HIGHLIGHTS

Trio Telefônica launched by the company on August, 2007 is a bundled offer of PayTV, Broadband and Local calls services. Offered in all company's concession area, this product is a differentiated option in the market due to its flexibility in composing bundles of TV and speeds in broadband services. The customer can also choose mini-bundles, divided by channels genre, such as documentary, kids, variety, action, world and movies. In October 2007, the company launched bundles with GloboSat content and celebrated a commercial and operational agreement with TVA, strengthening and extending even more the integrated offer of PayTV.

Posto de Trabalho Informático launched in 2007, is offered to the corporate segment as a solution for infra-structure of Information Technology customized for the customer. Through a monthly fee payment, Telesp offers a bundle composed by voice, data, broadband, network management and equipments for small, medium and big clients. The bundled offer of Information Technology and communication services is one of the company's strategic pillars in the corporate segment.

Broadband is currently offered through ADSL and MMDS technologies under the brands Speedy and Ajato, respectively. In the 1Q08 reached 2,165,980 clients, a 4.7% increase over 4Q07. When compared to March 2007, the growth was of 477 thousand accesses or 28.2%, in line with the upward trend of last quarters. Investments in broadband are the Company's priority and reinforce Telesp's commitment to its clients in improving the offer and quality of products and services, allowing a service even better and becoming even more competitive. Following this strategy, the company launched, as a pioneer offer, internet access through Fiber Optic (Fiber to the Home - FTTH) with speedy capacity of 8, 16 and 30 Mb.

EVOLUTION OF THE ALTERNATIVE PLANS FOR FIXED TELEPHONY

(Thousands of Lines)

The net operating revenues for the 1Q08 totaled R\$3,843.7 million and when compared to the R\$3,706.6 million reached in the same period of the previous year, presented an increase of R\$137.1 million or 3.7%. This figure is mainly due to the growth of the Speedy service, the growth in DLD revenues, the launch in 2007 of the PayTV service and also the performance of others revenues, among these the *posto de trabalho informático* and network digital services. These effects were partially offset by a reduction in local service revenues, ILD and monthly subscription fee this last one mainly due to the decrease of the average lines in service and an increase of the alternative plans for fixed telephony which have a lower monthly subscription fee.

When comparing the 1Q08 with the 4Q07, is shown a increase of R\$107.2 million or 2.9%, mainly explained by a increase in DLD revenues, the growth in Speedy services and PayTV and the increase of monthly subscription fee revenues, been partially offset by the decrease of public telephony and local service.

The EBITDA margin for 1Q08 was 39.6%, a decrease of 2.9 p.p. when compared to the same period of the previous year. This effect is mainly explained by a decrease in local service revenues and an increase in interconnection expenses. When comparing the 1Q08 with the 4Q07, a decrease of 1.0 p.p. is shown mainly justified by commercial promotions and a decrease in public telephony revenues. Is important to note that currently some new products still present pressure under their margins because it haven't achieved appropriate scale level yet.

Net income in the 1Q08 reached R\$4,490.3 million, a decrease of R\$102.5 million or 17.3% when compared with the same period of the previous year. Not considering the effect of land sales occurred in the 1Q07, the net income would be in line when compared with 1Q07.

The consolidated Capex for 1Q08 was R\$413.0 million, presenting a increase of 17.6% when compared to the same period of the previous year. This figure is in line with Telefónica strategy of investing in the network modernization and expansion to offer communication services of voice, data and video. It is important to note the significant changes on Capex's mix, currently focused on broadband and new services.

REVENUES HIGHLIGHTS

Gross Operating Revenue in the 1Q08 reached R\$5,556.8 million, representing an increase of R\$216.0 million or 4.0% compared to the same period of the previous year. When comparing the 1Q08 x 4Q07, a increase of R\$290.0 million, or 5.5% is shown.

