Risk Factors

An investment in our ordinary shares involves a high degree of risk. We operate in a highly competitive environment in which there are numerous factors which can influence our business, financial position or results of operations and which can also cause the market value of our ordinary shares to decline. Many of these factors are beyond our control and therefore, are difficult to predict. Prior to making a decision about investing in our ordinary shares, you should carefully consider the risk factors discussed in the section captioned “Risk Factors” in our report on Form 6-K furnished to the SEC at 16:24:11 on April 8, 2019 as updated by any document that we subsequently file with the SEC that is incorporated by reference in this prospectus supplement or the accompanying prospectus, together with other information contained, or incorporated by reference, in this prospectus supplement or the accompanying prospectus before you make a decision to invest in our ordinary shares. If any of such risks actually occur, our business, operating results, prospects or financial condition could be materially and adversely affected. This could cause the trading price of our ordinary shares to decline and you may lose all or part of your investment. The risk factors referred to above are not the only ones that we face. Additional risks not presently known to us or that we currently deem immaterial may also affect our business operations.

TABLE OF CONTENTS

SELLING SHAREHOLDER

On May 30, 2014, we entered into the Convertible Loan Agreement with IFC.

According to the Convertible Loan Agreement, IFC may at its option convert, in US\$1,000,000 increments, the IFC Loan in whole or in part, into our ordinary shares at any time on or prior to the August 29, 2019 maturity date at a conversion rate and a conversion price in effect at such time. The initial conversion rate at the time of the agreement was 38 ordinary shares per \$1,000, and the initial conversion price was \$26.35 per share. The initial conversion rate and conversion price are subject to subsequent adjustments with events that may dilute the share price. Due to the cash dividends declared and paid by the Company to holders of record of our ordinary shares subsequent to the date of the Convertible Loan Agreement, pursuant to the terms of the Convertible Loan Agreement, as of the date of this prospectus supplement, the conversion rate has adjusted to 39.81 ordinary shares per \$1,000 and the conversion price has adjusted to \$25.12, which would result in the issuance of 796,200 ordinary shares if IFC elected to convert the entire IFC Loan into our ordinary shares.

In addition to adjustments to the conversion rate of the IFC Loan that could occur as a result of our issuance of dividends, the conversion rate will increase and the conversion price will decrease if we issue ordinary shares at a price that is less than 95% of the average of the last reported volume weighted average prices of our ordinary shares for the ten consecutive trading days preceding the announcement of the issuance of our ordinary shares, which we refer to as the Ten-Day VWAP. In this regard, we are currently undertaking an underwritten public offering of our ordinary shares that could result in adjustments to the conversion rate and conversion price of the IFC Loan if we issue ordinary shares at a price less than the 95% of the Ten-Day VWAP. We cannot predict whether the price at which we issue ordinary shares in the currently contemplated underwritten public offering will be less than 95% of the Ten-Day VWAP or whether the currently contemplated underwritten offering will be consummated at all.

In connection with the Convertible Loan Agreement, we entered into a registration rights agreement with IFC, which we refer to as the IFC Registration Rights Agreement, under which the Company is required to file a registration statement covering the resale of any ordinary shares issued or issuable upon conversion of the IFC Loan. We filed an automatic shelf registration statement on Form F-3 (No. 333-208631), or the Prior Registration Statement, with the SEC on December 18, 2015, which registered the resale by IFC of 776,800 ordinary shares (subject to certain adjustments) issuable upon conversion of the IFC Loan. The Prior Registration Statement expired on December 17, 2018.

To comply with the IFC Registration Rights Agreement, we are registering the resale of 826,200 ordinary shares pursuant to this prospectus, which includes 796,200 ordinary shares currently issuable upon conversion of the IFC Loan into ordinary shares plus an additional 30,000 ordinary shares to cover our estimate of the maximum number of additional ordinary shares that could become issuable upon the conversion of the IFC Loan due to additional adjustments to the conversion rate of the IFC Loan prior to maturity. We do not expect to take any actions that would result in an adjustment of the conversion rate of the IFC Loan prior to its maturity, other than the contemplated underwritten public offering, which, depending upon its terms, may or may not cause the conversion rate to increase. The following table sets forth information regarding the beneficial ownership of our ordinary shares by the selling shareholder as of April 5, 2019, before and after giving effect to this offering by the selling shareholder. When we refer to the “selling shareholder” in this prospectus supplement, we mean the selling shareholder listed in the table below, as well as its pledgees, donees, assignees, transferees and other successors-in-interest and others who may hold any of the selling shareholder’s interest. We have determined beneficial ownership in accordance with the rules of the SEC.

