**UNITED STATES**  
**SECURITIES AND EXCHANGE COMMISSION**  
**WASHINGTON, D.C. 20549**  
**FORM 10-K**

(Mark One)

☒ **ANNUAL REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934**  
For the Fiscal Year Ended June 30, 2012

or

☐ **TRANSITION REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934**  
For the transition period from \_\_\_\_\_ to \_\_\_\_\_

Commission File Number: 0-30260

**eGain Communications Corporation**

(Exact name of registrant as specified in its charter)

**Delaware**  
(State or other jurisdiction)

**77-0466366**  
(I.R.S. Employer

of incorporation or organization)

**1252 Borregas Avenue, California 94089**  
(Address of principal executive offices, including zip code)

Identification No.)  
**(408)636-4500**  
(Registrant's telephone number, including area code)

**Securities registered pursuant to Section 12(b) of the Act:**

**Common Stock, par value \$0.001 per share**

**Securities registered pursuant to Section 12(g) of the Act: None**

Indicate by check mark if registrant is a well-known seasoned issuer, as defined in Rule 405 of the Securities Act. Yes ☐ No ☒

Indicate by check mark if registrant is not required to file reports pursuant to Section 13 or Section 15(d) of the Act. Yes ☐ No ☒

## Edgar Filing: EGAIN COMMUNICATIONS CORP - Form 10-K

Indicate by check mark whether the registrant: (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days: Yes ☒ No ☐

Indicate by check mark whether the registrant has submitted electronically and posted on its corporate Web site, if any, every Interactive Data File required to be submitted and posted pursuant to Rule 405 of Regulation S-T (§232.405 of this chapter) during the preceding 12 months (or for such shorter period that the registrant was required to submit and post such files). Yes ☒ No ☐.

Indicate by check mark if disclosure of delinquent filers pursuant to Item 405 of Regulation S-K is not contained herein, and will not be contained, to the best of registrant's knowledge, in definitive proxy or information statements incorporated by reference in Part III of this Form 10-K or any amendment to this Form 10-K. ☒

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, or non-accelerated filer or a smaller reporting company. See the definitions of "large accelerated filer", "accelerated filer" and "smaller reporting company", in Rule 12b-2 of the Exchange Act (check one):

Large accelerated filer ☐

Accelerated filer ☐

Non-accelerated filer ☐ (Do not check if a smaller reporting company)

Smaller reporting company ☒

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act): Yes ☐ No ☒.

The aggregate market value of the voting and non-voting common equity held by non-affiliates (based on the closing price on the Nasdaq Capital Market) on December 31, 2011, was approximately \$38.6 million. For purposes of the foregoing calculation only, the registrant has included in the shares owned by affiliates the beneficial ownership of voting and non-voting common equity of officers and directors, and affiliated entities, of the registrant and members of their families. Such inclusion shall not be construed as an admission that any such person is an affiliate for any other purpose.

Indicate the number of shares outstanding of each of the issuer's classes of common stock, as of the latest practicable date.

Class	Outstanding at September 21, 2012
Common Stock \$0.001 par value	24,568,513

### DOCUMENTS INCORPORATED BY REFERENCE

Items 10 (as to directors), 11, 12, 13 and 14 of Part III incorporate by reference information from the registrant's proxy statement to be filed with the Securities and Exchange Commission in connection with the solicitation of proxies for the registrant's 2012 Annual Meeting of Stockholders.

### **CAUTIONARY NOTE ON FORWARD-LOOKING STATEMENTS**

*This report on Form 10-K and the documents incorporated herein by reference contain forward-looking statements that involve risks and uncertainties. These statements may be identified by the use of the words such as anticipates, believes, continue, could, would, estimates, expects, intends, may, might, plans, potential, should, or will and similar expressions or the negative of those terms. The forward-looking statements include, but are not limited to, risks stemming from: Our hybrid revenue model may impact our operating results; continued lengthy and delayed sales cycles; our failure to compete successfully in the markets in which we do business; our history of net losses and our ability to sustain profitability; the adequacy of our capital resources and need for additional financing; the development and expansion of our strategic and third party distribution partnership and relationships with systems integrators; our ability to improve our current products; our ability to innovate and respond to rapid technological change and competitive challenges; legal liability and/or negative publicity for the services provided to consumers via our technology platforms; legal and regulatory uncertainties and other risks related to protection of our intellectual property assets; the operational integrity and maintenance of our systems; an unauthorized access is obtained to a customer's data or our data or our IT systems; the uncertainty of demand for our products; the anticipated customer benefits from our products; the actual mix in new business between hosting and license transactions when compared with management's projections; the anticipated revenue to us from the Cisco OEM agreement; the ability to increase revenue as a result of the increased investment in sales and marketing; our ability to hire additional personnel and retain key personnel; our ability to manage our expenditures and estimate future expenses, revenue, and operational requirements; our ability to manage our business plans, strategies and outlooks and any business-related forecasts or projections; risks from our substantial international operations; our inability to successfully detect weaknesses or errors in our internal controls; our ability to manage future growth and geographical and currency fluctuations. Our actual results could differ materially from those discussed in statements relating to our future plans, product releases, objectives, expectations and intentions, and other assumptions underlying or relating to any of these statements. These forward-looking statements represent our estimates and assumptions and speak only as of the date hereof. We expressly disclaim any obligation or understanding to release publicly any updates or revisions to any forward-looking statements contained herein to reflect any change in our expectations with regard thereto or any change in events, conditions or circumstances on which any such statement is based unless required by law.*

All references to eGain, the Company, our, we or us mean eGain Communications Corporation and its subsidiaries, except where it is clear from the context that such terms mean only this parent company and excludes subsidiaries.

## **PART I**

### **ITEM 1. BUSINESS**

#### **Overview**

The Company was incorporated in Delaware in September 1997. eGain is one of the premier providers of cloud and on-site customer interaction software for sales and service. For over a decade, eGain solutions have helped improve customer experience, grow sales, and optimize service processes across the web, social, and phone channels. Hundreds of global enterprises rely on eGain to transform fragmented sales engagement and customer service operations into unified customer interaction hubs.

#### **Industry Background**

As products get commoditized in a global economy, differentiation increasingly depends on customer interactions. For businesses that sell to consumers (B2C), one poor customer experience can be amplified and spread overnight through social networks. Consumers expect businesses to serve them conveniently and intelligently across all touch points. Furthermore, multichannel customers are more demanding and spend more than the average customer. Not surprisingly, businesses are looking for efficient, scalable solutions to deliver smart multichannel customer interactions.

## **Table of Contents**

Traditional CRM solutions are not designed for the multichannel world. Mostly, they see the phone as the primary customer contact channel. Other channels like web and social are seen as secondary and are often not designed in the solution from the start. As a result, customer experience delivered through these platforms tends to be fragmented and inconsistent across channels. For instance, unified customer history across channels requires solution integration and user interface patchwork.

### **The eGain Solution**

Our solution is designed to provide clients with the following benefits:

*Build profitable long-term customer relationships.* Customers are spending more time conducting business on the Web and Social channels. Our solution helps businesses design brand-aligned experiences at every touch point. Whether a customer is looking to buy, ask a question, or pay a bill, our solution helps businesses provide customers personalized, consistent responses.

*Increase revenue through improved sales conversion and cross-sell.* In addition to strengthening customer relationships, our solution helps businesses convert website visitors into buyers. It also helps agents to contextually up-sell and cross-sell products in the course of customer interactions. A visitor to a website that uses eGain can be proactively offered personalized promotional content or real-time assistance based on configurable business rule informed by visitor behavior and history. Visitors can interact with a customer service representative live over the Web through click to call, chat and cobrowse to inquire about and buy a product. Customers calling into a service center can be offered powerful cross-sell offers by agents using the expert reasoning capability of eGain.

*Reduce operating costs through improved agent productivity and self-service automation.* Our solution helps companies to provide highly effective customer service while reducing operating costs. Our intelligent routing, auto-response, tracking, and reporting features, complemented with agent-facing knowledge tools, measurably enhance the productivity of service agents. Our robust online self-service tools, with integrated escalation paths and sophisticated artificial intelligence, help resolve customer inquiries without human assistance.

*Reduce total cost of ownership through an open architecture, integration adapters, and scalable design.* Our solution is designed to easily integrate with business data and processes residing in legacy systems and other enterprise data sources. By integrating out of the box with leading business applications, our platform allows clients to leverage existing data, content, and communication assets.

*Offer rapid time to value through flexible deployment options.* Our solution can be deployed on-site, on-demand, or as a managed service. In addition, we offer eGain Solution-as-a-Service (SLaaS), a package that enables clients to use our solution without a long-term contract or upfront implementation fee. Moreover, our clients have the flexibility to move from one deployment model to another when their needs change.

### **Products and Services**

#### *eGain 10 Suite*

Recognized by industry analysts and trusted by leading companies worldwide, eGain 10 helps businesses engage, acquire, and serve customers through multiple interaction channels. It offers modular, best-of-breed applications built on a one-of-a-kind customer interaction hub platform that provides 360-degree customer context and actionable knowledge to enhance every customer interaction. Built for rapidly implementing next-generation customer interaction strategies, eGain 10 consists of:

**eGain Interactive Sales Suite** to transform B2C websites into interactive shopping destinations.

**eGain Service Suite** to transform traditional call centers into knowledge-powered multichannel customer interaction hubs.

## **Table of Contents**

**eGain CIH** , a multichannel customer interaction hub (CIH) platform that provides centralized business rules, interactions, knowledge, workflow, analytics, administration, and integrations to all applications.

**eGain Adapters** for integrating with leading call center, business, content, and email systems.

A special edition of eGain 10, **eGain 10 for Cisco Unified CCX** , provides a pre-integrated, multichannel interaction solution for use with Cisco Unified Contact Center Express.

eGain 10 includes the following best-of-breed applications for web, social and contact center interactions:

### *Web Customer Interaction Applications*

**eGain Offers** helps businesses engage visitors on the company website and Facebook fan pages with proactive, targeted offers. Using browsing behavior and other attributes, the solution anticipates visitor needs and proactively serves a personalized offer. It leapfrogs existing proactive chat point solutions by providing coupons, promotions, surveys, personalized content and contextual help in the form of FAQ, chatbot, chat, click to call, and cobrowse options.

**eGain Chatbot** enables businesses to offer text and speech chat interactions with one or more virtual assistants (chatbots). Multilingual, emotionally and culturally intelligent, the eGain Chatbot is capable of understanding natural language. It can be deployed on websites and mobile devices and supports seamless integration with assisted chat channels.

**eGain Cobrowse** enables phone and chat reps to show customers around the website, help locate information, and hand-hold them during complex, anxiety-ridden tasks such as completing forms or checking out shopping carts. It offers true collaborative browsing without any customer download requirement. Access to web page views and actions is controlled through user roles and business rules.

**eGain Chat** enables website visitors to conduct text and video chats with agents. It gives representatives a comprehensive set of tools for serving customers in real-time. eGain Chat supports two-way, follow me web browsing so that agents and customers can lead each other to specific web pages for faster issue resolution. The system's powerful, query-specific routing and workflow maximize both agent productivity and interaction quality.

**eGain ClickToCall** provides website visitors the ability to request a callback while browsing. Callbacks can be scheduled according to the customer's convenience or be established in real-time.

**eGain SelfService** is a comprehensive solution supporting what we believe to be the broadest set of self-service access options in the industry: dynamic FAQs, topic-based browsing, natural language search, guided help, virtual assistant technology, and case tracking. eGain SelfService offers a unique combination of rich, multi-access self-service capabilities built on a collaborative knowledge management framework within eGain OpenCIH Platform. This framework makes it easy for organizations to create, maintain, and enhance common content in a distributed manner, as well as leverage existing content from across the enterprise. The key modules of this application are:

**eGain Portals** enables organizations to provide distinctive, productive and brand-aligned self-service experiences. Powered by eGain Multisearch knowledge access technology, it brings together the power of a broad set of knowledge access methods, federated search, process intelligence, multilingual capabilities, and flexible look and feel all behind a single search box for distinctive, on-target self-service. Customers can also view frequently asked questions, manage their own accounts, review open tickets, and review their communications with the company within a secure, personalized environment.

**eGain Guided Help** gives customers interactive access to the company's knowledge base, allowing them to find answers and troubleshoot problems by themselves at their convenience. It uses patented search and reasoning technology, coupled with natural language and advanced linguistic processing to search, suggest additional questions, and recommend solutions.

## **Table of Contents**

**eGain MessageCenter** enables secure and authenticated messaging between a business and its customers. eGain MessageCenter is a secure web-based portal for customers to read confidential messages, including attachments.

**eGain Widgets** enable contextual access to knowledge and account information through mobile devices and web pages.

**eGain Survey** helps contact centers, ecommerce sites, and customer portals connect with their customers in a vital and immediate way by eliciting feedback at various points of contact. It enables them to measure and improve the quality of service across all interaction channels, thereby maximizing customer retention.

### *Social Customer Interaction Applications*

**eGain Social** is a one-of-a-kind application for social customer service knowledge harvesting and single-sourced social publishing, and reputation management. It enables businesses to monitor social networks such as Facebook, Twitter and blogs for customer queries, analyze their content, analyze search results for sentiment, route them intelligently, and post responses privately or back to the social cloud in media appropriate format.

**eGain Community** enables the creation and management of online communities or forums, community knowledge harvesting, and single-sourced publishing. Forum posts are searchable from portals, and can be submitted as content for the Knowledge Base Adapters to allow integration with existing forums.

### *Contact Center Applications*

**eGain Mail** is an industry-leading application for processing inbound customer emails and providing mission-critical email customer response, incorporating hundreds of best practices developed over years of serving innovative global enterprises. Secure messaging, lifecycle audits, and real-time archival are some of the features that provide our customers a next-generation email management platform for their enterprises. Designed to process very high volumes of email and webform requests, eGain Mail allows companies to deliver consistent, high-quality service through flexible process automation, optimized user interface, and powerful reports. Additional modules include:

**eGain SecureMail** for authenticated web-based access to confidential emails. It is widely used in financial services sector and other regulated industries.

**eGain EncryptedMail** for encrypted email payload delivered to the customer's mailbox (push), complementing eGain SecureMail (invitation to secure website to share payload).

**eGain Fax** and **eGain SMS** to enable timely responses to faxes (and postal mail) and SMS with the same infrastructure that is used to handle emails. Optical Character Recognition (OCR) technology is used to process faxes and postal mail.

**eGain CallTrack** is a comprehensive and a flexible phone call logging system. Together with **eGain KnowledgeAgent**, it provides an integrated application for phone call logging, tracking and resolution as well as follow-on task management for service fulfillment.

## Edgar Filing: EGAIN COMMUNICATIONS CORP - Form 10-K

**eGain KnowledgeAgent** empowers contact center agents with best-practice knowledge management and is designed to make every agent as productive and capable as the enterprise's best agent. This application delivers fast, consistent, and accurate answers to agents as they use the rich conversational interface while engaging customers over the phone. eGain KnowledgeAgent uses patented search and reasoning technology coupled with natural language and advanced linguistic processing to search, suggest additional questions, and recommend solutions. eGain Multisearch enables simple search-based access to various types of federated content and guided help.

## **Table of Contents**

**eGain Notify** is a flexible, easy-to-use application for managing and delivering automatic reminders, alerts, and updates at all stages of the customer relationship cycle. It is used to provide proactive customer service by sending alerts to customers via multiple interaction channels such as email, phone and SMS. These alerts could span various stages of a service transaction, a customer's life event, or a customer's overall life progression where a business may want to add value by providing contextual customer service.

**eGain SME** is an enterprise collaboration tool that allows subject matter experts, or SMEs, to participate in the process of resolving customer queries. SMEs, both internal in the contact center and external in other departments or companies, are able to fully participate in both solving ongoing problems and suggesting new solutions for inclusion in the knowledge base.

### *Flexible Deployment Options*

eGain's deployment options, we believe, are unmatched in the industry. eGain customers can choose from multiple options: on-site, cloud, managed, and solution as a service. They can even choose a hybrid model or switch from one deployment type to another. eGain is one of the few vendors that has consistently offered both cloud and on-site deployments for more than a decade.

## **Operations**

We serve our customers and end users from several secure data centers worldwide. Physical security features at these facilities include 24x7x365 on-site security, three physical barriers and multiple access controls. The systems at these facilities are protected by firewalls and encryption technology we utilize. Operational redundancy features include redundant power, on-site backup generators, multiple carrier entrance facilities, and robust environmental controls and monitoring.

We employ a wide range of security features, including two-factor authentication, data encryption, encoded session identifications and passwords. We contract with specialized security vendors to conduct regular security audits of our infrastructure. We also employ outside vendors for 24x7x365 managed network security and monitoring. Every page we serve is delivered encrypted to the end user via a Secure Socket Layer, or SSL, transaction. We also use encryption in our storage systems and backup technology.

We continuously monitor the performance of our application suite using a variety of automated tools. We designed our infrastructure with built-in redundancy for all key components. Our network includes redundant firewalls, switches and intrusion detection systems, and incorporates failover backup for maximum uptime. We load balance at each tier in the network infrastructure. We also designed our application server clusters so that servers can fail without interrupting the user experience, and our database servers are clustered for failover. We regularly back up and store customer data both on and off-site in secure locations to minimize the risk of data loss at any facility.

## **Customers**

We serve a worldwide customer base across a wide variety of industry sectors, including retail, telecommunications, financial services, insurance, outsourced services, technology, utilities, government, manufacturing and consumer electronics. Our product is sold primarily to large enterprises (over \$500 million in annual revenue). For the fiscal year ended June 30, 2012, international revenue accounted for 44% and domestic revenue for 56% of total revenue, compared to 53% and 47% respectively for fiscal year 2011 and 47% and 53% respectively for fiscal year 2010.

One customer accounted for about 10% of total revenue in fiscal year 2012, compared to 22% and 14% respectively in fiscal years 2011 and 2010.

## **Table of Contents**

### **Competition**

We compete with other application software vendors including Avaya, Inc., Genesys Telecommunications, Kana Software, Inc., Live Person, Inc., and Moxie Software, Inc. In addition, we face actual or potential competition from larger software companies such as Microsoft Corporation, Oracle Corporation, and Salesforce.com, Inc. that may attempt to sell customer interaction software to their installed base. We also compete with internally developed applications within large enterprises. Finally, we face, or expect to face, competition from software vendors who may develop toolsets and products that allow customers to build new applications that run on the customers' infrastructure or as hosted services.

We believe the principal competitive factors in our market include the following:

proven track record of customer success;

speed and ease of implementation;

product functionality;

financial stability and viability of the vendor;

product adoption;

ease of use and rates of user adoption;

low total cost of ownership and demonstrable cost-effective benefits for customers;

performance, security, scalability, flexibility and reliability of the service;

ease of integration with existing applications;

quality of customer support;

availability and quality of implementation, consulting and training services; and

vendor reputation and brand awareness.

### **Sales and Marketing**

#### *Sales Strategy*

## Edgar Filing: EGAIN COMMUNICATIONS CORP - Form 10-K

Our sales strategy is to pursue targeted accounts, mostly Business to Consumer (B2C) enterprises, through a combination of our direct sales force and partners. We target our sales efforts at Enterprise companies. Our North American direct sales organization is based at our corporate headquarters in Sunnyvale, California, with field sales presence throughout the United States. Internationally, we have field offices in France, Germany, Ireland, Italy, India, the Netherlands and the United Kingdom.

The direct sales force is organized into teams that include sales representatives and sales consultants. Our direct sales force is made up of two components, field sales and inside sales representatives. It is complemented by lead generation representatives.

We also complement our direct sales force with reseller and sales alliances. We believe we are able to leverage additional sales, marketing and deployment capabilities through these alliances.

### *Marketing and Partner Strategy*

Our marketing strategy is to build our brand around innovative and robust products trusted by leading enterprises. Our marketing organization focuses on public relations, analyst relations, marketing communications and demand generation. We employ a wide range of marketing avenues to deliver our message, including print

## **Table of Contents**

and Internet advertising, targeted electronic and postal mailing, email newsletters, and a variety of trade shows, seminars, webinars, and interest groups.

Our marketing group also produces sales tools, including product collateral, customer case studies, demonstrations, presentations, and competitive analyses. In addition, the group performs market analyses and customer reviews to identify and develop key partnership opportunities and product capabilities.

We believe that our partners help extend the breadth and depth of our product offerings, drive market penetration, and augment our professional service capabilities. We believe these relationships are important to delivering successful, integrated products and services to our customers, and scaling our business. Our partner portal, EcoNet , enables us to provide comprehensive sales, support and services information for channel partners, while enabling them to collaborate with one another through an online forum. Partner enablement is a key focus area for our consulting and training teams too.

As of fiscal year ended June 30, 2012, there were approximately 138 employees engaged in worldwide sales and marketing activities.

## **Consulting and Education**

Our worldwide professional services organization provides consulting and education services designed to facilitate customer success and build customer loyalty.

*Consulting Services.* Our consulting services group offers rapid implementation services, custom solution development, and systems integration services. Consultants work with customers to understand their specific requirements, analyze their business needs, and implement integrated solutions. We provide these services independently or in partnership with system integrators who have developed consulting expertise on our platform.

*Education Services.* Our education services group provides a comprehensive set of basic and customized training programs to our customers and partners in addition to online tutorial modules for ongoing refresher courses. Training programs are offered either in-person at the customer site, or at one of our worldwide training centers.

As of fiscal year ended June 30, 2012, we had approximately 100 professionals providing worldwide services for systems installation, solutions development, application management, and education.

## *Customer Support*

We offer a comprehensive collection of support services designed to rapidly respond to inquiries. Our technical support services are available to customers worldwide under maintenance agreements. Our customer support strategy is to provide dedicated customer support account managers for large enterprise customers. The customer support team uses eGain's own software suite to provide world-class service to all our customers through support centers located in California, the United Kingdom, and India.

As of fiscal year ended June 30, 2012, there were approximately 33 employees engaged in worldwide customer support services.

## **Research and Development**

The market for our products changes rapidly and is characterized by evolving industry standards, swift changes in customer requirements, and frequent new product introductions and enhancements. We believe that strong product development capabilities are essential to our strategy of maintaining technology leadership. This includes enhancing current technology, providing excellent quality, performance, and functionality, as well as developing

## **Table of Contents**

additional applications, and maintaining the competitiveness of our product and service offerings. We have invested significant time and resources to set up a comprehensive software development process that involves several functional groups at all levels within our organization and is designed to provide a framework for defining and addressing the activities required in bringing product concepts and development projects to market successfully.

In addition, we continuously analyze market and customer requirements and evaluate technology that we believe will enhance platform acceptance in the market.

As of fiscal year ended June 30, 2012, there were approximately 113 employees engaged in worldwide product development activities. We spent approximately \$6.1 million on research and development in fiscal year 2012, and \$5.6 million and \$5.5 million respectively in fiscal years 2011 and 2010.

## **Intellectual Property**

We regard our intellectual property as critical to our success. We rely on intellectual property and other laws, in addition to confidentiality procedures and licensing arrangements, to protect the proprietary aspects of our technology and business.

We continually assess the propriety of seeking intellectual property protection for those aspects of our technology that we believe constitute innovations providing significant competitive advantages. Future applications may or may not receive the issuance of valid patents or registered trademarks.

We routinely require our employees, customers, and potential business partners to enter into confidentiality and nondisclosure agreements before we will disclose any sensitive aspects of our products, technology, or business plans. In addition, we require employees to agree to surrender to us any proprietary information, inventions or other intellectual property they generate or come to possess while employed by us. Despite our efforts to protect our proprietary rights through confidentiality and license agreements, unauthorized parties may attempt to copy or otherwise obtain and use our products or technology. These precautions may not prevent misappropriation or infringement of our intellectual property. In addition, some of our license agreements with certain customers and partners require us to place the source code for our products into escrow. These agreements typically provide that some party will have a limited, non-exclusive right to access and use this code as authorized by the license agreement if there is a bankruptcy proceeding instituted by or against us, or if we materially breach a contractual commitment to provide support and maintenance to the party.

Third parties may infringe or misappropriate our intellectual property and similar proprietary rights. In addition, other parties may assert infringement claims against us. Our products may infringe issued patents that may relate to our products. In addition, because patent applications in the United States are not publicly disclosed until the patent is issued, applications may have been filed which relate to our software products. We may be subject to legal proceedings and claims from time to time in the ordinary course of our business, including claims of alleged infringement of the patents and other intellectual property rights of third parties. Intellectual property litigation is expensive and time consuming and could divert management's attention away from running our business. This litigation could also require us to develop non-infringing technology or enter into royalty or license agreements. These royalty or license agreements, if required, may not be available on acceptable terms, if at all, in the event of a successful claim of infringement. Our failure or inability to develop non-infringing technology or license the proprietary rights on a timely basis would harm our business.

## **Employees**

As of fiscal year ended June 30, 2012, we had 454 full-time employees, of which 113 were in product development, 157 in services and support, 138 in sales and marketing, and 46 in finance and administration.

**Table of Contents**

None of our employees are covered by collective bargaining agreements. While we believe our relations with our employees are good, our future performance depends largely upon the continued service of our key technical, sales and marketing, and senior management personnel, none of whom are bound by employment agreements requiring service for a defined period of time. The loss of services of one or more of our key employees could have a material adverse effect on our business.

We may not be successful in attracting, training and retaining qualified personnel, and the failure to do so, particularly in key functional areas such as product development and sales, could materially and adversely affect our business, results of operations and financial condition. Our future success will likely depend largely on our ability to attract and retain experienced sales, technical, marketing and management personnel.

