## The Mexico Fund, Inc.

### To Our Stockholders:

---

We are pleased to present to you the Fund's 2005 Annual Report. The Fund's strategy of investing in attractive growth-oriented businesses, including, but not limited to, small- and medium-capitalization companies, produced favorable performance in the Fund's market price and net asset value (NAV) per share. In this Report, we summarize the period's prevailing economic and market conditions in Mexico and outline the Fund's investment strategy and resulting performance. We hope you find this Report useful and informative.

### Economic Environment

According to official sources, Mexico's gross domestic product (GDP) increased 3.3% during the third quarter of calendar 2005, compared with 4.4% during 2004. This lower economic growth was due in part to a less dynamic manufacturing industry, which increased only 0.2%. Nonetheless, during the first quarter of 2005, all sectors of the economy registered positive rates of growth: the primary sector, composed of agriculture, fishery and livestock, increased 10.6%; transportation, 6.6%; financial services, 6.2%; commerce, restaurants and hotels, 3.1%; personal services, 2.3%; construction, 2.1%; mining 1.4%; and electricity, gas and water, 1.0%. Optimistic expectations about the Mexican economic environment continue, despite recent natural disasters and uncertainties concerning the July 2006 Presidential, Congressional and several States elections. Economists surveyed by the Mexican Central Bank currently estimate that the Mexican GDP will increase by approximately 3.29% during 2005 and 3.43% during 2006.

Mexico's inflation rates have declined significantly in recent months. For the year ended November 30, 2005, the Mexican inflation rate amounted to 2.91%, compared with 5.19% at the end of 2004. This decline was generated by the restrictive

monetary policy implemented by the Central Bank, in an effort to reach annual inflation rates of 3% ( $\pm 1\%$  as a margin of error to accommodate external factors). Analysts currently believe that the annual inflation rate for 2005 will be around 3.26% and 3.61% for 2006.

As a consequence of lower inflation rates, domestic interest rates have decreased in recent months. The interest rate of the 28-day Cetes declined from 9.6% at the end of May 2005 to 8.1% at mid December 2005. Similarly, Mexico's country risk, measured by the spread between the yield of Mexican sovereign debt instruments traded abroad and US Treasury bonds, reached a new historical minimum level of 113 basis points (1.13%) on November 30, 2005. Analysts estimate that interest rates will be relatively stable during the rest of 2005 and 2006, projected at 8.61% and 8.13%, respectively, at the end of each year. The interest rate paid by the 20-year bond denominated in Mexican pesos, was 9.2% at the end of October 2005, compared with 10.9% during May 2005. The stable demand for, and long-term maturities of, these instruments continue to reflect the confidence and positive sentiment of domestic and international investors towards Mexican debt instruments.

The Mexican peso remains strong against the US dollar. Several factors including the significant increase of international oil prices, the continued flow of dollars sent by Mexicans living abroad, mostly in the United States, the high levels of domestic interest rates that prevailed during the first half of 2005 and the amounts of direct foreign investment (see paragraph below) have contributed to the strength of the Mexican peso. The Mexican peso revalued 6.5% during the Fund's 2005 fiscal year, from Ps. 11.54 at the end of fiscal 2004 to Ps. 10.79 at the end of October 2005. Since then, the exchange rate has further decreased to Ps. 10.46 as of December 5, 2005. The Central Bank continues implementing a free-floating exchange rate policy, with only minor market interventions aimed at reducing the rate of growth of international

currency reserves, which amounted to a historical maximum level of \$65.5 billion at the end of November 2005. Analysts estimate that the exchange rates will also be relatively stable during 2005 and 2006, estimated at around Ps. 10.81 and Ps. 11.37, respectively, at the end of each year.

Mexico's external accounts registered rates of growth consistent with those of the economic activity, foreign trade and oil prices. According to figures published by the Mexican authorities, during the first nine months of calendar 2005, Mexico's total exports increased 11.8% to \$154.7 billion; non-oil exports increased 8.4% to \$131.7 billion, while oil exports increased 35.5% to \$23.0 billion. The price of the Mexican oil mix increased 47.3%, from \$35.05 per barrel at the end of September 2004 to \$51.62 per barrel one year later. At the same time, total imports increased 11.9% to \$158.9 billion. The resulting balance was a deficit of \$4.2 billion, 17.5% higher than that registered during the same period of 2004. During the first nine months of calendar 2005, remittances sent to Mexico from Mexicans living abroad increased 18.8% to \$14.7 billion, while direct foreign investment increased 25.3% (excluding two extraordinary transactions conducted during the first quarter of 2004) to \$12.89 billion.

### **Management Discussion of Fund's Performance and Portfolio Strategy**

During the first half of this fiscal year, your Fund completed the investment of proceeds obtained from the rights offering transaction concluded at the end of fiscal 2004.

Throughout fiscal 2005, the Mexican equity market provided favorable investment opportunities, allowing the Fund to capitalize on the results of its investment strategy by investing in leading Mexican corporations as well as attractive and growth-oriented small- and medium-capitalization companies. The Fund invested all the proceeds obtained from the rights offering transaction concluded at the end of October 2004 and achieved positive results. For fiscal 2005, the Fund's market price per share registered a total return of 55.6%, increasing to \$28.10, while the NAV per share registered a total return of 48.6%, increasing to \$31.65. These figures compare with 52.0% for the IFCG Mexico Index, 49.5% for the Morgan Stanley Capital International Index, 45.8% for the Bolsa IPC Index and 22.9% for the Bolsa Index of Medium Size Companies.

During the period that covers this Report, Mexican listed companies continued reporting strong financial results. For the first three quarters of calendar 2005, compared with the same period of 2004, sales of listed companies increased 17.1%, EBITDA<sup>1</sup> increased 14.1% and net income grew 30.0%. As a result, the average Price Earnings Ratio (PER) of the market declined from 15.3 times at the end of October 2004, to 13.1 times at the end of October 2005 while the price to book value increased from 2.12 times to 2.43 times during the same period.

The Fund's five portfolio holdings that contributed the most to the increase to its NAV during this year were: América Móvil (AMX), Corporación Geo (Geo), América Telecom (Amtel), Wal-Mart de México (Walmex) and Cemex, which together accounted for 38.6% of the Fund's net assets as of the end of this fiscal year. These five issuers provided 47% of the total return of the Fund's NAV during this period. AMX provides telecommunications services in Mexico and Latin America; Geo constructs affordable, middle-income and residential houses; Amtel is the holding company of AMX; Walmex is the Mexican subsidiary of international retailer Walmart and Cemex is one of the world's leading producers of cement, concrete and ready mix. During this fiscal year, the market prices of these five issuers increased 78%, 97%, 65%,

<sup>1</sup> Earnings before interest, taxes, depreciation and amortization.

