Proxy Statement

Annual Meeting, April 25, 2007

The Board of Directors of CNA Financial Corporation (CNA or the Company) submits this statement in connection with the solicitation of proxies from the Stockholders in the form enclosed.

The persons named in this statement as nominees for election as Directors have been designated by the Board of Directors.

Any Stockholder giving a proxy has the power to revoke it at any time before it is exercised. A subsequently dated proxy, duly received, will revoke an earlier dated proxy. A Stockholder may also revoke his or her proxy and vote in person at the Annual Meeting. Proxies will be voted in accordance with the Stockholder s specifications and, if no specifications are made, proxies will be voted in accordance with the Board of Directors recommendations. The approximate date of mailing of this Proxy Statement is April 3, 2007.

On March 12, 2007, we had outstanding 271,483,183 shares of common stock (Common Stock). The holders of Common Stock have one vote for each share of stock held. Stockholders of record at the close of business on March 12, 2007 will be entitled to notice of, and to vote at, this meeting. The holders of a majority of shares of Common Stock issued and outstanding and entitled to vote when present in person or represented by proxy constitute a quorum at all meetings of Stockholders.

In accordance with the Company s By-Laws and applicable law, the election of Directors will be determined by a plurality of the votes cast by the holders of shares present in person or by proxy and entitled to vote. Consequently, the eight nominees who receive the greatest number of votes cast for election as Directors will be elected as Directors of the Company. Shares present which are properly withheld as to voting with respect to any one or more nominees, and shares present with respect to which a broker indicates that it does not have authority to vote (broker non-votes), will not be counted as shares that are present and entitled to vote for purposes of determining the presence of a quorum. The affirmative vote of shares representing a majority of the votes cast by the holders of shares present and entitled to vote is required to approve the other matters to be voted on at the Annual Meeting. Shares which are voted to abstain will be considered present at the meeting, but since they are not affirmative votes for the matter they will have the same effect as votes against the matter. Broker non-votes are not counted as present.

Director Independence

Under the rules of the New York Stock Exchange (NYSE), listed companies like CNA that have a controlling stockholder are not required to have a majority of independent directors. Because Loews holds more than 50% of the voting power of the Company, CNA is a controlled company within the meaning of the rules of the NYSE. Accordingly, our Board of Directors is not composed of a majority of directors who are independent. Nevertheless, our Board of Directors has determined that the following directors are independent under the listing standards of the NYSE (Independent Directors):

Jose Montemayor, Don M. Randel and Marvin Zonis. In addition, our Board has determined that Brenda J. Gaines, whose term as a director will expire on the Annual Meeting date, is also an Independent Director. In determining independence, each year our Board affirmatively determines whether or not each director or nominee has any material relationship with the Company. In assessing the materiality of any relationship, our Board considers all relevant facts and circumstances, not merely from the standpoint of the director or nominee, but from that of any person or organization with which the director or nominee has an affiliation. Our Board considers the frequency and regularity of any services provided by or to, or other transactions between, our Company and the director or nominee or affiliated organization, whether they are being carried out at arm's-length in the ordinary course of business and whether they are being provided or conducted substantially on the same terms as those prevailing at the time with unrelated parties for comparable transactions. Material relationships can include commercial banking, industrial, legal, accounting, charitable and familial relationships.

Our Board has established guidelines to assist it in determining director independence under these listing standards. Under our Board's guidelines, a director would not be considered independent if any of the following relationships exists: (i) during the past three years the director has been an employee, or an immediate family member has been an executive officer, of the Company; (ii) the director or an immediate family member received, during any twelve month period within the past three years, more than \$100,000 in direct compensation from the Company, excluding director and committee fees, pension payments and certain forms of deferred compensation; (iii) the director is a current partner or employee, or an immediate family member is a current partner of a firm that is the Company's internal or external auditor, or an immediate family member is a current employee of such a firm and participates in the firm's audit, assurance or tax compliance (but not tax planning) practice or, within the last three years, the director or an immediate family member was a partner or employee of such a firm and personally worked on the Company's audit within that time; (iv) the director or an immediate family member has at any time during the past three years been employed as an executive officer of another company where any of the Company's present executive officers at the same time serves or served on that company's compensation committee; or (v) the director is a current employee, or an immediate family member is a current executive officer, of a company that has made payments to, or received payments from, the Company for property or services in an amount which, in any of the last three years, exceeds the greater of \$1 million, or 2% of the other company's consolidated gross revenues.

Committees and Meetings

Our Board of Directors has an Audit, Compensation, Executive and Finance Committee. We do not have a Nominating Committee. Under the rules of the NYSE, listed companies like CNA that have a controlling stockholder are not required to have a Nominating Committee. Our Board of Directors as a whole therefore performs the functions of a Nominating Committee. Our Company does not have a specific policy regarding Stockholder nominations of potential directors to our Board of Directors other than through the process described under Stockholder Proposals for the 2008 Annual Meeting below. Nominations for membership to our Board of Directors are determined by our Board in consultation with our executive officers and other members of senior management. Possible nominees to our Board of Directors may be suggested by any director and given to our Chairman of the Board or by Stockholders as indicated above.

Audit Committee

The primary function of our Audit Committee is to assist our Board of Directors in fulfilling its responsibility to oversee management's conduct of our Company's financial reporting process, including review of the financial reports and other financial information of our Company, our Company's systems of internal accounting, our Company's financial controls, and the annual independent audit of our Company's financial statements. Our Audit Committee has sole authority to directly appoint, retain, compensate, evaluate and terminate our Company's independent registered public accounting firm and to approve all engagement fees and terms, including mandatory pre-approval of all engagements of the independent registered public accounting firm in accordance with policies and procedures adopted by our Audit Committee from time to time or as required. The Charter of our Audit Committee, as well as our Corporate Governance Guidelines and Code of Business Conduct and Ethics, are posted on the Company's website at www.cna.com and are also available in print to any Stockholder who requests them. Our management is responsible for its financial statements and reporting process, including its system of internal controls. Our independent registered public accounting firm is responsible for expressing an opinion on the conformity of our audited financial statements with accounting principles generally accepted in the United States of America.

