC Service provides us with the office facilities and administrative services necessary to conduct day-to-day operations pursuant to our Administration Agreement.
- We have entered into a license agreement with Golub Capital Management LLC, pursuant to which Golub Capital Management LLC has granted us a non-exclusive, royalty-free license to use the name “Golub Capital.”
- Certain existing investors in entities advised by affiliates of Golub Capital and certain of our officers and directors, their immediate family members or entities owned by, or family trusts for the benefit of, such persons purchased in a separate private placement an aggregate of 1,322,581 shares of common stock at the initial public offering price per share of \$14.50. We received the full proceeds from the sale of these shares, and no underwriting discounts or commissions were paid in respect of these shares.
- Under a staffing agreement, or Staffing Agreement, between Golub Capital Incorporated and Golub Capital Management LLC and GC Advisors, Golub Capital has agreed to provide GC Advisors with the resources necessary to fulfill its obligations under the Investment Advisory Agreement. The Staffing Agreement provides that Golub Capital will make available to GC Advisors experienced investment professionals and access to the senior investment personnel of Golub Capital for purposes of evaluating, negotiating, structuring, closing and monitoring our investments. The Staffing Agreement also includes a commitment that the members of GC Advisors’ investment committee will serve in such capacity. Services under the Staffing Agreement are provided on a direct cost reimbursement basis.
- Golub Capital and its affiliates purchased an aggregate of \$2.0 million of shares in our common stock offering that closed on April 6, 2011. In addition, Mr. William M. Webster IV, one of our directors, purchased 25,000 shares in our common stock offering.

GC Advisors also sponsors or manages, and may in the future sponsor or manage, other investment funds, accounts or investment vehicles, together referred to as accounts, that have investment mandates that are similar, in whole and in part, with ours. GC Advisors and its affiliates may determine that an investment is appropriate for us and for one or more of those other accounts. In such event, depending on the availability of such investment and other appropriate factors, and pursuant to GC Advisors' allocation policy, GC Advisors or its affiliates may determine that we should invest side-by-side with one or more other accounts. We do not intend to make any investments if they are not permitted by applicable law and interpretive positions of the SEC and its staff, or if they are inconsistent with GC Advisors' allocation procedures.

In addition, we have adopted a formal code of ethics that governs the conduct of our and GC Advisors' officers, directors and employees. Our officers and directors also remain subject to the duties imposed by both the 1940 Act and the General Corporation Law of the State of Delaware.

Critical Accounting Policies

The preparation of financial statements and related disclosures in conformity with generally accepted accounting principles in the United States, or GAAP, requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, disclosure of contingent assets and liabilities at the date of the financial statements, and revenues and expenses during the periods reported. Actual results could materially differ from those estimates. We have identified the following items as critical accounting policies.

Valuation of Portfolio Investments

We value investments for which market quotations are readily available at their market quotations. However, a readily available market value is not expected to exist for many of the investments in our portfolio, and we value these portfolio investments at fair value as determined in good faith by our board of directors under our valuation policy and process. We may seek pricing information with respect to certain of our investments from pricing services or brokers or dealers in order to value such investments. We also employ independent third party valuation firms for all of our investments for which there is not a readily available market value.

Valuation methods may include comparisons of the portfolio companies to peer companies that are public, the enterprise value of a portfolio company, the nature and realizable value of any collateral, the portfolio company's ability to make payments and its earnings, discounted cash flow, the markets in which the portfolio company does business, and other relevant factors. When an external event such as a purchase transaction, public offering or subsequent equity sale occurs, we will consider the pricing indicated by the external event to corroborate the private equity valuation. Due to the inherent uncertainty of determining the fair value of investments that do not have a readily available market value, the fair value of the investments may differ significantly from the values that would have been used had a readily available market value existed for such investments, and may differ materially from values that may ultimately be received or settled.

Our Board is ultimately and solely responsible for determining, in good faith, the fair value of the portfolio investments that are not publicly traded, whose market prices are not readily available on a quarterly basis or any other situation where portfolio investments require a fair value determination.

With respect to investments for which market quotations are not readily available, our board of directors undertakes a multi-step valuation process each quarter, as described below:

- Our quarterly valuation process begins with each portfolio company or investment being initially valued by the investment professionals of GC Advisors responsible for credit monitoring.
- Preliminary valuation conclusions are then documented and discussed with our senior management and GC Advisors.
 - The audit committee of our board of directors reviews these preliminary valuations.
- At least once annually, the valuation for each portfolio investment is reviewed by an independent valuation firm.
- The board of directors discusses valuations and determines the fair value of each investment in our portfolio in good faith.

The factors that are taken into account in fair value pricing investments include: available current market data, including relevant and applicable market trading and transaction comparables; applicable market yields and multiples; security covenants; call protection provisions; information rights; the nature and realizable value of any collateral; the portfolio company's ability to make payments, its earnings and discounted cash flows and the markets in which it does business; comparisons of financial ratios of peer companies that are public; comparable merger and acquisition transactions; and the principal market and enterprise values.