49% and 80%, respectively. Two other important contributors to the Fund's NAV performance were Grupo Financiero Banorte (Gfnorte), an important financial group in Mexico, and Urbi Desarrollos Urbanos (Urbi), a company also in the business of constructing affordable and middle-income houses. The market prices of these two issuers increased around 82% and 72%, respectively. The 6.5% revaluation of the Mexican peso against the US dollar, mentioned above, also contributed to the Fund's total return.

During this fiscal year, the following companies were added to the Fund's portfolio: Carso Infraestructura y Construcción (Cicsa), construction of infrastructure projects; and Mexichem (Mexichem), chemical industry. The Fund received shares of Impulsora del Desarrollo y el Empleo en América Latina (Ideal), from the spin-off of Grupo Financiero Inbursa. Ideal is a company specializing in the funding of infrastructure projects.

Of the 32 equity issuers included in the Fund's portfolio at the end of October 2005, only two experienced market price declines. These companies are Grupo Desc (Desc), a conglomerate that represented 0.27% of net assets and whose market price declined 5.7%; and Industrias CH (Ich), a steel producer that represented 0.5% of net assets and whose market price declined 3.1%.

Until recently, companies listed on the Mexican Stock Exchange were organized under Mexican law. Recently, companies organized outside of Mexico have listed on the Mexican Stock Exchange, a consequence of the increasing globalization of the Mexican economy and its securities market. Because the Fund's investment adviser believes some of these issuers may present attractive investment opportunities, the Fund's Board of Directors recently approved permitting the Fund to invest in securities of issuers listed on the Mexican Stock Exchange that are not organized in Mexico, provided that such issuers or their subsidiaries have a business presence in Mexico, and that, in the aggregate, no more than 20% of the Fund's assets are invested in such issuers (based on the initial value of the investment).

The discount between the Fund's market price and NAV ended October 2005 at 11.2%, compared with 14.9% at the end of fiscal 2004. On a regular basis, the Board of Directors closely analyzes the Fund's discount levels. The Board believes that the Fund's periodic in-kind repurchase offers continue to be an effective measure to contain the discount and allow stockholders the opportunity to have additional liquidity at a price near the NAV per share.

At the closing of fiscal 2005, total Fund outstanding shares amounted to approximately 17 million, for total net assets of almost \$535 million, and total number of Fund shares traded on all US consolidated markets was equivalent to 11 million shares.

The following chart shows the Fund's portfolio composition by sector, expressed as a percentage of the Fund's net assets.

**Portfolio Composition by Sector**

**% of Net Assets**

**October 31, 2005**

**Declaration of Dividend**

We are pleased to announce that the Board of Directors has declared the payment of the Fund's largest cash distribution per share since its inception in June 1981. The Board has declared a cash dividend of \$2.909 per share, payable on January 23, 2006 to stockholders of record on December 21, 2005. The dividend is comprised of \$0.8461 ordinary income, which includes \$0.2213 of short-term capital gains and \$2.0629 of long-term capital gains. This dividend is equivalent to 10.4% of its market price and to 9.2% of its net asset value per share as of October 31, 2005. No Mexican withholding tax will be applied to this dividend.

**Elimination of Value Added Taxes**

As of July 1, 2005, as a result of certain changes in the corporate structure of the Fund's investment adviser, the Fund ceased to pay the value added tax (VAT) for services provided by the Fund's investment adviser and administrator. Total VAT saved by the Fund for the period July 1, 2005 to October 31, 2005 amounted to \$257,019.

**Concentration Policy**

The Fund has adopted a concentration policy that permits it to concentrate its investments in any industry or group of industries in the IPC Index (or any successor or comparable index as determined by the Board of Directors to be an appropriate measure of the Mexican market) if, at the time of investment, such industry represents 20% or more of the IPC Index; provided, however, that the Fund will not exceed the IPC Index concentration by more than 5%.

At the end of October 2005, the only industry group that represented 20% or more of the value of the securities included in the IPC Index is the

communications industry group. This industry includes local, long-distance, and cellular telephone companies, as well as broadcast and media companies. Approximately 86.16% of this industry group is comprised of stocks of telecommunications companies. At the end of October 2005, 29.07% of the Fund's net assets were invested in this industry group. This is compared with the communications industry group's weighting of approximately 44.01% of the IPC Index. The Fund's Investment Adviser will continue to evaluate the concentration in this industry and may choose not to concentrate in this industry group in the future or to concentrate in other industries subject to the concentration policy described above.

### **Periodic Repurchase Offer Authority**

On March 6, 2002, the Fund announced the Board's approval of a policy to conduct periodic in-kind repurchase offers at no less than 98% of NAV for up to 100% of the Fund's outstanding shares. This policy is intended to provide additional liquidity to Fund shares and to reduce the discount at which Fund shares have been trading on the NYSE. Under this policy which was approved by stockholders and is the subject of exemptive relief granted by the Securities and Exchange Commission (SEC), the Fund offers to repurchase no less than five percent of the Fund's outstanding shares each fiscal year, based on the number of shares outstanding at the beginning of the fiscal year. Repurchase offers are in-kind and conducted at least once each fiscal year, but not more frequently than quarterly, and are for between one and one hundred percent of the Fund's outstanding shares. The Board can set or reset the periodic interval between repurchase offers at three, six or 12 months.

The Fund has publicly announced that its next repurchase offer shall occur in January 2006. The Fund is offering to repurchase up to five percent of its shares in exchange for a pro-rata portion of the Fund's securities. The repurchase offer will expire on January 13, 2006 at 5:00 p.m., Eastern time. The repurchase pricing date is January 20, 2006. The Fund will repurchase shares at net asset value, reduced by a repurchase price adjustment of 1.25%, for a repurchase price of 98.75% of net asset value. Payment of the repurchase offer proceeds will be made on or before January 27, 2006, provided the stockholder participant's account accepts the proceeds.

**The repurchase offers are not part of a plan to liquidate the Fund. Stockholder participation in the repurchase offers is not mandatory as stockholders can continue to purchase and sell Fund shares in cash transactions on the NYSE. The Fund continues to provide a convenient professionally managed vehicle for investing in Mexico.**

The Board of Directors of the Fund anticipates that the Fund's next repurchase offer will occur during July 2006 for an amount not yet determined.