The current members of our Audit Committee are Brenda J. Gaines (Chairperson), Jose O. Montemayor, Don M. Randel and Marvin Zonis, each of whom is an Independent Director and also meets the additional independence requirements of applicable listing standards of the NYSE and Securities and Exchange Commission (SEC) regulations. Each of the current members is financially literate as determined by our Board. Our Board has determined that Ms. Gaines and Mr. Montemayor are each an audit committee financial expert under NYSE and SEC standards.

Our Independent Directors meet regularly in executive session without management participation. We have a position of presiding director (Presiding Director) whose primary responsibility is to preside over these executive sessions of the Independent Directors. The Chairpersons of our Audit and Compensation Committees alternate annually as the Presiding Director. Ms. Gaines, as Chairperson of our Audit Committee, will serve as Presiding Director until the Annual Meeting on April 25, 2007. This procedure will require that the Chairperson of our Compensation Committee be an Independent Director during any period in which he or she is serving as the Presiding Director.

Our Directors are asked annually to report to our Company the number of audit committees on which such Director serves. During 2006, no Director reported serving on more than three audit committees.

Compensation Committee

Under the rules of the NYSE, listed companies, like CNA, that have a controlling stockholder are not required to have a Compensation Committee. However, as noted above, the Company's Board does maintain a Compensation Committee (Compensation Committee) that administers the Incentive Compensation Plan and approves the total compensation of the Named Executive Officers. The Charter of the Compensation Committee is posted on the Company's website at www.cna.com and is also available in print to any Stockholder who requests it. The current members of our Compensation Committee are Marvin Zonis (Chairperson) and Don M. Randel, each of whom is an Independent Director.

Meetings

During 2006 there were five meetings of our Board of Directors, four meetings of our Finance Committee, eight meetings of our Audit Committee and three meetings of our Compensation Committee. In addition, in connection with our debt and equity offering in 2006, there were four meetings of the Special Review Committee and two meetings of the Special Pricing Committee. Each director of the Company attended not less than 75% of the total number of meetings of our Board of Directors and committees of our Board on which that director served during 2006. Our Board recommends, but does not require, that all directors attend our Stockholders' meetings. All of our directors, except Mr. Jose Montemayor who was not elected until February of 2007, attended our 2006 Annual Meeting of Stockholders.

Audit Committee Report

The role of our Audit Committee is to assist our Board of Directors with the responsibility of administering corporate policy in matters of accounting and control in its oversight of our financial reporting process. As set forth in the Charter of our Audit Committee, management of our Company is responsible for the preparation, presentation and integrity of the Company's financial statements. Our Company's accounting and financial reporting principles and internal controls and procedures are designed to assure compliance with accounting standards and applicable laws and regulations. Our Audit Committee functions as the liaison with our Company's independent registered public accounting firm and internal audit. The independent registered public accounting firm is responsible for auditing our Company's financial statements and expressing an opinion as to their conformity with accounting principles generally accepted in the United States of America.

In the performance of its oversight function, the Audit Committee has considered and discussed the audited financial statements with management and the independent registered public accounting firm. Our Audit Committee has also discussed with the independent registered public accounting firm the matters required to be discussed by the standard adopted or referenced by the Public Company Accounting Oversight Board (PCAOB) and SEC Rule 2-07, *Communication with Audit Committees*, as currently in effect. Finally, our Audit Committee has received the written disclosures and the letter from the independent registered public accounting firm required by the PCAOB. Our Audit Committee has discussed with the independent registered public accounting firm the firm's independence.

The members of the Audit Committee rely without independent verification on the information provided to them by management and the independent registered public accounting firm and on management's representation that our financial statements have been prepared with integrity and objectivity. They do not provide any expert or special assurance as to our financial statements or any professional certification as to the independent registered public accounting firm's work. Accordingly, our Audit Committee's oversight does not provide an independent basis to determine that management has applied appropriate accounting and financial reporting principles or internal controls and procedures, that the audit of our financial statements has been carried out in accordance with the standards of the PCAOB (United States), that our financial statements are presented in accordance with accounting principles generally accepted in the United States of America, or that our registered public accounting firm is in fact independent.

Based upon the reports and discussions described in this report, and subject to the limitations on the role and responsibilities of our Audit Committee referred to above and in the Charter, our Audit Committee recommended to our Board that the audited financial statements be included in our Annual Report on Form 10-K for the year ended December 31, 2006 filed with the SEC and determined that the provision of non-audit services by Deloitte & Touche LLP to the Company in 2006 was compatible with maintaining the independence of Deloitte & Touche LLP in its audit of the Company.

The term of the agreement expires November 30, 2007 and current annual base compensation is \$625,000 subject to discretionary adjustments by the Compensation Committee. In addition, Mr. Mense is entitled to earn annual incentive cash awards under the Incentive Compensation Plan, as well as certain long-term incentive awards in the form of annual cash awards and annual stock option grants, all subject to approval and adjustment by the Compensation Committee.

If Mr. Mense's employment is terminated by the Company without cause or he resigns for good reason (each as defined in the agreement), he will receive a payment equal to 12 months of his annual base compensation, or the amount of unpaid base compensation for the unexpired period of the employment term, whichever is greater, plus annual target bonus in effect at the time of termination. In addition, he will receive a target annual bonus and cash long-term incentive award for the performance period in which the termination occurs prorated to date of termination, up to one year of continued participation in health benefit plans in which he was enrolled in prior to termination.