EVOLUTION OF GROSS OPERATING REVENUES FROM THE 1Q07 TO THE 1Q08

(R\$ Million)

EVOLUTION OF GROSS OPERATING REVENUES FROM THE 4Q07 TO THE 1Q08

(R\$ Million)

The changes are explained as follows:

Monthly Subscription Fee: reached R\$1,382.7 million in the 1Q08, representing a decrease of R\$65.5 million or 4.5% when compared to the same period of the previous year. This effect is mainly explained by the decrease in average lines in service and by the increase in the alternative plans for fixed telephony which are offered with lower monthly fees. When comparing the 1Q08 x 4Q07 a increase of R\$22.7 million or 1.7% is shown, mainly explained by the increase of DDR plant (Discagem direta a Ramal) that serves small companies.

Installation Fee: reached R\$30.7 million in the 1Q08, representing an increase of R\$5.7 million or 23.1% when compared with the same period of the previous year. This effect is explained by the rise in alternative plans and the tariff adjustment of 2.2% as of July, 2007. When comparing the 1Q08 x 1Q07, the value remains practically stable.

Local Service: totaled R\$617.9 million in the 1Q08, presenting a decrease of R\$196.0 million or 24.1% when compared to the same period of the previous year. This effect is mainly explained by DUOs and TRIOs bundles sales which offer flat tariffs with local unlimited calls, decreasing the exceeding traffic. This effect is partially offset by the tariff adjustment as of October, 2007. When comparing the 1Q08 x 4Q07, an R\$9.5 million or 1.5% decrease is noted justified, mainly, by the DUOs and TRIOs bundles sales.

Table of Contents

DLI: totaled R\$947.5 million in the 1Q08, presenting an increase of R\$122.8 million or 14.9% when compared to the same period of the previous year. When comparing 1Q08 x 4Q07, an increase of R\$192.6 million or 25.5% is shown. These variations are explained by the rise of the company's market share and a higher SMP traffic through the increase of the 15 use as a consequence of the increase of the mobile telephony market. Besides, a positive impact is noted due the tariff adjustment as of July, 2007. These effects were partially offset by a reduction of outgoing fixed traffic.

Fixed-to-mobile revenues: reached R\$1,066.4 million in the 1Q08, an increase of R\$64.7 million or 6.5% when compared to the same period of the previous year. This effect is mainly explained by the growth of mobile operator base that presented a positive impact VC1, VC2 and VC3 traffic. When comparing 1Q08 x 4Q07, an increase of R\$40.1 million or 3.9% is shown, justified by the same aforesaid reasons.

ILD: reached R\$35.9 million in the 1Q08, a decrease of R\$1.8 million or 4.9% when compared to the same period of the previous year. This effect is explained by the decrease of traffic and promotional campaigns during 2007. When comparing 1Q08 x 4Q07, an increase of R\$5.1 million or 16.5% is shown. This effect is explained by a significant increase of the company's market share.

Interconnection Revenues: totaled R\$109.3 million in the 1Q08 and, when compared to the same period of the previous year, an increase of R\$6.2 million or 6.1% is shown. When comparing the 1Q08 x 4Q07, an increase of R\$5.3 million or 5.1% is presented. These effects were chiefly caused by new contracts firming by the company and a traffic increase between the incumbents as a consequence of the Telecommunication's market growth.

Public Telephony: reached R\$112.7 million in the 1Q08, presenting an increase of R\$1.5 million or 1.3% when compared to the same period of the previous year. This effect is mainly motivated by the tariff adjustment as of July, 2007. When comparing the 1Q08 x 4Q07 a decrease of R\$36.6 million or 24.5% is observed mainly motivated by lower card phone's sales.

Data Transmission: reached R\$870.6 million in the 1Q08, an increase of R\$180.0 million or 26.1% when compared to the same period of the previous year. When comparing the 1Q08x4Q07, an increase of R\$46.1 million or 5.6% is shown. These effects are explained by the growth of the Speedy service, in line with the upward trend of last quarters.

