EXPLANATORY NOTE

This Amendment No. 1 (“Amendment No. 1”) to our Annual Report on Form 20-F for the year ended December 31, 2015, originally filed with the Securities and Exchange Commission on April 27, 2016 (“2015 Form 20-F”), is being filed solely for the purpose of furnishing a revised audit report of BDO China Shu Lun Pan Certified Public Accountants LLP that is for all financial statement periods included in the consolidated financial statements as required by Rule 2-01 of Regulation S-X. The revised audit report together with the consolidated financial statements for China Finance Online Co. Limited, its subsidiaries, its variable interest entities (“VIEs”) and its VIE’s subsidiaries are included at the end of this Amendment No.1. The revised audit report clearly indicates it covers our consolidated balance sheets as of ended December 31, 2015 and 2014, and the related consolidated statements of comprehensive income, changes in shareholders’ equity, and cash flows for each of the three years in the period ended December 31, 2015. No other changes have been made in the consolidated financial statements previously filed or in the footnotes thereto.

Other than as expressly set forth above, this Amendment No. 1 does not, and does not purport to, amend, update or restate the information in any other item of the 2015 Form 20-F, or reflect any events that have occurred after the 2015 Form 20-F was originally filed. The Company’s 2015 Form 20-F, as amended by this Amendment No. 1, continues to speak as of the initial filing date of the 2015 Form 20-F.

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

Board of Directors and Shareholders
China Finance Online Co. Limited.

We have audited the accompanying consolidated balance sheets of China Finance Online Co. Limited, its subsidiaries, its variable interest entities ("VIEs") and its VIEs' subsidiaries (the "Group") as of December 31, 2015 and 2014, and the related consolidated statements of comprehensive income, changes in shareholders' equity, and cash flows for each of the three years in the period ended December 31, 2015. Our audit of the basic consolidated financial statements included the financial statement schedule listed in the index appearing under Schedule I. These financial statements and financial statement schedule are the responsibility of the Group's management. Our responsibility is to express an opinion on these financial statements and financial statement schedule based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. We were not engaged to perform an audit of the Group's internal control over financial reporting. Our audits included consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Group's internal control over financial reporting. Accordingly, we express no such opinion. An audit also includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the consolidated financial statements referred to above present fairly, in all material respects, the financial position of China Finance Online Co. Limited, its subsidiaries, its VIEs and its VIEs' subsidiaries as of December 31, 2015 and 2014, and the results of their operations and their cash flows for each of the three years in the period ended December 31, 2015 in conformity with accounting principles generally accepted in the United States of America. Also in our opinion, the related financial statement schedule, when considered in relation to the basic consolidated financial statements taken as a whole, present fairly, in all material respects, the information set forth therein.

1. ORGANIZATION AND PRINCIPAL ACTIVITIES

China Finance Online Co. Limited ("China Finance Online" or the "Company") was incorporated in Hong Kong on November 2, 1998. China Finance Online, its subsidiaries, its variable interest entities ("VIEs") and its VIEs' subsidiaries (collectively, the "Group") is a leading web-based financial services company in China.

The Company provides Chinese retail investors with online access to securities, commodities and wealth management products, as well as financial database and analytics services to institutional customers. The Company's prominent flagship portal site *www.jrj.com* is ranked among the top financial websites in China. Leveraging our extensive experience and robust internet capabilities, the Company is adapting and strategically transitioning its business to the new environment by rapidly building Investment Masters (iTougu) and Yinglibao, the Company's two newest businesses, into leading one-stop financial products and services platforms for individual investors in China.

In 2015, the Company integrated its web-based trading platform, *Securities Master (Zhengquantong)*, and *Yinglibao*, its internet-based financial platform that integrates cash management solutions and mutual fund distribution, into *iTougu* which facilitates communication between securities investment advisors and their respective clients and followers in real-time and for 24 hours a day, and enabling a vast number of Chinese individual investors to obtain private advice from thousands of securities investment advisors. The Company also continued to diversify its product offerings on the wealth management platform, *Yinglibao*. The Company also provides our rapidly growing commodities brokerage services (formerly known as precious metals business) in mainland China along with brokerage services in Hong Kong in order to address market demand for alternative investment opportunities. We further diversified our product offering in the commodities brokerage services with the launch of a heavy oil brokerage business in 2015.

In addition, the Company offers basic financial software, information services and securities investment advisory services to retail investors in China. Through its subsidiary, Shenzhen Genius Information Technology Co., Ltd., the Company provides financial database and analytics to institutional customers including domestic financial, research, academic and regulatory institutions. China Finance Online also provides brokerage services in Hong Kong.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

FOR THE YEARS ENDED DECEMBER 31, 2013, 2014 AND 2015

(In U.S. dollars)

1. ORGANIZATION AND PRINCIPAL ACTIVITIES - continued

The consolidated financial statements of the Group include the financial statements of the Company and its controlled operating entities including the subsidiaries and the variable interest entities for which the Company is the primary beneficiary. A variable interest entity is the entity in which the Company, through contractual arrangements as the primary beneficiary, bears the risks of, and enjoys the rewards normally associated with ownership of the entity.

People's Republic of China ("PRC") regulations prohibit or restrict direct foreign ownership of business entities providing certain services in PRC, such as internet content service and securities investment advisory service. In order to comply with these regulations, China Finance Online, through its subsidiaries, entered into contractual arrangements with the Company's VIEs and their equity owners who are PRC citizens.

The Group made loans to the shareholders of the VIEs solely for the purposes of capitalizing the VIEs. Pursuant to the loan agreements, these loans can only be repaid by transferring all of their interests in the VIEs to the Group or a third party designated by the Group. The Group has entered into proxy agreements or power of attorney and exclusive equity purchase option agreements with the VIEs and nominee shareholders of the VIEs through the Company's wholly owned significant subsidiaries including CFO Beijing, CFO Software, CFO Zhengyong and CFO Zhenotong (collectively, the "WFOEs" and each a "WFOE"). The foregoing agreements provide the WFOEs the right to direct the activities that most significantly affect the economic performance of the VIEs and to acquire the equity interests in the VIEs when permitted by the PRC laws, respectively. Certain exclusive agreements have been entered into with the VIEs through the WFOEs, which obligate the WFOEs to absorb the majority of the risk of loss from the VIEs' activities and entitle the WFOEs to receive the majority of their residual returns. In addition, the Group has entered into share pledge agreements for the equity interests in the VIEs held by the shareholders of the VIEs.