Pursuant to an employment agreement dated April 1, 2004, Mr. Michael Fusco serves as Executive Vice President, Chief Actuary and Chief Risk Officer of the CNA insurance companies. The terms of the agreement were extended to March 31, 2009 and the annual base compensation is \$550,000, subject to discretionary adjustments by the Compensation Committee. In addition, Mr. Fusco is entitled to earn annual incentive cash awards under the Incentive Compensation Plan, as well as certain long-term incentive awards in the form of annual cash awards and annual stock option grants, all subject to approval and adjustment by the Compensation Committee.

If Mr. Fusco's employment is terminated by the Company without cause or he resigns for good reason (each as defined in the agreement), he will receive a payment equal to the sum of his base salary and prorated target bonus for the unexpired period of the employment term; however, in no event shall severance equal less than 12 months of his base salary and annual target bonus. In addition, he will receive a target annual bonus and cash long-term incentive award for the performance period in which the termination occurs prorated to date of termination, up to one year of continued participation in health benefit plans in which he was enrolled prior to termination.

In the event any of the foregoing employment agreements is not renewed or is terminated prior to the respective expiration dates, each executive may be entitled to certain payments, the continuation of certain benefits, and the vesting of certain stock options, all as determined in accordance with the applicable provisions of the respective agreements. Following the expiration or earlier termination of the agreements, each of the foregoing executives remains subject to certain confidentiality, non-competition, non-solicitation, non-interference and claims assistance covenants.

Retirement Plans

CNA sponsors funded, tax-qualified retirement plans for salaried employees, including executive officers (the Qualified Plans) and unfunded, non-qualified equalization plans (the Non-Qualified Plans) which provide for accruals and contributions not available under the tax-qualified plans. The following description of the Qualified Plans also applies to the Non-Qualified Plans. The Qualified Plans and the Non-Qualified Plans both include defined contribution plans and defined benefit plans. The Qualified and Non-Qualified defined contribution plans are the CNA Savings and Capital Accumulation Plan (the S-CAP) and the CNA Supplemental Executive Savings and Capital Accumulation Plan (the SES-CAP), respectively. The Qualified and Non-Qualified defined benefit plans are the CNA Retirement Plan (the Retirement Plan) and the CNA Supplemental Executive Retirement Plan (the SERP), respectively.

In 2000, the Retirement Plan was amended and employees who were employed at December 31, 1999 and were still employed on April 24, 2000 were required to make a choice regarding their future accruals in this plan. Employees were given two choices: (1) to continue earning additional benefits under the formula described below; or (2) to convert the present value of their accrued benefit as of December 31, 1999 to an accrued pension account, which amount was credited with interest at a rate based on 30 year treasury securities.

Employees who elected to forego earning additional benefits in the Retirement Plan and all employees hired by Continental Casualty Company on or after January 1, 2000 receive an annual basic Company contribution to the S-CAP of 3% or 5% of their eligible compensation, depending on their age. In addition, these employees are eligible to receive discretionary annual performance contributions of up to 2% of eligible compensation and an additional Company match of up to 80% of the first 6% of salary contributed by the employee. The basic, performance and additional Company matching contributions are referred to herein as Enhanced S-CAP. All eligible employees, regardless of their choice, are entitled to a 70% Company matching contribution to the S-CAP on the first 6% of eligible compensation contributed by the employee. The Company matching contribution rates for employees during the first year of service are 50% of the foregoing.

All salary amounts and annual cash incentive compensation amounts are considered eligible compensation for purposes of the Retirement Plan, the SERP, and for basic and performance contributions to the S-CAP and SES-CAP. Only salary is considered eligible compensation for purposes of Company matching contributions to the S-CAP and SES-CAP.

Under Mr. Lilienthal's employment agreement, one times his annual incentive cash compensation is considered eligible compensation for purposes of SES-CAP Company matching contributions.

Mr. Kantor chose to continue to accrue benefits under the Retirement Plan and SERP. Messrs. Fusco, Lewis, Lilienthal, and Mense are all participants in the Enhanced S-CAP and SES-CAP.

CNA Retirement Plan

CNA sponsors two defined benefit pension plans in which its named executive officers participate. The Retirement Plan is a defined benefit pension plan available to employees hired on or before December 31, 1999. This plan is qualified under Section 401(a) of the Internal Revenue Code (IRC). The SERP is a nonqualified defined benefit pension plan that provides benefits to employees who are eligible to participate in the Retirement Plan and whose accrued benefit under such plan is restricted by IRC Sections 401(a)(17) or 415.

The Retirement Plan provides a life annuity benefit at normal retirement age equal to (1) less (2) below:

(1) The sum of (A) and (B) below:

(A) 2% of Highest Average Monthly Compensation multiplied by years and months of Accrual Service, up to a maximum of 25 years;

(B) 0.6667 % of Highest Average Monthly Compensation multiplied by years and months of Accrual Service over 25 years, up to 15 such years.

(2) 1.4% of Primary Social Security Amount multiplied by years and months of Accrual Service, up to a maximum of 35 years.

Highest Average Monthly Compensation is computed as the average of the 60 consecutive months of Compensation over the entire period of employment which produce the highest monthly average. Compensation includes base salary, incentive compensation, overtime, and incentive or performance bonuses (such as under the Annual Incentive Bonus Plan) before these are reduced by contributions to tax-deferred or tax-exempt plans under IRC Sections 401(k), 125 or 132(f)(4). Compensation recognized under the Retirement Plan is limited under the provisions of IRC Section 401(a)(17).

Primary Social Security Amount is an estimate of the monthly primary insurance amount available at age 65 computed under the Social Security Act in effect on January 1 of the year of determination. This amount is estimated by assuming annual wages for the period after termination of employment to age 65 are equal to earnings in the last full year of employment and past wages are estimated assuming wage increases of 6% per year from the later of age 22 or January 1, 1951.