Infrastructure rental: totaled R\$81.3 million in the 1Q08, a rise of R\$5.6 million or 7.5% when compared with the same period of the previous year. This effect was mainly explained by the increase of retiled circuits volume, due the growth of telecommunication's industry. When comparing the 1Q08 x 4Q07, revenues declined R\$6.2 million or 7.1% mainly due to the decision of pending issues with other incumbents during 4Q07.

PayTV: launched on August 12, 2007, this service reached R\$67.5 million in the 1Q08, an increase of R\$17.1 million or 33.8% when compared with the 4Q07. It includes TV services through Satellite (DTH) and MMDS (Multichannel Multipoint Distribution Service), this last one as a result of Navytree's acquisition in the 4Q07. In the end of the 1Q08, the company reached 281,684 clients, an increase of 22.0% when comparing with the 4Q07.

Others: reached R\$234.2 million in the 1Q08, presenting an increase of R\$25.3 million or 12.1% when compared to the same period of the previous year. When comparing 1Q08 x 4Q07, an increase of R\$13.7 million or 6.2% is registered. These effects were chiefly explained by network and equipments managing (Posto de Trabalho Informático), by the increase of the customer base that possess calls identification's service (Detecta) and by the selling of infra-structure equipments.

OPERATING EXPENSES HIGHLIGHTS

Operating Expenses in the 1Q08 reached R\$2,320.9 million and when compared to the same period of the previous year, registered an increase of R\$191.0 million or 9.0%. When comparing the 1Q08 x 4Q07, it was recorded an increase of R\$102.9 million or 4.6%. These variations are explained as follows:

Personnel expenses reached R\$216.9 million in the 1Q08, a decrease of R\$12.9 million or 5.6% when compared with the same period of the previous year. When comparing the 1Q08 x 4Q07, it was recorded a decrease of R\$48.2 million or 18.2%. These effects reflect part of the expenses reduction plan related to the Program of Organizational Restructuring that happened in 2007.

Administrative expenses totaled R\$1,854.7 million in the 1Q08, showing a raise of R\$131.3 million or 7.6% when compared to the same period of the previous year. When comparing 1Q08 x 4Q07, an increase of R\$16.9 million or 0.9% is shown.

The changes are mainly explained as follows:

Supplies totaled R\$43.0 million in the 1Q08, presenting an increase of R\$7.2 million or 20.1% when compared to the same period of the previous year. When comparing the 1Q08 x 4Q07, an increase of R\$0.8 million or 2.0% is shown. These effects are mainly explained through the increase in the cost of sales related to PayTV.

Outsourcing expenses totaled R\$733.8 million in the 1Q08, presenting a raise of R\$36.3 million or 5.2% when compared to the same period of the previous year. This effect is mainly due to an increase of cobilling expenses, customer service, marketing and TV contents. When comparing the 1Q08 x 4Q07, the value remains almost stable.

Interconnection expenses reached R\$961.3 million in the 1Q08 and when compared to same period of 2007, present an increase of R\$58.7 million or 6.5%. This effect is mainly explained by an increase in the SMP traffic with the 15 (selection code of the operator) and by the readjustment of 2.25% in VUM on July, 2007. When comparing the 1Q08 x 4Q07, an increase of R\$10.7 million or 1.1% is shown, due to the same aforesaid reasons.

Other Expenses reached R\$116.7 million in the 1Q08, presenting an increase of R\$29.0 million or 33.1% when compared to the same period of the previous year, due to the increase of network rental expenses of infrastructure for last-mile call termination and post and ducts rental. When comparing the 1Q08 x 4Q07, an increase R\$1.8 million or 1.6% is presented, due the same aforesaid reasons.

Taxes totaled R\$109.6 million in the 1Q08, recording a decrease of R\$1.0 million or 0.9% in comparison to the same period of the previous year. This effect was mainly explained by lower expenses with FISTEL. When comparing 1Q08 x 4Q07, an increase of R\$5.6 million or 5.4% is shown, mainly due an increase of FUST contribution.