PLAN OF DISTRIBUTION

The selling shareholder and any of its pledgees, assignees and successors-in-interest may, from time to time, sell any or all of its shares on the Nasdaq Global Select Market or any other stock exchange, market or trading facility on which the shares are traded or in private transactions. These sales may be at fixed or negotiated prices. The selling shareholder may use any one or more of the following methods when selling shares:

- ordinary brokerage transactions and transactions in which the broker-dealer solicits investors;
- block trades in which the broker-dealer will attempt to sell the shares as agent but may position and resell a portion of the block as principal to facilitate the transaction;
- purchases by a broker-dealer as principal and resale by the broker-dealer for its account;
- an exchange distribution in accordance with the rules of the applicable exchange;
- privately negotiated transactions;
- settlement of short sales entered into after the effective date of the registration statement of which this prospectus is a part;
- broker-dealers may agree with the selling shareholder to sell a specified number of such shares at a stipulated price per share;
- through the writing or settlement of options or other hedging transactions, whether through an options exchange or otherwise;
- a combination of any such methods of sale; or
- any other method permitted pursuant to applicable law.

The selling shareholder may also sell shares under Rule 144 under the Securities Act, if available, rather than under this prospectus supplement.

Broker-dealers engaged by the selling shareholder may arrange for other brokers-dealers to participate in sales. Broker-dealers may receive commissions or discounts from the selling shareholder (or, if any broker-dealer acts as agent for the purchaser of shares, from the purchaser) in amounts to be negotiated, but, except as set forth in a supplement to this prospectus, in the case of an agency transaction not in excess of a customary brokerage commission in compliance with FINRA Rule 2121, and, in the case of a principal transaction a markup or markdown in compliance with FINRA Rule 2121.

In connection with the sale of the shares or interests therein, the selling shareholder may enter into hedging transactions with broker-dealers or other financial institutions, which may in turn engage in short sales of the shares in the course of hedging the positions they assume. The selling shareholder may also sell the shares short and deliver

these securities to close out its short positions, or loan or pledge the shares to broker-dealers that in turn may sell these securities. The selling shareholder may also enter into option or other transactions with broker-dealers or other financial institutions or the creation of one or more derivative securities which require the delivery to such broker-dealer or other financial institution of shares offered by this prospectus, which shares such broker-dealer or other financial institution may resell pursuant to this prospectus (as supplemented or amended to reflect such transaction).

The selling shareholder and any broker-dealers or agents that are involved in selling the shares may be deemed to be “underwriters” within the meaning of the Securities Act in connection with such sales. In such event, any commissions received by such broker-dealers or agents and any profit on the resale of the shares purchased by them may be deemed to be underwriting commissions or discounts under the Securities Act. To the best of our knowledge, the selling shareholder does not have any written or oral agreement or understanding, directly or indirectly, with any person to distribute shares covered hereby.

The selling shareholder may from time to time pledge or grant a security interest in some or all of the shares owned by it and, if it defaults in the performance of its secured obligations, the pledgees or secured parties may offer and sell ordinary shares from time to time under this prospectus, or under an amendment to this prospectus under Rule 424(b)(3) or other applicable provision of the Securities Act amending the list of selling shareholders to include the pledgee, transferee or other successors in interest as selling shareholders under this prospectus.

TABLE OF CONTENTS

In addition, Regulation M may restrict the ability of any person engaged in the distribution of the securities being offered pursuant to this prospectus to engage in market-making activities with respect to our securities for a period of up to five business days before the distribution.

The Company is required to pay all fees and expenses incident to the registration of the Shares, but the Company will not receive any proceeds from the sale of the Shares.

(1)

On April 1, 2013, the Company acquired 100% equity interest of the Bond Group, a Singapore headquartered mechanical and electrical solutions service contractor of residential, commercial or industrial building construction and renovation projects in Malaysia and Singapore. The nominal purchase price was \$73 million, consisting of cash and ordinary shares, with a total fair value of approximately \$73.8 million as of the acquisition date, which, among other things, included incentive shares issuable to the selling shareholders. The 627,528 ordinary shares issued to the selling shareholders of the Bond Group were paid as a result of the achievement of certain performance targets by the Bond Group. See Note 3 to the financial statements included in our annual report on Form 20-F for the year ended June 30, 2015.

Performance Options

On May 14, 2015, certain of our employees were granted an aggregate of 1,740,000 performance share options to purchase ordinary shares according to the terms of the our 2015 Equity Incentive Plan. As of the date of the prospectus, the exercise price of these options is \$21.87 per share, which will be adjusted in

the event we pay additional dividends. These options are subject to the performance vesting requirements set forth in Note 15 (Stockholders' Equity) to our consolidated financial statements that appear in our Form 20-F for the fiscal year ended June 20, 2018, which was filed with the SEC on September 21, 2018 and is incorporated into this prospectus by reference.

Register

Our company was incorporated in the BVI on February 6, 2006 under the BVI Business Companies Act (as amended), which we refer to as the Act. We filed a Certificate of Change of Name to change its name from HLS Systems International, Inc. to Hollysys Automation Technologies Ltd. on July 17, 2009. On May 26, 2016, the board of directors of the Company, or our Board, approved our Amended and Restated M&A, to exclude the statutory acquisitions of share procedure under Sections 60 and 61 of the Act. Our Amended and Restated M&A became effective upon the registration by the BVI Registrar of Corporate Affairs on May 27, 2016. Our Board believed that this change was desirable and to the benefit of all of our shareholders because it provided Hollysys with increased flexibility of action to purchase its own shares from time to time based on market conditions, stock prices, and other factors without the delay and expense involved in offering to purchase share from all shareholders or obtaining written consent of such purchase from the shareholders as otherwise required under Sections 60 and 61 of the Act.

