Issuer Free Writing Prospectus Filed Pursuant to Rule 433 Registration No. 333 - 193556 February 26, 2014

This presentation contains forward - looking statements. All statements, other than statements of historical facts contained in this presentation, including statements regarding our efforts to develop and commercialize our products, anticipated yields and product performance, status of crop plantings, our short - term and long - term business strategies, market and industry expectations and future results of operations and financial position, including anticipated cost savings from our plan to align expenditures, are forward - looking statements. In many cases, you can identify forward - looking statements by terms such as “may”, “will”, “should”, “expect”, “plan”, “anticipate”, “could”, “intend”, “project”, “contemplate”, “believe”, “estimate”, “potential”, “continue” or other similar words. We based these forward - looking statements largely on our current expectations and projections about future events or trends that we believe may affect our business and financial performance. These forward - looking statements involve known and unknown risks and uncertainties that may cause our actual results, performance or achievements to materially differ from any future results, performance or achievements expressed or implied by these forward - looking statements. We have described in the “Risk Factors” section of the prospectus for this offering and elsewhere in our filings with the U.S. Securities and Exchange Commission, the material risks and uncertainties that we believe could cause actual results to differ from these forward - looking statements. Because forward - looking statements are inherently subject to risks and uncertainties, some of which we cannot predict or quantify, you should not rely on these forward - looking statements as guarantees of future results, performance or achievements. The forward looking statements in this presentation represent our views as of the date of this presentation. We undertake no obligation to update publicly, except to the extent required by law, any forward - looking statements for any reason after the date of this presentation to conform these statements to actual results or to changes in our expectations . The Company has filed a registration statement (including a prospectus) with the SEC for the offering to which this presentation relates. Before you invest, you should read the prospectus in that registration statement and other documents the Company has filed with the SEC for more complete information about the Company and this offering . You may get these documents for free by visiting EDGAR on the SEC Web site at [www.sec.gov](http://www.sec.gov). Alternatively, the Company, any underwriter or any dealer participating in the offering will arrange to send you the prospectus if you request it. A copy of the prospectus may be obtained from Aegis Capital Corp., Prospectus Department, 810 Seventh Avenue, 18th Floor, New York, NY 10019, via telephone ( 212) 813 - 1010 or by emailing [prospectus@aegiscap.com](mailto:prospectus@aegiscap.com). Safe Harbor Statement 2