Despite the lack of technical majority ownership, the agreements with the VIEs provide the WFOEs with effective control over and the ability to receive substantially all of the economic benefits of its VIEs, resembling a parent-subsidiary relationship between the WFOEs and the VIEs. The shareholders of the VIEs effectively assigned all of their voting rights underlying their equity interest in the VIEs to the WFOEs. In addition, through the other exclusive agreements, which consist of strategic consulting services agreement, technical support services agreement and operating support services agreement, the WFOEs demonstrate their ability and intention to continue to exercise the ability to absorb substantially all of the profits and all of the expected losses of the VIEs. The VIEs are subject to operating risks, which determine the variability of the Company's interest in those entities. Based on these contractual

arrangements, the Company consolidates the VIEs as required by SEC Regulation SX-3A-02 and Accounting Standards Codification ("ASC") Topic 810 ("ASC 810") because the Company holds all the variable interests of the VIEs through the WFOEs.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

FOR THE YEARS ENDED DECEMBER 31, 2013, 2014 AND 2015

(In U.S. dollars)

1. ORGANIZATION AND PRINCIPAL ACTIVITIES - continued

The principal terms of the agreements entered into amongst the VIEs, their respective shareholders and the WFOEs are further described below.

Exclusive technology consulting and management service agreement

Pursuant to a series of technology support and service agreements, the WOFEs retain exclusive right to provide the VIEs and their subsidiaries technology support and consulting services and exclusive management consulting service. As a result of these services, the WOFEs are entitled to charge the VIEs and their subsidiaries annual service fees. The terms of the strategic consulting services agreement, the technical support services agreement and the operating support services agreement are twenty, ten and ten years, respectively, and these agreements will be automatically renewed on applicable expiration dates, unless the contracting WOFE informs the corresponding VIE its intention to terminate such contract one month prior to the applicable expiration date. Notwithstanding the foregoing, none of the parties has a right to terminate the service contracts. The principal services agreements that the WOFEs have entered into with VIEs include:

- strategic consulting services agreement, pursuant to which the amount of the fee to be charged is 30% of each VIE's income before tax;
- technical support services agreement, pursuant to which the amount of the fee to be charged is 30% of each VIE's income before tax; and
- operating support services agreement, pursuant to which the amount of the fee to be charged is 40% of each VIE's income before tax.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

FOR THE YEARS ENDED DECEMBER 31, 2013, 2014 AND 2015

(In U.S. dollars)

1. ORGANIZATION AND PRINCIPAL ACTIVITIES – continued

Exclusive purchase right agreement on the equity interest of the VIEs

Pursuant to the purchase option agreement, the WOFEs have the unconditional right to purchase the entire equity interest in, or all the assets of the VIEs at a price equal to the total principal amount of the loan lent by the WOFEs to the shareholders of the VIEs when and if such purchase is permitted by the PRC law or the current shareholders of the VIEs cease to be directors or employees of the VIEs. The term of the exclusive purchase right agreement is perpetual and can be terminated at the discretion of the WOFEs.

Power of attorney

Pursuant to the power of attorney, each of the shareholders of the VIEs have executed an irrevocable power of attorney assigning the WOFEs or individuals designated by the WOFEs as their attorney-in-fact to vote on their behalf on all matters of the VIEs requiring shareholder approval under PRC laws and regulations and the articles of association of VIEs.

The Articles of Incorporation of the VIE state that the major rights of the shareholders include the right to appoint directors, the general manager and other senior management. Therefore, through the irrevocable power of attorney arrangement, the WOFEs have the ability to exercise effective control over the VIEs through shareholder votes and, through such votes, to also control the composition of the board of directors. In addition, the senior management team of the VIEs is the same as that of the WOFEs. The term of the power of attorney is twenty years and will be automatically renewed on the expiration date. The contract can be terminated at the discretion of the WOFEs.

Pledge agreement

Pursuant to the equity pledge agreement between the WOFEs and the shareholders of the VIEs, the shareholders of the VIEs pledged all of their equity interests in the VIEs to the WOFEs to guarantee the VIEs' performance of its obligations under the exclusive technology consulting and service agreement. If the VIEs breach their contractual obligations under that agreement, the WOFEs, as the pledge, will be entitled to certain rights, including the rights to sell the pledged equity interests. The shareholders of the VIEs agree that, without prior written consent of the WOFEs, they will not transfer, sell, and dispose of or create any encumbrance on their equity interest in the VIEs. The term of the pledge agreement is twenty years and will be automatically renewed on the expiration date, unless the WOFEs inform the VIEs of their intention to terminate the agreement one month prior to the expiration date.

Through these contractual agreements, the WOFEs have the ability to effectively control the VIEs and are also able to receive substantially all the economic benefits of the VIEs.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS - continued

FOR THE YEARS ENDED DECEMBER 31, 2013, 2014 AND 2015

(In U.S. dollars)

1. ORGANIZATION AND PRINCIPAL ACTIVITIES - continued

Details of significant VIEs and their counterparts which substantially control the VIEs as of December 31, 2015 were as follows:

<u>VIE name</u>	<u>Contractual arrangement</u>	<u>Date counterpart</u>
CFO Fuhua	May 27, 2004	CFO Beijing
CFO Chongzhi	June 8, 2008	CFO Software
CFO Newrand	October 17, 2008	CFO Zhengyong
CFO Qicheng	November 20, 2009	CFO Chuangying
Stockstar Wealth Management	April 12, 2011	CFO Zhengtong

Risks in relation to the VIE structure

The Company's ability to control the VIEs also depends on the power of attorney the WOFEs have to vote on all matters requiring shareholder approval in the VIEs. As noted above, the Company believes this power of attorney is legally enforceable but may not be as effective as direct equity ownership.

In addition, if the legal structure and contractual arrangements were found to be in violation of any existing PRC laws and regulations, the regulatory authorities may exercise their discretion and

- revoke the business and operating licenses of our PRC subsidiaries or VIEs;
- restrict the rights to collect revenues from any of our PRC subsidiaries;
- discontinue or restrict the operations of any related-party transactions among our PRC subsidiaries or VIEs;
- require our PRC subsidiaries or VIEs to restructure the relevant ownership structure or operations;
- take other regulatory or enforcement actions, including levying fines that could be harmful to our business; or
- impose additional conditions or requirements with which we may not be able to comply.

The imposition of any of these penalties may result in a material adverse effect on the Company's ability to conduct its business. In addition, if the imposition of any of these penalties causes the Company to lose the rights to direct the activities of the VIEs and their subsidiaries or the right to receive their economic benefits, the Company would no longer be able to consolidate the VIEs. The Company does not believe that any penalties imposed or actions taken by the PRC Government would result in the liquidation of the Company, its subsidiaries, or the VIEs.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS - continued**FOR THE YEARS ENDED DECEMBER 31, 2013, 2014 AND 2015****(In U.S. dollars)****1. ORGANIZATION AND PRINCIPAL ACTIVITIES – continued**

The Company has consolidated its VIEs because it was the primary beneficiary of those entities. Through the contractual agreements discussed above, the Company, through its wholly owned subsidiaries, has (1) the power to direct the activities of the VIEs that most significantly affect the entities' economic performance and (2) the right to receive benefits from the VIEs, therefore it consolidates the VIEs.