Determination of fair values involves subjective judgments and estimates not verifiable by auditing procedures. Under current auditing standards, the notes to our financial statements refer to the uncertainty with respect to the possible effect of such valuations, and any change in such valuations, on our consolidated financial statements.

We follow Accounting Standards Codification, or ASC Topic 820— Fair Value Measurements and Disclosures for measuring the fair value of portfolio investments. Fair value is the price that would be received in the sale of an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Where available, fair value is based on observable market prices or parameters, or derived from such prices or parameters. Where observable prices or inputs are not available, valuation models are applied. These valuation models involve some level of management estimation and judgment, the degree of which is dependent on the price transparency for the instruments or market and the instruments' complexity. Our fair value analysis includes an analysis of the value of any unfunded loan commitments. Financial investments recorded at fair value in the consolidated financial statements are categorized for disclosure purposes based upon the level of judgment associated with the inputs used to measure their value. The valuation hierarchical levels are based upon the transparency of the inputs to the valuation of the investment as of the measurement date. The three levels are defined as follows:

Level 1: Inputs are unadjusted, quoted prices in active markets for identical financial instruments at the measurement date.

Level 2: Inputs include quoted prices for similar financial instruments in active markets and inputs that are observable for the financial instruments, either directly or indirectly, for substantially the full term of the financial instrument.

Level 3: Inputs include significant unobservable inputs for the financial instruments and include situations where there is little, if any, market activity for the investment. The inputs into the determination of fair value are based upon the best information available and may require significant management judgment or estimation.

In certain cases, the inputs used to measure fair value may fall into different levels of the fair value hierarchy. In such cases, an investment's level within the fair value hierarchy is based on the lowest level of input that is significant to the fair value measurement. Our assessment of the significance of a particular input to the fair value measurement in its entirety requires judgment, and we consider factors specific to the financial instrument. The following section describes the valuation techniques used by us to measure different financial instruments at fair value and includes the level within the fair value hierarchy in which the financial instrument is categorized.

With the exception of money market accounts held at large financial institutions (Level 1 investment), all of the financial instruments that were recorded at fair value as of March 31, 2011 were valued using Level 3 inputs of the fair value hierarchy. As of September 30, 2010, the Company also invested in commercial paper, which is a Level 2 investment. Level 1 assets are valued using quoted market prices. Level 2 assets are valued using market consensus prices that are corroborated by observable market data and quoted market prices for similar instruments. Financial instruments that are recorded at Level 3 of the valuation hierarchy are our debt and equity investments. Level 3 assets are valued at fair value as determined in good faith by the Board, based on input of management, the audit committee and independent valuation firms that have been engaged at the direction of the Board to assist in the valuation of each portfolio investment without a readily available market quotation at least once during a trailing twelve-month period under a valuation policy and a consistently applied valuation process. This valuation process is conducted at the end of each fiscal quarter, with approximately 25% (based on fair value) of our valuation of portfolio companies without readily available market quotations subject to review by an independent valuation firm.

When valuing Level 3 debt and equity investments, we may take into account the following factors, where relevant, in determining the fair value of the investments: the enterprise value of a portfolio company, the nature and realizable

valuable of any collateral, the portfolio company's ability to make payments and its earnings and discounted cash flows, the markets in which the portfolio company does business, comparison to publicly traded securities, changes in the interest rate environment and the credit markets generally that may affect the price at which similar investments may be made and other relevant factors. In addition, for certain debt and equity investments, we may base its valuation on indicative bid and ask prices provided by an independent third party pricing service. Bid prices reflect the highest price that we and others may be willing to pay. Ask prices represent the lowest price that we and others may be willing to accept for an investment. We generally use the midpoint of the bid/ask range as the best estimate of fair value of such investment.

Revenue Recognition:

Our revenue recognition policies are as follows:

Investments and Related Investment Income: Our board of directors determines the fair value of our portfolio of investments. Interest income is accrued based upon the outstanding principal amount and contractual interest terms of debt investments. Premiums, discounts, and origination fees are amortized or accreted into interest income over the life of the respective debt investment. For investments with contractual PIK interest, which represents contractual interest accrued and added to the principal balance that generally becomes due at maturity, we do not accrue PIK interest if the portfolio company valuation indicates that the PIK is not likely to be collectible. We account for investment transactions on a trade-date basis. Realized gains or losses on investments are measured by the difference between the net proceeds from the disposition and the cost basis of investment, without regard to unrealized gains or losses previously recognized. We report changes in fair value of investments that are measured at fair value as a component of the net change in unrealized appreciation (depreciation) on investments in our consolidated statement of operations.