Provisions reached R\$132.7 million in the 1Q08, a decrease of R\$7.8 million or 5.6% when compared to same period of the previous year. When comparing 1Q08 x 4Q07, a decrease of R\$32.1 million or 19.5% is registered. These effects reflect the success of the commercial policy during 2007 issuing the improvement the customer base profile.

Investment gains (losses) recorded a positive result of R\$8.9 million in the 1Q08, and in the same period of 2007 registered a negative result of R\$1.5 million. When comparing 1Q08 x 4Q07 a positive variation of R\$7.2 million was registered. These variations are justified by the foreign exchange rate effect in the equity accounting of the subsidiary Aliança Atlântica besides the effect in the equity accounting of minority interest on Cable TV Operators.

Other operating revenues (expenses) in the 1Q08 recorded a negative net variation of R\$91.8 million when compared with the same period of 2007. Such behavior is mainly justified by the provision of values under discussion with the regulator organ and other expenses. When comparing 1Q08 x 4Q07, a negative variation of R\$167.8 million due the provision of values under discussion with the regulator organ and partial INSS provision reversion in the 4Q07 of R\$101.0 million increasing the comparative basis.

OTHER HIGHLIGHTS

Depreciation in the 1Q08 reached R\$692.9 million, an increase of R\$21.8 million or 3.3% when compared to the same period of the previous year. This effect is mainly explained by the premium amortization of Navytree acquisition and by an increase of modem obsolescence. When comparing 1Q08 x 4Q07, the value remains almost stable.

Operating Financial Revenues / (Expenses) (excluding IONW): the financial result improved R\$24.1 million or 28.1% when comparing the 1Q08 x 1Q07, partly justified by the extinction of CPMF and a higher cash generation. When comparing 1Q08 x 4Q07, the financial result increased R\$9.9 million or 13.8%, also impacted by the extinction of CPMF and lower cost of indebtedness.

Non-Operating Revenues (Expenses) in the 1Q08 recorded a positive result of R\$12.9 million, resulting in a decrease of R\$88.4 million when compared to same period of the previous year, due to the sale of assets, mainly by land sold in the 1Q07. When comparing 1Q08 x 4Q07, an increase of R\$6.3 million is observed mainly due to higher earnings with permanent asset sales.

Loans and Financing: On March 31, 2008, the Company had R\$507 million in loans and financing denominated in foreign currency (R\$943.3 million on December 31, 2007), from which R\$375.9 million were raised at fixed interest rates (R\$784.7 million on December 31, 2007), and R\$131.1 million were raised at variable interest rates (Libor) (R\$158.6 million on December 31, 2007). In order to be protected against exchange risk and variable interest rates of these loans denominated in foreign currency, the Company contracted hedge transactions to peg these debts to the local currency, with floating interest rates indexed to the CDI, thus the indebtedness of the Company is only affected by fluctuations on this rate. On March 31, 2008, 99.3% of financial debt denominated in foreign currency (100% on December 31, 2007) was covered by active positions in hedge transactions (Swap to CDI) which reported a consolidated net positive result of R\$34.2 million, while a liability of R\$80.7 million was recorded on March 31, 2008 to acknowledge the net position of derivatives in such date. The position in loans and financing also includes the value of the debentures issued in 2004, renegotiated on September 01, 2007, paying interests based on the variation of the CDI rate + fixed spread, in the amount of R\$1,512.3 million (R\$1,512.4 million on December 31, 2007) and the value of R\$810.1 million in financing with BNDES - Banco Nacional de Desenvolvimento Econômico e Social (R\$809.3 million on December 31, 2007)

To reduce the exposure of the local interest rate (CDI), the Company invests the balance of cash and cash equivalents (financial instruments) of R\$897.1 million (R\$348.6 million on December 31, 2007), mainly in short-term instruments, based on the variation of the CDI.