Accrual Service is determined in years and months from the date of hire, with one month credited for any month in which the employee works.

Eligible employees become participants in the Retirement Plan at the later of: (i) the date an employee attains age 21; (ii) the date an employee becomes an Eligible Employee; or (iii) the date the employee completes 1,000 Hours of Service. Eligible Employees include all employees of the Company and Continental Casualty Company hired prior to January 1, 2000.

A participant's right to an accrued benefit under the Retirement Plan becomes nonforfeitable after five years of vesting service or when the participant attains normal retirement age (later of sixty-fifth birthday or fifth anniversary of the date of participation). The accrued benefit is payable on an unreduced basis on or after age 65. Participants who terminate with at least five years of vesting service and with the sum of their age and service greater than or equal to 65 (early retirement age) may commence benefits at any time. Such benefits are reduced by 1/3 of 1 percent for each complete calendar month commencement precedes the first of the month coincident with or next following their sixty-second birthday. Participants who terminate with at least ten years of vesting service, but prior to early retirement age, may commence as early as age fifty-five with a reduction of 1/2 of 1 percent for each complete calendar month commencement precedes the first of the month coincident with or next following their sixty-fifth birthday.

Participants who commence benefits at an early retirement age are eligible for a supplemental benefit payable until they attain age 62. This benefit is equal to the offset described in (2) above reduced for early retirement.

The normal form of payment for a single participant is the single life annuity. The normal form of payment for a married participant is the qualified 50% joint and survivor annuity. Several optional forms of payment are offered. These include: 50%, 66-2/3%, and 100% joint and contingent annuities, and the single life annuity. Benefits paid under any of these optional forms are actuarially equivalent to the single life annuity benefit available at commencement age.

The Retirement Plan provides benefits upon the death or disability of an active participant. The spouse of a deceased active participant who dies with at least ten years of vesting service and on or after age 45 (but before early retirement age) receives 50% of the participant's accrued benefit, assuming the participant had attained early retirement age at the date of death and retired with a 50% joint and survivor annuity payment form. The early retirement reduction in this case is 1/3 of 1 percent for each complete calendar month the date of death precedes the first of the month coincident with or next following the participant's sixty-second birthday. Upon becoming disabled after five years of vesting service, the participant is eligible for additional Accrual Service to the earliest to occur of the cessation of disability, normal retirement age or the election of an earlier annuity starting date. Compensation while disabled is credited at the same rate of compensation in the last full month worked.

Mr. Kantor is the only named executive officer eligible to participate in the Retirement Plan. Mr. Kantor is not currently eligible for early retirement benefits under the Retirement Plan.

CNA Supplemental Executive Retirement Plan

The SERP provides that portion of the Retirement Plan benefit which cannot be paid from the Retirement Plan due to the compensation limitations of IRC Section 401(a)(17) or the benefit amount limitations of IRC Section 415.

The provisions of the SERP are the same as the Retirement Plan. A participant who retires and becomes eligible to receive a benefit under the Retirement Plan, whether a normal, early, or late retirement benefit, shall receive a benefit from the SERP equal to the excess, if any, of the amount the participant would have received from the Retirement Plan if neither of the IRC Section 401(a)(17) or IRC Section 415 tax limits applied over the participant's actual Retirement Plan benefit. The amount of the benefit the participant would have received under the SERP shall be determined on the same basis as the participant's actual Retirement Plan benefit, taking into account the participant's age, compensation history, service, and form of benefit elected under the Retirement Plan. The provisions of the SERP with respect to death and disability benefits are the same as the Retirement Plan.

The SERP was amended effective January 1, 2005 to provide that the SERP benefit accrued after December 31, 2004 will be paid as a lump sum unless the monthly amount of such benefit exceeds \$15,000.00 per month. The lump sum is equal to the actuarial equivalent of such benefit with actuarial equivalence determined under the term of the Retirement Plan. As of December 31, 2004, the Company has elected to pay all benefits accrued prior to January 1, 2005 that do not exceed \$15,000.00 per month in the form of a lump sum, but retains discretion to pay benefit accrued prior to January 1, 2005 either as a lump sum or as an annuity.

Mr. Kantor is the only named executive officer eligible to participate in the SERP. Mr. Kantor is not currently eligible for early retirement benefits under the SERP.

Compensation Discussion and Analysis

The Board of Directors believes that our success is dependent upon the quality of senior management, and that compensation programs are important in attracting and retaining NEOs of superior ability and motivating their efforts on behalf of our interests. To that end, our compensation program for NEOs recognizes individual performance and contributions, as reflected both in our overall results and in each NEO's contribution to them. To meet this objective we have established an approach to NEO compensation that combines elements of base salary and both cash and stock-based incentive compensation, as well as other benefits. In selecting these elements of NEO compensation, we have considered our historical compensation practices as they have evolved over the years, national surveys of executive compensation at comparable companies and the executive compensation programs of various peer companies, as well as applicable tax and accounting impacts of executive compensation. Our NEOs are identified in the table below headed "Compensation of Executive Officers".

Since the Company maintains written employment agreements, either directly or through one of its subsidiaries, with each of its NEOs, they (along with the Incentive Compensation Plan) are the principal guides to structuring compensation for

those executives. In preparing and negotiating the terms of these agreements, we seek to realize the goals and objectives and to include the elements of compensation described in this report. These employment agreements are described elsewhere in this Proxy Statement.

The principal components of compensation for the Company's NEOs are:

base salary;

cash incentive compensation awards, based on both annual and longer-term performance measures;

grants of stock-based awards; and

retirement, medical and related benefits.