The consolidated VIEs operate securities investment advisory business and commodities brokerage business. The following table presents the most important revenue-producing assets to operate commodities brokerage business, which was recognized in the Company's consolidated financial statements.

	December 31 ,	
	2014	2015
Commodities brokerage business:

Customer relationship	894,219	573,312
	\$2,185,280	\$1,539,534

The VIEs also hold important unrecognized revenue-producing assets, such as our domain names and Internet Content Provider Licenses with respect to *www.jrj.com* and *www.stockstar.com* and certain value-added technologies, which were also considered revenue-producing assets. However, none of such assets were recorded on the Company's consolidated balance sheets as such assets were all acquired or internally developed with insignificant costs and expenses incurred.

FOR THE YEARS ENDED DECEMBER 31, 2013, 2014 AND 2015

(In U.S. dollars)

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of presentation

The consolidated financial statements of the Group have been prepared in accordance with accounting principles generally accepted in the United States of America ("U.S. GAAP").

Basis of consolidation

The consolidated financial statements include the financial statements of China Finance Online, its subsidiaries, VIEs for which the Company is the primary beneficiary and those VIEs' subsidiaries. All inter-company transactions and balances have been eliminated upon consolidation.

Cash and cash equivalents

Cash and cash equivalents consist of cash on hand and highly liquid investments which are unrestricted as to withdrawal or use, and which have original maturities of three months or less when purchased.

Restricted cash

Restricted cash is the deposit in bank accounts for providing guarantee to subscription revenue customers by Shanghai Stockstar Securities Advisory and Investment Co., Ltd. ("CFO Securities Consulting") in accordance with the requirement of China Securities Regulatory Commission ("CSRC"). The restriction period is one year.

Fair value

Fair value is the price that would be received from selling an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. When determining the fair value measurements for assets and liabilities required or permitted to be recorded at fair value, the Group considers the principal or most advantageous market in which it would transact and it considers assumptions that market participants would use when pricing the asset or liability.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - continued

Fair value - continued

Authoritative literature provides a fair value hierarchy which prioritizes the inputs to valuation techniques used to measure fair value into three broad levels. The level in the hierarchy within which the fair value measurement in its entirety falls is based upon the lowest level of input that is significant to the fair value measurement as follows:

Level 1-inputs are based upon unadjusted quoted prices for identical instruments traded in active markets.

Level 2-inputs are based upon quoted prices for similar instruments in active markets, quoted prices for identical or similar instruments in markets that are not active and model-based valuation techniques for which all significant assumptions are observable in the market or can be corroborated by observable market data for substantially the full term of the assets or liabilities.

Level 3-inputs are generally unobservable and typically reflect management's estimates of assumptions that market participants would use in pricing the asset or liability. The fair values are therefore determined using model-based techniques that include option pricing models, discounted cash flow models, and similar techniques.

The Group measures certain assets, including the long-term investments and intangible assets, at fair value on a nonrecurring basis when they are deemed to be impaired. The fair values of these investments and intangible assets are determined based on valuation techniques using the best information available, and may include management judgments, future performance projections, etc.

Trust bank balances held on behalf of customers

Trust bank balances held on behalf of customers consist two parts: i) iSTAR Securities and iSTAR Futures receive fund from customers for purpose of buying or selling securities and futures on behalf of its customers and deposits the fund in its interest-bearing bank account; ii) The funds received by CFO Newrand from customers who purchase mutual funds and other wealth management products which are deposited in a trust bank account. The Group launched "Yinglibao", an internet-based financial platform that integrates cash management solutions and mutual fund distribution. Such bank balance represents an asset of the Group for the amounts due to customers for the trust bank balance held on their behalf and payable to customers on demand. The Group also recognizes a corresponding liability.

Use of estimates

The preparation of financial statements in conformity with U.S. GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and revenue and expenses in the financial statements and accompanying notes. Significant accounting estimates reflected in the Group's financial statements include account receivable, cost method investment, equity method investment, impairment of goodwill and long-lived assets, income taxes, share-based compensation and purchase price allocation. Actual results could differ from those estimates.

Loan receivable

Loans are reported at either their outstanding principal balances. For loans reported at their outstanding principal balances, interest income is accrued on the unpaid principal balance. A loan is considered impaired when, based on current events and the financial condition of the borrower, it is probable that the company will be unable to collect all principal and interest due according to the contractual terms of the loan agreement. Loan collectability is monitored by the Group in connection with the ongoing monitoring of the associated financial guarantee transactions.

Short-term investments

Short-term investments comprise marketable debt and equity securities, which are classified as trading, held-to-maturity or available-for-sale. Trading securities are securities that are bought and held principally for the purpose of selling them in the near term and are reported at fair value, with unrealized gains and losses recognized in earnings. Short-term investments are classified as held-to-maturity when the Company has the positive intent and ability to hold the securities to maturity. All of the Company's held-to-maturity securities are classified as short-term investments on the consolidated balance sheets based on their contractual maturity dates which are less than one year and are stated at their amortized costs. Short-term investments classified as available for sale are carried at their fair

values and the unrealized gains or losses from the changes in fair values are included in accumulated other comprehensive income. Available for sale securities are classified as current assets on the accompanying consolidated balance sheets because they are available for immediate sale.

The Group reviews its short-term investments for other-than-temporary impairment based on the specific identification method. The Company considers available quantitative and qualitative evidence in evaluating potential impairment of its short-term investments. If the cost of an investment exceeds the investment's fair value, the Group considers, among other factors, general market conditions, government economic plans, the duration and the extent to which the fair value of the investment is less than the cost, and the Group's intent and ability to hold the investment, in determining if impairment is needed.

Property and equipment, net

Property and equipment, net are carried at cost less accumulated depreciation. Depreciation is calculated on a straight-line basis over the following estimated useful lives:

Technology infrastructure (in years)	5
Computer equipment (in years)	5
Furniture, fixtures and equipment (in years)	5
Motor vehicle (in years)	5
Leasehold improvements (in years)	Shorter of the lease term or 5

Acquired intangible assets, net

Acquired intangible assets are estimated by management based on the fair value of assets acquired. Identifiable intangible assets are carried at cost less accumulated amortization. Amortization of definite-lived intangible assets is computed using the straight-line method over the estimated average useful lives, which are as follows:

License and related trademarks (in years)	15
Completed technology (in years)	5
Customer relationship (in years)	4- 5

Certain trademarks resulting from the acquisitions of business and certain trading rights bought by the Group are determined to have indefinite lives. If an intangible asset is determined to have an indefinite life, it is not amortized until its useful life is determined to be no longer indefinite.