The Company also has swap trades - CDI x pré - to partially cover fluctuations from domestic interest rates. On March 31, 2008, such trades, which had a contracted volume of R\$50.0 million (R\$810.0 million on December 31, 2007) reached a net positive consolidated result of R\$1.9 thousand, being this temporary gain recorded in the income statement. In addition, the company has swap operations - CDI + spread x %CDI, in the amount of R\$1.5 billion, to cover the fixed debentures spread, which generate a positive result of R\$21 thousand.

Fixed-to-Fixed Tariff Increase On July 17, 2007, through Edicts #66028 and #66031, Agência Nacional de Telecomunicações - Anatel approved the tariff adjustment of the Switched Fixed Telephony Service - STFC, according to the criteria established in the concession contracts for Local and Domestic Long Distance Services, effective from July 20, 2007. The following readjustments were applied equally to the Local and DLD, in other words, 2.21%. However, worried about the total transparency over the process of local calls conversion from pulses to minutes, the Company postponed, in a promotional disposition, the implementation of the tariff adjustment over local pulses and minutes to October 01, 2007.

Fixed-to-Mobile Tariff Increase On July 17, 2007, through Edict #66029, Agência Nacional de Telecomunicações - Anatel approved the 3.29% tariff adjustment for the fixed-to-mobile calls (VC1, VC2 and VC3) throughout the entire concession area of Telesp, sectors 31, 32 and 34 of Region III. On the same date, Anatel approved the readjustment of the fixed-to-mobile interconnection rate (VUM) related to the VC1, VC2 and VC3 in 2.25%. The readjustments were effective as of July 20, 2007.

HISTORICAL SUMMARY

Since November 30, 1999 and due to a corporate restructuring, Telecomunicações de São Paulo S.A. - TELESP is the new name of Telesp Participações S.A., a corporation organized under the laws of the Federal Republic of Brazil, formed upon the spin off of Telecomunicações Brasileiras S.A., on May 22, 1998. TELESP is the main provider of fixed line public telecommunications services in the Brazilian state of São Paulo. The Brazilian Government sold its stake in TELESP PARTICIPAÇÕES, thus privatizing the Company, on July 29, 1998.

In December 1999, Telecomunicações de São Paulo S.A. - TELESP acquired voting and non-voting shares of Centrais Telefônicas de Ribeirão Preto S.A. - CETERP. The CETERP cellular operating division was sold afterwards. The tender offer to exchange the shares of the Company by BDRs (Brazilian Depositary Receipts) representative of the shares of Telefônica, S.A. was concluded on June 30, 2000.

On August 03, 2000, the wholly owned subsidiary Telefônica Empresas S.A. was created, whose corporate goal is to render switched package network services. On November 24, 2000, the Company completed the capital increase on its fully owned subsidiary in local currency and through the valuation of the assets related to the switched package network services, including the transfer of the authorization to render that service.

On January 30, 2001, Telefônica Data Brasil Holding S.A. was created, resulting of the partial spin-off of the Company's net equity. This equity was represented by the investment in the fully owned subsidiary Telefônica Empresas S.A. and accounts receivable. The purpose of the creation of Telefônica Data Brasil Holding S.A. was the segregation of the operating activities related to the switched package network services, due to the administrative and operating restructuring in the year 2000.

TELESP's business, services and tariffs have been regulated by ANATEL (Agência Nacional de Telecomunicações) since June 16, 1997, according to various decrees, decisions, plans and regulatory measures.

TELESP became the first operator to file the corresponding information of the accomplishment of ANATEL's targets. ANATEL has already granted the license to permit Telesp to offer domestic and international long distance services to its customers, and also to extend its business out of its concession area (São Paulo) to the whole country. The international long distance services started to be deployed on May 7, 2002 while the domestic long distance services were not being rendered in that period due to a legal injunction. For the same reasons, the domestic long distance services started to be deployed on July 29, 2002.