In establishing the aggregate amount of compensation for each NEO, the primary factor is an evaluation of the individual's performance in the context of the Company's contractual commitments to the individual executive, our corporate performance during the period in question and our past compensation policies. As noted above, we also review and consider compensation levels and practices as shown in surveys and other materials. Based on these factors, we determine an overall level of cash compensation—a portion of which is to be paid as base salary and the balance of which would be incentive based—and equity-based awards, which are described in further detail below.

Base Salary. As a result of the performance reviews and other factors described below, and the impact of limits on the deductibility of compensation as described below, the annual base salary of each of the Company's NEOs has been effectively limited to a maximum of \$1 million. Under Section 162(m) of the Internal Revenue Code, unless classified as qualified performance-based compensation the amount of compensation deductible for federal income tax purposes which is paid by a publicly-held corporation to its CEO and certain highly compensated officers during any year is limited to a maximum of \$1,000,000 per person, except that compensation which is considered to be performance-based is not subject to this limitation. To the extent the Company's compensation policy can be implemented in a manner that maximizes the deductibility of compensation paid by the Company, the Board of Directors seeks to do so, subject to the Company's contractual obligations to executives in particular cases.

Incentive Compensation Awards. The CNA Financial Corporation 2000 Incentive Compensation Plan (the Plan) provides for annual and long-term cash and share-related incentive compensation for the NEOs of the Company, among other executives. It is designed to qualify the amounts paid from time to time under the Plan to certain of the Company's officers as qualified performance-based compensation under Section 162(m) of the Internal Revenue Code. The elements of incentive compensation recited in the Company's employment agreement with each NEO are subject to the terms of the Plan and the approval of the Compensation Committee.

The Plan is intended to assist us in attracting new senior leadership, and provide a means of rewarding NEOs, among other employees, with equity and cash compensation which, when coupled with a base salary, produces a competitive level of total compensation that reflects their individual performance and their contributions to the overall short-term and long-term enhancement of the value of the Company and its subsidiaries. The Plan is administered by the Compensation Committee, which has sole discretion to make all determinations on any matter relating to the Plan or any award granted under it. Under the Plan the measures to be used for purposes of incentive awards may include one or more or any combination of a wide variety of corporate and personal performance components, as described more fully in the Plan.

In February of 2007 our Board of Directors renamed the Incentive Compensation Committee as the Compensation Committee and approved a new Committee charter, establishing its purpose, structure and responsibilities. Pursuant to its charter, the Compensation Committee, in response to Company management recommendations, determines all elements of compensation for the NEOs and all stock-based compensation awards to senior officers of the Company. The Compensation Committee also reviews and approves the terms of written employment agreements between the NEOs and the Company or its subsidiaries.

Annual and long-term 2006 cash incentive awards under the Plan for the NEOs were based upon our net operating income for that year as defined by the Compensation Committee (NOI) at its meeting in February of 2006. The following is the definition of NOI approved at that meeting:

Net Operating Income is defined as net income to be reported to the shareholders in the Annual Report for 2006, adjusted to exclude the following items:

Edgar Filing: CNA FINANCIAL CORP - Form DEF 14A

1) Realized capital gains or losses, net of tax, to be reported to the shareholders in the Company's Annual Report for 2006.

- 2) Items related to a change in accounting principles or items of gain, loss, income or expense which were extraordinary, unusual in nature or infrequent in occurrence and described as such in SEC filings or internal memoranda.
- 3) Operating losses attributable to indemnification claims arising from the Group or Life business operations sold in 2003 and 2004 and described as such in SEC filings or internal memoranda.
- 4) Reserve strengthening and adverse dividend or premium development associated with accident years prior to 2000 related to claims for construction defect, clergy abuse, asbestos, silicosis, pollution and mass tort exposures.
- 5) Catastrophe losses of the Company or its subsidiaries in excess of the 2006 budgeted amount. To the extent that catastrophe losses are below the budgeted amount, include catastrophe losses up to the budgeted level.
- 6) Operating losses attributable to a commutation of any ceded finite reinsurance treaty and described as such in SEC filings or internal memoranda.
- 7) Surety losses related to bonds issued in connection with projects of a larger national contractor.
- 8) Investment returns relating to limited partnership, limited liability companies, joint ventures and other similarly structured investment vehicles which are unaffiliated with a strategic business unit operating strategy.

No changes were made either to the enumerated exclusions from net income or to the 2006 NOI definition as a whole after its approval by the Compensation Committee at the referenced February, 2006 meeting.

With regard to 2006 incentive cash awards to NEOs, the Compensation Committee retained the authority to exercise negative discretion on any of the exclusions listed above except as specified in an employment agreement between the Company or one of its subsidiaries and an NEO. Although NOI as determined under this definition is derived from the Company's net income as recorded in our Annual Report for 2006, it is different from both that net income amount and our net operating income as reported in the Company's earnings release for 2006. The primary purpose of the exclusions from net income reflected in the above definition of NOI is to remove those elements of income or loss which relate to one-time or extraordinary events or developments or other matters that, in the judgment of the Compensation Committee, are not appropriate to consider for purposes of assessing an NEO's performance and contribution to our operating results. At its February 2007 meeting, the Compensation Committee established that NOI for 2006, determined pursuant to the above definition, was \$880 million. Net operating income as reported by the Company in our earnings release for 2006 was \$190 million higher than NOI as determined by the Compensation Committee for 2006.