**Dividend Reinvestment Plan**

The Fund's Dividend Reinvestment Plan (the "Plan") provides a convenient way to increase your holdings in the Common Stock of the Fund through the reinvestment of net investment income and capital gain distributions. Under the terms of the Plan, Fund shareholders are automatically enrolled.

as participants in the Plan. If you do not wish to participate in the Plan, please contact the Plan Agent. Upon any termination of participation under the Plan, the Plan Agent will cause a share certificate for the appropriate number of full shares to be delivered to the participant, and a cash adjustment for any fractional shares. At a stockholder's request, the Plan Agent will sell the participant's shares and remit any proceeds to the participant, net of brokerage commissions. Stockholders who do not participate in the Plan will receive all distributions in cash.

Under the terms of the Plan, whenever the Fund declares a distribution, Plan participants will receive their distribution entirely in shares of Common Stock purchased either in the open market or from the Fund. If, on the date a distribution becomes payable or such other date as may be specified by the Fund's Board of Directors (the valuation date), the market price of the Common Stock plus estimated brokerage commissions is equal to or exceeds the NAV per share of Common Stock, the Plan Agent will invest the distribution in newly issued shares of Common Stock, which will be valued at the greater of NAV per share or the current market price on the valuation date. If on the valuation date, the market price of the Common Stock plus estimated brokerage commissions is lower than the NAV per share, the Plan Agent will buy Common Stock in the open market. As a participant in the Plan, you will be charged a *pro-rata* portion of brokerage commissions on all open market purchases.

If your shares are registered or will be registered in the name of a broker-dealer or any other nominee, you must contact the broker-dealer or other nominee regarding his or her status under the Plan, including whether such broker-dealer or nominee will participate in the Plan on your behalf. Generally, shareholders receiving Common Stock under the Plan will be treated as having received a distribution equal to the amount payable to them in cash as a distribution had the stockholder not participated in the Plan.

If you have any questions concerning the Plan or would like a copy of the Plan brochure, please contact the Plan Agent:

Dividends and distributions, if any, are assumed to be reinvested at the lower of the net asset value or the closing market price on the dividend/distribution day. If the fiscal 2003 distribution were taken in stock, which was issued at \$12.08 per share, the total return would have been 20.99% for that year. For fiscal 2004, the total return was calculated assuming a sale of the rights received on September 22, 2004 and reinvested in stock at the closing market price of that date.

---

**1. Operations and Significant Accounting Policies:**

The Mexico Fund, Inc. (the Fund) is registered under the Investment Company Act of 1940, as amended (the 1940 Act), as a closed-end management investment company. On October 16, 2000, the Fund received stockholder approval to convert from a diversified to a non-diversified investment company under the 1940 Act. The investment objective of the Fund is to seek long term capital appreciation through investment in securities, primarily equity, listed on the Mexican Stock Exchange.

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses for the period. Actual results could differ from those estimates. The following is a summary of significant accounting policies followed by the Fund.

*Valuation of investments* Investments traded on the Mexican Stock Exchange are valued at the closing price reported by the Mexican Stock Exchange. The closing price represents the weighted average for the last ten minutes of operations in any business day. Short-term securities are carried at cost, plus accrued interest, which approximates market value. All other securities are valued in accordance with methods determined by the Board of Directors. If the Board of Directors believes that the price of a security obtained under the Fund's valuation procedures does not represent the amount that the Fund reasonably expects to receive on a current sale of the security, the Fund will value the security based on a method that the Board believes accurately reflects fair value.

*Security transactions and investment income* Security transactions are recorded on the date which the transactions are entered into (the trade date). Dividend income is recorded on the ex-dividend date and interest income is recorded as earned.

*Foreign Currency* The market value of Mexican securities, currency holdings and other assets and liabilities denominated in Pesos ( Ps. ) was recorded in the financial statements after being translated into U.S. dollars based on the open market exchange rate prevailing in Mexico City at the end of the period. The open market exchange rate at October 31, 2005 was Ps. 10.7857 to \$1.00.

The identified cost of portfolio holdings is translated at approximate rates prevailing when acquired. Income and expense amounts are translated at approximate rates prevailing when earned or incurred.

The Fund does not isolate that portion of the results of operations arising as a result of changes in the foreign exchange rates from the fluctuations arising from changes in the market prices of securities during the year. Accordingly, the net realized and unrealized gain on investments presented in the accompanying financial statements include the effects of both such changes.

Edgar Filing: MEXICO FUND INC - Form N-CSR

Reported net realized foreign exchange gains or losses arise from sales of short-term securities in exchange of cash, payment of services or foreign currency denominated assets, currency gains or losses realized between the trade and settlement dates on securities transactions and the difference between the amounts of dividends, interest, and foreign withholding taxes recorded by the Fund, and the U.S. dollar equivalent of the amount actually received or paid.

Net unrealized foreign exchange gains and losses arise from changes in the value of assets and liabilities other than investments in common stocks, resulting from changes in the exchange rate.

*Repurchase Agreements* The Fund enters into repurchase agreements with approved institutions. The Fund's repurchase agreements are fully collateralized by Mexican or U.S. Government securities. The Fund takes possession of the collateral and the Fund's investment advisor monitors the credit standing of repurchase agreement counterparties. It is the Fund's policy that the fair value of the collateral is at least equal to the principal amount of the repurchase transaction, including accrued interest, at all times. If the counterparty defaults, and the fair value of the collateral declines, realization of the collateral by the Fund may be delayed or limited.

*Realized gains and losses on investments* Realized gains and losses on investments are determined on the identified cost basis.

*Taxes* No provision has been made for U.S. income or excise taxes for the year ended October 31, 2005 on net investment company taxable income or net long-term capital gains as defined by the Internal Revenue Code (the Code), since the Fund intends to comply with the requirements of the Code applicable to regulated investment companies and to distribute substantially all of such income to its stockholders.

Dividends to stockholders from net investment income are determined based on Federal income tax regulations, whereas the corresponding net investment income as reflected in the accompanying financial statements, is presented in accordance with accounting principles generally accepted in the United States. Net realized gains from security transactions, are distributed annually to stockholders.

The provision for value-added taxes represents Mexican value-added tax on certain services rendered by Mexican corporations to the Fund. Most of these taxes were originated from the services received by the Fund from its Investment Adviser and Administrator. As a result of certain changes in the corporate structure of the Fund's investment Adviser, since July 2005 the Fund ceased to pay the value added tax on such services.