## **Table of Contents**

### **ITEM 1A. RISK FACTORS**

*The risks and uncertainties described below are not the only ones facing us. Other events that we do not currently anticipate or that we currently deem immaterial also may affect our results of operations, cash flows and financial condition.*

**Our business is influenced by a range of factors that are beyond our control and that we have no comparative advantage in forecasting. These include:**

general economic and business conditions;

currency exchange rate fluctuations;

the overall demand for enterprise software and services;

governmental budgetary constraints or shifts in government spending priorities; and

general political developments.

The continued global economic crisis caused a general tightening in the credit markets, lower levels of liquidity, increases in the rates of default and bankruptcy, and extreme volatility in credit, equity and fixed income markets. These macroeconomic developments negatively affected, and could continue to negatively affect, our business, operating results or financial condition which, in turn, could adversely affect our stock price. A general weakening of, and related declining corporate confidence in, the global economy or the curtailment in government or corporate spending could cause current or potential customers to reduce their technology budgets or be unable to fund software or services purchases, which could cause customers to delay, decrease or cancel purchases of our products and services or cause customers not to pay us or to delay paying us for previously purchased products and services.

#### **Our hybrid revenue model may impact our operating results**

We have a hybrid delivery model meaning that we offer our solutions on a hosted or license basis to our customers. For license transactions, the license revenue amount is generally recognized in the quarter delivery and acceptance of our software takes place. Whereas, for hosting transactions, hosting revenue is recognized ratably over the term of the hosting contract, which is typically one to two years. As a result, our total revenue may increase or decrease in future quarters as a result of the timing and mix of license and hosting transactions. This could be exacerbated if we have more customers that choose the hosted solution over our licensed solution; causing us to increase the amount of revenue recognized ratably over the life of the contract therefore resulting in our total revenue to decrease in the short-term.

#### **Our lengthy sales cycles and the difficulty in predicting timing of sales or delays may impair our operating results**

The long sales cycle for our products may cause license revenue and operating results to vary significantly from period to period. The sales cycle for our products can be six months or more and varies substantially from customer to customer. Because we sell complex and deeply integrated solutions, it can take many months of customer education to secure sales. While our potential customers are evaluating our products before, if ever, executing definitive agreements, we may incur substantial expenses and spend significant management effort in connection with the potential customer. Our multi-product offering and the increasingly complex needs of our customers contribute to a longer and unpredictable sales cycle. Consequently, we often face difficulty predicting the quarter in which expected sales will actually occur. This contributes to the uncertainty and fluctuations in our future operating results. In particular, the corporate decision-making and approval process of our customers and potential customers has become more complicated. This has caused our average sales cycle to further increase and, in some cases, has prevented the closure of sales that we believed were likely to close. In addition, historically our license sales have comprised a relatively small number of high value transactions; consequently, we may miss our revenue forecasts and may incur expenses that are not offset by corresponding revenue from the delay in even one transaction.

## **Table of Contents**

### **We must compete successfully in our market segment**

The market for customer interaction software is intensely competitive. Other than product innovation and existing customer relationships, there are no substantial barriers to entry in this market, and established or new entities may enter this market in the future. While software internally developed by enterprises represents indirect competition, we also compete directly with packaged application software vendors, including Avaya, Inc., Genesys Telecommunications, Kana Software, Inc., Live Person, Inc., and Moxie Software, Inc. In addition, we face actual or potential competition from larger software companies such as Microsoft Corporation, Oracle Corporation, Salesforce.com, Inc. and similar companies that may attempt to sell customer interaction software to their installed base.

We believe competition will continue to be fierce as current competitors increase the sophistication of their offerings and as new participants enter the market. Many of our current and potential competitors have longer operating histories, larger customer bases, broader brand recognition, and significantly greater financial, marketing and other resources. With more established and better-financed competitors, these companies may be able to undertake more extensive marketing campaigns, adopt more aggressive pricing policies, and make more attractive offers to businesses to induce them to use their products or services.

### **We have experienced growth in recent periods and expect to continue to grow. If we fail to manage our growth effectively, we may be unable to execute our business plan, maintain high levels of service or adequately address competitive challenges**

To achieve our business objectives, we will need to continue to expand our business at an appropriate pace. This expansion has placed, and is expected to continue to place, a significant strain on our managerial, administrative, operational, financial and other resources. We anticipate that expansion will require substantial management effort and additional investment in our infrastructure and headcount. If we are unable to successfully manage our growth, our business, financial condition and results of operations will be adversely affected.

Part of the challenge that we expect to face in the course of our expansion is increased staffing which is being used primarily towards developing new sales strategies and expanding into different markets. We have considerable need to recruit, train, and retain qualified staff and any delays or difficulties we encounter in these staffing efforts could impair our ability to grow.

We intend to continue to expand our distribution channels into international markets and to spend significant financial and managerial resources to do so. If our revenue from international operations does not exceed the expense associated with establishing and maintaining these channels, our business and operating results will suffer.

### **If we fail to expand and improve our sales performance and marketing activities, we may be unable to grow our business, negatively impacting our operating results and financial condition**

Expansion and growth of our business is dependent on our ability to expand our sales force and on the ability of our sales force to become more productive. If we are not able to effectively develop and maintain awareness of our products in a cost-effective manner, we may not achieve widespread acceptance of our existing and future products. This may result in a failure to expand and attract new customers and enhance relationships with existing customers. This may impede our efforts to improve operations in other areas of the Company and may result in further decline of the market price of our common stock.

Due to the complexity of our customer interaction hub platform and related products and services, we must utilize highly trained sales personnel to educate prospective customers regarding the use and benefits of our products and services as well as provide effective customer support. If we have turnover in our sales and marketing forces and because we have fewer resources than those of our competitors, we may not be able to successfully compete with those of our competitors.

## **Table of Contents**

### **Our failure to develop and expand strategic and third-party distribution channels would impede our revenue growth**

Our success and future growth depends in part upon the skills, experience, performance and continued service of our distribution partners, including software and hardware vendors and resellers. We engage with distribution partners in a number of ways, including assisting us to identify prospective customers, to distribute our products in geographies where we do not have a physical presence and to distribute our products where they are considered complementary to other third party products distributed by the partner. We believe that our future success depends in part upon our ability to develop and expand strategic, long term and profitable partnerships and reseller relationships. If we are unable to do so, or if any existing or future distribution partners fail to successfully market, resell, implement or support our products for their customers, or if distribution partners represent multiple providers and devote greater resources to market, resell, implement and support competing products and services, our future revenue growth could be impeded. Our failure to develop and expand relationships with systems integrators could harm our business.

We sometimes rely on system integrators to recommend our products to their customers and to install and support our products for their customers. We likewise depend on broad market acceptance by these system integrators of our product and service offerings. Our agreements generally do not prohibit competitive offerings and system integrators may develop market or recommend software applications that compete with our products. Moreover, if these firms fail to implement our products successfully for their customers, we may not have the resources to implement our products on the schedule required by their customers. To the extent we devote resources to these relationships and the partnerships do not proceed as anticipated or provide revenue or other results as anticipated, our business may be harmed. Once partnerships are forged, there can be no guarantee that such relationships will be renewed in the future or available on acceptable terms. If we lose strategic third party relationships, fail to renew or develop new relationships, or fail to fully exploit revenue opportunities within such relationships, our results of operations and future growth may suffer.

### **Our international operations involve various risks**

We derived 44% of our revenue from international sales for the fiscal year 2012 compared to 53% for the fiscal year 2011, and 47% for fiscal year 2010. Including those discussed above, our international sales operations are subject to a number of specific risks, such as:

general economic conditions in each country or region in which we do or plan to do business;

foreign currency fluctuations and imposition of exchange controls;

expenses associated with complying with differing technology standards and language translation issues;

difficulty and costs in staffing and managing our international operations;

difficulties in collecting accounts receivable and longer collection periods;

health or similar issues, such as a pandemic or epidemic;

various trade restrictions and tax consequences;

hostilities in various parts of the world; and

## Edgar Filing: EGAIN COMMUNICATIONS CORP - Form 10-K

reduced intellectual property protections in some countries.

About 47% of our workforce is employed in India. Of these employees, more than 41% are allocated to research and development. Although the movement of certain operations internationally was principally motivated by cost cutting, the continued management of these remote operations requires significant management attention and financial resources that could adversely affect our operating performance. In addition, with the significant increase in the numbers of foreign businesses that have established operations in India, the

## **Table of Contents**

competition to attract and retain employees there has increased significantly. As a result of the increased competition for skilled workers, we experienced increased compensation costs and expect these costs to increase in the future. Our reliance on our workforce in India makes us particularly susceptible to disruptions in the business environment in that region. In particular, sophisticated telecommunications links, high speed data communications with other eGain offices and customers, and overall consistency and stability of our business infrastructure are vital to our day-to-day operations, and any impairment of such infrastructure will cause our financial condition and results to suffer. The maintenance of stable political relations between the United States, European Union and India are also of great importance to our operations.

Any of these risks could have a significant impact on our product development, customer support, or professional services. To the extent the benefit of maintaining these operations abroad does not exceed the expense of establishing and maintaining such activities, our operating results and financial condition will suffer.

### **Our revenue and operating expenses are unpredictable and may fluctuate, which may harm our operating results and financial condition**

Due to the emerging nature of the multichannel contact center market and other similar factors, our revenue and operating results may fluctuate from quarter to quarter. Our revenue could fall short of expectations if we experience delays or cancellations of even a small number of orders. It is possible that our operating results in some quarters will be below the expectations of financial analysts or investors. In this event, the market price of our common stock is also likely to decline.

A number of factors are likely to cause fluctuations in our operating results, including, but not limited to, the following:

demand for our software and budget and spending decisions by information technology departments of our customers;

the mix of hosted and license transactions;

seasonal trends in technology purchases;

our ability to attract and retain customers; and

litigation relating to our intellectual proprietary rights.

In addition, we base our expense levels in part on expectations regarding future revenue levels. In the short term, expenses, such as employee compensation and rent, are relatively fixed. If revenue for a particular quarter is below expectations, we may be unable to reduce our operating expenses proportionately for that quarter. Accordingly, such a revenue shortfall would have a disproportionate effect on expected operating results for that quarter. For this reason, period-to-period comparisons of our operating results may also not be a good indication of our future performance.

### **We may need additional capital, and raising such additional capital may be difficult or impossible and will likely significantly dilute existing stockholders**

We believe that existing capital resources will enable us to maintain current and planned operations for the next 12 months. However, our working capital requirements in the foreseeable future are subject to numerous risks and will depend on a variety of factors, in particular, whether we maintain or exceed the level of revenue achieved in fiscal year 2012 and that customers continue to pay on a timely basis. We may need to secure additional financing due to unforeseen or unanticipated market conditions. We may try to raise additional funds through public or private financings, strategic relationships, or other arrangements. Such financing may be difficult to obtain on terms acceptable to us, if at all. If we succeed in raising additional funds through the issuance of equity or convertible securities, then the issuance could result in substantial dilution to existing stockholders. If we raise additional funds through the issuance of debt securities or preferred stock, these new securities would have rights, preferences, and privileges senior to those of the holders of our common stock. The terms of these securities could impose restrictions on our operations.

## **Table of Contents**

### **Difficulties in implementing our products could harm our revenue and margins**

We generally recognize license revenue from a customer sale when persuasive evidence of an arrangement exists, the product has been delivered, the arrangement does not involve significant customization of the software, the license fee is fixed or determinable and collection of the fee is probable. If an arrangement requires significant customization or implementation services from us, recognition of the associated license and service revenue could be delayed. The timing of the commencement and completion of these services is subject to factors that may be beyond our control, as this process requires access to the customer's facilities and coordination with the customer's personnel after delivery of the software. In addition, customers could cancel or delay product implementations. Implementation typically involves working with sophisticated software, computing and communications systems. If we experience difficulties with implementation or do not meet project milestones in a timely manner, we could be obligated to devote more customer support, engineering and other resources to a particular project. Some customers may also require us to develop customized features or capabilities. If new or existing customers cancel or have difficulty deploying our products or require significant amounts of our professional services, support, or customized features, revenue recognition could be cancelled or further delayed and our costs could increase, causing increased variability in our operating results.

### **Our reserves may be insufficient to cover receivables we are unable to collect**

We assume a certain level of credit risk with our customers in order to do business. Conditions affecting any of our customers could cause them to become unable or unwilling to pay us in a timely manner, or at all, for products or services we have already provided them. In the past, we have experienced collection delays from certain customers, and we cannot predict whether we will continue to experience similar or more severe delays in the future. Although we have established reserves to cover losses due to delays or inability to pay, there can be no assurance that such reserves will be sufficient to cover our losses. If losses due to delays or inability to pay are greater than our reserves, it could harm our business, operating results and financial condition.

### **We may be subject to legal liability and/or negative publicity for the services provided to consumers via our technology platforms.**

Our technology platforms enable representatives of our customers as well as individual service providers to communicate with consumers and other persons seeking information or advice on the Internet. The law relating to the liability of online platform providers such as us for the activities of users of their online platforms is often challenged in the U.S. and internationally. We may be unable to prevent users of our technology platforms from providing negligent, unlawful or inappropriate advice, information or content via our technology platforms, or from behaving in an unlawful manner, and we may be subject to allegations of civil or criminal liability for negligent, fraudulent, unlawful or inappropriate activities carried out by users of our technology platforms.

Claims could be made against online services companies under both U.S. and foreign law such as fraud, defamation, libel, invasion of privacy, negligence, copyright or trademark infringement, or other theories based on the nature and content of the materials disseminated by users of our technology platforms. In addition, domestic and foreign legislation has been proposed that could prohibit or impose liability for the transmission over the Internet of certain types of information. Our defense of any of these actions could be costly and involve significant time and attention of our management and other resources.

The Digital Millennium Copyright Act, or DMCA, is intended, among other things, to reduce the liability of online service providers for listing or linking to third party Web properties that include materials that infringe copyrights or rights of others. Additionally, portions of The Communications Decency Act, or CDA, are intended to provide statutory protections to online service providers who distribute third party content. A safe harbor for copyright infringement is also available under the DMCA to certain online service providers that provide specific services, if the providers take certain affirmative steps as set forth in the DMCA. Important questions regarding the safe harbor under the DMCA and the CDA have yet to be litigated, and we cannot guarantee that we will meet the safe harbor requirements of the DMCA or of the CDA. If we are not covered by a safe harbor, for any reason, we could be exposed to claims, which could be costly and time-consuming to defend.

## **Table of Contents**

**From time to time, we may become defendants in legal proceedings about which we are unable to assess our exposure and which could become significant liabilities upon judgment.**

We may become defendants in legal proceedings from time to time. Companies in our industry have been subject to claims related to patent infringement as well as contract and employment-related claims. We may not be able to accurately assess the risk related to these lawsuits, and we may be unable to accurately assess our level of exposure.

**We rely on trademark, copyright, trade secret laws, contractual restrictions and patent rights to protect our intellectual property and proprietary rights and if these rights are impaired our ability to generate revenue will be harmed**

If we fail to protect our intellectual property rights adequately, our competitors might gain access to our technology, and our business might be harmed. In addition, defending our intellectual property rights might entail significant expense. Any of our trademarks or other intellectual property rights may be challenged by others or invalidated through administrative process or litigation. While we have some U.S. patents and pending U.S. patent applications, we may be unable to obtain patent protection for the technology covered in our patent applications. In addition, our existing patents and any patents issued in the future may not provide us with competitive advantages, or may be successfully challenged by third parties. Furthermore, legal standards relating to the validity, enforceability and scope of protection of intellectual property rights are uncertain. Effective patent, trademark, copyright and trade secret protection may not be available to us in every country in which our service is available. The laws of some foreign countries may not be as protective of intellectual property rights as those in the U.S., and mechanisms for enforcement of intellectual property rights may be inadequate. Accordingly, despite our efforts, we may be unable to prevent third parties from infringing upon or misappropriating our intellectual property.

We might be required to spend significant resources to monitor and protect our intellectual property rights. We may initiate claims or litigation against third parties for infringement of our proprietary rights or to establish the validity of our proprietary rights. Any litigation, whether or not it is resolved in our favor, could result in significant expense to us and divert the efforts of our technical and management personnel.

**Unknown software defects could disrupt our products and services and problems arising from our vendors' products or services could disrupt operations, which could harm our business and reputation**

Our product and service offerings depend on complex software, both internally developed and licensed from third parties. Complex software often contains defects or errors in translation or integration, particularly when first introduced or when new versions are released or localized for international markets. We may not discover software defects that affect our new or current services or enhancements until after they are deployed. It is possible that, despite testing by us, defects may occur in the software and we can give no assurance that our products and services will not experience such defects in the future. Furthermore, our customers generally use our products together with products from other companies. As a result, when problems occur in the integration or network, it may be difficult to identify the source of the problem. Even when our products do not cause these problems, these problems may cause us to incur significant warranty and repair costs, divert the attention of our engineering personnel from product development efforts and cause significant customer relations problems. These defects or problems could result in damage to our reputation, lost sales, product liability claims, delays in or loss of market acceptance of our products, product returns and unexpected expenses, and diversion of resources to remedy errors.

## **Table of Contents**

### **Our stock price has demonstrated volatility and continued market conditions may cause declines or fluctuations**

The price at which our common stock trades has been and will likely continue to be highly volatile and show wide fluctuations due to factors such as the following:

concerns related to liquidity of our stock;

actual or anticipated fluctuations in our operating results, our ability to meet announced or anticipated profitability goals and changes in or failure to meet securities analysts' expectations;

announcements of technological innovations and/or the introduction of new services by us or our competitors;

developments with respect to intellectual property rights and litigation, regulatory scrutiny and new legislation;

conditions and trends in the Internet and other technology industries; and

general market and economic conditions.

Furthermore, the stock market has recently and in the past experienced significant price and volume fluctuations that have affected the market prices for the common stock of technology companies, regardless of the specific operating performance of the affected company. These broad market fluctuations may cause the market price of our common stock to increase or decline.

### **Our insiders who are significant stockholders may control the election of our board and may have interests that conflict with those of other stockholders**

Our directors and executive officers, together with members of their immediate families, beneficially owned, in the aggregate, approximately 42% of our outstanding capital stock as of our record date, September 21, 2012. As a result, acting together, this group has the ability to exercise significant control over most matters requiring our stockholders' approval, including the election and removal of directors and significant corporate transactions.

### **Ability to hire and retain key personnel**

Our success will also depend in large part on the skills, experience and performance of our senior management, engineering, sales, marketing and other key personnel. The loss of the services of any of our senior management or other key personnel, including our Chief Executive Officer and co-founder, Ashutosh Roy, could harm our business.

We have embarked upon an aggressive hiring plan to support our growth. Our hiring is focused in the areas of sales and development. We are taking steps to retain our key personnel.

An increase in attrition in the Indian workforce on which we deeply rely for research and development would have significant negative effects on us and our results of operations.

### **Unplanned system interruptions and capacity constraints and failure to effect efficient transmission of customer communications and data over the Internet could harm our business and reputation**

Our customers have in the past experienced some interruptions with eGain-hosted operations. We believe that these interruptions will continue to occur from time to time. These interruptions could be due to hardware and operating system failures. As a result, our business will suffer if we experience frequent or long system interruptions that result in the unavailability or reduced performance of our hosted operations or reduce our

## **Table of Contents**

ability to provide remote management services. We expect to experience occasional temporary capacity constraints due to sharply increased traffic or other Internet-wide disruptions, which may cause unanticipated system disruptions, slower response times, impaired quality, and degradation in levels of customer service. If this were to continue to happen, our business and reputation could be seriously harmed.

The growth in the use of the Internet has caused interruptions and delays in accessing the Internet and transmitting data over the Internet. Interruptions also occur due to systems burdens brought on by unsolicited bulk email or "Spam," malicious service attacks and hacking into operating systems, viruses, worms and a "Trojan" horse, the proliferation of which is beyond our control and may seriously impact our and our customers' businesses.

Because we provide Cloud-based software, interruptions or delays in Internet transmissions will harm our customers' ability to receive and respond to online interactions. Therefore, our market depends on ongoing improvements being made to the entire Internet infrastructure to alleviate overloading and congestion.

Our success largely depends on the efficient and uninterrupted operation of our computer and communications hardware and network systems. A significant amount of our computer and communications systems are located in Sunnyvale, California. Due to our location, our systems and operations are vulnerable to damage or interruption from fire, earthquake, power loss, telecommunications failure and similar events.

We have entered into service agreements with some of our customers that require minimum performance standards, including standards regarding the availability and response time of our remote management services. If we fail to meet these standards, our customers could terminate their relationships with us, and we could be subject to contractual refunds and service credits to customers. Any unplanned interruption of services may harm our ability to attract and retain customers.

### **The terms we agree to in our Service Level Agreements or other contracts may expose us to increased risk through indemnity or other provisions.**

Our Service Level Agreement (SLA) could impose additional risks in the form of added indemnification, service credits for system unavailability, and loss, damage or costs resulting from use of our system. Our typical SLA does provide the customer with unavailability credit.

### **If our security measures are breached and unauthorized access is obtained to a customer's data or our data or our IT systems, our service may be perceived as not being secure, customers may curtail or stop using our service and we may incur significant legal and financial exposure and liabilities.**

Our service involves the storage and transmission of customers' proprietary information, and security breaches could expose us to a risk of loss of this information, litigation and possible liability. These security measures may be breached as a result of third-party action, including intentional misconduct by computer hackers, employee error, malfeasance or otherwise and result in someone obtaining unauthorized access to our customers' data or our data, including our intellectual property and other confidential business information, or our IT systems. Additionally, third parties may attempt to fraudulently induce employees or customers into disclosing sensitive information such as user names, passwords or other information in order to gain access to our customers' data or our data or IT systems. Because the techniques used to obtain unauthorized access, or to sabotage systems, change frequently and generally are not recognized until launched against a target, we may be unable to anticipate these techniques or to implement adequate preventative measures. In addition, our customers may authorize third party access to their customer data located in our hosting environment. Because we do not

## **Table of Contents**

control the transmissions between customer authorized third parties, or the processing of such data by customer authorized third parties, we cannot ensure the integrity or security of such transmissions or processing. Any security breach could result in a loss of confidence in the security of our service, damage our reputation, negatively impact our future sales, disrupt our business and lead to legal liability.

### **The regulatory environment for and certain legal uncertainties in the operation of our business and our customer s business could impair our growth or decrease demand for our services or increase our cost of doing business**

The imposition of more stringent protections and/or new regulations and the application of existing laws to our business could burden our company and our business partners and customers. Further, the adoption of additional laws and regulations could limit the growth of our business and that of our business partners and customers. Any decreased generalized demand for our services, or the loss/decrease in business by a key partner or customer due to regulation or the expense of compliance with any regulation, could either increase the costs associated with our business or affect revenue, either of which could harm our financial condition or operating results.

We face increased regulatory scrutiny and potential criminal liability for our executives associated with various accounting and corporate governance rules promulgated under the Sarbanes-Oxley Act of 2002. We review and continue to monitor all of our accounting policies and practices, legal disclosure and corporate governance policies in accordance with the Sarbanes-Oxley Act of 2002, including those related to relationships with our independent accountants, enhanced financial disclosures, internal controls, board and board committee practices, corporate responsibility and loan practices, and intend to fully comply with such laws. Nevertheless, such increased scrutiny and penalties involve risks to both eGain and our executive officers and directors in monitoring and insuring compliance. A failure to properly navigate the legal disclosure environment and implement and enforce appropriate policies and procedures, if needed, could harm our business and prospects.

As Internet commerce continues to evolve, increasing regulation by federal, state or foreign agencies becomes more likely. For example, we believe increased regulation is likely in the area of data privacy. Our customers use our hosting service to store their customer data, which may contain contact and other personal or identifying information regarding their customers and contacts. Laws and regulations applying to the solicitation, collection, processing or use of personal or consumer information could affect our customer s ability to use and share data and, potentially restrict our ability to store and process data.

The costs of compliance with, and other burdens imposed by, such laws and regulations that are applicable to the businesses of our customers may limit the use and adoption of our service and reduce overall demand for it, or lead to significant fines, penalties or liabilities for any noncompliance with such privacy laws. Furthermore, privacy concerns may cause our customers customers to resist providing the personal data necessary to allow our customers to use our service effectively and may reduce demand for our service. Even the perception of privacy concerns, whether or not valid, may inhibit market adoption of our service in certain industries.

Federal, state and foreign government bodies and agencies have adopted or are considering adopting laws and regulations regarding the collection, use and disclosure of personal information obtained from consumers and individuals. For example, in the United States regulations such as the Gramm-Leach-Bliley Act, which protects and restricts the use of consumer credit and financial information, and the Health Insurance Portability and Accountability Act of 1996, which regulates the use and disclosure of personal health information, impose significant requirements and obligations on businesses that may affect the use and adoption of our service. The European Union has also adopted a data privacy directive that requires member states to impose restrictions on the collection and use of personal data that, in some respects, are more stringent, and impose more significant burdens on subject businesses, than current privacy standards in the United States. Many other jurisdictions have similar stringent privacy laws and regulations. Our customers may demand that we incur significant costs to be compliant with all the relevant laws and regulations, which regulate their particular industry.

## **Table of Contents**

In addition to government activity, privacy advocacy groups and the technology and other industries are considering various new, additional or different self-regulatory standards that may place additional burdens on us.