Annual Incentive Cash Compensation Awards

The annual incentive cash compensation awards under the Plan for the NEOs for 2006 were primarily determined by performance compared to preset quantifiable financial goals based upon NOI as determined by the Compensation Committee, which also set the level or levels of cash incentive award opportunity within those goals for each NEO. Typical primary recurring factors taken into account for purposes of determining annual incentive cash compensation opportunity levels assigned for each NEO for a given year include such elements as: combined ratios; expense ratios; return on equity; catastrophe loss experience; handling of legal exposures; net written premium production; and investment gains and losses. As to any particular NEO, these factors may be considered both from an overall corporate viewpoint or in terms of performance for a particular factor within that executive's individual areas of responsibility, or both. For 2006, non-recurring developments taken into account for purposes of determining annual NEO incentive cash compensation opportunities included refinancing transactions pursuant to which a \$750 million preferred stock issue held by Loews was repurchased with funds financed on advantageous terms and our capital structure improved, as well as the commutation of certain large-scale reinsurance agreements that eliminated the interest expense associated with those contracts.

For Messrs. Lilienthal and Lewis, the annual incentive cash compensation opportunities for 2006 were based upon NOI targets expressed as ranges or fixed amounts, at or within which certain levels of incentive opportunity would be available to the executive. For Mr. Lilienthal, the annual incentive cash compensation opportunity for 2006 extends from a minimum of \$0 to a maximum of \$2.9 million. For Mr. Lewis, the annual incentive cash compensation opportunity for 2006

extends from a minimum of \$0 to a maximum of \$1.6 million. For these two executives, assessment of individual performance in 2005 and range of responsibilities are reflected as factors in the levels of incentive opportunity provided for at various NOI target ranges or fixed amounts.

For Messrs. Kantor, Mense and Fusco, the annual incentive cash compensation opportunities for 2006 were based upon a payout formula in each case of a percentage of 2006 NOI as defined by the Compensation Committee, limited by individual maximum payment amounts of \$1.5 million, \$1.25 million and \$1 million respectively. For these three executives, assessment of individual performance in 2005 and range of responsibilities are reflected as factors in the maximum individual payout amounts established as to each.

For all NEOs except Mr. Lilienthal, the Compensation Committee retained the power to exercise negative discretion for 2006 annual incentive cash compensation amounts up to 100% of the amount produced by formula. For Mr. Lilienthal the Compensation Committee agreed to retain the power to exercise negative discretion on the 2006 annual incentive cash compensation amount only in excess of \$1.45 million, based upon a contractual commitment in our employment agreement with him. Thus for all NEOs the Compensation Committee's exercise of negative discretion in any particular case is an additional factor reflecting that executive's individual performance as assessed by the Compensation Committee and Company management. In making recommendations to the Compensation Committee for 2006 annual incentive bonus payment amounts within the above parameters for the NEOs at its meeting in February of 2007, the Company reviewed specific 2006 performance achievements of each executive and explained why in the Company's view the proposed bonus amounts were warranted. A special separate discretionary bonus was recommended for Mr. Kantor in recognition of outstanding results in major litigation management in 2006.

The NOI ranges or fixed amounts set to establish the various levels of 2006 annual incentive cash compensation opportunities for Messrs. Lilienthal and Lewis were determined by consideration of a number of factors, principally recent NOI production by the Company and anticipated production for the performance year in question in light of known factors. The Company's goal in setting such ranges and fixed amounts is to compensate the executive competitively with management in similar positions at peer companies for NOI achievement in a given performance year. For those executives the difficulty in reaching the highest level of annual incentive cash compensation opportunity for any given year is a product of both the large number of cumulative factors affecting actual NOI production for that year and the accuracy of the pre-set NOI ranges or fixed amounts in reflecting what can reasonably be regarded as achievable NOI production for the period. For Messrs. Kantor, Mense and Fusco there is no requirement to reach a particular performance goal or payout formula in order to qualify for the 2006 annual incentive cash compensation opportunity, but payouts are limited by both actual 2006 NOI production and the individual pre-determined maximum payout amounts. For all NEOs the potential for exercise of negative discretion by the Compensation Committee as described above is a further limiting factor.

The annual incentive opportunity is based, among other factors, on comparative market compensation data as described below. Final approval of annual incentive cash compensation payments is made by the Compensation Committee, which retained authority to make discretionary reductions in the award amounts, including changes through the exercise of negative discretion as to individual awards. The Compensation Committee also reserved the right to eliminate these awards to the NEOs, uniformly, due to adverse financial conditions, except where otherwise specified in employment agreements. In determining the annual incentive cash compensation awards for 2006, the Compensation Committee evaluated Company performance and individual performance against the pre-set financial goals and other performance measures where appropriate. Based upon this evaluation, the 2006 annual incentive bonus payouts for the NEOs ranged from 100% to 85% of the respective maximum annual incentive opportunities.

Long -Term Incentive Cash Plan

As noted above, in 2000 the Company's long-term incentive cash incentive compensation plan was consolidated with other incentive compensation programs into the Plan. Under the Plan potential long-term incentive (LTI) cash awards for NEOs, among other employees, are based upon the Company's NOI, determined pursuant to a definition approved by the Compensation Committee, over three year cycles, with NOI goals set by the Compensation Committee for each calendar year within the three year cycle. The three-year period covered by these awards encourages our executives to think in terms of multi-year performance spans, rather than exclusively a succession of separate single-year measures.

The determination of NOI for purposes of establishing LTI cash awards is the same as the NOI determination for purposes of annual cash compensation opportunities, as described above. Performance is determined at the end of each calendar year and payouts are accrued until the end of each three year cycle. Accordingly, 2006 performance year results for the 2004-2006, 2005-2007 and 2006-2008 cycles under the Plan were reviewed and approved by the Compensation

Committee. As distinct from their annual incentive cash compensation award opportunities, the LTI cash awards for the NEOs in 2006 were determined pursuant to NOI goal levels and target percentages that are the same in each case, although the amounts awardable at each target percentage achievement were different for each executive. The ranges of LTI cash award opportunities for the NEOs for 2006 determined by the Compensation Committee are reflected below under the table headed "Grants of Plan Based Awards".