Objects and Purposes

Section 5 of our Amended and Restated M&A, grants the Company full power and capacity to carry on or undertake any business or activity and do any act or enter into any transaction not prohibited by the Act or any other BVI legislation.

Directors

A director must, immediately after becoming aware of the fact that he or she is interested in a transaction entered into or to be entered into by us, disclose such interest to our Board, unless (i) the transaction or proposed transaction is between the director and Hollysys and (ii) the transaction or proposed transaction is or is to be entered into in the ordinary course of our business and on usual terms and conditions. The director who is interested in a transaction entered into or to be entered into by Hollysys may (i) vote on a matter relating to the transaction; (ii) attend a meeting of directors at which a matter relating to the transaction arises and be included in the quorum; and (iii) sign a document on behalf of Hollysys, or do any other thing in his capacity as a director, that relates to the transaction.

The directors may fix their compensation for services rendered to us.

By a resolution of directors, the directors may exercise all our powers to borrow money, mortgage or charge our undertakings and property, issue debentures, debenture stock and other securities whenever money is borrowed or as security for any debt, liability or obligation occurred by us or of any third party.

Each director holds office until his successor takes office or until his earlier death, resignation or removal by the members or a resolution passed by the majority of the remaining directors.

A director shall not require a share qualification.

Directors may only be removed for cause by the shareholders.

Insofar as indemnification by us for liabilities arising under the Securities Act may be permitted to our directors, officers or persons controlling the company pursuant to provisions of our Amended and Restated M&A, or otherwise, we have been advised that in the opinion of the SEC, such indemnification is against public policy as expressed in the Securities Act and is therefore unenforceable. In the event that a claim for indemnification by such director, officer or controlling person of us in the successful defense of any action, suit or proceeding is asserted by such director, officer or controlling person in connection with the securities being offered, we will, unless in the opinion of our counsel the matter has been settled by controlling precedent, submit to a court of appropriate jurisdiction the question whether such indemnification by us is against public policy as expressed in the Securities Act and will be governed by the final adjudication of such issue.

TABLE OF CONTENTS

Rights and Obligations of Shareholders

Dividends

Subject to the Act, our directors may, by resolution of directors, declare dividends and distributions by Hollysys to members and authorize payment on the dividends or distributions so long as that immediately after the distribution, the value of our assets exceeds our liabilities and we are able to pay our debts as they fall due. Any distribution payable in respect of a share which has remained unclaimed for three years from the date when it became due for payment shall, if our Board so resolves, be forfeited and cease to remain owing by us. Our directors may, before authorizing any distribution, set aside out of our profits such sum as they think proper as a reserve fund, and may invest the sum so set apart as a reserve fund upon such securities as they may select.

The holder of each ordinary share has the right to an equal share in any distribution paid by Hollysys.

Voting Rights

Each ordinary share confers on the shareholder the right to one vote at a meeting of the members or on any resolution of members on all matters before the shareholders of the Company.

Rights in the event of winding up

The holder of each ordinary share is entitled to an equal share in the distribution of the surplus assets of Hollysys on a winding up.

Redemption

We may purchase, redeem or otherwise acquire and hold our own shares, for such consideration as the directors consider fit without the consent of members whose shares are to be purchased, redeemed or otherwise acquired.

Liability for Further Capital Calls

Shareholders are not obligated to make any further contributions to our share capital other than as agreed by the subscriber of the relevant shares on subscription. This provision means that holders of ordinary shares will not be obligated to make further contributions to our share capital.

Changes in the rights of shareholders

The rights attached to any class of shares (unless otherwise provided by the terms of issue of the shares of that class) may, whether or not the Company is being wound-up, be varied with the consent in writing of not less than three-fourths of the issued shares of that class and the holders of not less than three-fourths of the issued shares of any other class of shares which may be affected by such variation. This is not a statutory requirement under the Act and has been imposed pursuant to the terms of the Amended and Restated M&A.

Meetings

The directors may convene meetings of the members of the Company at such times and in such manner and places as the directors consider necessary or desirable. A meeting of members must be held if requested by members holding at least 30% of the voting rights in respect of the matter for which the meeting is being held. No less than seven days' notice of meetings is required to be given to members.

A meeting of members is properly constituted if at the commencement of the meeting the holder or holders present in person or by proxy entitled to exercise at least 50% of the voting rights of the shares of each class or series of shares entitled to vote as a class or series thereon and the same proportion of the votes of the remaining shares entitled to vote thereon.

A member shall be deemed to be present at the meeting if he participates by telephone or other electronic means and all members participating in the meeting are able to hear each other.

TABLE OF CONTENTS

A resolution of members may be approved at a duly constituted meeting of members by the affirmative vote of a simple majority of the votes of those members entitled to vote and voting on the resolution.

A meeting of members held in contravention of the requirement to give notice is valid if members holding not less than 90% of: (a) the total voting rights on all matters to be considered at the meeting; or (b) the votes of each class or series of shares where members are entitled to vote thereon as a class or series together with an absolute majority of the remaining votes, have waived notice of the meeting. Attendance at the meeting is deemed to constitute waiver.