### **If we are unable to successfully detect weaknesses or errors in our internal controls, the trading price of our common stock may decline and adversely impact our ability to attract new and continued investors.**

As a smaller reporting company, we are not required to include an attestation report of our registered public accounting firm regarding internal control over financial reporting. An adverse opinion on our internal controls over financial reporting would indicate an inability to detect weaknesses or errors in our internal controls. If the Company fails to have effective internal control over financial reporting or is unable to complete any necessary modifications to its internal control reporting, investors could lose confidence in the accuracy and completeness of our financial reports and in the reliability of the Company's internal control over financial reporting, which could cause the price of our common stock to decline.

### **We may need to license third-party technologies and may be unable to do so**

To the extent we need to license third-party technologies, we may be unable to do so on commercially reasonable terms or at all. In addition, we may fail to successfully integrate any licensed technology into our products or services. Third-party licenses may expose us to increased risks, including risks associated with the integration of new technology, the diversion of resources from the development of our own proprietary technology, and our inability to generate revenue from new technology sufficient to offset associated acquisition and maintenance costs. Our inability to obtain and successfully integrate any of these licenses could delay product and service development until equivalent technology can be identified, licensed and integrated. This in turn would harm our business and operating results.

### **Changes to current accounting policies could have a significant effect on our reported financial results or the way in which we conduct our business**

Generally accepted accounting principles and the related accounting pronouncements, implementation guidelines and interpretations for some of our significant accounting policies are highly complex and require subjective judgments and assumptions. Some of our more significant accounting policies that could be affected by changes in the accounting rules and the related implementation guidelines and interpretations include:

recognition of revenue;

contingencies and litigation; and

accounting for income taxes.

Changes in these or other rules, or scrutiny of our current accounting practices, could have a significant adverse effect on our reported operating results or the way in which we conduct our business.

### **We depend on broad market acceptance of our applications and of our business model**

We depend on the widespread acceptance and use of our applications as an effective solution for businesses seeking to manage high volumes of customer interactions across multiple channels, including Web, phone, email, print and in-person. While we believe the potential to be very large, we cannot accurately estimate the size or growth rate of the potential market for such product and service offerings generally, and we do not know whether our products and services in particular will achieve broad market acceptance. The market for customer interaction software is relatively new and rapidly evolving, and concerns over the security and reliability of online transactions, the privacy of users and quality of service or other issues may inhibit the growth of the Internet and commercial online services. If the market for our applications fails to grow or grows more slowly than we currently anticipate, our business will be seriously harmed.

**Table of Contents**

Furthermore, our business model is premised on business assumptions that are still evolving. Our business model assumes that both customers and companies will increasingly elect to communicate via multiple channels, as well as demand integration of the online channels into the traditional telephone-based call center. Our business model also assumes that many companies recognize the benefits of a hosted delivery model and will seek to have their customer interaction software applications hosted by us. If any of these assumptions is incorrect or if customers and companies do not adopt digital technology in a timely manner, our business will be seriously harmed and our stock price will decline.

**We may not be able to respond to the rapid technological change of the customer interaction software industry**

The customer interaction software industry is characterized by rapid technological change, changes in customer requirements and preferences, and the emergence of new industry standards and practices that could render our existing services, proprietary technology and systems obsolete. We must continually develop or introduce and improve the performance, features and reliability of our products and services, particularly in response to competitive offerings. Our success depends, in part, on our ability to enhance our existing services and to develop new services, functionality and technology that address the increasingly sophisticated and varied needs of prospective customers. If we do not properly identify the feature preferences of prospective customers, or if we fail to deliver product features that meet the standards of these customers, our ability to market our service and compete successfully and to increase revenue could be impaired. The development of proprietary technology and necessary service enhancements entails significant technical and business risks and requires substantial expenditures and lead-time. We may not be able to keep pace with the latest technological developments. We may also be unable to use new technologies effectively or adapt services to customer requirements or emerging industry standards or regulatory or legal requirements. More generally, if we cannot adapt or respond in a cost-effective and timely manner to changing industry standards, market conditions or customer requirements, our business and operating results will suffer.

**We may engage in future acquisitions or investments that could dilute our existing stockholders, cause us to incur significant expenses or harm our business**

We may review acquisition or investment prospects that might complement our current business or enhance our technological capabilities. Integrating any newly acquired businesses or their technologies or products may be expensive and time-consuming. To finance any acquisitions, it may be necessary for us to raise additional funds through public or private financings. Additional funds may not be available on terms that are favorable to us, if at all, and, in the case of equity financings, may result in dilution to our existing stockholders. We may not be able to operate acquired businesses profitably. If we are unable to integrate newly acquired entities or technologies effectively, our operating results could suffer. Future acquisitions by us could also result in large and immediate write-offs, incurrence of debt and contingent liabilities, or amortization of expenses related to goodwill and other intangibles, any of which could harm our operating results.

**ITEM 1B. UNRESOLVED STAFF COMMENTS**

None.

**ITEM 2. PROPERTIES**

We lease all facilities used in our business. The following table summarizes our principal properties:

Location	Principal Use	Approximate Square Footage	Lease Expiration Date

Pune, India	Corporate Offices	33,262	2017
Noida, India	Corporate Offices	5,374	2014
Slough, England	European Headquarters	14,000	2016

## Table of Contents

### **ITEM 3. LEGAL PROCEEDINGS**

Beginning on October 25, 2001, a number of securities class action complaints were filed against us, and certain of our then serving officers and directors and underwriters connected with our initial public offering of common stock. The class actions were filed in the U.S. District Court for the Southern District of New York. The complaints alleged generally that the prospectus under which such securities were sold contained false and misleading statements with respect to discounts and excess commissions received by the underwriters as well as allegations of laddering whereby underwriters required their customers to purchase additional shares in the aftermarket in exchange for an allocation of IPO shares. The complaints sought an unspecified amount in damages on behalf of persons who purchased the common stock between September 23, 1999 and December 6, 2000. Similar complaints were filed against 55 underwriters and more than 300 other companies and other individuals. The over 1,000 actions were consolidated into a single action called *In re Initial Public Offering Sec. Litig.* In 2003, we and the other issuer defendants (but not the underwriter defendants) reached an agreement with the plaintiffs to resolve the cases as to our liability and that of our officers and directors. The settlement involved no monetary payment or other consideration by us or our officers and directors and no admission of liability. On August 31, 2005, the Court issued an order preliminarily approving the settlement. On April 24, 2006, the Court held a public hearing on the fairness of the proposed settlement. Meanwhile the consolidated case against the underwriters proceeded. In October 2004, the Court certified a class. On December 5, 2006, however, the United States Court of Appeals for the Second Circuit reversed, holding that the class certified by the District Court could not be certified. *In re Initial Public Offering Sec. Litig.*, 471 F.3d 24 (2d Cir. 2006), *modified* F 3d 70 (2d Cir. 2007). The Second Circuit's holding, while directly affecting only the underwriters, raised doubt as to whether the settlement class contemplated by the proposed issuer settlement could be approved. On June 25, 2007, the district court entered a stipulated order terminating the proposed issuer settlement. Thereafter pretrial proceedings resumed. In March 2009, all parties agreed on a new global settlement of the litigation; this settlement included underwriters as well as issuers. Under the settlement, the insurers would pay the full amount of settlement share allocated to us, and we would bear no financial liability. We, as well as the officer and director defendants, who were previously dismissed from the action pursuant to a stipulation, would receive complete dismissals from the case. On June 10, 2009, the Court entered an order granting preliminary approval of the settlement. On October 5, 2009, the Court issued an order finally approving the settlement. Starting on or about October 23, 2009, some would-be objectors to the certification of a settlement class (which occurred as part of the October 5, 2009 order) petitioned the Court for permission to appeal from the order certifying the settlement class, and on October 29 and November 2, 2009, several groups of objectors filed notices of appeal seeking to challenge the Court's approval of the settlement. On November 24, 2009, the Court signed, and on, December 4, 2009, the Court entered final judgment pursuant to the settlement dismissing all claims involving us. The appeals remain pending and briefing on the appeals was set to begin in October 2010 and end in the spring of 2011. On October 7, 2010, lead plaintiffs and all but two of the objectors filed a stipulation pursuant to which these objectors withdrawing their appeals with prejudice. The remaining two objectors, however, are continuing to pursue their appeals and have filed their opening briefs. On December 8, 2010, plaintiffs moved to dismiss the appeals. On March 2, 2011, one of the two appellants, appearing pro se, filed a stipulated dismissal of his appeal with prejudice. On May 17, 2011, the Court of Appeals dismissed the appeals of two of the three remaining appellants, and directed the district court to determine whether the third and final appellant had standing. On August 25, 2011, the district court determined that the final appellant lacked standing. On January 9, 2012, the remaining parties entered into a settlement. In accordance with the settlement agreement the appeal and all related matters were dismissed with prejudice. This litigation has concluded. We did not accrue any liability in connection with this matter as we did not expect the outcome of this litigation to have a material impact on our financial condition.

In May 2010, Microlog Corporation filed a patent infringement lawsuit in the United States District Court in the Eastern District of Texas, case number 6:10-CV-260 LED against a number of defendants, including several current and past eGain customers. LaQuinta Corporation, a named defendant in the Microlog case and a former eGain customer had subsequently filed a third party claim against us requesting indemnification from us in connection with the Microlog case. We filed a motion to dismiss this claim, which was denied by the court on

**Table of Contents**

September 29, 2011. In addition, the court denied LaQuinta Corporation's motion for summary judgment. In October 2011, we filed our answer to LaQuinta Corporation's third party claim. On February 15, 2012, we entered into a Settlement Agreement with LaQuinta and LaQuinta filed a Motion to dismiss the case. The Court dismissed the matter on March 6, 2012.

From time to time, we are involved in legal proceedings in the ordinary course of business. We believe that the resolution of these matters will not have a material effect on our consolidated financial position, results of operations or liquidity.

**ITEM 4. MINE SAFETY DISCLOSURES**

**None.**

**Table of Contents****PART II****ITEM 5. MARKET FOR REGISTRANT'S COMMON EQUITY, RELATED STOCKHOLDER MATTERS AND ISSUER PURCHASES OF EQUITY SECURITIES***(a) Market Information*

As of October 12, 2011, NASDAQ Stock Market LLC approved the Company's application for listing of its common stock under the symbol EGAN. Prior to this date, eGain's common stock was traded on the OTC Bulletin Board under the symbol EGAN.OB.

The following table sets forth, for the periods indicated, high and low bid prices for eGain's Common Stock as reported by the OTC Bulletin Board or the NASDAQ Stock Market LLC, as applicable.

	<b>High</b>	<b>Low</b>
<b>Year Ended June 30, 2012</b>		
First Quarter	\$ 5.02	\$ 2.55
Second Quarter	\$ 9.48	\$ 4.01
Third Quarter	\$ 7.46	\$ 4.87
Fourth Quarter	\$ 6.02	\$ 3.31
<b>Year Ended June 30, 2011</b>		
First Quarter	\$ 0.94	\$ 0.50
Second Quarter	\$ 1.75	\$ 0.65
Third Quarter	\$ 2.95	\$ 1.15
Fourth Quarter	\$ 3.99	\$ 2.35

*(b) Holders*

As of September 21, 2012, there were approximately 207 stockholders of record. This number does not include stockholders whose shares are held in trust by other entities. We estimate that there were approximately 3,700 beneficial stockholders of our common stock as of September 21, 2012.

*(c) Dividends*

We have never declared or paid any cash dividends on our common stock. We currently anticipate that we will retain all available funds for use in the operation of our business and do not intend to pay any cash dividends in the foreseeable future.

**Table of Contents***(d) Equity Compensation Plan Information*

The following table summarizes our equity compensation plans as of June 30, 2012:

Plan Category	Number of securities to be issued upon exercise of outstanding options and rights (a)	Weighted-average exercise price of outstanding options and rights (b)	Number of securities remaining available for future issuance under equity compensation plans (excluding securities reflected in column (a)) (c)
Equity compensation plans approved by security holders			
1998 Stock Plan	296,012	\$ 1.22	
2005 Stock Incentive Plan	1,499,761	\$ 1.96	793,905
Equity compensation plans not approved by security holders			
2000 Non-Management Stock Option Plan	77,477	\$ 1.28	
2005 Management Stock Option Plan	865,000	\$ 2.33	298,000
<b>Total</b>	<b>2,738,250</b>	<b>\$ 1.98</b>	<b>1,091,905</b>

**Equity Compensation Plans Not Approved By Security Holders****2000 Non-Management Stock Option Plan**

In July 2000, our board of directors adopted the 2000 Non-Management Stock Option Plan, which provides for the grant of non-statutory stock options and stock purchase rights to employees of eGain. A total of 200,000 shares of common stock were reserved for issuance under the 2000 Non-Management Stock Option Plan. This plan expired in July 2010 and there are no further options available to grant under the 2000 Plan.

**2005 Management Stock Option Plan**

In May 2005, our board of directors adopted the 2005 Management Stock Option Plan, or the 2005 Management Plan, pursuant to which the Compensation Committee may grant non-qualified stock options to purchase up to 962,400 shares of eGain common stock, at an exercise price of not less than 100% of the fair market value of such common stock, to directors, officers and key employees of the Company and its subsidiaries. In both November 2007 and September 2011, our board of directors approved an increase of 500,000 shares for issuance under the 2005 Management Plan. Options granted under the 2005 Management Plan are subject to vesting as determined by the Compensation Committee. The options are exercisable for up to ten years from the date of grant.

*(e) Issuer Repurchases of Equity Securities*

On September 14, 2009, we announced that our board of directors approved a repurchase program under which we may purchase up to 1,000,000 shares of our common stock. The duration of the repurchase program is open-ended. Under the program, we purchase shares of common stock from time to time through the open market and privately negotiated transactions at prices deemed appropriate by management. The repurchase is funded by cash on hand. For the fiscal year 2011 and 2010, we repurchased 213,243 shares at an average price of \$1.29 and 108,308 shares at an average price of \$1.00 per share, respectively. There were no shares repurchased during fiscal year 2012.

**Table of Contents****ITEM 6. SELECTED FINANCIAL DATA**

The selected consolidated financial data should be read in conjunction with Management's Discussion and Analysis of Financial Condition and Results of Operations, our Consolidated Financial Statements and Notes thereto, and other financial information included elsewhere in this Annual Report on Form 10-K. Historical results are not necessarily indicative of results that may be expected for future periods.

### **ITEM 7. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS**

*The following discussion of eGain's financial condition and results of operations should be read together with the consolidated financial statements and related notes in this Annual Report on Form 10-K. This discussion may contain forward-looking statements based upon current expectations that involve risks and uncertainties. These risks and uncertainties may cause actual results to differ materially from those discussed in the forward-looking statements.*

#### **Overview**

The Company was incorporated in Delaware in September 1997. eGain is one of the premier providers of cloud and on-site customer interaction software for sales and service. For over a decade, eGain solutions have helped improve customer experience, grow sales, and optimize service processes across the web, social, and phone channels. Hundreds of global enterprises rely on eGain to transform fragmented sales engagement and customer service operations into unified customer interaction hubs.

In fiscal year 2012, we recorded annual revenue of \$43.4 million and loss from operations of \$3.1 million, compared to annual revenue of \$44.1 million and income from operations of \$9.7 million in fiscal year 2011. The year-over-year decrease in total revenue was primarily driven by the decrease of 36% in license revenue as we see our business shift more toward a hosting delivery model. Recurring revenue was \$23.6 million in fiscal year 2012, an increase of 18% from fiscal year 2011. Professional services revenue was \$8.7 million in fiscal year 2012, an increase of 31% from fiscal year 2011. Cash provided by operations was \$1.0 million for fiscal year 2012, compared to cash provided by operations of \$6.8 million for fiscal year 2011.

Based upon the strong increase in the demand for our products and services we continued to increase our investment in sales and marketing and began to expand our distribution capability during fiscal year 2012. If the demand continues for our products and services, we intend to continue to increase our sales and marketing investments and the expansion of distribution capability in fiscal year 2013. In addition, we intend to make further investments in product development and technology to enhance our current products and services, develop new products and services and further advance our solution offerings. We believe that existing capital resources will enable us to maintain current and planned operations for the next 12 months. Due to our fluctuations in business, we believe that period-to-period comparisons of our revenue and operating results may not be meaningful and should not be relied upon as indications of future performance, but we anticipate an increase in revenue in fiscal year 2013.

#### **Unbilled Deferred Revenue**

Unbilled deferred revenue represents business that is contracted but not yet invoiced or collected and off balance-sheet and, accordingly, are not recorded in deferred revenue. As such, the deferred revenue balance on our consolidated balance sheet does not represent the total contract value of annual or multi-year, non-cancelable subscription agreements. As of June 30, 2012, unbilled deferred revenue increased to \$20.7 million, up from approximately \$11.9 million as of June 30, 2011.

#### **Critical Accounting Policies and Estimates**

Management's Discussion and Analysis of Financial Condition and Results of Operations discusses our consolidated financial statements, which have been prepared in accordance with accounting principles generally accepted in the United States of America. The preparation of these financial statements requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and the disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenue and expenses during the reporting period. On an on-going basis, management evaluates its estimates and judgments,

## **Table of Contents**

including those related to revenue recognition, allowance for doubtful accounts, valuation allowance and accrued liabilities, long-lived assets and stock-based compensation. Management bases its estimates and judgments on historical experience and on various other factors that are believed to be reasonable under the circumstances, the results of which form the basis for making judgments about the carrying values of assets and liabilities that are not readily apparent from other sources. Actual results may differ from these estimates under different assumptions or conditions.

### ***Revenue Recognition***

We derive revenue from three sources: license fees, recurring revenue, and professional services. Recurring revenue include hosting and software maintenance and support. Maintenance and support consists of technical support and software upgrades and enhancements. Professional services primarily consist of consulting implementation services and training. Significant management judgments and estimates are made and used to determine the revenue recognized in any accounting period. Material differences may result in changes to the amount and timing of our revenue for any period if different conditions were to prevail. We present revenue net of taxes collected from customers and remitted to governmental authorities.

We apply the provisions of Accounting Standards Codification, or ASC, 985-605, *Software Revenue Recognition*, to all transactions involving the licensing of software products. In the event of a multiple element arrangement for a license transaction, we evaluate the transaction as if each element represents a separate unit of accounting taking into account all factors following the accounting standards. We apply ASC 605, *Revenue Recognition*, for hosting transactions to determine the accounting treatment for multiple elements. We also apply ASC 605 for fixed fee arrangements in which we use the percentage of completion method to recognize revenue when reliable estimates are available for the costs and efforts necessary to complete the implementation services. When such estimates are not available, the completed contract method is utilized. Under the completed contract method, revenue is recognized only when a contract is completed or substantially complete.

When licenses are sold together with system implementation and consulting services, license fees are recognized upon shipment, provided that (i) payment of the license fees is not dependent upon the performance of the consulting and implementation services, (ii) the services are available from other vendors, (iii) the services qualify for separate accounting as we have sufficient experience in providing such services, have the ability to estimate cost of providing such services, and we have vendor-specific objective evidence of pricing, and (iv) the services are not essential to the functionality of the software.

We use signed software license, services agreements and order forms as evidence of an arrangement for sales of software, hosting, maintenance and support. We use signed engagement letters as evidence an arrangement for professional services.

### ***License Revenue***

We recognize license revenue when persuasive evidence of an arrangement exists, the product has been delivered, no significant obligations remain, the fee is fixed or determinable, and collection of the resulting receivable is probable. In software arrangements that include rights to multiple software products and/or services, we use the residual method under which revenue is allocated to the undelivered elements based on vendor-specific objective evidence of the fair value of such undelivered elements. The residual amount of revenue is allocated to the delivered elements and recognized as revenue, assuming all other criteria for revenue recognition have been met. Such undelivered elements in these arrangements typically consist of software maintenance and support, implementation and consulting services and in some cases hosting services.

Software is delivered to customers electronically or on a CD-ROM, and license files are delivered electronically. We assess whether the fee is fixed or determinable based on the payment terms associated with the transaction. We have standard payment terms included in our contracts. We assess collectability based on a

## **Table of Contents**

number of factors, including the customer's past payment history and its current creditworthiness. If we determine that collection of a fee is not reasonably assured, we defer the revenue and recognize it at the time collection becomes reasonably assured, which is generally upon receipt of cash payment. If an acceptance period is required, revenue is recognized upon the earlier of customer acceptance or the expiration of the acceptance period.

We periodically sell to resellers. License sales to resellers as a percentage of total revenue were approximately 2%, 5% and 4% in fiscal years 2012, 2011 and 2010, respectively. Revenue from sales to resellers is generally recognized upon delivery to the reseller dependent on the facts and circumstances of the transaction. These include items such as our understanding of the reseller's plans to sell the software, existence of return provisions, price protection or other allowances, the reseller's financial status and our past experience with the reseller. Historically sales to resellers have not included any return provisions, price protections or other allowances.

### *Hosting Revenue*

Included in recurring revenue is revenue derived from our hosted service offerings. We recognize hosting revenue ratably over the period of the applicable agreement as services are provided. Hosting agreements typically have an initial term of one or two years and automatically renew unless either party cancels the agreement. The majority of the hosting services customers purchase a combination of our hosting service and professional services. In some cases the customer may also acquire a license for our software.

We evaluate whether each of the elements in these arrangements represents a separate unit of accounting, as defined by ASC 605, using all applicable facts and circumstances, including whether (i) we sell or could readily sell the element unaccompanied by the other elements, (ii) the element has stand-alone value to the customer, and (iii) there is a general right of return. We use vendor specific objective evidence, of fair value for each of those units, when available. For revenue recognition with multiple-deliverable elements, in certain limited circumstances when vendor specific objective evidence of fair value does not exist, we apply the selling price hierarchy. We consider the applicability of ASC 985-605, on a contract-by-contract basis. In hosted term-based agreements, where the customer does not have the contractual right to take possession of the software, the revenue is recognized on a monthly basis over the term of the contract. Invoiced amounts are recorded in accounts receivable and in deferred revenue or revenue, depending on whether the revenue recognition criteria have been met. For professional services that we determine do not have stand-alone value to the customer, we recognize the services revenue ratably over the longer of the remaining contractual period or the average estimated life of the customer hosting relationship, once hosting has gone live or system ready. We currently estimate the life of the customer hosting relationship to be approximately 27 months, based on the average life of all hosting customer relationships.

We consider a software element to exist when we determine that the customer has the contractual right to take possession of our software at any time during the hosting period without significant penalty and can feasibly run the software on its own hardware or enter into another arrangement with a third party to host the software. Additionally, we have established vendor-specific objective evidence for the hosting and support elements of perpetual license sales, based on the prices charged when sold separately and substantive renewal terms. Accordingly, when a software element exists in a hosting services arrangement, license revenue for the perpetual software license element is determined using the residual method and is recognized upon delivery. Revenue for the hosting and support elements is recognized ratably over the contractual time period. Professional services are recognized as described below under Professional Services Revenue. If evidence of fair value cannot be established for the undelivered elements of an agreement, the entire amount of revenue from the arrangement is recognized ratably over the period that these elements are delivered.

## **Table of Contents**

### *Maintenance and Support Revenue*

Included in recurring revenue is revenue derived from maintenance and support. We use vendor-specific objective evidence of fair value for maintenance and support to account for the arrangement using the residual method, regardless of any separate prices stated within the contract for each element. Maintenance and support revenue is recognized ratably over the term of the maintenance contract, which is typically one year. Maintenance and support is renewable by the customer on an annual basis. Maintenance and support rates, including subsequent renewal rates, are typically established based upon a specified percentage of net license fees as set forth in the arrangement.

### *Professional Services Revenue*

Included in professional services revenue is revenue derived from system implementation, consulting and training. For license transactions, the majority of our consulting and implementation services qualify for separate accounting. We use vendor-specific objective evidence of fair value for the services to account for the arrangement using the residual method, regardless of any separate prices stated within the contract for each element. Our consulting and implementation service contracts are bid either on a fixed-fee basis or on a time-and-materials basis. Substantially all of our contracts are on a time-and-materials basis. For time-and-materials contracts, where the services are not essential to the functionality, we recognize revenue as services are performed. If the services are essential to functionality, then both the product license revenue and the service revenue are recognized under the percentage of completion method. For a fixed-fee contract we recognize revenue based upon the costs and efforts to complete the services in accordance with the percentage of completion method, provided we are able to estimate such cost and efforts.

For hosting, consulting, and implementation services that do not qualify for separate accounting, we recognize the services revenue ratably over the estimated life of the customer hosting relationship.

Training revenue that meets the criteria to be accounted for separately is recognized when training is provided or, in the case of hosting, when the customer also has access to the hosting services.

### *Deferred Revenue*

Deferred revenue primarily consists of payments received in advance of revenue recognition from hosting and support services described above and is recognized as the revenue recognition criteria are met. The Company generally invoices customers in annual or quarterly installments. The deferred revenue balance does not represent the total contract value of annual or multi-year, non-cancelable hosting or support agreements. Deferred revenue is influenced by several factors, including seasonality, the compounding effects of renewals, invoice duration, invoice timing and new business linearity within the quarter.

Deferred revenue that will be recognized during the succeeding twelve month period is recorded as current deferred revenue and the remaining portion is recorded as noncurrent. In June 30, 2012, deferred revenue increased to \$8.1 million, compared to \$5.8 million at June 30, 2011.