For the LTI cash award opportunity as with the annual incentive cash compensation awards, the difficulty for each NEO in reaching the highest level of LTI cash opportunity for any given year is a product of both the large number of cumulative factors affecting actual NOI production for that year and the accuracy of the pre-set NOI goal in reflecting what can reasonably be regarded as achievable NOI production for the period.

Stock Based Awards. Another element of our compensation policy for NEOs is stock based awards under the Plan. Unlike base salary and incentive compensation awards, which are earned and paid based on the annual or multi-year performance of the individual and the Company, stock based awards generally vest in four equal installments over a period of four years and each installment vests only if the NEO is employed on each vesting date. As a result, these awards recognize performance over a longer term, encourage executives to continue their employment with us and directly link the value of the awards to appreciation in the price of our common stock. All of these elements further serve to align the executive's interests with those of our stockholders.

The Company's contractual commitments to NEOs for stock-based awards generally take the form of a minimum number of shares to be awarded annually, subject to the terms of the Plan, share availability and the approval of the Compensation Committee. Stock based awards to NEOs are made at an exercise or strike price equal to the fair market value as defined in the Plan, based upon the average of the high and low sales prices of the Company's common stock on the date of grant. We believe this practice is fair and reasonable to the individual executive and to the Company and its Stockholders, since, in addition to being consistent with the Plan, it is a commonly used method of determining the exercise or strike price of equity-based awards to corporate executives and is unconnected with the impact of any subsequent events.

In 2006 the Company recommended to the Compensation Committee that regularly-scheduled stock-based awards to NEOs and other Company officers, except as otherwise provided by contract, normally be granted in the form of SARs, as defined below. The objective of this practice is to reduce the level of dilution of Company ownership by current Stockholders created as a result of equity awards to officers, and to help maintain consolidation for tax reporting purposes with our corporate majority owner. With a SARs grant, the only common stock granted and potentially sold are shares representing the difference in the stock's fair market value between the date the grant was made and the exercise date.

Stock based awards to NEOs may be made in the form of restricted stock grants, stock options or SARs paid in stock, in each case subject to the terms and provisions of the Plan, although restricted stock grants are not made on a regular basis. Each SAR granted entitles the grantee to receive, at the time of exercise, an amount equal to the difference between the fair market value of a single share of the Company's common stock on the date of exercise and the exercise price, which may not be less than the fair market value of a single share of the Company's common stock on the date the grant was made, paid not in cash but in shares of Company common stock. SARs are exercisable in four equal annual installments on the first four anniversaries of the grant date so long as the grantee is employed by the Company or one of its subsidiaries on each such date.

The SARs granted reflect the assessment of management as to each NEO's contribution to the attainment of corporate goals, his level of success in meeting individual performance expectations and competitive levels of total compensation.

Other Benefits. We provide limited types of perquisites and other personal benefits to our NEOs which we believe are reasonable, consistent with our overall compensation program to enable the Company to attract and retain superior employees for key positions and comparable with perquisite packages offered by our competitors to their senior executives. Pursuant to Company policy and the terms of their respective employment agreements described above, NEOs are generally entitled to participate in the various benefit plans, programs or arrangements established and maintained by the Company from time to time and applicable to its senior executives including medical benefits, dental benefits, life insurance, long-term disability insurance, qualified and supplemental defined contribution and defined benefit plans, and to receive all fringe benefits made available to senior executives of the Company, including reimbursement for club memberships, annual physical exams and for preparation of personal income tax returns. Each NEO's entitlement to such benefits is subject to the terms and conditions of the Company's policies with regard to them, as adjusted by the Company from time to time in its discretion. NEOs are not eligible for paid time off under the Company's paid time off policy, any vacation or other work leave time being in each case subject to the approval of the Chairman of the Board and Chief Executive Officer. Severance and other benefits available to NEOs upon termination of employment are determined in accordance with the terms of their respective employment contracts, which are summarized above.

The Compensation Committee reviews and approves the compensation for the NEOs, those being Messrs. Lilienthal, Fusco, Kantor, Lewis, and Mense. The Chairman of the Board and Chief Executive Officer reviews the compensation for all NEOs other than himself. The Compensation Committee and the Chairman are assisted in developing and evaluating the overall competitiveness of the compensation program by the Company's Human Resources staff, which uses market data provided by several executive compensation consulting firms. Comparative compensation information regarding the Company's peer group of companies is evaluated each year. The competitor group includes the following companies within the insurance industry:

American International Group, Inc.

The Allstate Corporation

The Chubb Corporation

CIGNA Corporation

The Hartford Financial Services Group, Inc.

Lincoln National Corporation

The Progressive Corporation

Safeco Corporation

The Travelers Companies, Inc.

These companies, as well as other companies within the insurance, financial services and certain other industries, represent the organizations against which CNA competes for key executives. This comparative compensation information, in conjunction with performance assessments as to past and expected future contributions of the individual, is used to develop annual compensation levels. It is our goal to set total compensation opportunities for the NEOs at levels generally comparable with those available to similarly placed executives at the Company's competitor group.

COMPENSATION COMMITTEE REPORT ON EXECUTIVE COMPENSATION

In each case, the Audit Committee will consider, in light of all of the facts and circumstances it deems relevant, whether the transaction is fair and reasonable to us and our shareholders, including our minority shareholders.