Guarantee fund deposits

Guarantee fund deposits consist of i) the funds deposited with Hong Kong Exchange and Clearing Limited by iSTAR Futures, to guarantee its customers' settlement obligations; ii) the funds deposited with the commodities exchanges as a result of its customers' trading. The Group needs to deposit certain percentage of its customers' trading margins with the commodities exchanges.

Impairment of long-lived assets with definite lives

The Group reviews its long-lived assets for impairment whenever events or changes in circumstances indicate that the carrying amount of an asset may no longer be recoverable. When these events occur, the Group compares the carrying value of the long-lived assets to the estimated undiscounted future cash flows expected to result from the use of the assets and their eventual disposition. If the sum of the expected undiscounted cash flow is less than the carrying amount of the assets, the Group would recognize an impairment loss based on the fair value of the assets. There were nil, \$1,802,125 and nil impairment losses in relation to the long-lived assets with definite lives for the years ended December 31, 2013, 2014 and 2015.

Business combinations

Business combinations are recorded using the acquisition method of accounting. The assets acquired, the liabilities assumed, and any noncontrolling interest of the acquiree at the acquisition date, if any, are measured at their fair values as of that date. Goodwill is recognized and measured as the excess of the total consideration transferred plus the fair value of any noncontrolling interest of the acquiree, if any, at the acquisition date over the fair values of the identifiable net assets acquired. Common forms of the consideration made in acquisitions include cash and common equity instruments. Consideration transferred in a business acquisition is measured at the fair value as at the date of acquisition.

Where the consideration in an acquisition includes contingent consideration the payment of which depends on the achievement of certain specified conditions post-acquisition, the contingent consideration is recognized and measured at its fair value at the acquisition date and if recorded as a liability it is subsequently carried at fair value with changes in fair value reflected in earnings.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - continued

Impairment of goodwill and indefinite-lived intangible assets

The Group performs a qualitative analysis that includes reviewing the carrying value of intangible assets not subject to amortization, including goodwill, to determine whether impairment may exist, whenever events or changes in circumstances indicate that the carrying amount of an asset may no longer be recoverable at least annually.

The excess of the purchase price over the fair value of net assets acquired is recorded on the consolidated balance sheet as goodwill. After a qualitative analysis indicates an impairment test is needed, the Company completes a two-step goodwill impairment test. The first step is to compare the fair values of each reporting unit to its carrying amount, including goodwill. If the fair value of each reporting unit exceeds its carrying amount, goodwill is not considered to be impaired and the second step will not be required. If the carrying amount of a reporting unit exceeds its fair value, the second step is to compare the implied fair value of goodwill to the carrying value of a reporting unit's goodwill. The implied fair value of goodwill is determined in a manner similar to accounting for a business combination with the allocation of the assessed fair value determined in the first step to the assets and liabilities of the reporting unit. The excess of the fair value of the reporting unit over the amounts assigned to the assets and liabilities is the implied fair value of goodwill. An impairment loss is recognized for any excess in the carrying value of goodwill over the implied fair value of goodwill. Estimating fair value is performed by utilizing various valuation techniques, with the primary technique being a discounted cash flow.

The impairment test for other intangible assets not subject to amortization consists of a comparison of the fair value of the intangible asset with its carrying value. If the carrying value of the intangible asset exceeds its fair value, an impairment loss is recognized in an amount equal to that excess. The estimates of fair values of intangible assets not subject to amortization are determined using various discounted cash flow valuation methodologies. Significant assumptions are inherent in this process, including estimates of discount rates. Discount rate assumptions are based on an assessment of the risk inherent in the respective intangible assets.

The Group performed the annual impairment tests on December 31 of each year. Based on the Group's assessment, the Group recorded nil, \$8,149,525 and nil goodwill impairment losses during the years ended December 31, 2013, 2014

and 2015, respectively. In addition, the Group recorded nil, nil and \$250,360 impairment loss in relation to intangible assets with indefinite life during the years ended December 31, 2013, 2014 and 2015.

Revenue recognition

Commodities brokerage business

The Group derives commission income, carrying charges and trading revenues from its commodities brokerage services.

Commission income is recognized on a trade basis based on their customers' trading volumes. The commission earned is fixed no matter how the client's open positions are ultimately settled. Additionally, the Group charges carrying charges to its customers. The commissions and carrying charges are presented in net revenues in the statement of comprehensive income.

Amounts are settled with the Exchange by both the Group and the customers and the exchange then settles with any counterparty. The exchange offsets the Group's gains and losses and amounts receivable and amounts payable from the exchange are presented net on the statement of financial position as the Group and the exchange settle net.

Trading gains, net include brokerage fees and margins generated from derivative trades executed with customers and other counterparties and are recognized when trades are executed. Trading gains, net also include activities where the Group acts as market maker in the purchase and sale of commodities derivative instruments with customers. These transactions may be offset simultaneously with another customer or counterparty, offset with similar but not identical positions on an exchange, made from inventory, or may be aggregated with other purchases to provide liquidity intraday, for a number of days, or in some cases, particularly the commodities brokerage business, even longer periods (during which fair value may fluctuate). Therefore, trading gains, net includes activities from the Group's operations of a proprietary commodity trades. Net trading gains are recognized on a trade-date basis and include realized gains or losses and changes in unrealized gains or losses on investments at fair value.

Unrealized gains/losses on open positions will be marked to market at each period end and may present trading gains and losses which comprise both realized and unrealized gains and losses, on a net basis in the statement of comprehensive income. The open transactions may lead to receivables and/or payables for open transaction which are recorded on the Statement of Financial Position.

Business taxes and value added taxes

Starting from January 1, 2012, the PRC Ministry of Finance and the State Administration of Taxation launched a Business Tax to value added tax ("VAT") Transformation Pilot Program(the "Pilot Program"), for certain industries in Shanghai. On September 1, 2012, the PRC Ministry of Finance and the State Administration of Taxation extended the Pilot Program to certain industries in other eight regions, including Beijing and Shenzhen. With the adoption of Pilot Program, our advertising-related revenues and certain subscription revenues were subject to VAT tax at a rate of 6%. Our advertising- related revenues, certain subscription revenues and certain commodities brokerage revenues were recognized after deducting VAT and other related surcharges.