*Dividends to stockholders* Cash dividends are recorded by the Fund on the ex-dividend date. Dividends paid to stockholders may be subject to Mexican withholding taxes.

*Risks of Investment in Mexican Securities* Investing in Mexican securities involves certain considerations not typically associated with investing in securities of U.S. issuers, including (1) lesser liquidity and smaller market capitalization of the Mexican securities markets, (2) currency fluctuations; (3) higher rates of inflation and domestic interest rates and (4) less stringent disclosure requirements, less available information regarding Mexican public companies and less active regulatory oversight of Mexican public companies.

The Mexican Stock Exchange is a concentrated market. A large percentage of the value of the Mexican securities market is currently represented by certain industry sectors, in particular, the communications industry. Also, a certain individual has a controlling interest in companies representing over 30% of the market capitalization of the Mexican Stock Exchange. The value of the Mexican Stock Exchange may be subject to greater volatility than markets that are less concentrated. Any factors or events

Edgar Filing: MEXICO FUND INC - Form N-CSR

which impact this individual could have negative repercussions for the issuers in which he holds a controlling interest, including certain Fund investments and the Mexican Stock Exchange as a whole.

**2. Investment Advisory Agreement:**

The Fund has a management contract with Impulsora del Fondo México, S.C. (the Adviser), a Mexican company registered under the U.S. Investment Advisers Act of 1940. The Adviser furnishes investment research and portfolio management services consistent with the Fund's stated investment policies. The Fund pays to the Adviser a monthly fee at the annual rate of 1.00% on the first \$200 million of average daily net assets, 0.90% on the excess over \$200 million up to \$400 million and 0.60% on the excess over \$400 million.

**3. Administrative Services Agreement:**

The Fund has entered into an Administrative Services Agreement with the Adviser, which provides for certain services to be performed by the Adviser, including among other administrative activities, the determination and publication of the net asset value of the Fund, the maintenance of the Fund's books and records in accordance with applicable U.S. and Mexican Laws and assistance in the preparation and filing of annual reports and tax returns. Prior to March 9, 2005, the Fund paid to the Adviser a monthly fee at the annual rate of 0.07% of average daily net assets, with a minimum amount of \$350,000 per year. On March 9, 2005 the Fund's Board of Directors approved a modification in the fee structure of the contract with the Adviser. Accordingly, starting March 9, 2005, the Fund pays to the Adviser a monthly fee at the annual rate of 0.11% of average daily net assets, with a minimum amount of \$450,000 per year. Additionally, the Adviser receives a fee of \$75,000 per repurchase offer made by the Fund under the program, which are recorded as part of the total expenses of each offer. See Note 7.

**4. Purchases and Sales of Investments:**

Purchases and sales of investments, excluding short-term securities, for the year ended October 31, 2005 were as follows:

Purchases	
Common Stock	\$ 134,441,838
<b>Total Purchases</b>	<b>\$ 134,441,838</b>
Proceeds from Investments Sold	
Common Stock	\$ 131,034,971
<b>Total Sales</b>	<b>\$ 131,034,971</b>

Included in proceeds from investments sold, is \$45,067,907 representing the value of securities disposed of in payment of redemptions in-kind, resulting in realized gains of \$23,518,649. Pursuant to a private letter ruling from the Internal Revenue Service, granted to the Fund, these gains are not recognized by the Fund for tax purposes. As a result, net realized gains differ for financial statement and tax purposes. These realized gains have been reclassified from undistributed realized gains on investments to additional paid in capital in the accompanying financial statements.

**5. Capital Stock:**

## Edgar Filing: MEXICO FUND INC - Form N-CSR

At October 31, 2005, there were 150,000,000 shares of \$1.00 par value common stock authorized, of which 16,894,668 shares were outstanding.

The Fund offers a Dividend Reinvestment Plan ( Plan ) to its stockholders. Fund stockholders are automatically enrolled as participants in the Plan unless they notify the Fund s transfer agent otherwise.

In connection with a rights offering by the Fund, stockholders of record on September 24, 2004 were issued one transferable right for each share of common stock owned. The rights entitled the holders to purchase one new share for every three rights held at a subscription price equal to 90% of the lower of (i) the average of the last reported sale prices of a share of the Fund s common stock on the NYSE on the expiration date (October 22, 2004)

and the four preceding trading days and (ii) the net asset value per share on the expiration date. On October 29, 2004, the Fund issued 4,694,962 shares of common stock at \$16.65 per share. Rights offering costs of \$590,000 (\$0.03 per share) and dealer manager commissions of \$2,933,245 (\$0.16 per share) were charged to paid in capital of common stockholders during 2004, resulting in net proceeds to the Fund of \$74,696,617. Additional rights offering costs of \$92,437 were charged to paid in capital during 2005. The net asset value per share of the Fund's common stockholders was reduced by approximately \$1.89 per share as a result of this issuance, which includes the effect of the dealer manager commissions and rights offering costs.

## 6. Distributions to Stockholders:

The tax character of distributions paid during the fiscal year ended October 31, 2005 and October 31, 2004 were as follows:

	2005	2004
Distributions paid from:		
Ordinary income	\$ 2,493,484	\$
Long term capital gains	10,836,920	4,755,251
	<u>                    </u>	<u>                    </u>
Total distributions paid	<u>\$ 13,330,404</u>	<u>\$ 4,755,251</u>

Unrealized appreciation	260,087,801
	<u>                    </u>
Total accumulated earnings	<u>\$ 309,234,090</u>

At October 31, 2005, the cost of investments for federal income tax purposes was \$274,638,773. Gross unrealized appreciation of investments was \$260,776,720 and gross unrealized depreciation of investments was \$815,130 resulting in net unrealized appreciation on investments of \$259,961,590 excluding foreign currency transactions. The difference between book-basis and tax basis unrealized appreciation/(depreciation) is attributable primarily to different book and tax treatment on corporate reorganizations to securities held by the Fund.

## 7. Stock Repurchase Program:

**8. Investments:**

Certain members of the Board of Directors of the Fund are also members of Boards of Directors of certain companies held in the Fund's portfolio.

**9. Commitments and Contingencies:**

In the normal course of business, the Fund enters into contracts that contain a variety of representations and warranties or which provide general indemnifications. The Fund's maximum exposure under these arrangements is unknown as this would involve future claims that may be made against the Fund that have not yet occurred. However, based on experience, the Fund expects the risk of loss to be remote.

