ITEM 1. BUSINESS

This Report includes forward-looking statements. Statements other than statements of historical fact included in this Report, including the statements under the headings Management's Discussion and Analysis of Financial Condition and Results of Operations, Business and elsewhere in this Report regarding future events or prospects, are forward-looking statements. The words may, will, expect, anticipate, believe, estimate, plan, intend, should or variations of these words, as well as other statements regarding matters that are not historical fact, constitute forward-looking statements. We have based these forward-looking statements on our current view with respect to future events and financial performance. These views involve a number of risks and uncertainties which could cause actual results to differ materially from those we predict in our forward-looking statements and from our past performance. Although we believe that the estimates and projections reflected in our forward-looking statements are reasonable, they may prove incorrect, and our actual results may differ, as a result of the following uncertainties and assumptions:

our business development, operating development and financial condition;

our expectations of growth in demand for our products and services;

our expansion and acquisition plans;

the impact of expansion on our revenue potential, cost basis and margins;

the effects of regulatory developments and legal proceedings on our business;

the impact of exchange rate fluctuations; and

our ability to obtain additional financing.

We do not intend to update or revise any forward-looking statements, whether as a result of new information, future events or otherwise except to the extent required by law. You should interpret all subsequent written or oral forward-looking statements attributable to us or persons acting on our behalf as being expressly qualified by the cautionary statements in this Report. As a result, you should not place undue reliance on these forward-looking statements.

THE COMPANY

OVERVIEW

Private Media Group, Inc., a US incorporated company, and its subsidiaries (together referred to hereinafter as Private Media Group, Private, the Company, we or us) is a leading international provider of high quality adult media content for a wide range of media platforms. Any references in this report to Milcap Media Group refers to Milcap Media Group S.L. (Spain), and Milcap Media Limited refers to Milcap Media Limited (Cyprus).

Private Media Group, Inc. is incorporated in the State of Nevada. In accordance with Nevada law we maintain a registered office at 3230 Flamingo Road, Suite 156, Las Vegas, Nevada. Our European headquarters are located at the offices of one of our principal operating subsidiaries, Milcap Media Group, S.L., whose address is Calle de la Marina 14-16, Floor 18, Suite D, 08005 Barcelona, Spain +34-93-620 80 90.

Edgar Filing: PRIVATE MEDIA GROUP INC - Form 10-K

We acquire worldwide rights to still photography and motion pictures tailored to our specifications from independent directors and process these images into products suitable for popular media formats such as print publications, DVDs and electronic media content for Internet, mobile and broadcasting distribution. We distribute our adult media content directly, and through a network of local affiliates and independent distributors, through multiple channels, including (1) newsstands, video rental stores, travel retail and adult bookstores, (2) mail order catalogues, (3) IPTV (Internet Protocol Television), cable, satellite and hotel television programming, (4) over the Internet via proprietary websites and broadband delivery services and (5) wireless telephony. In addition to media content, we also market and distribute branded leisure and novelty products oriented to the adult entertainment lifestyle and generate additional sales through the licensing of our *Private* trademark to third parties. In the fiscal year ended December 31, 2007, we had net sales of EUR 25.0 million and a net loss of EUR 0.4 million.

Our business was founded in 1965 and achieved initial success through our flagship publication, *Private*, the first full color, hard-core sex publication in the world. Today, we produce four X-rated periodical magazines: *Private*, *Pirate*, *Triple X* and *Private Sex*, as well as several special feature publications each year. As of December 31, 2007, we had compiled a digital archive of more than two million photographs and all of our 514 print publications. We expect to add additional issues and hundreds of photographs each month to this archive. Approximately 50,000 copies of our print publications are distributed each month at an average retail price of approximately Euro 11.50.

Since 1992, we have also acquired, processed and distributed adult motion picture entertainment. We acquire worldwide rights to motion pictures that meet our exacting standards for entertainment content and production value from independent directors, either under exclusive contracts or on a freelance basis. We then edit and process these motion pictures to ensure consistent image quality and prepare and customize them for distribution in several formats, including DVDs, broadcasting, which includes IPTV, cable, satellite and hotel television programming, and the Internet. Our proprietary motion pictures and those produced by joint ventures in which we participate have received more than 180 industry awards since 1994, evidencing our success in setting high quality standards for our industry. As of December 31, 2007, our movie library contained 1,170 titles. We expect to add more than 100 titles in 2008.

We launched our first Internet website, www.private.com, in 1997. We now own a number of sites directed at specific customer bases, including www.privatespeed.com and www.private.com/shop. We also generate incremental sales by licensing our trademarks and proprietary adult media content for use on the websites of other companies.

Since 1997, we have expanded our presence in emerging electronic markets such as the Internet, broadcasting and hand-held devices including both mobile phones, iPods and other MP4 players. We believe that these technologies represent a substantial growth opportunity for us in the future.

We license our content to cable & satellite television operators and IPTV platforms as well as to hotels. Through different partnerships, we have also launched two television channels, *Private Gold* and *Private Spice*, which broadcast our content. Consumers pay for these products either on a video-on-demand, pay-per-view or subscription basis.

We operate in a highly regulated industry. This requires us to be socially aware and sensitive to government strictures, including laws and regulations designed to protect minors and to prohibit the distribution of obscene material. We take great care to comply with all applicable governmental laws and regulations in each jurisdiction where we conduct business. Moreover, we do not knowingly engage the services of any business or individual that does not adhere to the same standards. Since 1965, we have never been held to have violated any laws or regulations regarding obscenity or the protection of minors.

Market Opportunity

Demand for adult entertainment products has grown substantially in recent years. We believe that the total worldwide adult entertainment market exceeds \$56 billion annually. Of this market, we believe that our target market, including print publications, DVDs, broadcasting, wireless and the Internet, comprises more than \$40 billion. We believe that two principal factors are driving growth in our industry: the relaxation of social and legal restrictions on distribution of adult entertainment products and new technologies that facilitate the distribution of high quality adult media content to consumers in the privacy of their own homes. As a result of liberalized regulation of adult entertainment products, we now distribute our products in physical form in more than 40 countries worldwide with an aggregate current population of 1.1 billion, as compared to six European countries with a population of 144 million when the current management took over in 1991. We expect this liberalizing trend to continue.

The proliferation of easy to use electronic equipment, such as VCRs and DVD players, which allow consumers to view high quality video products in the privacy of their home, has boosted demand for adult media content compatible with these formats. For example, DVD players have been adopted by consumers faster than any other electronic device ever, including the cell phone and personal computer.

Also, the evolution of the Internet as a channel of commerce and content distribution has stimulated additional demand for adult media content. In addition, advances in cable, satellite and hotel communications systems furnish another relatively new channel for the delivery of media content, including adult entertainment, into private homes, hotels and businesses.

More recently, the telecommunications industry has shown considerable interest in the use of adult content on hand-held devices such as mobile telephones and other wireless activated devices. This provides an additional and exciting new source of potential revenues for us as one of the principal providers of adult content.

We expect these regulatory and technological developments to fuel increasing demand worldwide for adult media content, including demand for our products. In addition, we believe that market demand for content to fill new media outlets will lead mainstream media content providers to seek still more adult media content in the future. We expect that the high quality standards of the mainstream media, technological demands of multiple delivery formats and global marketing and distribution costs will increase capital requirements for providers of adult media content. While the adult entertainment industry is currently characterized by a large number of relatively small producers and distributors, we believe that the factors discussed above will cause smaller, thinly capitalized producers to seek partners or exit the adult entertainment business, leading to a consolidation of the adult entertainment industry.

Our Competitive Strengths

We believe the following strengths, among others, will enable us to exploit the growing global market for adult entertainment:

Extensive library of high quality adult media content

We have an extensive library of high quality adult media content. As of December 31, 2007, our library included still photographs developed for more than 500 back-issues of magazines and 1,000 movie titles. We hold exclusive worldwide rights to this entire content archive. This has enabled us to enter into distribution arrangements with a wide range of media content providers, including leading international telecoms and broadcasting companies. To facilitate electronic distribution of our products, we have converted our entire archive of print images into a digital format. We are currently digitizing our motion picture archive as well, and have now stored most of our existing motion pictures in digital form. We believe that this electronic archive constitutes one of the largest libraries of high quality adult media content in the world.

Recognized brand name

We believe that our target customers associate the *Private* brand name with high quality adult entertainment products and services. This name recognition attracts leading producers of adult media content, as well as distributors and prospective joint venture partners interested in working with Private Media Group. We believe that the strength of our brand name leads to more favorable economic terms than we could otherwise obtain in our processing and distribution contracts, and enables us to negotiate favorable revenue sharing arrangements and joint ventures from which we derive significant licensing fees and royalty income. We have entered into joint venture and co-branding agreements with leading participants in our industry and other related industries, including Playboy and Penthouse. We seek to strengthen awareness of our brand name by consistently featuring the *Private* label prominently in our product packaging, cross-promoting our own products, selectively sponsoring athletes and distributing under the *Private* label complementary or ancillary non-media products that are consistent with an adult entertainment lifestyle. We believe that these activities engender a loyal customer base which, in turn, enables us to grow even with relatively modest external advertising and marketing expenditures.

Established market position and distribution network

We have a well-established worldwide distribution network which has been built up over the past 40 years, including some 250,000 points of sale in over 40 countries as of December 31, 2007. In many markets, we believe that our established presence hinders our competitors' ability to break into the market. In some cases, exclusive distribution agreements improve our market position further. This broad distribution network provides an effective channel to introduce new products and services and new formats for existing products and services. In electronic media categories, we have entered into strategic alliances with a number of leading international service providers. In addition, we have assembled an internal team of Internet specialists to maintain and improve our Internet infrastructure and electronic products and services. We believe that our broad, multi-format distribution network affords our customers convenient access to high quality adult media content in the format of their choice.

Flexible operating structure and access to substantial capital

We acquire adult media content from third-party producer/directors on a project basis. This approach gives us substantial flexibility in terms of production volume and delivery time, significantly reduces our fixed production overhead and largely eliminates the risk to us of cost overruns in production. Because of our multiple product and service formats and broad distribution network, we can afford to hire top directors in the industry, which we believe results in a higher quality product for our customers. Similarly, we reduce our fixed processing costs by outsourcing editing and duplication functions for most of our products, although we retain oversight of the overall production process for cost and quality control purposes. As a public company with access to the capital markets we believe that we will have sufficient financial resources to increase our production and grow through acquisitions without sacrificing our high quality standards. However, we cannot guarantee that funds will be available from the capital markets when needed.

Experienced professional management

Our management team has extensive experience in the production and distribution of adult media content and in general business administration. Berth H. Milton, our Chairman of the Board and Chief Executive Officer, has extensive knowledge of our industry and has successfully founded and developed other profitable businesses. Other members of our management team have broad expertise in content production, sales and marketing, technology and finance, and have contributed to our record of growth in our core business and in acquiring and integrating companies in related businesses.

Our Strategy

Our vision is to be the world's preferred content provider of adult entertainment to consumers anywhere, at any time and across all distribution platforms and devices. We have developed the strategies described below to increase sales and operating margins while maintaining the quality of our products and services and the integrity of our brand name.

Develop strategic alliances and joint ventures with businesses outside of the adult entertainment industry to broaden our distribution channels.

We are entering into strategic alliances and joint ventures with leading media companies outside of the adult entertainment industry to distribute our adult media content for use on popular and newly developing media formats, including revenue sharing relationships with cable and satellite television operators, telecoms and Internet service providers with significant market positions. We expect these initiatives to widen the scope of our distribution network, enabling us to reach new customers while supplying our partners and licensees with content.

To be at the forefront of the adult entertainment industry in adapting new technology and distribution channels such as wireless and IPTV¹ distribution of our content. By actively seeking out and utilizing advanced technologies such as broadband Internet, cable and satellite television, IPTV and wireless devices to distribute our content, we expect to increase revenues with minimal incremental cost.

1 IPTV (Internet Protocol Television) describes a system where a digital television service is delivered to subscribing consumers using the Internet Protocol over a broadband connection.

To complete the digitalization of our entire movie library, including metadata, in order to facilitate distribution via new electronic media. We have developed an extensive library of motion pictures and other pictorial content. Until recently, this library was archived on a master print, which would allow duplication in traditional media. New forms of electronic distribution provide us with an opportunity to use this content by distributing it through new forms of media, such as, Internet broadband, IPTV broadcasting and wireless devices. To facilitate electronic distribution of our products, we have converted our entire archive of print images into a digital format. We are currently digitizing our motion picture archive as well, and have now stored most of our existing motion pictures and metadata in digital form.

Continue to increase and strengthen brand awareness. We have developed strong brand awareness within each of our magazines and videos targeted markets. We own the worldwide rights to all of our content. We seek to strengthen awareness of our brand name by consistently featuring the *Private* label prominently in our product packaging, cross-promoting our own products, selectively sponsoring sports and distributing under the *Private* label complementary or ancillary non-media products that are consistent with an adult entertainment lifestyle.

Our Principal Products and Markets

Movie Productions

Since 1992, we have acquired and distributed adult motion picture entertainment. These productions generally feature men and women in a variety of erotic and sexual situations, in hardcore and softcore versions. We distribute these movies primarily on DVDs, through cable, satellite and hotel television programming, IPTV and over the Internet. We maintain the ownership and copyrights of every movie we finance and produce.

We expect to release more than 100 movie titles in 2008, with distribution through a worldwide network, including primarily video shops, newsstands and adult book stores. We have also worked together with other recognized brands, including, in 2000 the introduction of a the *Private Penthouse Video* label in conjunction with Penthouse.

As of December 31, 2007, our movie library contained 1,170 movie titles. These products are sold by distributors, and wholesalers worldwide. Distributors include IPTV, cable, satellite, mobile telephone network and hotel television operators.

Internet

We launched our first Internet website, *private.com*, in 1997. We now own a number of sites directed at specific customer bases, including *privatespeed.com* and *private.com/shop*. We also generate incremental sales by licensing our trademarks and proprietary adult media content for use on the websites of other companies.

The Internet team has combined Private Media Group's extensive media library with the most advanced technology to take advantage of the growth of broadband Internet access and new distribution methods. Private has developed several key product offerings which include video on demand, live sex chat, adult personals and e-commerce.

Wireless - Mobile Entertainment

We launched our mobile content program in 2003 and it has been growing rapidly since. We generate revenues from wireless deals both on and off portal and our current principal market is Europe. Our product offering currently consist of games and rich-media mobile downloads including; MMS, wallpapers, screensavers, video clips and video streaming.

Magazine Publications

We are the publisher of *Private*, an international X-rated magazine. *Private* was founded in 1965, and was the first full color, hardcore sex publication in the world. Today, we produce four X-rated magazines which are released bi-monthly: *Private*, *Pirate*, *Triple X* and *Private Sex*. We distribute these magazines through newsstands and other retail outlets.

History

The parent company, Private Media Group, Inc., was originally incorporated in 1980 as a Utah corporation under the name Glacier Investment Company, Inc. for the purpose of acquiring or merging with an established company. In 1991, we changed our domicile to the State of Nevada. The parent company had no material business activity prior to its acquisition of Milcap Media Limited and Cine Craft Limited in June 1998.

On December 19, 1997 Private Media Group, Inc. entered into acquisition agreements with Milcap Media Limited and Cine Craft Limited to acquire all of their outstanding capital stock in exchange for 22,500,000 shares of Common Stock, 7,000,000 shares of the \$4.00 Series A Preferred Stock, and 2,625,000 common stock purchase warrants. Private Media Group, Inc. completed these acquisitions on June 12, 1998. In connection with these acquisitions, in December 1997 the parent company changed its corporate name to Private Media Group, Inc. and declared a one for five reverse split of its Common Stock.

On January 28, 2000, we acquired all of the outstanding shares of Extasy Video B.V. for total consideration of Euro 3.2 million. The consideration consisted of 208,464 shares of common stock and warrants to purchase 208,464 shares of common stock. The warrants were exercisable during the period January 28, 2001 to January 28, 2004 at an exercise price of \$9.63.

In May 2000, we authorized a three-for-one stock dividend on our common stock, which was distributed to holders of record of common stock on May 30, 2000.

As of January 1, 2001, we acquired Coldfair Holdings Ltd., a company incorporated and organized under the laws of the Republic of Cyprus, for a total consideration of Euro 1.5 million payable in 248,889 shares of common stock. Coldfair Holdings is our Internet company which is engaged in online marketing and sale of adult entertainment products and services.

Effective April 1, 2001, we acquired the inventory and certain contracts of our U.S. distributor, Private USA, in exchange for Euro 1.0 million and the assumption of Private USA's obligations under some contracts.

On April 8, 2001, Peach Entertainment Distribution AB (Sweden), a subsidiary of Private Media Group, Inc., sold its interest in Private Circle, Inc., a company engaged in the design, production and marketing of trendy casual apparel, for an adjusted consideration of Euro 2.9 million as of May 2001.

On December 31, 2002, we acquired all of the outstanding shares of Barbuda B.V., a company owning a building, for total consideration of Euro 10.0 million. The consideration consisted of cash and a note payable in the amount of Euro 6.6 million. The purpose of this transaction was to acquire this property as its European headquarters. Since the acquisition, the Company has been reevaluating its need for additional space and as of February 2005, the Company no longer owns this property.

On May 30, 2003 the Company acquired certain assets, including governmental film board approvals and distribution rights from its former Canadian distributor, Software Entertainment Ltd. In exchange for Euro 0.7 million.

On November 26, 2003 the Company entered into an Asset Purchase Agreement to acquire certain intangible assets from International Film Production and Distribution Limited, including certain rights and distribution and licensing agreements. The transaction closed on November 28, 2003. The consideration for the transaction was Euro 2.5 million.

INDUSTRY OVERVIEW

The adult entertainment industry has evolved rapidly in recent years. In spite of often intense political campaigning, there has been a general trend towards wider acceptance of adult entertainment content among the general public and mainstream media channels. New technologies have lowered costs and changed the way in which adult content is produced, distributed and viewed. Lower costs, in particular, have lowered barriers to entry and increased competition in the adult entertainment industry. The trend toward wider acceptance of sexually-explicit material and ongoing technological developments has created a large and growing global market for adult content.

Historically, the adult entertainment industry has attracted a considerable level of government and regulatory attention primarily due to obscenity, which has led to limitations on either the explicitness of content or the availability. Traditionally, to view adult material, consumers were required to purchase movies in a public environment or to go to an adult movie theatre or peepshow.

Through a process of evolution rather than revolution the adult entertainment industry has become more acceptable over time, with a relaxation of the regulations and guidelines governing the industry. For example, in the United Kingdom, one of Europe's more restrictive countries with respect to adult entertainment, there has been a gradual relaxation of what is suitable for public viewing. The British Board of Film Classification, BBFC, has introduced the 'R18' category, allowing distribution of hardcore adult videos through licensed sex shops for the first time. The approval from the BBFC, and subsequent theatrical release of movies such as *The Idiots* and *Intimacy* have also broadened what is regarded as acceptable adult content.

New technologies have helped to legitimize the industry and increase the size of the market. During the 1980s, the introduction of adult movies on videocassette and through broadcasting on cable and satellite television increased acceptance of adult media content by confining it to the privacy of the consumer's home. More recently, the Internet has become a primary distribution platform for both suppliers and consumers of adult media content providing low-cost delivery and increased privacy. Although currently under-exploited, third generation mobile and handheld devices are likely to increase the market even further in the future, making adult media content viewing mobile.

The production and distribution of adult media content is very competitive. Hundreds of companies are now producing and distributing movies to wholesalers and retailers, as well as directly to consumers. The low cost of high quality digital video cameras and equipment has significantly lowered the barrier to entry for production of adult media content. According to Adult Video News, annual worldwide release of adult movie titles peaked at 25,000 and is currently at 11,000 of which 4000 in US alone vs. 500 mainstream movies produced by Hollywood. The bulk of this production is represented by low quality, amateur productions, made for only a few thousand dollars, as opposed to the larger, professionally produced movies with high production values. Around 20 major producers, such as Private Media Group, Vivid, Video Company of America and Metro, release most high budget adult movies. See Business-Competition. In addition, because it costs as little as \$5,000 to establish an Internet presence, there is significant competition among distributors of adult media content over the Internet. The proliferation of websites distributing adult media content has itself fueled a greater and ongoing demand for the creation and licensing of new adult media content.

We believe that the global adult entertainment market exceeds \$56 billion annually. This covers memberships and subscriptions, escort services, magazines, sex clubs, telephone sex lines, cable and satellite pay-per-view programming, adult videos and toys and other related products and services. In 1998, Forrester Research estimated the U.S. adult entertainment market at \$10 billion annually. This compares to total U.S. cinema domestic box office receipts for mainstream motion pictures of over \$9.3 billion in 2004, indicating the size and importance of the adult market within the entertainment industry.

DVDs

According to DEG (Digital Entertainment Group - US) 34 million DVD players were sold in the United States in 2007 and the installed base of DVD players reached 90 million households, with a total of 229 million players sold. DEG also estimates that sixty percent of DVD owners now have more than one player. In spite of increased competition from online and other digital entertainment

options, DVD and HD packaged media were consumers' preferred choice of entertainment in 2007. In fact, spending on home entertainment media was greater than that of music, video games and box office returns. Total consumer spending on home video in the US, including DVD/VHS - rental/sell through, has gone from \$14.0 billion in 2000 to \$23.7 billion in 2007.

In 2005, total sales and rentals of adult videos and DVDs in the United States were approximately \$ 4.3 billion according to Adult Video News estimates.

Broadcasting

General growth in the PPV/VOD market in the US and Western Europe is expected to result in part from cable system digitization upgrades utilizing fiber-optic, digital compression technologies or other bandwidth expansion methods that provide cable operators additional channel capacity. Cable operators are shifting from analog to digital technology in order to upgrade their cable systems and to respond to competition from DBS (Digital Broadcast Satellite) providers who offer programming in a 100% digital environment. When implemented, digital compression technology increases channel capacity, improves audio and video quality, provides fully secure scrambled signals, allows advanced set-top boxes for increased interactivity, and provides for integrated electronic programming guides (EPG). Cable operators are also using their upgraded plants to provide their digital customers with VOD (Video-On-Demand) services. For the most part, the appeal of VOD to adult video consumers is no different than it is to consumers of other genres: VOD gives subscribers the opportunity to purchase movies impulsively, and the ability to watch movies exactly when, where and as often as they want. However, the ability to pause, rewind and fast-forward a VOD program essentially mimicking the functionality of a DVD may hold even more appeal for adult video consumers. In addition, broadband pipes and Internet protocol are allowing video-delivery upstarts to challenge cable players in the digital on-demand arena. IPTV²-based video-on-demand (IP-VOD), while still an emerging market, is beginning to gain traction and its potential is huge. Although IP-VOD is still in its absolute infancy and VOD via cable is the default delivery pipe at the moment, it is interesting to note that forecasts³ see the global number of IPTV subscribers grow from 13.5 million in 2007 to 72.6 million in 2011, a compound annual growth rate of 52 percent.

In response to the development and rollout of IPTV and cable based TVOD, the Company is aggressively targeting all major TVOD platforms and we are currently in the process of rolling out our content on a large majority of platforms in Europe.

Adult services will serve as an important driver to cable and IPTV systems in their efforts to attract subscribers to digital services, including VOD. In 2006, adult content sales represented 30% of all on-demand type of service revenue in the United States, according to Kagan research.

Europe

Adoption of digital TV (DTV) is growing more rapidly than ever in Western Europe, driven by the success of new delivery platforms such as Digital Terrestrial (DTT) broadcasting and IP-based TV from telcos and other providers. Strategy Analytics estimated⁴ that the number of households using some form of digital TV in Western Europe was 75 million in 2006, up from 56 million at the end of 2005. Strategy Analytics forecasts that by 2010, DTV will be used by almost 127 million households in the region close to 77 percent of all TV homes. The growth of DTT and IPTV threatens cable and satellite operators who have historically dominated pay TV in Europe and other regions. These new platforms will also spur millions of consumers to access TV programming from multiple sources, especially in countries where hybrid services combining free DTT channels with broadband-delivered IPTV content are being launched.