### *Stock-Based Compensation*

We account for stock-based compensation in accordance with ASC 718, *Compensation - Stock Compensation*. Under the fair value recognition provisions of ASC 718, stock-based compensation cost is measured at the grant date based on the fair value of the award and is recognized as an expense over the vesting period. Determining the fair value of the stock-based awards at the grant date requires significant judgment and the use of estimates, particularly surrounding Black-Scholes valuation assumptions such as stock price volatility and expected option lives. We determine the appropriate measure of expected volatility by reviewing historic volatility in the share price of our common stock, as adjusted for certain events that management deemed to be non-recurring and non-indicative of future events. Prior to October 2009, in developing our estimate of expected life of a stock option, we used a temporary method to develop the estimate of the expected life of a plain

## **Table of Contents**

vanilla employee stock option. Under this approach, the expected life would be presumed to be the mid-point between the vesting date and the end of the contractual term. In October 2009 we changed from using this approach to basing it on the historical exercise behavior, cancellations of all past option grants made by the company during the time period in which its equity shares have been publicly traded the contractual term, the vesting period and the expected remaining term of the option. The change in the estimate did not have a material effect on either the expected life or the valuation of the stock options. Based on our historical experience of option pre-vesting cancellations, we have assumed an annualized 8% forfeiture rate for our options. We record additional expense if the actual forfeiture rate is lower than we estimated, and record a recovery of prior expense if the actual forfeiture is higher than what we estimated.

### ***Valuation of Goodwill***

In accordance with ASC 350, *Goodwill and Other Intangible Assets*, we review goodwill annually for impairment (or more frequently if impairment indicators arise). We perform an annual goodwill impairment review April 1 every year and we have found no impairment in the last three years.

### ***Accounts Receivable and Allowance for Doubtful Accounts***

The Company extends unsecured credit to its customers on a regular basis. Our accounts receivable are derived from revenue earned from customers and are not interest bearing. We also maintain an allowance for doubtful accounts to reserve for potential uncollectible trade receivables. We review our trade receivables by aging category to identify specific customers with known disputes or collectability issues. We exercise judgment when determining the adequacy of these reserves as we evaluate historical bad debt trends, general economic conditions in the U.S. and internationally, and changes in customer financial conditions. If we make different judgments or utilize different estimates, material differences may result in additional reserves for trade receivables, which would be reflected by charges in general and administrative expenses for any period presented. We write off a receivable after all collection efforts have been exhausted and the amount deemed uncollectible.

### ***Leases***

Lease agreements are evaluated to determine whether they are capital or operating leases in accordance with ASC 840, *Leases*. When any one of the four test criteria in ASC 840 is met, the lease then qualifies as a capital lease.

Capital leases are capitalized at the lower of the net present value of the total amount payable under the leasing agreement (excluding finance charges) or the fair market value of the leased asset. Capital lease assets are depreciated on a straight-line basis, over a period consistent with our normal depreciation policy for tangible fixed assets, but not exceeding the lease term. Interest charges are expensed over the period of the lease in relation to the carrying value of the capital lease obligation.

Rent expense for operating leases, which may include free rent or fixed escalation amounts in addition to minimum lease payments, is recognized on a straight-line basis over the duration of each lease term.

### ***Deferred tax valuation allowance***

When we prepare our consolidated financial statements, we estimate our income tax liability for each of the various jurisdictions where we conduct business. This requires us to estimate our actual current tax exposure and to assess temporary differences that result from differing treatment of certain items for tax and accounting purposes. The net deferred tax assets are reduced by a valuation allowance if, based upon weighted available evidence, it is more likely than not that some or all of the deferred tax assets will not be realized. We must make significant judgments to determine our provision for income taxes, our deferred tax assets and liabilities and any

**Table of Contents**

valuation allowance to be recorded against our net deferred assets. As of June 30, 2012, we had a valuation allowance of approximately \$78.5 million of which approximately \$76.8 million was attributable to U.S. and state net operating losses and research and development credit carry forwards.

We apply ASC 740, *Income Taxes*, in determining any uncertain tax positions. The guidance seeks to reduce the diversity in practice associated with certain aspects of measurement and recognition in accounting for income taxes and prescribes a recognition threshold and measurement attribute for the financial statement recognition and measurement of a tax position that an entity takes or expects to take in a tax return. Additionally, ASC 740 provides guidance on de-recognition, classification, interest and penalties, accounting in interim periods, disclosure and transition. Under ASC 740, an entity may only recognize or continue to recognize tax positions that meet a more likely than not threshold. In accordance with our accounting policy, we recognize accrued interest and penalties related to unrecognized tax benefits as a component of other income and expense, in the consolidated statements of operations.

**Results of Operations**

The following table sets forth certain items reflected in our consolidated statements of operations expressed as a percent of total revenue for the periods indicated.

	2012	2011	2010
<b>Revenue:</b>			
License	26%	39%	25%
Recurring revenue	54%	46%	55%
Professional services	20%	15%	20%
<b>Total revenue</b>	<b>100%</b>	<b>100%</b>	<b>100%</b>
Cost of license	0%	0%	1%
Cost of recurring revenue	12%	12%	15%
Cost of professional services	19%	13%	16%
<b>Total cost of revenue</b>	<b>31%</b>	<b>25%</b>	<b>32%</b>
Gross profit	69%	75%	68%
<b>Operating expenses:</b>			
Research and development	14%	12%	18%
Sales and marketing	49%	32%	34%
General and administrative	13%	9%	12%
<b>Total operating expenses</b>	<b>76%</b>	<b>53%</b>	<b>64%</b>
Income / (loss) from operations	(7)%	22%	4%

**Revenue**

Total revenue, which consists of license revenue, recurring revenue and professional services revenue, was \$43.4 million, \$44.1 million, and \$29.9 million, in fiscal years 2012, 2011, and 2010, respectively.

In fiscal year 2012, total revenue decreased 2%, or \$702,000, from the prior year. Our international sales accounted for approximately 44% of total revenue in fiscal year 2012, a decrease from 53% of total revenue in fiscal year 2011. The impact of the foreign exchange fluctuation between the U.S. dollar, the Euro and British pound in total revenue was minimal in both fiscal year 2012 and 2011. One customer accounted for about 10% of total revenue in fiscal year 2012. One customer accounted for 22% and 14% of total revenue in fiscal years 2011 and 2010, respectively.

**Table of Contents**

We are continuing to see increased interest in our customer interaction solutions but there remains a general unpredictability in the length of our current sales cycles, the timing of revenue recognition on more complex license transactions and seasonal buying patterns. This unpredictability has increased due to the global economic slowdown and the increased volatility of the value of the British pound and Euro in relation to the U.S. dollar. Also, because we offer a hybrid delivery model, the mix of new hosting and license transactions in a quarter could also have an impact on our revenue in a particular quarter. We are continuing to see the license business shift toward a hosting delivery model. The value of new hosting transactions, as a percentage of combined new hosting, new license and support business, was approximately 55% and 22% for the fiscal years 2012 and 2011, respectively. For license transactions the license revenue amount is generally recognized in the quarter that delivery and acceptance of our software takes place whereas, for hosting transactions, hosting revenue is recognized ratably over the term of the hosting contract, which is typically one to two years. As a result, our total revenue may increase or decrease in future quarters as a result of the timing and mix of license and hosting transactions, but we anticipate total revenue to increase in fiscal year 2013.

*License Revenue*

	Fiscal Year Ended June 30			Year-Over-Year Change			
	2012	2011	2010	2011 to 2012		2010 to 2011	
	(in thousands)						
Revenue:							
License	\$ 11,067	\$ 17,371	\$ 7,389	\$ (6,304)	(36)%	\$ 9,982	135%
Percentage of total revenue	26%	39%	25%				

License revenue was \$11.1 million, \$17.4 million, and \$7.4 million in fiscal years 2012, 2011, and 2010, respectively. This represents a decrease of 36% or \$6.3 million, in fiscal year 2012 from fiscal year 2011, compared to an increase of 135% or \$10.0 million, in fiscal year 2011 from fiscal year 2010. License revenue represented 26%, 39%, and 25% of total revenue for the fiscal years 2012, 2011, and 2010, respectively.

License revenue in fiscal year 2012 included approximately \$5.8 million from five transactions with an average deal size of \$1.0 million. The decrease in license revenue is primarily attributable to a shift to the hosting delivery model in fiscal year 2012. The impact from the foreign currency fluctuations on license revenue was minimal in fiscal year 2012.

License revenue in fiscal year 2011 included a large transaction of approximately \$7.0 million, a total of approximately \$5.4 million from four other transactions with average deal size over \$1.0 million and \$1.2 million from the Cisco OEM agreement. License revenue in fiscal year 2011 was negatively impacted by \$227,000 due to the strengthening of the U.S. dollar against the Euro in which certain licenses were denominated.

Given the general unpredictability in the length of current sales cycles, the mix between hosting and license transactions, the uncertainty in the global economy and the volatility of the value of the British pound and Euro in relation to the U.S. dollar, license revenue may increase or decrease in future periods, but we anticipate total license revenue to increase in fiscal year 2013.

*Recurring Revenue*

	Fiscal Year Ended June 30			Year-Over-Year Change			
	2012	2011	2010	2011 to 2012		2010 to 2011	
	(in thousands)						
Revenue:							
Hosting	\$ 11,196	\$ 9,244	\$ 7,538	\$ 1,952	21%	\$ 1,706	23%
Maintenance and support	\$ 12,398	\$ 10,796	\$ 9,079	\$ 1,602	15%	\$ 1,717	19%
Total recurring revenue	\$ 23,594	\$ 20,040	\$ 16,617	\$ 3,554	18%	\$ 3,423	21%
Percentage of total revenue	54%	46%	55%				

**Table of Contents**

Recurring revenue includes hosting and software maintenance and support revenue. Recurring revenue was \$23.6 million, \$20.0 million, and \$16.6 million in fiscal years 2012, 2011, and 2010, respectively. This represented an increase of 18%, or \$3.5 million, in fiscal year 2012 compared to fiscal year 2011 and an increase of 21%, or \$3.4 million in fiscal year 2011 compared to fiscal year 2010. Recurring revenue represented 54%, 46%, and 55% of total revenue for the fiscal years 2012, 2011 and 2010, respectively.

Hosting revenue was \$11.2 million, \$9.2 million and \$7.5 million in fiscal years 2012, 2011 and 2010, respectively. This represented an increase of 21%, or \$2.0 million in fiscal year 2012 compared to fiscal year 2011 and an increase to 23%, or \$1.7 million, in fiscal year 2011 compared to fiscal year 2010.

The increase in fiscal year 2012 was primarily due to the shift from license to our hosting model. The increase in new hosting contracts with current enterprise customers included six new hosting contracts totaling approximately \$10.9 million that are recognized ratably over the contractual term. The impact from the foreign currency fluctuations on hosting revenue was minimal in fiscal year 2012.

The increase in fiscal year 2011 was primarily due to expansion within the current customer base and new customers. The increase in new hosting contracts with current enterprise customers included six new hosting contracts totaling approximately \$3.4 million that are recognized ratably over the contractual term. The impact from the foreign currency fluctuations on hosting revenue was minimal in fiscal year 2011.

Excluding the impact from any further foreign currency fluctuations, we expect hosting revenue to increase in fiscal year 2013 based upon current renewal rates for existing hosted customers and the projected levels of new hosting agreements.

Maintenance and support revenue consist of technical support and software upgrades and enhancements. Maintenance and support revenue was \$12.4 million, \$10.8 million and \$9.1 million in fiscal years 2012, 2011 and 2010, respectively. This represented an increase of 15%, or \$1.6 million in fiscal year 2012 compared to fiscal year 2011 and an increase of 19%, or \$1.7 million in fiscal year 2011 compared to fiscal year 2010.

The increase in fiscal year 2012 was primarily due to the new license contracts totaling approximately \$14.4 million that were entered into in last four quarters, from quarter ended June 30, 2011 through quarter ended March 31, 2012. In addition, the renewal rate for fiscal year 2012 improved from fiscal year 2011. The impact from the foreign currency fluctuations on maintenance and support revenue was minimal in fiscal year 2012.

The increase in fiscal year 2011 was primarily due to the increase in license sales in the last quarter of fiscal year 2010 for which the support revenue was recognized starting in fiscal year 2011 and the high renewal rates for existing maintenance and support customers. The impact from the foreign currency fluctuations on maintenance and support revenue was minimal in fiscal year 2011.

Excluding the impact from any future foreign currency fluctuation, we expect maintenance and support revenue to increase or remain relatively constant in fiscal year 2013 based upon the current renewal rates for existing maintenance and support customers and the projected levels of new license sales.

*Professional Services Revenue*

	Fiscal Year Ended June 30			Year-Over-Year Change			
	2012	2011	2010	2011 to 2012		2010 to 2011	
	(in thousands)						
<b>Revenue:</b>							
Professional services	\$ 8,703	\$ 6,654	\$ 5,871	\$ 2,049	31%	\$ 783	13%
Percentage of total revenue	20%	15%	20%				

**Table of Contents**

Professional services revenue was \$8.7 million, \$6.7 million and \$5.9 million in fiscal years 2012, 2011 and 2010, respectively. This represented an increase of 31%, or \$2.0 million in fiscal year 2012 compared to fiscal year 2011 and an increase of 13%, or \$783,000, in fiscal year 2011 compared to fiscal year 2010.

The increase in fiscal year 2012 was primarily due to the increase in demand for professional service activities such as system implementation, consulting and training. The impact from the foreign currency fluctuations on professional services revenue was minimal in fiscal year 2012.

The increase in fiscal year 2011 was primarily due to the increase in billable utilization and the timing of revenue recognition for projects being delivered. The foreign currency fluctuations had a positive impact of \$208,000 on professional services revenue in fiscal year 2011.

Excluding the impact from any future foreign currency fluctuations, we expect professional services revenue to increase in fiscal year 2013 based upon our current sales pipeline and current sales trend.

*Cost of Revenue*

	Fiscal Year Ended June 30			Year-Over-Year Change	
	2012	2011	2010	2011 to 2012	2010 to 2011
	(in thousands)				
<b>Cost of revenue</b>	\$ 13,436	\$ 10,916	\$ 9,708	\$ 2,520	23%
Percentage of total revenue	31%	25%	32%		
Gross Margin	69%	75%	68%		

Total cost of revenue was \$13.4 million, \$10.9 million and \$9.7 million in fiscal years 2012, 2011 and 2010, respectively. This represented an increase of 23%, or \$2.5 million, in fiscal year 2012 compared to fiscal year 2011 and an increase of 12%, or \$1.2 million, in fiscal year 2011 compared to fiscal year 2010.

Total cost of revenue as a percentage of total revenue was 31% for fiscal year 2012, 25% for fiscal year 2011 and 32% for fiscal year 2010.

The increase in fiscal year 2012 was primarily due to increases of (i) \$2.7 million in personnel and personnel-related expenses from the increased headcount and Company-wide compensation increases, (ii) \$91,000 in hosting related expenses, and was partially offset by decreases in (i) international subsidiaries expenses of approximately \$179,000 related to the strengthening of the U.S. dollar against the Euro, British pound, and Indian rupee, (ii) \$73,000 in license related expenses, and (iii) \$13,000 in outside consulting expense.

The increase in fiscal year 2011 was primarily due to (i) an increase of \$1.3 million in personnel and personnel-related expenses from the increased headcount and Company-wide compensation increases, (ii) and an increase in outside consulting expense of \$98,000, and was partially offset by a decrease of \$198,000 in third-party software royalties.

Gross margin was 69% for fiscal year 2012, 75% in fiscal years 2011 and 68% in fiscal year 2010. The decrease in gross margin was primarily due to the decrease of license revenue as a percentage of total revenue in fiscal 2012, when compared to fiscal 2011.

In order to better understand the changes within our cost of revenue and resulting gross margins, we have provided the following discussion of the individual components of our cost of revenue.

*Cost of License*

	Fiscal Year Ended June 30			Year-Over-Year Change	
	2012	2011	2010	2011 to 2012	2010 to 2011
	(in thousands)				
<b>Cost of license</b>	\$ (39)	\$ 34	\$ 168	\$ (73)	(215)%
Percentage of license revenue	0%	0%	2%		
Gross Margin	100%	100%	98%		

## Table of Contents

Cost of license primarily includes third-party software royalties and delivery costs for shipments to customers. Total cost of license was \$(39,000), \$34,000 and \$168,000 in fiscal years 2012, 2011 and 2010, respectively. This represented a decrease of 215%, or \$73,000, in fiscal year 2012 compared to 2011 and a decrease of 80%, or \$134,000, in fiscal year 2011 compared to 2010. Total cost of license as a percentage of total license revenue was approximately 0% (a gross margin of 100%) in fiscal years 2012 and 2011 and to 2% (a gross margin of 98%) in fiscal year 2010.

The decrease in cost of license in fiscal year 2012 was primarily due to third party royalties credits applied. The decreases in both fiscal years 2011 and 2010 were due to a decrease in third party royalties.

We anticipate cost of license to increase slightly as a percentage of total license revenue in future periods.

### Cost of Recurring Revenue

	Fiscal Year Ended June 30			Year-Over-Year Change			
	2012	2011	2010	2011 to 2012		2010 to 2011	
	(in thousands)						
<b>Cost of recurring revenue</b>	\$ 5,363	\$ 5,273	\$ 4,492	\$ 90	2%	\$ 781	17%
Percentage of recurring service revenue	23%	26%	27%				
Gross Margin	77%	74%	73%				

Cost of recurring revenue includes personnel costs for our hosting services and maintenance and support. It also includes depreciation of capital equipment used in our hosted network, cost of support for the third-party software and lease costs paid to remote co-location centers.

Total cost of recurring revenue was \$5.4 million, \$5.3 million and \$4.5 million in fiscal years 2012, 2011 and 2010, respectively. This represented an increase of 2%, or \$90,000, in fiscal year 2012 compared to fiscal year 2011 and an increase of 17%, or \$781,000, in fiscal year 2011 compared to fiscal year 2010. Total cost of recurring revenue as a percentage of total recurring revenue was 23% (a gross margin of 77%) in fiscal year 2012 compared to 26% (a gross margin of 74%) in fiscal year 2011 and 27% (a gross margin of 73%) in fiscal year 2010.

The increase in cost of recurring revenue in fiscal year 2012 was primarily due to (i) an increase in hosting related expenses of \$126,000, (ii) an increase of \$82,000 in personnel and personnel-related expenses from the increased headcount and Company-wide compensation increases, partially offset by (i) a decrease in international subsidiaries expenses of approximately \$69,000 from the foreign exchange fluctuation between the U.S. dollar, the Euro, British pound and Indian rupee, (ii) a decrease of \$41,000 in support of third party software, and (iii) a decrease of \$8,000 in outside consulting services.

The increase in cost of recurring revenue in fiscal year 2011 was primarily due to (i) an increase of \$747,000 in personnel and personnel-related expenses from the increased headcount and Company-wide compensation increases, (ii) an increase in international subsidiaries expenses of approximately \$32,000 from the foreign exchange fluctuation between the U.S. dollar, the Euro, British pound and Indian rupee, (iii) an increase of \$31,000 in outside consulting services, and was partially offset by a decrease of \$23,000 in support of third party software.

Excluding the impact from any future foreign currency fluctuations, we anticipate cost of recurring revenue to increase in fiscal year 2013, but for the gross margin to remain relatively constant when compared to fiscal year 2012.

**Table of Contents***Cost of Professional Services*

	Fiscal Year Ended June 30			Year-Over-Year Change			
	2012	2011	2010	2011 to 2012	2010 to 2011		
	(in thousands)						
<b>Cost of professional services</b>	\$ 8,112	\$ 5,609	\$ 5,048	\$ 2,503	45%	\$ 561	11%
Percentage of professional service revenue	93%	84%	86%				
Gross Margin	7%	16%	14%				

Cost of professional services includes personnel costs for consulting services. Total cost of professional services was \$8.1 million, \$5.6 million and \$5.0 million in fiscal years 2012, 2011, and 2010, respectively. This represented an increase of 45%, or \$2.5 million, in fiscal year 2012 compared to fiscal year 2011 and an increase of 11%, or \$561,000, in fiscal year 2011 compared to fiscal year 2010. Total cost of professional services as a percentage of total professional services revenue was 93% (a gross margin of 7%) in fiscal year 2012 compared to 84% (a gross margin of 16%) in fiscal year 2011 and 86% (a gross margin of 14%) in fiscal year 2010.

The increase in cost of professional services in fiscal year 2012 was primarily due to an increase of \$2.6 million in personnel and personnel-related expense from the increased headcount and Company-wide compensation increases, partially offset by a decrease in international subsidiaries' expenses of approximately \$110,000 from the foreign exchange fluctuation between the U.S. dollar, the Euro, British pound and Indian rupee.

The increase in cost of professional services in fiscal year 2011 was primarily due to (i) an increase of \$486,000 in personnel and personnel-related expense from the increased headcount and Company-wide compensation increases, and (ii) an increase of \$67,000 in outside consulting services.

Excluding the impact from any future foreign currency fluctuations, we anticipate cost of professional services to increase in absolute dollars and gross margin to improve in future periods.

**Research and Development**

	Fiscal Year Ended June 30			Year-Over-Year Change			
	2012	2011	2010	2011 to 2012	2010 to 2011		
	(in thousands)						
<b>Research and Development</b>	\$ 6,132	\$ 5,551	\$ 5,510	\$ 581	10%	\$ 41	1%
Percentage of total revenue	14%	12%	18%				

Research and development expenses primarily consist of compensation and benefits for our engineering, product management and quality assurance personnel and, to a lesser extent, occupancy costs and related overhead. Research and development expense was \$6.1 million, \$5.6 million and \$5.5 million in fiscal years 2012, 2011 and 2010, respectively. This represented an increase of 10%, or \$581,000, in the fiscal year 2012 compared to fiscal year 2011 and an increase of 1%, or \$41,000, in fiscal year 2011 compared to fiscal year 2010. Total research and development expenses as a percentage of total revenue was 14% in the fiscal year 2012 compared to 12% in the fiscal year 2011 and 18% in fiscal year 2010.

The increase in research and development expense in fiscal year 2012 was primarily due to (i) an increase of \$616,000 in personnel and personnel-related expenses from the increased headcount and Company-wide compensation increases, and (ii) an increase in outside consulting of \$177,000, partially offset by a decrease in international subsidiaries' expenses of approximately \$213,000 from the foreign exchange fluctuation between the U.S. dollar, the Euro, British pound and Indian rupee.

The increase in research and development expense in fiscal year 2011 was primarily due to an increase of \$600,000 in personnel and personnel-related expenses from the increased headcount and Company-wide compensation increases and was partially offset by a decrease of \$509,000 in outside consulting services.

## Table of Contents

Excluding any fluctuation of foreign exchange rates in the Euro, British pound, and Indian rupee against the U.S. dollar, we anticipate research and development expense to increase slightly or remain relatively constant as a percentage of total revenue in fiscal year 2013 based upon our current product development plans.

### Sales and Marketing

	Fiscal Year Ended June 30			Year-Over-Year Change			
	2012	2011	2010	2011 to 2012	2010 to 2011		
	(in thousands)						
<b>Sales</b>	\$ 17,578	\$ 11,350	\$ 8,393	\$ 6,228	55%	\$ 2,957	35%
<b>Marketing</b>	\$ 3,603	\$ 2,582	\$ 1,833	\$ 1,021	40%	\$ 749	41%
<b>Total Sales and Marketing</b>	\$ 21,181	\$ 13,932	\$ 10,226	\$ 7,249	52%	\$ 3,706	36%
Percentage of total revenue	49%	32%	34%				

Sales and marketing expenses primarily consist of compensation and benefits for our sales, marketing and business development personnel, lead generation activities, advertising, trade show and other promotional costs and, to a lesser extent, occupancy costs and related overhead. Sales and marketing expense was \$21.2 million, \$13.9 million and \$10.2 million in fiscal years 2012, 2011 and 2010 respectively. This represented an increase of 52%, or \$7.2 million, in fiscal year 2012 compared to fiscal year 2011 and an increase of 36%, or \$3.7 million in fiscal year 2011 compared to fiscal year 2010. Total sales and marketing expenses as a percentage of total revenue was 49% in fiscal year 2012 compared to 32% in fiscal year 2011 and 34% in fiscal year 2010.

Total sales expense was \$17.6 million for fiscal 2012, an increase of 55% or \$6.2 million, from \$11.4 million for fiscal year 2011. The increase in fiscal year 2012 was primarily due to (i) an increase of \$5.6 million in personnel and personnel-related expense related to the increased headcount and compensation increase in our worldwide sales force, (ii) an increase of \$432,000 in outside consulting services, (iii) an increase of \$260,000 in sales commission expense, and (iv) an increase of \$102,000 in third party partner fees, partially offset by a decrease in our international subsidiaries expenses of approximately \$169,000 primarily from the foreign exchange fluctuation between the U.S. dollar, the Euro, British pound.

Total sales expense was \$11.4 million for fiscal 2011, an increase of 35% or \$3.0 million, from \$8.4 million for fiscal year 2010. The increase in fiscal year 2011 was primarily due to (i) an increase of \$1.9 million in personnel and personnel-related expense related to the increased headcount and compensation increase in our worldwide sales force, (ii) an increase of \$1.2 million in sales commission expense, (iii) an increase in our international subsidiaries expenses of approximately \$34,000 primarily from the foreign exchange fluctuation between the U.S. dollar, the Euro, British pound, and was partially offset by a decrease of \$218,000 in outside consulting services.