Revenue is recorded net of business taxes when incurred. The Group is subject to business taxes of 3%-5% on taxable services provided to its customers. During the years ended December 31, 2013, 2014, and 2015, business taxes and related surcharges totaled \$598,044, \$1,425,835 and \$1,663,869, respectively.

The Group's certain PRC subsidiaries, VIEs and VIEs' subsidiaries are subject to VAT at a rate of 17% on subscription-based revenue. VAT payable on subscription-based revenue is computed net of VAT paid on purchases. In respect of subscription-based revenue, however, if the net amount of VAT payable exceeds 3% of subscription-based revenue, the excess portion of value added tax can be refunded immediately.

The Group therefore is subject to an effective net VAT burden of 3% from subscription-based revenue and records VAT on a net basis. Net amount of value added tax is recorded either in the line item of other current liabilities or prepaid expenses and other current assets on the face of consolidated balance sheet.

Subscription-based revenue includes the benefit of the rebate of value added taxes on sale of the downloadable software received from the Chinese tax authorities as part of the PRC government policy of encouraging software development in the PRC. In 2013, 2014 and 2015, the Group recognized \$639,936, \$425,908 and \$328,817,

respectively, in VAT refunds.

Government subsidies

The Group records government subsidies when granted by local government authority and are not subject to future return. The government subsidies include research & development subsidy, business tax refund, innovation fund and high-tech company subsidy.

Deferred revenue

Payments received in advance of for our financial information and advisory service, advertising service are recorded as deferred revenue until earned and when the relevant revenue recognition requirements have been met.

Cost method investment

For investments in an investee over which the Group does not have significant influence, the Group carries the investment at cost and recognizes income as any dividends declared from distribution of investee's earnings. The Group reviews the cost method investments for impairment whenever events or changes in circumstances indicate that the carrying value may no longer be recoverable. An impairment loss is recognized in earnings equal to the difference between the investment's cost and its fair value at the balance sheet date of the reporting period for which the assessment is made. The fair value of the investment would then become the new cost basis of the investment.

Equity method investment

Under the equity method, the Group initially records its investment at cost. The Group subsequently adjusts the carrying amount of the investment to recognize the Company's proportionate share of each equity investee's net income or loss. The Group will discontinue applying equity method if an investment (and additional financial supports to the investee, if any) has been reduced to zero. When the equity-method investment in ordinary shares is reduced to zero and further investments are made that have a higher liquidation preference than ordinary shares, the Group would recognize the loss based on its percentage of the investment with the same liquidation preference, and the loss would be applied to those investments of a lower liquidation preference first before being further applied to the investments of a higher liquidation preference. An impairment loss on the equity method investments is recognized in the consolidated statements of comprehensive income when the decline in value is determined to be other than-temporary.

Foreign currency translation

The functional and reporting currency of the Company is the United States dollar ("U.S. dollar"). The financial records of the Group's subsidiaries, VIEs and VIEs' subsidiaries located in the PRC, Hong Kong and British Virgin Islands are maintained in their local currencies, the Renminbi ("RMB"), Hong Kong Dollars ("HK\$"), and U.S.

Dollars ("US\$"), respectively, which are also the functional currencies of these entities.

Monetary assets and liabilities denominated in currencies other than the functional currency are translated into the functional currency at the rates of exchange ruling at the balance sheet date. Transactions in currencies other than the functional currency during the year are converted into functional currency at the applicable rates of exchange prevailing when the transactions occurred. Transaction gains and losses are recognized in the statements of operations.

The Group's entities with functional currency of RMB and HK\$ translate their operating results and financial position into the US\$, the Group's reporting currency. Assets and liabilities are translated using the exchange rates in effect on the balance sheet date. Revenues, expenses, gains and losses are translated using the average rate for the year. Translation adjustments are report as cumulative translation adjustments and are shown as a separate component of other comprehensive income.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES – continued

Foreign currency risk

The RMB is not a freely convertible currency. The State Administration for Foreign Exchange, under the authority of the People's Bank of China, controls the conversion of Renminbi into foreign currencies. The value of the RMB is subject to changes in central government policies and to international economic and political developments affecting supply and demand in the China Foreign Exchange Trading System market. Cash and cash equivalents of the Group included aggregate amounts of \$26,974,664, \$19,726,992 and \$79,461,280 at December 31, 2013, 2014 and 2015 which were denominated in RMB.

Product development expenses

Costs of product development, including investment in data capability, are expensed as incurred until technological feasibility has been established, at which time any additional costs would be capitalized. The Group essentially completed its development concurrently with the establishment of technological feasibility, and, accordingly, no costs have been capitalized.

Advertising costs

The Group expenses advertising costs as incurred. Total advertising expenses were \$2,391,762, \$7,505,506 and \$4,908,593 for the years ended December 31, 2013, 2014 and 2015, respectively, and have been included as part of sales and marketing expenses in the accompanying consolidated statements of operations.

Commissions paid

Commissions paid are the commission rebates of our Hong Kong brokerage business and the commissions paid to the sales agents of our commodities brokerage business. Total commissions paid were \$3,125,982, \$11,546,126 and \$5,049,661 for the years ended December 31, 2013, 2014 and 2015.

Income taxes

Current income taxes are provided for in accordance with the laws of the relevant tax authorities. Deferred income taxes are recognized for temporary differences between the tax basis of assets and liabilities and their reported amounts in the financial statements, net operating loss carry forwards and credits by applying enacted statutory tax rates applicable to future years. Deferred tax assets are reduced by a valuation allowance when, in the opinion of management, it is more likely than not that some portion or all of the deferred tax assets will not be realized.

The impact of an uncertain income tax position on the income tax return is recognized at the largest amount that is more-likely-than not to be sustained upon audit by the relevant tax authority. An uncertain income tax position will not be recognized if it has less than a 50% likelihood of being sustained. Interest and penalties on income taxes will be classified as a component of the provisions for income taxes.

Comprehensive income (loss)

Comprehensive income (loss) includes net income (loss), unrealized gain (loss) on short-term investments and foreign currency translation adjustments. Beginning in January 1, 2012, the Group presents the components of net income, the components of other comprehensive income and total comprehensive income a single continuous consolidated statement of comprehensive income.

Fair value of financial instruments

Financial instruments include cash and cash equivalents, restricted cash, accounts receivable, cost method investment, equity method investment, loan receivable and accounts payable.

The carrying values of cash and cash equivalents, restricted cash, accounts receivable, loan receivable and accounts payable approximate their fair value due to their short-term maturities.

The carrying value of the cost method investment was \$1,217,617 and \$554,392 as of December 31, 2014 and 2015, which approximate the fair value of the investment based on the valuation performed by the Company.