Loews makes available to CNA the services of certain officers and executives of Loews. In February 1975, CNA entered into a management services agreement (the "Services Agreement") with Loews which provides that Loews will make available to CNA these services, together with general corporate services, including financial, administrative and management consulting services. Loews is reimbursed on the basis of an allocation of a portion of the salaries and related payroll taxes and benefits of the officers and executives performing the services, in addition to travel and similar expenses incurred. The allocation may be adjusted in the event of any substantial change in the services performed and the Services Agreement may be terminated by CNA or Loews on the last day of any month. The Services Agreement has been reviewed each year since 1975 by CNA's Audit Committee. The last such review took place in February 2006 and the Audit

Committee recommended renewal of the Services Agreement for the ensuing fiscal year, calling for a reimbursement allocation of approximately \$295,000 per month, which recommendation was accepted by the Board of Directors. Under the Services Agreement, CNA reimbursed Loews \$3,540,000 for services performed during 2006, and \$135,473 for travel and similar expenses incurred during 2006. Also during 2006, Loews or its subsidiaries paid premiums on insurance and administrative services to the CNA insurance companies at standard rates aggregating approximately \$187,835.

The Loews ownership of the voting securities of CNA has exceeded 80% since 1980 requiring the inclusion of CNA and its eligible subsidiaries in the consolidated federal income tax returns filed by Loews. Accordingly, following approval by CNA's Audit Committee and Board of Directors, CNA and Loews entered into a tax allocation agreement that provides that CNA will (i) be paid by Loews the amount, if any, by which the Loews consolidated federal income tax liability is reduced by virtue of the inclusion of CNA and its subsidiaries in the Loews consolidated federal income tax return, or (ii) pay to Loews an amount, if any, equal to the federal income tax that would have been payable by CNA, if CNA and its subsidiaries had filed a separate consolidated return. In the event that Loews should have a net operating loss in the future computed on the basis of filing a separate consolidated tax return without CNA and its eligible subsidiaries, CNA may be required to repay tax recoveries previously received from Loews. This agreement may be cancelled by CNA or Loews upon thirty days' prior written notice. In 2006, the inclusion of CNA and its eligible subsidiaries in the consolidated federal income tax return of Loews resulted in an increase in the federal income tax liability for Loews. Accordingly, CNA has paid or will pay approximately \$400,000,000 to Loews for 2006 under the tax allocation agreement.

The Company and Loews have entered into an Investment Facilities and Services Agreement (the "Investment Services Agreement"). Under the terms of the Investment Services Agreement, Loews provides to the Company and its subsidiaries certain investment facilities and services. The Company pays directly or reimburses Loews for all reasonable costs, expenses and disbursements incurred by Loews in providing the services. The Audit Committee of our Company approved the Investment Services Agreement at a meeting held on April 26, 2006. The Company has reimbursed to Loews or paid directly approximately \$23,779,200 for expenses (consisting primarily of salaries and benefits and other out-of-pocket costs) incurred or owed by Loews during 2006 in maintaining investment facilities and services for our Company.

In 2003 the Company entered into a credit agreement with a large national contractor that undertakes projects for the construction of government and private facilities to provide a credit facility with a current total credit limit of \$126.4 million. CNA Surety Corporation, of which the Company's subsidiaries own 63% of its outstanding common stock, has provided significant surety bond protection for projects by this contractor through surety bonds underwritten by affiliates of the Company. Loews purchased a participation interest in one-third of the loans and commitments under the credit facility on a dollar-for-dollar basis. Although Loews does not have rights against the contractor directly under the participation agreement, it shares recoveries under the facility proportionally with the Company. Under the participation agreement between Loews and the Company, Loews also receives twenty-five percent of a closing fee from the contractor in the amount of \$900,000, half of which was paid at closing and half of which is due to be paid when the credit facility matures. In 2004 the participation agreement was amended and restated to include a one-third participation by Loews in additional borrowings under expansion of the credit facility, up to the current total credit limit.

In connection with the referenced expansion of the credit facility and a planned reduction in the physical assets and scope of operations of the national contractor, for the years ended December 31, 2005 and 2004, the Company recorded a pretax impairment charge of \$34 million and \$56 million, net of the participation by Loews, with respect to amounts loaned under the credit facility. In June 2005, ongoing monitoring of the status of the contractor's restructuring plan revealed deterioration in operations and cash flow. As a result, the Company determined that the contractor would likely be unable to meet its obligations under the surety bonds. In 2005 CNA Surety Corporation established \$110 million of surety loss reserves in anticipation of future loss payments, \$50 million of which was ceded to Continental Casualty Company pursuant to reinsurance obligations. During the second quarter of 2005 the Company took a pre-tax impairment charge of \$21 million to write-off the remaining balance of the loan and put up \$40 million in reserves in anticipation of future loss payments. An additional \$70 million in reserves was added in the fourth quarter of 2005.

During the years ended December 31, 2006 and 2005, CNA Surety paid \$34 million and \$26 million related to surety losses of the contractor. The Company no longer provides additional liquidity to the contractor and has not recognized interest income related to the loans since June 30, 2005.

In 2006 CNA Surety, through a Quota Share Treaty with Continental Casualty Company, a subsidiary of the Company, assumed three bonds issued by an affiliate for Mexdrill, Offshore, S. DE R.L. DE C. V., a subsidiary of Diamond Offshore Inc. ("Diamond Offshore"). Loews owns 51% of Diamond Offshore's shares. Prior to CNA Surety's issuance of these bonds with penal sums of \$24.9 million, \$32 million, and \$16.1 million respectively, the CNA Surety's audit committee approved issuance of the bonds on behalf of Diamond Offshore for up to \$150.0 million in total bond exposure provided that the bonds meet the CNA Surety's normal underwriting standards, the rates charged are market rates and CNA Surety receives the indemnity of Diamond Offshore. The premium for the bonds was \$0.9 million.

SECTION 16(a) BENEFICIAL OWNERSHIP COMPLIANCE

Section 16(a) of the Securities Exchange Act of 1934 required our directors and executive officers, and persons who own more than 10% of a registered class of the Company's equity securities, to file with the SEC initial reports of ownership and reports of changes in ownership of our Common Stock and other equity securities of the Company. Based upon review of the information provided to the Company, we believe that during the 2006 fiscal year all Section 16(a) filing requirements were complied with.
