**Item 9. Regulation FD Disclosure.**

On June 25, 2003, we announced that we agreed to sell \$200.0 million of 7 5/8% Senior Notes due 2011 in an offering exempt from the registration requirements of the Securities Act of 1933. Subject to satisfaction of closing conditions, we expect the offering to close on June 30, 2003. In addition, as previously reported, on June 12, 2003, affiliates of The Carlyle Group converted all of the outstanding shares of Series D Redeemable Preferred Stock into 11,100,878 shares of common stock (the "Conversion").

After taking into account the impact of the proposed offering, including the application of the expected net proceeds thereof, and based on management's analysis of current information regarding anticipated earnings, expenses, taxes, interest and related expense and depreciation and amortization, we expect our net earnings in 2003 will be approximately \$18 million and our EBITDA will be approximately \$85 million. In addition, we expect our earnings (loss) per share for 2003 to be in the range of \$(0.40) to \$(0.44), which includes the impact of a \$24.3 million non-cash reduction to our net earnings available to common shareholders arising in connection with the Conversion and \$2.0 million of normal, quarterly payable-in-kind dividends on the shares of Series D Redeemable Preferred Stock paid during 2003.

On a pro forma basis after giving effect to the impact of the proposed offering, including the application of the expected net proceeds thereof, and the Conversion as if each had occurred prior to January 1, 2003, our forecasted earnings per share for 2003 would have been in the range of \$0.94 to \$0.98. The pro forma forecasted 2003 earning per share numbers exclude an \$11.7 million loss on the extinguishment of debt (net of tax) arising from the redemption of Aviall Service's 14% Senior Notes due 2007 (the "14% Notes") upon consummation of our proposed offering; a \$24.3 million non-cash reduction to our net earnings available to common shareholders arising in connection with the Conversion; and \$2.0 million of normal, quarterly payable-in-kind dividends on the shares of Series D Redeemable Preferred Stock paid during 2003.

EBITDA represents earnings from continuing operations before depreciation, amortization, interest and related expense and tax expense. Interest and related expense includes the \$18.1 million (pretax) write-off of unamortized financing costs and debt discount and the redemption premium paid in connection with our refinancing of the 14% Notes. In no event should EBITDA be considered as an alternative to net earnings or any other GAAP measure as an indicator of our performance, nor should EBITDA be considered as an alternative to cash flows provided by operating activities as an indicator of cash flows or a measure of liquidity. We believe that EBITDA is a useful measure, along with other measurements under GAAP, in evaluating our financial performance and our ability to service our debt and is a conventionally used financial indicator. In addition, management uses EBITDA as a financial measure to evaluate our operating performance. Our measurement of EBITDA may not be comparable to those of other companies.

The following table reconciles our forecast of EBITDA for 2003 to our forecast of net earnings for 2003, including the impact of our proposed \$200.0 million senior notes offering.

	Forecast For
	Year Ending December 31, 2003
	(in millions)