Total marketing expenses were \$3.6 million, \$2.6 million and \$1.8 million in fiscal years 2012, 2011 and 2010, respectively. The increase in fiscal year 2012 was primarily due to (i) an increase of \$524,000 in personnel and personnel-related expenses from the increased headcount and Company-wide compensation increases, (ii) an increase of \$480,000 in other promotional costs, (iii) an increase of \$122,000 in marketing programs expenses partially offset by a decrease in our international subsidiaries expenses of approximately \$105,000 primarily from the foreign exchange fluctuation between the U.S. dollar, the Euro, British pound and Indian rupee.

The increase in fiscal year 2011 was primarily due to an increase of personnel related expenses by \$382,000 and an increase of \$336,000 in expenses for marketing programs.

Excluding any fluctuation of foreign exchange rates in the Euro, British pound, and Indian rupee against the U.S. dollar, we anticipate sales and marketing expense to increase slightly or remain relatively constant as a percentage of total revenue in fiscal year 2013.

## Table of Contents

### General and Administrative

	Fiscal Year Ended June 30			Year-Over-Year Change		
	2012	2011	2010	2011 to 2012	2010 to 2011	
	(in thousands)					

<b>General and administrative</b>	\$ 5,743	\$ 3,974	\$ 3,211	\$ 1,769	45%	\$ 763	24%
-----------------------------------	----------	----------	----------	----------	-----	--------	-----

Percentage of total revenue

13% 9% 12%

General and administrative expenses primarily consist of compensation and benefits for our finance, human resources, administrative and legal services personnel, fees for outside professional services, provision for doubtful accounts and, to a lesser extent, occupancy costs and related overhead. General and administrative expense was \$5.7 million, \$4.0 million and \$3.2 million in the fiscal years 2012, 2011 and 2010, respectively. This represented an increase of 45%, or \$1.8 million in fiscal year 2012 compared to fiscal year 2011 and an increase of 24%, or \$763,000, in fiscal year 2011 compared to fiscal year 2010. Total general and administrative expenses as a percentage of total revenue was 13% in fiscal year 2012 compared to 9% in the fiscal year 2011 and 12% in fiscal year 2010.

The increase in fiscal 2012 was primarily due to (i) an increase of \$1.1 million in personnel and personnel-related expense from the increased headcount and Company-wide compensation increases, (ii) an increase of \$245,000 in outside consulting services, (iii) an increase of \$196,000 in accounting expense, (iv) an increase of \$80,000 in investor relations expenses, (v) an increase of \$94,000 in bad debt expense, and (vi) an increase of \$38,000 in legal expense partially offset by a decrease in our international subsidiaries' expenses of approximately \$46,000 primarily from the foreign exchange fluctuation between the U.S. dollar, the Euro, British pound and Indian rupee.

The increase in fiscal 2011 was primarily due to (i) an increase of \$404,000 in personnel and personnel-related expense from the increased headcount and Company-wide compensation increases, (ii) an increase of \$412,000 in legal expense which was primarily due to litigation costs, increased business resulting in additional legal review of contracts, our new bank agreement and patent applications, (iii) an increase of \$205,000 in outside consulting services primarily related to the implementation of a new accounting application, and was partially offset by (i) a decrease of \$176,000 in accounting expense, and (ii) a decrease of \$129,000 in bad debt expense.

We anticipate general and administrative expenses to decrease slightly or remain relatively constant as a percentage of total revenue in fiscal year 2013 based upon current revenue expectations excluding the fluctuation of foreign exchange rates in the Euro, British pound, and Indian rupee against the U.S. dollar.

### Valuation and Amortization of Stock-Based Compensation

2% 0% 1%

Stock-based compensation expenses include the amortization of the fair value of share-based payments made to employees, members of our Board of Directors and consultants, primarily in the form of stock options. The fair value of stock options granted is recognized as an expense, as the underlying stock options vest. The increase of our stock-based compensation expense in fiscal 2012 was primarily due to the increased Company-wide headcount, increase in option grant activity and the increase to our stock price.

**Table of Contents**

We value our share-based payments under ASC 718, and record compensation expense for all share-based payments made to employees based on the fair value at the date of the grant.

We expect our stock-based compensation expense to increase in fiscal year 2013 based on our anticipated hiring and also, if the stock price continues to increase.

**Income / (loss) from Operations**

	Fiscal Year Ended June 30			Year-Over-Year Change			
	2012	2011	2010	2011 to 2012		2010 to 2011	
	(in thousands)						
Operating income / (loss)	\$ (3,128)	\$ 9,692	\$ 1,222	\$ (12,820)	(132)%	\$ 8,470	693%
Operating margin	(7)%	22%	4%				

Loss from operations was \$3.2 million in fiscal year 2012 compared to the income from operations of \$9.7 million in fiscal year 2011 and income from operations of \$1.2 million in fiscal year 2010. We recorded an operating loss margin of 7% in fiscal year 2012 compared to an operating profit margin of 22% in fiscal year 2011 and 4% in the fiscal year 2010.

The change of operating income (loss) in fiscal year 2012 included a decrease in revenue of \$702,000 and an increase in total costs and operating expenses of \$12.1 million. The decrease in revenue was primarily due to a shift in our business to more hosting transactions resulting in fewer license transactions signed in fiscal year 2012. The impact of any fluctuation of foreign currencies against the U.S. dollar on revenue was minimal. The increase in total costs and operating expenses was primarily due to (i) an increase in personnel-related costs of \$10.7 million including an increase of \$260,000 in sales commission, (ii) an increase of \$846,000 in outside consulting services, (iii) an increase of \$480,000 in other promotional costs, (iv) an increase of \$196,000 in accounting expenses, (v) an increase of \$126,000 in hosting related expenses, (vi) an increase of \$122,000 in marketing programs, (vii) an increase of \$80,000 in investor relation expenses, (viii) an increase of \$102,000 in third party partner fees, (ix) an increase of \$94,000 in bad debt expense, and (x) an increase of \$38,000 in legal expenses partially offset by (i) a decrease of \$792,000 in international expenses from the foreign exchange fluctuation between the U.S. dollar, the Euro, British pound and Indian rupee, and (ii) a decrease of \$114,000 in third party royalties and support expenses.

The change of operating income in fiscal year 2011 included an increase in revenue of \$14.2 million and was partially offset by an increase in total costs and operating expenses of \$5.7 million. The increase in revenue was primarily due to the increase in large license transactions signed in fiscal year 2011. The impact of any fluctuation of foreign currencies against the U.S. dollar on revenue was minimal. The increase in total costs and operating expenses was primarily due to (i) an increase in personnel-related costs of \$5.7 million including an increase of \$1.2 million in sales commission, (ii) an increase of \$412,000 in legal and other expenses, (iii) an increase of \$336,000 in marketing programs, (iv) an increase of \$138,000 in international expenses from the foreign exchange fluctuation between the U.S. dollar, the Euro, British pound and Indian rupee, and was partially offset by (i) a decrease of \$416,000 in outside consulting services, (ii) a decrease of \$198,000 in third party royalties and support, (iii) a decrease of \$176,000 in accounting expenses and (iv) a decrease of \$129,000 in bad debt expense.

**Interest Expense, Net**

Net interest expense was \$722,000, \$1.2 million and \$1.1 million in fiscal years 2012, 2011 and 2010, respectively. This represents a decrease of 41% or \$508,000 in fiscal year 2012, compared to fiscal year 2011 and an increase of 10% or \$107,000 in fiscal year 2011, compared to fiscal year 2010. Interest income was not significant in any year.

The decrease in interest expense in fiscal year 2012 primarily due to a decrease in the annual percentage rate and principal balance of related party notes.

## **Table of Contents**

The increase in interest expense in fiscal year 2011 included \$81,000 due as a result of the prepayment of a portion of related party notes.

### **Other Income (Expense)**

Other expense was \$677,000 in fiscal year 2012, compared to other income of \$245,000 in fiscal year 2011 and other expense of \$67,000 in fiscal year 2010. The increase of \$922,000 in other expense in fiscal year 2012 was primarily due to (i) \$677,000 in foreign exchange rate loss related to the payments from international trade receivables due to the weakening of British pound against the Euro in which certain sales were denominated and (ii) \$245,000 related to the reclassification of the accumulated translation expense recorded when liquidating our Singapore subsidiary.

The other income in fiscal year 2011 primarily included the foreign exchange gain on international trade receivables.

### **Income Tax Provision**

We recorded an income tax expense of \$390,000 for fiscal year 2012 compared to an income tax expense of \$196,000 in fiscal year 2011 and an income tax expense of \$159,000 in fiscal year 2010. The income tax expenses for fiscal years 2012, 2011 and 2010 were primarily related to the income tax provision for foreign subsidiaries.

### **Related Party Transactions**

On December 24, 2002, we entered into a note and warrant purchase agreement, as amended, or the 2002 Agreement, with Ashutosh Roy, our Chief Executive Officer, pursuant to which Mr. Roy made a loan to us, evidenced by a subordinated secured promissory note and received warrants to purchase shares of our common stock in connection with such loan. The five year subordinated secured promissory note bore interest at an effective annual rate of 12% due and payable upon the term of such note. We had the option to prepay the note at any time subject to the prepayment penalties set forth in such note. On December 31, 2002, Mr. Roy loaned us \$2.0 million under the agreement and received warrants that allowed him to purchase up to 236,742 shares of our common stock at an exercise price equal to \$2.11 per share. These warrants expired in December 2005. In connection with this loan, we recorded \$1.83 million in related party notes payable and \$173,000 of discount on the note related to the relative value of the warrants issued in the transaction that was amortized to interest expense over the five year life of the note. This note was amended and restated on June 29, 2007.

On October 31, 2003, we entered into an amendment to the 2002 Agreement with Mr. Roy, pursuant to which he loaned to us an additional \$2.0 million evidenced by a subordinated secured promissory note, or the 2003 Note, and received additional warrants to purchase up to 128,766 shares of our common stock at an exercise price of \$3.88 per share. These warrants expired in October 2008. In connection with this additional loan we recorded \$1.8 million in related party notes payable and \$195,000 of discount on the notes related to the relative value of the warrants issued in the transaction that was amortized to interest expense over the five year life of the note. This note was amended and restated on June 29, 2007 and on September 24, 2008.

On March 31, 2004, we entered into notes and warrant purchase agreement with Mr. Roy, Oak Hill Capital Partners L.P., Oak Hill Capital Management Partners L.P., and FW Investors L.P., or the lenders, pursuant to which the lenders loaned to us \$2.5 million evidenced by secured promissory notes and received warrants to purchase shares of our common stock in connection with such loan. The secured promissory notes had a term of five years and bore interest at an effective annual rate of 12% due and payable upon the maturity of such notes. The warrants allowed the lenders to purchase up to 312,500 shares of our common stock at an exercise price of \$2.00 per share. These warrants expired in March 2007. We recorded \$2.3 million in related party notes payable and \$223,000 of discount on the notes related to the relative value of the warrants issued in the transaction that was amortized to interest expense over the five year life of the notes. These notes were amended and restated on September 24, 2008.

## **Table of Contents**

On June 29, 2007, we amended and restated the 2002 and 2003 notes with Mr. Roy and he loaned to us an additional \$2.0 million evidenced by a subordinated secured promissory note, or the 2007 Note, and received additional warrants that allowed him to purchase up to 333,333 shares of our common stock at \$1.20 per share. These warrants expired in June 2010. In connection with this additional loan we recorded \$1.8 million in related party notes payable and \$187,000 discount on the note related to the relative value of the warrants issued in the transaction that is being amortized to interest expense over the life of the note. In addition, the amendment extended the maturity date of the previous note through March 31, 2009. This note was amended and restated on September 24, 2008.

On September 24, 2008, we entered into a Conversion Agreement and Amendment to Subordinated Secured Promissory Notes, as amended, or the Agreement, with the lenders. Immediately prior to the Agreement, the total outstanding indebtedness, including accrued interest, under the prior notes issued to the lenders, including the 2002, 2003 and 2007 Notes, as amended as applicable, equaled \$13.8 million. Pursuant to the Agreement and subject to the terms and conditions contained therein, we and the lenders (i) converted a portion of the outstanding indebtedness under the prior notes equal to \$6.5 million into shares of our common stock at a price per share equal to \$0.95, or at a fair value of \$3.4 million, or the Note Conversion, and (ii) extended the maturity date of the remaining outstanding indebtedness of \$7.3 million to March 31, 2012, as well as the period for which interest shall accrue, or the Note Extension. We recorded the \$3.1 million gain on the Note Conversion as a deemed contribution to capital since the lenders are related parties. In consideration for the Note Extension, the lenders received warrants to purchase an aggregate of 1,525,515 shares of our common stock at a price per share equal to \$0.95 and as a result, we recorded \$272,000 of discount on the notes related to the relative value of the warrants issued in the transaction that is being amortized to interest expense over the three year life of the note. Mr. Roy exercised his warrants to purchase 1,218,493 shares of our common stock in March 2011.

On June 30, 2011, and pursuant to the Agreement, we repaid in full all outstanding indebtedness, including interest, to Oak Hill Capital Partners L.P., Oak Hill Capital Management Partners L.P., and FW Investors L.P. In addition we made a partial payment to Mr. Roy for \$2.9 million, including accrued interest, against his notes. In September 2011, Oak Hill Capital Partners L.P., Oak Hill Capital Management Partners L.P., and FW Investors L.P. exercised 307,022 warrants on a cashless basis and received 238,393 shares of our common stock.

On March 31, 2012, we entered into Amendment No.1 to the Agreement with Mr. Roy. Pursuant to the Amendment and subject to the terms and conditions contained therein, we agreed that (i) the maturity date of the Note is extended 90 days to June 29, 2012; (ii) as of April 1, 2012 the Face Amount of the Note is \$5.6 million, which includes \$109,000 of interest for the 90 day extension. The face amount reflects the reduced interest rate on the Note of 8% beginning April 1, 2012; and (iii) we may prepay the Note in full or in part at any time prior to the maturity date without interest penalty.

On June 29, 2012, we entered into Amendment No. 2 to the Agreement with Mr. Roy. Pursuant to the Amendment and subject to the terms and conditions contained therein, we have agreed to extend the maturity date of the Note to July 31, 2013. We may prepay the Note in full or in part at any time prior to the maturity date without interest penalty. As of June 30, 2012 and 2011, the balance of the loan was \$5.6 million and \$5.0 million, respectively. The interest expense on the related party notes was \$588,000, \$1.2 million and \$1.0 million, for fiscal years 2012, 2011 and 2010, respectively.

## **New Accounting Pronouncements**

For information with respect to recent accounting pronouncements and the impact of these pronouncements on our consolidated financial statements, see Note 1 of Notes to Consolidated Financial Statements included in Item 8 Financial Statements and Supplementary Data of this Annual Report.

## **Table of Contents**

### **Liquidity and Capital Resources**

#### *Overview*

As of June 30, 2012 and 2011, our cash and cash equivalents and short term investments was \$9.9 million and \$13.1 million, respectively. Our working capital was \$1.9 million at June 30, 2012, a decrease from working capital of \$3.8 million at June 30, 2011. As of June 30, 2012, our deferred revenue was \$8.1 million, compared to \$5.8 million at June 30, 2011. Unbilled deferred revenue, representing business that is contracted but not yet invoiced or collected and off balance sheet, was \$20.7 million at June 30, 2012, up from \$11.9 million at June 30, 2011.

Based upon our fiscal year 2013 plan, we believe that existing capital resources will enable us to maintain current and planned operations for at least the next 12 months. From time to time, however, we may consider opportunities for raising additional capital and/or exchanging all or a portion of our existing debt for equity. We can make no assurances that such opportunities will be available to us on economic terms we consider favorable, if at all.

If adequate funds are not available on acceptable terms, our ability to achieve or sustain positive cash flows, maintain current operations, fund any potential expansion, take advantage of unanticipated opportunities, develop or enhance products or services, or otherwise respond to competitive pressures would be significantly limited. Our expectations as to our future cash flows and our future cash balances are subject to a number of assumptions, including assumptions regarding anticipated increases in our revenue, the mix of new hosting and license business, our ability to retain existing customers and customer purchasing and payment patterns, many of which are beyond our control.

On September 24, 2008, we entered into a Conversion Agreement and Amendment to Subordinated Secured Promissory Notes, as amended, or the Agreement, with the lenders. Pursuant to the Agreement we and the lenders (i) converted a portion of the outstanding indebtedness under the prior notes equal to \$6.5 million into shares of our common stock, and (ii) extended the maturity date of the remaining outstanding indebtedness to March 31, 2012, as well as the period for which interest shall accrue, or the Note Extension. In consideration for the Note Extension, the lenders received warrants to purchase an aggregate of 1,525,515 shares of our common stock.

On June 27, 2011, we entered into a Loan and Security Agreement, or the Comerica Credit Facility, with Comerica Bank, or Comerica, as may be amended from time to time. The Comerica Credit Facility provides for the advance of up to the lesser of \$1.5 million under a revolving line of credit, or the sum of (i) 80% of certain qualified receivables, less (ii) the aggregate face amounts of any letter of credit issued and any outstanding obligations to Comerica. The revolving line of credit matured on June 27, 2012. As of June 30, 2012 there was no outstanding balance under the revolving credit line. The Comerica Credit Facility also provides \$5.0 million to pay off existing obligations associated with our related parties, or the Comerica Term Loan, and is payable in 36 equal monthly payments of principal and interest with maturity date of June 15, 2014. As of June 30, 2012 the amount outstanding under the Comerica Term Loan was \$3.3 million. There are a number of affirmative and negative covenants under the Comerica Credit Facility, with the primary covenants being that we are required to maintain a minimum cash balance of \$1.0 million and we must maintain liquidity to debt ratio of at least 1.50 to 1.00. If we fail to comply with our covenants, Comerica can declare any outstanding amounts immediately due and payable and stop extending credit to us. As of June 30, 2012 we were in compliance with the covenants.

On June 30, 2011, and pursuant to the Agreement, we repaid in full all outstanding indebtedness, including interest, to Oak Hill Capital Partners L.P., Oak Hill Capital Management Partners L.P., and FW Investors L.P. In addition we made a partial payment to Mr. Roy for \$2.9 million, including accrued interest, against his notes. Mr. Roy also exercised his warrants to purchase 1,218,493 shares of our common stock in March 2011. In September 2011 Oak Hill Capital Partners L.P., Oak Hill Capital Management Partners L.P., and FW Investors L.P. exercised 307,022 warrants on a cashless basis and received 238,393 shares of our common stock.

## **Table of Contents**

On March 31, 2012, we entered into Amendment No.1 to the Agreement with Mr. Roy. Pursuant to the Amendment and subject to the terms and conditions contained therein, we agreed that (i) the maturity date of the Note is extended 90 days to June 29, 2012; (ii) as of April 1, 2012 the Face Amount of the Note is \$5.6 million, which includes \$109,000 of interest for the 90 day extension. The face amount reflects the reduced interest rate on the Note of 8% beginning April 1, 2012; and (iii) the Company may prepay the Note in full or in part at any time prior to the maturity date without interest penalty. On June 29, 2012 the maturity date of the Note was extended to July 31, 2013. As of June 30, 2012 and 2011, the balance of the loan was \$5.6 million and \$5.0 million, respectively.

On June 28, 2012 (i) we entered into a Second Amendment to the Loan and Security Agreement with Comerica, which extended the date by which we must repay Mr. Roy's remaining related party debt to July 31, 2013, and (ii) Mr. Roy entered into an Affirmation of Subordination Agreement with the Comerica, under which Mr. Roy acknowledges our execution of the Second Amendment and affirms his obligations under the Subordination Agreement with Comerica dated June 27, 2011.

### *Cash Flows*

Net cash provided by operating activities was \$1.0 million in fiscal year 2012 compared to the net cash provided by operating activities of \$6.8 million in fiscal year 2011 and the net cash provided by operating activities of \$2.5 million in fiscal year 2010. The net cash provided by operating activities consisted primarily of net income or loss, plus non-cash expenses related to depreciation and amortization, stock-based compensation, accrued interest and amortization of discount on related party notes, amortization of debt issuance costs, provision for doubtful accounts, and the net change in operating assets and liabilities.

The net change in operating assets and liabilities in fiscal year 2012 primarily consisted of a decrease in accounts receivable by \$1.4 million, an increase of \$2.3 million in deferred revenue and an increase of \$625,000 in accounts payable. The decrease in accounts receivable was primarily due to collection of trade receivables. The increase in deferred revenue was primarily related to the increased hosting transactions. The increase in accounts payable was primarily due to the increase in purchases to support the growth of our business.

The net change in operating assets and liabilities in fiscal year 2011 primarily consisted of an increase in accounts receivable by \$5.3 million, an increase of \$418,000 in deferred revenue and \$1.2 million in accrued compensation. The increase in accounts receivable was primarily due to a large license transaction signed at the end of fiscal year 2011. The increase in deferred revenue was primarily related to the increased license transactions. The increase in accrued compensation included primarily the increase in sales commissions and accrued bonuses.

The net change in operating assets and liabilities in fiscal year 2010 primarily consisted of a decrease of \$1.1 million in accounts receivable and an increase in accounts payable by \$200,000. This was partially offset by decreases including \$368,000 in accrued compensation primarily related to the decreased commissions, a decrease of \$245,000 in other long term liabilities and a decrease of \$95,000 in other accrued liabilities.

Net cash used in investing activities was \$1.2 million in fiscal year 2012 compared to \$1.4 million in fiscal year 2011 and \$521,000 in fiscal year 2010. Cash used in investing activities in fiscal year 2012 included \$1.8 million for the purchase of equipment and software to support the increase in our hosting business and for new employees and \$605,000 from the proceeds of sale of short-term investments.

Net cash used in investing activities in fiscal year 2011 included \$725,000 for the purchase of equipment and software to support the increase in our hosting business and for new employees and purchases of short-term investments of \$626,000.

Cash used in investing activities in fiscal year 2010 of \$521,000 was primarily due to the purchase of equipment and software to support the increase in our hosting business and for new employees.

## **Table of Contents**

Net cash provided by financing activities was \$2.4 million in fiscal year 2012 compared to net cash provided by financing activities of \$1.4 million in fiscal year 2011 and net cash used in financing activities of \$3.4 million in fiscal year 2010. Net cash used in financing activities in fiscal year 2012 primarily included the proceeds from exercise of stock options of \$317,000, offset by payments of \$1.7 million on existing bank borrowings, an increase of \$1.0 million in restricted cash, and payment of \$28,000 on capital lease obligations.

Net cash used in financing activities in fiscal year 2011 primarily included the proceeds from new bank borrowings of \$5.0 million, proceeds from exercise of warrants of \$1.2 million and proceeds from exercise of stock options of \$771,000, and offset by the repayment of \$5.0 million of related party notes, payment of \$276,000 for the repurchase of our stock, \$157,000 payment of capital leases and \$115,000 payment of existing bank borrowings.

Net cash used in financing activities in fiscal year 2010 primarily included a repayment of \$3.1 million of existing bank borrowings, \$181,000 payment of capital leases and \$108,000 for the repurchase of our stock.

### *Commitments*

The following table summarizes eGain's contractual obligations as of June 30, 2012 and the effect such obligations are expected to have on its liquidity and cash flow in future periods (in thousands):

	Year Ended June 30,						
	2013	2014	2015	2016	2017	Thereafter	Total
Operating leases	\$ 1,274	\$ 1,309	\$ 868	\$ 904	\$ 563	\$	\$ 4,918
Bank borrowings	1,666	1,667					3,333
Related party notes payable (including interest payment of \$482,000)		6,045					6,045
Hosting services	456	116					572
<b>Total</b>	<b>\$ 3,396</b>	<b>\$ 9,137</b>	<b>\$ 868</b>	<b>\$ 904</b>	<b>\$ 563</b>	<b>\$</b>	<b>\$ 14,868</b>

### *Off-Balance Sheet Arrangements*

As of June 30, 2012, we had no significant off-balance-sheet arrangements, as defined in Item 303(a)(4) of Regulation S-K.

**Table of Contents****Quarterly Results of Operations**

The following tables set forth certain unaudited consolidated statement of operations data for the eight quarters ended June 30, 2012. This data has been derived from unaudited consolidated financial statements that, in the opinion of management, include all adjustments consisting only of normal recurring adjustments, necessary for a fair presentation of such information when read in conjunction with the Consolidated Financial Statements and Notes thereto.

The unaudited quarterly information should be read in conjunction with the Consolidated Financial Statements and Notes thereto included elsewhere in this Form 10-K. We believe that period-to-period comparisons of our financial results are not necessarily meaningful and should not be relied upon as an indication of future performance.

**ITEM 7A. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK**

We develop products in the United States and India and sell these products in the United States and internationally. Generally, international sales are made in local currency. As a result, our financial results could be affected by factors such as changes in foreign currency exchange rates or weak economic conditions in foreign markets. Identifiable assets denominated in foreign currency at June 30, 2012 totaled approximately \$6.8 million. We do not currently use derivative instruments to hedge against foreign exchange risk. As such we are exposed to market risk from fluctuations in foreign currency exchange rates, principally from the exchange rate between the U.S dollar and the Euro and the British pound and the Indian rupee. An unfavorable change in the foreign currency exchange rates may cause an adverse effect on our financial position or results of operations.

**REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM**

Board of Directors and Stockholders

eGain Communications Corporation

Sunnyvale, California

We have audited the accompanying consolidated balance sheets of eGain Communications Corporation and its subsidiaries ( the Company ) as of June 30, 2012 and 2011 and the related consolidated statements of operations, stockholders' equity / (deficit) and comprehensive income / (loss), and cash flows for each of the three years in the period ended June 30, 2012. Our audits also included the financial statement schedule listed in the index to this Annual Report on Form 10-K at Part IV Item 15(a)(2). These consolidated financial statements and the financial statement schedule are the responsibility of the Company's management. Our responsibility is to express an opinion on these consolidated financial statements and financial statement schedule based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. The Company is not required to have, nor were we engaged to perform, an audit of its internal control over financial reporting. Our audits included consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control over financial reporting. Accordingly, we express no such opinion. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the consolidated financial statements referred to above present fairly, in all material respects, the financial position of eGain Communications Corporation and its subsidiaries as of June 30, 2012 and 2011, and the results of their operations and their cash flows for the each of the three years in the period ended June 30, 2012, in conformity with accounting principles generally accepted in the United States of America. Also, in our opinion, the related financial statement schedule, when considered in relation to the consolidated financial statements taken as a whole, presents fairly, in all material respects, the information set forth therein.

## **Table of Contents**

### **eGAIN COMMUNICATIONS CORPORATION**

#### **NOTES TO CONSOLIDATED FINANCIAL STATEMENTS**

#### **1. SUMMARY OF BUSINESS AND SIGNIFICANT ACCOUNTING POLICIES**

##### **Organization, Nature of Business and Basis of Presentation**

eGain Communications Corporation is one of the premier providers of cloud (or hosting) and on-site customer interaction software for sales and service. For over a decade, eGain solutions have helped improve customer experience, grow sales, and optimize service processes across the web, social, and phone channels. Hundreds of global enterprises rely on eGain to transform fragmented sales engagement and customer service operations into unified customer interaction hubs. The company has operations in the United States, United Kingdom, Netherlands, Ireland, Italy, Germany, France and India.

We have prepared the consolidated financial statements pursuant to the rules and regulations of the Securities and Exchange Commission and included the accounts of our wholly-owned subsidiaries. All significant intercompany balances and transactions have been eliminated.

##### **Principles of Consolidation**

The consolidated financial statements include the accounts of eGain and our wholly-owned subsidiaries, eGain Communications Ltd., eGain Communications Pty Ltd., eGain (Cayman) Ltd., Inference Corporation, eGain Communications Pvt. Ltd., eGain Communications SrL, eGain Communications B.V., eGain Communications Ltd., eGain Communications Pacific Pte. Ltd., eGain France S.A.R.L and eGain Deutschland GmbH. All significant intercompany balances and transactions have been eliminated.

In fiscal year 2012, we liquidated our Singapore subsidiary (eGain Communications Pacific Pte. Ltd) and recorded a reclassification adjustment from accumulated other comprehensive loss on the consolidated balance sheet to other expense on the consolidated statement of operations.

##### **Reclassification**

Certain reclassifications have been made to the consolidated statement of cash flows for fiscal year ended June 30, 2011 to conform to the presentation of the fiscal year ended June 30, 2012.

##### **Use of Estimates**

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, the disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenue and expenses during the reporting period. The estimates are based upon information available as of the date of the financial statements. Actual results could differ from those estimates.

We evaluate our significant estimates, including those related to revenue recognition, provision for doubtful accounts, valuation of stock-based compensation, valuation of long-lived assets, valuation of deferred tax assets, and litigation, among others. We base our estimates on historical experience and on various other assumptions that are believed to be reasonable under the circumstances, the results of which form the basis for making judgments about the carrying values of assets and liabilities that are not readily apparent from other sources. We refer to accounting estimates of this type as critical accounting estimates.

##### **Foreign Currency**

The functional currency of each of our international subsidiaries is the local currency of the country in which it operates. Assets and liabilities of our foreign subsidiaries are translated at month-end exchange rates,

**Table of Contents**

**eGAIN COMMUNICATIONS CORPORATION**

**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)**

and revenue and expenses are translated at the average monthly exchange rates. The resulting cumulative translation adjustments are recorded as a component of accumulated other comprehensive income/(loss). Foreign currency transaction gains and losses are included in other income/(expense) in the consolidated statements of operations, and resulted in a loss of \$461,000, a gain of \$218,000, and a loss of \$47,000 in fiscal years 2012, 2011 and 2010, respectively.

**Cash and Cash Equivalents and Investments**

We consider all highly liquid investments with an original maturity of three months or less to be cash equivalents. Time deposits held for investments that are not debt securities are included in short-term investments in the consolidated balance sheets. Investments in time deposits with original maturities of more than three months but remaining maturities of less than one year are considered short-term investments. Investments held with the intent to reinvest or hold for longer than a year, or with remaining maturities of one year or more, are considered long-term investments. The Company's cash equivalents at June 30, 2012 and 2011 consisted of money market funds with original maturities of three months or less, and are therefore classified as cash and cash equivalents in the accompanying consolidated balance sheets. As of June 30, 2012, the Company did not have any short-term or long-term investments. The Company's short-term investments at June 30, 2011 consisted of time deposits with maturities of less than one year.

**Fair Value of Financial Instruments**

Our financial instruments consist of cash and cash equivalents, restricted cash, investments, accounts receivable, accounts payable and debt, including related party debt. We do not have any derivative financial instruments. We believe the reported carrying amounts of these financial instruments approximate fair value, based upon their short-term nature and comparable market information available at the respective balance sheet dates.

**Concentration of Credit Risk**

Financial instruments that subject us to concentrations of credit risk consist principally of cash and cash equivalents, investments, and trade accounts receivable. We are exposed to credit risk in the event of default by these institutions to the extent of the amount recorded on the balance sheet. We invest excess cash primarily in money market funds, which are highly liquid securities that bear minimal risk. Our cash and cash equivalents were \$9.9 million as of June 30, 2012 which exceeded the FDIC (Federal Deposit Insurance Corporation) limit. In addition, we have investment policies and procedures that are reviewed periodically to minimize credit risk.

Our customer base extends across many different industries and geographic regions. We perform ongoing credit evaluations of our customers with outstanding receivables and generally do not require collateral. In addition, we established an allowance for doubtful accounts based upon factors surrounding the credit risk of customers, historical trends and other information. One customer accounted for about 10% of total revenue in fiscal year 2012. One customer accounted for 22% and 14% of total revenue in both fiscal years 2011 and 2010. One customer accounted for approximately 17% of accounts receivables at June 30, 2012. Three customers accounted for approximately 23%, 18% and 16% of accounts receivables at June 30, 2011, and one customer accounted for approximately 31% of accounts receivables at June 30, 2010.

Sales to customers outside of North America accounted for \$19.1 million, \$23.5 million and \$14.2 million of our total revenue in the fiscal years 2012, 2011 and 2010, respectively.

## **Table of Contents**

### **eGAIN COMMUNICATIONS CORPORATION**

#### **NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)**

#### **Property and Equipment**

Property and equipment are stated at cost, net of accumulated depreciation and amortization. Depreciation is computed using the straight-line method over the estimated useful life of the respective assets which typically is between three to five years. Leasehold improvements are amortized over the lesser of their corresponding lease term or the estimated useful lives of the improvements which typically is five years. Leased equipment is depreciated on straight-line basis over the useful life of the asset if the lease meets either the transfer of ownership criterion or the bargain purchase option criterion. If the lease does not meet either of the two criteria mentioned, the asset is depreciated over the lease term.

#### **Goodwill and Other Intangible Assets**

In accordance with Financial Accounting Standards Board, or FASB, Accounting Standards Codification, or ASC 350, *Goodwill and Other Intangible Assets*, we review goodwill annually for impairment (or more frequently if impairment indicators arise). In addition, we evaluate purchased intangible assets to determine that all such assets have determinable lives. We operate under a single reporting unit and accordingly, all of our goodwill is associated with the entire company. We performed annual impairment reviews for fiscal years 2012, 2011 and 2010 and found no impairment.

#### **Impairment of Long-Lived Assets**

In accordance with the provisions of ASC 360, *Property, Plant and Equipment*, we review long-lived assets for impairment, including property and equipment and intangible assets, whenever events or changes in business circumstances indicate that the carrying amounts of the assets may not be fully recoverable. Under ASC 360, an impairment loss is recognized when estimated undiscounted future cash flows expected to result from the use of the asset and its eventual disposition are less than its carrying amount. Impairment, if any, is assessed using discounted cash flows. During fiscal years 2012 and 2011, we did not have any such losses.

#### **Revenue Recognition**

We derive revenue from three sources: license fees, recurring revenue and professional services. Recurring revenue include hosting and software maintenance and support. Maintenance and support consists of technical support, software upgrades and enhancements. Professional services primarily consist of consulting, implementation services and training. Significant management judgments and estimates are made and used to determine the revenue recognized in any accounting period. Material differences may result in changes to the amount and timing of our revenue for any period if different conditions were to prevail. We present revenue, net of taxes collected from customers and remitted to governmental authorities.

We apply the provisions of ASC 985-605, *Software Revenue Recognition*, to all transactions involving the licensing of software products. In the event of a multiple element arrangement for a license transaction, we evaluate the transaction as if each element represents a separate unit of accounting taking into account all factors following the accounting standards. We apply ASC 605, *Revenue Recognition*, for hosting transactions to determine the accounting treatment for multiple elements. We also apply ASC 605 for fixed fee arrangements in which we use the percentage of completion method to recognize revenue when reliable estimates are available for the costs and efforts necessary to complete the implementation services. When such estimates are not available, the completed contract method is utilized. Under the completed contract method, revenue is recognized only when a contract is completed or substantially complete.

When licenses are sold together with system implementation and consulting services, license fees are recognized upon shipment, provided that (i) payment of the license fees is not dependent upon the performance

**Table of Contents**

**eGAIN COMMUNICATIONS CORPORATION**

**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)**

of the consulting and implementation services, (ii) the services are available from other vendors, (iii) the services qualify for separate accounting as we have sufficient experience in providing such services, have the ability to estimate cost of providing such services, and we have vendor-specific objective evidence of fair value, and (iv) the services are not essential to the functionality of the software.

We use signed software license and services agreements and order forms as evidence of an arrangement for sales of software, hosting, maintenance and support. We use signed engagement letters to evidence an arrangement for professional services.

*License Revenue*

We recognize license revenue when persuasive evidence of an arrangement exists, the product has been delivered, no significant obligations remain, the fee is fixed or determinable, and collection of the resulting receivable is probable. In software arrangements that include rights to multiple software products and/or services, we use the residual method under which revenue is allocated to the undelivered elements based on vendor-specific objective evidence of the fair value of such undelivered elements. The residual amount of revenue is allocated to the delivered elements and recognized as revenue, assuming all other criteria for revenue recognition have been met. Such undelivered elements in these arrangements typically consist of software maintenance and support, implementation and consulting services and in some cases, hosting services.

Software is delivered to customers electronically or on a CD-ROM, and license files are delivered electronically. We assess whether the fee is fixed or determinable based on the payment terms associated with the transaction. We have standard payment terms included in our contracts. We assess collectability based on a number of factors, including the customer's past payment history and its current creditworthiness. If we determine that collection of a fee is not reasonably assured, we defer the revenue and recognize it at the time collection becomes reasonably assured, which is generally upon receipt of cash payment. If an acceptance period is required, revenue is recognized upon the earlier of customer acceptance or the expiration of the acceptance period.

We periodically sell to resellers. License sales to resellers as a percentage of total revenue were approximately 2%, 5% and 4% in fiscal years 2012, 2011 and 2010, respectively. Revenue from sales to resellers is generally recognized upon delivery to the reseller but depends on the facts and circumstances of the transaction, such as our understanding of the reseller's plans to sell the software, if there are any return provisions, price protection or other allowances, the reseller's financial status and our past experience with the particular reseller. Historically sales to resellers have not included any return provisions, price protections or other allowances.

*Hosting Revenue*

Included in recurring revenue is revenue derived from our hosted service offerings. We recognize hosting services revenue ratably over the period of the applicable agreement as services are provided. Hosting agreements typically have an initial term of one or two years and automatically renew unless either party cancels the agreement. The majority of the hosting services customers purchase a combination of our hosting service and professional services. In some cases the customer may also acquire a license for our software.

We evaluate whether each of the elements in these arrangements represents a separate unit of accounting, as defined by ASC 605, using all applicable facts and circumstances, including whether (i) we sell or could readily sell the element unaccompanied by the other elements, (ii) the element has stand-alone value to the customer, and (iii) there is a general right of return. We use vendor specific objective evidence, of fair value for each of those units, when available. For revenue recognition with multiple-deliverable elements, in certain limited

**Table of Contents**

**eGAIN COMMUNICATIONS CORPORATION**

**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)**

circumstances when vendor specific objective evidence of fair value does not exist, we apply the selling price hierarchy. We consider the applicability of ASC 985-605, on a contract-by-contract basis. In hosted term-based agreements, where the customer does not have the contractual right to take possession of the software, the revenue is recognized on a monthly basis over the term of the contract. Invoiced amounts are recorded in accounts receivable and in deferred revenue or revenue, depending on whether the revenue recognition criteria have been met. For professional services that we determine do not have stand-alone value to the customer, we recognize the services revenue ratably over the longer of the remaining contractual period or the average estimated life of the customer hosting relationship, once hosting has gone live or system ready. We currently estimate the life of the customer hosting relationship to be approximately 27 months, based on the average life of all hosting customer relationships.

We consider a software element to exist when we determine that the customer has the contractual right to take possession of our software at any time during the hosting period without significant penalty and can feasibly run the software on its own hardware or enter into another arrangement with a third party to host the software. Additionally, we have established vendor-specific objective evidence for the hosting and support elements of perpetual license sales, based on the prices charged when sold separately and substantive renewal terms. Accordingly, when a software element exists in a hosting services arrangement, license revenue for the perpetual software license element is determined using the residual method and is recognized upon delivery. Revenue for the hosting and support elements is recognized ratably over the contractual time period. Professional services are recognized as described below under Professional Services Revenue. If vendor-specific evidence of fair value cannot be established for the undelivered elements of an agreement, the entire amount of revenue from the arrangement is recognized ratably over the period that these elements are delivered.

*Maintenance and Support Revenue*

Included in recurring revenue is revenue derived from maintenance and support services. We use vendor-specific objective evidence of fair value for maintenance and support to account for the arrangement using the residual method, regardless of any separate prices stated within the contract for each element. Maintenance and support revenue is recognized ratably over the term of the maintenance contract, which is typically one year. Maintenance and support is renewable by the customer on an annual basis. Maintenance and support rates, including subsequent renewal rates, are typically established based upon a specified percentage of net license fees as set forth in the arrangement.

*Professional Services Revenue*

Included in professional services revenue is revenue derived from system implementation, consulting and training. For license transactions, the majority of our consulting and implementation services qualify for separate accounting. We use vendor-specific objective evidence of fair value for the services to account for the arrangement using the residual method, regardless of any separate prices stated within the contract for each element. Our consulting and implementation service contracts are bid either on a fixed-fee basis or on a time-and-materials basis. Substantially all of our contracts are on a time-and-materials basis. For time-and-materials contracts, where the services are not essential to the functionality, we recognize revenue as services are performed. If the services are essential to functionality, then both the product license revenue and the service revenue are recognized under the percentage of completion method. For a fixed-fee contract we recognize revenue based upon the costs and efforts to complete the services in accordance with the percentage of completion method, provided we are able to estimate such cost and efforts.

For hosting, consulting and implementation services that do not qualify for separate accounting we recognize the services revenue ratably over the estimated life of the customer hosting relationship.

**Table of Contents**

**eGAIN COMMUNICATIONS CORPORATION**

**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)**

Training revenue that meets the criteria to be accounted for separately is recognized when training is provided or, in the case of hosting, when the customer also has access to the hosting services.

**Deferred Revenue**

Deferred revenue primarily consists of payments received in advance of revenue recognition from hosting and support services described above and is recognized as the revenue recognition criteria are met. The Company generally invoices customers in annual or quarterly installments. The deferred revenue balance does not represent the total contract value of annual or multi-year, non-cancelable hosting or support agreements. Deferred revenue is influenced by several factors, including seasonality, the compounding effects of renewals, invoice duration, invoice timing and new business linearity within the quarter.

Deferred revenue that will be recognized during the succeeding twelve month period is recorded as current deferred revenue and the remaining portion is recorded as noncurrent.

**Accounts Receivable and Allowance for Doubtful Accounts**

The Company extends unsecured credit to its customers on a regular basis. Our accounts receivable are derived from revenue earned from customers and are not interest bearing. We also maintain an allowance for doubtful accounts to reserve for potential uncollectible trade receivables. We review our trade receivables by aging category to identify specific customers with known disputes or collectability issues. We exercise judgment when determining the adequacy of these reserves as we evaluate historical bad debt trends, general economic conditions in the U.S. and internationally, and changes in customer financial conditions. If we made different judgments or utilized different estimates, material differences may result in additional reserves for trade receivables, which would be reflected by charges in general and administrative expenses for any period presented. We write off a receivable after all collection efforts have been exhausted and the amount is deemed uncollectible.

**Deferred Costs**

Deferred costs are included in other assets. Such amounts include fees we pay to third party partners for technology and are deferred and amortized over the related customer contract term. Amortization of deferred third party partner fees is included in sales and marketing expense in the accompanying consolidated statements of operations.

**Leases**

Lease agreements are evaluated to determine whether they are capital or operating leases in accordance with ASC 840, *Accounting for Leases*. When any one of the four test criteria in ASC 840 is met, the lease then qualifies as a capital lease.

Capital leases are capitalized at the lower of the net present value of the total amount payable under the leasing agreement (excluding finance charges) or the fair market value of the leased asset. Capital lease assets are depreciated on a straight-line basis, over a period consistent with our normal depreciation policy for tangible fixed assets, but not exceeding the lease term. Interest charges are expensed over the period of the lease in relation to the carrying value of the capital lease obligation.

Rent expense for operating leases, which may include free rent or fixed escalation amounts in addition to minimum lease payments, is recognized on a straight-line basis over the duration of each lease term.

**Table of Contents**

**eGAIN COMMUNICATIONS CORPORATION**

**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)**

**Software Development Costs**

We account for software development costs in accordance with ASC 985, *Software*, for costs of the software to be sold, leased or marketed, whereby costs for the development of new software products and substantial enhancements to existing software products are included in research and development expense as incurred until technological feasibility has been established, at which time any additional costs are capitalized. Technological feasibility is established upon completion of a working model. To date, software development costs incurred in the period between achieving technological feasibility and general availability of software have not been material and have been charged to operations as incurred.

**Advertising Costs**

We expense advertising costs as incurred. Total advertising expenses for the fiscal years ended June 30, 2012, 2011 and 2010 were \$251,000, \$348,000 and \$289,000, respectively.

**Stock-Based Compensation**

We account for stock-based compensation in accordance with ASC 718, *Compensation Stock Compensation*. Under the fair value recognition provisions of ASC 718, stock-based compensation cost is measured at the grant date based on the fair value of the award and is recognized as expense over the vesting period. Determining the fair value of the stock-based awards at the grant date requires significant judgment and the use of estimates, particularly surrounding Black-Scholes valuation assumptions such as stock price volatility and expected option lives.

**Income Taxes**

Income taxes are accounted for using the asset and liability method in accordance with ASC 740, *Income Taxes*. Under this method, deferred tax liabilities and assets are recognized for the estimated future tax consequences attributable to differences between the financial statement carrying amounts of existing assets and liabilities and their respective tax bases. Based upon the weight of available evidence, which includes our historical operating performance and the reported cumulative net losses in all prior years, we have provided a full valuation allowance against our net deferred tax assets except the deferred tax assets related to India as we believe it is more likely than not that those assets will be realized.

The FASB clarifies the accounting for uncertainty in income taxes recognized in an entity's financial statement, and prescribes a recognition threshold and measurement attributes for financial statement disclosure of tax positions taken or expected to be taken on a tax return. Additionally, the FASB provides guidance under ASC 740, *Income Taxes* on de-recognition, classification, interest and penalties, accounting in interim periods, disclosure and transition. Our provision consists of foreign and state income taxes.

**Comprehensive Income / (Loss)**

We report comprehensive income / (loss) and its components in accordance with ASC 220, *Comprehensive Income*. Under the accounting standards, comprehensive income / (loss) includes all changes in equity during a period except those resulting from investments by or distributions to owners. Total comprehensive income / (loss) for each of the three years in the period ended June 30, 2012 is shown in the accompanying statements of stockholders' equity / (deficit). Accumulated other comprehensive loss presented in the accompanying consolidated balance sheets at June 30, 2012 and 2011 consist of accumulated foreign currency translation adjustments and a cumulative translation reclassification adjustment from the liquidation of our Singapore subsidiary.

**Table of Contents****eGAIN COMMUNICATIONS CORPORATION****NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)****Net Income / (Loss) Per Common Share**

Basic net income / (loss) per common share is computed using the weighted-average number of shares of common stock outstanding. In periods where net income is reported, the weighted average number of shares is increased by warrants and options in the money to calculate diluted net income per common share.

The following table represents the calculation of basic and diluted net income/ (loss) per common share (in thousands, except per share data):

	<b>Years Ended June 30,</b>		
	<b>2012</b>	<b>2011</b>	<b>2010</b>
Net income/(loss) applicable to common stockholders	\$ (4,917)	\$ 8,511	\$ (127)
Basic net income/(loss) per common share	\$ (0.20)	\$ 0.37	\$ (0.01)
Weighted average common shares used in computing basic net income/(loss) per common share	24,329	22,709	22,180
Effect of dilutive options and warrants outstanding		1,580	
Weighted average common shares used in computing diluted net income/(loss) per common share	24,329	24,289	22,180
Diluted net income/(loss) per common share	\$ (0.20)	\$ 0.35	\$ (0.01)

Weighted average shares of stock options and warrants to purchase 682,926 shares of common stock at June 30, 2011, were not included in the computation of diluted net income per common share due to their anti-dilutive effect.

Weighted average shares of stock options and warrants to purchase 2,612,113 and 4,896,247 shares of common stock at June 30, 2012 and 2010, respectively, were not included in the computation of diluted net loss per common share due to their anti-dilutive effect. Such securities could have a dilutive effect in future periods.

**Segment Information**

We operate in one segment, the development, license, implementation and support of our customer service infrastructure software solutions. Operating segments are identified as components of an enterprise for which discrete financial information is available and regularly reviewed by the company's chief operating decision-maker in order to make decisions about resources to be allocated to the segment and assess its performance. Our chief operating decision-makers under ASC 280, *Segment Reporting*, are our executive management team. Our chief operating decision-makers review financial information presented on a consolidated basis for purposes of making operating decisions and assessing financial performance.

**Table of Contents****eGAIN COMMUNICATIONS CORPORATION****NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)**

Information relating to our geographic areas for the fiscal years ended June 30, 2012, 2011 and 2010 is as follows (in thousands):

	<b>Total Revenue</b>	<b>Operating Income (Loss)</b>	<b>Identifiable Assets</b>
<b>Year ended June 30, 2012:</b>			
North America	\$ 24,254	\$ (1,148)	\$ 14,720
EMEA	18,862	2,079	5,536
Asia Pacific	248	(4,059)	1,209
	<b>\$ 43,364</b>	<b>\$ (3,128)</b>	<b>\$ 21,465</b>
<b>Year ended June 30, 2011:</b>			
North America	\$ 20,533	\$ 2,590	\$ 15,854
EMEA	23,396	10,494	5,800
Asia Pacific	136	(3,392)	1,690
	<b>\$ 44,065</b>	<b>\$ 9,692</b>	<b>\$ 23,344</b>
<b>Year ended June 30, 2010:</b>			
North America	\$ 15,697	\$ 1,179	\$ 6,531
EMEA	14,027	2,910	3,053
Asia Pacific	153	(2,867)	852
	<b>\$ 29,877</b>	<b>\$ 1,222</b>	<b>\$ 10,436</b>

The following table provides the revenue for the fiscal years 2012, 2011 and 2010:

	<b>Year Ended June 30,</b>		
	<b>2012</b>	<b>2011</b>	<b>2010</b>
<b>Revenue:</b>			
License	\$ 11,067	\$ 17,371	\$ 7,389
Hosting services	11,196	9,244	7,538
Maintenance and support services	12,398	10,796	9,079
Professional services	8,703	6,654	5,871
	<b>\$ 43,364</b>	<b>\$ 44,065</b>	<b>\$ 29,877</b>

One customer accounted for about 10% of total revenue in fiscal year 2012. One customer accounted for 22% and 14% of total revenue in fiscal year 2011 and 2010 respectively. Revenue is allocated to individual countries and geographical region by customer, based on where the product is shipped to and location of services performed.

**New Accounting Pronouncements**

## Edgar Filing: EGAIN COMMUNICATIONS CORP - Form 10-K

In December 2011, the FASB issued *ASU 2011-12, Comprehensive Income*, which supersedes certain pending paragraphs in *ASU 2011-05, Presentation of Comprehensive Income*, to effectively defer only those changes in ASU 2011-05 that relate to the presentation of reclassification adjustments out of accumulated other comprehensive income. The amendments will be temporary to allow the Board time to redeliberate the presentation requirements for reclassifications out of accumulated other comprehensive income for annual and interim financial statements for public, private, and non-profit entities. We do not anticipate the adoption of this amendment to have a material impact on our consolidated financial statements.