The inadvertent failure of the directors to give notice of a meeting to a member, or the fact that a member has not received notice, does not invalidate the meeting.

A member may be represented at a meeting of members by a proxy who may speak and vote on behalf of the member. A written instrument giving the proxy such authority must be produced at the place appointed for the meeting before the time for holding the meeting at which such person proposes to vote.

Limitations on Ownership and Voting Rights of Securities

There are no limitations on the right of any person, including non-residents or foreign persons, to own, or exercise voting rights with respect to, our securities imposed by BVI law or by our Amended and Restated M&A, other than with respect to the our 2010 Rights Plan. See “— Takeover provisions” below.

Change in Control of Company

While directors of Hollysys may be appointed by the members or directors for such terms as may be determined at the time of such appointment, and may be removed by resolution of directors with or without cause, directors may not be removed by the members except for cause.

Our unissued and unreserved shares, including unissued and unreserved preferred shares, are at the disposal of the directors who may offer, allot, grant options over or otherwise dispose of them to such persons at such times and for such consideration, being not less than the par value of the shares being disposed of, and upon such terms and conditions as the directors may determine. While the issuance of preferred shares provides us with flexibility in connection with possible acquisitions or other corporate purposes, it could, among other things, have the effect of delaying, deferring or preventing a change of control transaction and could adversely affect the market price of our ordinary shares. We have no current plan to issue any preferred shares.

Takeover provisions

On August 27, 2010, our Board adopted the 2010 Rights Plan. In connection with the 2010 Rights Plan, our Board declared a dividend distribution of one “Right” for each outstanding ordinary share to shareholders of record at the close of business on August 27, 2010, effective as of September 27, 2010. Each Right entitles the shareholder to buy one share of our Class A preferred shares at a price of \$160. Unless terminated earlier by our Board, the 2010 Rights Plan will expire on September 27, 2020.

Initially, the Rights will only be transferable in connection with the transfer of ordinary shares, and no separate Rights certificates or stock statements will be distributed or provided. The Rights will separate from the ordinary shares and become exercisable if a person or group announces an acquisition of 20% or more of our outstanding ordinary shares, or announces commencement of a tender offer for 20% or more of the ordinary shares. In that event, the Rights permit shareholders, other than the acquiring person, to purchase our ordinary shares having a market value of twice the exercise price of the Rights, in lieu of the Class A preferred shares. In addition, in the event of certain business combinations, the Rights permit the purchase of the ordinary shares of an acquiring person at a 50% discount. Rights held by the acquiring person become null and void in each case.

The 2010 Rights Plan is designed to ensure that all of our shareholders receive fair and equal treatment in the event of any proposed takeover of us and to guard against partial tender offers, open market accumulations and other abusive or coercive tactics to gain control of us without paying all shareholders a

TABLE OF CONTENTS

control premium. The Rights will cause substantial dilution to a person or group that acquires 20% or more of our shares on terms not approved by the our Board, but the Rights should not interfere with any merger or other business combination approved by the Board at any time prior to the first date that a person or group has become an acquiring person.

Ownership Threshold

There are no provisions governing the ownership threshold above which shareholder ownership must be disclosed under the laws of the BVI or our Amended and Restated M&A.

Changes in Authorized Shares

Subject to the provisions of the Act, we may, by a resolution of directors or members, amend our Amended and Restated M&A to increase or decrease the number of our shares authorized to be issued. The directors of the Company may, by resolution, authorize a distribution (including a capital distribution) by the Company at a time, of an amount, and to any members they think fit if they are satisfied, on reasonable grounds, that the Company will, immediately after the distribution, satisfy the solvency test. The solvency test is satisfied if the value of the Company's assets exceeds its liabilities, and the Company is able to pay its debts as they fall due.

Transfer Agent and Registrar

The transfer agent and registrar for our ordinary shares is Continental Stock Transfer & Trust Company.

Differences in Corporate Law

The company law of the BVI differs from laws applicable to U.S. corporations and their shareholders. Set forth below is a summary of the significant differences between the provisions of the companies law applicable to us and the laws applicable to companies incorporated in the United States and their shareholders.

Protection for minority shareholders

Under the laws of most U.S. jurisdictions, majority and controlling shareholders of a company generally have certain "fiduciary" responsibilities to the minority shareholders. Corporate actions taken by majority and controlling shareholders that are unreasonable and materially detrimental to the interests of minority shareholders may be declared null and void. Minority shareholders may have less protection for their rights under BVI law than they would have under U.S. law.

Powers of directors

Unlike most U.S. jurisdictions, the directors of a BVI company, subject in certain cases to a court's approvals but without shareholders' approval, may implement the sale, transfer, exchange or disposition of any asset, property, part of the business, or securities of the company, with the exception that shareholder approval is required for the disposition of over 50% in the value of the total assets of the company.

Conflict of interests

Similar to the laws of most U.S. jurisdictions, when a director becomes aware of the fact that he or she has an interest in a transaction which we are to enter into, he or she must disclose it to our Board. However, with sufficient disclosure of interest in relation to that transaction, the director who is interested in a transaction entered into or to be entered into us may (i) vote on a matter relating to the transaction; (ii) attend a meeting of directors at which a matter relating to the transaction arises and be included in the quorum; and (iii) sign a document on behalf of us, or do any other thing in his capacity as a director, that relates to the transaction.