2 IPTV (Internet Protocol Television) describes a system where a digital television service is using the Internet Protocol via broadband.

3 MRG, Inc.' IPTV Global Forecast 2007 to 2011, Semiannual IPTV Global Forecast, October 2007.

4 Strategy Analytics - Digital TV Subscriber Market Forecast Data - Western Europe Aug 2006

According to MRG (Multimedia Research Group, Inc.), Europe is leading the expansion in the global IPTV market and the number of IPTV subscribers is estimated to grow from approximately 6.4 million in 2007 to 30.4 million in 2011, a compound annual growth rate of 48 percent. At present, a large majority of all new IPTV platforms include adult entertainment in their VOD offering and we have contracted with operators covering 70% of European IPTV subscribers.

United States

According to SNL-Kagan the number of digital households in the United States is expected to grow from 62 million in 2006 to 100 million by 2012. VOD availability is becoming increasingly widespread and is now on its way to becoming a mainstream content-delivery platform. Kagan research indicates that nearly 29 mil. cable homes had VOD by the end of 2006, a number that is on track to reach 59 mil. by the end of 2012. With respect to IP-VOD Kagan estimates the number of subscribers to IP-VOD services to increase from 300,000 in 2006 to nearly 8 million in 2012.

Kagan estimates that adult service revenue generated by IPTV, cable systems and DBS providers in 2006 was \$843 million. As more cable operators add adult and distributors continue to expand their offerings, Kagan projects revenues from the adult category will grow to \$1.3 billion by the year 2012.

Internet

The adult entertainment industry was among the first to commercially exploit the Internet as a distribution channel and is, together with gambling and online games, among the few industries which generate profit on the Internet. The Internet offers relative privacy for users, a seemingly endless selection of adult media content and can provide immediate delivery.

Pay sites contain most of the adult media content on the Internet, but free sites are also common and are primarily supported by advertising from pay sites. Free sites get a few cents for each viewer who clicks on an advertising banner. The banner then transports these viewers to a site that tries to entice the user into paying for content using their credit cards. However, the bulk of revenues come from pay sites.

As of March 2008 the number of Internet users in the European Union and United States, our principal markets, was 273 million and 215 million, respectively, which represent a growth over the past seven years of 190% and 126%, respectively. The total number of Internet users in the world as of March 2008 was 1.3 billion. Based on information from RHK Inc. the Company estimates global adult entertainment Internet revenues to have grown from nothing to more than US\$3 billion in 2004, in less than ten years. Furthermore, RHK Inc. estimates global adult entertainment Internet revenues, exclusive of revenues from online Video-on-Demand (IP-VOD), to grow to more than US\$5 billion by 2007.

The use of the Internet for viewing adult media content has increased significantly. Broadband Internet access is transforming the way that millions of consumers use and pay for news, entertainment, music and other media. Consumers use their Internet high-speed, always-on broadband connections to access and pay for entertainment content, including adult content, and services. According to analysis and forecasts, global broadband subscriptions were estimated to have grown by 25% to 329 million⁵ during the twelve month period ending September 2007 and by 2010 the number of broadband subscribers is expected to grow to more than 420 million⁶.

The increased availability of adult media content on the Internet has attracted considerable attention. Concerns have arisen with respect to child protection and the distribution of illegal material. In response to the issue of child protection, a number of software packages have become available that control the content that can be accessed from a personal computer. Products such as Surfcontrol, NetNanny, Websense and others can be employed to filter sites for inappropriate material, blocking access for unauthorized users.

VIDEO**Production**

In 1992, we began releasing movies under the *Private* label. Our adult movies are in genres similar to our magazines and books under the titles listed in the table below. Normally, we spend between \$ 50,000 and \$ 150,000 per movie. This amount excludes the computation of the post-production, master production, duplication and distribution costs. Generally, Milcap Media Group creates and designs all artwork for promotional items and packaging and contracts for printing services. Since 1999 all DVDs have been duplicated by independent laboratories. A number of our labels, including *Private Gold*, *Private Black Label*, *Private Movies*, *The Private Life of* and *Private Tropical* are released on a monthly or bimonthly basis.

We finance all of our adult movies, and we contract with movie producers on a flat fee basis. We have entered into agreements with some movie directors under which they have agreed to provide their services to us on an exclusive basis, generally for a period of one to three years. All producers generally assume production costs and obligations, including among other things, the delivery of rights and model releases. The free lance producers deliver the movies on digital masters to us. Digital Masters are customized, dubbed, sub-titled and duplicated by our subsidiary Peach Entertainment Distribution and from there they are sent to different distributors and DVD duplication centers. Some distributors receive a master directly and do their own duplication. All marketing material and artwork for video covers is created at Milcap Media Group.

As of December 31, 2007, our movie library contained 1,170 movie titles. During 2008, we expect the total to increase by more than 100 titles. Almost all titles are available on DVD. We presently market our DVDs in over 40 countries.

Distribution

We distribute our productions worldwide via digital masters and DVDs are sold or rented in video stores, sex shops, newsstands and other retail outlets, and where permitted, through direct mail. We do also sell DVDs directly to consumers via our website. We license our movies to IPTV, cable and satellite television networks and adult pay-per-view television channels. These licenses generally grant the operator a specific right of transmission and we retain the intellectual property rights of every production. We edit many of our new feature movie releases into several versions depending on the media through which they are to be distributed. Versions edited for cable, satellite and hotel television programming may be less sexually explicit than the versions edited for home video distribution.

DVDs

Bringing adult movies into the privacy of the home through the introduction of videocassettes along with cable and satellite services all but eliminated the adult theatre business. The introduction of the DVD and its rapid acceptance by the public quickly replaced videocassettes. DVDs offer better picture and sound quality than videocassettes and other add-ons. The DVD format also benefits suppliers and retailers. Several languages can be combined onto one DVD, so only the DVD cover needs to be changed for different territories.

Distribution of DVDs represents our main source of revenues. We believe we set a high standard for DVDs in the adult entertainment industry, with each DVD released by us possessing five language options as well as four other subtitled languages. We believe that our multi-language DVD format provides a significant competitive advantage for us because it attracts consumers worldwide and expands our international marketing and sales potential. This global format allows us to reduce our overall unit production costs and increase profit margins. Currently, the majority of DVDs released by our competitors in the United States and worldwide are produced in only one language since they either license titles country-by-country or manufacture each title in separate languages, thus losing out on economies of scale, which further drives down our competitors' profit margins.

Currently, mainstream movie titles are released on DVD in six Regional Codes or Zones. This is required primarily because producers often do not control the worldwide rights to their titles. Our DVDs are playable in any region, in every country in the world, because we own and control the global rights to everything we have produced. Our DVDs are also Internet Activated, which means that when a consumer plays the DVD in a personal computer, that person also gets a direct link to our websites, where they can view our content by purchasing a subscription or visit our extensive on-line shopping area. We also sometimes add "extras" to our DVDs, including additional scenes and photos, interviews with the stars, biographical data on the actors, their roles in other in-house productions and publications.

We have entered into distribution agreements in over 40 countries. Under these distribution agreements, and according to the territory, one of our subsidiaries, Peach Entertainment Distribution or Milcap Media Group, agrees to provide a specific minimum number of new titles each month during the term of the agreement, and a licensee normally serves as the exclusive distributor throughout its own country or language territory. Under the various distribution agreements, licensees are normally required to purchase a minimum number of units for each monthly period during the term of the agreement. In countries such as Germany, we have expanded our relationships with our national distributor by entering into exclusive multi-year, multi-product output agreements. In countries such as the Benelux countries, France and Spain, we have established local subsidiaries for the purpose of owning or controlling local distribution. In general, however, we believe that national distribution agreements enable us to have an ongoing branded presence in international markets and to generate higher and more consistent revenues, than we could achieve selling directly to retailers.

Broadcasting

Cable and satellite television has brought adult media content into the privacy of the home. Technological developments, in particular the evolution of digital broadcasting, has not only increased the number of channels that can be delivered directly to the home via satellite (DTH or DBS), IPTV and cable, but has also led to the development of on-demand technologies such as Video On Demand (VOD) and Near Video On Demand (NVOD). The development of these services is benefiting the adult entertainment industry by providing a greater number of special interest channels allowing platform providers to target niche audience and also provide premium tier, Pay-Per-View (PPV) and subscription services.

TV-Channels

Since launching our broadcasting business in 2000, we have rapidly expanded in Europe, Latin America and the United States. The broadcasting business was launched through an exclusive joint venture agreement with International Film Productions and Distributions, Ltd., (IFPD). IFPD was a European-based television broadcasting company associated with major content providers that specialized in the distribution of adult cable and satellite television channels. Under the joint venture agreement, IFPD was responsible for promoting and broadcasting two channels, namely Private Gold (hardcore) and Private Blue (soft core), globally. The agreement provided the Company with 65% of the gross profits generated from the broadcast of these channels. In 2003 the joint venture was dissolved and the Company acquired the channel names Private Gold and Private Blue, but continued licensing them to affiliated companies of IFPD under a two-year agreement with a minimum guarantee. The license was worldwide excluding North and Latin America and expired in 2005 when we entered into two new license agreements with RHF Productions Ltd for the UK and Playboy TV International for Europe excluding the UK.

The Private Gold channel was originally launched in Europe under an exclusive joint venture agreement with IFPD. As mentioned above, the Company later acquired the channel name and continued licensing it to an affiliate company of IFPD for a fixed fee. By the end of 2005, Private Gold had become the leading Adult Pay-TV channel in Europe and was distributed via satellite and cable in 25 countries in the region. In November 2005 the agreement with IFPD expired and the Company and Playboy TV International signed a five-year agreement to merge their two adult pay-TV channels, Private Gold and Spice Platinum, and thereby consolidating their market leadership in Europe. The new channel was launched under the name of Private Spice and under the terms of the agreement, Playboy TV International is operating, distributing and marketing the new channel and Private provides content, brand and marketing support. Prior to the merging of the two channels, Spice Platinum had rapidly become one of Europe's most

sought after and fastest growing premium adult networks reaching in over 15 countries. In May 2006, the Private Spice Channel was launched in Europe and the new channel makes available unique and proprietary quality content, offering flexible language tailoring and market localization and platforms are able to offer their viewers a unique channel developed and serviced by the world's leading adult television brands, while ensuring professional reliability and continuity. Since launching, the channel has been extremely successful and channel revenue for the six months ending December 2007 increased by 35% compared to the same period in 2006.

The Private Gold channel was also launched in Latin America in 2001, via the joint venture agreement with IFPD and under a distribution agreement with Pramer S.C.A. The agreement was terminated in 2005 and in May the same year, the Company partnered with Playboy TV Latin America, by signing an exclusive agreement to operate and distribute the Private branded channel throughout Latin America. Under the terms of the agreement, Playboy TV Latin America is operating and distributing the channel via its Pay TV distribution network. The channel is receivable in all of Latin America.

IPTV driven Video-on-Demand

While European broadband users are signing up for IPTV services in the hundreds of thousands each month, making Europe the biggest and fastest growing IPTV region in the world⁷, we have successfully implemented part of our new media strategy and contracted for supplying content for TVOD⁸ services to a total of 24 major platform operators in 11 countries in the region. During 2007 the European IPTV market grew by 60% to 6.4 million IPTV subscribers and by the end of the year we had gained 70% coverage with over 4.5 million subscribers. We expect this new broadcasting business to be main driver behind our future growth. Not only is this a rapidly expanding new business, but also a high-margin distribution channel with no additional investment requirements.

General Licensing

In Europe we license our content to channel operators. Typically we contract for a certain time period for a) a set quantity of specific titles, or b) access to our entire library for a limited quantity of unspecified titles. The operators distribute via Digital Terrestrial Television (DTT) and Cable & Satellite and are spread across Europe and include companies such as: Erotic Media ag, Sky Italy and Canal+.

In the United States, we recently partnered with New Frontier Media for the exclusive distribution of Private branded content to the U.S. broadcast market including video-on-demand, pay-per-view, IPTV and television. New Frontier Media's services reach over 139 million network homes and recently our content became available on the first video-on-demand platform in the US to more than six million subscribers via one of the biggest operators. Going forward, we expect additional video-on-demand platforms in the US to follow.

In-Room Entertainment

The Company also licenses the right to use its content to In-Room Entertainment operators.

7 According to Global IPTV Forecasts made by MRG (Multimedia Research Group, Inc.), the number of global IPTV subscribers is estimated to grow from 13.5 million in 2007 to 72.6 million in 2011, a compound annual growth rate of 52 percent. Europe continues to be the biggest market for IPTV, with France significantly leading the growth projections through its principal telcos. The number of IPTV subscribers in Europe is forecasted to grow from approximately 6.4 million in 2007 to 30.4 million in 2011, a compound annual growth rate of 48 percent.

8 True Video On Demand - (TVOD) - TVOD is the ideal VOD service where individual users get immediate responses when interacting with the VOD system. With TVOD, the user can not only get instant access to the program online and watch it on TV, but also be able to do any VCR or DVD-like commands on the VOD system with the same quick response time as it is when working a VCR or DVD.

WIRELESS MOBILE CONTENT

We generate revenues from wireless deals both on and off portal. Our ability to effectively use and re-use our content creates a high-margin business model for wireless since distribution costs are almost non-existent. The market currently consist of SMS, games and rich-media mobile downloads including: MMS, wallpapers, screensavers, video clips and video streaming. During 2007 the distribution of Private content increased by 67% and by the end of the year it was available to 906 million handsets in 36 countries via 86 operators. The markets of Asia and the Americas are still underexploited by us and therefore represent a significant growth potential. Furthermore, Mobile TV, increased penetration of 3G handsets and the implementation of age verification systems offer additional significant growth potential with both current and future operators in 2008 and beyond⁹.

In addition, during 2007 we entered into an exclusive global partnership with Mobile Streams to distribute our premium adult content through their platform for off-portal mobile services. Mobile Streams is a premier global mobile music and media provider and through this partnership we are entering a new dimension of mobile content delivery. We believe the user behavior for mobile content will migrate from on-portal to off-portal and that this new business will be the principal revenue generator going forward.

INTERNET SERVICES

Overview

Private Media Group's Internet team has combined its extensive media library with the most advanced technology to take advantage of the growth of Internet access and new distribution methods. Private has developed several key product offerings which include a subscription based service, broadband video on demand sites, live sex chat service, adult personals, DVD rental service, and e-commerce shop. During 2007, we had 20 million unique visits to our websites, an increase of 85% compared to 2006.

Key Products

Private.com (www.private.com) is the flagship site of Private Media Group's Internet offerings. The site offers access to high-quality adult content that includes full-length Private movies, photosets, sex-stories, a full library of Private magazines in image and downloadable PDF format, and third-party content. In addition, subscribers receive access to live webcam, live sex shows performed by couples, and adult personals. Premium content is also accessible through Private.com in a variety of different formats. The ability to purchase full-length DVD quality movies on a rental basis is available through Divx technology at a discounted rate for subscribers. One on one live chat is also accessible to members at a discounted rate. The site offers various payment methods to suit the ever-changing demands of the end-users that include credit card subscriptions, pay-per-minute dialers, debit cards, online checks, and SMS payments. All payments are made through a secured system and verification process that are in-line with the International and local e-commerce regulations. The Private.com website features the most advance technology to enable Private to protect its digital assets from theft and file sharing through usage of Microsoft digital rights encryption and protection. Private also goes the extra step to protect its library by digitally watermarking all images. Private.com acquires customers primarily through advertising in its DVDs, magazines and broadcast programming with minimal incremental cost. It also acquires new customers through its affiliate program Private Cash.

Private Shop (www.private.com/shop) offers a complete catalogue of Private products including Private DVDs and magazines, and adult toys available for purchase or downloading online. The site provides free pictures and free video clips to those who register with the shop. The site is built upon an extensive technical platform that utilizes real-time, secure transaction processing. In addition, the Shop is available in multi-lingual format and currency options based on a user's locale. In 2007, the average order value was US\$115.

⁹ Juniper Research estimates in its white paper *Adult Content in the Palm of Your Hand (November 2007)* that the global mobile adult content market will increase from US\$1.7 billion in 2007 to just over US\$4.6 billion by 2012.

PrivateSpeed (www.privatespeed.com) is the broadband video on demand channel for Private. PrivateSpeed features an extensive collection of more than 500 full length Private movies in both streaming and downloadable formats for rental online. Users of PrivateSpeed are offered a free membership to view trailers of movies and other premium content through a simple sign up process that collects their email address. In 2003, Private licensed the technology of Go Internet for the backend platform for PrivateSpeed. The complete site was redone to include a new design that features a simplified user interface, new streaming, advance account management, and searchable information. Through the partnership with Go Internet, Private has been able to significantly lower costs on its streaming and hosting solution.

MAGAZINE PUBLICATIONS

Our publishing operations include the publication of the adult magazines identified in the table below, special editions consisting of previously published material and occasional newsstand specials, calendars and paperback books. All of these magazines, together with local editions, are printed under various trade names and are distributed in over 40 countries. Our magazines feature pictures of men and women engaged in erotic and sexually explicit situations. We distribute approximately 50,000 copies of our print publications per month at an average retail price of approximately (Euro) 11.50. Our current publications are *Private*, *Pirate*, *Private Sex* and *Triple X*.

Our publications offer a variety of features and have gained a loyal customer base. We believe we have earned a reputation for excellence by providing a high standard of quality to the adult entertainment industry, while we maintain circulation leadership as the leading hardcore magazine publisher. All of our publications have long been known for their graphic excellence and features, and publish the work of top artists and photographers in the field. They are also renowned for their pictorials of beautiful people. Our magazines are the best selling in the industry while being among the highest priced.

All of our publications are printed by independent third parties. We have a longstanding relationship with several printers in Spain. We believe that generally there is an adequate supply of printing services available to us at competitive prices, should the need for an alternative printer arise. All of our production and printing activities are coordinated through our operating facility maintained by our wholly owned subsidiary, Milcap Media Group.

Circulation

Our magazines have historically generated most of their revenues from firm sales distribution. However, during the past two years distributors with rights to return has come to represent more than 50% of the distribution of our production. Single copy retail sales normally occur in adult book stores and newsstands. Newsstand retail sales are permitted in most of Europe and we distribute our magazines to newsstands in: Norway, Sweden, Finland, Denmark, the Netherlands, Germany, Austria, Switzerland, Belgium, France, Italy, Portugal and Spain.

Our magazines are distributed to newsstands and other public retail outlets through a network of national distributors, who maintain a local network of wholesale and retail distributors. We ship copies of each issue in bulk to our wholesalers, who distribute on to local retailers. Independent distributors who distribute our magazines do so under individual firm sales distribution agreements. Agreements with both national and independent distributors are normally subject to automatic yearly extensions unless either party terminates the arrangement.

Since 1998 we have sought to expand the use of our magazines' content and other assets across different media formats. All issues of all our publications are available on our websites. In 2000 we completed the digitization of our still photo archive and previously unpublished photos are also published on our websites. Our magazines are also available for subscription on third party websites as electronic magazines.

Production, Distribution and Fulfillment

Several independent printers in Spain currently print most of our magazines, books, brochures and DVD covers. Printing costs vary based upon the price of component raw materials. The principal raw materials necessary for publication of our magazines are coated and uncoated paper. Paper prices are affected by a variety of factors, including demand, capacity, pulp supply and by general economic conditions. Our printers have a number of paper supply arrangements and we believe that those arrangements provide an adequate supply of paper for our needs. In any event, we believe that alternative sources are available at competitive prices. With respect to pre-press and related services, we currently use our own scanning facilities. We are also using the latest technologies in this field, such as digital imposition and computer-to-plate process technology, or CTP.

We print and ship all of our proprietary magazines from Barcelona, Spain. We determine the amount of printed publications bi-monthly with input from each of our national distributors. Most of our products are packaged and delivered directly by the printer or supplier, while Milcap Media Group provides warehousing, customer service and payment processing.

Our full-time editorial and post-production staff consists of an editor-in-chief and three editors who oversee the quality and consistency of the artwork and editorial copy and manage the production schedule and printing of each issue. The majority of this work is performed on our premises in Barcelona, Spain. We have entered into agreements with some photographers and writers under which such people have agreed to provide their services to us on an exclusive basis, generally for a period of one to three years.

TRADEMARK LICENSING

Private Licensing is a division of Private Media Group which coordinates a range of products associated with the Private brand, which includes: the Private Clothing Line, Private Beverages (Private Energy Drink, Private Wines and Private Vodka). Other licensed product lines include novelties, accessories, lingerie, fragrances, leather goods, nutritional supplements, aphrodisiacs and condoms.

The carefully developed Private Center concept for retailers was introduced a few years ago. Through its Licensing Division, Private is offering a unique opportunity for adult specialist and other retailers to buy into the Private brand through licensing agreements to either upgrade their existing retail points of sale or develop new outlets in order to satisfy the increasingly sophisticated and broad demands of adult consumers. Licensees are required to follow guidelines set by Private and the product range on offer will span from traditional adult products such as sex toys, magazines and DVDs to lifestyle Private-branded products, ranging from street wear to lingerie. The Private brand, valued by consumers and retailers alike thanks to its enduring focus on quality and innovation, thereby continues to meet new consumer demands, in both niche markets and broader sectors, such as the ever increasing number of female customers.

PROPRIETARY RIGHTS

General

We believe that our branded magazine titles and logos are valuable assets and are vital to the success and future growth of our businesses. We have filed trademark registration applications with respect to most of our trade names and logos. We believe that the name recognition and image that we have developed in each of our markets significantly enhance customer response to our sales promotions. We intend to aggressively defend our trademarks throughout the world, and we constantly monitor the marketplace for counterfeit products. We initiate legal proceedings from time to time to prevent unauthorized use of our trademarks.

Piracy Problems

According to figures from the Motion Picture Association of America, annual losses from video piracy are an estimated \$250 million a year in the United States alone, and close to \$ 3.0 billion a year worldwide.

Piracy involving adult entertainment products and services is most prevalent in markets/territories where pornography is either illegal and/or the economy is poor. Several of these territories are typically located in Eastern Europe and the Far East. We believe that piracy is so prevalent in many of these territories that we cannot distribute our products there, as piracy undercuts our price structure and eliminates profit margins. It is very difficult to enforce our proprietary rights in these markets.

Another piracy problem concerns the Internet. We are currently unable to confirm that all mail order sites selling Private products actually sell our original products and not pirated copies. The problem stems from distribution procedures, which in the case of Internet, is straight from the Internet provider's order page to the consumer. Also, video streaming over the Internet renders it difficult for us to control the origin of what is shown.

Our legal counsel handles most piracy problems and attempts to resolve these matters or litigate them on a case-by-case basis.

COMPETITION

General Considerations

Our products compete with other products and services that utilize leisure time or disposable income of adult consumers. The businesses in which we compete are highly competitive and service-oriented. We have few long-term or exclusive service agreements with our customers. Business generation is based primarily on customer satisfaction with key factors in a purchase decision, including reliability, timeliness, quality and price. We believe that our extensive and longstanding international operations, our brand name, image and reputation, as well as the quality of our content and our distributors, provide a significant competitive advantage over many of our competitors.

Although we believe our magazines and videos are well-established in the adult entertainment industry, we compete with entities selling adult oriented products in retail stores, as well as through direct marketing. Many of these products are similar to ours. Over the past few years, the adult entertainment industry has undergone significant change. Traditional producers of softcore content as well as mainstream providers of media content have shifted to producing hardcore content. As a result, we face greater competition to distribute hardcore content. This shift has also led to industry consolidation, creating fewer, more financially formidable competitors.