**Table of Contents****eGAIN COMMUNICATIONS CORPORATION****NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)**

In September 2011, the FASB issued *ASU 2011-08, Intangibles - Goodwill and Other*, to allow an entity to first assess qualitative factors to determine whether it is necessary to perform the two-step quantitative goodwill impairment test. Under these amendments, an entity would not be required to calculate the fair value of a reporting unit unless the entity determines, based on a qualitative assessment, that it is more likely than not that its fair value is less than its carrying amount. The amendments include a number of events and circumstances for an entity to consider in conducting the qualitative assessment. For public entities, the amendments are effective for annual and interim goodwill impairment tests performed for fiscal years beginning after December 15, 2011 (our fiscal 2013). We do not anticipate the adoption of this amendment to have a material impact on our consolidated financial statements.

In June 2011, the FASB issued *ASU 2011-05, Presentation of Comprehensive Income*, on comprehensive income presentation to allow an entity the option to present the total of comprehensive income, the components of net income, and the components of other comprehensive income either in a single continuous statement of comprehensive income or in two separate but consecutive statements. In both choices, an entity is required to present each component of net income along with total net income, each component of other comprehensive income along with a total for other comprehensive income, and a total amount for comprehensive income. This update eliminates the option to present the components of other comprehensive income as part of the statement of changes in stockholders' equity. The amendments to the Codification in the ASU do not change the items that must be reported in other comprehensive income or when an item of other comprehensive income must be reclassified to net income. This update should be applied retrospectively. For public entities, the amendments are effective for fiscal years, and interim periods within those years, beginning after December 15, 2011 (our fiscal 2013). Early adoption is permitted. We do not anticipate the adoption of this amendment to have a material impact on our consolidated financial statements.

In May 2011, the FASB issued *ASU 2011-04, Amendments to Achieve Common Fair Value Measurement and Disclosure Requirements in U.S. GAAP and IFRS*, on fair value measurement, which is intended to create consistency between U.S. GAAP and International Financial Reporting Standards. The amendments include clarification on the application of certain existing fair value measurement guidance and expanded disclosures for fair value measurements that are estimated using significant unobservable (Level 3) inputs. The update should be applied prospectively. For public entities, the amendments are effective during interim and annual periods beginning after December 15, 2011 (our fiscal 2013). Early application by public entities is not permitted. We are currently evaluating the requirements of this standard, but do not expect it to have a material impact on our Consolidated Financial Statements.

**2. BALANCE SHEET COMPONENTS**

Property and equipment consists of the following (in thousands):

	<b>Year Ended June 30,</b>	
	<b>2012</b>	<b>2011</b>
Computers and equipment	\$ 3,859	\$ 2,725
Furniture and fixtures	290	97
Leasehold improvements	410	86
Total	4,559	2,908
Accumulated depreciation and amortization	(2,264)	(1,893)
Property and equipment, net	\$ 2,295	\$ 1,015

**Table of Contents****eGAIN COMMUNICATIONS CORPORATION****NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)**

Depreciation and amortization expense was \$846,000, \$598,000, \$631,000 for the years ended June 30, 2012, 2011 and 2010, respectively. Disposals of fixed assets were \$254,000, \$75,000 and \$192,000 at June 30, 2012, 2011 and 2010, respectively. Fully depreciated equipment of \$19.3 million and \$19.4 million at June 30, 2012 and 2011, respectively, is not included in the table above.

Accrued liabilities consists of the following (in thousands):

	<b>Year Ended June 30,</b>	
	<b>2012</b>	<b>2011</b>
Accrued other liabilities	\$ 640	\$ 1,149
Sales tax payable	596	604
Customer advances	203	122
Accrued rent	110	36
Accrued liabilities	\$ 1,549	\$ 1,911

**3. RELATED PARTY NOTES PAYABLE**

On December 24, 2002, we entered into a note and warrant purchase agreement, as amended, or the 2002 Agreement, with Ashutosh Roy, our Chief Executive Officer, pursuant to which Mr. Roy made a loan to us, evidenced by a subordinated secured promissory note and received warrants to purchase shares of our common stock in connection with such loan. The five year subordinated secured promissory note bore interest at an effective annual rate of 12% due and payable upon the term of such note. We had the option to prepay the note at any time subject to the prepayment penalties set forth in such note. On December 31, 2002, Mr. Roy loaned us \$2.0 million under the agreement and received warrants that allowed him to purchase up to 236,742 shares of our common stock at an exercise price equal to \$2.11 per share. These warrants expired in December 2005. In connection with this loan, we recorded \$1.83 million in related party notes payable and \$173,000 of discount on the note related to the relative value of the warrants issued in the transaction that was amortized to interest expense over the five year life of the note.

On October 31, 2003, we entered into an amendment to the 2002 Agreement with Mr. Roy, pursuant to which he loaned to us an additional \$2.0 million evidenced by a subordinated secured promissory note, or the 2003 Note, and received additional warrants to purchase up to 128,766 shares of our common stock at an exercise price of \$3.88 per share. These warrants expired in October 2008. In connection with this additional loan we recorded \$1.8 million in related party notes payable and \$195,000 of discount on the notes related to the relative value of the warrants issued in the transaction that was amortized to interest expense over the five year life of the note. This note was amended and restated on June 29, 2007 and on September 24, 2008.

On March 31, 2004, we entered into notes and warrant purchase agreement with Mr. Roy, Oak Hill Capital Partners L.P., Oak Hill Capital Management Partners L.P., and FW Investors L.P., or the lenders, pursuant to which the lenders loaned to us \$2.5 million evidenced by secured promissory notes and received warrants to purchase shares of our common stock in connection with such loan. The secured promissory notes had a term of five years and bore interest at an effective annual rate of 12% due and payable upon the maturity of such notes. The warrants allowed the lenders to purchase up to 312,500 shares of our common stock at an exercise price of \$2.00 per share. These warrants expired in March 2007. We recorded \$2.3 million in related party notes payable and \$223,000 of discount on the notes related to the relative value of the warrants issued in the transaction that was amortized to interest expense over the five year life of the notes. These notes were amended and restated on September 24, 2008.

**Table of Contents**

**eGAIN COMMUNICATIONS CORPORATION**

**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)**

On June 29, 2007, we amended and restated the 2002 and 2003 notes with Mr. Roy and he loaned to us an additional \$2.0 million evidenced by a subordinated secured promissory note, or the 2007 Note, and received additional warrants that allowed him to purchase up to 333,333 shares of our common stock at \$1.20 per share. These warrants expired in June 2010. In connection with this additional loan we recorded \$1.8 million in related party notes payable and \$187,000 discount on the note related to the relative value of the warrants issued in the transaction that is being amortized to interest expense over the life of the note (see note 6). In addition, the amendment extended the maturity date of the previous note through March 31, 2009. This note was amended and restated on September 24, 2008.

On September 24, 2008, we entered into a Conversion Agreement and Amendment to Subordinated Secured Promissory Notes, as amended, or the Agreement, with the lenders. Immediately prior to the Agreement, the total outstanding indebtedness, including accrued interest, under the prior notes issued to the lenders, including the 2002, 2003 and 2007 Notes, as amended as applicable, equaled \$13.8 million. Pursuant to the Agreement and subject to the terms and conditions contained therein, we and the lenders (i) converted a portion of the outstanding indebtedness under the prior notes equal to \$6.5 million into shares of our common stock at a price per share equal to \$0.95, or at a fair value of \$3.4 million, or the Note Conversion, and (ii) extended the maturity date of the remaining outstanding indebtedness of \$7.3 million to March 31, 2012, as well as the period for which interest shall accrue, or the Note Extension. We recorded the \$3.1 million gain on the Note Conversion as a deemed contribution to capital since the lenders are related parties. In consideration for the Note Extension, the lenders received warrants to purchase an aggregate of 1,525,515 shares of our common stock at a price per share equal to \$0.95 and as a result, we recorded \$272,000 of discount on the notes related to the relative value of the warrants issued in the transaction that was amortized to interest expense over the three year life of the note (see note 6). Mr. Roy exercised his warrants to purchase 1,218,493 shares of our common stock in March 2011. In September 2011, Oak Hill Capital Partners L.P., Oak Hill Capital Management Partners L.P., and FW Investors L.P. exercised 307,022 warrants on a cashless basis and received 238,393 shares of our common stock. On June 30, 2011, and pursuant to the Agreement, we repaid in full all outstanding indebtedness, including interest, to Oak Hill Capital Partners L.P., Oak Hill Capital Management Partners L.P., and FW Investors L.P. In addition, we made a partial payment to Mr. Roy for \$2.9 million, including accrued interest, against his notes.

On March 31, 2012, we entered into Amendment No.1 to the Agreement with Mr. Roy. Pursuant to the Amendment and subject to the terms and conditions contained therein, we agreed that (i) the maturity date of the Note is extended 90 days to June 29, 2012; (ii) as of April 1, 2012 the Face Amount of the Note is \$5.6 million, which includes \$109,000 of interest for the 90 day extension. The face amount reflects the reduced interest rate on the Note of 8% beginning April 1, 2012; and (iii) the Company may prepay the Note in full or in part at any time prior to the maturity date without interest penalty.

On June 29, 2012, we entered into Amendment No. 2 to the Agreement with Mr. Roy. Pursuant to the Amendment and subject to the terms and conditions contained therein, we have agreed to extend the maturity date of the Note to July 31, 2013. We may prepay the Note in full or in part at any time prior to the maturity date without interest penalty. As of June 30, 2012 and 2011, the balance of the loan was \$5.6 million and \$5.0 million, respectively. The interest expense on the related party notes was \$588,000, \$1.2 million and \$1.0 million, for fiscal years 2012, 2011 and 2010, respectively.

**4. BANK BORROWINGS**

On June 27, 2011, we entered into a Loan and Security Agreement, or the Comerica Credit Facility, with Comerica Bank, or Comerica, as may be amended from time to time. Our obligations under the Comerica Credit Facility are secured by a lien on our assets. In addition, Mr. Roy has subordinated his security interests to those of Comerica pursuant to a Subordination Agreement dated as of June 27, 2011. The Comerica Credit Facility

**Table of Contents****eGAIN COMMUNICATIONS CORPORATION****NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)**

provides for the advance of up to the lesser of \$1.5 million under a revolving line of credit, or the sum of (i) 80% of certain qualified receivables, less (ii) the aggregate face amounts of any letters of credit issued and any outstanding obligations to Comerica. The revolving line of credit matured on June 27, 2012 and bore interest at a rate of prime plus 0.75% per annum. As of June 30, 2012 there was no outstanding balance under the revolving credit line. The Comerica Credit Facility also provided \$5.0 million to pay off obligations associated with our related parties, or the Comerica Term Loan, bears interest at a rate of prime plus 1.0% per annum, and is payable in 36 equal monthly payments of principal and interest with a maturity date of June 15, 2014. As of June 30, 2012 and 2011, the amount outstanding under the Comerica Term Loan was \$3.3 million and \$5.0 million, respectively, with an interest rate of 4.25%. There are a number of affirmative and negative covenants under the Comerica Credit Facility, with the primary covenants being that we are required to maintain a minimum cash balance of \$1.0 million and we must maintain liquidity to debt ratio of at least 1.50 to 1.00. If we fail to comply with our covenants, Comerica can declare any outstanding amounts immediately due and payable and stop extending credit to us. As of June 30, 2012, we were in compliance with the covenants. Additionally, we accounted for the \$1.0 million minimum cash balance as non-current restricted cash as the funds are not available for immediate withdraw or use and the term of the borrowing arrangement is more than 12 months. The Comerica Credit Facility also required Mr. Roy's remaining related party debt to be repaid or converted to equity by the end of December 2011. On December 28, 2011, we amended the Loan and Security Agreement with Comerica Bank. Pursuant to an Amendment to the Loan and Security Agreement entered into on December 28, 2011, the time period in which Mr. Roy's remaining related party debt to be repaid or converted to equity was extended to June 30, 2012. On June 28, 2012, we entered into another amendment that further extended the maturity date to July 31, 2013. In addition, Mr. Roy entered into an Affirmation of Subordination Agreement with Comerica, under which Mr. Roy acknowledges our execution of the Second Amendment and affirms his obligations under the Subordination Agreement with Comerica dated June 27, 2011.

The following table summarizes debt maturities during each of the next five fiscal years and thereafter on an aggregate basis at June 30, 2012 (in thousands):

	<b>Bank Borrowings</b>
2013	\$ 1,666
2014	1,667
2015	
2016	
2017	
Thereafter	
<b>Total Bank Borrowings</b>	<b>\$ 3,333</b>

**5. INCOME TAXES**

Income / (loss) before income taxes consisted of the following (in thousands):

	<b>Year Ended June 30,</b>		
	<b>2012</b>	<b>2011</b>	<b>2010</b>
United States	\$ (4,125)	\$ 2,822	\$ (1,323)
Foreign	(402)	5,885	1,355
<b>Income / (loss) before income tax</b>	<b>\$ (4,527)</b>	<b>\$ 8,707</b>	<b>\$ 32</b>

**Table of Contents****eGAIN COMMUNICATIONS CORPORATION****NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)**

The following table reconciles the federal statutory tax rate to the effective tax rate of the provision for income taxes:

	<b>Year Ended June 30,</b>		
	<b>2012</b>	<b>2011</b>	<b>2010</b>
Federal statutory income tax rate	34.0%	34.0%	34.0%
Current state taxes	3.3	2.7	(397.1)
Foreign rate differential	(10.3)	(21.0)	(844.6)
Permanent items	(0.4)	0.3	46.1
Expired net operating losses	(36.7)	3.8	1,016.3
Research and development credits	1.8	(1.7)	(127.7)
Other items	(2.5)	(4.9)	40.3
Net change in valuation allowance	2.2	(10.9)	729.6
Effective tax rate	(8.6)%	2.3%	496.9%

The components of the income tax provision are as follows (in thousands):

	<b>Year Ended June 30,</b>		
	<b>2012</b>	<b>2011</b>	<b>2010</b>
Federal	\$ 23	\$ (7)	\$ (21)
Foreign	341	178	178
State	26	25	2
Income tax provision	\$ 390	\$ 196	\$ 159

As of June 30, 2012, we had federal and state net operating loss carryforwards of approximately \$203.3 million and \$49.3 million, respectively. The net operating loss carryforwards will expire at various dates beginning in 2012 through 2032, if not utilized. Partial amounts of the net operating loss are generated from the exercise of options and the tax benefit would be credited directly to stockholders' equity. We also had federal research and development credit carry forwards of approximately \$2.0 million as of June 30, 2012 which will expire at various dates beginning in 2016 through 2031, if not utilized. The California research and development credit carry forwards are approximately \$2.6 million as of June 30, 2012 and have an indefinite carryover period. We also have UK net operating loss carry forwards of approximately \$6.4 million as of June 30, 2012.

Utilization of the net operating losses and credits may be subject to a substantial limitation due to the change in ownership provisions of the Internal Revenue Code of 1986 and similar state provisions. The annual limitation may result in the expiration of net operating losses and credits before utilization.

**Table of Contents****eGAIN COMMUNICATIONS CORPORATION****NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)**

Deferred tax assets and liabilities reflect the net tax effects of net operating loss and credit carryforwards and of temporary differences between the carrying amounts of assets and liabilities for financial reporting and the amounts used for income tax purposes. Significant components of our deferred tax assets and liabilities for federal and state income taxes are as follows (in thousands):

	<b>June 30,</b>	
	<b>2012</b>	<b>2011</b>
Deferred tax assets:		
Net operating loss carryforwards	\$ 73,121	\$ 72,844
Research credits	3,688	3,585
Capitalized research and development	4	22
Stock compensation	599	361
Accruals and Reserves	602	270
Other	504	246
Total deferred tax assets	78,518	77,328
Valuation allowance for deferred tax assets	(78,456)	(77,266)
Net deferred tax assets, included in other assets	\$ 62	\$ 62

ASC 740, *Income Taxes*, provides for the recognition of deferred tax assets if realization of such assets is more likely than not. Based upon the weight of available evidence, which includes our historical operating performance and the reported cumulative net losses in all prior years, we have provided a full valuation allowance against our net deferred tax assets except the deferred tax asset related to India as we believe it is more likely than not that those assets will be realized.

The net valuation allowance increased by \$1.2 million for year ended June 30, 2012 compared to the increase of \$699,000 and \$239,000 for years ended June 30, 2011 and June 30, 2010, respectively.

Deferred tax liabilities have not been recognized for \$3.5 million of undistributed earnings of our foreign subsidiaries at June 30, 2012. It is our intention to reinvest such undistributed earnings indefinitely in our foreign subsidiaries. If we distribute these earnings, in the form of dividends or otherwise, we would be subject to both United States income taxes (net of applicable foreign tax credits) and withholding taxes payable to the foreign jurisdiction.

**Uncertain Tax Positions**

We apply ASC 740, *Income Taxes*, related to uncertainty in income taxes.

The aggregate changes in the balance of our gross unrecognized tax benefits during fiscal years 2012, 2011 and 2010 were as follows (in thousands):

	<b>Year Ended June 30,</b>		
	<b>2012</b>	<b>2011</b>	<b>2010</b>
Beginning balance	\$ 1,163	\$ 1,127	\$ 1,104
Increases in balances related to tax positions taken during current periods	30	36	34
Decrease in balances related to tax positions taken during current periods			(11)

Edgar Filing: EGAIN COMMUNICATIONS CORP - Form 10-K

Ending balance	\$ 1,193	\$ 1,163	\$ 1,127
----------------	----------	----------	----------

**Table of Contents****eGAIN COMMUNICATIONS CORPORATION****NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)**

For fiscal year 2012, 2011, and 2010 if total unrecognized tax benefits were recognized, approximately \$394,000, \$0 and \$0 respectively, would affect the effective income tax rate. We recognize accrued interest and penalties related to unrecognized tax benefits in the provision for income tax, and the amounts were insignificant for the last three fiscal years.

We do not anticipate the amount of existing unrecognized tax benefits will significantly increase or decrease within the next 12 months. We file income tax returns in the United States, and various state and foreign jurisdictions. In these jurisdictions tax years, 1994-2011 remain subject to examination by the appropriate governmental agencies due to tax loss carryovers from those years.

**6. STOCKHOLDERS EQUITY****Common Stock**

We have reserved shares of common stock for issuance at June 30, 2012 as follows:

	<b>Reserved Stock Options</b>
Stock options outstanding	2,738,250
Reserved for future grants of stock options	1,091,905
<b>Total reserved shares of common stock for issuance</b>	<b>3,830,155</b>

**Preferred Stock**

We are authorized to issue 5,000,000 shares of preferred stock, with a par value of \$0.001 per share, and no shares of preferred stock are outstanding. Our board of directors has the authority, without further action by our stockholders, to issue up to 5,000,000 shares of preferred stock in one or more series and to fix the rights, preferences, privileges and restrictions thereof. These rights, preferences and privileges could include dividend rights, conversion rights, voting rights, terms of redemption, liquidation preferences, sinking fund terms and the number of shares constituting any series or the designation of such series, any or all of which may be greater than the rights of the common stock.

**Common Stock Warrants**

On June 29, 2007, we entered into an amendment to the 2002 Agreement with Ashutosh Roy, the 2007 Note, and received warrants to purchase up to 333,333 shares of our common stock at an exercise price equal to \$1.20 per share (see note 3). The fair value of these warrants was determined using the Black-Scholes valuation method with the following assumptions: an expected life of 3 years, an expected stock price volatility of 75%, a risk free interest rate of 4.28%, and a dividend yield of 0%. We recorded \$1.8 million in related party notes payable and \$187,000 of discount on the note related to the relative value of the warrants issued in the transaction that was amortized to interest expense over the three year life of the note. These warrants expired in June 2010.

On June 27, 2008, in connection with a revolving credit facility with Bridge Bank N.A., or Bridge Bank, we issued warrants with a put option right to purchase up to 73,889 shares of the our common stock at an exercise price equal to \$0.90 per share in connection with such credit facility, or the Bridge Bank Agreement. The fair value of these warrants was determined using the Black-Scholes valuation method with the following assumptions: an expected life of three years, an expected stock price volatility of 80%, a risk free interest rate of 3.14%, and a dividend yield of 0%. Bridge Bank had the right to require us to purchase the warrant at an amount specified in the Bridge Bank Agreement. The \$168,000 fair value assigned to the warrant and put options was recorded as debt issuance cost as of June 30, 2008 and was amortized as interest expense over the two year term

**Table of Contents****eGAIN COMMUNICATIONS CORPORATION****NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)**

of the Agreement. We recorded no expense in fiscal years 2012 and 2011 related to these warrants and recorded \$84,000 expense in fiscal year 2010. We accounted for the warrant and the put option rights as a compound financial instrument in the consolidated financial statements at fair value. Bridge Bank exercised the put option upon the expiration of the Bridge Bank Agreement in June 2011.

On September 24, 2008, we entered into a Conversion Agreement and Amendment to Subordinated Secured Promissory Notes, as amended, or the Agreement, with the lenders (see note 3). In consideration for the Note Extension, the lenders received warrants to purchase an aggregate of 1,525,515 shares of our common stock at a price per share equal to \$0.95 and as a result, we recorded \$272,000 of discount on the notes related to the relative value of the warrants issued in the transaction that is being amortized to interest expense over the three year life of the note. The fair value of these warrants was determined using the Black-Scholes valuation method with the following assumptions: an expected life of three years, an expected stock price volatility of 80%, a risk free interest rate of 2.26%, and a dividend yield of 0%. Mr. Roy exercised his warrants to purchase 1,218,493 shares of our common stock in March 2011. In September 2011, Oak Hill Capital Partners L.P., Oak Hill Capital Management Partners L.P., and FW Investors L.P. exercised 307,022 warrants on a cashless basis and received 238,393 shares of our common stock (see note 3).

The warrants activity is summarized as follows:

	<b>Warrants Outstanding</b>	<b>Weighted Average Exercise Price</b>
Warrants outstanding as of June 30, 2009	1,932,737	\$ 0.99
Expiration of warrants assumed in June 2007	(333,333)	\$ 1.20
Warrants outstanding as of June 30, 2010	1,599,404	\$ 0.95
Expiration of warrants assumed in June 2008	(73,889)	\$ 0.90
Warrants exercised from amendment to Notes with related parties	(1,218,493)	\$ 0.95
Warrants outstanding as of June 30, 2011	307,022	\$ 0.95
Warrants exercised from amendment to Notes with related parties	(307,022)	\$ 0.95
Warrants outstanding as of June 30, 2012		\$ 0.00

**2005 Management Stock Option Plan**

In May 2005, our board of directors adopted the 2005 Management Stock Option Plan, or the 2005 Management Plan, which provides for the grant of nonstatutory stock options to directors, officers and key employees of eGain and its subsidiaries. The Plan was increased by 500,000 shares of common stock in November 2007 and 500,000 shares of common stock in September 2011. Options under the 2005 Management Plan are granted at a price not less than 100% of the fair market value of the common stock on the date of grant. Options granted under the 2005 Management Plan are subject to eGain's right of repurchase, whose right shall lapse with respect to one-forty-eighth (1/48) of the shares granted to a director, officer or key employee for each month of continuous service provided by such director, officer or key employee to eGain. The options granted under this plan are exercisable for up to ten years from the date of grant.

**Table of Contents****eGAIN COMMUNICATIONS CORPORATION****NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)**

The following table represents the activity under the 2005 Management Plan:

	<b>Shares Available for Grant</b>	<b>Options Outstanding</b>	<b>Weighted Average Price</b>
Balance at June 30, 2009	324,250	1,134,400	\$ 0.77

Balance at June 30, 2012	298,000	865,000	\$ 2.33

**2005 Stock Incentive Plan**

In March 2005, our board of directors adopted the 2005 Stock Incentive Plan, the 2005 Incentive Plan, which provides for the grant of stock options to eGain's employees, officers, directors and consultants. Options granted under the 2005 Incentive Plan are either incentive stock options or non-statutory stock options. Incentive stock options may be granted to employees with exercise prices of no less than the fair value of the common stock on the date of grant. The options generally vest ratably over a period of four years and expire no later than ten (10) years from the date of grant. We received stockholder approval of the 2005 Incentive Plan at its 2005 Annual Meeting of Stockholders. Our board of directors approved an increase in the 2005 Incentive Plan by 1.0 million shares of common stock in February 2009 and 1.0 million shares of common stock in September 2011. We received stockholder approval for the increases at our 2009 and 2011 Annual Meeting of Stockholders.

The following table represents the activity under the 2005 Stock Incentive Plan:

	<b>Shares Available for Grant</b>	<b>Options Outstanding</b>	<b>Weighted Average Price</b>
Balance at June 30, 2009	1,087,600	372,400	\$ 0.99
Options Granted	(941,100)	941,100	\$ 0.76

**Table of Contents****eGAIN COMMUNICATIONS CORPORATION****NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)****2000 Non-Management Stock Option Plan**

In July 2000, our board of directors adopted the 2000 Non-Management Stock Option Plan, or the 2000 Plan, which provided for the grant of non-statutory stock options to our employees, advisors and consultants of eGain. Options under the 2000 Plan were granted at a price not less than 85% of the fair market value of the common stock on the date of grant. Our board of directors determines the fair market value (as defined in the 2000 Plan) of the common stock, date of grant and vesting schedules of the options granted. The options generally vest ratably over 4 years and expire no later than 10 years from the date of grant. This plan expired in July 2010 and there are no further options available to grant under the 2000 Plan.