Written consent and cumulative voting

Similar to the laws of most U.S. jurisdictions, under the BVI law, shareholders are permitted to approve matters by way of written resolution in place of a formal meeting. BVI law does not make a

TABLE OF CONTENTS

specific reference to cumulative voting, and there is no provision authorizing cumulative voting under our Amended and Restated M&A. Many U.S. jurisdictions permit cumulative voting.

Shareholder's access to corporate records

A shareholder is entitled, on giving written notice to us, to inspect our (i) Amended and Restated M&A; (ii) register of members; (iii) register of directors; and (iv) minutes of meetings and resolutions of members and of those classes of members of which the shareholder is a member.

Our directors may, if they are satisfied that it would be contrary to our interests to allow a member to inspect any document listed above (or any part thereof), refuse the member to inspect the document or limit the inspection of the document. Our Board may also authorize a member to review our company account if requested.

Indemnification

Under BVI law and our Amended and Restated M&A, we may indemnify against all expenses, including legal fees, and against all judgments, fines and amounts paid in settlement and reasonably incurred in connection with legal, administrative or investigative proceedings, any person who: (a) is or was a party or is threatened to be made a party to any threatened, pending or completed proceedings, whether civil, criminal, administrative or investigative, by reason of the fact that the person is or was a director; or (b) is or was, at our request, serving as a director of, or in any other capacity is or was acting for, another body corporate or a partnership, joint venture, trust or other enterprise. To be entitled to indemnification, these persons must have acted honestly and in good faith and in what he believes to be the best interest of our company, and they must have had no reasonable cause to believe their conduct was unlawful. Furthermore, such a person must be indemnified by us if he has been successful in the defense of any proceedings.

Insofar as indemnification for liabilities arising under the Securities Act may be permitted to directors, officers or persons controlling us under the foregoing provisions, we have been advised that in the opinion of the SEC, such indemnification is against public policy as expressed in the Securities Act and is therefore unenforceable.

Mergers and similar arrangements

Under the laws of the BVI, two or more companies may merge or consolidate in accordance with Section 170 of the Act. A merger means the merging of two or more constituent companies into one of the constituent companies, and a consolidation means the uniting of two or more constituent companies into a new company. In order to merge or consolidate, the directors of each constituent company must approve a written plan of merger or consolidation which must be authorized by a resolution of shareholders.

Shareholders not otherwise entitled to vote on the merger or consolidation may still acquire the right to vote if the plan of merger or consolidation contains any provision which, if proposed as an amendment to the memorandum or articles of association, would entitle them to vote as a class or series on the proposed amendment. In any event, all shareholders must be given a copy of the plan of merger or consolidation irrespective of whether they are entitled to vote at the meeting or consent to the written resolution to approve the plan of merger or consolidation.

The shareholders of the constituent companies are not required to receive shares of the surviving or consolidated company but may receive debt obligations or other securities of the surviving or consolidated company, or other assets, or a combination thereof. Further, some or all of the shares of a class or series may be converted into a kind of asset while the other shares of the same class or series may receive a different kind of asset. As such, not all the shares of a class or series must receive the same kind of consideration.

After the plan of merger or consolidation has been approved by the directors and authorized by a resolution of the shareholders, articles of merger or consolidation are executed by each company and filed with the Registrar of Corporate Affairs in the BVI.

TABLE OF CONTENTS

Dissenter Rights

A shareholder may dissent from a mandatory redemption of his shares, an arrangement (if permitted by the court), a merger (unless the shareholder was a shareholder of the surviving company prior to the merger and continues to hold the same or similar shares after the merger) and a consolidation. A shareholder properly exercising his dissent rights is entitled to payment in cash of the fair value of his shares.

A shareholder dissenting from a merger or consolidation must object in writing to the merger or consolidation before the vote by the shareholders on the merger or consolidation, unless notice of the meeting was not given to the shareholder. If the merger or consolidation is approved by the shareholders, the company must within 20 days give notice of this fact to each shareholder who gave written objection, and to each shareholder who did not receive notice of the meeting. Such shareholders then have 20 days to give their written election in the form specified by the Act to dissent from the merger or consolidation, provided that in the case of a merger, the 20 days starts when the plan of merger is delivered to the shareholder.

Upon giving notice of his election to dissent, a shareholder ceases to have any rights of a shareholder except the right to be paid the fair value of his shares. As such, the merger or consolidation may proceed in the ordinary course notwithstanding the dissent.

Within seven days of the later of the delivery of the notice of election to dissent and the effective date of the merger or consolidation, the company must make a written offer to each dissenting shareholder to purchase his shares at a specified price that the company determines to be their fair value. The company and the shareholder then have 30 days to agree upon the price. If the company and a shareholder fail to agree on the price within the 30 days, then the company and the shareholder shall each designate an appraiser and these two appraisers shall designate a third appraiser. These three appraisers shall fix the fair value of the shares as of the close of business on the day before the shareholders approved the transaction without taking into account any change in value as a result of the transaction.