Magazines

We meet with minimal direct competition from other publishers of hardcore adult magazines and paperback books. We believe that our print publications are dissimilar to other adult publications in style and format. The only similar business of which we are aware was represented by Rodox N.V., a Dutch/ Danish corporation, which has discontinued its publishing operation. We do not believe there is presently any significant competition in this segment of our business. Magazines such as Playboy and Penthouse and similar print publications do not compete directly with our publications, since we consider them to be softcore publications. There are several hardcore publications in each country where our magazines are sold. In general, these are printed in limited editions and are of lower quality than our publications.

DVDs

The distribution of adult entertainment DVDs is a highly competitive business. Revenue generation for motion picture entertainment products depends, in part, upon general economic conditions, but the competitive position of a producer or distributor is still greatly affected by the quality of, and public response to, the entertainment product it makes available to the marketplace. Competition arises from established adult video producers and from independent companies distributing low-quality material.

Our primary competitors in the movie industry are adult motion picture studios, with in-house production and post-production capabilities. These include U.S. producers such as Video Company of America, Hustler, Vivid Film, Wicked Pictures, Evil Angel Productions and Metro Global Media Inc. Some competitors are smaller, but locally or regionally they are capable of quickly identifying niche markets that could compete for our customers. In addition, we also compete with other forms of media, including broadcast, cable and satellite television, direct marketing, electronic media and adult entertainment websites.

Broadcasting

The distribution of adult movies on cable and satellite television systems and hotel pay-per-view systems is highly competitive. Competition in this area is increasing in line with increasing consumer demand for hardcore adult entertainment generally. Our strongest geographical market position for cable and television and distribution is in Europe and Latin America, with the channels, *Private Spice* and *Private Gold*, and licensing arrangements with established European television networks, such as Canal+.

The strength of consumer demand for adult oriented cable programming is evidenced by the acquisition by Playboy of two hardcore U.S. cable channels from Vivid Film in July 2001. Until then, Playboy's business had been largely confined to softcore adult entertainment and it had resisted entry into hardcore markets. Competition in this market has also been impacted by an increase in the number and availability of satellite direct-to-home transmission channels.

In licensing, we experience competition from our DVD competitors. Our position in U.S. markets is not well established, and competition in this market is strong.

Internet

The Internet market for adult oriented content has expanded dramatically over the past years. There are numerous adult media content websites competing with ours, operated by companies that possess global distribution, broadcasting and branding.

EMPLOYEES

As of December 31, 2005, 2006 and 2007 we employed 135, 137 and 123 people, respectively. Our employees in Spain are represented by two labor unions and we have never experienced a work stoppage. We believe that we have a good relationship with our employees.

GOVERNMENT REGULATION

We operate in a highly regulated industry. This requires us to be socially aware and sensitive to government strictures, including laws and regulations designed to protect minors or which prohibit the distribution of obscene material. We take great care to comply with all applicable governmental laws and regulations in each jurisdiction where we conduct business. Moreover, we do not knowingly engage the services of any business or individual that does not adhere to the same standards. Since 1965, we have never been held to have violated any laws or regulations regarding obscenity or the protection of minors.

Regulation of the Adult Entertainment Industry in the U.S.

The following is a description of some of the laws and regulations in the United States which impact the adult entertainment industry. It is not an exhaustive description of all such laws. Moreover, we conduct business in over 35 countries around the world, each of which has its own regulatory framework. This regulatory environment is constantly changing in the geographical areas in which we conduct business, and in some instances laws which are enacted are subsequently determined by the courts to be unconstitutional.

The Classification and Rating Administration of the Motion Picture Association of America, MPAA, a motion picture industry trade association, assigns ratings for age group suitability for theatrical and home video distribution of motion pictures. Submission of a motion picture to the MPAA for rating is voluntary, and we do not submit our motion pictures to the MPAA for review. However, with the exception of several titles which have been re-edited for cable television, most of the movies distributed by us, if so rated, would most likely fall into the NC-17 - No Children Under 17 Admitted rating category because of their depiction of nudity and sexually explicit content.

The right to distribute adult videocassettes, magazines and DVD products in the United States is protected by the First and Fourteenth Amendments to the United States Constitution, which prohibits Congress or the several States from passing any law abridging the freedom of speech.

The First and Fourteenth Amendments, however, do not protect the dissemination of obscene material, and several states and communities in which our products are distributed have enacted laws regulating the distribution of obscene material, with some offenses designated as misdemeanors and others as felonies, depending on numerous factors. The consequences for violating these state statutes are as varied as the number of states enacting them. Similarly, specific U.S. federal regulations prohibit the dissemination of obscene material. The potential penalties for individuals (including directors, officers and employees) violating the Federal obscenity laws include fines, community service, probation, forfeiture of assets and incarceration. The range of possible sentences requires calculations under the Federal Sentencing Guidelines, and the amount of the fine and the length of the period of the incarceration under those guidelines are calculated based upon the retail value of the unprotected materials. Also taken into account in determining the amount of the fine, length of incarceration or other possible penalty are whether the person accepts responsibility for his or her actions, whether the person was a minimal or minor participant in the criminal activity, whether the person was an organizer, leader, manager or supervisor, whether multiple counts were involved, whether the person provided substantial assistance to the government, and whether the person has a prior criminal history. In addition Federal law provides for the forfeiture of: (1) any obscene material produced, transported, mailed, shipped or received in violation of the obscenity laws; (2) any property, real or personal, constituting or traceable to gross profits or other proceeds obtained from such offense; and (3) any property, real or personal, used or intended to be used to commit or to promote the commission of such offense, if the court in its discretion so determines, taking into consideration the nature, scope and proportionality of the use of the property in the offense.

With respect to the realm of potential penalties facing an organization such as ours, the forfeiture provisions detailed above apply to corporate assets falling under the statute. In addition, a fine may be imposed, the amount of which is tied to the pecuniary gain to the organization from the offense or determined by a fine table tied to the severity of the offense. Also factored into determining the amount of the fine are the number of individuals in the organization and whether an individual with substantial authority participated in, condoned, or was willfully ignorant of the offense; whether the organization had an effective program to prevent and detect violations of the law; and whether the organization cooperated in the investigation and accepted responsibility for its criminal conduct. In addition, the organization may be subject to a term of probation of up to five years.

Federal and state obscenity laws define the legality or illegality of materials by reference to the U.S. Supreme Court's three-prong test set forth in *Miller v. California*, 413 U.S. 1593 (1973). This test is used to evaluate whether materials are obscene and therefore subject to regulation. *Miller* provides that the following must be considered: (a) whether the average person, applying contemporary community standards would find that the work, taken as a whole, appeals to the prurient interest; (b) whether the work depicts or describes, in a patently offensive way, sexual conduct specifically defined by the applicable state law; and (c) whether the work, taken as a whole, lacks serious literary, artistic, political or scientific value. The Supreme Court has clarified the *Miller* test in recent years, advising that the prurient interest prong and patent offensiveness prong must be measured against the standards of an average person, applying contemporary community standards, while the value prong of the test is to be judged according to a reasonable person standard.

We are engaged in the wholesale distribution of our products to U.S. wholesalers and/or retailers. We have taken steps to ensure compliance with all Federal, State and local regulations regulating the content of motion pictures and print products, by staying abreast of all legal developments in the areas in which motion pictures and print products are distributed and by specifically avoiding distribution of motion pictures and print products in areas where the local standards clearly or potentially prohibit these products. In light of our efforts to review, regulate and restrict the distribution of our materials, we believe that the distribution of our products does not violate any statutes or regulations.

Many of the communities in the areas in which we offer or intend to offer products or franchises, have enacted zoning ordinances restricting the retail sale of adult entertainment products. We supply products only in locations where the retail sale of adult entertainment products is permitted.

In February 1996, the U.S. Congress passed the Telecommunications Act. Some provisions of the Telecommunications Act are directed exclusively at cable programming in general and adult cable programming in particular. In some cable systems, audio or momentary bits of video of premium or pay-per-view channels may accidentally become available to non-subscribing cable customers. This is called bleeding. The practical effect of Section 505 of the Telecommunications Act is to require many existing cable systems to employ additional blocking technology in every household in every cable system that offers adult programming, whether or not customers request it or need it, to prevent any possibility of bleeding, or to restrict the period during which the programming is transmitted from 10:00 p.m. to 6:00 a.m. Penalties for violation of the Telecommunications Act are significant and include fines and imprisonment. Surveying of cable operators and initial results indicate that most will choose to comply with Section 505 by restricting the hours of transmission. We believe that our revenues will be marginally adversely affected as a result of enforcement of Section 505. However, as digital technology (which is unaffected by Section 505) becomes more available, we believe that ultimately the impact will be insignificant.

As discussed above, federal and state government officials have targeted sin industries, such as tobacco, alcohol, and adult entertainment for special tax treatment and legislation. In 1996, U.S. Congress passed the Communications Decency Act of 1996, or the CDA. Recently, the U.S. Supreme Court, in *ACLU v. Reno*, held certain substantive provisions of the CDA unconstitutional. Businesses in the adult entertainment and programming industries expended millions of dollars in legal and other fees in overturning the CDA. Investors should understand that the adult entertainment industry may continue to be a target for legislation. In the event we must defend ourselves and/or join with other companies in the adult programming business to protect our rights, we may incur significant expenses that could have a material adverse effect on our business and operating results.

Child Pornography and Non-Mainstream Content

We believe that roughly 90% of the adult material produced and distributed over the past 15 years contains mainstream sexual acts between consenting adults. The rest could be classified as specialty material which does not contain explicit sex, but which still involves consenting adults (i.e. fetish, bondage, etc.). Mainstream sex acts means intercourse, oral sex, anal sex, group sex, etc. Our adult movies do not contain any depictions, let alone actual performances of rape, sex with coercion, animals, urination, defecation, violence, incest or child pornography.

Since 1990, the Free Speech Coalition has worked with the U.S. government to create a workable regulatory system designated to prevent minors from working in the adult industry. Child Protection Restoration and Penalties Enhancement Act of 1990 (18 U.S.C. section 2257) requires, in essence, that no one can work without having copies of their passport or driver's license, and a declaration under perjury of their age and true name, on file with a designated Custodian of Records, and available for inspection by law enforcement.

As indicated above, all of our products are all in compliance with 18 U.S.C. Section 2257 and all models performing in our productions are 18 years of age or older.

Internet Regulation

Government regulation of the Internet is a rapidly developing area and, therefore, adds additional uncertainty to our business. New laws or regulations relating to the Internet, or more aggressive application of existing laws, could decrease the growth of our websites, prevent us from making our content available in various jurisdictions or otherwise have a material adverse effect on our business, financial condition and operating results. These new laws or regulations could relate to liability for information retrieved from or transmitted over the Internet, taxation, user privacy and other matters relating to our products and services. For example, the U.S. government has recently enacted laws regarding website privacy, copyrights and taxation. Moreover, the application to the Internet of other existing laws governing issues such as intellectual property ownership and infringement, pornography, obscenity, libel, employment and personal privacy is uncertain and developing.

Regulation of the Internet outside the United States

We may also be subject to claims based upon the content that is available on our websites through links to other sites and in jurisdictions that we have not previously distributed content in. For example, a recent French ruling banning the sale of Nazi memorabilia in France suggests that website operators may be forced to undertake expensive security measures to block certain users or face significant fines. Implementing such security measures to reduce our exposure to this liability may require us to take steps that would substantially limit the attractiveness of our websites and/or their availability in various geographic areas, which could negatively impact their ability to generate revenue.

SEASONALITY

Our businesses are generally not seasonal in nature. However, June, July and August are typically impacted by smaller orders from some European and U.S. distributors, due to the holiday season.

AVAILABLE INFORMATION

As a public company, we are required to file annual, quarterly and special reports, proxy statements and other information with the SEC. You may read and copy any of our materials on file with the SEC at the SEC's Public Reference Room at 100 F Street N.E., Washington, DC 20549. Our filings are available to the public over the Internet at the SEC's website at <http://www.sec.gov>. Please call the SEC at 1-800-SEC-0330 for further information on the operation of the Public Reference Room. We also make available copies of our Forms 8-K, 10-K, 10-Q, Proxy Statement and Annual Report at no charge to investors through our website, <http://www.prvt.com>, as soon as reasonably practicable after filing such material with the SEC. Information on our website is not part of this Report.

ITEM 1A. RISK FACTORS

You should carefully consider the risks described below, together with all of the other information contained in this Annual Report on Form 10-K in evaluating our business and us. The risks and uncertainties below are not the only ones we face. Additional risks and uncertainties not presently known to us, or that we currently deem immaterial, may also impair our business operations. If any of the following risks actually occur, our business, financial condition or results of operations could be materially and adversely affected. In that case, the trading price of our common stock could decline, and you may lose all or part of your investment.

Our future capital requirements and needs for additional financing are uncertain. We believe that current and future available capital resources, including cash flow from operations, will be adequate to fund our working capital requirements based upon our present level of operations for the 12 month period following the date of this annual report. However, future events may cause us to seek additional capital sooner. If additional capital resources are required, these funds may not be available on favorable terms, or at all. If we raise additional capital through the sale of equity or convertible debt securities, the issuance of these securities could result in dilution to existing shareholders. The unavailability of funds could have a material adverse effect on our financial condition, results of operations and our ability to expand operations.

Our business involves the provision of sexually explicit content which can create negative publicity, lawsuits and boycotts. We are engaged in the business of providing adult-oriented, sexually explicit products worldwide. Many people regard our primary business as unwholesome. Various national and local governments, along with religious and children's advocacy groups, consistently propose and enact legislation to restrict the provision of, access to, and content of such entertainment. These groups also often file lawsuits against providers of adult entertainment, encourage boycotts against such providers and mount negative publicity campaigns. In this regard, our magazines, and some of our distribution outlets and advertisers, have from time to time been the target of groups who seek to limit the availability of our products because of their content. We expect to continue to be subject to these activities.

The adult-oriented content of our websites may also subject us to obscenity or other legal claims by third parties. We may also be subject to claims based upon the content that is available on our websites through links to other sites and in jurisdictions that we have not previously distributed content in. Implementing measures to reduce our exposure to this liability may require us to take steps that would substantially limit the attractiveness of our websites and/or their availability in various geographic areas, which could negatively impact their ability to generate revenue.

In addition, some investors, investment banks, market makers, lenders and others in the investment community may refuse to participate in the market for our common stock, financings or other activities due to the nature of our primary business. These refusals may negatively impact the value of our common stock and our opportunities to attract market support.

We face online security risks in connection with our Internet business. Online security breaches could materially adversely affect our business. Any well-publicized compromise of security could deter use of the Internet in general or use of the Internet to conduct transactions that involve transmitting confidential information or downloading sensitive materials in particular. For example, events such as the November 2001 security breach of the Playboy.com website that allowed a computer hacker to steal customers' credit card numbers could deter current and future subscribers from using or subscribing to our website. In offering online payment services, we will increasingly rely on technology licensed from third parties to provide the security and authentication necessary to effect secure transmission of confidential information, such as consumer credit card numbers. Advances in computer capabilities, new discoveries in the field of data encryption or other developments could compromise or breach the methods and procedures that we use to protect our consumers' transaction data. In addition, experienced programmers may attempt to steal proprietary information or cause interruptions in our services. To prevent such developments we may need to expend significant capital and other resources to protect against these problems.

Continued imposition of tighter processing restrictions by credit card associations and acquiring banks would make it more difficult to generate revenues from our websites. Our ability to accept credit cards as a form of payment for our online products and services is critical to us. There are ongoing efforts by credit card associations to restrict the processing of credit cards for online

adult-related content. To protect against such restrictions, we must invest heavily in new technologies to protect against fraud. Unlike a merchant handling a sales transaction in a non-Internet environment, e-commerce merchants are fully responsible for all fraud perpetrated against them.

Our ability to accept credit cards as a form of payment for our online products and services could be restricted or denied for many reasons, including:

Visa Tier 1 capital ratio requirements for financial institutions have significantly reduced the total dollar sales volume of Visa credit card activity that any bank can process in any given month;

if we experience excessive chargebacks and/or credits;

if we experience excessive fraud ratios;

if there is a breach of our security resulting in a theft of credit card data;

if there is a change in policy of the acquiring banks and/or credit card associations with respect to the processing of credit card charges for adult-related content;

tightening of credit card association chargeback regulations in international commerce;

banks might choose not to accept accounts with adult-related content, in a similar manner to one bank in Spain which we previously used.

American Express has instituted a policy of not processing credit card charges for online, adult-related content. If other credit card processing companies were to implement a similar policy, this could have a material adverse effect on our business, results of operations and financial condition.

We outsource our production and distribution. We acquire still photography and motion pictures from independent directors and we rely on third-party distributors to deliver our products to end-users through multiple distribution channels, including newsstands, the Internet and broadcasting. Our relationship with such directors and distributors is contractually based. We cannot guarantee that our contracts with directors will be fulfilled or that we will enter into new ones, in which case we may not have adequate content for our magazines and movies. Also, we cannot guarantee that our contracts with distributors will be renewed, in which case we may not be able to sell new products through some or all channels or into some countries. Failure to secure new production contracts, to secure the fulfillment of current contracts or to maintain our current distribution contracts could have a material adverse effect on our business, results of operations and financial condition.

We are dependent upon key employees. Our future success depends, to a significant degree, on the continued services of our executive officers and other key personnel, including Berth Milton, Peter Cohen, Javier Sánchez and Johan Gillborg. We have not procured key-man life insurance and there is no guarantee that we will be able to obtain such insurance in the future should we so desire. Mr. Milton is the founder of our principal operating division, the Milcap Group, and has taken part in our management since the acquisition of the trademark Private in 1990. We cannot guarantee that we will be successful in retaining his services in the future. We do not presently have employment agreements with many of our executive officers or key personnel. The loss of the services of any of them or an inability to continue to attract, motivate and retain highly qualified and talented personnel, including software development technical personnel, could have a material adverse effect on our business and operating results.

Our business is highly competitive. We compete in all aspects of our business, including price, promptness of service and product quality. We compete with a number of other businesses, offering various adult-oriented leisure-time activities, including Playboy Enterprises, Inc., Vivid Entertainment, Larry Flynt Publications, Inc. (Hustler), Video Company of America and Beate Uhse AG. Some of our competitors have significantly greater market presence, name recognition and financial and technical resources than we do. In addition, these companies may develop products or services that are more effective than our products or services and/or they may be more successful than us in marketing their

Edgar Filing: PRIVATE MEDIA GROUP INC - Form 10-K

products or services. We believe that the adult entertainment market will continue to shift towards the use of explicit sexual content, our principal market, resulting in increased competition in this area of our business. In our Internet business, we compete with other adult media content websites as to the content of their programming and the subscription fees that are offered to members. In addition, if free adult media content on the Internet becomes more widely available, this may negatively impact our ability to attract fee-paying members. To the extent that current and potential competitors compete on the basis of price, this could result in lower margins for our products.

We are subject to rapidly changing technology. We are engaged in businesses that have undergone rapid technological change over the past few years. Therefore, we face risks inherent in businesses that are subject to rapid technological advancement and changes in consumer demands. This includes the possibility that a technology that we have invested in may become obsolete, requiring us to invest in new technology. For example, in the past we discontinued production of our CD-Rom lines and video cassette products in favor of DVDs. Our future success will depend, in part, on our ability to adapt to rapidly changing technologies, to enhance existing services and to develop and introduce a variety of new services to address changing demands of our consumers.

New technological discoveries may render our equipment uneconomical or obsolete. As technologies change, the equipment used in our markets may become obsolete. As a result, we subcontract and intend to continue to subcontract capital intensive or technically complex businesses such as editing, DVD replication and other similar businesses. However, we may not have access to these subcontractors when their services are required, and their services may not be available on favorable terms.

Increased government regulation in the United States or abroad could limit our ability to deliver content and expand our business. New laws or regulations relating to the Internet, or more aggressive application of existing laws, could decrease the growth of our websites, prevent us from making our content available in various jurisdictions or otherwise have a material adverse effect on our business, financial condition and operating results. These new laws or regulations could relate to liability for information retrieved from or transmitted over the Internet, taxation, user privacy and other matters relating to our products and services. For example, the U.S. government has recently enacted laws regarding website privacy, copyrights and taxation. Moreover, the application to the Internet of other existing laws governing issues such as intellectual property ownership and infringement, pornography, obscenity, libel, employment and personal privacy is uncertain and developing.

Cable system operators could also become subject to new governmental regulations that could further restrict their ability to broadcast our programming. If new regulations make it more difficult for cable operators to broadcast our programming, our operating performance would be adversely affected.

We are currently in a significant legal dispute with the Swedish tax authority. In December 1999 the Company received final notification from the Swedish Tax Authority assessing its subsidiary in Cyprus for the tax years 1995-1998 for a total amount of SEK 42,000,000 (approx. EUR 4.5 million) plus fines amounting to SEK 16,800,000 (approx. EUR 1.8 million) plus interest. The Swedish Tax Authority has taken the position that the subsidiary carried on business in Sweden from a permanent establishment during the period in question and should therefore be taxed on the income attributable to the permanent establishment. The case is under litigation and the Company believes the circumstances supporting the Tax Authority's claim are without merit. However, the Administrative Court of Appeal has decided that a permanent establishment is at hand. The Court has only made a principle statement and the question how to calculate any eventual profit that can be allocated to the permanent establishment is not decided by the Court at this stage. The Company has appealed against the decision. The final outcome of this litigation will not be known for several years. Due to the early stages of this matter and the uncertainty regarding the ultimate decision, no amounts have been provided in the Company's financial statements for this dispute.

We face risks relating to our proprietary intellectual property rights. We rely on a combination of copyright and trademark laws, trade secrets, software security measures, license agreements and non-disclosure agreements to protect our proprietary products. Despite these precautions, it may be possible for unauthorized third parties to copy parts of, or otherwise obtain and use, our products without authorization, or to substantially use our concepts and market them, trading on our established customer base. Products sold over the Internet are particularly vulnerable to piracy, particularly in some developing countries. In addition, we cannot be certain that others will not develop substantially equivalent or superseding products, thereby reducing the value of our proprietary rights. Confidentiality agreements with our employees or license agreements with our customers may not provide meaningful protection for our proprietary information in the event of any unauthorized use or disclosure of that proprietary information.

We do not believe that our products infringe the proprietary rights of third parties, and we are not currently engaged in any intellectual property litigation or proceedings. Nonetheless, in the future we could become the subject of infringement claims or legal proceedings by third parties with respect to current or future products. In addition, we may initiate claims or litigation against third parties for infringement of our proprietary rights or to establish the validity of our proprietary rights. We cannot be sure that any lawsuits or other actions brought by us will be successful or that we will not be found to infringe the intellectual property rights of third parties. In addition, to the extent we may desire, or are required, to obtain licenses to patents or proprietary rights of others, there can be no guarantee that any such licenses will be made available on terms acceptable to us, if at all.

Enforcement of civil liabilities against Private Media Group and its management may be difficult. Private Media Group, Inc. is a corporation organized under the laws of the State of Nevada. Our agent for service of process in the United States is Gateway Enterprises, Inc., whose address is 3230 Flamingo Road, Suite 156, Las Vegas, Nevada 89121. Presently, all of our directors and officers reside outside the United States. As a result, it may not be possible for investors to effect service of process within the United States upon them or to enforce, in courts outside the United States, judgments against these persons obtained in U.S. courts based upon the civil liability provisions of the U.S. federal securities laws. In addition, since the large majority of our assets are located outside the United States, any judgment obtained in the United States against us may not be collectible within the United States.