The carrying value of the equity method investment was nil and \$1,228,269 as of December 31, 2014 and 2015, which approximate the fair value of the investments at the acquired date and subsequently adjusted as the net assets of the investee change through the earning of income.

The Group does not use derivative instruments to manage risks.

Share-based compensation

Share-based compensation with employees is measured based on the grant date fair value of the equity instrument. The Group recognizes the compensation costs net of an estimated forfeiture rate using the straight-line method for performance based awards or graded vesting attribution method for service based awards, over the requisite service period of the award, which is generally the vesting period of the award. The estimate of forfeitures will be adjusted over the requisite service period to the extent that actual forfeitures differ, or are expected to differ, from such estimates. Changes in estimated forfeitures will be recognized through a cumulative catch-up adjustment in the period of change and will also impact the amount of share-based compensation expense to be recognized in future periods.

Share awards issued to nonemployees are measured at fair value at the earlier of the commitment date or the date the services is completed and recognized over the period the service is provided or as goods is received.

Net income (loss) per share

Basic net income (loss) per share attributable to China Finance Online Co. Limited is computed by dividing net income (loss) attributable to China Finance Online Co. Limited by the weighted average number of ordinary shares outstanding during the period. Diluted net income per ordinary share attributable to China Finance Online Co. Limited reflects the potential dilution that could occur if securities or other contracts to issue ordinary shares were exercised or converted into ordinary shares. The dilutive effect of the stock options and nonvested shares is computed using treasury stock method.

Concentrations of credit risk

Financial instruments that potentially expose the Group to concentrations of credit risk consist principally of cash and cash equivalents, restricted cash, short-term investments, loan receivable and accounts receivable. The Group places its cash and cash equivalents, restricted cash, short-term investments in major financial institutions located in PRC and Hong Kong, which management considers to be of high credit quality.

The Group conducts ongoing credit evaluations of its customers and generally does not require collateral or other security from its customers except for the accounts receivable-margin clients which represents the margin loan to customers for securities purchase. The accounts receivable-margin client was collateralized by the securities the margin client purchased. The Group manages its credit risk by collecting up-front fee from its customers and billing at regular intervals during the contract period. The Group assesses the adequacy of allowance for doubtful accounts primarily based upon the age of the receivables and factors surrounding the credit risk of specific customers.

Recently accounting pronouncements

In May 2014, the Financial Accounting Standards Board ("FASB") issued ASU No. 2014-09 ("ASU 2014-09"), Revenue from Contracts with Customers. ASU 2014-09 supersedes the revenue recognition requirements in ASC 605, and requires entities to recognize revenue when it transfers promised goods or services to customers in an amount that reflects the consideration to which the entity expects to be entitled to in exchange for those goods or services. ASU 2014-09 is originally effective for the annual reporting periods beginning after December 15, 2016, including interim periods within that reporting period. ASU 2015-14, Revenue from Contracts with Customers, defers the effective date of ASU 2014-09 by one year. As a result, ASU 2014-09 is effective for annual reporting periods beginning after December 15, 2017 and interim periods therein. Early adoption is permitted to the original effective date. The Group is currently evaluating the timing of its adoption and the impact of adopting the new revenue standard on its consolidated financial statements and considering additional disclosure requirements.

In April 2015, the FASB issued ASU No. 2015-03 ("ASU 2015-03"), Interest – Imputation of Interest. ASU 2015-03 requires debt issuance costs related to a recognized debt liability to be presented in the balance sheet as a direct deduction from the debt liability rather than as an asset. ASU 2015-03 is effective for annual reporting periods beginning after December 15, 2015, including interim periods within that reporting period. Early adoption is permitted. The Group does not expect the adoption of ASU 2015-03 will have a significant impact on the consolidated financial statements.

In September 2015, the FASB issued ASU No. 2015-16 ("ASU 2015-16"), Business Combinations (Topic 805) Simplifying the Accounting for Measurement – Period Adjustments. ASU 2015-16 requires the acquirer to recognize adjustments to provisional amounts that are identified during the measurement period in the reporting period in which the adjustment amount is determined. The acquirer is required to also record, in the same period's financial statements, the effect on earnings of changes in depreciation, amortization, or other income effects, if any, as a result of the change to the provisional amounts, calculated as if the accounting had been completed at the acquisition date. In addition, an entity is required to present separately on the face of the income statement or disclose in the notes to the financial statements the portion of the amount recorded in current-period earnings by line item that would have been recorded in previous reporting periods if the adjustment to the provisional amounts had been recognized as of the acquisition date. For public business entities, ASU 2015-16 is effective for fiscal years beginning after December 15,

2015. Early adoption is permitted. The Group does not expect the adoption of ASU 2015-16 will have a significant impact on the consolidated financial statements.

Recently accounting pronouncements- continued

In November 2015, the FASB issued ASU No. 2015-17 ("ASU 2015-17"), Income Taxes (Topic 740): Balance Sheet Classification of Deferred Taxes. ASU 2015-17 simplifies the presentation of deferred income taxes by eliminating the separate classification of deferred income tax liabilities and assets into current and noncurrent amounts in the consolidated balance sheet statement of financial position. The amendments in the update require that all deferred tax liabilities and assets be classified as noncurrent in the consolidated balance sheet. The amendments in this update are effective for fiscal years beginning after December 15, 2016, and interim periods therein and may be applied either prospectively or retrospectively to all periods presented. Early adoption is permitted. The Group does not expect the adoption of ASU 2015-17 will have a significant impact on the consolidated financial statements.

In February 2016, the FASB issued ASU No. 2016-02 ("ASU 2016-02"), Leases. ASU 2016-02 specifies the accounting for leases. For operating leases, ASU 2016-02 requires a lessee to recognize a right-of-use asset and a lease liability, initially measured at the present value of the lease payments, in its balance sheet. The standard also requires a lessee to recognize a single lease cost, calculated so that the cost of the lease is allocated over the lease term, on a generally straight-line basis. ASU 2016-02 is effective for public companies for annual reporting periods, and interim periods within those years beginning after December 15, 2018. Early adoption is permitted. The Group is currently evaluating the impact of adopting this standard on its consolidated financial statements.

During the third quarter of 2013, the Group made a series of business acquisition and restructures. The Company has re-categorized its reporting units to better reflect the evolving nature of its businesses and reallocated its goodwill. The goodwill related to acquisition of CFO Tahoe was allocated to commodities brokerage reporting unit; the goodwill related to the acquisition of CFO East Win, CFO Netinfo and Champion Connection's investment advisory business were allocated to investment advisory services reporting unit and the goodwill related to the acquisition of Champion Connection's institutional subscription business were allocated to the institutional reporting unit.