Under BVI law, shareholders are not entitled to dissenters' rights in relation to liquidation.

Shareholders' suits

Similar to the laws of most U.S. jurisdictions, BVI law permits derivative actions against its directors. However, the circumstances under which such actions may be brought, and the procedures and defenses available may result in the rights of shareholders of a BVI company being more limited than those of shareholders of a company incorporated and/or existing in the United States.

The High Court of the BVI may, on the application of a shareholder of a company, grant leave to that shareholder to bring proceedings in the name and on behalf of that company, or intervene in proceedings to which the company is a party for the purpose of continuing, defending or discontinuing the proceedings on behalf of the company. In determining whether to grant leave, the High Court of the BVI must take into account (i) whether the shareholder is acting in good faith; (ii) whether the derivative action is in the interests of the company taking account of the views of the company's directors on commercial matters; (iii) whether the proceedings are likely to succeed; (iv) the costs of the proceedings in relation to the relief likely to be obtained; and (v) whether an alternative remedy to the derivative claim is available.

Leave to bring or intervene in proceedings may be granted only if the court is satisfied that (i) the company does not intend to bring, diligently continue or defend, or discontinue the proceedings, as the case may be; or (ii) it is in the interests of the company that the conduct of the proceedings should not be left to the directors or to the determination of the shareholders as a whole.

TAXATION

The following is a general summary of certain material BVI, China and U.S. federal income tax considerations. The discussion is not intended to be, nor should it be construed as, legal or tax advice to any particular prospective shareholder. The discussion is based on laws and relevant interpretations thereof in effect as of the date hereof, all of which are subject to change or different interpretations, possibly with retroactive effect.

BVI Taxation

The BVI does not impose a withholding tax on dividends paid to holders of our ordinary shares, nor does the BVI levy any capital gains or income taxes on us. Further, a holder of our ordinary shares who is not a resident of the BVI is exempt from the BVI income tax on dividends paid with respect to the ordinary shares. Holders of ordinary shares are not subject to the BVI income tax on gains realized on the sale or disposition of the ordinary shares.

Our ordinary shares are not subject to transfer taxes, stamp duties or similar charges in the BVI. However, as a company incorporated under the 2004 Act, we are required to pay the BVI government an annual license fee based on the number of shares we are authorized to issue.

There is no income tax treaty or convention currently in effect between the United States and the BVI.

Taxation in China

We are a holding company incorporated in the BVI, which indirectly holds our equity interests in our PRC operating subsidiaries. The PRC Enterprise Income Tax Law, or the EIT Law and its implementation rules, both of which became effective as of January 1, 2008, provide that a PRC enterprise is subject to a standard income tax rate of 25% and China-sourced income of foreign enterprises, such as dividends paid by a PRC subsidiary to its overseas parent, will normally be subject to PRC withholding tax at a rate of 10%, unless there are applicable treaties between the overseas parent's jurisdiction of incorporation and China to reduce such rate.

Under the Arrangement between the Mainland and the Hong Kong Special Administrative Region for the Avoidance of Double Taxation and the Prevention of Fiscal Evasion with respect to Taxes on Income, or the Double Taxation Arrangement, effective as of January 1, 2007, such dividend withholding tax rate is reduced to 5% if a Hong Kong resident enterprise owns over 25% of the PRC company distributing the dividends. Under the aforesaid arrangement, any dividends that our PRC operating subsidiaries pay to their Hong Kong holding companies may be subject to a withholding tax at the rate of 5% if they are not considered to be a PRC "resident enterprise" as described below.

However, if the Hong Kong holdings companies are not considered to be the "beneficial owner" of such dividends under the Notice Regarding Interpretation and Recognition of Beneficial Owners under Tax Treaties promulgated by the State Administration of Taxation on October 27, 2009 (and not a PRC "resident enterprise"), such dividends would be subject to the withholding tax rate of 10%. The withholding tax rate of 5% or 10% applicable will have a significant impact on the amount of dividends to be received by us and ultimately by shareholders.

According to the Notice Regarding Interpretation and Recognition of Beneficial Owners under Tax Treaties, the term "beneficial owner" refers to a person who has the right to own and dispose of the income and the rights or properties generated from the said income. The "beneficial owner" may be an individual, a company or any other organization which is usually engaged in substantial business operations. A conduit company is not a "beneficial owner." The term "conduit company" refers to a company which is usually established for purposes of dodging or reducing taxes, and transferring or accumulating profits. Such a company is only registered in the country of domicile to satisfy the organizational form as required by law, but it does not engage in such substantial business operations as manufacturing, distribution and management.

In addition to the changes to the current tax structure, under the EIT Law, an enterprise established outside of China with "de facto management bodies" within China is considered a resident enterprise and will normally be subject to an EIT of 25% on its global income. The implementing rules define the term "de facto management bodies" as "an establishment that exercises, in substance, overall management and control over the production, business, personnel, accounting, etc., of a Chinese enterprise."