There are risks associated with our foreign operations. Most of our operations are conducted outside the United States. In addition, our growth strategy contemplates increased services to foreign customers and to domestic customers distributing programming to international markets. As a consequence of the global nature of our business, we will be exposed to market risks from changes in interest rates and foreign currency exchange rates that may adversely affect our results of operations and financial condition. By virtue of our significant operations outside the United States, we will be subject to the risks normally associated with cross-border business transactions and activities, including those relating to delayed payments from customers in some countries or difficulties in the collection of receivables generally.

In addition, we will be exposed to the risk of changes in social, political and economic conditions in the countries where we engage in business. Political and economic instability in these countries could adversely affect our business activities and operations. Unexpected changes in local regulatory requirements, tariffs and other trade barriers and price or exchange controls could limit operations and make the repatriation of profits difficult. In addition, the uncertainty of differing legal environments could limit our ability to effectively enforce our rights in some markets.

We are subject to risks relating to performers. Our movie, video and photo productions are subject to U.S. and foreign regulations which govern the terms and conditions under which sexually explicit media productions may occur. We have adopted practices and procedures intended to ensure compliance with these regulations. Although these measures are intended to protect us from liability under applicable U.S. and foreign laws governing sexually explicit media productions, we cannot guarantee that we will not be subject to successful legal attacks in the future.

We do not expect to pay dividends on our common stock in the foreseeable future. Although our shareholders may receive dividends if, as and when declared by our board of directors, we do not intend to pay dividends on our common stock in the foreseeable future. Therefore, you should not purchase our common stock if you need immediate or future income by way of dividends from your investment.

We may issue additional shares of our capital stock that could dilute the value of your shares of common stock. We are authorized to issue 110,000,000 shares of our capital stock, consisting of 100,000,000 shares of our common stock and 10,000,000 shares of our preferred stock. At March 7, 2008, 53,580,494 shares of our common stock and no shares of our preferred stock were issued and outstanding, and approximately 3,004,436 shares of our common stock were issuable upon the exercise of options or warrants.

Should we obtain additional financing, we may issue authorized and unissued shares of common stock at below current market prices or preferred stock that could dilute the earnings per share and book value of your shares of our common stock.

There are risks relating to the issuance of additional shares of preferred stock, including deterring attempts by third parties to acquire us.

Our board of directors has the authority to issue up to 10,000,000 shares of preferred stock, none of which are currently issued and outstanding, and to determine their price, and other rights, preferences, privileges and restrictions without any further vote or action by our stockholders. The rights of the holders of common stock are subject to, and may be adversely affected by, the rights of the holders of any preferred stock, including preferred stock that we may issue in the future. If preferred stock is issued, it may rank senior to our common stock in respect of the right to receive dividends and to participate in distributions or payments in the event of our liquidation, dissolution or winding up. The provisions in our articles of incorporation authorizing preferred stock could delay, defer or prevent a change of control and could adversely affect the voting and other rights of holders of our common stock, including the loss of voting control to others, which could make it more difficult for a third party to acquire control of us.

We are controlled by existing management and shareholders. Our officers and directors beneficially own or control more than 50% of our issued and outstanding stock. These shareholders effectively exercise control over all matters requiring approval by our shareholders, including the election of directors and the approval of significant corporate transactions. Their interests may differ from the interests of other shareholders and, therefore, result in corporate decisions that may be disadvantageous to other shareholders. This concentration of ownership may also have the effect of delaying or preventing a change in control, which could have a material adverse effect on our stock price.

There may be adverse consequences to our shareholders and our business if our common stock ceases to be quoted on the NASDAQ Stock Market or a principal stock exchange. To continue to be listed on the NASDAQ Stock Market, we must maintain certain requirements. If we fail to satisfy one or more of the requirements, our common stock may be delisted. If our common stock is delisted, and does not become listed on another stock exchange, then it will be traded, if at all, in the over-the-counter market commonly referred to as the FINRA OTC Bulletin Board or the pink sheets. If this occurs, it may be more difficult for you to sell our common stock. In addition, under the terms of the convertible notes issued by us, the holders of these notes are entitled to accelerate the payment of these notes if we fail to maintain our listing on NASDAQ or a principal stock exchange.

ITEM 2. PROPERTIES

Private Media Group maintains an office in the United States at 3230 Flamingo Road, Suite 156, Las Vegas, Nevada 89121.

Since October 2007, Milcap Media Group leases office space in Torre MAPFRE, located at Calle de la Marina 14-16, 08005 Barcelona, Spain, for a term of five years. Average monthly base rental expense is approximately \$ 31,000. The office space is currently used primarily by our departments providing marketing and administration services to the group. In addition, the office space serves as the European headquarters of Private Media Group, Inc. The lease also requires us to pay our proportionate share of the building's real estate taxes and operating expenses.

In January 2008 Milcap Media Group partly renewed the lease for office space in the building located at Carretera de Rubi 22, 08173 Sant Cugat del Valles, Barcelona, Spain for a further term of five years. Average monthly base rental expense is approximately \$ 31,000. The building is currently used by our operating departments engaged in providing distribution, production and post production services for the group. In addition, Milcap Media Group leases warehouse space also located on Carretera de Rubi. The lease expires in 2008 and the average monthly base rental expense is approximately \$ 23,000. We recognize the rent expense on a straight-line basis over the term of the leases. The leases also require us to pay our proportionate share of the building's real estate taxes and operating expenses.

Currently, in addition to Barcelona, Spain, the group's subsidiaries lease office and warehouse space in Sweden; Stockholm, Knegsel, the Netherlands; Paris, France and Montreal, Canada.

ITEM 3. LEGAL PROCEEDINGS

In December 1999 the Company received final notification from the Swedish Tax Authority assessing its subsidiary in Cyprus for the tax years 1995-1998 for a total amount of SEK 42,000,000 (approx. EUR 4.5 million) plus fines amounting to SEK 16,800,000 (approx. EUR 1.8 million) plus interest. The Swedish Tax Authority has taken the position that the subsidiary carried on

business in Sweden from a permanent establishment during the period in question and should therefore be taxed on the income attributable to the permanent establishment. The case is under litigation and the Company believes the circumstances supporting the Tax Authority's claim are without merit. However, the Administrative Court of Appeal has decided that a permanent establishment is at hand. The Court has only made a principle statement and the question of how to calculate any eventual profit that can be allocated to the permanent establishment is not decided by the Court at this stage. The final outcome of this litigation will not be known for several years. Due to the early stages of this matter and the uncertainty regarding the ultimate decision, no amounts have been provided in the Company's financial statements for this dispute.

We are from time to time a defendant in suits for defamation and violation of rights of privacy, many of which allege substantial or unspecified damages, which we vigorously defend.

We are presently engaged in litigation, most of which is generally incidental to the normal conduct of our business and is immaterial in amount. We believe that our reserves are adequate and that no such action will have a material adverse impact on our financial condition. However, there can be no assurance that our ultimate liability will not exceed our reserves.

Except as disclosed above, neither Private Media Group, Inc. nor its subsidiaries is involved in any other litigation or arbitration proceedings which could have a material influence on our financial condition or results of operations.

ITEM 4. SUBMISSION OF MATTERS TO A VOTE OF SECURITY HOLDERS

Our 2007 Annual Meeting of Shareholders was held on December 19, 2007. At the Annual Meeting each of our five nominees was elected to serve as a director until the next Annual Meeting of Shareholders. The election results were as follows:

Election of Five Directors:

Name	For	Withheld
Berth H. Milton	31,182,764	12,046
Bo Rodebrant	32,254,627	12,046
Lluís Torralba	32,261,142	12,046
Johan G. Carlberg	32,254,742	12,046
Daniel Sánchez	32,261,342	12,046

No other matter was submitted to a vote at the 2007 Annual Meeting.

PART II

ITEM 5. MARKET FOR THE REGISTRANT'S COMMON EQUITY, RELATED STOCKHOLDER MATTERS AND ISSUER PURCHASES OF EQUITY SECURITIES**Market for Private Media Group, Inc. Common Stock**

The common stock of Private Media Group, Inc. has traded on the NASDAQ National and Global Markets since February 1, 1999 under the symbol PRVT. Previously, our common stock traded on the FINRA (formerly NASD, Inc.) OTC Bulletin Board since March 29, 1996. The following table sets forth the range of representative high and low sales prices for the common stock for the periods indicated, as reported by the NASDAQ Stock Market. Quotations represent inter-dealer prices, do not include retail markups, markdowns or commissions and may not represent actual transactions.

Second Quarter	\$ 4.87	\$ 3.68
Third Quarter	\$ 4.71	\$ 3.70
Fourth Quarter	\$ 4.20	\$ 3.30

On March 7, 2008, the last sales price reported on the NASDAQ Stock Market was \$ 1.64. On November 9, 2007, there were 213 shareholders of record and approximately 1,824 beneficial owners of our common stock.

Dividend Policy

We did not pay any cash dividends during our last two fiscal years and we do not contemplate doing so in the near future. We currently intend to retain all earnings to finance the development and expansion of our operations, and do not anticipate paying cash dividends on our shares of common stock in the foreseeable future. Our future dividend policy will be determined by our Board of Directors on the basis of various factors, including results of operations, financial condition, business opportunities and capital requirements. The payment of dividends will also be subject to the requirements of Nevada Law, as well as restrictive financial covenants which may be required in credit agreements.

Sale of Unregistered Securities in the Fourth Quarter of 2007

In November 2007 we entered into two agreements to acquire shares of Horse Creek Entertainment AB (publ), a mainstream content aggregator operating HomeTV (www.hometv.se), a broadband Video-On-Demand (VOD) platform in Scandinavia, in exchange for our common stock. In two private transactions with Horse Creek Entertainment AB we acquired: (1) 2,000,000 million common shares of Horse Creek Entertainment AB at SEK 1.95 per share in exchange for issuing 169,565 shares of our common stock; and (2) an additional 2,000,000 million common shares of Horse Creek Entertainment AB at SEK 2.80 per share together with stock purchase warrants entitling us to acquire an additional 2,000,000 shares at SEK 1.95 per share until November 2009, in exchange for issuing 265,762 shares of our common stock. The issuance of the common stock is deemed to be exempt from the registration requirement of the Securities Act of 1933, as amended, in reliance on Section 4(2) of the Securities Act as it was sold to an investor believed to be an accredited investor and was made without general solicitation or advertising.

Performance Graph

The following graph compares on a cumulative basis the yearly percentage change, assuming dividend reinvestment, over the five fiscal years in (a) the total shareholder return on common stock of Private Media Group, Inc. with (b) the total return on the Standard & Poors SmallCap 600 index and (c) the total return on a peer group. The Standard & Poor's SmallCap 600 index covers approximately 3% of the US domestic equities market and includes a total of 600 companies with a market capitalization ranging from \$60 million to \$4.9 billion. The average market capitalization per company is approximately \$880 million. The peer group is an index weighted by the relative market capitalization of the following two companies, which were selected for being in an industry related to that of Private Media Group, Inc. (provider of adult content). The companies are Playboy and New Frontier Media. The comparisons in the graph are required by the SEC and are not intended to forecast or be indicative of possible future performance of Private Media Group, Inc. common stock.

Stock Dividend

We implemented a 3:1 stock dividend whereby each holder of record of our common stock on May 30, 2000, received two additional shares of common stock for each share owned on the record date. Corresponding adjustments have been made to the warrants and options outstanding on the record date as well as the Series A Preferred Stock to reflect adjusted conversion and dividend terms. Accordingly, all share and per share values reflected have been adjusted to give effect to the stock dividend.

ITEM 7. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

You should read this section together with the consolidated financial statements and the notes and the other financial data in this Report. The matters that we discuss in this section, with the exception of historical information, are forward-looking statements within the meaning of the Private Securities Reform Act of 1995. Such forward-looking statements are subject to risks, uncertainties and other factors which could cause our actual results to differ materially from those expressed or implied by such forward-looking statements. Potential risks and uncertainties relate to factors such as: (1) the timing of the introduction of new products and services and the extent of their acceptance in the market; (2) our expectations of growth in demand for our products and services; (3) our ability to successfully implement expansion and acquisition plans; (4) the impact of expansion on our revenue, cost basis and margins; (5) our ability to respond to changing technology and market conditions; (6) the effects of regulatory developments and legal proceedings with respect to our business; (7) the impact of exchange rate fluctuations; and (8) our ability to obtain additional financing.

Overview

We are an international provider of adult media content. We acquire still photography and motion pictures from independent directors and process these images into products suitable for popular media formats such as print publications, DVDs and digital media content for Broadcasting, Mobile and Internet distribution. In addition to media content, we also market and distribute branded leisure and novelty products oriented to the adult entertainment lifestyle and generate additional sales through the licensing of our *Private* trademark to third parties.

In June 1998, we acquired Milcap Media Limited, its subsidiaries and Cine Craft. Prior to these acquisitions, we were a holding company. Milcap Media Limited, its subsidiaries and Cine Craft were the acquirees, but for accounting purposes they were deemed to be the acquirors. We became a U.S. reporting company following the 1998 acquisitions.

We operate in a highly competitive, service-oriented market and are subject to changes in business, economic and competitive conditions. Nearly all of our products compete with other products and services that utilize adult leisure time and disposable income.

We generate revenues primarily through:

sales of movies on DVD;

sales of adult feature magazines;

Internet subscriptions and licensing;

broadcasting movies through IPTV (Internet Protocol Television), cable, satellite and hotel television programming;

sales of adult mobile content (wireless); and

content, brand name and trademark licensing.

The following table illustrates our net sales by product group for the periods indicated.

	Years ended December 31,		
	2005 EUR	2006 EUR	2007 EUR
<i>Net sales by product group</i>			
DVDs & Magazines	19,096	14,846	10,864
Internet	4,098	4,326	4,445
Broadcasting	3,574	8,057	7,086
Wireless	1,006	1,968	2,596
Total	27,774	29,197	24,990

Over time, we expect net sales from DVDs & magazines to continue to decline as a percentage of net sales in relation to total net sales from Internet, broadcasting and wireless. We expect net sales from Internet, wireless and broadcasting to grow during the coming years.

We recognize net sales on delivery (for further information, see Critical Accounting Estimates).

Even though we recognize net sales upon delivery, we generally provide extended payment terms to our distributors of between 90 and 180 days. Although our extended payment terms increase our exposure to accounts receivable write-offs, we believe our risk is minimized by our generally long-term relationships with our distributors. In addition, we view our extended payment terms as an investment in our distribution channels which are important to the growth of our business.

Our primary expenses include:

acquisition of content for our library of photographs and videos;

printing, processing and duplication costs; and

selling, general and administrative expenses.

Our magazines and DVD covers are printed by independent third-party printers in Spain. We introduced DVDs as a motion picture medium in 1999. The production of each DVD master disc, prior to duplication, costs approximately \$10,000. DVDs have a relatively low cost of duplication, inclusive of box and packaging, of approximately \$1.00 per unit. Our DVDs are duplicated on an all region format, playable on both NTSC and PAL with multiple languages and sub-titles.

We released 101 titles on DVD during 2007, 110 titles on DVD during 2006 and 113 titles during 2005, including both new and archival material. We plan to release approximately 100 proprietary titles on DVDs in 2008.

Over the years, our cost of sales has been fluctuating relative to net sales due to our use of new mediums for our products, such as the Internet, DVD broadcasting and wireless. Internet, wireless and broadcasting sales has historically not carried any cost of sales and variations in these areas affect the overall cost of sales percentage in relation to sales. These new media provide us with additional sales of our existing content

We also incur significant intangible expenses in connection with the amortization of our library of photographs and movies and capitalized development costs, which include the Internet. We amortize these tangible and intangible assets on a straight-line basis for periods of between three and five years.

Critical Accounting Estimates

General

Edgar Filing: PRIVATE MEDIA GROUP INC - Form 10-K

Our discussion and analysis of our financial condition and results of operations are based upon our consolidated financial statements, which have been prepared in accordance with accounting principles generally accepted in the United States. The

preparation of these financial statements requires us to make estimates and judgments that affect the reported amount of assets and liabilities revenues and expenses. On an ongoing basis, we evaluate our estimates, including those related to impairment of the library of photographs and videos and other long lived assets, allowances for bad debt, income taxes and contingencies and litigation. Accounts receivable and sales related to certain products are, in accordance with industry practice, subject to distributors right of return to unsold items. We base our estimates on historical experience and on various assumptions that are believed to be reasonable under the circumstances, the results of which form the basis for making judgments about the carrying values of assets and liabilities that are not readily available from other sources. Management periodically reviews such estimates. Actual results may differ from these estimates as a result of unexpected changes in trends.

We believe the following critical accounting policies are significantly affected by judgments and estimates used in the preparation of our consolidated financial statements.

Recognition of Revenue

The Company sells magazines to wholesalers on firm sale basis and via national newsstand distributors with the right to return. Our magazines are multi-lingual and the principal magazine market is in Europe.

Revenues from the sale of magazines under agreements that grant distributors rights-of-return are recognized upon transfer of title, which generally occurs on delivery, net of an allowance for returned magazines. Distributors with the right to return are primarily national newsstand distributors. Most of our magazines are bi-monthly (six issues per year) and remain on sale at a newsstand for a period of two months. Normally, all unsolds are reported to us within a period of four to six months from delivery. There are normally two to four national newsstand distributors for all newspapers and periodicals operating in each country. A majority of our national newsstand distributors are members of Distripress, the international organization for publishers and distributors, and carry out the distribution of the largest national and international newspapers and periodicals, including: Financial Times, Herald Tribune, Time, Newsweek, Vogue, etc.

The Company uses specific return percentages per title and distributor based on estimates and historical data. The percentages vary from 50-80%. Higher percentages generally reflect newer markets and/or products. Percentages are reviewed on an on-going basis.

The magazines have an approximate retail price of EUR 11.50 (USD 16.90) per copy and are printed on glossy high-quality paper at a cost of EUR 1.25 (USD 1.84). They are often shrink-wrapped in order to comply with local regulation or guidance for the sale of adult publications. In view of the high retail price, the margin and the physical quality of the magazines and the fact that the content has a very long shelf-life since it is not particularly linked to time, trends, fashion or current events, the Company has always collected the returns from newsstands in order to make them available for sale again.

The Company has scheduled re-distribution of the returned magazines, via national newsstand distributors, as Megapacks or Superpacks (three different copies per pack) where the retail price is EUR 14.95 (USD 21.99). As the national newsstand distributors have the right to return, the packs come back to us and are then broken up in individual copies in order to be sent out in DVD packs, see below, or sold on firm sale basis to wholesalers as back numbers at a lower price than new issues.

The Company also operates scheduled re-distribution of returned magazines, via national newsstand distributors, together with DVDs as Magazine/DVD packs as a way of increasing DVD distribution. Since the national newsstand distributors have the right to return, the DVD packs are returned and the magazines are broken out in order to be sold on firm sale basis to wholesalers as back numbers at a lower price than new issues. The Company has historically sold all copies printed at an average price higher than, or equal, to cost.

Revenues from the sale of DVD products under consignment agreements with distributors are recognized based upon reported sales by the Company's distributors. Revenues from the sale of subscriptions to the Company's internet website are deferred and recognized ratably over the subscription period. Revenues from licensing of broadcasting rights to the Company's video and film library are recognized upon delivery when the following conditions have been met (i) license period of the arrangement has begun and the customer can begin its exploitation, exhibition, or sale (ii) the arrangement fee is fixed or determinable and (iii) collection of the arrangement fee is reasonably assured.

Revenues from IPTV (Internet Protocol Television), satellite & cable broadcasting are recognized based on sales reported each month by its IPTV, cable and satellite affiliates. The affiliates do not report actual monthly sales for each of their systems to the Company until approximately 60-90 days after the month of service ends. This practice requires management to make monthly revenue estimates based on historical experience for each affiliated system. Revenue is subsequently adjusted to reflect the actual amount earned upon receipt. Adjustments made to adjust revenue from estimated to actual have historically been immaterial.

Revenues from mobile content sales (wireless) are recognized based on sales reported each month by mobile operators via aggregators. The aggregators do not report actual monthly sales for each of their operators to the Company until approximately 60-90 days after the month of service ends. This practice requires management to make monthly revenue estimates based on historical experience for each affiliated system. Revenue is subsequently adjusted to reflect the actual amount earned upon receipt. Adjustments made to adjust revenue from estimated to actual have historically been immaterial.

Accounts receivable

We are required to estimate the collectibility of our trade receivables and notes receivable. A considerable amount of judgment is required in assessing the ultimate realization of these receivables including the current credit-worthiness of each customer. Significant changes in required reserves have been recorded in the past and may occur in the future due to the current market environment.

Management reviews the allowance for doubtful accounts on at least a quarterly basis and adjusts the balance based on their estimate of the collectibility of specific accounts as well as a reserve for a portion of other accounts which have been outstanding for more than 180 days. This estimate is based on historical losses and information about specific customers. After collection attempts have failed, the Company writes off the specific account.

Goodwill and Other Intangible Assets

On January 1, 2002 the Company adopted Financial Accounting Standards Board Statement (SFAS) No. 142, Goodwill and Other Intangible Assets. Under SFAS 142, goodwill and indefinite lived intangible assets will no longer be amortized but will be reviewed annually for impairment (or more frequently if indicators of impairment arise).

During 2002, the Company performed an initial impairment test of goodwill and indefinite lived intangible assets as of January 1, 2002. This generally required us to assess these assets for recoverability when events or circumstances indicate a potential impairment by estimating the undiscounted cash flows to be generated from the use of these assets. There was no effect of on the earnings and financial position of the Company as a result of the impairment testing.

Other Intangible Assets represents the value attributable to certain acquisitions (see Note 7 to the consolidated financial statements). Amortization expense is calculated on a straight-line basis over 10 years.

Impairment of Long-Lived Assets

The Company periodically evaluates the carrying value of long-lived assets including its library of photographs and videos for potential impairment. Upon indication of impairment, the Company will record a loss on its long-lived assets if the undiscounted cash flows that are estimated to be generated by those assets are less than the related carrying value of the assets. An impairment loss is then measured as the amount by which the carrying value of the asset exceeds the estimated discounted future cash flows. Management's estimated future revenues are based upon assumptions about future demand and market conditions and additional write downs may be required if actual conditions are less favorable than those assumed.

Inventories

Inventories are valued at the lower of cost or market, with cost principally determined on an average basis. Inventories principally consist of DVD's, videocassettes and magazines held for sale or resale. The inventory is written down to the estimated

market value based upon assumptions about future demand and market conditions. If actual market conditions are less favorable than those projected by management, additional write-downs may be required by EUR 0.4 million.

Results of Operations

2007 compared to 2006

Net sales. Our net sales in 2007 were EUR 25.0 million compared to EUR 29.2 million in 2006, a decrease of EUR 4.2 million, or 14%. The decrease was the result of reduced DVD & Magazine and Broadcasting sales offset by increased Internet and Wireless sales. Net sales in general were affected by the weakening dollar.

DVD & Magazine sales decreased EUR 4.0 million, or 27%, to EUR 10.9 million. The reduction in DVD & Magazine sales was primarily attributable to an industry wide decrease in DVD sales (see discussion under Outlook below). Despite the weakening dollar, Internet sales increased EUR 0.1 million to EUR 4.4 million, which represents an increase of 3% compared to the same period last year. Broadcasting sales decreased EUR 1.0 million, or 12%, to EUR 7.1 million. The decrease was primarily the result of the discontinuing of low margin pay-per-view sales in the US and last year non-recurring Pay-TV license sales in Europe totaling EUR 2.3 million offset by EUR 1.3 million from new broadcasting business primarily in Europe. Wireless sales increased EUR 0.6 million, or 32%, to EUR 2.6 million as a result our content being available with more operators.

Going forward, we expect Internet, Broadcasting and Wireless sales to increase (see discussion under *Outlook* below).