## **Report of Independent Registered Public Accounting Firm**

---

To the Board of Directors and Stockholders of

The Mexico Fund, Inc.

In our opinion, the accompanying statement of assets and liabilities, including the schedule of investments, and the related statements of operations and of changes in net assets and the financial highlights present fairly, in all material respects, the financial position of The Mexico Fund, Inc. (the Fund ) at October 31, 2005, the results of its operations for the year then ended, the changes in its net assets for each of the two years in the period then ended and the financial highlights for each of the four years in the period then ended, in conformity with accounting principles generally accepted in the United States of America. These financial statements and financial highlights (hereafter referred to as financial statements ) are the responsibility of the Fund s management; our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits of these financial statements in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, and evaluating the overall financial statement presentation. We believe that our audits, which included confirmation of securities at October 31, 2005 by correspondence with the custodian and brokers, provide a reasonable basis for our opinion. The financial highlights for the year ended October 31, 2001, were audited by other independent auditors who have ceased operations. Those independent auditors expressed an unqualified opinion on those highlights in their report dated November 16, 2001.

**THE MEXICO FUND, INC. ( FUND )**

The Sarbanes-Oxley Act of 2002 ( Act ) and rules adopted by the Securities and Exchange Commission ( SEC ) require that the Fund s Audit Committee pre-approve all audit services and non-audit services provided to the Fund by its independent accountant ( Auditor<sup>1</sup> The Act and such SEC rules also require that the Fund s Audit Committee pre-approve all non-audit services provided by the Auditor to (i) the Fund s investment adviser, and (ii) any entity controlling, controlled by, or under common control with the investment adviser that provides ongoing services to the Fund (these entities are known as Service Affiliates ) if the engagement for such entities relates directly to the operations and financial reporting of the Fund ( Covered Non-Audit

<sup>1</sup> The term Auditor, as used in these procedures, means the firm engaged to provide the Fund with services listed in Appendix A.

Services <sup>3</sup>. At this time, the Fund has only one Service Affiliate, Impulsora del Fondo México, SC ( Impulsora ) so references to Service Affiliates throughout the procedures encompasses only Impulsora at this time.

The following policies and procedures govern the ways in which the Fund's Audit Committee will consider the pre-approval of audit and non-audit services that the Auditor provides to the Fund, and Covered Non-Audit Services that the Auditor proposes to provide to Service Affiliates.<sup>2</sup> These policies and procedures do not apply in the case of audit services that the Auditor provides to Service Affiliates, nor do they apply to any services that an audit firm other than the Auditor provides to such entities.

These policies and procedures comply with applicable legal requirements for pre-approval, and also provide a mechanism by which management of the Fund and any Service Affiliates may request and secure pre-approval of audit and non-audit services in an orderly manner with minimal disruption to normal business operations.

The following policies and procedures are adopted by the Audit Committee of the Fund.

**A. General**

In approving the Engagement, the Audit Committee shall obtain, review and consider information concerning the proposed Auditor sufficient to enable the Audit Committee to make a reasonable evaluation of the Auditor's qualifications and independence. The Audit Committee also shall consider the Auditor's proposed fees for the Engagement, in light of the scope and nature of the audit services that the Fund will receive.

---

<sup>2</sup> Examples of types of non-audit services that may be provided to the Fund or a Service Affiliate are listed in Appendix B. **Note that** applicable law also prohibits the provision of certain services by the Auditor to entities in the investment company complex. **C. Pre-Approval of Non-Audit Services to the Fund and to Service Affiliates by Types or Categories of Services**

1. The Audit Committee may pre-approve the provision of types or categories of non-audit services for the Fund and Covered Non-Audit Services for Service Affiliates pursuant to this Section C.

3. The lists submitted to the Audit Committee shall describe the types of non-audit services in reasonable detail and shall include an estimated budget (or budgeted range) of fees where possible and such other information as the Audit Committee may request.
4. The Audit Committee, after appropriate consideration of such information as it deems relevant, may pre-approve a non-audit service that is not a prohibited service (see Appendix C) if it specifically finds that the provision of such service is consistent with, and will not impair, the ongoing independence of the Auditor (the Standard for Pre-Approval ). In connection with any such pre-approval, the Audit Committee may set such limits on fees and other conditions as it believes to be appropriate.
5. The Audit Committee's pre-approval of the types of non-audit services submitted pursuant to this Section C shall constitute authorization for management of the Fund to utilize the Auditor for services qualifying within the types of non-audit services so pre-approved, if needed or desired during the fiscal year, subject to such conditions as may have been set by the Audit Committee.
6. Fund management will distribute a list of the types of non-audit services pre-approved by the Audit Committee pursuant to this Section C to management of the Service Affiliates and the appropriate partners of the Auditor. Periodically, the Auditor will discuss with the Audit Committee those non-audit services that have been or are being provided pursuant to this Section C.

**D. Pre-Approval of Non-Audit Services to the Fund and to Service Affiliates Project-by-Project Basis**

1. Non-audit services may be pre-approved on a project-by-project basis pursuant to this Section D, subject to the Standard for Pre-Approval in Section C.

2. The Audit Committee, from time to time, may, by resolution, designate one or more of its members who are Independent Directors (each a Designated Member ) to consider, on the Audit Committee s behalf, (i) any non-audit services proposed to be provided to the Fund that have not been pre-approved in accordance with these Procedures, (ii) any Covered Non-Audit Services proposed to be provided to any Service Affiliate, that have not been pre-approved in accordance with these Procedures and (iii) any proposed material change in the nature or cost of any non-audit service, including any Covered Non-Audit Service, previously approved. 3. Management of the Fund or of Impulsora, in consultation with the Auditor, may submit either to the Audit Committee or to a Designated Member for its consideration and action, a pre-approval request identifying one or more non-audit service projects for the Fund or Covered Non-Audit Service projects for Impulsora, as well as any material changes proposed in a service that has been pre-approved. Any request so submitted shall describe the project or projects in reasonable detail and shall include an estimated budget (or budgeted range) of fees and such other information as the Audit Committee or Designated Member shall request. For any material change in the nature or cost of a pre-approved service, the request shall also describe reasons why the change is requested.
4. The Audit Committee or Designated Member, as applicable, will review the requested non-audit service or proposed material change in such service in light of the Standard for Pre-Approval in Section C. If the review is by a Designated Member, such Designated Member will either:
  - (a) pre-approve, pre-approve subject to conditions, or disapprove any such requested service, or any proposed material change in such service, whether to the Fund or to Impulsora; or
  - (b) refer such matter to the full Audit Committee for its consideration and action.