TABLE OF CONTENTS

It remains unclear whether the PRC tax authorities would require or permit our overseas registered entities to be treated as PRC resident enterprises. We do not currently consider our company to be a PRC resident enterprise and we do not withhold the 10% EIT when we distributed dividends to our non-resident enterprise shareholders in the past. However, if the PRC tax authorities determine that we are considered to be a “resident enterprise” for PRC enterprise income tax purposes, a number of unfavorable PRC tax consequences could follow: (1) we may be subject to the PRC enterprise income tax at the rate of 25% on our worldwide taxable income; (2) dividend income that we received from our PRC subsidiaries may be exempt from the PRC withholding tax; and (3) dividends paid to our overseas shareholders who are non-PRC resident enterprises as well as gains realized by these shareholders from the transfer of our shares may be regarded as PRC-sourced income and as a result be subject to PRC withholding tax at a rate of up to 10%, subject to any reduction or exemption set forth in relevant tax treaties, and similarly, dividends paid to our overseas shareholders who are non-PRC resident individuals, as well as gains realized by these shareholders from the transfer of our shares, may be regarded as PRC-sourced income and as a result be subject to PRC withholding tax at a rate of 20%, subject to any reduction or exemption set forth in relevant tax treaties.

Under the EIT Law and its implementing rules, a non-resident enterprise is generally subject to PRC enterprise income tax with respect to PRC-sourced income, but there remain substantial uncertainties as to their interpretation and application by the relevant PRC tax authorities. We intend to comply with any interpretation or notice in relation to the taxation of capital gains issued by the PRC tax authorities in the future.

United States Federal Income Taxation

The following is a discussion of the material U.S. federal income tax consequences of the acquisition, ownership and disposition of our ordinary shares by U.S. holders (as defined below). It does not purport to be a comprehensive description of all of the tax considerations that may be relevant to a particular person’s situation. The discussion applies only to U.S. holders that hold their ordinary shares as capital assets (generally property held for investment) within the meaning of Section 1221 of the Internal Revenue Code of 1986, as amended, or the Code. This discussion is based on the Code, income tax regulations promulgated there under, judicial positions, published positions of the Internal Revenue Service, or the IRS, and other applicable authorities, all as in effect as of the date hereof and all of which are subject to change, possibly with retroactive effect. This discussion is general in nature and is not exhaustive of all possible tax considerations, nor does the discussion address any state, local or foreign tax considerations or any U.S. tax considerations (e.g., estate or gift tax) other than U.S. federal income tax considerations, that may be applicable to particular holders.

This discussion does not address all aspects of U.S. federal income taxation that may be relevant in light of particular circumstances, nor does it address the U.S. federal income tax consequences to persons who are subject to special rules under U.S. federal income tax law, including:

- banks, insurance companies or other financial institutions;
- persons subject to the alternative minimum tax;
- tax-exempt organizations;
- corporations that accumulate earnings to avoid United States federal income tax;
- certain former citizens or long-term residents of the United States;
- dealers in securities or currencies;

- traders in securities that elect to use a mark-to-market method of accounting for their securities holdings;
- persons that own, or are deemed to own, more than five percent of our capital stock;
- holders who acquired our stock as compensation or pursuant to the exercise of a stock option; or
- persons who hold our common stock as a position in a hedging transaction, “straddle,” or other risk reduction transaction.

TABLE OF CONTENTS

For purposes of this discussion, a U.S. holder is (i) an individual who is a citizen or resident of the United States for U.S. federal income tax purposes; (ii) a corporation, or other entity treated as a corporation for U.S. federal income tax purposes, created or organized in or under the laws of the United States (or treated as such under applicable U.S. tax laws), any state thereof, or the District of Columbia; (iii) an estate the income of which is subject to U.S. federal income tax regardless of its source; or (iv) a trust if (a) a U.S. court is able to exercise primary supervision over the administration of the trust and one or more U.S. persons have the authority to control all substantial decisions of the trust, or (b) it has a valid election in effect under applicable law and regulations to be treated as a U.S. person for U.S. federal income tax purposes. A non-U.S. holder is a holder that is neither a U.S. holder nor a partnership or other entity classified as a partnership for U.S. federal income tax purposes.

In the case of a partnership or entity classified as a partnership for U.S. federal income tax purposes, the U.S. federal income tax treatment of a partner generally will depend on the status of the partner and the activities of the partnership. Partners of partnerships or entities classified as partnerships for U.S. federal income tax purposes should consult their tax advisors regarding the U.S. federal income tax consequences to them of the merger or of the ownership and disposition of our ordinary shares.

Distributions

On August 11, 2016, our Board approved a regular cash dividend policy pursuant to which future cash dividends are expected to be paid to holders of the Company's ordinary shares on an annual basis out of funds legally available for such purpose. Subject to the discussion of the passive foreign investment company rules below, the gross amount of such distributions will be included in the gross income of the U.S. holder as dividend income on the date of receipt to the extent that the distribution is paid out of current or accumulated earnings and profits, as determined under U.S. federal income tax principles. Such dividends will not be eligible for the dividends-received deduction allowed to corporations. Dividends received by non-corporate U.S. holders, including individuals, may be subject to reduced rates of taxation under current law, provided certain requirements are met.