The following table represents the activity under the 2000 Plan:

	<b>Shares Available for Grant</b>	<b>Options Outstanding</b>	<b>Weighted Average Price</b>
Balance at June 30, 2009	42,589	152,256	\$ 10.29
Options Granted	(56,000)	56,000	\$ 0.71
Options Exercised		(500)	\$ 0.80

Plan Shares Expired	(59,871)		
Balance at June 30, 2011		108,521	\$ 1.68
Options Exercised		(27,655)	\$ 1.59
Options Forfeited / Expired		(3,389)	\$ 11.46
Balance at June 30, 2012		77,477	\$ 1.28

**1998 Stock Plan**

In June 1998, our board of directors adopted the 1998 Stock Plan, or the 1998 Plan, which provides for grant of stock options to eligible participants. Options granted under the 1998 Plan are either incentive stock options or non-statutory stock options. Incentive stock options may be granted to employees with exercise prices of no less than the fair value of the common stock and non-statutory options may be granted to eligible participants at exercise prices of no less than 85% of the fair value of the common stock on the date of grant. Our board of directors determines the fair market value (as defined in the 1998 Plan) of the common stock, date of grant and vesting schedules of the options granted. The options generally vest ratably over a period of four years and expire no later than 10 years from the date of grant. Options are generally exercisable upon grant, subject to our repurchase rights until vested. This plan expired in November 2010 and there are no further options available to grant under the 1998 Plan.

**Table of Contents****eGAIN COMMUNICATIONS CORPORATION****NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)**

The following table represents the activity under the 1998 Plan:

	<b>Shares Available for Grant</b>	<b>Options Outstanding</b>	<b>Weighted Average Price</b>
Balance at June 30, 2009	22,122	577,994	\$ 5.83

The summary of options vested and exercisable at June 30, 2012 comprised:

Edgar Filing: EGAIN COMMUNICATIONS CORP - Form 10-K

	Number of Shares	Weighted Average Exercise Price	Aggregate Intrinsic Value	Weighted Average Remaining Contractual Term
Options outstanding	2,738,250	\$ 1.98	\$ 9,660,787	6.39
Fully vested and expected to vest options.	2,623,894	\$ 1.89	\$ 9,482,200	6.28
Options exercisable	1,624,900	\$ 0.99	\$ 7,251,533	4.91

73

**Table of Contents****eGAIN COMMUNICATIONS CORPORATION****NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)**

The aggregate intrinsic value in the preceding table represents the total intrinsic value based on stock options with a weighted average exercise price less than our closing stock price of \$5.45 as of June 30, 2012 that would have been received by the option holders, had they exercised their options on June 30, 2012. The total intrinsic value of stock options exercised during fiscal year 2012, 2011 and 2010 was \$690,511, \$1,030,788 and \$6,162, respectively.

**Stock-Based Compensation**

We account for stock-based compensation in accordance with ASC 718, *Compensation Stock Compensation*. Under the fair value recognition provisions of ASC 718, stock-based compensation cost is measured at the grant date based on the fair value of the award and is recognized as expense over the vesting period. All of our stock-based compensation is accounted for as an equity instrument. The table below summarizes the effect of stock-based compensation:

	<b>Year Ended June 30,</b>		
	<b>2012</b>	<b>2011</b>	<b>2010</b>
Non-cash stock-based compensation expense	\$ (856)	\$ (218)	\$ (244)
Income tax benefit			
Net income effect	\$ (856)	\$ (218)	\$ (244)
Net effect on earnings per share, basic and diluted	\$ (0.04)	\$ (0.01)	\$ (0.01)

We utilized the Black-Scholes valuation model for estimating the fair value of the stock-based compensation of options granted. All shares of our common stock issued pursuant to our stock option plans are only issued out of an authorized reserve of shares of common stock which were previously registered with the Securities and Exchange Commission on a registration statement on Form S-8.

During the fiscal year ended June 30, 2012, 2011 and 2010 there were 720,300, 280,450 and 1,121,700 options granted, respectively, with a weighted-average fair value of \$3.21, \$1.21 and \$0.54, respectively, using the following assumptions:

	<b>Year Ended June 30,</b>		
	<b>2012</b>	<b>2011</b>	<b>2010</b>
Dividend yield			
Expected volatility	85%	82%	80%
Average risk-free interest rate	0.97%	1.82%	2.76%
Expected life (in years)	4.48	4.50	6.25

The dividend yield of zero is based on the fact that we have never paid cash dividends and have no present intention to pay cash dividends. We determined the appropriate measure of expected volatility by reviewing historic volatility in the share price of our common stock, as adjusted for certain events that management deemed to be non-recurring and non-indicative of future events. The risk-free interest rate is derived from the average U.S. Treasury Strips rate with maturities approximating the expected lives of the awards during the period, which approximate the rate in effect at the time of the grant.

Prior to October 2009, in developing our estimate of expected life of a stock option, we determined that our historical share option exercise experience did not provide a reasonable basis upon which to estimate expected life. In addition, estimating life based on the expected terms of options granted by other, similar companies with similarly structured awards was considered but data was not readily available to arrive at reliable estimates. We therefore used the technique commonly referred to as the *simplified method* described as a temporary method

**Table of Contents****eGAIN COMMUNICATIONS CORPORATION****NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)**

to develop the estimate of the expected life of a plain vanilla employee stock option. Under this approach, the expected life would be presumed to be the mid-point between the vesting date and the end of the contractual term. In October 2009 we changed from using the simplified method of developing the estimate of the expected life to basing it on the historical exercise behavior, and cancellations of all past option grants made by the company during the time period which its equity shares have been publicly traded, the contractual term of the option, the vesting period and the expected remaining term of the outstanding options. The change in the estimate did not have a material effect on either the expected life or the valuation of the stock options.

Total compensation cost, net of forfeitures of all options granted but not yet vested as of June 30, 2012 was \$1.5 million which is expected to be recognized over the weighted average period of 1.34 years.

**7. COMMITMENTS AND CONTINGENCIES***Capital Lease*

In May 2009, we entered into a capital lease agreement in order to finance software and one year of related support. The lease terms commenced in May 2009 when the license was delivered, and terminates on July 01, 2011. We were obligated to repay the borrowings in eight quarterly installments of principal and interest of \$43,817 beginning on July 1, 2009. At the end of the final installment period, we had the option of renewing, returning or purchasing the software at \$28,000. The lease obligation and capitalization amount at inception was \$305,000, and the interest rate was 3.06%. At the end of the lease term, we exercised our option to purchase the software for \$28,000. As of June 30, 2011, property and equipment for the capital lease included \$305,000 of software under capital lease. The accumulated amortization of assets under capital lease was \$212,000 as of June 30, 2011. As a result of the exercise of the bargain purchase option, there were no assets under capital lease as of June 30, 2012.

*Operating Lease*

Our India and United States office leases that expired in fiscal year 2011 were renewed or extended. In addition, we were able to obtain new office spaces on acceptable and commercially reasonable terms. We lease our facilities under non-cancelable operating leases that expire on various dates through fiscal year 2017. Our lease agreements provide us with the option to renew. We recognize rent expense, which includes fixed escalation amounts in addition to minimum lease payment, on a straight-line basis over each lease term. Rent expense for facilities under operating leases was \$1.1 million, \$779,000 and \$754,000 for the fiscal years ended June 30, 2012, 2011 and 2010, respectively. We generated no sublease rental income for the fiscal years 2012, 2011 and 2010, respectively.

A summary of future minimum lease payments is as follows (in thousands):

<b>Fiscal Year June 30,</b>	<b>Operating Leases</b>
2013	\$ 1,274
2014	1,309
2015	868
2016	904
2017	563
Thereafter	
<b>Total minimum lease payments</b>	<b>\$ 4,918</b>

**Table of Contents****eGAIN COMMUNICATIONS CORPORATION****NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)***Hosting Services*

We have agreements with third parties to provide co-location services for hosting operations that expire on various dates through fiscal year 2013. The agreement requires payment of a minimum amount per month in return for which the hosting services provider provides co-location services with certain guarantees of network availability. Rental expense for co-location centers was \$633,000, \$438,000 and \$697,000 for the fiscal years ended June 30, 2012, 2011 and 2010, respectively.

A summary of future minimum payments is as follows (in thousands).

<b>Fiscal Year June 30,</b>	<b>Co-location</b>
2013	\$ 456
2014	116
2015	
2016	
2017	
Thereafter	
<b>Total minimum payments</b>	<b>\$ 572</b>

**Employee benefit plans***Defined Contribution Plans*

We sponsor an employee savings and retirement plan, the 401(k) Plan, as allowed under Section 401(k) of the Internal Revenue Code. The 401(k) Plan is available to all domestic employees who meet minimum age and service requirements, and provides employees with tax deferred salary deductions and alternative investment options. Employees may contribute up to 60% of their salary, subject to certain limitations. The Company, at the discretion of its board of directors, may make contributions to the 401(k) Plan. We have not contributed to the 401(k) Plan since its inception. We also have a defined contribution plan related to our foreign subsidiaries. Amounts expensed under these plans were \$280,000, \$267,000 and \$239,000 for the fiscal years ended June 30, 2012, 2011 and 2010, respectively.

*Gratuity Plan India*

In accordance with Gratuity Act of 1972, the company sponsors a defined benefit plan (the Gratuity Plan ) for all of its Indian employees. The plan is required by local law which provides a lump sum payment to vested employees upon retirement or termination of employment in an amount based on each employee's salary and duration of employment with the company. The Gratuity Plan benefit cost for the year is calculated on an actuarial basis. Current service costs and actuarial gains or losses, or prior service cost, for the plan were insignificant for the fiscal years 2012, 2011 and 2010.

*Severance Pay Italy*

We accrue a severance provisions and pay related taxes to local governmental agencies consistent with local regulatory requirements. Total severance plan expenses were insignificant for the fiscal years 2012, 2011 and 2010.

---

**eGAIN COMMUNICATIONS CORPORATION**

**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)**

**Warranty**

We generally warrant that the program portion of our software will perform substantially in accordance with certain specifications for a period up to one year from the date of delivery. Our liability for a breach of this warranty is either a return of the license fee or providing a fix, patch, work-around or replacement of the software. During the fiscal year 2010, we changed the warranty period from a 90 day period to a period of up to one year from the date of delivery in response to industry trends. The effect of this change in estimate was insignificant.

We also provide standard warranties against and indemnification for the potential infringement of third party intellectual property rights to our customers relating to the use of our products, as well as indemnification agreements with certain officers and employees under which we may be required to indemnify such persons for liabilities arising out of their duties to us. The terms of such obligations vary. Generally, the maximum obligation is the amount permitted by law.

Historically, costs related to these warranties have not been significant. However we cannot guarantee that a warranty reserve will not become necessary in the future.

**Indemnification**

We have also agreed to indemnify our directors and executive officers for costs associated with any fees, expenses, judgments, fines and settlement amounts incurred by any of these persons in any action or proceeding to which any of those persons is, or is threatened to be, made a party by reason of the person's service as a director or officer, including any action by us, arising out of that person's services as our director or officer or that person's services provided to any other company or enterprise at our request.

**Transfer pricing**

We have received transfer pricing assessments from tax authorities with regard to transfer pricing issues for certain fiscal years, which we have appealed with the appropriate authority. We review the status of each significant matter and assess its potential financial exposure. We believe that such assessments are without merit and would not have a significant impact on our consolidated financial statements.

**8. LITIGATION**

Beginning on October 25, 2001, a number of securities class action complaints were filed against us, and certain of our then serving officers and directors and underwriters connected with our initial public offering of common stock. The class actions were filed in the U.S. District Court for the Southern District of New York. The complaints alleged generally that the prospectus under which such securities were sold contained false and misleading statements with respect to discounts and excess commissions received by the underwriters as well as allegations of "laddering" whereby underwriters required their customers to purchase additional shares in the aftermarket in exchange for an allocation of IPO shares. The complaints sought an unspecified amount in damages on behalf of persons who purchased the common stock between September 23, 1999 and December 6, 2000. Similar complaints were filed against 55 underwriters and more than 300 other companies and other individuals. The over 1,000 actions were consolidated into a single action called *In re Initial Public Offering Sec. Litig.* In 2003, we and the other issuer defendants (but not the underwriter defendants) reached an agreement with the plaintiffs to resolve the cases as to our liability and that of our officers and directors. The settlement involved no monetary payment or other consideration by us or our officers and directors and no admission of liability. On August 31, 2005, the Court issued an order preliminarily approving the settlement. On April 24, 2006, the Court held a public hearing on the fairness of the proposed settlement. Meanwhile the consolidated case against the underwriters proceeded. In October 2004, the Court certified a class. On December 5, 2006, however, the United

**Table of Contents**

**eGAIN COMMUNICATIONS CORPORATION**

**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)**

States Court of Appeals for the Second Circuit reversed, holding that the class certified by the District Court could not be certified. *In re Initial Public Offering Sec. Litig.*, 471 F.3d 24 (2d Cir. 2006), *modified* F 3d 70 (2d Cir. 2007). The Second Circuit's holding, while directly affecting only the underwriters, raised doubt as to whether the settlement class contemplated by the proposed issuer settlement could be approved. On June 25, 2007, the district court entered a stipulated order terminating the proposed issuer settlement. Thereafter pretrial proceedings resumed. In March 2009, all parties agreed on a new global settlement of the litigation; this settlement included underwriters as well as issuers. Under the settlement, the insurers would pay the full amount of settlement share allocated to us, and we would bear no financial liability. We, as well as the officer and director defendants, who were previously dismissed from the action pursuant to a stipulation, would receive complete dismissals from the case. On June 10, 2009, the Court entered an order granting preliminary approval of the settlement. On October 5, 2009, the Court issued an order finally approving the settlement. Starting on or about October 23, 2009, some would-be objectors to the certification of a settlement class (which occurred as part of the October 5, 2009 order) petitioned the Court for permission to appeal from the order certifying the settlement class, and on October 29 and November 2, 2009, several groups of objectors filed notices of appeal seeking to challenge the Court's approval of the settlement. On November 24, 2009, the Court signed, and on, December 4, 2009, the Court entered final judgment pursuant to the settlement dismissing all claims involving us. The appeals remain pending and briefing on the appeals was set to begin in October 2010 and end in the spring of 2011. On October 7, 2010, lead plaintiffs and all but two of the objectors filed a stipulation pursuant to which these objectors withdrawing their appeals with prejudice. The remaining two objectors, however, are continuing to pursue their appeals and have filed their opening briefs. On December 8, 2010, plaintiffs moved to dismiss the appeals. On March 2, 2011, one of the two appellants, appearing pro se, filed a stipulated dismissal of his appeal with prejudice. On May 17, 2011, the Court of Appeals dismissed the appeals of two of the three remaining appellants, and directed the district court to determine whether the third and final appellant had standing. On August 25, 2011, the district court determined that the final appellant lacked standing. On January 9, 2012, the remaining parties entered into a settlement. In accordance with the settlement agreement the appeal and all related matters were dismissed with prejudice. This litigation has concluded. We did not accrue any liability in connection with this matter as we did not expect the outcome of this litigation to have a material impact on our financial condition.

In May 2010, Microlog Corporation filed a patent infringement lawsuit in the United States District Court in the Eastern District of Texas, case number 6:10-CV-260 LED against a number of defendants, including several current and past eGain customers. LaQuinta Corporation, a named defendant in the Microlog case and a former eGain customer had subsequently filed a third party claim against us requesting indemnification from us in connection with the Microlog case. We filed a motion to dismiss this claim, which was denied by the court on September 29, 2011. In addition, the court denied LaQuinta Corporation's motion for summary judgment. In October 2011, we filed our answer to LaQuinta Corporation's third party claim. On February 15, 2012, we entered into a Settlement Agreement with LaQuinta and LaQuinta filed a Motion to dismiss the case. The Court dismissed the matter on March 6, 2012.

From time to time, we are involved in legal proceedings in the ordinary course of business. We believe that the resolution of these matters will not have a material effect on our consolidated financial position, results of operations or liquidity.

**9. FAIR VALUE MEASUREMENT**

ASC 820, *Fair Value Measurement and Disclosures*, defines fair value, establishes a framework for measuring fair value of assets and liabilities, and expands disclosures about fair value measurements. Fair value is defined as the exchange price that would be received for an asset or paid to transfer a liability in the principal or most advantageous market for the assets or liabilities in an orderly transaction between market participants on

**Table of Contents****eGAIN COMMUNICATIONS CORPORATION****NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)**

the measurement date. Subsequent changes in fair value of these financial assets and liabilities are recognized in earnings or other comprehensive income when they occur. ASC 820 applies whenever other statements require or permit assets or liabilities to be measured at fair value.

ASC 820 includes a fair value hierarchy, of which the first two are considered observable and the last unobservable, that is intended to increase the consistency and comparability in fair value measurements and related disclosures. Valuation techniques used to measure fair value must maximize the use of observable inputs and minimize the use of unobservable inputs. Observable inputs reflect assumptions market participants would use in pricing an asset or liability based on market data obtained from independent sources while unobservable inputs reflect a reporting entity's pricing based upon their own market assumptions.

The fair value hierarchy consists of the following three levels:

- Level 1 instrument valuations are obtained from real-time quotes for transactions in active exchange markets involving identical assets.
- Level 2 instrument valuations are obtained from readily-available pricing sources for comparable instruments.
- Level 3 instrument valuations are obtained without observable market value and require a high level of judgment to determine the fair value.

The following table summarizes the fair value hierarchy of our financial assets and liabilities measured (in thousands):

	Fair Value Measurement at June 30, 2012		Fair Value Measurement at June 30, 2011	
	Level 1	Total Balance	Level 1	Total Balance
<b>Assets</b>				
Cash equivalents:				
Money market funds	\$ 7,010	\$ 7,010	\$ 9,543	\$ 9,543
Short-term investments:				
Time deposits			633	633
 Total Assets	 \$ 7,010	 \$ 7,010	 \$ 10,176	 \$ 10,176

The Company uses quoted prices in active markets for identical assets or liabilities to determine fair value of Level 1 investments.

As of June 30, 2012 and 2011, we did not have any material Level 2 or 3 assets or liabilities.

**10. SHARE REPURCHASE PROGRAM**

On September 14, 2009, we announced that our board of directors approved a repurchase program under which we may purchase up to 1,000,000 shares of our common stock. The duration of the repurchase program is open-ended. Under the program, we purchase shares of common stock from time to time through the open market and privately negotiated transactions at prices deemed appropriate by management. The repurchase is funded by cash on hand. For the fiscal year 2011 and 2010, we had repurchased 213,243 shares at an average price of \$1.29 and 108,308 shares at an average price of \$1.00 per share, respectively. There were no shares repurchased during fiscal year 2012.

## **Table of Contents**

### **ITEM 9. CHANGES IN AND DISAGREEMENTS WITH ACCOUNTANTS ON ACCOUNTING AND FINANCIAL DISCLOSURE**

None.

### **ITEM 9A. CONTROLS AND PROCEDURES**

**Evaluation of disclosure controls and procedures.** We maintain disclosure controls and procedures, as such term is defined in Rule 13a-15(e) under the Securities Exchange Act of 1934, the Exchange Act, that are designed to ensure that information required to be disclosed by us in reports that we file or submit under the Exchange Act is recorded, processed, summarized, and reported within the time periods specified in Securities and Exchange Commission rules and forms, and that such information is accumulated and communicated to our management, including our Chief Executive Officer and Chief Financial Officer, as appropriate, to allow timely decisions regarding required disclosure. In designing and evaluating our disclosure controls and procedures, management recognized that disclosure controls and procedures, no matter how well conceived and operated, can provide only reasonable, not absolute, assurance that the objectives of the disclosure controls and procedures are met. Our disclosure controls and procedures have been designed to meet reasonable assurance standards. Additionally, in designing disclosure controls and procedures, our management necessarily was required to apply its judgment in evaluating the cost-benefit relationship of possible disclosure controls and procedures. The design of any disclosure controls and procedures also is based in part upon certain assumptions about the likelihood of future events, and there can be no assurance that any design will succeed in achieving its stated goals under all potential future conditions.

Based on their evaluation as of the end of the period covered by this Annual Report on Form 10-K, our Chief Executive Officer and Chief Financial Officer have concluded that, as of June 30, 2012, our disclosure controls and procedures were effective at the reasonable assurance level.

**Changes in internal controls.** There was no change in our internal control over financial reporting (as defined in Rule 13a-15(f) under the Exchange Act) that occurred during our last fiscal quarter that has materially affected, or is reasonably likely to materially affect, our internal control over financial reporting.

**Management's annual report on internal control over financial reporting.** Our management is responsible for establishing and maintaining adequate internal control over financial reporting, as such term is defined in Exchange Act Rules 13a-15(f). Because of its inherent limitations, internal control over financial reporting may not prevent or detect misstatements. Projections of any evaluation of the effectiveness to future periods are subject to the risk that controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate. Our management, with the participation of our Chief Executive Officer and Chief Financial Officer, conducted an evaluation of the effectiveness of our internal control over financial reporting based on the framework in Internal Control Integrated Framework issued by the Committee of Sponsoring Organizations of the Treadway Commission. Based on our evaluation under the framework in Internal Control Integrated Framework, our management concluded that our internal control over financial reporting was effective as of June 30, 2012.

This annual report does not include an attestation report of the Company's registered public accounting firm regarding internal control over financial reporting. Management's report was not subject to attestation by the Company's registered public accounting firm pursuant to permanent exemption rules of the Securities and Exchange Commission that permit the Company to provide only management's report in this annual report as the company meets the definition of a smaller reporting company defined in Rule 12b-2 of the Security and Exchange Act of 1934.

### **ITEM 9B. OTHER INFORMATION**

None.

**Table of Contents****PART III****ITEM 10. DIRECTORS, EXECUTIVE OFFICERS AND CORPORATE GOVERNANCE**

The information required by this item (with respect to our Directors) is incorporated by reference from the information under the caption

Election of Directors contained in eGain's Proxy Statement to be filed with the Securities and Exchange Commission in connection with the solicitation of proxies for the Company's 2012 Annual Meeting of Stockholders, the Proxy Statement.

The following table sets forth information regarding eGain's current executive officers as of September 25, 2012:

<b>Name</b>	<b>Age</b>	<b>Position</b>
Ashutosh Roy	46	Chief Executive Officer and Chairman
Eric Smit	50	Chief Financial Officer
Promod Narang	54	Senior Vice President of Products and Engineering
Thomas Hresko	62	Senior Vice President of Worldwide Sales
Charles Jepson	66	Senior Vice President of Business Development

Ashutosh Roy co-founded eGain and has served as Chief Executive Officer and a director of eGain since September 1997 and President since October 2003. From May 1995 through April 1997, Mr. Roy served as Chairman of WhoWhere? Inc., an Internet-service company co-founded by Mr. Roy. From June 1994 to April 1995, Mr. Roy co-founded Parsec Technologies, a call center company based in New Delhi, India. From August 1988, to August 1992, Mr. Roy worked as a Software Engineer at Digital Equipment Corp. Mr. Roy holds a B.S. in Computer Science from the Indian Institute of Technology, New Delhi, a Masters degree in Computer Science from Johns Hopkins University and an M.B.A. from Stanford University.

Eric Smit has served as Chief Financial Officer since August 2002. From April 2001 to July 2002, Mr. Smit served as Vice President, Operations of eGain. From June 1999 to April 2001, Mr. Smit served as Vice President, Finance and Administration of eGain. From June 1998 to June 1999, Mr. Smit served as Director of Finance of eGain. From December 1996 to May 1998, Mr. Smit served as Director of Finance for WhoWhere? Inc., an Internet services company. From April 1993 to November 1996, Mr. Smit served as Vice President of Operations and Chief Financial Officer of Velocity Incorporated, a software game developer and publishing company. Mr. Smit holds a Bachelor of Commerce in Accounting from Rhodes University, South Africa.

Promod Narang has served as Sr. Vice President of Engineering of eGain since March 2000. Mr. Narang joined eGain in October 1998, and served as Director of Engineering prior to assuming his current position. Prior to joining eGain, Mr. Narang served as President of VMpro, a system software consulting company from September 1987 to October 1998. Mr. Narang holds a Bachelors of Science in Computer Science from Wayne State University.

Thomas Hresko has served as Sr. Vice President of Worldwide Sales since November of 2005. From July 2004 to October 2005, Mr. Hresko served as Vice President, Worldwide Sales for Corrigo, an enterprise application software company. From April 2002 to October of 2003 Mr. Hresko served as Vice President of Worldwide Sales at Primus Knowledge Solutions, a software company specializing in knowledge management and self service. From January 1990 to January of 2002, he served in sales management positions at Network Associates, enterprise software, security and anti-virus software company. In his most recent position, he served as Vice President Worldwide Sales for the customer relationship management software division. Mr. Hresko holds an M.B.A. from Harvard University and B.B.A from the University of Michigan. On July 19, 2012, the Company reported that Thomas Hresko will be departing the Company effective September 30, 2012.

Charles Jepson, previously the Sr. Vice President Business Development, was appointed Sr. Vice President of Worldwide Sales and Business Development effective July 19, 2012. Prior to eGain, Mr. Jepson worked as an

## **Table of Contents**

independent consultant specializing in enterprise software from January 2006 to June 2010. He served as President and Chief Executive Officer of Extended Systems from February 2002 to October 2005, President and Chief Executive Officer of Diligent Software from July 2001 to January 2002, Vice President of North American Sales for eGain from June 2000 to July 2001, President and Chief Executive Officer of Inference Corporation from May 1997 to June 2000; and President and Chief Executive Officer of Interlink Computer Sciences from March 1992 to May 1997. Mr. Jepson holds an M.B.A from the University of California, Berkeley and a Bachelor of Arts from San Jose State University.