In considering any requested non-audit service or proposed material change in such service, the Designated Member shall take into account any restrictions placed by the Audit Committee on his pre-approval authority.

5. The Designated Member s pre-approval (or pre-approval subject to conditions) of a requested non-audit service or proposed material change in service pursuant to this Section D shall constitute authorization for the management of the Fund or Impulsora, as the case may be, to utilize the Auditor for the non-audit service so pre-approved. Any action by the Designated Member in approving a requested non-audit service shall be presented for ratification by the Audit Committee not later than at its next regularly scheduled meeting.

**E. Covered Non-Audit Services Provided to Covered Entities Pursuant to Waiver**

**Note: It is generally expected that non-prohibited non-audit services, even when they do not involve significant fees, will be pre-approved in accordance with Section C or D.**

1. The Act provides a limited exception to the requirement that non-audit services (that are not prohibited services) must be pre-approved. This exception is designed to prevent the disqualification of the Auditor due to a minor oversight and is to be used only rarely and only if each of the following conditions is satisfied:
  - (a) The aggregate fees and costs of all non-audit services (including Covered Non-Audit Services) that, but for the limited exception provided by this Section E, would require pre-approval by the Audit Committee constitutes no more than five percent of the total fees and costs paid by the Fund and Service Affiliates to the Auditor during the fiscal year during which such non-audit services are provided;
  - (b) At the time of the engagement for such services, the Fund did not recognize that the services were non-audit services that required pre-approval; and
  - (c) Each such service is (i) brought promptly to the attention of the Audit Committee, (ii) is approved prior to the completion of the audit by the Audit Committee or a Designated Member, in accordance with the Standard for Pre-Approval set forth in Section C and (iii) is approved based upon a determination that the service is eligible for the waiver provided by this Section E.

**F. Amendment; Annual Review**

1. The Audit Committee may amend these procedures from time to time.
2. These procedures shall be reviewed annually by the Audit Committee.

**G. Recordkeeping**

1. The Fund shall maintain a written record of all decisions made by the Audit Committee or by a Designated Member pursuant to these procedures, together with appropriate supporting material.
2. In connection with the approval of any non-audit service pursuant to the *de minimis* exception provided in Section E of these procedures, a record shall be made indicating that each of the conditions for this exception has been satisfied.
3. A copy of these Procedures and of any amendments to these Procedures shall be maintained and preserved permanently in an easily accessible place. The written records referred to in paragraph 1 and 2 of this Section G shall be maintained and preserved for six years from the end of the fiscal year in which the actions recorded were taken, for at least the first two years in an easily accessible location.

**Item 7. Disclosure of Proxy Voting Policies and Procedures for Closed-End Management Investment Companies.**

The Registrant has adopted the following proxy voting policies and procedures.

**THE MEXICO FUND, INC.**

**PROXY VOTING POLICY AND PROCEDURES**

I. Statement of Policy

The following are general proxy voting policies and procedures ( Policies and Procedures ) adopted by The Mexico Fund, Inc. (the Fund ) and by the Board of Directors ( Board ) of the Fund with respect to voting securities held by the Funds. These Policies and Procedures are adopted to ensure compliance with Rule 30b1-4 of the Investment Company Act of 1940, as amended (the 1940 Act ) and other applicable obligations of the Fund under the rules and regulations of the Securities and Exchange Commission ( SEC ) and interpretations of its staff ( Staff ). It is the policy of the Fund to seek to assure that proxies received by the Fund are voted in the best interests of the Fund s stockholders.

## II. Definitions

A. Best interests of Fund stockholders - means stockholders' best economic interest over the long term, *i.e.*, the common interest that all stockholders have in seeing the value of a common investment increase over time. Stockholders may have differing political or social interests, but their best economic interest is generally uniform.

B. Conflict of interest - means circumstances when a proxy vote presents a conflict between the interests of Fund stockholders, on the one hand, and those of the Fund's investment adviser, principal underwriter, or an affiliated person of the Fund, its investment adviser, or principal underwriter, on the other, in how proxies are voted. In practical terms, these circumstances generally would arise when the Fund's investment adviser knowingly does business with a particular proxy issuer or closely affiliated entity, and may appear to have a material conflict between its own interests and the interests of stockholders in how proxies of that issuer are voted. A conflict might exist in circumstances when the Fund's investment adviser has actual knowledge of a material business arrangement between a particular proxy issuer (or closely affiliated entity) and the parent company or a corporate affiliate of the Fund's investment adviser.

## III. Delegation of Responsibility for Proxy Voting

A. The Fund's Board annually evaluates its Fund's contract with its investment adviser, and decides whether to renew the contract. This process gives the Fund an annual opportunity to ensure that investment adviser's investment philosophy is generally consistent with its investment objectives and the best economic interests of its stockholders.

B. Because the investment philosophy of the Fund's investment adviser is generally consistent with the investment objectives of the Fund and the best economic interests of Fund stockholders, investment decisions for the Fund should generally be consistent with its investment adviser's philosophy. In proxy voting decisions, as in other investment decisions, the Fund's investment adviser is in the best position to determine whether a particular proxy proposal is consistent with its philosophy, and therefore generally consistent with the investment objectives of the Fund and the best economic interests of Fund stockholders.

C. Accordingly, the Fund has chosen to delegate all responsibility for proxy voting to its investment adviser, provided that the Fund's Board has the opportunity to periodically review and approve its proxy voting policies and any material amendments (and that the policies contains provisions to address any conflicts of interest as described below). Under this delegation, the investment adviser may vote, abstain from voting, or take no action on proxies for the Fund in any manner consistent with its proxy voting policies (subject to provisions for addressing conflicts of interest). The Fund may revoke all or part of such delegation at any time by a vote of its Board. In the event that the Fund revokes the delegation of proxy voting responsibility to the investment adviser, the Fund will assume full responsibility for ensuring that proxies are voted in the best interest of its stockholders, and will promptly notify stockholders of the revocation. Thereafter, such Fund will vote proxies of portfolio securities consistently with the policies of the investment adviser, or develop its own basis for voting on particular matters.