In the second quarter of 2014, due to the new business redirection to develop our online brokerage services "Securities Master", the Group was expected to suffer reduced cash flow in its investment advisory reporting unit. With the assistance of a third party appraiser, the Group recognized an impairment loss of \$8,149,525 related to the investment advisory services reporting unit. On June 1, 2014, the Group disposed all of goodwill related to the institutional reporting unit of \$1,676,490 as a result of the business restructure (Note 4). The Group also performed a goodwill impairment test related to commodities trading business as of December 31, 2014 and no impairment loss was recorded.

The goodwill related to the acquisition of CFO Guiwo was allocated to commodities trading reporting unit, which was acquired in the second quarter of 2015. The Group performed a goodwill impairment test as of December 31, 2015 and no impairment loss was recorded.

GOODWILL- continued

In the goodwill impairment test, the Group used the income approach, which it believed to be more reliable than the market approach in determining the fair value of the Group's reporting units. Accordingly, it adopted a discounted cash flow ("DCF") method under the income approach, which considers a number of factors that include expected future cash flows, growth rates, discount rates, and comparable multiples from publicly traded companies in the industry and requires the Group to make certain assumptions and estimates regarding industry economic factors and future profitability of its business unit. The assumptions are inherently uncertain and subjective.

Based on the impairment tests performed, the Group recognized impairment losses of nil, \$8,149,525 and nil for the years ended December 31, 2013, 2014 and 2015, respectively.

2010 Equity incentive plan of iSTAR Financial Holdings

In November 2010, iSTAR Financial Holdings, a subsidiary of the Company, implemented the "2010 equity incentive plan" (the "2010 Plan") under which the Company transferred 1,500 nonvested shares which representing 15% of total iSTAR Financial Holdings' equity interest to its management group as a share incentive. If the grantees left the Company before the third anniversary of the grant date when the nonvested shares become vested, they should transfer the shares to the Company at no consideration. Therefore, the total share based compensation expenses are recognized ratably over the three years of vesting period. In addition, as the grantees are entitled to all the shareholder's rights, including the dividend rights since the date of grant, the 15% share of the earnings of iSTAR Financial Holdings is recognized as noncontrolling interest on the Company's consolidated financial statements since November 1, 2010, the date of grant.

The fair value of the share incentive was determined to be \$1,188 per share. The Group recognized \$495,848 share based compensation cost in 2013. As of December 31, 2013, all compensation cost relating to nonvested shares was recognized.

2014 Stock incentive plan

In July 2014, the Company adopted the 2014 stock incentive plan (the "2014 Plan") which allows the Company to offer a variety of incentive awards to employees, directors, officers and other eligible persons in the Group, and consultants and advisors outside the Group. The maximum number of ordinary Shares that may be delivered pursuant to awards granted to eligible persons under 2014 Plan during calendar year 2014 is equal to 5,000,000 ordinary shares; provided, that, as of January 1 of each calendar year thereafter during the term of 2014 plan, the maximum number of ordinary shares that may be delivered pursuant to awards granted to eligible persons under 2014 Plan shall be increased by 3,000,000 Ordinary Shares. As of result, the total number of ordinary shares authorized under the 2014 Plan was 8,000,000 as of December 31, 2015. The Group's PRC entities are subject to 25% PRC Enterprise Income Tax ("EIT") on the taxable income in accordance with the relevant PRC income tax laws, except for certain entities that enjoy preferential tax rates, which are lower than the statutory rates, as described below.

Under the EIT Law and its implementing rules, an enterprise which qualifies as a "high and new technology enterprise" ("the HNTE") is entitled to a tax rate of 15%.

Under the EIT law and its implementing rules, enterprises that obtain status of "Software Enterprises" are entitled to be exempted from EIT tax for the first two profit-making years and enjoy a preferential 12.5% tax rate, which is half of the standard EIT rate of 25% for the three years thereafter.

A summary of the main PRC entities that subject to tax preferential policies for the year ended December 31, 2015 is as follows:

PRC entities	Chinese EIT rate	Qualification for preferential tax rate
CFO Qicheng	Preferential tax rate of 12.5% in 2013 and 2014.	Software Enterprises
CFO Shenzhen Shangtong	Preferential tax rate of 12.5% in 2013 and 2014.	Software Enterprises
CFO Software	Preferential tax rate of 15% in 2013.	HNTE
CFO Meining	Preferential tax rate of 15% from 2013 to 2015.	HNTE
CFO Genius	Preferential tax rate of 15% from 2013 to 2015.	HNTE
CFO Tibet	Preferential tax rate of 9% from 2015 to 2017 and 15% thereafter	Preferential tax rate for enterprises in Tibet, China

Under the EIT Law, the HNTE status is valid for three years and qualifying entities can then apply to renew for an additional three years provided their business operations continue to qualify for the HNTE status. CFO Software obtained its HNTE status in 2008 and its renewal in 2011. CFO Meining obtained its HNTE status in 2008 and obtained the renewal successfully in 2011 and 2014. In 2012, CFO Genius also obtained the HNTE status and successfully renewed it in 2015.

In 2013 and 2014, CFO Chongzhi and CFO Shangtong filed their EIT by adopting the "deemed-profit method". In 2014, Shanghai Yongfu Enterprises Management Consulting Co., Ltd. adopted this method. In 2015, Zhengjin (Jiangsu) Precious Metals Co., Ltd. also adopted this method. Under this method, the qualifying entities filed their income tax by calculating as 2.5% of the gross revenues. This method is subject to be reevaluated by the local tax authority in the future.

INCOME TAXES - continued

PRC - continued

The EIT Law includes a provision specifying that legal entities organized outside of the PRC will be considered residents for PRC Income tax purposes if the place of effective management or control is within the PRC. The implementation rules to the EIT Law provide that non-resident legal entities will be considered PRC residents if substantial and overall management and control over the manufacturing and business operations, personnel, accounting, properties, etc., occurs within the PRC. Despite the present uncertainties resulting from the limited PRC tax guidance on the issue, the Group does not believe that currently the legal entities organized outside of the PRC within the Group should be treated as residents for EIT law purposes. If the PRC tax authorities subsequently determine that the Company and its subsidiaries registered outside the PRC should be deemed a resident enterprise, the Company and its subsidiaries registered outside the PRC will be subject to the PRC income tax at a rate of 25%.

If the Company were to be non-resident for PRC tax purpose, dividends paid to it out of profits earned after January 1, 2008 would be subject to a withholding tax. In the case of dividends paid by PRC subsidiaries the withholding tax would be 10% not considering the arrangements for the Avoidance of Double Taxation on income and Prevention of Fiscal Evasion with respect to Taxes on Income between mainland and Hong Kong.