Non-accrual: Loans may be left on accrual status during the period we are pursuing repayment of the loan. Management reviews all loans that become past due 90 days or more on principal and interest or when there is reasonable doubt that principal or interest will not be collected for possible placement on non-accrual status. We generally reverse accrued interest when a loan is placed on non-accrual. Interest payments received on non-accrual loans may be recognized as income or applied to principal depending upon management's judgment. We restore non-accrual loans to accrual status when past due principal and interest is paid and, in our management's judgment, are likely to remain current. The total fair value of our non-accrual loans were \$2.7 million and \$3.1 million as of March 31, 2011 and September 30, 2010, respectively.

Income taxes:

We intend to elect to be treated as a RIC under subchapter M of the Code and operate in a manner so as to qualify for the tax treatment applicable to RICs. In order to qualify as a RIC, we are required to meet certain source of income and asset diversification requirements and timely distribute to our stockholders at least 90% of investment company taxable income, as defined by the Code, for each year. We have made and intend to continue to make the requisite distributions to our stockholders, which will generally relieve us from U.S. federal income taxes.

Depending on the level of taxable income earned in a tax year, we may choose to carry forward taxable income in excess of current year distributions into the next tax year and pay a 4% excise tax on such income, as required. To the extent that we determine that our estimated current year annual taxable income will be in excess of estimated current year distributions, we accrue excise tax, if any, on estimated excess taxable income as taxable income is earned.

Because federal income tax regulations differ from GAAP, distributions in accordance with tax regulations may differ from net investment income and realized gains recognized for financial reporting purposes. Differences may be permanent or temporary. Permanent differences are reclassified within capital accounts in the financial statements to reflect their tax character. Temporary differences arise when certain items of income, expense, gain or loss are recognized at some time in the future. Differences in classification may also result from the treatment of short-term gains as ordinary income for tax purposes.

Item 3: Quantitative and Qualitative Disclosures About Market Risk.

We are subject to financial market risks, including changes in interest rates. Many of the loans in our portfolio have floating interest rates, and we expect that our loans in the future will also have floating interest rates. These loans are usually based on a floating LIBOR and typically have interest rate re-set provisions that adjust applicable interest rates under such loans to current market rates on a quarterly basis. In addition, the Debt Securitization has a floating interest rate provision based on LIBOR, which resets quarterly, and we expect that any credit facilities into which we enter in the future may have floating interest rate provisions.

Assuming that the balance sheet as of the periods covered by this analysis were to remain constant and that Management took no actions to alter our existing interest rate sensitivity, a hypothetical immediate 1% change in interest rates may affect net income by more than 1% over a one-year horizon. Although our management believes that this analysis is indicative of our existing sensitivity to interest rate changes, it does not adjust for changes in the credit market, credit quality, the size and composition of the assets in our portfolio and other business developments, including borrowings that could affect net increase in net assets resulting from operations, or net income. Accordingly, we can offer no assurances that actual results would not differ materially from the statement above.

We may in the future hedge against interest rate fluctuations by using standard hedging instruments such as futures, options and forward contracts. While hedging activities may insulate us against adverse changes in interest rates, they may also limit our ability to participate in the benefits of lower interest rates with respect to the investments in our portfolio with fixed interest rates.

Item 4: Controls and Procedures.

As of the period covered by this report, we, including our Chief Executive Officer and Chief Financial Officer, evaluated the effectiveness of the design and operation of our disclosure controls and procedures (as defined in Rule 13a-15(e) under the Securities Exchange Act of 1934, as amended, or the Exchange Act). Based on our evaluation, our management, including the Chief Executive Officer and Chief Financial Officer, concluded that our disclosure controls and procedures were effective in timely alerting management, including the Chief Executive Officer and Chief Financial Officer, of material information about us required to be included in our periodic SEC filings. However, in evaluating the disclosure controls and procedures, management recognized that any controls and procedures, no matter how well designed and operated, are based upon certain assumptions about the likelihood of future events and can provide only reasonable assurance of achieving the desired control objectives, and management necessarily was required to apply its judgment in evaluating the cost-benefit relationship of possible controls and procedures. There has not been any change in our internal controls over financial reporting (as defined in Rule 13a-15(f) under the Exchange Act) that occurred during the period covered by this report that has materially affected, or is reasonably likely to materially affect, our internal controls over financial reporting.

Part II – Other Information

Item 1: Legal Proceedings.

Although we may, from time to time, be involved in litigation arising out of our operations in the normal course of business or otherwise, we are currently not a party to any pending material legal proceedings.

Item 1A: Risk Factors.

In addition to other information set forth in this report, you should carefully consider the “Risk Factors” discussed in our Annual Report on Form 10-K for the fiscal year ended September 30, 2010, which could materially affect our business, financial condition and/or operating results. Additional risks and uncertainties not currently known to us or that we currently deem to be immaterial also may materially affect our business, financial condition and/or operating results.

Item 2: Unregistered Sales of Equity Securities and Use of Proceeds.

None.

Item 3: Defaults Upon Senior Securities.

None.

Item 4: Removed and Reserved.

Item 5: Other Information.

None.