D. This delegation generally applies to all proxy voting matters on which the Fund may vote, such as corporate governance matters; changes to capital structure, including increases and decreases of capital and preferred stock issuance; stock option plans and other management compensation issues; and social and corporate responsibility issues. This delegation permits the investment adviser to vote (or abstain from voting or take no action on) proxies relating to matters that may affect substantially the rights or privileges of the holders of securities to be voted, and to vote based on the decisions of the investment adviser or on provisions of the investment adviser's proxy policies that may support or give weight to the views of management of a portfolio company.

#### IV. Conflicts of Interest

A. The Fund recognizes that in unusual circumstances, a conflict of interest in how proxies are voted may appear to exist, such as when its investment adviser knowingly does business with a particular proxy issuer or closely affiliated entity or has actual knowledge of a material business arrangement between a particular proxy issuer or closely affiliated entity, and the adviser's parent or an affiliated subsidiary.

B. In those circumstances, to avoid any appearance concerns, the Fund believes it is appropriate for the investment adviser to follow an alternative voting procedure rather than to vote proxies in the investment adviser's sole discretion. Some examples of acceptable alternative voting procedures for resolving conflicts of interest include the following:

- (1) Causing the proxies to be voted in accordance with the recommendations of an independent service provider, if available, that the investment adviser may use to assist it in voting proxies;
- (2) Notifying the Fund's Board, a designated Board committee or a representative of either, of the conflict of interest and seeking a waiver of the conflict to permit the investment adviser to vote the proxies as it chooses under its usual policy; or
- (3) Forwarding the proxies to the Fund's Board, a designated Board committee or a representative of either, so that the Board, the committee or the representative may vote the proxies itself.

C. The Fund generally delegates all responsibility for resolving conflicts of interest to the Fund's investment adviser, provided that the investment adviser's proxy voting policy (as approved by the Fund's Board) includes acceptable alternative voting procedures for resolving material conflicts of interest, such as the procedures described above. Under this delegation, the investment adviser may resolve conflicts of interest in any reasonable manner consistent with the alternative voting procedures described in its proxy voting policy. The Fund may revoke all or part of this delegation at any time by a vote of its Board. In the event that the Fund revokes the delegation of responsibility for resolving conflicts of interest to the investment adviser, the Fund will seek to resolve any conflicts of interest in the best interest of stockholders. In doing so, the Fund may follow any of the procedures described in Paragraph IV.B., above.

#### V. Disclosure of Policy or Description/Proxy Voting Record

A. The Fund will disclose its proxy voting policy or a description of it (and the investment adviser's proxy voting policy, or a description of them), in the Fund's annual report on Form N-CSR (beginning with the first annual report filed on or after July 1, 2003). The Fund will

disclose that this proxy voting policy or a description of it (and the investment adviser's proxy voting policy or a description) is available without charge, upon request, (i) by calling, a toll-free (or collect) telephone number, (ii) on the Fund's website; and (iii) on the SEC's website at [www.sec.gov](http://www.sec.gov). Upon any request for a proxy voting policy or description of it, the policy or the description (or a copy of the most recent annual report containing the policy or description) will be sent by first-class mail or other equally prompt delivery method within three business days of receipt of the request.

B. The Fund also will disclose in its annual report (beginning with the first annual update filed on or after August 31, 2004) that information is available about how the Fund voted proxies during the most recent twelve-month period ended June 30, without charge, upon request, (i) by calling, a toll-free (or collect) telephone number, or on or through the Fund's website or both; and (ii) on the SEC's website at <http://www.sec.gov>. Upon any request for the Fund's proxy voting record, a copy of the information disclosed in its most recent Form N-PX will be sent by first-class mail or other equally prompt delivery method within three business days of receipt of the request.

C. The Fund will file Form N-PX, completed and signed in the manner required, containing its proxy voting record for the most recent twelve-month period ended June 30 with the SEC (beginning August 31, 2004).

D. The Fund will disclose the following information on Form N-PX for each matter relating to a portfolio security considered at any stockholder meeting held during the period covered by the report and with respect to which the Fund was entitled to vote:

The name of the issuer of the portfolio security;

The exchange ticker symbol of the portfolio security except to the extent not available through reasonably practicable means;

The Council on Uniform Securities Identification Procedures (CUSIP) number for the portfolio security except to the extent not available through reasonably practicable means;

The stockholder meeting date;

A brief identification of the matter voted on;

Whether the matter was proposed by the issuer or by a security holder;

Whether the Fund cast its vote on the matter;

How the Fund cast its vote (*e.g.*, for or against proposal, or abstain; for or withhold regarding election of directors); and

Whether the Fund cast its vote for or against management.

Adopted effective June 9, 2003.

IMPULSORA DEL FONDO MÉXICO, SC

PROXY VOTING POLICIES AND PROCEDURES

I. Introduction.-

To comply with the Rule 206(4)-6 and certain provisions of Rule 204-2 under the Investment Advisers Act of 1940, as amended (the Advisers Act ), as well as other applicable fiduciary obligations under rules and regulations of the U.S. Securities and Exchange Commission ( SEC ) and interpretations of its staff, Impulsora del Fondo México, SC (the Adviser ) has adopted these Proxy Voting Policies and Procedures.

In developing the Proxy Voting Policies and Procedures, the Adviser has taken into account the substantial differences between proxy voting at stockholders meetings held in the United States of America and proxy voting in Mexico. The Proxy Voting Policies and Procedures are reasonably designed to ensure that proxies are voted in the best interests of The Mexico Fund, Inc. (the Fund )(to the extent that the Fund is the Adviser s only client at this time) and its stockholders, in accordance with the Adviser s fiduciary duties and Rule 206(4)-6 under the Advisers Act. Best interests means the Fund s best economic interest over the long term, that is, the common interest that all clients of an investment adviser share in seeing the value of a common investment increase over time.

These Proxy Voting Policies and Procedures incorporate the principles and guidance set forth in Investment Advisers Act Release No. IA-2106 for investment advisers and IC-25922 for investment companies to the extent applicable to the Fund. These Proxy Voting Policies and Procedures shall be reviewed by the Board of the Adviser annually and may be amended as required to comply with applicable law and to reflect changes in proxy voting and stockholders meetings in Mexico.

II. Stockholders Meetings and Proxy Voting in Mexico

In Mexico, issuers typically do not send proxy voting materials to their stockholders. A stockholders meeting is called through the publication of the call and the agenda in a major newspaper in Mexico or the Official Bulletin. The calls are issued by the Board of Directors of the

issuers and, occasionally by the Statutory Auditors. The only information disclosed to stockholders is the Agenda for the meeting. Materials addressing some of the topics included in the Agenda are generally available at the offices of the issuer.