Aggregate deficits of the Company's subsidiaries located in the PRC were approximately \$20.3 million at December 31, 2015. And accordingly, no provision has been made for the Chinese dividend withholding taxes.

Aggregate undistributed earnings of the Company's VIEs and its VIEs' subsidiaries located in the PRC that is available for distribution to the Company of approximately \$30.0 million at December 31, 2015. A deferred tax liability should be recorded for taxable temporary differences attributable to the excess of financial reporting amounts over tax basis amounts, including those differences attributable to a more than 50% interest in a domestic subsidiary. However, recognition is not required in situations where the tax law provides a means by which the reported amount of that investment can be recovered tax-free and the enterprise expects that it will ultimately use that means. The Company has not recorded any such deferred tax liability attributable to the undistributed earnings of its financial interest in VIEs because it believes such excess earnings can be distributed in a manner that would not be subject to

income tax.

Income tax expense	\$ 100,058	\$ 513,914	\$ 1,384,262

During the years ended December 31, 2013, 2014 and 2015, if the Company's subsidiaries, VIEs and VIEs' subsidiaries in the PRC were neither in the tax holiday period nor had they been specifically allowed special tax concessions, they would have recorded additional income tax expense of \$31,910, \$20,851 and \$1,102,399, respectively. The impact of the tax holidays on basic net income per ordinary share was an increase of \$0.00, \$0.00 and \$0.01, for the years ended December 31, 2013, 2014 and 2015, respectively.

The Group did not identify significant unrecognized tax benefits for the years ended December 31, 2013, 2014 and 2015. The Group did not incur any interest and penalties related to potential underpaid income tax expenses and also believed that the adoption of pronouncement issued by FASB regarding accounting for uncertainty in income taxes did not have a significant impact on the unrecognized tax benefits within 12 months from December 31, 2015.

In accordance with relevant PRC tax administration laws, tax years from 2010 to 2015 of the Group's PRC subsidiaries and VIEs remain subject to tax audits as of December 31, 2015, at the tax authority's discretion.

Commitments

The Group leases certain office premises and purchases data under non-cancelable leases. Rent expenses under operating leases for 2013, 2014 and 2015 were \$4,808,894, \$7,013,985 and \$6,044,119, respectively.

Future minimum payments under non-cancelable operating leases and data purchase agreements were as follows:

Securities Litigation

The Company and certain of its officers and directors were named as defendants in a putative securities class actions filed in Central District of California which was then transferred to Southern District of New York. The complaints allege that the Company violated Exchange Act Section 10(b) and Rule 10b-5 by failing to disclose certain its transactions as related party transaction. As the actions remain in their preliminary stages, the Company's management is unable to express any opinion on the likelihood of an unfavorable outcome or any estimate of the amount or range of any potential loss.

Litigation

The Group was involved in certain cases pending in some PRC courts as of December 31, 2015. These cases include a copyright infringement case, among others. Adverse results in these lawsuits may include awards of damages and may also result in a loss of revenue or otherwise harm the business of the Group.

For many proceedings, the Company is currently unable to estimate the reasonably possible loss or a range of reasonably possible losses as the proceedings are in the early stages, and/or there is a lack of clear or consistent interpretation of laws specific to the industry-specific complaints among different jurisdictions. As a result, there is considerable uncertainty regarding the timing or ultimate resolution of such matters, which includes eventual loss, fine, penalty or business impact, if any, and therefore, an estimate for the reasonably possible loss or a range of reasonably possible losses cannot be made. However, the Company believes that such matters, individually and in the aggregate, when finally resolved, are not reasonably likely to have a material adverse effect on the Company's consolidated results of operations, financial position and cash flows.

26. SEGMENT AND GEOGRAPHIC INFORMATION

The Group has three operating segments (1) commodities brokerage services, (2) online financial information and advisory service, and other related services in PRC, (3) Hong Kong brokerage services. Operating segments are defined as components of an enterprise about which separate financial information is available that is evaluated regularly by the chief operating decision-makers in deciding how to allocate resources and in assessing performance. The Group's chief executive officer has been identified as the chief operating decision makers. The Group's chief operating decision maker directs the allocation of resources to operating segments based on the profitability and cash flows of each respective segment.

The Group evaluates performance based on several factors, including net revenue, cost of revenue, operating expenses, income from operation. The following tables show the operations of the Group's operating segments:

27. STATUTORY RESERVES AND RESTRICTED NET ASSETS

PRC legal restrictions permit payments of dividends by the Group's PRC entities only out of their retained earnings, if any, determined in accordance with PRC regulations. Prior to payment of dividends, pursuant to the laws applicable to the PRC Domestic Enterprises and PRC Foreign Investment Enterprises, the PRC entities must make appropriations from after-tax profit to non-distributable statutory reserve funds as determined by the Board of Directors of the Group. These reserve funds include the (1) general reserve, (2) enterprise expansion fund and (3) staff bonus and welfare fund. Subject to certain cumulative limits, the general reserve fund requires annual appropriations of not less than 10% of after-tax profit (as determined under accounting principles and financial regulations applicable to PRC enterprises at each year-end); the other two funds are to be made at the discretion of the board of directors of each of the Group's subsidiaries.

These reserve funds can only be used for specific purposes and are not distributable as cash dividends.

The appropriation to these reserves by the Group's PRC subsidiaries was \$284,114, \$679,927 and \$1,820,080 in 2013, 2014 and 2015.

The balance of the statutory reserves was \$6,820,441 and \$8,640,521 as of December 31 2014 and 2015. Such reserves have been included in the retained earnings of the Company's consolidated balance sheet.

As a result of these PRC laws and regulations and the requirement that distributions by PRC entities can only be paid out of distributable profits computed in accordance with PRC GAAP, the PRC entities are restricted from transferring a portion of their net assets to the Group. Amounts restricted include paid-in capital and the statutory reserves of the Company's PRC subsidiaries and VIEs. As of December 31, 2015, the aggregate amounts restricted which represented the amount of net assets of the relevant subsidiaries and VIEs in the Group not available for distribution was \$71,700,541. As a result of the above restrictions, parent-only financials are presented on financial statement Schedule I.

28.

SUBSEQUENT EVENT

In April, 2016, the Group signed a sale & purchase agreement with a third party, to transfer the 100% ordinary shares of iSTAR Wealth Management. The completion of this transaction was still subject to conditions, including but not limited to obtaining the approvals and consents of CSRC and Securities and Futures Commission of Hong Kong. The consideration of this transaction is approximately \$2.9 million (HK\$22.5 million, equivalently).