In the event that the Company is deemed to be a PRC resident enterprise for PRC tax purposes, a U.S. holder may be subject to PRC withholding taxes on dividends paid on our ordinary shares. See "Taxation — Taxation in China." In that case, a U.S. holder may be eligible to claim a foreign tax credit with respect to any PRC withholding tax imposed on dividends paid by us. However, the foreign tax credit rules are complex, and their application in connection with Section 7874 of the Code and the Agreement Between the Government of the United States of America and the Government of the People's Republic of China for the Avoidance of Double Taxation and the Prevention of Tax Evasion with Respect to Taxes on Income, or the U.S.-PRC Tax Treaty, is not entirely clear at this time. U.S. holders should consult their own tax advisors with respect to any benefits they may be entitled to under the foreign tax credit rules and the U.S.-PRC Tax Treaty.

To the extent that dividends paid on our ordinary shares exceed current and accumulated earnings and profits, the distributions will be treated first as a tax-free return of tax basis on our ordinary shares, and to the extent that the amount of the distribution exceeds tax basis, the excess will be treated as gain from the disposition of those ordinary shares.

Sale or Other Disposition

Subject to the discussion of the passive foreign investment company rules below, U.S. holders of our ordinary shares will recognize taxable gain or loss on any sale, exchange, or other taxable disposition of ordinary shares equal to the difference between the amounts realized for the ordinary shares and the U.S. holder's tax basis in the ordinary shares. This gain or loss generally will be capital gain or loss. Under current law, non-corporate U.S. holders, including individuals, are eligible for reduced tax rates if the ordinary shares have been held for more than one year. The deductibility of capital losses is subject to limitations.

In the event that the Company is deemed to be a PRC resident enterprise for PRC tax purposes, a U.S. holder may be subject to PRC tax on any gain from the sale or other disposition of the ordinary shares. See "Taxation — Taxation in China." In that case, a U.S. holder may be eligible to claim a foreign tax credit

with respect to any PRC withholding tax imposed on gain from the sale or other disposition of ordinary shares. However, the foreign tax credit rules are complex, and their application in connection with Section 7874 of the Code and the U.S.-PRC Tax Treaty is not entirely clear at this time. U.S. holders should consult their own tax advisors with respect to any benefits they may be entitled to under the foreign tax credit rules and the U.S.-PRC Tax Treaty.

Unearned Income Medicare Contribution

Certain U.S. holders who are individuals, trusts or estates are required to pay an additional 3.8% tax on net investment income, which includes, among other things, dividends on and capital gains from the sale or other disposition of shares of stock. U.S. holders should consult their own advisors regarding the effect, if any, of this tax provision on their ownership and disposition of our ordinary shares.

Passive Foreign Investment Company Rules

In general, a foreign corporation will be a passive foreign investment company, or PFIC, for any taxable year in which (1) 75% or more of its gross income consists of passive income (such as dividends, interest, rents royalties and certain gains) or (2) 50% or more of the average quarterly value of its assets consists of assets that produce, or are held for the production of, passive income.

Based on our current income and assets and the value of our outstanding ordinary shares, we do not believe that we were a PFIC for our taxable year ended June 30, 2018 and do not expect to become a PFIC in the foreseeable future.

While we do not anticipate becoming a PFIC, changes in the nature of our income or assets, or fluctuations in the market price of our ordinary shares, may cause us to become a PFIC for future taxable years.

If we were a PFIC for any taxable year during which a U.S. Holder owned our ordinary shares, the U.S. Holder may be subject to adverse tax consequences. Generally, gain recognized upon a disposition (including, under certain circumstances, a pledge) of ordinary shares by the U.S. Holder would be allocated ratably over the U.S. Holder's holding period for such share. The amounts allocated to the taxable year of disposition and to taxable years prior to the first taxable year in which we became a PFIC would be taxed as ordinary income. The amount allocated to each other taxable year would be subject to tax at the highest tax rate in effect for that taxable year for individuals or corporations, as appropriate, and an interest charge would be imposed on the tax attributable to the allocated amounts. Further, to the extent that any distribution received by a U.S. Holder on ordinary shares exceeded 125% of the average of the annual distributions received on such shares during the preceding three years or the U.S. Holder's holding period, whichever is shorter, that distribution would be subject to taxation in the same manner. Certain elections may be available that would result in alternative treatments (such as a mark-to-market treatment) of the shares. U.S. Holders should consult their tax advisers to determine whether such elections are available and, if so, what the consequences of the alternative treatments would be in those holders' particular circumstances. U.S. Holders should also consult their tax advisers regarding the determination of whether we are a PFIC and the potential application of the PFIC rules.

Information Reporting and Backup Withholding

Payments of dividends or of proceeds on the disposition of stock made to a holder of our ordinary shares may be subject to information reporting and backup withholding at a current rate of 24% unless such holder provides a correct taxpayer identification number on IRS Form W-9 (or other appropriate withholding form) or establishes an exemption from backup withholding.

Backup withholding is not an additional tax; rather, the U.S. income tax liability of persons subject to backup withholding will be reduced by the amount of tax withheld. If withholding results in an overpayment of taxes, a refund or credit may generally be obtained from the IRS, provided that the required information is furnished to the IRS in a timely manner.