Net sales in general were affected by changes in exchange rates. The annual average dollar exchange rate for the fiscal year 2007 compared to 2006 decreased 9% which reduced all our sales in dollar by the same percentage. Fluctuations in exchange rates between the euro and the dollar can affect the comparability of our results from year to year. We translate our consolidated subsidiaries whose functional currency is not the euro into the euro for reporting purposes. Income statement amounts are translated into euros using the average exchange rate for the fiscal year. The balance sheet is translated at the year-end exchange rate.

Cost of Sales. Our cost of sales was EUR 12.3 million for 2007 compared to EUR 14.1 million for 2006, a decrease of EUR 1.8 million, or 13%. Cost of sales as a percentage of sales was 49% for 2007, an increase of one percentage unit compared to 2006. We incur no cost of sales in dollars and subsequently we did not benefit from the weakening dollar in 2007 compared to 2006.

Included in cost of sales is printing, processing and duplication, amortization of library and Internet, broadcasting and wireless costs. Printing, processing and duplication cost was EUR 4.1 million for 2007 compared to EUR 5.6 million for 2006, a decrease of EUR 1.5 million, or 27%. The decrease was primarily the result of a decrease in sales of magazines and DVDs. Printing, processing and duplication cost as a percentage of DVD & Magazine sales was 37% for the 2007 compared to 38% for the same period last year. Amortization of library was EUR 6.8 million for 2007 compared to EUR 6.7 million for 2006, an increase of EUR 0.1 million, or 2%. Amortization of library does not vary with sales since it reflects the amortization of our investments in content which has been available for sale for a period of three to five years. The increase was the result of higher amounts invested in content released during the period subject to amortization in 2007 compared to 2006. Internet, broadcasting and wireless costs was EUR 1.4 million for 2007 compared to EUR 1.9 million for 2006, a decrease of EUR 0.5 million. Internet, Broadcasting and Wireless cost as a percentage of related sales was 10% for 2007 compared to 13% for the same period last year. The decrease was primarily related to reduced broadcasting transmission costs related to pay-per-view sales in the US.

Gross Profit. Our gross profit for 2007 was EUR 12.7 million, or 51% of net sales, compared to EUR 15.1 million, or 52% of net sales for 2006. This represented a decrease of EUR 2.4 million, or 16%, compared to 2006. Gross profit as a percentage of sales was down one percentage unit for 2007 compared to 2006. The decrease in gross profit of EUR 2.4 million was primarily the result of a EUR 2.5 million decrease in contribution to gross profit from DVD & Magazine sales offset by a EUR 0.2 million increase in

contribution to gross profit from Internet, Broadcasting and Wireless sales. Our gross profit was affected by the weakening dollar in 2007 by EUR 4.0 million compared to 2006.

Selling, general and administrative expenses. Our selling, general and administrative expenses were EUR 13.6 million for 2007 compared to EUR 14.0 million for 2006, a decrease of EUR 0.4 million, or 3%. We attribute the decrease in selling, general and administrative expenses to a reduction in payroll, general expenses and depreciation of EUR 0.6 million offset by an increase in bad debt provision of EUR 0.2 million.

Operating profit/loss. We reported operating loss of EUR 0.9 million for 2007 compared to an operating profit of EUR 1.0 million for 2006, a decrease of EUR 1.9 million. The decrease in operating profit was primarily the result of the decrease in gross profit offset by reduced selling, general and administrative expenses.

Interest expense. Our interest expense was EUR 0.3 million for 2007, compared to EUR 0.6 million for 2006. The decrease is the result of less average borrowings outstanding in 2007 compared to 2006.

Income tax benefit from continuing operations. Our income tax benefit was EUR 0.5 million for 2007, compared to 0.5 million for 2006.

Income/loss from continuing operations. Loss from continuing operations was EUR 0.4 million for 2007, compared to an income of EUR 1.1 million for 2006. We attribute the decrease in 2007 of EUR 1.5 million to decreased operating profit offset by reduced interest expense.

Loss from discontinued operations. Our loss from discontinued operations was EUR 0.9 million for 2006.

Income tax benefit from discontinued operations. Our income tax benefit from discontinued operations was EUR 0.3 million in 2006.

Net Income/loss. Our net loss was EUR 0.4 million for 2007, compared to a net income of EUR 0.5 million for 2006. We attribute the decrease in net income in 2007 of EUR 0.9 million primarily to decreased income from continuing operations offset by decreased loss from discontinued operations.

2006 compared to 2005

Net sales. Our net sales in 2006 were EUR 29.2 million compared to EUR 27.8 million in 2005, an increase of EUR 1.4 million, or 5%. The increase was attributed to an increase in Internet, broadcasting and wireless sales of EUR 5.7 million, or 65%, which was offset by a reduction in sales of magazines, DVDs and videocassettes of EUR 4.3 million, or 22%.

Broadcasting sales increased EUR 4.5 million, or 125%, to EUR 8.1 million as a result of a new Pay-TV licensing agreement for German speaking Europe and an increase in video on demand sales offset by a temporary decrease in channel licensing sales due to the switchover to new channel licensing partners. Wireless sales increased 96% to EUR 2.0 million as a result our content being available with more operators. Internet sales increased EUR 0.2 million, or 6%, to EUR 4.3 million as a result of improved conversion rates. DVD sales decreased EUR 2.5 million, or 17%, to EUR 12.6 million. The decrease in DVD sales was attributable to a reduction in points of sales carrying our DVD products and an industry wide decrease in DVD consumer prices. The reduction of points of sales occurred during the second half of 2005 as a result of the Company's decrease in releases of new movie productions. The industry wide drop in DVD consumer prices is partly the result of offline sales/rental competing with online sales/rental. Magazine sales decreased EUR 1.5 million, or 39% to EUR 2.3 million as a result of lower quantities sold through certain retail channels during the twelve month period. Videocassette sales decreased EUR 0.3 million to nothing.

Net sales in general were unaffected by changes in exchange rates. Fluctuations in exchange rates between the euro and the dollar can affect the comparability of our results from year to year. We translate our consolidated subsidiaries whose functional currency is not the euro into the euro for reporting purposes. Income statement amounts are translated into euros using the average exchange rate for the fiscal year. There was no change in average exchange rate for the fiscal year 2006 compared to 2005. The balance

sheet is translated at the year-end exchange rate. Due to the significance of the results reported in dollars the impact of the euro/dollar exchange rate on our major categories of revenue and expense can be material.

Cost of Sales. Our cost of sales was EUR 14.1 million for 2006 compared to EUR 14.6 million for 2005, a decrease of EUR 0.5 million, or 3%. Cost of sales as a percentage of sales was 48% for 2006, a decrease of 5% compared to 2005.

Included in cost of sales is printing, processing and duplication, amortization of library and broadcasting costs. Printing, processing and duplication cost was EUR 6.6 million for 2006 compared to EUR 7.6 million for 2005, a decrease of EUR 1.0 million, or 13%. The decrease was primarily the result of a decrease in sales of magazines and DVDs. Printing, processing and duplication cost as a percentage of sales was 22% for 2006, compared to 27% in 2005. Amortization of library was EUR 6.7 million for 2006 compared to EUR 6.4 million for 2005, an increase of EUR 0.3 million, or 5%. Amortization of library does not vary with sales since it reflects the amortization of our investments in content which has been available for sale for a period of three to five years. The increase was the result of higher amounts invested in content released during the period subject to amortization in 2006 compared to 2005. Broadcasting cost was EUR 0.9 million for 2006 compared to EUR 0.6 million for 2005, an increase of EUR 0.3 million. Broadcasting cost represents programming, transmission cost and sales commissions. The increase relates to higher sales commission recorded in the period.

Gross Profit. Our gross profit for 2006 was EUR 15.1 million, or 52% of net sales, compared to EUR 13.2 million, or 47% of net sales for 2005. This represented an increase of EUR 1.9 million, or 14%, compared to 2005. Gross profit as a percentage of sales was up 5% for 2006 compared to 2005. The increase in gross profit in both money and as a percentage of sales was primarily the result of the increase in sales of non-physical products carrying no printing, processing and duplication cost and the decrease in sales of physical products carrying printing, processing and duplication cost.

Selling, general and administrative expenses. Our selling, general and administrative expenses were EUR 14.0 million for 2006 compared to EUR 14.4 million for 2005, a decrease of EUR 0.4 million, or 3%. We attribute the decrease in selling, general and administrative expenses to a reduction in general expenses, depreciation and bad debt provision of EUR 0.5 million offset by an increase in payroll of EUR 0.1 million.

Gain on sale of building. We reported gain on sale of building of EUR 1.3 million for 2005.

Operating profit/loss. We reported operating profit of EUR 1.0 million for 2006 compared to an operating profit of EUR 0.0 million for 2005, an improvement of EUR 1.0 million. The increase in operating profit was primarily the result of an increase in gross profit offset by the absence of gain on sale of building we had in 2005. Discounting the non-recurring effect of gain on sale of building of EUR 1.3 million in 2005, operating profit improved by EUR 2.3 million in the period.

Interest expense. Our interest expense was EUR 0.6 million for 2006, compared to EUR 0.7 million for 2005. The decrease is the result of less average borrowings outstanding in 2006 compared to 2005 and we expect interest expense to continue to decrease in 2006 as our average borrowings outstanding are expected to be less in 2006.

Income tax benefit from continuing operations. Our income tax benefit was EUR 0.5 million for 2006, compared to 0.5 million for 2005.

Income from continuing operations. Our income from continuing operations was EUR 1.1 million for 2006, compared to EUR 0.1 million for 2005. We attribute this increase in 2006 of EUR 1.0 million primarily to increased operating profit.

Loss from discontinued operations. Our loss from discontinued operations was EUR 0.9 million for 2006, compared to EUR 0.0 million for 2005.

Income tax benefit from discontinued operations. Our income tax benefit from discontinued operations was EUR 0.3 million for 2006, compared to 0.0 million for 2005.

Net Income/loss. Our net income was EUR 0.5 million for 2006, compared to EUR 0.0 million for 2005. We attribute this increase in net income in 2006 of EUR 0.5 million primarily to increased income from continuing operations offset by loss from discontinued operations.

Liquidity and Capital Resources

We generate cash from our operating activities, borrowings from third parties, the exercise of warrants and private sales of our equity securities. Our principal uses of cash typically include building our library of photographs and movies. We reported a working capital surplus of EUR 19.6 million at December 31, 2007, a decrease of EUR 1.4 million compared to the year ended December 31, 2006. The decrease is attributable to an increase in current liabilities and a decrease in current assets. We reported a working capital surplus of EUR 21.1 million at December 31, 2006, an increase of EUR 1.0 million compared to the year ended December 31, 2005. The increase was principally attributable to a decrease in current liabilities.

Operating Activities

Net cash provided by our operating activities was EUR 7.6 million for 2007 compared to EUR 7.4 million for 2006, and was primarily the result of net loss, as adjusted for non-cash transactions, offset by uses of cash related to changes in operating assets and liabilities. We adjusted our net loss of EUR 0.4 million to reconcile it to net cash flows from operating activities. Adjustments included (1) depreciation of EUR 0.8 million, (2) bad debt provision of EUR 0.4 million, (3) amortization of other intangible assets of EUR 0.1 million and (4) amortization of photographs and videos of EUR 6.8 million which was offset by EUR 0.6 million from deferred income taxes, which resulted in an adjusted income of EUR 7.1 million. Changes in operating assets and liabilities added EUR 0.5 million net through inventories, accounts payable trade, accrued other liabilities and income taxes payable totaling EUR 1.5 million, offset by EUR 1.0 million from trade accounts receivable, related party receivable, prepaid expenses and other current assets. The increase in cash provided by operating activities for 2007 compared to 2006 is primarily the result of changes in operating assets and liabilities.

Net cash provided by our operating activities was EUR 7.4 million for 2006 compared to EUR 4.4 million for 2005, and was primarily the result of net income, as adjusted for non-cash transactions, offset by uses of cash related to changes in operating assets and liabilities. We adjusted our net income of EUR 0.5 million to reconcile it to net cash flows from operating activities. Adjustments included (1) depreciation of EUR 0.9 million, (2) convertible note adjustment of EUR 0.1 million, (3) bad debt provision of EUR 0.2 million, (4) amortization of goodwill and other intangible assets of EUR 0.1 million and (5) amortization of photographs and videos of EUR 6.7 million making a total of EUR 8.5 million which was offset by EUR 0.9 million from deferred income taxes, providing a net balance of EUR 7.6 million. Changes in operating assets and liabilities reduced the net balance by EUR 0.2 million through trade accounts receivable, related party receivable, accounts payable trade and accrued other liabilities totaling EUR 2.4 million, offset by EUR 2.1 million from inventories, prepaid expenses and other current assets and income taxes payable. The increase in cash provided by operating activities for 2006 compared to 2005 is the result of both net income and adjustments to reconcile net income to net cash flows from operating activities and changes in operating assets and liabilities.

Net cash provided by our operating activities was EUR 4.4 million for 2005 compared to EUR 8.3 million for 2004, and was primarily the result of net income, as adjusted for non-cash transactions, offset by uses of cash related to changes in operating assets and liabilities. We adjusted our net income of EUR 0 million to reconcile it to net cash flows from operating activities. Adjustments included (1) depreciation of EUR 1.1 million, (2) convertible note adjustment of EUR 0.2 million, (3) bad debt provision of EUR 0.2 million, (4) amortization of goodwill and other intangible assets of EUR 0.1 million and (5) amortization of photographs and videos of EUR 6.4 million making a total of EUR 7.9 million which was offset by EUR 1.3 million from gain on sale of building and EUR 0.5 million from deferred income taxes, providing a net balance of EUR 6.2 million. Changes in operating assets and liabilities reduced the net balance by EUR 2.7 million through trade accounts receivable, related party receivable, accounts payable trade, inventories and prepaid expenses and other current assets totaling EUR 2.9 million, offset by EUR 0.8 million from income taxes payable and accrued other liabilities. The decrease in cash provided by operating activities for 2005 compared to 2004 is primarily the result of both net income and adjustments to reconcile net income to net cash flows from operating activities and changes in operating assets and liabilities.

Investing Activities

Net cash used in investing activities for the fiscal year ended December 31, 2007 was EUR 8.5 million. The investing activities were investment in library of photographs and videos of EUR 7.1 million, which were carried out in order to maintain the 2007 and 2008 release schedules for magazines, DVDs and broadcasting. In addition to investment in library of photographs and videos, EUR 1.4 million was invested in capital expenditures. The increase over the comparable twelve-month 2006 period is principally due to increased investment in the library and the absence of cash flows from note receivable and cash received from sale of building in 2006.

Net cash used in investing activities for the fiscal year ended December 31, 2006 was EUR 7.1 million. The investing activities were investment in library of photographs and videos of EUR 6.5 million, which were carried out in order to maintain the 2006 and 2007 release schedules for magazines, DVDs and broadcasting. In addition to investment in library of photographs and videos, EUR 1.4 million was invested in capital expenditures. The total cash used in investing activities was offset by EUR 0.2 million from sale of part of the building and 0.6 million from note receivable. The increase over the comparable twelve-month 2005 period is principally due to the lower cash flows from sale of building in 2006.

Net cash used in investing activities for the fiscal year ended December 31, 2005 was EUR 1.0 million. The investing activities were investment in library of photographs and videos of EUR 8.3 million, which were carried out in order to maintain the 2005 and 2006 release schedules for magazines, DVDs and broadcasting. In addition to investment in library of photographs and videos, EUR 0.3 million was invested in capital expenditures. The total cash used in investing activities was offset by EUR 6.9 million from sale of part of the building and 0.8 million from note receivable. The decrease over the comparable twelve-month 2004 period is principally due to sale of building, offset by a 69% increase in investment in library of photographs and videos in order to return to the optimum level of approx. eight new movie releases per month.

Financing Activities

Net cash provided by financing activities for the fiscal year ended December 31, 2007 was EUR 0.4 million, represented primarily by additions to short-term borrowings of EUR 1.2 million as a result of increased bank line of credits offset by EUR 0.8 million in repayments on short and long-term borrowings. The main movements during the twelve-month period ended December 31, 2007 are described as follows: (1) The balance of EUR 0.5 million on the EUR 1.65 million loan from an institutional lender was reduced by EUR 0.4 million and as of December 31, 2007 the remaining balance on the loan was EUR 0.1 million. (2) The \$4.0 million 7% Note held by Consipio Holding b.v. was reduced by EUR 0.4 million. As of December 31, 2007 the remaining balance on the Note was EUR 1.65 million. (3) The outstanding borrowings on our credit lines were increased by EUR 1.2 million and as of December 31, 2007 the outstanding balance was EUR 2.6 million.

Net cash used in financing activities for the fiscal year ended December 31, 2006 was EUR 0.9 million, represented primarily by EUR 1.0 million in repayments on short and long-term borrowings offset by EUR 0.1 million in cash provided by conversion of stock options. The main movements during the twelve-month period ended December 31, 2006 are described as follows: (1) The balance of EUR 1.0 million on the EUR 1.65 million loan from an institutional lender was reduced by EUR 0.4 million and as of December 31, 2006 the remaining balance on the loan was EUR 0.5 million. (2) The \$4.0 million Note held by Consipio Holding b.v. was reduced by EUR 0.4 million. As of December 31, 2006 the remaining balance on the Note was EUR 2.1 million. (3) The balance of EUR 0.1 million on the EUR 4.2 million loan from an institutional lender was reduced by EUR 0.1 million in connection with the sale of the building and as of December 31, 2006 the loan was repaid in its entirety. (4) The outstanding borrowings on our credit lines was reduced by EUR 0.1 million and as of December 31, 2006 the outstanding balance was EUR 1.35 million.

Net cash used in financing activities for the fiscal year ended December 31, 2005 was EUR 2.9 million, represented primarily by EUR 3.4 million in repayments on long-term borrowings offset by EUR 0.4 million in cash provided by short-term borrowings. The main movements during the twelve-month period ended December 31, 2005 are described as follows: (1) The \$3.0 million loan from Beate Uhse AG was reduced by EUR 0.7 million, inclusive of exchange rate changes. As of December 31, 2005 loan was repaid in its entirety. (2) The balance of EUR 2.3 million on the EUR 4.2 million loan from an institutional lender was reduced by EUR 2.2 million in connection with the sale of the building and as of December 31, 2005 the remaining balance on the loan was EUR 0.1 million. (3) The balance of EUR 1.4 million on the EUR 1.65 million loan from an institutional lender was reduced by EUR 0.4 million and as of December 31, 2005 the remaining balance on the loan was EUR 1.0 million.

Non-Cash Transactions

During 2006 the convertible note holders converted the remaining principal of \$1,325,000 on the \$2.25 million Convertible Note. As of December 31, 2006, the Convertible Note was repaid in its entirety.

The Company had a note payable to an entity controlled by the Company's principal shareholder. The amount payable at December 31, 2004 was EUR 0.7 million as a result of a claim made in connection with the building in 2005 the amount was netted off the claim and as of December 31, 2005 the loan was repaid in its entirety.

In December 2005 a holder of a convertible note converted \$0.6 million (EUR 0.5 million) of principal into common stock. As of December 31, 2005, the amount recorded under current portion of long term borrowings, after charging debt discount of EUR 0.6 million to additional paid in capital in 2003, was EUR 1.0 million.

Contractual obligations

The table below describes the Company's future contractual obligations, including items not included in the consolidated balance sheet, as of December 31, 2007:

	Amounts due in				Total EUR
	Less than one year EUR	One to three years EUR	Three to five years EUR	More than five years EUR

	2,756	1,256	1,106		5,118

⁽¹⁾ Interest included. Debt with variable interest rate linked to EURIBOR has been calculated at the current rate. Does not include credit lines of EUR 2,550 thousand.

⁽²⁾ Includes rent for the Company's offices and warehouses.

⁽³⁾ Amounts included in Note 14 in the financial statements.

Description of debt:

Banks

In May 2003 Euro 1.65 million of a related party note payable was re-financed by an institutional lender at the same interest rate as on the note payable, EURIBOR + 1%. The loan is repayable in equal monthly installments over a four year period starting June 29, 2004. The loan is guaranteed by the Company's principal shareholder and affiliates of the Company's principal shareholder. The balance outstanding on the loan as of December 31, 2007 was EUR 0.1 million.

Non-institutional debt

In December 2001 the group's holding company, Private Media Group, Inc., borrowed \$ 4.0 million from Commerzbank AG pursuant to a Note originally due on December 20, 2002. The Note bore interest at an annual rate of 7%, payable quarterly, with the entire principal amount and accrued interest originally due on December 20, 2002. The Note is guaranteed by Slingsby Enterprises Limited, an affiliate of Berth Milton, Private's Chairman, Chief Executive Officer and principal shareholder, and the guaranty is secured by 4,950,000 shares of Private Media Group, Inc. Common Stock. In December 2002 Commerzbank AG agreed to extend the maturity date of the Note to March 20, 2003. In April 2003 the Note was acquired by Consipio Holding b.v. from Commerzbank AG, and Consipio and Private reached an agreement-in-principle with Consipio to extend the maturity of the Note for five years, until April 2008, with interest on the Note being increased to 9.9% per annum. However, Consipio and Private were unable to reach final agreement on other terms and conditions relating to the restructured Note. Accordingly, in December 2003 Consipio notified Private and Slingsby Enterprises that Private was in default under the Note, and demanded \$3.4 million as payment in full of all outstanding principal and interest under the Note. The Company continued to make regular payments on the Note, including accrued interest, but remained unable to reach agreement on the restructuring of the Note. Private believes that it has valid claims and defenses against Consipio and its affiliates which may ultimately reduce all or a portion of its obligations relating to the Note. However, there are no assurances that either Private will be able to reach agreement with Consipio or that Private will ultimately prevail on its claims and defenses. In any event, the Company does not believe that the Note obligations will have a material adverse effect on the Company, as the Note is fully collateralized by 4,950,000 shares of Private Media Group, Inc. Common Stock pursuant to the guaranty agreement from Slingsby Enterprises Limited. As of December 31, 2007, the outstanding principal balance of the Note was \$2.4 million (EUR 1.65 million).

Outlook

Going forward, we expect significant growth on our new media platforms, Internet, broadcasting and wireless. During the 2007, our new media platforms became responsible for fifty-seven percent of our revenues. Below follows a discussion highlighting some of the important factors of our business going forward:

Broadcasting

While European broadband users are signing up for IPTV services in the hundreds of thousands each month, making Europe the biggest and fastest growing IPTV region in the world¹⁰, we have successfully implemented part of our new media strategy and contracted for supplying content for TVOD¹¹ services to a total of 24 major platform operators in 11 countries in the region. During 2007 the European IPTV market grew by 60% to 6.4 million IPTV subscribers and by the end of the year we had gained 70% coverage with 4.5 million subscribers.

It is important to note that part of our content has only been launched recently on some of these new IPTV platforms and subsequently we have not seen any impact on our bottom line from this high-margin business yet. However, during 2008 we are launching and building up shelf-space on all platforms and by the end of the second quarter 2008 we will have full exposure of our content on these fast growing IPTV platforms. By the end of 2008 and 2009, we expect to have our content available to 7.9 million and 12.0 million European IPTV subscribers, respectively.

¹⁰ According to Global IPTV Forecasts made by MRG (Multimedia Research Group, Inc.), the number of global IPTV subscribers is estimated to grow from 13.5 million in 2007 to 72.6 million in 2011, a compound annual growth rate of 52 percent. Europe continues to be the biggest market for IPTV, with France significantly leading the growth projections through its principal telcos. The number of IPTV subscribers in Europe is forecasted to grow from approximately 6.4 million in 2007 to 30.4 million in 2011, a compound annual growth rate of 48 percent.

¹¹ True Video On Demand - (TVOD) - TVOD is the ideal VOD service where individual users get immediate responses when interacting with the VOD system. With TVOD, the user can not only get instant access to the program online and watch it on TV, but also be able to do any VCR or DVD-like commands on the VOD system with the same quick response time as it is when working a VCR or DVD.