Stockholders' meetings in Mexico are considered Ordinary, Extraordinary or Special depending on the topics that are submitted for approval.

Annual Ordinary Stockholders' meetings are called for the purpose of: (i) approving the Annual Report of the Board of Directors to stockholders, which includes the audited Annual Financial Statements; (ii) declaring dividends; (iii) electing Directors and other Officers and (iv) approving the compensation to Directors and other Officers.

Extraordinary Stockholder meetings are called to address topics such as dissolution and liquidation of the corporation, increase or reduction of the capital stock, transformation, merger or spin-up, issuance of preferential stock or bonds and amendment to the issuers By-laws. Special meetings are called to adopt resolutions on issues that require a vote from a particular Series or Class of shares.

There is no proxy solicitation effort as in the United States of America. Typically, there is only one call approved by the Board of Directors or Statutory Auditors for each stockholders' meeting.

### III. Policies.- (Principles)

A. The Adviser has the fiduciary obligation to vote at the stockholders' meetings called by the issuers of securities held in the portfolio of its clients. It must be noted, though, that some portfolio holdings are of Series A shares which do not have voting power. In these cases, the Adviser only attends stockholders' meetings as an observer.

B. The Adviser must exercise its voting authority in the best interests of its client and must not subrogate a client's interest to its own.

C. The Adviser must monitor corporate events relating to issuers in which it has invested client assets and seek to obtain all relevant information about its investments for a client.

D. In accordance with the procedures specified below, the Adviser must identify the cases when it may be faced with a potential material conflict of interest in voting shares of portfolio investments in the best interest of its clients. A material conflict of interest may exist when the Adviser or its representatives knowingly does business or is otherwise associated with a particular issuer or closely affiliated entity of the issuer in which client assets are invested, which may appear to create a material conflict between the interests of the Adviser and the interests of the client in how proxies are voted. At this time, since the Fund is the Adviser's only client, potential conflicts of interest could arise where affiliated persons of the Fund or the Adviser have a significant investment in the securities (5% or more of the outstanding securities), or are directors, officers or employees, of a given issuer in which the Fund is invested. Whether such a conflict is material will depend on the facts and circumstances involved.

E. If a potential material conflict of interest exists, the Adviser must exercise its voting authority after careful investigation and research of the issues involved in accordance with the procedures mentioned below. The Adviser could consult with third parties in the cases where the information available is insufficient to make a final judgment on how to vote the securities. In exceptional cases, the Adviser could make the determination that not voting the securities is, under the circumstances, in the best interest of its client.

#### IV. Proxy Voting Procedures.-

A. The Adviser's Compliance Officer ( Contralor Normativo ) will have the responsibility of monitoring corporate events of all of the issuers in a client's investment portfolio. The Adviser's Compliance Officer is responsible for (1) implementing and updating these policies and procedures; (2) overseeing the proxy voting process; (3) consulting with the portfolio manager for the relevant portfolio security; and (4) overseeing voting execution and recordkeeping.

B. The Adviser's Compliance Officer will have the responsibility to obtain all necessary information on the issuer and on the topics included in the Agenda, once a call for any stockholders' meeting is published in accordance with Mexican law.

C. The Adviser's Compliance Officer will identify in which cases, in exercising voting rights, the Adviser could be faced with a potential material conflict of interest. When a material conflict of interest between the Adviser and a client appears to exist, the Adviser may choose among the following options to eliminate such conflict: (1) vote in accordance with these policies and procedures if it involves little or no discretion (*i.e.*, if it is a routine matter); (2) vote as recommended by an independent third party, if available, which has no knowledge of the nature of the material conflict of interest or does not itself have a material conflict of interest; (3) erect information barriers around the person or persons making voting decisions sufficient to insulate the decision from the conflict; or (4) if possible, notify the client of the material conflict of interest and seek a waiver of the conflict.

D. The Adviser's general voting philosophy is as follows:

- 1) Support existing management on votes on the financial statements of the issuer and the election of the Board of Directors;
- 2) Vote for the acceptance of the accounts unless there are grounds to suspect that either the accounts as presented or audit procedures used, do not present an accurate picture of company results; and
- 3) Support routine issues such as the appointment of independent auditors, allocation of income and the declaration of dividends.

E. If in the opinion of the Adviser's Compliance Officer the matters included in the Agenda are of an extraordinary nature, or an Extraordinary or Special Meeting has been called, he will need to further investigate and analyze all the information and documentation on the subject matter that is available. In this process, he will consult with other officers of the Adviser, and the Adviser's and client's outside legal counsel if necessary, to reach a decision as to how to vote. Such matters will be voted on a case by case basis. Matters which are considered to be of an extraordinary nature include, but are not limited to, delisting of the securities of an issuer in which the Fund has invested from the Bolsa, mergers, spinoffs, and liquidation and dissolution involving an issuer in which the Fund has invested.

F. The Adviser may take a limited role in voting proxies, including abstention or not voting a proxy under the following circumstances:

- (1) where the effect on stockholders' economic interests or the value of the portfolio holding is indeterminable or insignificant;
- (2) where the costs of voting the proxy are prohibitive; and
- (3) in some cases, if the securities are on loan.

#### V. Disclosure

A. The Adviser will disclose to the Fund and any other clients in the United States its Proxy Voting Policies and Procedures and provide a copy upon request.

B. The Adviser will provide all necessary information to the Fund, for compliance with its Form N-PX filing on a timely basis.

C. Upon written request from a client, the Adviser will make available a record of how the Adviser voted proxies relating to portfolio securities during the most recent twelve month period ended June 30.

#### VI. Records

A. The Adviser will maintain records of all proxies voted.

B. As required by Rule 204-2(c), such records will include: (a) a copy of the Policies and Procedures; (b) a copy of any document created by the Adviser that was material to making a decision how to vote proxies on behalf of a client or that memorializes the basis for that decision; and (c) each written request for proxy voting records and the Adviser's written response to any client request for such records.

C. Proxy voting books and records will be maintained in an easily accessible place for a period of five years, the first two in an appropriate office of the Adviser.

#### VII. Review of Policies and Procedures

These policies and procedures will be subject to review on an annual basis, or more frequently, if deemed appropriate by the Adviser.

#### VIII. Effective Date

These Proxy Voting Policies and Procedures of the Adviser are effective as of June 19, 2003.