The Board of Directors of ANATEL, on its 240th meeting held on January 29, 2003 granted Telecomunicações de São Paulo S.A. - Telesp the authorization to exploit the Multimedia Communications Service (SCM) nationwide. The Company may offer voice and data services through points of presence, composed of networks and telecommunication circuits.

On July 06, 2003, the mobile telephony operators started to implement the long distance carrier selection (CSP). It enables the client to determine the long distance carrier for each domestic long distance call (VP2 and VP3) or international call, according to the SMP Mobile Personal Service rules. Consequently, the Company started to acknowledge the revenues from said services and, at the same time, started to pay to the mobile telephony operators for the use of their networks.

On September 04, 2004, the rules established in Resolution #373 of Anatel (National Telecommunications Agency), dated as of June 03, 2004, were implemented. This Resolution deals with the reconfiguration of the local areas for the Switched Fixed Telephony Service - STFC. As a consequence, all calls, previously billed as domestic long distance DC level (Áreas Conurbadas), are now billed as local calls.

On December 04, 2004, the phase II of the rules established in Resolution #373 of Anatel (National Telecommunications Agency), dated as of June 03, 2004, was implemented. This modification involved 25 municipalities, distributed into 9 different groups. The calls among the municipalities within each group will be billed as local calls. Previously, such calls were billed as domestic long distance, levels 1 and 2.

On December 24, 2004, the Company acquired the control of Santo Genovese Participações Ltda., controller of Atrium Telecomunicações Ltda. (Atrium), company dedicated to the management of the rendering of telecommunication services. The operation allowed the Company to increase its offer to the domestic market with services that have greater value added, through the management of the rendering of telecommunication services.

On December 31, 2005, the concession contract for the STFC expired. On December 22, 2005, this concession contract was extended for a period of 20 years, while it can be modified on December 31, 2010, December 31, 2015 and December 31, 2020. This condition allows Anatel to establish new conditions and new targets for universalization and quality, taking into consideration the conditions in place by that time.

Every two years for the 20-years period of the new contracts, the public regime companies will have to pay a renewal tax equivalent to 2% of the revenues of the STFC of the previous year of the payment, net of applicable taxes and social contributions. Since 2006, the Company has been provisioning the concession renewal rate by competence regime. Considering that this rate is connected to two periods, the Company will register as costs of the rendered services 1% of the annual net revenues of each period. The first payment of the bi-annual tax took place on April 30, 2007, based on the net incomes of STFC 2006. The next payment is foreseen for April 30, 2009 based on the net incomes of STFC 2008.

On July 28, 2006, the corporate restructuring involving the activities of the Multimedia Communication Services (SCM), through the merger of TDBH into Telesp and partial spin-off of Telefônica Empresas, was finalized. The process also includes the transfer to Telesp of the assets and activities of the SCM in the regions in which such service is already rendered by Telesp.

On March 14, 2007 ANATEL conceded to A.Telecom S.A. one license to offer Pay TV through satellite (Direct to Home - DTH). DTH is a special type of service of Pay TV that uses satellites for the direct distribution of television and audio signs for the subscribers. The launch of the commercial operation occurred on August 12, 2007.

On October 31, 2007, ANATEL concluded the process of regulatory analysis between Grupo Abril and Telesp involving the acquisition of 100% of the MMDS (Multichannel Multipoint Distribution Service) and broadband operations, and participation in the company's capital stock, at the limit of the effective law and regulation, of TV and cable operators controlled by the Grupo Abril inside and outside São Paulo's State.

On February, 2008, the company launched a pioneer offer of internet access through Fiber Optic (Fiber to the Home - FTTH) for residential segment on Sao Paulo neighborhood Jardins. Besides the internet connection with speed capacity of 8, 16, 30 Mb, bundles including Wi-Fi, Digital TV and 2,000 minutes of local and intra-state calls, safety bundle, call identifier, technical assistance and specific call center started to be offered.