Furthermore, in order to increase growth and profitability in our other types of broadcasting, we have restructured our trademark and content licensing business with respect to the operation and distribution of Private branded TV channels carrying our content in Europe and Latin America. The restructuring included finding new partners in these markets and subsequently we entered into agreements with Playboy TV Latin America and Playboy TV International. During the 2007, both partners have expanded their reach for the Private branded TV channels. In particular we have seen significant growth in sales in Europe with the PrivateSpice TV channel. In addition, we recently partnered with New Frontier Media for the exclusive distribution of Private branded content to the U.S. broadcast market including video-on-demand, pay-per-view, IPTV and television. New Frontier Media's services reach over 139 million network homes and recently our content became available on the first video-on-demand platform in the US to more than six million subscribers via one of the biggest operators. Going forward, we expects additional video-on-demand platforms in the US to follow.

Wireless Adult Mobile Content

With respect to mobile content, we believe this market is still in its infancy. During 2007 the distribution of Private content increased by 67% and by the end of the year it was available to 906 million handsets in 36 countries via 86 operators. The markets of Asia and the Americas are still underexploited by us and therefore represent a significant growth potential. Furthermore, Mobile TV, increased penetration of 3G handsets and the implementation of age verification systems offer additional significant growth potential with both current and future operators in 2008 and beyond¹².

In addition, during 2007 we entered into an exclusive global partnership with Mobile Streams to distribute our premium adult content through their platform for off-portal mobile services. Mobile Streams is a premier global mobile music and media provider and through this partnership we are entering a new dimension of mobile content delivery. We believe the user behavior for mobile content will migrate from on-portal to off-portal and that this new business will be the principal revenue generator going forward.

Internet

Traffic to our sites increased by 85% to 20 million unique visits in 2007 compared to 2006. This was primarily the result of the re-launch of the affiliate program PrivateCash. The affiliate program is now our biggest source of traffic. In the beginning of 2008, the Company is launching a large number of niche sites focusing on specific genres and top stars with the key objective to offer customers content matching their specific desires. In addition to catering to a wider clientele and creating more shelf-space on the web, this will grow the affiliate program as webmasters will have more tools at their disposal to drive traffic. Finally, it will enable the Company to take advantage of additional up-selling and cross-selling opportunities.

DVDs & Magazines

As we are moving further into a world of global digital content delivery, DVD pricing and volume is being affected considerably and as a result the industry in general is experiencing a severe downturn in DVD sales. In view of the aforementioned, during 2007 we started a reorganization of our distribution of DVDs and Magazines. Through this reorganization, we expect to maximize existing sales and over time reduce the revenue impact of this on our overall business.

Liquidity

We expect that our available cash resources and cash generated from operations and the sale of real estate will be sufficient to meet our presently anticipated working capital and capital expenditure requirements for at least the next 12 months. However, we may need to raise additional funds to support more rapid expansion or respond to unanticipated requirements.

¹² Juniper Research estimates in its white paper *Adult Content in the Palm of Your Hand (November 2007)* that the global mobile adult content market will increase from US\$1.7 billion in 2007 to just over US\$4.6 billion by 2012.

If additional funds are raised through the issuance of equity securities, our shareholders' percentage ownership will be reduced, they may experience additional dilution, or these newly issued equity securities may have rights, preferences, or privileges senior to those of our current shareholders. Additional financing may not be available when needed on terms favorable to us, or at all. If adequate funds are not available or are not available on acceptable terms, we may be unable to develop or enhance our products and services, take advantage of future opportunities or respond to competitive pressures or unanticipated requirements, which could harm our business.

ITEM 7A. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

We do not use derivative financial instruments for trading purposes and were never a party to any derivative, swap or option contracts. We do not hedge our interest rate or foreign currency exchange rate exposures.

As our cash and cash equivalent and short-term investments consist principally of money market securities and investments in short-term debt or equity securities and our borrowings are primarily at fixed rates of interest our market risk related to fluctuations in interest rates is limited. Accordingly, a one percentage change in market interest rates would not have a material impact on our results of operations.

We transact our business in various currencies, principally the euro and the U.S dollar and certain other European Union currencies. We generally attempt to limit exposure to currency rate fluctuations by matching transaction currencies (revenues/expenses) to the functional currency of its operating subsidiaries. Our exposure to market risk for fluctuations in foreign currency exchange rates relates primarily to fluctuations in the euro versus the U.S dollar. We translate our consolidated subsidiaries whose functional currency is not the euro into the euro for reporting purposes. Income statement amounts are translated into euros using the average exchange rate for the fiscal year. The balance sheet is translated at the year-end exchange rate. Due to the significance of the results reported in dollars the impact of the euro/dollar exchange rate on our major categories of revenue and expense can be material.

ITEM 8. FINANCIAL STATEMENTS AND SUPPLEMENTARY DATA

Our audited consolidated financial statements and related notes appear at the end of this Report.

ITEM 9. CHANGES IN AND DISAGREEMENTS WITH ACCOUNTANTS ON ACCOUNTING AND FINANCIAL DISCLOSURE

Not applicable.

ITEM 9A. CONTROLS AND PROCEDURES

Evaluation of Disclosure Controls and Procedures

The Company maintains disclosure controls and procedures designed to ensure that information required to be disclosed in reports filed under the Securities Exchange Act of 1934, as amended, is recorded, processed, summarized and reported within the specified time periods. As of the end of the period covered by this report, the Company's management evaluated, with the participation of the Company's Chief Executive Officer and Chief Financial Officer, the effectiveness of the Company's disclosure controls and procedures. Based on the evaluation, the Company's Chief Executive Officer and Chief Financial Officer concluded that the Company's disclosure controls and procedures were effective as of December 31, 2007.

Changes in Internal Control Over Financial Reporting

There were no changes in the Company's internal control over financial reporting that occurred during the Company's fiscal quarter ended December 31, 2007 that have materially affected, or are reasonably likely to materially affect, the Company's internal control over financial reporting.

Inherent Limitations on Effectiveness of Controls

The Company does not expect that its disclosure controls and procedures on its internal control over financial reporting will prevent all error and all fraud. A control procedure, no matter how well conceived and operated, can provide only reasonable not absolute, assurance that the objectives of the control procedure are met. Because of the inherent limitations in all control procedures, no evaluation of controls can provide absolute assurance that all control issues and instances of fraud, if any, within the Company have been detected. These inherent limitations include the realities that judgments in decision-making can be faulty, and that breakdowns can occur because of simple error or mistake. Additionally, controls can be circumvented by the individual acts of some persons, by collusion of two or more people, or by management override of the control. The design of any control procedure also is based in part upon certain assumptions about the likelihood of future events, and there can be no assurance that any design will succeed in achieving its stated goals under all potential future conditions; over time, controls may become inadequate because of changes in conditions, or the degree of compliance with the policies or procedures may deteriorate. Because of the inherent limitations in a cost-effective control procedure, misstatements due to error or fraud may occur and not be detected.

Management's Annual Report on Internal Control Over Financial Reporting

The Company's management is responsible for establishing and maintaining adequate internal control over financial reporting as defined in Rule 13a-15(f) of the Securities Exchange Act of 1934. The Company's internal control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with United States generally accepted accounting principles. Internal control over financial reporting includes policies and procedures that (i) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the Company; (ii) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with United States generally accepted accounting principles, and that receipts and expenditures of the Company are being made only in accordance with authorizations of management and directors of the Company; and (iii) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisitions, use or disposition of the Company's assets that could have a material effect on the financial statements.

Management assessed the effectiveness of the Company's internal control over financial reporting as of December 31, 2007. In making this assessment, management used the criteria set forth by the Committee of Sponsoring Organizations of the Treadway Commission (COSO) in Internal Control-Integrated Framework . Based on this assessment, and on those criteria, management concluded that the Company's internal control over financial reporting was effective as of December 31, 2007.

BDO Audiberia Auditores, our independent registered public accounting firm, have issued an attestation report on the effectiveness of the Company's internal control over financial reporting as of December 31, 2007, which appears herein.

Report of Independent Registered Public Accounting Firm

Board of Directors and Shareholders

Private Media Group, Inc.

We have audited Private Media Group, Inc.'s internal control over financial reporting as of December 31, 2007, based on criteria established in Internal Control – Integrated Framework issued by the Committee of Sponsoring Organizations of the Treadway Commission (the COSO criteria). Private Media Group, Inc.'s management is responsible for maintaining effective internal control over financial reporting and for its assessment of the effectiveness of internal control over financial reporting, included in the accompanying Item 9A, CONTROLS AND PROCEDURES Management's Annual Report on Internal Control Over Financial Reporting. Our responsibility is to express an opinion on the company's internal control over financial reporting based on our audit.

We conducted our audit in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether effective internal control over financial reporting was maintained in all material respects. Our audit included obtaining an understanding of internal control over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. Our audit also included performing such other procedures as we considered necessary in the circumstances. We believe that our audit provides a reasonable basis for our opinion.

A company's internal control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Because of its inherent limitations, internal control over financial reporting may not prevent or detect misstatements. Also, projections of any evaluation of effectiveness to future periods are subject to the risk that controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

In our opinion, Private Media Group, Inc. maintained, in all material respects, effective internal control over financial reporting as of December 31, 2007, based on the COSO criteria.

We also have audited, in accordance with the standards of the Public Company Accounting Oversight Board (United States), the consolidated balance sheets of Private Media Group, Inc. as of December 31, 2007 and 2006, and the related consolidated statements of income and comprehensive income, shareholders' equity, and cash flows for each of the three years in the period ended December 31, 2007, and the schedule listed in the accompanying index, and our report dated March 13, 2008 expressed an unqualified opinion thereon.

In February 1999 Mr. Milton was appointed Chairman of the Board and Chief Executive Officer of Private, and served as Chief Executive Officer until May 2002. In November 2003 Mr. Milton was reappointed President and Chief Executive Officer of the Company. Mr. Milton was Administrator of Milcap Media Group from its inception until June 2000 and has been acting as an advisor to the Milcap Group since 1991. Mr. Milton is also active in several international industry and real estate projects and developments.

Bo Rodebrant was appointed as a Director of Private Media Group, Inc. in August 1998. Mr. Rodebrant has operated his own accountancy and management consulting services, R&S Ekonomiservice, since 1986. Prior to that time he co-founded an ice cream business, Hemglass, which was the largest of its kind in Stockholm, Sweden. The business was sold by Mr. Rodebrant in 1986. Mr. Rodebrant holds a degree in construction engineering which he received in 1974.

Lluís Torralba was appointed to the Board of Directors in June 2005. Mr. Torralba is a founding partner of Meriden IPM, an international portfolio management company, where he currently is managing private clients. From 1997 to 2004 he was responsible for the company's IT systems. Prior to 1997, he worked as an IT manager in Andorra. Mr. Torralba holds a Degree in Information Technology from Escola D informàtica d Andorra.

Johan G. Carlberg was appointed to the Board of Directors in October 2004. Mr. Carlberg has operated his own import, trading and consulting business in the textile and fashion industry since the seventies. Mr. Carlberg holds a Degree in Business from the Stockholm Institute of Business.

Daniel Sánchez was appointed to the Board of Directors in October 2004. Since January 2004, Mr. Sanchez has been promoting, as a founding partner, the launching of a new private venture capital firm. Prior to entering the venture capital field, he held the position as Deputy Managing Director at Electrodomésticos Taurus, a consumer electronics company, from 2002 to 2004. Between 1995 and 2002 he worked as a Manager in the field of mergers and acquisitions at Alpha Corporate, a well known international consultancy firm. Mr. Sanchez holds a Master's Degree in Business Administration from the University of Chicago.

Peter T. Cohen was appointed Chief Operating Officer of Private Media Group in November 2006. From 2003 to 2006 he was a Managing Partner of MPP Ventures LLC, a consultancy firm providing services to major entertainment companies with respect to strategies for digital content production and distribution on multi-media platforms. From 2001 to 2002 he served as Senior Executive Vice President of Media and Entertainment for BillboardLive. From 1997 to 2001 he held the position as Senior Vice President of Programming for The Box Music Network, a state of the art interactive music video channel distributed throughout the US and select international territories. Prior to this, Mr. Cohen held several senior executive positions at various other media/entertainment companies including HBO, CNN International, MuchMusic and ACTV Inc. Mr. Cohen has a Bachelor's degree in Human Ecology from The College of the Atlantic, Bar Harbor, Maine, USA.

Javier Sánchez was appointed Executive Vice President, Production and Operations of Milcap Media Group in November 2006. From August 1998 to November 2006, he held the position as Chief Operating Officer of Private Media Group, Inc. He has also been the General Manager of Milcap Media Group between 1991 and 1997 and has been a member of the Board of Milcap Media Group and Private France S.A. He has been a member of the Board of Milcap Publishing Group AB since its incorporation in 1994 until 1997. From 1988 to 1991 he was the Operations Director of a mid-size printing company near Barcelona. From 1984 to 1987 he was the Production Manager of a major printing company in Barcelona.

Johan Gillborg was appointed as Chief Financial Officer of Private Media Group, Inc. in August 1998 and has been the Chairman and Managing Director of Milcap Publishing Group AB from 1994 until January 2000. Mr. Gillborg joined the group in 1992 as Marketing Consultant. From 1991 to 1992 he operated his own business which acted as sub-contracting sales force for Securitas Direct of Sweden (together with Mr. Kull). From 1988 to 1990, Mr. Gillborg served as a general manager in the hotel business in the United Kingdom and Portugal. Mr. Gillborg holds a Bachelor's Degree in Business Administration from Schiller International University in London.

Philip Christmas was appointed Chief Financial Officer of Milcap Media Group SL, in August 2001. Prior to this time Mr. Christmas was employed by PricewaterhouseCoopers and its predecessor firm, Coopers & Lybrand, since 1988. While employed by PricewaterhouseCoopers he was responsible for carrying out audits of multinational and local companies and, more recently, he has provided transaction services to clients acquiring businesses in Spain. Mr. Christmas is a member of the Institute of Chartered Accountants of England and Wales and of ROAC (Official Register of Auditors) in Spain.

Certain Relationships

No director or executive officer serves pursuant to any arrangement or understanding between him or her and any other person. There are no family relationships between any of our directors or executive officers.

Audit Committee

We maintain an Audit Committee in accordance with applicable SEC and Nasdaq rules. The Audit Committee is currently comprised of Lluís Torralba, Johan Carlberg and Daniel Sánchez. All of the members of the Audit Committee are independent as defined in applicable Nasdaq listing requirements and SEC regulations, and each of them is able to read and understand fundamental financial statements. The Board has determined that Daniel Sánchez is an audit committee financial expert as defined under applicable SEC regulations. The Audit Committee reviews and recommends to the Board, as it deems necessary, the internal accounting and financial controls for the Company and the accounting principles and auditing practices and procedures to be

employed in preparation and review of financial statements of the Company. The Audit Committee makes recommendations to the Board concerning the engagement of independent public accountants and the scope of the audit to be undertaken by such accountants. The Audit Committee has adopted a written Audit Committee Charter.

Code of Ethics

We have adopted a code of ethics that applies to our principal executive officer, principal financial officer, principal accounting officer and persons performing similar functions. Our code of ethics is filed as Exhibit 14.1 to this Annual Report on Form 10-K. We intend to satisfy the disclosure requirements under Item 10 of Form 8-K, regarding an amendment to or waiver from our code of ethics, by posting the required information on our corporate Internet website at www.prvt.com or as otherwise permitted under applicable law.

Section 16(a) Beneficial Ownership Reporting Compliance

Based solely upon a review of Forms 3, 4 and 5 furnished to Private covering its 2007 fiscal year filed under Section 16(a) of the Securities Exchange Act of 1934, each of Private's officers and directors complied with the reporting requirements under Section 16(a) for the 2007 fiscal year, except for Sánchez, Torralba and Carlberg, who did not file Form 4 to report options granted to each of them by Private in 2007.

ITEM 11. EXECUTIVE COMPENSATION COMPENSATION DISCUSSION AND ANALYSIS

Executive Compensation Policy and Objectives

Our policy in compensating executive officers, including the executive officers named in the Summary Compensation Table appearing below (the named executive officers), is to establish methods and levels of compensation that will

attract and retain highly qualified personnel

provide meaningful incentives to promote profitability and growth and reward superior performance.

To achieve these policies Private follows the basic principles that annual compensation should be competitive with similar companies and long term compensation should generally be linked to Private's return to shareholders. Private also believes that compensation for individual executives should be aligned to the performance of areas of the business over which the executive has the most control.

Executive compensation policies are implemented through a combination of annual and long-term methods of compensation. Compensation for the named executive officers includes

base salary,

eligibility to receive annual cash bonuses, and

stock-based compensation in the form of stock options under the employee stock option plan.

These primary components are available for flexible use by Private in a manner that will effectively implement our stated objectives with respect to compensation arrangements for each of the executive officers. Each of these components is discussed in more detail below. When setting the compensation arrangements for each executive officer, the Compensation Committee considers these components individually, as well as on an aggregate (total compensation) basis. There is no pre-determined relationship between base salary of our executives and any of the other principal components of compensation. Each element of compensation is considered both individually and in terms of total overall compensation.

Primary Components of Executive Compensation.

Base Salary

The base salaries of our executive officers are set by the Compensation Committee (and in the case of the CEO, ratified by the independent directors) after consideration of a number of factors, including the executive's position, level of responsibility, tenure and performance. The Compensation Committee also considers the compensation levels of executives in comparable companies, along with the executive compensation recommendations made by our chief executive officer. In addition, the Compensation Committee evaluates whether the base salary levels of our executives are appropriate relative to our size and financial performance compared with the other companies reviewed. Relying primarily on these factors, the Compensation Committee sets the base salaries of our executive officers at levels designed to meet its objective of attracting and retaining highly qualified individuals. The Compensation Committee also believes that the continuity of leadership derived from the retention of well qualified executive officers is in the best interests of our shareholders. The base salaries of our executive officers are not set at any specific level as compared to the compensation levels of companies reviewed and the Compensation Committee does not assign relative weights or importance to any specific measure of the company's financial performance. During 2006 and 2007 base salary accounted for all the named executive officers' direct cash compensation.

Effective September 2007 we increased Mr. Cohen's base compensation from USD \$200,000 to EUR 200,000 per year, effectively resulting in an increase in Mr. Cohen's base compensation based upon current exchange rates. The increase was intended to reflect both the decrease in the value of the dollar against the euro and to adjust his compensation to reflect market conditions. There were modest increases in base compensation to other named executive officers to reflect increased cost of living.

Annual Cash Incentive Payment

The Compensation Committee considers the use of annual performance bonuses from time to time where appropriate, to motivate participants to achieve company growth and enhance shareholder value. The incentive bonus plan permits plan participants to receive a cash bonus that is tied to the company's financial performance during a specified fiscal year. We do not presently have in effect an annual cash bonus plan in effect with respect to any of the named executive officers other than for our Chief Operating Officer, Peter Cohen. Under the terms of his employment agreement, Mr. Cohen is eligible to receive an annual performance bonus, upon the achievement of specified goals in each fiscal year, commencing in 2007, based upon the amount of increase in annual operating income after 2006. The agreement provides for an annual bonus of between EUR 20,000 - 100,000, depending upon the amount of increase in operating income in the applicable fiscal year. No bonus was paid or accrued for 2007, as the financial targets were not achieved. Information regarding this bonus plan is contained elsewhere in this Item 11 under the heading Employment Contracts, Termination of Employment Contracts and Change in Control Arrangements.

Long-Term Equity Based Compensation Awards

To date we have relied upon cash flow from operations as our principal source of working capital. As a result, we have placed special emphasis on equity-based compensation, in the form of options, to preserve our cash for operations. Long-term equity based compensation awards are granted to our executive officers pursuant to our employee stock option plan. The Compensation Committee believes that long-term equity based compensation awards are an effective incentive for senior management to increase the long-term value of the company's common stock as well as aiding the company in attracting and retaining senior management. These objectives are accomplished by making awards under the plan, thereby providing senior management with a proprietary interest in the continued growth and performance of the company and more closely aligning their interests with those of our shareholders. In addition, because options generally terminate within 90 days after the date an executive leaves the company (other than because of disability or retirement at age 65 or older), we believe that options are a useful incentive in promoting the retention of executives.

All determinations regarding the granting of options, including the amount, exercise price and terms of vesting, are made by the Compensation Committee after seeking input from management, subject to the approval of the full Board of Directors acting as the option committee under the employee stock option plan. The Compensation Committee makes long-term equity based compensation awards after a review of a number of factors, including length of service, the performance of the company, the relative levels of responsibility of the executive and his or her contributions to the business, including recommendations of supervisors, and prior option grants received by the executive. Awards may be granted to the same executive on more than one occasion.

Stock option grants may be subject to a vesting period based upon continued employment during the option term or may fully vest upon grant. The Compensation Committee may make grants at any particular time during the year, and the full board of directors approves such grants. The exercise price of the options must be at least equal to the fair market value of such shares on the date the stock option is granted or such later date as the option committee specifies.

No options were granted to any of the named executive officers in 2006 or 2007, as their current levels of overall compensation were considered adequate.

Other Benefits

We provide all eligible employees, including executive officers, with certain benefits, including paid time off and paid holiday programs. We do not presently maintain any deferred compensation or retirement plans.

Employment Agreements. We do not have long-term employment agreements with our executive officers.

Severance Agreements. We generally do not enter into severance agreements or similar agreements providing for payments upon termination of employment or change-in-control. Such agreements, when entered into, are negotiated on a case-by-case basis. Other than our agreement with Peter Cohen providing for up to three months of severance benefits, we have not entered into any severance agreements or termination agreements with any of the named executive officers. Information regarding our agreement with Mr. Cohen is contained elsewhere in this Item 11 under the heading Employment Contracts, Termination of Employment Contracts and Change in Control Arrangements.

COMPENSATION COMMITTEE REPORT

The Compensation Committee has reviewed and discussed with management the Compensation Discussion and Analysis section included in this annual report. Based on this review and discussion, the Compensation Committee recommended to the board of directors that the Compensation Discussion and Analysis section be included in this annual report.

The Compensation Committee:

Berth H. Milton

The following table summarizes all compensation paid to (i) our Chief Executive Officer and Chief Financial Officer serving during 2007, and (ii) our other most highly compensated executive officers who were serving in such capacity at the end of 2007, other than the Chief Executive Officer and Chief Financial Officer, whose total compensation exceeded \$100,000 in 2007, for services rendered in all capacities to Private Media Group for the two fiscal years ended December 31, 2006, and December 31, 2007. No other executive officer earned compensation in excess of \$100,000 in 2007.

Option Exercises and Stock Vesting During 2007

No stock options were exercised during 2007 by the individuals named in the Summary Compensation Table. No stock awards were issued or outstanding during fiscal 2007.

Employment Contracts, Termination of Employment Contracts and Change in Control Arrangements

We generally do not enter into long-term employment agreements with our executive officers. We generally do not enter into severance agreements or similar agreements providing for payments upon termination of employment or change-in-control. Such agreements, when entered into, are negotiated on a case-by-case basis. We have not entered into any severance agreements or termination agreements with any of the named executive officers other than with Peter Cohen, pursuant to an agreement negotiated with him in connection with his commencement of employment in 2006.

Effective November 2006, we entered into an employment agreement with Peter Cohen in connection with his employment by Private as its Chief Operating Officer. Mr. Cohen's employment is terminable upon not more than 30 days notice. We agreed to pay him a salary of \$200,000 per annum plus certain relocation costs of up to EUR 24,000. Effective September 2007 his base salary of \$200,000 per annum was increased to EUR 200,000 per annum. Mr. Cohen is also eligible to receive an annual performance bonus, upon the achievement of specified goals in each fiscal year, commencing in 2007, based upon the amount of increase in annual operating income after 2006. The agreement provides for an annual bonus of between EUR 20,000 – 100,000, depending upon the amount of increase in operating income in the applicable fiscal year. No bonus was paid or accrued for 2007, as the financial targets were not achieved. If Mr. Cohen is terminated by Private other than for cause, he is entitled to a severance payment equal to one month of salary if terminated prior to October 30, 2007, and three months of salary if terminated at any time thereafter.

Director Compensation During 2007

The following table summarizes all compensation paid to our non-employee directors during 2007.

- (1) Beneficial ownership is determined in accordance with rules of the U.S. Securities and Exchange Commission. The calculation of the percentage of beneficial ownership is based upon 53,580,494 shares of common stock outstanding on March 7, 2008. In computing the number of shares beneficially owned by any shareholder and the percentage ownership of such shareholder, shares of common stock which may be acquired by a such shareholder upon exercise or conversion of warrants or options which are currently exercisable or exercisable within 60 days of March 7, 2008, are deemed to be exercised and outstanding. Such shares, however, are not deemed outstanding for computing the beneficial ownership percentage of any other person. Except as indicated by footnote, to our knowledge, the persons named in the table above have the sole voting and investment power with respect to all shares of common stock shown as beneficially owned by them.

Equity Compensation Plan Information

On March 1, 1999 the Company adopted the 1999 Employee Stock Option Plan. In February 2003 the Plan was amended to provide for the issuance of up to 7,200,000 shares of the Company's common stock to employees, consultants and advisors of the company, and was approved by the shareholders. Full details of the Plan are included in note 16 to the financial statements and are summarized below as of December 31, 2007:

(a)	Number of securities to be issued upon exercise of outstanding options, warrants and rights	2,111,920
(b)	Weighted-average exercise price of outstanding options, warrants and rights	\$ 5.04
(c)	Number of securities remaining available for future issuance under equity compensation plans (excluding securities reflected in row (a) above)	2,748,294

We do not maintain any other equity compensation plans.

ITEM 13. CERTAIN RELATIONSHIPS AND RELATED TRANSACTIONS

Related Transactions

In December 2001 the group's holding company, Private Media Group, Inc., borrowed \$ 4.0 million from Commerzbank AG pursuant to a Note originally due on December 20, 2002. The Note bore interest at an annual rate of 7%, payable quarterly, with the entire principal amount and accrued interest originally due on December 20, 2002. The Note is guaranteed by Slingsby Enterprises Limited, an affiliate of Berth Milton, Private's Chairman, Chief Executive Officer and principal shareholder, and the guaranty is secured by 4,950,000 shares of Private Media Group, Inc. Common Stock. In December 2002 Commerzbank AG agreed to extend the maturity date of the Note to March 20, 2003. In April 2003 the Note was acquired by Consipio Holding b.v. from Commerzbank AG, and Consipio and Private reached an agreement-in-principle with Consipio to extend the maturity of the Note for five years, until April 2008, with interest on the Note being increased to 9.9% per annum. However, Consipio and Private were unable to reach final agreement on other terms and conditions relating to the restructured Note. Accordingly, in December 2003 Consipio notified Private and Slingsby Enterprises that Private was in default under the Note, and demanded \$3.4 million as payment in full of all outstanding principal and interest under the Note. The Company continued to make regular payments on the Note, including accrued interest, but remained unable to reach agreement on the restructuring of the Note. Private believes that it has valid claims and defenses against Consipio and its affiliates which may ultimately reduce all or a portion of its obligations relating to the Note. However, there are no assurances that either Private will be able to reach agreement with Consipio or that Private will ultimately prevail on its claims and defenses. In any event, the Company does not believe that the Note obligations will have a material adverse effect on the Company, as the Note is fully collateralized by 4,950,000 shares of Private Media Group, Inc. Common Stock pursuant to the guaranty agreement from Slingsby Enterprises Limited. As of December 31, 2007, the outstanding principal balance of the Note was \$2.4 million (EUR 1.65 million).

We have short-term loans to Slingsby Enterprises Limited, an entity controlled by Mr. Milton. The loans bear interest at the rate of EURIBOR+1% per annum and have no maturity date. During 2007 the highest amount outstanding was EUR 6.7 million. As of December 31, 2007, EUR 6.7 million remained outstanding on these loans, including interest.

In May 2003 Euro 1.65 million of a related party note payable was re-financed by an institutional lender at the same interest rate as on the note payable, EURIBOR + 1%. The loan is repayable in equal monthly installments over a four year period starting June 29, 2004. The loan is guaranteed by the Company's principal shareholder and affiliates of the Company's principal shareholder.

In December 2007 the Company's principal shareholder and affiliates of the Company's principal shareholder agreed to guarantee a bank line of credit agreement of Euro 1.0 million entered into by one of the Company's European subsidiaries.

The foregoing transactions are believed to be on terms no less favorable to us than we could obtain from unaffiliated third parties on an arms-length basis.

Review and Approval of Related Party Transactions

Our Audit Committee is responsible for the review and approval of all related party transactions required to be disclosed to the public under SEC rules. This procedure, which is contained in the written charter of our Audit Committee, has been established by our Board of Directors in order to both meet the requirements of applicable Nasdaq rules requiring review and approval of related party transactions, and to serve the interests of our shareholders. In addition, we maintain a written Code of Ethics which requires all employees, including our officers, to disclose to the Audit Committee any material relationship or transaction that could reasonably be expected to give rise to a personal conflict of interest. Related party transactions are reviewed and approved by the Audit Committee on a case-by-case basis. Under existing, unwritten policy no related party transaction can be approved by the Audit Committee unless it is first determined that the terms of such transaction is on terms no less favorable to us than could be obtained from an unaffiliated third party on an arms-length basis and is otherwise in our best interest.

Director Independence

All of the members of our Board of Directors are independent as defined in Nasdaq Stock Market Rule 4200 other than Berth Milton, who is our Chief Executive Officer.

Our Board of Directors has an Audit Committee and a Compensation Committee. Our Board of Directors does not have a formal nominating committee. Therefore, all decisions regarding director nominations are addressed by the entire Board of Directors. All of the members of the Audit Committee are independent under applicable SEC and Nasdaq listing rules. Mr. Milton is the only director who serves on the Compensation Committee who is not independent under applicable Nasdaq listing rules. Mr. Milton also participates in Board of Director deliberations regarding director nominations.

Under applicable Nasdaq listing rules we are a controlled company as Berth Milton beneficially owns more than 50% of our common stock. Therefore, we are exempt from Nasdaq rules which require that (i) compensation of executive officers be determined by either a majority of the independent directors or a Compensation Committee comprised solely of independent directors, and (ii) nomination of directors be made by either a majority of independent directors or a committee comprised solely of independent directors.

ITEM 14. PRINCIPAL ACCOUNTANT FEES AND SERVICES

Fees Paid to BDO Audiberia

Following is information regarding fees billed by BDO Audiberia for services rendered to the Company in 2006 and 2007.

Audit Fees. The aggregate fees billed to the Company by the Company's principal accountant, BDO Audiberia, for the audit of the Company's annual financial statements and for the review of the financial statements included in the Company's quarterly reports on Form 10-Q totaled \$159,000 and \$170,000 in 2006 and 2007, respectively. Audit fees consist of fees for the audit and review of the Company's financial statements, statutory audits, consents and assistance with and review of documents filed with the SEC.

Audit-Related Fees. BDO Audiberia did not provide any assurance or related services which are not included under Audit Fees in 2006 and 2007, respectively.

Tax Fees. BDO Audiberia did not provide any tax compliance, tax advice, or tax planning services in 2006 and 2007, respectively.

Policy on Audit Committee Pre-Approval of Audit and Permissible Non-Audit Services of Independent Auditors

The Audit Committee pre-approves all audit and permissible non-audit services provided by the Company's independent auditors. These services may include audit services, audit-related services, tax and other services. Pre-approval is generally provided for up to one year, and any pre-approval is detailed as to the particular service or category of services and is generally subject to a specific budget. The independent auditors and management are required to periodically report to the Audit Committee regarding the extent of services provided by the independent auditors in accordance with this pre-approval, and the fees for the services performed to date. The Audit Committee may also pre-approve particular services on a case-by-case basis. During 2006 and 2007, all services provided by BDO Audiberia were pre-approved by the Audit Committee in accordance with this policy.

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

To the Board of Directors and

Shareholders of Private Media Group, Inc.

1. We have audited the accompanying consolidated balance sheets of Private Media Group, Inc. as of December 31, 2006 and 2007 and the related consolidated statements of income and comprehensive income, shareholders' equity, and cash flows for the three years in the period ended December 31, 2007. We have also audited the schedule listed in the accompanying index. These financial statements and schedule are the responsibility of the Company's management. Our responsibility is to express an opinion on these financial statements and schedule based on our audits. We did not audit the financial statements of Private North America Inc. a wholly-owned subsidiary, which statements reflect total assets constituting 3% and 1% and total revenues constituting 14%, 3% and 2% of the related consolidated totals. Those statements were audited by other auditors whose report has been furnished to us, and our opinion, insofar as it relates to data included for Private North America Inc, is based solely on the report of those auditors.
2. We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.
3. In our opinion, based on our audits and the report of other auditors, the consolidated financial statements referred to above present fairly, in all material respects, the consolidated financial position of Private Media Group, Inc. at December 31, 2006 and 2007, and the consolidated results of its operations and its cash flows for each of the three years in the period ended December 31, 2007, in conformity with accounting principles generally accepted in the United States of America.
4. Also, in our opinion, the schedule presents fairly, in all material responses, the information set forth therein.
5. We also have audited, in accordance with the standards of the Public Company Accounting Oversight Board (United States), the effectiveness of Private Media Group, Inc.'s internal control over financial reporting as of December 31, 2007, based on criteria established in *Internal Control - Integrated Framework* issued by the Committee of Sponsoring Organizations of the Treadway Commission (COSO) and our report dated March 13, 2008 expressed an unqualified opinion thereon.

To the Board of Directors and

Shareholders of Private North America Ltd.

I have audited the accompanying balance sheets of Private North America Ltd. as of December 31, 2006 and 2007 and the related statements of income and retained earnings and cash flows for each of the three years in the period ended December 31, 2007. These financial statements are the responsibility of the Company's management. My responsibility is to express an opinion on these financial statements based on my audit.

I conducted my audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that I plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. I believe that my audit provides a reasonable basis for my opinion.

In my opinion, based on my audit, the financial statements referred to above present fairly, in all material respects, the financial position of Private North America Ltd. at December 31, 2006 and 2007 and the results of its operations and its cash flows for each of the three years ended December 31, 2007, in conformity with generally accepted accounting principles in the United States of America.

PRIVATE MEDIA GROUP, INC.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

1. The company and basis of presentation

Private Media Group, Inc. (the Company) was originally incorporated on September 23, 1980 as Glacier Investment Company, Inc. under the laws of the State of Utah and, effective November 24, 1997, after a series of interim name changes, changed its name to Private Media Group Inc. Effective June 12, 1998 the Company acquired Cine Craft Limited (Cine Craft), a Gibraltar corporation and Milcap Media Limited (Milcap), a Republic of Cyprus corporation. Prior to the acquisitions the Company was a holding company with no operations. Milcap and its subsidiaries and Cine Craft operate under common control and are engaged in the acquisition, refinement and distribution of video and photo rights for adult feature magazines and movies (videocassettes and DVD s) through distributors and via the Internet. The acquisition was accounted for as a reverse acquisition whereby the Company was considered to be the acquiree even though legally it is the acquiror. Accordingly, the accompanying financial statements present the historical combined financial statements of Cine Craft and Milcap from January 1, 1998 through the acquisition date of June 12, 1998 and the consolidated financial statements of the Company, Cine Craft and Milcap since that date. Since the fair value of the net assets of the Company were equal to their net book values on June 12, 1998, the assets and liabilities of the Company remained at their historical cost following the acquisition. During the year ended December 31, 2000, the Company established two new wholly owned subsidiaries, one in Sweden (Peach Entertainment Distribution AB, Peach) and one in the Republic of Cyprus (Fraserside Holdings Ltd., Fraserside). These subsidiaries were formed to carry on the business of Milcap Publishing Group AB (Sweden) and Milcap (Cyprus), respectively.

Solely for the convenience of the reader, the accompanying consolidated financial statements as of December 31, 2007 and for the twelve months then ended have been translated into United States dollars (USD) at the rate of EUR 0.68 per USD 1.00 the Exchange Rate of the European Central Bank on December 31, 2007. The translations should not be construed as a representation that the amounts shown could have been, or could be, converted into US dollars at that or any other rate.

2. Summary of significant accounting policies

Principles of Consolidation

The consolidated financial statements include the accounts of the Company and all wholly owned subsidiaries. All significant intercompany transactions and balances have been eliminated in consolidation.

Foreign Currency

The financial statements of the Company s operations based outside of the euro area have been translated into euro in accordance with SFAS 52. Management has determined that the functional currency for each of the Company s foreign operations is its applicable local currency. When translating functional currency financial statements into euro, year-end exchange rates are applied to the balance sheet accounts, while average annual rates are applied to income statement accounts. Translation gains and losses are recorded in other comprehensive income as a component of shareholders equity.

Transactions involving foreign currencies are translated into euro or functional currencies using exchange rates in effect at the time of the transactions. Monetary assets and liabilities denominated in foreign currencies are translated at period end exchange rates and the resulting gain or loss is charged to income in the period.

Should the Company choose to pay dividends, although the Company s current intention is to re-invest the un-remitted earnings of its foreign subsidiaries, dividends would be declared and paid in euro.

The aggregate exchange gain included in determining net income amounted to EUR 229 thousand for the year ended December 31, 2005. For the year ended December 31, 2006 there was no impact on net income from exchange gains or losses. For the year ended December 31, 2007, the aggregate exchange loss included in determining net income amounted to EUR 33 thousand.

PRIVATE MEDIA GROUP, INC.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

Recognition of Revenue

The Company's revenue recognition policies are in accordance with Staff Accounting Bulletin (SAB) No. 104, Revenue Recognition in Financial Statements. Revenues from the sale of magazines, DVD's and other related products where distributors are not granted rights-of-return are recognized upon transfer of title, which generally occurs upon delivery.

The Company sells magazines to wholesalers on firm sale basis and via national newsstand distributors with the right to return. Our magazines are multi-lingual and the principal magazine market is in Europe.

Revenues from the sale of magazines under agreements that grant distributors rights-of-return are recognized upon transfer of title, which generally occurs on delivery, net of an allowance for returned magazines. Distributors with the right to return are primarily national newsstand distributors. Most of our magazines are bi-monthly (six issues per year) and remain on sale at a newsstand for a period of two months. Normally, all unsolds are reported to us within a period of four to six months from delivery. There are normally two to four national newsstand distributors for all newspapers and periodicals operating in each country. A majority of our national newsstand distributors are members of Distripress, the international organization for publishers and distributors, and carry out the distribution of the largest national and international newspapers and periodicals, including: Financial Times, Herald Tribune, Time, Newsweek, Vogue, etc.

The Company uses specific return percentages per title and distributor based on estimates and historical data. The percentages vary from 50-80%. Higher percentages generally reflect newer markets and/or products. Percentages are reviewed on an on-going basis.

The magazines have an approximate retail price of EUR 11.50 (USD 16.90) per copy and are printed on glossy high-quality paper at a cost of EUR 1.25 (USD 1.84). They are often shrink-wrapped in order to comply with local regulation or guidance for the sale of adult publications. In view of the high retail price, the margin and the physical quality of the magazines and the fact that the content has a very long shelf-life since it is not particularly linked to time, trends, fashion or current events, the Company has always collected the returns from newsstands in order to make them available for sale again.

The Company has scheduled re-distribution of the returned magazines, via national newsstand distributors, as Megapacks or Superpacks (three different copies per pack) where the retail price is EUR 14.95 (USD 21.99). As the national newsstand distributors have the right to return, the packs come back to us and are then broken up in individual copies in order to be sent out in DVD packs, see below, or sold on firm sale basis to wholesalers as back numbers at a lower price than new issues.

The Company also operates scheduled re-distribution of returned magazines, via national newsstand distributors, together with DVDs as Magazine/DVD packs as a way of increasing DVD distribution. Since the national newsstand distributors have the right to return, the DVD packs are returned and the magazines are broken out in order to be sold on firm sale basis to wholesalers as back numbers at a lower price than new issues. The Company has historically sold all copies printed at an average price higher than, or equal, to cost.

Revenues from the sale of DVD products under consignment agreements with distributors are recognized based upon reported sales by the Company's distributors. Revenues from the sale of subscriptions to the Company's internet website are deferred and recognized ratably over the subscription period. Revenues from licensing of broadcasting rights to the Company's video and film library are recognized upon delivery when the following conditions have been met (i) license period of the arrangement has begun and the customer can begin its exploitation, exhibition, or sale (ii) the arrangement fee is fixed or determinable and (iii) collection of the arrangement fee is reasonably assured.

Revenues from IPTV (Internet Protocol Television), satellite & cable broadcasting are recognized based on sales reported each month by its IPTV, cable and satellite affiliates. The affiliates do not report actual monthly sales for each of their systems to the Company until approximately 60 - 90 days after the month of service ends. This practice requires management to make monthly revenue estimates based on historical experience for each affiliated system. Revenue is subsequently adjusted to reflect the actual amount earned upon receipt. Adjustments made to adjust revenue from estimated to actual have historically been immaterial.

PRIVATE MEDIA GROUP, INC.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

Revenues from mobile content sales (wireless) are recognized based on sales reported each month by mobile operators via aggregators. The aggregators do not report actual monthly sales for each of their operators to the Company until approximately 60-90 days after the month of service ends. This practice requires management to make monthly revenue estimates based on historical experience for each affiliated system. Revenue is subsequently adjusted to reflect the actual amount earned upon receipt. Adjustments made to adjust revenue from estimated to actual have historically been immaterial.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Inventories

Inventories are valued at the lower of cost or market, with cost principally determined on an average basis. Inventories principally consist of DVD's and magazines held for sale or resale.

Library of Photographs & Videos

The items in the library comprise our content used for distribution on various formats. Currently these are principally DVD, IPTV, cable & satellite television and broadband (for films) and magazines and Internet broadband (for photos). All our content is sold or licensed repeatedly, unlike inventory items which are sold only once. Furthermore the content is not only sold on one particular release, or issue, but is also re-edited and included for sale on compilations such as Best of titles and publications.

The film library is sold or licensed on various formats such as DVD, television, and Internet, in different markets and territories. The current rate of technological advance means that we are continually finding new distribution platforms for our content. Recent examples of this would be IPTV and broadcasting via digital cable and satellite television with pay-per-view (PPV) and video-on-demand (VOD) abilities. The film library includes: a) films, which represent the content, i.e., the edited movie including soundtrack. b) translations, sound dubbing, & sub-titles, which are required to customize each movie in terms of language for all territories, and c) Digital Manipulation for DVD Masters, which is required to digitize the movie and create menus and language options in order to produce a master to be used to duplicate DVDs from.

The photo library comprises purchased photographic material used for print and internet publications. Our photographic material is used initially in one issue of our four principal magazine titles. However it will normally subsequently be used in later special editions. The print publications are typically printed once and thereafter they are sold over a period of several years, as discussed later. Internet publications are sold via membership fees charged at the Company's websites. Photos are also licensed to other internet and print publishers.

The library of photographs and videos, including rights for photographs and videos as well as translation and dubbing of video material, is reflected at the lower of amortized cost or net realizable value. The cost is amortized on a straight-line basis over 3-5 years representing the estimated useful life of the asset, except for photos which are amortized on a sliding-scale basis over three years. Estimated future revenues are periodically reviewed and, revisions may be made to amortization rates or write-downs made to the asset's net realizable value as a result of significant changes in future revenue estimates. Net realizable value is the estimated selling price in the ordinary course of business, less estimated costs to complete and exploit in a manner consistent with realization of that income.

Property, Plant and Equipment

Property, plant and equipment are carried at cost and are generally depreciated using the straight-line method over the estimated useful lives of the assets. The useful lives range from 3-5 years.

In March 2000 the Emerging Issues Task Force (EITF) of the Financial Accounting Standards Board reached a consensus on Issue 00-2, *Accounting for Web Site Development Costs* (EITF 00-2). In accordance with the transition provisions of EITF 00-2,

PRIVATE MEDIA GROUP, INC.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

the Company has elected to apply this standard to website development costs incurred from January 1, 2000 forward. Capitalized website development costs including graphics and related software are being amortized on a straight-line basis over 5 years and are included in property, plant and equipment in the accompanying balance sheet (see Note 6).

Goodwill and Other Intangible Assets

Goodwill represents the excess of the purchase price paid over the fair value of the net assets of businesses acquired.

Other Intangible Assets represents the value attributable to: a) Customer base, which was acquired from two of the Company's former distributors in the U.S. and in Canada in 2001 and 2003, respectively, (see Note 7). The amortization expense is calculated on a straight-line basis over 10 years for each acquisition, and b) Broadcasting asset, which was acquired from International Film Production and Distribution Limited in 2003 (see Note 7). At the time of acquisition, the asset was deemed to have an indefinite life and is not subject to amortization.

In July 2001 the Financial Accounting Standards Board issued Statement of Financial Accounting Standards No. 142 Goodwill and Other Intangible Assets (SFAS 142). SFAS 142 was required to be adopted by the company as of January 1, 2002. Under SFAS 142, goodwill and indefinite lived intangible assets are no longer amortized but are reviewed annually for impairment (or more frequently if indicators of impairment arise). Further separable intangible assets that are not deemed to have an indefinite life will continue to be amortized over their expected useful lives with no maximum life specified; whereas under prior rules a maximum life of 40 years was required.

During 2002, the Company performed the required initial impairment test of goodwill and indefinite lived intangible assets as of January 1, 2002. There was no effect on the earnings and financial position of the Company as a result of the impairment testing. The company performs periodic impairment reviews in order to ensure that its accounting treatment is in compliance with SFAS 142 Goodwill and Other Intangible Assets.

Impairment of Long-Lived Assets

The Company evaluates the carrying value of its long-lived assets when events or circumstances indicate the carrying value may not be recoverable through the estimated undiscounted cash flows from the use of the asset. An impairment loss is then measured as the amount by which the carrying value of the asset exceeds its estimated fair value.

Advertising Costs

Advertising costs are charged to income as incurred. The total advertising costs were EUR 2,489 thousand, EUR 2,492 thousand and EUR 1,812 thousand for the years ended December 31, 2005, 2006 and 2007, respectively.

Shipping and Handling Costs

Shipping and handling costs related to the Company's products are recognized in cost of sales.

Income Taxes

The Company accounts for certain income and expense items differently for financial reporting purposes than for tax purposes. Provision for deferred taxes are made in recognition of such temporary differences, following the requirements of Financial Accounting Standards Board Statement No. 109 Accounting for Income Taxes. The Company assesses the recoverability of deferred tax assets and records a valuation allowance when it believes it is not more likely than not that they will be recovered.

Cash Equivalents

All highly liquid investments purchased with an original maturity of three months or less at the time of acquisition are considered to be cash equivalents.

PRIVATE MEDIA GROUP, INC.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

Concentration of Credit Risk

Financial instruments that potentially subject the Company to concentrations of credit risk consist primarily of cash and cash equivalents and trade accounts receivable. The Company does not require collateral on these financial instruments.

Cash and cash equivalents are maintained principally with major financial institutions in Europe that have high credit standings and the Company's policy is to limit exposure to any one institution. Management attempts to limit credit risk on trade receivables mainly through establishment and monitoring of credit controls.

Basic and Diluted Earnings Per Share

Basic and diluted earnings per share is calculated in accordance with Financial Accounting Standards Board Statement No. 128, *Earnings per Share* (Note 13).

Fair Value of Financial Instruments.

The following methods and assumptions were used by the Company in estimating its fair value disclosures for financial instruments. The estimates presented herein are not necessarily indicative of the amounts that the Company could realize in a current market exchange.

Cash and cash equivalents: The carrying amount reported in the balance sheet for cash and cash equivalents approximates its fair value.

Accounts receivable and accounts payable: The carrying amounts reported in the balance sheet for accounts receivable and accounts payable approximate their fair values.

Long-and short-term debt: The carrying amounts of the Company's borrowings under its short-term credit arrangements approximate their fair value. The fair value of the Company's long-term debt and leasing contracts are estimated to be equivalent to their carrying values as the rates of interest in these contract represents rates available to the Company for similar types of arrangements.

Stock-Based Compensation

On January 1, 2006, the Company adopted the Statement of Financial Accounting Standards No. 123 (revised 2004) *Share Based Payment*, (SFAS 123(R)), which is a revision of SFAS 123. SFAS 123(R) supersedes APB 25, and amends SFAS No. 95, *Statement of Cash Flows*. Generally, the approach in SFAS 123(R) is similar to the approach described in SFAS 123. However, SFAS 123(R) requires all share-based payments to employees, including grants of employee stock options, to be recognized in the consolidated income statement based on their fair values. The Company adopted SFAS 123(R) using the modified-prospective method as proscribed in SFAS 123(R). Our consolidated financial statements as of and for the twelve months ending December 31, 2006 and 2007 reflect the impact of adopting SFAS 123(R). In accordance with the modified prospective method, the consolidated financial statements for prior periods have not been restated to reflect, and do not include, the impact of SFAS 123(R)

Stock-based compensation cost recognized during the period is based on the value of the portion of stock-based payment awards that is ultimately expected to vest. Stock-based compensation cost recognized in the consolidated financial statements during the twelve months ending December 31, 2006 and 2007 included compensation cost for stock-based compensation granted prior to, but not yet vested, as of December 31, 2005 based on the grant date fair value estimated in accordance with the pro forma provisions of SFAS 148 and compensation cost for the stock-based payment awards granted subsequent to December 31, 2005, based on the grant date fair value estimated in accordance with SFAS 123(R). As stock-based compensation cost recognized in the consolidated statement of income for the twelve months ending December 31, 2006 and 2007 is based on awards ultimately expected to vest, it has been reduced for estimated forfeitures. SFAS 123(R) requires forfeitures to be estimated at the time of grant and revised, if necessary, in subsequent periods if actual forfeitures differ from those estimates. In the pro forma information required under SFAS 148 for the periods prior to 2006, the Company accounted for forfeitures as they occurred.

PRIVATE MEDIA GROUP, INC.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

Prior to January 1, 2006, and as permitted by Statement of Financial Accounting Standards No. 123 (SFAS No. 123), Accounting for Stock-Based Compensation , the Company followed Accounting Principles Board Opinion No. 25 Accounting for Stock Issued to Employees (APB 25) and related Interpretations for measurement and recognition of stock-based transactions with employees and adopted the disclosure-only provisions of SFAS No. 123. Under APB 25, generally no compensation expense was recognized since at the date of grant, the exercise price of stock options was set: a) at, or above, current price at closing of market or, b) at the price at closing of market on a pre-determined future date. As of January 1, 2006, the accounting under APB 25 and the disclosure-only provisions of SFAS No. 123 are no longer an alternative.

The following table illustrates the effect on net income after taxes and net income per common share as if the Company had applied the fair value recognition provisions of SFAS No. 123 to stock-based compensation during 2005 (in thousands, except per share amounts):

	Year ended December 31, 2005 EUR

Management reviews the allowance for doubtful accounts on at least a quarterly basis and adjusts the balance based on their estimate of the collectibility of specific accounts as well as a reserve for a portion of other accounts which have been outstanding for more than 180 days. This estimate is based on historical losses and information about specific customers. After collection attempts have failed, the Company writes off the specific account.

In March 2000 the Emerging Issues Task Force (EITF) of the Financial Accounting Standards Board reached a consensus on Issue 00-2, Accounting for Web Site Development Costs (EITF 00-2). EITF 00-2 requires that all costs incurred in the website planning stage should be expensed as incurred.

The EITF also concluded that costs incurred in the website application and infrastructure development stage (including the initial graphics) and costs relating to software used to operate a website are to be accounted for in accordance with Statement of Position No. 98-1, *Accounting for the Costs of Computer Software Developed or Obtained for Internal Use* (SOP 98-1) unless a plan exists or is being developed to market the website software externally.

The EITF further concluded that costs incurred to operate an existing website including training, administration, maintenance, and other costs should be expensed as incurred. However, costs incurred in the operation stage that involve providing additional functions or features to the website should be accounted for as, in effect, new software and the costs of upgrades and enhancements that add functionality being expensed or capitalized based on the guidance in SOP 98-1.

In accordance with the transition provisions of EITF 00-2, the Company has elected to apply this standard to website development costs incurred from January 1, 2000 forward and accordingly in the years ended December 31, 2006 and 2007 the Company has capitalized EUR 433 thousand and EUR 495 thousand respectively of costs related to the development of its website including graphics and related software.

In May 2003 Euro 1.65 million of a related party note payable was re-financed by an institutional lender at the same interest rate as on the note payable, EURIBOR + 1%. The loan is repayable in equal monthly installments over a four year period starting June 29, 2004. The loan is guaranteed by the Company's principal shareholder and affiliates of the Company's principal shareholder. The balance outstanding on the loan as of December 31, 2007 was EUR 0.1 million.

The Company's European subsidiaries have existing bank line of credit agreements under which these subsidiaries may borrow up to EUR 2.55 million. Borrowings under the lines of credit during 2007 were charged at interest rates of EURIBOR+1.0-1.3%.

Non-institutional debt

In December 2001 the group's holding company, Private Media Group, Inc., borrowed \$ 4.0 million from Commerzbank AG pursuant to a Note originally due on December 20, 2002. The Note bore interest at an annual rate of 7%, payable quarterly, with the entire principal amount and accrued interest originally due on December 20, 2002. The Note is guaranteed by Slingsby Enterprises Limited, an affiliate of Berth Milton, Private's Chairman, Chief Executive Officer and principal shareholder, and the guaranty is secured by 4,950,000 shares of Private Media Group, Inc. Common Stock. In December 2002 Commerzbank AG agreed to extend the maturity date of the Note to March 20, 2003. In April 2003 the Note was acquired by Consipio Holding b.v. from Commerzbank AG, and Consipio and Private reached an agreement-in-principle with Consipio to extend the maturity of the Note for five years, until April 2008, with interest on the Note being increased to 9.9% per annum. However, Consipio and Private were unable to reach final agreement on other terms and conditions relating to the restructured Note. Accordingly, in December 2003 Consipio notified Private and Slingsby Enterprises that Private was in default under the Note, and demanded

\$3.4 million as payment in full of all outstanding principal and interest under the Note. The Company continued to make regular payments on the Note, including accrued interest, but remained unable to reach agreement on the restructuring of the Note. Private believes that it has valid claims and defenses against Consipio and its affiliates which may ultimately reduce all or a portion of its obligations relating to the Note. However, there are no

assurances that either Private will be able to reach agreement with Consipio or that Private will ultimately prevail on its claims and defenses. In any event, the Company does not believe that the Note obligations will have a material adverse effect on the Company, as the Note is fully collateralized by 4,950,000 shares of Private Media Group, Inc. Common Stock pursuant to the guaranty agreement from Slingsby Enterprises Limited. As of December 31, 2007, the outstanding principal balance of the Note was \$2,4 million (EUR 1.65 million).

In line with prior years, the Company has recognized a deferred tax asset for the Subpart F income that has been previously taxed at the US federal and state levels and not included in the US parent company's financial income. This portion of the deferred tax asset was offset in part by the recognition of a valuation allowance.

Deferred tax assets and liabilities reflect the future tax consequences of events that have already been recognized in the consolidated financial statements or income tax returns. At December 31, deferred tax assets and liabilities consisted of the following:

Net Operating Loss Carryforward

The company's operating loss carry-forwards are described in the table below:

	Year ended December 31
	2007 EUR (in thousands)
United States	5,345
Sweden	683
Cyprus	5,155
Spain	3,837
Holland	430

Cyprus, the United States, and Spain are the jurisdictions in which nearly all of the NOLs have been generated. NOLs in Cyprus post-2000 may be carried forward indefinitely. The NOLs in the United States may be carried back 2 years and carried forward for 20 years, while the NOLs in Spain may only be carried forward for 15 years.

No provision has been made for United States federal and state taxes or foreign taxes that may result from future remittances of undistributed earnings of the Company's foreign subsidiaries because it is expected that all such earnings will be permanently reinvested in these foreign operations.

In July 2006, the FASB issued Interpretation No. 48, Accounting for Uncertainty in Income Taxes, an Interpretation of FASB Statement No. 109 (FIN 48). FIN 48 provides guidance on the financial statement recognition and measurement of a tax position taken or expected to be taken in a tax return. FIN 48 requires that companies recognize in their financial statements the impact of a tax position if that position more likely than not will be sustained on an audit, based on the technical merits of the position. FIN 48 also provides guidance on derecognition, classification, interest and penalties, accounting in interim periods, disclosures, and transition provisions. The Company adopted FIN 48 on January 1, 2007. As a result of the implementation of FIN 48, no adjustment to retained earnings was made.

The Company's subsidiaries file income tax returns in numerous tax jurisdictions, including the United States, several U.S. states and several non-U.S. jurisdictions, primarily in Europe. The statute of limitations varies by the various jurisdictions in which we operate. Because of the number of jurisdictions in which we file tax returns, in any given year the statute of limitations in certain jurisdictions may lapse without examination within the 12-month period from the balance sheet date. Other than the recurring effect of changes in unrecognized tax benefits due to the lapse of the statute of limitations, none of which are expected to be individually significant, management believe there are no other reasonably possible changes that will significantly impact the amount of tax benefits recognized in the Company's financial statements within the 12-month period from the balance sheet date. The Company has substantially concluded all US Federal and State income tax matters for years up to and including 2003 and 2001 respectively, and all foreign income tax matters for years up to 2002.

The Company's practice is to recognize interest and penalties related to income tax matters in interest and other expenses respectively. Interest and penalties amounting to EUR 341 thousand were accrued as of December 31, 2007, of which EUR 97 thousand was recognized as interest expense during the year then ended.

In December 1999 the Company received final notification from the Swedish Tax Authority assessing its subsidiary in Cyprus for the tax years 1995-1998 for a total amount of SEK 42,000,000 (approx. EUR 4.5 million) plus fines amounting to SEK 16,800,000 (approx. EUR 1.8 million) plus interest. The Swedish Tax Authority has taken the position that the subsidiary carried on

PRIVATE MEDIA GROUP, INC.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

business in Sweden from a permanent establishment during the period in question and should therefore be taxed on the income attributable to the permanent establishment. The case is under litigation and the Company believes the circumstances supporting the Tax Authority's claim are without merit. However, the Administrative Court of Appeal has decided that a permanent establishment is at hand. The Court has only made a principle statement and the question of how to calculate any eventual profit that can be allocated to the permanent establishment is not decided by the Court at this stage. The final outcome of this litigation will not be known for several years. Due to the early stages of this matter and the uncertainty regarding the ultimate decision, no amounts have been provided in the Company's financial statements for this dispute.

11. Related party transactions

The Company has short-term loans receivable from an entity controlled by the Company's principal shareholder of EUR 6.4 million and EUR 6.7 million at December 31, 2006 and 2007 respectively. The loans bear interest at a rate of EURIBOR+1% payable annually.

In May 2003 Euro 1.65 million of a related party note payable was re-financed by an institutional lender at the same interest rate as on the note payable, EURIBOR + 1%. The loan is repayable in equal monthly installments over a four year period starting June 29, 2004. The loan is guaranteed by the Company's principal shareholder and affiliates of the Company's principal shareholder.

In December 2007 the Company's principal shareholder and affiliates of the Company's principal shareholder agreed to guarantee a bank line of credit agreement of Euro 1.0 million entered into by one of the Company's European subsidiaries.

12. Shareholders' equity

Retained Earnings

The Company is a holding company with no significant operations of its own. Accordingly, the retained earnings of the Company represent the accumulated earnings of its foreign subsidiaries, principally Cine Craft Ltd, Milcap Media Ltd. and Fraserside Holdings Ltd. The ability of the Company to pay dividends is dependent on the transfer of accumulated earnings from these subsidiaries. The Company is not currently aware of any significant restrictions that would inhibit its ability to pay dividends should it choose to do so, although the Company's current intention is to re-invest the unremitted earnings of its foreign subsidiaries. In addition the Company is restricted from payment of dividends under the terms of its short-term note agreement (Note 8).

Common Stock

The Company is authorized to issue 100,000,000 shares of common stock. Holders of common stock are entitled to one vote per share. The common stock is not redeemable and has no conversion or pre-emptive rights.

In June, 2000, the Company's shareholders and board of directors approved an increase in the Company's authorized capital stock, consisting of an increase in the number of authorized common shares from 50,000,000 to 100,000,000. This increase was effected in August 2001 upon the filing of a Certificate of Amendment of the Company's articles of incorporation with the Nevada Secretary of State.

During 2000 the Company's Board of Directors authorized the repurchase of up to 10% of the Company's outstanding common shares. Such purchases may be made from time to time in the open market for an indefinite period of time. As of December 31, 2006 no shares had been repurchased.

Preferred Stock

The Company is authorized to issue 10,000,000 shares of preferred stock with relative rights, preferences and limitations determined at the time of issuance. The Company has issued 7,000,000 shares of \$4.00 Series A convertible preferred stock. The Series A convertible preferred stock is non-voting and provides for a 5% annual stock dividend beginning in 1998 to be paid quarterly.

in common stock at the average closing price of the Company's common stock for the twenty consecutive days prior to the quarterly record date. Each preferred share is convertible at any time into common shares on a one-for-three basis (post-split). Additionally, at any time the common stock of the Company has a closing price of less than \$1.33 per share for twenty consecutive days the preferred stock may be converted at the option of the holder thereof into common stock at a 20% discount to the five day average closing price prior to the date of conversion. In accordance with the terms of the Series A Preferred Stock Agreement, 346,448 shares of common stock were issued in 2003 with respect to dividends on preferred shares relating to 2002 and 2003. On March 18, 2003 and August 8, 2003, Slingsby Enterprises Limited converted 5,350,000 and 1,650,000 shares of \$4.00 Series A convertible preferred stock into 16,050,000 and 4,950,000 shares of common stock, respectively. Accordingly, as of August 8, 2003, no shares of Series A Preferred Stock remained outstanding

Common Stock Warrants

The Company has issued warrants in connection with the issuance of a convertible note, see convertible notes below.

Convertible notes

Effective September 2003, pursuant to securities purchase agreements entered into separately with four accredited institutional investors, we agreed to issue and sell to each of these investors convertible notes in the aggregate principal amount of \$2.25 million, Series A Warrants exercisable for an aggregate of 337,500 shares of our common stock, and Series B Warrants exercisable for an aggregate of 225,000 shares of our common stock. The securities purchase agreements each provided for the sale of one-half of the convertible notes (\$1.125 million aggregate principal amount) and the issuance of all of the Series A and B Warrants as of the first closing, September 19, 2003, and obligated each of the investors to purchase, and for us to sell and issue to these investors, the remaining convertible notes (\$1.125 million aggregate principal amount) immediately following the registration with the SEC of the common stock issuable under the convertible notes and the warrants (the second closing), which financing was completed effective October 27, 2003. As of August 31, 2006, the aggregate principal amount of \$2.25 million had been converted into 1,125,000 shares of common stock by the investors and there was no outstanding principal balance due and payable under the convertible note agreements.

In connection with the sale of the convertible notes, effective as of September 19, 2003 we issued to the four investors Series A Warrants exercisable for an aggregate of 337,500 shares of our common stock, and Series B Warrants exercisable for an aggregate of 225,000 shares of our common stock. The Series A Warrants have an exercise price of \$2.00 per share, and are exercisable at any time from September 19, 2003, through September 19, 2008. The Series B Warrants have an exercise price of \$1.00 per share, are exercisable only upon the occurrence of specified events, and expire on September 19, 2004. Events which entitle the holders of the Series B Warrants to exercise the warrants include the following: (i) a material adverse change in our business, as defined in the securities purchase agreements; or (ii) the market price of our common stock on March 19, 2004, is less than \$2.37, with the market price being defined as the arithmetic average of the five lowest daily volume-weighted average prices of our common stock during the 15 consecutive trading days immediately preceding March 19, 2004. On March 19, 2004 the Market Price was greater than \$2.37. In addition to anti-dilution provisions providing for proportionate adjustments in the event of stock splits, stock dividends, reverse stock splits and similar events, the exercise price of the warrants is subject to downward adjustment upon the issuance by us of common stock or securities convertible into common stock at a price per share of less than the then current exercise price. Payment of the exercise price of the warrants may be made, at the option of the warrant holder, either in cash or by a cashless exercise. Upon a cashless exercise, in lieu of paying the exercise price in cash, the warrant holder would receive shares of common stock with a value equal to the difference between the market price (the average of the closing prices of the common stock for the five trading days immediately preceding the exercise date) at the time of exercise and the then current exercise price multiplied by the number of shares so exercised. During 2004 the equivalent of 145,000 Series A warrants were exercised of which 100,000 were converted into 38,987 shares of common stock through a cashless conversion.

The equivalent of 110,893 common shares derived from dilutive securities such as options, warrants and convertible notes is excluded from the diluted earnings per share for 2007 as they are anti-dilutive.

14. Commitments and contingent liabilities

The Company leases certain property and equipment under non-cancelable operating leases. Certain of these leases contain renewal options. Rental payments under these leases are charged to operations on a straight-line basis with any differential recognized as deferred rent in the balance sheet. The rental payments under these leases are charged to operations as incurred. Rental expense for the years ended December 31, 2005, 2006 and 2007 amounted to EUR 651 thousand, EUR 692 thousand and EUR 701 thousand, respectively.

16. Stock-based compensation

The Company has an Employee Stock Option Plan, see below. On adoption of SFAS 123(R), the Company reviewed the Employee Stock Option Plan for potential forfeitures and estimated that out of the nonvested options outstanding at December 31, 2007 there would be none. The compensation cost charged against income for the twelve month period ended December 31, 2007 was EUR 28 thousand, which is included in selling, general and administrative expense. The charge of compensation cost had no impact on tax since none of the option beneficiaries are taxable in the U.S. and tax rules are different in the beneficiaries respective tax jurisdictions.

Employee Stock Option Plan

The 1999 Employee Stock Option Plan (the Plan), which is shareholder approved, allows the Company to grant options to purchase common stock to designated employees, executive officers, directors, consultants, advisors and other corporate and divisional officers of Private Media Group. The Plan authorizes the Company to grant stock options exercisable for up to an aggregate of 7,200,000 shares of common stock. No stock options may be granted under the Plan after the Plan expires on March 1, 2009. The purchase price (exercise price) of option shares must

Edgar Filing: PRIVATE MEDIA GROUP INC - Form 10-K

be at least equal to the fair market value of such shares on the date the stock option is granted or such later date the Company may specify. The stock option is exercisable for a period of ten years from the date of grant or such shorter period as is determined by the Company. Each stock option may provide that it is exercisable in full or in cumulative or non-cumulative installments, and each stock option is exercisable from the date of grant or any later date specified in

the option. Unless otherwise provided by the Company, an optionee may not exercise a stock option unless from the date of grant to the date of exercise the optionee remains continuously in the Company's employ.

At December 31, 2007, options for 2,748,294 shares were available for future grant under the Plan. Share options become exercisable on their respective vesting dates with vesting terms determined by management and approved by the Company's compensation committee. Options granted under the Plan generally expire 5-10 years following the date of grant, certain options grants may have shorter lives.

The Company calculates the fair value of each option award on the date of grant using the Black-Scholes option pricing model. The following general assumptions are used: a) expected volatility is based on historical volatility of our stock, b) expected life is determined based on historical experience of similar awards, giving consideration to the contractual terms of the stock-based awards, vesting schedules and expectations of future employee behavior, c) risk-free interest rate is based on the U.S. Treasury yield curve in effect at the time of grant and d) dividend yield is zero based on the Company's current dividend policy.

During the twelve-month periods ended December 31, 2005, 2006 and 2007 grants for 121,000, 21,000 and 21,000 shares, respectively, were made. The following assumptions were used in calculating the fair value:

	2005	2006	2007
Expected volatility	70.0%	51%-62%	52%-55%
Expected dividend yield			
Expected term (in years)	2.5	2.5	2.5
Risk-free interest rate	4.2%-4.6%	4.7%-5.1%	4.4%-4.9%
Weighted average fair value	\$ 0.75	\$ 1.57	\$ 1.08

A summary of stock option activity for the year ended December 31, 2007 is as follows:

	Number of Shares	Weighted- Average Exercise Price in USD	Weighted- Average Remaining Life in Years	Aggregate Intrinsic Value ¹³ in Thousands of USD
Outstanding January 1, 2007	2,711,936	5.22

During the twelve months ended December 31, 2006, the aggregate intrinsic value, determined as of the date of option exercise, of options exercised under our stock option plan was USD 42 thousand. During 2007 there were no options exercised under our stock option plan.

¹³ The aggregate intrinsic value is calculated as the difference between the exercise price of the underlying awards and the quoted price of our common stock for the options that were in-the-money at December 31, 2007.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

18. Recent accounting pronouncements

In December 2007, the FASB issued Statement of Financial Accounting Standards No. 141(R), Business Combinations (FAS 141(R)), to further enhance the accounting and financial reporting related to business combinations. FAS 141 (R) establishes principles and requirements for how the acquirer in a business combination (1) recognizes and measures in its financial statements the identifiable assets acquired, the liabilities assumed, and any non-controlling interest in the acquiree, (2) recognizes and measures the goodwill acquired in the business combination or a gain from a bargain purchase, and (3) determines what information to disclose to enable users of the financial statements to evaluate the nature and financial effects of the business combination. FAS 141 (R) applies prospectively to business combinations for which the acquisition date is on or after the beginning of the first annual reporting period beginning on or after December 15, 2008. Therefore, the effects of the adoption of FAS 141 (R) will depend upon the extent and magnitude of acquisitions after December 31, 2008.

In September 2006, the FASB issued Statement of Financial Accounting Standards No. 157, Fair Value Measurements, (FAS 157). This Statement defines fair value, establishes a framework for measuring fair value and expands disclosures about fair value measurements. FAS 157 applies to other accounting pronouncements that require or permit fair value measurements, the FASB having previously concluded in those accounting pronouncements that fair value is the relevant measurement attribute. The Statement does not require any new fair value measurements and was originally effective beginning January 1, 2008. In February 2008, the FASB issued FASB Staff Position (FSP) FAS 157-2. FSP FAS 157-2 defers the effective date of FAS 157 until January 1, 2009 for non-financial assets and non-financial liabilities except those items recognized or disclosed at fair value on an annual or more frequently recurring basis. Management has not completed its review of the new guidance; however, the effect of the Statement s implementation is not expected to be material to the results of operations or financial position.

In February 2007, the FASB issued Statement of Financial Accounting Standards No. 159, The Fair Value Option for Financial Assets and Financial Liabilities (FAS 159). FAS 159 permits entities to choose to measure certain financial instruments and other eligible items at fair value when the items are not otherwise currently required to be measured at fair value. We are required to adopt FAS 159 effective at the beginning of 2008. We are currently evaluating the impact of adopting FAS 159 on our financial statements but it is not expected to have a material impact.

19. Discontinued operations

In November 2006, the Company discontinued its operations with respect to the publishing and distribution of a monthly print publication. The publication was a non-adult entertainment publication and eight issues were published and distributed in Spain.
